

Delaware  
Ledger

# NEWARK POST.

VOLUME 1

NEWARK, DELAWARE, WEDNESDAY, SEPTEMBER 7, 1910

NUMBER 33

## DIRECTORY

### MEMBERS OF COUNCIL

Mayor—J. P. Wright.  
Eastern District—L. B. Jacobs, How-  
ard Leach.  
Middle District—H. M. Campbell, Dr.  
Walt Steele.  
Western District—D. C. Rose, Wil-  
liam R. Kennedy.  
Secretary of Council—L. B. Jacobs.  
Clerk—T. H. Chambers.  
Meeting of Council—1st Monday  
night of every month.

### NEWARK POSTOFFICE

MAILS DUE:  
From points South and  
Southeast: 6:30 A. M.  
10:45 A. M.  
3:35 P. M.  
From points North and  
West: 6:30 A. M.  
8:30 A. M.  
9:30 A. M.  
5:30 P. M.  
For Kembleville:  
and Strickersville: 7:45 A. M.  
4:15 P. M.  
From Avondale: 11:45 A. M.  
6:30 P. M.  
From Landenberg: 11:45 A. M.  
8:30 A. M.  
From Conch's Bridge: 8:30 A. M.  
5:30 P. M.

### MAILS CLOSE.

For points South and  
West: 10:45 A. M.  
4:30 P. M.  
For points North, East,  
and West: 9:00 A. M.  
2:30 P. M.  
4:30 P. M.

For Kembleville:  
and Strickersville: 9:30 A. M.  
6:00 P. M.  
Rural Free Delivery—  
Close: 8:00 A. M.  
Due: 2:30 P. M.

### BOARD OF TRADE

President—D. C. Rose.  
Vice-President—Jacob Thomas.  
Treasurer—Edward W. Cooch.  
Secretary—W. H. Taylor.

### Committees

**Industrial**  
C. G. Blandy  
H. G. M. Kollock  
J. P. Wright  
G. W. Griffin  
C. A. Short  
**Financial**  
H. W. McNeal  
Jacob Thomas  
E. L. Richards  
T. F. Armstrong  
E. W. Cooch  
**Statistics**  
W. T. Wilson  
N. M. Motherall  
L. K. Bowen  
**Educational**  
G. A. Harter  
Dr. Walt Steele  
**Legislature**  
J. P. Armstrong  
C. C. Henry  
H. B. Wright  
**Membership**  
P. M. Sherwood  
John Pilling  
Wm. H. Taylor  
**Municipal**  
E. M. Thompson  
J. H. Hossinger  
Joseph Dean  
**Transportation**  
J. W. Brown  
F. W. Curtis  
C. B. Evans

### BOARD OF EDUCATION

President—Edward L. Richards.  
Secretary and Treasurer—  
Dr. Joel S. Gillilan.  
William J. Holton.  
George F. Ferguson  
J. David Jaquette.

### NEWARK TOWN LIBRARY

The Library will be opened:  
Monday—3 to 5:45 P. M.  
Tuesday—9 to 12 M.  
Friday—3 to 5:45 P. M.  
Saturday—9 to 12 M.  
Saturday—7 to 9 P. M.

### BANKS

Meeting of Directors National Bank,  
every Tuesday morning.  
Meeting of Directors Newark Trust  
and Safe Deposit Co., every sec-  
ond Tuesday night.

### BUILDING & LOAN ASS'N

W. H. Taylor, Secretary.  
Meeting first Tuesday night of each  
month.

### LODGE MEETINGS

**OPERA HOUSE.**  
Monday—Knights of Pythias, or K.  
of P. 7:30 P. M.  
Tuesday—Imp. Order Red Men,  
7:30 P. M.  
Wednesday—Heptasophis, or S. W. M.,  
7:30 P. M.  
Thursday—Ladies' Circle, S. W. M.,  
7:30 P. M.  
Friday—Modern Woodmen of Amer-  
ica, No. 10176, 7:30 P. M.

### ODD FELLOWS' HALL.

Monday—Jr. Order American Mechan-  
ics, 7:30 P. M.  
Saturday—Knights of Golden Eagle,  
7:30 P. M.  
Thursday—I. O. O. F., 7:30 P. M.  
Town Council—1st Monday night of  
every month.  
Acacia Fire & Hose Company—1st Fri-  
day night of the month.

### PRESBYTERIAN CHURCH

Rev. Wm. J. Rowan, Ph. D.  
Pastor.  
**Services**  
Sunday School, 9:45 A. M.  
Preaching, 11 A. M.  
Christian Endeavor, 6:45 P. M.  
Praise and Song Service, 7:30 P. M.  
Wednesday evening Prayer meeting,  
8 o'clock.  
Teachers' and Officers' meeting, 2:30  
o'clock.

## INSTITUTE AT THE DELAWARE COLLEGE FARM

VIEW OF LAWN AND MANSION HOUSE ON COLLEGE FARM

Preparations for the Farmers' In-  
stitute to be held at the College Farm  
on Thursday of this week are nearly  
completed. The arrangements will be  
very similar to those of Farmers' Day  
in June. The first part of the in-  
ternment will be spent in inspecting the  
experiment plots and in studying the  
effect of treating similar soils differ-  
ently. The result in many cases are  
very marked, and usually the conclu-  
sions are that in order to produce  
profitable crops three conditions are  
necessary—first, a good physical con-  
dition of the soil; second, plenty of  
available plant food in the soil, and  
third, carefully selected seed. For  
those who are struggling with the  
problem of a crop rotation that will  
maintain the fertility of the farm and

at the same time permit the growing  
of the maximum number of the money  
crops, corn, wheat and potatoes, the  
College Farm has many suggestions.  
Prof. Grantham has nearly twenty  
such rotations in progress. While  
they have not been running long  
enough yet to produce definite results  
the indications are that they will be  
of material aid in solving the rotation  
problem in its relation to soil fertility.  
The College Farm, as a whole, has  
never looked better. This is due in  
part to the unusual season and in part  
to gradual maturing of the plans that  
are being worked out by the Board of  
Farmers and the Station Staff. The  
rotation that is being made by the  
young orchards on the farm has ex-  
tended over most of the State, and

they are much admired by all who see  
them.

The live stock that has been exhib-  
ited from the College this season has  
attracted a great deal of attention.  
One youth, after studying the sheep  
exhibit at one of the fairs for some  
time, finally turned away in disgust  
and declared that there were no such  
sheep.

One of the attractions at the Farm  
in the live stock line just now is a  
litter of black and tan pigs.

Hon. W. Oscar Collier will address  
the Institute from the farmhouse  
porch at 3:45 on the subject of corn.  
Prof. Grantham will follow, discussing  
the question of soy beans.

From the interest that has been  
taken in former farm meetings, a  
large attendance is expected.

## STONE CRUSHER

Exhibited At The Fair By H. H. Shank.  
Bought By Road Officials—Work  
Begun In Mill Creek Hundred

A long step in the right direction  
was taken by the road officials of Mill  
Creek Hundred when they bought a  
portable stone crusher outfit last week  
at the Wilmington Fair. The machine  
will be started at work Thursday or  
Friday this week at a bad, low spot on  
the Millford road between Jackson's  
lane and William Johnson's. A large  
pile of stone nearby belonging to Mrs.  
Morrison will be used.

The crusher is mounted on a heavy  
truck, while a gasoline engine fur-  
nishes the power from the front end  
and the whole outfit can be drawn  
from place to place by team. It has a  
capacity of from 30 to 50 tons per day,  
depending upon the degree of firm-  
ness the stone are crushed. The ma-  
chine is constructed expressly for road  
mending, operating it on the ground  
where the stone are needed, thereby  
requiring but one handling. It fills a  
pressing need, and the farmers of Mill  
Creek Hundred should give due  
credit to Messrs. Lamborn, Taylor  
and Wilson for making this impor-  
tant step towards the all-important  
work of bettering our county roads.

There is an abundance of loose stone  
available along the highway, and  
from the adjacent farms to this per-  
manently repair the low places which  
impassable. Then if the rest of the  
road is properly graded up so that the  
water is not allowed to wash or stand  
on the surface of the road bed, we will  
have good roads preferable even to  
the same roads for summer travel.  
Our dirt roads have been sadly ne-  
glected since the advent of some road  
building, and it is high time that the  
former should receive the needed  
attention. Probably no Hundred in  
the county has more roads or harder  
ones to keep in repair than Mill  
Creek and the officials in charge of  
them are often unduly censured be-  
cause the roads are not kept in better  
condition. They are doing all pos-  
sible with the means and apparatus  
at hand. The crusher outfit was  
exhibited and sold by H. H. Shank, of  
Newark.

