NEWARK, DELAWARE, THURSDAY, DECEMBER 17, 1931

NUMBER 47

"TOO MANY COOKS" TITLE OF BENEFIT MOVIE

It Presents Laughs, Romance, Surprise, Dippy Love Birds and Ramping Comedy Smash

"Too Many Cooks," along with short subjects, news reels, etc., will be shown at the State Theatre next Monday and Tuesday as the benefit movie for the unemployment fund of the Welfare Committee of Newark. The cast follows: Al Bennett, Bert Wheeler; Alice Cook, Dorothy Lee; Ella Mayer, Sharon Lynn; Wilson, Roscoe Ates; Uncle George, Robert McWade; Frank Andrews, Hallam Coolidge; Mrs. Cook, Florence Roberts; Mr. Cook, Clifford Dempsey; Cousin Ned, George Chandler.

William Sietter, the director, aided by snappy dialogue, a good cast and fast camera action, developed the full possibilities of the farcical situations and delivered an extremely well-rounded story.

Supporting Dorothy Lee and Bert Wheeler are such troupers as Roscoe Ates of "Cimarron" fame, Robert McWade, also a sensation in "Cimarron," Florence Roberts, Hallam Coolidge, Sharon Lynn, Clifford Dempsey, Wilson or Mr. R. T. Jones.

NEWARK SCHOOL CHILDREN TO HAVE LONG VACATION

The Newark schools will close next Wednesday, December 23, at noon, and will not open until the morning of January 4.

and fifteen others.

The excellent job of adaptation and dialogue by Jane Murfin insures a laugh a minute and a kick in every foot of film.

The committee deserves 100 per cent cooperation and the theatre should be filled both nights. Everyone attending is asked to bring a potato or orange and put it in the barrels furnished for that purpose in the lobby, or, if you prefer to give a basket of potatoes or a dozen oranges, get in touch with either Mrs. Helen Wilson or Mr. R. T. Jones.

Sixty Boys To Be Entertained By Lions Club Tuesday Evening

Sixty Newark boys will be entertained at dinner at the Washington House next Tuesday evening at six o'clock by the Lions Club of Newark. The boys will be selected by a committee and an invitation extended to them to attend. Besides being a regular

old-time Christmas dinner, each boy will receive a box of candy and a free ticket to the movies at the State Theatre. The boys will be entertained by invitation only. Anyone knowing of a deserving boy, please get in touch with Mr. D. A. McClintock.

Veterans' Play, "Sixty Miles An Hour" Given Monday and Tuesday Nights

The showing of "Sixty Miles An Hour" at the State Theatre, Monday and Tuesday nights, was witnessed by a fair audience.

The singing of Mrs. S. J. Smith, an added attraction, was also applauded.

This show was given under the auspices of the Lieutenant J. Allison O'Daniel Post of Veterans of Foreign Wars and the money cleared will be used to carry out the work being done by this post.

Christmas Services at the Methodist Church

Next Sunday will be fittingly celebrated as Christmas Sunday at the Methodist Episcopal Church. At 10 o'clock there will be special Departmental Programs rendered in the Sunday School, with Christmas Carols, and the recently organized Men's Class, with a membership of seventy-seven will try to reach the goal of 100 members. At the Worship Service at 11 o'clock there will be special music by the Senior Choir, with special Hymns and Sermon. At the Evening Services a Christmas Fantasy, "The Street of Hears," will be presented by the Junior Choir, supported by the Senior Choir. The scene is a street in Bethlehem, with Joseph and Mary, excluded from the Inn trying to find the hospitality of some "heart" to receive them. Ultimately they succeed and all goes well. This should prove a very pleasing and helpful service and the general public are invited to enjoy with us this celebration of the Christmas.

There will be special music and costumes, and during the day offerings will be received for the "Building Fund," the Unemployed, the Straybridge Home for Boys, the Babies' Hospital and World Service. Help us to enjoy this great day and enjoy it with us!

DR. WALTER HULLIHEN SAILED FOR EUROPE LAST TUESDAY

Dr. Walter Hullihen, president of the University of Delaware, sailed from New York on Tuesday night of this week for Europe to complete plans for extending the University of Delaware Foreign Study Plan in Germany with the class that will be sent abroad next July. This plan has been in operation for several years but students so far have only been sent to France. In the class sent to France for a year last July there were about eighty students from thirty to forty different colleges and universities throughout the country.

What cost there is attached to the plan outside of what the students themselves pay is contributed by private parties and is not appropriated by the State or from other university funds.

CONTRIBUTES XMAS TREES

Through the generosity of Mr. Henry Mote, who for several years has helped Santa out by furnishing Christmas Balsam Fir trees for him to trim, contributed this year a fine surprise to the second grade room of the Elementary School.

BUSINESS MEETING TO BE HELD IN ACADEMY BUILDING

The weekly meeting of the Business and Professional Women's Club was held in the High School Tuesday night. Next Tuesday night, December 22, a business meeting will be held at the Academy Building at 7:30 o'clock. Will all those who desire to become members please be present, also all who are members, as there will be a lot of business to transact.

NATHAN DAVIS ENTERTAINS NEWARK FIREMEN

Nathan Davis, who returned the latter part of last week from a gunning trip in Pennsylvania, brought home a very nice doe deer and tendered a dinner of venison to twenty-five members of the Aetna Fire Co. in the fire house, which was enjoyed by all.

A vote of thanks was tendered Mr. Davis on his thoughtfulness.

BUSINESS MEETING TO BE HELD AT HOME OF REGENT

At the meeting of the Head-of-Elk Chapter, held at the home of the Regent, Mrs. Irvin T. Kepler, the first anniversary of the organization of the chapter was celebrated.

Reports of officers were read and other routine business transacted. A letter was received from the National Cathedral Association, acknowledging the gift of money from the chapter.

Moving pictures were shown by Mr. and Mrs. Kepler of scenes taken at the presentation of two flags, several months ago. There were also views of the Soldiers and Sailors Monument on the Court House yard in Elkton, taken on Decoration Day.

NEW CENTURY CLUB

The regular meeting of the New Century Club will be held on Monday. The speaker will be Dr. Helena Draper, president of the State Federation of Women's Clubs. An interesting program will be given as follows: Solo, by Mrs. Paul Musselman; reading, by Mrs. Alex Cobb; piano solo, by Mrs. Paul Wiers; solo dance, by Miss Doris Smith.

Tea will be served by the hospital committee, of which Mrs. Geo. Rhodes is chairman.

CHRISTIAN ENDEAVOR NEWS

At the Newark Christian Endeavor Society, on Sunday, Miss Elizabeth Tiffany will lead the 6:45 p. m. meeting. Discussion will center around the topic, "Christian Messages in Literature." Some fifteen characters are in the caste of Edna Randolph in the play, "The Little Boy Nobody Wanted," which will be presented by the Christian Endeavor Society on December 29, 1931.

LIVE AND LET LIVE

"Little dead Christmas trees all over town, No use to anyone, leaves turning brown. If you had planted us, we'd have tried hard To be living Christmas trees right in your yard Dear little Christmas tree, we didn't know That you were just longing to live and to grow, Else we'd have planted you; Er—well, maybe so!"

"Why not have a living Christmas tree in your home this year," says Kate Henley Daugherty, County Home Demonstration Agent and President of the Newark Garden Club. "Instead of the little dead trees all over town to be hauled off by the trash man to live no more, why not get a smaller spruce, fir, pine, etc., and put it in a large pot or box and decorate this for your Christmas tree? Enjoy the freshness of the green tree in your home until spring, at which time it can be planted in the yard to beautify the home grounds."

"The continual cutting of our wild evergreens will, within a few years, completely destroy the beauty of our Delaware woods," continues Mrs. Daugherty. "The cost of a live Christmas tree is very little more, especially when one considers how fresh and green it will keep and the fact that it later will be useful in beautifying the landscape."

BATTERY E HAS ANNUAL CHRISTMAS DINNER TREAT

Prominent Delaware Men Attend and Make Addresses

The annual Christmas dinner of Battery E, National Guard of Delaware, Captain H. Wallace Cook, Commander of the Battery, as toastmaster, was held in the Armory, Tuesday evening.

The guests present were: Lt. Governor Henry T. Hazel; Adj. General Weller E. Stover; Lt. Colonel Geo. J. Shulz, of Hartley; Major S. B. I. Duncan, New Castle, Commander Officer 2d Battalion; Captain Parke W. Huntington, Chaplain 198th Coast Artillery; Mayor Frank Collins; George Danby, President Newark Lions Club; Colonel S. J. Smith, Chaplain, Veterans Foreign Wars; Fred Gehrdt, Delaware Ledger; and Capt. J. R. Downes; and Captain J. Lester Scotten, American Legion.

Lt. Governor Hazel presented the men of the rifle team with medals for making first place in the Class B match of the State Rifle matches. The men on the team are Captain H. Wallace Cook, 1st Sgt. John L. Sullivan, Sgt. Walter C. White, Corp. James Hatfield, and Private 1st Class Irving I. Klein.

In addition to medals to the team, Lt. Governor Hazel presented a medal to Captain Cook for making 1st place in the 200-yard offhand match, to Sgt. Sullivan for 1st place, 300 yards rapid fire match, to Private 1st Class Klein for 3d place medal, 1000 yard match, and to Sgt. White, a bronze medal for placing in individual pistol matches.

Shorty Chalmers Gives His Views Regarding Injuries In Football

An article, prepared by Bryan Morse of The Washington Herald, headed "Officials Here Uphold Football in Herald Gridiron Symposium," containing opinions of various college and high school officials, coaches, graduate managers, editors of college weeklies, etc.

Among those whose opinions were asked was our own "Shorty" Chalmers, under the following heading:

Old Line Leader Merely Sustained Few Bruises

Shorty Chalmers, Captain Maryland University: "I have played through my scholastic and college career with great enjoyment without more than a few bruises that come in any man's game. I fail to see the undue risk in football if discerning men are in charge."

DR. T. B. MOORE ELECTED DENTAL HEAD

At the annual meeting of the Hartford-Cecil Dental Association, Dr. T. B. Moore, of Rising Sun, was chosen president for 1932 and Dr. Paul Wilhelm, secretary and treasurer.

TRUSTEES TO GIVE XMAS TREAT

The Trustees of the Cherry Hill Alms House will give the residents their customary Christmas treat on Tuesday, December 22. Contributions are requested from all residents of Cecil County.

