NEWARK, DELAWARE, THURSDAY, AUGUST 1, 1929

NUMBER 27

AETNA CARNIVAL BREAKS RECORD FOR ATTENDANCE

Income Almost Exactly That Of Last Year, But Crowds Largest In History Of Fair; Wilmington Woman Wins Hippomobile; Mrs. Dobson Wins Ford; Other Awards

GROSS RECEIPTS \$10,554

The Aetna Hose, Hook and Ladder Company Carnival closed Saturday night with gross receipts amounting to \$10,554.75. This was practically the same as the amount earned by the carnival in 1928, which was \$10,596, but it is thought that the net returns will be considerably in excess of last year's earnings. The Carnival again fell below 1927, when the gross receipts were \$14,761.

New records for attendance were again established on Firemen's Night, and on the closing night. The two high lights of the week were the Firemen's parade on Thursday, July 25, and the awarding of the big prizes, on Saturday. The two major prizes were automobiles. The first prize, a Hippomobile six cylinder sedan, was won by Mrs. Mae M. Fehl, 418 Delaware street, Wilmington. Her ticket number was 141-15.

Both the firemen and the people of Newark were particularly pleased, when on the second spin of the big wheels to decide the winner of the second prize, a Ford sport coupe, the wheels stopped at numbers 18 and 28, and Mrs. Mattie Dobson was announced as the holder of the ticket.

VERNON LOVE IS KILLED BY AUTO

Second Brother To Meet Accidental Death In Year; Was Thrown From Motorcycle In Path Of Machine; Funeral Saturday

For the second time, practically within a year, accidental death decimated a local family of motherless children. Early yesterday morning Vernon Love, 19-year-old son of John Love, was killed in a motorcycle accident just outside of Perryville. On July 3 of last year, Albert Love, the 18-year-old brother of the motorcycle accident victim was drowned while swimming in the paper mill pond. His body was found the following day by his brother Vernon.

Vernon Love was killed about 10 o'clock yesterday morning when he was thrown from the tandem of a motorcycle and struck by a passing car. His companion, Thomas Malin, 19, of Elk Mills, the driver and owner of the motorcycle, is in the Havre de Grace Hospital, suffering possible internal injuries from a fall from the machine after Love was thrown off.

A police investigation of the accident disclosed that the motorcycle, going north, swerved across the road for some reason, and then swerved back again and crashed in a ditch. It is believed that Love was thrown from the tandem seat at the first swerve, and directly in the path of an approaching car, which struck him, and killed him instantly.

The occupants of the car, which the police say killed Love, claim that it did not strike him, but are being held, charged with his death. The machine was a Cadillac touring car, and was driven by Daniel F. Duffy, of Bayonne, N. J. With him were David McClay, Jr., Platts McCloskey, and Joseph McCloskey, all of Elizabeth, N. J. The New Jersey car stopped after the accident and took Malin to the hospital. Love, obviously dead, was left on the road. Duffy also notified the police. Maryland State Highway Officer Klapprock made an investigation of the accident, and ordered Love's body to be undisturbed until the arrival of the coroner. He questioned the occupants of the car, who stated that they saw the motorcycle throw Love, and that they had run around him by going off the road. Newark Town Officer Cunningham also went to the scene of the accident, and it was he who first voiced the opinion that the car had struck Love. The men still denied having hit him, but an examination of the car showed blood and hair on the front axle, and a

YOUNG STARS IN NEWARK FINAL

Stradley and Turner, Youthful Record Holders, To Play Golf Final At Newark C. C.; Newark Wins And Loses In Team Matches

The real golf supremacy of the Newark Country Club will be settled some time within the next week, when S. H. Stradley, Jr., and H. A. Turner, Jr., do battle in the final round of the Treasurer's Cup tournament. These two youths are easily the leading stars of the local club, and it is a toss-up which is the best shot maker. Several weeks ago Stradley set a new amateur record of 72 for the local course, lowering by one point the former record made by Turner, last year. The handicaps of both are the same, so the match will be played on an even basis.

Stradley gained the final by defeating C. H. Hopkins, 6 and 5, and Turner won his chance at the trophy by downing P. F. Pié, Jr., 5 and 4, in the semi-finals.

The Newark Country Club won and lost team matches on the week-end. On Saturday a team of 29 players played a point score match with the Coatesville Country Club, at Coatesville, and lost 69½ to 14½. This was a scheduled match. On Sunday 10 Newark Country Club golfers played

GIANT AIRPLANE COMING MONDAY

Tri-Motored Ford Plane Will Make 25 Mile Flights From Bellanca Field With Passengers; Reservations May Be Made At Ford Agencies

Air-minded people of New Castle County will have an unusual opportunity, next week, to sample deluxe flying sensations in a huge Ford tri-motored monoplane, which will settle on Bellanca Field, New Castle, Monday morning. The giant plane is coming here for a two-day visit under the auspices of the local Ford dealers, and will spend its time making hops into the air with passengers. This plane, which is piloted by Ray Loomis, veteran air mail and commercial pilot, is one of the fleet of the Universal Flyers of Washington, D. C. It has been making a tour of the country, sponsored by the Ford Motor Company in the interests of aviation, and thousands of people have had their first experience in the air in this air Pullman.

The plane has a passenger capacity of 14 persons, and its passenger cabin is fitted and equipped with every travel luxury and comfort. During its stay at Bellanca Field it will make trips of 25 miles around Wilmington, and reservations for a seat on one of those trips may be made with your Ford dealer. Frank Fader is booking reservations for Newark, and has trip tickets. The cost of the 25 mile ride is nominal.

Air safety is at its maximum in this plane, as any one of its three motors will carry the plane through the air, should anything happen to the other two.

JERSEY EXHIBIT ENTRIES OPEN

Parish Show Of Eastern Shore Cattle Breeders Will Be Held At College Farm, August 28

Jersey cattle breeders will have an opportunity to exhibit their show stock on Wednesday, August 28, at the Parish Show of the Eastern Shore Jersey Cattle Club, to be held at the University of Delaware Experimental Farm. Several hundred enthusiasts from Maryland, Delaware and Pennsylvania will probably attend this annual show held by the club.

Twelve regular and Junior, Senior and Grand Champion classes will be open to exhibitors. It is expected that more than 80 animals will be entered in the various classes. Entries for the show close on August 10, at which time all entries should be in the hands of J. Wirt Willis, of Glasgow, chairman of the Show Committee.

In each Class there will be five ribbons. There will be given in the Club a bronze medal in each class to the Club bred animal standing highest, but must be in the ribbons and animals can be shown by other than breeders.

A cup to be known as the Jack Johnston Cup, donated by Mr. Johnston, of Newark, Del., will be given in a sweepstake class. All Club bred animals, regardless of age and sex, eligible. Winner to hold cup for one year or next Parish Show, at which time cup is to be returned and again contested for. If same member should win it three successive years, it will then become the property of that member.

Champion Calf Club Cup for best Calf Club animal in Show, cup to become property of winner, if won three successive years.

(Continued on page 8)

NEWARK JUNIORS FAIL IN SERIES

Drop Two Games To Wilmington In State Pennant Final In American Legion Junior Baseball League; Newark Rural Champs

The Newark American Legion Junior League baseball team, champions of rural Delaware, lost to the Christiana team of Wilmington in a series to decide the State Championship, by dropping two games, one in Newark, Monday, and one at Pennys Field, Wilmington, yesterday. The local boys put up a stubborn resistance, but lost to a more mature and experienced aggregation. Wilmington will now compete in a regional series for the chance to compete in sectional and national competition. The winning team of the national series will take in all the games of the World's Series as guests of the American Legion.

The game, Monday, was played on Frazer Field, and Newark lost, 8 to 1. The umpires were: George Winters, formerly with the Boston Red Sox, and Joe Rothrock, director of athletics at the University of Delaware.

The second game, played in Wilmington, went to the Christiana nine, 7 to 0. George Winters and Fred Strickland, commander of the Newark Legion Post, officiated in this game. After the team returned to Newark, it was given a feed at the Candy Kitchen.

The team which won the rural championship for Newark and which played Wilmington for the State championship, is a team composed of (Continued on Page 5.)

REUNION

On Thursday, July 25, a reunion of school friends was held at the home of Mrs. J. Harry Covington of Hockessin. The guests arrived in the morning. At 12 o'clock a sumptuous dinner was served, after which games, music and reminiscences were enjoyed.

The school friends included Mrs. Covington, Mrs. Margaret Devlin and Mrs. Elizabeth Witworth, of Elkton; Mrs. Harry Cantwell, of Elsmere; Mrs. Fred Weir, of Hockessin; and Mrs. Ida Weldin, of near Claymont. Other guests were Mr. Covington, Mrs. Walter Snyder and son Walter Jr., of Middletown Heights, Pa.; Mr. Fred Weir, Hockessin; Mr. Harry Cantwell, Elsmere; Mr. Willis Weldin, Claymont; and Misses Ida and Evelyn Kimble, Appletown, Md.

