NUMBER 4

Delaware Suffers Defeat At Hands of Catholic University

Washington Team Outplays the "Blue and Gold" And Wins 40-0

Playing against the strong Catholic University team of Washington, Delaware encountered her worst defeat of the season when she was humbled 40-0.

Although the Delaware boys put up a plucky fight, they were completely outclassed by their heavier and more experienced opponents.

Delaware was forced to play a defensive game most of the way, with the result that she succeeded in staving off several other scores that threatened. But in the final period the dose was tripled by those daring, dashing individuals who have come mighty near putting Catholic University on the football map as a result of half a season's efforts. The difference in weight, coupled with that of general ability, began to tell.

It was in the final period that Delaware's light but plucky forwards showed the strain of the task that confronted them, and their admirable defense, previously maintained in the face of odds, began to falter. Catholic's powerful combination worked with machine-like precision, gaining in power with time.

Right tackle Lee, who played his first full game since he was forced out because of a severe injury while playing against Delaware two seasons ago, was responsible in the main for the first touchdown, registered late in the opening period. Up to this time play had developed into a punting duel, in which there was little to choose between Shortley, of Catholic, and Taylor.

A long pass from Shortley to Lee was responsible for the second touchdown. Delaware's best chance to score came in the second quarter. After Catholic had kicked off, Captain Handy sent a long forward to Bratton, who carried the oval to Catholic's thirty yard line. Again a pass was attempted, but without success and Delaware lost their only real chance for a score.

The third period started off with an exchange of punts, the ball finally ending in Catholic's possession on Delaware's own thirty-five yard line. By successive line plunges the ball was rushed to the seven yard mark, from where Rogers carried it over for the third score.

The fourth quarter saw a re-awakening of the machine-like tactics of the home team.

Less than five minutes after the start of the period the total had been increased to 26 as a result of a thirty-five yard march up the field. Butler scored the touchdown and kicked the goal. A minute later seven more points were added as a result of an intercepted forward pass.

Following this score, Coach McAvoy sent in his second string backfield. Delaware now resorted to forward passing as a final means of scoring. Two short ones were successful but J. Butler intercepted the third one. Once more Catholic started down the field by playing hard, straight football. The ball was carried to the twenty-yard line and a forward

pass from here resulted in the final touchdown. The score:

Catholic U.	Delaware
McCue..... l. e.	Fitzpatrick
Kerr..... l. t.	Weldin
Greer..... l. g.	T. Wilson
Murphy..... c.	Crothers
Costakis..... r. g.	Newton
Lee..... r. t.	E. Wilson
McKinney..... r. e.	Smart
Shortley..... q. b.	Fidance
Rogers..... l. h. b.	Taylor
W. Butler..... r. h. b.	Bratton
J. Butler..... f. b.	Handy

Substitutions: Catholic University—Denning for Greer; Greer for Murphy; Ahearn for McCue; Waters for W. Butler; Toole for Rogers; Delaware—O'Daniel for Fidance; Fidance for O'Daniel; O'Daniel for Fidance; C. Smith for Taylor; Lowe for Handy; Meyers for Fitzpatrick; Wallace for Bratton; Marston for Smart; Lauritsen for Weldin. Touchdowns—Lee, W. Butler, Rogers, 2, McKinney, J. Butler. Goals from touch-

Hallowe'en Party At W. C. D.

A Hallowe'en Party in the evening followed the first anniversary exercises of the Women's College of Delaware held on October the thirtieth.

The guests were met at a door under the terrace by six gruesome ghosts, who took them first to the Fairies' Den, and then to the Chamber of Horrors. Thence they were escorted by other clammy-fingered spirits thru a weirdly-peopled passageway into the upper world. Jack-o-lanterns grinned at them from the fodder-piled corners of the spacious halls, and girls, girls, girls, masquerading in every costume under the sun, dragged the visitors into the old-fashioned fun of All-Hallowe's Eve.

Everybody strove in potato, obstacle, and suit-case races. They bobbed for apples and munched on popcorn. They had their fortunes told and their characters read.

Then the girls, each numbered, were lined up along one side of the room and were given rubber balls bearing a number corresponding to that which they wore. The boys were lined up along the opposite wall. At a given signal the girls

Great Ethusiam About Dickinson Game

Biggest Smoker of the Year--Addresses by Members of the Faculty and Prominent Alumni--Smokes for All--Music by the College Band--Military Drill at Game

With the Dickinson game only a week off, the enthusiasm is at a high pitch at "Old Delaware." Little else is heard on all sides but "What are Delaware's chances?" "How large will the score be?" On Friday evening the biggest smoker of the year will be held in the Oratory in preparation for the game. The college band will be there, your friends will be there, you will be there. Follow the street parade led by the college band on Friday evening and you will land in the right place. Every student should show his loyalty to his Alma Mater by being at this smoker.

Speeches Galore

Coach McAvoy will speak for the team. Professors Tiffany and Hills will speak for the faculty. E. Post will tell how this sort of C. Johnson, editor of the "Newark thing was done in '96. Josiah Mar-

prizes will be awarded to the three freshmen having the best costumes. There will also be a snake dance after the parade when all the college songs will be sung and all the yells given. Get in the parade, fellows, and, freshmen, get that costume ready and "cop" one of those prizes!

Don't Miss The Game Itself

The game promises to be one of the best ever played on Joe Frazer Field. The men from Carlisle always put out a good team, a team that fights hard and clean. On Saturday our team will go on the field with every chance of avenging past defeats. Be on hand at the start, and bring your friends with you.

Relay Race Between "Sophs" And "Freshies"

A relay race between the halves will be run by the Sophomore and

down—J. Butler, 4. Goals from touchdown missed, J. Butler, 2. Referee, Church of Yale; umpire, Morse, of George Washington; head linesman, McGuire, of Harvard; assistant linesmen, Cassidy, of Catholic University, and Smith, of Delaware. Time of periods, 12 minutes.

"Big" Game Saturday

Next Saturday Delaware plays their old rivals, Dickinson, on Frazer Field. This will be the best game of the year for Delaware and if Delaware wins the season will be considered a successful one. With this thought in their minds, everyone is making great preparations for this game. The slogan among the students for the past week has been "beat Dickinson."

In order to create more enthusiasm and greater interest for this

bounced the rubber balls and each boy took to refreshments the girl who wore the number which corresponded to that on the ball he caught.

