## MITCHELL HALL SCENE OF GHOSTLY VISITATIONS AS PUPPETS PRACTICE

**"Murder Has Been Arranged"**  
Rounds Into Shape; Scenery Arranged; Cast Rehearsing Daily

The latest mystery play by Evelyn Williams which the Puppets Dramatic Organization of the University of Delaware are producing on November 2, in Mitchell Hall, under the direction of Cecilia Gordon, promises to attract more than ordinary attention among students and local theatre goers.

"A Murder Has Been Arranged," is a thrilling mystery story based on a psychological motive. The whole audience knows the real murderer, and follows in breathless suspense the efforts made to break down his resistance to a confession of guilt. The steps to the climax are carefully woven into a pattern so interspersed with blood chilling moments as to keep the audience continually on edge.

The plot concerns the death of Sir Charles Jasper whose death has been forecasted for the very moment that his murder is committed. The doors to the St. James Theatre, the place of the murder are all locked; the murder was committed by one of the group inside the theatre. Which one of them could it be? A deaf and dumb woman appears and disappears mysteriously, a dead man comes alive, specters appear, women faint, and so the show goes on.

Miss Gordon has selected with great care the supporting cast to Fran McGee and Bill Laurence, the two leading actors.

### CAST

Maurice Mullins...Bill Laurence  
Beatrice Jasper...Frances McGee  
Cavendish...Daniel Herrmann  
Miss Groze...Mary Matlack  
Sir Charles Jasper

T. Willie Keithly  
Mrs. Uragg...Marjorie Slider  
Jimmy North...Burton MacFadden  
Mrs. Arthur...Ethel Lou Brady  
Mysterious Woman...Vera McCall  
Director—Cecilia Gordon

Production Staff  
Stage Manager...Marjorie Breuer  
Asst. Manager...Thomas Jefferson

## WELCH'S MUSIC AT W. C. D. DANCE

Hallowe'en Celebration Set For Saturday, October 28, In Old College Hall

The young ladies expect to entertain their friends of the upper campus and elsewhere at a dance on the Old College floor, to the tune of Harry Welch's seven-piece orchestra, on Saturday night, October 28th.

Mary Ingram, chairman of the social committee, has announced the following as members of the Dance Committee:

Mary Ingram—Chairman  
Helen Layton—Decorations  
Margaret Schrader—Orchestra  
Mary McCullough—Refreshments  
Jane Yost—"Sign-out-slips"  
Marylee Jones—Chaperones  
Helen Clayton—Treasurer  
Elizabeth Harris—Programs  
Frances McGee—Procuring of Halls

The Women's College is looking forward to this dance as one which will set a new standard for the new year.

## PROF. C. WEYGANDT AT NEXT COLLEGE HOUR

University Of Pennsylvania Savant To Lecture Tuesday On "Poets Off Parade"

The University of Delaware is fortunate to have secured such a man as Dr. Cornelius Weygandt, professor of English at the University of Pennsylvania, as the speaker at the College Hour next Tuesday. The title of Dr. Weygandt's talk is "Poets Off Parade," in which he will speak informally of the poets he has known.

Dr. Weygandt, during the period when he was engaged in newspaper work with the Philadelphia Record and the Philadelphia Evening Telegraph, and also during his long career at the University of Pennsylvania, has discovered many interesting facts about contemporary poets, a race of people who seem to the majority of us particularly mysterious and colorful.

In spite of the exactions of his profession, Dr. Weygandt has found time to indulge his varied tastes, for he has maintained an active interest in ornithology, as well as having become an author of considerable repute. Among his works are: "Irish Plays and Playwrights," "A Century of the English Novel," "Tuesdays at Ten," "The Red Hills," "The Wissahickon Hills."

Mr. Weygandt is a personal friend of Dr. Sypherd, and it was due largely to Dr. Sypherd that Mr. Weygandt consented to speak here.

## Lack Of Student Support Causes Loss Of Recitals

Once again the general apathy of the students of the University of Delaware towards any effort to provide them with any sort of an intellectual diversion has caused these forms of entertainment to be discontinued.

President Hullihen was informed the first part of this week that the nightly organ recitals of Firmin Swinnen, an enjoyable feature of the University's intellectual life have been definitely cancelled. The donor who pays the necessary expenses to insure these recitals has been so disheartened by the lack of student support that he has withdrawn his support. The kind friend whose interest in the University has been motivated by purely helpful reasons wishes at the present to remain anonymous.

This is not the first time that the failure of the student body has caused the failure of an aesthetic attempt on the campus. Last year a literary magazine, "The Humanist" died an early death because of the "insufficient number of subscriptions to warrant a solvent publication."

The curtailment of University Hours from six to four is probably due to the same reasons.

The organ recitals were first introduced in 1930. Mr. Swinnen, distinguished Finnish organist with an international reputation, was engaged to play. Although Mr. (Continued on Page 5.)

FRANK McRIGHT

## TAU BETA PI GRANTS CHARTER TO DELAWARE ENGINEERING STUDENTS

Koerber And McRight Bring Back Charter From Convention Of T B P At Chicago

### McRIGHT STUDENT HEAD

The Engineer's Club, local honorary engineering society, was elected into Tau Beta Pi Fraternity at the national convention of the Fraternity in Chicago on Friday, October 13.