After an excellent supper was served the guests left for their homes, voting the reunion a great success and Mrs. Covington an ideal hostess.

STATE POULTRY EVENTS PLANNED

Poultry Association Discusses Annual Tour, This Month, And Show In December

At the call of Warren C. Newton, president of the Delaware State Poultry Association, a special meeting of the executive committee was held in Bridgeville on Thursday evening of last week to discuss plans for the annual state wide poultry tour on August 28 and 29, and the state poultry show which will be staged in Milford on December 3, 4 and 5, under the auspices of this organization in co-operation with the Delaware Board of Agriculture and the Agricultural Extension Department of the University of Delaware.

The tour committee, which is composed of H. S. Palmer, Extension Poultryman of the University of Delaware, and secretary of the Delaware State Poultry Association, Glen Cowle, of Milford, and County Agents Ed Willim, Jr., of Newark, Russell E. Wilson, of Dover, and C. R. Snyder, of Georgetown, decided to arrange for a two-day tour again this year within the state, as it was thought that more poultry raisers will attend than if such a trip should be scheduled to include any of the adjoining states.

The first day of the tour will include New Castle and Kent Counties where the visitors will have the opportunity to inspect the poultry plant at the University of Delaware Farm at Newark, in addition to one turkey farm in the northern part of the state, and one or two poultry farms in Kent County. Some of the poultry farms on which excellent results have been obtained this season in the growing of healthy chicks will be visited in Sussex County during the second day. The tour will end that evening with a banquet and a special program of an entertaining and educational nature. As definite arrangements have not been made for this banquet, the place where it will be held, and the program to be presented, will appear at a later date.

Although many things of interest to all poultrymen will be included in this year's tour, the itinerary of which will be announced in the near future, the results of the Grow Healthy Chicks Campaign will be the outstanding object of the trip in view of the fact that considerable effort has been placed upon this phase of the poultry industry by the Extension Specialist and the County Agents with the assistance of the State Board of Agriculture and the interested poultry farmers throughout the state. The attention of the visitors will also be directed to the methods of constructing the long-type brooder houses, as (Continued on Page 4.)

BATTERY E UNIT GOES TO CAMP

Advance Detachment Left This Morning To Prepare Camp Site For Local Battery

A detachment of 10 men from Battery E, under command of Corporal Arthur E. Harrigan, left the armory at 6 a. m. this morning for Wilmington to join the advance detachment from the 198th C. A. under command of Colonel Weller E. Stover. The men are traveling by truck and will have the duty of preparing the camp site for the main body, which will arrive Saturday. The other nine men are Raymond C. Rose, Clyde M. Crow, John T. Moore, David L. Wickes, James E. Tasker, William Fitzgerald, Calvin R. Brock, Leon P. McKay, Harvey Moore.

Private Bernard M. Nobis, of Battery E has been appointed by the Delaware Red Cross to have charge of qualification of Red Cross Life Savers at the camp. Nobis was coach and captain of the crack University of Delaware swimming team for two years. He will be in charge of the Life Guards at the regular bathing hour each day for all members of the guard.

ON VACATION

Mrs. Robert Y. Watson, of the Auger beauty parlor, is spending some time with relatives in Springfield, Mass. Mrs. Watson will return to Newark, Tuesday, August 6.

Mrs. Watson's mother, Mrs. Theresa Frans, her sister, Mrs. Harold Gebbie, and nephew, Harold, all of Springfield, who have been visiting her the past two weeks, returned to Springfield with Mrs. Watson.

Aetna In Two Parades

The Aetna Hose, Hook and Ladder Company, accompanied by the Continental Band, will compete next week for prizes in two parades held in conjunction with firemen's carnivals. On Tuesday Aetna will march in the Delaware City parade, and on Thursday in the Chesapeake City celebration.

All firemen are urged to turn out for these two parades, as the prize awards are well worth trying for.

NEW TOWN BOND ISSUE PLACED

\$65,000 4½ Bonds Sold To Laird, Bissell and Meeds; Open Bids Tomorrow On Street Work

At a special meeting of the Council of Newark, held Monday night, it was voted to place the new \$65,000 bond issue of the Town of Newark through the brokerage concern of Laird, Bissell and Meeds. The bonds were placed on a basis of competitive bids. It is understood that Laird, Bissell and Meeds have sold the entire issue to one individual.

The bonds are 4½ per cent, call securities, and were authorized by the last State Legislature, and by a special election of the Town of Newark. \$45,000 of the money secured by the sale of the bonds will be used to retire 5½ per cent bonds of the Town of Newark now outstanding. The remainder will be used for street improvement work.

At another special meeting, tomorrow night, at 7 p. m., standard time, bids will be opened on the plans and specifications of the first section of a street improvement program inaugurated by the Council of Newark at its last regular meeting. It is understood that 5 concerns will submit bids.

The plans provide for paving sections of South Chapel street and Center street, and for gutter and curbing on South Chapel street, Center street, Park place, Academy street, Kells avenue and Manuel street.

It is planned to pave South Chapel street for about 600 feet and to curb and gutter that street to the town line. The paving is necessary to correct a drainage condition. Center street will be curbed and guttered its complete length, but paved only from Main street to the rear line of the new postoffice building. Curbing and guttering on Park place will be from Academy street to Manuel street. Manuel street will be curbed from Park place to Kells avenue. Kells avenue will be curbed and guttered from South College avenue to Manuel street. Academy street will be curbed from Park place to Kells avenue.

This work, which will be 11,390 linear feet of curbing and gutter and about 800 linear feet of paving, is the first part of a continuous street improvement program which will take in every unimproved street within the town limits of Newark. It is expected that the work on South Chapel and Center streets and Kells avenue will be completed before cold weather prevents further operation. The remainder of this part of the program will be resumed as soon as weather permits in the spring. At that time plans will be made to continue the improvement work on the other unimproved streets in the town.

V. F. W. PICNIC

At the regular meeting of the Lt. J. Allison O'Daniel Post, Veterans of Foreign Wars, held Tuesday evening, plans were organized for the V. F. W. picnic, which will be held at Charles-town Manor, Maryland, on Sunday, August 11. Although organized by the Newark Veterans Post and its Ladies Auxiliary, the affair will be a State Department picnic, and in addition to the other Delaware Posts, the Jacob Speare Post of Wilmington, and the Sahler Sadler Post of Contasville, Pa., will join the local veterans in their holiday. The Delaware State Department V. F. W. Band will furnish the musical entertainment.

All members of the Newark post who will need transportation to the picnic are requested to get in immediate touch with Comrade Sylvester Barnett, chairman of the picnic committee.

MAYOR ON VACATION

Mayor Frank Collins will leave Saturday for Vermont, to spend two weeks. He will return to Newark about the middle of the month and then go to Ocean City to complete his vacation.

GRAY REMAINS PRESIDENT OF SCHOOL BOARD

Newark Board Organizes For New Year; Announces Tax Rate; Stiltz Brothers Awarded Bus Contract

FACULTY CHANGES

At the regular meeting of the Board of Education of the Newark Special School District for the month of July, held Monday night, the Board organized for the year 1929-1930 by electing the following officers: President, H. Harrison Gray; vice, president, Robert S. Gallaher; secretary, Ira S. Brinser (ex-officio); Mr. Richards is the other member of the Board.

The special tax of 22 cents on the hundred was laid to pay off the bonds and interest for the ensuing year. This is a reduction of one cent. Each year six one thousand dollar bonds are retired in addition to the interest charges. The total bonds unpaid July 1, 1929, was \$114,000. The valuation of the Newark Special School District for the present fiscal year is \$5,793,855.

The budget for the coming year was considered in regard to the allocation of the funds to the several divisions of school expenditures. These divisions are: General control; instructional service; operation of plant; maintenance of plant; fixed charges which includes all types of insurance; auxiliary agencies which includes transportation, library and the promotion of health; and capital outlay. No state funds may be used for payment of bonds or interest charges.

Under the present system of distribution of State funds the State Board appropriates to each special school district a definite amount per pupil for every grade of the school. Previously this had been appropriated on a different basis for elementary and for high school grades. Now the appropriation is the same for each pupil regardless of grade. The appropriation for the present year is figured at a minimum of \$68.00 per pupil. The Newark District receives this per capita appropriation likewise for every pupil who comes to the Newark District from outside the Newark District.