UNDERGOES OPERATION

Miss Katherine Alexander, younger daughter of Mr. and Mrs. Edward T. Alexander, of Elkton, sustained a successful operation Friday at the Delaware Hospital in Wilmington and is now improving very satisfactorily.

DUCKING SEASON CLOSED

The open season for migratory wild fowl closed at sunset Tuesday. The warm and foggy weather prevented the season from furnishing much sport. The upland season, which closes December 31, has been good as a general thing throughout Maryland.

PROF. H. K. PRESTON APPOINTED DELAWARE CHAIRMAN OF THE AMERICAN ENGINEERING SOCIETY

Delaware Engineers Named to Aid Industry

Organization of a Delaware Committee is announced by the American Engineering Council, which is directing a nationwide movement of engineers to increase and stabilize employment.

Prof. H. K. Preston, Head of Department of Theoretical and Applied

will direct the engineering effort throughout the country.

"It is believed," says an announcement by the Council, "that work on public projects for which appropriations have been made can be materially speeded up. It is further believed that a careful canvass made throughout the country would bring to light a sufficient amount of necessary work when financed to provide employment during the next six months or more for a very large number of the unemployed. This necessary work can be financed without great difficulty."

The Delaware engineers will participate in the national work program, the aim of which is to check up on all governmental projects, fix the responsibility for delays, and take steps to bring about immediate action.

The engineers will make a canvass to determine what needed work can be done this winter, such as road and street repairs and construction, removal of traffic hazards, and cleaning, repairing, and remodeling public and semi-public buildings and grounds, as well as such larger undertakings as grade-crossings where they may be expeditiously initiated.

Plans, specifications, and estimates for these jobs will be prepared by engineers, who in cooperation with local officials, relief organizations, and prominent citizens, will provide necessary means for releasing the work.

"The American people," the Engineering Council declared, "have been greatly disappointed because public developments have not served the useful purpose they anticipated in relieving unemployment."

"They have been disappointed notwithstanding expenditures for public works by all governmental agencies have been approximately 30 per cent higher in 1931 than in 1930 and the total amount appropriated according to the best information available was \$530,455,000."

"Despite this increased expenditure it is commonly believed there have been unnecessary and inordinate delays, and much more work should have been opened. Much of the delay has been due to the public, selfish interests, and political considerations."

PROF. HOWARD K. PRESTON

Named Delaware Chairman of American Engineering Council.

Mechanics, University of Delaware, Newark, has been named chairman of the Committee, which will, in addition to cooperating with the industries, attempt to hasten public works projects, Federal, state, county, and city. John S. Shaw, manager of the Hercules Powder Company, Wilmington, will serve as vice chairman. Other members are: I. B. Finkelstein, Wilmington; William B. Foster, Wilmington; William M. Francis, Wilmington; F. G. Tallman, Wilmington; A. J. Taylor, Wilmington; S. N. Van Trump, chief engineer, Water Department, Wilmington; F. A. Warburg, du Pont Ammonia Corporation, Wilmington; F. J. Chesterman, of Pittsburgh, vice-president and general manager of the Bell Telephone Company of Pennsylvania, is chairman of a national committee which

MAN SERIOUSLY INJURED IN AUTOMOBILE ACCIDENT

About three o'clock Tuesday morning a serious accident occurred at the sharp curve between Cecilton and Warwick, when a car driven by Clarence C. Cole, of Lester Manor, Va., failed to negotiate the curve and crashed into a pole. Two brothers of the driver, Daniel Cole, aged twenty-two, of Preston, Md., had his skull fractured, and Andrew Cole, aged seventeen, of Wilmington, had a leg fractured. The American Legion Ambulance of Smyrna, took the injured men to the Delaware Hospital, in Wilmington, where Daniel Cole was reported very seriously injured.

The Delaware police saw that the injured men were taken to the hospital and then turned the case over to Officer Towers, of Maryland. He brought the driver before Police Justice Manly Drennen, at Elkton, Monday afternoon. Mr. Cole admitted that he had not been over the road for some years, and driving 35 or 40 miles an hour, did not notice the curve in time to slow down sufficiently. He was fined \$5 and costs for reckless driving.

CECIL POST, AMERICAN LEGION, TO TREAT CHILDREN

Cecil Post, No. 15, American Legion, will again sponsor the annual community Christmas tree and treat for the children of Elkton on Christmas Eve. The committee in charge is composed of John K. Burkley, chairman; Calvin Fox, Charles A. Weldin, John J. Maloney and David J. Randolph.

Those who wish to help defray the expense of the affair should send their contributions to Chairman Burkley.

LOCAL CONTRACTOR BRINGS HOME FINE HUCK DEER

Mr. W. Rex Willis, a contractor of Newark, proudly exhibited a 183-pound, 12 prong buck which he brought down on a recent hunting trip at Bryan Hill, Cameron County, Pa., when he and Miss Katherine Wollaston were the guests of Mr. and Mrs. E. D. Mumford. Charles G. Smith, Christiana; Robert L. Gonce, Elkton; Kenney C. Whiteman, George D. Plummer, Newark, assisted in skinning the big buck at a party at Mr. Willis' home, after which refreshments were served.

Christmas Services at Presbyterian Church Sunday

Christmas services will be observed at the Presbyterian Church this coming Sunday, December 20. There will be special Christmas music both at the morning service and at the evening service; an enlarged choir in the morning, and the Women's chorus at night. Mr. Hallman will deliver his Christmas sermon at each service.

ELEVEN CASES REPORTED QUARANTINED BY VISITING NURSE'S REPORT

The visiting nurses report for the month of November is as follows:

Visits, 257; nursing, 146; advisory, 111. Kinds of cases—Prenatal 6, visits 6; maternity 1, visits 10; heart disease 2, visits 18; kidney disease 5; visits 32; intestinal diseases, 3 visits 21; gall bladder 1, visits 1; La Grippe 2, visits 8; infection 2, visits 11; accidents 2, visits 10; miscellaneous 28, visits 61. Treatments 49.

State work—Held 1 tubercular clinic first Monday of month, 1 present; visited 5 tubercular families. Held 4 health clinics Wednesday from 1.00 p. m. to 4.30 p. m., average present 55.

Quarantined—Whooping cough 8, scarlet fever 1, mumps 1, chicken pox 1.

Released—Whooping cough 10, scarlet fever 2, mumps 1, chicken pox 1.

OVER SEVEN HUNDRED ENROLLED AT UNIVERSITY

Reports submitted to the Board of Trustees recently by Dr. Walter Hullihen, president of the University of Delaware shows the total enrollment to be 751, of which number 471 are in Delaware College and 289 in the Women's College. Of this number 40 per cent are from Wilmington, 20 per cent from rural New Castle, 8 per cent from Kent county, and 12 per cent from Sussex county. The number from outside the state is but 20 per cent of the total enrollment.

NOTICE TO OUR ADVERTISERS

For the benefit of Christmas Advertisers THE NEWARK POST will be printed on Tuesday of next week. All Advertisers and Correspondents are asked to cooperate with us and get their copy in early.

Another Hoover Plan

The President's Conference on Home Building and Home Ownership which met in Washington last week, with its 2,000 delegates, was the largest in point of members and perhaps the most important in point of purpose of any that has been held in Washington during this administration.

It was called for the purpose of considering a matter of national import which for a long time has been very near to the heart of President Hoover. He realizes more keenly perhaps than any of our other Presidents have done the vital importance of promoting home ownership among our people. "The sentiment for home ownership," he said in his eloquent address opening the Conference, "is so imbedded in the American heart that millions of people who dwell in tenements, apartments and rows of solid brick have the aspiration for wider part in the ownership of homes." He reminded the conference that those simple ballads such as "Home Sweet Home," "My Old Kentucky Home," "My Little Gray Home in the West," were not written about tenements or apartments, that the people "never sing songs about a pile of rent receipts."

While the purpose of the conference is to study and advise upon many practical questions, such as materials, building regulations, zoning, taxes, financing and the like "yet behind it all," the President declared with a thrill of emotion in his voice, "every one of you here is impelled by the high ideal and aspiration that each family may pass their days in the home which they own, but it may nurture it as theirs, that it may be their castle in all the exquisite sentiment which it surrounds with the sweetness of family life. This aspiration penetrates the heart of our national well being. It makes for happier married life, it makes for better security, it makes for courage to meet the battle of life, it makes for better citizenship."

Committees appointed by the President have been studying all the questions related to home building and home ownership for more than a year and the Conference came together to discuss the reports of those committees. Men and women were here from every state in the Union and there is no doubt that they will carry back to their respective states an inspiration and an aspiration that will be a powerful constructive influence for many years to come.

President Hoover will be accounted great along many lines of activity by the future historian of our times; but when his record is completely summed

up it is likely that he will stand out as the Greatest Humanitarian of his generation.

Fry sausage cakes and canned pineapple, and serve them one on top of the other. The tartness of the pineapple offsets the rich flavor of the sausage.

Most poultrymen use the tobacco-dust treatment for large intestinal roundworms in the poultry flock, but there is a new treatment which is quicker and more effective, says the U. S. Department of Agriculture. It is a dose of tetrachlorethylene. One cubic centimeter is given in a gelatin capsule.

A CORRECTION

The publicity chairman of Milford Cross Roads School desires to state that there was an unintentional omission in her school notes last week. A cents of heavy infestation around ferred," by Paul Ayars, should have appeared under the Christmas program heading.

Elk Mills

Mrs. John Houck spent Saturday in Wilmington, Del.

W. P. Wright attended the Board of Directors meeting of the Mutual Fire Insurance Company of Maryland, in Rising Sun.

Elizabeth McVey Miller spent the week-end with W. M. Parker, in Washington.

Mr. and Mrs. Thomas N. Kay had as their guests Mr. Sylvester Preston and family.

Mr. and Mrs. Ernest Kay spent Saturday in Wilmington, Del.

Ernest Miller was entertained at dinner, Sunday, by his cousin, T. Price, of North East.

Appleton

Mr. Paul Burke is recovering from his recent accident. Several weeks ago he was badly burned by gasoline while working with his car.

Misses Ida and Evelyn Kimble were among the guests entertained by the Misses Martha and Lydia Foard, of Newark, at their home on December 5. The other guests present were Mrs. Ernest Frazer, Mrs. Ella Gibson, Mrs. Frank Brown, Misses Isabel Scott and Ella Steele.

