Referendum To Be Held On Question Of Non-Fraternity Council Members

Vote Planned For Days Of Nominations of Class Officers; Student Council Acts To Get Public Opinion On Matter Long Under Dispute

ELECTIONS AFTER VACATION

On Monday night the Student Council decided to conduct a referendum of student opinion on the question of increasing the number of Non-Fraternity representatives to the Council from three to four members. The vote will be taken during class meetings the first week following vacation.

At the same meetings the Council will conduct nominations for class officers for the coming college year. On Monday the present Junior class will nominate its candidates, as will the present Sophomore group. Nominations for officers for the present Freshman class will be held Tuesday. On Thursday the Juniors and Sophomores will elect their officers for next year from the list of nominees selected the preceding Monday, while Freshman elections will be held on Friday.

The decision to put the Non-Fraternity representation question before the student body is the result of long agitation. It has for several years been argued that the Non-Fraternity group, which is at the present represented by only three men, deserves more adequate representation, since the Non-Fraternity element alone is larger than the Fraternity groups combined. Each fraternity now has three representatives on the Council, which makes a total of eighteen Fraternity representatives as contrasted to only three members

Davidson New President Of Athenaeon Society

Vandergrift, V.-President, Jamison Secretary-Treasurer; Club To Present Film Tomorrow

At a meeting of the Athenaeon Society held yesterday at 4.15 p. m. the following officers were elected for the forthcoming year: President, J. Edward Davidson; vice-president, R. Perry Vandergrift; and secretary-treasurer, Robert J. Jamison, Jr.

The first activity of the club which will take place under the sponsorship of the new officers will be the presentation of a motion picture, "Fifty-two Pay Checks a Year," on Thursday, April 16, 4.30 p. m., in Room 308 of Evans Hall. This picture will be of interest to students of economics and of engineering. Many of the social security plans for workers are illustrated as well as technological phases of the manufacturing of shoes. Members of the A. S. C. E. and A. S. M. E. are cordially invited to join with the Athenaeon Society in viewing this interesting film.

The next regular meeting of the Society will be April 13, 1936. It is planned by the new administration to have meetings where the subjects discussed will be alternately pertaining to international relations and economics.

The Call—Two Arms!

Robert Lippincott broke his arm when he landed on it while practicing for the pole-vault event.

Reynolds Knotts' arm was dislocated while wrestling in a gym class. In falling he landed on his arm instead of landing on his body and rolling over.

Hartmann Announces Dates Of Student Council Election

New Representatives Will Be Chosen On Second Wednesday After Vacation

President Jack Hartmann of the Student Council has announced that elections for new Student Council members will be held on Wednesday of the second week after Spring Recess.

The newly chosen representatives will take their seats on Thursday, the following day, and will at that time elect Student Council officers for their administration. The new Council members and the officers they select will take office immediately upon election and function until a new administration is elected next Spring.

The retiring officers of the Student Council are President Hartmann, Vice-President Ralph Walson, Recording Secretary Hugh Stewart, Corresponding Secretary Alvin Handloff, and Treasurer Joseph Scannell. All except Scannell are Seniors and ineligible therefore for reelection.

The retiring Senior representatives are Walson, Kappa Alpha; Hartmann, Sigma Phi Epsilon; Stewart, Theta Chi; Handloff, Sigma Tau Phi; Henry Marshall, Phi Kappa Tau; and Roger Thomas, Non-Fraternity.

Half Of Graduating Engineers Offered Positions Through Personnel Department

Lt.-Colonel Ashbridge Quickly Builds Active Bureau

Over half of the graduating class of engineers have already been offered technical positions, and every man has been given opportunities to sell himself. This is only a part of the great work being done by Lt.-Col. Donald M. Ashbridge in the newly-formed placement bureau.

With meagre salary and very limited funds, Col. Ashbridge has had a hard job before him, in interesting employers in Delaware men. With no precedent to guide him, and nothing but his affection for Delaware College and Delaware students to inspire him, he has succeeded in bringing to Delaware campus more personnel representatives than the authorities can ever remember being here. It is interesting to note that every company represented, save one, has never been here before!

Colonel Ashbridge has ever been modest and gentlemanly and is a pleasing representative for Delaware.

Three Groups In Fraternity Drama Contest Tomorrow

Half Of Fraternities Decline To Enter Competition; Sigma Nu, Sigma Tau Phi And Sigma Phi Epsilon Participate

ONLY ONE ORIGINAL PLAY

Only three of the six fraternities are producing competitive plays for the contest to be held tomorrow night in Mitchell Hall, at 8.30. Admission is twenty-five cents.

They are the Sigma Phi Epsilon, Sigma Nu, and Sigma Tau Phi groups. The Phi Kappa Tau, Theta Chi, and Kappa Alpha declined to enter the competition.

Of the three plays to be given tomorrow, only one is original. Written by Carl Bleiberg and Harry Stutman, "The Single Verse" brings a cast of three characters on the stage. The co-authors and George Spiller are the actors.

The Sigma Nu fraternity are presenting "The Wily One," by Allan Monkhouse, the cast consisting of T. Willey Keithley, Walt McKendrick, Roy Donoho, and Francis Dineen.

A play by the celebrated George Kaufman forms the vehicle for the Sigma Phi Epsilon talent. The roles in it will be taken by Joseph Saville, Eugene DelleDonne, and Herbert Warburton, of whom Warburton is the sole experienced member.

Civil Engineers To Elect Officers Friday for Society

The American Society of Civil Engineers, Student Branch, will hold their annual election of officers on Friday of this week. H. Kent Preston and Russell C. Stanton are the candidates for President, and Drexel S. Donaldson candidate for Vice-President.

Sigma Tau Phi Leads Fraternities In Scholastic Honor Roll Standing

Lt. Colonel Ashbridge

Chief of Personnel Department which has within a few months reached high efficiency.

Benson Elected To Head Society Of Engineers

J. G. Cannon Chosen For Vice-Presidency; Lt.-Colonel Ashbridge Made Member

Wilmer K. Benson, Jr., class of 1937, was elected president of the local Student Branch of the American Society of Mechanical Engineers at a meeting held Tuesday, March 24, 1936.

Mr. Benson is a graduate of Caesar Rodney High School and has attended Beacom College. Here at Delaware he has been one of the most outstanding students in recent years, and is one of the three this term to have a perfect scholastic average.

I. D. Cannon was elected vice-president, with Allan Laymon, secretary, and Julius Reiver as treasurer; Bill Black was named program chairman; and Clark Latin, inspection trip chairman. Prof. Leo Blumberg was reelected honorary chairman and faculty advisor in recognition of his good work and help in previous years.

Lt. Col. Donald M. Ashbridge, U. S. Army, retired, was named honorary member. Joseph Stuart, III., out-going president, expressed his appreciation of the work done by Prof. Blumberg and Col. Ashbridge during the past year.

SOCIAL CALENDAR

Thursday, March 26—French Club, Sussex Hall, 4.15 p. m.

Interfraternity Plays, 8.00 p. m., Mitchell Hall.

Friday, March 27—Sigma Phi Epsilon Formal, Old College.

Saturday, March 28—Spring Vacation begins, 12.30 p. m.

Monday, April 6—Spring Vacation ends, 8.00 a. m.

Phi Kappa Tau And Theta Chi Follow; Senior Class Has Highest Average; Fraternity Students Lead Non-Frat Men

COLLEGE AVERAGES 1.15

Three Delaware College students lead the Honor Roll with perfect 3.00 averages. They are W. K. Benson, H. M. First, and J. A. Munroe. The Sigma Tau Phi fraternity gained first place in fraternity ratings by virtue of a 1.75 average, being followed by Phi Kappa Tau, 1.54, and Theta Chi, 1.30.

