Home Management Specialist Reports Interest Increase

"Interest in family living in this generation would surprise our parents and grandparents."

"Family life in adult education has shown a sharp upward trend," says Miss Louise R. Whitcomb, home management specialist of the Delaware Agricultural Extension Service.

Adult homemaking education is helping this generation adjust to the fact that families are not held together by economic necessity as in the past. Nowadays parents must put emphasis on bonds of affection, understanding, and a knowledge of the family's importance in maintaining our democratic way of living.

Miss Whitcomb says that besides special programs, family living is worked into programs in housing, clothing, and feeding the family.

Delaware Home Demonstration work is following this national interest trend. Clubs, and county and state Home Demonstration councils have family life chairmen. State chairman is Mrs. Jonathan Willis, of Milford.

HISTORICAL REVIEWS OF THE NEWARK AREA

by Ethel M. Hill

From time to time, Mrs. Hill's articles concerning Newark's interesting historical background will appear in the pages of the Post. Your comments and suggestions will be appreciated by the writer.

Do you remember the Bee Hive, a large stone house at the foot of the hill just before you cross over the Paper Mill covered bridge?

It had been rented out in two or three rooms to a family, and when it last existed, it was amazing how many families it held, and how much commotion they could cause. It had not always been like this. It was the house for the Dean farm cultivated by John E. Lewis, a man who has done much for this town. He afterward lived in the Uptown School House and later bought the Deer Park Hotel.

The old Dean barn was turned into the creamery where most of the farmers took their milk, and where Mr. Dawson made such fine butter.

When the demand for milk became greater, the creamery was given up and Mr. Thompson opened a cannery in the big barn. Through the summer a company of Polish people from Baltimore came to Newark and helped in the canning of corn and tomatoes.

The whole party lived together (about 50 families) in the phosphate house on Pomerooy Railroad.

At the corner of Main St. and Depot Road, now S. College Avenue, was the lively stable of Evan Lewis, at one time a hotel—The Delaware House.

Everett Johnson started the Newark Post here and his style was so entertaining that it became a great success. Later he built "Kells", the building at the corner of Depot Road and West Park Place. He was a progressive man and his paper showed his keenness of thought.

Just before the Spanish-American War we were excited by the steady line of soldiers, cavalrymen and big wagons of supplies that poured through town. Young men were enlisting and in the evening everyone who could, went to see them encamped on a meadow on the Elk just beyond Appleton.

I remember going with a party of young people in a Deighton wagon drawn by a white horse and I shall never forget when one soldier, seemingly addressing the moon said "How cheerful the campfires look tonight!" But we were youngsters and too shy to respond.

BY LOTTERY

According to Coast Guard records, several of the early lighthouses built in the American colonies were financed through lotteries, among them New London and Sandy Hook. Upkeep was paid by imposition of a tax on vessels entering and leaving port.

The new bathing suits are like a crime with no clues—a guy doesn't know where to begin to look.

SERMON OF THE WEEK

By Bernard R. DeRemet

Moody Bible Institute, Chicago

A 29-year-old doctor in a mid-western city recently gave his wife and baby lethal doses of poison, then shot himself to death in their apartment. That was the finding of the coroner's jury at the inquest into the triple tragedy.

The doctor was described as "definitely mentally insecure" by another doctor, a close friend, who said that the dead man had felt insecure in facing the realities of life.

How different the story might have been had the young doctor come to know the peace of God! The Bible commands Christians, "Stop being worried about anything, but always, in prayer and entirety, and with thanksgiving,

keep on making your wants known to God. Then, through your union with Christ Jesus, the peace of God, that surpasses all human thought, will keep guard over your hearts and thoughts" (Phil. 4:6, 7, Williams translation).

Certainly in today's world there are many occasions for anxiety, worry, feelings of insecurity. In fact, scarcely a day goes by without our encountering frustration in some form. How we adjust to that frustration is very important. The late doctor apparently reached the point in his anxiety neurosis where he couldn't "take it" any longer, and committed double murder and suicide as a result.

