PETER DELIVERED FROM PRISON

LESSON TEXT—Acts 12:1-17.  
GOLDEN TEXT—Prayer was made without ceasing of the church unto God for him.—Acts 12:3.

"Prayer Changes Things," says a popular motto. "More things are wrought by prayer than this world dreams of," is another much-used quotation. Still another is, "Salon trembles when he sees the weakest saint upon his knees." We say the words, but how often we fail to practice the truth. Prayer seems to be such an interesting topic for discussion, and yet so seldom do we really pray. The teaching of God's Word and the testimony of thousands of His children down through the centuries, yes, even our own experience, demonstrates that the greatest power for good that we can wield is prayer. God give us grace to use it in our daily walk and life and for His glory!

I. Prayer for a Prisoner (v. 5).

The members of the early Church knew what to do with their problems and troubles. They prayed. The same solution is available today. Whatever else we may do by way of planning and working, it must follow prayer if we are to succeed. We really cannot do anything else until we have prayed.

Troubles may be a blessing if they drive us to our knees. Peter was in jail for the gospel's sake. Prayer had been made for his deliverance, and yet the last night had come and he was still not free. However, his friends prayed on. God had given them faith to believe and the conviction that they should continue in prayer for him. Under such circumstances we must never cease to pray, even though the very "zero hour" has come. "Man's extremity is God's opportunity."

II. Deliverance by God (vv. 6-10).

God does answer prayer. Some presumably brilliant folk would have us believe that prayer is merely a subjective experience, a sort of spiritual exercise, which does the individual who prays certain good, but never reaches God or changes things. How would they explain what happened to Peter, and the hundreds of thousands of other definite prayer answers throughout the centuries?

The answer in Peter's case was so remarkable that even he thought he was only dreaming. Apparently God gave His persecuted servant sweet sleep that night, while he kept Peter's friends alert in prayer. But when Peter found himself outside the prison he knew something had happened.

There are many interesting things to note in this incident. Observe that what Peter could do for himself God did not do, but what Peter could not do, God's angel did. Note also that when God works, the spiritually unenlightened know nothing of it. The guards did not know what had happened until morning. Consider also that the angel took Peter as far as the open street, then left him to himself. God may meet a special need by miraculous intervention, but that does not mean that from then on we are to live by constant miracles. There are many practical and precious spiritual lessons which we may learn from these verses.

III. Results of Answered Prayer (vv. 11-17).

God does not answer prayer or perform any of His mighty works simply to make people marvel or to add to someone's comfort. It is true that He does thus manifest His loving consideration for us, and that men do marvel at His greatness, but there are other purposes in the workings of His grace and power.

In this case the first result was the freedom of His witness. He had been in prison and that was for God's glory; now he was to be free, and that too was to be for His glory.

Then, His deliverance was a great testimony, not only to those who were praying in the upper room, but to God's people down through the ages. Answered prayer is one of the great testimonies to the Christian faith.

Fellowship resulted from Peter's liberation. He went at once to meet with his fellow believers. Although he did not tarry long with them, he did share with them his remarkable experience, and admonished them to tell the others. If God has done something for you, share the good news with your brethren.

Service also resulted from this answer to prayer. Peter was not delivered that he should go about the city boasting that he was too strong for Herod's jail. Nor was it merely that he might go from place to place to lecture on his unusual experience. He was set free to go about his normal life of witnessing for Christ. We are "saved to serve." The normal expression of a life in Christ should be service for Him. God delivers us from trouble, sorrow, even death, that we may serve Him.

THE POST

## Behind The Wall At W. C. D. By Mary Lee

## Our Maid Of Honor

Margaret Hogan, daughter of Mrs. William P. Hogan, 73 E. Cleveland Ave., and the late Mr. Hogan, has been elected Maid of Honor for May Court. Peg is a senior majoring in home economics. She was a member of the Freshman Formal Committee, Sophomore Tea Dance Committee, Freshman-Junior Tea Committee, and Chairman of the Junior Prom. Again, to quote the Year Book: "Peg doesn't like her straight hair, but everyone else seems to like both Peg and her hair."

## New Castle vs. Sussex

Girls in New Castle challenged the girls in Sussex dormitory to a game of basketball last Wednesday night. Helen Adams, Betty McPhail, Evelyn Conant, Marcella Short, Ada Johnson, Emily Budd, and Lois Eaton played for New Castle dormitory; Grace Shockley, Ginny French, Baby Muller, Ina Peterson, Isabel Howeth, and Helen Osborne played for Sussex. New Castle was the winner by a 31-to-26 score. But Sussex wasn't so easily defeated; the girls immediately challenged New Castle to another game for next week!

## Friday, 4:00 To 5:30

This past Friday Dr. W. O. Sypherd entertained at another tea at his home on East Main Street. The guests were: Dr. and Mrs. Cyrus L. Day, Dr. and Mrs. Arthur Dunlap, Dr. Ned Allen, Mr. Lawrence Wilson, Thomas Rogers, John Swenchart, Martha Whitcraft, Beth Southard, Bernice Wilkinson, Sylvia Phelps, Jane Trent, and Mary Lee Schuster.

-wed-

## Cauldron Revised

The experiment of combining the

Women's College and Delaware University magazines into one—The Cauldron—was very successful. With a slightly different staff the Cauldron will be published for a second time. Robert T. Wilson, who was a managing editor for the last issue, will be editor-in-chief. The rest of the staff is as follows: Betty Hellen and Joe Dannenberg, managing editors; Dot Hopkins and Jake Kreshtool, associate editors; Arvid Roach, poetry editor; Ellen Simon, art editor; Jeanne Thompson and Joe Mendenhall, copy editors; and Hester Smith and William K. Richardson, business managers.

The staff promises a even "bigger and better" Cauldron this issue. The last issue was an experiment and the members of the staff made mistakes and learned a lesson by them.

-wed-

## Freshman Vote

The freshmen do not really elect a president of their class until second semester; their leader for the first semester is a class captain. Their president for the remainder of the year is Janet Balster of Wilmington who was elected last week and the remaining elections will be held this week and next.

-wed-

## Demonstration

Chapel last Thursday was held in the gymnasium where members of the freshman gym classes gave a demonstration of the work that they have been doing in class. Verna Leib, a Senior majoring in physical education, presented the program. Included in the program were folk dances, tumbling, and a grand march. The girls had been instructed by Miss Beatrice Harshorn, Miss Marjory Eastabrooks, and Miss Irene Buckley, all members of the physical education department.

## School News

Reported By

DOROTHY DAUGHERTY and ELLA MAE MACLARY

## Faculty Play

The faculty play, "Charley's Aunt," is now past history. However, the memory of it will remain with us for many a day. It was a huge success, for which credit is due, not only to the director—Miss Ann Tauter—but also to the many committees who aided in the production. Miss Kirk and her properties committee were certainly on the job. The scenery was very well constructed by Mr. David and his industrial arts classes. Other students helped in ushering both at the matinee and the evening performances.