The Senior class, with a 1.88 rating, topped the classes, the Juniors having 1.40, the Sophomores .98, and the Freshmen .85.

The fraternity students achieved a 1.33 average, to lead the non-fraternity group, who averaged 1.32 for work during the first term of the present college year.

The average scholastic standing of the entire student body of Delaware College for the first term was 1.15. The average for students from Delaware was 1.16; the average for out-of-state students was 1.11. Sixty-nine students who earned an average grade of B or better have been placed on the Honor Roll for the term. These students came from the following high schools and preparatory schools: Wilmington 37; Newark 10; A. I. duPont 3; Tower Hill 3; Claymont 2; New Castle 2; Salesianum 2; Caesar Rodney 1; Dover 1; Felton 1; Lewes 1; Milford 1; Smyrna 1; Out of State 4. Of these students forty-three were in the School of Arts and Science; twenty-one were in the School of Engineering; and five were in the School of Agriculture. Twenty-eight were Seniors; twenty-four were Juniors; seven were Sophomores; and ten were Freshmen. Of the entire student body, fifteen per cent were on the Honor Roll. Of the students who entered college from Delaware high schools and preparatory schools, seventeen per cent were on the Honor Roll; and of the students who entered from out-of-state high schools and preparatory schools, five per cent were on this roll.

Federal Inspection Of R.O.T.C. On April 20th

Department Hopes To Maintain Unbroken Record Of Excellent Ratings Despite Lack Of Drill

The annual Federal inspection of Delaware's R. O. T. Battalion will be made on April 30, 1936. In previous years Delaware has been consistently graded excellent, and in spite of the loss of drill periods due to inclement weather, it is hoped that this honor will be retained.

Lieutenant Colonel Joseph P. Vachon, Infantry Corps, Englewood, N. J., will inspect the administration performances, while Lieutenant Colonel Frederic A. Holmer, O. A. C., New York City, will make the infantry field inspection.

The inspection will be held on the parade ground in front of Wolf Hall, and all persons are welcome to attend.

A SMALL GESTURE OF JUSTICE

The Student Council has at last decided to settle the long dispute over the question of allowing the Non-Fraternity students a less disproportional representation on the Council. A referendum of the entire student body will be taken right after vacation to end the argument.

We call it an argument only out of courtesy, for the issue really doesn't amount to much. No great radical change is involved. The decision, whichever way it goes, won't alter our present Council system to any perceptible degree.

The total number of Fraternity men on the campus is less than the number of Non-Fraternity men alone. Each Fraternity is at present represented by three men. But the Non-Fraternity group, despite the fact that it alone outnumbers the total of all fraternity men on the campus, is now allotted three men, the same number that is allotted to each individual fraternity.

The Student Council doesn't aim to equalize the relative numbers of Fraternity and Non-Fraternity representatives. Far from it. They merely are giving the students at large an opportunity to make a small gesture of justice, the addition of one more man to the allotted representation of the Non-Fraternity group.

If the measure providing an additional Non-Fraternity man to the Student Council is ratified by the referendum, the proportion of Council members from the Fraternity group will still dwarf the proportion of Non-Fraternity representatives. The number of Council members from the Fraternity group will be eighteen, whereas the number from

the Non-Fraternity element will be only three.

The Non-Fraternity element alone greatly outnumbers the total of all Fraternity men on the campus, yet even after the referendum, the amount of representation allotted to the Non-Fraternity group will still be ridiculously disproportional to the amount of representation allotted to the Fraternity group.

We call the whole issue an argument, but only out of courtesy. We also call the referendum a small gesture of justice, and after the referendum is over, we will still call it just that. But any gesture of justice, however small it may be, is something that deserves support and commendation.

HOW ARE YOU GOING TO VOTE?

There are announcements of the dates for class and Student Council elections published on the first page of this newspaper. We print them there for a purpose, not merely because they help us balance our technical setup of articles. We print them for the purpose of awakening the students to the fact that they have a definite and responsible task ahead of them.

The progress of reforms and the quality of all campus activities, whether class activities or Student Council activities, depends almost entirely upon the caliber and interest of the officers and representatives chosen by the students in these spring elections. We do not wish to influence your vote, but we do want to urge you to vote, and to vote intelligently.

All we ask is this: mediate a little before you nominate the men from whom your class officers are to be elected; be careful that you select the best qualified men when you mark your ballot on the day of your class election; and above all, judge the candidates according to your own personal reasoning and do not let yourself be swept into a mob hauling a candidate into office on a bandwagon.

And when you elect your Student Council representatives, bear in mind that the Student Council is the power behind every important campus activity. Bear in mind that your representatives must possess more than a small amount of brains if the Council is to have a successful administration. Remember that your representative must be able and willing to stand on his feet before the Council and speak clearly and intelligently if he is going to give you adequate representation. A shy and tongue-tied representative is just so much dead weight. A representative who isn't willing and capable of fighting for the honest interests of his group is hardly an asset to either the group or to the college at large. Vote, and when you vote, vote intelligently.

The Collegiate Review

Americana: Gov. Floyd B. Olson of Minnesota has had a bronze pig, one-third life size, cast as a trophy for the winner of the annual Iowa-Minnesota football game.

It must be true. Prof. Thomas A. Langlie of the Wesleyan University psychology department adds his voice to the chorus of professors who say that cramming is futile. It "inhibits the memory."

The University of North Carolina has ruled that any student "who does not habitually write good English" must go to the English department for periodic polishing.

One phase of Harvard's 300th anniversary celebration will be the payment of \$300,000 to the Cambridge city treasury, if the college honors a resolution passed by the city Council.

SLIM SAYS:

By Grover T. Surratt

Note

The American Legion Five-Year Plan is holding sway at the University of Delaware. To date, four of the next year's fraternity presidents are five-year men!

How Will You Spend Your Vacation?

In spite of all that you have tentatively planned—whether it be catching up on back studying or catching up on back social obligations—envy Du Ross who will be honeymooning in Bermuda.

Mid-Terms

The period of mid-term examinations really amounts to a week of final examinations. Most all of the professors give these half-way deciders, and unfortunately for the students, most of the professors like to wait until the last of the week to give the tests. In the final exam period, you have ten days of finals—with an occasional vacant day; in the mid-terms, you have classes all week with your tests announced at the discretion of your professor. I think that this is a serious evil which could be remedied nicely by spreading the mid-terms over a two-week period—or longer.

The Interfraternity Plays

Only three fraternities will be contesting for the Play Trophy this year. Sigma Phi Epsilon, Sigma Tau Phi, and Sigma Nu will present a play in that order on Thursday night at Mitchell Hall. Whether the other fraternities do not think the enterprise worthwhile, or they are disinterested, or they consider that they have insufficient talent, or what, I don't know—but I think that the situation is deplorable. The underlying aim, as I understand it, is to furnish an initiative for unknowns in dramatics to blossom forth, as it were—and not merely another cup for the winning fraternity. It probably is too late to do anything about it this year, but in the future let's have all six fraternities participating or none.

The winner of last year's play, the S. T. P.'s, are presenting an original play written by Bleiberg and Stutman, and acted by Bleiberg and Stutman. The title is "The Single Verse." The S. N.'s are presenting "The Wily One" by Allan Monkhouse, with Dinneen, Donoho, McKendrick, and Keithley as a cast. The S. P. E.'s are giving "The Master of Solitaire" by George Kaufman, with Saville, Warburton, and Delle Donne acting.