Yet in the midst of such conditions, God promises that the person who trusts Him fully will be given strength daily, hourly, momentarily, for all needs. Indeed, "Thou wilt keep him in perfect peace, whose mind is stayed on thee, because thou art holy" (Isaiah 26:3).

High School Faculty Post Offered Parisian Scholar

After considering applications for a high school teaching position in an offer has been tendered to Miss Norma Zampolady, of Wilmington, by the Newark Public Schools.

Miss Zampolady, a Fullerton, California, is currently studying at the University of California, Los Angeles.

Not everyone has the right to claim this position, however, it is one that is held by God, and it is a faith in the Lord Jesus Christ, who must first come to know peace and God's love. Then you will be able to overcome the power of God, so greatly needed today.

25 YEARS AGO

School Safe Crackers

Crackmen visited Newark Saturday night and after being frightened away by a watchman from their intentions to a safe in Wolf Hall, forced their way into the Newark Public School office and rifled the safe there.

The intruders got little for their pains as the school safe yielded less than \$3 in small change.

VFW Plans War Monument

The monument committee of the Lt. J. A. O'Daniel Post, Veterans of Foreign Wars, discussed plans for erecting a suitable monument in honor of the heroic dead.

Wm. H. Rupp, commander of the post, said: "The Veterans of Foreign Wars was organized a generation ago to commemorate the heroic deeds of America's sons who served beyond the borders of our native land. Within our ranks are comrades who served with Scott and Taylor in old Mexico; with Dewey and Lawton in the Philippines; with Schley and Roosevelt at Santiago; and those who gave new lustre to our nation's valor by their deeds at Belleau Wood, the Argonne, and all along the battle lines of our Republic in the Great World War. Therefore, it is not proper that the Town of Newark have a suitable monument erected to honor the heroes of these wars, including the Civil War Veterans of Newark."

FISH FILLETS — PLENTIFUL FOOD

Cod, haddock and ocean perch fillets are exceptionally plentiful now. These flaky, tender fish fillets with a special stuffing can go right from oven to dinner table. Parsleyed potatoes complete this dish.

Supplies of frozen fish fillets are at an all-time high, says the National Fisheries Institute. And when an inexpensive food becomes extremely plentiful, that's really good news for American housewives. Since these fillets, or stuff them—you'll be proud to serve either of these nutritious, delectable dishes to your family.

Stuffed Fish Fillets
Let 2 packages frozen fish fillets thaw on refrigerator shelf or at room temperature. Separate fillets. Arrange half of fillets close together in greased baking dish. (Dish that can go from oven to table is best.) Melt ½ cup butter or margarine in saucepan. Add 1 small onion, minced, and sauté until tender. Stir in 4 cups soft bread cubes, 6 almonds (sliced) and juice of ½ lemon. Season to taste with salt and pepper. Cover fillets with stuffing and top with remaining fillets. Bake in oven for 10 minutes, or until fish flakes easily when tested with a fork. Makes 4 servings.

Fish Fillets Pancho
Let 1 package frozen fish fillets thaw on refrigerator shelf or at room temperature. Put 1 tsp. cooking oil in heavy frying pan or sautépan. Place pan over heat and when oil is hot, add 1 clove garlic (diced) or 1 small onion (diced), and brown slightly. Add 1 small can tomato paste or sauce, ¼ cup diced celery, ½ green pepper (diced), 1 cup chili powder, ½ tsp. pepper, ½ tsp. salt. Separate fillets and add to sauce. Cover and let simmer for about 10 minutes, or until fish flakes easily when tested with a fork. Makes 4 servings.

HOW TIMES HAVE CHANGED!

American retailing has made enormous advances in its services to the consumer and its employment policies have shown comparable progress.

