PRICE SEVEN CENTS

## Newark Beats WHS In Playoff For 2nd Place, State Tourney

Coach Francis Fulghum's Yellowjackets Win Playoff  
With Wilmington High By 76-65 For 2nd Place In BHC;  
Title Tourney Chance; Gary Hayman's 23 Tops Scoring

Coach Francis Fulghum's Newark High School Yellowjackets walloped Wilmington High School 76-65 in a special playoff for second place at the Dickinson gym yesterday afternoon, to win a berth in the second annual Delaware High School Basketball tournament this weekend.

Newark's Gary Hayman, a 6-2 forward, was the game's high scorer with 23 points, while Pedro Swann with 17; Bob Tucker with 16; and Bill Miller with 14, were featured in the Yellowjacket offense.

Defeated by the P. S. duPont champions and by their local rivals at Christians in their last two outings, Fulghum's Yellowjackets snapped fired-up Wilmington's five-game winning streak yesterday with the playoff for second place and eligibility for the state title tourney.

In Front To Stay  
Tucker's 30-ft. jump shot with 2:10 left in the opening period, put Newark out in front to stay, and the Yellowjackets led 30-28 at the half.

Hayman rang up nine field goals and hit on five of seven from the foul line for his game-high 23 points, while Wilmington's Woodruff was runner-up in the scoring department with 22.

"We're disappointed but not in ourselves," Wilmington Coach Joe Matassino said.

"Newark has to be the quickest team we've played this year. If they play like they did against us, they'll be tough in the tournament."

Wilmington did not meet Newark during the league season.

Newark's next opponent will be Archers on Saturday in the opening round of the state tourney at Brandywine High School at 8 p.m.

## Mrs. B. V. Young Killed In Crossing Kirkwood Highway

Newark Resident, 63  
Struck By Auto After  
Reporting Prior Accident

Mrs. Bevel V. Young of Newark, 63, was killed Saturday night when struck by a car as she was crossing Kirkwood Highway near Kirkwood Gardens.

Delaware State Police said that Mrs. Young, 63, of 1211 Hightower Road, Newark, was struck and killed by a car on Kirkwood Highway near Kirkwood Gardens at 9:23 p.m.

Mrs. Young had crossed the highway to report an auto accident involving her husband's car moments before, and was crossing back when struck.

Autopsy revealed a broken neck and multiple injuries.

State police said she was struck near Farrand Drive by a car operated by Joseph Colletta, 16, of 1211 Hightower Road, Newark.

The death brings the highway death toll to 19 this year compared to 22 recorded in this date last year.

According to her cousin, Mrs. Albert Hickman of Newark, Mrs. Young and her husband, Harold, an employee of the Chrysler Corp., left the Hickman house at 8:45 p.m.

They had apparently stopped at a drugstore and had just turned around to go back home to Newark when the accident occurred.

In addition to her husband, Mrs. Young is survived by her mother, Mrs. Blanche Fisher Doughton of the Gov. Bacon Health Center, Delaware City.

Services were conducted yesterday morning at Gracehaven Chapel, with interment in Gracehaven Memorial Park.

Friends called Tuesday at the Chandler Funeral Home, Wilmington.

## Mother, Children Escape; Aetnam Curb House Fire

A mother and five children escaped when fire damaged their Chestnut Hill Estate home early last Saturday morning.

The fire at the home of Charles Sabotta, at 3 Merion Drive, broke out in a utility room adjoining a carport. The alarm was turned in at 4:45 by a neighbor.

Newark's Aetna volunteer firemen extinguished the fire in a half hour, confining damage to the kitchen-carport area. But they had to rip open the roof to extinguish flames.

Sabotta said he had gone out to get gasoline and had returned home about 5:15 and found the house in flames. He is employed in the trim department of the local Chrysler assembly plant.

Mrs. Sabotta said she and her five children escaped unharmed.

## Newark Selected On Coast-To-Coast Auto Economy Run

40 Cars Slated For Test  
From California To Pass  
Through City On April 7

Newark has been selected among communities near the route of the 1968 Mobil Economy Run, United States Auto Club officials revealed Tuesday.

The run, recognized as America's annual auto economy yardstick, will start April 2, in Southern California and conclude 3,000 miles away in New York City on April 7.

The 40 competing cars will start from Anaheim, home of one of America's most famous tourist attractions, Disneyland.

Overnight stops will be Grand Canyon, Ariz.; Colorado Springs, Colo.; Kansas City, Mo.; Indianapolis, Ind.; and Washington, D.C., enroute to Times Square.

Drivers will demonstrate how motoring families can travel safely, comfortably and economically on a transcontinental trip. In line with this, UNAC officials pointed out that another innovation this year will be daily reports based on varying terrain, road condition and temperature.

Calculations calculated to the thousandth of a gallon, will be the basis for comparing each car's performance in mountains, deserts, turnpikes, stop-and-go city traffic, and rolling prairie country under blistering, freezing and mild temperatures.

As in the past, winners in the seven classes, which range from compact 5's to luxury 8's, will be determined by overall miles-per-gallon performance.

Drivers will be required to maintain an average speed of more than 54-mph over the course, which ranges in altitude from sea level to more than 10,000-ft. in the Rockies. This pace is the fastest in the history of the run.

As in the past, winners in the seven classes, which range from compact 5's to luxury 8's, will be determined by overall miles-per-gallon performance.

## Hopkins Reviews Local Postal Position; Greeting Cards, Addresses Pose Problem

Acting Postmaster Charles S. Hopkins, in reviewing the mail situation at the Newark Post Office, reports that the "address problem" is a serious one.

"Many citizens apparently feel that the forwarding service will be carried on indefinitely, and thus do not take any action to notify the post office of their new address," Hopkins continued.

"Costs for handling of mail that must be forwarded or handled mail that cannot be delivered, is an unnecessary expense to both your government and you," Hopkins added.

Apartment dwellers are advised to include their apartment number in all correspondence and to notify all correspondents and publishers.

Hopkins summed this up by stating that in all instances where the postman is in doubt, the information will be provided by calling the local post office, between 8 a.m. and 5 p.m. daily except Sundays.

WAS ON POVERTY  
Charles F. Vinton of the department of agricultural economics of the University of Delaware, speaking recently to Newark residents, said that the problem in rural areas throughout the country, and especially in Delaware.

He noted further that third class mail may be posted for the same price up to two ounces per piece.

Processing mail without sufficient postage has several drawbacks, the postmaster said. From the postal service standpoint, it requires additional handling by clerks and carriers to insure that proper postage is collected, and the recipient cannot be expected to receive the full benefit of the service if required to pay postage due.

Another area of concern is that patrons are not using correct or full address. These situations generally occur on changes of address and when persons are occupying apartments.

Change of address forms are available at the post office or from your carrier. Fill them out promptly and your mail will follow you in an uninterrupted flow, Hopkins said.