Ventilating System Successful

The ventilating system, of which an electric fan is an integral part, installed in the sweet potato storage house of Huston & Darbee, at Seaford, has proved wholly successful. This system was installed by the Department of Plant Pathology of Delaware College Experiment Station working in co-operation with the Bureau of Plant Industry of the U. S. Department of Agriculture. It was installed at a cost of about fifty dollars and can be run at a cost of about a dollar a month. It has been found to be adequate for a three story house forty by sixty feet.

vel, Esq., and Daniel O. Hastings will discuss the relation of the athletics of the college to the people of the State. These men need no introduction to any one interested in our college.

And The Band Will Be There

There will not be a moment in which there is not something doing. The newly organized college band will enliven things with some of its best and strongest music. If you don't know the Alma Mater, come out and learn it, or at least learn how it should be sung.

Street Parade With "Freshies" In Costume

Immediately after the smoker a street parade by the battalion will be held. The band will lead and the Freshmen will follow in costume. First, second, and third

Freshmen teams. Come out and see which team wins.

Military Drill

Are you interested in real military drill? If you are, come early and see the exhibition drill by the cadet corps, under the direction of Lieutenant Herman and Major G. O. Smith. This will be the first appearance of the cadets in their new uniforms. You will be convinced after the drill that the country is safe, and this assurance is worth the price of admission.

Good music, good exhibition drill, good, clean football—all is yours if you come to Frazer Field at two o'clock on Saturday afternoon. Take a day off. Show your interest in your college and in clean sport by your presence with us on Saturday.

NOVEMBER 2, 1915

A new day has dawned for Delaware! She has come into her own. With the receiving of a great gift of half a million of dollars, she has started a new period of usefulness the end of which we hope will never come. It is a period which marks a new era in itself, but which is, nevertheless, the inevitable result of all that has gone before. The hazy visions of the pioneers,—those Presbyterians who first saw a need and tried to fill it,—the steady efforts of the first instructors, the sacrifice and whole-hearted help of the boards of trustees away back there in the past,—all these things together with the industry of all who have come since including the patient, faithful service of our beloved Dr. Harter, have brought about propitious conditions which culminated in Dr. Mitchell's advent and finally in the birth of a new dawn for Delaware College.

But dawn merely begins a day. It is for us, we men of Delaware, to get together, to give of our enthusiasm, of our entire selves, so that we can make all the remainder of Delaware's days an adequate fulfillment of the great prophecy glowing out of this glorious sunrise.

This gift means so much to us, fellow students, I wonder if you realize how very much! It means that we are about to take our place beside other great American colleges. It means that some day people will speak in correlative tones of Lehigh and Delaware, of Swarthmore and Delaware, of Dartmouth and Delaware. It means that we shall cease to be measured by the finite borders of a small state, but that our influence will be national—nay, international—instead of provincial. It means that when you and I, fellow students, after we are out in the world are asked "What is your college?" we shall lift our heads a little and say "Delaware"; and as we say the word we shall see visions of big science buildings, large dormitories, spacious auditoriums—all belonging to our college. We shall know what it means to have the prestige of a great institution of learning at our back.

We must do our part. We must write home to the folks and let them know how great is our good fortune. We must tell our friends why they should come here, what great opportunities await them. From this day we must begin to feel larger, to act larger, to be larger. In short we must walk worthy of the great good fortune

which has come to us; we must make new resolutions and hold to them. We are here when the sun arises; and we must be responsible that the clouds never obstruct its rays.

New Students At Women's College

Forty-five students from all parts of Delaware, Pennsylvania, Maryland, and other states, compose the entering class at the Women's College of Delaware. Of the forty-five students, forty-one are taking the regular prescribed courses, and four students are taking a special course in Home Economics. The following are the names of the students who compose the entering class:

Katherine Bowen, Ruth Clark, Minnie Catterson, Mabel Dobson, Miriam Dennis, Mary Dennison, Alice Evans, Catherine Fletcher, Lilly Ferguson, Esther Green, Alta Grant, Elizabeth Houston, Elizabeth M. Jones, Elizabeth F. Jones, Mary Keenan, Susan Kern, Amelia Leichter, Marguerite Lauritsen, Mary Mason, Helen Mackey, Madge Nickerson, Selina Perkins, Mary L. Powers, Mildred Redgrave, Esther Read, Grace Rono, Dorothea Russell, Ruth Satterfield, Anna R. Scott, Esther Smith, Paul Twitchell, Marian Underwood, Ina Smith, Helen Stuart, Thera Gladys Walton, Mary Wright, Victoria Zukowsky.

Special in Home Economics: Miss Edith Spencer, Miss Elsie Wright, Miss Helen Pollard, Mrs. Pollard.

Always Welcome — Riz La Croix

The man who rolls his favorite tobacco in Riz La Croix takes pride in the fact that he uses the best cigarette "papers" the world produces. And his cigarettes have the fresh, mellow flavor and the rich fragrance of the tobacco, without a particle of "paper" taste or odor.

RIZ LA CROIX

(Pronounced: REE-LAH-KROY)

FAMOUS CIGARETTE PAPERS

For a test—light two pieces of cigarette papers, Riz La Croix and some ordinary brand.

Note how much more freely and evenly Riz La Croix burns, with but a faint trace of gray ash—no charring, no odor.

It's far easier to roll your own cigarettes in Riz La Croix, because it's thin and light. And being made from pure flax linen, Riz La Croix is unusually strong and perfectly adhesive.

Cigarette paper is so small an item of expense that every man can afford the best. Try Riz La Croix.

And meters trochaic,
But the meter that's neater,
Sweeter, completer,
Is to meet'er in the moonlight alone.

A patriotic movement is on foot to erect a monument to Lady Eglantine, the 311 hen. The Blue Hen will gratefully receive your contribution. The monument will be placed in the center of Joe Frazer Field, and will consist of a huge pile of hard-boiled eggs.

The evening before the Lafayette game the various members of the team slipped out from the hotel singly and in pairs, bent on seeing the sights. By some strange coincidence every mother's son of them wound up in the same place. That is, everybody but Johnny Jones and Loomis, who were headed there, but got lost. Needless to say, the boys had picked out the best Easton offered in the show line, and to judge from reports, it was some show. Smart said he knew it was going to be a hit before the curtain was more than quarter way up.

"Gum-shoe" Steele, who was detailed to investigate the grand larceny at the sister college reports a strange reticence in the victims of the thefts. They refuse to estimate the amount of their loss, or even describe the missing articles, that they may intelligently be searched for. With this unaccountable lack of co-operation, it may be some time before the mystery is completely solved.

