Mayor Sets April 5th As Date For Start Of Clean-up Drive

Special Collection of Scrap Metal, Paper Will Be Made by Newark Boy Scout Troops on Saturday, April 12

Mayor Wallace M. Johnson this week called upon all citizens, civic organizations and institutions to take part in the Clean Up-Fix Up-Paint Up campaign scheduled for the city of Newark during the week of April 5 to April 12. Pointing out that the general health and welfare of the citizens depend upon wholesome surroundings arising from good clean living conditions, Mayor Johnson called for a unified effort on the part of all citizens and industries to take part in the drive to make Newark a healthier and more attractive place in which to live, and at the same time provide the national defense authorities with the scrap metal so vitally needed for the defense effort.

The campaign is sponsored by the Newark Branch, American Association of University Women with Mrs. T. L. Cairns of that group, acting as chairman. Dick Dayton and Joel Williams are serving as assistant chairmen, and Mrs. R. O. Bausman, New Century Club, treasurer.

Members of the local Boy Scout Troops will take part in the city-wide campaign by lending their services to scrap metal and paper collection on Saturday, April 12. All residents are requested to place the scrap material along the curb so that the scouts can pick it up.

Newark Girl Scouts will aid in the drive by distributing hand bills announcing the campaign and giving the dates for the scrap collections.

Several local concerns, including Newark Lumber Company, E. J. Hollingsworth Company, and the University of Delaware, have offered the use of trucks to aid in the extra trash collection.

Members of Boy Scout Troop 70 have offered their services to help all persons on the block in which they live in the clean-up drive, and have volunteered to see that the New London Avenue recreational area is kept clean throughout the year.

A special committee has been appointed, under the direction of C. N. Taylor, to inspect the city for places which need cleaning up; to find out where help is needed for special jobs such as the removal of dilapidated sheds and fences, and will report all health and fire hazards to the city health officer and fire marshal. Members of the committee are: William Gold, Kwanis; Dr. Hugh Gollidge, Dr. C. Harold Sheaffer, Lions; and Hazel Lyman, Soroptimists.

Mayor Johnson's proclamation is as follows:

Proclamation
Whereas, the general health and welfare of our citizens depend upon wholesome surroundings arising from good clean living conditions, and
Whereas, the lives and property of our people are endangered by fire caused by the cluttered conditions in some factories, alleys and streets, and
Whereas, unity of effort is required for the future development of our community, and
Whereas, we are all dedicated to the great mobilization effort for the defense of our democratic heritage and freedoms, and
Whereas, the national defense authorities esteem a Clean Up-Paint Up Campaign as the most effective method of collecting household metal scrap so vitally needed for the defense effort.

Therefore, I, Mayor Wallace M. Johnson, Mayor of the City of Newark, hereby designate April 5, as the opening day of the CLEAN UP-PAINT UP-FIX UP PROGRAM, sponsored by the Newark Branch AAUW, and call upon all departments of the city, its commercial organizations, civic clubs, schools, churches, boys' and girls' clubs, and all other associations, and our citizens in general to take an active part in this constructive program for improvement to insure success.

This, the 27th day of March, 1952.
Mayor Wallace M. Johnson

Elementary Students May Go On Half-Day Schedule Next Year

Newark public school officials announced this week that due to the present and expected increase in population within the Newark school district, it is quite possible that a portion of the elementary school will operate on a half-day basis next year.

Wilmer E. Shue, district superintendent, pointed out that the only other alternative is to reopen the Delaware Avenue elementary building, adding that this is not a satisfactory solution in the minds of many.

He stated that in the event the split day becomes necessary, half of the elementary students will attend school in the morning and half in the afternoon. Those students that are found to be in need of additional schooling will return to school during that part of the day in which they do not ordinarily attend for special coaching.

Mr. Shue pointed out that present indications are that there will be approximately ten classes more than can be handled with present facilities by next fall. If the new Brookside development grows as fast as present plans indicate, then this figure will be increased.