Transportation

The plans for transportation have been about completed and the contract has been awarded to Stiltz Brothers, of Newark, by the State Board of Education. In accordance with the plans there will be four busses needed to meet the transportation needs this year. The North Route from Milford Cross Roads to Kerner Ketch and thence along the Pipe Creek Road to the Capitol Trail to Newark will in all probability require the services of two busses.

The South Route will be somewhat enlarged. The new route will be west on the Elkton road to the new road crossing Chestnut Hill by way of the Pleasant Valley School, thence east to Glasgow to Coe's Bridge and to Newark. This new division, aided by the construction of the cross road between the Elkton and the Glasgow road will make transportation facilities available to a number of school children who previously had to walk a considerable distance over roads which many times were almost impassible. The other southern route will be south to Glasgow to Bear Station to Christiana to Coe's Bridge and then to Newark. Within the next few days a final check up will be made over the different routes to insure that all who are eligible for the service will be provided for. Mr. Brinser, superintendent of schools of Newark, has again been designated by the State Board as its representative to look after the transportation service to the school.

Faculty Appointments

The following appointments have been made for the coming year to succeed Miss Harriet Wilson, Miss Liscette Reafter and Miss Elise D. White, resigned. Miss Elizabeth Wilson, a graduate of Towson Normal School, The Webster School of Expression and with graduate work at Johns Hopkins University. Miss Wilson has had four years of teaching experience, two of which were in the capacity of an elementary school principalship.

Miss Genevieve McKeel, B. S., of Bloomsburg, Pennsylvania, a graduate of the Bloomsburg Normal School and Bloomsburg Teachers' College, with graduate work in Bloomsburg Teachers' College. She has had four years of teaching experience. Both these teachers will take classes in Grade 2.

AUGUST 1, 1929

The "Red" Menace

Last week we called editorial attention to a Communistic outburst in New York, which had for its sensational element the fact that the radicals involved were youths of grammar and high school age. They were members of the Young Pioneers, a widely growing and strong link in the Communistic party and program in this country. The serious aspect of the affair was the indication it exposed of the social poison at work in the minds of the youth of this nation.

The Russo-China imbroglio is another example of the ripened fruit of Communistic sowing.

Today, Communists will make world-wide celebration of the birth of the Soviet Republic in Russia, and will undoubtedly include in its celebrations in this country, new programs and methods of attack on our national ideals and traditions. The nation as a whole will view this "Red" activity with amused or indifferent tolerance, not realizing as yet the gnawing and cancerous growth the Communistic party has had in the vitals of American ideals and institutions. The following letter, written by a member of an order pledged to the support and defense of true patriotism and pure Americanism, portrays an acute and dangerous situation, but is encouraging in that it shows that organized forces, with the finest ideals of Americanism as their standards, are awake and fighting the insidious menace of Communism in this country.

Fort Du Pont, Delaware, July 30, 1929.

Mr. Charles B. Jacobs, Jr., Editor,

The Newark Post,

My dear Mr. Jacobs:

It was with great pleasure that I read your fine editorial of July 25th, which was very appropriately entitled, "A Common Enemy." It is indeed most gratifying to me and to the great body of National Sojourners each time a patriotic, outspoken, unafraid American editor hits the "red" menace straight from the shoulder as you have done. Surely those who would perpetuate the ideals and institutions for which our forefathers "sacrificed their lives and fortunes," owe much to the great body of our American editors.

That the situation is serious, there is no doubt. The agents of Sovietism aim principally at American youth, and they have succeeded somehow in securing a foothold in our schools, colleges, and in our social and religious organizations. Scarcely a meeting or convention is reported in which the names of well known radicals and paid propagandists do not appear as having a leading part, especially in the un-American resolutions that are usually passed. The American Federation of Teachers and the Federal Council of Churches of Christ in America are among those who preach national disarmament and the abolishment of military training; and this in the face of world history and the openly announced intention of the Soviet Union to overthrow our government by the use of arms. It should be a matter of common knowledge that Communism stands for the destruction of religion, morals, government, the family group, and in fact every essential of civilization. A number of serious charges have been made against the Federal Council of Churches regarding the source of its income.

Most intelligent people know that there is such a thing as Communism, and that foreign elements are working at something or other, but there is very little general knowledge of the actual inroads being made upon the apparent solidity of American ideals and institutions by the insidious propaganda of Soviet Russia who would nationalize our women. The fire-brand methods of the "reds," with which nearly everyone is acquainted, are perhaps the least harmful; they are staked merely for display, and to excite the hot blood of the ignorant and illiterate. It is the quiet, serious meetings of the leaders and salaried propagandists of the Communist (Third) International in America, that count; meetings in which many prominent persons, among them, I am sorry to say, a goodly number of American women, sit in earnest discussion upon ways and means to undermine and overthrow the government of the United States of America.

It behooves us, therefore, in the performance of our duty as Citizens and as American fathers and mothers, to maintain an aggressive and continuous fight that will offset in the greatest measure possible, the effects of this pernicious and insidious cancer of Communism which is gradually eating its way into the very heart of the Nation—our youth.

I want to say here that National Sojourners is organized for the purpose of developing true patriotism and Americanism throughout the nation, for bringing together representatives of the uniformed forces of the United States in a united effort to further the military need of national defense, and for opposing any influence whatsoever calculated to weaken the national security.

You may, and I urge you to, publish this letter over my signature in the interest of Americanism, and in the denouncement of that subtle influence with which the protagonists of pacifism and communism would forever destroy civilization.

I am

Very sincerely yours,
VICTOR E. DEVEREAUX, 2nd Lieut., Eng.-Res.
Secretary-Treasurer, Du Pont Chapter No. 78,
National Sojourners, Fort Du Pont, Delaware.

Lodge Notes

JR. O. U. A. M.

With sleeves rolled up Councilor John E. Lewis sternly hammered the gavel and presided over his first session of the American Flag Council No. 28, Jr. O. U. A. M., Monday evening. The trip to the Tiffin Home will be on August 31, lasting until September 2. Get your name in early for reservations. It has been suggested our Council hold a "Brother Picnic." Open for discussion and to be decided next meeting. Brother Frank Mote, in a few well chosen words, presented retiring Past Councilor Smythe an emblem of merit, having completed his term of the chairs. Brother

Smythe responded by pledging his continual loyalty. Close of session Brother Morris, chairman of the "kitty," treated the boys to ice cream. A. Neal, Smythe, Publicity Chairman.

Churches

Head of Christiana and Pencader Churches

Rev. John Moore, pastor of Christiana and Pencader Presbyterian Churches, will not take any vacation at present, but will continue his services each Lord's Day, preaching a series of messages on what is commonly called the Lord's Prayer. The public is cordially invited to attend these services.

NEWARK JUNIOR FAIL IN SERIES

(Continued from Page 1.)

The outstanding players from the four teams which were formed within the town of Newark by the local post of the American Legion. These teams were coached and developed by members of the Legion, and the town team picked on a basis of the showing of individual players in the town series. The American Legion Junior Baseball League was started some years ago by the national organization of the American Legion as a movement to promote the spirit of fair play and good sportsmanship among the youth of the nation. Teams have been formed in practically every town in the country which has a Legion post, and the present competition takes in teams from nearly every community in the country. This is the first year that Newark has had a team in the Legion League. Scores:

AETNA CARNIVAL BREAKS RECORD FOR ATTENDANCE

(Continued from Page 1.)

bearing these numbers. Mrs. Dobson, a lady 80 years of age, has been a hard worker for every Aetna Carnival since they were started. Besides helping on the Carnival grounds, Mrs. Dobson always contributes a handsome prize which she has made with her own hands. This year Mrs. Dobson gave a rag rug to be used as a prize.

Firemen's Parade

Last Thursday, the night of the Firemen's parade, brought to Newark probably the largest crowd of people the town has ever held. Cars began to arrive by the middle of the afternoon, and at six o'clock, cars were parked on the Lincoln Highway for some distance beyond the town limits. Every street within the vicinity of the line of march was packed solid with automobiles. After the parade was over the crowd jammed the Carnival grounds to overflowing, and thousands left town, disappointed that they had not been able to get into the Carnival.

Due to the storm on Thursday afternoon, which ravaged sections between here and Wilmington, and which cut off Newark's electric current until 8:30 in the evening, a number of companies which had accepted invitations to parade were unable to get here, and the parade was delayed about 40 minutes in starting. The head of the parade formed at Newark Center, and the line of march was to Delaware avenue and Elkton road and then down Delaware avenue to the Carnival grounds. Thirteen companies and 4 bands were in line to compete for the parade prizes, amounting to \$100 in gold. (The Continental Band, while leading the parade, was not in competition.) The prize awards were as follows:

Company making best appearance, \$25, Brandywine Hundred Fire Company.