Hospital Bulletin

Ernie di Sabatino is improving slowly but surely. The exact nature of his ailments are not known but they composed a mixture of bronchial pneumonia plus a slight attack of influenza. Sabby will probably be removed from the hospital to his home at the end of this week. Friends are allowed to call for about four-and-one-half minutes by the nurse's watch. He expects to return to school after the Spring vacation.

Personals

The Betting Commission says 3 will get you 5 on Scannell . . . Pennock displays a double personality—from "Florence" a week or so ago to a concert Sunday afternoon. . . . B. A. and I dis-CUSSING a mutually disliked person over—shall we say steins. . . . Jerry Niles skipped on the boys and didn't treat after elections. . . . "Knuckle" is going to install

By Harry T. Stutman

Thorne Smith

Do you know Thorne Smith? No?

Well, he's ribald and intelligent and "witty" (God help us) and he's dead. That last is what hurts. All in all he wrote six books—six good books—and then at the age of about forty-five, he died. There are fellows who spend all their lives writing, and they haven't even one good book to show for it.

Turnabout is a case in point. Imagine Tim and Sally Willows, loving husband and wife, average suburbanites, always arguing "You have an easy time of it," and then one fine morning Tim wakes up to find that his mind is now in Sally's lovely body, and vice versa. Sally must now take Tim's body to the office, of course, and Tim must bathe and dress Sally's receiving callers in it. This leads to many complicated situations, most of them hilarious in the extreme. . . . up to the final momentous occasion when Tim is in a fair way of giving birth in court. The Judge, on his part insists with some vigor that, "you can't do that. I mean you can't have a baby in my court. I won't allow it." From which you may gather that Mr. Smith is a mad, merry fellow.

Then there's *The Bishop's Jaegers*. (And if you don't know what Jaegers are, look them up, either in a dictionary or the clothes-line. I can't mention them here.) I will pass on but one situation: a group of people, among them a luscious lady trying to make a rich young gentleman, a bishop, and a pickpocket, all fog-bound in a ferry, decide to set out in a rowboat, and the whole crazy bunch, including the pickpocket end up in a nudist colony! P. S.—The girl got the guy. P. P. S.—Major Dutton has a complete set of Thorne Smith's works. P. P. S.—Don't bother Mr. Lewis in this case; he's busy.

Scholastic Standing of Fraternities

The average scholastic standing of each of the six Fraternities was as follows:

Sigma Tau Phi, 1.75; Phi Kappa Tau, 1.54; Theta Chi, 1.30; Sigma Phi Epsilon, 1.29; Sigma Nu, 1.25; Kappa Alpha, 1.22.

The average of students who were members of fraternities was 1.33; the average of students (in the three upper classes) who were not members of fraternities was 1.32.

Scholastic Standing of Classes

The average scholastic standing of each of the four classes was as follows: Senior Class, 1.88; Junior Class, 1.40; Sophomore Class, .94; Freshman Class, .85.

one of those nickel-(five-cents)-door-locks on his—well it isn't a car, but it runs. . . . The prevailing atmosphere before and during the O. X. Formal was to my liking. . . . "Wee Willie" couldn't play golf Sunday because it was too windy—why didn't he wear diver's shoes? . . . 10.15 a. m. Sunday morning is an ungodly hour to be stood-up, huh Charlotte? . . . Jammy is flirting with trouble—he's bringing a gal to the Formal who laid Sab up for three weeks.

William And Mary Fencers Mow Down Blue And Gold

Blue Hens Handed Third Loss Of Season By 11-6 Score At Home

Trip To Stevens And New York Will Feature Closing Of Fine Season

The University of Delaware Fencing Team went down in defeat against William and Mary yesterday by a score of 6 to 11. This is the third loss for Delaware out of six matches.

William and Mary excelled in all three weapons. They held the lead throughout the entire meet. MacDonald, of William and Mary, was the outstanding foil man, winning three of his bouts. It might be of interest to note that MacDonald is a left hand fencer. This, of course, changed the target for Delaware men and made the matches with him very difficult. No particular star prevailed on Delaware's team since the three points made in the foil bouts were distributed among three men.

In the epee event MacDonald again came through and won his two bouts. Cowgill, a new man on the fencing team, fenced with the epees for the first time and won one out of two bouts. He promises to be a very good foil and epee man next year.

The sabre bouts were split with Van Meyer, of William and Mary, showing exceptionally good form in his two winning bouts.

On Friday the fencing team leaves for Hoboken, New Jersey, where they will meet Stevens for the first time. Just how good a team Stevens possesses is unknown to Delaware fencers. However, the Delaware men have confidence of a victory. Upon completing a match with Stevens, Delaware will witness the Intercollegiate Fencing Bouts to be held at the Hotel Biltmore, New York City, Friday and Saturday. These matches should prove of interest to Delaware fencers since such teams as N. Y. U., Columbia, Harvard, and Army will participate in the championships.

Incidentally, the meet at Stevens University will see Captain Alick Murray in action for the last time. Since his participation in fencing, Murray has been a strong foil man and an equally strong sabre man. His loss to next year's squad will be deeply felt by all men on the fencing team since Captain Murray alone has been responsible for Delaware's success this season.

Around the middle of April a three man team will be sent to participate in the Divisional Championship of the American Fencers' League Association at the Penn Athletic Club. It is expected that much will be gained by these championships which will improve the style of Delaware's fencers.

The meet last week with Reading was cancelled due to flood conditions and there is a possibility of this being rescheduled as a post season match.

Trackmen Practice For Future Meets

Lack Of Candidates A Handicap As Coach Clark Prepares To Meet Johns Hopkins

Whenever weather permitted the last two weeks, the track squad rounded the oval and practiced field events under the coaching of Lyle Clark. Due to a shortage of candidates he hasn't been able to make any specific developments, but a few more trackmen have yet to report, after which stiff practice will reign. Coach has no ideas pertaining to the prospects, but he has voiced an appeal for more candidates.

It is understood that Joe Perkins will be ready to go shortly, while Captain "Bull" Carey is already tossing the javelin and shot to good advantage. King, F. Carey, Mayer, and Perkins are likely men for the relay event, which seems to point toward a fast quartet.

Sharpe, a transfer from Columbia, although ineligible, has been showing up for practices. While at that institution he earned his letter as a distance runner and is capable of doing a 4:28 mile.

Whether or not additional candidates report, Coach Clark will have his squad in trim and ready to go when the gun goes off at the first meet of the season on April 18th with Johns Hopkins on the home field.

Wheelis To Captain Varsity Tennis Team

Captain Wheelis And Lew Carey Are Outstanding Candidates As Season Starts With Netmen

The tennis team, under the direction and coaching of Mr. Ralph Jones, will start practice as soon as the courts are prepared for use. The courts were in terrible condition last year and it is hoped that they will be reconditioned and resurfaced wherever necessary.

The return of Sonny Wheelis as captain should stand the team in good stead when the going gets tough. Lew Carey is, as yet, a doubtful candidate because he is out for baseball. If Carey is permitted to do so he will play both ball and tennis. This, however, is not known for sure as it is somewhat of an irregularity for a man to play in two sports at the same time.

With the return of Carey and Wheelis and the coming out of several likely candidates the team should show up well during the coming season.

It took a statement from the president's office to assure students of Alma College, Michigan, that the official bulletin erred in stating the last day of vacation as January 2. It should have been January 6.

