NEWARK DELAWARE, FEBRUARY 19, 1918

NUMBER 14

## Delaware Defeats Franklin and Marshall

In a closely contested and one of the most exciting contests seen in the gymnasium cage this year Delaware defeated Franklin and Marshall by the score of 27 to 17.

Franklin and Marshall brought down from Lancaster a husky and fast team, and from the toss up to the final whistle it was hard to tell which team was the winner. At the end of the first half Delaware led by a scant margin.

In the second half "Frank M." by fast team work and accurate shooting brought the score up to 17-14. Then the blue and gold quintet cut loose and the game was no longer in danger of being lost for Delaware from that point on.

There was a great deal of fouling on both sides but the game was a clean article of basketball. Horsey, Ritz, and Alexander deserve mention for their floor work as do Marston, Carter, and Lord for their close guarding.

In a preliminary game the Scrubs defeated the Newark School of Music by the close score of 21 to 20. This registered another victory for the Scrubs, who have thru the season so far without a defeat. "Lou" Plan was easily the star for the Scrubs while Bowen and Lauritsen starred for the visitors.

*F. and M.* Pos. *Delaware*  
Hoster..... f. .... Horsey  
F. Garvey..... f. .... Ritz  
Marshall..... c. .... Alexander  
B. Garvey..... g. .... Marston  
Jones..... g. .... Lord

Substitutions: F. and M.—Weaver for Jones; Delaware—Carter for Lord, Lord for Ritz. Field goals: Marshall, B. Garvey, Weaver, Horsey, 2; Ritz, Alexander, 4; Marston. Foul goals: B. Garvey, 11; Lord, 11. Fouls committed: F. and M., 22; Delaware, 18. Referee—Raby, Gettysburg.

## Glee Club Meets

The Glee Club held its regular weekly meeting Thursday evening before the basketball game. The usual "pep" was displayed. No one can deny the enthusiasm exhibited by the members at every occasion of this kind. Under Mr. Carpenter's able direction the songs are sung with gusto, cleverness, and timbre. The Club extends an invitation to all those who are interested, to drop in and enjoy the rehearsals.

The Club feels greatly the loss of Dr. Rawlins. Dr. Rawlins was the leading spirit in the organization of this body and very generously acted as pianist at every meeting.

## "Mike" Fidance Receives Farewell Gift

Engineers of the State Highway Department have purchased a handsome wrist watch for Michael Joseph Fidance, a civil engineer, formerly employed with the department, in charge of one of the surveying parties, and now in the service of the country as an engineer. On the back of the watch is inscribed the following: "Mike, from the State Highway Department of Delaware." Fidance is a graduate of Delaware College, 1917, and an all-round athlete. A card was sent with the watch, bearing the autographs of fourteen members of the department, who contributed toward it.

## MUST UPHOLD IDEALS DECLARES Y. M. C. A. SPEAKER

### H. I. Donnelly Urges Bible

Speaking in the lounging room on Wednesday evening, Mr. Harold I. Donnelly declared that a great moral task is awaiting every one of us if our nation is not to lose sight of those high principles for which we entered the war. He related an incident in his own experience telling how one Canadian soldier told him "the sweetest sound in my ears was the squeal of a big fat German when I ran my bayonet into him." This type of hatred, together with a kind of dull fatalism has spread through many Canadian schools. Mr. Donnelly said, "Think of it men, think what it means to each one of you. If only a spirit of hatred survives this war, then all the lives given will have been given in vain, for universal brotherhood cannot develop through hatred."

He then stated that the college men of today will be the future leaders of the nation, both during this war and after the war. In conclusion, the speaker said, "The principles of Jesus Christ are the principles which must ring, and men, it is up to you to make them prevail."

Mr. H. I. Donnelly has been working for some time at Camp Sheridan, at one of the Y. M. C. A. huts. He was recently released from this service by the war council to draft the American colleges and, so far as possible, to initiate Bible study classes in which the principles set forth in the Bible may be applied to the solution of our present war problems. The object of this study is to prevent the rise in our country of the spirit which has manifested itself in Canadian colleges.

A tentative plan has been advanced for Delaware College which provides for small classes to meet one hour per week for studying the problems indicated. These classes may comprise sections to be held at each of the fraternity chapter houses and in the dorms.

