FIRST

VOLUME XXIX

PICTURE  
FILES  
SALE  
POST

Unusual Offer  
Being Made To  
Readers; Price  
Reduced

With a special connection with the Corporation of America, the new Newark Post is offering its readers one of the most attractive offers ever presented to a public. The new Post, a leather-bound and sewed, leather-bound volume, is being offered to the readers of the Post for only \$3.50. The volume, bound in Morocco leather, was originally priced at \$8.75. The Bible, termed the Book of the Ages, is a treasure house of knowledge and wisdom. As you turn the pages of the Bible, you are gripped by the moving scenes of the past. You see the people dressed, and you see the streets through which they trod, the fields through which they plowed. All the famous Bible scenes become living men and women in their actual settings of time and place.

Everything Authentic  
Many pictures are not only accurate in every detail, but these pictures represent the work of nearly one hundred of the most prominent artists of the world. In preparation of this work, these artists were given the Bible and the story of its life and its teachings. The pictures are his- torical and geographically accurate. In addition, the pictures are artistically conceived and faithfully executed, the appeal to the minds of the people. Thus their message is instantly by everyone, regardless of age or learning. Each picture in the Bible is called a sermon in itself. It is that the pictures have the interest of thousands of Bibles, as well as interested who never were interested before.

Bible Widely Read  
The Bible is the picture in the market, the Bible is in its typography, paper, general mechanical execution and by any other addition of the Bible. The Bible is pronounced, with marginal notes, maps, and numerous other helps, the Bible is helpfully acknowledged as being really effective for both Sun- school teachers and young people. The Bible is heartily commended by standing churchmen as Rev. J. H. Hallman, pastor of the Presbyterian Church of New- castle, and the New Castle Moderator of the New Castle Conference, Rev. Leonard White, of the Newark M. E. Church; Rev. H. Polling, pastor of the Collegiate Church, New Castle, and his radio, Rev. Ralph W. Sockman, of the Madison Avenue M. E. Church, New York, and many others.

The Post may obtain copies of the Bible for the coupon that appears in the business office, 14-16 N. Lane, or by calling at the Post at the Merchandise and Food Show at the New- ark Armory, Thursday, Friday and Saturday.

Congress Head  
Over Thursday Night  
The U. S. Department of Agriculture and chairman of the National Poultry Congress committee, Dr. H. H. Henshaw, of the University of Delaware Agricultural Experiment Station, will be in Newark, Delaware, Thursday evening at 7:30, when he will preside at a meeting in the Board of Agriculture building, Dover. The meeting will be held in the Board of Agriculture building, Dover. The meeting will be held in the Board of Agriculture building, Dover. The meeting will be held in the Board of Agriculture building, Dover.

## ASSOCIATION HEAD

Postmaster C. E. Rittenhouse

Postmaster Rittenhouse, president of the Delaware Chapter of National Postmasters, is chairman of the committee on arrangements making plans for the annual meeting and banquet which will be held at the Hotel Richardson, Dover, on Saturday, March 19.

## LOANS NOW BEING MADE

Applications Being Made For Emergency Funds

Applications for emergency crop and feed loans for 1938 are now being received at the county agent's office by George M. Worrlow, county agricultural agent, acting for the Emergency Crop and Feed Loan Section of the Farm Credit Administration.

Loans will be made, as in the past, only to farmers who cannot obtain credit from any other source. The money loaned will be limited to the farmer's immediate and actual cash needs for growing his 1938 crops or for the purpose of feed for livestock, and the amount which may be loaned to any one farmer in 1938 may not exceed \$400.

First Lien As Trust  
Farmers who can obtain the funds necessary from an individual, production credit association, bank, or other concern, are not eligible for crop and feed loans from the Farm Credit Administration. The loans will not be made to standard rehabilitation clients whose current needs are provided for by the Farm Security Administration, formerly known as the Resettlement Administration.

As in the past, farmers who obtain emergency crop and feed loans will give as security a first lien on the crop financed, or a first lien on the livestock to be fed if the money borrowed is to be used to produce or purchase feed for livestock.

Where loans are made to tenants, the landlords, or others having an interest in the crops financed or the livestock to be fed, are required to waive their claims in favor of a lien to the governor of the Farm Credit Administration until the loan is repaid.

Checks in payment of approved loans will be mailed from the Regional Emergency Crop and Feed Loan Office at Baltimore, Md.

## STELZER OUTLINES PROGRAM

State Wheat Growers Are Offered Plan

Delaware wheat growers are offered a well-rounded program under the new AAA Farm Bill which will include acreage allotments, agricultural conservation payments, wheat loans, crop insurance, and marketing quotas if supplies are so large that quotas are necessary, according to R. O. Stelzer, extension economist at the University of Delaware and State AAA executive officer.

Stelzer outlined a brief summary of how these provisions in the new farm bill will operate for Delaware wheat growers as follows:

**ACREAGE ALLOTMENTS:** The act provides for acreage allotments each year to wheat farmers which will produce enough wheat for domestic consumption and exports and provide a substantial surplus for reserve. The act will aim to provide a supply each year of around 900 million bushels. Wheat allotments will be made for 1938, but only for the purpose of computing AAA payments to farmers. The act provides that compliance for 1938 shall be checked against the general soil-depleting goal for each farm. The first acreage allotments which will apply fully will be those for 1939.

**PAYMENTS:** Payments to farmers will be made under the provisions of the 1938 Agricultural Conservation Program. The act also provides for parity payments to farmers, but only if specific additional funds are made available for this purpose. For Delaware the payments are tentatively set at twelve cents per bushel on normal yields for each acre in the goal.

**LOANS:** The act provides that wheat loans are to be made to farmers in any year in which the farm price of wheat on June 15 is less than 82 per cent of the parity price of wheat, or in any year in which the July wheat estimate is more than the normal domestic consumption and exports of about 700 million bushels. These loans are to be made by the Commodity Credit Corporation and are to be made at between 52 and 75 per cent of the parity price at the beginning of the marketing year. Loans may be made in 1938 if prices or supplies are within the limits set by the act.

**CROP INSURANCE:** The act establishes a Federal Crop Insurance Corporation. This corporation will offer crop insurance to wheat farmers, beginning with the 1939 crop. Farmers who store wheat under marketing quotas may use some of this wheat to pay premiums on crop insurance. Under the crop insurance plan farmers can pay premiums in wheat and receive loss payments in wheat.

**MARKETING QUOTAS AND REFERENDUM:** Marketing quotas are provided in years when the total supplies of wheat exceed approximately 950 million bushels. Marketing quotas when approved by a two-thirds majority of farmers in a referendum, will apply to all commercial wheat growers. Farmers who produce less than 100 bushels of wheat are exempt from the quotas. When there are marketing quotas, each farmer will be asked to hold part of his crop off the market in order to keep prices from being demoralized. Quotas will not be effective in 1938 unless funds are provided by Congress for parity payments on wheat in 1938.

## Early Budding Of Fruit Trees Seen By Delaware Pathologists

Unusual winter weather, which has caused fruit tree leaf buds to start to swell already in lower Delaware, will cause growers to begin their spray programs earlier than usual this year, according to Dr. L. A. Stearns and T. F. Mann, research heads of the Department of Entomology and Plant Pathology at the University of Delaware Agricultural Experiment Station.

Already spray programs prepared by these two Experiment Station departments have been sent to the majority of Delaware fruit growers. These programs outline practices which should be followed for apples, peaches and grapes.

**Buds Already Swollen**  
Recent observations by Dr. Mann in Kent and Sussex counties showed that buds in the peach orchards were already swollen to the point where dormant spraying for the control of leaf curl might do considerable damage to fruit buds. Besides possible spray damage, the early bud opening increases the possibility of damage from spring frosts, he points out.

For apples, the dormant spray

## TAKES NEW POST

Walter Dent Smith

## SAFETY HEAD IN NEW ROLE

Walter Dent Smith "Loaned" To New York

Walter Dent Smith, president and manager of the Delaware Safety Council, has been named executive vice president of the Greater New York Safety Council effective March 15, it was announced Monday.

Formal approval was given to a recommendation of the executive committee that his services be made available to the New York Safety Council on a six months' loan basis by the Board of Directors at a special session Monday.

**Retains Local Post**  
Mr. Smith will continue to direct the affairs of the Delaware Safety Council, spending part of each week in Wilmington. The New York Organization provides the accident prevention service in the five boroughs of the city and environs, which contain a population estimated at 9,000,000.

It is expected that a campaign to raise \$300,000 will be immediately launched to supplement the New York Council's present income.

**Veteran In Service**  
Mr. Smith became manager of the Delaware Safety Council in 1924, and was elected president in 1928.

Born in Wilmington August 26, 1899, the son of Mrs. and the late Dr. Willard E. Smith, the safety director was graduated from Wilmington High School in 1917 and the University of Delaware in 1922. He also attended the University of Pittsburgh.

Mr. Smith became Delaware's youngest secretary of state in 1935 and served until the end of January, 1937. He is a former president of the Wilmington City Council and was a member of Governor Buck's Emergency Relief Commission.

He was head of the Block-Aid movement in Wilmington, prior to the state relief program.

While a student at the University of Pittsburgh, Mr. Smith served as studio director at KDKA, the pioneer broadcasting station of the world. He was editor of The Review, student publication, while an undergraduate at the University of Delaware.

## Surprise Party Given For Mrs. Lyl W. Clark

A surprise party was given Saturday night at the home of Miss Edna Cambell, North College Avenue, in honor of Mrs. Lyl W. Clark who will leave this week to join her husband at Harvard University where he has accepted a position on the football coaching staff.

Those present were: Miss Hannah Marcey, Mrs. Fannie McCann, Mrs. Martha Davis, Mrs. Sally Carter, Mrs. Ruth Jaquette, Mrs. Phoebe Beers, Mrs. Louise Jaquette, Miss Ann Gallaher, Mrs. Mildred Peterson, Miss Emma Willis, Miss Rachel Shockley, Mrs. Delina Ginter, Mrs. Mary Campbell, Mrs. Robert Gallaher, and Miss Sara Marshman.

## Red Men's Degree Team Holds Final Practice

Minnehaha Tribe's degree team held its final practice Tuesday night before going to Philadelphia on Saturday to confer the all-American degree on a class of 1,000 candidates.

Captain W. V. Heavell is looking forward to a successful year both in institutions and raising up of teams. All members of the team are requested to be at the hall on Saturday at 3:30 p.m.

## TO REVIVE MAYOR'S COMMITTEE

Aid Sought For Local Families; Council Meets

With at least ten and possibly more local families in need of food, clothing, and other necessities of life, plans were discussed Monday night at the March meeting of the Council of Newark to revive Mayor Collins' welfare committee.

Councilman Charles C. Hubert, a member of the group which functioned in 1933, 1934, and 1935, is taking immediate steps to enlist the support of Dr. John R. Downes, Board of Health officer who served as chairman; A. E. Tomhave, representing the American Legion and Lions Club; D. A. McClintock, superintendent of the Newark plant of the National Vulcanized Fibre Company; Mrs. H. L. Bonham, Newark Country Club, and Mrs. E. L. Richards, the Newark New Century Club.

A drive for funds to aid needy families will probably be launched immediately.

**Clean Up Days Set**  
Members of Council attending the session Monday night, in addition to Mayor Collins and Mr. Hubert, were: Councilman George E. Ramsey, C. Emerson Johnson, and George F. Ferguson, Secretary-Treasurer. C. Vernon Steele and Engineer George C. Price were also present. Mayor Collins designated March 16 and 17 as clean up days for the collection of trash and rubbish.

Relief labor used for cleaning the sewage and disposal plant, and for cleaning storm and sanitary sewers cost the town about \$1,100 in February. Price reported.

Water pumped during the month, 11,779,000 gallons total, or 339,222 gallons a day, was 7.9 per cent less than in February, 1937. Price stated.

