NO. 12

## TEMPORARY STUDENT GOVERNMENT TO BE SET UP

### J. M. McDowell, U. of D. Alumnus, Made Public Relations Director

#### To Insure Cooperation With Radio and Press

The appointment of John M. McDowell, an alumnus of Delaware, as public relations officer of the University was announced on January 3 by Dr. W. O. Sypherd, acting president of the University.

Mr. McDowell will direct the public relations program for all departments of the University, with the exception of the Agricultural Extension Service.

The duties attached to the new position will include the following up of all former students, preparation of student reunions, the publishing of a quarterly magazine for all former students, and the collection of information of public interest from the various schools and departments of the University. A major objective of the program will be to insure full cooperation of the University with the press and radio.

While a student at Delaware, Mr. McDowell was a member of the varsity basketball squad, a class officer, member of the staff and finally editor of The Review and The Blue Hen. He is also a member of the Theta Chi fraternity.

JOHN M. McDOWELL

### Lt. Art Millman Added to ROTC Instruction Staff

#### Former Student Will Also Coach Rifle Team

You mean you haven't heard about the latest addition to the military staff here? Introducing 1st Lieutenant Art Millman to the campus society. Lt. Millman is an officer of the ROTC training staff and also is coaching the rifle team.

Art, a handsome young paratrooper, was a student at the University of Delaware in the days gone by, days well-known in the memory of many of our veterans and faculty members. He has been in the service about three years and was in Belgium, France, and Germany with the paratroops for about eight months.

Chemical engineering was his field back in 1940-43. He left Delaware when he had less than a year to complete. He expects his discharge in June and will return to the campus to finish his studies.

This former Harrington (Del.) man was interested in everything (literally) when he was here. He played football, participated in track meets, and was a member of our swimming team. He was active in dramatics, having had lead parts and acting in a one-act play in a playbill which Delaware won. An independent man, he was elected to Phi Kappa Phi, Tau Beta Pi, and Pi Mu Epsilon. He was also on the student council at Men's College. The Review "hired" him as a columnist.

Art still likes independence. As far as the girls are concerned, he hasn't made proper reconnaissance yet and refuses to comment, especially since he knows only a few of the "fair sex." He believes there should be a student union or some similar place on campus where the students could congregate to spend time together.

### Physics Dept. Given \$10,000 Instrument, Donor Anonymous

#### Mass Spectrometer Will Aid in Atomic Research

An extensive and far-reaching research program in atomic physics has been made possible at the University of Delaware by the acquisition from an anonymous donor of a mass spectrometer by the Department of Physics. It was announced today by Dr. Vincent E. Parker, Acting Head of that department.

Valued at approximately \$10,000 the mass spectrometer is a rare and highly technical instrument which few universities in the country are as yet able to include among their research equipment. Its fundamental purpose is to separate any material into the isotopes of the different elements of which it is composed, to identify these isotopes, and to determine the weight and relative abundance of each. Isotopes are different kinds of atoms of the same element.

This instrument opens up to the Department of Physics the field of research into methods for separation of isotopes, and makes possible at expansion of its research in atomic physics. It will also be of great value as a research tool used in cooperation with other departments at the University.

It is planned to use the instrument in a program of hydrocarbon research by the Department

(Continued on Page 3)

### Youngest Bishop In U. S. to Be Guest At DSCA Meeting

#### "What America Expects Of Youth" Topic For January 15

The Right Reverend John E. Hines, Bishop of Texas, will be the guest speaker at a meeting of the Delaware Student Christian Association to be held in the Recreation Room of Brown Hall at 7:30, January 15th. Bishop Hines will speak on "What America Expects of Youth."

As the Bishop of Texas, Rev. Hines has the distinction of being the youngest bishop in the country; he is 35 years old. Since he is not too far removed from his own youth, he will undoubtedly have tangible ideas for the youth of 1946. This meeting is open to all members of the Association and their guests.

The Right Reverend Arthur R. McKinstry, father of Barbara McKinstry, '47, is entertaining Rev. Hines at his home in Wilmington, and will also be present at the meeting.