Your old carrier will maintain a record of your change of address for two years, during which time he will forward all first class mail. At the end of this time, mails will either be returned to sender or not forwardable, or disposed of in accordance with postal regulations.

## Iron Hill Museum Of Natural History To Open Saturday

Former One-Room School  
Remodeled For Museum  
By Academy Of Science

Iron Hill Museum on old Ball's Pike near Newark will be opened to the public this Saturday afternoon with a natural history program from 1 to 5.

Once a one-room school house at the foot of Iron Hill, the building was first proposed as a natural history museum in February last year by representatives of various organizations interested in Delaware flora and fauna.

The Delaware Academy of Science, Inc. agreed to sponsor the project and in April of 1967, the Newark Special School District turned the building over to the academy.

Work was started last June to remodel the building and arrange displays. More than 1,000 man hours of volunteer labor have been contributed in preparing the museum and its two-acre site.

The program on Saturday will include demonstrations by members of the Delaware Academy of Science, the Delaware Mineralogical Society, and the Archeological Society of Delaware.

The annual meeting of the Academy of Science will be held in the museum at 2 p.m. with the public invited to attend. A special feature of the meeting will be a report on the museum project, on need for funds to develop it more fully, and the future.

Displays of the museum are to include and display collections of flora, fauna, minerals, etc.; to establish a library of natural history books, slides and films, and to serve as a central headquarters for groups dedicated to conservation and natural history.

The museum will be open from 7 to 9 p.m. Tuesdays and Thursdays from 1 to 5 p.m. Saturdays and Sundays.

School children are being taken through the museum by special arrangement, and more than 2,000 persons have already visited it.

## Mill Creek Hundred News

Sara Pennington Evans, Correspondent  
Phone 239-7798

The Rev. and Mrs. Abraham Lubin, of Haiti, told members of Harmony Junior Grange that there isn't a hospital, doctor, or nurse to care for the 70,000 people living in the area where their home is located. The Lubins were guests of the grangers last Friday.

Mr. Lubin is a student at Eastern Baptist Seminary, and Mrs. Lubin is studying at the Wilmington Medical Center nursing school.

He told these youths that each child walks from five to 16 miles

a day to attend school and each teacher has 100 pupils. In this school where he teaches, one meal is cooked and served to students. He is the son of a yoodoo priest.

The Lubin's daughter is a police officer at A. I. du Pont Institute where she has undergone four operations. Adopted by the grangers, she has been remembered on holidays and birthdays, and is returning home with her father in May.

The grange donated \$25 to Mr. Lubin for books, and they are collecting clothing for him to take back with him for children there.

Two girls have enrolled in the annual sewing contest. The Pinewood Derby had been postponed to April 6.

Members are collecting articles for servicemen in Vietnam. The grange is sending 12 Braille Easter cards to local people, and giving a Braille Bible to a nearby lady.

A representative from the Heart Association will show a film on March 15.

William H. Narvel and Alene Pierce of Limestone Road—Delaware State Grange, Prince and Princess—visited Rollins Grange at Seaford last Monday; participated in ritualistic work at Pon-

## Carol Ann Fisher At Maryville Wins Third Scholarship

Carol Ann Fisher, daughter of Dr. and Mrs. Vernon J. Fisher of Cedarhurst, and a sophomore at Maryville College, Tenn., has received her third music scholarship—a Theodore Presser Award.

A graduation of Carol Ann Fisher was elected to the Kappa Chi honorary music society at Maryville, and is secretary of Delta Omicron professional women's music society.

In addition to appearing with the Maryville College Choir for two special educational TV programs in the South, she has taped a solo program of folk music on educational television.

Miss Fisher has been named to the dean's list for all three semesters at Maryville.

A graduation of Dickinson High School, she was active in the music program there, and is a member of the Limestone Presbyterian Church Choir.

Before entering college, she was active in 4-H work, and was state winner of a trip to National 4-H Congress in Chicago.

Grange Hall last Thursday, and attended the annual state scholarship dinner last Saturday at Dover.

This week, they visited Fruitland Grange, which wanted Fruitland Grange last Thursday.

Mr. and Mrs. Henry R. Tatum, Mr. and Mrs. Alfred Moore and Robert Moore were named last Sunday at Hockessin Friends Meeting representatives to the Philadelphia meeting, March 22-26 and March 29-30.

The social service committee held a covered dish supper last Sunday at the meeting house to raise funds for the annual spring supper.

Mr. and Mrs. George Pope, Mr. and Mrs. James Schulz, and Mr. and Mrs. Henry Tatum will be hosts and hostesses for the fellowship group tomorrow at 6:30 p.m. for the monthly supper meeting at the meeting house.

Red Clay Creek Presbyterian Church

The Rev. William J. Evans, pastor, formally announced last Sunday that the original marble top communion table has been given to the church by the Ferris Yearseley family.

The following persons were received into church membership: Mr. and Mrs. Ross Douglass and Scott R. Douglass, Mr. and Mrs. Norman Carlson, Mr. and Mrs. Robert Megill, Mrs. Darden R. Rodden, Mr. and Mrs. Adolph E. Rohl, Mr. and Mrs. Samuel R. Russell, Elizabeth and Samuel R. Russell III, Penny Siffert, Mrs. John Dellinger, Mrs. George Lawson, Mrs. J. Ferris Yearseley, and Mrs. Dale H. Wood.

The adult church school class has started to study a new unit—the Gospel of John. Edward Shurts is the teacher.

Infant baptism will be administered this Sunday at the 9:15 service. A family night supper will be held this Sunday at 5:30 p.m. It will be covered dish style and each family is to bring place settings, dessert and beverage will be provided.

A congregational convention meeting will follow in the sanctuary with presentation of the capital fund campaign by the Rev. Donald C. Kramer, director, and to elect three new elders, six new deacons, and three new trustees.

The Junior high group met last Sunday with Kenneth Charles and the senior high with Kathy Easton. Girl Scout Junior Troop is requesting scraps of yarn, and materials, and old Christmas cards for their craft project.

Union 4-H Club meeting last Wednesday with Madelyn Mironoff, featured demonstrations in five members with their projects.

Jeff Schumann showed how to prepare for new chicks. Madelyn Mironoff, how to make oatmeal cookies. Debbie Mironoff, how to use a blender. Ann Tyke, how to arrange a table (place setting) and Virginia Gibson, varieties of dinner rolls.

The club congratulated Virginia Gibson for placing third in the junior division of the Reddfoots contest. She received a cornucopia. Doreen Schmitt was a blue ribbon winner in the senior division and Charlene Love, a blue ribbon winner in the junior division.

Members were reminded to collect trash along the road.

Mrs. Ferris Yearseley, leader, announced the county dress review for April 20, with the judging on

## Timed Plant Fertilization Featured In "Go Round"

A variety in Farm and Home Week "Garden Go Round" were introduced to a variety of newly available and experimental garden products and gadgets.