It is with deep sorrow that we note the death of Mrs. Harry Bunting last week. Her funeral was held on Sunday, December 13, from her late home, with interment at Head of Christiana Cemetery. She was loved by all who knew her and will be very much missed. She is survived by her husband and one son, Warren, and three sisters.

Mermaid

Dr. Ernest Leroy Baker, of University of New York, delivered his final lecture on child psychology in the Hockessin school Tuesday evening. Dr. Baker has given this series of three lectures under the auspices of the Adult Education Bureau of Delaware.

The local class, comprising adults from the North Star and Hockessin districts, has an enrollment of 35 members.

The Young People's Societies of the Ebenezer M. E. Church planned at their monthly meeting to aid the needy at the holiday season with Christmas baskets.

The Christmas meeting of the North Star Community Club scheduled for Tuesday evening, was postponed to the following (Wednesday) evening, when the school children presented a holiday program.

Miss Olive Vincent, of Salisbury, Md., was a guest over the week-end of Miss Lillian Frazier.

Miss Belle Chambers spent the week-end with Miss Alma Spencer at the home of Miss Spencer's mother, in Cochransville, Pa.

Uncle Sam Says—

Farmers on the average will have to sell three times as much produce this year with which to pay taxes as they did in 1913.

The European corn borer lives not only in cornstalks but in the coarse stems of more than 200 varieties of plants.

Pintail ducks timed by a Biological Survey worker in an airplane flew at the rate of 55 to 65 miles an hour. A canvasback duck made 72 miles.

In western Kansas, winter wheat planted on summer fallow produced on the average nearly twice as much grain as on cropped fields.

In the last 10 years taxes paid by farmers have mounted 172 per cent, and farm income has declined from twelve billion to nine and a half billion dollars.

The wettest weather station in the United States is at Glenora, Ore., where the annual rainfall averages 131 inches.

Some hardy timber bamboos grow amazingly fast—from well established clumps new shoots may grow from 1 to 2 feet a day, 60 feet or more in 5 to 6 weeks.

The rare Roosevelt elk lives in the Olympic National Forest in Washington and is not found outside the north-western coastal region.

Two firms who tried to smuggle Dutch bulbs across the Canadian border were detected by plant quarantine inspectors and paid \$5,000 fines.

Here are some suggestions for tasty sandwiches for winter afternoon gatherings, either at home or elsewhere: Finely ground watercress, creamed with butter, and spread on graham bread; parsley, with a few drops of lemon juice, minced and mixed with creamery butter in the same way; club cheese of sharp flavor, with chopped English walnuts, a few drops of onion juice, salt, and tomato catsup; orange rind, grated, and mixed with butter. Cut with fancy cookie cutters.

GEORGE WASHINGTON'S TRAVELS

By James W. Brooks

Copyright 1930 by James W. Brooks
All Rights ReservedHistorically Correct Sketches
By CALVIN FADER

WASHINGTON WAS CALLED TO PHILADELPHIA IN MAY 1776, AND WHILE THERE WAS APPOINTED ON A FLAG COMMITTEE TO CHOOSE AN APPROPRIATE EMBLEM FOR THE THIRTEEN COLONIES—THE COMMITTEE CALLED ON BETSY ROSS, AN EXPERT NEEDLEWOMAN, AND IN HER HOME THE COLONIAL STARS AND STRIPES WAS DECIDED UPON—

CONGRESS ADOPTED THE STARS AND STRIPES AS THE AMERICAN FLAG IN JUNE 1777—AT THIS SAME TIME JOHN PAUL JONES WAS APPOINTED TO COMMAND THE AMERICAN SHIP "RANGER" AND AS A RESULT THE SHIP FLEW THE NEWLY ACCEPTED FLAG—JONES WAS JUSTLY PROUD OF HIS CONNECTION WITH THE NATIONAL EMBLEM, AND WHEN THE "RANGER" SANK HE ALLOWED IT TO GO DOWN WITH HIS VESSEL AS A MARK OF HONOR TO THE DEAD

Amusements of the First President

That both the President and Mrs. Washington suffered from homesickness while in executive residence in New York and Philadelphia, is recorded in history. Mrs. Washington wrote to Mrs. Fanny Washington, whom she had left in charge at Mount Vernon: "I never go to any public place. Indeed I think I am more like a state prisoner than anything else; there is certain bounds set for me, which I must not depart from, and as I cannot do as I like, I am obstinate and stay at home a great deal."

The President, in writing to a friend in Virginia regarding the dignity of his position, said, "God knows it has no charms for me. I had rather be at Mount Vernon with a friend or two about me, than to be attended at the seat of government by officers of state and representatives of every power in Europe."

Yet, as we are informed by the United States George Washington Bicentennial Commission, there was no lack of gaiety in either city with a continual round of balls, dinner-parties, theatres, concerts, and other diversions, and if the Chief Executive and his wife could not join in the most exciting pastimes of the capital, they could at least follow their inclinations in many respects.

In Colonial times there was a passion for gambling in certain quarters, and bets were placed on all games. Loo or as Washington sometimes spelled it "Leu" was the most popular, and it was no uncommon thing for a man or woman to win or lose two or three hundred dollars at a sitting. There is no record, however, of Washington's winning more than three pounds, or of losing more than nine pounds, fourteen shillings and nine pence. In fact, Washington always played for small stakes. He seemed to be interested in the game and the diversion it afforded rather than in the winnings.

Washington's fondness for cards and billiards shows in his diary an account where before he became President he often recorded that he had been "home all day at cards," and itemized purchases of "one doz. packs playing cards."

Washington's natural fondness for horses and racing and sometimes cock-fighting during his life, was entirely in keeping with the traditional tastes of the Virginia gentleman. He not only subscribed liberally to most of the racing purses, but ran his own

horses, attending in person, and betting moderately on all the results. He was fond of riding to hounds, and when at Mount Vernon this was one of his favorite pastimes.

He loved hunting and fishing and dragging for sturgeon, too, and often went duck hunting. Although these pursuits were for the most part impossible while Washington was in office, he did occasionally manage to slip away. In 1790 a paper records, "yesterday afternoon the President of the United States returned from Sandy Hook and the fishing banks, where he had been for the benefit of the sea air, and to amuse himself in the delightful recreation of fishing. We are told he has had excellent sport, having himself caught a great number of black sea bass and black fish—the weather proved remarkably fine, with altogether with the salubrity of the air and wholesome exercise, rendered this little voyage extremely agreeable, and cannot fail we hope of being serviceable to a speedy and complete restoration of health."

Both the President and Mrs. Washington were exceedingly fond of the theatre in spite of the vigorous opposition accorded this art in every state in the Union. During his Presidency, Washington used the theatre for entertaining, his ledger showing purchases of tickets bought and sent to various ladies and gentlemen with the invitation to occupy a seat in his box.

They went to puppet shows, to see dancing bears and to Mrs. Bowen's wax-works at No. 74 Water Street, New York, and also attended the circus where a famed equestrian of the times performed in the ring with his company of skilled riders and acrobats.

Although Washington was extremely fond of dancing, and was an accomplished dancer of the period, the consensus of opinion is that neither he nor Mrs. Washington danced while he was in office. Some historians maintain that he danced at a ball which was given in his honor soon after his first inauguration, and before Mrs. Washington had arrived from Mount Vernon. On this occasion, he is said to have danced the cotillon with Mrs. Peter Livingston and Mrs. Maxwell, and to have led the minuet with Mrs. Maxwell's sister, Miss Van Zandt, one of the famous beauties of New York.

Contracts Signed for Auditorium and Gymnasium of the Newark School

Late Monday the contracts for the Newark School Auditorium and Gymnasium were signed by Mr. Edward L. Richards, chairman, and Dr. H. V. Holloway, secretary of the State School Building Commission for the Newark School District.

The addition will extend to the rear of the center of the present building a distance of approximately 116 feet and will be approximately 130 feet wide.

The gymnasium will have standard dimensions with locker and dressing rooms on either side. Ample space will also be provided for athletic equipment. Both the boys' and girls' dressing rooms are provided with groups of showers so that entire classes in physical education in a very few minutes may make proper use of them. These locker rooms also become the dressing rooms for the stage.

The auditorium with balcony will have a seating capacity of about 840 and will be of colonial design with special care as to its acoustics. The stage of the auditorium and the floor level of the gymnasium are the same. The large folding door serves as a partition between the stage and the gymnasium so that the stage can be indefinitely enlarged and the seating capacity of the entire auditorium and gymnasium when used as a single room would be about 1250. The auditorium will also have radio conduits and a motion picture booth for physical education.

Two additional rooms are provided beneath the gymnasium and the southeast dressing room. It is hoped that these rooms can, in the near future, be used for Industrial Arts, which is a very vital part of a boy's education.

The general contract has been awarded to the William M. Francis Company, of Wilmington. The heating and plumbing to Benjamin F. Shaw Company, of Wilmington, while the electric service was awarded to the Arrow Electric Company, of Philadelphia.

Both the completion of the fifteen rooms of the new addition last year and the present auditorium and gymnasium will not cost the citizens of this district an additional cent in taxes. Since in 1923 the citizens of Newark in co-operation with their Board of Education, authorized the bonding of the Newark District to the legal capacity, no further bonding or levying of taxes has been necessary. The money for the present work on the auditorium and the gymnasium comes directly from the State Building Appropriation of the last Legislature which had been approved by Governor Buck and placed in the hands of the State Board of Education for their allocation. The total cost of the present program of the auditorium and gymnasium is slightly in excess of \$100,000.

In addition to the splendid appropriation for buildings, the last Legislature has assumed the payment of building bonds for all districts. In the case of the Newark Special School District this has amounted to \$6,000 per year, which has reduced the special tax in the Newark School District from 21 cents in 1930 to 10 cents in 1931.

The State School Building Commission for Newark School District acting on the principle that each State ought to do its best for its people in times of stress, has incorporated in its specifications the following:

"Except as below specified, all labor on this job, both skilled and unskilled, shall be bona fide residents of Delaware for at least six months prior to the award of this contract."

"A. The general contractor's superintendent and the timekeeper will be excluded from this ruling."