### Credit Where Credit Is Due"

Everyone concedes that the "Prom" this year was one of the best that Delaware has ever held. Everything seemed to go off in an excellent and delightful manner; everyone appeared to have a good time. But few of those present stop to ask themselves "why" everything turned out well. Surely the "Juniors" deserve great credit for planning and handling the affair so cleverly; undoubtedly the orchestra deserves its share of praise; the decoration committee should be congratulated on the novelty effects; but the person who deserves especial credit for the success of the party is Miss Stewart. Excluding the Juniors it is doubtful if many students realize the responsibility that was placed on Miss Stewart for the success of the "Prom." Evidently few students care, since everything went off well. But if something had gone wrong, if the "Prom" had been a failure, it would not have taken the students long to find out where the fault lay. But the "Prom" was not a failure. It was a success from every standpoint and the cause of its success can be spelled in just eleven letters—MISS STEWART.

## Athletic Council Meets

The regular monthly meeting of the Athletic Council was held last Tuesday evening. The discussion of the Interscholastic Field and Track Meet which will be held in conjunction with the Interclass Field and Track Meet, was the most important thing brought up. The general plans were discussed, the number of schools in each class read over, and Swarthmore Prep. added to Class I.

The football schedule for next year was brought up and voted upon favorably by the council. The teams to date which are scheduled for next year are as follows: home—Haverford, St. Johns and P. M. C.; away—Swarthmore, Dickinson and Western Maryland. Another home game is being arranged for, at present.

The baseball schedule for this year was discussed, as was the track schedule, but nothing definite was done with them.

A definite plan by which the Athletic Council might, by arrangement with the Faculty, come to learn more of the scholarship of the members of the various teams was also discussed and a motion adopted to that effect. The plan is a good one and practically does away with the old probation rule governing such cases.

## Former Delaware Student Attains Economics Scholarship

John G. Hopkins, Jr., a graduate of Delaware College in 1917, has recently obtained a scholarship to the graduate school of Harvard University. Hopkins in the winter and spring of last year wrote a very excellent thesis in Economics. The subject was "The Relation of the Size of Dairy to Economy of Milk Production." The thesis was published by the Delaware College Agricultural Experiment Station in January 1918, as Bulletin No. 18. The thesis was intended to be used as a part of a larger study of the entire country. It is worthy of great mention that this publication is the first publication of any work of a student in the Economics Department at Delaware. The thesis received very favorable mention and attention from Professor A. T. Carver of Harvard University, who is the leading rural Economist of the country. Professor Carver wrote Hopkins a personal letter of congratulation and offered him the scholarship to the Harvard graduate school. Hopkins in compiling his work visited eighty-seven dairies in Northern Delaware and South-eastern Pennsylvania. He found that the larger dairies pay better than the smaller ones. This is due particularly to the specialization of the larger dairies. The larger dairies produce a higher grade of product and can dispose of the product at higher and better prices. The cost per quart of milk decreases with size. Efficiency increases with the size of the herd, and the cost of handling decreases up to forty cows. These and many other points of great value are brought out in this important article. About thirty-five tables and several diagrams had to be constructed and arranged. This good work of Hopkins is a great boost to the efficiency of our Economics department and stands as well as a monument to the ability of the author. The whole college unites in wishing greater success to this energetic graduate of our college.

## Student Council Meeting

On Monday February 11th, the Student Council held an important meeting in Old College Hall. Several matters were discussed but no definite action was taken on any of them.

It was suggested that another Student Council dance be held sometime in the near future. The probable date for the affair will be March 8th. As it will be held in Old College Hall only students, alumni and faculty will be eligible to attend. As it has been customary to hold the Thanksgiving Student Council dance in honor of the football team it was thought advisable to give this one in recognition of the splendid work done so far by the basketball team. The admittance fee will probably be one dollar. Details concerning the affair will be taken up at another meeting and will be published in a later edition of the *Review*.

## Need Felt For An Engineering Library

At the present time a need is felt among the engineering students of Delaware for an engineering library. In the main college library there are practically no distinctly engineering books. There are magazines such as "Engineering News-Record," "Engineering and Mining Journal," etc.—all of which are invaluable in their field, but which do not and cannot form a complete engineering library. Such engineering books as the college does possess are grouped in the offices of the different engineering professors together with their own books. The engineering faculty are quite willing that the students should use these books, indeed some professors invite such use. Still, even under the best conditions, this method should not be so beneficial as would be a complete, centralized engineering library, and it seems as though a college with an engineering department as large as ours is, should have such a library. The achievement of this aim may be impossible under our present conditions, but certainly the need should be satisfied when the much needed engineering building is constructed.