A series of product displays and very easy-to-use packets for timed plant fertilization and pop-in pre-measured garden sprays.

Easy-grow packets are placed beneath the soil next to or around the plant's roots. Water vapor carries the packet through a number of tiny holes, allowing the nutrients to seep slowly, providing plant fertilization for as long as five years.

April 20: the feeder pig project in April, and the junior broiler program.

A keep your dinner party was held Thursday night at the home of Mrs. Louise H. Dempsy.

Present were Mr. and Mrs. Fred Naulty, Mr. and Mrs. Paul Curry, Mr. and Mrs. Thomas Davis, Mrs. S. Leslie McCordick, Mr. and Mrs. Harry Lauterbach, Mr. and Mrs. Elwin Dean, Mr. and Mrs. Melvin Dempsy, and Mr. and Mrs. Mary H. Dempsy, Gers and Jay Dempsy, Mr. and Mrs. Louis Dempsy.

There sewing for the Hockessin Feedwork Guild have completed 24 articles of clothing. The monthly sewing society was held Thursday at Hockessin Grange Hall, Palatka, blouse, dresses and slips were made.

Those attending were Mrs. Joseph Mitchell, Mrs. John H. Dempsy, Mrs. K. Mitchell, Mrs. Thomas Knox, Mrs. Roscoe Walker, Mrs. Leroy Troxell, Mrs. Thomas Vansant, Mrs. Helen Crossman, Mrs. Ferris Eastman, Mrs. Willard Klair, and Mrs. Emily Klair.

The Three-One Home Economics Club will meet next Thursday at 10 a.m. with Mrs. Pusey Pemberton. Mrs. R. P. Major has charge of the program.

White Oak 4-H Club had Charlene Love as a first place winner in the senior division of the Reddfoots contest. She will compete again in the state contest.

Chrymne was congratulated by her club at its meeting Thursday night at the home of Mrs. Anne Lomas.

She gave a demonstration for the club on handling makes the difference in making a pie.

Miss Lomas, president, discussed parliamentary procedure.

The March 28 meeting will be with Martha and Jill Hoffman in North Star.

Limestone Presbyterian Church

Circles will meet next week as follows: Circle I Tuesday at 9:30 a.m., Mrs. F. M. Thomson, hostess; Circle II Tuesday, noon, Mrs. Leroy F. Troxell; Circle III, Tuesday, 8 p.m., Mrs. L. C. Silver, Jr.; Circle IV, Wednesday at 8 p.m., Mrs. W. L. Slight; Circle V, Wednesday, 9:30 a.m. at the church with Mrs. R. E. Hudson, hostess.

A family dinner was held recently at the home of Mr. and Mrs. Harold Price in Limestone Road to celebrate the 50th wedding anniversary of Mr. and Mrs. Charles R. Woodward on Feb. 29 and birthday anniversaries of J. Thomas Jarrell and Mr. Byron on Feb. 24.

Those present were Mr. and Mrs. Woodward, Mr. George Pierce, Mr. and Mrs. J. Thomas Jarrell, Carolyn and Joanne Jarrell, Mrs. Eugene Woodward, Mr. and Mrs. Larry Jones, Robert, Alvin, and Donald Pierce.

## Senior Center Calendar

Friday, March 8—Bridge, games, 9 a.m.

Monday—Crafts 10 a.m.; shuffleboard tournament, bridge, 1 p.m. Tuesday—Bowling, 10 a.m.; Mrs. Cyrus L. Day, luncheon speaker on "Newark's Twin City," 11:45 a.m. Wednesday—Defensive driving course, 10 a.m.; bingo, 1:30.

## Turnbull To Head Course In Modern Management

A 12-hour course leading to a bachelor's understanding of financial and operating statements and their use in modern management will open at the University of Delaware on March 28.

The class will meet from 7 to 9 p.m. Thursdays, with William B. Turnbull, assistant vice-president of Wilmington Trust, the instructor.

Topics for the five weekly meetings are the balance sheet, operating statements ratios as a tool, cash flow, and proforma statements.

Class reservations can be arranged with the extension division.

## PHOEBE FASSIG PLANS WEDDING THIS SPRING

Mr. and Mrs. Walter W. Fassig of Fremont, N.C., formerly of Newark, announce the engagement of their daughter, Miss Phoebe Maryellen Fassig, to Dr. Thomas Patrick Doherty, the son of Mr. and Mrs. Maynard Thomas Doherty of Omaha.

Miss Fassig attended Newark High School and was graduated from the University of Delaware in 1966 with a BA degree in biological sciences and certification in secondary education, and is a member of Beta Beta Beta, national biological honorary society. She is an information biologist with the DuPont Co., Wilmington. Dr. Doherty graduated from the Municipal University of Omaha in 1962 with an AB degree in chemistry and is a member of Phi Lambda Upsilon national chemical honorary society and Alpha Chi Sigma chemical fraternity. He received his MS and PhD degrees in organic chemistry from the University of Illinois, and is a research chemist in the textile fibers dept. of the DuPont Co., Wilmington.

A spring wedding is planned.

## CAROLYN A. WARDELL TROTH ANNOUNCED

Mr. and Mrs. John H. Wardell Jr. of Todd Estates, Newark, announce the engagement of their daughter, Miss Carolyn A. Wardell, to Sgt. William R. Harmon Jr., the son of Mr. and Mrs. William R. Harmon of Lancaster, Pa.

Miss Wardell, who graduated from H. Fletcher Brown Technical High School, is employed by Antoine's Beauty Salon.

Mr. Harmon, a graduate of Marjorie High School, is serving in the Air Force. After a tour of duty in Vietnam, he is stationed in California.

## AREA JOB'S DAUGHTERS AT MARYLAND RITES

Mr. and Mrs. Thomas Southby, past grand guardian and past associate grand guardian of the International Order of Job's Daughters of Delaware, attended the installation ceremony of the Grand Bethel of Maryland on March 2, in Middle River, Md.

Sharon A. Conrad of Baltimore was installed as Queen, and Mrs. Faye Coward of Towson, Md., was installed as Grand Bethel representative to Delaware.

Also attending the ceremonies were Mrs. Margaret Murray, Newark Bethel No. 3, guardian, and Susan Murray and Janet Rowlands of Bethel No. 2.

## Laundercenter

### SELF SERVICE

Single and Double Loads

in NEWARK at

Elkton & Beverly Roads

## ALTHEA MCCOY TO WED ROBT. B. STEWART, III

The Rev. Mr. and Mrs. Paul Kowm McCoy of Alapocas Drive, Wilmington, announce the engagement of their daughter, Miss Althea Hite (Tammie) McCoy, to Robert Benjamin Stewart, III, of Newark.

Miss McCoy, a graduate of Newark High School and the University of Delaware, resides in Oron Hill, Md., where she is a teacher in the Prince George's County school system.