EIGHT FIRE COMPANIES ANSWERED THIS CALL

View of Ruins of Two Small Buildings After Fire, Near Marshallton

The above view shows the smoldering ruins of two small buildings and a straw stack after a fire on the Benjamin Hollett place, near Marshallton. Insurance practically covered the loss. Eight fire companies were called to give aid in fighting this small blaze, and seven of them arrived at the scene of the fire. Only two, Christiansa and Cranston Heights, who arrived first, were able to find room to throw streams, and they saved the other buildings. Aetna, Mill Creek, Newport, Five Points, Elsmere, and Number 5, Wilmington Fire Department watched the fire after hard runs to get to what they understood was a serious blaze. Claymont, summoned from eight miles north of Wilmington, was turned back at Elsmere. "Monkey Runs" have been numerous the past two months, when expensive fire apparatus has been hurled over highways to calls many miles outside of the territories of the companies called, to find fires that were either out or well under control when the scene was reached. Each time crews of these engines have risked their lives needlessly. This last instance was one of the most absurd ever recorded in this section. It is not known who broadcast the calls, but someone was responsible for much needless expense, and senseless risk of human lives. It is hard to control this situation, for when a call is received at a fire house, the company called has thought only of immediate service, and does not waste time to check the call for details. The only solution seems to be for the rural fire companies to insist on full details with calls to fires outside of their territories.

Company having most uniformed men in line, \$25, Kennett Square, Pa. Company with 82.

Women's auxiliary making best appearance, \$20, Chesapeake City, Md. Company having best band, \$15, Cranston Heights Company.

Company coming longest distance, \$15, Perryville, Md. Company. This company came 21 miles while the distance of the Viscose Company of Marcus Hook, Pa., was 20 miles by road.

The judges of the parade were three captains of the Wilmington Fire Department as follows: Captains George A. McGonigal, James I. Manning and Robert T. Hanley.

Other companies in the parade in addition to those winning prizes were as follows: West Grove, Pa., Viscose, of Marcus Hook, Pa.; Elkton, Md.; Chesapeake City, Md.; Delaware City; Christiansa; Mill Creek; and North East, Md.

Prize Awards

In addition to the two automobiles, prizes awarded the losing night of the Carnival were as follows:

General Electric refrigerator, Albert E. Cowden, Elkton; living room suite, Mrs. J. Shinn, Wilmington; dining room suite, W. B. Realey, Elkton; Axminster rug, Miss Blanch Maxwell, Newark; floor lamp, Mrs. J. R. Cowden, Elkton (the mother of the winner of the electric refrigerator); bridge lamp, Clifford Ivens, Newark; quilt (for Ambulance Fund), Mrs. Bertha W. Mullin, Newark; rag rug, Mrs. Ida Hill, Edgewood, Md.; centerpiece, Ed Carter, Elkton; rag rug, Mrs. Agnes M. McVey, Newark; table scarf, Elmer J. Ellison, Newark; firemen's cake, Harry Samworth, Newark.

The Carnival Committee of the Aetna Hose, Hook and Ladder Company wishes to thank the people of this community for their support of the Carnival.

In prosperity let us most carefully avoid pride, disdain, and arrogance.—Cicero.

GRAY REMAINS PRESIDENT OF SCHOOL BOARD

(Continued from Page 1.)

Miss Mabel Staley, of Norristown, Pennsylvania, has been appointed teacher in Grade 2. She is a graduate of Temple University with graduate work in the same institution. Miss Staley has had experience in both public and private schools. She comes to Newark after seven years of work in the Friends' School of West Chester.

Mr. Claire Meloy, teacher of English in the Newark School for the past year, has resigned to accept a teaching position in the Baltimore City College. He will be replaced by Mr. Kent Pease, of Hillsdale, N. J., who holds an A. B. degree from New York State College for Teachers, with graduate work at Middleburg College and New York University, where he is now studying for his Master's degree in the field of English and Education. Mr. Pease has had six years of teaching experience, which included work in demonstration teaching for Rutgers School of Education. His record also shows that he has done considerable work in dramatics, debating and public speaking.

Mr. Charles B. Boone, A. B., Bucknell University, with graduate work in the University of Chicago and the University of Pennsylvania, has been appointed to succeed Mr. Earl Keller, who has been appointed principal of the Oak Grove School, Elsmere. Mr. Boone has had three years of teaching experience, which included an instructorship at Bucknell and assistant dean at the Pennington School for Boys, Pennington, N. J. During his graduate work in the fields of political science and sociology at the University of Chicago he served as director of community work and service. He

has also had newspaper editorial experience.

Mrs. Josephine Hancock was appointed to the position of teaching Home Economics, succeeding Frances Cook, who resigned. Mrs. Hancock is a graduate of the University of Iowa, with graduate work in the University of Delaware and special work in home economics at the Institute. She has been teaching mathematics in the Newark School for several years.

Miss Kathryn Hubert, of Newark, a graduate of the University of Delaware and a Foreign Study School, has been appointed to the position of teacher of French. This is the first opportunity the Newark school has had of French instruction by a teacher who has lived and studied in France for two years.

Mr. Barker, who has specialized in mathematics, will become head of the department of mathematics, thus making it necessary to give up work he was giving in French.

YOUNG STARS IN NEWARK FIN

(Continued from Page 1.)

an impromptu match here with a team of 10 from the Easton, Maryland, Country Club. Newark won 10 to 10.

It was planned to take 40 players to Coatesville last Saturday, but only could be mustered for the trip. Newark fell before superior golf over hard and hilly course. The largest spot in Newark's afternoon was the performance of Eddie Ginter, Newark professional, who shot a sparkling 73 to half his match with Cone, the Coatesville pro.

This Saturday, Newark will play a team match with the Kennett Square Country Club, at Newark.

The summaries of the Coatesville and Easton matches were as follows:

Newark		Coatesville

SOCIAL NEWS OF THE WEEK

Mr. George Wilson, of Chicago, Ill., is visiting at the home of his parents, Mr. and Mrs. J. P. Wilson.

Mr. and Mrs. R. W. Heim are making a hurried trip through the New England States this week. Mr. Heim planned to attend part of the Massachusetts annual vocational conference at Whitpole.

Orville Richardson, Ott Widdoes, Junior Perry, John Slack, and Harry Wilson left Monday morning for a two-week stay at Camp Rodney, Boy Scouts of America.

Mr. and Mrs. Charles Bowman, of Harrisburg, Pa., spent the week-end with Mr. and Mrs. John Ramsey, of Cleveland avenue.

Miss Maude Mote, of Harrisburg, Pa., has returned home after spending the past week with her cousin, Mr. George Casho, Academy street.

Mr. and Mrs. Wm. Bradford, of Woodhaven, Long Island, N. Y., spent the week-end at the home of Mrs. Isabelle Messick. Miss Myra Hall returned home with them for a visit.

Mr. and Mrs. Chester Moore returned home after spending a week with Mr. Thomas and family, near Seaford.

Mr. and Mrs. Theodore Strickland and children, of Pottstown, Pa., have returned home after spending a few days with relatives here.

Mr. James Steele, of Providence, Md., is spending some time with his son, John Steele.

Miss Katharine Robinson has returned home after spending some time with relatives in Maryland.

Mrs. Everett C. Johnson returned to Newark from Washington yesterday to spend the month of August at her home, here.

Mr. Francis H. Squire, of History Department of University of Delaware, sailed last Friday on the "Homer" for England, where he will spend the month of August in study in London and Oxford.

Mr. Richard Squire returned to his home in Westfield, Massachusetts, following the Summer School session.

Miss Annabelle Jarmon and Miss Hannah Lindell are spending this week in Wildwood, New Jersey.

Miss Margaret Burke, of New York City, visited her parents, Mr. and Mrs. Merritt Burke, over last week-end.

Miss Charlotte Dayett left on Saturday for a two weeks' visit with friends in Hardwick, Vermont.

Miss Marjorie Johnson is attending a bridge luncheon today at the home of Mrs. Frederick Brady, of Middletown.

Mr. and Mrs. H. J. Gaerthe spent the week-end in Philadelphia and Camden, N. J.

Miss Sarah E. Potts, of East Main street, is in Brooklyn, New York, visiting her aunt, Mrs. G. A. Frank, and her cousin, Mrs. Oscar Primavera.

R. Curtis Potts has left Plattsburg C. M. T. Camp. He will visit Mr. and Mrs. C. B. Dean who have a cottage near the camp, also his aunt, Mrs. Frank, and cousin, Mrs. Primavera, in Brooklyn, New York.

Mr. and Mrs. Erias Miller and Miss Olive Miller and George and Harry Miller, of Coatesville, Pa., visited Mr. and Mrs. Robert Potts, on Thursday of last week.

Mr. and Mrs. Eddie L. Miller and daughter Virginia Edwina Miller, of Marlborough, spent last week-end with Robert Potts and family.