An amusing and significant example is found in a set of rules posted in an Illinois store back in 1880. These included the following: "Store must be open from 6 A.M. to 9 P.M. the year 'round. Store must be swept; counters, shelves and showcases dusted; lamps trimmed, filled and chimneys cleaned; doors and windows opened; a pail of water and a bucket of coal brought in before breakfast. The employee who is in the habit of smoking Spanish cigars, being shaved at the barber's, going to dances and other places of amusement, will assuredly give his employer reason to be suspicious of his integrity and honesty. Each employee must pay not less than \$5 a year to the church and must attend Sunday School regularly. Men employees are given one evening a week for courting. After 14 hours in the store the leisure hours should be spent for the most part in reading."

That was the situation 73 years ago. In retailing, as in other enterprise, the lot of the American worker has improved.

GREAT LOGIC

A few weeks ago President Eisenhower discussed, at a press conference, certain cuts in defense expenditures he is recommending. He vividly described the philosophy that governs his thinking in these words: "I have always . . . believed that there is a great logic in the conduct of military affairs. There is an equally great logic in economic affairs. If these two logical disciplines can be wedded, it is then possible to create a situation of maximum military strength within economic capacities."

"If, on the other hand, these two are allowed to proceed in disregard one for the other, you then create a situation either of doubtful military strength, or of such precarious economic strength that your military position is in constant jeopardy."

The President thus said, in effect, that a sound government economy is as important to our defense and survival as actual military power—and that reckless, unbridled spending can be as dangerous as a foreign foe. That is as refreshing and as important an attitude as we have seen in high places in government in many a long year.

REFINISH YOUR OWN FLOORS

Dusting 'Em Off

By E. A. RAUGHLEY

The Phillies fans are really singing the blues these days. They laughed at the A's followers when their team was in a slump and lost six or seven straight. Then the Phils hit the dust five straight times and to make matters worse, three of them were lost to Brooklyn. Even the big boys, Roberts and Simmons, were mistreated by the Dubs, who just did not seem to know that they were seeing the league's leading hurlers.

One particular game up there at Connie Mack Stadium was really a weird affair. The Bums scored 12 runs in one inning before a man was retired. Manager O'Neill did some squirming that time.

However, the real fireworks took place during a Sunday game. On the firing line for Brooklyn was Russ Meyer, late of the Phillies. From the start of the game he and the umpire did not agree on the call of his pitches. So in the third or fourth inning to show his displeasure he picked up the rosin bag and threw it up in the air. In coming down it landed on top of his headpiece and as one writer remarked, gave him a sort of halo.

Well, the ump had no recourse but to put him out of the game and that he did right quick. The rule book says that throwing any part of a player's equipment must be followed by the ejection. Brother Meyer stood right up to the ump and on his way to the bench stopped for a few more choice remarks. All the time the TV camera was following him and when he got to the bench he took a turn at the water cooler. On his way to the clubhouse he gave the fans back of the bench a going over along with a few pantomime gestures.

Now the ump did not see any of the goings on by Meyer so he could not report on them. But the thousands who were watching on the screens saw plenty. For all this Meyer got set down for three days without pay and was fined \$100, which he had to pay himself.

It would make for a better game if players like Meyer were not allowed to perform where they are going to make the fans sore. It's Gus Fan who pays the freight for the players.

Athlete's Troubles
The A's are really having trouble and plenty of it. In addition to losing ball games they are now losing pitchers. The first to hurt his arm was little Bobby Schantz, who complained of a pain up in Boston and had to be taken out of the game. Then in the same town, Fricano pulled up with a muscle injury to his throwing arm. However the ray of sunshine is that Jimmy Dykes has an opportunity to see what his other pitchers can do.

With the coming of hot weather look for the A's to really get up and win a lot of ball games. They have a lot of veterans on the club, and as a rule are slow starters and fast finishers. One of the bright spots has been the hitting of Peter Suder, who is hitting about 100 points better than usual.

Supreme Court
An item in the papers states that the U. S. Supreme Court has agreed to give a look at the reserve clause in the players contracts. This has been a point much kicked around in the years that the game has been played as a pro sport. The idea was to give protection to the poor clubs of the league, in that it reserved for them the players they had under contract.