Bratton has been sporting a different class pin each day this week. It seems that these pins have been sent as samples for the class to consider before adopting any set design. Bratton thinks his manly bosom a fitting place to display these samples; hence the chief-of-police effect.

Admiring friend—"But, Professor Robinson, don't you find it hard work to correct so many exams?" Robby—"No, not at all, I assure you. I mark them with E's (ease). [Parenthetical explanation for Freshmen, only.]

Last week when a chunk of plaster fell from the ceiling and landed square on Tiff's head, (no, not on Tiff's square head, Joseph), he was heard to mutter, as he slowly regained consciousness, "Precipitate of calcium, impregnated with minute quartz crystals, sometimes called sand." Force of habit is almost as strong as the force of gravity.

Lieut was speaking the other day of organizing an artillery corps. We have two Cannons in college and would surely be un-

wise to allow this opportunity to slip by.

O you Betsy Bolivar!

The Junior Civils are working on an industrial spur branching off the Pomeroy track in the vicinity of Dean's Field. Chief Engineer, Jones, Jr., hopes to have the work completed before Christmas.

One of the Sophomore physicists recently discovered the specific gravity of water to be 9.8—(that slight rustling noise you just heard was Newton, Foucault, Galileo, Archimedes, and a few others, turning in their graves).

Lady Eglantine is breaking the world's record for egg laying right here in town. At the same time the price of egg sandwiches is soaring toward a record also. Can you beat it?

On Monday, Oct. 24, a demonstration of the use of fire extinguishers was given in chapel at the Women's College. Do you think their idea is to put out fires, or to put out the fellows at "10 bells"? Maybe to put out some of the new professors who tarry after 10 o'clock.

Plans are being discussed for a play to be given by the Senior Class in order to raise money to keep Bake Taylor in shoes on account of his increased business between the College and the Newark Postoffice.

Dean Robinson has forbidden fellows coming down to the W. C. D. and bringing girls up to the games. They must now meet them at the swinging gate on the campus. The Dean believes thoroly in

Dr. Mitchell's economy. She wants the fellow's shoes to last as long as possible.

Agricultural Club Again Active

The Agricultural Club for the present year gives promise of outstripping its past reputation as the most active organization in college. At the first regular meeting held last Thursday evening about a score of enthusiastic old members were present. The evening was spent in discussions of live topics connected with the Club. The Delaware Farmer, already well known thruout the state, was a topic for discussion. Plans were made for a campaign to increase its already substantial subscription list. The final plans were completed for the Agricultural Club play to be given on December 3rd. Hereafter meetings will be held every Thursday evening. Under President Mulholland's capable direction, a snappy program will be given each week. Freshmen will be given a chance to make good and those who show the right kind of mettle will be allowed to take part in the various activities of the Club.

Freshmen Agents For Laundry

Two Freshmen, J. Coale and Seraphian, are agents for the Snow White Laundry Co. of Wilmington, Delaware. These men are working their way through college. They desire a share of your patronage. A basket, in which the articles may be placed, is to be found in the College Store. The laundry is returned to the patrons at their own rooms. Give them a hand!

DELAWARE COLLEGE

Now is the time for high school students to be making their plans for attending college next year. Why not go to a college near your home, a college which your friends are attending, a college which is growing faster than any other in the East? Delaware College offers splendid opportunities to the earnest students who come to it after completion of a full high school course. Tuition is free to all Delaware students. Thirty-one instructors to 232 students (one instructor to about every eight students) gives the students the benefit of individual instruction.

THREE DEPARTMENTS—Arts and Science, Agriculture, and Engineering

all leading to degrees. Adequate Libraries, Work Shops, and Experimental Farm. Faculty of men trained in best universities of this country and Europe.

For catalogue and other information, write to

SAMUEL CHILES MITCHELL, President
Newark, Delaware

1. In the fingers of the left hand, hold paper, curved to receive tobacco, poured with the right hand.

2. Spread the tobacco the length of the paper, making it slightly hollow in the centre.

3. Then place your two thumbs next to each other in the middle of the paper in this position.

How To "Roll Your Own"

It's a simple, easy process. You can do it with your eyes shut after a little practice. And what a joy is the fresh, fragrant cigarette of "Bull" Durham rolled by your own hand to your own liking! You "roll your own" with "Bull" and note the difference.

GENUINE "BULL" DURHAM SMOKING TOBACCO

All over the world men of energy and action are rolling "Bull" into cigarettes. Probably not one of these millions of men "rolled his own" successfully at the first trial. There's a knack in it—"rolling your own" is an art—but you can learn it if you will follow these diagrams. Keep at it for a few days and you'll soon be able to make for yourself, to suit your own taste, the smartest, liveliest, mildest smoke in the world.

"Bull" Durham, made of "bright" Virginia-North Carolina leaf, has a mellow-sweetness that is unique and an aroma that is unusually pleasing.

Start "rolling your own" with "Bull" Durham today and you'll never again be satisfied with any other kind of a cigarette.

Ask for FREE package of "papers" with each 5c sack

THE AMERICAN TOBACCO COMPANY

4. Roll cigarette on lower fingers, index fingers moving up. With thumbs gently force edge of paper over the tobacco.

5. Shape the cigarette by rolling it with the thumbs as you draw them apart.

6. Hold the cigarette in your right hand, with edge of paper slightly projecting, and—

7. With the tip of your tongue moisten the projecting edge of the paper.

8. Close ends of cigarette by twisting the paper. The cigarette is now ready to smoke.

Faculty Kills Petition For Dance Nov. 6

"No dance shall be given in the Gymnasium for purely financial reasons" was the decree of the faculty at its last meeting, Monday night, in answer to the petition of the Junior Class to hold a dance on November 6. "It is not the object of the faculty," said both Dean Smith and Professor Dutton in explaining this action to several of the students, "to stop any social functions which the students may wish to hold, but to stop the holding of small dances for pure financial reasons, especially those held to go toward paying the expenses of a 'big dance' like the Junior Prom. Professor Dutton said that the faculty was in favor of holding more small dances, but was opposed to having them in order to support such an elaborate dance as the Junior Prom,—a dance which a great many students could not afford to attend.

It is understood that this ruling will not interfere with the holding of a dance on Thanksgiving evening, or any other evening, for purely social reasons.

Anniversary Of Opening Of Women's College

The anniversary of the opening of the Women's College of Delaware was held on October 30. Although established only one year, it has already taken a high place among colleges for women. The enrollment of 85 in the two classes—Sophomore and Freshman—far exceeds the expectations of those who established the college. Within two years the number of students in the college should exceed 200. The ceremonies in connection with the anniversary exercises were simple, but impressive. The visitors were served tea and coffee by the Home Economics Department of the college.