Fines and license returns made to the town treasury amounted to \$21 from Magistrate Daniel Thompson in February. Magistrate Benjamin Eubanks made no report.

**New Projects Approved**  
Chief of Police William H. Cunningham reported five arrests, with 60 transients being given overnight lodging during the month.

Three projects to cost an estimated total of \$2,678.11 were approved. Competitive bids will be asked on curb and gutter work on East Park Place between South Chapel Street and Manual Street, and a portion of the east side of Elkton Road.

The General Electric Company was awarded an order for three 15-KVA units and other necessary material incident to the installation of capacitors on the power and light line running to the town pumping station.

Due to building operations and contemplated industrial additions on the line, it was deemed advisable to increase the voltage.

## U. of D. Building Listed In Old College Survey

Old College, famous University of Delaware building, is included among America's oldest college structures in a survey of old college and university buildings over 100 years old and still in active use.

The survey, completed by Hagen-Harris Company, Inc., New York builders, lists more than 40 college and university buildings. "Old College at the University of Delaware is an impressive example of earlier American architecture which has retained its usefulness through more than 100 years," the report says.

## Voshell Reports County Balance of \$468,777

County Treasurer and Receiver of Taxes Claude B. Voshell reported on Tuesday to the Levy Court a balance of \$468,777.72 to the credit of New Castle County.

The following balances also were reported:

Appoquinimink, \$1,825.75; Blackbird, \$1,382.80; Brandywine, \$14,838.40; Christians, third, \$2,134.18; Christians, fourth, \$14,002.43; Mill Creek, \$6,461.90; New Castle, \$7,905.29; Pender, \$2,701.42; Red Lion, \$4,018.47; St. Georges, \$1,099.31, and White Clay Creek, \$3,496.43.

## Exhibitors At Merchandising Show

## CEREMONY PLANNED

Founding of State To Be Marked In Mitchell Hall

On Tuesday, March 29, the three-hundredth anniversary of the founding of the state of Delaware will be celebrated at a citizens' meeting to be held in Mitchell Hall, University of Delaware, at 8:15 p.m.

Three hundred years ago, on March 29, 1638, the Indian Chiefs decided over to the Swedes a track of land extending from Bombay Hook to the Schuylkill River. The Swedes landed on the spot now known as the "Rocks" in the city of Wilmington, named the territory New Sweden, and set up a pole which bore the Swedish coat of arms. This was the first permanent settlement in what is now the State of Delaware.

## Numerous Addresses

Citizens have been requested to attend the affair and take part in exercises in commemoration of the establishment and development of the state. Representative citizens will address the assembly on the development of the state in government, education, religion, agriculture and industry, and an individual representative will deliver an address on the "Origin and Development of the Commonwealth."

These exercises will serve as a prelude to the international celebration which will be held in Wilmington on June 27, on which occasion the Swedish monument will be presented to the State of Delaware.

## George Laskaris Active In Greek Frat Affairs

George J. Laskaris, son of Mr. and Mrs. James Laskaris, E. Main Street, attended the third national banquet of the Order of Ahepa at Washington, D. C., Wednesday night.

An active member in the Wilmington Chapter No. 95, Order of Ahepa, Laskaris is also a member of the committee making plans for the Greek-American Community dance which will be held on March 24 in the ballroom of the Hotel duPont, Wilmington.

## County Firemen To Meet At Christiana Thursday

John W. Moore, president of the New Castle County Volunteer Firemen's Association, announced that the March meeting will be held at the Christiana fire house, Thursday evening, when the annual election of officers for the year will be held.

Lieut.-Gov. Edward W. Cooch and Superintendent of State Police John R. Fader will be guest speakers at the evening.

## Woodland Meetings and Demonstration To Be Staged At Danby Farm

A farm woodland meeting and demonstration will be held at the George Danby farm, Bear, at 1:30 P. M., on Tuesday, March 22. Under the sponsorship of the local project of the Soil Conservation Service, of which Richard S. Snyder is manager, the affair will be staged in cooperation with the county agent of the Delaware Extension Service, L. Russell Albright, forester for the Newark project of the Soil Conservation Service and George W. Worrlow, county agent, are making plans for the demonstration.

## CHEMICAL ADDRESS

Chaplin Tyler Tells Students Of Activities

Chemical industry is among the industries enjoying relatively great activity and rapid growth, asserted Chaplin Tyler, assistant director of E. I. du Pont de Nemours & Company publicity department, in a talk before the University of Delaware student chapter, American Institute of Chemical Engineers, yesterday afternoon in the auditorium of the Chemical Laboratory. The subject of Mr. Tyler's talk was "Industry and You." Marvin Rambo, president of the student chapter was chairman of the meeting.

"Closer relationship between industry and the colleges is much to be desired," said the speaker, "and such organizations as the student chapters of the American Institute of Chemical Engineers and of other engineering societies are accomplishing substantial results in this direction."

## Necessary To Choose

"Through these student chapter meetings and through personal conferences with men in industry, it is possible for the college graduate to appraise and survey industry. Industry has found it necessary to choose its employees carefully, therefore it would appear logical that the individual exercise equal care in choosing an employer. Among the factors affecting the success of a company are the rate of growth, future markets for the company's products, a strong financial position, the character of men who comprise the management, the attitude of the company toward its employees and toward the public, and the policy regarding scientific research. All of these factors," said the speaker, "can be appraised by reading a company's financial reports, from the newspapers, and from contacts with employees and customers."

## Growth Is Shown

Even in hard times it is possible for an industry to make substantial progress, said the speaker, who pointed out that since 1929 the number of employees in the duPont Company has increased about 50 per cent, and the number of stockholders nearly 200 per cent. "Such growth," said Mr. Tyler, "was in large part made possible by the development of new products, improvements in old products, and decreased costs, all of which have as a basis scientific research. Moreover, this growth has benefited the employee, as well as the consumer and the stockholder, since the average weekly wage paid in 1937 was substantially higher than in 1929, whereas living costs were lower than in 1929."

Industries other than chemical industry which seem to be in a particularly favored position for the future are electrical manufacture, industrial machinery manufacture, aircraft manufacture, and building materials manufacture.

There will be demonstrations in timber marking, timber cruising and other woods activities. A cross-cut saw contest will also be staged, open to everyone. Contestants are requested to bring their own saws.

## EXHIBIT AT ARMORY TO START THURSDAY

19 Business Men To Display Goods At Show, Doors Open At One

Throngs of Newark and out-of-town buyers are expected to attend the merchandising show in the Newark Armory which will be held on Thursday, Friday and Saturday under the joint sponsorship of the Newark Chamber of Commerce and Battery "E" of the Delaware National Guard.

Nineteen business concerns have floor space for the affair, the first of its kind staged in this locality in several years, and have completed arrangements for their exhibits.

## Open At One O'clock

The doors will be open daily at one o'clock and will close each evening at ten o'clock. Free admission and prizes are expected to draw many shoppers to the scene during the three-day schedule which will include various forms of entertainment and attractions.

Under the direction of Lester Bucher, instructor in music at the school, the 40-piece Newark High School band will play each evening from 8:30 to 9:15 o'clock.

Merchants will display their products and merchandise, and orders will be accepted for prompt delivery.

Committees who working under G. F. Jackson and Captain H. W. Cook, representing Battery E are as follows: building and booth—Lt. Ramsey, chairman, Sgt. John Sullivan, Sgt. Sult, Pvt. Hugh J. Harry, members of the national guard and W. C. Waples, James Hollingsworth, George Danby and Clarence Donovan, of the Chamber of Commerce; space solicitors—Lt. Harry Powell and Sgt. Derrickson, of the national guard and J. K. Johnston, George Jackson, Charles Grubb, J. P. Cann, James Hollingsworth, W. C. Waples, Ira Shellen-der, R. T. Jones, Lester C. Scott, W. S. Hamilton and W. Harry Dawson, of the Chamber of Commerce.

Prizes—Sgt. Herman L. Holmquist, and Sgt. Walter White, of the national guard, and J. K. Johnston, George M. Haney, E. L. Richards, Charles Tasker, Meyer Pinlick, Samuel Handloff, Dr. C. M. Cox, Walter Powell, Dr. Walter Hultihen, C. E. Douglass, C. E. Rittenhouse, Herbert Mason and W. Harry Dawson, of the chamber of commerce; loud speakers—Sgt. Walter White and Lt. Harold Perkins, of the national guard, and C. H. Rutledge, George Danby, W. C. Waples and J. K. Johnston, of the chamber of commerce.

## Publicity

Publicity—W. S. Hamilton, chairman, C. H. Rutledge, and Richard T. Ware, of the chamber of commerce, Sgt. Arthur Harrigan, Corp. Carl F. Connell, Corp. Harvey P. Lee, Sgt. Wesley A. Wrennall and Pvt. Donald R. Simmons, of the national guard, and J. H. Rumer, News-Journal correspondent; music—Corp. Leonard Tweed and Leon F. Trullitt, of the national guard; finance committee—Capt. H. W. Cook, of the national guard, and Herman Handloff, J. E. Dougherty and R. J. Boyd, of the chamber of commerce.

Merchandise—G. M. Haney, chairman, Clarence Donovan, Isadore Levy, W. S. Hamilton, Dr. G. W. Rhodes, W. C. Waples, James Hollingsworth, Herman Handloff, M. Pinlick, Walter Powell, C. E. Rittenhouse, Ira Shellen-der, R. T. Jones, Charles Tasker, Harvey Boyce, Millard Ritchie, Richard Ware and W. Harry Dawson, all of the chamber of commerce and C. C. Long, Delaware Power and Light Company.

## Graduate of Newark High Maintains Good Average

Miss Ruth J. Sinclair, daughter of Mr. and Mrs. George R. Sinclair, 227 Orchard Road, is one of the 15 students who maintained a straight "A" average for the first semester this year in the College of Liberal Arts, Syracuse University.

## Firemen Occupy Time By Burning Own Firehouse

To give the firemen something to do, Chief McCann of Brookhaven, Pa., set them to burning the firehouse on the station lot. When they went to lunch the firehouse caught fire and burned to the ground.

## Improved SUNDAY SCHOOL LESSON

By REV. HAROLD L. LUNDQUIST,  
Dean of the Holy Bible Institute  
of Chicago.

Lesson for March 13

FEEDING THE HUNGRY

LESSON TEXT—Mark 6:34-44.  
GOLDEN TEXT—Give ye them to eat.  
Mark 6:37.

PRIMARY TOPIC—When Jesus Fed a Hungry Crowd.

JUNIOR TOPIC—A Boy's Part in a Great Miracle.

INTERMEDIATE AND SENIOR TOPIC—Sharing What We Have.

YOUNG PEOPLE TOPIC—Providing for the Needs of All.

"My God shall supply all your need according to his riches in glory by Christ Jesus" (Phil. 4:19). Such is the assurance of God's Word.

Countless Christians have proved it to be true that they may trust God to supply every need—temporal or spiritual.

The lesson for today first presents the disciples as they had come back from their preaching expedition and presented to the Lord Jesus a report of their stewardship in ministering the bread of life to the spiritually needy. He invites them to a place apart from the busy walks of daily life for a time of communion and rest. The multitude would not be denied, however, and follow our Lord to the desert place.

Having taught them, Jesus has opportunity to instruct His disciples in the important ministry of supplying for those in need the bread for their bodies.

1. The Ministry of the Bread of Life.

Reports of accomplishments in the field of Christian work, although sometimes an earnest accounting of stewardship of service and money) are all too often prepared for the purpose of impressing men and seeking their financial assistance. The real report is the one which disciples make to their Lord. It concerns two vital points.

1. "What they had done" (v. 30).

One of the temptations which face the preacher and teacher of Christian truth is to avoid unpleasant and difficult problems by simply proclaiming the truth and doing nothing about the outworking of that truth in daily living. It sounds very pious to say that we will present the Word and let it do its own work, but the Christian worker who evades his duty to deal at close grips with sin and disorder in the church and community has not discharged his responsibility to Christ.

