500,000 telephone calls

Today-and every day-people in New Castle County will make some 500,000 local and out-oftown telephone calls. Housewives placing grocery orders . . . checking on children . . . chatting with friends. Businessmen and merchants discussing problems and their solutions . . . buying . . . selling! More people in New Castle County now have telephones than ever before, and telephone service is becoming more and more an indispensable part of their daily life.

It takes more and more telephone people to see that these calls go through fast and accurately. Today there are more than twice as many

telephone employees in New Castle County alone as in 1940, and the telephone payroll here is now some \$3,500,000 a year! Most telephone folks make their home in the community they serve.

It takes more and more equipment to provide the service that's needed in our busy communities. This year again we are installing large quantities of wire and cable, new switchboards,

the year is under way and in the National, the western teams are in the East, while in the East, while in the American, the eastern boys have taken Horace Greeley's advice and gone West. And believe it or not, a rookie chased Musial out of center into left field. The Reif Birds must have a bumper crop when such changes take place. Center fielder-first baseman Johnny Allen of Mt. Holly, N.J., is putling the punch in Delaware's baseball line-up. Figures released last

have had some pretty high stake games in the club house and on the road. And don't forget the horses, It will be quite a job to stanup gambling out entirely but if allowed to go on, they might as well make parking lots out of those ball parks.

In the first batch of averages released, one gets some ideas by looking at the leaders. For instance we see Wyrostek of the Phillies led the parade with eight of the club litting over 240. Come Ryan had 16 hits and he got 11 of them in two games against this club all year he might set a record than sever would be broken. But in about two or three weeks the boys will be back where they belong.

The pitchers are getting away to a good start and several low hit games have been recorded which is surprising as the cold weather has been bade on the arms of these boys.

In closing, I would like to give Branch Rickey a pat on the back. He took Ed Pellagrini from the Cincinnati Rediegs for the waiver price. The story is that Ed has only about six weeks to go in the big tent to become a 10-year man. The Reds had sold him to the Baltimore club in the International and his chances of ever getting back were not so good. So Rickey buys his contract and Ed, in a short time will reach that goal of all players, 10 years in the big leagues. A very nice thing for Mr. Rickey to do.