Sabres

Vapaa, 3; Anner, 4
Owings, 1; Van Meyer, 5
Owings, 5; Anner, 3
Vapaa, 3; Van Meyer, 5

Sabre results—Delaware, 2; William and Mary, 2.
FINAL SCORE—Delaware, 6; William and Mary, 11.

With The Blue And Gold

By Dave Sloan

To date there has been nothing done concerning the development of the appropriated field adjoining Frazer Field. There, of course, has been talk concerning the building of a baseball diamond, a football field, and tennis courts on this site, but as yet it is merely talk. From a good source comes the information that a revival in the physical education and athletic programs is expected next year. With this revival, it is possible that the leader will be a pusher who will fight for the building of just such a field as well as for the betterment of athletics as a whole. It is hoped that this director will be just the person for raising the standard of athletics to the necessary degree. At the present time the college is carefully considering the selection of a man who will be capable of adequately filling that position.

D. L. Sloan

We understand Professor Jones, the tennis coach, is not too well pleased with the shape of the University's courts, but that he will not make any formal complaint. As we see it, these courts have an excellent foundation, having been constructed properly at first, but we also notice that such a preliminary step has been overcast by their poor maintenance. A new surface is required, but it seems as though such a repair will be impossible due to the lack of funds. We understand, however, that steps will be taken during the holidays for putting the courts in as good condition as possible for the approaching season.

Coach Clark seems to be having difficulties since he undertook to coach the track team. It was thought that bad weather was the reason for so few candidates showing up on Frazer Field, but it now seems obvious that not many more than the present twelve or fifteen are interested in trying out for the sport. With such a small squad, Coach Clark can hardly expect to develop a winning machine and it is no wonder he is blue about the entire affair. Another mishap confronted the coach when Bob Lippincott, pole-vault candidate, broke his arm in practice. There seems to be a jinx working against the

track team this year when we remember DiSabatino's and Perkins' accidents. However, Coach Clark doesn't want a so-called jinx to keep you fellows from reporting. He needs candidates and would like to see a larger turnout. Also keep in mind that the possibilities of making the squad are greater than in any recent years.

Has the Athletic Council presented a formal and detailed report to the college requesting an additional appropriation to carry on the sports program in the proper manner? Whether it has or has not, we suggest that a move of that sort be taken shortly. With the appointment of a new business administrator, there seems to be a possibility of favorable action being taken in order to obtain more money. An additional \$500 would go far toward conducting minor sports on a more efficient basis.

Spring seems to have affected "Teedie" "Sweetpea" Wilson, who was seen showing off a floral display which he was seen "picking" from the "tablelands" of the University of Delaware.

As is the usual custom, the Interfraternity Council met and set a date for the interfraternity swimming meet. The days scheduled for the present year were March 24 to 27, and the fraternity representatives were to inform their brothers of those dates. Due, more to lack of interest than to negligence, only two fraternities sent candidates the first day of competition, when the 440 yard and diving events were to be run off. The S. P. E.'s and K. A.'s were the only frats who displayed any interest or sportsmanship. Because of such a poor showing, the two events were called off, making it doubtful whether there will be a further continuation of the program. If the "I don't feel like it" fellows would get out and make some showing for their fraternity, it would at least combat the dreaded disease (lack of interest) which threatens to wipe out any sportsmanship now present at the college. Perhaps the meet should be postponed until some of the various brothers recover from spring fever!

Quotable Quotes

(By Associated Collegiate Press)

"Instructors talk too much, regulate too much, and are too suspicious of students."—Dr. L. P. Stieg, president, University of Washington, talks about talking.

"Almost any English-speaking person can get a job in China teaching English."—William E. Daugherty, Ohio State graduate, returns from Tung Chow.

"Hell Week? The only solution is elimination." Northwestern's President, Walter Dill Scott, speaks his mind.

"Brooklyn is the graveyard of the ministry."—The Rev. Cornelius Greenway, pastor of All Souls Universalist Church, Brooklyn, sends a tip to theological students.

"Student radicals are manufactured by the hysterical regulations of the institutions in which they are enrolled."—President Robert Maynard Hutchins, of Chicago, releases the cold dope.

Phi Betes aren't social bores, says Dr. Clarence W. Young, Colgate psychologist. He's studied the question for years.

Absentminded Professor

Pulls Sad Boner

Cambridge, Mass. (ACP)—A certain young history professor of Harvard, locally celebrated for a unique absentmindedness, made what was most definitely the wrong answer the other day.

Last month the professor's wife was rewarded for years of work in the field of poetry when Scribner's published an anthology she had compiled. Through what has euphemistically been called "an act of God," the date of publication found the young woman in a hospital, having that morning given birth to a son.

The same afternoon two student friends of the professor met him and stopped to congratulate him on the blessed event. As they started to express their best wishes, the professor put up his hand, waved them away.

"Oh, don't congratulate ME, boys," he said modestly. "My wife did it all by herself. Herself, with just the help of two Dunster House tutors."

Blue And Gold Nine Will Go South Soon

Cage Lost For Season Because Of Ineligibility; Squad Shows Class In Practice

"Doc" Doherty's baseball nine is rounding into shape after a delayed outdoor practice caused by bad weather. Fundamentals of the game including bunting, batting, and base running were explained by "Doc." The equivalent of two teams had batting and fielding practice this week on the diamond, in preparation for their southern trip during vacation.

As yet, "Doc" hasn't decided on a regular team or the fellows that will make the trip, which is to begin Saturday. It is understood, however, that one infield, one outfield, three pitchers, and two catchers will compose the team. It seems to be a freshman team rather than a varsity inasmuch as six of the temporary nine belong to the class of '39.

An outstanding candidate for an infield position, Cage, will be out of the running this season, due to ineligibility. There is a possibility that several more will be lost for a like reason, but, as yet, no details have been furnished.

Strong Golf Squad Expected At Delaware

Jamison And Moore Only Lettermen Left As Swarthmore Looms As First Opponent

With prospects bright for the coming season Coach Houghton has called for practice to begin at the Newark Country Club.

Only two lettermen remain, Bob Jamison and Bill Moore. Several likely men are ready to fill the shoes of the departed players. They include Charlie Davis, George Stradley, Hayes Wilson, Bob Good, Ed Rivers, Joe Saville, Teddie Wilson, Bruz Wilson, and Jimmy Tipka.

Bob Lippincott, who expected to play golf, has broken his arm and will probably be out of action the remainder of the season.

Tipka is a former public links champ, and Ed Rivers won the caddy championship at Rock Manor, in Wilmington.

The first three matches will be with Swarthmore, Haverford and Boston U., and will take place at an early date.

Young Ladies Disturb Cadets' Equilibrium

West Point (ACP)—The "equilibrium" of United States army cadets must be preserved at whatever cost, so the two attractive young women who assisted at West Point's compulsory dancing classes last year have been banned forever.

When Mr. and Mrs. George Roberts, of Tulsa, Okla., went to the academy to teach dancing to those of the cadets who didn't know how, they took along as accompanists two young women from their dancing school. It was a good idea, but it didn't work.

"The young ladies disturbed the equilibrium of the cadets learning to dance," it was explained.

The two dancing partners who came so near upsetting the academy said they had "a swell time" and didn't notice anything wrong with their dancing partners. "It was grand," said Miss Ann Templeton. "If we disturbed their equilibrium I didn't notice it. I'd like to go back."

By Audrey Davis

The last week before vacation drags slowly on while we are rushing madly here and there trying to tie up loose ends of work before we leave. We all have enough to do to keep a twin busy also, and in a few notable cases, four quintuplets would be appreciated. We have all agreed that the vacation shall be a memorable occasion, celebrate it as we will. Personally, just plain loafing sounds like a heavenly occupation.