2. "What they had taught" (v. 30).

The second temptation of the preacher is to follow the specious reasoning of the modernist who says that it does not matter what a man believes, it is what he does that counts. The foundation of Christian character is Christian doctrine, therefore the disciple of Christ must know what to teach.

II. The Ministry of Daily Bread.

Jesus found no rest, for the multitudes followed Him to the other side of the lake. Ere long the evening approaches, and the disciples begin to be concerned about how this great multitude is to be fed. They follow the inclinations of the flesh and decide to solve the problem by asking Jesus to

1. "Send them away" (v. 36).

The church has followed their example in dealing with the social problems of the people through the years. The result is that they have been fed, comforted, and helped by a church which was too busy building up a vast organization or a beautiful order of worship, the common people have responded to the appeal of political leaders who have provided a substitute for what the church should have given them.

Serious thoughts are these. It will not do for us to "send them away" from the church empty hearted and empty handed. Our Lord says:

2. "Give ye them to eat" (v. 37).

Reckoning hastily on what a small boy had brought for his lunch (trust an alert boy to be ready!), the disciples soon demonstrate that it is impossible to feed this great throng. Logic is such a devastating thing when it operates apart from faith in God. They were absolutely right in their reasoning and in their calculations, but they had forgotten the one factor that really counted, Jesus was there, and Jesus is God, and God is omnipotent.

2. "He commanded . . . and they did all eat" (v. 39, 42).

When God speaks all the limitations of the finite disappear, and the needs of men are fully met—with "twelve baskets full of fragments" left over!

Note the orderly manner in which our Lord met this situation. Five thousand men, with women and children to swell the throng, were seated on the grass. Jesus took the leaves and fishes and blessed them. You who forget to return thanks at the table, notice that quiet and meaningful act. Then He broke the loaves and divided the fishes. No doubt they were multiplied as the disciples passed them out to the people. God is able to do that very thing even in our day. Not perhaps in just the same manner, but surely those who serve Him have marveled at what He has done. "Little is much when God is in it." Let us who labor in difficult places with limited resources take heart—and trust God.

Sheriff and Staff In Voluntary Pay Slash

James V. Mangano, Brooklyn sheriff, and 32 members of his staff volunteered to save the city \$13,000 a year by taking a 7 per cent cut in their salaries. Believe it or not.

## AAA URGED TO BUY SURPLUS

### Apple Growers Confer With Agency Heads

Representatives of apple growing states, meeting with officials of the Agricultural Adjustment Administration and the Federal Surplus Commodities Corporation, last week recommended continuation of purchases of surplus apples for relief distribution as a means of assisting growers in improving selling conditions for their large crop now in storage.

The recommendation was made at the close of a two-day conference of chairmen of state apple purchase committees representing growers.

The group recommended that purchases of surplus apples, which started last fall, be continued on the same basis until March 1 to help growers in marketing of certain varieties which lack keeping qualities.

After March 1, it was recommended, purchases of apples should be confined to certain hard varieties in order to obtain for growers the most beneficial effect on the apple market in general.

Recommended Purchases

The state committee chairmen recommended that purchases of apples in each state be made on the basis of not less than 75 per cent U. S. no. 1 grade, permitting the remaining 25 per cent to consist of utility or combination grade.

Since the surplus apple purchase program started last fall, the Federal Surplus Commodities Corporation has bought over 3,000,000 bushels. In addition, over 1,500,000 bushels of apples have been diverted from normal channels of trade for drying purposes. Apples bought by the corporation are being distributed to the states for relief use.

The apple conference included the

following grower representatives: W. T. Derickson, Dover; Frank App. Bridgton, N. J.; J. Andrew Cohill, Hancock; G. Hale Harrison, and John L. Harrison, Berlin Md.

## Milk Production Remains On High Level Locally

Milk production in the Wilmington market is being maintained at a high level and, with sales down somewhat, the market has more milk than it needs, according to the Inter-State Milk Producers Review.

Several producers have been discontinued because of inspection.

The market manager visited the members who were so affected and got them to meet inspection requirements, with the result that most of them were reinstated and new buyers obtained for the others.

Loss of market was prevented in several instances by the work of the manager in helping members get veterinary certificates before the deadline.

Considerable work is being done to educate the members on the need of meeting inspection requirements so that they will not be turned off from their regular market.

The manager has issued a special warning with the approach of the garlic season. He urges that the cows be kept off pastures containing garlic even if it might mean somewhat smaller production because garlicky milk is almost certain to be rejected with loss to the shipper.

The chief reason why he wanted a divorce from his wife W. H. Wilson of Terre Haute, Ind., told the judge was that she "kiddnaped" his false teeth and refused to return them until he had paid her \$2.

Bergamot oil equals carbolic acid in its destructive action upon tubercle bacilli, and a new disinfectant is being manufactured as a result of this discovery.

Dr. Hyman Bear of Richmond, Va., has a collection of 237 model bears, ranging in size from a tiny animal-cracker bear to a life-sized one of papier-mache.

## PERSONALITIES

S. FAYETTE CARTLEDGE

## Notable National Vulcanized Fibre Co. Employs 1200 People In Plants

Stabilization and countless other uses of vast benefits, the area have constantly been afforded by the comprehensive schedule of endeavor in force at the National Vulcanized Fibre Company, 1000 Delaware Avenue and Beech Street, Wilmington, which has been outstanding in its field since the establishment of the business in 1872.

This organization employs 1200 people in all under ideal, modern, healthful and efficient working conditions. It observes the highest standards in every phase of the commendable operations, with rigid inspection processes preserving the quality of the output.

Vulcanized fibre and laminated

bakelite are the principal manufactured here. Basic raw materials are made at the company's plants in Newark, Yorklyn and Kennett Square.

Official direction is in thoroughly experienced and competent hands and has played a major part in furthering the excellent reputation of the company enjoys for noteworthy production and services.

In their respective capacities, the officials are: J. W. Marshall, president; T. C. Taylor, treasurer; and William M. Shoemaker, secretary. Each of these executives has a personal interest in the well being and prosperity of the large family of employees.

Reference is given, when possible, to local people in the employing standards. There are 160 employees, who serve loyally under the best of conditions with the highest wage scales being in force.

This firm strives to do all of its purchasing in the section whenever the proper materials are available here. Principal activity centers upon the manufacturing of superior box board. Output is shipped to firms who make it into boxes used for cartons to box soaps, candies, shirts and a host of other necessities. Shipments are achieved from Maine to Virginia and as far west as Chicago, Illinois.

forward progress of the nurseries must be extended to Austin Griffin, who has been active in the line since 1915.

Reference is given, when possible, to local people in the employing standards. There are 160 employees, who serve loyally under the best of conditions with the highest wage scales being in force.

## A. Petrillo, Inc., Selling Stone, Cement In Delaware, Pennsylvania, New Jersey

A. Petrillo, Inc., 5 Edge Moor Road, Holly Oak, includes the States of Delaware, Pennsylvania and New Jersey within the territorial sales coverage. This noted firm was established at its present location 25 years ago after serving for a five-year period at Ninth and DuPont Streets, Wilmington.

Exceptional qualities are the feature attractions of the well-rounded line of products offered. Building stone, crushed stone, ready mix concrete and specification bituminous concrete for road and

driveway surfacing are sold. Prompt attention is given to each and every order and efficiency marks the entire operations of this leading concern. There are nine concrete trucks and 10 hauling trucks in constant use.

All activities under the experienced direction of A. Petrillo, who is ceaseless in his efforts to render outstanding satisfaction. Employees staff ranges from 50 to 100 variable workers, depending upon job requirements.

Recognized as leading quality paint manufacturers since 1847, James Bradford, Inc., 212 Market Street, Wilmington, has greatly advanced in service and satisfaction in the modern age.

This enterprise was founded by James Bradford, but was purchased 45 years ago by Walter M. Francis and William Burdell, Jr., who are the present owners. These men are the sons of the former directing heads, Henry J. Burdell and Charles H. Burdell, who were stockholders in the firm. Many

modern features have been added under their direction to bring the business to its present heights.

This enterprise specializes in the manufacturing of the well-known Bradford's paints. Its factory is located in South Wilmington. Only the finest ingredients are used in the making of these popular paints. Shipments are effected to New York, Pennsylvania, New Jersey, Maryland, Virginia and throughout Delaware.

Offices and retail stores are situated at the Market Street address. A full line of the fine paints, painters' supplies and equipment is offered at leading patronage. In all there are 40 employees.

Garage facilities and services offered by W. B. Donovan and Son, 1022 West Seventh Street, Wilmington, are recognized as superior in coverage.

W. B. Donovan has been active in the garage business in Wilmington for 22 years, formerly serving as a mechanic and body painter. Streets for 12 years. His son, Charles R. Donovan, is a partner in the enterprise. Present modern equipment has been added. No past 10 years. Courtesy and satisfaction are constant standards here.

All types of repair jobs and service work are expertly rendered. Looking body and fender fixing, repainting jobs are handled, with the larger needs in this line being suited to qualified concerns. Complete overhaul of the enterprise is being carried out. Increasing business volume is a tribute to the competence of the staff.

In the adequate stock of products carried, Delco-Light, S. H. and National and Exide batteries are featured.

Delaware Trucking Company featuring Daily New York-To-Washington Hauls

Daily service between New York City and Washington D. C. is a feature of the Delaware Trucking Company, 1218 French Street, Wilmington.

Established in 1924 and basically founded to allow for modern advancement and development, the company is under the experienced direction of T. F. Travers, who has included all commendable policies to assure the full measure of satisfaction.

Mr. Travers supervises a staff of 14 capable employees in furthering the detailed service. Specialist in freight hauling by truckload lots, the firm safe guards

the undertaking by full insurance protection. There are 11 trucks in operation under thoroughly experienced drivers. Every safety law and regulation governing the field are strictly observed. Rapid service is effected in the reliable and precise manner. Each job is conscientiously handled and given the detailed coverage which it deserves.

In the hauling of freight in truckload lots this firm has no superior. Exceedingly popular, the Delaware Turf Club was founded one year ago and has rapidly progressed to the foreground. Control of the track is admirably maintained. No one can make a "killing" and the Delaware racing line is regarded as a model in all States of the Union. Headquarters of these Delaware bodies are located in Wilmington.

## GENERAL INSURANCE CROPS

Factors Named  
for 1938

Henry A. Wallace announced the appointment of factors of the Federal Crop Insurance Corporation, which was approved by the Federal Crop Insurance Act. The act, which is the Agricultural Adjustment Act of 1933, approved by the Senate February 16, makes insurance available for wheat with the 1938 crop.

Members of the Board of Directors are M. L. Wilson, Under Secretary of Agriculture; Jesse W. Brown, Assistant Administrator of the Agricultural Adjustment Administration; R. M. Evans, Assistant Secretary of Agriculture.

The direct management of the corporation for which the insurance is provided is provided by a board of directors, which will be appointed by the President at an early meeting. The board also will be responsible for the insurance of crops.

Insurance of crops is provided for insuring against hazards such as drought, winterkill, lightning, insect and plant diseases. It is payable to the extent that the loss is not more than 50 or 75 per cent of the average yield. Losses to be paid from the fund are to be paid from the fund.

Insurance of crops is provided for insuring against hazards such as drought, winterkill, lightning, insect and plant diseases. It is payable to the extent that the loss is not more than 50 or 75 per cent of the average yield. Losses to be paid from the fund are to be paid from the fund.

## MASTER BREWER

Karl Heigenmooser

One of the ranking brewers of the world, Karl Heigenmooser, will display his talents for the new Delaware Brewing Company, which begins operations in the remodeled plant at Fifth and DuPont Sts., Wilmington, in the near future.