It was pointed out that plans for the Brookside development include provisions for a school in the area, and Mr. Shue stated that when the need becomes apparent, it is likely that no time will be lost in starting construction of the building.

Newark Cub Scouts Get Movie Benefit

The annual theatre ticket sale by the Cub Scouts of Pack 55 will begin this weekend. The management of the State Theatre has arranged for a showing of the English production of Alice in Wonderland on April 10 and 11 and has set aside these two dates for the Cub Scouts in order for the Cub Scouts to receive benefit from tickets sold for these performances, however, it is necessary that the tickets be purchased from the Cub Scouts. Starting this Saturday, and continuing through April 9, members of Pack 55 will be selling tickets for the showing of this film which has been acclaimed by critics everywhere as one of the outstanding pictures of recent years. It is a picture that will be enjoyed by young and old alike, particularly those who find pleasure in good music, good dialogue and excellent puppetry.

This year, with more than one hundred Cub Scouts in the pack, it is more important than ever before that the ticket sale be a success so that the pack may have sufficient funds to carry on the many activities that it provides for the youngsters of Newark. The Pack Committee feels that the State Theatre has been very generous in providing an excellent film and hopes that the citizens of Newark will be equally generous in supporting cubbing by their purchase of tickets from the Cub Scouts when they call.

C., for the past three weeks, was a weekend visitor at the home of Mr. and Mrs. Earl Carney Wolven on East Cleveland Avenue. He left Washington on Tuesday for San Francisco enroute to his bomber patrol assignment in the Hawaiian Islands.

Newark Girl Scouts Will Participate In April Hobby Show

Meeting of Newark District Girl Scouts to Be Held On April 1

Newark Girl Scouts have been invited to participate in the Wilmington Hobby Show which will be held at P. S. duPont High School, April 17, 18, 19. This year scouts of the Wilmington area will have a room of their own in which to display their hobbies.

Mrs. Ernest Moyné and Mrs. William DeLong are in charge of exhibits from Newark scouts. All articles to appear in the show should be left with Mrs. Moyné by April 14.

On Tuesday, April 1 there will be a neighborhood meeting for leaders and council and troop committee members of Newark District Girl Scouts. The meeting will be held at the New Century Club at 12:30 and Mrs. Jerome Weinberg, neighborhood chairman, will preside.

The program chairman, Mrs. Ernest Moyné, plans to show a film of camp life. This film was taken by Mr. de Courneille of Wilmington, father of two scouts, who attended Grove Point and Country Center last summer. These pictures show life at our two local Girl Scout camps.

Newark Teachers Attend Music Meeting This Week

Ernest Wilder, high school music director, and Ester Fenton, elementary music supervisor, are attending the annual meeting of the National Music Educators in Philadelphia this week.

8th Graders Visit Local Bank

The eighth graders from the Newark School completed a visit to Newark Trust Company recently. E. F. Matthews, treasurer, acted as guide and explained to the boys and girls what goes on inside a bank.

The student started with the receipt of a deposit right on through until the checks deposited left the bank and the customer's account credited with

the amount. The students saw how every department operates. They were especially interested in the many types of machinery used to accomplish the present day work of a bank.

The tour was one sponsored in connection with the school program of presenting community industry in operation to the children.

Cancer Detection Clinic To Be Held Here On April 16

Additional Dates Will Be Set If Necessary; Call 3861 For Appointment

A Cancer Detection Clinic, sponsored by the Soroptimist Club, is scheduled for Newark at the New Castle County Health Unit, 137 West Main Street, on Wednesday, April 16, 1952. Appointments can be made by calling Newark 3861.

Cancer in the early stages can be cured in most cases, according to Dr. Edward F. Gilwa of the Delaware State Board of Health.

Will you be one of the thirty-five percent of cancer deaths that could have been prevented if medical care had started soon enough?

Are you afraid? Fears delay early diagnosis and a good chance for cure. Cancer is not necessarily fatal. The danger comes after it has spread through the body. The cure depends upon early diagnosis and treatment, the kind of cancer, and the location.