Bishop Hines was consecrated on Oct. 18, 1945, as bishop-

(Continued on Page 3)

### Elections Will Be Held Jan. 17 and 18 in U. Hall

The elections of officers of a Temporary Student Government Committee will be held on January 17th and 18th.

The procedures to be followed at this election will be determined at a meeting of the entire student body on Monday, January 14, 1946, in Wolf Hall. This meeting will immediately follow the meeting of all Arts and Science students which is to be held at 4:15 p. m.

The items to be discussed at this meeting, which will also pertain to the by-laws of the SGA concerning election procedure, should include the following:

1. Nominating procedure.
2. Tally of ballots.
3. Check-off of students voting.
4. Judges of elections.
5. Place of election.
6. Type of ballot to be used.
7. Certification of ballots.
8. Method of contesting elections.

Since the provisions of the constitution do not permit a regular election to be held at this time, it is wise to form an interim government.

Since there is no representative of the students at the present time, the Dean of Women or the Dean of Men should preside at the meeting Monday!!!

### Inter-Frat Council Officers Elected

Reorganization of the Inter-Fraternity Council has begun with the election of the following officers:

James Maxwell, S. P. E., President.

Richard P. Shapiro, S. T. P., Vice-President.

Frank Wilkins, Theta Chi, Secretary-Treasurer.

Other members of the Inter-Fraternity Council include Alvan M. Wolfe, S. T. P.; Henry Maxwell, S. P. E.; Ken Shields, S. N.; George Greer, S. N.; and one other representative from Theta Chi.

### E-52 Will Present Play at Assembly

#### "I'm a Fool" in One Act To Be Given Jan. 21

The E-52 Players will present "I'm a Fool," a one-act play dramatized from Sherwood Anderson's story by Christopher Sergel for a college hour program on Monday, January 21.

The cast chosen for the production includes: Basil Macknick, Adele Flanzer, Dorothy Catts, Layton Mabrey, Henry Taylor, Margery Marston, and Ileana Reiver.

The play went into rehearsal Tuesday afternoon and is the last production of the Players this term. Incidentally this is the first play the E-52 Players have ever given for a University assembly.

### Dr. Emil Ott Will Talk Before ASME

#### Son to Preside at Meeting

On January 14, 1946, at 7 p. m. in Room 308 Evans Hall, Dr. Emil Ott, director of chemical research for the Hercules Powder Company, will address The University of Delaware student branch of the American Society of Mechanical Engineers.

Dr. Ott's topic will be "Advantages and Disadvantages of a Technical Education." John Ott, son of the speaker and president of the A. S. M. E., will preside. Professor Leo Blumberg is faculty adviser for the group. Other officers are: Thomas Ringel, vice-president; Edward Varley, secretary; and Leonard Booth, treasurer.

### Gift of "Will" Hitchens To Be Used for Party

Upperclassmen cannot fail to remember "Little Will" Hitchens. Bill graduated from Delaware in December, 1944. He is now with Uncle Sam's Army on Saipan. Recently he wrote a letter to Mrs. Dorothy M. Patterson, Brown Hall housemother, and enclosed ten dollars to spend for a Christmas tree, a tea, or in whatever way she wished for the men on campus.

Well, Bill's gift has been received and now it has been decided to hold a Bill Hitchens' houseparty in Brown Hall next Sunday evening, January 13. Colonel S. B. Irwin Duncan, Newell's father, will speak to the group for about ten minutes on an undisclosed topic.

### Housing Problem Accentuated By Married Veterans

The rapidly increasing enrollment of married veterans who desire quarters for themselves and their wives, and in some cases their children, has created a special housing problem never before encountered by the University of Delaware. Many inquiries were made as to the availability of certain portable dormitories at Elkton, Md., Fort DuPont, and other places, but none of them could be considered.

The evacuation of Old College by ASTRP units still there will provide housing for some men, as will the fraternity houses, but the women's problem is also acute. It is possible that Harter Hall will be used for the 1946-47 semester.

It is hoped that the University can obtain priority for married veterans enrolled in the various schools in filling future vacancies at the George Read Village, Newark. According to an official of the Wilmington Housing Authority, the request is being seriously considered.