A native of Germany, where from his early teens he was schooled in the art of making beer, Mr. Heigenmooser served his apprenticeship in Munich's famous Hofbrauhaus and various other breweries in Germany, France, Austria and Switzerland.

His first connection in North America was with the Tropical Brewery in Havana, from where he went to the Seattle Brewing and Malting Company, Seattle, Wash.

**John L. Phillips  
Given Farewell  
Dinner By Friends**

**Fifty Guests Attend  
Affair; Work Praised  
By County Agent**

A farewell dinner for John L. Phillips, who resigned as agricultural teacher at the Newark High School, was given Thursday evening in the school by the vocational students. Mr. Phillips left early this week to take up his duties as director of vocational agricultural department at the Bedford, Pa., High School.

Frank A. Elliott, of Greenwood, son of Mrs. A. O. Baker, of Greenwood and the late F. A. Elliott, who graduated last year from the University of Delaware, will succeed him.

**Work Praised By Agent**  
County Agent George M. Worrell praised the work of Mr. Phillips and stressed the teacher's part in the organization of the Newark Chapter of Future Farmers of America, now one of the most successful in the state. He also commented on the guest of honor's state-wide activities in agricultural work. Mr. Phillips was recently elected president of the Delaware State Beekeepers Association.

Carlton E. Douglass, superintendent of Newark schools, expressed the faculty's regret at Mr. Phillips' departure.

Among the speakers at the affair which was presided over by Fremont Loeffel, were: Jarrell Long, agricultural teacher at Alfred I. duPont School; Paul Hodgson, agricultural teacher at Henry C. Conrad School; George Danby, Lewis Staats, Chief Game Warden Clarence S. Foster, Roger Attix, and William K. Gillespie.

Arthur Gifford, a member of the Future Farmers of America, opened the program which was attended by approximately 50 guests.

The survey, made in 1935-36 was supervised by Dr. Louise Stanley of the Bureau of Home Economics.

In the Southeast, nonmoney income for white families ranged from a high average of \$712 per family per year among North Carolina operators down to an average of \$293 for Mississippi sharecroppers; and for Negro families, from a high average of \$465 per family per year for North Carolina operators down to \$133 for Mississippi sharecroppers.

In the rest of the country, nonmoney income ranged from an average of \$646 per family per year in Pennsylvania down to \$318 in the range livestock counties of Colorado, Montana, and South Dakota.

An unidentified hobo, whose body was found on a railroad trestle at Paw Paw, Mich., had \$1,281 in his pockets.

## Highly Efficient And Safe Drivers Can Be Made By Proper Training

Believe it or not, highly efficient and safe drivers can be made out of human material that looks pretty unpromising. According to the Delaware Safety Council, this has been proved beyond doubt by scientific tests of over 100,000 men and women drivers, many suffering from such hopeless-sounding handicaps as low reactions, poor time and speed estimation, glare-blindness, and faulty eye-hand coordination.

Yet such men and women often turn out to be the best drivers, once they have overcome their deficiencies. Most shortcomings in driving can be corrected by proper training. A few can be offset only by compensating for them—that is, making allowances to counterbalance their handicaps.

**Know Short Comings**  
Now the practical things any motorist wants to know about his driving are what his shortcomings are, and what he should do about them. The first step is to watch for the weak points in your driving. Do you find yourself making a good many steps suddenly? Nearly climbing up the rear of the car ahead? Your trouble may be what science calls slow braking reaction.

That means you take longer than the average motorist to recognize a situation demanding a stop, or to lift your foot from the accelerator and slam on the brakes.

The next step is to overcome the handicap. In this case you can do it by not following cars so closely in traffic, also by starting to put on the brakes farther back than usual before coming to an intersection. Avoid wearing rubbers or heavy boots when driving if you want your foot movements to be quickest.

**Poor Timing Trouble**  
Here is another weak point with many. In passing on the road, do you often just miss hitting the car you passed, or the car coming against you? You thought there was ample room to pass and suddenly were faced with the possibility of ramming the car in front of you or colliding with the oncoming one. Your trouble may be that of poor time and speed estimation. In other words, you misjudge the distance available for passing and probably also the speed of the car you want to overtake and of the vehicle facing you. Such judgement can be improved. One way is to play at passing. Make believe that you are going to pass a car, with another coming from the opposite direction. Then estimate at which tree, house or telegraph pole the two cars would meet if you had passed. It's fun and a little practice will do wonders.

A second suggestion is to pass as little as possible on two-lane roads. A third is to wait until there is no car coming before you pass. And a fourth is to allow consciously two times the distance you consider necessary for passing until you can trust your judgement.

**Eye-Hand Coordination**  
Do you wander all over the road, crowding other cars off narrow pavements? Or often catch yourself straddling the center line? Then it is pretty sure your eye-hand coordination is at fault. You are weaving too much because you are driving too fast for your ability to look at the road and at the same time steer the car. This difficulty will immediately lessen if you drive more slowly. You can become good at steering by practice. See how long you can hold the car one foot inside the white line without wobbling. Then practice stopping six inches from the curb without hitting it. And finally see if you can take curves without throwing rear-seat passengers off their balance.

**Does Headlight Glare Make Your Eyes Smart And Interfere Considerably With Your Driving?** Of course, most people are annoyed by glare, but some suffer a great deal more than others, and may be said to be glare-blind. If you are one of these, there are certain things you can do. One is to paste a strip of celluloid or other material at eye-level on the windshield to reduce glare. Another is to get a passing beam lamp and train it on the right edge of the road. Taking of Vitamin foods, such as cod liver oil, orange, tomato, pineapple juice, fresh eggs, fruits and greens also helps to combat the effect of glare on the eyes. Avoid driving at night.

**Lightly Tinted Glasses**  
What about sunlight glare? We all have experienced the glare from a concrete highway, from water, most of all from the sky, when the sun shines brightly. The best thing, perhaps is to get colored glasses (though not for night driving). Opinions differ, but lightly tinted amber or greenish-yellow glasses seem to give relief without reducing visibility too much. Glare from any source is responsible for much eye-fatigue in driving. Drafts, extreme heat, long stretches at the wheel also contribute to eye strain. One way to reduce it is to avoid having the wind come directly at your eyes when riding. But don't cover up the sides so that the eyes get no ventilation.

What if you have "tunnel vision"—can see very little out of the corners of your eyes when looking straight ahead? You can't change your eyes, but one method of overcoming this is to train yourself to turn your face (not merely to glance) from side to side at intersections. Another is to get rear-view and side-view mirrors for your car. Any suspicion of visual trouble should send you to an eye specialist. Many motorists who need glasses are driving without them.

The moral is that the shortcomings that get us into trouble on the road can be corrected or compensated for—and only by so doing.

## Uncle Jim Says

"Farmers are already concerned about what may happen to hog prices if we get another bumper corn crop in 1938 like the 1937 crop."

## Clean Range Insurance For Growth of Chickens

Clean range for young chickens is good insurance, according to H. L. Shrader of the United States Department of Agriculture. Clean range, however, does not mean mere neatness and removal of scraps and refuse. Time is the main "cleaning" factor—and it takes 2 years to make a range clean enough to be safe.

Shrader defines a clean range as "one that has been free of chickens for at least 2 years and one on which poultry manure has not been spread." In 2 years, poultry parasites will die for lack of a chance to multiply. A clean range, free of parasites, gives young chickens a chance to grow without a handicap.

An ideal range, Mr. Shrader adds, also supplies plenty of shade for the hot summer months and an abundant supply of succulent green feed and fresh water that is not contaminated by parasites.

Northern Chile is the driest area on earth of which there are authentic records.

can we aspire to become super-drivers.

## Presbyterian Church Prepares For Assembly

150th General Meeting Set For Philadelphia, May 24 To June 1

The 150th General Assembly of the Presbyterian Church in the United States of America will meet in Philadelphia May 24 to June 1, the same historic city in which the assembly was organized a century and a half ago.

That first assembly convened less than a year after the United States Constitutional Convention completed its work in Independence Hall only four blocks away. The same ideals of political and religious liberty which found expression in the national Constitution were incorporated in the constitution of the new church.

Patriots destined to gain immortality were members of both bodies. Most notable among them was the Rev. John Witherspoon, foremost of the pioneers of the Presbyterian Church in this country. Witherspoon, who was the leading voice in that early assembly, already enjoyed distinction as the only clergyman whose name was signed to the Declaration of Independence.

Sessions of the 150th assembly will be held in Philadelphia's magnificent Municipal Convention Hall. They will form a brilliant contrast to the first sessions held in the original building of the Second Presbyterian Church during the early summer back in 1789.

Only 31 commissioners—21 clergymen and 10 laymen—attended that first meeting. The sessions in Convention Hall next May will find more than 900 commissioners deliberating upon the problems of the modern church. Clergymen and laymen will be divided equally, for the Presbyterian denomination was the pioneer in the admission of the laity into the government of the church.

Only 16 Presbyteries were represented at the first Assembly. Today there are 276 Presbyteries extending throughout the entire northern and western sections of the United States and including all its territories. In the century and a half that has elapsed the number of synods has grown from the original four to 42.

Thousands of visitors and guests will go to Philadelphia during the time the 150th assembly is in session, in addition to the commissioners and their families. They will follow the proceedings of the assembly and will take part in the elaborate programs and spectacles now in preparation.

One of these spectacles will be a pageant depicting the meeting of the first assembly. For this the mammoth stage of Convention Hall

will be used. Rehearsals are underway. Witherspoon and his contemporaries will be portrayed by present-day leaders in the Presbyterian Church.

An inter-denominational rally will be another outstanding feature of the program. Presbyterians will join with their Christian neighbors in Baptist, Methodist, Menonite, Reformed and other Protestant churches in a demonstration of religious unity unique in church history. Together they will commemorate the 200th anniversary of the "heart warming experience" which marked the conversion of John Wesley, founder of Methodism.

The Presbyterian Church in the United States of America is the largest branch of Presbyterianism in this country. It is generally referred to as the "Presbyterian Church in the North" as distinguished from the Southern Presbyterian Church, legally entitled "The Presbyterian Church in the United States."

It includes approximately 2,000,000 communicant members who worship in 9,000 churches and are ministered to by some 9,000 clergymen. Its annual budget totals \$38,000,000 necessary to carry on the work of its congregations, schools, hospitals and missionaries.

Philadelphia is one of the denomination's strongest centers. Within the city proper are 108 Presbyterian churches and a total of 300 Presbyterian churches within a radius of 50 miles.

The four Presbyteries which include Philadelphia and impinge upon it have a total of 114,000 members, representing a constituency of close to half a million men, women and children who look upon the Presbyterian faith as their own. These Presbyteries are cooperating as hosts to the 150th General Assembly.

The Rev. Dr. George Emerson Barnes, moderator of the Philadelphia Presbytery and pastor of the Overbrook Presbyterian Church, is general chairman of the committee on arrangements. Assisting him as vice-chairmen are the Rev. Dr. Edward Yates Hill, pastor of the First Presbyterian Church, and the Rev. Dr. Alexander MacColl, pastor of the Second Presbyterian Church.

Frank M. Hardt is treasurer of the committee and the Rev. Dr. Edward B. Shaw, secretary. Chairmen of the various sub-committees are: Hospitality, LeRoy M. Lewis; Finance, Frank M. Hardt; places of meeting, Rev. Winslow S. Drummond; Sunday pulpit supplies, Rev.

Wilson T. M. Beale; speakers for clubs and schools, Rev. Monroe G. Everett; Communion service, Delbert B. Gray, Jr.; train reception, Rev. E. Lansing Bennett; moderator's reception, Rev. William H. Kepler; pre-assembly and popular meetings, Rev. Burleigh Cruikshank; sight-seeing, Rev. Joseph C. Mackie; publicity, Rev. Earl L. Douglas; radio, Rev. Howard Moody Morgan; printing, Rev. Vincent D. Berry; ushers, William L. Mudge, Jr.; music, Rev. John Harvey Lee; foreign missionaries, Mrs. Robert R. Little; decorations, Mrs. Henry B. Maister; women's meetings, Mrs. Edward Yates Hill; men's fellowship dinner, Rev. Harry Ulrich; young people, Rev. Roland B. Lutz and the hall of fellowship, C. Arthur White.

