NEWARK, DELAWARE, THURSDAY, MAY 18, 1933

NUMBER 15

THROGS ATTEND SERVICES FOR THE LATE CHARLES B. EVANS

Buried This Afternoon at Head of Christiana Cemetery

Charles B. Evans, attorney and banker, who like his father before him, had been an influence in the development of the University of Delaware, died Sunday night at 10.30 at his Wilmington home, 1900 River-view avenue.

Mr. Evans was 67 years old and until his death had been the oldest living trustee of the University, an institution whose interests he and his father, George G. Evans, served for 77 years. Like his father, Mr. Evans was Treasurer of the University until his death. With the death of Mr. Evans, there passes one of the most valuable citizens of the State, an outstanding man who had been a judge several times but always refused to accept the position. In one instance, in 1914, Governor Charles R. Miller tendered him the judgeship on the Supreme Court bench but Mr. Evans was too modest to accept and would not change his mind.

In May 5, Mr. Evans suffered from a stroke and since then until his death his condition was regarded as serious. Mr. Evans' career was marked with successful activity, but the general public knew little of his attainments and service because of his modesty. Admitted to the bar in 1889, he became a highly respected attorney and assumed a wide practice. In serving the interests of the Delaware bar he was particularly active in public legislation as emanating from and suggested by him. He served on several committees and committees regarding legislation of a public character.

Mr. Evans was born in Newark, N. J., in 1866, the son of George G. and Mary J. (Black) Evans. Receiving his early education at the Newark Delaware College and was graduated Auditor, he entered Delaware College and was graduated in 1890 with the Bachelor of Arts degree, always having ranked in the head of his class. He then received his Master's degree and in the same year, at the University of Pennsylvania, he was graduated with the degree of LL. B.

While Mr. Evans was a student at Delaware College, his father was among the outstanding figures in the college administration, having held the position of president during years after a long period. The father became a trustee in 1893 and treasurer of the college in 1903 and in 1904, his son, Charles, joined him on the Board of Trustees. Father and son served together on the board until 1908, when the father died. The son was then appointed to succeed him as treasurer of the University until his death.

The new engineering building at the University is named Evans Hall in honor of the two men.

Among the many other services Mr. Evans gave the State was his presence as a delegate in the Constitutional Convention in 1890-1897. He served an important committee and was particularly valuable for his assistance to the State judiciary.

As a banker, Mr. Evans was involved in banks in Wilmington and Newark, and he divided his time between both towns where he maintained homes. He was president and a director of the Newark Trust Company, and a director of the Farmers' Trust Company of Newark, and vice-president and a director of the Security Trust Company in Wilmington.

Mr. Evans is survived by his wife, the former Miss Mary Miller Raub of Newark, whom he married May 8, 1896. Mrs. Evans is a daughter of Dr. Raub, one time president of Delaware College. They had no children.

There are three sisters, Miss Lena Evans, of Washington and Newark; Mrs. Charles Reed, of Washington, and Mrs. Margaret Neill, of Helena, Mont.

For many years, Mr. Evans was a member of the Newark Presbyterian Church and was a trustee and treasurer of the church.

Mr. Evans was a trustee of the Newark Academy, a member of the Masonic fraternity, a member of the Wilmington Club, the Wilmington Country Club, the Manufacturers Club and University Club, Philadelphia, the Newark Country Club the American Bankers Association and the Society of Colonial Wars. In politics Mr. Evans was a Democrat.

During the World War, Mr. Evans was chairman in charge of questionnaires of New Castle county.

The funeral took place this afternoon from the First Presbyterian Church. The Rev. H. Everett Hallman, pastor of the church, conducted the services, and the Rev. Charles L. Candee assisted at the grave. Inter-

—William Shewell Ellis Studio.
CHARLES B. EVANS

ment was in Head of Christiana cemetery.

Delegations from several businesses and organizations in which Mr. Evans was interested attended in a body, including the Delaware Bar Association and Trustees of the University of Delaware and the Security Trust Company.

Honorary pallbearers were: Judge Victor B. Woolley, Robert H. Richards, Dr. Charles L. Reese, Judge John P. Nields, Richard Reese, Colonel George A. Elliott, Hugh M. Morris, Judge Charles M. Curtis, William L. Scott, John S. Rossell, L. L. Maloney, Judge David J. Reinhardt, Dr. Walter H. Lihlen, J. P. Wright and Norris N. Wright.

DR. DEETS PICKETT TO SPEAK HERE SUNDAY

Special to The Newark Post.
Dr. Deets Pickett, of Washington, D. C., Research Secretary of the Board of Temperance of the Methodist Episcopal Church, will speak at the evening services at the Newark M. E. Church Sunday, at 8 o'clock.

Dr. Pickett is reputed to be the best informed man on the Prohibition situation in America. All are invited to attend to hear Dr. Pickett.

MRS. EMMA UNDERWOOD, MOTHER OF MAJ. A. R. UNDERWOOD, DIES

Mrs. Emma Younglane Underwood, aged 76, died at the home of her daughter, where she had made her home for the past 5 years, at Bowling Green, Ky., on May 11th.

Mrs. Underwood had a host of friends in Newark, her son, Major Arthur R. Underwood, was at one time attached to the Military Department of the University of Delaware.

Besides her son Arthur, who is now stationed at Champaign, Ill., she is survived by three sons, Robert, of Brooklyn, N. Y., Edmund R., of Stamford, Conn., and Lieut. Henry M. Underwood, of Fort Humphreys, and one daughter.

MUSICAL ENTERTAINMENT BY PRESBYTERIAN CHURCH CHOIR

Concert To Be Given May 23rd at 8.00 O'Clock

Coming as a climax to a season of unusual interesting local talent musical entertainment, the announcement of a concert to be given by members of the choir of the Presbyterian Church on Tuesday evening, May 23rd, at 8.00 o'clock, daylight saving time, will interest all music lovers of Newark.

The program by the choir of twenty-two voices, will include five secular choruses, interspersed by a well balanced selection of vocal and instrumental numbers by individual members of the group. Included in the choir membership are several pupils of Lewis James Howell of Philadelphia, and recent additions to the tenor and bass sections have added the necessary balance to the choral work which has been under the direction of A. D. Cobb for the last ten years.

The concert on next Tuesday night will be given in the Sunday School Auditorium of the Presbyterian Church. There will be no admission charge, but a free will offering will be taken, the proceeds of which will be used to help defray the expense of purchasing new music for use in connection with the regular services of the church.

AMERICAN LEGION POPPY SALE

America's flower of patriotic remembrance will be carried to the people of Newark on Saturday, May 27. Completion of the organization for the poppy sale was announced today by the poppy chairman of the J. Allison O'Daniel Unit of the American Legion Auxiliary.

The local poppy corps will be a part of an army of 100,000 women who will go into action on a nation-wide front on Poppy Day to recall to America the services of the World War dead and to raise funds to aid the war's living victims. Before the close of the day these women hope to place the flower of remembrance on ten million coats, and to receive contributions which will enable the American Legion Auxiliary to carry on its relief and rehabilitation work for disabled veterans and needy families during the coming year.

Making poppies for the sale has given hundreds of disabled veterans employment through the winter and spring months. These disabled men are the only workers in the Auxiliary's poppy program receiving pay, all others donating their services. All contributions received above the cost of making the poppies is used in the

Auxiliary's welfare work.

"The patriotic spirit of America which enabled the nation to put forth its great World War effort is symbolized in the little red memorial poppy."

"The poppy is the badge of remembrance for those who sacrificed their lives in the country's service. It stands for the highest type of patriotism that we can conceive. It recalls the spirit of those days when every American was dedicating his energies and resources to the national cause and when life itself was not too much to give for the country."

"Remembering those days, it is difficult to understand how Americans can be daunted by the country's present difficulties. A people who only fifteen short years ago united with such devotion and energy to meet a war emergency, most certainly have the power to meet any emergencies of peace. The poppy, that symbol of patriotic sacrifice, should awaken in all our hearts a deeper conception of our own duties to our country today and inspire us to give in peace the same service the men who died among the poppies in France gave in time of war."

NEWARK SCHOOL EXHIBIT THURSDAY EVENING MAY 25

Organization Meeting of Home and School Association

The first annual exhibit of the work of the Newark School will be held in the New Building next Thursday evening from 6.30 to 8.00 p. m. (Eastern Standard Time). This exhibit will include the work in the fields of Home Economics, Science, Social Science, Mathematics, English, Languages, Industrial Arts, Fine Arts, Plans of work, Pupils' note books, Creative work of pupils, the School Libraries, Physical Education, Music, Bulletin Boards and their uses as teaching instruments, Professional Libraries, Records, and other fields of interest in the Newark School.

Parents, especially, and all citizens are invited to visit the school on this occasion and see the work of the Newark School. The New London Avenue Building and their staff will also offer an exhibit of their work in the New London Avenue Building.

Home and School Association. At 8 o'clock (Eastern Standard Time), following the exhibit, there will be an organization meeting of the Home and School Association for the coming year. Parents are very cordially invited to attend this organization meeting, which will be held in the Newark School Auditorium. "The growing interest of parents in studying the modern school is a splendid one," said Superintendent Brinser in commenting on the plan, "and this meeting promises to be another high achievement in the challenge which comes from seeking better solutions in meeting the problems of the Home and the School in the present and future days of youth."

W. C. D. Holds May Day Exercises

The annual May Day celebration of the Women's College were held Saturday afternoon. The place was the Campus in front of Science Hall and the time 3 p. m. Margaret Morris was the chosen one—The May Queen. She, along with her various attendants, composed a very charming Court. The theme of events this year—differing from the pointless displays of past years—were an adaptation of Ibsen's "Peer Gynt." Various scenes from the suite were presented and various group and solo dances were interwoven throughout.

In the evening, following the exercises, the May Day Dance was held in Kent Hall.

TO HOLD RUMMAGE SALE

Newark Chapter No. 10, O. E. S., will hold a rummage sale on Friday and Saturday, May 19th and 20th, in the store adjoining the Blue Hen Tea Room.

LIONS CLUB MAKES HIT WITH MINSTREL SHOW

School Auditorium Packed to Overflowing to See Lions

The Lions Club Tuesday night gave a minstrel show in the High School Auditorium which was well attended. The following members were in the cast: Richard Cooch, Raymond Barnett, Dr. J. R. Downes, I. N. Sheaffer, Weldon Waples, John Phillips, M. H. Sigmund, J. H. Hollingsworth, W. C. Brewer, J. Q. Smith, George Danby, and Alexander D. Cobb, balladists; Ira S. Brinser and John Fader, specialty; ensemble T. A. Baker, E. B. Crooks, John Dennison, W. H. Evans, R. S. Gallaher, William Johnson, R. T. Jones, P. D. Lovett, Dr. P. K. Musselman, D. O. McClintock, J. McVey, George W. Rhodes, F. L. Richardson, George Schuster, Daniel Stoll, R. L. Cooch and Dr. A. J. Strikol.

The setting for the show was a court room ready for the trial of George Safetyvalve Washington, a Negro charged with razor slashing, but the prisoner has escaped. Song hits of the show included "Going Home," by George Danby; "Can't You Hear Me Callin' Caroline," Merle Sigmund; "Parodies," by Sheaffer; "Down in Louisiana," by John Phillips; "I'd Give One Thousand Dollars To Be a Millionaire," by W. C. Brewer; "Copper Moon," A. D. Cobb; "Nobody," J. Q. Smith; and others.

There was a riot of comedy throughout the show and the audience was kept in an uproar from start to finish.

Dr. Downes, as chief of police, and Newton Sheaffer, his assistant, had a problem keeping order. Dutch Fader as Hypnotist, and Wayne Brewer were premier end men and put lots of pep in the show after their entrance.

When Liza Lot, a High Yellow Mammy, portrayed by Ira Brinser, brought George Safetyvalve Washington right down the aisle and up to the Court, the house was in spasms of laughter.

Liza Lot and Lew Dockstaders burlesque on "Shuffle Off to Buffalo" was one of the outstanding hits of the evening.

Another big feature of the show was a "Problem in Biology," by Downes and Sheaffer.

Hundreds of school children and citizens of Newark and vicinity viewed the crack British Flier, "The Royal Scot" at the B. & O. passenger station here yesterday at noon. The local reception to the crew and distinguished guests on board was arranged by Mr. R. S. Gallaher, local agent.

On the "Scot", which was operated under its own power by a British crew, assisted by a Baltimore & Ohio crew, was a party of high executives of the London, Midland and Scottish Railway, of which the Royal Scot is the leading train. The Scot stopped at Newark as a part of a tour on its way to the Chicago World's Fair, and was opened for free exhibition during its stay in Wilmington, where it stopped for three hours.

The locomotive Royal Scot and its

eight cars, which are examples of the finest British railway luxury equipment are painted in maroon and have many characteristics that are unusual to American eyes. Both locomotive and cars are much smaller than leading American trains. All the equipment, however, shown as part of this overseas visitor is what is regularly used in the Anglo-Scottish service between London, Edinburgh and Glasgow, with the single exception of the bell and headlight on the locomotive, which have been added for the tour. The interior of the cars is of exceptional beauty, many being paneled with rare woods.

The Royal Scot derives its name from that of the First Foot, the oldest regiment in the British Army, a regiment that is now nearly 300 years old.