### Special Announcement

Dr. J. Fenton Daugherty has been forced to take a two-week vacation from his duties here, and Dr. Carl J. Rees of the Mathematics Department will take over the duties of Dean of Men.

## College Hour Compulsory?

We doubt very much if most of the students realize just how bad the attendance is at the bi-weekly College Hours held in Mitchell Hall, because most of the students aren't there to see. It is a disgrace to our University that the majority of our students apparently cannot appreciate the benefits to be derived from these functions. The programs presented have been, and no doubt will continue to be, interesting and thought-provoking, and they are as much a part of education as any regularly scheduled lecture.

IF the attendance does not show a definite increase in the near future, compulsion will have to be used. Dr. Sypherd wishes to avoid the use of force, which no doubt would have a bad psychological effect, but it is the duty of the administration, as part of their responsibility of providing a well-rounded education for the students, to see that the College Hours are well-attended!!!

## Letter to the Editor

To the Editor of The Review:

During vacation the Wilmington Morning News printed a story to the effect that Harter Hall might be used as a Women's dormitory during the school year of 1946-47. Meanwhile, veterans have no place to live. I firmly believe that men who have been in the service should have priority. I firmly believe that they should be considered before any step is taken to favor another group.

Harter Hall was built as a Men's Dormitory and has been used as such this term. It certainly should revert to them now that it is needed so desperately.

Men are the breadwinners of the family. They must have an

education not only for their own benefit but also for the benefit of their wives and of America as a whole. These men, who have already lost from two to four years of their lives, can afford to wait no longer. VETERANS MUST GET THEIR EDUCATION NOW!

Enrollment of freshmen girls next year should be limited to those who can either live in the women's dormitories or commute. Girls who might enter as freshmen are much better able to wait a year before continuing their educations than are the vets.

Remember, these men have risked their lives and their health that they and the rest of us might live in a free America.

(Signed)  
Robert N. Lattomus

## Study Muddle

Again comes the time of terror, the moments of heart-rending doubt and head-aching cramming as one frantically prepares for final exams. Long neglected books will be taken down, dusted off, and opened for the first time during the term. Many a window which has been dark all term will suddenly light up with a glow of bearded determination. Cigarette and coffee consumption will reach a new high. Pencils will be chewed, eyes reddened and hair rumpled in the belated effort to store up knowledge.

Beginning on the 24th, this hectic period will drive people from the D. P. into barricaded seclusion for over a week. Social contacts will be hindered and impaired by the overhanging cloud of nervous tension brought on by the exams.

The nightly bull or hen session will be temporarily laid aside. Dates will be suspended and your best friends will shut you from their rooms. The whole atmosphere will be one of quiet (?) determination. Knowledge will be crammed into the cranium at a furious rate. The old class notes will be thumbed through again and again for any additional bits of knowledge.

Within confused brain, French verbs will dance with algebraic equations and Lord Byron will court Marie Antoinette. Basket weaving will weave its way through philosophical dissertations. American government and the laws of the land will clash with the basic principles of Freudian psychology.

Freshmen, in their first introduction to three-hour exams, will pace the floor, tear out their hair, chew their fingernails, and generally exhibit a deranged state at the awesome prospect of such a trial.

With the chips down and eyelids propped open with toothpicks, now is the time for all good men to come to the aid of themselves. Here's to you, fellow students, the choice is yours—its either pass or go to work.

## The Purpose of Education

(By Associated Collegiate Press)  
"The purpose of education," according to Prof. Walter R. Agard, University of Wisconsin, "is making people as happy and as useful as their capacities will permit."

Professor Agard advocates four major changes in the purpose of our present educational system. First, he said, it should acquaint students with human experience in time and place; second, it should present world problems; third, it should train students to make "value judgments" on human experience and problems; and fourth, it should train students to relate their own interests to those of their communities. THE DAILY CARDINAL, University of Wisconsin, Madison, Wisconsin.

SUNDAY, JAN. 13, 1946—  
Vesper Service, Mitchell Hall, 6:30 P. M.  
WEDNESDAY, JAN. 15, 1946—  
DSCA Meeting, Brown Hall, 7:30 P. M. Bishop Hines of Texas—"What America Expects of Youth."

