## Pushmobile Derby Site Near Newark Provided For DAP

S. Hallock duPont Offers  
Delaware Ass'n of Police  
Land For Pushmobile Race

A tract of land near Newark  
was provided the Delaware  
Association of Police as a pushmobile  
derby track by S. Hallock duPont  
at special ground-breaking cere-  
monies conducted in the area on  
Monday.

The site lies south of the DuPont  
Company Limestone Building, be-  
tween Newark and Possum Park  
Roads. The Delaware Association of  
Police, sponsor of the annual push-  
mobile derby, has announced the  
track will be ready for the annual  
run this August.

Mr. duPont's action is providing  
the land to the Pushmobile Track  
Corporation, of which he is presi-  
dent, on a long-term lease, was  
highlighted at the ceremony as "a great  
example of his generosity and  
philanthropy," and corporation officials  
promised to build "the finest  
pushmobile derby track in the na-  
tion."

John G. Leach, a trustee of the  
corporation, was master of cere-  
monies at the ground-breaking, at-  
tended by more than 50 parents.  
Governor Boggs was unable to at-  
tend and was represented by Miles  
Frederick, director of the State De-  
velopment Department, who dis-  
cussed the importance of such a  
track.

Two mayors attended the cere-  
mony—August F. Walz of Wilming-  
ton and Dr. Wallace M. Johnson of  
Newark.

The ground-breaking ceremony  
took place almost where the starting  
ramp will be. The track itself  
will be about 1,000 feet long, of  
which 1,000 will be for the actual  
races.

Attending the ceremonies were  
police from the state, New Castle  
County, Wilmington, Newark, and  
the County of Park Commissioners.  
The state, county and local officials,  
Mrs. duPont sat with her husband  
during the ceremonies.

## Local CD Director Addresses College Park Civic Group

Wallace G. Johnson Cites  
Need Of Air Raid Wardens,  
Preparedness In New Areas

Wallace G. Johnson, civil defense  
director of Newark, spoke at a  
meeting of the College Park Civic  
Association last week and described  
the need for volunteer air raid war-  
dens, particularly in new residential  
areas such as College Park.

In discussing the supplies that  
are needed for full civil defense  
preparedness, Johnson suggested  
that the families cooperate in pooled  
expenses to purchase kits of such  
supplies.

The association decided to meet  
the second Tuesday of every month  
at a place to be announced each  
month.

## Brookside Begins \$750,000 Shopping Mart Construction

Structure To Accommodate  
14 Business Enterprises,  
Parking Lot For 300 Cars

At ground-breaking ceremonies  
last week, work was begun on a  
\$750,000 Brookside shopping center  
at the intersection of Chestnut Hill  
and Marrows Roads, just south of  
Newark.

Raymond A. Burkland, president  
of Brookside Park Associates, com-  
munity developers, said that the  
one-story masonry and steel struc-  
ture will provide accommodations  
for 14 varied commercial establish-  
ments and include a surfaced park-  
ing area of 300-car capacity.

While leasing arrangements have  
not been completed, he said, the  
first section will include a super-  
market, drug store, branch bank,  
hardware store, barber shop, beauty  
shop, and apparel stores for men,  
women, and children.

The first section, it was said, is  
scheduled for completion in late  
summer or early fall and it is an-  
ticipated that the second unit will  
be begun next spring.

Construction was also started on  
recreation facilities for the com-  
munity. These facilities will include  
a 2000-gallon outdoor swimming  
pool, wading pool for children, a  
combination clubhouse-community  
building, and playground area.

"While we had originally planned  
to begin work on these community  
facilities last fall," Mr. Burkland  
said, "it was decided that it would  
be the best interest of the com-  
munity and all others concerned to  
wait until there was a greater num-  
ber of residents to support them.  
With almost 700 of the planned  
1,350 homes now occupied, we now  
feel that point has been reached."

## Democrats Wanted For New Election Districts In Area

Two Brookside Districts  
Boost Pencader Hundred  
Total; Officials Sought

Wanted: Some Democrats in the  
two new election districts in Brook-  
side.