The Engineer's Club was formed in 1929 as the result of a special meeting of the Juniors and Seniors in Engineering, together with Dean Spencer, Professor Koerber, Professor Thoroughgood, and Professor Blumberg. The club was formed with the hope of eventually being recognized by some national engineering society.

Mr. William F. Bradford and Mr. A. L. Glaeser, Tau Beta Pi men, outlined the purpose, scope and work of Tau Beta Pi. Both men recommended that the prime object of the new club be to obtain a chapter of Tau Beta Pi as soon as possible.

A constitution was drawn up and adopted which was almost exactly the same as that of Tau Beta Pi, in order that all members of the new club might be eligible to the national society. Professor Blumberg was elected faculty advisor.

After the adoption of the constitution, those students who met the requirements automatically became members. Students who have been made members of the Club since that time have all been elected in accordance with the provision of the Constitution that regards their scholarship, personality and campus activities.

Two years ago at the Cleveland convention at Tau Beta Pi, the Engineer's Club submitted a petition which was not voted down, but was merely postponed to a later convention because of the smallness of the Engineering School. Since that time the number of engineering students has slowly increased, so that at their fall convention, considering also the superior physical equipment, faculty and teaching standards of the Engineering School, they agreed to accept the Delaware organization into their fraternity.

It is a great honor for the Engineering School to obtain a chapter of Tau Beta Pi. This national honorary engineering society means (Continued on Page 6.)

## STUDENT COUNCIL WILL HOLD OPEN MEETING TO DISCUSS HONOR SYSTEM

## ORGANIZE DEL. UNION FOR ACTIVE SEMESTER

J. A. Walker, Lynam Officers Of Popular Campus Discussion Group

A great opportunity for students to participate in discussions of local, national and world problems is offered by the Delaware College Union, formerly the Economics Club, which is to meet in the near future under the sponsorship of Dr. Gould and assisted by Mr. Wiers of the Economic Department.

The club will bring guest speakers, either members of the faculty, outside guests or students, to lecture or to engage in round table discussions concerning the great economic problems of today. This club presents to the student body an exceptional opportunity to understand and discuss the multitude of major economic problems that are facing every individual in our present times of stress, unemployment and international controversies.

Under its new name, the Delaware College Union, affiliated with the International Relations Club of America of which the Forum of the Women's College is also a member. The sponsor, Dr. Gould, of Delaware, is certain that this season the organization will have the most interesting programs that it has ever had before.

The officers of the Delaware College Union are J. A. Walker, president; E. Vosler, vice president; D. Lynam, secretary and treasurer. All students who are interested in (Continued on Page 6.)

## W. C. D. Freshmen Cavort Crazily At Stunt Night

Again it comes for the freshmen at the Women's College to be put into their places. For a couple of weeks it was very difficult to distinguish the freshmen from the upper-classmen, so sophisticated were the members of the incoming freshmen class. The sophomores, or the sophisticated morons, as they are commonly called at Women's College, decided to make the freshmen perform for them so that they might expand themselves in laughter.

On Friday evening, October 20th, the three traditional hours were set aside for "Stunt Night." Last year a parody on "Grand Hotel" was given, but this year the freshmen gave the morons a real treat. They had a Fair amid gaily decorated booths; there were pirates who tried to entice the rest of the college to eat their slightly burned "hot-dogs" cooked by Sophie Vitiello and Mildred Webb. Live kewpie dolls that actually rolled their eyes and various other living articles were chanced off at the chance stand. Marian Hartshorn, the class captain, was the chief attraction there. The place just swarmed with quack doctors and equally quack patent medicines, chief among which was Dr. Barkow, alias Helen Steele, and the strong man with a bulging chest and muscles that equaled those of Goliath, acted by Dorothy Rodman, (Continued on Page 6.)

## All Interested Students Asked To Attend Open Student Council Meeting On Monday

Next Monday night at 7 o'clock the Student Council will hold an open meeting on the subject of the Honor System. All students who wish to discuss the subject or to sit in on the arguments are invited to attend. At present the following motion is on the floor of the Student Council:

Be it resolved: That the Honor System in tests and examinations be abrogated for a period of three years.

### Amended as follows

1. That the Honor System may be reinstated after a period of three years upon petition of two-thirds of the student body and with the consent of the faculty.

2. That all violators of any system of conduct established by the faculty be tried by a court of eight members; four to be members of the faculty and to include the president of the Student Council and three students whom he shall appoint.

3. That this action is to be considered in noways an admission of the students that they are unable to govern themselves but rather a recognition that the morale of the college is such that it is advisable to abolish the Honor System for a period of time.

4. That Freshmen be not permitted to vote on this. This motion will be discussed and any other suggestions as changes will be considered.

The proponent of the above motion is very enthusiastic about the efficacy of his idea and feels that it offers the only solution to the problem at hand. He believes that the thing at fault is "the undermining of the morale of the school that has caused people to condone cheating and forced the average student to cheat in self-defense. The three year absence of the Honor System will develop an entire student body that has not been under an inefficient Honor System and will then be ready to try to make it work. This also is the (Continued on Page 5.)