HUNDREDS SEE "ROYAL SCOT" AT B. & O. STATION YESTERDAY

School Children and Newark Citizens See Crack British Flier

Hundreds of school children and citizens of Newark and vicinity viewed the crack British Flier, "The Royal Scot" at the B. & O. passenger station here yesterday at noon. The local reception to the crew and distinguished guests on board was arranged by Mr. R. S. Gallaher, local agent.

On the "Scot", which was operated under its own power by a British crew, assisted by a Baltimore & Ohio crew, was a party of high executives of the London, Midland and Scottish Railway, of which the Royal Scot is the leading train. The Scot stopped at Newark as a part of a tour on its way to the Chicago World's Fair, and was opened for free exhibition during its stay in Wilmington, where it stopped for three hours.

Ninety-seven Attend Mother-Daughter Supper Held by Newark Girl Reserves

The Newark Community Mother-Daughter supper, sponsored by the Y. W. C. A., was held in the Methodist Episcopal Church on Thursday evening, May 11th. Alice Battersby, president of the Senior Girl Reserve club was toastmistress. Barbara Lewis, a German student attending the Women's College, described the everyday life of a girl in her own country. Recitations and musical numbers were given by various members of the two Girl Reserve Clubs. Clever favors constructed from gum drops were made by the Junior Girl Reserve Club and the programs were made by the Senior Girl Reserve Club. Miss Ruth Buckwalter, Associate Secretary of the District Y. W. C. A., told of the plans for the coming season at Camp Otonka and distributed camp literature. There were ninety-seven people present.

The Clamont Girl Reserve Club had a wiener roast for their regular meeting. Games, stunts and songs added to the enjoyment of the occasion.

Representatives from the High School Girl Reserves in New Castle county met on Saturday morning with Miss Ruth Buckwalter, to plan for a "Get together" of all the old and new officers of the High School Clubs in Newark, Clamont, Rose Hill, New Castle, Delaware City, Odessa and Middletown, on Saturday, May 27th.

Various plans for club programs for the coming year will be discussed and the responsibilities of the several officers will be defined.

The Bridgeville Girl Reserves and the Women's Council entertained the Mothers at a party on Monday, May 15th, in the Bridgeville School. Games and stunts provided a social evening.

The District Y. W. C. A. Board will hold its regular May meeting on Wednesday afternoon, May 17th, at 1.30 o'clock, standard time, at the Dover headquarters office.

The Frankford Girl Reserves and the Women's Council held a Mother-Daughter party in the Home Economics room of the Frankford School on Thursday evening, May 11th. Invitations were extended also to younger girls in the town who might be interested in the formation of a Junior Girl Reserve Club in the fall. Miss Artie Lee Dye, Dean of girls in Lewes High School, talked to the group on "Choosing Vocations." She pointed out the necessity of avoiding, if possible, overcrowded vocations. She also showed how to choose a course which will fit in with various kinds of work.

A program of Mother's Day songs and two playlets was given by the Girl Reserve Club. Katie Long, president of the club, presided.

Miss Mary Wilson played two numbers by Mathison, "Echoes of the Ball" and "Star Dust," difficult numbers, in a pleasing manner as did Ruth Cole in "Minuet" by Beethoven, included in a group.

Immediately preceding the recital an interesting lecture on the life of Johann Sebastian Bach, was given for the benefit of the pupils by their teacher, of which notes were taken for reference.

Harry Maclary and Charles Cranston played cornet solos and a duet, accompanied by their teacher, Burton Cole, Jr., at the close of the piano program. A number of out-of-town people were present at the informal presentation of these young musicians, whose progress was favorably noted.

TO FORM PARENT-TEACHER ASSOCIATION

There will be a meeting in the Auditorium of the Public School on Thursday evening, May 25, at 8.00 o'clock, standard time, for the purpose of forming a Parent-Teacher Association in connection with the Newark Schools. All persons in the school district who are interested in the schools are eligible to membership. Officers will be elected and plans laid for the work of the coming year. Miss Etta Wilson of Newark who has had much experience in this and other educational work, will be present and will explain the purpose and work of the Parent-Teacher Associations. It is hoped that all those interested in the work of the schools will make a special effort to be present. The meeting will follow an exhibit of the work done through the year by the pupils of the school.

Cooch's Bridge Chapter D. A. R. Elects Officers

The 14th of May, the regular date for the meeting of Cooch's Bridge Chapter, D. A. R., and the 31st anniversary of its founding, occurring on Sunday this year, the meeting was held on the afternoon of May 12th, at the home of the Regent, Mrs. J. J. Payne Cann.

Reports of the secretary, treasurer and registrar were given. Plans were completed for the Summer Conference on June 14th, at which the local chapter is to be the hostess this year. It will be held at the home of Mrs. Frank Wilson.

With the addition of Mrs. J. Irvin Dayett, who will be Publicity Chairman, all the present officers were re-elected for the next two years. They are: Regent, Mrs. J. P. Cann; Vice Regent, Mrs. Ernest Frazer; Secretary, Mrs. H. B. Steele; Treasurer, Mrs. W. A. Blackwell; Registrar, Mrs. Ruth McKinsey; Chaplain, Mrs. Mary Foreman; Historian, Mrs. James Smith.

It was decided to again give the two prizes to the Newark Schools. The name of one new member was presented to the executive board and there was one resignation.

Following the meeting the hostess entertained delightfully.

D. A. R. REVIEWS WORK IN FIVE DAYS SESSION

Crowded into five busy days and nights the 42nd Continental Congress, National Society of the Daughters of the American Revolution held the center of attention in Washington, Monday, April 17, to Friday, April 21. In attendance were 3,045 registered delegates and alternates and in addition about 650 members as visitors.

Statesmen as Speakers

Of prominent speakers there were a number, all leaders in their subjects. Among statesmen were Senator Tom Connolly of Texas, Representative Allen H. Treadway and Representative Edith Nourse Rogers, of Massachusetts. The Cabinet of President Roosevelt was represented by Hon. Henry A. Wallace, Secretary of Agriculture and Hon. Frances Perkins, Secretary of Labor and the first woman in the United States to hold Cabinet portfolio. Then there was the D. A. R.'s own daughter, the first American woman to represent the United States abroad as a minister plenipotentiary and ambassador extraordinary, Hon. Ruth Bryan Owen, who, with all her high honors, was better known to the D. A. R. as a most inspiring speaker on "Education for Citizenship," and no less as chairman of the Program Committee.

Subjects Discussed Varied

Major General Stephen O. Fuqua, Chief of Infantry, delivered the Army address, and Rear Admiral Wat Tyler Culverius, Commandant of the 9th Naval District, spoke for the Navy. Hon. Seth W. Richardson, Assistant Attorney General of the United States, was a patriotic speaker and the greatest authority on modern Russia, Rev. Dr. Edmund A. Walsh, S. J., Vice-President of Georgetown University and Regent of the School of Foreign Service, brought "Soviet Russia and the United States" into vivid pictorialization. And with all of the statesmanship and leadership to inspire the members of the Congress there was the great thrill that ensued when a girlish young woman, Amelia Earhart, a modern pioneer of Miss Clara W. McQuown, world traveler, out of her experience told "What Our Merchant Marine Means to the Women of America."

Heard Famous Artists

On the artistic side, the Congress heard famous singers, like Benjamin de Loache, baritone of the Philadelphia Grand Opera Company, Ruby Smith Stahl, soprano; Dorothy Seegar, soprano; Geoffrey Creyke, Jr., tenor; Vera Neely Ross, contralto; Pearl Bates Morton, soprano; and instrumentalists, as Sylvia Lent, concert violinist; Arthur S. Whitcomb, and the U. S. Marine Band, the U. S. Navy Band, and the U. S. Army Band. Nor will those who heard them soon forget the "Hill Billies" who came from their mountain homes to regale the Congress as an expression of appreciation for D. A. R. assistance to their school.

Each morning during the week there was an organ recital when the massive pipe organ in Constitution Hall was used by Mrs. James Shera Montgomery, Musical Director of the Congress and a member of Livingston Manor Chapter of the District of Columbia. Other performers at the console during the week were Cullen Baxter, Edith B. Athey, and Virginia Carrington Thomas, the latter a member of Lord Sterling Chapter of New York. All of these recitals were greatly enjoyed.

Ex-Officers Extend Greetings

Four Honorary Presidents General, former presiding officers of the Continental Congress, attended the sessions, they being Mrs. Lowell Fletcher Hobart, of Ohio; Mrs. Grace Hall Lincoln Broseau, of Connecticut; Mrs. George Maynard Minor of Connecticut and Mrs. George Thacher Guernsey, of Kansas. Each gave a word of greeting to the Congress.

Ovations to President General

At the opening session, Monday forenoon, the President General, Mrs. Russell William Magna, of Holyoke, Mass., was given a wonderful ovation when she led the processional, accompanied by the Vice-Presidents General and National Officers and escorted by the white-costumed pages who bore the flags of all the States and territories. This ovation was to be repeated on numerous occasions during the Congress and the President General proved a most capable presiding officer. The Chaplain General, Mrs. Raymond G. Kimbell, of Illinois, led in Scripture and prayer, and the 42nd Continental Congress was declared formally opened at 10.30 a. m. Mrs. Arthur D. Wall led in the pledge of allegiance to the Flag, Mrs. Chas. W. Fairfax led the National Anthem and the author, Hon. Wm. Tyler Page, the American's Creed. Capt. Howard F. Clark, assistant Engineer Commission of the District of Columbia, gave welcome for the local government, and Colonel Walter Scott for the Advisory Board.

C. A. R. and S. A. R. Leaders

Mrs. Josiah A. Van Orsdel, National President, Children of the American Revolution, Mr. Frederick W. Millsap, President General, Sons of the American Revolution and Mr. Stanley Griswold Flagg, General Vice-President, the General Society, Sons of the Revolution, all brought expressions of greeting to the Congress. Mrs. Arthur D. Wall, National Chairman, led the Pledge of Allegiance to the Flag at all opening sessions and singing of the National An-

them was led by Mrs. Charles W. Fairfax, Mrs. Holt O. Fleetwood, Mrs. J. Frank Rice, Esther Holden Bibber and Gertrude Lyons.

Chairman of the standing committees responsible for the orderly procedure of the Congress reported their recommendations at the first session. Those chairmen were Mrs. Henry M. Robert, Jr., Committee on Credentials; Hon. Ruth Bryan Owen, Committee on Program and Miss Emma L. Crowell, Standing Rules and Resolutions.

The address of the President General was delivered at 11.30 and was broadcast over a nation-wide hook-up.

Officers Make Reports

During the first day's sessions reports were read by all of the officers of the Cabinet, including the Chaplain General, Mrs. Raymond G. Kimbell, the Recording Secretary General, Mrs. Henry Bourne Joy; the Corresponding Secretary General; Mrs. John M. Beavers; the Organizing Secretary General, Mrs. Frank Howland Parcells; the Treasurer General, Miss Catherine Arnold Nettleton; the Registrar General, Mrs. Stanley Forman Reed; the Historian General, Mrs. William Louis Dunne; the Librarian General, Mrs. Frank M. Dick; the Curator General, Miss Myra Hazard; and the Reporter General to the Smithsonian Institution, Mrs. Frank Phelps Toms.

Among the clergy who invoked Divine blessing upon the Congress during the week were the Right Rev. James E. Freeman, D. D., Bishop of Washington; and a member of the Advisory Board; Rev. Henry W. Snyder, D. D., of St. Paul's Lutheran Church; and Colonel J. E. Yates, D. D., Chief Chaplain, U. S. A.

D. A. R. Banner to Cathedral

A colorful ceremony was held on Monday afternoon when the President General presented the banner of the D. A. R. to the Washington Cathedral, during a service at Mt. St. Albans, where this magnificent national cathedral is under construction.

Letter From President Roosevelt

President Roosevelt had planned, together with Mrs. Roosevelt, to attend the Monday evening session, but late in the afternoon—as was so strikingly made evident the following day—the press of public business made this impossible. A letter dispatched from the White House and signed by the President, addressed to the President General, frankly stated that the President of the United States found it imperative to hold a meeting dealing with matters of high importance, and the Congress responded by rising and echoing the President General's expressions of loyal support to the President of the United States.

Committees Reported Activities

In due order, reports were received by the Congress from the score of D. A. R. committees, dealing with the business of the Society, and from Regents in all the States and Territories and Overseas Chapters. All were worthy and are elsewhere dealt with in this issue of The Bulletin.

Congress Was Harmonious

Readers of The Bulletin throughout the country will have read in their home papers, before and during the Congress, of battles impending and waging. As a matter of fact, there was some difference of opinion regarding interpretations of D. A. R. purposes in the national sense. That these differences were academic only was well attested in the proceedings of the Congress itself. It is worthy of note that never was there an appeal from any ruling from the chair, nor a single demand for a roll call vote. On but one occasion was there a division called for and then the report of the resolutions committee was sustained by an overwhelming vote.

A Noteworthy Session

The 42nd Continental Congress was noteworthy in its good fellowship; unusual in the large number of younger women in attendance as delegates and alternates, and fruitful in its promise of energetic carrying forward of constructive policies. It was a Congress to be proud of; splendid in achievement and glorious in presaging the full growth of every D. A. R. patriotic purpose.—A. C. D.