## Governor Pennewill To Make Presen-

tation Speech  
Many prominent persons are ex-  
pected to attend the presentation exer-  
cises to be held on board the Battle-  
ship Delaware at Wilmington, Octo-  
ber 25. President Call has been in-  
vited and many of the commission-  
ers believe he will attend.  
Governor Pennewill will make the  
presentation address. It is expected  
that one of the naval officials will re-  
spond.

## Fair Association Decides To Continue

The New Castle County Fair Asso-  
ciation during the report that has been  
circulated naming a sum of \$15,000 due  
to starting weeping.  
The actual loss was very small. The  
members of the association have paid  
backing and are anxious to continue to  
make next year's fair the greatest  
ever held.

## WEDDINGS

### HARKNESS—FREDD.

Mr. Wilmer E. Harkness, Jr., and  
Miss Lillian Chandler Fredd were  
married at the home of the bride's  
mother, No. 612 Shalcross avenue,  
Wilmington, on Wednesday evening,  
August 31st.

The ceremony was performed by the  
Rev. Charles A. Hill. Mr. Harkness  
has been well known to many of us for  
years. He is about to enter the Me-  
thodist Episcopal ministry.

### ELLIS—TITTER.

Miss Lula M. Titter, of Clifton  
Heights, Pa., and Mr. William Ellis,  
of Millsboro, Del., were married last  
week in Christ Episcopal Church,  
Christiana. The ceremony was per-  
formed by the rector, Rev. William  
H. Laird. Mr. and Mrs. Ellis will  
live at Millsboro upon their return  
from a wedding trip.

Mr. Ellis is well known around our  
town, having lived among us for four  
years when a student at Delaware  
College. Both bride and groom are  
well known to the teaching force of  
New Castle county, having taught for  
a number of years in the Delaware  
City schools.

### RIDGEWAY—ROONE.

Miss Hallie Boone, well known to  
many Newarkers, was married today  
at the home of her father, in Potts-  
ville, Pa., to Frank Ridgeway, of  
Texasakana, Texas.

The couple will make their home in  
Texas.

Mrs. John Billing and daughter,  
Miss Cornelia, of this town, attended  
the wedding.

### Little Miss Pierce Entertains

An enjoyable afternoon was spent  
on last Saturday, September 3, 1910,  
at the home of Mr. and Mrs. Ezra  
Pierce, near Harmony, Del., the occa-  
sion being a celebration of their  
daughter, Miss Eva's twelfth birth-  
day anniversary.  
The afternoon was spent in playing  
games, making speeches to the health  
and prosperity of Miss Pierce.  
Several of the little ones recited,  
while others helped make the after-  
noon merry by rendering vocal and  
instrumental solos.

A rare and important feature of  
the party, after the game folks had  
played to their hearts' delight,  
At early candle light, all the merry  
makers had retired to their respective  
homes, thoroughly pleased with the  
afternoon's pleasure, and wishing Miss  
Pierce many more happy birthday  
anniversaries.

Among the many pretty little girls  
Miss Pierce received was a gold  
brooch and chain presented here by her  
mother and father, which was indeed  
a pleasant surprise.

Those present were Mr. and Mrs.  
Ezra Pierce, Mr. and Mrs. George  
Holmes, Mr. and Mrs. Louis E.  
Harris, Mrs. P. H. Jones, Mr. Leach,  
Mr. and Mrs. Harry Murphy, and  
Miss Lillian Fredd, guests.

Miss Lillian Fredd, daughter of  
Mr. and Mrs. Harry Murphy, is a  
member of the delegation appointed  
to attend the Pan-American Congress in  
Buenos Aires, Argentina, at present in  
London.

## Opening Of The Public Schools

The Newark Public School entered  
upon another year of usefulness last  
Monday. Although a number of  
changes are listed among the teach-  
ers, they have all expressed satisfac-  
tion with the organization of the  
school as it exists and the prospect is  
bright, the work will be carried on in  
much the same way as before. With  
the exception of the introduction of a  
commercial course in the High School,  
no change has been made.

At the close of the last school year  
360 pupils were enrolled. Of these  
259 were promoted.

Last Monday the enrollment reached  
377 distributed in the grades as follows:

First Grade	58
Second Grade	52
Third Grade	52
Fourth Grade	47
Fifth Grade	41
Sixth Grade	38
Seventh Grade	41
Eighth Grade	47
Ninth Grade	23
Tenth Grade	17
Eleventh Grade	1

Owing to the changing number in  
the grades, many pupils are either not  
supplied with books or are obliged to  
use very old ones.

This unpleasantness is only tem-  
porary, the necessary number having  
been reported, and the order sent off  
at once.

The commercial course promises to  
become well appreciated; already five  
scholars having intimated a desire to  
take up that course.

The proposed kindergarten course  
is still an uncertainty, nothing definite  
as yet having been heard from the  
State Treasurer.

## Port Deposit Vs. B. & O. Railroad

The case of the town of Port De-  
posit versus the Baltimore & Ohio  
Railroad Co. has been opened through  
the efforts of the Mayor, David R.  
Armstrong. Congressman J. Harry  
Covington presented the claims of  
Port Deposit, demanding the removal  
of the four extra piers of the new  
Baltimore and Ohio bridge and other  
claimations to navigation. A United  
States engineer has been sent to in-  
vestigate the matter and his report is  
in the hands of the Secretary of  
War. Port Deposit claims that the  
new bridge of the B. & O. across the  
Susquehanna is the primary cause of  
the terrible ice gorges. A searching  
of the records will show that the  
building of the first bridge in 1881  
caused the first big ice gorge in the  
history of the town.

## Dr. Rowan Returns From Europe

Newark was glad to see Dr. Rowan  
who returned from his trip abroad on  
last Monday. He returned on the  
Furness. Doctor spent most of the  
time in England and Scotland and the  
Rhine country on the Continent.  
He reports the homecoming as the  
brightest part of a pleasant journey.

## Delawarean Honored

John Bassett Moore, a native of  
Delaware, who has gained distinction  
as national and international affairs,  
is a member of the delegation appoint-  
ed to attend the Pan-American Congress in  
Buenos Aires, Argentina, at present in  
London.

## NEWS

### Here and There

Bulletins on the making of concrete  
posts are being sent out by the De-  
partment of Agriculture. If you are  
interested and have not seen one, write  
the Department at Washington for  
Bulletin No. 493. It has some very  
good information.

The engagement has been announ-  
ced of Mr. Ad Thomas, of Newark,  
and Miss C. Marie Byers, of Ches-  
apeake City, Md. Miss Byers is the  
daughter of Mr. and Mrs. William S.  
Byers. Mr. Byers is corporation at-  
torney for a large firm at Greensburg,  
Pa.

The Democratic primaries passed  
off very quietly on Saturday. The  
main interest was centered in the  
contest between the two candidates  
for Representative. Andrew Fisher  
was elected by good majority.

The exhibition by duPonts on the  
Huber farm, on Thursday morning,  
promises to be of interest to farmers.  
A demonstration of blowing out  
stumps will be given.

One of the attractions at the Col-  
lege Farm at present is a litter of  
black and tan pigs.

With the coming of September the  
regular services will begin in all of  
the churches. In the M. E. Church  
the Sunday School will begin at 10 and  
the regular preaching service at 11  
o'clock. Owing to the absence of the  
pastor a complete program cannot be  
given.

Malcolm Frazer and Richard Cuff  
left today for Niagara Falls, Buffalo,  
Thousand Isles. They will also visit  
the Toronto Fair.

The College Farm made its annual  
distribution of pure bred Berkshire  
pigs among the farmers of the State  
today. Some most excellent sales of  
Berkshires were made at the recent  
County Fair.

Johnnie McKeown, the popular milk  
man and thoroughly up-to-date farmer,  
has recently had two Hayes Double  
Cylinder pumps installed. Johnnie is  
quick to acquire anything of a labor-  
saving nature.

James Webb is convalescing at his  
home from a long and serious illness.  
James Longfellow has growing in  
his garden a sunflower which is thirty  
feet high and has twenty-six  
blossoms on it.

Keene progressive business men are  
ever on the alert to fortify their in-  
terests and property against the de-  
structive elements. Mr. Irvin Dayett  
wishing better fire protection, had a  
Hayes Double Cylinder pump placed in  
his fore-bay. It is made especially  
large for such purpose and throws a  
tremendous stream. He has provided  
sufficient hose to reach any part of his  
large flouring mill and could put out  
a pretty bad fire.

Rev. G. R. Alderson is spending  
the latter part of his vacation at the  
Delaware Water Gap. He will oc-  
cupy his pulpit on Sunday next.

Miss Edna Lilley has returned to  
her work as teacher in the public  
schools of Darby, Pa.