## Report Cards

Because of the absence of so many teachers and students, report cards will not be issued until Monday, March 13. At present there are seven substitute teachers taking the

places of those absent. Also ninety-five students are absent from school because of illness.

Our school was represented at the New Castle County Student Council meeting by William Hancock and Jane Larson.

## Buzz Staff

The new staff for the "Yellow Jacket Buzz" 1939-1940 is as follows: editor-in-chief, Elizabeth Staats; associate editors, Adrienne Suddard, Dorothy Dougherty, Ella Mae MacLary; humor editor, Regina Taylor; chief headline, Frances Stearns; girls' sports editor, Audrey Batterby; boys' sports editor, Frederick Ingham, Frank Balling, Jr.; art editor, Robert Arnold; exchange editor, Grace Carson; junior high school reporter, Nancy Cooch, and business managers, Marion Fletcher, Lee Adams, and Howard Wilson.

## Ancient Manuscript Deciphered In Russia

Written on bark, the 600-year-old manuscript dug up in the village of Podgorny, Saratov Province, Russia, has been fully deciphered by Prof. N. N. Poppe, of the Oriental Institute of the Academy of Sciences at Moscow.

It had turned into an almost solid mass, and only after the various layers had been separated at the Hermitage Museum in Leningrad, was it learned that it was an ancient writing which no one was able to read

for a long time.

After it had baffled everybody for two years Professor Poppe, working on it for a year, discovered that it was one of the oldest known manuscripts of Mongolian and Uigur poetry of the first half of the fourteenth century. A lyrical dialogue between mother and son, it has been translated into Russian by Professor Poppe and will be published shortly.

Charles Lamb worked three years for the East India Company for nothing.

Plan Your Garden

THE MOST ATTRACTIVE gardens are seldom arrived at by happy chance. They are the result of planning that takes into consideration the blooming season of the plants, their colors, their heights, and their general habits of growth.

PERENNIAL FLOWER BORDERS must certainly be planned if they are to give you color from spring to fall. Here is a good selection of plants for the perennial border—Hollyhock, Forget-me-not, Delphinium, Pyrethrum Hybridum Sweet William, Hardy Phlox, Canterbury Bells, Digitalis, Scabiosa, Alyssum, Hardy Coreopsis, Poppy, Aquilegia, Gaillardia, Carnation, Aster Hardy.

COLOR plays an important part in giving personality to a garden. Decide whether your garden is to be bright and glowing with reds and golds, or cool and placid with whites and blues.

RED AND GOLD GARDENS may be successfully made with the following annuals—Antirrhinum (Snapdragon), Aster, Calendula, Calliopsis, Nasturtium, Poppies, Portulaca, Salvia, Sunflower, Zinnia.

BLUE AND WHITE GARDENS may be composed of the following annuals—Sweet Alyssum, Antirrhinum (Snapdragon), Aretotis, Asters, Centaurea, Cosmos, Dillidius, Gypsophila, Heliotrope, Larkspur, Nemophila, Nicotiana, Nigella, Petunia, Zinnia.

DON'T BE TOO MUCH the drill sergeant when you arrange plants in your border. Curving lines are more pleasing than stiff, formal lines. Also don't make too mathematical the consideration of heights. A few taller subjects near the center and front of the bed will give you a more pleasing outline.

Mark Twain wrote on one of his wife's letters: "Opened by mistake to see what was inside."

## "WAS I SURPRISED!"

"I never knew much about Long Distance telephone rates, but the other night I had to make a call in a hurry. The operator said, 'Hold the line, please', and in just a few seconds I had my party. She was nearly a hundred miles away—but the call only cost me 35 cents! That's what I call a bargain!"

Yes, most people over-estimate the cost of making calls to distant places. The rates for most Long Distance calls are especially low all day Sunday and every night after seven. Rates to many out-of-town points are listed in the front of your telephone directory.

## GILDA GAY

## Museum Gets Bully Beef

Oxley Library War Museum in Brisbane, Australia, has been presented a can of bully beef taken away from Gallipoli by a soldier at the time of the evacuation. The can is now twenty-three years old and is believed to contain the only bully beef from Gallipoli in existence.

O. O. McIntyre, reputed to have been the highest paid writer in the world at the time of his death, left a net estate of only \$72,456, or less than a single year's income. But the smalltown reporter who became a noted columnist packed a lot of fun and rich experience into his 54 years of life.

## Nervous, Weak, Ankles Swollen?

Much nervousness is caused by an excess of acids and poisons due to functional kidney and bladder disorders which may also cause getting up at night, burning passages, swollen joints, backache, circles under eyes, excess acidity, leg pains and dizziness. Help your kidneys purify your blood with Crystex. Usually the very first dose starts helping your kidneys clean out excess acids and this soon may make you feel like new. Crystex must satisfy you completely or money back is guaranteed. Get Crystex (also in 10-day) It costs only 35¢ a dose at drugists and the guarantee protects you.

## Diamond Sales-Drop To New Low Level

Because American millionaires and fashionable women, normally the greatest buyers, did not purchase diamonds in 1938, sales of uncut diamonds dropped to the lowest level in four years. Figures published in London by the Diamond Corporation, which controls the world market, show a total of less than \$23,000,000, compared with \$48,500,000 in 1937.

The international situation caused

Taste It At The  
MERCHANDISE SHOW  
The Armory  
MARCH 9-10-11

the slump. Usually regarded as glittered investment, the gems were not sought by the wealthy Indian princes for their jewel chests as usual. Those who did buy were

rich Jewish refugees who sold them a safe and portable investment. The Diamond Corporation and London dealers say the outlook is very promising.

Easy . . . Effortless  
WASHDAYS

SO ultra-modern in design and beauty that words do not seem to be adequate. You must see these new ABC washers and ironers to really appreciate them. The new automatic time control, for instance, on the washer automatically controls all washing action. The motor actually shuts off when the washing period is finished. Streamlined, fully-enclosed wringer is a sensational advancement. Of course, it has the patented ABC finger tip control, and many other features to take the work out of washing.

More than ever with this new ironer you will appreciate the ease and convenience of sitting down to iron. No more back-breaking, hard work which accompanies the usual methods of ironing. You just sit quietly and guide the clothes through—that's all. And the beauty and modern design of this new ironer makes it a fitting companion for the new washer—truly a home laundry of which you will be proud.

## SOYBEAN VALUABLE AS FOOD

### Nutritionist Lists Assets Of Rich Crop

The soybean, the Oriental 'poor man's meat,' is one of the valuable food assets about which American people should know more.

This statement was made recently by Miss Pearl MacDonald, extension nutritionist in the University of Delaware Extension Service, who said that soybeans could be used to advantage as food in this country.

Miss MacDonald outlined five reasons for making these claims. "First," she said, "soybeans are about twice as rich in protein as other beans and protein is the food material which serves to build muscle tissue and keep it in repair. "Second, soybeans are about twelve times as rich in fat as other kinds of beans, and fat furnishes energy."