Mr. and Mrs. Raymond L. Kramer, of Philadelphia, Mr. and Mrs. Eddie L. Miller and daughter, Virginia E. Miller, and Mr. and Mrs. Robert Potts and Sarah E. Potts of East Main street, spent Sunday at Deemer's Beach.

Mrs. Frank Yearsley and daughter, Miss Grace Yearsley, of Marshallton, spent last week with Misses M. Estella Yearsley and Elizabeth Naudain of East Main street.

Mr. and Mrs. Robert Yearsley, of Marshallton, and Mr. Jonas Klair and Miss Anna Klair, of near Marshallton, spent Thursday with Misses M. Estella Yearsley and Elizabeth Naudain.

Mrs. Reba H. Bryson, of near Newark, who has been seriously ill in the Elkton Hospital for over three weeks, is slowly improving.

Mrs. Thomas R. Bryson and daughter, Catherine Ann, spent part of last week in West Chester, Pa., visiting Mrs. Bryson's mother, Mrs. Lydia A. Warren.

Mrs. Chas. C. Hubert, who is in the Homeopathic Hospital, Wilmington, recovering from an operation, is showing satisfactory improvement.

Mrs. Lily Willis spent the past week-end with friends in Wildwood, N. J.

Mrs. Harry Cleaves entertained, last night, in honor of Mr. Cleaves' birthday. Among the guests were: Mr. and Mrs. W. Lynch, Mr. and Mrs. Clarence Rambo, Mr. and Mrs. Albert Fletcher, Mr. and Mrs. Frank Balling, Mr. and Mrs. J. Harvey Dickey and Mrs. Fred Strickland.

Billy Hamilton, young son of Mr. and Mrs. William S. Hamilton, of Kells avenue, celebrated his third birthday, yesterday.

Mrs. Robert E. Welsh, Maryland State Regent of the D. A. R., accompanied by her son, Woodward Welsh, and Mrs. Miriam Baldwin Cook, a Maryland D. A. R. regent, were luncheon guests, Tuesday, of Mrs. Edward Cooch, at the historic Cooch mansion, at Cooch's Bridge.

Mr. and Mrs. Joseph Walker will spend their vacation in Rehoboth.

Mr. Francis Squire left Friday on the Homer to spend the remainder of the summer in study abroad.

Messrs. Oscar Morris and John McVaugh spent Sunday at Rehoboth.

Colonel and Mrs. Samuel J. Smith have taken a cottage at Rehoboth for the month of August. Their son, Arthur, and their grandson, and Miss Egee, of Chesapeake City, will spend part of August with them.

Messrs. Merle and Herbert Sigmond, who are engaged in engineering work for the town, have taken rooms at the home of Mrs. Armand Durant on Orchard road, for the summer.

Miss Anna Frazer has resumed her duties as assistant dietitian at the Homeopathic Hospital, after a two-weeks' vacation spent with her parents, Mr. and Mrs. Ernest Frazer.

Messrs. William Armstrong and Wilmer Riley motored to Rehoboth last week-end.

Mr. Robert Leishman spent Saturday and Sunday at his home in Lewes.

Mr. William H. Walker spent the week-end at the Hotel Henlopen, Rehoboth.

Miss Frances Hullen, who was operated upon for tonsils last week at the Delaware Hospital, is rapidly improving.

Mr. and Mrs. Edward G. Coals, of Wilmington, and Miss Cornelia Townsend, of Brooklyn, New York, were visitors at the home of Mr. and Mrs. George L. Townsend this week-end.

Mrs. Lillie Hossinger, of Lynch, Maryland, is the guest of Miss Anne Hossinger.

The Misses Willa Dawson and Grace Brooke have returned to Newark after a stay at the Pines, Canadensis, Pa.

Mr. George L. Townsend, 3rd, is spending his vacation with Mr. John B. Derickson, at New Burn, North Carolina.

Mr. and Mrs. H. E. Vinsinger will return from a motor trip to Quebec and Murray Bay, the latter part of this week.

Mrs. Ruth V. Dantz left Wednesday for a visit with friends in Rye, New York.

The Misses Josephine Hossinger, Mary Atkinson, Margaret Vinsinger and Catherine Townsend will leave on Monday of next week for a week's stay at Cape May, New Jersey.

Mr. and Mrs. Will Evans and Master Armand Durant spent Sunday at Rehoboth Beach.

Mr. Herman Renshaw, Jr., spent the week-end at Rehoboth Beach.

Mrs. Walter Hullen entertained at a bridge luncheon Tuesday in honor of Miss Whitenack, of New York, who is the guest of Mrs. Albert S. Eastman.

Mr. J. W. Watson has returned from a business trip to Chicago and Flint, Michigan.

Master Jack Geist has returned from Camp Caesar Rodney, the Boy Scout Camp on the North East River.

Mrs. Lula Babcock has returned from a visit with her sister, Mrs. Lloyd W. Williams, in Pulaski, New York.

Mrs. George L. Townsend entertained at bridge Tuesday evening in compliment to Miss Whitenack, who is the guest of Mrs. Albert S. Eastman.

The Misses Elizabeth Eubanks and Dorothy Armstrong left Saturday for The Pines, Canadensis, Pa., where they will remain for the rest of the summer.

Mr. Samuel Turner has returned to Newark after a visit with relatives in New York State.

On Thursday Miss Alice Vail will leave for Rehoboth where she will spend two weeks with her sister, Mrs. Caleb Price.

R. A. Whittingham, Mr. and Mrs. Harry Davis and son Charles, and Mr. Cornelius Davis were recent visitors at Tolchester.

Miss Mildred Wilson, of South College avenue, is spending a two-weeks' vacation at Rehoboth.

Miss Lavenia McCafferty, of Philadelphia, is visiting relatives in Newark.

Miss Whitenack, of Connecticut, is the guest of Dr. and Mrs. Albert S. Eastman this week. On Monday evening they entertained at two tables of bridge.

The Misses Marion Owens and Helen Peoples have returned home after a month's vacation at Virginia Beach.

The Misses Elizabeth Tiffany, Mary Louise Thomas and Dorothy Townsend have returned from Camp Ottonka, Dagsboro, Delaware, where they spent three weeks.

Mrs. C. C. Brokaw, Sara and Kirk Brokaw, of Rising Sun, Maryland, have returned home after a visit at the home of Mr. and Mrs. Harold Tiffany. Miss Elizabeth Tiffany will leave on Saturday for a visit to Rehoboth, where she will be the guest of Miss Barbara Bonham.

Mrs. Harry Davis, Charles Davis, Mrs. James Watts and James Watts, Jr., of New Castle, will spend Thursday at Rehoboth.

Mr. and Mrs. Robert G. Ford and family are visiting relatives at Bellwood, Pa.

A. L. Parker, of Media, Pa., who has had twenty years experience in tuning and rebuilding pianos, will be working in Newark and vicinity for the next two weeks. Phone Newark 48.—Adv.

tensive arrangements for the second annual state poultry show. Due to the interest which was demonstrated in the show which was held in Milford last January, the members of the committee are confident that the event this year will result in even greater success, and that the exhibits will encourage the poultrymen of the state to raise better and more profitable birds. The premium catalogue is nearing completion under the direction of Secretary H. S. Palmer, who is being assisted by the different committees who have charge of the various departments in connection with the show, and plans are under way for staging one of the largest poultry, baby chick, and eggs show ever held on the Peninsula in Milford this coming December.

Aside from the regular exhibits, a special feature of the show this year will be a series of conferences for the benefit of the producers and buyers, during which time it will be possible for both groups of men to become better acquainted with each other, and to discuss the problems of marketing poultry and eggs in the eastern markets. This part of the poultry show is being planned under the direction of W. T. Derickson, Director of the Bureau of Markets of the State Board of Agriculture, who will be glad to receive the names of those producers and buyers who would like to take advantage of this opportunity to improve the marketing situation in this section of the country.

ADVERTISE "TALKIES" WITH NEW DEVICE

Now that the "talkie" threatens to crowd out the silent film from the metropolitan moving-picture theatres, an attendant advertising dodge has appeared from which there seems to be no escape for the patient hearing and seeing audience. This is the "trailer"—so called for some mysterious reason—and its principal purpose is to go over the respective circuits a short time before the film it heralds is due to appear and to arouse advance interest.

When the "dumbie" picture was in vogue, what corresponds to the present trailer was a mere showing of certain exciting scenes from the coming film. The great advantage in this case was that the exhibitors did not dare show much of their films for fear of spoiling it for the spectators. To be sure, the usual display of superlatives—"most amazing, thrilling, romantic, exciting, extravagant, dramatic"—went before and after the showing of the scenes; but, after all, adjectives cannot flow on forever, even on a movie screen. The trailer, however, is something else.