## Delaware Man Receives Captain's Commission

Cecil Watts of Principio Furnace, Md., a graduate of Delaware College, Class of 1909, and formerly assistant principal of the Newark High School, for the last three years located at Renfrew, Canada, has enlisted in the United States Army, and been commissioned as Captain.

Harold C. Grier, a sophomore of Delaware College, left today for Annapolis. He is appointed as alternate to Naval Academy. Grier is a member of the Naval Reserve and recently passed examinations for assistant paymaster, but his youth prevented him from receiving the appointment.

Professor McCue, Professor Mitchell, Mr. Pence, and Miss Blodgett, are attending institutes this week at Harrington, Felton, Caesar Rodney School at Wyoming, Dover, and Smyrna.

Dean Hayward has been invited to make an address before the Eastern Guernsey Cattle Breeders' Association, at Philadelphia on February 28th.

## APPARATUS LOANED TO THE COLLEGE

### Tests In Warrenite Being Made

General T. Coleman du Pont has loaned to Delaware College several pieces of apparatus from the du Pont Laboratories in Wilmington, in order to enable the college to conduct a series of tests on Warrenite pavement. The work is being undertaken at the suggestion of Charles M. Upham, chief engineer of the State Highway Commission, of which General du Pont is a member.

Exhaustive tests on Warrenite will be made under the direction of Prof. C. A. Short and C. E. Grubb of the New Castle county engineer's office. Mr. Grubb in the civil engineering department, has consented to spend Friday afternoons at Newark on this work.

Knowles Bowen, a senior civil engineer, will assist with the work and the results of the tests will be compiled by him and presented as a graduation thesis in June, 1918.

## Miss Mossop Visits Here

Miss Alfreda Mossop, formerly assistant chemist and physical instructor at the Women's College, was a visitor over the last weekend. Miss Mossop who is now taking graduate work in Physical Culture, at Wellesley, gave an entertainment at the College on Saturday, which included folk dancing. The evening was pronounced delightful by those present.

## Art Class Well Attended

The class in the History of Italian Art, organized by Miss Harriette H. Winslow, at the Women's College last Thursday, has an enrollment of thirty-six. At the first meeting it was decided to make the regular period from seven to eight, every Monday evening. The lectures are given in Science Hall, at the Women's College.

## Ag Clubs To Be Organized

Speaking in chapel on Wednesday last, Theodore T. Martin, who has been selected to direct the work of organizing boys' and girls' clubs throughout Delaware, outlined the work which he proposes to do. He stated that the whole plan depended on three "ups"—Hatch up, Start up, Follow up, and Finish, and only the careful following out of these steps can prevent a "blow up." The speaker gave details of each step and told several incidents to illustrate the success that has attended similar club work in other states. In conclusion he said, "Our object is not to work against the homes. We aim to co-operate with them and to help the children in following their natural tendencies."

## CALENDAR

19—Tuesday. Delaware Farmer Meeting, O. C. H., 6:45 P. M.

20—Wednesday. Fraternity Meetings, 7:15 P. M.

21—Thursday. Basketball, Delaware vs. Lafayette, Gymnasium, 7:30 P. M.

—Glee Club Meeting, O. C. H.

22—Saturday. Basketball Delaware vs. Ursinus, Gymnasium, 2:30 P. M.

24—Monday. Student Council Meeting, O. C. H., 6:45 P. M.

## DELAWARE COLLEGE REVIEW

### **PAINTINGS FOR OLD COLLEGE HALL**

#### Add Color To Lounge

The student body is deeply indebted to Mr. Stanley M. Arthurs, a Wilmington artist, for the loan of the five beautiful paintings which now adorn the walls of the lounge in Old College Hall. The work on the paintings is exquisite and the subjects are particularly appropriate for the room. The variety of color in the pictures adds much to the tone and liveliness of the hall and harmonize extremely well with the general scheme of interior decoration which has been carried in the lounge thus far.

These particular pictures have been previously placed upon exhibition at several art exhibits. They were painted originally for the purpose of illustrating poems and stories which have appeared from time to time in the Century Magazine. They were later returned to Mr. Arthur's studio and have been there up to the present time.