"B. The sub-contractors on the job, as well as the men they employ, must be bona fide residents of Delaware for at least six months prior to the award of this contract, unless proof is presented, to the School Building Commission for the Newark School District, that it is impossible to secure the class of work called for from any Delaware concern."

"C. The labor mention is intended to apply only to the workmen who actually perform their various operations on the site and does not apply to those who are engaged in manufacturing the various commodities and who do not physically perform their tasks on the site of the work."

With the completion of the present program Newark's boys and girls will for the first time in the history of the school have opportunities for a well-rounded public school education,

which has been of necessity heretofore denied to them. Industrial arts, public speaking, dramatics, music, visual education and many other phases which so much enrich life and make for happiness, will be among the first fruits which the Newark Public School Building Commission will help to make possible through this present building program.

Government Competes With Railroads

The charge that the government has entered the transportation field by making direct contributions from the public treasury, was recently made by J. L. Haugh, vice-president of the Union Pacific System. "Old established transportation agencies," said Mr. Haugh, "that contribute substantially to the public treasury, and do not participate in free offerings therefrom, are suffering from competition of other transportation agencies made possible through financial contributions from that same treasury."

Mr. Haugh said that loans granted railroads by the government have long since been repaid in full with interest. For land grants, the government so far has been repaid the value of the lands more than twice over through reduced freight rates on its own shipments.

He pointed out that government-subsidized transportation agencies, including the Post Office Department and the intercoastal waterways, do not pay either taxes, commercial rates of interest on money invested, or any sum for maintenance of roadways or

for replacement of buildings and equipment, whereas the railroads are now paying \$1,000,000 per day in interest to receive from the public taxes alone. For airmail service from Omaha to Salt Lake City the government pays 107 times as much for transporting an equal poundage by airplane as by train. About six million tons of freight is now being carried annually by the intercoastal waterways around the United States instead of by railroads through the United States, thus seriously retarding growth and development of all interior cities.

"The money that is put into the public treasury is that of every individual," said Mr. Haugh, "and he is trust a compensatory return on any of the money taken therefrom for enterprises that compete with private investment. All forms of interstate transportation should be placed under the same regulatory body with direction from Congress that a stabilized basis of rates should be maintained so as not to work an injustice upon any one form of interstate transportation with the requirement that all forms of transportation pay their just share of the cost of facilities used."

Careless handling of kerosene and gasoline is one of the chief causes of farm fires. Kindling fires in stoves or furnaces with gasoline or kerosene is dangerous. Be careful in handling lamps, heaters, stoves, incubators, brooders, and lanterns or lamps with flammable liquids for fuel—never fill them while they are burning. Use a non-inflammable liquid, such as carbon tetrachloride for dry cleaning. Keep kerosene and gasoline in tightly covered metal containers. Don't leave them near stoves, furnaces, or rubbish.

HATCHABLE EGGS

About one-third of the fertile eggs incubated in the United States each year fail to hatch. Inherited weakness, poor conditions of incubation, and faulty diet of the breeders are the principal causes of these losses, says the U. S. Department of Agriculture. The breeders in the poultry flock should get plenty of protein, in both vegetable and animal form; cod-liver oil or plenty of direct sunlight; lime, and some source of coloring matter such as yellow corn or green feed. Animal protein is much better than vegetable protein for producing eggs of high hatchability. Many hens when fed only vegetable proteins produce eggs which, though fertile, fail to hatch well.

FARMERS NEED INSURANCE

Most farmers carry too little insurance protection, in the opinion of V. N. Valgren, economist of the U. S. Department of Agriculture. "About four-fifths of the farmers in the country insure their buildings and other property against fire," says Mr. Valgren. "More than two-thirds carry wind storm insurance. Hall insurance covers 8 to 10 per cent of the total crop acreage. Few farmers have insurance for livestock, accident and sickness, or employer's liability. Less than one-half of the farmers have any life insurance. Most farmers lack adequate automobile insurance."

Choose a day for slaughtering farm stock when the carcass will cool rapidly but will not freeze. A temperature of 34 to 40 degrees is desirable.

In Hawaii they make starch from edible canna grown as a field crop. It is generally similar to potato starch.

COLLEGE HOLIDAY STARTS FRIDAY

The holiday recess at the University of Delaware will start after 4 o'clock on Friday of this week. As the university does not re-open again for classes until Monday morning, January 4, it gives students and faculty members nearly three weeks vacation.

UNITY LODGE TO HOLD PARTY

Unity Lodge No. 41, I. O. O. F., will hold a card party in Odd Fellows' Hall Friday evening.

JR. O. U. A. M.

The American Flag Council No. 28, Jr. O. U. A. M., convened promptly last Monday evening at 7:30 p. m. Councilor Lee Nichols presiding, assisted by Vice-Councilor Devonshire. The session was attended by 42 members. The business was transacted with keen interest. We are pleased to have no brother on the sick list. Great interest is centered on next Monday night, known as Poultry Night. All are urged to have their stubs in early so as to be assured a choice. Nomination of officers will be in order again. Come out and support your favorite candidate.

Bear in mind our Anniversary in January. Help boost it and we will have a "Great Event."

A. Neal Smythe, Pub. Com. Chr.

IMPORTANT NOTICE

Minnehaha Tribe No. 23, I. O. R. M., will hold their meeting on next Tuesday evening at 7 o'clock to allow their members to attend a meeting at Odessa, when the Great Sachem makes his official visit.

LEAPS FROM FREIGHT TRAIN

William Smith, a young colored man of Newark, on Monday leaped from a freight train as it was passing through Elkton. He was sent to the Homeopathic Hospital in Wilmington, where it was found that his scalp was lacerated and a shoulder bone dislocated, but that he was not seriously injured.

ENTERTAINED AT DINNER

Mr. and Mrs. Emmor A. Worthington, Miss Muriel Worthington, of Olney, Pa., Mrs. Thomas Ross and little Joan Ross, of Newark, were dinner guests of Mr. and Mrs. Herman W. Stradley, West Main street, on Sunday.

FRIENDSHIP LODGE TO HOLD MEETING

Friendship Lodge No. 4, Shepherds of Bethlehem, will hold their annual election of officers December 22.

AETNA FIRE COMPANY CALLED TO KEMBLESVILLE

The Aetna Hose, Hook and Ladder Co. was called to the home of Ralph Hill, Kemblesville, on Tuesday to extinguish a chimney fire. No damage was done.

ELMER C. SHORT

Elmer C. Short, aged 46 years, died at his home, Continental avenue, December 12. Services were held in the Cherry Hill M. E. Church, Tuesday, December 15, with interment in Cherry Hill Cemetery.

PERSONALS

Miss Margaret Grabill, of Wilmington, spent the week-end as the guest of Miss Beatrice Moore.

Ellsworth Robinson, 12-year-old son of Mr. and Mrs. Conrad Robinson, who was operated on for appendicitis, Sunday, December 6, is still very ill.

Dr. and Mrs. Walter Hüllihen and Dr. George Ryden, of the University of Delaware, Newark, were among the out-of-town guests at the dinner given Friday evening by Mr. and Mrs. Henry B. Thompson, at "Brookwood Farms," and for the Assembly Ball following.

Miss Hester Morris was the guest of Miss Julian Brown, of Appleton, on Sunday.

Mr. and Mrs. John Werner and family spent the past week-end in Philadelphia.

Mrs. Millard Probst, who will be remembered as Miss Hettie Slack, is recovering from a recent operation at the Wilmington General Hospital.

Mr. and Mrs. Edward Field and son, Eugene, of Philadelphia, Mr. and Mrs. John P. Clancy and daughter, Patricia, of Wilmington, and Mr. and Mrs. William J. Clancy and son, of Newark, were the dinner guests on Sunday of Mr. and Mrs. Daniel Clancy.

Mrs. H. J. Gaerthe spent several days last week and Mr. Gaerthe the week-end in Philadelphia.

Miss Ann W. Chalmers, a senior at Temple University, will spend the Christmas holidays at the home of her parents, Mr. and Mrs. David C. Chalmers. George Chalmers will spend the holidays practicing for basketball at College Park, Md. The University of Maryland basketball team will leave, December 26, for Wisconsin, where they will play their first game of the season.

Mr. and Mrs. Frank Balling and sons spent the week-end at Salford, Pa., visiting Mrs. Balling's sister.

Mr. and Mrs. Charles Phillips, of Hurlock, Md., are visiting Mr. and Mrs. Conrad K. D. Lewis.

Prof. R. W. Heim spent last week in New York City attending the Conventions of the National State Directors Association and the American Vocational Association.

Mr. Warren A. Singles and Mr. James Caulk attended the Army and Navy game in New York City last Saturday.

NEWARK SCHOOL NEWS

High School Assembly December 10

The Senior High School assembly was held on Thursday, December 10, 1931. The program was as follows:

The assembly was opened by the singing of "Glory to the Father," followed by the recitation of the Lord's Prayer, and the saluting of the flag. Mr. Hain read the morning lesson. The assembly was then turned over to Mrs. Hancock, who was responsible for the program for that day. In place of speakers, as we usually have, a very interesting musical program was presented. A piano solo was given by Eleanor Roberts, "The Glow Worm," followed by a vocal solo by Ruth Henderson, "The Sweetheart of Sigma Chi," and a saxophone duet by Joseph Maxwell and Eric Mayer, "Moonlight and Roses." At the close everyone sang, "O Little Town of Bethlehem." We were dismissed from the assembly to the tune of "Newark Will Shine Tonight."

High Spots In President Hoover's Message

On Tuesday, December 8, 1931, President Hoover gave his annual speech to Congress an idea of the condition of the country and some of the more difficult problems with which they will have to contend during this session.

Some of the highlights brought out by President Hoover's message are:

Reducing government expenses.
A tax increase.
Opposition to a general revision of the tariff.

Opposition to a direct or indirect government sale.

President Hoover also mentioned many other worthy things.

He said that the government had cooperated with other nations in maintaining peace; that the rights of American citizens abroad have been protected; and that the nation has successfully adjusted itself to the various changes which have occurred.

Pres. Hoover's speech shows that much thought was used in its making.

Written by C. W. Wheelless.
Copied by Harry Wilson.

Courtesy

Richard Watson Gilder, the biographer, once boarded a train on which he knew Grover Cleveland was a passenger. He had something important to ask him and was desirous of saving as much time as possible. Hence he made connections with the President's train.