Miss Sweetman, of Townsend, Del.,  
is in charge of the Old Welsh Tract  
School.

The Knights of Golden Eagle will  
attend Newark M. E. Church on the  
morning of September 11th.

College will open on Thursday, Sep-  
tember 15th. The 13th and 14th will  
be devoted to examinations.

White Clay Creek School opened its  
season's work last Monday with an  
enrollment of 28, under the direction  
of Miss Frances Medill.

Mrs. George Duling has recovered  
from the injuries sustained by her fall  
several weeks ago, sufficiently to wear  
a shoe.

Former State Detective J. P. Rat-  
ledge was a Pencader Hundred visitor  
over Sunday.

The College Farm exhibit at the  
County Fair was favorably received  
and attracted considerable attention,  
not only among the farmers of the  
county, but the city people as well.

The ladies of the W. C. T. U. will  
hold a supper in the banquet hall of  
the Newark Opera House, Thursday,  
September 15th.

The weather interfered with the  
plans for a Cone's Bridge celebra-  
tion last Saturday. The program  
which had been previously arranged  
was postponed.

The College Farm is erecting a hol-  
low terra cotta tile silo with a capa-  
city of 100 tons. While this type of  
silo is quite common in the central  
West, this is the first one of its kind  
in the State.

There will be a public meeting of  
the Republican voters of Pencader, at  
Glasgow, on next Friday night. The  
Committee extends an invitation to  
all who are interested in the success  
of the party at the next election.

The Republicans of White Clay  
will hold their primaries at the usual  
polling places. Those of Pencader  
will be held at Glasgow, the same as  
at the last election.

## More Dwellings For Newark

Dr. Walter H. Steele has purchased  
from Walter R. Powell, through the  
Newark Trust & Safe Deposit Com-  
pany, a tract of land on Cleveland  
avenue, adjoining other property  
which he recently purchased. The ex-  
pects to start soon the erection of  
two blocks of houses. They will be  
of brick, containing are to eight  
rooms, with all modern conveniences.

## OBITUARY

### JAMES ALFRED YERKES.

James Alfred Yerkes, the 16 year old  
son of James W. and Margaret A.  
Yerkes, of Calvert, died on Wednes-  
day, after a two weeks' illness with  
typhoid fever.  
Funeral services were held on Sun-  
day, September 4, at 10 o'clock at Rose  
Bank Cemetery.

### JOSEPHINE MEARNS.

Miss Josephine Mearns died on  
Tuesday at her home 419 East Seventh  
street, Wilmington, after an illness of  
several months. She was in her 75th  
year. Miss Mearns was the daughter  
of the late Abel and Mary Mearns,  
and was born near Zion, Cecil county,  
where she spent the early part of her  
life. She is survived by her brother,  
Robert Mearns, of Zion.

The funeral services were held on  
Thursday evening at her home in Wil-  
mington. Interment was made on  
Friday at Rose Bank Cemetery, Md.

### SAMUEL MAXWELL.

Samuel Maxwell, aged 74 years, died  
at Cowtown, Md., on September 1.  
The funeral services were held at  
Head of Christian Church on Sun-  
day afternoon, September 4, Rev. Mr.  
Brooks, of Deandale, conducting them.

Mr. Maxwell was a life long resi-  
dent of Cowtown, where for many  
years he has lived alone. Four nieces  
living in Wilmington, Del., are his  
only surviving relatives.

### CLARA SMITH.

Miss Clara Smith, sister of Henry  
F. Smith, South Newark, died in  
Bryn Mawr, last Wednesday, August  
31st.

The body was brought to the home  
of her brother, where services were  
held last Saturday. Rev. John Mc-  
Elmoye, D.D., pastor of Elkton Pres-  
byterian Church, officiating. Interment  
was made in Elkton Cemetery.

The deceased was 65 years of age.

## Two Hundredth Anniversary Of Penca-

## der Presbyterian Church

Pencader Presbyterian Church, Glas-  
gow, Del., will publicly celebrate its  
200th anniversary on Sunday, Septem-  
ber 13th prox. Besides two speakers  
imported, it is expected that Rev. Drs.  
Milligan, Rowan, Moore, Gillilan,  
McElmoye and Alison will take part.  
Morning service 10:30, when the Rev.  
Dr. William H. Roberts, Philadelphia,  
ex-Moderator of the Presbyterian  
General Assembly of the United States  
will give the address. At 2:30 a great  
service in particular honor of Penca-  
der's Woman's Missionary Society,  
also celebrating at the same time its  
50th anniversary, being one of the  
oldest in the country. For this the  
speaker will be the Rev. Dubois Morris,  
of China, home for a brief period  
at Freehold, N. J. His address will  
not concern the general theme of  
missions, but is promised to relate his  
own experiences in China during the  
past eleven years as a missionary in  
Shantung province.

Picnic luncheon between the ser

## "The Kingdom Of Light"

SPEECH BY GEORGE RECORD PECK, EX-PRESIDENT AMERICAN BAR ASSOCIATION

It is a very beautiful custom which calls this club together each year in mid-summer—the season when Nature is most generous with her ministrations. These are the days when, out of her illimitable store, she brings beauty and harmony to lives which are, perhaps unconsciously, becoming discordant and out of tune. Rest is something more than the mere ceasing from toil; it is the emancipation of soul and body from care. It is not simply loafing, but loafing with an invitation to the soul, as was Walt Whitman's habit. These literary exercises, which we weave into hours of relaxation, serve to remind us that the world is waiting to receive us back, when our play-spell is over. It would, I suppose, be more in accordance with the current of events, and of ideas which are clamoring continually for expression in these modern days, if I should offer some reflections on themes of immediate and pressing importance. Such themes there are; and by force of circumstances some of them have stared me in the face with a persistency not altogether agreeable. It is not because I underestimate them that I have chosen to ask you to rest for a little while in a serene air. The hungry problems of to-day will have their hearing without your permission or mine. The age is restless; it is self-assertive; it is pleased with the sound of its own voice, and confident in the strength of its own arm. And yet, there are doubts and misgivings in the minds of thoughtful men who find themselves dumb to the questions they cannot help asking. When social and economic problems press upon us almost constantly; when the men of labour and the men of capital count themselves as belonging to separate classes, and neither trusts the other; when the mysteries of supply and demand, the prospect of coming crops, the outlook for trade, and the hazards of business are with men by night and by day, we may be sure that the highly artificial mechanism we call civilization is liable almost any day to some painful dislocation.

But of these things it is not my purpose to speak. I allude to them, because, as it seems to me, every one must be sensible of their importance, and must feel that their shadow is never lifted, save for little intervals—and, may I not add, upon an occasion such as this?

Fellow Phantoms, it is probably not your habit to call yourselves philosophers; but nevertheless I suspect that each of you nurses a consoling belief that he is one. It is this opinion

which gives to men of your age that little air of condescension, that tone of gentle patronage, as if to say, "See how much I know about life and its duties." But while you are listening to these sweet self-commendations, you might perhaps hear some unadorned outsider remark: "Yes, doubtless you are a philosopher; but if you are so very wise, why have you so little to show for it?" Ah! that is the question. How many centuries it is since Plato was writing those immortal dialogues which have bewitched the minds of men from his age to ours, but leave us still struggling to make knowledge and conduct go hand in hand, and wisdom and character true reflections to each other? Nothing is so easy as to state sound ethical doctrines, nothing so difficult as to live up to them. I suppose that more than half the literature in the world consists of good advice—the rest is the story of many stumblings by the way, many mistakes, many failures, with here and there glimpses which leave but little save the ever unsatisfied inquiry—

Whether has fled the visionary gleam? Where is it now, the glory and the dream?

Ah! if there were some method of living by which we could keep the glory and the dream, the problem would be solved. When I think of the mistakes you have probably made, and of those I have certainly made, I surrender the position of philosopher and can only stammer, with George Eliot's *Theophrastus*. Such, "Dear blunders, I am one of you."

Some of us will perhaps never be wiser than we are now. I wish I could be sure we shall never be less wise. Wisdom has a habit of her own; she lingers while the years spend onward toward our common destination.

It is not for me to enter the domain of religion, nor to trench upon ground occupied by men who have been specially called to the work. I speak only of the life that now is; how its highest compensations can be won, its sorrows mitigated, its joys increased and multiplied.

And this is the lesson I would give: Dwell in the Kingdom of Light. And where is that Kingdom? What are its boundaries? What cities are built within it? What hills, and plains, and mountain slopes gladden the eyes of its possessors? Be patient, my fellow Phantoms. Do not hasten to search for it. It is here. The Kingdom of Light, like the Kingdom of

God, is within you. And what do I mean by the Kingdom of Light? I mean that realm of which a quaint old poet sang those quaint old lines:

My mind to me a kingdom is—  
Such perfect joy therein I find,  
As far exceeds all earthly bliss.