The new Vice-Presidents General elected by the Congress and the State Regents and Vice-Regents who were elected by the State Conferences were installed in office Friday afternoon. The Recording Secretary General presented the newly-elected National officers and the Organizing Secretary General the State officers, and all were confirmed by the President General in behalf of the Continental Congress. The oath of office was administered by the Chaplain General.

Two members who have given freely of time and talent were honored at the Congress by election as Honorary Vice-Presidents for life. They are Mrs. John Laidlaw Buel, of Connecticut and Mrs. James T. Morris, of Minnesota.

Vice-Presidents General elected are, Mrs. John Carroll Coulter, of South Carolina, so well identified with Tennessee D. A. R. School; Mrs. James F. Trotman, former State Regent of Wisconsin, and member of Milwaukee Bicentennial Commission; Mrs. Howard Bailey, retiring State Regent, of Missouri and one of the strong leaders of the Mississippi Valley; Mrs. Loe R. Spencer, ex-State Regent of Nebraska, well known genealogist; Mrs. Victor Lisle Warren, retiring State Regent of Maine, which State she put on the budget system; Mrs.

John W. Kirkpatrick, who just completed her successful administration as State Regent in Kansas, and Miss Helen Harman, ex-State Regent of the District of Columbia, whose administration was very progressive and brought work among the children so successfully to the front.

New State Officers

The Vice-Presidents General whose term of office expired were Mrs. James Charles Peabody, Massachusetts; Mrs. Edward Webb Cooch, Delaware; Mrs. Martin L. Sigmon, Arkansas; Mrs. Francis Cushman Wilson, New Mexico; Mrs. Charles Herbert Carroll, New Hampshire; Mrs. David D. Caldwell, District of Columbia; and Mrs. Matthew Brewster, Louisiana. All have given distinguished service to the Society as Vice-Presidents General, as they had previously ably served their states.

The State Regents and Vice-Regents who have been newly confirmed on account of election or reelection are:

Alabama—Mrs. Zebulon Judd, State Regent, Auburn; Mrs. F. K. Perrow, Vice-Regent, Anniston.
Alaska—Mrs. Clarence Olsen, State Regent, Anchorage; Mrs. W. H. Rager, Vice-Regent, Seward.
Colorado—Mrs. Emily M. Randall, State Regent, Rocky Ford; Mrs. Clyde A. Bartels, Vice-Regent, Fort Collins.
Connecticut—Miss Emeline Amelia Street, State Regent, New Haven; Mrs. Frederick Palmer Latimer, Vice-Regent, West Hartford.
Florida—Mrs. Milo Murdoch Ebert, State Regent, Lake Wales; Mrs. Guy Voorhees Williams, Vice-Regent, Miami.
Idaho—Mrs. Thomas David Farrer, State Regent, Caldwell; Mrs. F. B. Laney, Vice-Regent, Moscow.
Illinois—Mrs. Julian Goodhue, State Regent, Evanston; Mrs. Samuel James Campbell (holder), Vice-Regent, Mt. Carroll.
Iowa—Mrs. Bessie Carroll Higgins (holder), State Regent, Spencer; Mrs. Seth Thomas, Vice-Regent, Fort Dodge.
Kansas—Mrs. E. P. Pendleton, State Regent, Princeton; Mrs. Loren Edgar Rex, Vice-Regent, Wichita.
Louisiana—Mrs. James Harris Baughman, State Regent, Tallulah; Mrs. Clarence Blanchard Turner, Vice-Regent, Baton Rouge.
Maine—Mrs. Clinton Chandler Stevens, State Regent, Bangor; Mrs. Victor Abbott Binford, Vice-Regent, Roxbury.
Michigan—Mrs. James H. McDonald, State Regent, Ypsilanti; Mrs. George D. Schermerhorn, Vice-Regent, Reading.
Missouri—Mrs. Mortimer Platt, State Regent, Kansas City; Mrs. Clyde Henderson Porter, Vice-Regent,

Marshall.

Montana—Mrs. Roscoe Clarke Dilavou, State Regent, Billings; Mrs. J. Fred Woodside, Vice-Regent, Dillon.
Nebraska—Mrs. Horace Jackson Cary, State Regent, Kearney; Mrs. Frank Baker, Vice-Regent, Omaha.
Nevada—Mrs. William E. Gould, State Regent; Mrs. George G. Devore, Vice-Regent, Reno.
North Dakota—Mrs. Harley Ellsworth French, State Regent, Grand Forks; Mrs. Harold Theodore Graves, Vice-Regent, Jamestown.
Oklahoma—Mrs. Luther Eugene Tommi, State Regent, Muskogee; Mrs. Charles Layton Yancey, Vice-Regent, Tulsa.
South Carolina—Mrs. Thomas J. Mauldin, State Regent, Pickens; Mrs. John Logan Marshall, Vice-Regent, Clemson College.
South Dakota—Mrs. Halfdan Goetas, State Regent, Mellette; Mrs. Edgar Paul Rothrock, Vice-Regent, Vermillion.
Tennessee—Mrs. Willard Steele, State Regent, Chattanooga; Mrs. Edward West Foster, Vice-Regent, Nashville.
Utah—Mrs. Stephen A. Cobb, State Regent, Salt Lake City; Mrs. John Coffin Evans, Vice-Regent, Ogden.
Washington—Miss Zoe M. Beal, State Regent, Yakima; Mrs. Dan W. Bush, Vice-Regent, Chehalis.
West Virginia—Mrs. Paul O. Reymann, State Regent, Wheeling; Mrs. Gory Hogg, Vice-Regent, Lewisburg.
Wyoming—Mrs. John Corbett, State Regent, Laramie; Mrs. Thomas Cooper, Vice-Regent, Casper.
Cuba—Miss Mary Elizabeth Springer, State Regent, Vedado, Havana; Mrs. Edward G. Harris, Vice-Regent, Havana.

IDEA CO-STARS FRANCIS-BRENT

"The Keyhole," a Warner Bros. production that brings a new motion picture team in Kay Francis and George Brent to the screen of the State Theatre on May 22 and 23, is an enthralling different picture, presenting the gaiety and luxury of Park Avenue penthouses and the glamour of balmy nights under a Cuban moon, with native orchestras dispensing pulsating Spanish rhythms in every cafe to welcome Havana's pleasure loving crowds at the height of the season. A picture that offers two such outstanding favorites in the principal roles, is in itself something out of the ordinary as an attraction. The popularity of the lovely, dark-haired Kay Francis has been growing by leaps and bounds the past year, while George Brent, who flashed into the limelight only a year ago as the brilliant author in "The Rich Are Always With Us," with Ruth Chatterton, has gone steadily on making good the promise of his early performances.

Henry Ford
Dearborn, Mich.

May 9, 1933

A great thing has occurred amongst us. We have made a complete turn-around, and at last America's face is toward the future.

Three years---1929 to 1932---we Americans looked backward. All our old financial and political machinery was geared to pull us out of the depression by the same door through which we entered. We thought it simply a case of going back the way we came. It failed. We now realize that the way out is forward---through it.

Thanks for that belongs to President Roosevelt. Inauguration Day he turned the Ship of State around. Having observed the failure of sincere efforts to haul us back the way we came, he designed a new method---new political and financial machinery---to pull us out the way we are going---forward. He is clearing international obstacles out of the way; he does not stand in awe of tariffs. The people begin to feel that he does not take advice from the "interests"; that he has courage and loyalty to work for one supreme interest only---the welfare of the American people. That is a big achievement for two months in office.

And now we all look to what is coming; we grow less and less concerned with what is behind. We are looking for a hand-hold on the haul rope. Every man wants to do what he can, and all he can.

The best thing I can do for the Country is to create industry by building good motor cars. If I knew anything better to do, I would do it. Industry must be my contribution. Motor cars must face ahead to the future, like everything else. They are so much a part of the Nation's daily life that if they lag behind they hold the Country back.

Henry Ford

Corn, Another Failing Commodity

Current proposals to utilize excess corn by blending alcohol made from it with gasoline are typical of efforts frequently made to sustain the weakened market position of a failing commodity. It is the old story of time, and change, and absolescence, and the eternal battle of the old against the new.

Corn production per capita reached its highest in this country about 1879. It remained nearly at the same level until early in the present century. Since then it has declined steadily, 1930 seeing the smallest per capita production since around 1865. Per capita consumption of corn meal as human food apparently is only one-fifth what it was at the turn of the century, statistics of the U. S. Department of Commerce reveal. Back in 1899, the day of corn bread and johnny cake, each of us consumed 103.3 pounds of corn meal a year. By 1927 consumption had dropped to 22.3 pounds.

The corn situation is only a part of the larger farm problem, and a still larger economic problem. The advent of power, changing our ways and our modes of living; the improvement in communication of ideas, particularly newspaper education of a nation to better and more varied diets; the cycle of warmer winters and lessening rainfall—all these and many other forces have had a profound and pronounced effect upon the changing demand for farm products.

There is less demand for some; greater demand for others. For instance, the prune once occupied an honored place in the food column. Of late years it has been difficult to be facetious about a food selling as high as 20 cents a pound. The onion once was a social pariah. Now we consume a pound each per month. What a whale of a difference a few vitamins make!

The great swing in agricultural demand has been away from the cereals and towards dairy and poultry products, fruits and vegetables. Even the hog, whose lard fatness was the pride of the "Corn Belt," now feeds on alfalfa and runs to bacon. The corn-fed porker has been largely displaced by the pasture-fed hog. Grains are just dessert before that last long mile to the slaughter house!

The dominant materials and commodities of civilization change with every era. Not long ago our prosperity was based largely upon corn, wheat, copper, lumber, railroads, etc. Their displacement causes economic dislocation and extreme distress becomes a problem of the first magnitude throughout our entire social structure.

So the corn grower has plenty of company in his misery. And judging from recent price advances, corn's distress is no greater than that of other commodities. But the corn grower must remember that attempts, such as by enacting legislation requiring the blending of corn alcohol with motor gasoline, are not constructive. They represent merely selfish efforts to impose upon the public, and upon other industries.

American Opera Stars

The excellence and variety of the music-dramas presented in operas throughout the world have been widely acclaimed and no small measure of this success can be credited to American artists. Artists born and trained in this country have been accorded recognition in the concert halls and on Victor red seal records. Among the opera luminaries who have strengthened their hold on the music public in the last season are Lawrence Tibbett, opera's biggest drawing card, Richard Crooks, who made his debut this season, Elizabeth Rethbery and Rose Bampton, beautiful young soprano. The Metropolitan Grand Opera season this year demonstrated more than ever that the United States is growing in musical stature and that its young artists and composers are gradually coming into their own.

—OUR MOTTO

MAY 18, 1933

Charles B. Evans

Charles B. Evans, lawyer, statesman, friend, staunch supporter of the University of Delaware and loyal citizen of Newark is dead. His death, due to his serious condition, while not a surprise to his friends, nevertheless, was a shock. The people of Newark and the State mourn his loss. The hand of Death in the past few months has touched a number of prominent and influential citizens of Newark—citizens that any town can ill afford to lose. The place of Charles B. Evans, due to his intensive interest in all things with which he was connected, will be hard to fill. He has passed on—we must carry on.

Dr. Grier Hibben

The tragic death of Dr. John Grier Hibben, following an automobile accident near Woodbridge, New Jersey, will be mourned deeply in educational circles in which for many years he has been recognized as a leader.

One of his greatest achievements was the expanding of the endowment fund of the University of Princeton, during his twenty years as its president, from the sum of \$5,000,000 to more than \$25,000,000, and the construction of more than twenty-five new buildings on the college campus.

The high regard in which he was held is shown by the honorary degrees which were bestowed upon him by Pennsylvania, Yale, Columbia, Lafayette, Rutgers, Brown and other universities as tributes to his work as an administrator and executive.—Wilmington Morning News.

Newark New Century Club News

Club Hears Address on Juvenile Delinquency

Lack of Adequate Foster Homes Blamed for Delaware's High Rate

Dr. Claude Uhler, Assistant Clinical Director of Delaware State Hospital, gave a most interesting and instructive talk on Juvenile Delinquency before the Newark New Century Club Monday afternoon. Lack of an adequate system of foster homes, he said, was to blame for the high number of Delaware boys and girls in reformatories. The Industrial Schools of Delaware stand very high, especially the Claymont Industrial School for girls. He characterized the Claymont school as "almost a finishing school" where the girls have training in home economics and dramatics. The Ferris Industrial School for boys also does a fine piece of work but is not so elaborately equipped.

Dr. Uhler assured Club members that no child was ever sent to an industrial school without a thorough examination and a careful study made of his or her case and, he said, that if any other place better than the Industrial School could be thought of, that that was considered first. The really fine training and discipline which these children get in the Industrial Schools he considered good for them. Within the next three years a system of foster homes to care for children coming out of the Industrial School will probably be developed. This will be a great improvement over the present system. An elaborate inspection system and many case workers will have to be employed to make such a system effective. It costs the State \$500 per year to keep a child in an industrial school; it costs \$5 per week to place a child in a foster home. Such a system should save some money for the State and prove beneficial to the child. Lack of playgrounds and slums in Wilmington, he said, was the cause of most of the delinquency in Wilmington.