## "FOREIGN STUDY NOTES" ISSUED

German Group Now at Bonn; Franch Changes From Tours To Paris

The Foreign Study Department is distributing throughout the colleges of the country Volume IV, No. 5, of the Foreign Study Notes, which is an illustrated magazine published by the students and the staffs of the Delaware organization in France and Germany. The current issue which is devoted to the German group contains several articles of interest relative to the students' social and academic activities in Munich. Other subjects treated are the opera, theatre, and museums in Munich, the group's trip to Italy, and its participation in the celebration of certain holidays.

The Foreign Study Department will be glad to give copies to students who may be interested.

The German group is now at Bonn on the Rhine, where it is undergoing a preliminary period of (Continued on Page 6.)

### HONOR SYSTEM

Next Monday the Student Council will hold an open meeting on the subject of the Honor System. There should be no doubt as to the action to be taken at that meeting. Last Spring the Student Council promised the student body that if the Honor System failed once more, as it had admittedly failed in the past, it would be abolished. It was given another trial and it failed. Now is the time to make good that pledge. Has the Student Council the courage to be the ONE that will go down in the history of the school as the group that abolished the Honor System, or will it go on in the same hypocritical career followed by its predecessors, smugly blind to the true state of affairs? There is a motion on the floor of the Student Council at the present time that provides a complete solution to the problem at hand. This motion is stated completely in the news columns of the REVIEW, but some discussion is not amiss. We must, if we are to have any reform whatsoever, eliminate those things which are breaking down the morale of the student body. The only way to do that is to eliminate the Honor System completely for a period of years, to permit a group of students to enter this university who will not be subject to the rotten conditions now prevalent.

The majority of sane minded students of this college are disgusted with a condition of affairs which makes it necessary for the average student to cheat in order to pass a course. It's rank unfairness to the honest student to penalize him for attempting to "play the game." Last year several men flunked out of school because they did that sooner than cheat—many more stayed in school at the sacrifice of their self-respect. These are the men who are not habitual cheaters—they are in a majority at this college—men who would not cheat unless it was absolutely necessary and would welcome the opportunity to earn their marks fairly and to feel an honest thrill of achievement in passing a course. We make no appeal to the habitual cheats—they are beneath comment. We do appeal to the fair minded students of the University of Delaware—let's go men and get rid of this iniquitous system that is sapping at the vitals of our self-respect! Tell your Student Council representative to keep the pledge he made last Spring and vote—Out With the Honor System!

### CONFERENCE ATHLETICS

Last Saturday our football team defeated Washington College at Chestertown in a lethargic struggle. We do not aim here to criticize our players—we wish to commend them that they won. However, it was painfully evident to those in the stands, and still more painfully, we daresay, to those on the field, that the after-effects of the ill-fated Army game were not yet overcome. Except for this unfortunate fact, the game was thoroughly enjoyable. Neither team greatly outclassed the other and no enormous score was run up. We didn't see the spectacle of men stretched out all over the field nor a group of football players painfully crawling to and from classes the Monday after a game. All these facts go to bear out our claim that the only real future for our athletics is in a conference of teams of our own class. Athletics in schools are not for glorification of the individual athlete or for the aggrandizement of any particular college. Athletics are for the physical development of those who "go out" for the various teams. There should be a great pleasure in playing the game for its own sake—not a necessity to match strength with those who are greatly and obviously superior. Yes, we got into the Sport Page of the Metropolitan papers, but it's merely good fortune our team didn't get into a hospital. Let's demand and demand again—Conference Athletics.

### RAT RULES

Rat rules or no rat rules, what shall it be? If rat rules are a cherished tradition that is dear to the heart of every student in the College, why aren't they enforced?

It is rapidly becoming apparent that the Freshmen are forgetting that there is such a thing as Freshman regulations. Soon it will be difficult to pick out a Freshman from the student body, so many of them are disguising themselves as upperclassmen. What is becoming of the green neckties and the blue and gold caps? Salutes and hellos

## SENIORGRAPHIES

ALLAN KEMSKE

Meet the Major!

"Ske" commands the R. O. T. C. Battalion. He received pre-college training at Staunton Military Academy. So, we say—he's the man.

Taylor Gymnasium has been filled with students and friends—sitting on the edges of their seats—tense—and "Ske" has made beautiful shots right into the basket. Basketball for three years.

Student Council meetings have been warmed by "Ske's" intelligent remarks. He sticks out for anything he sincerely believes to be right. Student Council for three years—and the fourth.

But we all know him because he does a mighty good job at the half back post for the Blue and Gold football team. He runs for yards—and it takes a good team to stop him. Where things look dark—"Ske" can punt deep into the enemy territory. Receiving Green's passes looks easy—but it's because "Ske" hangs on to the ball. Delaware fans will never forget the "Green to Kemske" pass—Delaware 6—Navy 6. "Ske" didn't drop that one.

This "Sig Ep" fellow deserves the title that someone has given him—"one of the best players Delaware has ever seen. An all around football man."

are also becoming a rarity. And these we consider one of the most important rules imposed upon the Freshmen.

There is nothing that breaks down the morale of an institution more than to have rules which are not strictly enforced. If the length of the period for rat rules is too long, shorten it. But for the sake of all concerned, let's have discipline while these rules remain.