Mr. Stewart, the son of Mr. and Mrs. Robert Benjamin Stewart, Jr., of Newark, is a graduate of Newark High School and the University of Delaware. He is the grandson of the late Mr. and Mrs. Robert B. Stewart, of Newark, and the late Mr. Ralph Kendall Egnor and the late Mr. Ralph Kendall Egnor also of Newark.

Mr. Stewart is employed by the Electric Hose and Rubber Co., of Wilmington, and is a member of the Delaware Army National Guard.

A July wedding is planned.

## PATRICIA WELDON PLANS APRIL WEDDING

Mr. and Mrs. Arthur J. Weldon of North Star announce the engagement of their daughter, Miss Patricia Weldon, to Charles Eugene Feagley.

He is the son of Mr. Charles Feagley of Baltimore, Md., and the late Mr. Feagley. A graduate of Catonsville High School and the University of Delaware, he was a member of Delta Tau Delta fraternity. He is employed by Diamond Alkali Co., Cleveland, Ohio.

Miss Weldon graduated from Ursuline Academy and is a junior at the University of Delaware.

An April wedding is planned.

## RITA NICHOLS TO WED THOMAS JOHN KORAL

Mr. and Mrs. Charles G. Nichols, Jr., of Kirkwood, announce the engagement of their daughter, Miss Rita B. Nichols, to Thomas John Korral, son of Mr. and Mrs. George A. Korral of New Castle.

The bride-to-be is a graduate of Gunning Bedford High School and is employed by Pala Brothers Furniture.

Mr. Korral graduated from Delaware City High School, attended the University of Delaware, and is employed by the DuPont Co. A Sept. 7, wedding is planned.

## ORPHEA HONORS PAST NOBLE GRANDS

Fourteen Past Noble Grands were honored at the last meeting of Orpheus Lodge No. 12 in the local lodge. The Noble Grand and her committee presented an entertaining program. Refreshments were served and the evening was enjoyed by everyone.

The next regular meeting of the lodge will be held March 12 at 8 p.m. in Oak Fellowship Hall, Main Street with Mrs. Eva Myster presiding.

## Piercing Your Ears Can Be Dangerous

Don't yourself ear piercing, a practice that has recently become fashionable again, is risky, says Today's Health, the family magazine of the American Medical Association.

Performed by an unskilled person increases the chances of infection and the development of scar tissue. The physician will carefully inspect and mark the ears before piercing, because back eardrums may not be exactly alike. After piercing the ear with a sterile needle, he will insert temporary earrings or small tubes, which are usually worn for three or four weeks until the wounds heal. This is a critical period and your physician's instructions should be followed closely to prevent infection or closure of the opening.

The small, self-cleaning earring loops which are being promoted across the country are not considered safe, says Today's Health.

These devices have sharp points which are supposed to pierce the ears within a few days as they are worn. Infections requiring medical treatment have developed from the use of these self-piercers. Furthermore, it is difficult to be certain that the piercers are evenly placed on the ear lobes.

Infection or small cysts are present in the earlobe. Persons subject to keloids (flesh growths) or who have this tendency in their family, or those who are allergic to nickel or other metals should not have their ears pierced.

A recent article in the Journal of the American Medical Association reported on two public school papers who were "tagged" at the number of girls with infected ears, swollen and itchy earlobes. In a class of 80 sophomores, ten had their ears pierced in the previous three months, and six of them reported inflammation and itching.

Ear piercing is not a very difficult procedure, but it can be risky in the hands of a non-physician.

## ALTAR SOCIETY PLANS BUS TRIP TO D.F.E.L.

The regular business meeting of St. John's Holy Angels Altar Society will be held this month with substitution of a bus trip to the Delaware Power & Light Co. food demonstration at the Wilmington office.

Buses will leave Holy Angels on Possum Park Road at 6:45 p.m. For reservations, call Mrs. Frank Statler.

Mary Coffey will be hostess for the April 4, meeting, with a film "The Child Molester" to be shown by Delaware State Police, Mrs. John Zambella reports.

## SUSAN JANE ROBINSON TO MARRY NEXT JUNE

Mr. and Mrs. Eugene C. Robinson of Newark announce the engagement of their daughter, Miss Susan Jane Robinson, to William Thomas Wilkenson, Jr., of Newark.

Son of Mr. and Mrs. William F. Wilkenson of Seaford, he attended Phillips Academy, Andover, Mass., and is a graduate of Seaford High School and the University of Delaware.

He is a graduate student at the University of Pennsylvania.

Miss Robinson is a graduate of Newark High School and a senior at the University of Delaware.

A June wedding is planned.

## PEGGY ANN HEACOCK TO WED IN AUGUST

Mr. and Mrs. Charles H. Heacock of Newark announce the engagement of their daughter, Miss Peggy Ann Heacock, to Alfred Hayden Jr., the son of Mr. and Mrs. Alfred Hayden of Newport.

A graduate of Conrad High School, Mr. Hayden is a senior at the University of Delaware where he is a member of Phi Kappa Phi fraternity.

Miss Heacock is a graduate of Christina High School, and is employed by West Presbyterian Church.

An Aug. 31 wedding is planned.

## SYMPHONY CONCERT

The Wilmington Symphony will present an all-orchestral concert at Salesmen's Auditorium next Thursday, at 8:30 p.m., with Van Lier Lanning, music director.

## Births

### DELAWARE DIVISION

Mr. and Mrs. Donald Davis, 2611 Garrett Rd., Feb. 22, a daughter.

Mr. and Mrs. Kenneth Farrell, 325 Wyoming Rd., Feb. 24, a son.

Mr. and Mrs. Roy Blackwell, 102 Colfax Rd., Feb. 25, a son.

Mr. and Mrs. Louis V. Kessler Jr., 1 Carlin Lane, Feb. 28, a son.

Mr. and Mrs. John Thorpe, Walter Rd., Feb. 28, twin sons.

Mr. and Mrs. Earl Whaley, 1030 Greenview Rd., March 1, a son.

Mr. and Mrs. James Hurt, 163 Dursi Dr., March 2, a son.

### WILMINGTON GENERAL

Mr. and Mrs. Roger Stork, 10 Killy Lane, Feb. 22, a daughter.

Mr. and Mrs. Fred Stiefel, 28 Fairway Rd., Feb. 22, a daughter.

Mr. and Mrs. Philip Keiffer, 66 Garden Quarter Dr., Feb. 23, a daughter.

Mr. and Mrs. Raymond Smith, 10 Eberly Rd., Feb. 24, a son.

Mr. and Mrs. Andrew Murphy, 41 Chaucer Dr., Feb. 25, a daughter.

Mr. and Mrs. Roger Cannon, S. Chapel St., Feb. 25, a son.

Mr. and Mrs. Robert Morrison, 300 Brownleaf Rd., Feb. 26, a daughter.