I mean that visible commonwealth which outlives the storms of ages; that state whose armaments are thoughts; whose weapons are ideas; whose trophies are the pages of the world's great masters.

The Kingdom of Light is the kingdom of the intellect, of the imagination, of the heart, of the spirit and the things of the spirit. And why, perhaps you are asking, do you make this appeal to us? How dare you intimate that we are not already dedicated to high purposes, and enrolled among those who stand for the nobler and better things of human life? Take it not unkindly if I tell you frankly that a little plainness of speech will not hurt even such as we. All experience has shown that it is at our age, or thereabouts, that men are most prone to grow weary. It is not in the morning of the march, but in the afternoon, that soldiers find it most difficult to keep step with the column that follows the colours.

I have appealed to you for what I have called the intellectual life. By the intellectual life I mean that course of living which recognizes always and without ceasing the infinite value of the mind; which gives to its cultivation and to its enlargement a constant and enduring devotion; and which clings to it in good and in evil days, with growing and abiding love.

The Kingdom of Light is open to all who seek the light. This may appear a mere truism, since every one admits the superiority of the mental

West End Market

### High Grade Groceries

J. W. BROWN

over the physical nature. But that is where the danger lies. All admit it; but how few act upon it! How many men and women do you know who after they have, as the phrase goes, finished their education, ever give a serious thought to their mental growth? They have no time; no time to live, but only to exist. Do not misunderstand me. I do not expect nor do I think it possible, that the great majority of people can make intellectual improvement their first or only aim. God's wisdom has made the law that man must dig and delve, must work with his hands and bend his back to the burden that is laid upon it. We must have bread; but how inexplicably foolish it is to suppose we can live by bread alone.

(To be continued.)

### Of Interest To Delawareans

The Garrick Theatre, Wilmington, opened last Monday night. For 18 consecutive years Manager Dockstader has managed this successfully, and the opening bill is sure to be one that everybody will enjoy.

The Sussex County Teachers' In-

stitute has been announced for the first three days of Thanksgiving week, November 21st, 22nd and 23rd. The sessions will be held in Armory Hall, Milford.

The new dome, flag pole, polished brass globe, etc., have been put in position on the restored State House at Dover. Work will now progress on the marble staircase in the new rotunda, which will lead to the legislative halls.

The Aeolian Opera Company which has been furnishing such excellent entertainment at the Brandywine Springs Park during the summer months, gave its last performance last Saturday night. Many of its members were obliged to leave at once and take up work on their winter engagements.

The reed and rail bird season in Delaware, Pennsylvania, New Jersey and several counties of Maryland opened the first day of September. The sportsmen report a good number of birds, but many being so thin as to make the gunners feel poorly paid for his efforts.

An unusual thing happened last week at Cheswold, when fine luscious peaches hung on at 25 cents and 30 cents per basket, while tomatoes sold readily at 39 cents per basket.

## SECURITY TRUST AND SAFE DEPOSIT COMPANY

## OVERLAND IS THE CAR

A 40 h. p. Overland with 112-inch wheel base. Price with single rumble seat, \$1,250—double rumble seat, \$1,275—with 5 passenger Touring or Close-Coupled body, \$1,400

### The Reason

The car is amazingly simple. Three of the models operate by pedal control. Push a pedal forward to go ahead, and backward to reverse. Push another pedal forward to get on high speed. It is as simple as walking. A 10-year-old child can master the car in ten minutes.

The Overland has less parts than any other highgrade car. One invention alone does away with 47 pieces. The car is almost trouble-proof.

OVERLAND "Model 38" is the first real car for \$1000. Built by the same expert mechanics who made famous the costly Pope-Toledo cars. It is the only car at the price that gives plenty of room everywhere; that is really comfortable either on long or short rides or country tours; it is the easiest car in the world to drive—barring none; and it will stand up and give absolutely perfect service under conditions which none except the most expensive and carefully constructed cars will endure.

Like all our Planetary Models, the well known Overland Motto applies—"Only pedals to push and no noise but the wind."

### The Reason

The Overlands' supremacy—wherever known—is due to the following reasons;

The Overland engine is a wonderful creation. It is so automatic, so silent and powerful, so free from the usual troubles, that it appeals to the average buyer.

The OVERLAND stands the test.

There may be stronger and more serviceable cars than this—but no one around here knows which one it is.

Look for the "Story of an Overland" in next week's issue.

Overland Model 38—Price \$1,000. 25 h. p.—102-inch wheel base. With single rumble seat, \$1,050—double rumble seat, \$1,075—complete Toy Tonneau, \$1,100

All prices include Magneto and Full Lamp Equipments.

A. F. FADER,

Newark, Del.

## UNDERWOOD STANDARD TYPEWRITER

### A LEADER

The principle of construction in the Underwood was found first in the Underwood, and every typewriter seeking business in the same field with the Underwood which has been put on the market since the advent of the Underwood, has been an imitation of, and in general appearance like, the Underwood.

The last "Blind" advocates of importance have now fallen into line, and there is not today a single "blindwriting" typewriter actively on this market. Recall all the arguments you have heard in past years by Underwood opposition, and you will realize what an advance agent to progress the Underwood has been; then bear in mind that the Underwood was the first fully "visible", has had time to develop and improve, and is to-day the most perfect typewriter made.

## PERSONAL

Dr. Herbert Watson, of Wilmington, was the guest of his son on Tuesday. Mr. and Mrs. Robert Potts and daughter spent Sunday with their uncle, T. Anderson Potts, at Hockessin. Miss Elsie Roush has returned to her home in Baltimore, after a visit with Miss Lena Herberner.

Mr. Clarence Potts and family are visiting Mr. Potts' parents, Mr. and Mrs. Robert Potts.

Miss Sarah Potts spent last week with Mrs. J. Murray, near town.

Dr. Porter and family have returned from an extended trip to Alaska and points of interest on the Pacific coast.

Prof. Clifford Simpson, of Selbyville, Del., who will be principal of the Fern High School, visited Newark on Tuesday, conferring with Prof. Gravel, who was the principal of that high school last year.

Mr. and Mrs. E. R. Honner, of Philadelphia, are visiting Mr. Jacob Thomas.

Lieutenant E. I. Stayer has returned to Newark after his summer's vacation.

Mr. and Mrs. DeCamp and daughter, Anna, of New York, were the guests of W. T. Singles and family on Sunday.

Miss Eugenia Ridgely, of Washington, D. C., visited Mrs. J. P. Wright last week.

Mr. Lee Lewis spent Sunday with a party at Wildwood, N. J.

Mr. Joseph Bauer and Miss Ida Bauer, of Philadelphia, spent the week end with Edward Herberner and family.

Mrs. Fred Henning and children have returned from a visit with R. S. Sun and Oxford friends.

Mrs. L. K. Paxson visited Mrs. J. M. Conner, Baltimore, last week.

Frank H. West, of Philadelphia, visited Newark friends last Monday.

Misses Martha Strahorn, Jennie Raub, Agnes Medill, Reba Storey, Nellie Wilson and Etta Wilson visited Miss Meta MacSorley, Townsend, last week.

Miss Lena Evans has returned after an extended trip through the Northeastern States.

A. H. O'Daniel, Oxford, spent the week end with relatives in Newark.

Miss Sarah Slack has been spending a week with friends in Wilmington.

Misses Grace and Mabel Zell, of West Grove, have been visiting Newark friends.

Mrs. H. K. Gorsuch, of Baltimore, spent the week end with G. Fader and family.

Rev. G. T. Alderson and family have returned after spending the summer months at Rehoboth.

S. J. Wright and family have returned from Ashbury Park, N. J.

Mr. and Mrs. H. G. Grier and son, Harry, of Beltsville, Md., visited Mrs. George A. Wilson this week.

George G. Henry of Brooklyn, visited his father the first of the week.

Miss Helen Herberner visited Mrs. George A. Wilson this week.

Misses Sophia Rine and Mary Colman are spending the week with Mrs. Herberner and Columbia friends.

Mr. and Mrs. T. C. Teague, of Philadelphia, were the guests of Mrs. George A. Wilson.

Mr. and Mrs. Ames Osmond visited Columbia friends last week.

Miss John Cunningham, son and daughter spent last week with Chester friends.

Miss Elva Callahan, of Wilmington, is spending her vacation with relatives at Glasgow.

Miss Eleanor Pilling spent the week end at Ashbury Park, N. J.

Gilbert Chambers and family spent last week along the ocean at Wildwood.

Miss Adelaide Vandegriff, of Philadelphia, spent Labor Day with Newark friends.