The trailer is introduced, generally, in a dramatic manner. We see a long stretch of prairie—or polo field, race track, football gridiron, Arabian desert or polar ice field—and a huge airplane swoops down from the sky. While the audience is wondering why the plane should be all alone in such a vast something or other, we suddenly get a close-up of the figure encased in leather suit, goggles and helmet—and discover it is our old friend and idol, Jack Colbanks! Jack greets us with a smile and a pleasant word

NEWARK DIVIDES WEEK'S GAMES

Loses First Game Of Second
Half Of Tri-County Race To
Havre de Grace; Wins From
North East; Crucial Game
Saturday

The Newark baseball team of the Tri-County League met its first reverse of the second half of the league race, on Saturday, when it lost to Havre de Grace, 7 to 5, in a game played on Frazer Field. Last night Newark came back the notch lost by beating North East, 5 to 2, in a game played at North East.

On Saturday Newark will play a crucial game with Aberdeen to decide the league leadership. The game is scheduled at Aberdeen at 3 o'clock, standard time.

In the North East game, yesterday, Rose opposed Hall, University of Delaware pitcher star, and got more than an edge on him in a pitching duel. It was mainly due to the heady mound work of Rose that Newark clinched this game. Scores:

PLAN NOW FOR WINTER BY FILLING THE PANTRY

County Demonstration Agent Talks
of Food Necessities; Offers
Canning Hints

Plans for the winter pantry should begin with the planting of the garden so as to have a surplus for canning aside from supplying fresh vegetables for the home table, during the garden season says Kate Henley Daugherty County Home Demonstration Agent.

Doctors say that the tired out feeling at the end of winter—sometimes referred to as "Spring fever"—often comes from a lack of fruits and vegetables in the winter diet.

The salts or "mineral matter" that vegetables and fruit contain is one of the chief helps in keeping the body strong and well. Continues Mrs. Daugherty—in every part of the body there are salts somewhat like table salt, but many kinds—iron, lime and others. The body will not work smoothly unless it has plenty of these salts and children cannot build strong bodies without them. We must, therefore, get them from our food. Vegetables and fruits are rich in them. We should eat a variety so as to be sure to get all the kinds of salts we need.

It has been found that many diseases are caused by lack of mineral salts and vitamins found in certain foods. For instance: Pellagra, a disease that is very prevalent in the South, is caused from the lack of raw fruits and vegetables in the diet. Goiter is caused from lack of iodine and iron. Iodine is found abundantly in fish, and iron is found in highly colored vegetables, such as spinach and other greens, in carrots, yellow turnips and tomatoes. It has been found that one of the contributing causes of pyorrhea is from lack of tomatoes or oranges in the diet, which means that we should have a supply of canned tomatoes on hand at all times, as Dr. McCollum says that tomatoes when canned are just as good as when fresh.

For a family of five the homemaker looks carefully after the diet of her family, will see to it that her pantry shelves are filled with at least 625 quarts of canned products, including

fruits, vegetables, jelly, jams, marmalades, pickles and relishes.

This budget should provide for one leafy vegetable each day for about 150 days out of the year which is about the time that we cannot have them growing fresh in our gardens. It should contain 136 cans of tomatoes to enable her to serve these three times a week for the ten months that she does not have them fresh. She should have 150 quarts of other vegetables to serve three times a week. These should include beets, carrots, corn, string beans, peas, limas, squash and soup mixture. Sixty-four quarts of fruit is the least she should have. There should be about two dozen jars of pickles and relishes and 125 glasses of jelly, jams, preserves and marmalades. This yearly budget would provide about 125 containers for each member of the family.

The canning and preserving of food products is an important factor in household management and is of even greater importance in national economy since the conservation of food-stuffs, from the time of production and natural time of consumption to a later time, makes for a more varied and adequate diet and that secured at a lower economic cost. Canning has become a widely used and popular means of preserving large quantities of fruits and vegetables. The original form, flavor, color and texture of fruits and succulent vegetables are retained to a greater degree by canning than by any other means. For this reason, certain delicately flavored vegetables are more attractive when canned. Another advantage is that canned foods are ready for almost immediate serving.

There are certain essentials for the successful canning of fruits and vegetables. These include clean, fresh materials, perfect containers, processing or cooking for sufficient time to insure preservation and air tight sealing to prevent the entrance of new bacteria or germs which would cause spoilage. These essentials must be secured in any method of canning. It is important that one prepare for the canning season by securing in advance supplies such as jars, cans, and canning outfits so that nothing will be allowed to go to waste. It is also of the greatest importance that one study carefully canning instructions and various recipes that can be obtained from the county home demonstration agent or the University of Delaware Extension Service. These bulletins will be furnished free simply for the asking.

In the canning of fruits and vegetables it has been found that vegetables are more difficult to keep than fruits. There are several reasons for this: Spoilage of food is due to the presence of living germs, minute forms of plant life of the lowest order. Three types of these tiny organisms cause food to spoil, namely: molds, yeast, and bacteria. Of these, bacteria are the most serious foes to combat in canning because they are more difficult to kill by heat than either yeast or molds. Only a very few kinds of bacteria thrive in acids or in the presence of much sugar. Then, since fruits contain much acid and most vegetables do not and fruits

likewise contain more sugar than vegetables, it can readily be seen that this is one of the main reasons why fruits and tomatoes are more easily kept than vegetables such as corn, peas and beans, or than meats which are the most difficult of all foods to can safely in the home.

It has been found by experiment that the easiest and surest method of sterilization is with the steam pressure canner, since by its use a much higher temperature can be obtained than with boiling water, and the bacteria can be entirely destroyed in a much shorter time and with only one processing. It is easier to use tin cans with this method.

To preserve fruits and such vegetables as tomatoes, the processing at boiling temperature gives better results in texture, color and flavor than higher temperatures. Therefore, for fruits and tomatoes, the putting of the uncooked product in sterilized jars and adding boiling syrup or liquid and processing in a hot water bath for given length of time is better than using a steam pressure canner with high temperature.

In conclusion, Mrs. Daugherty says that since the health of the family is one of the greatest considerations of the homemaker and as diet and health are so closely related and a supply of fruits and vegetables for winter consumption is a big problem that confronts the homemaker, too much emphasis cannot be given gardening and canning at this particular season.

Mrs. Daugherty suggests that you watch this paper for recipes on canning or send direct to her at the University of Delaware, Newark, Delaware, for free bulletins on the subject.

DEL-MAR-VA INSIGNIA GETS TOP MARKET PRICE

The Marketing Bureau of the Del-Mar-Va Eastern Shore Association reports that on the first five commodities which have carried the Del-Mar-Va insignia as a guarantee of grade in both contents and pack, shippers have received top market prices at all times and in numerous instances fancy prices which exceeded those of the same commodity not graded, packed and shipped under the Association's plan.

Beginning with broccoli in the Spring and including asparagus, green tomatoes, summer apples and cucumbers, the Del-Mar-Va plan has been used by a material group of leading growers and shippers. At the present time the plan is being used on the last three mentioned commodities with approximately fifty farmers shipping through packing houses using the Del-Mar-Va insignia.

On the present fruits and vegetables the distribution of literature regarding individual crops is being handled in such manner that it is reaching the consumer direct. The literature, in the form of six and eight page pamphlets is sent with the goods bearing the Association's insignia, while previously the greater part of the distribution was made through commission houses and buyers in the metropolitan districts.

Literature in the form of placards and six-page pamphlets covering peaches and cantaloupes is now being distributed and Supervising Inspector Burroughs, of the Marketing Bureau, believes that it will be far reaching because of the wide markets covered by these crops.

Advertising Del-Mar-Va crops has brought not only direct approval and endorsement from leading commission merchants and buyers but it has caused material magazine and newspaper comment at distant points. One of the leading agricultural magazines mentions editorially that the Del-Mar-Va plan has already gone far toward improving grade and pack of commodities shipped to the markets of New York, Philadelphia and Baltimore. Other comment is to the effect that a general improvement in grading and packing of practically all Del-Mar-Va fruits and vegetables has been noted even though only a minor portion has carried the Association's insignia. There are scores of cases on record where buyers have requested their representatives or those from whom they purchase to grade and pack in accordance with the Association's plan.

While the present year is the first in the effort made by the Association to improve grading and packing and the number of shippers have necessarily been limited, there are indications that the coming year will find a rapidly growing demand for use of the Del-Mar-Va marketing plan. On the asparagus crop this year there was a decided number of shippers who requested the Association's service in addition to the list which originally accepted it.

Among the agricultural magazines which have given more prominent mention to the plan are: The New York Farmer, Pennsylvania Farmer, and the American Produce Grower, while newspapers in several metropolitan centers have carried considerable material regarding the working out of the Association's plan.