Could you recognize the early symptoms? The danger signals are:
1. Progressive change in form or color of any wart, mole or birthmark.
2. Any sore that does not heal, especially about the mouth.
3. Persistent hoarseness lasting more than a few weeks.
4. Painless lump or thickening, especially in the breast, lip or tongue.
5. Persistent changes in normal bowel habits.
6. Unusual bleeding or discharge.
7. Persistent indigestion or difficulty in swallowing.

City United In Opposition To Proposed Extension of Highway

University, Industry Join With City Officials In Presenting Newark's Traffic Problem To Highway Commission

In an impressive display of civic unity and concern for the future welfare of the city of Newark, a 14-man delegation of representatives of local industry, the University of Delaware, and city officials journeyed to Dover last week to personally present to the State Highway Commission objections to the state's proposed plan to extend the present dual highway from Wilmington to the junction of Capitol Trail and East Main Street.

As an alternative to this plan, the delegation requested that the commission give serious consideration at this time to the construction of a section of the proposed beltway around Newark on the north and south which has been planned to divert ever increasing traffic from the main streets of the city.

This plan calls for the diverting of the dual highway at a point about two miles east of Newark which would cause it to swing south across the Newark-Ogletown road about a mile east of the city, and then southwest past the new Brookside development until it connects with the Chestnut Hill road and on to the Newark Glasgow road. This section of the proposed beltway is an immediate necessity, according to Harry Clark Boden, chairman of the Newark Planning Commission, in that it is required to meet present traffic problems connected with the Chrysler plants south of the city.

It is this section of the proposed beltway that city officials are concerned with at the present time, the delegation pointed out to the commission, since they realize that once the dual highway is extended until it connects with Main Street, such a plan would be impractical.

A Frank Fader, past member of the State Highway Commission and a member of the Newark Planning Commission, arranged the meeting with the state group and as spokesman for the delegation, introduced the various members, including Dr. John A. Perkins, president of the University of Delaware; Charles E. Grubb, business administrator; Edward F. Lang, manager of the new DuPont Laboratory Building; C. H. Topping, DuPont Company; Irving Minett, Chrysler Corporation; Harry Clark Boden, chairman of the Newark Planning Commission; Joseph M. McVey, president of the school board; Mayor Wallace Johnson and Frank Durnall, of the Newark city government; J. Francis Neida, city engineer; Malcolm A. Dill, Land Planning Associates; Al Dolfini and William Warwick, Newark Chamber of Commerce.

Dr. Perkins, believing that the university and various industries in and around Newark should be vitally concerned with the welfare and development of the city, was largely responsible for the inclusion of those representatives at the meeting. It is his belief that these members of the civic family should actively participate in the planning for the welfare of the city.

Although no decision on the matter was made or expected at this time, Mr. Fader reported this week that the commission appeared to be impressed with the firmness of purpose and forethought of the delegation, and that serious consideration of the proposal can be expected from the commission.

Campus Fraternity Shows Civic Pride

Nineteen members of the Kappa Alpha fraternity at the University of Delaware volunteered a day's work last week to the engineering department of the city of Newark.

Ben Campana, member of the city engineering department, was in charge of the detail and assigned them to such duties as cleaning out the city garage, and storage warehouses. It had been planned to have the volunteers paint curbs, street traffic lines, and fire hydrants, but due to the rain on Saturday it was necessary to change these plans.

It has been reported that the Inter-Fraternity Council at the university is considering the proposal that all fraternities on campus take part in this volunteer work program.

Dr. Victor D. Washburn To Be Honored By Society

Dr. Victor D. Washburn, former Wilmington health commissioner, will be honored by the Delaware Division, American Cancer Society, "for distinguished service to the people of Delaware in their efforts to control cancer," it was announced today by Floyd W. Woodcock, chairman.