Rev. Mr. Johnson, of Washington, N. J., is the guest of Rev. J. W. Lowndes, of White Clay Creek.

Mr. George Mettenger, of Philadelphia, is visiting O. W. Widdoes and family.

Miss Blanche Beckus, of Philadelphia, is visiting Mrs. Charlie Lewis.

Elwood Wolastro, of Coatesville, spent Sunday with his parents, Mr. and Mrs. Albert Wolastro.

#### South Newark Personals

Mrs. J. B. Mann was an Atlantic City visitor this week.

Miss Adelaide Vandegriff is visiting William Lane and family.

Miss Alice Evans has returned from a very pleasant summer with relatives in Minnesota and Illinois.

Mr. and Mrs. E. J. Colbert and daughter, Miss Edna Colbert, and Miss Helen Moody were in Atlantic City over Saturday and Sunday.

Miss Edythe Whittingham, accompanied by her grandmother, returned from her summer's outing in Watertown, N. Y., last Saturday.

Mrs. W. H. Evans entertained two of her sisters over the week end.

#### Special

SPECIAL.—Mason's half-gallon jars, 70 cents per dozen.

## Around Town

One King road drag in the neighborhood is worth more than all the yaller dogs in the county.

Lost—A Democratic candidate for Representative. It is thought he wandered into the sewer on Saturday last.

Dr. Rowan is coming home! Now for a lecture on "My Trip Abroad."

Best wishes to the new corps of teachers.

Several years ago Editor Bok said it was not just the thing for a grass widow to wear tan shoes. This week a discussion has been taken up in Newark on the merits of the common sense shoe.

One thing we are sure of—the man who uses the shot gun argument regarding his well will never die of typhoid fever contracted from drinking Newark water. He might suffer however from other ailments.

To The Voters Of The Ninth District

I wish to announce my candidacy as Representative to the next General Assembly from the Ninth District. I am a life long resident of White Clay Creek Hundred. I now live on a farm just outside of Stanton. I have never before held office. Should I receive the nomination, I shall stand for election and shall do my best to represent the whole district in which Newark plays a prominent part.

I am interested in the town and am perhaps more acquainted with her ambitions and progress than many of the townsmen are with me. My son attends school here and that speaks for my interest in our institutions.

Should I be elected I shall do my best to look after her interests.

Appreciating any support you may give me, I am sincerely yours,

Charles P. Dickey.

Rev. G. T. Alderson and family have returned after spending the summer months at Rehoboth.

S. J. Wright and family have returned from Ashbury Park, N. J.

Mr. and Mrs. H. G. Grier and son, Harry, of Beltsville, Md., visited Mrs. George A. Wilson this week.

George G. Henry of Brooklyn, visited his father the first of the week.

Miss Helen Herberner visited Mrs. George A. Wilson this week.

Misses Sophia Rine and Mary Colman are spending the week with Mrs. Herberner and Columbia friends.

Mr. and Mrs. T. C. Teague, of Philadelphia, were the guests of Mrs. George A. Wilson.

Mr. and Mrs. Ames Osmond visited Columbia friends last week.

Miss John Cunningham, son and daughter spent last week with Chester friends.

Miss Elva Callahan, of Wilmington, is spending her vacation with relatives at Glasgow.

Miss Eleanor Pilling spent the week end at Ashbury Park, N. J.

Gilbert Chambers and family spent last week along the ocean at Wildwood.

Miss Adelaide Vandegriff, of Philadelphia, spent Labor Day with Newark friends.

Rev. Mr. Johnson, of Washington, N. J., is the guest of Rev. J. W. Lowndes, of White Clay Creek.

Mr. George Mettenger, of Philadelphia, is visiting O. W. Widdoes and family.

Miss Blanche Beckus, of Philadelphia, is visiting Mrs. Charlie Lewis.

Elwood Wolastro, of Coatesville, spent Sunday with his parents, Mr. and Mrs. Albert Wolastro.

Miss Elva Callahan, of Wilmington, is spending her vacation with relatives at Glasgow.

Miss Eleanor Pilling spent the week end at Ashbury Park, N. J.

Gilbert Chambers and family spent last week along the ocean at Wildwood.

## Notes for Plain Every Day Farmers

## Some Legume Questions

Far too little value has been accorded to sweet clover for forage purposes, because stock often do not relish it at first. No better forage crop for general purposes has yet been found than alfalfa, and no forage plants richer in protein than vetch or soy beans. Yet my cattle grazed everything on the ground, closely around a patch of alfalfa there just beginning to bloom without touching it, also around stray and thrifty growing vetch plants. They also refused any lean forage when it was first placed before them. Yet when the vetch was better acquainted with alfalfa, they took to it readily, and also learned to eat and enjoy vetch and soy beans, both freshly cut or wilted, or as hay. The old sweet clover plant, after it has gone well along toward seed-production, is, of course, unfit for cattle food. A lot of tough woody stalks is about all the animals would get. But young sweet clover looks so near like alfalfa that it would be difficult to distinguish them. The bloom, however, tells at once what it is. Both plants are nearly alike in nutritive value. If cut at the proper time there is no doubt that animals will eat and enjoy sweet clover as much or more than many other forage plants.

## VETCH AS A FERTILITY MAKER.

"What is the best orchard cover crop?" was one of the questions asked at a recent New York State horticultural meeting. Without hesitation Prof. John Craig, horticulturist at Cornell University, replied: "Winter vetch."

Winter or "hairy" vetch, if given half a chance, will reseed itself from year to year. This spring I plowed up a patch that was in potatoes last year, and had been in rye and vetch a few years ago. This land was quite green in spots from the vetch plants that had started from seed still in the ground last summer or fall after the period of cultivating the potatoes. The growth of vetches has been so immense, in some patches, that neither man nor beast could have waded through without being tripped up or entangled in the vines. And you should have seen the masses of nitrogen-bearing nodules on the roots. Here we have a hundred pounds of nitrogen, and perhaps more, per acre, snatched from the atmosphere, nitrogen worth at least seventeen to eighteen cents a pound, therefore not less than seventeen to eighteen dollars worth on the acre. The stations may tell us a still bigger story. It is big enough, considering that the vetch furnishes in nitrogen alone the equivalent of six hundred or more pounds of nitrate of soda and a wonderful lot of humus. All this means life and energy to the soil.

## FACT AND FICTION.

Yesterday a neighbor asked me for my opinion about nitro-cultures. He had tried to grow cow-peas and made a failure of it. Now he thinks of introducing the cow-pea bacteria into his soil. In this nitro-culture business you will find a grain of truth and many pounds of fiction, and exaggeration, and even nitrogen-bearing bacteria not yet fully understood. There seems to be considerable mystery as yet about their first generation and transformation. Will one kind of bacteria—for instance, that on common clover—finally adapt itself to work on sweet clover or alfalfa, etc., or has each plant its own kind that must be introduced into the soil before that plant will develop root nodules? Who knows?

I have grown clovers of all sorts, alfalfa, vetch, soy beans and cow-peas, besides, of course, field-peas, garden-peas, sweet peas. In a limited way I have experimented with nitro-cultures. But our soils here seem to be so well provided with bacteria of all kinds, that whenever any of these crops were planted on good soil, they gave good yields, and in all cases the roots were well supplied with the characteristic nodules.

Undoubtedly there are soils lacking the bacteria working on some or all of these crops, and for them the artificial introduction of the particular bacteria of the crop to be planted may be desirable. For me to make any effort whatsoever in that direction would be like carrying coals to Newcastle. I believe there are bacteria enough in the soil of this farm to infect every acre of land in the State with the bacteria working on clover, alfalfa, vetch, peas, soy beans, cow-peas and probably a lot of other legumes. Before you spend money and effort with nitro-cultures, make sure that your soil has not already all that and more than it needs.

## Cost Of A Two-Year-Old Heifer

Referring to cost of raising a calf up to two years old, I have charged all feeds at wholesale prices, or what they were absolutely worth on the farm. It must be realized that with such feed as skim-milk, silage and clover hay, the heifer creates a market for things which have, except the clover hay, no market value. Again, I consider the manure made will more than pay for all labor expended. I make no charge for bedding grown on the farm. To work this up into manure, I am glad to use the calf or heifer as a medium. "Barn rent, insurance and taxes," like death, are certain, any way, and would have to be paid whether one raised calves or not. The rate of \$2, too, seems a very heavy portion for one calf to bear. Were I to charge to the calf "the portion that falls to it," on an ordinary set of farm buildings, I could by no possible stretch of the imagination get it so high. It rather looks to me as if they set out to make a high cost, and so scraped together every item possible to think of. Surely the fig-

ures as I give them below are high enough, and it must be apparent that only a first-class calf will pay to raise. One with no productive ancestry back of it, and from its make-up and lack of breeding, no productive future before it, would better be knocked in the head at birth, if there is no other way to dispose of it, rather than to rear it at a cost which it will not repay as a cow, and a value which no one will buy it for. I figure the cost of raising a calf up to two years of age as follows:

Four quarts of whole milk daily for two weeks, 20 quarts at 3 1/2 cents approximately ..... \$2.00  
Eight quarts of skim milk daily for six months at 1-2 cent ..... 4.00  
Pasture, six months ..... 4.00  
One-half ton of hay ..... 5.00  
One-half ton of silage ..... 2.00  
One pound of grain daily for 200 days at \$1.50 per cwt. .... 3.00

Total for first year ..... \$20.00  
Second Year.