Mr. and Mrs. Ronald Doucerty, 500 Tamara Dr., Feb. 26, a daughter.

Mr. and Mrs. Richard Bavit, 625 Lehigh Rd., Feb. 27, a daughter.

Mr. and Mrs. Gerald Dorey, 6 Sheffield Manor, Feb. 27, a daughter.

Mr. and Mrs. Meredith Thomas, 21 Mercer Dr., Feb. 29, a daughter.

Mr. and Mrs. Ralph Graham, 234 E. Main St., Feb. 29, a son.

Mr. and Mrs. Larry Hall, 245 S. Dilwyn Rd., March 1, a daughter.

Mr. and Mrs. Denis Reilly, 644 Lehigh Rd., March 1, a son.

Mr. and Mrs. Noah Stephens, 118 Glasgow Ct., March 4, a daughter.

Mr. and Mrs. Marvin Brans, 925 Highway Dr., March 4, a son.

Mr. and Mrs. Warren Peery, 49 Old Mill Rd., March 5, a daughter.

Mr. and Mrs. Gunmar Henning, 45 Anglin Dr., Feb. 17, a daughter.

Mr. and Mrs. Robert Bernosky, 19 Indian Rd., Feb. 22, a daughter.

Mr. and Mrs. Willard Minner, 215 Murray Rd., Feb. 24, a daughter.

Mr. and Mrs. Kenneth Arnold, 17 Myers Rd., Feb. 29, a son.

## SAYS MOM:

IT MAY BE CONVENIENT TO KEEP YOUR HOUSEHOLD CHEMICALS UNDER THE COUNTER...

BUT EVERY LABEL SPELLS 'DANGER' FOR JUNIOR

Children are fascinated by household chemicals, and many of them are curious to know what they are for. A recent article in the Journal of the American Medical Association reported on two public school papers who were "tagged" at the number of girls with infected ears, swollen and itchy earlobes. In a class of 80 sophomores, ten had their ears pierced in the previous three months, and six of them reported inflammation and itching.

## GIRL SCOUT WEEK

At Savannah in Georgia on March 12, 1912, girl scouting in the United States had its beginnings. The birthday commemoration of this outstanding organization will be observed March 10-16, during Girl Scout Week.

True to its traditions of more than half a century, the Girl Scouts have a new look. The organization is involved in helping girls understand and deal with problems of urban ghettos. Girl Scouts will have opportunities to learn more about music, dramatics, the visual arts and space exploration. There will be travel and study programs in the United States and abroad. The Girl Scouts offer these opportunities to all girls between the ages of seven and 17, regardless of race, or creed.

Horizons have never been more broad for young people, and the scouting movement offers an opportunity of exploring these horizons to girls who in many cases, might otherwise not even be aware of them. There is great significance in this, for the girls of today will be the wives and mothers of tomorrow and will in large measure, hold the responsibility of passing on the torch of civilization—the values, the concern, the understanding and competence—that will be so sorely needed by those who will guide the nation and the world the day after tomorrow.

It's a well-deserved tribute which we pay to the Girl Scouts of the United States of America.

## LIBERTY NEVER OLD-FASHIONED

Whether we like it or not, Vietnam has become a war effort of the first magnitude. It can be nothing else when hundreds of thousands of U.S. citizens are called upon to leave their homes and families for military service.

In past wars, there have been differences of opinion as to the wisdom and policies of leadership, but never as at present, has there been evidence of lack of support of the basic principles of freedom for which we have always fought.

In spite of this weakening of first principles at home, it is encouraging to read the comment of Admiral E. M. Eller, director of Naval History, concerning the attitudes and feelings of servicemen in Vietnam. He says: "From my conversations with those who have served there, from correspondence, and from the flow of official reports that come into our archives, I am convinced that nearly all Americans in Vietnam know why they are there—defending freedom against tyranny of the cruelest kind. When one people loses freedom, all lose in part."

The idea of believing in one's country and in the ideal of liberty under representative government is never old-fashioned.

## Soil Testing Service At University Aids Farmers, Homeowners, Others In State

Thousands of farmers, homeowners, and commercial concerns throughout Delaware send thousands of soil samples to the University of Delaware's soil testing laboratory each year. Individual recommendations based on test results help these Delawareans to increase crop yields, improve home lawns, and maintain commercial landscapes.

A routine soil test really tells where you stand in at the county's office and purchase a soil sampling bag. For that dollar, university technicians will determine pH of the soil, phosphorus, potassium and nitrogen content, and send individual recommendations for fertilization.

To prepare the soil sample, follow instructions printed on the sampling bag; fill out the enclosed information sheet, and send the sample directly to the soil testing laboratory.

Upon arrival at the university, the soil sample will be placed on a tray and dried. After crushing and screening to break down aggregates, laboratory technician Ben

## Moszynski Heads Symposium At UD On Bioengineering

Friday Seminars Offered To Public To Aid Medical Knowledge By Technology

An eight-part symposium on bioengineering, one of the fastest growing areas of research and technology, will open at the University of Delaware this Friday, with Dr. Jozef R. Moszynski, professor of mechanical and aerospace engineering, coordinator. The series will combine disciplines of biology, medicine, engineering, and physics with speakers from other universities, industry, and government agencies.

Friday afternoon seminars, starting at 1:30 in DuPont Hall, will be open to the public without charge. The special bioengineering programs are part of this semester's seminar series sponsored by the department of mechanical and aerospace engineering.

Moszynski said "There is more of a need for close cooperation of persons trained in science and technology and those trained in medicine and biology. The overall purpose of the symposium and these seminars is better use of available technology, development of specialized technology for medical purposes, and better understanding of physical processes in living organisms."

"One specific goal of bioengineering would be development of better and cheaper artificial kidney machines—now essentially an engineering problem—and the development of heart-lung machines and heart-beater pumps. Artificial kidney machines are now available," Moszynski said. "But their cost is prohibitive—about \$15,000 per patient per year."

Dr. Lester Goodman of the National Institutes of Health will open the symposium series with a talk on "Engineering for Health at NIH."

The Delaware Bankers' Association in cooperation with the University of Delaware college of agricultural sciences, will host its annual Agriculture Forum on March 21 at the Student Center. Theme of the afternoon meeting will be the "Role of Bankers in the Future of Agriculture."

Featured speakers at the session include Prof. J. Carroll Bottom, Purdue University; Dr. Robert S. Smith, Cornell; Beverly Wiebe of Wilmington, national 4-H spokesman; and Dr. William McDaniel, dean of the Delaware college of agricultural sciences.

Bottom will discuss factors and forces shaping the future of agriculture and Smith will explore sources of capital for agriculture. More than 200 Delaware bankers and their farmer guests are expected to attend the session which will begin with a noon luncheon.

Another part of the nutrient sample. Dows through a flame photometer where intensity of color in the flame determines amount of potassium in the soil.