Chancellor Charles M. Curtis, Chairman of the Committee on the Women's College, presided. Song, Delaware.

The Committee on Education and the Committee on Arts and Crafts of the State Federation of Women's Clubs held a joint open meeting in Science Hall at 11.00 a. m.

The students of the Home Economics Department served tea and coffee in Science Hall Basement at 12.30 to all those who brought box lunches.

Women's College Notes

"Pliny's Doves" have been added to the decoration of the Browning Room at the Women's College.

The "practice dining room" to be used by the Home Economics department is being furnished.

Miss Elizabeth Jefferson, the Home Economics extension worker, will return to the college on Saturday of this week after conducting two very successful classes in the lower part of the State.

Six large rubber plants from Mrs. W. Lewis Duff, of Newport, and three large pictures from Mr. T. Cullen Hilles and Miss Edith Hilles, add to the attractiveness of Residence Hall.

On November 10th, Dean Robinson will attend the Teachers' Institute to be held in Wilmington. She will speak on "Student Self Government."

On Wednesday, October 27, at a meeting of the New Century Club which was held at the home of Mrs. Edward Cooch, Dean Robinson gave an informal talk on The Yosemite Valley.

DELAWARE SUFFERS DEFEAT AT HANDS OF CATHOLIC UNIVERSITY

(continued from page 1)
contest, a large "Smoker" has been arranged for Friday night. Many of the Alumni will be present to make short addresses and every indication points to a successful affair.

Prior to the smoker there will be a big parade of the band and students. The Freshmen are to live things up with costumes which will consist of anything from a "Bear to a Bell Hop."

All students "Must" turn out, and we hope for a good representation of Alumni.

Inter-class Relay Race
Between the halves of the Dickinson-Delaware game, Saturday, a relay race between the Freshmen-Sophomores will be run.

The Freshmen are reported to have some fast men in their ranks and this will be their opportunity to "show."

There is little talk among the '18 class but they expect to give a good account of themselves.

Both teams have been practicing daily and the fans should be in for a treat.

Interesting Meeting Of Delta Phi Literary Society

On Monday evening, October 25, the Delta Phi Literary Society held its largest meeting of the year, with more than 25 members present. Dr. Vaughn, the chief speaker of the evening, treated his subject, "Fads and Fashions" in his usual witty manner. He said that fads and fashions would make a profitable course of study, and gave as examples of fads the tango, dress, doctors, preachers, golf, and appendicitis. He defined a fashion as a system of recurring changes governed by no question of utility; a system which travels in a circle and never gets anywhere. Style is attractive on account of its novelty, and is based on the desire for inequality between different classes of society. In conclusion, Dr. Vaughn declared that we are all under the tyranny of fashion; that every man as well as every woman is the slave of style.

In addition to Dr. Vaughn's address, impromptu were given by

L. B. Stayton on the subject "Football Prospects"; T. S. Carswell on "The Effect of Commuting on the College," and H. M. Meyers on "The End of Turkey." T. R. Wilson delivered a splendid oration entitled "Spartacus to the Roman Gladiators," and the literary program was ended by a reading from J. H. Hall.

An interesting feature of the meeting was the reading of a letter from Edward N. Vollandigham, an alumnus of '73. Mr. Vollandigham told of the great activity of the literary societies in his time, and said that when he was a student the whole of Saturday morning was given over to the meeting. He expressed an earnest wish that proper quarters may be found for the society in the enlarged campus.

He hoped that the literary society meetings will continue to grow larger and more interesting. When alumni of nearly fifty years ago still remember with pleasure the time they spent in literary work, surely the students of today, in a time when all departments of the college are awakening to new life, should take more interest and devote more time to the literary society meetings. Next Monday night, at the usual time, seven o'clock, an interesting program will be presented by the Delta Phi Society, and every member should feel it his duty to be present. Let everybody come out, and help make the next meeting "the biggest yet."

SAY

Speaking of that Honor Roll, here are some figures:

Number in Faculty	33
Number of Students	223
Number of "Fillies"	96

Total College prospects 352

This does not include the Board of Trustees, the august Alumni, and the host of outside friends.

But to you and my story—of the 352 on the ground, have YOU subscribed? I want a dollar from every one of you or a "written reason why." This is not my party alone; the Review is a student affair.

Oh say, come on across, Fillies, Faculty, Students—all of you. Write Home for a Wheel and send it Rolling for the Roll of Honor.

The Women's College of Delaware

Girls who expect to complete courses in Delaware High Schools next June should plan now to secure a thorough collegiate training at the newly established and rapidly growing Women's College of Delaware. Although it has been in existence only a little over one year, the college has an enrollment of eighty-five students from several states. Tuition is free to all Delaware students. New buildings, large and capable faculty, beautiful location, individual instruction.

Three Departments:

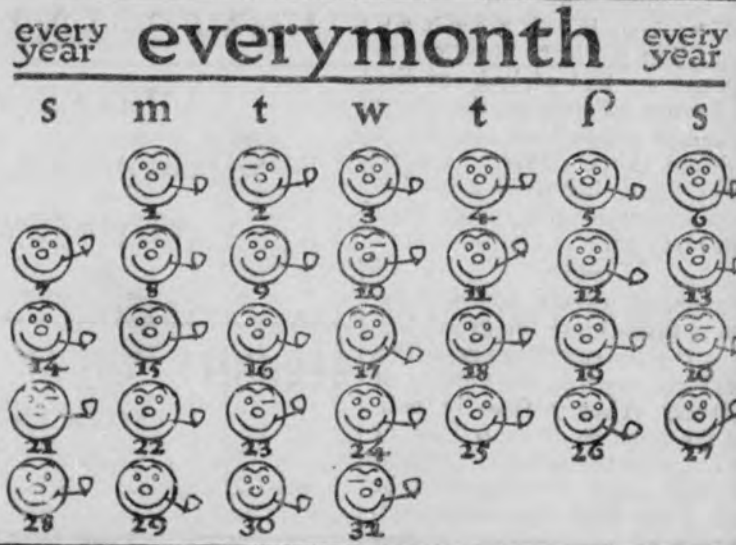

Arts and Science—Designed to give a broad cultural training.

Education—Intended for those who wish to teach in the schools of Delaware and neighboring states.

Home Economics—Intended to give students training in home-making and in teaching Home Economics in the schools.

For catalogue and other information, write to

WINIFRED J. ROBINSON, Dean
Newark, Delaware

happy days!