He will receive a cup, a medal and a certificate in a ceremony to be broadcast by WDEL-TV Monday (March 31) at 6:30 p.m. on the eve of the opening of the 1952 Delaware Cancer Crusade. The presentation will be made by Mr. Woodcock.

Wilmington C.P.A. Warns Not To Mention Mink Coats To Income Tax Investigators

"Say nothing about mink coats," was the advice given to the members of the Newark Lions Club this week in the event a representative of the Internal Revenue Bureau calls to check on income tax returns.

Bernard B. Isaacson, Wilmington C.P.A. and member of the firm Duros, Isaacson and Stolper, spoke to the members of the local club this week and pointed out to the gathering various ways in which the average taxpayer can save in his payments.

Still better advice, said Mr. Isaacson, was to say nothing at all. He suggested that the taxpayer call his C.P.A. and let him do the talking. "If you have to talk," he stated, "treat him like a human being and he will be more likely to treat you the same way. Get tough with him and he will search until he finds trouble for you."

Election of officers for the coming year will constitute the main order of business at tonight's meeting of Lt. J. Allison O'Daniel Post No. 475, Veterans of Foreign Wars, beginning at 8 o'clock, at the post home, Barksdale Road.

The following nominations were made at the March 20 meeting: Commander, Robert McCormick; senior vice commander, George Foster; junior vice commander, Frank Albright; chaplain, Alfred Maclary; quartermaster, Fred Porter; surgeon, Raymond Edwards; Bayard Robinson, Woodrow Beck; trustee, James Kelley; home committee, Curtis Morrison, Raymond Edwards, Frank Dunn, William Fanning.

Further nominations are acceptable until the time of the election.

The post announces that it is contributing twenty dollars a month toward the maintenance of the Wilmington Service Men's Center, established in the Hotel Rodney as the G I "home away from home."

All members are urged to make a special effort to attend tonight's meeting so that a truly representative panel of officers may be elected.

Delaware Personnel Alerted For Service In Recent Tornado Area

Red Cross Branch Area I reported a total of \$5061.07 at the conclusion of the second week of the 1952 campaign. Over half of the zone captains have been unable to present final returns since volunteer workers have not yet indicated that they had completed their house-to-house canvasses.

G. Cuthbert Webber, Fund Campaign Chairman for Branch Area I, pointed out that the American Red Cross within the last few days has announced an increase of 5 million dollars in the national quota to take care of the recent disaster in Arkansas and the neighboring states. Six million dollars has been allotted for use in that tornado-stricken area. Whole blood and blood plasma have been rushed to the scene of the disaster and food, clothing, and shelter are being provided by the American Red Cross to care for the victims. All key personnel in Delaware have been alerted and are standing by on 24 hour call. If they are needed, these trained workers will be sent out immediately to join the other disaster forces from nearby states who are already on the job in the affected regions.

In addition to the partial list of zone captains who have completed the soliciting and have reported gains in their returns over the 1951 totals, the following are added: A—Mrs. Carl Nelson and Mrs. Wm. Mote; B—Mrs. Russell Hyre; C—Mrs. G. T. Evans; D—T. A. Baker; E—A. W. B. Clements; F—Mrs. Richard LaFontaine; G—Nick Stoutland; H—Robert Siemen; I—22 and 23—Mrs. C. M. Cooper; J—Miss Jeannette Thoroughgood.

With the approach of the Easter season, the many coming events are centered around that observance. The churches in the hundred are preparing special services and music to celebrate the joyous Easter Sunday.

The union Good Friday services for all the churches in the hundred are being arranged for the White Clay Creek Presbyterian Church on Kirkwood Highway. These services were started through the sponsorship of the hundred Sunday School Association which is made up of these nine churches, namely, St. James Episcopal, Hockessin Friends Meeting, Red Clay Creek and White Clay Creek Presbyterian, and Ebenezer, Marshallton, Stanton, Cedars, and Hockessin Methodist. The pastors will cooperate in planning the program for these services.

The earliest American dictionary was one published by Noah Webster in 1806.