Jane Merritt spoke in Matins on Sunday, Mar. 22. "Modern Trends" was her subject.

The Sophomores held their annual tea dance in the Hilarium Saturday afternoon. Betty Jean Hammond was chairman of the dance. From all reports it was quite a success.

The Spring Formal held in Kent Hall on Saturday night was also a success. The Hall was attractively decorated in green and white with palms and crepe paper festoons. In the receiving line were Miss Robinson, Miss Rextrew, Miss Still, and Peg Cook. Ditter Haynes' orchestra furnished the music. Many alumnae were back.

On Monday, Mar. 23, Glee Club met at 4.10 in the Music Building.

On Tuesday there was a meeting of Puppets in Room 10, Turvey Hall, at 3.20 p. m.

On Tuesday night there was a Swimming Meet between all classes. Jean Sigler is college manager of swimming. Alma Seely, Elizabeth Taylor, and Elizabeth Vreeland are helping Miss Hartshorn and Miss Eastabrooks in scoring.

Baseball season is on. Mary Nero is college manager. Thelma Abernathy, Phoebe Myers, Dorothy Markert and Blanche Williams are the Freshmen, Sophomore, Junior and Senior representatives, respectively.

Archery, tennis and track are being planned for, and soon will be on. What a busy time ahead!

On Thursday Assembly will be held at 11.35 a. m., in the chapel, Science Hall basement.

French Club will have a social meeting in the Hilarium at 4.15. Tea will be served, and the program will consist of games and

Snooping to Conquer

By D. K.

Track

With track season almost upon us we find many zealous aspirants to this grand sport. Among the more notorious athletes is that inseparable relay team made up of Clymer and Oldman. You may see them working out any time of the day between classes when they trot between the Library and Recitation Hall. It seems that Dr. Kase must also be listed in that category of track men. He was seen running up the campus one day last week at about 8.05 a. m. It may be he had a first hour class.

Error (?)

The Temple News states that the fencing meet between Delaware and Temple on March 14th was won by Temple 9-8. This is very singular since the members of the visiting team, from their conversation after the meet, seemed to have the understanding that they had lost.

Canned Stuff

Last Friday, at lunch, inhabitants of the Lounge were surprised by Protigal and Van Sant. These two freshmen were hungry so they bought a large can of corned beef hash and came into the Lounge to eat their lunch. Van Sant wielded a can opener and soon the two boys were eating to their hearts content. Or stomachs?

Generous Soul

Generous "Zeke" Zabowski owed

songs. Lucy Messina, Regina Cohen, Margery Gregory, Amelia Kozinski and Helen Dutter are planning the program.

A Junior Class meeting will be held after assembly in the chapel.

Schnitzer 40 cents. Schnitzer demanded a show down. "Zeke" had one dollar bill. No one had change, so Zaby measured out one quarter of the bill and tore it off. He still owes Schnitzer 40 cents.

Protest

Members of the Freshman class have been asking me to take the liberty of asking a certain professor with a T. B. P. key, and another student in the former's English class to stop squabbling about Communism.

Where And Oh Where

At the annual meeting of the REVIEW staff almost everybody was present for a change, except Ely. The question was raised as to where he was. "He's down at Deer Park drinking his lunch," said Bruno. No, he probably was stumbling around mumbling, in a sing-song way, something about the pretty birds twittering in the Spring.

Nice Trick

Just before the last German test in Professor Holbrook's class, some rascalous individuals got together and put a key on the board which was supposed to clear up verb conjugation. Alas, it didn't work.

Intellectual Pursuits

In educational psychology class Professor Wilkinson was discussing intellectual abilities. A statement was made to the effect that the intellectual pursuits which are best mastered are those which are taught most. Lee piped up to say that English was taught all through school, but when coming to college, students flunked freshman English, to which Mr. Wilkinson replied that one would have to be a law moron not to succeed

Do You Want Music Courses

It has been agreed upon by the committee on courses and degrees to offer a course in music appreciation and perhaps a course in elementary harmony next year. Dean Spencer, chairman of the committee, has suggested that a reaction of the student body would be advisable.

Petitions, including one by the Glee Club, are being drafted asking for these courses. All those interested in having these courses included in next year's schedule are advised to sign it.

in English after having all through school.

Psychological Escape

It has now become a custom for Iudica and H. Wilson to "get hot," go to "town," and sing before a very difficult test which they feel sure they are going to flunk. The result is that they usually get C's.

By the way, that court martial ended up with Bleiberg winning the case, 5-2. Jamison was the surprise witness who cleared it all up for the jury.

Chemical Club Addressed By Gasoline Expert

The Wolf Chemical Club held a meeting on Thursday afternoon, March 19, 1936, at 4.15 p. m. The speaker of the day was Mr. J. E. Keyes of the Ethyl Gasoline Corporation. Mr. Keyes spoke on "Fuels and Their Relation to the Development of the Internal Combustion Engine." The talk was demonstrated by means of a one-cylinder gasoline engine on which a glass window had been installed in the wall of the combustion chamber. The glass window enabled the audience to see combustion actually taking place.

At the meeting an announcement was made by J. H. Hallett, Jr., president of the club, that the members of the Wolf Chemical Club were invited to attend a conference to be held at Haverford College in April. At this conference ten colleges will be represented.

Thirteen Yale upperclassmen will spend a week in Washington this Spring in supervised study of governmental operations.

School Principals Meet Faculty In Conference

President Hullihen, Dr. Sypherd,
And Dr. Wilkinson Join High
School Officials In Discussion

School superintendents, principals, and supervisors with some members of the University faculty met in Old College Saturday, March 21, and discussed a number of subjects pertaining to the public school system. The conference was under the direction of Dr. John Shilling, assistant state superintendent of public instruction, in charge of high schools.

President Hullihen introduced the topic, "Should the Universities' administration requirements be modified with the respect to the specific subjects required; if so, how can this be done without a lowering of the admission standards?"

Dr. W. O. Sypherd led a discussion on graduate work at the University for teachers in service in Delaware schools.

A discussion on University Extension courses for teachers for 1936-37 was led by W. A. Wilkinson.

The discussions were in charge of Samuel E. Burr, assisted by Virgil B. Wiley, H. E. Stohl, T. C. Messner, R. E. Shilling, C. W. Cummings, Gilbert Nickel, and C. E. Douglass.

Sigma Tau Phi Leads Fraternities In Scholastic Honor Roll Standing

(Continued from Page 1)

The index numbers used in his report have the following significance; the number 3 denotes an average of A (the highest possible average); the number 2 denotes an average of B; the number 1 denotes an average of C. No student who is taking fewer hours than those required in his curriculum is eligible for the Honor Roll (except students who have accumulated extra credits).

The following named students were on the Honor Roll:

Name	Class	Course	High School	Standing
1. Benson, W. K.	'37	M. E.	Caesar Rodney	3.00
2. First, H. M.	'36	A. & S.	Wilmington	3.00
3. Munroe, J. A.	'36	A. & S.	Wilmington	3.00
4. Pancoast, H. R.	'36	A. & S.	Wilmington	2.94
5. Stutman, H. S.	'39	A. & S.	Wilmington	2.94
6. Dineen, F. H.	'36	Ch. E.	Wilmington	2.90
7. Hallett, J. H.	'36	Ch. E.	Wilmington	2.90
8. Ledley, R. E.	'36	Ch. E.	Wilmington	2.90
9. Stuart, J.	'36	M. E.	Tower Hill	2.88
10. Davidson, J. E.	'37	A. & S.	New Castle	2.86
11. Gregg, W. E.	'36	A. & S.	Wilmington	2.83
12. Krapf, E. D.	'36	C. E.	Wilmington	2.83
13. Baldwin, W. P.	'36	A. & S.	Wilmington	2.81

Debaters Meet Vermont In College Hour Tilt

Question Of Socialized Medicine Argued Before Student Body; Delaware Takes Affirmative

On Tuesday, March 24, during the College Hour period, the University of Delaware debating team was host to the team from the University of Vermont on the subject, "Resolved: that the several states should enact legislation providing for uniform medical care for all at public expense." Vermont's team is making a tour of South-eastern states debating with a total of eleven colleges and universities.