"Third, because soybeans furnish so much protein and fat than other beans, they contain a correspondingly smaller amount of starch."

"Fourth, soybeans, whether fresh or dry, are a good source of minerals, most likely to be deficient in the American diet—calcium, phosphorus and iron."

"Fifth, soybeans are a good source of vitamin B and G while green soybeans are rich in vitamin A."

**Lacking In Starch**  
Miss MacDonald pointed out that the lack of starch in soybeans makes them particularly valuable as food for diabetics.

"Vitamins," she explained, "help to promote good growth in children as well as aid in maintaining good health in both children and adults."

There are two general classes of soybeans—the light and the dark—with many varieties in each class. Most of the beans grown in Delaware are classified as dark beans and are used for forage crops, for oil and other commercial purposes. They are strong in flavor and are not desirable for table use.

The light varieties, which are grown in Delaware to an increasing extent, however, may be used as green vegetables in the growing season, as dry beans in the way other dry beans are used, or in the form of flour and meal.

Recipes calling for soybeans may be obtained without cost by writing to Miss MacDonald, Extension Service, University of Delaware.

J. W. Linder, proprietor of a pool hall in Royal, Neb., won a bet he could put a billiard ball in his mouth, but it took him an agonizing 15 minutes to remove the ball.

## American Nautical Academy To Train Boys For Merchant Duty

### Practical Course Offered During Summer; No Charge For Instruction

The American Nautical Academy, National Training School for Merchant Marine Officers, Washington, D. C., announced this week that boys and young men between the ages of 11 and 21 years be allowed to secure practical ship experience on board a training ship of the academy within the period from June 1, to October 1, 1939.

The young men may remain on board ship for the entire period, or for any shorter time they may wish, but not less than a month. Students who enter for any period less than the full course will receive instruction only in those subjects being taught while the student is on board ship.

#### Foundation For Career

The purpose of the course is: First, as a foundation for those who wish to become officers in the Merchant Marine, and devote their lives to a career in the service; secondly, for those boys and young men who, though not desirous of following the sea, still wish to obtain a general knowledge of ships and the life afloat.

There is no charge for instruction nor for living quarters on board ship. The only required expense is for meals, which are 49 cents. Three meals are served daily.

There is no tuition charge for any of the courses offered by the Academy, and no obligation for future merchant marine, military, or naval service of any kind is incurred by the young men.

#### Tenth Annual Course

The schoolship to which the young men will be assigned is the training ship "MARSAALA," a vessel of 2,922 tons, 284 feet long, and 45 feet breadth. It was built in 1919-20.

On Sundays the cadets will be allowed to attend divine services at the churches of their respective denominations on shore. While on board ship, cadets will receive free minor first aid treatment when necessary.

This is the tenth annual summer course offered by the Academy, and will be under the personal supervision of the captain commandant of the Academy who will be in command of the vessel.

#### Practical Instruction Offered

While on board ship the students will follow the regular daily ship routine, and will be given practical instruction in nautical subjects, including seamanship (ship's work), signaling, rowing, handling, and the use of motor boats, pulling boats, life-saving, and naval drills. Many of the duties on board ship are performed by the cadets as part of their training. They will also receive instruction in the use of life buoys, first aid, the compass, log,

lead, ground tackle, and the duties of lookouts, as well as the duties of the watch on deck.

Students will join the training ship Virginia where the vessel will be based at Hampton Roads for the summer training period.

Those completing the summer course with a passing grade will be eligible to apply for scholarship in the navigation course.

Due to the fact that the number of accommodations available is limited, those wishing to take advantage of this opportunity should write at once to the American Nautical Academy, National Training School For Merchant Marine Officers Washington, D. C.

Robert Mawler of London was arrested for libel because he spread gossip about a neighbor based on things Mrs. Mawler had said in her sleep.

## Uncle Jim Says

"Diversified farming is good for the land, farm income, and the community."

#### Tots Select Toys

Children of pre-school age selected the toys to be made on a mass scale in the Georgia district of Russia this year. Nearly 1,200 tots visited the exhibition of over 2,000 playthings in Tbilisi and under the supervision of trained instructors voiced their opinion of the toys. The most popular playthings were chosen for mass production.

## Eighth-Grade Pupils Chosen As Delegates

### To Represent Stanton Junior Red Cross At Wilmington Session

By Miss Emma S. MacLary

Stanton March 8—Four pupils of the eighth grade of the Stanton School have been appointed as delegates to represent the Junior Red Cross Chapter of the school as delegates to the session to be held at headquarters, 911 Delaware Avenue, Wilmington, on March 18. The delegates are May Hastings, Doris Barlow, Ruth Royle, and Mary Kossak. The appointments were made at the invitation of Lamotte duPont, Jr., of the Red Cross in Wilmington.

An oyster and baked fish supper will be served on Thursday evening, March 9 in the St. James P. E. Church parish house by members of the St. James P. E. Church. Proceeds are for the benefit of the church school Lenten fund.

Thomas Jordan of Dandsworth, Eng., admitted he stabbed Mrs. Ellen Hurley, but said he did it because she pulled out his false teeth and threw them away.

Men can be free when they will to be.

64th anniversary of organization on March 15. Mrs. Ruth Robinson, lecturer of the Grange, is in charge of arrangements. On March 22, the Grange will stage a demonstration.

The Ladies Aid Society of the Stanton M. E. Church met on Thursday evening at the home of Mrs. Grace Hale. Plans were completed for the annual roast chicken supper to be held in the basement of the church on March 16.

Although much has been said of the responsibility of the motorist to the pedestrian, the pedestrian also has a responsibility to the motorist, and there is one rule which the country pedestrian should obey to the letter. It is a rule that has been broadcast many times over the radio and through the newspapers by the Delaware Safety Council. It is merely this: "When walking on a country road or street where there is no sidewalk, walk on the LEFT HAND SIDE OF THE ROAD FACING THE TRAFFIC WHICH IS APPROACHING YOU. Keep to the right is the rule for the motorist, but for the pedestrian that rule is absolutely reversed. KEEP TO THE LEFT if you want to take the safest possible route."

**Reason Is Obvious**  
The reason for keeping to the left is obvious. When you are on the left hand side of the road, you are facing the oncoming traffic. If the motorist is driving on the right hand side of the road, he cannot see and watch you. If you are walking on the right hand side of the road, you are leaving your back to the motorist and it is impossible for him to see you. Therefore, if you are walking on the left hand side of the road, you are always facing the oncoming traffic and you can see and watch the motorist. This is the reason why the rule is absolutely reversed for the pedestrian.

Men can be free when they will to be.