This service will be held on Friday, April 11, at 8:00 p.m. with ministers of the cooperating churches participating. A very effective candle-light service is being planned.

It was also voted at the session meeting to use the special Easter offering this year for the Session Fund. The purpose of this fund is to help meet local needs within the church and community. A number of unusual demands for relief have been made upon this fund and there is an urgent need to replenish it.

It is planned to dedicate three new stained-glass windows in the Easter service. These windows are the gifts of the late Mrs. A. Louisa Walker, the White Clay Fellowship, and the Improvement Society.

"The Resurrection" is the theme of the Walker Memorial Window which is particularly appropriate for Easter Sunday.

The March meeting of the Improvement Society was held at the home of Rev. and Mrs. James H. Bishop on Wednesday of this week. Final plans were made for the Chicken Patty Supper which will be held at church on Saturday of this week from 4:00 to 7:00 P.M.

This is the first public supper which has been held at the church in some time. Unusual interest is attached to it since the proceeds will be used to help defray the cost of a stained-glass window for the church.

The women of the church are proud to be able to use a newly-modernized and very attractive kitchen.

Next Sunday at the 11:00 a.m. service the pastor will continue the Lenten series "Along the Way With Jesus."

How many Hogs in a Ton of Grain?
 On a straight corn ration, you can't expect to get much more than 1 1/2 hogs out of a ton of grain. Corn alone simply does not have the balanced protein, vitamins and minerals needed for fast, economical gains. But when you supplement with Southern States 40% Porkmaker, you can easily get three hogs per ton of grain... and you save about two months growing time!
 Here's how the two feeding programs compare:

To Raise a	Straight Grain Ration	Balanced "Porkmaker" and Corn Ration
200-lb. Hog	24-bushels corn	11-bushels corn plus 100-lb. Porkmaker

Try 40% Porkmaker with your corn for faster gains and greater hog profits!
 Fed with grain for growing and fattening hogs — 40% PORKMAKER...cwt. \$5.77
 For pregnant sows and young pigs up to 75 lbs. 35% SOW & PIG SUPPLEMENT...cwt. \$5.94

The Sports Post

by MIT ROBERTS

I wonder how many sport fans, dyed in the wool patrons of intercollegiate, interscholastic, sandlot, semi-pro, or professional contests, realize that there is a level of athletic competition that produces at times more exciting contests than any of the aforementioned levels of rivalry—Intramural competition.

Intramural programs in our schools and colleges are not designed to bring capacity crowds, big gate receipts, or public acclaim. But for spirit, pride, the desire to excel, all out drive, and unyielding determination this unheralded rivalry in athletics is hard to top. "Brother, they're rough!"

Teams are organized while the intramural schedules are being drawn up. There is noticeable interest and enthusiasm gathering, though the organizing period is done quickest, almost secretly. Sometimes pre-season practices are held. These practices are well organized and spirited. Suddenly competition starts. Some of the poorer teams are crushed as strength begins to show. Soon there are two or three teams noticeably classier and better organized, perhaps a little rougher, also, that begin to draw away from the others in the won and lost columns. School interest in the competition grows, centering itself around the top two, three or four teams. The poorer teams lose a lot of their initial enthusiasm. Except for the possibility of upsetting one of the big guns they would be willing to save their energies for the next intramural sport season.

But the winning teams double, triple, their enthusiasm, pride and roughness. With the championship looming before their eyes the interest generated around their games is amazing. Excitement runs as high in some of the championship intramural games as it does in intercollegiate contests. Of course the crowds are small but frenzied supporters make up for the lack of quantity of cheerers with better quality noises.

The scores of the games between evenly matched intramural teams are usually low, and the play is rough. Both teams press, are tight, and are afraid of the other's offense. The scores can reach unbelievable heights when one of the stronger teams catches a weak sister in the league. Enthusiasm cannot be held back, and the loser just has to take it. What they lack in finesse they make up for in spirit and roughness.

