Dear Mr. Messersmith:

Many thanks for your most interesting letter of August 3rd which I shall answer more at length very soon.

The purpose of this letter is to enclose a photostatic copy of a clipping which appeared in last night's "World Telegram" entitled "New Steel Loan for Brazil is Opposed." I am sure you will find this of interest in view of the apparent decision to lend money to the Argentine for a steel mill as well as for Cade. You will notice, moreover, that Congressman Wolverton is living up to the standards you attributed to him some years ago.

Best wishes to you and Mrs. Messersmith,

Sincerely,

JHH: pm