Reports were made by several chairmen of committees. Mrs. H. S. Gabriel reported that the membership committee had sent out seventeen invitations and that nine acceptances had been received to date. Mrs. G. S. Skinner reported that club notices sent to the newspapers for the year totaled 2581.9 inches. She also reported that the two scrapbooks were ready to be taken to the State Federation meeting at Wilmington this week. Mrs. R. L. Spencer, chairman of Music, and Mrs. W. R. Wilson, chairman of Welfare, also gave very interesting reports of their work for the year.

Mrs. R. L. Spencer, chairman of Music, reported that her committee had been responsible for musical numbers on 12 programs—ten at home meetings and two at reciprocity meetings at Washington Heights and at

Delaware City. The Christmas program on December 19th was arranged entirely by the Music committee. The main purpose of the committee, aside from providing special programs, has been to foster club singing and the reorganization of the Club Chorus under the very able leadership of Mrs. S. Paul Wiers. The Club Chorus has made five public appearances—three at the Club, one at Delaware City and one at the Music Week program held at the High School. There are 18 in the Chorus. Miss Nell Wilson is accompanist. Ten dollars was allotted to the Chorus last fall for music.

Mrs. Francis A. Cooch, corresponding secretary, reported upon the condition of Mrs. L. Irving Handy whose arm was broken in an auto accident last week and reported that she had written a letter of sympathy to Mrs. Whitcraft, a former member, whose husband died last week.

Mrs. S. Paul Wiers entertained the Newark New Century Club Chorus at bridge, Wednesday afternoon, at her home, West Main street.

P. T. A. NEWS

Commodore MacDonough Parent-Teacher Association held their final meeting of the school term on Wednesday evening, May 10. The following officers and committee chairmen were elected: President, Mrs. Erving E. Wolfe; first vice-president, Mrs. C. H. Keith; second vice-president, Mrs. Frances McCoy recording secretary, Mrs. Wright; assistant secretary, Mrs. William Short; treasurer, Mrs. I. Griffith Ellison; hospitality chairman, Mrs. Roy Gafford; program chairman, Miss Cassie Maria; publicity chairman, Miss Frances McAfee; lookout chairman, Mrs. William B. Crompton; membership chairman, Mrs. Erving Sparks; health chairman, Mrs. Norman Sparks.

At the meeting of Rose Hill P. T. A., Millard Keatley, health chairman, stated that over forty dollars had been spent by the association for dental care for the pupils.

Heavy Fines In Maryland for Speeding

Delaware motorists planning trips to Maryland are warned by the Delaware Automobile Association, A. M. A., 1223 Market street, Wilmington, Delaware, of drastic penalties that may be imposed for violation of the 40-mile speed limit. Instead of a \$10 to \$100 fine provided by Delaware law, motorists in Maryland may be fined up to \$1000, or imprisoned for

HISTORY OF THE NEWARK NEW CENTURY CLUB

(Continued from Last Week)

the Federal Building in Washington D. C., to the Consumer's League and the Children's Bureau in Wilmington, as well as sewing for our own Flower Hospital. In 1913 the Club served as one of the guarantors for the Chautauqua. In 1914 the Club worked for the establishment of a Home for the Feeble-minded.

The Erection of the Club House

The building of the Club House has been the greatest adventure of the Club into the business world. In the beginning many members felt that it would be too great a burden financially, and it has taken courage, perseverance and determination to put the Club House across and to reduce indebtedness to \$2,600, but this attractive and very comfortable house has repaid the Club many times over and has filled a real need in the community as well.

The first move toward a Club House Fund was made in March, 1910. Mrs. R. A. Whittingham made the suggestion and offered to take the chairmanship of such a committee. By April \$10.76 had been put aside and an entertainment given soon afterward brought the fund up to \$99.80. Money gradually accumulated until 1915 when it seemed necessary to make a permanent provision for either a building or rooms for Club use. A committee inspected and secured prices on various available lots in town but all were too costly for consideration. Finally, Mrs. S. J. Wright offered a During the war, when troops were stationed in the Armory, the Club House was thrown open to the soldiers as a recreation and a reading room. Dances were given for the boys with Club Women serving as hostesses and inviting young women whom they knew to meet the boys. At Christmas time delightful parties were given for them with Christmas trees, appropriate decorations, and good things to eat. When the Rehabilitation men were at the College following the war, the Club bought a second-hand piano for use in their hall. The basement of the Club House was used during the war and later for all kinds of Red Cross work. A large number of bandages and many garments were sent out to make our boys more comfortable. In 1920, garments were sent to the Belgians and contributions were made to the Near East Relief.

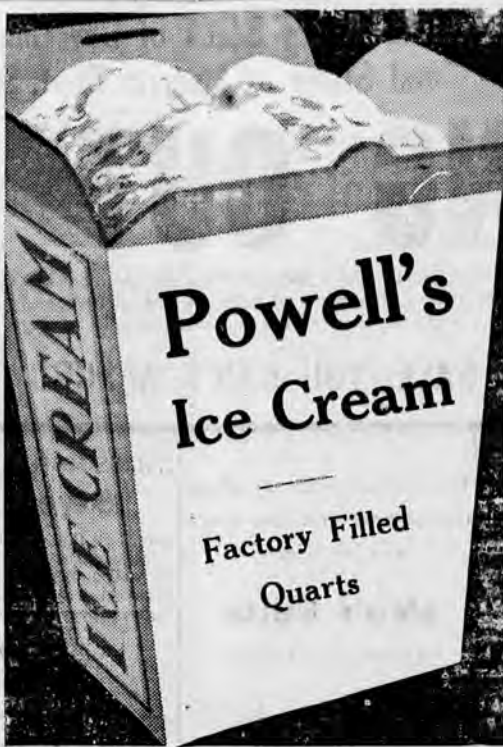

During the years the Club has made many contributions of one kind or another to worthwhile and deserving organizations. Briefly they are as follows: Financial assistance to the Firemen, and to the Boy Scouts; sponsored the sale of Red Cross Seals; mounted pictures for the State Traveling Library; gave a set of Perry Pictures to the Schools (1899); furnished Christmas

a year, or both, for driving in excess of 60 miles an hour. Between 40 and 60, the minimum fine is \$25 and the maximum \$100.

Linnaeus L. Hoopes, Executive Secretary of the Delaware Automobile Association, A. M. A., called attention to these penalties. He said that enforcement activities of Maryland State Police have resulted in numerous \$25 to \$100 fines on Delaware motorists.

"The Maryland law," said Mr. Hoopes, "fixes the absolute dead-line at 40 miles an hour, although a motorist driving at a speed in excess of 35 miles an hour on the open highway must prove, if stopped by police, that the rate of speed was not greater than was reasonable and proper. The burden of proof is placed squarely upon the motorist. If he is unable to show, for example, that a speed of 35 miles an hour was reasonable under the circumstances he may be fined from \$1 to \$100.

"If he is detected driving 41 miles an hour he may be fined \$25 to \$100. The offense is classed as a misdemeanor. A speed greater than 60 miles an hour is punishable by a fine of not less than \$100 nor more than \$1000, for a first offense. A prison penalty of 30 days to one year may also be imposed, in addition to the fine."

baskets to the needy; given books to the College Library and to the Women's Prison Library; made contributions to the erection of lot to the Club and this was accepted in January, 1915.

Although the New Century Club had been incorporated for some years, it was found that a change in Delaware State Laws required a new certificate of incorporation with a change in name to avoid confusion with former certificate. It was necessary to have seven incorporators. The Club elected Mrs. Isabel P. Wright, Miss Frances Hurd, Mrs. Hannah M. Dawson, Mrs. J. Pearce Cann, Mrs. Alice Manns, Mrs. Sarah E. Frederick and Mrs. Anna L. Neale. Mr. Charles B. Evans kindly attended to the legal work and the certificate of incorporation of the "Newark New Century Club House Company," dated April 22, 1916, was filed in the office of the Secretary of State of the State of Delaware, on April 23, 1916 and recorded with the Recorder of Deeds at Wilmington, Delaware. The first meeting of the Corporation Board was held May 4, 1916, at 7 p. m., in Newark, Delaware, with all of the seven incorporators present. Miss Hurd was chosen Chairman and Mrs. Neale the Secretary of the meeting. The officers elected for the ensuing year were: Mrs. Neale, President; Mrs. Dawson, Vice-President; Mrs. Manns, Secretary, and Mrs. Cann, Treasurer. Mrs. Tyson was the first auditor. Mrs. Neale and Mrs. Cann are still on the Corporation Board. The Club was given the controlling interest in the Capital Stock. The Capital Stock was valued at \$10.00 per share.

OBITUARY
WALTER G. FISHER

Walter G. Fisher, aged 44 years, son of William H. Fisher, and a former resident of Newark, died at his home in Gloucester City, N. J., May 13th.

He is survived by his father, two brothers, Lewis H. and John W., all of Newark, and a sister, Mrs. Mabel Lockwood, of Freneau, N. J.

ENTERTAINED IN HONOR OF SISTER

Mrs. Wm. R. Lynam entertained at her home, East Main street, on Tuesday afternoon in honor of her sister, Miss Mary H. Young. The following guests were present: Miss Louise Taylor of Oxford, Pa., Mrs. Willis Groom and Mrs. Harley Strahorn of Newport, Del., Mrs. Jessie Scott of Wilmington, Mrs. Essie Spooner, Miss Leta Waters, Mrs. John Grier, Mrs. Thomas C. Young, Mrs. James MacKenzie, Miss Mary H. Young and Mrs. W. R. Lynam.

HAPPY WORKERS MEET

The "Happy Workers" class of the Methodist Episcopal Church School will meet at the home of the teacher, Mrs. Herman W. Stradley, 144 West Main street, tomorrow evening, Friday, May 19, at 8 o'clock, advanced time.

Every member of the class is urged to be present at this, the last social meeting before Fall. Plans for the annual picnic will be made tomorrow evening.

High School Seniors Visit Annapolis and Washington, D. C.

The Senior Class of the Newark High School left this morning on the B. & O. for a three-days trip to Annapolis, Md., and Washington, D. C. They are being chaperoned by William K. Gillespie, Principal of the High School, and Miss Hess, their home room teacher.

Lodge Notes
I. O. R. M.

On last Sunday evening Minnehaha Tribe, No. 23, I. O. R. M., and Mincola Council, No. 17, Degree of Pocahontas, accompanied by delegations from Newport, Bear and Union, attended services at the Presbyterian Church. On next Sunday morning a delegation will attend services with Wawa Tribe at Ebenezer Church at 11 a. m., daylight time, and in the evening will attend Asbury M. E. Church in Wilmington, when the Tribes and Councils in Wilmington will observe St. Tamina's Day.

All members of Minnehaha Tribe, especially the degree team are requested to be on hand next Tuesday evening when a class will be adopted.

PYTHIAN SISTERS

On Friday, May 26th, the annual District Deputies Convention of Pythian Sisters of the State of Delaware will be held in Fraternal Hall. The session will start at 2 p. m. All Temples in the State are expected to attend. Supper will be served in the hall by the social committee of Friendship Temple and the evening session will start at 7 o'clock. Trusting that all members of the local Temple will be able to be present and help make this convention a success. Mother's Day will be celebrated on Friday evening of this week.

MUSICALE

On Thursday evening, May 25, 8:00 p. m., D. S. T., in Fraternal Hall, Prof. Chas. T. Edwards, with his Junior Orchestra and Piano Class, will give a musicale.

Prof. Edwards and his pupils have prepared a varied and unusual program for your entertainment and will feel encouraged in their effort to develop junior talent in Newark by your presence on that evening.

PLANNING BASKET SALE

The American Legion Auxiliary is planning to hold a basket sale for the Veterans of Perry Point sometime in the near future. Mrs. Paul Lovett, chairman of the basket sale, will announce the place and date shortly. The entire proceeds of the sale are given to the Veterans, aside from a small percentage used by the government to buy new materials.

New Express Rate for Egg Shipments

Special to The Newark Post.
Mr. W. R. Huff, superintendent of the Railway Express Agency, has just advised Mr. W. T. Derickson, director of the Bureau of Markets, of the State Board of Agriculture, that effective May 5, the Railway Express Agency will establish a commodity rate on shipments of eggs from all points in Delaware.

The new rate will be 25c per case and will apply to eggs shipped from Delaware to Brooklyn, N. Y., Elizabeth, N. J., Jersey City, N. J., Newark, N. J., New York City, N. Y., Trenton, N. J., Chester, Pa., Philadelphia, Pa., Wilmington, Del., Baltimore, Md., and Washington, D. C., and in some cases will mean the saving of 1-2c per dozen. At the present time, the express rate on a case of eggs from Dover section to New York City and Washington is 70c per case. The rate to Chester and Philadelphia is 58c, the rate to Wilmington is 47c, and to Baltimore 62c. The present rates from the Milford and Georgetown sections are practically the same as the Dover section, although the rate is slightly higher.

After May 15, the flat rate of 25c will apply to all eggs shipped from Delaware to the points mentioned above. The express agency expects to maintain the same service as they have in the past and this substantial reduction in rates should prove a real saving to the producers and shippers of eggs in this State.