### January Costly Month For Pennsylvanians

A total of 1,387 automobile operator's licenses were withdrawn by the Pennsylvania Department of Revenue during the month of January for causes other than speeding. Secretary of Revenue J. Griffith Boardman revealed last week.

Of the withdrawals, 409 were revocations for the following causes: intoxication, 260; larceny, 56; miscellaneous, 93.

In addition to the revocations there were 958 suspensions for the following causes: reckless driving, 220; failure to maintain proof of financial responsibility, 210; failure to appear for hearings, 157; miscellaneous, 371.

### Who Lost A Dog? Boys At KA House Wonder

A half-grown, female German police dog has attached itself as mascot to the Kappa Alpha fraternity house, 151 West Main Street. The affectionate animal, believed to be a wayward pet belonging to some youngster, wandered into the fraternity circle last week and promptly endeavored itself to the whole household.

The KA boys will be reluctant to relinquish claim on the animal, but if the owner can prove identification, the dog will be returned to its proper home.

Nearly 100 hats for women were found in the home of Joseph Herman, a bachelor of Tottenham, Eng., when he was arrested for theft.

### 106,253 Students In 57 Pennsylvania Colleges

Dr. Lester K. Ade, superintendent of Public Instruction in Pennsylvania, announced last week figures for 1937 showing an attendance of 106,253 students in the commonwealth's 57 accredited liberal arts colleges.

Of these, Dr. Ade said, 55,638, or 52 per cent, are attending on a part-time basis, appearing on the campus afternoons, evenings, and during summer sessions, or enrolling in extension courses. Only 13 of the 57 colleges have no part-time students. The number of part-time enrollees in the other institutions ranges from one at Dickinson College to 25,000 at Pennsylvania State College.

Of the 50,615 full-time day students in the accredited colleges and

universities in the commonwealth, the highest enrollment in any one institution is 7071 in the University of Pennsylvania.

### New Oleomargarine Rule Permits Use of Color

Use of colored oleomargarine for demonstration purposes will be permitted under a new regulation issued last week by the Pennsylvania Bureau of Foods and Chemistry.

On premises licensed for the sale of oleomargarine the demonstrator may, under the new ruling, add color to his product and distribute samples among his audience if he displays a placard and explains orally that the sale of colored oleomargarine is unlawful and that he has added color for demonstration purposes only.

### "Don't Be Silly," Replies LaGuardia To Reporter

Asked by a reporter whether he might be "drafted" as a candidate for President in 1940, Mayor Fiorello H. LaGuardia of New York replied: "Don't be silly! Nobody was ever drafted for any office any time, anywhere."

### Virginia Regulates Use Of Highway Billboards

Virginia has joined the growing list of states which seek to tax and otherwise regulate billboards which are a menace to highway safety or mar scenic beauty. Some day, perhaps, when we become more civilized, this most offensive form of alleged advertising may be prohibited altogether.

### Resident of U. S. 1830 But Has No

William Stanton, of Wis., is mad because vote has been questioned. He was born in 1830, should be 113 years old, and has no record at the age of 8.

Edward R. Davidson, of N. Y., has been hooded the past 35 years, a mechanical man.

Joe Harrington of Ky. Can. claims the worst chair-rocking champion. Recently he rocked 55 hours and 15 seconds.

# THE NEWEST IDEA FOR THE Oldest Book

Contains **583** Explanatory Illustrations

Sixteen of which are FULL-PAGE COLOR PLATES of the FAMOUS TISSOT BIBLICAL PAINTINGS and the balance ACCURATE ILLUSTRATIONS in Black and White—Half-tones and Zinc Etchings.

## NOT JUST A BIBLE WITH PICTURES But a PICTURE Bible

NEW INTEREST—NEW FASCINATION—NEW APPEAL

### Famous Tissot Biblical Paintings in the Picture Bible

Sixteen full-page color plates—583 fine half-tones and etchings—bring new meaning and new inspiration to the Word of the Book. Beautiful and attractive pictures throughout bring added interest for lovers of the Bible—promote its study and appreciation by those who do not know it so well.

It is an ideal Bible for the Minister, the Sunday School Teacher, the impressionistic young person in the Home.

### For the First Time—Complete Illustrations

Always the Book of Books, your Picture Bible faithfully, accurately and helpfully depicts the scenes and the times—vividly unfolds the moving drama of the pages. Here you will see how the people lived and dressed—how they toiled—where they traveled. All the famous Bible characters become living men and women in their actual settings of time and place.

### Artistic and Accurate in Every Detail

Nearly one hundred of the foremost artists of Europe and America contributed to the collection of 583 beautiful illustrations in your Picture Bible. Many of them labored for months in the Holy Land preparing them. No expense was spared. Renowned theologians and archeologists guided them in accurate portrayal. As a result they breathe the atmosphere of the scene, the time and the place.

### Pictures Appeal to Young and Old

Pictures appeal to the mind through the "window of the soul." They bring out vividly the message of the text—indeed they are sermons in themselves—messages of Hope, Gladness, Inspiration which may be grasped instantly by everyone regardless of age or education. Your Picture Bible has renewed the interest of thousands and aroused for the first time an interest in other thousands.

### Young People are Interested

Educators know that young people must be interested in order to absorb knowledge as they should. It is equally true that they must be interested in order to absorb religious instruction. That is the problem of every Minister, of every Sunday School Teacher—of many a Home. Your Picture Bible offers that interest. What better present could you find for a child?

### Makes a Superb Gift

Who would not be overjoyed to receive at Easter, Christmas, on a birthday—or indeed at any time—a copy of this Picture Bible, which is so different from any other edition ever issued? Who would not cherish the memory of a parent or loved one who had such a tender and sacred token of their love and thought?

### These People Find It Invaluable

Ministers find many occasions when the Picture Bible fills a need that may not otherwise be met. Students are greatly helped by the accuracy of its many illustrations. Sunday School Teachers have proved its value in countless classes. Children everywhere have had their interest awakened and sustained by the Picture Bible. Old folks find in it an unparalleled comfort.

### Endorsed by Leading Clergyman

We wish it were possible to show each reader of this page the hundreds of enthusiastic letters of endorsement we have received from leading clergymen of all denominations all over the country. Some few of them are named at the foot of this page. They are printed by permission. Their endorsement is an unusual evidence of the unusual character of the Picture Bible.

### The Picture Bible Described

The Picture Bible is beautifully bound in Seal Grain Leather. Full Divinity Circuit. Lettered in Gold. Marginal references on each page. Special helps. Large clear type. Gold Edges. Colored Biblical Maps. Page size 5 3/4 x 7 3/4 inches. All important facts fully and accurately illustrated with 583 half-tones and etchings—with sixteen full-page reproductions of famous Tissot Biblical Paintings. See the special offer in coupon below.

### Influences In Figures Show Water Rents

Miss Emma S. Maclary, president of the town council, March 9.—The town council of Newport have on March 9, at a meeting in the town office a copy of the audit recently made of the accounts for the year 1937. Figures show some delinquency on water rent, and a considerable effort is being made by the council to ameliorate this situation, and have all accounts paid.

A special meeting of the council was held Friday evening, March 9, when the council members were passed to arrange for the water and tax collection. The treasurer will also be elected. Mrs. Bertha Stuart has been named town collector, and Mrs. Maclary has been named town secretary to the board. A group of teachers from the school will attend a conference in Smyrna, Del., sponsored by the physical education department of the state, to discuss plans for presentation of the state program for the year 1938.

A card party was held at the Newport Branch of the W.C.T.U. on Wednesday evening, March 9. The card party was held at the home of Mrs. Lorraine Harvey, president of the local branch, and was attended by a large number of friends. The evening was very enjoyable, and the proceeds of the party will be used for the benefit of the local branch.

The Newport Branch of the W.C.T.U. will hold its annual conference on Wednesday evening, March 16, at the home of Mrs. Lorraine Harvey. The conference will be held at the home of Mrs. Lorraine Harvey, and will be attended by a large number of friends. The evening will be very enjoyable, and the proceeds of the party will be used for the benefit of the local branch.

## The Sewing Corner

The needle arts have come into wide popularity. This series of 12 articles offers ingenious tips and instructions on various items which women will find both economical and fashionable.

### X-Glove Threatened With Total Disability

**DIAGNOSIS:** Usefulness of right hand glove suddenly becomes impaired by forefinger poking through. Feared it may become entirely incapacitated because of frayed and worn condition around edges of rent. Strengthening will be necessary to make mending stitches hold.

**Prescription:** 1 spoon bolinas Sewing Silk to match Glove. 1 Needle No. 8.

**Method of Treatment:** Buttonhole around edges of ripped seam or tear to strengthen; then draw the edges together by sewing over and over through the buttonhole stitches. Work back again with a few stitches to make the end of the sewing strong. Be sure all thread ends are hidden on inside of glove.

## School News

DOROTHY DAUGHERTY, Editor

### Cage Tourney

The auditorium is filled these days with the basketball tournament is going on. The schedule is as follows:

March 2—Faculty—27, J. V's—13;  
March 3—Faculty—15, Varsity—13;  
March 4—Varsity vs All Stars;  
March 5—Varsity vs J. V's;  
March 6—Evening vs All Stars;  
March 9—J. V's vs All Stars.

The games follow the games already played. So far the faculty is leading, but time will tell who the victor will be.

Especially interested was the school in the demonstration of the morimba given us in a surprise assembly the other day by Mr. Charles Newton, a school-mate of Mr. Bucher, the head of our music department. This was something new and different to the student body and was thoroughly enjoyed. A coming assembly by this same person was promised us, and we look forward to it with eagerness.

It was of great satisfaction to us to learn that Miss Ruth Sinclair, a former student of Newark High, is making a marvelous record of a straight "A" average at Syracuse. She received a letter from the dean, Mr. K. C. Leebick, commending her on her high standing.

On Monday a very interesting and educational auto film was given. It is a new group of films, making its first appearance at our school.

### Senior Play

The committee members chosen for the senior play, "Clarence," are as follows: Properties, Ellen Foster, chairman, Drexel Harrington, Edward Morgan, John Grundy, Louis Staats, Robert Pilnick, Frances Williams, Doris Grant, William Beswick, Robert Egnor and Robert Cooper; candy, Grace Johnson, chairman, and the entire remaining class will assist. Melvin Brooks is the ushering committee chairman. Your reporter was up in the practicing room last activity period and I am sure the play will go off with a bang, as an entire success. The members of the cast are giving up their time that could easily be spent on some other entertainment, but they are sticking together, and are working on one of the best plays I think that has ever been presented here by the seniors.

The P.T.A. program for April will consist of a physical education and music presentation. Mr. Bucher and Miss Rittenhouse are working on the music, while Mr. O'Connell and Miss Johnson are preparing the physical education demonstration.

The tenth grade Home Economics girls gave a dinner in the cafeteria as part of their class work under the direction of Miss Deakney and Mrs. Hancock. The guests were Miss Beauchamp, Miss Kirk, Miss Markert, Mr. Bucher, Mrs. A. Geesman, and Mrs. Ernest Cornig.

Miss Kedney, our former art instructor is in Newark on a visit from Middletown, Connecticut. The following girls have been selected to take part in a play-day given at the Women's College on Saturday, March 19 at 9:00 A.M. Audrey Battersby, Helen Dean, Doris Grundy, Oleta Harrington, Helen Murray, Grace Johnson, Virginia Stickle, Grace Carson, Ann Tarr, Frances Williams, Ruth Wilson, Miriam Lewis, Blanche Neal, Inez Tyler, and Darlene Ludwig. The selection was based on ability to do good work, ability to follow instructions, good citizenship, and good posture and neat appearance. They will play basketball, volleyball, badminton, tumbling and acrobatics, and a folk dance. They will oppose New Castle, Conrad, and Claymont students.