"Tux" is the happy smoke. It just packs the smoker's calendar so plumb full of fragrant delight that a gloomy day can't crowd itself in edgewise. That mild, soothing taste of "Tux" has introduced many a man to the joy of pipe-smoking and a regular unending procession of happy days.

Tuxedo
The Perfect Tobacco for Pipe and Cigarettes

By far the most pleasant pipe-smoke in the world is Tuxedo. Think of the supreme satisfaction of being able to smoke your pipe all day, and day after day, without a particle of discomfort! You can do it with Tuxedo—because Tuxedo is made wonderfully mild and absolutely biteless by the original "Tuxedo Process."

That process is what makes Tuxedo different from any other tobacco made. Others have tried to imitate it, but never successfully. Just try Tuxedo for a week and you'll smoke it ever after.

NUMBER 5

LARGE CROWD SEES DELAWARE DEFEAT DICKINSON

CARLISLE TEAM NO MATCH FOR THEIR LIGHTER OPPONENTS AND ARE SMOTHERED 24-7

Delaware proved vastly superior to Dickinson in every department of the game Saturday, winning a hard fought, clean cut victory.

Only once during the entire game did the Pennsylvanians appear dangerous. This was in the first quarter when they succeeded in scoring their only touchdown by taking advantage of a fumble by Delaware.

In sharp contrast to the Dickinson aggregation was Coach McAvoy's smooth-working, well-trained machine. The clock-like precision of the backfield could compare favorably with any of the larger eastern universities. Time and time again, they rushed through the Dickinson forwards for substantial gains.

The day was an ideal one for so important a contest and a large crowd turned out to witness the battle.

At 2.15 the student body, dressed in uniform, marched out on the field and took their places in the cheering section. Five minutes later the Dickinson team came running on the field, closely followed by the "Blue and Gold" squad led by Capt. Handy.

Both teams went through a short signal drill and then prepared for the struggle.

Seldom, if ever, has there been a cleaner, classier, or better brand of football played on Frazer Field. Not once during the game did either team protest a decision of any kind. A more sportsmanlike spirit could not be shown by two teams, than was exhibited by Delaware and Dickinson Saturday.

Play In Detail

The visitors opened the game by kicking off to Delaware. Delaware made a first down. Taylor punted to Dickinson's 25-yard line. Dickinson failed on two plays through the line and kicked to Taylor, who fumbled, Dickinson falling on the ball. Again Delaware held and Hamby kicked to Taylor on the 20 yard line. Captain Handy fumbled on the ball for Dickinson on Delaware's 10 yard line. On their third down, Palm carried the ball over for the first score of the game. Palm kicked the goal.

Dickinson again kicked off. Delaware made a first down and then Taylor punted. Crothers threw Palm for a loss of several yards. On the next play, Smart blocked a kick and recovered the ball on the 5 yard line. Taylor tied the score by kicking the goal.

Delaware received the kick. Line plunges failed to gain and Taylor was forced to punt. Shelley received the ball on Dickinson's 40 yard line, Smart dropping him in

his tracks. The quarter ended with the ball in Dickinson's possession on their own 49-yard line. Delaware, 7; Dickinson, 7.

Second Quarter

An end run, followed by a pass from Hamby to Brown, placed the ball on the 30 yard line. Here Delaware was penalized 15 yards for holding. On the first play Dickinson was penalized for piling on. Crothers pulled the Blue and Gold out of a hole at this stage of the game by intercepting a forward pass. Rushes by Handy, Taylor and Bratton made a first down. Two end runs failed to gain and Taylor punted out of bounds on Dickinson's 40 yard line. Hamby made 15 yards on an end run. Two passes failed to work and Palm punted over the goal line. The ball was put in play on the 20 yard line, from where Taylor kicked. An exchange of punts gave Delaware the ball on her 35 yard line. Two first downs were made, placing the ball on Dickinson's 35 yard mark. Two forward passes failed but a third one, Handy to Smart, placed the ball on the 25 yard line. Two plunges netted five yards. With 30 seconds to play and on the fourth down, Fidance dropped back and kicked a goal from field. Before the teams lined up the whistle blew.

Delaware, 10; Dickinson, 7.

Third Quarter

Delaware kicked off. Dickinson seemed to take a brace in this period and started off with a rush. A forward pass, Masland to Shelley, netted thirty yards. Another first down placed the oval on Delaware's 25 yard line. The Blue and Gold team held and received the ball on her 15 yard line. Rushes by Handy and Taylor gave Delaware a first down. Dickinson held and Taylor punted to the 25 yard mark. Dickinson returned the punt to Delaware's 30 yard line. After a 25 yard run by Bratton Delaware could not gain and were again forced to kick. Crothers intercepted a pass and once more Delaware took the offensive. Dickinson's line held. Taylor kicked to the Pennsylvanians' 25 yard line. Here the period ended.

Delaware, 10; Dickinson, 7.

Fourth Quarter

As in the previous quarter, Dickinson started off with a rush. A first down and a forward brought the ball to Delaware's 30-yard line. Weldin came to the rescue by pulling a pass out of the air and making a run of forty yards. By straight football, Delaware rushed the ball to the 6 yard line where Bratton carried it over, scoring Delaware's second touchdown. Taylor added one more point.

Delaware kicked off. Crothers intercepted a forward on Dickinson's 30 yard line. Repeated plunges again resulted in a score. Bratton making the score. Taylor kept up his good work by kicking his third straight goal.

Shortly after the kickoff, the whistle blew, thus ending one of the greatest fought battles ever staged on Frazer Field.

For Delaware, the defensive playing of Crothers featured, while the line plunging of Capt. Handy and Bratton was especially noteworthy.

Hamby and Palm were the best ground gainers for the Carlisle warriors. The score:

Dickinson	Delaware
Brown.....l. e.Fitzpatrick (Capt.)	
McCabe.....l. t.Weldin	
P. Masland....l. g.Newton	
Meyers.....c.Crothers	
Taylor.....r. g.T. Wilson	
Fridebaugh....r. t.E. Wilson	
Hertzler.....r. e.Smart	
Shelley.....q. b.Fidance	
Hamby.....l. h. b.Taylor	
Palm.....r. h. b.Bratton	
F. Masland....f. b.Handy (Capt.)	

Substitutions: Dickinson—Evans for Hamby. Touchdowns—Handy, Bratton, 2; Palm. Goal from field, Fidance. Goal from touchdown, Taylor, 3; Palm. Referee, Belland, Michigan State. Umpire, Sigman, Lafayette. Head linesman, Wetter Swarthmore. Time of quarters, 12 minutes.