Results of these tests are fed into a graphic recorder where colored pens automatically produce a graphic picture of soil analysis.

Webster interprets the results and transfers concentrations onto a laboratory report which is typed on individual forms and forwarded to Prof. Leo Cebotari.

Cebotari, associate professor of agronomy, studies test results and formulates specific fertilization recommendations based on soil analysis.

An accurate soil test can solve many of the farmer's production and fertilization problems. It also can solve many of the problems that plague home lawns and gardens.

Honor lies in honest toil.—Grover Cleveland.

Proposed Boy Scout Center

A capital campaign for \$550,000 to be launched in April for the purpose of building a new Boy Scout Service Center, was announced by Dr. Walter A. Lew, president of the Del-Mar-Va Council, Inc. Boy Scouts of America, at a meeting of the council's executive board last Thursday.

A. Felix duPont, Jr., has accepted chairmanship for the drive.

The proposed center is to be erected on Wilmington property at 8th and Washington streets acquired by the Scout Council in 1966.

Business Executive

## School Buildings Used After Hours As Community Aid

Director of business for the Newark special school district, H. Lewis Miller reports that district facilities were used 53 times during the month of January after the close of the regular school day.

Organizations utilizing school buildings for community use are the Brookside Activities Council, Greater Newark Recreation Association, Browne troops, DuPont Engineering Department Employees Activities Association, Newark Club, Delaware Pony Club, Girl Scout Unit 16, Delaware Fire School, Christian Band Boosters, St. Paul's Lutheran Church, Civil Air Patrol, Todd Estates Civic Association, New Castle County Park and Recreation Department, Evangelical Presbyterian Church, and the Unisum Fellowship.

## Rodney Wilson, Jr. Wins Silver Bars As 1st Lieutenant

Lieut. Rodney Wilson, Jr., had new silver bars pinned on his lapels by Capt. Col. E. A. Lloyd, deputy commander of Fort Detrick, after being promoted from second to first lieutenant on Feb. 27.

Wilson is assigned to the Plant Sciences Laboratory at Ft. Detrick, Frederick, Md., where he is working in crop research. Wilson graduated from the University of Delaware in 1967 with a master of science degree in agronomy and worked as a research agronomist at the university prior to active duty in the Army last June.

He completed the armor officers basic course at Fort Knox, Ky., August and was then assigned to Fort Detrick.

Lieut. Wilson is the son of Mr. and Mrs. Ralph B. Wilson of 1809 Gladwin Drive.

Grandparents are Mrs. Ruth Fitcher of Newark and Mr. and

## Food Distribution Conference Slated At Student Center

The University of Delaware Food Business Institute will host the 11th annual Delaware Conference on Food Distribution, March 31 through April 2, at the Student Center.

The three-day conference is designed to provide an intensive study program of current management and merchandising practices and to help bring food products to the consumer more effectively.

The conference theme "Evaluating Standards for Progress and Profitability" will be directed to food retailers, wholesalers, brokers and manufacturers.

Conference speakers will examine management programs; the institutional food market; sales training; and food merchandising.

Workshops will feature sessions on convenience stores; computerized management; irradiation of foods; direct mail advertising; and psychology of training people. Registration blank and additional information about the meeting are available from Conference Chairman Dennis Hawkes, Food Business Institute, Agricultural Hall, Newark.

## Two Scholarships Renewed At NHS By Alumni Group

Again this year, the Newark Alumni Association will award scholarships to two graduating seniors of Newark High School.

To insure success of this year's and future awards, the annual scholarship fund drive has begun. Although individual mailings have been sent out, it is impossible to reach all Newark High School alumni in this manner; therefore, it is requested that all Newark alumni who desire to aid with the drive, send their contribution to the Newark Alumni Association, P.O. Box 806, Newark. Checks should be made payable to Newark Alumni Association Scholarship Fund.

"Be sure to include your name, address, and graduating class year with your contribution," president Francis E. Tweed stresses. "Due to a change in the constitution of the association, there will be no dues collected. Membership is by donation to the scholarship fund," Tweed advises.

This year's alumni banquet will be held Friday, May 17, at the Newark Country Club, followed by dancing.

Mrs. Woodland Wilson of Bear, Lieut. and Mrs. Wilson reside at River Mill Road, New Market, Md.

## Why The Christian Science Monitor recommends you read your local newspaper

Your local newspaper keeps you informed of what's happening in your area community events, public meetings, stories about people in your vicinity. These you can't—and shouldn't—do without.

## Early Detection Will Help Defeat Cancer

What is cancer?  
All of us are well aware that cancer is a serious health problem, one of the major killers. But how many of us really know what cancer is?

A pamphlet of the American Medical Association explains that cancer is the process of cell division—the type of normal body growth and repair—cells become differentiated into the specific kind needed for each organ of the body.

Each kind of cell divides into its own kind, equipped to do the job it was designed to do. Under certain conditions not yet completely understood, some cells do not differentiate in this way. They multiply in form and function and invade and compete with normal cells for nutrition and space. These cells are called tumors.

Tumors that remain localized are benign tumors and may not be troublesome unless they interfered with some body function. Tumors that grow bigger and destroy tissue are known as malignant tumors. These are called cancers.

Cancers may affect any part of the human body. They also can be curable and even preventable.

In man (and most animals) the uncontrolled growth of cancer cells will infiltrate vital organs and destroy them if not checked.

Cancers spread by infiltrating adjacent tissue, by traveling through the circulatory system and lymphatic system, or by any combination of these.

The cause of cancer in man is not known. It is treated promptly and properly, some cancers are highly curable. One-third of all cancers in the United States are being cured today. Cancers are more readily curable before they have spread from their original location. To be cured, they must be found early.

More than 300,000 persons will die of cancer in this country this year. About one-third of these might have been saved through earlier detection and treatment.

## BOOKS IN REVIEW By Percy Maddux

FRANCE IN THE EIGHTEENTH CENTURY. By Paul LaCroix. Frederick Ungar Publishing Co., New York 510 pp. \$9.50.

"France in the Eighteenth Century" by Paul LaCroix is a large book. It measures 7x10-1/2 inches and contains over 300 wood engravings. Although first published in 1976, it is highly readable today and gives us a description of 18th century French life in its various aspects—commerce, religion, justice, education, charity, theatres, food, dress, society, travel, and so forth.

The large type is easy to read and the illustrations are extremely interesting. LaCroix's fine book deserves to be widely read.

"Americans from Wales" by Edward George Hartmann. The Christopher Publishing House, Boston, Mass. 292 pp. \$6.95.

During the reign of the First Elizabeth, or possibly a bit sooner, the story got out that in the year 1170 the Welsh Prince Madoc had sailed west across the Atlantic Ocean and discovered a new land, America, a year or so later sailing again with a band of emigrants.

Madoc and his followers were

never heard of again, but as time went on there were reports of "white" Indians and of Indians who spoke Welsh, so it was thought that some of the Indians of America were descendants of Madoc's settlers.