### Local Girl In Rosemary Hall Glee Club Program

Miss Eugenia Wright, daughter of Senator and Mrs. Norris N. Wright, will participate with thirty other girls in the Rosemary Hall glee club broadcast over a national hook-up of the Mutual chain from the New York studio of station WOR on Saturday from 4:15 to 4:45 o'clock. The program follows: To Rosemary We Sing, Now Is the Month of Maying, Thy Mouth Fair Maid, O Lovely Night, Where'er You Walk, Devotion, Sir Eglemore, Sing Ye Children, Song of the Chimes, Elegie, and The Chapel Cape.

## SOCIETY OFFICERS INSTALLED

### Donald Burkey Is New President Of Church Group

By Sara A. Pennington  
Marmalade, March 9.—New officers of the Red Clay Creek Christian Endeavor Society were installed Sunday evening by the pastor, the Rev. John D. Blake, as follows: president, Donald Burkey; vice-president, James Brady; secretary, Miss Elizabeth Keidel; treasurer, Millard Gass; prayer-meeting chairman, Reese Zeigler; social, Miss Carolyn Mullin; lookout, Roy Burkey; missionary, Miss Betty Gass; sunshine, Miss Virginia Walker; publicity, Miss Keidel.

Dr. Guy Morrell, representative of the board of pensions of the Presbyterian Church, was the guest speaker Sunday morning at Red Clay Creek Church.

### Minstrel Show

The Corner Ketch minstrels will be given tomorrow evening in the Red Men's Hall at Union by members of Wa Wa Tribe. Jack Murphy is directing the show and will entertain with tap dances. Ralph Kee will be the intercomedian and Edward McGilligan, James McGilligan, Bert Owens, and Ralph Buckingham, the end men. There will be a cast of 15 black faces. The minstrel troupe expects to repeat its show March 13 in Hockessin.

Next Monday night Wa Wa Tribe and Leola Council will entertain at a joint meeting, Great Sachem John H. Geary of Wilmington, and his staff, and Deputy Great Pochontas, Miss Helen Brown, of Bear, and her staff.

"Ask Nancy," a one act play, will feature the entertainment to be presented at the St. Patrick social by the Young Women's Bible Class of the White Clay Creek Church taught by Miss Madeline E. Johnston, on March 17, at the church. There will be no admission but a silver offering will be taken. Mrs. Ralph Hawthorne and Robert Keen will be soloists. Mrs. A. B. Dennison and Miss Dorothy Cloud, readers, the Suddard family and Miss D. Thornton, the musicians.

### Three-Act Play

The three-act play, "Sis Perkins" being given by members of Red Lion M. E. Church, will be presented twice in this community. On March 12, the Men's Bible Class of Ebenezer M. E. Church will sponsor its production in the church basement. On March 29, the Young People's Society of White Clay Creek Church will have it presented.

Mrs. Egberta Porton of New York was discovered to have stolen 800 pairs of stockings over a period of two years and was declared insane.

## For Casual Wear

Frances Gifford, beautiful RKO Radio player, selects a sweater and skirt combination as her favorite attire for those casual days about the studio. With a navy flannel skirt as a becoming contrast, she wears this short-sleeved sweater of white brushed wool featuring a soft collar and lacing up to the high neck.

Presented in Harmony Grange hall. Mr. and Mrs. Albert Biddle, of Ridley Park, Pa., were Sunday guests of Mr. and Mrs. Harry Brackin.

Mr. and Mrs. Elmer Radtke and sons, of Philadelphia, visited the L. H. Pennington home on Sunday.

### Legion Auxiliary To Aid Tercentenary Heads

J. Allison O'Daniel Unit, No. 10, American Legion Auxiliary, held its regular monthly meeting Monday night in the Legion room, Academy Building, with Mrs. Harold Sheaffer, president, officiating.

In connection with the Swedish celebration to be held in June, the unit was asked to appoint a committee on rest rooms and information.

Mrs. F. Allyn Cooch, Jr., was named chairman, with Mrs. A. E. Tomhave and Mrs. John R. Fader as members of the committee.

The unit voted to join the City Federation of Women's Clubs and Allied Organizations. A birthday party will be held during the week of March 14, when members of the Legion will be entertained. Mrs. William Hamilton will have charge of arrangements.

## Newark Children's Choir Entertains At Peneader

The Newark Children's choir, under the direction of Mrs. Edna James, presented a program at the Peneader Presbyterian Church. The following took part: Elizabeth Ann Tweed, Ann Louise Neaves, Billy Clancy, Herman Gray, Arlene Widows, Arthur Gribble, Evelyn Miller, Dorothy Lloyd, Elda Mae Harrington, Tommy Silk, Creighton Slater, Margaret Ring, Irene Butts, Billy Gray.

of the U. S. Civil Service Board of Examiners, at the Newark post-office.

At his death Gus Gaine, colored, of Dunn, N. C., left to relatives a car he bought in 1917, drove until the first five gallons of gasoline gave out, and then parked permanently because he figured the upkeep and accident risk were too great.

Douglas James of London, convicted of fraud, admitted in court that he had married women in France, India, Egypt and the United States.

As he was digging the foundations for a house in Aberdeen, Scotland, a workman struck with his pick an earthenware jar containing 200 silver pennies of the reign of Henry III (1216-1272).

## GOOD LUCK, BUT COME BACK

Characteristic of everything New York City attempts to do is the essential and outstanding fact that only men and women of proven worth and ability are enlisted when a big undertaking is to be pushed over the top.

Thus, in the naming of our own Walter Dent Smith to the vice presidency of the Greater New York Safety Council, Delaware and its citizenry have been greatly honored.

Manager of the Delaware Safety Council since 1924, Mr. Smith has served in the dual capacity of president-manager since 1935. He is without question of doubt a man of proven worth and ability. Everyone who has ever had the pleasure of contacts with him can bear out the truth of the statement. His worth in Delaware was established long before it was recognized in other sectors.

Although less than 40 years of age, Mr. Smith has lived a crowded life of service to the people of his home city, Wilmington, and to the people of Delaware as a whole.

It was no accident that found him serving as president of the Wilmington City Council; as the youngest secretary of state ever to hold the office in Delaware; carrying out important relief roles during the trying days of 1930-1935. Mr. Smith was named to those exacting duties because of his worth and ability. He has continued to demonstrate those qualities as directing head of the Delaware Safety Council.

His is a big task in New York City, where 9,000,000 people in five boroughs and environs create a tremendous problem for safety scientists. But Walter Dent Smith is a big man. That he will make his presence felt in aiding to solve New York's problems there is not the slightest doubt. His ability and worth are proven.

We wish him the success his untiring efforts will merit. That his services are only "loaned" to New York City for a six months' period gives us cause for rejoicing. Our sincere hopes are that the attractions of the "big city" do not tempt him to forsake his conferees and cheering admirers in Delaware.

## PATENT MEDICINE HAZARDS

Local communities are being urged by the Delaware State Board of Pharmacy and the State Board of Health to pass ordinances prohibiting the throwing of patent medicine samples on the door steps, due to the risk entailed to children into whose hands they may fall.

"No state law exists prohibiting this dangerous practice, but since it is hardly plausible that advertisers would distribute samples from door to door in rural areas, communities in Delaware can bring it to a stop by local ordinances," according to the joint statement issued today by these organizations.

That such an ordinance already exists in the City of Wilmington was pointed out recently by Dr. Roger Murray, secretary of the City Board of Health.

Recently instances were brought to the attention of officers of the Delaware State Board of Pharmacy and of the State Board of Health of unknown children consuming samples of laxatives disguised as candy, with the result that they were ill for days. A joint statement issued Tuesday by three groups emphasized the dangers of this practice and stressed the importance of advertising firms substituting some less risky method of getting their product before the public.

It was pointed out at that time that similar samples are distributed in drug stores, but that care is exercised to see that they are not given to those too young to understand their proper usage.

## THE SEVEN WONDERS

Nearly everyone has heard of the seven wonders of the world, but probably few could name them and fewer could tell what became of them. Those interested in such things might clip this out for their scrap book.

The seven wonders of the world were so named by Antipater, a writer of Palestine, about 100 B. C., as follows:

The Hanging Gardens of Babylon, destroyed in 484 B. C., more than 100 years before they were listed among the wonders.

The Temple of Diana at Ephesus, burned in 262 A. D.

The Statue of Zeus at Olympus, destroyed in 408.

The Colossus of Rhodes, sold for junk in 653.

The Lighthouse of Pharos at Alexandria, fell in an earthquake in 1375.

The Mausoleum of Artemisia destroyed in 1402.

The Pyramid of Cheops, the only one of the "Seven Wonders" still in existence.

Such were the seven wonders of the ancient world. Many lists of modern wonders have been made, but a recent writer selects not the perishable works of man, but the discoveries and inventions which have revolutionized civilization.

He names the radio, the telephone, the airplane, the antiseptics, spectrum analysis and radium. Whether his list is the best that might be made or not, the wonders mentioned will survive as long as humanity exists, bestowing untold benefits upon mankind.

"He would fall asleep in front of people and snore; it happened so often I hesitated to ask people into the home," testified Mrs. John Mohr of Los Angeles. The embarrassment won her a divorce.

## SCREEN SNAPS

By "SNAPPER"

### STATE THEATRE NEWS

"A Yank At Oxford," starring Robert Taylor, and with such American and British favorites as Lionel Barrymore, Maureen O'Sullivan, Vivien Leigh, Edmund Gwenn and Griffith Jones in prominent supporting roles.

The story, as the title indicates, relates the adventures of the star athlete of a small American college who is awarded a scholarship to Oxford. Robert Taylor enacts the title role. Maureen O'Sullivan is seen as the English girl whom he meets at the university. Griffith Jones plays her brother, Vivien Leigh is the flirtatious wife of an Oxford bookseller, who becomes involved with the undergraduates. Lionel Barrymore plays the American father who has made many sacrifices to send his boy to Oxford, and who comes to see him stroke the Oxford boat to victory over Cambridge, only to discover that his son has been "sent down."

The picture's Oxford sequences were filmed against authentic backgrounds in England. Jack Conway, of "Tale of Two Cities" fame, directed.

Monday and Tuesday

Such stage and screen headlines as Allen Jones, Judy Garland, Fanny Brice, Reginald Owen, Billie Burke, Reginald Gardiner, and Lynne Carver join hands and contribute a wealth of musical and acting talent to "Everybody Sing," one of the most original and infectious musicals yet to reach the talking screen.

There have been "Everybody Sing" has the distinction and originality of being the screen's first "swing" musical and under the deft direction of Edwin L. Marin, it literally swings across the screen with a luring, ingratiating and happy-go-lucky quality which establishes a warm intimacy with audiences which some of the more elaborate musicals have been unable to achieve.

Wednesday

As fine an example of merry insanity liberally spiced with music as has hit the theatre since the days of Gilbert and Sullivan.

"Blossoms on Broadway," a B. P. Schulberg production, boasts a cast headed by a trio of stars—Edward Arnold, Shirley Ross and John Trent, and featuring such outstanding performers as Rufe Davis, William Frawley, Frank Craven, Kitty Kelly, John Arthur, Edward Brophy, Charles Halton, The Radio Rogues (Eddie Bartell and Jimmy Hollywood), Frederick Clarke and Weber and Fields.

"Blossoms on Broadway" boasts three singable, danceable songs—"Blossoms on Broadway," by Leo Robin and Ralph Rainger, "You Can't Tell a Man by His Hat," and "No Ring on Her Finger," both of the latter by Manning Sherwin and Frank Loesser.