Mr. Arthurs, the artist who painted the pictures, has achieved no little distinction as an illustrator. He was the pupil of Howard Pyle, and has succeeded Mr. Pyle, in whose studio in Wilmington he works. This fact alone is sufficient to indicate the quality of his work. Mr. Arthurs' studio is one of the famous Pyle group, and is now located in Wilmington, which has become a rather renowned art center through the work and achievement of the Pyle School.

The painting directly opposite the main door at the entrance to the lounge represents Pickett's charge at the battle of Gettysburg. It was painted to illustrate a Civil War poem which was written in 1863. It seems that the poem was discovered and reprinted in Century Magazine together with Mr. Arthurs' illustration.

To the right of the door, directly over the piano is the picture of Robert Fulton's Clermont just after the launching, and previous to her initial trial voyage. Mr. Arthurs called attention to the fact that in his picture the Clermont has a barge-like hull and a boxed bow, which was later reshaped when the boat proved a success. In addition to the Clermont there is a huge frigate under full sail. In this painting Mr. Arthurs has brought out the contrast between the steamboat and the sailing vessel by showing the difference in the action of the two vessels. The Clermont is just passing the other boat and the frigate, forging slowly ahead, so as to stand off and drift backwards in contrast to the speed of the steamboat.

The two paintings on the west wall of the lounge represent Benjamin Franklin in his printing office and a little girl bidding her father good bye before her departure to boarding school. The latter picture was painted by Mr. Arthurs for the purpose of illustrating an article which he himself had written on stagecoaches and stagecoach days. The painting which has been most admired by the student body, however, is the one hanging directly over the fireplace. It is typically significant of the hardships and vigilance required in the earlier days of colonial settlement. The picture represents a pioneer, dressed in hunting costume, standing on guard with his gun, while his boy is plowing in the field nearby. Not only is the historical suggestion most realistic, but the real character of the men and the time is truly emphasized. The light blue sky, and the hazy outline of the distant woods, lend a touch of color to the lounge which has practically changed the atmosphere of the entire room, and has added materially to its beauty and coziness.

During the chapel period on Tuesday, the day following Mr.

Arthurs' visit to the college, the student body voted to express its appreciation for the loan of the pictures, by means of a resolution which authorized the editor-in-chief of the *Review* to express the thanks of the college by letter to Mr. Arthurs. The entire student body and those connected with the college consider this act of kindness as an expression of the interest which the people of the locality are taking in the institution. Below is a copy of the letter which was sent to Mr. Arthurs, and the resolution adopted by the college.

Newark, Del., Feb. 15, 1918  
Mr. Stanley M. Arthurs  
22d St. and Boulevard  
Wilmington, Delaware

My dear Mr. Arthurs:

On behalf of the student body of Delaware College, it is my pleasure to express their sincere appreciation of your visit and of your generosity to them and their home.

Old College Hall. Nothing could have added more immediately to the attractiveness of the Hall in which the students feel a growing pride than these paintings which we take to represent your interest in us.

Assuring you that these pictures will be given the best of care, and that every Delaware man will always treasure them, I am

Yours very sincerely,  
Delaware College Review.  
Editor in chief.

#### Resolution:

Resolved, That the Student Body of Delaware College express their appreciation of the visit of Mr. Arthurs, and of the loan of the paintings which he has hung in the Lounging Room; and

That the Editor of the *Delaware College Review* be requested to signify their appreciation in a letter to Mr. Arthurs.

## INTERCOLLEGiate NEWS

## Russia Recognized

Students of the Minnesota University have formed a Russian Club, the purpose of which is to promote the cultural and social welfare of the Russian students and to show the outside world that there is much worth while in the Russian language and literature.

## U. of P. Enrollment Reduced by War.

Enrollment in all departments of the University of Pennsylvania has been reduced by two thousand below the normal of 9,000. The law school has only 57 students in all its classes, as compared to an enrollment of 207 a year ago.

## War Students in England

Cambridge University, England, has made arrangements to accommodate American college men who are serving with the troops in France and wish to spend their short leave in England. Cambridge hopes by this to promote closer relations with colleges and universities in the United States.

## Strenuous Drilling at U. of W.

Eight hours' drill weekly, with the elimination of physical recreation for all men who are drilling, is the new military program as adopted by the faculty of the University of Washington. The measure as adopted was the recommendation of the war emergency board. Under the new regime the men drill one hour each day and three hours Saturday.