For instance, the Browns may have a pitcher with a high winning average. Without the reserve clause, at the end of his contract year, the player could sell his services to one of the richer clubs and get a fat contract. Now this player will have an opportunity to say why and get it listened to by the highest club in the land.

Without the reserve clause, the clubs say they might as well shut up shop and cease operations. We'll wait and see what happens.

"200" Club
Kiner has joined the 300 Club—that is, players who have hit 300 or more home runs in their career in the majors. The next objective for him is the record of Roger Hornsby who hit 302 to lead the National League sluggers. Hornsby hit his over about 18 years and Kiner has reached that total in seven. He should set a real record by the time

Nelson Completes 2nd Winning Year As Sport Director

Delaware Has Two of Best Annual Records in History Of Blue Hen Athletics

No one is likely to criticize David M. Nelson, the capable director of athletics at the University of Delaware, if, for the next few weeks, he wears a satisfied smile before turning to the business of football practice.

Nelson arrived at the Newark campus to take over athletic leadership for the 1951-52 season and is still going strong. The two years of his tenure have been two of the three most successful in the long sports history of the University of Delaware and indicate the sound guidance of "Admiral Dave" and his coaching staff as well as the increasing prowess of Blue Hen athletes in almost every form of endeavor.

In 1952-53, six of the teams showed winning seasons, four were short of the .500 mark, and one broke even. Of the 124 contests played by these eleven teams, the Blue Hens scored 68 victories against 55 losses and one tie. The most impressive showings were made during the winter season when Delaware's basketball, swimming, and wrestling teams proved almost unbeatable.

Wrestling coach of the year was the wily veteran Fred Emmerson, whose basketball team copied its second successive Middle Atlantic States Collegiate Athletic Conference Southern Division Basketball championship while posting an 18-7 record. Emmerson was also on hand at the 18th green to collect the scorecards of his smooth-swinging golfers, who captured 8 of 10 matches. The combined efforts of the two squads gave him 26 victories against only 9 losses.

Freshman sports also flourished, giving indication of continuing success in the next several years. Yearling squads won 26, lost 13, and tied 2 games, with the basketball five under the direction of Bob Siemen and Lev Wisniewski accounting for half of the victories.

Athletic Director

Ray Ciesinski

A member of the Newark High School faculty, and head basketball coach, Ray Ciesinski has accepted a position as head of the physical education department at the high school.

Fred Sposato, head football and baseball coach, recently resigned as athletic director to accept a position in private industry.

Both Ciesinski and Sposato were star athletes at the University of Delaware.

Speaking of homers, I noticed an item that said Clyde Vollmer of the Senators hit a homer the first time he looked at a major league pitcher. Some swat. But it will be a long day until the record set by the Bambino is even threatened.

The races in both leagues are tightening up a little. With the June 15th trading deadline looming up, look for a few trades to be made. The one that persists is the one that sends Houtteman of the Tigers, to the Yanks for Noren, a pitcher, and that well known ball player, Cash. Houtteman is having a so-so season and Noren never quite came up to the Yankee standard.

Blue Chicks' Grid Schedule To Offer Plenty of Action

Freshman football players entering the University of Delaware for the 1953 season will play one of the most challenging schedules in recent years under the guidance of head coach Jimmy Sullivan. Sullivan, a former star lineman and captain for the University of Maine, led his team to a 3-1 record last season and developed several good prospects for this year's varsity team. Prior to the opening of the freshman season, he will work with the varsity in fall practice sessions.

In 1953, the Blue Chicks will play all of the opponents met last year and add a sixth rival, Wesley Junior College of Dover. The complete schedule follows:

Oct. 10—Bainbridge Naval Prep (H)	Oct. 16—Temple Freshmen (A)
Oct. 23—Lafayette Freshmen (H)	Oct. 23—Lafayette Freshmen (A)
Nov. 7—West Chester JV's (A)	Nov. 14—Wesley Jun. Col. (H)

Little League Players Underway in Newark

Going into the second week of play, the Little League-leading Tigers tangle with the cellar-rattling, untested Browns, and the youthful Cubs and Phils engage each other in a pair of contests at the Barksdale Road diamond, on Friday evening.