New Laurel Device Saves Seats More Than One Way

Laurel Race Course today announced another innovation designed to add to the comfort of its patrons. The latest Laurel "first" is the adoption of a newly-patented device attached to the underpart of the grandstand and clubhouse seats which permits the occupant, if he or she so desires, the use of a foam rubber cushion for the day's sport.

To obtain the cushion, the patron merely inserts a quarter in the metal box under the seat, pushes a lever and pulls the cushion out from under the seat.

Another feature of this innovation is that it does away with the common practice of placing a handkerchief or other personal belongings on the seat to "save" it while the patron is elsewhere on the grounds.

The cushion placed on the seat by the occupant clearly shows the seat is in use by a customer momentarily absent.

planning . . . MORE POWER to provide for your future needs!

Right now, with the new Edge Moor Power Station having just started operating a few short months ago, the construction plans and specifications are being worked upon for still another generating unit to be installed there. This new unit, which will be the third in the Edge Moor Station, is on order right now and unless material shortages prevent it, we will have this larger, higher-pressure generator in operation by the fall of 1954 . . . supplying still more power to Delmarva Peninsula. Still more power for your homes, farms, stores, shops and factories . . . an adequate, dependable supply always ready to serve you at the turn of a dial or the flick of a switch. You can depend upon our system to always have ready for you all the electric power you need because one of our basic jobs is planning ahead —years ahead of the needs of all the communities we serve . . . and building MORE POWER facilities to help them grow, expand and prosper.

Baker of Best Cherry Pie In State Tells of Chicago Trip

Milmo Fox, winner of the first Delaware 4-H Cherry Pie Baking Contest, travelled to Chicago, Ill., recently to take part in the national contest. Miss Gertrude Holloway, state nutrition specialist, went along as chaperone. Milmo says that the trip was full of much excitement, adventure, education, fellowship and new experiences. But—let her tell it—

"While in Chicago we stayed at Hotel Morrison. We met a girl from each state, and they were so nice and friendly. We visited Armour and Company and there saw Marie Gifford's test kitchen, heard reports about foods, saw films, saw the famous Chicago Stock Yards and had lunch in their restaurant.

"Each girl received a plastic pinafore apron, a white cap decorated with cherries, and a plastic cherry necklace. Each of us had our own electric

range equipment—work table and the ingredients were nearby. The national contest was held in Mural Ballroom of the Hotel Morrison.

"We were thrilled to go and see the wonderful play 'South Pacific.' Miss Holloway and I went to Tommy Bartlett's 'Welcome Travelers' radio program. There we had our picture taken with Tommy and Gov. Williams of Michigan.

"The national champion is Leah Wittman, from Carlisle, Pa. She received \$150 and the electric range she used. She gave a pie to Mrs. MacArthur and one to President Truman. The four regional winners—from West Virginia, Alabama, Michigan and Montana, received \$75 and their range. All of us received \$10. Every state in the union was represented for the first time. This is a wonderful contest and I recommend that Delaware enter it again this year."

Special Assembly Offered to Students
The faculty and the student body of Newark High had the pleasure of being entertained by Mr. George Johnson, a pianist humorist, recently, in the auditorium.

Mr. Johnson, a noted American pianist, is "TOPS" in the entertainment field. He has been featured for ten years in the leading theaters and for another ten years on radio and the concert platform.

He brings to his audience concert music, authentic song, smart new comedy, and hilarious impersonations of pianists good and bad. Mr. Johnson plays everything from "Bach to Boogie," and covers every type of music known to the piano keyboard. He keeps his audience in an uproar from the start of his program to its finish.

"His hilarious impressions include 'The Piano in the Home,' 'The Lady and Her Little Boy,' 'The Old Professor,' and 'The Girl at the Dime Store.'"

Student of the Week—

Marcia Warwick, a Junior
Have you seen a flashy black Ford around town, recently, piloted by a woman (?) driver named Warwick? That's Marcia, whose personality is like her driving, flashy, all-over-town, and very likely to win you over. Born December 30, 1935, "Cla" hasn't had her license very long but she has proven herself quite a capable driver. Although "Cla" has gone to Newark schools since the first grade she also lived in Wilmington and New Jersey.