Freshmen Beat "Sophs"

In the annual relay race Saturday the "Sophs" proved no match for the first year men. Taking the lead at the start, the "Freshies" were never headed, Craig, their last man finishing about fifty yards ahead of Taylor. The time made was 3.43 1-2. Considering the practice which the new men have had, this is remarkable time, and indicates that there will be some very good material to report for the "Varsity relay" in the spring.

Two More Games

Next Saturday Delaware plays Mt. St. Marys College at Baltimore. This should not be a hard test for the team but Coach McAvoy intends to give the team a good work-out this week in order to keep the men in good shape for the final game on Thanksgiving.

The Thanksgiving game this year will be played with the fast William and Mary College. This should be another treat for the fans and great preparations are being made in order to make things lively for the holiday crowd.

Everyone should turn out for this final game of the season.

Big Celebration Of Victory

A big bonfire, speeches, cheering and snake dances, Monday night, all went to make up the celebration of Delaware's first victory over Dickinson.

The students were excused from all classes Monday afternoon. Squads of Freshmen in charge of a Sophomore, set out to collect all the wood to be found around Newark. At 5.30 o'clock a huge, conical pile had been placed on the D. C. Rose Field ready for the bonfire at 7.30.

A little after seven o'clock the whole student body, led by the band, proceeded to the Rose field, doing snake dances and singing as they went. At 7.30 gasoline was thrown on the huge wooden cone and a match struck to it. A brilliant, crackling blaze flashed upward and lighted the sky. Speeches and cheering then began.

Various members of the team, as well as Coach McAvoy, Dean Smith, and Professor McCue, president of the Athletic Council, were called on in turn to voice their enthusiasm over the victory. Each man was cheered again and again. Coach McAvoy said, "You, students, have supported the team from start to finish. You have done all that I could ask of you. We are a real college now. Let's keep it up."

Professor Tiffany Speaks At Athenaeum Meeting

Professor Tiffany gave a talk to the members of the Athenaeum Literary Society at its meeting on Tuesday night on "The Necessities of a Good Literary Society." In his talk Professor Tiffany said that literary society, in order to be successful in its work, must have a good membership, attractive programs, and genuine enthusiasm among its members. He said that all the societies in Delaware College had in the past failed because they did not fulfill these requirements. He concluded by congratulating the Athenaeum Literary Society in having such interesting programs and in having such enthusiastic meetings.

Impromptus were then given. Mr. Weigle spoke on "Chapel Talks" and Mr. Cooke commented on the literary societies at other colleges.

Sigma Nu Holds Dance After Dickinson Game

On Saturday evening after the Dickinson game the Sigma Nu Fraternity held an informal dance at their house. The sixty guests danced until eleven o'clock when refreshments were served. Beside dancing, two interesting stunts were acted by the Freshmen. One was a talking contest and the other a curtain trick.

Among those present were Professor and Mrs. C. A. Short, Professor and Mrs. A. C. Whittier, and Mr. and Mrs. C. B. Evans.

Blue Hen To Contain Many Cartoons

The cartoon which we published on the front page of the Review last week and which called for much favorable comment, is a specimen of the kind of drawings with which the Blue Hen will be filled. Indeed, it will contain better cartoons than any Blue Hen which has appeared in many years.

Great Parade And Smoker Before Dickinson Game

The biggest smaker ever held at Delaware College was held on Friday night at 7 o'clock, the night before the Dickinson game. Everyone was keyed up to the highest pitch of enthusiasm and more "pep" was on hand than has been shown at Delaware for many a long year. Practically the whole student body was present and everybody joined in the proceedings with a sort of reckless abandon. The whole town of Newark turned out to see the fun. Everybody seemed to catch the spirit from the college boys. Main street was lined with spectators. You might have thought it was a political parade or a nocturnal circus procession. Whatever it was, it seemed to make a great hit; and for one evening at least it looked as tho the "movies" would do no business.

The Gold Dust Twins made a great hit. They were dressed from head to foot in black tights with a diminutive hoop-skirt of yellow around their loins. In the very rear a red-cross corps carried the supine form of a Dickinsonian on a stretcher. He was dressed in a football suit and was swathed in bandages. In front of the stretcher a solemn preacher read the Dickinson funeral sermon while in the rear a white-clothed surgeon carried a threatening looking saw which boded no good for the prostrate Dickinsonite.

The prizes which were awarded the best costumes were given as follows: The first prize went to E. E. Plumley, who carried a float representing a German Submarine, U 29. Second prize was awarded to Henry Marston, who represented a ballet dancer, while third prize was given to the Red Cross crew from the Sigma Phi Epsilon Fraternity, who carried Dickinson on a shutter. Professor Charles A. McCue, Norris N. Wright, and Everett C. Johnson were the judges.

It was shortly after 8 o'clock when the paraders reached the Oratory and the room was crowded. Alec Crothers, the crack center of the football team, and president of the Athletic Association, presided. The principal speaker was City Solicitor Daniel O. Hastings, of Wilmington. Mr. Hastings urged the student body to stand back of their team and for all to show plenty of "pep" if they expected to win games. The goat which was brought into the room by Ferguson approved of Mr. Hastings' remarks. Whenever the speaker made an especially good point in his talk the goat let out a loud "ma, ma." Mr. Hastings was undecided as to whether or not this was a prearranged part of the program, but remarked that the goat at least appreciated what he was trying to say.

Short talks were also given by Professor Frank B. Hills, Dean E. Laurence Smith, Professor Harold E. Tiffany, and Coach McAvoy. The latter was given a great send off.

The band furnished several selections and there were also vocal selections by a quartette composed of Harvey Ewing, G. G. Smith, Ernest Burnley, and Morris Ewing.

Extension Lectures

The chairman of the Delaware College Extension Committee announces the following lectures for November: Professor Harry Hayward, "The Church and Agriculture," Public School of Laurel, November 18; Professor C. A. McCue, "The Dooryard," Welsh Tract School, November 2; Mr. M. O.

Pence, "Vocational Training," Parent-Teachers' Association of Laurel, November 1; Dr. W. J. Rowan, "Our Bird Neighbors," Eastlake Presbyterian Church, Wilmington, November 2; Professor E. L. Smith, "Paris," (illustrated), Twentieth Century Club of Smyrna, November 19; Dr. W. O. Sypherd, "The Bible as Eng-

lish Literature," New Century Club of Newark, November 22, Dr. E. V. Vaughn, Wilmington High School, November 8 (subject to be announced later); "Delaware during the Revolution," Century Club of New Castle, November 9, "Curious Facts in Delaware History," Parent-Teachers' Association of Lewes, November 22.