Newark's Little League, which was organized by the Kiwanis Club, is sponsored by six local groups.

\$25,000 Kent Tops Week's Race Card At Delaware Park

16th Running of Stakes Draws 84 Nominees From Leading Thoroughbreds

Large fields are in prospect for the major stakes event being renewed this week at Delaware Park. The top offering on the agenda is the \$25,000 added Kent Stakes, to be run Saturday at the mile and a sixteenth distance, for three-year-olds. The 16th running of this special drew 84 nominations, the list exceeding that for last season and 1951.

Among the interesting nominees for the Kent are such well known sophomores as Bruce S. Campbell's Ram O'War, Brookfield Farms' Isasmoothie, C. V. Whitney's Fly Wheel, Rocky Stables' Magic Lamp and V. T. Saxon Stable's Invigorator. Maine Chance Farm's Smart Apple, Belair Stud's Game Chance, and others above average.

Investigator won the recent Peter Pan at Belmont Park. He, like some of the other Kent eligibles, also is nominated for the Belmont Stakes, third of the Triple Crown events, which will be run the same Saturday. However, reports from New York say Investigator will choose the Kent that day. The Delaware special appears certain to draw the larger field.

On Saturday, there will be a solid hour of either television or radio entertainment emanating from the Stanton track. The Kent will feature the first telecast ever to go out from the State of Delaware on a coast-to-coast basis. The race will be screened by NBC-TV and also broadcast by ABC radio from 4 to 4:30 PM (EST).

Immediately following, from 4:30 to 5, will be the third of Delaware Park's "In the public interest" Saturday programs aired by Wilmington's WDEL, WILM and WAMS, plus WDOV Dover and WJWL Georgetown.

The race featured on this Delaware program is the Fairy Chant Purse. The guest speaker on that phase of the broadcast devoted to worthy causes will be Dr. M. A. Tarumoto, superintendent of Delaware State Hospital, to discuss activities of the Mental Health Association of Delaware, Inc.

KID'S TREASURE
Conant Island, Jamestown, R.I., is the location of America's oldest lighthouse. Many claim that Captain Kidd's treasure is still buried on the island.

Bernauer to Leave Physical Education Post at Delaware

Edmund Bernauer, assistant coach of track and cross country and an instructor in the physical education department, is leaving the athletic staff.

The popular Bernauer joined the Delaware coaching clan in 1951 when Coach Curtis R. Rylander was re-called to active duty with the U. S. Infantry. With Rylander's return in September of 1952, the staff was expanded past its normal limit.

It is with considerable misgiving that the coaches, students, and fans witness Bernauer's departure. He has been an excellent worker in several varied fields of endeavor. Track and cross country teams with which he has worked during the past two seasons have won 18 of 22 meets. He was head trainer of athletics for the 1952 season and resident advisor for the training house dormitory.

One of his non-athletic functions was the initiation of the popular co-educational recreation program of the past two years. In spare moments, he conducted cardiovascular research on cross country runners, the findings of which have not yet been published.

In the coming summer season, he will serve as assistant director of the Thunderbird Camp, located north of Minneapolis, Minnesota.

Hen Varsity Team Captains Elected For '53-'54 Season

Frank White to Lead Basketball, Tennis Teams; Bernauer Heads Gridders; Annonio, Serpico Baseball Co-captains; Bill Reybold to Skipper Cross Country, Track Squad

University of Delaware athletic teams have elected their captains for the 1953-54 season and those not previously announced are members of spring sports teams.

Frank White, already named varsity basketball captain, will have a dual leadership function to perform as head coach of Coach Roy Rylander's tennis team. White, Delaware State singles champion, was the lone player to post a winning record in 1953, topping eight of nine rivals faced.