## NOTICE!

The following temporary amendment to the constitution of the Student Government Association has been suggested by a number of students:

All class restrictions on the officers of the Student Government Association shall be waived until 1947.

This amendment should be voted on by the students at the next assembly before the elections of these officers is undertaken.

Dr. J. Fenton Daugherty, Dean of Men

## Southern California Prof Discusses World Peace

By Associated Collegiate Press

"War is not inevitable, but a lasting peace depends upon modified and improved human and social conditions which may, in the next hundred years or more, result in an international society," explained Dr. Herbert Searles in his address to the philosophy forum at the University of Southern California.

Dr. Searles, professor of philosophy, outlined three approaches to the task of achieving international society:

First, through the understanding of human nature and learning how to improve, through education and through individual characters and personal attitudes of our rising generations.

Second, through social research in human relationships involving cultural and economic resources and their relation to world populations as a basis for a program which will relieve, at least, the greatest economic tensions existing today.

Finally, through the development of the United Nations organization and its counter-part in international law.

"We must recognize at the outset that peace is not a static condition in which we can rest once the active phase of the conflict has passed," said Dr. Searles. "Peace is not a dynamic in the spectacular sense as war, but it is exceedingly dynamic in other important senses."

"It is during the periods of armistice between wars when tensions are accumulated, when conditions are created in the economic and social arenas which disturb the equilibrium, and for which correction and alleviation is sought through recourse to war."

In discussing the need for education of our enemies, Dr. Searles believes that we must proceed on the basis of fact that both Germany and Japan have been defeated in a war of their own devising. Since such extreme propaganda methods were employed for moulding the enemy youth, some similar methods must be employed, to a degree, in their re-education.

Speaking of economic resources and populations, Dr. Searles said that atomic energy may provide power resources in unlimited quantities. These quantities present methods of artificial production of substitutes and methods of revitalizing exhausted soils. Thus the whole problem of overpopulation, which is today held to be of paramount importance in causing tension and international strife, may become irrelevant within a few years. THE DAILY TROJAN, University of Southern California, Los Angeles, California.

Dean Daugherty was appointed to the office of Dean of Men on October 1, 1944; since that time he has stood out as a man who has performed a Herculean task for the University.

As it stands now, "Doc," as he is popularly known, is Dean of Men, Professor of Physics, Chairman of the Committee on Public and Social Functions, a member of the Student Loan, Scholarship and Fellowship Committee, and Chairman of the Veterans Counseling Committee, as well as participating in a great number of other campus activities.

The job of Dean of Men is large enough to be a full time job for one man, as is also the job of Professor of Physics. The job counseling veterans has also become a full-time proposition but in spite of all this, "Doc" has been holding down all these jobs and has done a marvelous bit of work with all three. Certainly no vet coming back to school can or will forget the help, guidance, or patient attention that "Doc" has given him. While others in the school have helped also, the bulk of the burden has been on "Doc's" shoulders and he has carried it off with a great deal of efficiency.

Dean Daugherty is a graduate of Dickinson, class of 1921, and has taught at the University of North Carolina and the University of the South. He has been associated with the University of Delaware for the past 16 years as Professor of Physics. At the time of his appointment as Dean he was heartily approved by both students and faculty and certainly the caliber of his work to date thoroughly corroborates this confidence.

At the present time, "Doc," is away from the campus on sick leave. The whole student body, and particularly the vets for whom he has done so much, wish him a speedy recovery. His exhausting efforts have been gratefully received and will be well remembered.

## Eddie Rickenbacker Host on Radio Air Series

In order to meet and stimulate the wide and steadily growing interest in all fields and all levels of education in aeronautics—as well as in related subjects that deal with the social and economic importance of global air progress—Captain Eddie Rickenbacker is participating in the making of a series of 13 radio plays that provide supplementary instruction on the history of American aviation through the lives and accomplishments of the women who made that history.

Starting during the week of February 2nd, 1946, over a selected network of more than 150 stations that blanket the United States and Canada from coast to coast, Captain Rickenbacker will appear as host and historian on the "Worlds Most Honored Flight."