NOVEMBER 9, 1915

Well, we walloped Dickinson! And we made last week-end (Friday night, and Saturday) the greatest week-end in the history of Delaware. We gave, as our very own Coach McAvoy told us, the nearest approximation to an example of pure college spirit which he ever saw here. We had "pep"; we had enthusiasm; we had energized sympathy with our team. We knew we had to win. We told them they must win. And they did win. Boys, we acted like colleg men,—like the men of a big college. They acted like the football team of a big college. And the result!—well you know. We walloped Dickinson!

Basketball at Delaware

To those who have observed the records made by Delaware's basketball team in recent years one fact stands out prominently above all others. This fact is that our teams have been woefully unsuccessful in their early contests and very successful in their closing games. This has particularly been the case in the last two years. At the start of the season the general character of Delaware's game has been anything but encouraging. There has been such a lack of teamwork and of knowledge of the ne points of the game that our team has not been able to compete, with any degree of success, with teams possessing only "prep" school ability. But not only have our players shown no smoothness of action as a team; they, as individuals, have shown no accuracy in shooting baskets. With each succeeding game, however, an improvement can be seen in the work of the team. And when the last two or three games on the schedule are reached our five is playing a one hundred per cent better game than it did during the early part of the season.

One has merely to review the record of last year's team to find that these statements are true. Now the question is whether the record of this year's teams, and those in future years, is to be a repetition of the record of last year's team.

There is one thing responsible for Delaware's early season form, and that is lack of practice. The cause of all our early season basketball reverses lies in the fact that practice does not begin until after the Christmas holidays. Our first game usually occurs during the third week in January. Hence the team has little more than one week to get in shape for the open-

ing contest. The result of such a state of affairs is obvious to all. And just as long as conditions remain thus, just so long must we not expect to have a successful year in basketball.

It appears that we have a possible remedy,—possible if those fellows who hope to make the squad will report for practice at least by the first of December. Coach McAvoy is prevented from taking charge of basketball until after the holidays. But there is nothing to prevent the candidates from reporting for practice with the captain in charge.

It is unfortunate for the team that the holidays come just when they do; but as other colleges of our class turn out winning teams under the same conditions, Delaware ought to be able to do likewise. So captains of the basketball teams and men who have the desire to see the Blue and Gold trim Susquehanna and Washington again this year be out for practice every afternoon next month and we will have a team of which we may well be proud.

A great deal of thanks is due Lieutenant Hermann from all the students, for the whole-hearted way in which he gave his services to prepare for the Dickinson game. He spent two whole drill-periods getting the battalion in such shape that it would be a credit to the college. And his suggestions and sympathetic help caused a greater improvement in the cheering than has shown itself for a long time. The presence and the personality of Lieutenant Hermann mean more to Delaware College than it is possible to say.

LOCALS

Last Monday evening Professor Grantham addressed a joint meeting of the Farmers' Institute and the Parent-Teachers' Association at Leverson, Delaware.

It has recently been learned that "Robby" has an understudy in the person of Ches Smith, '17. Last week, when "Robby" came into the room, via the back door, he found Smith at the lecture table volubly explaining to the class the advisability of getting to class on time. As soon as Smith spied his principal, however, he abdicated, and made masterful retreat toward his own humble seat.

According to Smart, the entire line and backfield of Catholic University's team resembled in size and general proportions, traffic cops. A poor alibi is better than none, Landon, but they surely wouldn't arrest you for running with the ball.

In a recent chem. lecture, the subject of alcoholic liquors was being discussed. The following conversation took place:

Dr. Putnam—"Ordinarily the whiskey we buy contains 50 per cent of alcohol; its strength is determined by hydrometer."

Taylor—"Who is Hydrometer, professor?"

(No use, Taylor, you can't beat him out of his job.)

Doc Harter—"Mr. Loomis, how would you determine the maximum contents of a pig trough?"

Loomis—"I wouldn't. I eat off a plate."

Beauchamp says the best thing to do after being bitten by a poisonous snake is to send for a snake doctor.

The Juniors had to forget about their dance following the Dickinson game, but it's a pipe that they won't give up their Fi-dance.

As a Freshman, a fellow thinks he knows it all; as a Sophomore, he knows that he does; as a Junior, he begins to have his doubts; and, as a Senior, on the eve of graduation, he knows that he knows nothing. His song then becomes:

I used to think I knew I knew
But, now I must confess,
The more I know I know
I know I know the less.

When the picture in chapel was taken, the photographer failed to get McCaghey's face in it. This was explained by the fact that Mack had his mouth open at the time, getting ready for his next facial solo.

1st Freshman—"Here comes a bath-tub down the street."

2nd Ditto—"Bath-tub, nothing. That's a Ford. Why do you call them bath-tubs? What's the similarity?"

1st F.—"Well, we all have them, but hate to be seen in them."

Do your Christmas shopping early.

Dear Editor:
Is the powder plant at Carney's Point still in operation?

Respectfully yours,
Clarence.

Yes, Clarence, the plant is still running, altho it received quite a set-back when Lauritsen, Beauchamp, and a few others left to re-enter college this fall.

As soon as football season is over and the gym classes begin, we shall see the Freshmen in their true light. Then, as Coach once remarked, we'll all agree that "clothes make the man."

A favorite diversion nowadays is going up to Dean Smith's office to look up cuts. There's a Reason.

Wilmington Freshie—"Well, that's a pretty punk local."

Joke Editor—"Easy there, Freshman, don't speak harshly of those locals. What one were you referring to?"

Freshie (moving off)—"The 4.23."

It is a curious fact that the most able teacher at Delaware is not on salary. If you are doubtful, ask the trustees if anyone by the name of Experience is on the payroll.

One of the freshies at the Women's College inquired of a Soph, "Where does the night watchman sleep?" Keep after her, girls. Sell her hymn books, chapel seats, radiators, and doors until she can ask questions that will not be printed under the heading of "Foolish Question 9999."

Heard on the Campus
"Well! Well! How are you today?"
"Gentleman, that ball, please."
"Less noise in here, please."
"As a matter of fact."

The nights are becoming much cooler now, and we must hang a little closer to the old fire. Keep your eyes open for better work now, professors.

A freshman by the name of Lange hearing that Lady Eglantine was "some chicken" put on his new hat and Sunday clothes and went in search of her down to the Women's College last Friday evening. The Dean pointed out his mistake.