### PHI BETA KAPPA?

Announcement of the granting to the University of Delaware of a chapter of Tau Beta Phi gives rise to the query—Why don't we have a chapter of Phi Beta Kappa at this University? In the past the answer has been that Phi Kappa Phi is used because it includes the Engineering students. But now that separate provision has been made for them there is no reason why a chapter of Phi Beta Kappa should not be installed for the Liberal Arts students and leaving membership in the already established Phi Kappa Phi to those students whose curricula do not include sufficient number of liberal arts courses for the former. The establishment of a chapter of the oldest honorary fraternity in the country would follow in the wake of other scholastic strides the college has made under the headship of Dr. Hullihen and Dean Dutton. Dr. Hullihen has promised a representative of the REVIEW that he would go into the matter with the national authorities of the society and have some further information for next week.

## Things I Knew You Didn't

Henry F. Pohl

That the longest run with a stolen ball was made by Edgar Poe of Princeton, when he took the ball from a Yale opponent and ran 100 yards for a score.

That we overheard a well-known

quarterback on the Delaware football squad bark signals this way: O. K., Formation right on the left —2—hick . . . (hey!)

That in Wolf Hall—experimental lab—a new scientific research on

Colloidal Copper is being conducted by a man that has graduated from the Russian Imperial College.

That there are 111 married professors on our faculty.

That a blue fish isn't "blue."  
That a crab isn't sulky.  
That a croaker doesn't croak.  
That a hermit crab isn't lonely.

That Dean Dutton's definition of a bore is as follows:

"A person who insists on talking about himself when you want to talk about yourself."

That they teach a course in Colloidal Chemistry at this University.

That Delaware keeps the trophy awarded by Senator Townsend permanently.

That according to "Windy" Wienroth, a student that flunks out here could become an honor man at Washington College.

That if Bill Roper, Philadelphia Politician picks Delaware to win—you can bet we'll lose.

That the first floor of old Mechanics Hall will become the R. O. T. C.'s "plotting" room—and the 155's will be placed around the football field. When "Rod" says move, they move.

That the article about the Delaware 3rd string guard making—blah, blah—that ought to convince you not to believe everything you read. The language and words that writer used. Bet he was a college prof.

That the reason Edgar Allen Poe, the writer, was dismissed from the United States Military Academy was due to his shocking dress for the review. He dashed into ranks dressed only in a modern loincloth, gun, knapsack, and rifle. The dismissal met very much with Mr. Poe's approval.

That Robert E. Lee, the Confederate general-in-chief was once the Superintendent of the United States Military Academy . . . want to bet on that? Ask Branner, he nose.

When the beer bill passed, it was broadcast over a national hiccup.

## HISTORY DEPT. CHANGES COURSE

The Department of History and Political Science has modified its course this year in United States History, H 205 in both colleges to include a series of lectures given by various professors in the department. Two hours a week are to be devoted to these lectures and the third hour is to be devoted to discussion in small groups of the text book assignments and the outside reading. It is too soon to evaluate the results of this innovation. This plan is adopted, however, as an attempt to modernize the course in harmony with the principles of instruction used at other institutions. Dr. George H. Ryden is the head of this department.

### GLEE CLUB

Pronouncing himself as more than pleased with both the enthusiasm and turnout of the initial meeting of the Delaware College Glee Club, Mr. Mr. Howells, the instructor, is now bent upon shaping a first class organization out of the Delaware material.

"I am convinced that the Delaware group, in spite of their lack of practice and acquaintance with their songs were as finished and as well sounding as any glee club represented at the recent convention of college glee clubs in the East," said Mr. Howells in declaring his approval of the first rehearsal. "I am sure that Delaware will win first place next year."

The next rehearsal will be Tuesday, October 31, in the Lounge of Old College.

## SPORTS

RALPH C. McMULLEN, Editor

DELAWARE WINS EASILY  
OVER WASHINGTON FOE

## Branner Scores Line Touchdown

Before a record breaking crowd, the University of Delaware football team defeated Washington College last Saturday afternoon on Kibler field at Chestertown, Maryland, by a 8-0 score. This was the same margin of victory gained by the Blue Hen grid team last year. Delaware has now gained two of the three wins necessary to gain undisputed possession of the Daniel O. Hastings' trophy.

The game opened with Washington kicking to Green, who passed the ball laterally to Kemske, who in turn carried the ball to midfield. Line smashes by Kemske and Branner carried the ball to the Marylanders 19-yard line. Washington College was penalized 15 yards for holding, putting the ball on the 4-yard line. Branner carried the ball over the goal line from this point. Green failed to convert when he fumbled the pass from center.

(Continued on Page 4.)

Delaware Triumphs  
Over Dickinson

Ed Bardo's soccer team broke into the win column by defeating a strong Dickinson team to the tune of three to two. This gives the soccer combine a fifty-fifty break. Having lost to West Chester Teachers' College, the boys hit their stride and came through after a hard tussel.

Breaking through the Dickinson's defense in the first period, Bardo's boys scored a goal with Hunn booting the ball through the uprights. In this period, Dickinson failed to score, but in the second period the Blue and Gold tallied twice with the Red and White following with two scores also.

The sensational playing of Minner and Lambert accounted for the team's win. These two boys have assured themselves permanent places on the eleven by the whole.

(Continued on Page 4.)

THIRTY-FIVE CENTS  
Isn't Much!

Most college allowances go only so far. But even at that you can probably spare 35 cents once a week.