For program listing, consult the radio timetable of your local newspaper starting the week of February 2nd, 1946.

# Blue & Gold Takes Swarthmore Five

## Win Season Opener, 38-24

The University of Delaware basketball team inaugurated the 1946 season with a 38-24 victory, Saturday night, in the Field House, by defeating Swarthmore College in a one-sided battle.

Dick Grossman, a former P. S. duPont star, paced the Hens' attack and took scoring honors of the game with seven action shots and two from the penalty stripe.

The first quarter saw a close battle with both teams setting up tight defenses, which offered little opportunity for scoring and the crowd witnessed a fine display of ball handling by both teams, with quick fake plays opening only to be broken up by the alert defense of each team. Bob Kirkland, Delaware's tall cent, kept the Swarthmore five always on the go by his faking pivot shots, and the recovery of the rebounds. The period ended with the home team in the lead 7-6.

In the second period Grossman found the hoop for some of the finest shots ever witnessed by the local fans. His repeated tries kept Delaware out in front never to see the visitors come close through the rest of the game. Cloyd Fausnaugh, the only civilian on the Garnet team, which is composed of Navy V-12 and V-5 men, lead his team mates in the scoring column, but was unable to close the gap. At the half time the Blue Hens lead by the score of 21-14.

The second half opened with Delaware putting in quick tallies by N. Duncan, Grossman, and Kirkland. The Garnet and White's Fausnaugh relentlessly striking back at every opportunity. Near the closing minutes of the third

period Swarthmore fought hard to close the gap, and Bent and Duke began to drop in shots along with Betrollette and Woodbury. The closing minutes of the game found Delaware's entire squad seeing action.

The score:

Swarthmore (24)			
	G.	F.	P.
Fausnaugh, forward	5	4	14
Betrolette, forward	1	1	3
Woodbury, forward	1	3	5

## Physics

(Continued From Page 1)

of Chemistry under the direction of Dr. W. A. Mosher. The Division of Chemical Engineering, under the direction of Dr. A. P. Colburn, also plans to use the mass spectrometer in an extensive study being carried out for Rubber Reserve Company on the purification of butadiene and the raw materials for its manufacture. This research is directed toward producing better synthetic rubber at lower cost.

The stimulation of additional research in the Department of Physics resulting from the acquisition of this instrument is especially timely because of previously announced plans for the erection of a new Physics Building on the campus at a cost of \$375,000. This proposed new building was made possible by a bequest of the late Mr. H. Fletcher Brown, a trustee of the University.

## Former Football Star Heads Rifle Team Here

There has not been too much information regarding the Delaware Rifle team and for those who missed the notice in the last issue we are once again giving you the call to come out and give it a try. Lt. Art Millman, a former Hen football great is stationed here at the University and is in charge of the rifle team. Come on out and shoot—see the Military Dept. and watch this column for further notices.

## History Department

Dr. Walter Kirchner of the History Department attended the meeting of the American Historical Association at Washington, D. C., on Thursday, December 27, 1945.

## Joe Mackey Placed With Mid-Atlantic Soccer All-Stars

### Brewer & Monaghan Get Honorable Mention

A special to the paper arrived that Coach Max Kurman was able to place three of his soccer team on the Middle-Atlantic All-Star team.

Despite the record of the team some fine play was displayed to win a first string berth for Joe Mackey. Joe's fine play all season kept the Hens on the opponents half of the field. It is our expressed desire and we know it is yours to extend our congrats to Joe.

Gordon Brewer, the Hen captain, and Bill Monaghan received honorable mention. This was Bru's last year as a Delaware booter and his fine play will be remembered along with the greats of the soccer field. Bill Monaghan, who played his first year as a goalie did a fine job for the Blue Hens and we are sure that he will be a great asset to the team next year.

## Sports by Scotts

Picking an All-American team is one of the hardest things to do because of the great differences in opinion. Having had a fair season at picking the winning teams, the sports staff selects the following men for their first and second teams.