The Senior Civils are bringing the Freshman engineers in surveying around in great style. When the Freshmen first went out on the field they did not know enough to steal a marking pin from the nearest squad when they lost one of their own. Nor did they know that if you were tired, that the ground would help you out.

Professor Robinson is now getting the athletic fever. Can you believe it. He asked one of the students the other day if Delaware has a game of football scheduled with the International Correspondence School this year. Upon being told that no such game was on the schedule, he answered, "Well, that is all right, I just thought that perhaps the manager would pile those books I ordered in his suitcase, and save a little trouble."

Your Glasses Were Fitted When?

If your eyes have not been examined within the past two years they should be looked after now, particularly if you have suffered from a severe illness. Improper lenses can prove harmful not only to your eyes but to your health as well.

In all Delaware there is no better optical service than ours. Let us test your eyes and prove it to you.

Another Interesting Meeting Of Delta Phi

On last Monday evening, another interesting meeting of the Delta Phi Literary Society was held. A large attendance helped make the program a successful one. The debate—"Resolved that Freshmen should wear the green cap," proved interesting as well as amusing. The affirmative was argued by J. Davis and H. Alexander; the negative was argued by Seraphian and Raughley. The judges gave the decision to the affirmative. Among the others participants of the program were: Ferguson, reading; Stevens, Marshall, and Meyers, impromptu speeches.

Delaware Grad To Address Delaware Historical Society

Mr. A. B. Carey, who was graduated from Delaware College last June in the Arts and Science Course, has been invited to give the results of some work in history of Delaware which he did while he was in college before the Delaware Historical Society on November 15. His subject will be "Tories in Delaware during the Revolutionary Period." Mr. Carey specialized in history at Delaware College.

Fellowship At Delaware

A fellowship in the Department of Soil Bacteriology at Delaware College, has been founded by the Alphano Humus Company, of Alphano, N. J. The project for which this fellowship has been founded is to ascertain if peat humus by re-enforcing with mineral and other compounds, when followed by inoculation, can be made a more valuable fertilizer and a product favorable for the distribution of a valuable soil flora, including the bacteria for legume inoculation. \$200 will be available for this work this year.

Dr. Taubenhaus Invited To Lecture In Boston

Dr. J. J. Taubenhaus of the Experiment Station has accepted the invitation to deliver the John Lewis Russel Lecture before the Massachusetts Horticultural Society at Boston on March 25 next. The lecture will be given at the Horticultural Hall of that city. The invitation to the local scientist is quite an honor when we consider the selection is made in recognition of original work done in Plant Pathology. Dr. Taubenhaus follows such men as Dr. Reddick and Professor Wetsell of Cornell and Professor Jones of Wisconsin.

The lecture will later be published by the Society.

Quips and Quids

One half of the world is up and doing, the other half is down and being done.

Even the mule envies the ability of some men to kick.

The master key to wisdom is knowledge of your ignorance.

You will never discover how many things you can do until you try to do them.

An optimist is a cross-eyed man who is thankful he isn't bow-legged.

The reason some men do not succeed is because their wishbone is where their backbone ought to be.

The "Blue Hen" has gone to press. The printers are now slapping ink right and left. Pawn your old clothes, and put \$2.50 away in an old stocking, because we will be on your trail about the first of December.

Club Women Meet At Women's College

At the exercises held Saturday, October 30, incident to the celebration of the anniversary of the Women's College, Dr. S. C. Mitchell proposed the establishment of a loan fund from which loans could be made to aid girls in paying their way through college. The speaker gave instances of the success of a similar project elsewhere, which had proved of great benefit to the students. The idea was also advocated by City Solicitor Daniel O. Hastings, of Wilmington. The subject was generally discussed by club women and it is thought likely that while no definite conclusion was reached such a fund will be started by the State Federation of Women's Clubs, to be put in the hands of the trustees of Delaware College.

About sixty club women attended the morning session—an open meeting of the committee on Arts and Crafts, and the educational committee of the State Federation of Women's Clubs.

Women's College Notes

The young men may once more come to the Women's College as Dean Robinson now realizes that the journey was fraught with such enjoyment that their "souls" float de heavenward, thus economizing on shoe leather.

Miss Textor of Vassar College, gave a lecture on Petrograd and the Russian government at the Women's College on November 6th.

Prof. Hills riding home in the hack after a fancy dress dance—"From the cackling of these hens everyone would know they came from the Women's College."

Freshie—"Why, professor, I thought chickens belonged to the Experimental Station."

The mouser which was advertised for in the last Review has been procured and proves to be very helpful in destroying the pests.

The hunt for the little animal is conducted in the following manner: The occupants of the room stand giggling hysterically on the edge of the bed which has been pulled to the middle of the room. The bureau drawers are then taken cautiously out by some hard hearted person who endeavors to conceal her own fear. The mouse is chased around the room a few times amidst the screams of the onlookers. A sudden thud is heard! There lies poor Mr. Mouse dead from heart disease.

The Women's College of Delaware

Girls who expect to complete courses in Delaware High Schools next June should plan now to secure a thorough collegiate training at the newly established and rapidly growing Women's College of Delaware. Although it has been in existence only a little over one year, the college has an enrollment of eighty-five students from several states. Tuition is free to all Delaware students. New buildings, large and capable faculty, beautiful location, individual instruction.

Three Departments:

Arts and Science—Designed to give a broad cultural training.

Education—Intended for those who wish to teach in the schools of Delaware and neighboring states.

Home Economics—Intended to give students training in home-making and in teaching Home Economics in the schools.

For catalogue and other information, write to

Newark, Delaware

Joy just hangs on every puff

How a pipe of "Tux" does bubble over with good cheer and sunny comfort! There's something about the mellow taste of "Tux" that stirs a smoker's soul. It gets into his inside works, sweetens his disposition, and gives him that perky, cheery feeling, like a high-stepper trotting down the avenue.

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

Men who never smoked a pipe before are now smoking Tuxedo, because they have found that Tuxedo is the mildest tobacco made, and that it is the one tobacco that never irritates mouth, throat or nerves.

You simply cannot get another tobacco made by the "Tuxedo Process"—and that's the original of all processes for removing every trace of harshness and bite from the tobacco. It has been widely imitated, but never duplicated.

Try Tuxedo for a week, and you'll get acquainted with the sweetest, mildest, mellowest smoke in the world.

YOU CAN BUY TUXEDO EVERYWHERE

Convenient, glassine wrapped, moisture-proof pouch . . . 5c

Famous green tin with gold lettering, curved to fit pocket . . . 10c