Likely to be seen anywhere, anytime in Newark, or suburbs, (of which Elkton is one) "Cla" is usually seen with Rose Duffy, Ellen Gallaher, "Gertie" Delp, Carol Meade, Eva Tibbit or "Aggie" Tierney. Among "Cla's" clubs and sports, Leaders Club, Student Council, softball, skating, and swimming, run high on her list.

Following is Marcia's list of favorites: favorite subject—gym; favorite teacher—Mr. Justin; favorite song—"Broken Hearted" (by Johnnie Ray, only); favorite food—spaghetti; favorite T.V. program—Kukla, Fran, and Ollie; and last, "Cla's" favorite pastime—chaffeurage.

"Cla's" only pet peeve is "Gussie" and all her affections seem to be toward Elkton (for this month). When asked about her future plans "Cla's" response was, "To get caught in a 'Gus' of wind."—Hm-m, I wonder.

"Cla's" opinion of clothes for school wear is as almost everyone else's, "wear anything that you happen to feel with your eyes still half shut." Marcia has quite a few hobbies; special ones are, designing clothes, mutilating her dog, and watching T.V. Marcia thinks going "steady" is okay but at present the "wide-open-field" seems to be attracting her.

Agriculture Boys' Basketball Team Wins Twice

Perhaps the farmers of Newark High know as much about basketball as farming? As of today their team stand undefeated. They have won two straight games with two to go. Middletown was wallopped to the tune of 21 to 9 two weeks ago and last week, they again defeated the same five.

The teams coached by Mr. Frank Mercer and Mr. John Leland consist of boys from junior high through senior high classes in agriculture. The boys have a practice session every Wednesday night in the school gymnasium.

The following are members of the varsity: Earl Swain, Marshall Young, Jack Smith, Jack Richards, Bob McCormick, Jim McCall, and Ferris Lee. Earl Swain was high scorer in the first game with Middletown, counting up nine points. Bob McCormick and Jack Smith both scored honors in the return game with twenty-one and eighteen points, respectively.

The J. V. (AG) team which consists of ninth grade and ten grade boys has been less fortunate in its contests thus far. They dropped their first two games but still have a chance for the 500 mark with two games remaining.

George Batchelor
George was born in Montreal, Canada, on May 13, 1935. A junior this year, George came to N. H. S. in the eighth grade after attending school in Burlington, Canada, and at Claymont High. George is taking the Academic Course and plans to be a lawyer after graduation from college. He says his favorite subject is chemistry, with U. S. History a close second. He is usually seen hustling around the gym during basketball games, holding down the position of senior manager. George is also secretary-treasurer of the Key Club. These two, plus his new job of boys' sports editor of the school paper, the Buzz, should keep him busy during any extra time he may have in school.

George is six feet, one inch tall and weighs 186 pounds. He has brown hair and grey-green eyes. His favorite sport is basketball. In his new moments of spare time, he collects stamps and coins, reads westerns and mystery stories.

ria. During the last few summers, George has worked with a woods crew in Canada. He admits that his favorite food is a nice, juicy steak. His pet peeve is the study of French verbs. George can usually be seen with members of the "clan," or driving a certain blue Buick through the streets of Newark.

Robert Kase
Bob (Mikvy) Kase was born on September 13, 1934. Bob is a senior and is a good student in all of his classes, but trigonometry is one of his hardest subjects. Bob plans to enter the University of Delaware next year where his father is director of dramatics. Bob is a member of H-Y.

Bob cuts sleep, and talks basketball all the time; this is probably what makes him one of the best ballhandlers on the Yellowjacket team. He has played forward on the varsity for two years. His favorite player was Bill Mikvy of Temple who has slumped somewhat this year. His ambition is to replace Marcus Haines of the "Globe Trotters."