A thorough search however failed to show any sign of Mr. Cleveland anywhere in the crowded coaches and, as a last resort, Gilder made for the baggage car in order to question the conductor. There, to his unbounded surprise, he found the Chief Executive—sitting on a crate with his back against the side of the car. It developed that a woman with a baby had boarded the car and Cleveland had given her his seat.

E. S. Biddle, '32.

Junior Class Bake

The Junior Class has received permission to hold a bake on Saturday, December 19, at the Old Opera House corner, at intersection of Main and Academy streets. The members of the class have agreed to contribute the articles for sale. Articles for sale will be: cakes, pies, rolls, bread, salads, candy, etc.

We would like everyone to try to support this bake for the proceeds are to be used toward the Junior Prom. So we will see you at the bake Saturday morning. The time is 9:00.

Safety First

Some of those who drive cars around school drive entirely too fast. If a pupil should suddenly cross the street in front of them they would be unable to stop. It takes but little time to go slower. Why not make a New Year's Resolution to drive slower?

Written by a "Speedster."
Charles Lewis.

My Anthology of Poetry

At the beginning of the year in English Class we started a note book of poetry. We made covers and called it our "Anthology of Poetry." I find it very interesting. In fact I never thought so much of poetry until I started this sort of work. Poetry is very fine literature. In my book I have tried to choose poems suitable for seasons of the year, holidays, and other days. After I have those all selected then I'm just going to complete my book with poems I particularly like. This method that I have chosen to make my Anthology of Poetry makes me acquainted with many poets whom I never have heard tell of before and by their poems would like to study their lives. We have the whole year in which to complete this book and I am sure there will be some lovely "Anthologies of Poetry."

Mildred Wilson.

Newark Turns to Basketball

After completing a highly successful football season, the Newark High-lets will begin their basketball season this Friday at home when they play the Sallies. Twenty candidates, from whom fifteen will be selected as Varsity, have reported to Coach and Director of Athletics, William K. Gillespie. Captain "Vic" Willis and "Bill" Dean are the only two varsity players back.

Coach Gillespie will try to build up a team around these two men. The

first team will probably be as follows: Dean and Daly, guards; Willis, center; and Roberts and Jackson, forwards. Manager Cooch is taking charge of all equipment and new candidates, who are expected to report in the near future.

Richard Raymond Roberts, '33.

Intra-mural Basketball

Although there will be no girls' varsity team this year, both the girls and boys class teams will compete for honors in the newly organized intra-mural basketball loop.

Every one who has had varsity experience is barred and as the standings are being reckoned on a total score basis every team has an equal chance.

The schedule has been so arranged that every class shall play three games, one with each of the other groups. Close competition is expected and the Juniors, last year champions, will have to work hard to defeat the strong Senior team.

John Sinclair, '32.

An Interesting French Class

Newark, Delaware, Dec. 9, 1931.—After finishing the regular assignment in French class today, the class was entertained by Monsieur Quesney, a Frenchman who is a student at the University and has visited the Newark school classes several times. Before today, however, he had nothing to say to the class as a whole. Monsieur Quesney first read in French to use from our own books, "La Tulipe Noire." Next he passed around pieces of French money, that is paper money. It was very interesting to compare this money to our own currency. Then he wrote on the board for us an ad taken from a French paper: On demande une femme de chambre parlant anglais toute l'année. Then the discussion turned to French correspondence and Monsieur Quesney agreed to find correspondents for our class. After several minutes of discussing French customs, the bell rang.

Value of Contributing to the Public Press

In contributing something every week we learn to write of things that will be interesting to the readers and also to write them in an entertaining way. It is fine for those who can write original things and gives them a chance to see their work in the paper. For the rest of us it keeps us busy trying to find something, anything, to write about. The general question about Thursday is "What can I write for the paper this week?" However, everyone always finds something and perhaps in time it will become easier. It should! Anyway it furnishes us good experience!

H. Nivin.

A Friend

Some say a book is a silly thing. But joy, to some it will always bring. On dreary days when you can't go out, Or when you are sick and can't get about,

When the wind is blowing and the snow does fall,

You gaze at the bookcase by the wall, You lie there and gaze with a dreamy face,

And first thing you know you are in some far off place, Reading a book that you think is fine, And exclaiming to yourself, "I'm glad it's mine."

Esther Cunane, '33.

It's a Fact

Newark is the only school in the D. I. A. A. league to have girl cheer leaders exclusively.

In Delaware schools last year 67.7 per cent of the total school population

were white, 14.2 per cent were colored. The first sour kraut was made in China, while chop suey, a Chinese dish, originated in San Francisco.

The high honor of being elected President of the General Association, usually conferred upon a Senior, was given to a Junior for the first time since the association was organized.

John Veit, '32.

HUMOR

Just Imagine

Vic Willis, Percy Roberts, and Bill Dean in an Austin.

Ross McVey in a hurry. Jim Patterson as a prize fighter. Billy Fletcher with long curls.

What it sounded like before the workmen started to tear down the gym.

All the halls vacant at noon. One day with everyone having their locker keys with them.

Having assembly in the gym as it is.

Chinese Peculiarities

The Chinaman shakes his own hand instead of yours.

He keeps out of step when walking with you.

He whitens his boots instead of blackening them.

He rides with his heels in his stirrups instead of his toes.

His compass points south.

His women folks are often seen in trousers accompanied by men in gowns.

Often he throws away the fruit of the melon and eats the seeds.

He laughs on receiving bad news.

He faces the bow when rowing a boat.

The children in a Chinese school study out loud.

They also have their backs to their teachers.

Ten Years From Now

Miss K. Spencer, Night Club hostess has sued Mr. R. Roberts, multi-millionaire, for breach of promise.

Miss D. West has risen to fame in Ziegfeld Follies.

Mr. Daniel Stoll has just been elected Representative from Delaware.

According to a letter received by Louise Murray, Joe Doordan and Bill Coverdale have jobs as Gigolos in Paris.

Mr. Thomas Cooch has become quite famous as a Politician.

Just An Explanation

The reason the people in Miss Gallaher's History Room are suffering from "nervous prostration" is the tearing down of the old gym.

The only thing that keeps us from collapsing is the thought of what a wonderful place it will be when finished.

"Think of what a gym it will be" is our battle cry.

Simple Sentences

We saw a man digging a well with a Roman nose.

Lost—a shirt with stripes running up and down it between Eighth and Main streets.

ELEMENTARY DEPARTMENT

Sistine Madonna

In our room we have a picture study every month. For the month of December we have studied the picture of Sistine Madonna. The artist of this picture is Raphael Santi.

Raphael Santi

Raphael Santi was born in Urbino, Italy. He was born on good Friday, April 6, 1483. When Raphael was eleven years old his father died. After his father died he stayed at his

Christmas Gifts

Neckties · Hosiery
Handkerchiefs · Gloves
Underwear, Etc.

SOL WILSON

Men's Outfitter

NEWARK DELAWARE

uncles. His early teacher was his father.

When Raphael was sixteen he started to paint Madonna's. Some of the pictures he painted were: Sistine Madonna, Christ Bearing the Cross, and Madonna and the Child. He started to paint on wood or canvas. The most beautiful picture he painted was Sistine Madonna. He most always painted in the "Pope's home." Raphael is sometimes called the "perfect artist." He painted more spiritual pictures. He died at the age of 37, year 1520.

In the picture Sistine Madonna is two angels. When Raphael was painting the picture two little boys would come and watch him paint. Raphael liked his quiet company so much he put them in the picture. Before he could have them in the picture he had to put wings on them, so as to call them angels.

On the right of the picture is St. Barbara. When Barbara was living with her father he did not want her to become a Christian. He said she would have to be locked up in a tower. After awhile she decided to run away. When she ran away her father followed her and choked her to death. On this account he thought he would like her to be in the picture.

On the left of the picture is St. Sixtus was a Monk. Raphael put him in because he was painting it for a monastery. In the picture the angels, St. Sixtus, and St. Barbara are welcoming Mary and Jesus. You would now find the original picture in Dresden, Germany.

Eleanor McVey, Grade 6.

Sistine Madonna

Sistine Madonna, a lady fair, With trailing gown and golden hair, Holding her son— Her own dear one.

Close to her bosom she carries him. With hope, patience, and love, She holds him there— Not with despair, But with love.

Christmas Eve

On Christmas Eve we trim the tree With balls and candy canes, Then we stop to see What we have put on the tree.

On Christmas Eve, when all is still, Our stockings hang by the mantel sill, Ready for Santa to fill.

Down the chimney flue he comes With his bag of toys And candy guns, Which bring us joy.

Jacqueline Ernest.

Good Santa Claus

On Christmas Eve good children Have not much time to spare. They hang their empty stockings Upon a handy chair.

They go to bed so early, And tight they close their eyes, For they know that in the morning They'll find a great surprise.

Of course you know who brings them Their pretty gifts and toys, For Santa Claus remembers His friends, the girls and boys. He is a jolly fellow, His suit is always red, And he comes down the chimney, Once your safe in bed.

Edward Lloyd, Grade 5.

A Happy Christmas

On Christmas day our hearts are gay, We should all give thanks to Him who reigns above.

The beautiful Christmas tree, Laden with the gifts for all, While on its branches, Tinsel of gold and silver gleam, Stands royal and supreme.

Margaret Ma Masi.

My Surprise

One night, as I lay in bed, I heard a tap around my head. I looked up with a pause And there on the bed sat Santa Claus.

He was dressed in red and white, And shaking with the chill of the winter night, His little hat was covered with soot. He was filling my stockings from head to foot.

Charles Daly, Grade 5.

Christmas

Christmas bells ring o'er the snow, We wear our mittens wherever we go, For winter air is very chilly, To catch a cold would be very silly, For the holidays are so near.

Presents are done in bright, gay wrappings, And all you hear is flip, flop, flapping, And warning words which say: "Don't you look in this closet, Until it's Christmas Day."

Jane Hastings, Grade 5.

Christmas Day Is Coming

Christmas Day is coming! All the children are humming, We will leave our stockings on the sill, For dear old Santa to fill. He will fill the stockings with toys For all the good girls and boys. He will bring switches, too, For all the bad things you do. He will have black boots on his feet, His face will be red as a beet. We hope dear old Santa will remember All the poor children this December.

Herbert Neal, Grade 6.