DIVORCE CASE PUZZLES BUDAPEST COURT

A Budapest divorce court is being called upon to solve an unusual legal problem. It is asked to divorce a man from a woman to whom he was never legally married, and who, moreover,

in the eyes of the law, is dead. The story of disillusionment unfolded in the trial has also given publicity to the creative side of the "beauty specialist."

The petitioner, a widower, said that he had recently been beguiled into marrying a spinster who gave her age as 39 and supported the statement at the ceremony by a birth certificate. Soon after the honeymoon his wife's features suffered a remarkable change; she seemed to have aged perceptibly.

Under oath at the trial the bride admitted that she had been rejuvenated by a beauty specialist who had, so far as her personal appearance went, subtracted twelve years from her past. Instead of being 39 she was 51.

In order to lend credence to her statement she had produced the birth certificate of her sister, who was dead. Thus the court must decide whether the widower is legally married to his wife under a contract where deception was employed, or whether he needs a decree of divorce from a woman who was legally dead.

It has been shrewdly said, that when men abuse us we should suspect ourselves, and when they praise us, it is a rare instance of virtue to despise censure which we do not deserve; and still more rare to despise praise which we do.—Colton.

He who prometh runs in debt.—Talmud.

and Mrs. Warren Voshell, near Mt. Pleasant.

Miss Grace Murray, a student nurse at the General Hospital, Wilmington, comes to the home of her parents, Mr. and Mrs. Harry Murray, near Summit Bridge, this Thursday for a two weeks' vacation.

The lima bean and stringbean crop throughout this vicinity is going to be almost a total failure unless the farmers are able to combat the Mexican beetle more successfully than they have been able to do so far. The pests are devouring the leaves of the plants and also attacking the blossoms. Efforts are being made by extensive growers to check the spread, but most of their labor seems to be ineffective.

Miss Elizabeth Lindell has returned to her home in Newark, after a week's vacation with her uncle and aunt, Mr. and Mrs. William Dickinson.

Mr. Warren Voshell, son and daughter, of near Mt. Pleasant, were Sunday evening guests of their parents, Mr. and Mrs. Harry Voshell.

Mrs. Harry Voshell spent Saturday evening with Mrs. Kate Hushebeck.

Miss Chlorella Deibert has returned to her home in Elkton, after a two weeks' stay with Miss Mildred Sartin.

Mr. and Mrs. Arthur Jenkins and daughter, of New Leeds, Md., were visitors one day the past week with their parents, Mr. and Mrs. John W. Sartin.

Mrs. Belle Salmon spent Sunday at Locust Point with her son and family, Mr. and Mrs. C. Harry Salmon.

Mr. J. Hays Salmon, of Wilmington, was a Sunday evening visitor with his mother, Mrs. Belle Salmon.

Mr. and Mrs. J. Olie Clark, of Newark, were Sunday guests of their parents, Mr. and Mrs. Walter Deputy, of Mt. Pleasant.

Mr. Stephen Foley, Sr., of Newark, was a Sunday visitor with his son, Stephen Foley, Jr., of Mt. Pleasant.

Mr. and Mrs. Harry Murray and children were Sunday evening visitors with Mr. and Mrs. Harry Cavender.

Mr. and Mrs. Mitchell Golt and daughter, Miss Gladys, were Sunday callers with Mrs. Golt's brother, Mr. and Mrs. Harry Cavender.

William Murray spent Monday with his aunt, Mrs. Katie Calhoun.

Mermaid

Miss Sara Pennington is spending a few days at Shallos Lake with her cousins, Anne and Elizabeth Walker.

The Sunday School of Red Clay Creek Presbyterian Church held its annual picnic today at Charlestown, Md.

The wheat crop through this section is good this year, averaging from 30 to 35 bushels an acre. The threshing season is about over. The farm of F. G. Dennison yielded 33 bushels an acre.

The White Clay Creek Church Improvement Society met Wednesday evening at the home of Mr. and Mrs. Lewis Krapf.

A peach festival for the benefit of Harmony Grange will be held on Thursday evening, August 15, on the grounds in front of the hall.

A reception was given Tuesday evening in honor of Mr. and Mrs. Franklin Knotts, who were recently married, at the home of Mr. Knott's parents, Mr. and Mrs. George Knotts.

The Rev. Samuel L. Irvine, pastor of White Clay Creek Church, with Mrs. Irvine and their house guest, Miss Grace Wilson, of Richmond, Va., left on Monday for Ashbury Park, N. J., where they will spend a week. From there they will go to Virginia for a week's stay. During Mr. Irvine's absence, services at the church will be discontinued.

Paul Peach spent the week-end with friends in Milford and on the Delaware Bay.

Mr. and Mrs. Walker Pennington entertained at dinner on Sunday at their home. Their guests were: Mr. and Mrs. Hardie Girvin and son, Francis, of Lincoln University, Pa.; Mrs. Ernest Weaver and children, Gertrude, Eva and Thomas, of Perryville, Md.; Mr. and Mrs. W. W. Bernard, of Talleyville.

Miss Elizabeth De Maris, of Wilmington, was a week-end guest of Miss Carolyn Peach.

Miss Joan Harlan has returned to her home in Philadelphia after a two weeks' stay with the Misses Dennison. She was accompanied home by Miss Dorothy Dennison who will be her guest for a few days.

Joseph Zingg, of New York City, has been the guest of his uncle and aunt, Mr. and Mrs. F. G. Dennison.

Mrs. Wm. P. Peach and Carolyn Peach visited with F. C. Bancroft and family, at Kitts Hammock, on Sunday.

Ebenezer Sunday School is holding its annual picnic at Deemer's Beach, today.

ELK NECK

The improvements to Harts M. E. Church are nearing completion. Electric lights have been installed, and the church completely remodeled.

The Third Monthly Mark-up which has been postponed until work on the church is completed, will be held Saturday evening, August 10. Refreshments will be served free.

The camp meeting for colored folks is now going on. Services every evening, beginning at 7:30. The camp is situated 8 miles below North East, on the road to Turkey Point.

The Sunday School picnic for Harts

SIGN POSTS TO GOOD ALFALFA

A lot of alfalfa seedlings in New Castle county have failed to reach their goal, Good Alfalfa, because the grower failed to observe the sign posts along the route. This statement was made recently by County Agent Ed Willim, Jr., of Newark. As some one has said, "The road to good alfalfa is a winding one and there are lots of places where one can miss the way." This is certainly true; but it is equally true that careful observance of

the markers will lead almost without fail to a good stand and high yields of this high-protein and high-priced crop for from two to five years.

Good Seed

This is the first sign post on the road to Good Alfalfa. The grower who gets a poorly adapted variety or a lot that is foul with weeds will find that his "cheap" seed was very expensive in the final cost.

Drainage

Alfalfa will not stand wet feet and does best on a soil in which it can send its long, spreading root system deep into the subsoil for moisture. Remember this sign post in selecting the field.

Seed Bed

Is another sign post that demands attention. A well-pulverized, firmly packed seed bed makes germination quicker and surer and affords a better place for the young roots to make their start.

Lime

A great many alfalfa seedlings have got on the wrong trail because some one drove past the corner without heeding the warning "Danger Ahead—Acid Soil." Get the lime on as far in advance of the seeding as possible. The sign board in the lower left-hand corner of this picture shows what happened in an Iowa alfalfa field where lime was applied (left) and where it was omitted (right).

Fertilizer

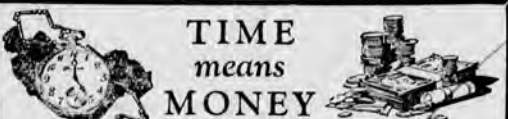

Another sign post to be heeded all the way from Kansas to Maine, and

from Canada to the Gulf. Failure to go right at the point "Plant Food" frequently leads to poor stand, low yield, and lack of vigor and resistance. In the upper right corner is shown a Missouri field which was manured before planting. Where superphosphate also was applied (at left) the stand was thicker, the growth more vigorous and naturally the yield was much better. Wherever potash is needed for corn or other crops it is almost certain to be needed for alfalfa. The photos in the lower right hand corner show a Wisconsin alfalfa experiment in which the untreated plot made 1.4 tons per acre in 1926, while the phosphate-potash plot made 3.5 tons—more than two tons increase.

Inoculation

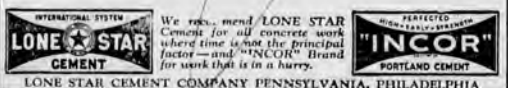

This is the last sign to watch for just before seeding the crop and it can not be disregarded. Unless the soil is known to contain the right bacteria, inoculation with commercial cultures or with well inoculated soil is necessary. The photo in the upper left hand corner shows (at right) a portion of a Vermont field where the alfalfa was nitrogen-starved because the inoculation was not functioning sufficiently to meet the needs of the crop. When nitrogen was added, (shown at the left) the yellow color and poor growth turned to dark green color and heavy, vigorous growth. "Dairymen and farmers in the upper county should be careful of these sign posts," says Mr. Willim in concluding his article.