COLORED PUPILS IN CONTEST

On Friday, May 12, the pupils of all the colored schools in New Castle county met on the New London Avenue School grounds for the annual Field Meet.

Newark School won the cup for the third successive year and thereby holds the cup as a permanent possession. The meet was won by 77 points as against 75 points for Middletown School.

The girls brought the dodge ball pennant to the school while the boys claimed the relays.

One interesting event was the jumping of a promising lad from the Delaware City School who was tied for a second place with James Hackett of the Newark School. Since the tie could not be broken the place was had by a toss of a coin in favor of Newark School.

Cultural Suggestions For Soy Beans

Cultural suggestions on growing of soy beans is the subject of a letter being sent to all farmers by County Agent Ed Willim, Jr., of Newark, who recommends that this legume be grown (1) for hay use as a dairy roughage or (2) a protein concentrate for home grown dairy feed or (3) for seed as a cash enterprise.

In general, writes the County Agent, the soil requirements of the soy bean may be said to be about the same as those of corn, although soy beans will make a more satisfactory growth on poorer soil than corn, provided inoculation is present.

Prepare the seed bed about the same as for corn. It should be worked well until the beans are planted. The seed bed should be firm with a light, loose covering of fine soil.

On good land apply about 200 pounds of 0-12-6 fertilizer. On poorer lands increase the amount of application. Super phosphate (acid phosphate) alone makes a good application.

Inoculation is absolutely necessary for greatest yields on land that has never previously grown soy beans. Use prepared inoculation as per directions on the container or use soil from a field of beans known to have been inoculated. For the dirt or soil method, moisten the seed with a sugar water (syrup) and sprinkle on about one quart of this soil.

For New Castle County sow the beans about two weeks after corn planting time when the ground has become thoroughly warm.

Seed at the rate of about 1 1/2 to 2 bushels per acre. Put in with a grain drill set one to two inches deep.

UNIVERSITY RECEIVES MUCH NEW EQUIPMENT

Of interest to all engineering students is the announcement made by Dean R. L. Spencer of valuable equipment which is being given to the Engineering School of the University of Delaware by the Delaware Power and Light Co. The apparatus, consisting of two oil cooled voltage regulators, valued at \$3500 each, and one vertical stoke engine, comes largely through the efforts of Mr. C. E. Taylor, chief engineer of the company, and a graduate of the University of Delaware in Electrical Engineering, class of 1911.

DR. CROOKS AT MEETING

Dr. Crooks attended a dinner of the Fullerton Club given last week at Bookbinder's Restaurant in Philadelphia. The Fullerton Club is an organization of teachers of philosophy in the vicinity of Philadelphia. Dr. Crooks takes an active part in the work of this organization.

TRANSFER OF CAPTAINS

Maj. Ashbridge received telegraphic orders, late Monday, instructing him that Captains Myers and Anderson were temporarily detailed to Fort Du Pont in conjunction with the Civilian Conservation boys' work.

DEAR TEACHERS—

Yes, dear teachers—they have inspired me to write this week. And why not? They inspire us to many worth-while things. Most of us students think of them as just teachers; ones to give us long, hard assignments and difficult tests and examinations.

When we come to think about it, however, and see the serious side of the matter, we realize the importance of teachers. Fundamentally, teachers are the Rock of Gibraltar to any school and schools are the Rock of Gibraltar to us: The youth of today, the foundation of tomorrow. It is we who must carry on the heavy burdens handed us by the youth of yesterday.

Our teachers not only instruct us, but they also advise us. We must think of them as being more than just, as we might suppose, austere judges; we must realize just what they mean to us and what a great influence they have upon us. They have gone through all we have gone through, and more. They understand what it is!

Dear teachers—yes, dear teachers! The base of the foundation we must lay for the World of Tomorrow!

Mary L. Roberts, '35.

SAFETY THEME OF ASSEMBLY PROGRAM

The assembly program for Thursday, May 11, was held by 81A home-room, under the direction of Mr. Overly. The program was as follows (it was a safety program):

Roland Anderson—"The Car."
Raymond Anderson—"The Highway."
Leo Tammi—"The Driver."
Ed. Cooch—"The Driver."
Mildred Clemens—"Eye Accidents."
Raymond Burnett—"Safety in the School."

NEW CASTLE COUNTY FIELD MEET

The New Castle County Field Meet was held at Frazer Field May 12, 1933.

	Total Point Score	Juniors	Seniors	Total
Claymont	82	35	118	
Du Pont	56	32½	88½	
Newark	52	41	73	
Middletown	23	10½	38½	
New Castle	2	13	15	

Summary of the Newark participants:

Juniors
220-yard relay, Class A—Girls: Newark, third.

RESULTS OF JUNIOR HIGH DECLAMATION CONTEST

On Thursday, May 11, the Junior High School Declamation Contest was held in the school auditorium. Doris Sheaffer, who gave "The Backseat Driver," received the first prize, which was three dollars (\$3.00); Ruth Cole, who gave "Little Sister of the Shiek," received two dollars (\$2.00), which was the second prize; and Newton Sheaffer, who gave "Fisherman's Luck," received the third prize, which was one dollar (\$1.00).

The County Contest will be held on May 19, at the Du Pont School. The four schools that will compete in this contest are Du Pont, Claymont, Middletown and Newark.

Mary E. Wilson.

THE ALUMNI CARD PARTY

The Alumni Card Party was held on Monday, May 8, 1933. The card party was held in the school auditorium.

Mary Moore.

STANDARD TESTS IN NEWARK HIGH SCHOOL

On May 9 and 10 standard tests were given in the auditorium of the High School. Tests were given in the following subjects: English for both the Junior and Senior High School; Algebra for the ninth grade; Mathematics for the twelfth grade; and Physics for those people taking the course.

Reid Stearns.

DEATH IN THE WHEAT

K. Randolph stood at the elevator door, looking down on the swirling, churning mass of wheat below, in the bin at the bottom of the ship. A sudden volume of wheat rushed into the bin and K. Randolph turned to look up the elevator shaft to see where it came from. As he did so, his foot caught in a coil of rope and he was thrown headlong into the bin. It was a long fall and when it had been completed, he was left with no breath, as it had been knocked from him. After lying there for a few minutes, he arose and began searching for a ladder or an opening, to get out. It was pitch-dark and there was a thick, choking dust given off from the wheat. It filled his nostrils and he breathed it into his lungs. Suddenly wheat began to cover his ankles and come up to his knees while the dust was choking him. He began to shout for help. He soon became hoarse. The incessant supply of wheat mercilessly continued to cover him, everytime he moved. If he stood still, he would have been sucked under, so he moved blindly about, gasping and choking. His eyes were now closed and when he opened them they burned and smarted painfully. Again and again he shouted—more faintly each time. The wheat came up to his thighs and turning, he threw himself toward the hatchway to again cry for help. K. Randolph fell and the wheat filled his pockets, sleeves, and trousers. It ran in rivulets into his mouth, they covered his face and body. The wheat was calm.

Suddenly something stirred, and a fat, purple, large-veined hand was thrust upward, but fell again, to be covered by wheat. All was still. Then, again, the wheat began swirling and churning again as in exultation of victory—which was Death.

Mary L. Roberts, '35.

STUTTER'S CAVE

It was a hot summer day, Joe exclaimed, "I wish I could find that cave, I'll bet it is cool down there."

"Well," exclaimed Jim, "there is not much chance for that, how can a cave be in solid rock?"

They were four boys, Joe Dunsey, James Holister, Jack Carr and Elmer (Stutter) Jones.

"Gosh, where's Stutter?" asked Joe. Then they heard a "H H H H Help!"

"There he is, he has fallen down a hole in a rock, give us your rope. Let's go down to get him," commanded Jack.

Soon they were down in the dark. "I'll bet there are bats and bones everywhere," mumbled Joe.

"Well, we have to find Stutter now," reminded Jim.

They found Stutter, and Stutter was safe.

"G G G G Gosh, what was that," trembled Stutter.

"Oh don't be scared. It is only a bat," assured Joe.

When they came to a blank wall, Stutter leaned against it in relief. He fell through into a beautiful cave with many colorful icicle shaped stones.

Jack picked up a bone and went through. He hit an icicle and it gave a musical sound.

"L L L L Let me out of H H H H Here," yelled Stutter.

They left the room and got diamonds and gold of the skeletons and stuffed their pockets full.

When they got out Stutter said, "G G G G Gosh, we are r r r r rich."

"Yeah, we wouldn't have been unless you had fallen in the hole," laughed Jack.

Kinsey Reynolds.

GARDENS

When spring has come, everyone is busy making plans for his or her garden. It is best to have everything planned ahead, so that when the ground is dry and warm one will know just what seeds to plant first.

Seeds will grow under different conditions, some require very warm weather while others will grow when it is quite cold. If you are planning rotation, plant the seeds that will mature first. Weeds are a great disadvantage, as they take the food from the ground that the plants need.

There are many garden enemies, such as the cabbage butterfly and European corn borer, etc., which eat our plants, but there are also many garden friends, such as the snake, toad and the little ladybug which kill and devour certain insects which destroy our plants.

Mabel Ferguson, Grade 8.

THE SCARECROW

Once upon a time there was a farmer who wanted to keep the crows away from his corn. So one day he said, "I will make a scarecrow." So the next day he made the scarecrow. Before he had the scarecrow finished the crows started eating his corn. Then he put out the scarecrow, but he forgot to put on the arms. When the crows saw he was not real, they started eating his corn again. So the next day he put out another one and he put a gun in its arms.

When the crows saw that it had a gun they said, "He surely is real now," and they flew away very fast.

Raymond Chalmers, Grade 3.

BIRDS I HAVE SEEN IN MAY

Some birds I have seen in May are the robin, yellow bird, red-winged black bird, wild canary, cardinal, and the kill d.e.r. Some have built their

nests in the hedges along the roadside. As I was walking along the roadside the other day, I saw the shell of a robin egg. This showed the robin had raised a family and was now teaching them how to fly.

Maude Morris, Grade 7.

PITTSBURGH

Pittsburgh and New Orleans both of vast commercial importance, are connected by one of the greatest water highways in the world. Never were two cities more unlike. New Orleans, near the mouth of the Mississippi with its French and its Southern population, might be termed the Paris of our country. This gay, fashionable town, with its fine opera houses, its noted restaurants, and its brilliant Mardi Gras pageants. Pittsburgh, on the other hand, at the head of the Ohio River, in the heart of a famous coalandiron region, is well named the "workshop of the world."

Many years ago, when the Governor of Virginia sent George Washington to drive the French from the Ohio valley, there stood, where the Allegheny and Monongahela rivers unite to form the Ohio River, a small fort which the French called Fort Duquesne. This fort, captured in 1758 by the British and renamed Fort Pitt, in honor of England's great statesman, William Pitt. Today the place is known as Pittsburgh, and is the center of the most extensive iron works in the United States.

Elsie McCormick, Grade 7.

MY HOBBY

One of my hobbies is collecting stamps. Most of them are on envelopes. I also collect with these first day cancellations. One went around the world on the Graf Zeppelin in 1928. It has several air mail stamps on it and some cancellations.

There are several different cancellations, like the "Birthplace of George Washington." I have all first day cancellations, from one-half cent up to ten, of Mount Vernon.

Jacqueline Ernest.

TIDINGS OF SPRING

As I was walking the other day, I saw a violet across the way; I heard a robin red breast sing; She reminded me that it was spring.

The birds were chattering in the trees, Now and then came a playful breeze, The sun was climbing above the hills, The stream nearby ran with rippling rills.

I saw a flock of daffodils gleam, I saw two doves lazily dream, A yawning owl spread his wing, He also reminded me that it was spring.

Rose Smith.

"A train just passed."
"How do you know?"
"Why, here are the tracks!"

"Tommy, can you tell me one of the uses of cowhide?"
"Er, yes sir. It keeps the cow together."

He—"I call my girl Belle because she rings me up."
Him—"That's nothing. I call mine Liberty Bell, because she's cracked."

"Has your husband any hobbies?" asked a neighbor who was calling.
"No," said Mrs. Neurich. "He has rheumatism a great deal, and hives now and then, but he ain't never had no hobbies."

Teacher—"You mean to say, Mrs. Jones, that your little boy is named 'Fertilizer Jones'?"

Mrs. Jones—"Yes, ma'am, you see, his father is named Ferdinand and my name is Eliza, and we had run out of other names."

Suitor—"I would like to marry your daughter."

Business Man—"Well, er, you can leave your name and address, and if nothing better turns up we can notify you."

TO MAKE YOU LAUGH

"Mother: 'Well, what did you learn in school today?'"
Son: "Oh I learned to say yes ma'am and no ma'am, and yes sir and no sir."

Mother: "You did?"
Son: "Yep."

Neighbor: "I saw your daughter kissing a boy last night."

Mother: "Did she succeed?"
Neighbor: "Yes."

Mother: "It wasn't her, then."

What is that which everybody has seen but will never see again?
Ans.: Yesterday.

Why are women like salad?
Ans.: Because they both need a great deal of dressing.

Why do we look over a wall?
Ans.: Because we can't look through it.

Dorothy Powell.

THE JOYS OF BEING A FRESHMAN

Freshman! Doesn't it sound thrilling, and the joys it would take millions of words to tell them all.