## Safety Hints

Although much has been said of the responsibility of the motorist to the pedestrian, the pedestrian also has a responsibility to the motorist, and there is one rule which the country pedestrian should obey to the letter. It is a rule that has been broadcast many times over the radio and through the newspapers by the Delaware Safety Council. It is merely this: "When walking on a country road or street where there is no sidewalk, walk on the LEFT HAND SIDE OF THE ROAD FACING THE TRAFFIC WHICH IS APPROACHING YOU. Keep to the right is the rule for the motorist, but for the pedestrian that rule is absolutely reversed. KEEP TO THE LEFT if you want to take the safest possible route."

Men can be free when they will to be.

# Social Events Around Newark

## WINTER VACATIONIST

Walter R. Powell

Following a vacation of two months in Miami, Mr. Powell, proprietor of a local eating house, returned to his home yesterday.

guests, Miss Nancy Kirkpatrick and Mr. James Kirkpatrick, of Harrisburg, and Mr. and Mrs. Edward Cussler, of Wilmington.

Mr. Edson DeJen, Old Oak Road, is recuperating after an appendicitis operation.

Mr. and Mrs. George Boli, W. Main Street, entertained on Saturday evening prior to the dance at the Newark Country Club.

Dr. Robert Price and son, Bobby, of Winslow Road, spent the week end in New York.

Mrs. Albert Eastman, S. College Avenue, entertained her bridge club on Tuesday afternoon.

Mr. Thomas Roberts, Delaware Avenue, has been confined to his home with the gripe. He returned to work on Monday.

Mrs. J. W. Cristadoro, W. Delaware Avenue, visited downtown on Sunday.

The Women's Auxiliary of the Presbyterian Church met last Tuesday evening at the home of Mrs. Florence Steel, S. College Avenue.

Miss Anna M. Stauter, mathematics teacher at the Newark High School, is convalescing at her home in Akron, Pa.

Mr. and Mrs. Hugh Smyth and family, of E. Park Place, visited relatives in Wilmington on Sunday.

Mr. and Mrs. David Cronhardt and family, 32 Kells Avenue, spent the week end with Mr. Cronhardt's mother, in Baltimore.

Mrs. Lawrence Pike, Haines Street, returned with her daughter from the Homeopathic Hospital, Wilmington, on Friday.

Miss Carrie Bryan, S. College Avenue, returned last week from a visit with a cousin in Baltimore.

The young people of St. Thomas' P. E. Church were received by Bishop McKingstry at the Hotel duPont on Sunday afternoon.

Officer James Elmer Morrison, Creek Road, has returned to work after having been confined to his home with the gripe.

Miss Dorothy Jebb, teacher of Home economics at the Newark High School, is ill at her home.

Mr. and Mrs. John H. Skinner, Jr., W. Main Street, were guests over the week end of Mr. and Mrs. George K. Throckmorton, Princeton, N. J.

Mr. O. K. Strahorn, E. Main Street, has returned to work following an attack of gripe.

Miss Jennie Morris, S. College Ave., is ill with the gripe in Harrington where she teaches school.

Theta Chi Fraternity To Stage Annual Formal

The Theta Chi fraternity at the University of Delaware will hold its annual spring formal dance in Old College on Friday evening.

Patrons and patronesses will be: Captain and Mrs. Thomas L. Walters, Mr. and Mrs. Robert G. Caldwell, Miss Harriet Bailey, Miss Elizabeth Kelly, Mrs. Harry L. Bonham, Miss Elaine Owens, and John Connor.

The committee is composed of Richard M. Irwin, John E. Connor, Jesse W. Massey and Thomas J. Ryan.

Gainsborough, who was passionately fond of music, once gave one of his best paintings to a violinist who had played a solo for him.

## Novelty Pin Cushions

HAVE fun while you hunt for your pins and needles—instead of looking in the proverbial haystack, hunt in a pumpkin or a drum! Gay equipment for your sewing basket, or happy ornaments for your dresser, these little pin cushions will serve you well. They are easy as pie to make, and require only two or three balls of cotton. Use the single crochet stitch, and then stuff them fat with cotton batting. They make grand gifts, too.

Directions may be obtained by sending a stamped, self-addressed envelope, enclosing this clipping, to THE CROCHET BUREAU, 522 Fifth Avenue, New York City. Specify Pin Cushions No. 9022-9023.

## Kate H. Daugherty

(Continued From Page 1)

be proud. All around us today are unusual opportunities for self help. The only way a family or a nation can have more is to produce more. New wealth is created only by applying thought and work to materials which are at hand. The old saying 'God helps those who help themselves' is still a mighty good text.

"The University Extension Service through its county agents stands ever ready to help the farm people of this state with the solution of their problems," she concluded.

## HOME PRIVACY NO MORE, SAYS NOTED AUTHORITY

ARE women neglecting the established responsibility of their homes in the excitement of experimenting with their new opportunities and potential power?

"The home that our grandmothers and mothers dominated has shrunk," says Lena Madeline Phillips, editor of the club women's department of Pictorial Review, in the January issue of the magazine, "and the outside world has so penetrated its walls that privacy and the home's self-sufficiency are no more. Through the turn of a dial a multitude of alien ideas, a new culture, often cheap, permeates the very air which those within the home shelters must breathe."

Viewed from the general aspect, Miss Phillips points out that the men of this country are expected to make adequate livings for their families, and the women of the home to make cultured and upright citizens out of its children.

"Women whose husbands provide the economic support which makes intensive club activity possible, must not take on so many extraneous duties that they neglect their home work," she says, "for there is the source of future well being both of the State and of every individual. And we women must be able to manage our own households before we can be sure of our ability to save the world."

About \$13,000,000 of the \$65,000,000 worth of furs handled in this country each year is produced on fur ranches. The balance is trapped in the wild state.

The following ad appeared in an Ontario, Can. newspaper: "Will the person who stole two dozen large hydrangea blooms from the flower beds at No. 62 Elizabeth street, return and get the few remaining blooms?"

## Temple Club Of Delaware To Dine Friday Evening

The Temple University Club of Delaware will hold its annual banquet on Friday evening at the Hotel Darling, Wilmington. Dr. Ralph Dornfeld Owen, professor of education, will be the principal speaker. Following a tour through Europe last summer, Dr. Owen will discuss "Present Day Germany."

Fred Swan, recently named successor to Glenn Warner as football coach at Temple, will be a guest at the dinner and will extend greetings. Joseph W. Zebley, Jr., of Newark, is a local committee member for the affair.

## "Substance" To Be Theme Of Scientist Church

"Substance" will be the subject of the lesson-sermon to be given at the First Church of Christ, Scientist, Park Place and Van Buren Street, Wilmington, on Sunday. Morning service is held at eleven o'clock while another meeting is held every Sunday evening at eight. An eight-o'clock Wednesday evening service is also held.

## Fire At Century Club Under Investigation

A fire at the Newark New Century Club building, believed to have been set by an incendiary early Sunday morning, is being investigated by the Newark police.

A tarpaulin, the property of the club, which was stored under the porch, had been placed at the cellar entrance and was on fire. Assistant Fire Chief Charles Tasker, who stamped out the blaze, reported that it had apparently been started deliberately. No damage resulted.