It isn't much—35 cents—hardly the price of a movie or hair cut. Yet for 35 cents, if you know the ropes, you can telephone as far as 100 miles.

That probably means you can telephone home! Can 35 cents buy more pleasure than that? You can pick up a budget of family news... talk over your problems... share your interests. There's nothing like a "voice visit" with the folks back home to brighten your whole week—and theirs.

...

TO TAKE ADVANTAGE  
of the LOW NIGHT RATES...

Call after 8:30 P.M., and be sure to make a Station to Station call.

That means, ask the Operator for your home telephone, but not for any specific person.

If you've fixed a date in advance, the family will be sure to be there.

35 cents at night will pay for a 3-minute Station to Station call to anywhere within 100 miles.

THE DIAMOND STATE TELEPHONE COMPANY

THIS  
AND  
THAT

R. C. M.

A nice return of a kick-off by Kemske—some nice smashing by Captain John—a gift of 15 yards by the officials—and then a touch-down for Delaware. With the exception of the 15-yard penalty against Washington College, this tally was earned with good, clear, hard football. What happened after that? A blocked kick by Hurley and Pohl tackling the Washington back behind the goal line for a two pointer. Thus we find all the interest of the game confined to the first few minutes of play. The Blue Hen squad decided that that was enough offensive football for the day. The rest of the game was merely an exhibition of defensive football. Defensive football is not very interesting to watch to say the least. The passes which were completed in the last quarter by the Marylanders did not make the Blue and Gold squad look very impressive. The Washington back who was throwing the ball could never be ranked with a Friedman or Newman. Delaware won and after all that is very important!

Ralph C. McMullen

The Blue Hen grid team will face three grid teams in the next three games which will tax their greatest ability. Lebanon Valley will be the foe this Saturday on Frazer Field. "Hooks" Mylin will bring a team to Newark this week-end with but one purpose—a win over the University of Delaware. It remains to be seen whether his purpose is fulfilled. It will take a fighting grid team to send the Flying Dutchmen down to defeat. Following the Lebanon Valley game Rogers' squad will journey to Philadelphia to face the Drexel Dragons. This game is a "natural" and the outcome of this game has in the past settled the issue of the best small college team in this section. After Drexel comes "the" game—P. M. C. at the Atlantic City Convention Hall. The Big Red team from Chester will be seeking their first win over a Blue and Gold grid team in three years. When I think of this game I just cross my fingers and hope—for what?

Penalties! Things that "make" and "break" football teams. "Charley" Rogers' squad have had more than their share during the present campaign. Most, or perhaps all, of them have been justified. The yards lost by penalties take the heart out of a team—a heartless team goes nowhere. Saturday afternoon against Washington College Jack Glover gained about 12 yards on one play and Delaware was penalized 15 yards for holding. Anyone can see that the loss of yardage amounting to more than one-fourth the length of the field will break the morale of any team—here's hoping that the ground lost by the Delaware grid machine is considerably lessened!

LOST—One forward passing attack—please return to U. of Delaware, Box 004. Reward. It would be a great day for the Blue and Gold representatives if this reward was claimed. The same passers and same receivers are still on the football team at present who in the past three years have made history in the University of Delaware sport records. A tie game with Rutgers two years ago, a score against the great Navy, P. M. C. game last year, at Swarthmore three years ago—these are only a few outstanding grid events which were caused either directly or indirectly as results of forward passes. Green, O'Connell, and "Ed" Thompson can throw that old pigskin and there are plenty of capable receivers around who can "snag" them—what happens then—all that has to be done is to score a few touchdowns, or sometimes one is enough—there is still some hope that someone will claim the above reward.

Palmer played the best defensive game of his life last Saturday... Russo did well also, but I have seen him do better... La Vie Collegienne, Lebanon Valley College weekly, says that the Flying Dutchmen do not expect to lose another game this season... Rutgers had plenty of trouble on their hands stopping "Reds" Pollock... Palmer wants to know if all the other tacklers are ill?... Basketball is trying to crowd its way into the picture... Rogers and Ziegler differed on one or two points... Please note new training regulations as posted in A. C... Glover's nose is bound to get in the way, 'tis a bad habit Jack?... I know... The Senator Hastings cup... where is it?... we have two of its legs and only need one more... what kind of cup is this Senator?... The President had more than football games on his mind... The newly crowned President seemed to be a little annoyed about the events of the grid clash... I suppose the score didn't please him... "Doc" Doherty's shadow—"Have you got a 'comp' Doc?"... That will be all for today—Thank you.

## GRID STARS

ED THOMPSON

60

"TOMMY" THOMPSON

57

BLUE HEN  
GRID  
OPPONENTS

## Lebanon Valley

Lebanon Valley again came out on top last Saturday when they defeated the strong Mt. St. Mary's grid team by the margin of 10-8. The "Flying Dutchmen" showed what sort of team they are by scoring 10 points in the last quarter. The "Mount" team took a lead of 8-0 at the end of the half. At the end of the third quarter the score remained the same. But, in the last quarter Mylin's charges got going and managed to score 10 points to put the game in the win column. This marks Lebanon Valley's second straight win over reputable teams and it goes without saying that the Blue Hen squad better be at top form.