May 1 is the deadline for party  
chairmen in each hundred to sub-  
mit names to the county department  
of elections. Officials will be chosen  
from these lists of names to serve  
at the polling places on registration  
days this summer and at the general  
election on Nov. 2.

For the 1952 election there were  
only two election districts in Pen-  
cader Hundred. Now there are five.  
Two of them are almost entirely  
in Brookside, where all the resi-  
dents are newcomers. However, no  
one from those districts attended  
the organization meeting of the  
Democratic party for the hundred,  
and the districts remain unorgan-  
ized.

Five names are needed from each  
side of Marrows Road, north of  
Chestnut Hill Road, excluding the  
extreme north end of Section C,  
which is in White Clay Creek Hun-  
dred.

Anyone interested in registration  
day activity is asked to call Newark  
2283 or contact State Senator John  
R. Butler, Middletown, chairman for  
Pencader Hundred.

## Memorial Planned For U.D. Student Killed In Accident

Student-Faculty Group  
Receives Contributions  
For Mitchell Memorial

A student-faculty committee has  
been formed at the University of  
Delaware to plan a permanent mem-  
orial to George (Tony) Mitchell,  
III, university senior who was killed  
in an automobile accident April 1  
on Limestone Road just over the  
Pennsylvania line.

Contributions are being received  
for the memorial by representatives  
in each fraternity and dormitory.  
W. Glenn Dill, editor of The Re-  
view, campus newspaper, is receiv-  
ing contributions from non-resi-  
dents.

Dill was riding with Mitchell  
when the 25-year-old student's car  
skidded and struck a fence post with  
such force that Mitchell was hurled  
to the road surface.

Mitchell, son of Dr. Mary Alice  
Mitchell McAlpin, former director  
of elementary education in the Wil-  
mington public schools, was active  
in musical and dramatic extra-  
curricular activities. He was vice  
president of the 123 Players, a  
member of the play selection and  
casting committee, and a member  
of the university chorus and band.

The nature of the memorial will  
be decided upon by a committee  
consisting of Dill and Marianne Reinke,  
representing the students, Dr. C.  
Robert Kase of the faculty, and  
Francis N. Gallagher, of the depart-  
ment of public relations.

## Delaware Poultry Authority Writes Magazine Article

Carroll Mumford, U. of D.  
Specialist, Contributes  
First In Poultry Series

Carroll Mumford, veteran poul-  
try expert at the University of Dela-  
ware, has written an article for the  
experimental farm, has had an  
article published in the March,  
1954 issue of New Jersey Farm &  
Garden magazine.

In this first of a series of articles  
to be published on fundamentals of  
poultry husbandry, Mr. Mumford  
emphasizes the importance of "good  
management" as a key to many of  
the poultryman's problems.

"The quality of the baby chick  
is established before the chick is  
hatched," Mr. Mumford writes, and  
"it is important, therefore, that  
the poultry producer pay close at-  
tention to his source of supply."

In his article Mr. Mumford recom-  
mends controlled heat with good  
ventilation in brooders; sufficient  
food and water space for all chicks;  
to eat and drink at once; and plenty  
of chick comfort.

"Millions of men-hours and dol-  
lars have been spent in poultry re-  
search—benefits which can be  
wiped out overnight by sloppy  
husbandry," Mr. Mumford cautions  
in closing.

## Sirens To Be Relocated On Fire Company Tower

To improve service to the com-  
munity, the Aetna Hose, Hook, and  
Ladder Company plans to relocate  
the fire sirens on electrically con-  
trolled rotating platforms on the  
77-ft. tower, some 65 ft. above the  
ground.

The half-ton bell, for emergency  
use in the event of a power short-  
age, will also be mounted on the  
tower below the fire sirens.

Ben McCormick, Earl Crowe and  
Harold Lloyd, will be responsible  
for the relocation work.

## Mayor Expresses Message Of Hope For Cancer Cure

Newark Doctor-Mayor  
Urges Local Support  
Of Cancer Crusade

In supporting the campaign for  
funds among the residents of New-  
ark to combat the plague of cancer,  
Dr. Wallace M. Johnson, physician  
and mayor of the City of Newark,  
today issued a message of hope for  
the afflicted and urged public co-  
operation with the cancer campaign  
crusaders.