There is no such thing as accident; it is fate misnamed.—Napoleon I.

AN ANCIENT FORTRESS

The origin of a fortress on a small island in a lake on the Baltic coast of Gothland has recently been traced to the fourth century, according to the Swedish Academy of Antiquities. It is known today as the "Bulwark." Invaders attempting to take it had to face almost certain death, as the roads leading to it was dominated much as the fortress at Gibraltar dominates the straits. A feature of the "Bulwark" was a large square stone floor, supported by thousands of oak piles.

A mind that is conscious of its integrity scorns to say more than it means to perform.—Burns.

HOW OLDSMOBILE PLANT STEPS UP PRODUCTION

"Increase the speed of the assembly line 10 per cent starting Monday morning."

That and similar orders have been issued numerous times this year at the Oldsmobile-Viking factories to increase production as the demand for these automobiles continued to grow larger. How these orders are carried out, however, is one of the efficiency systems which has made the automotive industry the wonder of the industrial world, according to Hammond Motors, Inc., Thirty-seventh and Market streets, Wilmington.

At least four major assembly lines and hundreds of feeder lines must be stepped up to increase the production of either Oldsmobiles or Vikings. These four major lines are those on which are assembled axles, engines, bodies and the complete automobile. The feeder lines consist of those short lines which manufacture the various parts that go into the making of an Oldsmobile Six or a Viking Eight. These parts vary from little valve guide split nuts to the large engine cylinder blocks or body fenders.

In the modern Oldsmobile-Viking factories all of these small lines are machined and manded to conform in

manufacturing speed with that of the four major assembly lines. In this way every part is completed and given final inspection at its allotted place on the required assembly line at a rate that insures a steady supply of these parts as the assembly progresses.

When the order to increase production is issued, these smaller lines first are stepped up by increasing the number of mechanics and, frequently, the number of machines in use. This quickly increases the number of finished parts delivered at the axle, body, engine and final assembly lines.

These major lines form the backbone of the quantity production system introduced to industry by automotive manufacturers, and which, incidentally, Oldsmobile is credited with originating more than a quarter of a century ago. The lines are operated by an endless chain which carries the work in progress along at a predetermined speed while lines of workmen on each side perform the necessary assembly functions.

These major lines start with a single part and end with the finished product. For instance the engine assembly line starts with the cylinder block and ends with a finished motor ready to operate. The final assembly starts with the frame and as this moves along, axles, engines, radiators, steering gears, electrical system, gas-

oline tank, body, etc., are assembled so that when the end of the line is reached a finished automobile runs off under its own power.

This is the highly efficient system which the automotive industry has perfected to increase production as public demand grew. By means of this and the additional manufacturing facilities contained in the more than a million square feet of floor space added in less than two years, the Oldsmobile-Viking factories have been enabled this year to manufacture the new Viking Eight and at the same time increase the manufacture of Oldsmobile until there is an average of one new Oldsmobile running off the final assembly line at the rate of less than a minute per car during the entire working day.

TRADE MARK A GUIDE TO PUBLIC PURCHASING

"That a brand name, such as Prest-O-Lite, does mean something to the public is established by a survey recently sent out by the Federal Trade Commission to consumers," says Ted Kruger of Kruger's Battery Service at 1305 French street, Wilmington. "Of the 1990 consumers answering the questionnaire, 50 per cent gave an unqualified affirmative answer to the question, 'Do you when purchasing goods, regard Brands or Trade Marks as a guaranteeing quality?' An additional 31 per cent gave answers indicating that brands or trade marks were regarded as indicating or guaranteeing quality to some extent. Only 17 1/2 per cent stated definitely that they placed no reliance on brand names or trade marks."

"Prest-O-Lite batteries," continued Mr. Kruger, "are being installed on theatres as the 'A' battery power for their Vitaphone and Movietone equipment. These batteries will be in operation for 12 hours a day, seven days a week. The quality of the talkies reproductions depend entirely on the efficiency of storage batteries and weak batteries mean poor reproduction. Prest-O-Lite batteries assure the theatre owner of efficient operation."

STORE SILVER WITH SECURITY TRUST CO.

One of the modern services which many Wilmingtonians have come to realize, is the silver storage vaults of the Security Trust Company of Wilmington. Here those going away for the summer, store not only their silver, but valuable paintings and rugs. Then they can rest easy because no thief can get at them and steal them. Those who take a chance and leave all their valuables in the home, often return to find the home has been robbed and there is no trace of the treasures.

The Security Trust Company storage vaults are burglar proof, and added to the safety is the fact that the charge for storing is surprisingly nominal.

MUNDORFF'S PLANT OPEN FOR VISITORS

With bottling plants of Wilmington under discussion, because according to the Board of Health, some of them are not conducted in a sanitary manner, H. A. Mundorff and Son, bottlers of Orange Crush and many other popular soft drinks, invite the public to inspect their plant at Thirtieth and Market streets. As a

mater of fact, pedestrians can see while passing, because the bottling establishment is on the first floor and on the street line.

Equipped with modern machinery, the contents of the bottles are not touched by human hands in the bottling. Like a modern milk plant, the bottles are thoroughly washed and dried, and then pass on carriers under the filling machines which fill and cap the bottles, so that it is almost impossible for anything to get into the bottle. Any one who wants to visit the plant is cordially invited to do so at any time.

Mundorff is supplying the American Legion carnival, and also will send a big consignment to Bethany Beach when the Delaware Regiment has its annual encampment there.

P. A. X. TRUCKS PLAN TO HAUL PEACHES

The P. A. X. is making special plans for hauling Delaware peaches to market. If the weather is favorable the crop ought to be coming on the latter part of this week, and the fruit is reported to be in splendid condition. The yield is also expected to be much better than for many years.

The shipper to door delivery made possible by the P. A. X. is one that is proving a great convenience to both. It means a saving in time of handling and less damage to the fruit in transportation and handling.

NEW VENDING MACHINES ADDED BY SHILLING-LAKE

Several new types of vending machines were taken on recently by the Shilling-Lake Company, at Ninth and West streets, Wilmington, of which James R. Lake is vice-president and general manager. These machines are for dispensing chewing gum and cigarettes. In addition, the company has taken on a full line of coin-operated scales.

The dance hall, at Deemer's Beach, which the company has leased for the remainder of the summer, has been very well patronized. During the week, an automatic phonograph, coin-operated, is used, and anyone feeling like dancing may do so at his or her convenience. This machine contains twenty-eight double-faced records, so that fifty-six numbers may be played before coming back to the original one. Records are changed every week. On Sunday, the Brinton Lake orchestra plays.

HAMMOND MOTORS SHOW NEW OLDSMOBILE MODEL

Although only received last week, the new convertible Oldsmobile roadster, in the showrooms of the Hammond Motors Company, Wilmington dealers at Thirty-seventh and Market streets, has been attracting a great deal of attention. Coming in three color combinations, it offers a wide range of color schemes. This job, which has a rumble seat, is upholstered in leather and has wire wheels. Two spares are also carried, one on each side.

The sale of the Oldsmobile machines is very heavy at the Wilmington agency and the demand is keeping well abreast with the supply.

VERNON LOVE IS KILLED BY AUTO

(Continued from Page 1.)

closer examination of the tracks showed that the car wheels must have passed over Love's body.

The four occupants of the car were then placed under arrest and taken to Elkton, where they are still being held. Love's body was brought to Elkton by Coroner Green, and a post mortem examination showed that he had been instantly killed by a blow in the back of the head which crushed the skull. The gash was about 2 inches wide. The post mortem also disclosed that Love was in the act of rising when he was struck, and wheel marks showed plainly on his body.

Malin was in no condition to give formal testimony, but stated that he was blinded by the headlights of the approaching car. He said he thought the rear tire on the motorcycle blew out, causing him to swerve back and forth across the road, and finally spill in the ditch. The rear tire on the motorcycle was found to be flat.

The body of Vernon Love was brought to Newark yesterday afternoon, by Robert T. Jones, and placed in his Funeral Home. Funeral services will be held Saturday afternoon at 3 o'clock, advanced time, at the home of John Love, the father of the victim, which is across the road from the Curtis paper mill. Dr. Walter Gunby will officiate, and interment will be in the Newark Cemetery.

Besides his father, Vernon Love is survived by two brothers, Glenn and Jack, and a sister, Bertha. His mother died about ten years ago.