Local police have turned a sample of canvass over to the chemistry department of the University of Delaware for analysis in an effort to find whether or not it had been saturated with gasoline.

## Choir To Sing Part Of "Olivet Calvary" Sunday

The choir of the First Presbyterian Church of Newark, under the direction of Mrs. T. D. Mylrea, will sing a portion of the cantata "Olivet Calvary" by Maunders every Sunday morning at the eleven o'clock service until Easter.

## Roamin' with Rutledge

### Rockne's Ready Tongue

In addition to being noted for his outstanding success as a football coach, the late Knute Rockne gained no little renown for his keen wit, sharp tongue, and his ready and pointed remarks.

C. William Duncan, interviewer-columist with the Evening Public Ledger of Philadelphia, while speaking before the Middle States Scholastic Press Association conference at Beacom College, Wilmington, Saturday morning related a story concerning the great Rockne that is well worth the re-telling.

To our way of thinking, the tale is especially apropos at this particular time due to the growing movement that would de-emphasize athletics in the schools of the United States simply because the heads of some institutions have been guilty of a bit of mismanagement.

### "The Kokomo Flash"

According to Duncan's version of Rockne's story, it was during the heyday of the immortal George Gipp that a halfback, marked by the ambiguous title of the "Kokomo Flash," entered Notre Dame, and a veritable flash he was, too, as he ran hog wild against tune-up opposition in his initial varsity appearances.

The real test came with the Army game, however. Off to a great start, "Kokomo Flash," with Gipp doing a magnificent job of blocking, threatened to run the Cadets dizzy. But called upon, in turn, to do a bit of blocking for Gipp, "Flash" proved a dud. After several failures, Rockne benched his half star.

Dejected and nonplussed by the move, the lad inquired as he approached the bench, "Why are you taking me out, coach?" "Because you failed your fellow man," replied Rockne. "And in the game of football as in the game of life, you can't fail your fellow man... and win!"

Character in sports? What do you think?

### Gehrig Dumbest

A reformed sports writer and a former president of the Sporting Writers Association of Philadelphia, Duncan, since turning interviewer-columist some 12 years ago, has contacted something like 3,500 notables.

An unusually entertaining speaker, especially for a newsmen, his conclusions proved interesting to us. For instance, he ranks the late Madame Ernestine Schumann-Heink as the greatest personality he ever interviewed, with the late Wiley Post second.

Lou Gehrig is rated by Duncan as baseball's greatest first baseman, also the "dumbest" man in the business. "Because, at the end of a broadcast sponsored by Post Toasties, Gehrig stupidly told his unseen audience that his stamina and great

## Flashes

By

Bill Fletcher

**THE RESPONSIBILITY OF LEADERSHIP MUST HAVE** done something for Bruce Lindsay, this year for the Blue and Gold cage leader, who trailed Lew Carey in the scoring for the 1937-38 season, skyrocketed during this year's play to a figure far above the Ocean City star's mark.

**LAST YEAR, CAREY, WITH 1300** points, led the pack while Lindsay was lodged in the second spot with 117. This year, Lindsay, compiled a total of 63 field goals and 39 foul conversions for a grand figure of 175 points, all of which is some boost (exactly 581 points).

Practically all of the varsity men succeeded in moving their scoring totals up a few pegs. Earl McCord made the biggest jump, from 47 to 128, while Eddie Anderson advanced from 70 to 117. Phil Reed, a utility man last season, who was moved up to a regular guard berth by Coach Steve Grenda, scored 15 points last year and 50 this. Both he and Earl Sheats, who dropped from 51 to 48 points, were absent from the lineup in several games.

Last year the combined efforts of the Blue and Gold netted 229 points while Delaware's opponents enjoyed field nights to the extent of a grand total of 593 markers. This year, the Hens rolled up 606 points against their opponents' 599.

Six out of sixteen games were copped in 1937-38 while this 1938-39 schedule netted nine conquests against seven defeats—looks like a better year all the way 'round.

**WHEN BOB MONIHAN, KNOCKED** a big chunk off the pool record in the meet against Temple University Friday night, he had planned with Coach Ed Bardo to crack the school mark, but not in such a healthy fashion.

Ed, who has played a big part in Bob's development, told the Ocean City, N. J., speedster that he was being panned for the quarter-mile event at 5:25. In reality, it was 5:10 mark that the Hens' mentor was after and he almost got it.

Bob completed the distance in 5:11.2, much to his own surprise and satisfaction, and chalked up a new POOL record that removed a mark that has been on the books since

physique were due to his starting the day by eating... Wheaties! And that after accepting the sponsor's check for the broadcast.

### Newark's "Dizzy Dean"

There is no particular reason to be typing anything concerning William Daniel Holloway, Jr., (who permits the ladies to call him Dan... providing they're good lookers.) Known to his intimates as "Shiek" for a very definite physical reason, William Daniel was once an athlete of some little local repute, but he faded fast.

He's been bounding us for weeks with the plea: "Write something about me. Tell 'em about me, kid! No matter what I do, I'm good, see?" More than that, he's been bounding mutual friends, who have been calling in person and by telephone with a common request: "For God's sake write something about Holloway!" And since this space needs filling with something... anything... here's a bit about Newark's "Dizzy Dean."

You've never suffered an earache unless you've been unfortunate enough to have attended a basketball or football game in company with "Shiek." He never stops talking... about himself.

### Wants Whole Column

No matter what class of grid competition is being offered, the line play is terrible. "You should have seen me play tackle," says "Shiek," almost nudging you out of your seat. "Boy, was I the hottest thing this state ever saw. Write a column about me, kid. Make it a whole column, too. Don't cut it down to no couple paragraphs!"

Or if it happens to be a basketball game where you are unfortunate enough to land next to Holloway, you'll pray for deafness after listening to an unceasing flow of remarks such as this: "Didja ever see me work thuh pivot play? Boy, I made Shorty Chambers and Jack Daly. The way I handed that old ball back to 'em they couldn't miss. Baby, when Holloway passed that old ball it was tagged for two points.

"Course I'm too busy sellin' cars... Pontiac's thuh buy, kid, Pontiac's thuh buy... to be foolin' around with sports anymore. Why last week 44 people called me about cars, but I didn't do so good. I missed one sale. Boy, I'm makin' so much dough it's not even funny.

Lend me a match, kid... and some tobacco for my pipe. Tell 'em about me, kid. Write 'em a column about old Holloway!" And here it is... in part!

# Brilliant Finishes Aid Hen Team

## Pennsylvania And Maryland Hounds Field Trial Winner

### POOR STARTS OFFSET BY STRING OF WINS

**Captain Bruce Lindsay Leads Blue And Gold Cage Scorers With Total Of 175 Points; Earl McCord Takes Second Honors**

By Bill Fletcher

With both teams showing unusual strength in the run down the stretch, the University of Delaware basketball and swimming combinations closed their seasons last week in a blaze of glory.