"Our most cruel health enemy  
today is cancer," Dr. Johnson said.  
"Untold suffering is brought to  
Americans of all ages by this dread  
disease, and some 23 million living  
Americans will die of cancer if the  
present death rate continues. Yet  
there is much reason for hope."

"Thousands who once would have  
been hopeless cases, are being  
cured," he stated. "Thousands more  
have their suffering eased and their  
lives prolonged. Every day we come  
closer to the final goal of cancer  
research—a sure and certain cure  
for all cancer."

"You can do your part in this  
gigantic task for cancer research,  
comfort, and aid," the mayor con-  
tinued, "by making your contribu-  
tion to the cancer crusade as gener-  
ously as your means permit. Your  
contribution, however small, will be  
gratefully received by your local  
cancer crusade committee."

Delaware's goal in the Cancer  
Crusade has been set at \$75,000 as  
a part of the national \$20 million  
goal.

Mrs. Samuel Handloff is Newark  
campaign chairman.

### BIG DAM FIGHT

For 20 years, we have been plagued with the "big dam" craze. Huge dams have been built on or proposed for practically every water-course of any size in the country. And one argument is that they are needed for the conservation of natural resources.

Actually, this argument has often been proved hollow as a drum. An excellent example is found in the proposed federal Echo Park Dam in the Dinosaur National Monument. Thirty-two conservation organizations—including the National Wildlife Federation, Garden Clubs of America, General Federation of Women's Clubs, and the Isaak Walton League—have joined hands to fight it. It is said that construction of the dam would result in the flooding of 322 square miles of canyon—and it doesn't take a scientist or any other kind of expert to imagine what that would do to irreplaceable resources.

As a matter of fact, in instance after instance, the main goal of the big-dam fanatics has been socialized electric power. All the other alleged purposes have simply been camouflage.

## NEWARK IN REVIEW

Twenty-five Years Ago

**Hit-Run Driver Jailed**  
Two Elton men are in the New Castle County Workhouse as a result of a hit-run accident which occurred in Newark on Sunday, injuring four persons.

The accident occurred in the evening near the Mackenzie and Strickland Garage when a Chester, Pa., car was forced off the road by another automobile passing in the same direction. All four occupants of the first vehicle were hospitalized.

**School Board Election**  
The annual Newark Special School District election will be held May 4 in the new school building and one member of the Board of Education will be elected to serve a term of three years.

**Robert S. Gallaher** is the returning board member, and he is expected to file for reelection.

**Toastmaster Sypherd**  
Dr. W. O. Sypherd will be toastmaster at the annual Newark Country Club get-together dinner at Old College on Saturday. It will be a stag affair, with a dinner committee composed of R. W. Helm, Courtland Houghton and Dr. Sypherd.

**Scouts Free Eagle**  
The bald eagle presented to the Newark Boy Scouts last week is again soaring over this part of the country. The Scouts took the eagle to the Wilmington zoo, but no cage was adequate for the huge bird.

**Canby Mammie**, who maintains a private zoo, was consulted and advised freeing the eagle as it was two years old and was considered a bad risk in captivity. The Scouts brought the bird back to Newark and set it free.

**Collins Becomes Mayor**  
At a special organizational meeting of the Council of Newark, mayor-elect Frank Collins and new members of Council were sworn into office and seated. Councilman Hubert, who retired as president pro-tem of the body, swore in Collins, Kennedy, of Wilmington, the Misses Helen Steele, Alberta Heiser, Dora Law, Ethel Campbell and Mrs. Olive Dimmick.

**Sports**  
Delaware's baseball team dropped a Saturday game to Drexel, 2-1. The Blue and Gold outfit Drexel, 7-4, but not in the clutch. Jaquette collected the only extra base hit—a double.