## Harvard Adopts New College Sport

In calling out candidates for a university bayonet team, Harvard has adopted a new wartime sport which bids fair to become popular. The team will not be informal and contests with other colleges will be welcomed. Jules Leslabay, a former French officer, will coach the team.

## Student Discipline at Carnegie Tech

Disrespect to upper classmen and smoking on the campus were the accusations made against several Plebes at Carnegie Tech. Punishment was accordingly meted out in the form of most peculiar and artistic haircuts.

## Lehigh to Close Early

All vactions at Lehigh have been shortened, and Commencement will come about six weeks earlier than planned. The college year for the three lower classes will end May 15th.

Syracuse University freshmen outwitted the sophomores by holding their class banquet according to arrangements, although about forty first year men were well daubed with green paint.

Technical students of all colleges will be virtually exempt from the draft by fulfilling government conditions. It is estimated that 6,000 men will be affected by this ruling.

Forty-six Harvard men, two undergraduates and forty-four alumni have lost their lives in war service. Twenty-five were killed in action, all but one of whom were serving in the allied armies. Four perished at the sinking of the Lusitania.

More than half of the fraternity houses at the University of Michigan have been closed because so many of the men are in national service.

A three weeks' furlough may be given to the students of the University of Nebraska because of the great need of corn huskers in the state. A census is being taken of the students to find if they favor the plan.

Students at Harvard who expect to go to training camps or to enter government service will be allowed to take their mid-year examinations early in order not to sacrifice their college credit.

More than 30 per cent. of the physically fit undergraduates of Trinity College have entered war service.

Statistics show that 39 Brown Varsity athletes of last year and this fall have enlisted in the service. Football players lead with a total of 19.

The recent nominations for the officers of the freshman class of the

University of Pennsylvania have been declared void, and elections will not take place until several hundred first-year men have paid their class dues.

Alumni of Yale have presented the Reserve Officers' Corps at the university with 36 splendid horses.

The freshmen at the University of Kansas have to go to the football games unescorted by any members of the weaker sex. The far-seeing upper-classmen have had the blanket and paddle form of punishment abolished, but hope to find some new forms just as effective.

Over 90 per cent. of the "letter" men of Princeton University's Varsity teams last year are now engaged in some branch of active war service. Included in the number are six captains of Varsity teams.

There are now 961 men enrolled in the Military Science courses at Harvard. It is expected that the final enrollment will amount to over 1,000.

Harvard and Yale each lost 65 per cent of their enrollments and it has been estimated that 1,300 Yale students and 40 of the faculty have enlisted.

Amherst, Brown, Dartmouth, Holy Cross, Tufts, University of Maine, Wesleyan and Williams lost 52 per cent. of their undergraduates before commencement.

## Collegians May Meet In Paris

Graduates and former students of more than forty American universities and colleges, who are in France, will be able to meet at the headquarters of the American University Union in the Royal Palace Hotel in Paris. There are accommodations for recreation and meeting, and also accommodations for one hundred soldiers to sleep, and to obtain meals at reasonable prices. The following are some of the universities and colleges represented: Harvard, Yale, Princeton, University of Virginia, Pennsylvania, University of Minnesota, Northwestern University, Amherst, Columbia, and Ohio State University.

"Looks like a cruller, don't it?"  
She clung to him, the game was  
oe'r,  
Content was in her soul;  
"Dear heart, I'm very happy, now  
That you have come back whole." He stroked her hair with gentle hand,

And tried to keep a laugh back:  
"Your joy, my dear, is premature,  
For I am only half-back."

Cornell Widow.

Professor McGougan—"Did you ever boil water at the sea side?"  
Graves '20—"Yes, sir."

Prof. McG.—"Did you ever boil water on a mountain?"  
Graves '20—"Yes, on a mountain range."

FREE AUTOMOBILE DELIVERY TO NEWARK

**For the purpose of fitting young men to take positions of responsibility in the business world and to fill them intelligently and efficiently, Delaware College has established a course in Business Administration as a part of the work of the Arts and Science Department. The course is conducted by Dr. Fred Clark, who came to Delaware this year from the University of Michigan, where he has been an instructor for several years. In addition to taking subjects which are designed to give a broad cultural training, the students in the new course will have work in economic problems and in the problems and practice of actual business.**
