NEWARK BOYS AT ASHEVILLE

Have Served 35 Months In South Pacific

Sgt. Henry C. Anderson of 129 South Chapel Street and Sgt. Earl Gregg, 39 W. Cleveland Avenue, both of Newark, have arrived this week at the Army Ground and Service Forces Redistribution Station, Asheville, N. C., to be reassigned to duty. These overseas veterans of 35 months service in the Pacific, are ack-ack fighters, and fought on Treasure Island.

These men are receiving Class 'A' treatment at this station. Hotels have been leased by the Government, and civilian customs have been maintained. Room service, dining room service, no service, things the Returnees of the day dreamed about on the battlefronts yesterday.

Reassigning these veterans to new assignments where they will benefit the army and themselves, is done very thoroughly through painstaking physical and occupational examinations.

COUNTY AGENT REPORTS

1712 Farm Visits Made During 1944

New Castle County Agent, Ralph L. Watson, completed today a summary of his activities for the year 1944.

The farm labor project in New Castle County was the most outstanding for the year with some interesting results such as the use of war prisoners, foreign workers, and girls and boys.

Without such help, there would have been a large amount of food spoil at harvest time.

The complete report for the year is as follows: 1,712 farm visits in the county; 1,261 office calls by farmers; 3,012 telephone calls to and from farmers; 37 news articles published; 1,243 personal letters to farmers; 53 circular letters with 13,067 copies sent to farmers; 1,022 publications such as bulletins given to farmers.

234 extension meetings were held with an attendance of 2,735 people; 4 radio talks were given; 14,578 miles of official travel were made in the county; 3 days vacation were taken as well as 4 holidays. 37 days were spent in the office and 261 days on project work in the field such as AAA War Effort, Dairy, Poultry, Labor, Rat Campaign, Fruit, Gardens, Pasture, and many other similar projects.

ART WORKS ON EXHIBIT

Lithographs At University

The current show in the Art Gallery at the University of Delaware is a group of twenty lithographs from The Museum of Modern Art. Represented in this show is the work of famous artists from several countries. Such names as Orozco, Rivera, Charlot, Roualt, and Manet indicate that great variety of treatment and subject matter may be expected in this exhibition.

The Mexican artist Orozco achieves dramatic strength in his "Mourning Figure," while Rivera's "Sleep" is heavy with the solid, massive form of sleeping figures. An interesting contrast is to be found in two portraits, one by George Biddle, the other by Marie Laurencin. The Biddle "Self Portrait" is striking in its use of forced dark and light values, while the Laurencin "Little Girl With a Rose" delights with its wistful fragility. Adolph Dehn's "Minnesota Farm" will strike a familiar note to many. He has achieved in this lithograph a quality much like that in his water colors of similar scenes.

This exhibition will continue until February 23. The Art Gallery which is in the Memorial Library is open on week days from 9:00 A. M. to 5:00 P. M., on Saturdays from 9:00 A. M. to noon, and on Sundays from 7:00 to 10:00 P. M.

RED CROSS WAR FUND QUOTA SET AT \$11,000

Dr. Jno. R. Downes Again Heads Drive To Begin Here March 1

A quota of \$11,000 for the Red Cross War Fund Campaign in Branch Area No. 1 was announced at a special meeting of the campaign committee Sunday afternoon at the New Castle County Health office by Dr. J. R. Downes, chairman. This amount was set as the share which Newark and vicinity is expected to raise during the nationwide 200 million dollar drive commencing March first.

The committee met, Dr. Downes explained, to plan the forthcoming Drive and to organize the community into zones as was done last year. The list of zones and the captains in charge of each area will be announced shortly. As in the past, workers will visit all homes in greater Newark and no effort will be made to organize workers in various local industrial plants. While it is believed that duplicate visitation of individuals will be avoided in this way, it is hoped, nevertheless, that each and every individual will have an opportunity to contribute in a very important way to the whole war effort.