Paxson, Delaware, won the 120-yd. hurdles; Riggins copped the 440; McCarthy took the mile for Delaware; Garrett won the high jump at a height of 5-ft. 5½ inches; Wright ran away with the 880; Wells copped the 220 low hurdles; and Collins won the javelin throw with a distance of 149 ft. 11 in.

## Blue Hens White-washed 4-0 On Two-Hitter By Lafayette

Former Mt. Pleasant Star Roger Gordon Strikes Out 10  
While Limiting Hens To Pair Of Singles; Delaware Dave  
Woodward Issues But Four Hits In Eight Inning Stretch

In their first home stand after six consecutive days of baseball on a southern road trip, the Fightin' Blue Hens of the University of Delaware were stopped by a former Delawarean now pitching for the Lafayette Leopards—Roger Gordon, former Mt. Pleasant High School star—who dealt but two singles to Coach Bob Siemen's swatters while striking out 10 for a 4-0 Lafayette victory.

The loss was Delaware's first scoreless effort of the season. Dave Woodward, the Hens' lefty right-hander, pitched a creditable ball game as he yielded but four hits—all singles—in working an eight inning stint. Woodward, a former Cornell diamond performer, ran into an old teammate in Maynard Dill Lafayette catcher who figured in all of the Leopards' scoring.

Audie Wagner, at first base, and Dallas Green, in left field, turned in the two Delaware hits as Gordon handed the Hens their sixth loss in nine outings.

Lafayette broke the scoreless tie in the top of the fifth when Dill led off with a single, advanced on Gordon's sacrifice, and came home on Mal Manahoe's one base blast. That one run was enough, but the Lafayette who were here checked in with three insurance runs the next time around in the top of the sixth.

Opening with Yale at home, Delaware dropped the first one and then rebounded against the Michigan champions in a 4-0 victory before taking the road south.

Stopped on successive attempts by Maryland, Navy, and Virginia, the Hens wrapped up No. 2 at the expense of the Washington & Lee Generals, fell before the Guilford Marooners, and then imposed the Georgetown line on the way back to Newark.

Newark, Delaware's Lone Entry In Susky League

With Newark as the lone Delaware entry in the Susquahanna League, baseball in the Susky loop was assured Monday with the announcement by President Tom Hatten, that Churchville, Md., had signed up to fill the six-man roster for the 1954 season.

Other entries are Havre de Grace, Chesapeake City, Hickory, and Aberdeen.

## Delaware Defeats Swarthmore, Navy In Track Openers

Bill Reyhold, Blue Chip  
Frank Davidson Collect  
Twin, Triple Victories

Delaware trackmen opened the season Saturday with a big splash of mud and water as Coach Ken Steers' varsity defeated the visiting Swarthmore in the Frazier Field mile by a 76-50 margin, and the Blue Hens freshmen trounced the Bainbridge Navy Prepsters 73-47.

Despite adverse weather and slippery running conditions, Delaware's Bill Reyhold turned in excellent winning times of 4:34 in the mile and 2:55 in the half mile. He was the only double winner of the meet for the Blue Hens, but his effort was matched by Swarthmore's Don McKinley, who topped the 120 and 200 hurdles events. Jimmy Flynn, Roger Kouradre, Bob Graham, Steve Butcher, Bill McWilliams and Dick Saunders were first place entries for Delaware.

Blue chip-Chick Frank Davidson was a triple winner in the freshmen meet in which Delaware youngsters placed first in 10 of 14 events. After winning the 440 in the good time of 55.3, Davidson returned to take the 880 in 2:16 and the broad jump with a leap of 20'2". His quarter mile time and broad jump distance were both better than varsity men recorded during the afternoon.

Sprinter Ray Ejak and utility performer Bill Steers were double winners for the Blue Chicks, while Harry Jefferson made the best showing for Bainbridge with a first and two second places.

Job and he president of the club at the same time. But it has not worked out as he had hoped, and he has hired Mr. Hamey as general manager and welcome news for followers of the club. Anyone with Hamey's experience can't be anything but successful. He has earned his job all the way up and anyone who works for the Yanks has to be good. His coming to the Phils should be a big help, and it is possible to make any good trade he can make them in time to help the club get up in the race this year.