Pasture ..... \$0.00  
One ton of hay ..... 10.00  
Two lbs. grain for 200 days ..... 6.00  
One ton of silage ..... 4.00

Total for second year ..... \$20.00  
Total for two years ..... \$40.00

The price put on milk is just what it cost me to make it (five per cent fat). Of course I get more, and that fed to the calf is then fed at a loss. Most people do not get over 3-4 cents. While the intrinsic value of skim-milk is more than one-quarter cent a quart, that is the price I allow the patrons of our creamery for retaining theirs, and were I to take out more, a shipping station would get their milk. Take one year with another, \$40 is a good price for clover hay right on the farm. It is doubtful if the yearling will eat a ton of silage. The price is based on the

value of hay, and is more likely to be under \$4. The grain will not average a cost of 1-2 cent a pound. While it is true I cannot afford to pasture a heifer the second year on my reliable land for \$6, that is just what I have paid to have the impastured, and were I willing to drive them some 20 miles I could get them well pastured for less. With the exception of the milk, then, I have figured everything at the top notch or beyond, which will balance up any inequality in my own milk price. After all I could throw in the \$4 rent, etc., and have my two-year-old heifer stand me \$50. If she is the right kind of one, she will be worth that as a producer, and better than that amount of money would buy, nine times as many in my own milk price. I am very sure that the majority of calves and heifers raised by the farmers do not get anywhere near the amount of good feed here cited; which is one reason why so many calves raised are a disappointment after they become cows. Each year makes more emphatic to me the fact that to make a good cow a heifer must be fed from her birth enough of the most nutritious food to fully develop her frame as well as the calf she is carrying for nine months at that time, to develop which will require as much food as would the production of 4,000 pounds of milk—Kendall N. W. Yorker.

## All About Concrete Fence Posts

In prairie regions the concrete fence-post would seem a promising competitor for the favor of the farmer. It will not rot, and if reinforced with steel it will not break off. It is not as handy for the man with the hammer and nails as the wooden post, but it has its points of superiority. The United States Department of Agriculture has issued Farmers' Bulletin No. 403, which tells all about the merits and demerits of the concrete post, how to make it, and what it is most useful for. Ask your congressman to send it to you if you are interested. This bulletin says: "It (concrete) has been thoroughly tried and

(Continued on Page 7.)

## KILMON-TALKS ABOUT FEED

Everybody is talking about Pure Food Products and a wave of reform has swept the country—the outcome of which is all food products are what they are labelled to be.

## We Sell That Kind of Groceries

But in this reform we have lost sight of the feed for animals.

## JUST TAKE THE SUBJECT OF MIDLINGS

MIDLINGS is often written on the bag—and mill sweepings in the bag.

How can you tell good midlings?

The color of MIDLINGS is WHITE.

Now if you get a bag marked Midlings and they are dark—that means MILL SWEEPINGS.

Now all the proof you need to this statement is just to come take a look at the Midlings I am selling, any farmer in this section will agree with me when they compare the PURE WHITE MIDLINGS and MILL SWEEPINGS.

## 10 PER CENT. CHEAPER HERE

I am selling Pure White Midlings at least 10 per cent. CHEAPER THAN YOU CAN BUY ELSEWHERE.

Bran, Corn and all Mill Feeds--All as Good--Some better than sold ELSEWHERE.

## Notes for Farmers

(Continued from Page 6)

tested, not only in laboratories, but also by years of actual use by the United States Government, by state agricultural colleges, by railroads and stockyards, and by hundreds of farmers, and it has, among other things, proved successful in the construction of fence-posts.

## Poultry Department

Conducted by W. G. ANTHONY, Smyrna, Del.

## Notes for September

At this time the farmers' flock of fowls is going through the molt. A few of the hens have almost a new suit of feathers; others are torn looking in the extreme; there may be one old tail feather here and there, or there may be none. The egg yield is low, if not entirely cut off, and some of you have greatly reduced rations for this very reason. It would be hard to do the fowls a greater injustice, and what is worse the practice is not uncommon. The molting period is one of the hardest in a fowl's life time. More than ever does it need the best of care and attention during the sixty days taken up by this once-a-year change.

The birds molting early are the winter layers, at least they should be with proper food and house conditions. When you cut off or reduce the food, you are making it infinitely harder for the natural functions to take place. There must be something out of which to build an entirely new set of feathers, not only that there is a period of recuperation after molting, which must be borne with and provided for. It is your hen's vacation, and you will be dollars in pocket if you help to make it agreeable. For ten months your four or five pound egg plants know no Sundays, and then the first thing you know they put fifty-two of them, one right after the other. The wise poultryman will make it a point to help his "old workers" to enjoy their first days of rest.

I have known hens, as late as February 1st, to still be suffering from neglect which occurred during the natural molting season. The owner of the fowls which I have in mind, showed me his flock and made remarks to the following effect: "When they stopped laying I stopped feeding—let them hustle for a living—they weren't bringing me in anything. Bought them from a strain of great winter layers, too. They did right well last winter, but here it is February and no eggs; no, nor prospects. Guess I got stuck." The above was a very unusual case and happened with a man who put more emphasis upon housing his fowls than upon feeding them. He was disastrously lax in his appreciation of molting demands, and of course paid the fiddler.

Here are a few facts concerning molting of fowls:  
1. A lean hen can't grow new feathers.  
2. A fat hen won't shed old feathers.  
3. Hens carefully housed and produce a large yield and keep old feathers even past the profitable time for molting.  
4. Hens housed carelessly without regard to cleanliness and sanitation and indifferently fed will molt early and keep it up.

Through the molting period the average farmer, if he feeds at all, will give some eggs, and the better his housing conditions the greater will be the number, but his receipts can represent a profit. The period is too much drawn out and recuperation is too slow. The writer has known fowls to molt on corn and

water and nothing else, but it would not be a paying method. Some people, some writers, suggest sunflower seed as a help at this time, because of the oil contained therein, but as there is about 90 per cent of waste matter in this product, the value is a question. Protein in the ration is necessary and oil helpful.

The fowls may often be induced to hasten their shedding and renewing of feathers by a short period of reduced rations. If fed almost no food for a week in late summer, egg production may be entirely stopped and molting will most always follow.

Abundant feeding should then be practiced, using linseed meal, animal meal and gluten feed to supplement the ration. The nutritive ratio of the ration for producing eggs is 1:1.6 for Leghorns, and 1:2.2 for Plymouth Rocks, but during the molt a ration standing 1:5 would be better. This method of starving and following with heavy feed, applies most where the fat hen is concerned and for conditions represented under "fact 3rd." For the average farmer the prompt molting and early consumption of egg production are more apt to be induced by omitting the starving process and feeding very abundantly of the ration having a nutritive ratio of 1:5, beginning the middle of August. But one wants to remember that when a hen stops laying, her tendency is to laze around and put on fat. She must be kept busy—exercise at this time is imperative—it is absolutely necessary if the fowls are to be kept over for winter egg production; that is, if the owner expects to get eggs.

These nutritive ratios may seem like worthless information to some who may read, and for such it might be well to say in general, when your fowls molt, feed them during the period of recuperation, which follows, continue to feed them. The ten months of laying has reduced the vitality of the fowls—the molt comes as a further tax. Whatever else you do or fail to do, FEED. The thin hens can't grow feathers without something to build from—the fat ones may be starved (put on one-fourth rations) for a week and then fed. If the fowls have been kept up with proper housing and right feeding for egg production, stop the egg yield and then force out a new suit of clothes. If the fowls run at large and have houses other than clean and well ventilated, use plenty of food. In addition to the grain mixture (8 quarts a day for every 10 fowls) let there be handy, for a few hours each day, wheat bran, to which has been added (by weight) 5 per cent of meat meal and 5 per cent of old process linseed meal. Be sure plenty of green food is available; give charcoal, grit and clean, fresh water in abundance. Keep everything busy, for too much fat interferes with the molt, and the subsequent production of eggs. And to some of you people who are inclined not to feed during the molt, because the eggs are few, did it ever occur to you that a hen can get hungry and may find another way of making your few eggs fewer?