Thursday

New York's famous night club sector that has become known as the Montmartre of America, provides the inspiration for the intimate film musical "32nd Street."

The interesting angle of this new Walter Wanger production is that it reproduces the Manhattan night club strip between Fifth and Sixth Avenues on 32nd Street with the top personalities to inject the gay spirit and mad atmosphere of this night life belt into the picture.

The night club entertainers who appear for the first time on the screen in "32nd Street" are Jack White, Rocco & Sautter, George Tappes, Cook and Brown, Jerry Clonna, Al Norman and the 32nd Street Girls.

This galaxy of talents is augmented by an array of picture stars which includes Kenny Baker, Ian Hunter, Leo Carrillo, Pat Peterson, Sid Silvers, Ella Logan, Zasu Pitts, Dorothy Peterson and others.

Many Attend Birthday Party At Newark Home

A surprise birthday party was given in honor of Alice Stoops at her home, 34 N. Chapel Street, Friday evening in commemoration of her tenth birthday.

Those present were: Dorothy and Florence Lloyd, Doris Starkey, Ray Morrison, Annabelle Campbell, Lois Pugh, Joyce and Isabelle Everett, Marion and Ruth Baylis, Clifton Stoops, Jean Council, Elva Todd, and Louise Stoops.

## WASHINGTON NEWS

FROM OUR CONGRESSMAN WILLIAM F. ALLEN

UPON MY ARRIVAL in Washington as your Congressman I found a large quantity of old Agricultural Yearbooks that had not been distributed by my predecessors. I am sending these books to my former friends in Delaware in the hope that they will prove of some interest to them.

TRADE UPTURN—Because there appears to be signs of an early and substantial pick up in industrial activity the Government's principal forecasters maintain their view that improvement both in industrial activity and trade is definitely due this spring.

CORDELL HULL—The Secretary of State says: There is today no greater force in the world for the advancement of stable prosperity and peace than the reciprocal trade agreements program. In that connection, the pending negotiations with the United Kingdom may play a vital role. The very magnitude of the international trade relations of our two countries is sufficient to suggest the possible influence which a satisfactory trade agreement between them might have upon commercial policies throughout the world.

LOAN INSURANCE FOR RESIDENTIAL STRUCTURES—A government-insured loan of \$2,500 or less, exclusive of financing charges is available to persons to build a home, or a structure combining a dwelling and business place; from any bank, or other approved lending institution. The citizen is helped by the Federal Housing Administration who encourages the lending by insuring the lender against loss in making the loan. The benefit of quick credit and of the terms and conditions to which the lender is limited to get government insurance of the loan, is given in this way to the borrower. These are called "FHA Class III loans, \$2,500 or less." Although a class III loan may be used to build a home only, it may also be used to build any commercial structure, a portion of which is used for dwelling purposes. A way to side stand, used also for living quarters or a garage above which are dwelling parties, are all included in these loans.

NEW AAA OF 1938—In summarizing the new Agricultural Adjustment Act of 1938, President Roosevelt said: "By experience we have learned what must be done to assure to agriculture a fair share of an increasing national income, to provide consumers with abundant supplies of food and fiber, to stop waste of soil, and to reduce the gap between huge surpluses and disastrous shortages. The Nation is now agreed that we must have greater reserves of food and feed to use in years of damaging weather and to help iron out extreme ups and downs of price."

CORN EXPORTS—During the current marketing season, exports of corn have been the heaviest since 1928-29 with more than 17,000,000 bushels in four months. During a similar period last year, when drought had laid waste the corn fields, imports were 24,000,000 bushels.

Three Plays Slated For Christiansa-Salem School

"Almost Anything May Happen," "Taken For A Ride," and "Neighbors" will be presented in the Christiansa-Salem School on March 18 by the class in dramatics.

Members of the "Almost Anything May Happen" cast are: Mrs. R. E. Dickey, Doris Baker, Valerie McGrath, Anna Amoroso, Doris Thorpe, Delaia Amoroso, Sarah Murray, and Marion Elliott.

Roles in "Taken For A Ride" will

be played by: Clarence Elliott, Albert Thorpe, James McGrath, Charles Twining, Mildred Takach, Louise Moore, Adeline Burris, Burke Edwards, and Valerie McGrath.

"Neighbors" will include the following players in the cast: Mrs. Pauline Sweetman, Mrs. Norbert Cashell, Dr. Edward Gangwere, Michael Amoroso, Mabel Murray, Marreen Amoroso, Sarah Murray, and Mrs. R. E. Dickey.

## WOMEN'S COLLEGE

By SYLVIA PHELPS

### Gym Exhibition

Late hours caused by the Delaware College Prom evidently had no ill effects on the Women's College gym meet held on Saturday afternoon. The crowd of spectators which filled the balcony and part of the gym floor was generous with applause as more than 200 Freshmen and Sophomores went through their paces.

The demonstration was planned and directed by Miss Beatrice Hartshorn, Professor of Physical Education, assisted by Miss Marjorie Eastabrooks and Miss Irene Buckley.

The units of work were introduced by Anne Henry, Virginia Pepper, and Verna Leib, physical education majors. Pauline Planti, Anne White, Margaret Kelso, and Betty Jane Brown played the piano for the dances.

The girls made a pleasing appearance as they came into the large gymnasium by two's and in white shoes and socks and green, white, or yellow suits, according to their class.

W.C.D. Routine Followed

After marching around the room, the students sang the Women's College "Marching Song." Callisthenics were demonstrated by a Freshman class. Elementary education students illustrated amusing games and exercises suitable for small children. After several folk dances came an exhibition of apparatus work by Sophomores. Daring feats were performed on the buck, horizontal and Swedish ladders, rings, and Swedish box. As special features, Sophomores showed their skill on the parallel bars, ropes, and house, while Freshmen demonstrated their tumbling ability.

Various forms of modern dancing were shown under Miss Hartshorn's direction. Several tap dances were given, one a novelty number, illustrating in pantomime a schoolroom scene. The meet was completed by a "giant volleyball" game, played with a huge ball four feet in diameter.

W.C.D. Guests Inspect

Following the formal demonstrations, guests visited the smaller rooms where shuffle-board, table tennis, badminton, and quilts were being played—and the pool, where a number of girls were enjoying swimming. Several student projects and posters related to physical education were also on display in the gymnasium.

Although the gym meet is now a thing of the past it has left noticeable effects. Shuffle board and table tennis are now played regularly after school hours. A ping pong tournament which will probably last until spring vacation, has been planned.

Also connected with physical education is the student health committee, whose aim is to interest girls in correct living habits. Every two weeks one certain phase of health is emphasized. At present, several clever posters in "sleep" are to be seen on the bulletin boards, indicating that sufficient rest is one of the first rules of sensible living.

The bride at a wedding in Epsom, Eng., was given away by her mother, while her father served as best man.

Although he has traveled nearly a million miles in his 47 years of railroad service, Engineer Bill Chambers of Philadelphia has never left the city.

**Washington At Exhibition**

So large is the statue of George Washington being constructed for the New York World's Fair that a man standing on his chin could not reach above his forehead.

as Indians who has a reputation in  
baseball like Al Capone's in polite  
society. Knowing Harry, we'll bet  
our shirt he lands on Cambria  
like a ton of bricks. If anything  
foul turns up in Salisbury like  
it did last year.

## 25 YEARS AGO IN REVIEW

March 12, 1913

### OBITUARY

#### VICTOR G. WILLIS, JR.

Victor G. Willis, Jr., aged 5 days, son of Victor G. and Mary J. Willis, died on Monday, March 10. Funeral services were held on Tuesday at 10:30. Interment, St. John's Cemetery.

#### HENRY MANNING PRICHARD

Henry Manning Prichard died at Marion, Mass., at midnight, March 9th, leaving a widow, one son, Sidney Prichard, of Whasset, Mass., and a daughter, Mrs. Walter H. Hilton, of this town.

#### ROSE JAMES

Rose James, aged 43 years, wife of W. J. James, died at her home, Deandale, last Sunday, March 9th. Services will be held in St. John's R. C. Church next Thursday. High Mass at 9:30 a. m. Interment in St. John's Cemetery.

#### A. EUGENIA LOWBER

A. Eugenia Lowber died at her home in Middletown on Friday, March 7th. The body was brought to Newark, where funeral services were held this morning at eleven thirty in the Presbyterian Church. Interment, Head of Christiana Cemetery.

Miss Lowber was the daughter of Dr. and Adeline Whitley Lowber, who were one of the old and well known families of this community.

The deceased spent the greater part of her life in Newark, where she had many friends. One sister, Mrs. Irving S. Vallandigham, of Middletown, Delaware, survives.

#### Firemen Plan Easter Dance

Plans are being completed for the Firemen's Ball to be given in the Newark Opera House on Monday evening following Easter, March 24th.

The Ball is a purely social affair, the price of admission being for the disbursement of expenses only. Dancing will begin at eight thirty with a grand march led by Mr. and Mrs. Harlan Herdman. Refreshments will be served during intermission by Caterer Henry and assistants. The music will be furnished by Bird's Orchestra, of Wilmington.

The patronesses are: Mrs. L. B. Jacobs, Mrs. John Pilling, Mrs. S. J. Wright, Mrs. E. C. Wilson, Mrs. C. A. Short, Mrs. J. P. Wright, Mrs. J. H. Hossinger, Mrs. H. M. Campbell, Mrs. Daniel Thompson, Mrs. E. C. Jones, Mrs. J. P. Cann, Mrs. A. L. Beals, Mrs. Charles H. Blake, and Mrs. Robert S. Gallagher.

The committees in charge follow: Dance Committee: Richard Cuff, Arthur L. Beals, Harlan C. Herdman, Leslie Hill, George L. Brooks. Floor Committee: Charles L. Medill, J. Pearce Cann, James McKeon, William B. Smith, Walter R. Powell.

Refreshment Committee: Samuel B. Herdman, Elmer J. Ellison, Wilmer E. Hill, George I. Durnall, Edward J. Bailey.

#### AN ENGAGEMENT

The engagement of Miss Helen A. Cooh, daughter of Mrs. Annie M. Cooh, to the Rev. Frederick W. Neve, of Ivy Depot, Virginia, has just been announced. Mr. Neve is an archdeacon in Virginia and in charge of many Episcopal Missions and schools in the mountains there where Miss Cooh until recently served as missionary. The wedding will be at an early date and the honeymoon will be spent in England.

#### Leave For Extended Trip

Mr. and Mrs. J. Wilkins Cooh and Eben B. Frazer, of Newark and Millard P. Davis, of Wilmington will sail today on an extended southern trip. They will be gone for about 28 days and during that time will visit many places of interest, including Panama.

Dr. and Mrs. James H. Frazer, of Baltimore will occupy Mr. Frazer's residence during the latter's absence.

#### PERSONALS

Miss Lena Evans returned on Wednesday after a delightful ten day's visit to Washington.

Miss Anna Hossinger, who had been a Baltimore visitor for a week, went to Washington for the Inaugural festivities and returned last week. While in Washington she was the guest of Miss Emma Blady.

Mrs. Whittingham was a Washington visitor on Friday.

Mrs. Annie M. Cooh and her daughter, Miss Helen Cooh and Mrs. Thomas L. Sturges, Jr., of New York, were here over Sunday with relatives.

Mrs. L. B. Jacobs spent Friday in Washington, D. C.

J. Allison O'Daniel, of Oxford, Pa., was the recent guest of relatives in Newark.

Mr. and Mrs. R. A. Kirk, of Ridley Park, Pa., spent the week-end with Mrs. Rebecca Wilson and family.

W. J. Moore is confined to bed with a bad attack of lumbago and Mrs. W. J. Moore is suffering with a disabled arm. Their many friends wish them a speedy recovery.

Mr. and Mrs. Edward Cooh returned Thursday from Washington where they attended the Inaugural ceremonies.