Delaware's team, composed of Collins Seitz, Joseph Scannell, and Jean André (alternate), upheld the affirmative while the negative was defended by Fred W. Zimmerman and Christian Gronbeck of Vermont. This was a non-decision debate conducted according to the Oregon plan of debate.

The affirmative constructive speech was given by Scannell. In it, he pointed out the inadequacies of the present system. He indicated the paradox of millions of people, on the one hand, unable to secure the medical attention which they need and of thousands of doctors, on the other hand, who are prevented by the present system of distribution to dispense the services which they have available.

Many of the doctors, he showed, are unable to earn a living—six hundred of them having been on the relief rolls of Chicago at one time. His speech was concluded by his showing how the affirmative proposal of state medicine would alleviate this situation.

Gronbeck, the negative constructive speaker, accused the affirmative of exaggeration in their statement of the conditions. He offered statistics to prove that only two per cent of the people don't get the care which they need. For these comparatively few, he stated that clinics are already being provided. It is unnecessary to have a complete upheaval of the whole medical system just for these few. The chief objection which he raised against state medicine is that it would destroy the intimate relationship which now exists between doctor and patient. "Would you have a politician pick your physician if you were ill?" was the question he asked the audience.

In the cross-examination, Zimmerman, of the negative, attempted to draw an admission from Scannell that the affirmative proposal would increase the cost of medical care to the American people. Scannell denied this, claiming that the additional expense of caring for those at present uncared for would be more than compensated for by generally increased efficiency.

Seitz, in cross examining Gronbeck, tried to bring out two points. First, he got an admission that there would be as much personal contact between doctor and patient

Sigma Tau Phi Leads Fraternities In Scholastic Honor Roll Standing

(Continued from Page 5.)

school who were on the Honor Roll.

Tower Hill, 3 (100%); Claymont, 4 (50%); Smyrna, 2 (50%); Felton 3 (33⅓%); New Castle, 7 (29%); A. I. duPont, 12 (25%); Newark, 44 (23%); Caesar Rodney, 5 (20%); Wilmington, 211 (18%); Lewes, 6 (17%); Milford, 6 (17%); Dover, 2 (13%); Salesianum, 16 (13%).

Name	Class	Course	High School	Standing
1. Barry, D.	'38	A. & S.	Boro Hall Prep.	2.80
2. Roberts, W. B.	'38	Ch. E.	Brooklyn, N. Y.	2.58
3. Derickson, R. B.	'39	Ag.	Port Deposit, Md.	2.40
4. Moore, H. C.	'38	A. & S.	Wilmington	2.29
5. Hoffman, R.	'39	A. & S.	Middletown	2.14
6. Mai, W. F.	'38	A. & S.	Newark	2.14

under state medicine as in the clinics upheld by the negative. His second point was that since health is more important than education, the state is more obligated to provide medical care than it is to provide the system of education which it does at present.

The summaries were presented by Zimmerman and Seitz. Mr. Lawrence Willson, of the English Department, was chairman of the debate.

Benson Gains Presidency In Tau Beta Pi Elections

Wilmer K. Benson, Jr., was selected new president of Tau Beta

Fourteen other high schools and preparatory schools of the state were represented by students in the college but not on the Honor Roll.

The following named students earned an average of B or better but were not placed on the Honor Roll because they were taking short schedules and had not accumulated extra credits:

Pi at the annual election held March 24, 1936. He is a prominent student engineer and has also been elected president of the A. S. M. E. for the coming year.

Other officers are: Wilmer A. Hoffecker, Corr. Sec.; H. Kent Preston, Rec. Sec.; John C. Geist,

aroma...it's as much a part of Chesterfield as the taste

*Did you ever
notice the difference
in the aroma of
Chesterfield tobacco?*

Every person who knows about tobacco will understand this... for to get a pleasing aroma is just like getting a pleasing taste from fruit.

Mild ripe tobaccos, home-grown, and welded with the right kind of tobacco from far-off Greece and Turkey (Samsoun, Smyrna, Xanthi and Cavalla)...

*...that's why Chesterfield
has a more pleasing aroma.*

...with that pleasing aroma

Collegiate Digest

NATIONAL COLLEGE NEWS IN PICTURE AND PARAGRAPH

Issue 22

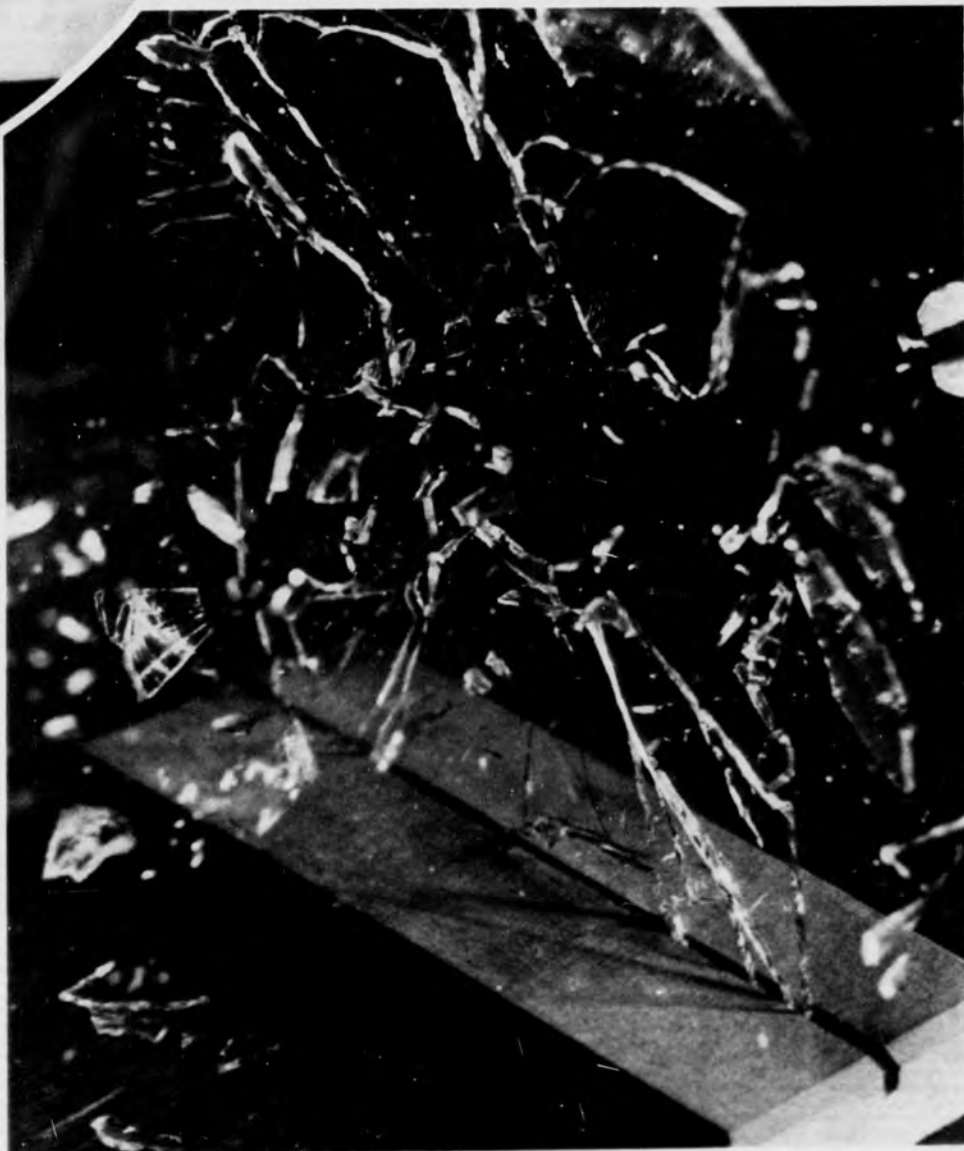

CHAMPION TIMBER TOPPER Sam Allen of Oklahoma Baptist College is the holder of the 120-yard hurdle record.