Latin, the first joy, is the most exciting. Even though you can't pronounce the verbs and nouns, it's fun to try. You ponder for hours over "Porto" and wonder why the Romans spoke such perfect language. But you

know as well as I, it's fun because it's new.

Then comes $x + y$ and $ab - cd$, which you have to set for hours and wonder who in the world could get a sum from $x + y$, can you guess this lesson? sure you've guessed it, it's algebra. When at last you learn to add $4 + y$ it's fun to show your friends that you can.

Besides lessons we are given parties to share with the Seniors and that's a privilege. We can boast to our friends that we have attended parties with the Seniors!

Now that I have related some of the joys of being a Freshman, I want to leave the impression that Newark High School is a nice school in which to be a Freshman. The Freshman year is the most exciting year in every one's life, because school lessons of this year are new.

Velva Bassett, '36.

NEWARK F. F. A. BOYS PROJECT PROGRAM

The major purpose of agriculture instruction is to give training to students who wish to prepare for a farming occupation that will help them in the operative work which they will need to do in the management decisions which they will need to make in the successful conduct of a farming business. It is necessary if you desire to receive this training that you as a student in vocational agriculture as a part of your school study plans and carry through a program of supervised farm practice in which you will get experience and skill in labor, business and management so necessary for success in farming.

The supervised practical work must embrace the enterprises and types of work of the kind of farming for which you are preparing, a well balanced farm business is made up of several enterprises and types of work and the farming activities of successful farmers and similarly varied. Your supervised practical work, therefore, over the time that you are in school, should include all of the enterprises and types of work that are important in the kind of farming for which you are training. This does not mean that you will need to give special attention to all the types of work every year, you should have, however, one or more major projects that represent major farm enterprises which you should follow continuously each year throughout your school course.

For our project work this year we have selected projects in the following fields: Animals and plant industries. We are using our animal projects as our major and the plant project as our minor.

The following is a list of the members with the projects selected:

Charles Lynch—Dairy, poultry, pheasants, corn, wheat.

Earl A. Melvin—Pigeons, bees, pheasants, rabbits.

Leonard Hobson—Dairy, pheasants, corn.

Robert Brown—Dairy, poultry, rabbits.

Niles Sylvester—Dairy, corn, pheasants.

William Greenplate—Dairy, corn, poultry.

James Hewes—Dairy, corn, pheasants.

Merrill Gooden—Poultry, corn, pheasants.

Putl Gooden—Swine, corn, pheasants.

Randolph Lindell—Truck, rabbits.

Wilson Worrall—Rabbits, pheasants.

Joseph Chalmers—Poultry, truck patch.

William Cole—Ducks, corn.

Elmer Crossan—Swine, corn.

George Lyman—Dairy, poultry.

Harold Lynch—Poultry, potatoes

Archie Peel—Dairy, corn.

Leonard Wollaston—Dairy, pheasants.

Fred Stanley—Poultry, pheasants.

Robert Lumb—Orchard, pheasants.

Edward Laws—Dairy, corn.

Irving Lewis—Swine.

Norman Dempsey—Poultry.

Frank Thorpe—Swine.

Edwin Guthrie—Swine.

Roland Stewart—Swine.

William Hoover—Truck patch.

Charles Wagner—Poultry.

Raymond Cochran—Ducks.

Charles Lynch and Merrill Gooden.

OUR SCHOOL

There are many different ways in which we can keep our school building attractive, both inside and out. One way we can keep it attractive is by not walking across the lawn. If everybody walked across the lawn it would have many ugly paths across it. Never take flowers from the bushes on the lawn. In the school building never leave paper in the corridors. Always put it in the waste paper basket. Don't leave apple cores or other fruits lying around the corridors.

Never leave chalk lying around so it can be broken up. These are some things we can do to keep our school building attractive.

Laura McCormick, Grade 8.

NATIONAL FEDERATION OF MUSIC

The meeting of the National Federation of Music Clubs for New Castle County Junior Clubs was held at the Y. M. C. A. building in Wilmington on Saturday, May 6, from 2.00 to 5.00 p. m.

There were many dances of different kinds in which many beautiful costumes were used. A piano sextet, duet, duo and solos. Many cities were represented. Mrs. Hastings took charge and announced the program. It is hoped that this kind of meeting will be held annually.

MY PROFESSION

My profession is painting, you know. Going about in rain or snow, Slapping it on in doorways or eaves, Making things bright to people's delight, That's my profession.

Where would we be without my profession? Cars going about in their procession All shiny and bright and painted so neat, Without my profession they would ruin the street.

Newton Sheaffer.

NEWARK'S REVIEW

1. If I were only sure of you—A. J. Gebra.
2. Hang the stuff—Latin.
3. Wild fire—Paulin Du Hadaway.
4. The Lone Star Ranger—Reid Stearns.
5. High Fences—The school house doors.
6. Fiddling Liz—Charlotte Laws.
7. Miss So and So—Betty Hudson.
8. Flapper Fanny—Sylvia Rose.
9. Oh pshaw—Mill Jarmon.
10. The Chimes of Newark—The school bell.
11. Sweet Adeline—Marjorie Nicholas.
12. Just a Little Street Where Old Friends Meet—Halls of the school.
13. Just the All American—Ethel Hauber.
14. A Boy and a Girl were Dancing—Harry Gallager and Louise Dameron.
15. Too Busy to Work—Bill Tierney.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

Lesson for May 21

JESUS ANSWERS HIS ADVERSARIES

LESSON TEXT—Mark 12:13-14.
GOLDEN TEXT—The officers answered, "Never man spoke like this man."

PRIMARY TOPIC—Talking With Jesus.
JUNIOR TOPIC—Jesus Answering His Questions.
INTERMEDIATE AND SENIOR TOPIC—The Way to Meet Opposition.
YOUNG PEOPLE AND ADULT TOPIC—How to Deal With Objectors.

1. Jesus Silences His Enemies (vv. 13-14).

The Pharisees and Herodians (v. 13-14). In order to destroy him they sought to discredit him among the people. To this end they sent representatives of both factions (v. 13).

The Pharisees contended that since God was the real king of Israel, it was not obligatory to pay taxes to a heathen king. The Herodians were supporters of Herod. They came to him with a question on their lips with this subtle question. For him to answer yes would have discredited him with the people, and to have said no would have made him liable to arrest by the Roman authorities.

a. Jesus' reply (vv. 15-17). He asked for a coin to be brought and inquired whose image and superscription it bore, declaring that those who accept the coin of Caesar should pay taxes to Caesar. In this reply Jesus escapes their trap and enunciates a principle which applies to all time and conditions as to the responsibility of Christians to civil government. Those who accept the protection and benefits of civil government should support that government. However, being a loyal citizen is not enough. There is a duty to God.

2. The Sadducees (vv. 18-27). The Pharisees and Herodians being silenced, the Sadducees came with a question which involved not only immortality but the resurrection of the body.

a. The case proposed (vv. 19-23). The law of Moses made it not only legal but morally binding in the case of a man dying without children for his brother to take his wife (Deut. 25:5). They proposed the case of a woman married successively to seven brothers. They asked whose wife she shall be in the resurrection.

b. Jesus' reply (vv. 24-26). By a quotation from the Mosaic law (Exod. 3:6), he proves the resurrection of the dead and their continued existence beyond death as human beings. He showed that marriage is for the present life only. In this respect human beings will be as the angels in the resurrection life. He pointed out that their gross error was due to two things:

- (1) Ignorance of the Scriptures (v. 24). In the very Scriptures which they professed to believe was positive proof of the resurrection (Exod. 3:6).
- (2) Ignorance of the power of God (v. 24). God is able to provide a life where there will be no death, no birth, or marriages.
3. The scribes (vv. 28-34). Perceiving that Christ had effectively answered the Sadducees, one of the scribes came with the question as to which was the great commandment. Jesus summed up man's whole duty in one word, "Love—Love to God and love to man."

11. Jesus' Question (vv. 35-37). He now turned upon his adversaries with a counter question. Its answer involves the central problem of Christian philosophy, indeed of all rational thinking. Christ's place in the scale of being is the foundation truth of all right thinking. "Is Jesus Christ man or God, is he God and man?" David spoke of the coming Messiah as both his son and God. There is but one answer to this question—the Incarnation of God in Christ.

12. Jesus Condemns the Scribes (vv. 38-40). The attitude of these people toward Jesus was not determined by insuperable intellectual difficulties, but by their moral nature.

1. They loved to go in long clothing (v. 38). This means they loved ostentation and display.
2. They loved to be saluted in public places (v. 38).
3. They sought to occupy the chief seats in the synagogues, and the uppermost rooms at feasts (v. 39).
4. They devoured widows' houses (v. 40). They lined their pockets at the expense of helpless women.
5. They offered hypocritical prayers (v. 40).

IV. Jesus' Praise of the Sacrificial Giving of the Widow (vv. 41-44). These words of Jesus reveal unto us the fact that in God's sight a gift is measured by the heart motive.

Repentance is a heart sorrow and a clean life ensuing—Shakespeare. The strongest proof of repentance is the endeavor to atone—Miss Braddon. True repentance consists in the heart being broken for sin and broken from sin—Thornton.

Keep Your Temper. In any controversy, the instant we feel angry we have already ceased striving for truth and begun striving for ourselves—Goethe.

Three Hundred and Seventy-Eight Cows Tested for Milk and Fat Production

Three hundred and seventy-eight cows were tested for milk and fat production in the 17 herds of members of the New Castle County Cow Testing Association which started its fifth consecutive year on April 1st, according to the April monthly summary made public today by County Agent Ed Willim, Jr. The average production of all the cows was 638 pounds of milk and 27.7 pounds of butterfat, while the herd of W. Lewis Phipps, of near Centerville, Del., which was highest in both milk and fat, averaged 985 pounds of milk and 30.9 pounds of fat each.

Sixty-one cows produced over 1000 pounds of milk, and 33 gave over 50 pounds of butterfat. The highest milk producing individual, a registered Holstein in the herd of John Mitchell-Frederick Samendinger, of Hockessin, produced 2184 pounds, while J. Howard Mitchell & Sons, of Hockessin, own the highest fat producer, a registered Jersey with 82.5 pounds of fat to her credit for the month.

The ten highest herds in fat production for the month were: (1) W. Lewis Phipps, Wilmington, R. D., with

a mixed herd (different breeds), averaging 39.9 pounds each; (2) F. Ed. Hitchens, Newark, Guernseys, 35.7; (3) Mitchell-Samendinger, Hockessin, Holsteins, 34.3; (4) Mitchell & Sons, Passmore, Wilmington, R. D., Mixed, 29.1; (5) George Pierson, Hockessin, Jerseys, 28.5; (6) Wilson Pierson, Hockessin, Mixed, 28.4; (7) Fred B. Martens, Elkton, Mixed, 27.5; (8) G. Smith, Middletown, Mixed, 26.3; and (10) John C. Reed, Hockessin, Jerseys, 25.5 pounds each.

In milk production the ten highest herds were: (1) W. Lewis Phipps, Wilmington, R. D., Mixed herd, 985 pounds each; (2) Mitchell-Samendinger, Hockessin, Holsteins, 982; (3) F. Ed. Hitchens, Newark, Guernseys, 759; (4) J. G. Smith, Middletown, Mixed, 715; (5) T. Harold Little, Newark, Holsteins, 713; (6) F. B. Martens, Elkton, Mixed, 709; (7) McCoy-Cook, Summit Bridge, Holsteins, 688; (8) St. Joseph's School, Clayton, Holsteins, 665; (9) Pusey Passmore, R. D., Wilmington, Mixed, 637; and (10) J. H. Mitchell and Sons, Hockessin, Jerseys, 613 pounds each.

Inflation Measure To Have Attention of B. & L. Conference

Effects of the inflation measure of the Roosevelt home-mortgage program and of the Federal Home Bank System upon home owners in the South and upon the men, women and children whose money they borrowed will have the chief attention of the Southeastern Building and Loan Conference here May 19 and 20.

William S. Quinter, of Washington, D. C., president of the Conference, points out that building and loan associations east of the Mississippi and south of the Line hold some 166,000 mortgages on homes, and that the money was provided by some 618,000 savers whose money is invested in the associations. Four hundred managers of these associations are expected to attend.

William F. Stevenson, chairman of the Federal Home Loan Bank Board at Washington, who is a native of Cheraw, S. C., Horace Russell, of Atlanta, general counsel for the Board, Dr. J. A. C. Chandler, president of William and Mary College and chair-

man of the Board of the Federal Home Loan Bank of Winston-Salem, will speak on the Home Loan Bank System. An entire afternoon will be devoted to this discussion.

Delaware, Maryland, West Virginia, Kentucky, Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi and the District of Columbia will be represented.

Building and loan association leaders who will be on the platform include George R. Wooten, of Hickory, N. C., director for the United States Building and Loan League in the district, Philip Lieber, of Shreveport, La., vice-president of the League, Morton Bodfish, of Chicago, executive manager of the national organization, and W. A. Biggs, of Durham, N. C.

The kind of homes that future loans will be made on, the necessary adjustments which home finance must make to new conditions, and the place of building and loan associations in the financial structure will be among the other topics considered.