The friends of Miss Anna Springer will be pleased to hear that she was able to leave the Delaware Hospital Monday and is expected at her home in a short time.

#### Half Mile Trestle Just To Haul Dirt At Grounds

Confronted with the task of moving 9,000,000 cubic yards of dirt to complete an airport for the New York World's Fair 1939 from an island nearby, the contractor discovered it would be cheaper to build a half-mile trestle of steel and use motor trucks rather than load and unload sacks. The trestle is now under construction. About 100 trucks will be used.

## NATIONAL FARM PLAN DESIGNED

### AAA To Provide Aid For Farmers And Consumers

The Agricultural Adjustment Act of 1933, recently passed by Congress, is designed to provide an all-around national farm program which will help farmers and at the same time protect consumers of the nation, according to information received by R. O. Stelzer, extension economist at the University of Delaware and State AAA executive officer. The principal points of the program are summarized by Stelzer as follows.

**SOIL CONSERVATION:** The new farm program which is outlined in the legislation continues and supplements the Agricultural Conservation Programs which have been in effect for the past two years under the Soil Conservation and Domestic Allotment Act of 1936.

**FIVE CROPS:** Upon the foundation of the conservation programs, specific provisions are made for the five crops—cotton, wheat, corn, tobacco and rice. For these crops the Act provides that the program is to be administered so as to provide for producing adequate supplies each year for domestic consumption and exports and also to maintain ample reserves. In Delaware acreage allotments will be established for every form producing wheat and potatoes on a commercial basis.

**EVER-NORMAL GRANARY:** The provisions of the Act designed to maintain supplies at specified levels are expected to bring about substantial increases in reserves, particularly in the case of corn and wheat.

**LOANS:** The Act directs that loans be made to corn, cotton and wheat producers under certain conditions, and authorizes loans to be made on other agricultural commodities at the discretion of the Secretary of Agriculture and the President.

The loans are to be made by the Commodity Credit Corporation, which has made loans to farmers on cotton and corn in past years.

**ACREAGE ALLOTMENTS AND QUOTAS:** Acreage and commodity allotments will be made for each of the five years. If a crop is so large that supplies reach high levels, the Act provides that a marketing quota will be effective if two-thirds of the farmers voting in a referendum of producers of the commodity approve the quota.

**EFFECT FOR CONSUMERS:** AAA officials believe that consumers will be amply protected by the reserve provisions of the new Act. The wheat supplies provided for are intended to assure ample wheat at all times for the nation's bread supply and for exports and reserves. The corn supplies are expected to have a stabilizing influence upon the supplies of meat.

**CROP INSURANCE:** The new Act also provides for crop insurance for wheat. The first crop that will be insured will be the 1939 wheat crop.

**OTHER PROGRAMS:** In addition to the general program made possible by this Act the other parts of the national farm program will be continued under existing legislation. The sugar program made possible by the Sugar Act of 1937 will continue to be administered in connection with the AAA program. The marketing agreements among fruit and vegetable and dairy products will continue, as will the purchase of surpluses by the Federal Surplus Commodities Corporation for relief distribution and for the purpose of relieving temporary surpluses of perishable crops.

### Early Budding

(Continued From Page 1)

Terrapin scale and red mite eggs on peach trees may be controlled with a lubricating oil emulsion (3% oil content) together with a Bordeaux mixture (6-6-100). This mixture should have been applied before this week in lower Delaware.

Copies of the spray programs may be obtained without cost by writing to the University of Delaware Agricultural Experiment Station.

### Foster Father

Ray Milland in the humorous but sympathetic role of a guardian of two orphans in "Wise Girl." Here he is with Betty Phillips, who plays one of the motherless little ones. Miriam Hopkins is co-starred with Milland.

## RIGHT OUT OF THE AIR

By R. F. SERVICE

Betty Wragge, who plays Peggy in "Pepper Young's Family," heard over both NBC networks five days a week, lives up to expectations of all listeners who see her. They say she looks exactly like the young girl she plays on the air.

Harry "Bottle" McNaughton, that fastidious English heckler of Phil Baker's, never swears. He simply says, "That awful Beetle has moved in on me!"

Jack Fulton, radio's star romantic tenor, is on the air five times weekly for fifteen minutes, yet he rehearses four hours a day for each of his "Poetic Melodies" broadcasts. He spends two hours with his arranger and conductor in his music room at home and two more hours rehearsing in the CBS studios.

Proof of the popularity of "Big Sister," heard over CBS, is found in the fact that it reached top place in day time shows in the last audience survey report.

Andre Baruch, above, announcer on the "Kate Smith Hour," has two notable conquests to his credit as of the last sixty days. To begin with, he beat Del Sharbutt, another CBS ace announcer, for the championship of the radio plug-pong league. Then he won the hand of Beatrice Wain, attractive chorus singer on the Kate Smith show.

The Rudy Vallee Hour has pushed another performer to that height of radio fame which brings movie offers. Tommy Riggs, of the amazing Betty Lou voice, is the latest to sign a cinema contract.

Don Prindle, material writer for Penner, believes that he has discovered a future radio comedian. It is Mickey Brennan, Hollywood Boulevard newsboy whose sparkling wit amuses many screen and radio greats.

## BOOK SHELF

It was fortunate for Cotton Mather that he didn't live in the days of psychoanalysis. This man who was a theocrat and a democrat, a superstitious bigot and a defender of science would have provided a field day for the followers of Freud, et al. And to top it all Cotton Mather, a Harvard child prodigy, helped found Yale.

Like many of his vocation, he believed in the divine right of the New England clergy. But he was a leader in the democratic revolt that drove despotic Governor Andros out of New England. He gave his sanction to the persecution of "witches" in Salem, and even helped bring this persecution on by his book, *Memorable Providences Relating to Witchcraft and Possessions* (1685). But in the smallpox epidemic of 1721 he persuaded Dr. Zabdiel Boylston to inoculate—

with success. Public sentiment, however, was against Boylston and Mather; their lives were endangered and an attempt was made to bomb Mather's house. He lived to become the first American to be made a member of the Royal Society. Born in 1663, he received his degree of Master of Arts from Harvard at the age of 18. But in later life, when the expected honor of being president of his Alma Mater was denied him, he helped turn the Collegiate School of America, of Saybrook, Conn., into Harvard's No. 1 New England rival—Yale University.

**BOOK SHELF**

As might be expected, he was a prolific writer and this week Columbia University Press is going to bring out, for the Facsimile Text Society, another edition of one of his books. It is not only another edition—it is an exact facsimile of the original. In case you want to

be sure of having the full title correct when you order it, this is the way it reads: "Manuductio ad Ministerium. Directions for a Candidate of the Ministry, wherein, FIRST, A Right FOUNDATION is laid for his Future Improvement; and, THEN, RULES are Offered for such a Management of his Academicall & Preparatory STUDIES; And thereupon, For such a CONDUCT after his APPEARANCE in the World; as may Render him a SKILFUL and USEFUL MINISTER of the GOSPEL."

The "digested" magazine idea is at least two centuries old. And one of the first Americans to use the basic features of this technique was the Boston boy who made good in Philadelphia—Benjamin Franklin. He "digested" articles in his *GENERAL MAGAZINE*, published for all of six issues, from January through June, 1741. The erstwhile soap-maker printed excerpts of books and of sermons, and articles from other periodicals.

There was, for instance, "from a late British magazine," a stirring account of "The Crown of England's Title to America prior to that of Spain." Here is the meat of this real estate claim: "... In the Year 1170, Madoc ap Owen Gwyneth (to avoid the Calamities and Distractions of a Civil War at Home) took a Resolution to go in Quest of some remote Country to live in Peace. And so having directed his Course due West, he landed in some Place of that vast Continent now called America. There being charged after having built some slight Fortifications for the Security of his People he returns home to North-Wales, leaving 120 Men behind. There reciting his successful Voy-

age, and describing the fruitful and pleasant Land he found out, he prevailed with many of his Countrymen, Men and Women, to return with him. The brave Adventurers put out to Sea... and by GOD'S Providence landed safely... It is very probable it was about Mexico, since there Prince Madoc was buried, as his Epitaph since found there, does make evident beyond all Contradiction."

**BOOK SHELF**

When, back in November, Columbia University Press issued the third number of the third volume of the *BULLETIN OF AMERICA'S TOWN MEETING OF THE AIR* they didn't realize they were publishing a frank statement on the Constitution by a man who would soon mount the Supreme Court bench and therefore be unable to speak in this manner again. The man of course was Stanley Reed, and he said, in part:

"If constitutional democracy is to prevail over the opportunists of absolutism at a period when peoples are examining critically their systems of government in terms of their effectiveness to meet foreign and domestic complications, constitutional democracy must look forward, not backward; it must have capacity to adjust its conceptions of powers to the needs of the nation. This will make democracy work."

Copies of this issue are still ready for purchasers, who need part with only one dime. Frankly, we recommend the sending of twenty dimes, which sum will bring you all copies of the 1937-38 volume of the *BULLETIN*.

## Assembly Program To Be Given At Christiana

### Mrs. Denny Marshall In Charge of Arrangements; Many To Take Part

By Edna A. Dickey  
Christiana, March 9—Final plans were made at the meeting of the Christiana M. E. Social on Wednesday evening for the annual chicken patty supper of the official board to be held on Wednesday evening, March 16.

The play, "That Watkins Girl" will be presented in the Salem Church on Thursday evening by the Salem Young People.

The following were elected trustees of the Christiana M. E. Church after the evening session on Sunday: William F. Elliott, Harry Appleby, Sr., and A. H. Vincent.

**Assembly Program**  
The assembly program at the Christiana-Salem School this Friday at 3 P. M., will be given by the direction of Mrs. Denny Marshall, substitute teacher for Mrs. Estol Hopkins who is ill. The following will take part: Louise Marousek, Layton Thorpe, Elva Edwards, Henry Purzycki, Jackie Cunningham, Anna Burge, Ira Coover, Robert Thorpe, George Barrett, Barbara Thorpe. Albert French will be in charge of the music. Riddles by Henry Purzycki.

Miss Louise Brown is confined to her home with the mumps. Mr. and Mrs. Charles Dewese and Mrs. Marie Delbert, of Elkton, Md., spent Sunday evening with her mother, Mrs. Chlotilda Dayett.

Mr. Alex Stewart spent Sunday with his daughter, Mr. and Mrs. John Pierce, of New London, Pa.

**Confined To Bed**  
Miss Florence Snitcher has been confined to her bed for the past week.

Mrs. Jeanette Cunningham, of Wilmington, is spending some time with her uncle and aunt, Mr. and Mrs. J. C. Lupton.

The Junior Christian Endeavor Society is planning to hold a St. Patrick's party on Friday evening, March 18, at the home of Rev. and Mrs. Henry G. Welton. Deran Watkins is in charge of recreation.

The Faith League of Pencader Presbyterian Church will meet at the home of Rev. and Mrs. Henry G. Welybon on Friday evening.

The Welsh Tract P. T. A. will hold its monthly meeting on Thursday evening, March 17.

**Midget Barrister Is No Sideshow Attraction**  
An unusual midget is B. F. Holbrook, who is only 3 feet, 6 inches tall, and weighs 65 pounds. He isn't a side-show attraction, but a practicing lawyer in Atlanta, and claims to be the smallest member of the legal profession in the world. He was admitted to the bar last June.

**BOOK SHELF**

## Lottery Group Seeks New Legislation

### Hearing Delayed By Kenny's Death; French Type of Lottery Favored

Washington: The group working for the legalizing of lotteries in this country are said to be actively searching for a new leader to fill the place left vacant by the recent death of Congressman Edward Kenny of New Jersey. Congressman Kenny's death has indefinitely postponed the Congressional hearing on the subject, which was scheduled to begin this month and which, according to advance indications, seemed destined to be favorable to the lottery group.

The