The Welsh did undertake a settlement in Newfoundland in 1610 but gave it up after 30 years. Following this attempt of Sir William Vaughan to found a Welsh colony in America, there was considerable Welsh immigration to the New World on the part of individuals, but group migration was generally based on religion. A group of Welsh Baptists went to Massachusetts in 1609.

Welsh migration continued through the 18th and 19th centuries. New York, Pennsylvania, and Ohio received large numbers of Welsh.

The Welsh story is told by Edward George Hartmann in his book "Americans from Wales," wherein he provides background information on Wales itself, how that name is from the Anglo-Saxon "Waelles" meaning "foreigner," and that the people themselves called the land Cymru, the language Cymraeg, and themselves Cymry, which means "comrades."

Mr. Hartmann goes into detail

## Charles A. Rowe Exhibit Scheduled At Newark Gallery

Blending characteristics of his countrymen Bosch and Salvador Dali with a vivid awareness of modern life are the paintings of Charles A. Rowe which will be on display at the Newark Gallery beginning Tuesday, March 17.

Rowe, an instructor of painting, drawing and graphic design at the University of Delaware, will exhibit his paintings with those of Dorothy W. Crumb at the Newark Gallery from March 17 through April. The show will feature watercolor, collages, serigraphy and drawings by each artist.

Rowe, who will receive an MFA degree from the Tyler School of Art in Philadelphia in June, has exhibited throughout the United States. His works have been shown at the Cleveland Museum of Art, the Smithsonian Institute of Art in Washington, the Art Institute of Chicago, the Miami Museum of Modern Art, the Los Angeles County Museum, the Denver Art Gallery, and the Dallas Museum of Art.

Before coming to the university, he worked as a graphic designer for Abrams-Bannister Engraving as design director of packaging and visual presentation. He has designed booklets for A&P, Sears, Swift, and Armour.

Rowe holds a BFA from the School of Art Institute in Chicago. Mrs. Crumb has exhibited at Michigan State University and her work appears in collections throughout the Midwest. She is a member of the American Watercolor Society and the Audubon Watercolor Society.

The exhibit may be seen on opening day, from 2 to 5 p.m.

about Welsh publications in the United States and about the cultural activities that the Welsh brought to America, particularly their festivals, such as the Eisteddfod, the Gorsedd, and the Gynafon Gâr.

## BHC Champs Lane, Matthews, Nau Seek State Titles With Jones, McCormick, Reed

Blue Hen Conference Champions Ron Matthews, Craig Nau, and Bradley Lane — title-holders at 103, 112, and 118 lbs. — Roy Jones, 121, with Heavyweight Gerry McCormick, who lost 4-3 and 2-1 decisions and championships in the recent conference tourney, are scheduled to represent Coach Andy Marcantonio's Newark High School Yellowjackets in the state championship tournament beginning Friday at 6:30 p.m. in the new Delaware Fieldhouse.

Roger Reed, Christiana 120-pounder, who finished third in the conference tournament, will represent Coach Ken Klimek's Vikings in the state title fight.

Nau won the state and conference crowns at 95-lbs. last year, and in moving up two weight classes, defeated Wm. Penn's Wright for the 112-lb. Blue Hen Conference championship after losing to Wright during the regular season.

Lane, conference champ at 138-lbs. last year, was defeated 2-0 by Harrington's Steve Welch for the state title.

Paul Billy, University of Delaware wrestling and freshman football champion, is director of Saturday's program, will begin with semi-final matches at 1 p.m., followed by consolation qualifying rounds, and the consolation matches to determine third and fourth place finishers in the state.

**Blue Hen Conference Champions**

## Blue Hen Netmen Face 11-Matches

Delaware's tennis team will play an 11-match schedule this spring, including eight Middle Atlantic Conference contests.

Coach Roy Rylander's Blue Henets also will compete in the MAC individual championships at Dickinson College in Carlisle, Pa., May 3-4.

The Henets will open their season at home, hosting Southern Conference on April 19, in a non-conference match. Other non-league matches are scheduled with Rutgers and Penn State.

Conference opponents include Drexel, Washington College, Ursinus, Johns Hopkins, Temple, Western Maryland, LaSalle and St. Joseph's.

## Bob Locke Stars For Hens At MAC Swim Title Event

West Chester, Pa. — Senior Bob Locke, three school freestyle records and currently on seven Delaware points as Coach Harry Rowlett's Blue Hens finished eighth in the Middle Atlantic Conference Championships at West Chester State last weekend.

Locke's third-place finish in the 200-yard freestyle in 1:53.4 was good for four points Friday.

The Delaware captain's two other records were set in Saturday's time trials and accounted for three points.

Locke swam the 100 freestyle in 50.6 and the 500 freestyle in 3:17.6. Locke now holds every Delaware freestyle record except the 1,000.

Bucknell won the championships with a team score of 183 points. LaSalle was second with 80.5 and American University third at 53.

## Active Teenager

Every now and then someone makes a nostalgic about the "iron horses" of yesterday — George De Mar and Matinee boy, both 233-time starters, Seth's Hope, who ran 327 times or the famed Tippley Wicket who, after going to the post 255 times, continued an active career as a lead pony taking horses to the post whose parents hadn't even been foaled when Tippley Wicket was in his prime.

There are today more than a handful of "teenagers" racing, but with almost 40,000 horses competing in a similar number of races there are few in the shuffle. One such, and probably the leading money-

winner of his age division, is a 12-year-old known as Billy by the name of Be Fly, who has won the winners' circle in all but one of his eleven years of campaigning. A son of Be Jane and Sky Creek, Be Fly was bred by Bill Luke and foaled in 1953 in Arizona.

Toward the end of 1967 Be Fly had run eighteen times to bring his total to 194 races, of which he won 51, was 36 times second and 17 times third, to earn something in the neighborhood of \$30,000. His best year was 1964, when he started 21 times, won five, net a profit of 11 others to earn \$5,000.

Be Fly had run eighteen times to bring his total to 194 races, of which he won 51, was 36 times second and 17 times third, to earn something in the neighborhood of \$30,000. His best year was 1964, when he started 21 times, won five, net a profit of 11 others to earn \$5,000.

## Heavyweight Title In MAC Test Won By Marty Weikart

Annyville, Pa. — Delaware Heavyweight Marty Weikart defeated the only wrestler to beat him in regular season competition to win the Middle Atlantic Conference heavyweight title Saturday at Lebanon Valley College.

Weikart defeated Temple's Marc Barziz by referee's decision after a 1-1 overtime draw.

The Blue Hen sophomore, 192 lbs., won a decision to Barziz for his last dual meet loss.

Weikart pinned Lloyd Corbett of Delaware Valley in 2:30 to enter the finals.

Delaware finished in a seventh-place tie with Drexel in team standings with 18 points.