J. F. Johnston, S. College Avenue, again agreed to serve as chairman of the Special Gifts committee and E. M. Schoenborn, Amstel Avenue, was appointed Secretary-Treasurer of the Drive. Arrangements for the campaign in Stanton and Christiana which are now included in Branch Area No. 1 will be under the direction of Ralph L. Hawthorne, Ogletown, and Miss Mary E. Webber, Christiana. Stanley Gibbs will act as captain for the public schools and will have charge of all publicity for the Drive. The general committee includes: Dr. A. P. Colburn, chairman of Branch Area 1, Fred C. Evans, W. K. Gillespie, Louis Handloff, J. S. Hopkins, Mrs. Walter Hulihan, Mrs. George Hyde, Mrs. May B. Leasure, Robert Lewis, Miss Edwina Long, M. J. Parsons, A. W. Perry, R. T. Ware, Mrs. W. O. White, and George Haney.

Prior to the opening of the campaign, members of the committee will meet with all zone captains and workers at a subscription dinner to be held at the Newark Methodist Church on the evening of February 28. Mrs. George Hyde is in charge of arrangements for this dinner. At that time final details of organization will be announced. All captains and workers are urged of attend.

ECONOMIST IS SPEAKER AT LIONS MEETING

H. A. Johnson Discusses The Importance Of Agriculture

The Newark Lions Club held their regular weekly dinner meeting at the Newark Country Club this week with Fred Evans, president of the club presiding at the business session.

E. N. Rahn, program chairman for the meeting introduced Hugh A. Johnson, Agricultural Economist at the Delaware Agricultural Experiment Station as the guest speaker for the evening.

"Shoals Ahead" was the topic of Mr. Johnson's discussion with reference to the agricultural and general welfare of the American citizen. Agriculture, he said, cannot work out its own solution or that of the nation. He pointed out that while agriculture was a dumping ground for industrially unemployed in depression days, it was likewise a vast reservoir for cheap unskilled labor in periods of prosperity.

The United States must enter into global affairs if it is to remain strong and if its markets are to be protected, he said. It is up to all of us to see that this nation does not pull back into its isolationist shell when the shooting stops.

Will the increased productivity of agriculture, labor and industry improve the living levels of all persons, or will it increase the spread between the haves and the have-nots? Fear was expressed that a gulf is widening between the two.

Each Lion was advised to try and find the solution that will help to keep us a free people which we owe to ourselves and our children.

LICENSE RENEWALS LAGGING

Reluctance Blamed On Income Tax

Income tax problems are largely responsible for the slow response by car owners in renewing automobile registrations which expire March 31, according to officials of the Motor Vehicle Division. Only slightly more than 400 registrations have been renewed in the state out of a total of 34,435, and the renewals are running slightly behind those for the corresponding period a year ago.

Unless there is a decided increase in registrations this month officials say delay and congestion will result for many motorists who wait until the final two weeks of March. It is believed that many owners are waiting to file their income tax returns before applying for registration of their cars which accounts for the lag at the division offices.

The Wilmington office has renewed about 250 registrations out of its total of 15,002 and 25 per cent of the applications have been received by mail. Persons desiring to renew registrations by this method are requested to mail in the complete registration card with a check or money order covering the indicated fee on the registration card. If the registration is desired for only six months one half of the yearly fee plus one dollar is to be sent.

Motorists are warned not to send in any applications for operators license with their registration applications. The former will not be available until after April 1.

Each County To Have Racing Board Member

The State Senate has passed Senator H. H. Lawson's bill requiring that each county be given representation on the Delaware Racing Commission. The bill now goes to the House for action.

At the present time the commission is composed of two members from Wilmington and one from Kent County. The new proposal would retain the three-man commission but would have only one representative from each county.

In the discussion on the measure Senator William H. Ayres said that undoubtedly any future harness racing meets in Sussex County will be licensed and thus be considered it imperative that Sussex County have a member on the commission. The harness meet would probably be at the Kent and Sussex County Fair.

Combined U. S. Losses Now Number 764,584

American casualties in all theatres now total enough to man 75 divisions. Secretary of War Stimson said recently Army casualties—killed, wounded, missing and prisoner—totalled 676,796 on the basis of individual names compiled in Washington through Jan. 24.