After an indifferent start which saw them copping only four of the first five tilts, the Hen cagers reached top form and nabbed five of their last seven tilts to compile a total of nine wins against seven losses for the season.

In similar fashion, the Blue and Gold tankmen, submerged in their first four meets by close counts, succeeded in splashing their way to victory in the next four encounters before bowing to Manhattan and Brooklyn College.

Considering the fact that the Hens were handicapped throughout the season by sickness, ineligibilities, graduation and the leaving of school by outstanding performers, the season's mark of four victories and six defeats proved a great comeback for a team that wasn't given a chance in any of its encounters.

Captain Bruce Lindsay proved himself a real leader for the Delaware passers as he succeeded in dropping 63 field goals through the hoops and converting 39 foul tries for a total of 175 points to lead the field in scoring. Earl McCord, whose shooting improved immensely as the season progressed, ran a poor second with 42 field and 42 charity tosses for a 128-point total.

In the third spot is Eddie Anderson, who trailed McCord by one point until the final game against Baltimore University when he was held to a single foul. The smooth working forward grossed 117 points, including 50 throws from the field and 17 for the free-throw stripe.

Other scorers were: Phil Reed, 50; Earl Sheats, 48; Freddy Mitchell, 30; Bill Gerow, 29; Ed Homan, 10; Ferris Wharton, 9; Bob Witsil, 4; Jack Daly, 3; Ed (Bruzz) Wilson, 3; and Johnny Healy, 2.

Showing more scoring power than the 1937-38 combination, this year's basketball edition succeeded in out-pointing their opponents by netting 234 field and 138 foul goals throughout the season for a grand total of 606 points against their opposition's 599.

Rutgers University was responsible for the local's worst shelling, a 70-37 beating in the first tilt of the season, while the Delaware combine found Hahnemann Medical College the easiest pickling by sending its team away from Taylor Gymnasium smarting under the sting of a 51-32 defeat.

Playing no small part in the Blue and Gold's success was the foul-shooting ability of the Hens who managed to convert sixty-one per cent of their attempts. Of 226 chances, the Delaware players chalked up 138 points.

Swimming in the 220 and 440-yard events and also taking part in the 400-yard relay on numerous occasions, Bob Monihan, Bachy Ocean City, N. J., water churmer, succeeded in compiling a total of 102.75 points for the season to lead the Blue Hen scoring. The young sophomore accounted for sixteen wins and two seconds, and swam five winning relay teams.

Frank Holt, a dash man, ended the season in the second scoring spot with 54 points, represented by seven first, four seconds and participation on four winning relay teams.

Other leading point-getters were Captain Reed Stearns, a Newark boy, who compiled 46 points, and Harry Neese, of Wilmington, who chalked up 43.66 for the season, insert six point.

### EBERHARDT LEADING SHOOTERS

**Captain Waters Announces Rifle Marks**

Leading the field with a margin of three points with the season gradually drawing to a close, Seth Eberhardt, sophomore shooting ace, heads the list of University of Delaware rifle scorers according to the averages recently released by Captain T. L. Waters, coach. The averages computed include all matches up to and including February 25.

**TEXTER SECOND**  
Dave Texter, another sophomore sharp-shooter is in second place and Captain Phil Derickson has closed up to third position. These men are the leading candidates for the three marksmanship medals offered by the Delaware Chapter of the Reserve Officers Association for the advancement of rifle marksmanship at the University of Delaware.

The dark horse for place in this competition is Warren Snow, freshman gunman and Army boy, whose recent shooting is fast building up a high average. With four more contests still to be fired, he may yet reach one of the first three spots.

Porter, who two weeks back threw the race into a tie by stopping Morrison for the latter's second loss, suffered a pair of defeats to tumble from sixth to eighth position. Prior to bowing to Hogan, he was stopped by Charles (Spike) Daly in a handicap affair, 55-58, Monday.

Curt Riley, downing Jack Sanders Tuesday night, 75-49, in his only start, moved around Howard to sixth place. Ruess Heath managed to stay a length in front of Clyde Crowe by stopping the latter Saturday night, 65-57.

With Gula still within striking distance of the top and Tweed, the defending champion, and Morrison, erstwhile leader of the pack, deadlocked in first place, interest is running high as the players go into the final stretch.

### Mrs. Cherpak Chairman Of Golf Match Committee

The appointment of Mrs. J. M. Cherpak as chairman of the associate match committee of the Newark Country Club for 1939 was announced this week by J. D. Counahan, chairman of the general match committee.

Other members of the group are: Mesdames J. Franklin Anderson, Wayne C. Brewer, F. J. Crow, A. S. Eastman, A. Franklin Fader, William D. Holton, H. A. Larson, W. C. Northrop, and W. C. Sinclair.

Efforts are being made to establish a women's par at the Nottingham Road course, based on playing short tees. Handicaps are being checked to determine the basis of the contemplated move.

**OTTAWA TRIES 5-MAN**  
Ice Hockey Lineups  
Now it's hockey that is being streamlined.  
An experiment with five-player lineups instead of the conventional six was begun recently in the new Ottawa City Intermediate League. Seventeen goals were scored in two games and in one of them one goal was called upon to handle 54 shots.

Cecil Duncan, secretary of the District Hockey Association, asserted the system virtually eliminated body-checking and emphasized stick-handling and skating.

**SPECIALS FOR WOMEN**  
Sports for women will be a feature of the Golden Gate International Exposition athletic program on Treasure Island. Among events listed are: archery, lawn bowling, fly casting, badminton, tennis, canoeing, field hockey, swimming, diving, golf trap rifle and skeet shooting, yachting and polo.

**LIKES MUSIC**  
Tommy Henrich has a great ear for classical music, and when the Yankees are at home he never passes up a chance to attend concerts at Carnegie Hall.

### Morrison And Tweed Still Tied As Tourney Nears Finish Line

**Idle Leaders Go Into Stretch Of Tight Cue Chase**

By "Cue Keeley"

With Curtis (Huck) Morrison unscheduled and Dick Tweed's postponement, no change was recorded in the class B pocket billiard tournament at Jimmy Martin's State parlor last week.

Steve Gula, third-place occupant, was also out of action as was Marty Howard, Grover T. (Slim) Surraff, Bayard Oscar Perry, and Williamson. George Keeley, retaining a slim hold on fourth place after being trimmed by Ernie Smith, 53-43, Friday night, was the only leader to play.

Jake (Tiger) Hogan moved in and out of fourth place by stopping Frank Porter, 65-31, Thursday, only to take it on the chin against Clyde Crowe, 65-45, Saturday in a matinee affair.

**PORTER ON DESCENT**  
Porter, who two weeks back threw the race into a tie by stopping Morrison for the latter's second loss, suffered a pair of defeats to tumble from sixth to eighth position. Prior to bowing to Hogan, he was stopped by Charles (Spike) Daly in a handicap affair, 55-58, Monday.

