

# Delaware's Top Crime-Fighters

While serving as Chief of Police for the NCCo Police Department, Tom Gordon worked hand-in-hand with Sen. Joe Biden to help write the Crime Bill. As County Executive, Tom was asked by Sen. Biden to testify before a Senate Subcommittee on the success of the COPS program and its lowering of the crime rate in NCCo by one-third.

Public safety has always been a top priority for Tom Gordon. He recognizes the increasing crime rate in the county, and will provide increased services for a better, safer society for the great residents of this county.

# **Crime in New Castle County is out of control**

**Homicides - to date, up 260% from 2004**

**Assaults - up 19% in the last 4 years**

**Robberies - up 35% in the last 4 years**

**Burglaries - 75% go unsolved**

**In 2007, 60% of robberies went unsolved.**

**Identity cases receive almost no attention.**

**Property crimes - without a suspect, there is little or no investigation.**

**Vehicle thefts - up 19.8% from 2005-6, the fastest growing rate in the nation.**

**Criminals are showing an increasingly greater disrespect for life, and the number of guns on the street is increasing dramatically.**

**Due to inadequate staffing, 150 calls to 911 went unanswered in July, 2008!**

**NCCo Police is certified as one of the best departments in the nation, and they need the assistance of Tom Gordon to help them obtain the needed resources to combat the out-of-control crime rate in NCCo.**

**This election is about you, your safety, and your community.  
The choice is clear.  
Tom Gordon is the only choice.**

**The race for County Executive will be decided at the primary election on *Tuesday, September 9th*, not in November. Your vote for Tom Gordon is critical for the successful future, safety and well-being of all the valued residents of New Castle County.**

***Tom needs your vote on Tuesday, September 9th, and you need Tom!***

# Cap & Trade will raise your utility bills and cost our country two million jobs – yet John Carney supports it.

## Cap and Trade will cost families money.

It's been estimated that Cap and Trade will cost your family an average of \$1,761 a year in higher gas and utility bills.

## Cap and Trade will cost U.S. jobs.

Our economy will lose up to 2,300,000 jobs according to the National Association of Manufacturers.

## Cap and Trade creates additional government spending.

The U.S. Treasury predicts the cost of cap and trade legislation will equal all other environmental regulations combined.

## Why is John Carney in favor of this job-killing bill that will hurt every American family?

Because he figured out how he could profit from it.