## Drexel

The Drexel Dragons won their third straight grid victory last Saturday when they trounced the City College of New York by 32-0 score. Using both a hard running and effective aerial attack, the Philadelphians had little trouble in rolling up 5 touchdowns against the New Yorkers. Drexel scored in every quarter except the last when Halas used most of his second and third teams in the one-sided fray. Knapp, star halfback of the Dragons, scored two of the five touchdowns. Flemming, although not in the starring line-up, threw most of the passes which gained many yards for the Drexel team. It is interesting to note that Lebanon Valley defeated C. C. of N. Y. by the same margin as Drexel, 32-0.

## P. M. C.

Coach Timm's squad lost a hard-fought battle to Rutgers last Saturday by a 10-0 score. The Cadets were supposed to be a soft spot in the Rutgers' schedule but before the game ended they proved to be anything but that. "Reds" Pollock again proved to be the outstanding offensive player of the Big Red team. Time after time he put the team from New Brunswick back on their heels with his rifle like passes to his teammates. He also proved to be a hard man to pull down once he tucked that pigskin under his arm. Look out Blue team, "Reds" will be looking for revenge.

## St. Joseph

The St. Joe's team seems to be the hard luck team of the year. They lost another close game to Susquehanna last Saturday by a 7-6 score. A pass from Kane to McCusker scored the Hawks' touchdown but failure to add the extra point cost them the ball game. Wasilewski, quarterback for the Susquehanna team, kicked the extra point that meant victory.

## Juniata

Juniata finally broke into the win column last Saturday when they upset Upsala by a 21-12 score. In all the games played this year the Juniata grid team has seemed to be stronger on offense than on defense. This is very unusual. Most teams seem to be able to put up some kind of a defense but their offensive weapons are decidedly poor. What kind of a team is this Juniata, anyway?

## Delaware Wins Easily Over Washington

(Continued from Page 3.)

Shortly after Delaware kicked off, the Washington team found themselves kicking from behind their own goal line. Hurley broke through and blocked the kick. Although the Washington back recovered the ball, it was automatically two points because the kicking side is not able to advance the ball. Even if he had been able to run, "Stretch" Pohl was in a position to take care of that.

The remainder of the game was spent by both teams in making fruitless gestures at the others' goal line. With the aid of an overhead attack, the Marylanders were able to gain many yards in the second half when they outplayed the Blue Hen team but they never became dangerous. Palmer on the line and Branner in the backfield were the outstanding players on the Blue and Gold squad if such can be named. The line-up:

Delaware	Washington
Pohl..... L. E. .... Gambler	
Nigels..... L. T. .... Dwyer	
Russo..... L. G. .... Nowak	
G. Thompson... C. .... Harries	
Carey..... R. C. .... Lord	
Palmer..... R. T. .... Ward	
Hurley..... R. E. .... Skipp	
Green..... Q. B. .... Reinhold	
Kemske..... L. H. B. .... Bilancioni	
O'Connell... R. H. B. .... Berry	
Branner..... F. B. .... Dobkins	

### SCORE BY PERIODS

Delaware	8	0	0	0	8
Washington	0	0	0	0	0

Touchdown—Branner. Safety—Pohl. Substitutions—Delaware: Glover for Green, Mayer for O'Connell, Zavada for Branner, Crowe for Kemske, Pearce for Pohl, O'Connell for Crowe, Green for O'Connell, Ed Thompson for Zavada, Branner for Glover, Kemske for Mayer, Crowe for O'Connell, O'Connell for Crowe, Gouert for Schwartz, Glover for Kemske, Ed Thompson for Glover; Washington: Greims for Reinhold, Hall for Bilancioni, Baker for Skipp,

Reinhold for Hall, Bilancioni for Greims, Skipp for Baker. Officials—Referee, R. L. Fite, Bowdoin. Umpire—F. T. Clayton, Temple. Head linesman—Douglas Crate, Penn State. Time of periods—15 minutes.

## Delaware Triumphs Over Dickinson

(Continued from Page 3.)

hearted cooperation in making tallies.

Rider College and Army are the next opponents for the locals. This will probably be a three-day trip. Both teams will prove a hard combine to beat. Coach Bardo is priming his team for serious work by holding strenuous work-outs on Frazer Field. The soccer team looks like a hard bunch of boys to beat and all they need is support from the student body. Let's get behind them and wish them good luck on their coming frays.

Line-up:

Dickinson	Delaware
Rodgers..... O. L. .... Lupton	
Kerstetter.... I. L. .... Crompton	
Bieri..... C. F. .... Minner	
Clinton..... I. R. .... Lynam	
Ringli..... O. R. .... Hunn	
Kahn..... L. H. B. .... Tawes	
Fritchie..... C. H. B. .... Newman	
Day..... R. H. B. .... Potts	
Cresman..... L. H. B. .... Prettyman	
Tatta..... R. F. B. .... Hume	
Miller..... Goal	Adams
Dickinson	0 2 2
Delaware	1 2 3

Goals scored—Hunn, Minner, Baller, Lambert, Thorn. Substitutes—Delaware: Lambert for Lupton; Brown for Hunn; Maull for Tawes.

## CHANGE IN FRAT LIFE

Cleveland, O.—Fraternity life today is more sedate than it was even four years ago, in the opinion of William L. Phillips, grand secretary of Sigma Phi Epsilon, who spoke here last week.