### First Team

Ends—Steiner, Alabama and Duden, Navy.  
Tackles—Hughes, Purdue and Coulter, Army.  
Guards—Dickerson, Penn and Grepn, Army.  
Center—Mancha, Alabama.  
Backs—Gilmer, Alabama, Davis, Army, Pennimore, Oklahoma, Blanchard, Army.  
Second Team  
Ends—Walker, Yale and Foldberg, Army.  
Tackles—Savitsky, Penn and Nimitz, Army.  
Guards—Knotts, Duke and Hudson, Miami.  
Center—Ecott, Navy.  
Banks—Wedemeyer, St. Mary's.  
Dekedeburn, Cornell, Koslowski, Holy Cross, Scott, Navy.

## Delaware to Meet Haverford in Field House Tonight at 8

### Blue Hens Journey To Rutgers on Saturday

With the 1946 season well under way the Blue and Gold will test itself tonight in the Field House by opposing the strong Haverford College quintet.

Coach Ken Steers drilled his squad on the offense in the recent practice sessions. The Hens were able to set up a defense against the Swarthmore team, but were unable to score a great percentage of their field tries.

Little is known of the Haverford team to date, but one can rest assure that they will bring a strong team to Newark. In past seasons they placed well up in the league competition. It will be a good test for Coach Steer's local five.

On the following Saturday the Hens will travel to Rutgers to play one of the strongest teams they will face this season. The Rutgers team is composed of many headliners, many of whom are unable to play because of the over flow of fine material. In a report to this column by a former Delaware star Rutgers will be no push over for any of their opponents this year.

## NOTE!

The far side of the Field House has always been the "Home Team Section." Cheering would be more organized if students would always sit compactly in the center section. The cheerleaders will be in attendance on this side.

coadjutor of the State of Texas. At the time of his election he was rector of the Christ Church, Houston, Texas, and was 35 years old.

He was born in Seneca, S. C., attended public school and high school there, then studied at the University of the South. His theological degree was conferred by the Virginia Theological Seminary, and he was ordained in 1943.

During the past few weeks great strides have been made in the organization and development of the Association. Vespers are to be held each Sunday evening at 6:30 in Mitchell Hall except during exam periods and vacations. Pat Weitzel, a freshman, is the chairman of these non-sectarian services. All students and faculty are invited to attend these vespers.

Sally Heinel, '48, is in charge of making arrangements for future University classes in Comparative Religion which are to be offered at Delaware starting September, 1946. Virginia M. Smith is overseeing the management of the business meetings.

## Freshmen to Hold Tea

The freshman girls will hold their parent-faculty tea on Sunday, January 13, in the Hilarium of Warner Hall. Miss Bernita Short, class faculty advisor, will be present, along with the faculty of the freshman class.

Officers of the class are: Virginia Smith, captain; Betty Jo Banks, sub-captain; Jean Murock, secretary; Sue Phillips, treasurer; and Jean Brosch, social chairman.

## Covering the Campus

—With Bob Bell

NOTES FROM A HOLIDAY FROLICKER: Big Al Northwood became engaged over the yuletide season. Congrats, Romeo! . . . Speaking of engagements, Ann Pray came back to the campus sans hubby . . . "Pappy" Joe Skura gave the crowd at Jack Wilson's New Year's Eve party a break by dropping in for a few hours . . . Kenny Barnes, the Newark Flash, must have too much holiday downstate way. He was out on sick leave the first three days of school this year . . . The Cedar Inn looked like a U. of D. homecoming New Year's Eve . . . A former Delawarean, Johnny Stopyra, will re-enter this institution in February. He sheds his captain's bars soon . . . The mice are getting mighty hungry up at "Dark Brown Hall." They devoured a whole carton of cigarettes belonging to "Mole" Latomus. Better send the little rascals down to Kent Hall.

STORY OF THE WEEK: Warner Hall gals had a little excitement Sunday. Four "Desperate Dans" swooped in to renew "old acquaintance" with two lassies that they knew way back when—before Uncle Sam claimed them—and slightly embarrassed one of their friends. They literally swept the girls off their feet and created enough whoop 'n holler to change the outlook of a somewhat dreary day. The Romeo's hail from Baltimore, Elkton, and a New Jersey village.