Curt Riley, downing Jack Sanders Tuesday night, 75-49, in his only start, moved around Howard to sixth place. Ruess Heath managed to stay a length in front of Clyde Crowe by stopping the latter Saturday night, 65-57.

With Gula still within striking distance of the top and Tweed, the defending champion, and Morrison, erstwhile leader of the pack, deadlocked in first place, interest is running high as the players go into the final stretch.

**HAVE FOUR MATCHES**  
Tweed and Morrison have four matches apiece, while Gula still has five opponents to face.

Of the two leaders, Tweed has the roughest road to travel. He should dispose of Perry and Williamson without difficulty, but Gula, the third opponent, looms as a dangerous threat to the hopes of

### Female Stars To Play

Two challengers for the crown of Ruth McGinnis, Pennsylvania school teacher who rules the women of the world at pocket billiards, will meet in a 100-point match at Jimmy Martin's State parlor Tuesday night at 8 o'clock.

Jimmy Carrs' protegee, Dolores Carr, Wilmington lass who has issued a challenge to Miss McGinnis for a title match at \$1,000 side money, will engage Helen Koblanska, Chester, Pa. miss who claims the women's championship of the Keystone State.

Miss Carr, discovered by Carrs less than a year ago, has come along fast under the expert guidance of the world's champion who is enthusiastic over her prospects of stopping Miss McGinnis in a title match.

The affair at Martin's will be open to the public without admission charge. Special arrangements are being made for female spectators.

The defending titlist, Tweed's final match is with Morrison.

The latter, meanwhile, has to beat off Perry, Keeley, and Riley, with the last named occupying the role of a "dark horse." It is likely that the affair will not be settled until the present pace settles at 11 together in the final match of the race.

Should Gula win four matches and then beat Tweed while the latter is winning over Morrison, Perry, and Williamson, and should Morrison dispose of three opponents only to lose to Tweed, a triple deadlock will exist at the conclusion of the regular schedule.

Standing				
Player	Won	Lost	Points	Rebounds
Morrison	9	2	818	818
Tweed	7	2	818	818
Gula	7	3	700	700

### CHAMPNEY PACK WINS TWO DERBY RUNNINGS

**All Age Event To Free State Entries; Rain Is Handicap**

By "Hr'r Rabbit"

Out-of-state dogs showed heels in the four events scheduled for the Saturday-Sunday field trials at the Eastern Shore Club's course on the S. H. Point estate, Milford Crum.

In the 13-inch derby class on Saturday, Octoraro Nipper, owned by Dr. L. M. Champney, pulled down first honors, while the same owner's Octoraro Sport captured the derby division the same day.

Elk Creek Script, owned by Augustine, Baltimore, Md., ran 15-inch all age affair on Sunday after Smith's Beauty III, Mervin Bounds, Salisbury, won the 13-inch all age trial.

Weather conditions were ideal during the greater part of the two days, but game was at all times. Rain started Saturday morning and continued until the middle of the Sunday.

Summaries Of Events  
Summaries of the two days' runnings were: 13-inch all age derby, first, Smith's Beauty, second, Concord T. II, third, Marlowe and Hutchins of third, Fisher's Fly, owned by Fisher of Wilmington; fourth, Slaughter's Daisy, owned by Slaughter of Wilmington.

Derby Class Results  
Thirteen-inch derby class, Octoraro Nell, owned by Dr. Champney, Quarryville, Pa., won; second, Saddle Creek, owned by Beach Brook Breeze, Pottsville, Pa.; third, Saddle Creek, owned by C. M. Townsend, Glen Mills, Pa.; fourth, Gordo Jo, owned by Jones, Alden, Pa.; fifth, fourth reserve, Oak Wood Dancer, owned by Raymond V. Buckenham, Pottsville, Pa.; sixth, Octoraro Sport, owned by Dr. Champney, Quarryville, Pa.; seventh, Fritzly Skippy, owned by B. Scott Fritz, Marietta, Pa.; eighth, Fisher's Chase, owned by Fisher of Wilmington; fourth reserve, Patsy, owned by Gus Neumann, Pottsville, Pa.; fifth reserve, Bantam, owned by C. M. Glenn Mills.

Federation day trials will over the same course on Saturday and Sunday, March 18 and 19, will be the last trials until

Workman Moves

# CONTEST WINNERS RELEASED

## Prizes Awarded To Sixty-Four Local Entries

Sixty-four young people from this vicinity have been announced as winners in the contest sponsored nationally by the makers of Bill and Ruth toys, and conducted locally through Jackson's hardware store and the columns of the Newark Post.

According to George F. Jackson, the number of local children to win awards in this year's national contest for their letters about the toys far surpasses the mark set in former years and sets an all-time record for the number of local participants.

### Winners Announced

Winners were as follows: Charles Sullivan, Margaret Saucermen, James M. Lynch, Lynette Steinouer, Joseph Sacconey, James Ford, Douglas Murphy, David B. Murray, Eleanor Murray, Mike Gillespie, Robert L. Bull, Brandon Davis, Elizabeth Dickerson, Elizabeth Anderson, Barbara Murray, Virginia Murray, Nancy Murray, Dicky Cobb, Edna Fraser, Floyd Dear, Edith Mae Davis, Roger Lee Williams, John W. Myek, John J. Williams, Claire Herbener, John M. Hyde, Lella Herbener, Thomas Philpling, Alice Murphy, and Alfred Lindell, all of Newark; Mary Etta Dever, Bobby Smockley, Edwin Bollinger, Kathleen Witt, Robert Bertram, Richardson Park; Willet R. Smith, Harry Cullen, Phyllis E. McCombs, Amor M. McCombs, Mary Burroughs, Paul Lamont Gray, Audrey J. McCombs, Dorothy M. Barnett, Zelma I. Gray, Norma E. Steele, Mary McCully, Rosemary McCully, Leslie Paris, and Clarence McCully, of Elkton, Md.; Roger O'Neill, John Peret, Jr., Jeann Wyatt, Richard Vigneulle, Wilmington; Ada Reed, Iron Hill, Md.; Edith L. Scott, Elk Mills, Md.; Virginia A. Riker, Marshallton; John E. Meyers, Elmhurst; Phyllis A. Whitlock, Belmore; Bernice Jackson, Mary Neal, Herbert Neal and Bradford Neal, Christians.

## GOOD HOUSEKEEPING MAGAZINE LAUNCHES CLUBS

FEELING that women's organizations are a vital force in American progress, Good Housekeeping Magazine has launched a new club department which will service existing women's clubs and help organize clubs where there are none now established.

The new department is prepared to set up entire meetings for clubs

Theresa H. Wells

who desire them, and will furnish a direct line between American club women and the facilities and information of Good Housekeeping Magazine and the famous Good Housekeeping Institute. The service will be rendered without cost to clubs or individuals.