"I have been in this work for 32 years," he said, "and I think the pendulum is now swinging back to the more serious attitude toward life which I found among the fellows when I first started. The members today realize that they can't all be millionaires and

that it is a hard fight to make good. Four years ago their attitude was very different.

"They are now going to college to get a useful education instead of because it's the thing to do. And they have less money to spend, which has cut down social activities and college by-play.

"Right now most fraternities are paying the price of their rather reckless overbuilding, which they indulged in along with everybody else in the 1920s.

"Fraternities have shown great improvement in recent years in scholarship, until their general national average is now above that of non-fraternity men."

# NO MORE RUNNING OUT OF INK

—due to this Vacumatic Filler Pen Invention  
Holds 102% more Ink—Shows when to refill!

"Every other ring looks like solid jet till held to the light!"  
"Yes, I can see the ink in the pen. That's the best idea yet!"

## Parker's Revolutionary Pen— Laminated Pearl, ultra-smart and exclusive

PARKER now presents an utterly revolutionary pen—invented by a scientist at the University of Wisconsin. A pen that gets rid of the customary rubber ink sac,—but more, the first sacless pen to abolish piston pumps and valves. It contains no device that will render it useless later. It holds 102% more ink, with no increase in size! And its ultra-smart and exclusive barrel—fully patented—is built up ring upon ring of laminated Pearl and Jet, as shimmering as velvet, or Pearl and transparent Amber that looks like jet till held to the light. Then you can see the quantity of ink within—see when to refill. This eliminates running out of ink at some critical moment during lectures or exams.

This "miracle pen" obsoletes all other types. It is guaranteed mechanically perfect. Go to any nearby counter. Try it today. The Parker Pen Co., Janesville, Wisconsin.

## Parker VACUMATIC FILLER

Laminated Pearl or Plain Jet Pencil to Match, \$3.50  
Jet or Plain Transparent Pen, \$5; Pencil, \$2.50

## A strategic point in the battle for sales

Today's intense competition calls for new and more effective merchandising methods. Several plans pioneered by Bell System men are proving helpful.

For example: the "Where to Buy It" section of the telephone book. Here local dealers are listed beneath the trade-marks of advertised products—such as Plymouth, Greyhound Lines, Exide, RCA Victor. This service helps manufacturers to reduce substitution, helps dealers to increase sales, helps you to locate the brand you want.

### NOTICE TO PRE-MEDS

In an effort to determine the general aptitude of all pre-medical students who intend to apply for admission into any medical school by fall of 1934, the Association of American Medical Colleges Aptitude Test will be given to all Delaware College pre-medicals on December 6, 1933, at 3.00 P. M. in Room 27, Recitation Hall.

It is highly important that all pre-medical students expecting to apply for entrance to any medical school no later than the fall of 1934, take this test as this test has been adopted by all members of the Association as one of the normal requirements for admission.

All students wishing to take this test should make applications to Dean Dutton immediately. This is the only time the aptitude test will be given this school year.

### DR. G. H. RYDEN AT DICKINSON CELEBRATION

Dr. George H. Ryden, head of the Department of History and Political Science, was appointed by Dr. Hullihen as the official representative from the University of Delaware to the Sesqui-centennial celebration held at Dickinson College last Friday, Saturday and Sunday. Dickinson College, located in Carlisle, Pennsylvania, is named after John Dickinson of Delaware, who became the first president of its Board of Trustees. The college was chartered in 1703, and instructions began the following year.

We've got millions of 'em: See "A Murder Has Been Arranged."

"Who's afraid of the big bad wolf?" You're not? Well try "A Murder Has Been Arranged."

### Lack Of Student Support Causes Loss Of Recitals

(Continued from Page 1.)

Swinnen's varied programs have always attracted a large group of local townsmen and Wilmingtonians, the real purpose of the recitals, playing to the student body, has been lost. Hence the discontinuance.

### Discussion Of Honor System Topic Of Council Meeting

(Continued from Page 1.)

reason for disenfranchising the Freshmen—so that they will have the right to vote to reinstate the Honor System because they have never voted to do away with it."

### R. D. BLUMENFELD LECTURE POSTPONED

R. D. Blumenfeld, the noted Editor of the London Daily Express, has been forced to cancel his speaking tour of the United States because of the sad death of his daughter. Mr. Blumenfeld was to have spoken on "The Destiny of America and Great Britain," at a University Hour on October 23, in Mitchell Hall.

The chairman of the University Hour Committee, Mr. Kase, states, however, that he expects Mr. Blumenfeld will be here to give an address sometime after the first of the year.

# What you want in your pipe

a sensible package  
10 cents

... is tobacco that's made to smoke in a pipe. This means the right kind of leaf tobacco—the kind that grows for pipes.

It means that it's made right ... and old man Wellman, who taught us how to make Granger, knew how. It means that it's cut right.

Just pack Granger good and tight in your pipe and strike a match. Folks seem to like it.

# Granger Rough Cut

—the tobacco that's MADE FOR PIPES

### RADIO CLUB RE-ORGANIZING FOR YEAR

The Radio Club of the University of Delaware held an impromptu meeting in the reading room of Evans Hall, Tuesday morning to reorganize the club. The prospects for a peppy club are bright. Jack Geist of W3CPG, Tom Cooch of W3DTD, and Cedric Justice of W3EEB, all licensed amateurs have shown an interest in joining.