## Heart Cheer

"Courage, heart, as the shadows creep,  
Shift your burden and heed it not—  
After the night is noon;  
After the journey, rest;  
For the wind will wake and the stars be bright,  
And the heart that sings is blest!"

"After all, it is not what is around us, but what is in us; not what we have, but what we are, that makes us really happy."

"If your cup is small, fill it to the brim. Make the most of your opportunities, of honest work and pure pleasure."

"Seek to cultivate a buoyant, joyous sense of the crowded kindnesses of God in your daily life."

"Light may disclose a jewel, but it takes darkness to disclose a star."

"There's always lots of other folks you kin be sorry for, 'stid of yourself."

"Follow the Christ, the King, live pure, speak true, right wrong, follow the King—  
Else, wheretore born?"

"Not the size of the task but the spirit shown in the task is the measure of the man."

"No sunrise, mountain top, or June of blossom is so beautiful and so inspiring by its beauty as human faces at their best. A smile is the subtlest form of beauty in all the visible creation, and heaven breaks on the earth in the smiles of friendly faces."

"Not first the bright, and after that the dark—  
But first the dark and after that the bright."

First the thick cloud, and then the rainbow's arc,  
First the dark grave, then resurrection light."

Do we not know that more than half our trouble is borrowed? Just suppose that we could get rid of all unnecessary and previous terror; just suppose that we could be sure of final victory in every conflict, and final emergence out of every shadow into brighter day; how our hearts would be lighted, how much more heavily we should work and fight and march forward! This is the courage to which we are entitled, and which we may find in the thought that God is with us everywhere. He will not let anyone destroy us. We may be hurt, but we can never be harmed. The course of our journey has been appointed by Him. He knows the way even through the darkness, and His goal is in His bosom. Be of good cheer, your shepherd has overcome the world.

A health unto the happy,  
A life for him who frets,  
It isn't raining rain to me,  
It's raining violets.

"If your spirits are low, do something; if you have been doing something, do something different."

"Resolve to keep happy, and your joy and you shall form an invincible host against difficulties."

"The only way to keep happiness is to give it. We say it when we scatter it everywhere."

The cheeriest lives are not those that have the most, but those that appreciate the most. Everyone of us has a gold mine of unworked joy close at hand. But gold needs searching for—are you finding yours?

"If instead of a gem or even a flower, We should cast the gift of a loving thought,  
Into the heart of a friend, that would be giving."

I think, as the angels must give,  
A little thing, a sunny smile,  
A loving word at morn,  
And all day long the day shone bright,  
The cares of life were made more light,  
And the sweetest hopes were born."

If you and I, just you and I,  
Should laugh instead of work;  
If we should grow just you and I,  
Kinder and sweeter hearted,  
Perhaps in some near by and by  
A good time might get started;  
Then what a happy world 'twould be,  
For you and me—  
For you and me.

To live content with small means;  
To seek elegance rather than luxury;  
And refinement rather than fashion;  
To be worthy not respectable and  
wealthy, not rich; to study hard, think  
quietly, talk gently, act frankly; to  
listen to stars and birds, to babes and  
sages, with open heart; to bear all  
cheerfully, do all bravely, await occasions,  
hurry never—in a word to let  
the spiritual, unbidden and unconsent-  
ed grow up through the common,  
—this is to be my symphony—Chan-  
ning.

## NEW JURY

## Men Who Are To Serve In The County Court Beginning September 20

L. Scott Townsend and John Niven, jury commissioners for New Castle county, on Saturday drew a petit jury for the regular court to report on September 20, and another to report the following Monday for the Oyer and Terminer Court. The petit jury is as follows:

First Representative District—John C. Kersey, Thomas W. McVey, William T. Cushing and Granville P. Alexander.

Second—William H. Jones, Maxwell Abner, John T. Layfield and John W. Burgess.

Third—Harry W. Frazier, George M. D. Cann, Lindley C. Kent and John E. Barclay.

Fourth—Walter T. Simmons, John A. Porter, Conrad Keller and Oscar D. Ridings.

Fifth—Robert P. Edwards, Marshall H. Yeaman, George W. Hook and Harry C. Tazewell.

Sixth—Oliver T. Mousley and Walter B. Jones.

Seventh—George W. Stanley and James Ball.

Eighth—Thompson D. Bailey and Harlan S. Highfield.

Ninth—John K. Bowen and Forrest W. Lovett.

Tenth—Frank Dalton and John Lister.

Eleventh—William Smith and Harry Holston.

Twelfth—Norman W. Wilkinson and George Hutchinson.

Thirteenth—William Gilch and W. L. Vail.

Fourteenth—George W. Wiggins and Edward C. Reynolds.

Fifteenth—J. Harry Staats and Herman A. Staats.

The following jury also drawn to serve at the Court of Oyer and Terminer, which convenes on September 20:

First District—Michael P. Kelley and Stonewall J. Trutz.

Second—Charles H. Grantland and Daniel F. Hoffman.

Third—Leonard D. Davis and Thomas W. Hammond.

Fourth—James H. Harkins and William H. Robinson.

Fifth—John S. Murphy and John M. Truax.

Sixth—Elmer T. Rye and Walter Baldwin.

Seventh—John M. Chandler.

Eighth—Gregg C. Derickson.

Ninth—Albert Vincent and Harry Stradley.

Tenth—William Deakne and J. Frank Meggison.

Eleventh—Henry Russell.

Twelfth—George H. Swain and M. F. Hines.

Thirteenth—Clarence E. Vail.

Fourteenth—William D. Evans.

Fifteenth—J. Edward Latta.

## To The Voters Of Pencader Hundred

For what I believe to further the success of the Republican party in Pencader Hundred, I have withdrawn my name as a candidate for the nomination for Representative at the next General Assembly.

(Signed) W. K. BROOKS.

## Newport Events

Mr. and Mrs. Willard Wood have returned home after spending some time with Mrs. Wood's parents, at Seaford.

Mrs. James L. Polk and daughter, Maud, were the guests of Mrs. Louis Ball, on Tuesday.

Miss Madge Wilson, who has been spending a few weeks with Mr. and Mrs. William King, has returned to her home in Jersey City.

Miss Annie Collins, a saleslady for Lippincott & Co., of Wilmington, is on a two months' trip to Wales.

Mrs. Harold Creamer, of Wilmington, who has been spending some time with her parents, Mr. and Mrs. Robinson, has returned home.

Millard Griffith has been spending some time with his grandparents, Mr. and Mrs. Harry Miller.

Robert Webb, who has been visiting his sister, Mrs. Tazewell, of Newport, has returned to his home in Memphis, Tenn.

Miss Eva C. Worth, of Philadelphia, has been the guest of Miss Vera Cooper.

Mrs. Harvey Gregg and daughter, Irene, left Wednesday for Atlantic City. Mr. Gregg and Miss Helen Gregg expect to join them Saturday.

## Pleasant Hill News

Quite an enjoyable little gathering was held on the evening of August 30 at the home of Bessie Moore, in honor of her guests, Marion Becker and Mamie McCormick, of Iron Hill, Md.

After spending the evening in playing games the guests were invited to the dining-room, where dainty refreshments were served. Among the guests present were Misses Marian Becker, Mamie McCormick, Bessie and Alice Moore, Lora and Elizabeth Little, Beulah Eastburn, Blanche Beckus, Elva Dempsey, Bessie Jones, Messrs. David Kesturn, Thomas Vincent, Lewis Pennock, Lee and Raymond Lewis, Harold Little, Geo. Dempsey.

Mrs. Jones and daughter, Elizabeth, of Houston, Del., have been visiting Rev. J. H. Gooden, at Ebenezer Parsonage.

The committee appointed by Ebenezer M. E. Church to make arrangements for entertaining the M.P. Creek Hundred Sunday School Convention to be held at Ebenezer M. E. Church, September 15, met at the home of Mr. and Mrs. Arthur Whitman's, Wednesday afternoon of last week.

Mrs. Alban Buckingham and daughter, Alice, spent Wednesday with Andrew Lee and family at Solersville, Pa.

Raymond Moore and Alice Moore spent Sunday at the former's home at Yorklyn, Del.

A. T. Buckingham and family spent Sunday with William Vansant and family, at McClellandville.

Lewis Lee, of Strickersville, Pa., visited relatives and friends in this vicinity on Sunday.

Mrs. W. P. Stinson spent Sunday with her daughter, at Red Mills.

Ferris Harkness is very ill at his home.

Mabelle Pennock, a student at the Normal School, has returned to her studies at West Chester, Pa.

William Harkness spent Sunday at Pleasant Hill.