SOMETHING NEW in collegiate athletic circles has developed at Southwestern University (Memphis), where Rudy Gartside has announced that his services as a football and basketball star are worth more money than he is now getting. He is refusing to enroll for the second semester unless authorities make him a better offer. What the alleged original offer was was not revealed.

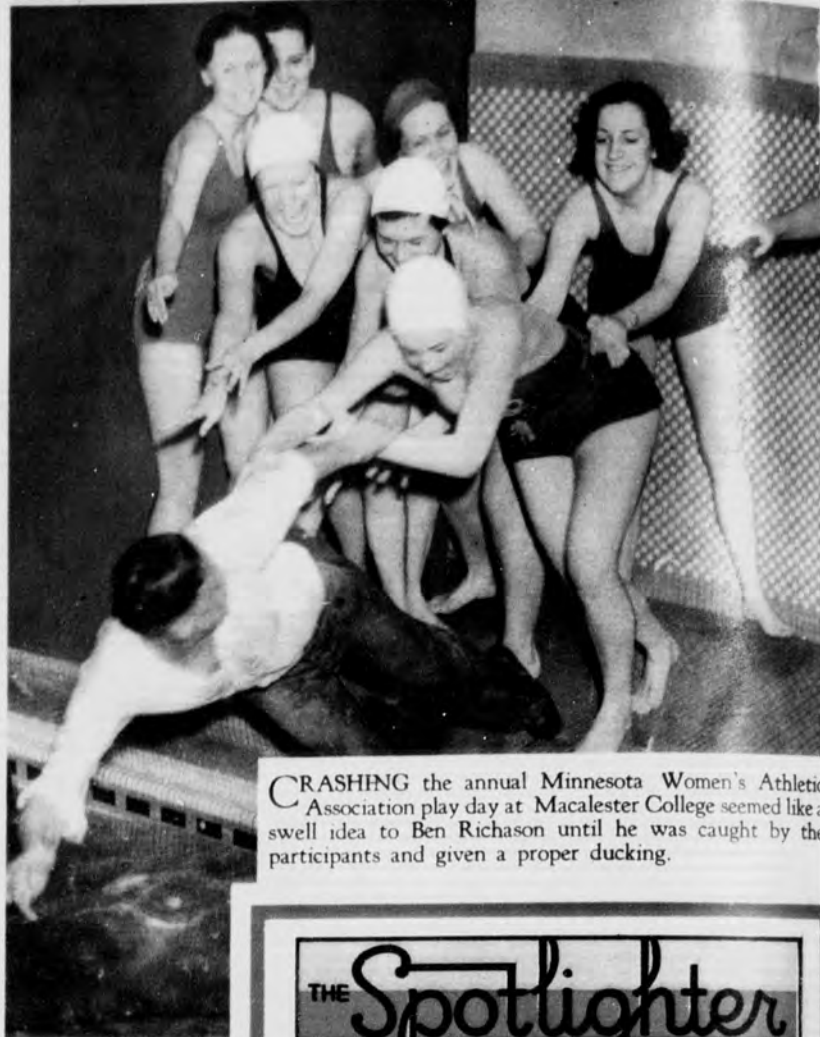

THE PAINKILLER REALLY WORKS, Newspaperman Ed. Johnson recovered after he made the above trial of the new solution compounded by California University's Dr. LeRoy Hartman. The solution (ethyl alcohol, sulphuric ether and thymol) kills the pain in the dentine and is effective in an hour. However, the University of Michigan's Dentistry Prof. J. B. Meserich says it works effectively in only five cases out of a 100. For details in *The Spotlighter*, page 2.

CRASHING GLASS looks like this when it is shattered by a revolver bullet. This unusual photo was made by Profs. H. E. Edgerton and K. J. Germeshausen, Massachusetts Institute of Technology engineers, with a camera working at an exposure of $1/100,000$ of a second.

AIRPLANE MECHANIC TURNS PROFESSOR - George C. Haffley leaves his airport to accept the appointment as instructor at the Sacramento (Calif.) Junior College. He will teach aeronautical engineering.

CRASHING the annual Minnesota Women's Athletic Association play day at Macalester College seemed like a swell idea to Ben Richason until he was caught by the participants and given a proper ducking.

ALICE GRIFFIN is the first Loyola University (Chicago) woman student to be a member of a committee to plan an all-university event. A recent ruling of the Loyola Union rescinded a law which said, in effect, "woman's place is in the classroom."

SENATOR Joseph T. Robinson, democratic floor leader, told Henderson State Teachers College (Arkadelphia, Ark.) students all about the New Deal and Washington politics when he addressed a meeting of their Young Men's Democratic club.

THE *Spotlighter*

Kills Dental Pain

IN HOWLING school lad and burly truck driver alike there exists a common fear, that of the dentist's drill rasping through dentine in seeming horrible search for the nerve. No lean scholar is Dr. LeRoy L. Hartman of Columbia's dental school, yet from his laboratory he has come forth with a discovery that entailed twenty years of research. As a consequence, the dental bogey man, pain, is now gone, and dentists everywhere are polishing tools for emergence out of the depression. Dr. Hartman has developed a chemical which, applied to the tooth, almost instantly kills its entire capacity for feeling. It leaves no after-effects.

Graduate of Northwestern University's dental school in 1913, Dr. Hartman interrupted private practice in Seattle to go to war. On his return he assailed dental pain. Now ready for general use, his "desensitizer" will be made available to the unmonied through patent control by Columbia University. In the gallery of benefactors of humankind, Northwestern's and Columbia's Dr. Hartman's portrait will look out with a bluff twinkle that for once does not give the dentist's false assurance.

Third-molar Student

AS DEEP-VOICED as Dr. Hartman and as hale and hearty is Dr. George B. Winter of Washington University school of dentistry, St. Louis. Like his confrere, Dr. Winter has been a relentless scholar. The object of his study for eighteen years has been the impacted third molar. No cruel chiseling of the tooth is Dr. Winter's method. From X-rays he builds a painstaking campaign of removal.

But Dr. Winter remained long a prophet without honor in the profession. He lectured on the one tooth in America and England. He wrote a 835-page volume and made sound movies to show how the offending wisdom tooth can be quickly extracted without the usual danger and butchery. Once taken for a quack, so revolutionary was his discovery, he is now president of the American Dental Association, and owns the 1933 Newell Sills Jenkins award for "outstanding contributions to dental science," for all of which Dr. Winter, who likes wrestling, has been a persistent and wordy man.