Anyone who has an interest in radio, regardless of his experience, is invited to come to the meeting in the radio lab of Evan's Hall on Thursday evening.

### Tau Beta Pi Grants Charter to Delaware Engineering Students

(Continued from Page 1.)

more to the engineer than Phi Beta Kappa or Phi Kappa Phi means to the arts and science man. The highest aim for a student in engineering is to attain membership in Tau Beta Pi in either his junior or Senior year.

The Engineer's Club will be initiated as the Delaware Alpha of Tau Beta Pi about November 1. The alumni of the Engineer's Club will be eligible for membership into Tau Beta Pi at that time.

There are many Tau Beta Pi men in and around Wilmington. With a chapter of this organization at the University of Delaware, there should develop an even greater interest than now exists between those prominent engineers and the Delaware students.

### Organize Del. Union For Active Semester

(Continued from Page 1.)

discussions of current problems are eligible to membership and are welcome to attend meetings. The date of the first meeting of this organization will be posted very soon on the bulletin boards of the Economics Department and the main bulletin board in Old College. Any student who is interested may see either Dr. Gould or Mr. Wiers at any time for his application for membership.

### W. C. D. Freshmen Cavort Crazily At Stunt Night

(Continued from Page 1.)

the sub-captain. An animal trainer amused the throngs with his animals, especially Gertrude Draper, the big black bear, and Dorothy Fields, the monkey.

A fair seems to be the very place for advertisements such as Lydia Pinkham (Peggy O'Neill), Lifebuoy Soap (Nance Dixon), Breme's Freckle Cream (Betty Child), Aspirin tablets (Mary Connor), Smith Brothers Cough Drops (Anna Clough and Regina Cohen), and Ways and Means of Getting Fat (Dorothy Dawson).

What, no side show! Oh yes, plenty of freaks. Half-man and half-woman (Gertrude Boyer), Siamese Twins (Jean Boyd and Marjorie Allmond), Tattooed Lady (Beatrice Bogash) and the Wolf Woman whose identity is still a mystery. Those freshmen who were not on the sidelines made up the numerous freakish persons who patronize the fair such as a drunk (Kathryn Rideway), and of course, a sailor and his sweetheart (Rittenhouse and Sabedra).

When the morons could get no more laughter from the fair itself, they made the freshmen who flunked the college song test which was given earlier in the evening, sing a college song suggested by any sophomore. To crown the evening, the morons, because they feared the competition of the fair

sex in the freshman class, tried to hide the good looks of these freshies by making them wear large black rimmed glasses and great big red cards on which were written the names of these smart alec freshmen and which were fastened by safety pins large enough to fasten a horse blanket. Woe to you sophomores! Looks are only skin deep and some of these freshmen. . . . The sophomores tried to heal the wounds they had just inflicted by giving the freshmen a repast of punch, ginger cakes, and licorice. Once more the sophomores departed in high glee, confident that the glasses would produce their effect and so leave many clear dances for them.

### MISUNDERSTANDING MAY SEE BEGINNING OF CAMPUS-TOWN RIVALRY

Newark's reputation as one of the college towns in which there is no bad feeling between the college and the town boys, may soon be lost. Yesterday at football practice, Irving Malcom, one of the candidates for the position of assistant manager of football, was struck by a town "tough" when he tried to get possession of a football which was being kicked around the athletic field. Malcom's level-headedness in dealing with the matter prevented what might have been serious trouble between the boys, and the loafers who hang around college and Frazer Field.

Beats all Olympic records—"A Murder Has Been Arranged."

### "Foreign Study Notes"

(Continued from Page 1.)

linguistic study, prior to the university year at Munich.

Owing to the devaluation of the dollar in France, the present French group is taking the preliminary course of study at Paris instead of at Tours.

### FOOTBALL STAR SHOT

Moscow, Idaho (IP)—Edward Elliott, star punter on the Idaho 1932 freshman football team, and expected to be one of the mainstays of the 1933 Vandal machine, is recovering from wounds received when he was shot through the right shoulder by a gasoline thief he discovered in the act of taking gasoline from the Elliott automobile.

Elliott's father killed the thief as he was making a getaway.

Adding to honors she has won in beauty contests on the Ohio University campus, Arabelle Chute, junior in the fine arts department, has been awarded three first prizes for oil paintings entered in competition with other collegiate artists at the Chicago World's Fair.

Youse is a viper if you miss "A Murder Has Been Arranged."

Reduce from excitement at "A Murder Has Been Arranged."

**I keep coming back to that word "balanced" on the back of the Chesterfield package**

**YOU** often hear the word balance—something is out of balance—top-heavy, not on an "even keel."

What you read, "Chesterfield Cigarettes are a balanced blend," means that the right amounts of the right kinds of tobacco are welded together; that is, home-grown tobaccos, the right kind, the right quantity—are blended and cross-blended with tobaccos from Turkey and Greece.

When these tobaccos are balanced one against the other, then you have a mild cigarette.

When they are in balance, then you have a better-tasting cigarette.

May we ask you to read again the statement on the back of the Chesterfield package?

May we ask you to try Chesterfield?

# Chesterfield

**A Balanced Blend**