Mr. and Mrs. Kinsey Vansant, of Steelton, has been visiting relatives in this vicinity.

Miss Elizabeth Moore called on friends at Pleasant Hill on Monday.

Dr. and Mrs. William Wright, of Wilmington, are visiting E. V. Whitman and family.

Mr. and Mrs. Alban Buckingham and daughter spent Tuesday in Wilmington.

## Wanted

All registered Republicans to vote on September 10th for Henry Thompson, the one term candidate for Register of Wills.

## Auto Accident

What threatened to become a serious accident occurred this side of Blagow, last Monday night. The large 30 horse power touring car belonging to former Sheriff Samuel A. McDaniel came upon a team in the middle of the road, whose driver refused to give way.

Mr. McDaniel, realizing that a collision would result unless something were immediately done, turned the auto into the traction engine belonging to Sherman Dayett, since it was impossible to pass in the room between the team and the engine.

The occupants, Mrs. McDaniel, son and three daughters, were thrown from their seats and badly frightened, but no serious injuries resulted.

The machine did not escape so fortunately. The party managed to make Main street, Newark. In front of the college an inspection revealed a bursted water tank.

Strahorn was called into service and the wrecked machine was towed into the Fourth and Washington Street garage.

W. L. Douglas shoes are the lowest

price, quality considered, in the world.

Their excellent style, easy fitting and

long wearing qualities excel those of

other makes. If you have been paying

high prices for your shoes, the next time

you need a pair give W. L. Douglas shoes

a trial. You can save money on your

footwear and get shoes that are just as

good in every way as those that have

been costing you higher prices.

If you could visit our large factories

at Brockton, Mass., and see for yourself

how carefully W. L. Douglas shoes are

made, you would then understand why

they hold their shape, fit better and

wear longer than other makes.

## CAUTION

W. L. Douglas shoes and price is stamped on the bottom of each shoe. Beware of cheap imitations. Take No Substitutes. Beware of cheap imitations. Take No Substitutes. Beware of cheap imitations. Take No Substitutes.

## CHARLEY NOROWSKI,

Sole Agent for Newark.

Center Hall Building

who was serving a 50 year sentence, having been convicted of an attack upon Mrs. Albert E. Frankist and her daughter about four years ago, died on Sunday evening. The body was taken to the morgue where it awaits a claimant. Connolly has said he had a brother, but he did not know where he was. He never had visitors while at the workhouse. If no one appears to claim the body it will be buried at Farnhurst.

JOHN S. BARRETT, Secy. & Treas. Officer.  
JAS. H. CLARKSON, Vice-President. L. SCOTT TOWNSEND, Treasurer.

## The Growth Of

## The National Bank Of Newark

The prosperity of a community is shown by the growth of its banks. The steady uninterrupted growth of THE NATIONAL BANK OF NEWARK proves how this community is prospering.

For six months ending July 30, 1910, we received from investments - - \$11,958.08

This has been distributed as follows:

Dividend, checks mailed - - -	\$2,500.00
Expenses - - - - -	2,743.73
Interest Paid to Depositors - - -	3,943.66
Balance to Profit and Loss - - -	2,770.69
	<b>\$11,958.08</b>

The fact that we have more than doubled our deposits during the past five years indicates that the public mind has not lost sight of the essential requirements that make a bank safe and sound.

Our deposits have grown as follows:

July 31, 1906 - - - - -	\$167,597.29
July 31, 1905 - - - - -	170,967.12
July 30, 1910 - - - - -	348,926.15

The bank wishes to thank its patrons, and also to congratulate the Town and community on this evidence of its growing prosperity.

Capital, - - - - -	\$50,000.00
Surplus and Profits - - -	50,035.42

The Battle Is On Against  
The Saloon In Rural  
New Castle CountyThe Saloon Must Go  
The People Demand It

## Election Day Is November 8th

We Expect to Make It The Final Day For Saloons  
In The County

Let the moral forces of the County bestir themselves. Let no one who loves righteousness be inactive. Christian voters must be alert to vigorous campaigning for the next two months. There is no time to lose. The battle is on.

## Facts To Be Remembered About The Election

- (1) There will be a separate "Local Option" ballot.
- (2) There will be a separate "Local Option" ballot box.
- (3) There will be no license watchers and workers at every polling place.

Let the trixter, the bootlegger, the vote buyer beware. Our demand is for an honest election this time.

## Our Message To-day Is to You, Mr. Business Man

Are you afraid your business will be harmed by saloon abolition?

Read what Kent and Sussex County business men say. They are unanimous declaring that "no saloon" helps business. Hundreds of letters are in our possession. We have room to quote but few.

## Kent and Sussex Testimonials Favorable to No-License

Georgetown, Del., April 5, 1910.

There isn't a man in this town but who, if he told the truth, would say that the town does not seem like the same town at night time, particularly Saturday evenings, under the new law. I have had merchants here tell me that from a business standpoint alone they would not think for a minute of going back to the old conditions.

GEORGE WARREN JONES, Bank Cashier.

Seaford, Del., April 5, 1910.

It has been fully demonstrated here that the closing of the saloons hurts no business but the liquor business. Several townspeople who never before had credit in our banks now easily obtain credit. The demand for homes is far greater than the supply. A general improvement along all lines.

THOMAS N. RAWLINS, Ex-State Treasurer.

Milford, Del., April 14, 1910.

During the past year the conditions here are as nearly ideal as one could look for in any community. There is not one-twentieth of the former drinking. The merchants are doing a larger cash business than ever before. If the question were resubmitted, the "dry" vote would be twenty-five per cent. greater than in 1907.

G. LAYTON GRIER, Manufacturing Druggist.

Dover, Del., March 12, 1910.

Law-abiding people of Kent and Sussex counties are highly pleased with conditions under Local Option.

J. FRANK ALLEE, Ex-U. S. Senator.

Dover, Del., March 8, 1910.

Conditions all to the good in Kent county; less drunkenness, better order in the towns, labor conditions better, no increase in taxation, business better, fewer arrests, and everything to the good.

A. M. DALY, Prominent Attorney.

Laurel, Del., April 7, 1910.

Business has been more satisfactory since this county went "dry." Fewer people have asked for credit, on which account, I have lost fewer bills. The following have been my receipts for the past three years: 1907, \$13,174.49; 1908, \$13,653.65; 1909, \$15,238.90.

H. B. HITCH, General Merchant.

Clayton, Del., April 21, 1910.

Grocers, butchers and general stores in this town find quite a difference for the better since the closing of saloons. There is no doubt it has been a great help to our community.

W. F. & J. R. CLEMENTS, Merchants.

Seaford, Del., April 6, 1910.

Our bank deposits have been steadily increasing since 1907, and a great financial gain for our town is very noticeable. There has been steady housebuilding during the two years of no-license and there are now enough dwellings to meet the demand. Store houses are all filled. There were a dozen vacant when we had saloons. Three new houses established, employing 200 workers, with a \$1500 weekly pay roll. The farms, their owners, their occupants were never in better condition, and all industries workers abundantly sustained.

MADISON WILLIN, Bank Cashier.

Georgetown, Del., April 6, 1910.

We are almost absolutely free from drunken brawls upon our streets, which prior to local option were so prevalent. Hardly one fifth as many cases are now brought to my notice as the result of intoxication as there were when the saloons were in town. Merchants report their business greater now than ever before. At the last term of court, not one case was tried that had its origin from drink, as compared with nearly one half of the court cases so traceable in former times.

WILLIAM A. WARRINGTON, Justice of the Peace.

Lewes, Del., April 2, 1910.

Business has not been depressed in the least by the closing of saloons, but rather increased with retail stores, furniture, and real estate values, except hotel properties, have held firm. Bank deposits have increased twenty-five per cent. since prohibition went into effect.

JAMES T. LANK, Cashier Lewes National Bank.

Laurel, Del., April 11, 1910.

Our cash receipts for 1909 show a gain of 20 per cent. over 1908. We are positive that Local Option has in a large measure improved the business conditions of our town.

SMALL & HOBSEY, Merchants.

Greenwood, Del., April 1, 1910.

My business has increased fully ten per cent. and my cash business has decreased considerably under prohibition. I am not using cash, with drunkards. Generally, conditions are very much improved.

J. FRANK PORTER, General Merchant.

Dover, Del., April 1, 1910.

My business shows an increase since the past local option election. In operation, also a greater per cent. of cash business is now done.

JAMES B. RICE, Merchant.

Dover, Del., April 1, 1910.

The general conditions of our town are materially improved since the closing of saloons. We are no longer annoyed by the brawling element and streets at 11 hours of the night, as was the case before prohibition.

BARNETTE BROTHERS & CO., Merchants.