The Navy's 87,788 casualties puts the combined list at 764,584.

However, about 200,000 of the wounded have returned to duty. Stimson also reported that 865,000 German prisoners were taken on the western front since D-Day. Simultaneously, the War Department reported that 359,248 prisoners of war are now held at camps in this country. Included are 305,867 Germans, 50,561 Italians and 2,802 Japanese.

DELAWARE FARM FRONT THIS WEEK

War Food Goal Meetings Being Held In County

Local war food goal meetings are being held in rural Delaware communities this month by county agricultural agents of the Extension Service and county AAA committee. Farmers are urged to attend these meetings to take part in discussion on adjustments needed in specific essential war crops, the materials and equipment which will be available to produce these crops, the assistance available through the AAA program and other agricultural agencies, the emergency farm labor program of the Extension Service, and other vital factors affecting 1945 farm production.

Crop insurance for the wheat seeded in Delaware in the fall of 1945 has been made available by recent Congressional action.

All counties in Delaware will participate in the crop insurance program, according to an announcement of C. E. Ocheltree, chairman of the State AAA committee, provided a minimum of at least 50 producers in each county participate in this insurance feature of the AAA program.

The insurance contracts will provide coverage against all hazards to 75 per cent of a normal yield. Complete details on the premium rates, insurable yields, and other important points will soon be made available to all producers through county AAA office.

In cooperation with the R.E.A. the Delaware State and county AAA offices have approved 24 applications for rural electrification projects during the first month of 1945.

Although the embargo on shipment of feed materials has been lifted and arrangements were made to meet critical needs during the embargo period, Delaware livestock producers must make every effort to conserve feed supplies. Weather conditions are still holding up shipments in some areas, and military needs for transportation facilities may necessitate further restriction of feed shipments. According to an Army Service Forces official, military demands for domestic transportation will "in all likelihood" be greater this year than in 1944. So stretch feed supplies.

The Delaware AAA committee has already approved 141 applications for 434,809 board feet of lumber this year. The lumber quota assigned for the State is short of needs, necessitating withholding of approval on several applications which ordinarily warrant granting.

The War Food Administration and the Fish and Wildlife Service point out that fishery products offer variety in menu and also provide needed protein while supplies of such important protein foods as red meats and chicken are limited. Many different kinds of prepared fishery products are now limited. Many different kinds of prepared fishery products are now reaching most retail markets — pickled, smoked, and canned fish, and seafood. Most of these are ration free, only a few of the canned products requiring red points.

N. Y. Sale of "Stoops" Is Outlawed by O.P.A.

"Stoops"—those cigarettes your store clerk pal has been slipping to you from under the counter when other customers weren't looking — got the gong in New York City this week.

Daniel P. Woolley, regional O.P.A. administrator, announced after an informal meeting with jobbers and wholesalers that, starting "early next week" stores would put their cigarettes, if any, in full view on counters—not under.

AUTOMOBILE LICENSE RENEWAL URGED

Early Action Asked By Motor Vehicle Department

The persons owning Delaware automobile registrations which expire on March 31 will be aiding themselves as well as the Motor Vehicle Department if they will have their registration renewed early, according to George S. Williams, motor vehicle commissioner.

More than one-half of the registrations now in effect in this state will expire for the quarter ending on March 31, according to the records in the Motor Vehicle Department.

Mr. Williams pointed out that the registrations can be renewed now by mailing the application for the renewal which is attached to the present registration card to the department or the branches in Wilmington, Dover, and Georgetown.

"It is not necessary for the motor vehicle owner to wait until March to have the registration renewed," stated Mr. Williams. "With the large number of expirations to be handled by the present curtailed staffs in the various offices, some motorists who wait until the final days to send in their renewal applications might find their applications being delayed with the result they would not have their renewals before the expiration date."

The first of a regular Tuesday series of dairy production broadcasts on the Delaware Farm and Home Hour, Station WDEL, was presented this week by C. E. Phillips, forage crop specialist of the Extension Service. Members of the Delaware Dairy Conservation committee will participate in this regular Tuesday series.