Weikart's four victories contributed 15 of the Hen points.

Temple won the meet with 79 points.

West Chester finished second with 53 and Wilkes was third with 35.

Temple won the meet with 79 points.

West Chester finished second with 53 and Wilkes was third with 35.

## Dan Peterson's Hens Set Five Records In Team Offense During 16-7 Campaign

Delaware's basketball team re-wrote the Blue Hen record book in compiling a 16-7 record this season as Coach Dan Peterson's squad established five team offense marks during the course of the season, with an 85.3 average points per game, 121 points in one game against Glassboro, 68 points in second half against Susquehanna, 54 field goals against Glassboro, and points by both teams in one game 208 in 121-87 win over Glassboro, and 112-66 win over Susquehanna.

The average of 85.3 points per game was nearly nine points higher than the record 76.4 set by the 1952-53 team, and the Hens outscored their opponents by more than 11 points per contest — 85.3 to 74.2.

Peterson, who has a 31-16 record in two years as the Delaware coach, was not entirely satisfied with his team's play this season.

"I guess you shouldn't be disappointed with a 16-7 record," the Hen coach says, "but I felt we had the potential to be 20-3 this year. The biggest disappointment was losing some games we definitely should have won and not making the Middle Atlantic Conference playoffs."

"There were some positive results of the season, and Peterson is quick to point them out.

"On the plus side, we won the Middle Five with a 7-1 record and I feel that we have laid the foundation for a strong basketball program at Delaware. We will have quite a rebuilding job to do next year with only four players returning from this year's team, but I think the general direction of our program is upward."

The Hens will lose six seniors who accounted for 31 points per game, including among graduation losses are the top two scorers, Ken Barnett and Charley Parnell, and the top two rebounders, Barnett and Mark Waganman.

"We lose a great deal of playing experience and maturity in the six seniors," Peterson notes. "All we started for in all one time or another in the past two years and all of them made a contribution to the team."

Barnett figures to be the top loss. The 6'6" center from Brandywine, Ill., averaged 17.1 points and 11 rebounds per game for the Hens.

"Ken had a fine season," Peterson says. "He was improved defensively over his junior year and he was a better team player."

Peterson was pleased with development of Sophomore Steve Jackson, former high school All-American from Brandywine High School, and the year-long play of Sophomores Loren Pratt and Jim Couch.

Pratt, a 6'3" hustler from Maywood, Ill., was the team's second best point-producer until a back injury forced him to the sidelines. Pratt's Hens' last two games. He was third in points to Barnett and Parnell, but finished second in per-game average with 13.5.

Couch, a 6-2 playmaker from Piquette, Ill., was one of the team's most consistent performers and wound up as the fourth Hen in double figures with an average of 12.1 points per game.

"Couch and Pratt did an outstanding job all year and they will be even better next season," Peterson says. "We were also encouraged by the way Jackson and Ed Roth came along."

Jackson, who joined the team midway through the season, averaged 8.4 points per game in the nine contests in which he appeared.

Roth, a 6-6 sophomore from Towson, Md., was brought along slowly by Peterson and averaged 5.8 points and four rebounds per contest.

"These four seniors — Coach Jackson, Pratt and Roth — are going to be the nucleus of our team next year," Peterson says.

**Blue Hen Conference Champions**  
Ron Matthews, Craig Nau, and Bradley Lane — title-holders at 103, 112, and 118 lbs. — Roy Jones, 121, with Heavyweight Gerry McCormick, who lost 4-3 and 2-1 decisions and championships in the recent conference tourney, are scheduled to represent Coach Andy Marcantonio's Newark High School Yellowjackets in the state championship tournament beginning Friday at 6:30 p.m. in the new Delaware Fieldhouse.

In what may happily be the last of the ice fishing for this winter season, Mike Dunham of Havre de Grace, Md., came coldly home with four nice yellow perch taken through the frozen surface of the Chesapeake Bay headwaters close by — and while Mike's blood was on the sluggish, frozen ice under this expedition, his four fish stirred the blood of fellow townsmen and listeners.

"I wonder when they'll really start to let it — in real water fishing, no ice," Clyde said yesterday with more than a bit of restlessness. And it has been a long winter.

This time last year with Ed Dowling, we were trying the pre-spring run of rock in the North East River near Carpenter's Point, but happened to embark upon a day that was windy, cold, and attended with a freak thunderstorm.

We managed to catch a couple of oversized white perch, and the trip was featured by a welcome, warm fire constructed with some fragrant in the lee of a riverside cliff, and the sight of a beautiful four-pound striped bass on Chesapeake Bay rockfish that a Faust of an angler had gleaming in green-black striped silver splendor on a stringer in the shallow water off the rocky beach. The sight of that striped bass, as at the scene long after a time when we should have been well on the way home.

These rocks should be showing up any time now, and if you have registered a favorable cardiomogram, clambering on these Carpenter's Point cliffs might be worth while after some pleasant, productive rockfishing from the beach below.

In Delaware fresh water, the all-weather, spangled catches are beginning to take a renewed interest in food, and a bucket of bulgheads fished with tiny cork floats around drowned timber and brushpiles, or lugging with line out darts can pay off.

And a sunny lee out of the March wind with the days lengthening as winter wanes, can provide a pleasant enough outing.

Chances are you never heard of Old Soda Lake out in Wyoming. This is because it is a wildlife haven rather than a mecca for sportmen. As a refuge for wildlife, it is said that it has "few fivers in the Rocky Mountains."

The reason Old Soda is noteworthy is that it is a man-made lake — a lake that did not exist a decade or so ago. Beyond that, it was not created for the sole purpose of attracting wildlife.

Its use by wildlife is a by-product of its primary purpose as a depollution for the effluent from a refinery of a major oil company. In 1953, American Oil Co. decided to divert effluents previously discarded in the North Platte River to a holding pond of some 300 acres.

The project cost \$1.5 million, and no one knew whether the experiment would prove to be an effective natural treatment facility or an enormous, useless pond. What they did was a wildlife refuge. The water is relatively clean, and the shores of the lake are edged with soft, high grass and willow trees.

Life in the fenced-off acreage thrives. The water is clean and the new grass. A local ornithologist reports that during migration season, the lake is the best place in the state to spot ducks and geese.

This oil company, a pioneer in developing pollution treatment, measures the water for the problems of controlling the environment are not insurmountable — but will take time and will require cooperative action between public and private agencies.

## Teddy McNetney Paces Undefeated Ratskii For Win

Unbeaten and league-leading Ratskii Tri-Hi-Y (4-0) stopped a determined bid by a fired-up Omega Chi team to win 12-12 in Western Branch YMCA Tri-Hi-Y basketball league action last Saturday afternoon. Teddy McNetney paced Ratskii with 10 points. Omega Chi is 6-2 in league play.

In another highly contested game Gamma Phi Beta (4-1) stormed
