Sophomore Class History

The matriculation of the class of 1919 brought to Delaware a number of youths destined to greatness. The class has personality, real and inspiring to its contemporaries. Its ambition is to reform the few faulty precedents and set new standards.

Its accomplishments are of no small consequence and deserve mention here. On the night before college opened in 1915, the class acquitted itself with honor against the Sophomores. In boxing, Marconetti could find no equal; in wrestling Mike Plam was supreme, and Weldin showed great strength. In the annual Freshman-Sophomore meet, these same men, aided by athletes of no less ability, won all but two events. The inter-class football game fell to 1919, also. Then just before the Dickinson game the class paraded, masked and costumed, and the splendor of this parade has yet to be equalled. The class banquet brings pleasant memories to all present. Nineteen-nineteen was again victor in the inter-class track meet with 52 points, with Craig, Marston, and Fitzpatrick and others showing creditably. Incidentally "Fitz" broke the standing record in the half mile during the season in a hair raising finish. The class of '20 did well against such opponents by tying the football game and fall track meet.

At the close of the 1915 year the class held a smoker, the first of its kind, and the enthusiasm there shown for the old Alma Mater is typical of the class attitude. On returning to begin the Sophomore year, 1919 kept up its precedents, gave a second class smoker, and ordered class hats (to be proud of) and class pins. At the same time the class started plans to make the Blue Hen an annual. In this they again broke a custom, and set a new standard in this activity to benefit the college. A third smoker was held before the class football game, and then the Sophomores chose the Hotel Adelphia in Philadelphia, for their banquet this year.

Such smokers have created in the class a unity of spirit in college, as well as in class affairs. The class is closely bound in fellowship and in this we mourn the loss of our good natured comrade, W. Hooper Giles, a youth who was an inspiration and example to all students. His classmates seem to have dedicated their lives to the ideals for which he stood and which he unconsciously exemplified.

The duty of 1919 is serious, the spirit genial. It is here with a purpose in accord with Delaware's greater development.

THE HISTORIAN.