Spray Apples and Peaches This Week

Orchardists in New Castle County are advised to supply the petal fall spray to early apples and to put the shuck spray on peaches this week or the first part of next, in the Spray Notes which are being sent to all fruit growers by County Agent Ed Willim, Jr. These notes are prepared at timely intervals for orchardists in the State by J. F. Adams, Plant Pathologist of the University of Delaware, in cooperation with the State Board of Agriculture at Dover.

The complete spray recommendations as made by Dr. Adams follows: Apples—The blossom buds opened rapidly but conditions have not been as ideal for pollination as was experienced in the lower counties. The past week has been favorable weather for scab and fire-blight. Weather predictions indicate further showers and cool weather for this week. Scab infection was found on leaves last week in the lower counties as well as cedar rust infection. Frog-eye leaf spot is now common on the juvenile leaves but this initial infection will not cause any serious disturbance. Dr. Stearns reports codling moth showing 70 per cent pupation, with only a scattering emergence. This is a signal to make sure that infested picking boxes and baskets are stored in a tight room, as well as to close the packing house. Some rosy aphids are showing up, and where they appear troublesome add nicotine sulphate (40 per cent) at the rate of 1 pint to 100 gallons of spray. The early blooming varieties are now ready for the petal fall spray and the first of next week the later varieties should be sprayed. As long as this spray can be applied before the calyx lobes close, with favorable weather prevailing, more coverage of the advancing foliage can be secured for scab protection. For this application, we recommend lime sulphur 1-50. Where Bordeaux is substituted, use the 3-4-50 strength. To each 100 gallons of spray add 3 pounds of arsenate of lead and 6 pounds hydrated lime.

Peaches—As advised in the last letter, the Shuck Spray for peaches should be applied this week-end or the first of next week. For the Shuck Spray (one-half of peach exposed), we are recommending zinc sulphate, 4 pounds, hydrated lime 4 pounds, and 2 pounds of lead arsenate to each 100 gallons of water. If Dry Mix is substituted for the zinc-lime spray, use at rate of 20 pounds per 100 gallons of water.

Brown Rot twig blight has been exceptionally prevalent in the lower counties but has not been observed troublesome in New Castle County. Leaf Curl is very prevalent and where heavy infection has occurred, it would be advisable to feed the trees to offset the loss caused through the diseased foliage which will eventually premature and drop. Frost injury has been very severe in the lower counties. Dr. Stearns reports emergence of curculio as follows for the Bridgeville area: April 11, 0; April 18, 1; April 25, 12; May 2, 18. Peach moth has shown 100 per cent pupation, and the heavy emergence will occur the first half of May.

SUMMER PASTURE

Nearly every permanent pasture and rotation pasture goes through a period of semi-dormancy during the summer. This is particularly true of pastures that are located on light sandy soils. There is usually sufficient pasture until about July 1. After this date the dairymen must resort to (1) barn feeding, of additional grain, roughage, and silage or (2) crops such as crimson clover, soybean and corn cut and fed green or (3) supply supplementary pasture crops. Barn feeding is expensive when compared to grazing and any crop cut and fed green requires considerable additional labor as well as expense. A supplementary pasture will supply the cheapest source of feed unless too much fencing has to be provided in order to graze the pasture. This type of pasture must be planned and provided for sometime ahead of the actual needs of such a pasture.

There is usually not enough rainfall during the month of July, August and early September for the growth of the common pasture grasses and consequently any supplementary pasture that is provided should be semi-drought resistant as well as come on quickly and supply palatable pasture during this period. Sudan grass fulfills these requirements the best of any crop that is available at the present time. Sudan grass has been grown here for some time in this state but has been used very little for pasture. Recently several of the Agricultural Experiment Stations have investigated the possibilities of using Sudan grass as a pasture crop and found it very satisfactory.

Sudan grass should be needed at the rate of 20-25 lbs. per acre on a well prepared bed about two weeks after corn planting time. A grain drill set to sow two pecks of wheat will give about the right rate. The seed should be covered one to two inches deep. Grazing may begin when the crop is a foot high, although a growth of two feet is preferable. The minimum time between sowing and the time the Sudan grass is ready for grazing is about 30 days. The carrying capacity will vary some with the season, but it is not unreasonable to carry one cow to an acre. It may be possible to alternate grazing between the Sudan grass and the permanent pasture and thus provide rest periods for both pastures. Sudan grass should

not be grazed after it is frosted, as there is some danger of poisoning the animals. A few instances have been reported of poisoning during severe drouth. If there is any doubt as to the possible ill effects the pasture may be tested by turning in the least valuable animal for a day before turning in the entire herd.

STRICKERSVILLE

Mrs. Eva J. Singles, who fell at her home near here recently and is now at the home of her daughter, Mrs. A. S. Houchin, is reported as somewhat improved.

Mrs. H. B. Davies served on the jury in West Chester last week. Mr. and Mrs. Howard Ayle, of Philadelphia, visited their aunt, Mrs. Eva J. Singles, Saturday.

Mr. and Mrs. A. E. Condon, of Washington, D. C., spent the week-end here.

Schools in London Britain Township closed last week for the summer vacation.

The 4-H Club met with Jean Owens last Monday. During the summer meetings will be held at the homes of the members of the clubs.

Mrs. Morgan, of Philadelphia, visited here today.

"BONDAGE"

The day may come when the machine age will overtake us and all things, including bawling infants, may have mechanical counterparts. But there still persists a feeling, at least in Hollywood, that you must have a genuine baby for a screen role and that nothing else will do.

There's no counterfeit as easily detectable in a motion picture as a doll that is being used as a baby in a scene. Somehow the wax or rag replica loses the sturdiness characteristic of the human form.

And a baby stands a better chance of getting a good start in life by being born in Hollywood than in any other city of the world for only there can an infant start earning money for his college education or to help his parents over the rough spots by contributing to the family income.

GUARDIAN'S SALE OF REAL ESTATE

By virtue of an order of the Orphan's Court of the State of Delaware, in and for New Castle County, made the third day of May, A. D. 1933, will be exposed to sale at Public Auction or Vendue, on

Saturday, May 27, 1933
AT 9:30 O'CLOCK A. M.

(Eastern Standard Time)

at the County Court House, Wilmington, Delaware, all the interest of Mary F. McDaniel, William H. McDaniel and George W. McDaniel, minors, in and to the following described Real Estate, late of George C. McDaniel, deceased, to-wit:

ALL that farm and tract of land situate in Pencader Hundred, New Castle County, and State of Delaware, bounded and described as follows:

BEGINNING for the same at a stone in the woods and running thence along other land of Jane D. Evans north sixty-six and a half degrees east one hundred and twenty-seven and ninety-two perches to a large white oak tree, a corner for George Boulden; thence by his land south thirty-four degrees east fifty-two and two-tenths perches to a stone corner for Samuel Murray; thence by his land south ten and one-half degrees West thirty-two and seventy-two hundredths perches to a stone; thence south eighteen and one-quarter degrees west sixteen and forty-eight hundredths perches to a stone; thence by land of Murray and said Boulden and crossing the old Railroad south twenty-seven and one-quarter degrees west ninety-nine and twelve hundredths perches to a stone; thence still by said Boulden south thirty-five degrees east two and seventy-six hundredths perches to a corner of land of Dr. Veasey; thence by his land south eighty-three and one-quarter degrees west ninety-five and fifty-six hundredths perches to a stone in line of land of John Crook-shanks; thence by his land and land of John Able and on the Delaware and Maryland State line and by the present bearing north three-quarters degrees east one hundred and forty-three and forty-six perches to the place of BEGINNING. Containing by a survey made November 11, 1881, one hundred and twenty-six acres, two rods, thirty-three perches of land, be the same more or less. Excepting thereout and therefrom all rights and claims of the New Castle and Frenchtown Railroad Company, if any they now have or may have in the same.

For terms of sale and full description of property, see large bills posted or address the undersigned.

Attendance will be given by SECURITY TRUST COMPANY, a corporation of the State of Delaware, Guardian of Mary F. McDaniel, William H. McDaniel and George W. McDaniel, or its attorney Edward J. Zwolak, Esquire.

Attest: Geo. R. McDougall, Clerk Q. C. Wilmington, Delaware, May 4, 1933. 5,18,2t

FOR RENT

FOR RENT—House at 119 Delaware Avenue. 5,18,4t. LIDIE D. SNYDER.

FOR RENT—Apartment, West Main street, furnished or partly furnished, as desired. Possession June 15. Apply MRS. L. R. HOSSINGER. 5,11,3t

FOR RENT—House, 7 rooms and bath. Very reasonable rent. 1,26,tf. L. HANDLOFF.

HOUSEKEEPING Apartment at 170 W. Main. Electric refrigerator, heat. Garage. Apply MRS. E. W. COOCH, Cooch's, Delaware. Phone: Newark 397-R-3. 5,10,tf.

FOR RENT—68 E. Park Place, possession immediately; 72 E. Park place, possession April 1. GEORGE DANBY, Bear, Del. 5,9,tf.

FOR RENT—Apartment, with private bath; also rooms for light house-keeping, 155 E. Main street. Apply Phone 61-J. M. P. MALCOM, 11,12,tf. 340 S. College Ave.

FOR SALE

FOR SALE—Lot 50 ft. by nearly 170 ft., nicely located near new school athletic field. WM. J. LOVETT, 133 Haynes St. 5,18,1t.

FOR SALE—Sweet potato plants. 25c per 100; \$2.00 per 1,000. Postage extra. B. W. RAUGHLEY, R. F. D. 2, Newark, Del. 5,11,6t

FOR SALE—Plants—tomato, cabbage and pepper. 100 Kells Ave. 5,11,2t

FOR BABY CHICKS, place your order now for future delivery with MURRAY POULTRY FARM, R. 2, Newark, Del. 1,14,tf.

WE HAVE a full line of Newtown Coal and Oil Brokers, also all sizes of The New Dandy Broilers. Be sure to look them over before buying. MURRAY POULTRY FARM, Newark, Delaware. 1,14,tf

LEGAL NOTICE

Estate of George W. Griffin, Deceased. Notice is hereby given that Letters Testamentary upon the Estate of George W. Griffin, late of White Clay Creek Hundred, Delaware, were duly granted unto Edgar Byron Griffin and Andrew Franklin Fader on the Fifteenth day of March A. D. 1933, and all persons indebted to the said deceased are requested to make payment to the Executors without delay, and all persons having demands against the deceased are required to exhibit and present the same duly probated to the said Executors on or before the Fifteenth day of March A. D. 1934, or abide by the law in this behalf.

Address: Edgar Byron Griffin, Kensington, Montgomery Co., Md. Andrew Franklin Fader, Newark Delaware. Andrew Franklin Fader, Edgar Byron Griffin, Executors. 4,6,10t

Legal Notice
Estate of Warren A. Singles, Deceased. Notice is hereby given that Letters Testamentary upon the Estate of Warren A. Singles, late of White Clay Creek Hundred, Delaware, were duly granted unto Charles B. Evans on the Eighteenth day of April, A. D. 1933, and all persons indebted to the said deceased are requested to make payments to the Executor without delay, and all persons having demands against the deceased are required to exhibit and present the same duly probated to the said Executor on or before the Eighteenth day of April, A. D. 1934, or abide by the law in this behalf.

Address: Charles B. Evans, Newark, Delaware. CHARLES B. EVANS, Executor. 5,11,10

Legal Notice
Estate of John Edwin Steel, Deceased. Notice is hereby given that Letters Testamentary upon the Estate of John Edwin Steel, late of White Clay Creek Hundred, Delaware, were duly granted unto Charles B. Evans on the 4th day of April A. D. 1933, and all persons indebted to the said deceased are requested to make payments to the Executor without delay, and all persons having demands against the deceased are required to exhibit and present the same duly probated to the said Executor on or before the 4th day of April A. D. 1934, or abide by the law in this behalf.

Address: Charles B. Evans, Esq., Citizens Bank Bldg., Wilmington, Delaware. CHARLES B. EVANS, Executor. 4,6,10t.

Facts for Farm Folks
Written by
AGRICULTURAL AUTHORITIES

FEEDING TURKEY POULTS

By Prof. H. D. Munroe

Place shallow feeders or boxes filled with a reliable turkey starting mash before poults as soon as they are put in the brooder. Young turkeys do not eat mash as readily as baby chicks and must be taught to eat.

It is very important that young poults be taught to eat. This can be accomplished by the feeder spending some time with them. Some turkey raisers put a few older poults in the young flock for a few days as a means of teaching the little poults to eat.

Another means of teaching all the flock to eat is the use of a moist mash.

A moist mash composed of ground alfalfa and turkey mash should be used the first few days the poults are in the brooder. Some feeders grind green alfalfa in a food chopper and sprinkle it over the mash as a means of teaching poults to eat.

Many little turkeys starve to death the first week they are under the brooder stove and it is up to the feeder to prevent this by seeing to it that they all learn to eat during the first few days in the brooder.

History Preparing Repeater

Stocks have "rizz" this month, and the sucker-investors have been chucking their money into the Wall Street ratholes where, sooner or later, it will be counted among "lost articles." When will the public learn that the unskilled speculators always lose?

Food and Drug Law Proposals Announced By Tugwell

A proposed draft revising the present Food and Drugs Act was completed today and submitted and submitted to the Department of Justice for review, it was announced by Assistant Secretary of Agriculture, R. G. Tugwell.

