Very sorry you cannot accept but I understand
difficulty to leave under present circumstances
although your absence would not be of long duration
STOP Considering your standing with Treasury would
be obliged if you would send me a telegram expressing
your regret being ^{unavoidably} ~~inevitably~~ prevented accepting
mission that would have interested you immensely
knowing details of this most unusual affair and
because of importance of general principles involved
and inevitable seriousness of repercussions if they
should not be respected

Regards

Heineman