FOR DIGESTION'S SAKE —

smoke Camels

Smoking Camel Cigarettes Aids in Assuring Natural Digestive Action

THERE'S AN OLD COLLEGE SAYING that it's a great life if you don't weaken! The demands on time and strength are endless. Digestive upsets are a frequent result! So smoke Camels for the sake of good digestion.

"Hurry—hurry—hurry" seems to be the order of the day. People get caught in the lockstep of modern life. Tension finds the weak spot, so often—digestion. Smoking Camels improves digestion... wards off the consequences of hurried, nervous liv-

ing. Camels stimulate digestive action—promote the feeling of well-being so necessary to proper assimilation.

Camels set you right! In smoking Camels for digestion's sake, you may enter a whole new world of smoking pleasure.

Copyright, 1934, R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

HERE DELICIOUS FOODS TEMPT APPETITE—the famous Gold Coast Dining Room (above) at the Drake Hotel in Chicago, where the art of presenting luxurious foods with deft service is developed to the heights of perfection. Here—as a fitting accent to the scene—the fragrant, delicate smoke

of Camels rises, while Erik, famous *maitre d'hôtel*, watches alertly over all to see that no wish goes unsatisfied. "So many of our guests smoke Camels," Erik says, "for they have found that choice tobaccos add to the pleasure of the meal. Camels are tremendously popular—a leading favorite here."

MAIL GOES THROUGH! It's often a struggle for F. B. Fowler on Star Route No. 1392, Maine. "It's eat-and-run with me," he says, "but I always stop off with Camels. Camels are good for digestion—help along the natural processes—and certainly have a great flavor!"

HARD HITTER. Jane Sharp, tennis champion, plays a smashing game that carries her to the limits of exhaustion—often makes digestion a real problem. "Smoking Camels," she says, "makes food taste better—helps me to digest my meal. And Camels taste grand!"

TUNE IN!

Tuesday and Thursday—9 p.m. E.S.T., 8 p.m. C.S.T., 9:30 p.m. M.S.T., 8:30 p.m. P.S.T.—over WABC-Columbia Network.

COSTLIER TOBACCOS!

Camels are made from finer, **MORE EXPENSIVE TOBACCOS**—Turkish and Domestic—than any other popular brand.

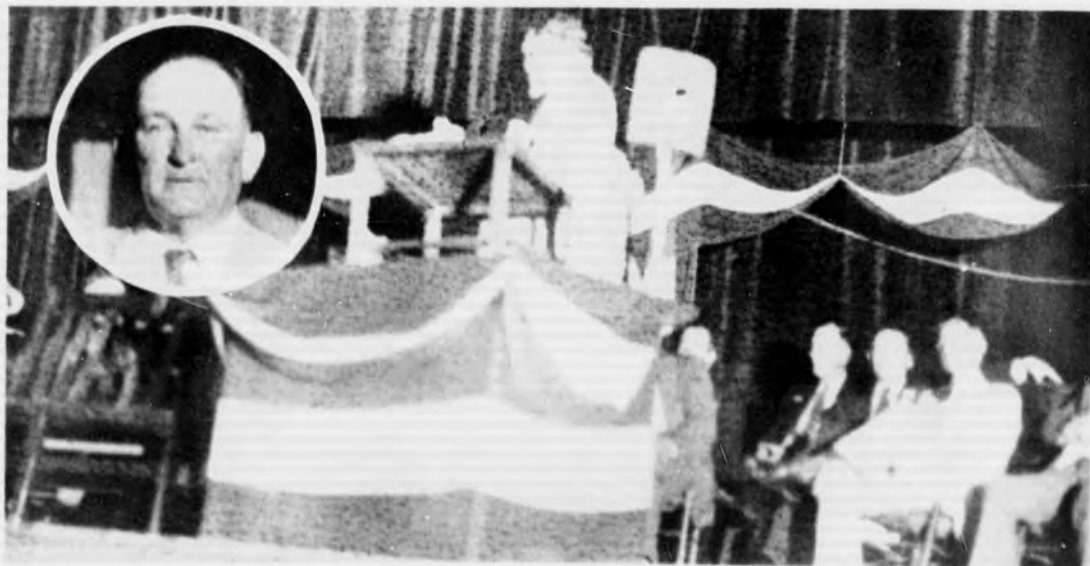

AIRPLANE MECHANIC TURNS PROFESSOR—George C. Hatfield leaves his airport to accept the appointment as instructor at the Sacramento (Calif.) Junior College. He will teach aeronautical engineering.

CRASHING the annual Minnesota Women's Athletic Association play day at Macalester College seemed like a swell idea to Ben Richason until he was caught by the participants and given a proper ducking.

Alice Griffin is the first Loyola University (Chicago) woman student to be a member of a committee to plan an all-university event. A recent ruling of the Loyola Union rescinded a law which said, in effect, woman's place is in the classroom.

SENATOR Joseph T. Robinson, democratic floor leader, told Henderson State Teachers College (Ark.) students about the New Deal and Washington politics when he addressed a gathering at their Young Men's Democratic club.

THE *Spotlighter*

Kills Dental Pain

IN HOWLING school lad and burly truck driver alike there exists a common fear, that of the dentist's drill rasping through dentine in seeming horrible search for the nerve. No lean scholar is Dr. LeRoy L. Hartman of Columbia's dental school, yet from his laboratory he has come forth with a discovery that entailed twenty years of research. As a consequence, the dental bogey man, pain, is now gone, and dentists everywhere are polishing tools for emergence out of the depression. Dr. Hartman has developed a chemical which, applied to the tooth, almost instantly kills its entire capacity for feeling. It leaves no after-effects.

Graduate of Northwestern University's dental school in 1913, Dr. Hartman interrupted private practice in Seattle to go to war. On his return he assailed dental pain. Now ready for general use, his "desensitizer" will be made available to the unimpaired through patent control by Columbia University. In the gallery of benefactors of humankind, Northwestern's and Columbia's Dr. Hartman's portrait will look out with a bluff twinkle that for once does not give the dentist's false assurance.

YES, IT'S LEAP YEAR, but that doesn't make it any easier for Neil Meagher and Carl Nydegger, University of Portland freshmen, to answer the deluge of letters that swept down upon them when a prankster submitted their names to a matrimonial bureau.

BASKETBALL'S INVENTOR, Dr. James Naismith of the University of Kansas, will be honored by the nation with a trip to the 1936 Olympic games at which basketball will be played for the first time. One cent from each admission to basketball games played during a week in February financed the gift.

THE UNIVERSITY OF PENNSYLVANIA, originator of the movement to place student unions on college campuses, has introduced a new custom of "coffee hours" to promote better feeling between faculty and students.

Discover New Bacteria Forms in Ocean Bottom

THROUGH the analysis of long cores of marine sediments taken from oceanic basins over a mile deep, Dr. Claude E. ZoBell and his associates on the staff of the University of California's Scripps Institution of Oceanography have found living bacteria unlike any described species on land and which probably represent one of the most primitive forms of life on the earth. The bacteria, long-buried by falling sediments and held in a state of suspended animation for thousands of years, have been revived by Dr. ZoBell and made to live in the air at room temperatures. The boat *Scripps*, the unique floating laboratory from which the samples were collected, is shown at the right.

Mud cores taken from the ocean's bottom are transferred to sterile bottles for safe-keeping until ready to be studied.

Dr. ZoBell, who has had charge of the revolutionary discoveries.

Hauling a three-foot mud core aboard the *Scripps*. It often took more than two hours to hoist the pipe and its precious sample of ocean bottom from the one mile depth to which it had been lowered.
