COPYRIGHT MAY, 1897.

Available with over five thousand newspapers and trade journals in the United States. Publishers of the Harkness Magazine. We give good and sufficient security when the nature of the business requires. First consultation in person, or by United States Mail, free. Business, personal and law secrets of all consultants are inviolably kept.

TO THE AMERICAN PEOPLE, GREETING.

I. Biography, history, industries and business which benefit the people are originally written and published as local, editorial, regular reading matter in the **Every Evening**, **Daily Republican**, **Morning News**, **Evening Journal**, **Harkness Magazine** and great national trade journals circulating throughout the United States and in Foreign Countries.

II. Correspondence, so far as is desirable, in each of over five thousand newspapers and journals in the United States.

III. Illustrated industrial and business publications of American cities.

IV. Consultations and literary work in **Law**, **Equity Jurisprudence**, **Comparative Constitutional and International Law** and **Diplomacy**.

V. Information for a right and lawful purpose for any worthy person and from any locality where there are, or may be sent, reporters and press canvassers.

TO WILMINGTONIANS, GREETING.

Our policy is, first, to open the way for our great industrial concerns to give stronger and greater support to our local newspapers and to lead these into a more enlarged, specific and executive business connection and co-operation, with the World's great trade journals in multiplying the thirty million dollars worth of annual products which Wilmington produces in good years. Second, To lead more factories to locate here, on which work we have contracts that invite investigation and favor of our patriotic citizens. Third, to increase the income of Wilmington's newsy scribes and home literati by more work and larger prices. Fourth, to sell home products through the influence and co-operation of the representatives in every business mart of nationally circulated trade journals. One of these we represent includes over forty American cities among the numerous localities operated and is rapidly increasing. It circulates also in Europe, Australia, South America, Canada, etc. We bespeak through this one trade journal alone the incoming of several factories to this city, each having over \$100,000 output annually. They can have two acres of land each, exemption from taxation for ten years, be close to supplies and market and sell land enough within ten years to pay for their building.

We invite successful subscription and advertising canvassers to both salary and percentages. We solicit everybody who can, by way of a quid pro quo in the regular order of business to assist us in increasing the repute and sale of Wilmington products and the number of her factories to the extent of employing thousands more of men.