The most important provision is the proposed draft is the expansion of the Act to include cosmetics and to regulate advertising of foods, drugs, and cosmetics.

The new draft does not propose censorship of advertising in advance of its use. However, under its provisions false advertising may be penalized by prosecution in the Federal courts. Prosecution for false advertising will be directed against the medium in which it appears. This will put the responsibility for truthful advertising squarely upon the manufacturer, distributor, or dealer.

The truth or falsity of advertising will be measured essentially by the same standards as those employed to determine the truth or falsity of label statements.

The restrictions against adulterations have been strengthened, particularly in those instances where the public health is concerned. The requirements in regard to labeling have been broadened by the deletion of "jokers" in the present law and by providing for sufficiently full information so that purchasers may know just what they are buying.

When traffic in foods, drugs or cosmetics of any kind may be inherently harmful to public health and cannot be adequately controlled by the other provisions of the bill, the Secretary is authorized to place the manufacturers of such commodities under a license requiring the maintenance of sufficient safeguards.

A provision in the new bill authorizes the Secretary to establish food standards having the force and effect of law. The absence of such a provision in the present law, except for the limited field of canned foods, has seriously impaired the effectiveness of control and made enforcement more expensive.

The new bill defines as drugs, mechanical devices intended for the treatment of disease. It also regulates preparations and devices recommended for the correction of abnormal physical conditions which are not, strictly speaking, diseases.

ASPARAGUS AND THE LOW COST DIET

Home grown asparagus is now coming into our markets and the price is reasonable. Every homemaker should plan to use this vegetable generously in the weekly menu, says Miss Pearl MacDonald, Extension Service, University of Delaware.

Because of its dietary properties, asparagus is classed with the leafy greens (lettuce, spinach, turnip tops, kale, etc.). The leafy greens, as we know, have a special value, due to their mineral and vitamin content. They are also an excellent source of roughage. Green vegetables and milk are designated as "protective food" because they strengthen the diet at the points where it is most apt to be lacking (namely, in minerals and vitamins) and so tend to promote a state of positive health.

Asparagus may be used in many ways—in cream of asparagus soup, or buttered on toast, or on toast either with white sauce or ordinary cream heated, or as salad with French dressing.

Since asparagus seems to be a good crop this year and reasonable in cost, homemakers should plan to put up some for use next winter.

Commercially canned asparagus is one of the more expensive vegetables and many do not think they can afford to buy it. But the family may enjoy this "aristocrat of the vegetables" by canning it at home in season.

Method of canning asparagus: Have perfectly fresh asparagus, wash carefully, cut off any hard portion of the stem. Tie in bundles, place in kettle with boiling water over the lower part of stems and sever. Pre-cook 3 to 5 minutes. Or cut in 1 to 2 inch lengths and pre-cook as above. Pack hot in clean, scalded jars and 1 teaspoonful salt to the quart jar, fill jar with boiling water, put on rubbers and covers lightly, process in wash boiler 2 hours, counting the time from the point when water around the jars actually boils. Or, process for 40 minutes on the pressure cooker at 10 pounds of pressure, counting the time from the point when the steam gauge indicates 10 pounds of pressure.

When processing is complete, remove jars and seal tightly.

The pressure cooker is recommended for use in processing meat and non-acid vegetables, because with steam under pressure, higher temperatures are secured than is the case in the water bath (wash boiler) method—and the organisms which cause food to spoil are destroyed in a shorter time and more effectively.

As a safety measure, home canned vegetables (except tomatoes) should not be tasted until after being boiled 10 minutes.

25 POULTRY DISEASE SPECIALISTS ATTEND CONFERENCE

The sixth annual conference of laboratory workers in poultry disease specialists were in attendance, representing the States from Maine to as far west and south as Ohio and North Carolina. The provinces of Quebec and Ontario were also represented.

Although the control of Pullorum Disease (Bacillary White Diarrhea) was the main topic of discussion, other diseases of poultry were taken up. Dr. Justin Andrews, of Johns Hopkins, gave a very interesting paper on the control of poultry diseases, by the sprinkling of litter with a chemical disinfectant. Reports on studies made of coccidiosis were given by Dr. Patterson, of Cornell, and

Doctors Martin and Bottorff, of New Hampshire. Leucosis was discussed by Dr. Stubbs, of Pennsylvania, and Dr. Furth, of New York. Dr. L. F. Rettger, of Yale University, the scientist who first isolated the organism causing Pullorum Disease, presented papers on diseases in turkeys and chickens. Dr. E. P. Johnson, of Virginia, gave the latest information on Fowl paralysis. The conference closed with a paper by Dr. Brunett, of Cornell University, on Fowl Pox immunization of chickens and a talk by Dr. H. E. Moskey, of the U. S. Department of Agriculture, about the activities of the Food and Drug Administration in the control of misbranded poultry remedies.

Firestone PRICES ARE NO HIGHER Than Standard or Special Brand Tires

But QUALITY Is HIGHER and CONSTRUCTION Is BETTER

FIRESTONE control every step in tire making, effecting tremendous savings in buying raw materials—manufacturing in the world's most efficient factories and distributing direct to us from factories or warehouses.

These are the reasons why we can equip your car TODAY with tires of higher quality and better construction, at prices that are no higher than standard or special brand tires.

DRIVE IN TODAY — see cross-sections cut from Firestone Tires—special brand mail order tires and others. For yourself the Extra Values we give you.

Prices will surely advance again. Buy today and save money!

THE MASTERPIECE OF TIRE CONSTRUCTION

A TIRE of higher quality—greater safety—and longer mileage. It is in a class by itself. Made by master tire builders—holders of world records on road and track—first choice of drivers who risk their lives on their tires. For thirteen consecutive years Firestone Gum-Dipped Tires have won the Indianapolis 500-mile Race—the most grueling tire test known.

Don't risk your life and the lives of others another day on thin, dangerously worn, or inferior tires.

Come in today—we will give you a liberal allowance for your old tires.

REMEMBER—Your brakes can stop your wheels, but your tires must stop your car.

THE NEW Firestone SUPER OLDFIELD TYPE

This tire is the equal of all standard brand first line tires in Quality, Construction and Appearance. Sold at a price that affords you real savings.

SIZE	PRICE
4.50-21	\$5.85
4.75-19	6.30
5.00-19	7.00
5.25-18	7.65

Firestone OLDFIELD TYPE

This tire is superior in quality to first line special brand tires offered for sale by mail order houses and made without the manufacturer's name and guarantee. This is "The Tire That Taught Thrift to Millions."

SIZE	PRICE
4.75-19	\$5.65
5.00-19	6.10
5.25-18	6.85

Firestone SENTINEL TYPE

This tire is of better Quality, Construction and Workmanship than second line special brand tires offered for sale by mail order houses and others and made without the manufacturer's name and guarantee.

SIZE	PRICE
4.75-19	\$5.10
5.00-19	5.48
5.25-18	6.17

Firestone COURIER TYPE

This tire is of good Quality and Workmanship — carries the name "Firestone" and full guarantee — sold as low as many cheap special brand tires manufactured to sell at a price.

SIZE	PRICE
30x3 1/2	\$3.15
4.50-21	3.85
4.75-19	4.20

Firestone Co. To Manufacture Tires At World's Fair

When you step into the Firestone Building at "A Century of Progress" World Fair at Chicago, opening June 1, you will see an ultra modern tire factory, fully equipped, embodying the latest methods of manufacture, and actually producing Firestone automobile tires.

First in the production line is the mixing mill with its tremendous rolls "masticating" or literally chewing up bales of crude rubber just as they are received from Firestone Plantations in Liberia, Africa. It is in this mixing mill that the crude rubber is transformed by the addition of various chemicals and pigments into a commercial material suitable for use in tires.

The next operation is Gum-Dipping, in which every fiber of the cotton cords used in the tire is completely impregnated with rubber. Beyond is the calendar, a towering piece of machinery through the rolls of which a steady supply of cotton cords pass, and are coated on both sides under tremendous pressure with a layer of rubber, ready to be used as plies of the tire.

The next machine, known as the extruder, is similar to a huge meat grinder. Into the hopper compounded rubber is fed, and is forced out in a steady flow in the shape required for use as the tread of a tire. The calendar cotton cords go to the bias cutter—designed to operate automatically. It accurately cuts without waste this rubberized cord material at an angle suitable for plies of a pneumatic tire.

The next machine shows the actual building of the tire as the plies, beads, tread and the other parts of the tire converge and are quickly and accurately assembled under the deft hand of the tire builder. Automatic devices aid him in his craft to make the operation practically continuous.

Next we see the tire, in the shape of a flat band—looking not at all like a tire. Then by an intricate operation it is expanded into shape and the "air bag," a heavy rubber tube used in vulcanization, is inserted. The tire then goes back onto the conveyor—which is employed throughout the production line—and is transported to a unit of eight steam jacketed molds for vulcanization—one of the most interesting processes of modern industry.

The gleaming pistons high over in rapidly open and close the molds. Intricate thermostatic controls eliminate the slightest chance of error in temperature or time, assuring uniformity of quality hitherto unknown. Colored lights flicker to indicate the status of the operation. The rubber is entirely transformed, taking on physical properties as to strength, elasticity, endurance and resistance to weathering, heat and wear not inherent in the raw material.

The heat for vulcanization is produced in the form of steam generated in a modern gas fired boiler in the power room visible to all. During the vulcanization operation tremendous

FORGETTING TROUBLE

By "The Cracker"

We think we have troubles a plenty, and sometimes we believe they are real; but mostly they could be prevented with a different shuffle and deal. We remember the things we should not, and forget what we should recollect; we get into messes we would not, if bad thoughts we would quickly reject. Forget all the neighborhood "gabble" unless it be perfumed with praise; forget all the faults and just dabble in thoughts of men's generous ways.

Forget what's unpleasant and ugly; all that graceless, sordid, and sad; don't spend your sojourn here in hugging illusions all ragged and bad. Our lives may be sunny and happy if we but remember the best; why should we be vengeful and scrappy, why should we put thorns in our nest? Our thoughts make our lives pain or pleasure, and if with woes we are beset, be sure it is due in a measure to remembering what we should forget.

pressure on the inside of the tire pushes the tread stock out into the pattern engraved in the mold and thus produces the non-skid design. When vulcanization is completed the mold opens automatically and the tire is removed. The air bag is extracted and the tire is balanced and striped with gold. After the most rigid final inspection it goes to an automatic wrapping machine which neatly cases it in paper for shipment.

Beyond the end of the production line is an operating model of a revolutionary testing machine which shows the grueling high speeds to which tires are subjected to bring out facts and characteristics which would otherwise only be revealed by thousands of miles of service over a period of many months. This new testing

development is another check on quality as an auxiliary to test fleets and research laboratories.

Then one enters a beautiful display auditorium devoted to dynamic or safety, endurance, and performance of the tires, tubes, batteries, spark plugs, brake linings and other automotive products manufactured by the Firestone Company.

In addition to the things relating to its own industry, Firestone provides at its building several outstanding attractions which will be of scientific interest and entertainment to all who come to "A Century of Progress."

Welcome To the Moody Bible Institute During A Century of Progress Exposition

Missionaries on furlough and former students engaged in Christian work are offered student rates for room and board at the Moody Bible Institute, Chicago, when they remain in the city one week or longer. For those remaining less than a week the rate will be \$1.25 a day, entitling them to lodging and breakfast.

During June, July, September and October, the regular classes of the

Day and Evening Schools will carry on at the maximum, and all groups may avail themselves of their privileges. For the vacation period of the Institute, August 4 to September 8, when classes are omitted, a daily program is planned which includes a morning Bible study and an evening inspirational address and praise service. These hours will be taken by special teachers and preachers, whose names will be announced later.

YOUR HOME IS YOUR CASTLE

Admit only clean, constructive news by reading
THE CHRISTIAN SCIENCE MONITOR

A Daily Newspaper for the Home

It gives all the constructive world news but does not exploit crime and scandal. Its interesting feature pages for all the family on Women's Activities, Home-making, Gardens, Education and Books. Also pages for the Children and Young Folks. Vigorous editorials, an interpretation of news to the "What of the Nations" Column and "Watching the World Go By" are of special interest to men.

WE ARE READY

FOR THE BUSINESS THAT WILL DEVELOP IN 1933

Our stocks are quite complete which assures prompt delivery of orders.

Full Length Window Screens, 1 1/2 in. No. 1 White Pine, Bronze Wire. Prices are amazingly low for these best quality screens.

Screen Doors, 1 1/2 in. thick No. 1 White Pine. Lowest prices ever offered for quality doors. Phone us for prices on sizes you require.

Moore's First Grade House Paints and Moore's Barn Paints at unusually low prices.

Three-hole Posts and Rails made from West Virginia unblighted Chestnut.

Our Stocks of Lumber and Millwork are most complete and we will gladly assist you with every building problem. Call on us for catalogues or any information you desire.

Larro Feeds - Bull Brand Feeds - Armour Fertilizers - Wheeling Wire Fencing - Poultry Netting - Insect Screen Cloth - Hardware Trellises - Arbors - Gates, Etc.

Our Motto—Super Quality - First Class Service