Merry Christmas

Merry Christmas! Merry Christmas! To every girl and boy, Let Santa bring you what you want, Then you'll be filled with joy. I hope you have a nice time, Playing with your toys. Merry Christmas! Merry Christmas! To every girl and boy.

Ruth Bell, Grade 3.

Christmas Greetings

When Christmas comes to offer you Your share of its good cheer, I hope you'll find it ample To make a Happy New Year. Santa Claus is coming, And bringing toys and candy, too, I hope he'll find some toys for you.

Hilda White, Grade 3.

Christmas Time

When the night before Christmas comes and I get in bed, I am filled with wonders about Christmas things, When I get up in the morning I look at the Christmas tree, I open my presents and play with my toys.

Bruce Rankin, Grade 3.

Christmas

Jingle, jingle, Santa's sleigh bells tinkle, It must be Christmas Eve, Oh what fun in the morning, Guns and drums and everything For a rum, tum, tum, Hurrah for Christmas Day, Stephen Gilligan, Grade 3.

A Good Christmas

Girls and boys with cheer, Don't you wish it was Christmas all the year? If I don't be good, no toys would be there. Don't fear, for if you are good, Old Santa won't forget you this year.

Hazel Dickerson, Grade 3.

A Story of Cotton

We begin with a little brown seed. It grows into a little bush about two or three feet high. A blossom comes on it. When the blossom drops off, a little pod forms. When this pod gets too full of cotton it bursts open. We then pick the cotton pods or bolls. We take these bolls in baskets to wagons to a gin mill. The gin is a machine to take the seeds out. Inside the seeds are all out, the cotton is carded or combed to take the knots out. Next it is spun into thread. This thread is woven into cloth. The cotton is white. If we want some other color, we must dye it. We are already to make dresses and blouses. We cut the material and then sew it. Now we have our clothes. The seeds were mashed to get the oil out. We use the oil to pack and dine. The cows or pigs eat the rest of the mashed seeds. They are called seed meal.

Japanese Beetle Quarantine Modified

The classes of farm products regulated under the Japanese beetle quarantine regulations will be much more numerous next summer than they have been in the last few years, under modifications included in a revision of the regulations announced by the Secretary of Agriculture. The changes in the requirements include alteration of the boundaries of the regulated areas, discontinuance of the plan distinguishing between generally infested and lightly infested areas, and elimination of the II premises in the nursery certification provisions. The revision will become effective January 1, 1932.

The farm products remaining under quarantine in the new revision are corn on the cob, beans in the pod, and apples in bunches or in clusters of 25 or more. Apples, peaches, berries, peaches and apples in baskets holding less than 15 pounds, however, exempt from certification. Hereafter all kinds of farm, garden, and orchard products have been under restriction, except certain specified products such as potatoes, watermelons, and dried beans and vegetables. In changing the boundaries of the regulated areas and discontinuing the distinction between generally infested and lightly infested areas, the department has released from regulation considerable sections of the areas previously known as "lightly infested," especially in Massachusetts, Maryland, and Virginia. The released sections are apparently free from infestation and it is not believed that the change involves any danger of spread. The changes include the addition to regulated areas of part of Sussex county, Delaware, all of Somerset county, Delaware, and part of Worcester County, Maryland, eight counties and part of a ninth in the eastern border of New York, and all or parts of Blair, Clinch, Erie, Lycoming, Pike, Tioga, and Wayne counties in Pennsylvania. No changes are made in Connecticut, New Jersey, or Rhode Island, or in the District of Columbia, all of which have been entirely within the regulated areas.

Commenting on the new revision, A. Strong, Chief of the Plant Quarantine and Control Administration of the department, said, "The change in status of farm products has been justified by accumulating evidence that such materials offer little means of long-distance spread, though swarms of Japanese beetles

SONG OF THE WEEK

Now That You're Gone

No moon, no stars, no dawn, Nothing to stand out.

THE two boys who wrote "Now That You're Gone" can always be depended on for a good song. One of them, who writes the lyrics and the other, who writes the music, have countless hits to their credit, and everyone on Tin Pan Alley considers them one of the most successful song writing teams in the business.

"Now That You're Gone" is one of the best they have ever turned out. In my opinion, and I get a kick out of singing it on my radio program. It's one of those "catchy" songs and its melody is well above the average. The lyric too is unusually strong, picturesque and coherent. These boys have undoubtedly set out to write a song that would

TESTS SHOW GREAT DECREASE IN "TB" OF CATTLE, SAYS OFFICIAL

The success of the Nation-wide campaign to eradicate bovine tuberculosis has been due largely to the determination on the part of the public not to tolerate the presence of such a dangerous livestock malady. This is the opinion expressed by Dr. A. E. Wight, in charge of tuberculosis eradication for the U. S. Department of Agriculture, at the recent annual meeting of the U. S. Livestock Sanitary Association, at Chicago. Referring to the results obtained by the campaign, Doctor Wight gave the following comparison: In the 15-year period ended in 1908, 400,000 tuberculin tests were applied which disclosed an infection of 10 per cent. In the year 1931 alone more than 13 million tuberculin tests showed only 1.5 per cent infection. "This was at the rate of more than a million tests a month and is an indication of the vast effort being put forth to conquer tuberculosis among cattle. "Tuberculosis-eradication work under the area plan continues to be a satisfactory and practical method of exterminating the disease," Doctor Wight said. "Since the first of November, 1930, 216 counties have been found to exist to not more than one-half of one per cent. This makes a total of 1,271 counties, or nearly 42 per cent of the total number of counties in the United States, in which bovine tuberculosis has been practically eradicated."

Here's How To Put M In the Christmas Menu

M stands for a great many things. In the Christmas dinner it may stand for menu or it may stand for meat, the first thing we think about in planning the menu. Miss Inez S. Wilson, home economist, gives some suggestions for the meat in the Christmas dinner.

Christmas Roast Beef

Select an 8 or 10 pound rib roast; the ribs should be left in. Score the fat in diagonal lines each way. In the center of each diamond made by scoring, make an incision just large enough to hold a small onion. Dredge with flour, season with salt and pepper, and place in a roasting pan. Put in a hot oven and after 15 minutes reduce the heat and continue roasting for about 2 1/2 hours. Replace the onions by uncooked cranberries to give a festive Christmas touch. Serve on a platter with browned potatoes. Garnish with parsley.

Little Roast Pig

Order a four or five weeks' old pig. Thoroughly clean and wash the pig both inside and out, taking care to cleanse all openings. Dry it well with a coarse cloth. Rub it inside with salt and pepper and outside only with salt. Stuff it with dressing, and sew into its original shape. Wrap salt pork or buttered paper around the ears and tail to keep them from charring. Brush the pig with melted butter and roast in a moderate oven (350° F.) until tender. This will require 3 or 4 hours. As soon as the roast is done, make two deep incisions with a small pointed knife into each side of the head (where the incisions will not be visible), so the steam can escape, and the roast will thus retain its shape. Also remove the salt pork or paper from the ears and tail. Brush the pig with a heavy cream. Then remove to a serving dish, put a small red apple in its mouth, use cranberries for eyes, and a laurel wreath or a string of cranberries around its neck. Serve with sections of red apples and water-cress.

Mock Duck

A mock duck of lamb makes an unusual and economical main dish for the small family. It is made from a cut known as the English shoulder,

WILMINGTON DELAWARE

Floating Power Plymouth is 145 Per Cent of 1930 Business

Factual evidence of the success of the new Floating Power Plymouth is seen in reports which show shipments to Chrysler, Dodge and De Soto dealers the first ten months of this year were 145.4 per cent of shipments during the same period in 1930, it was stated by H. G. Moeck, general sales manager of the Plymouth Motor Corporation.

"For the ten months Plymouth shipped 402,110 cars as against 70-207 for 1930. In other words Plymouth did 145.4 per cent of its comparative 1930 business as contrasted with 73.3 per cent for the industry at large," Mr. Moeck said.

"Registration figures, available to October 1 only, also afford proof of the astounding reception accorded the car which introduced vibrationless engine mountings to the automobile world. Plymouth increased its August and September business by more than 280 per cent, while the average for all manufacturers was 74.1 per cent. "The outstanding success of the Floating Power Plymouth has contributed heavily to the improved standing of the Chrysler Corporation. For the ten months period Chrysler Motors surpassed its corresponding 1930 business and in the September registration standings as compared to the same period in 1930 it moved up from 8.8 per cent to 20.6 per cent of the industry. Chrysler Motors sold one out of every five cars purchased against one out of twelve in September, 1930."

SPANISH CREAM

Spanish cream is a delicious dessert made from milk, eggs, and gelatin. The proportion is one envelope, or two ounces, of gelatin to one quart of milk and from 2 to 5 eggs, according to the desired richness, the season for eggs, or the number available. Half a cup of sugar and a fourth of a teaspoon of salt will be needed and 1 teaspoon of vanilla or any preferred flavoring. Soak the gelatin in half a cup of cold milk for two minutes. Heat the remainder of the milk, add salt and sugar, and the dissolved gelatin. Beat the egg yolks, add, cook until the mixture is like custard, take from the fire and fold in the stiffly beaten egg whites, and add the vanilla. Pour into a mold. Serve with or without plain or whipped cream or a fruit sauce.

HEAD OF CHRISTIANA CHURCH

Rev. Henry G. Welton, Pastor Sunday School, 10 a. m. Morning Service, 11.00 a. m. Subject: "Thou Shall Call His Name Jesus." Special Christmas music. Christian Endeavor, 7 p. m. The leader will be Miss Dorothy Mischler.

SHOOT SISTER IN ARM

Sunday evening at Cokesbury, Sam and Jim Haines, colored, got into an argument and engaged in the pastime of shooting at each other. Their aim was bad so far as the intended targets were concerned, but a sister was shot in the arm and had to have the wound dressed at Union Hospital in Elkton.

When Sheriff Albert G. Buckworth reached the scene Sam and Jim had left for parts unknown.

Glasgow

The Bible Class of Glasgow M. E. Church, under the direction of its president, Mrs. Emma Sheats, met Tuesday evening in the Sunday School room of the church. A package sale was held, which realized quite a neat little sum and a most enjoyable evening was had by all. The next meeting will be held at the residence of Mr. and Mrs. Julean Laws, January 18, 1932.