Bob Siemen's baseball nine elected co-captains in infielder Bill Annonio and catcher-outfielder Frank Serpico.

Annonio played third base and shortstop; led the team in doubles and was third in total base hits with 17. Serpico, shifted to catcher late in the season, never showed the batting form which had made him one of the team's most dangerous hitters in 1952. He led his teammates in walks with 16, but his .225 average was 100 points below his previous year's performance and it is hoped that he will recover from the "sophomore slump" which plagued him this year.

Bill Reybold, cross country team co-captain, will continue his running leadership in the spring as captain of Coach Ken Steer's track team. Bill will have the added burden of preserving the squad's winning streak which has extended over two seasons and 12 consecutive meets. A record-breaking individual runner in the 800, he also ran the third leg of the mile relay in which Delaware shone.

Defense men George Chaloupka and Boyd Cook will head Coach Milt Roberts' lacrosse legions in 1954. Chaloupka rejoined the squad this year after a knee operation and performed well in spite of the handicap. Cook was the team's number one "holler guy" and was awarded a berth on the All-Pennsylvania-Delaware second team, a tribute to his hustle and ability.

The complete list of Delaware captains for 1953-54:

Football—John Borresen, Lyndhurst, N.J.; Cross Country—Bill Reybold, Willow Run, Delaware; Roger Fouracre, Newark, Delaware; Soccer—Bob Jamison, Riverton, N. J.; Jack Knapp, Moorestown, N. J.; Basketball—Frank White, Wilmington, Del.; Swimming—Bob Wagner, Westwood Manor, Delaware.

Ford's America's best buy any way you look at it!

"Worth More" features it's worth more when you buy it...worth more when you sell it.

Every day, hundreds of folks experience a special kind of thrill for the very first time. They're taking '53 Fords out for that important airing we call a Test Drive.

What's so special about that first ride in a Ford? Well, you get a hint the moment you slip behind the wheel, sink down on the foam rubber seat and look through Ford's one-piece windshield, curved just enough to flatter the car's looks, yet wide enough to let you see the whole countryside.

But the special thrill is the "kick" you get as you gently nudge the accelerator and feel the engine take hold. You're moving now, you barely feel any motion. You're moving faster, yet you have to listen to hear the engine. It's just about at this point that you discover how much they like the '53 Ford.

Front-end road shock reduced up to 80%! Ford's new spring and shock absorber action makes even roughest roads carpet smooth. Wide front tread helps take tilt out of turns. Ford offers America's newest power steering, too. And for less money than any other in Ford's field.

See it...Value Check it...Test Drive it!

Delaware Initiates Speed Control Plan As Safety Measure

For the first time in history, Delaware and ten other northeastern states have united in a summer speed control program attempting to make their highways the safest of any in the country during the peak travel season starting June 1.

Alarmed by a series of "summer bulges" in serious accidents caused by record flows of vacation traffic, the states from Maine to Maryland have mapped out an intensive highway safety program for June, July, and August. It will be the first regional effort of its kind ever undertaken in the United States.

The 11 states have entered a "slowdown" campaign, aimed primarily at rural travel, to meet the threat of an indicated record summer traffic toll of nearly 2,000 dead and 150,000 to 250,000 injured in the area, according to an announcement today by J. James Ashton, manager of the Delaware Safety Council and state safety coordinator.

The 1952 summer accident toll in the 11 northeastern states was as follows:

State	Killed	Injured	Total
Connecticut	59	4,045	4,104
Delaware	26	468	494
Maine	36	737	773
Maryland	166	3,759	3,925
Massachusetts	124	18,297	18,421
New Hampshire	17	1,267	1,284
New Jersey	218	10,593	10,811
New York	515	43,272	43,787
Pennsylvania	399	15,380	15,779
Rhode Island	12	1,400	1,412
Vermont	24	683	707
Total for Area	1,594	100,913	102,507

Nearly half of the fatal home accidents during 1951 occurred either in bedrooms or on stairways.