**First Twin Win**  
The Phils swept their first double header of the new season but remember it was against the Pirates who have been the doormat of the league for the past couple of years.

The big gun, Roberts, got off to a bad start in the opening game but is now in the win column, as is his left-handed running mate, Simmons, with two wins. The club swung into night ball this week entertaining Brooklyn for their first visit.

Look for this new boy Morgan to step into the shortstop berth pretty soon if the kid now out there doesn't start getting his bingles.

Del Ennis has gotten off to a fine start and is pounding the apple to all corners and bringing the ducks in off the pond. If Mr. O'Neill can get his pitching staff lined up so that he has five men ready to go, then his worries may be lessened. The club has been written up as a light hitting crew in the advance notices, but they have given a pretty good account of themselves with the stick. When they take to the western end of the league we will see just how good a club the Phils have this year.

**Amazing A's**  
The A's have dumfounded the experts in the games played this year. At least playing in Fenway Park did not make them roll over and play dead like some of the other clubs that have worn the A. Usually when they moved into Boston it was a few more victories for the home club. One year, if I remember, they did not win a game up there. And the Washington Senators are not going to win the first nine games they play with this club.

One thing that the A's followers can count on is that Jost is going to lead with a lot of rookies. As one of the coaches said, they know what the old hands can do and maybe the rookies will do a little better.

Now that Shantz appears to be out for awhile the spirit of the team will get a test. Last year when he was hurt they seemed to quit or give up for the rest of the year. But most of those boys are gone and we will see how these new lads do when one of the main stays seems to be out.

I look for the club to go right on hustling and one of these rookies will step up and fill the shoes vacated by Shantz until he returns. All of the new lads are coming up to expectations. This Bellweg is playing with a broken finger and that demonstrates the spirit of this club.

This week end marks the first visit of the Yanks and a good crowd should be on hand to see this series. After that the western end of the league comes to call and we will see if any improvement has been made out there.

One funny thing about this, is that Baltimore—60 miles away—will be one of the "Western" invaders.

It does not look as if any of the clubs are going to get off to a running start as all have been splitting series with the clubs they have played.

## Welters To Meet In Friday Night Feature Telecast

Joey Klein To Tangle With Jed Black In Ten Rounder At St. Nick's

Fast-rising welterweights, Joey Klein and Jed Black, two of the busiest boys in the ring of late, will meet in a scheduled 10-round bout as the regular Friday evening feature of the Gillette Cavalcade of Sports.

Joey and Jed have been hailed by many as future champions of the 147-pound class and pros and cons to determine the better of the two have been debated at great length. Starting at 10:00 p.m., the NBC television cameras and ABC radio microphones will be set up at St. Nick's Arena to provide the answer in a bout that may well be one of the best welter matches in many months.

One of New York's East Side top all round athletes, Joey Klein established an excellent amateur boxing record before turning pro in 1951. A good boxer with a fine left hook, Joey's fan club numbers in the millions as a result of three network TV appearances. In addition to twice defeating Rocky Casillo, wins against Pat Manzi, Richie Bold and Freddy Herman make up part of Klein's 22 professional victories.

Jed Black's recent bout with Chico Vejar marked his nationwide TV debut and he gained a vast host of new followers by forcing the heavily favored Vejar to a draw decision. Putting his opponent on the canvas early in the fight, there were many who felt Jed was top man.

A former scholastic of Chuck Davey, this senior at the Michigan School of Education posted an outstanding intercollegiate record and was rated by many as a better ring man than Chuck. Turning pro only 18 months ago, Black has been a busy boy, fighting 29 times.

A willing mixer with a fine kayo punch, Jed will be putting his string of twenty-five straight appearances without a loss on the line against Klein.

A gossip's a person who will never tell a lie if the truth will do as much damage.

Some 800 trout were introduced to the inhospitable waters of New Castle County's Mill, Pike, and White Clay Creeks last week, and Delaware's Game and Fish Commission temporarily provided Diamond State anglers with a near approach to the type of trout fishing enjoyed in states where the fishing prospects are less intense, the land topography less flat, and where trout and trout streams are more natural and abundant.