Congratulations are being extended Mr. and Mrs. Jacob Correll upon the birth of a son, born Sunday December 13, in the Flower Hospital.

Mrs. H. G. Dunkleburger, of Pottsville, Pa., is visiting at the home of her daughter, Mrs. J. A. Correll.

Arthur Smith is recovering from a severe attack of intestinal grippe. The December meeting of the P. T. A. will meet in the school Friday, December 18. In cooperation with the State program for the month, "Toys," also with Safety Council, the pupils will present an original play, "A Safe and Sane Christmas," Miss Grace Baird, director of the Delaware Safety Council, will make an address.

APPLETON

Jackson Hall pupils with a perfect attendance record for November are as follows: Alice Frazer, Elizabeth Birney, Grace Philhower, Anna Corcoran, Mary Cullen, Helen Kiloczker, Pearl Corkoran, Elizabeth Otter, Francis Cullen, Willard Philhower, Roland Simpers, Harold Henderson, Frank Cullen, Eddie Cullen, John Walker, Elwood Birney, Herbert Frazer.

Our school is preparing a short Christmas program for the School Improvement Association meeting on Monday evening, December 21.

A total of 5,500 grade crossings have been eliminated on Federal-aid roads since 1917, says the Bureau of Public Roads.

CHRISTIANA

The Adult Education class, which for the past eight weeks has been taking a course in community singing under the direction of Mrs. William T. Mosely, of Wilmington, will meet for the last time tomorrow (Friday) evening. On Sunday evening, December 27, however, the class will present an original cantata, "Christmas Gems," written by Mrs. Wm. H. McCoy, a member of the class. The cantata, which will be given in Christiana M. E. Church, includes many of the more familiar Christmas carols and a few not quite so familiar, but none the less beautiful.

Mrs. Margaret Thornton, teacher of the first four grades of the local school, returned to her post on Monday, after being confined to her home in New Castle by several days' illness. Edward Bedwell resumed his studies at Newark High School after a week's absence, due to his mother's death. Edward is a member of the senior class, and has played on the varsity football team during the season just closed. At the time of his mother's death, he was taking part in the game with Wilmington High School at Tower Hill Field.

Miss Margaret Healy, teacher of grades six to eight of the public school, is planning an interesting Christmas program, to be given at the school next Tuesday evening. Including in the program will be the Christmas play, "Why the Chimes Rang."

TO HOLD SHOOT AT BAY VIEW

The Bay View Gun Club will hold a shoot on their home grounds on Saturday, December 26, at 1 o'clock. Turkeys and other prizes given.

P. T. A. TO HOLD MEETING IN JANUARY

The December meeting of the Elkton Parent-Teacher Association has been omitted, and the program at the Howard street school will be given in January.

VOLUME XXII

NEWARK, DELAWARE, THURSDAY, DECEMBER 17, 1931

NUMBER 47

Letters to Dear Old Santa

Newark, Del., December 1, 1931.
Dear Santa Claus,—

Dear Santa:
I am very glad you came and saw me last year, treated me very good, thank you.
This year I would like you to come to my house again, bring me, bicycle, baby coach with a doll in it that will walk, sissors, sled, candy, nuts. Fix my Christmas tree very pretty put some snow under it.
Be good to the poor children. Don't come down in a parachute any more because you are liable to get killed. I will put something good on the table for you.
Your friend,
Dean Wilson.
Newark, Delaware,
December 15, 1931.

Dear Old Kris:
I am trying hard to be a very good little girl.
Please leave me a nice doll coach as I want one very much. I want lots of other things and my stocking filled to the top. Please be kind to all other little boys and girls and leave them plenty.
Lots of love. Your little friend,
Patsy Ann Stigile.
117 Del. Ave., Newark, Del.
Dec. 15, 1931.

Dear Santa Claus:
I have tried to be a very obedient boy all the year. I do hope you will bring me a large auto, one that I can ride in, an electric signal for my train, about five records for my victrola and a saxophone.
Please try to leave some toys for the poor little girls and boys. Now don't forget to call at our house on Christmas eve.
With much love, I remain
Your little friend
R. Francis Nichols.
Dec. 11, 1931.

Your little friend,
Marian "Dukie" Morris.

Newark, Delaware.

CAFETERIA AT DELAWARE COLLEGE TO CLOSE
Because of the failure of students of Delaware College to patronize the cafeteria at the college in sufficient numbers to allow the college to operate it without loss the cafeteria will be closed after the holidays. This action was taken by the Board of Trustees recently on the recommendation of A. G. Wilkinson, business administrator. As the Commons was closed a couple of years ago for the same reason there will be no place connected with the college where students of Delaware College can secure meals after the holidays. The Commons was closed once and started up again at the request of students but still they failed to properly support it resulting in it being closed and the cafeteria is now meeting the same fate.

ELKTON NETMEN OPEN INDOOR SEASON SATURDAY

The East End Athletic Club of Elkton tennis team will open its 1931-1932 indoor schedule with a match with Penn Athletic Club of Philadelphia. The match will be held this Saturday at the Quaker City.

Captain Clifton W. Morgan, Manager, John Henry Dixon, William W. Warburton, William Bratton, Horace Scott and Norton Singman will represent the Elkton club and will be entertained at dinner following the contest.

ELIZABETH ANN JACKSON BECOMES BRIDE OF JOSEPH M. JOHNSON

Miss Elizabeth Ann Jackson, daughter of Mrs. Estelle Aresenber, of Havre de Grace, and Joseph M. Johnson, of Baltimore, were married in St. Mark's Protestant Episcopal Church, Aiken, by the rector, the Rev. Dr. J. Warren Albinston.

We use about 3,700,000 pounds of whole milk each year to manufacture 370,000,000 pounds of American cheese. English call it Cheddar cheese.

would like to have a doll and also a doll coach and don't forget my parents.

Alfred Sheats.

Newark, Delaware, Dec. 16, 1931.

Dear Santa,
I am in the third Grade in school. My teacher says I am a good boy. I would like a wagon and gun and I would like some candy and nuts. I would like a coat, a hat and a pair of stockings, and do not for get my father and Aunt Frances and my teacher.

Your truly
Harold Laws.

Newark, Del., Dec. 16, 1931.

Dear Santa,
I am in the second grade in school. My teacher says I am a good boy. I want a foot ball, scooter, wagon, jack-in-the-box, airplane. I hope you won't forget the poor children. Please don't forget my teacher, her name is Mrs. Mary C. Kennard, Newark, Delaware.

Yours truly
Lester Cannon.

Newark, Del., Dec. 16, 1931.

Dear Santa,
I have a little baby brother, don't forget him. I want a new bicycle wheel, a "tickletoes" doll with a yellow dress on her. Please bring my Brother Bob a drum and a wagon.

Ella Jane Sheaffer.

Newark, Delaware, Dec. 14, 1931.

Dear Santa Claus:
I am a good little boy and live at Newark. I will soon be four years old. I would like to have for Christmas a train of cars, a bicycle, a wagon, a milk truck and an airplane. Hoping I am not asking too much. And you won't fly over in your air plane and forget to stop.

Booby until then,
Gilbert T. Walker.

Newark, Delaware.

Dear Santa Claus:
For Christmas I want a vo-vo, a pr. of gloves, paints and paint book. I also want a cop's outfit and anything else you can bring, including candies and fruit and the nuts. I am 7 years old and am in the 2nd grade at Union School. My teacher's name is Mrs. Ackery, she is awfully nice.

Your little friend,
Billy Morris.

Newark, Delaware.

Dear Old Santa:
I want you to bring me a dollbaby that says Ma-Ma and a tricycle and a coach, candy, nuts and oranges. I am three years old and do not go to school yet.

Your little friend,
Marian "Dukie" Morris.

Newark, Delaware.

Dear Old Santa:
I want you to bring me a dollbaby that says Ma-Ma and a tricycle and a coach, candy, nuts and oranges. I am three years old and do not go to school yet.

18 LOOKOUT TOWERS CLOSED FOR WINTER

Thirteen Special Fire Guards Lose Jobs

Eighteen lookout towers after two months vigilance for forest fires have closed for the winter season. Thirteen special fire guards have also suspended activity. State Forester F. W. Beasley states that under normal conditions fire danger will not again seriously threaten Maryland forests until about the middle of March, at which time the lookout towers and emergency forces will again be placed on duty.

According to Mr. Beasley, the 1931 fall forest fire season has not been a very severe one, due in a large measure to normal rain during the summer and heavy fogs during the fall season.

Hunters and campers proved the most frequent cause of fires, while several outbreaks of incendiarism occurred in different sections of the State, resulting in threatening conflagrations.

The State Forester gives great credit to the Deputy Foresters stationed in each county in the State, who have held nearly all fires to small size. Few fires burned over 50 acres and 90 per cent of the fires were less than 10 acres in size.

Sheriff Albert Buckworth has requested nearby cities and towns to pick up George Clark, Negro, 24, of Port Deposit, who is wanted for the murder of George Perkins, 40, also a Negro.

Clark called at Perkins' home at Cokesbury, Friday night, calling his victim to the yard and shot him, the

bullet passing through his chest causing his death Sunday at the Havre de Grace Hospital.

Isn't This Something?

The Hawley-Smoot law lays a duty of \$2.00 a hundred on live hogs, admitted free under the Democratic Underwood bill. Over a period of 30 months prior to the passage of the Hawley-Smoot bill the average price of hogs in Calgary, Canada, was 45 cents per hundred pounds below the price in Portland, Oregon. In March, 1931, after the new tariff law had been in force nearly a year, the price in Calgary was \$6.21 and the price in Portland was \$8.12. And yet there are those who argue that the American farmer derives no benefit from the tariff.

DYING WOMAN, 86, BANS AUTOS AT HER FUNERAL

Had Never Ridden in Car; Only Horse-drawn Vehicles at Cortège

In life, Mrs. Joanna Buckley, 86, of Malden, Mass., never rode in an automobile and in accordance with her dying wish there were no horseless carriages in the cortege that took her to her last resting place.

She died Friday and after a painstaking search sufficient horse-drawn vehicles were secured for her funeral.