In commencing upon the new club service, Mrs. Wells said "Thirty-three years ago Good Housekeeping Magazine was founded as a service to American women. Year after year since that time Good Housekeeping Magazine has, at the cost of greater and greater investments, created additional services as needs for these services became apparent."

"Now it seems the time has come to launch another project so that Good Housekeeping can further broaden its services to the American home-maker."

"We are now placing the vast resources of Good Housekeeping Institute, Good Housekeeping Bureau, and the other departments of the magazine at the fingertips of the millions of club women who want and deserve this cooperation."

Although the new department was organized only a few weeks ago, the clubs of several states are already utilizing the service. Among the first groups to become affiliated with this new activity were those in such cities as Highland Park, Illinois; Adams, Massachusetts; El Paso, Texas; Eau Claire, Wisconsin; Ki-wood, Missouri; and Spencer, West Virginia.

Offices for the Good Housekeeping Club Service have been opened in the Chancery Building in New York City.

When his wife desired a new pair of stockings, Jim Maxie, an Indian farmer, ran seven miles from his home to the town of Carlyle, Can., and back to make the purchase.

Napoleon's heartbeat was only 40 to the minute.

## America Has Everything for the Vacationist

### SPOTS AND SPORTS OF INFINITE VARIETY

Surf Casting in High Boots, New Jersey.

Treasure Island, San Francisco's World's Fair.

HERE long the lush of spring will be upon us and winter's children will begin their annual study of road maps and vacation booklets, eager to be off and away at the first crack of summer.

Sea or shore, mountain or plain, America has everything for the vacationist: the best hotels, the finest highways, the cleanest beaches, the longest hiking trails, the most elaborate system of parks and playgrounds. Only America could supply an endless variety of pleasure lands; only America would organize two World's Fairs for the same season.

Larry Nixon, author of last year's hit travel book, "Vacation Voyaging," unfolds in the April Cosmopolitan a preview of summer spots and sports. Across the country from coast to coast he takes his travel-minded readers, high-lighting each state that has some stellar attraction to offer. Every section is inviting. Nixon finds that, in comparing one section with another, all the standard vacation activities can be found, no matter where you turn, where you decide to head, or what your favorite sport might be.

America's a land of superlatives, certainly in vacation possibilities—and from every standpoint the country gives more for the vacation dollar.

## Annex Act

(Continued From Page 1)

calendars as the result of the last-minute rush that marked the deadline last Friday is a measure that will give the Town Council the privilege of drawing a new charter.

The act, introduced by Rep. Rhodes, is known as House Bill No. 333, but it has been presented by title only, pending the drawing of the complete measure.

What action Council will take on the bill at the March meeting, postponed until next Tuesday night due to the illness of Mayor Frank Collins, has not been indicated.

## South African Villages Disappear In Sand

Wind-blown sand along the coast near Bredaaspoort, South Africa, is swallowing fishing villages. At Ryspunt an entire hamlet has been buried by the shifting sand and another village, Arneston, is threatened.

The devastation has been wrought in spite of the efforts of the Government to combat the dunes.

In 1936 a twenty-five-year plan was launched to reclaim the sand areas in this region, and large tracts have been planted with tough marram grass. During recent geological times there have been at least three changes in the direction and intensity of the wind along this coast. Now the dunes pile up rapidly. The trouble, however, is attributed primarily to human negligence, with deforestation as the most destructive factor.

Foreign visitors to the New York World's Fair must obtain a non-immigration visa, good for six months. This period can be extended upon official approval. Federal authorities and immigration officials will make a close check-up to be sure all the 500,000 foreign visitors expected at the fair return to their native lands at expiration of their visas.

## Woman's Curse Costly To Irish Farmer

Because of a woman's curse, Richard Smyth, of Dublin, Ireland, has lost \$50,000 in nineteen years, and has changed from a prosperous farmer to a hired hand, he says. Although he died seven years ago, Smyth declares the curse still follows him and everything he undertakes turns to failure.

Smyth and the woman lived on neighboring farms. "One day I seemed to have annoyed her," says Smyth. "She cursed me, prayed that I would have nothing but bad luck as long as I lived." That night two of his cattle died; next day two more succumbed. Soon all were dead. Veterinarians could find no cause. Smyth lost his farm, rented others, but crops failed and live stock died.

One of the free-standing sculptured folk-lore groups on the facade of the Medicine and Public Health Building at the New York World's Fair portrays "Johnny Applesseed," famous Mid-Western itinerant preacher and evangelist whose name was Jonathan Chapman. He is shown distributing apples as was his habit.

Three applicants for police jobs at Newark, N. J., who had been rejected because of flat feet, protested that the flat-foot test was the "dokey." In support of their argument they brought before the board Eulace Peacock, star sprinter and twice winner of the national pentathlon, whose feet are flat as a pancake.

George IV always wore the miniature of Mrs. Fitzherbert and it was buried with him.

## HINTS FOR BUYING TEXTILES

### Sheets Offered In Variety Of Weaves-Finishes

Thrifty housewives who wait for mid-winter "white sales" to stock up on sheets, pillowcases, and other household textiles, may wish to check over the points to have in mind when choosing. Miss Louise R. Whitcomb, home management specialist of the University of Delaware Extension Service, says that a good sheet is firm in weave, practically free from sizing, is torn rather than cut from the bolt, and is hemmed with strong thread in short even stitches, about 12 to 14 to the inch.

In general, sheets with low thread count are coarse and sleazy. The more yarns to the inch in each direction, the firmer the weave. Satisfactory everyday muslin sheets have a finished thread count ranging from 70 to 80 in the warp and from about 61 to 70 in the filling.

Good durable sheets are made in many different weights. Medium weight sheets run 4 to 4½ ounces per square yard. The most satisfactory length is from 99 to 108 inches. Widths run from 63 inches for a single bed, 72 inches for a twin or three-quarter bed, to 81 or 90 inches for a double bed. Bargain sheets are often smaller.

Sheets marked "firsts" should be practically free from weaving imperfections, such as uneven yarns, or thick or thin places. Seconds may contain some weaving defects and imperfect yarns, but if they do not weaken the sheet in any way, they may be worth buying and should be cheaper than firsts. "Pure finish" means that only the warp yarns have been sized to prevent breaking in the loom. Heavy sizing often covers up a loose, sleazy weave.

Tests made by the Bureau of Home Economics of the U. S. Department of Agriculture in which a set of sheets was laundered after every night of use in a hotel indicated that all were serviceable until laundered 197 times and some lasted through 232 launderings.

### Chutney Biscuits

Clever "appetite teasers" to serve with tomato juice or cocktails before holiday dinners are chutney biscuits. Stick tiny rounds of biscuit dough three times with a fork. After baking, and while still hot, break the biscuits part and put a teaspoonful of chutney between the layers. Serve at once.

The relaxing and pain-eliminating effects of anesthesia are to be demonstrated in the Medicine and Public Health Building of the New York World's Fair through use of a full-size mechanized model of a human being lying upon an operating table, surrounded by animated figures of surgeons, nurses and others.