A goodly number of trout were snatched from the Delaware pools and riffles by varied and audacious means, but it is reasonably safe to assume that a major portion of the 800 fish are still extant and that a fair share of some 800 fishermen failed to come up with a single trout.

Deterred by the rain and Rip Smith's phone call from a Saturday safari along White Clay Creek in quest of brook, brown, and rainbow trout, we soaked up a lot of that same Saturday rain water in following the Smith Brothers, Rip and Ern, along with Bill Astle, to Bayview, Md., for an exploratory tour of the covered bridge at Gilpin Falls. The rock-strewn stream tumbling down the wooded hillside past the "sleep-killers" cave and the blood-letting rock" down to the pool below the dam at the town of North East where the hickory shad run was in progress.

**The Rains Came**

It was raining drearily as we picked up Rip Smith as the first passenger on Saturday morning, and Rip—an optimist from "way back"—insisted that the rain was but a minor inconvenience to be replaced by clear skies and sunshine that afternoon.

At the second stop, Ern was less hopeful and suggested mildly that the trip be postponed pending a more dry occasion. Overruled, he readily agreed to come along and then we stopped for Bill Astle.

Bill, a veteran of some 70 years, expressed wonderment at our intention of going anywhere, much less to Gilpin Falls, in the rain, but somewhat reassured by the possibility of remaining in the automobile while his companions prowled the rain-soaked hillside in quest of the sleep-killers' cave, he consented to accompany us.

**Covered Bridge**

Just outside of Bayview we came to the abandoned covered bridge over the pond where Gilpin Falls begins.

Bill Astle, who formerly worked at this spot for the old Gilpin Falls Power Company, applying electricity to the towns and farm houses in the area, related a shuddering tale or two in the old covered bridge's past. We stood on the ancient structure, watching the rain dimple the surface of the creek below.

"Oh! Bill Bailey hung himself from the rafters at the end of the bridge," Bill Astle said, pointing, "and they used to say that if you drove a horse over the bridge at night and looked between his ears at that end of the bridge, you could see the body dangling from the end of the rope. Got no rabbits, would drive over here at night," he continued.

Understandable. It was a grim enough place in the daylight. From the dam below the covered bridge, the stream—headwaters of the North East River—plunged vertically in a series of waterfalls, rock-basined pools, and boiling white raceways.

**Power Plant**

Following an old pipe-line we came to the bottom of the hill and the crumbling ruins of what had been the old Gilpin Falls power plant, abandoned when Conowingo's turbines took over the task of providing electricity for the area. The wooden structure had rotted away and all that remained of the electric station, turbines, Bill Astle's place of employment, and those people who frequented the spot in the long ago, were some mottled concrete forms, crumbling, rusting ironwork, and initials grown grotesque after having been carved in the surrounding saplings some half century before.

**Sheep Killer**

Across the stream, half-way from the summit to the level of the old abandoned power station, we came upon the cave of the "sheep killer" who according to legend, lived in a cave in the rocks, sallying forth under cover of night to steal sheep which were brought to the cave and dispatched on a flat rock beside the roaring waters to carry away all trace of the crime.

"Never did catch up with him," Bill said. "And he lived in that cave there."

Reluctantly we followed agile Ern Smith into the gloomy, dank cave to emerge some 100-ft. higher up on the hill. Bracing off what may have been a Black Widow spider, we hastened with the Smith Brothers back to the car parked on the covered bridge.

**Shad Run**

Later, at North East, we inspected three fresh caught hickory shad lying on the grass beside the pool below the dam in town. One lucky spinner had taken them a short while before on a tiny metal spoon.

But he and some 15 or 20 companions were churning the limited pool into a lather, crossing lines, shouting threats at one another—and catching no more shad.

And then the rains really came. That was enough. We left.

But the companionship, the picturesque covered bridge, the tumbling cataract at Gilpin Falls, the rock formations and caverns on the hillside, and the quiet beauty of the woods in springtime were well worth the trip, without the fishing.