IMPROVE UNIFORM INTEREST SUNDAY SCHOOL Lesson

Lesson for December 20
THE SUPREME GIFT OF LOVE
(CHRISTMAS LESSON)

LESSON TEXT—1 John 4:7-11.
GOLDEN TEXT—Beloved, if God so loved us, we ought also to love one another.
PRIMARY TOPIC—God's Gift of Love.
JUNIOR TOPIC—The Greatest Love is the World.
INTERMEDIATE AND SENIOR TOPIC—Why Jesus Came to Earth.
YOUNG PEOPLE AND ADULT TOPIC—The Gift of the Saviour.

The committee's selection of this Scripture passage for a Christmas lesson is most fitting. The birth of Christ, the entrance of the Son of God upon the condition of humanity—was the true expression of God's love to man (John 3:16). The meaning of Christmas rightly apprehended will put love in the heart of a man for his fellows.

I. The Origin of Love (vv. 7, 8).
Love is of God for God in the essence of his being is love. God does not merely love, he is the fountainhead of all love. Love of country, love of humanity, filial and parental love—every particle of love everywhere, has been derived from God. His love is infinite, eternal and unchangeable. Since love is of God, every one who loves is born of God and knoweth God. The Christian by his life of love interprets God to the world.

II. God's Manifestation of Love (vv. 9, 10).
God's method of making known his love is through the incarnation, the sending of his only begotten Son into the world to be the propitiation for our sins (John 3:16). The coming of Jesus Christ into the world and his taking upon himself human nature makes eternal life possible for those who receive him. If one would know God's love, let him look at Jesus Christ. Those who gaze upon him with reverent contemplation cannot doubt God's love.

III. The Supreme Motive of Love (v. 11).
God's love is the grand incentive for bringing his children to love. Since the Heavenly Father loves, his children should show their resemblance to him. In the proportion that we apprehend God's love, in that measure we will love his children.

IV. Love, the Proof That God Dwells With Us (vv. 12-16).
1. No man hath seen God at any time (v. 12). But there is abundant proof of his being. The unmistakable evidence of his being is love in the heart of man. Love is not native to the human heart, for the heart is deceitful above all things and desperately wicked (Jer. 17:9). Out of the heart proceeds murder (Mt. 15:19). Love in the heart is proof that God dwells therein.

2. Love proves that God's Spirit is within us (v. 13). The fruit of the Spirit is love (Gal. 5:22).
3. Love testifies that the Father sent the Son to be the Saviour of the world (v. 14). The indwelling Spirit shows us Christ and makes us believe in him as God's Son, the Saviour.

4. Love makes fellowship with God possible (vv. 15, 16). Since God is love, he that dwelleth in love dwelleth in God and God in him. Those who deny the deity and saviourhood of Christ have no fellowship with God, and those who have fellowship with God will confess Jesus Christ as his divine Son.

V. Love's Relation to the Judgment (vv. 17, 18).
It casts out fear. A judgment day is coming, for God hath appointed a day in which he shall judge the world in righteousness by that Man whom he hath ordained (Acts 17:31). It will be a terrible thing for those unprepared to meet God at that time. But for those who are indwelt by the Living God there will be a joyful meeting. The way to get rid of the fear of meeting God in the judgment is to be living now in fellowship with him.

VI. God's Love the Ground of All Love (v. 19).
The reason we love is that our lives have come into touch with the great Fountainhead of love. The incoming of God's being and nature becomes the animating and controlling principle of our lives.

VII. The Child of God Possesses Dual Love (v. 20).
The proof that one loves the unseen God is that he loves the person who bears the likeness and image of God and has become a member of the same family through the redemption in Christ Jesus. Love to God and man is united in the heart of the Christian.

VIII. The Solemn Command From God (v. 21).
God commands that those who love him should love their brethren. Obedience to this command will do away with all war and strife.

Successful Living
The art of successful living consists not in making our own way, but in being true men and women, and then surrendering ourselves to whatever drift of sea or purpose comes our way, absolutely assured that it is the will of the Almighty.—Charles H. Parkhurst.

Spiritual Happiness
"It is indeed true that we never find the heights of spiritual happiness until we touch the fountain of sacrifice."

BASKETBALL AND SWIMMING IN FULL SWING AT UNIVERSITY

LaSalle College of Philadelphia to Play Here Saturday

With the ending of the football season at the University of Delaware on the Saturday before Thanksgiving, the athletic department of the University at once turned attention to basketball and swimming. The football season was the most successful in the history of the sport at Delaware. The team won five, lost one and tied two games. The Navy was the only team to defeat Delaware and that by the narrow margin of 12 to 7. In view of the fact that Delaware will only lose two or three of the varsity squad by graduation, there should even be a stronger team in 1932 and 1933, as most of the team are sophomores and freshmen.

Graduate Manager "Doc" Doherty, who is also coach of basketball, is greatly pleased with the chances for the strongest five in this sport for many years. The season was opened last Saturday night when Delaware defeated Philadelphia Textile College 4 to 28. Doherty used practically three teams against the Textile boys which indicates the large amount of material that he has out working for the varsity.

On Saturday evening of this week LaSalle College of Philadelphia will be Delaware's opponents at Newark and this should be a hard game. On

NEW GOLD STRIKE

Placer gold has cropped out again in the Nation river region in Vancouver, some 110 miles northeast of Prince George, B. C., and on Cow Mountain in the same province. Although no value has been placed on the strikes, hundreds of miners are rushing into the vicinity by dog teams and airplanes.

PROF. W. B. KRUECK

SUPPLY PLENTY OF WATER FOR COWS

By Prof. W. B. Krueck

This is the time of year when many feeders are likely to overlook the importance of supplying a plentiful quantity of drinkable water for their dairy cows. Many cows, during the winter months, obtain but one good drink a day, and often this is so cold that they do not consume sufficient water to maintain efficient milk production.

In the first place, water forms almost 87 per cent of the contents of milk. Practically a third of the water which the cow consumes is used in milk production. Water is also important from the standpoint of maintaining the body temperature, assisting in elimination of waste from the body, and helping in assimilation of the nutrients in the feed.

Extremely cold water has a tendency to temporarily interfere with the bacterial action which goes on in the rumen or paunch of the dairy cow. Roughages and coarse feeds are broken up by the bacterial action in this portion of the digestive tract. When extremely cold water is poured upon the contents of the rumen, this bacterial action stops temporarily and the energy of the cow must be utilized in building up the body temperature to such a state that digestion may again go on. It is cheaper for the feeder to see that the water is properly heated or that the chill is removed, in order that the animal may maintain maximum water consumption and thereby help in the efficient digestion and assimilation of the feed.

Although water is probably the cheapest ingredient that most feeders have in their ration, during the winter months it is probably as much abused as any one other ingredient in the ration of the farm animal. More precaution in watering will maintain more efficient production, and will require fewer veterinary bills.

P.T.A. News

Nutrition was the topic of the second of the series of six special Parent-Teacher Association meetings held at Newport on December 11 in cooperation with the State Parent-Teacher Association program committee. Dr. Agnes Snyder, advisory member of the committee led the discussion. Miss Pearl MacDonald, Nutrition Specialist, gave definite and practical suggestions. Mrs. J. H. Rile, program chairman of the local association, presented facts in regard to the health of the Newport school children.

Dr. Snyder reviewed the five phases of the child's growth discussed at the last meeting: Physical, power of discrimination, ability to use the hands, imaginative power and social adaptability. Proper food, the first essential of health, is, of course, necessary to all growth.

Mrs. Rile explained charts showing the weight and general physical condition of the children of each grade in the H. J. Krebs School. At Mrs. Rile's suggestion the association voted to ask Dr. J. R. Downes, head of the county health unit, to visit the school and give physical examinations in the hope of discovering any remediable defects. Later in the year the charts will be displayed with any changes in weight, etc., recorded.

Miss MacDonald exhibited trays containing adequate and attractive lunches for the school child, explaining "The Reason Why" certain things are beneficial. Mimeographed material was available for parents interested in properly balanced menus for the lunch box, etc.

Outlining the fundamentals in the growth and development of the child, Miss MacDonald urged parents to provide: (1) milk, cheese and butter, (2) a variety of fruits and vegetables, (3) grain products and (4) eggs. Miss MacDonald warned against excessive use of meat and sugar.

The Toy Orchestra of the Second Grade, which played at the first meeting, showed its progress by playing

Denies Sponsorship FOR BUSINESS DIRECTORY

The Del-Mar-Va Eastern Shore Association denies any connection with or any sponsorship of the preparation of a Del-Mar-Va Business Director or directory of any nature for which solicitation is now being made throughout the Peninsula.

The Del-Mar-Va Association recently published two issues of a "Del-Mar-Va Business Directory," carrying classified business and community listings of its members and this publication has been definitely discontinued.

Direct information reaching Association headquarters is to the effect that the representative of a proposed new business directory has stated that it has the approval and support of the Association. This is entirely without foundation as the formal approval requested was denied by the Official Board.

To make hard sauce a little different, use brown sugar instead of white, and grate in the rind of an orange for flavoring. Hard sauce is good with almost any hot steamed pudding.

Walking With Traffic Is Walking With Danger, Says "Safety Sally"

Accidents are largely due to the failure of the average citizen to adopt previously formed habits to rapidly changing conditions of life. Within two decades highways have become congested with powerful, fast moving vehicles and pedestrians using these highways must, in order to insure their own safety, form and strictly adhere to new habits. "Safety Sally" points out one of the new habits to be acquired. She says: "Walking with traffic is walking with danger. Face it every time you are a foot on the road." Don't walk on the highways with your back to approaching automobiles. Pedestrians who do this place their lives in the hands of the motorists.

Self-preservation is one of the greatest instincts of the human race. Man has never turned his back upon approaching dangers and the automobile today constitutes one of the greatest dangers man has to contend with. Pedestrians are being repeatedly reminded to "wear white or carry a light when using the highways at night." Safety on the highways depends to a large extent upon the cooperation between the pedestrian and the automobilist.

When bad weather comes the motorist must watch out for the pedestrian who hides his face in his coat collar or behind an umbrella. Then again a pedestrian is apt to put his hat down over his face, all of which lowers his visibility and makes his safety dependent upon the automobilist. In bad weather the pedestrian must look out for the driver who fails to keep his windshield clean, who neglects to use chains and who drives in the middle of the road at a fast speed. He must watch out for the car with brakes improperly adjusted so that

when they are applied the automobile immediately starts skidding.

The Delaware Safety Council believes that accidents will be greatly reduced only when the automobilist and the pedestrian are fully conscious of their safety obligations to each other.