HERE AND THERE: For Angelo Cataldi's benefit the powers should put neon signs along the basketball court so he'll dribble down the floor IN BOUNDS! . . . Fred Hartman, getting the draft jitters, talking about Uncle's Navy . . . With Paul Hart expected to return to the Delaware gridiron next fall, Coach Murray is switching Angie over to half-back.

More ex-gridmen from the '41 and '42 teams are expected back for the '46 season when the formal schedule will be resumed . . . Tom Livizos' dream girl from the Carolinas sent him her photo for a Christmas present. Now he can really compose that "tears and pain" poetry!

## Chemical Engineering

George A. Omohunaro, who was here in 1941, has returned to the Ch. E. Dept. as a research fellow. He joined the Navy with the rank of Ensign in 1942 and taught a course on diesel engines at Cornell until he was assigned to the LST fleet as an engineering officer, with the rank of Lieutenant. His research here will be in heat transfer.

## Alumnae Notes

A number of Alumnae in the Wilmington Schools have gone into new positions this year. Among them are Helen Baylis, '18, who is now principal of the David W. Harlan School; Catharine Schunder Johnson, '18, who is vice-principal at the Emalea Pusey Warner Junior High School; and Mary de Han, '32, who is vice-principal of the William P. Bancroft School and of the John Palmer, Jr., School.

Eleanor Bader, physical education major of the Class of December '43, is chief physiotherapist for the newly organized Delaware Curative Workshop, Incorporated, 101 West Fourteenth Street, Wilmington. In January 1945, Eleanor completed her course at the Graduate Hospital School of Physical Medicine of the University of Pennsylvania and became a full time physiotherapist at the University, in charge of all orthopedic cases referred to the Department of Physical Medicine for treatment. During her year in course, she was class president for six months and a part-time staff member for about four months.

## Ag School

G. L. Schuster, director of the Agriculture Extension Service, has announced that the week of January 28 will be Farmer's Week. The purpose of Farmer's Week is to help agriculturists to keep abreast of new developments in farm science. Headquarters will be in Wolf Hall.

The meetings will consist of lectures and discussion of problems confronting particularly the farmers of this state. Presiding at these forums will be the following members of the Ag staff: A. L. Kenworthy, A. E. Tomhave, P. Brasher, G. L. Schuster, E. M. Rahn, Miss Louise Whitcomb, and Miss M. Gertrude Holloway.

## Drama Group to Offer Annual Prize of \$50

The University Drama Group in recognition of the work of the E-52 Players will offer a \$50.00 prize to be awarded to a student of the University who has contributed most to the dramatic program in the year. The prize will be renewed each year, but no student may receive the award more than once during his college career. This should do much to promote work in the theatre at the University.

The University Drama Group is Newark's Community theatre and has many faculty members participating. On February 15 and 16 the Drama Group will present Sygne's "A Playboy of the Western World" in Mitchell Hall.

## Library Lore

If you have read *The White Tower*, by James Ramsay Ullman, will be interested in the article on mountain climbing, written by Mr. Ullman for Life Magazine of December 31, 1945. Or, perhaps more likely, you have read the article and have yet in store that story of a mighty Alpine climb. It's on the seven-day shelf in the Memorial Library.

John Fischer's article *Truman: A Little West of Center*, Harper's, December, 1945, pokes a little fun here and a little fun there; but most of his barbs are directed at the American people in general, because we can't make up our minds how we want our presidents to behave.

How to Put Words on Paper, an article by Robert G. Berkelman in the Saturday Review of Literature for December 29, 1945, offers no magic formula for pro-

ducing masterpieces. Nor does one find here a maze of rhetorical principles, which, though a knowledge of them is helpful, so often confuse and discourage the novice. Instead, this essay presents "snapshots of flesh-and-blood writers caught in the mysterious act," mentioning specific stimuli, hours, working conditions, and routines.

Lewis Gannett, author of *John Steinbeck: Novelist at Work* in Atlantic Monthly of December, 1945, does much the same thing as Mr. Berkelman, except that he gives only one example. Here is a literary history of one man—not a biography. To inquirers for biographical data, Steinbeck has been known to reply: "Please feel free to make up your own facts about me as you need them. I can't remember how much of me really happened and how much I invented."
