RACE TRACK ACTIVITY BEGINNING

Workmen Are Busy At Stanton Oval

As Memorial Day and the opening of the 1940 racing season at Delaware Park approaches the Stanton oval is fast becoming a center of activity as workmen and painters are busy in every part of the huge plant.

Additional chairs and benches have been added this year and are painted in the attractive blue and gold colors of the track. The grandstand and clubhouse have both been repainted within the past few weeks and the track itself is in perfect and well-seasoned condition.

Already several stables have moved into the spacious Delaware Park stalls and morning workouts will begin in earnest almost any day now. Several owners, trainers and jockeys have secured local quarters for the duration of the thirty day meeting.

Including five Saturdays and two holidays, Memorial Day and Fourth of July, the 1940 Delaware Park season bids fair to exceed all previous attendance records.

PLAYGROUND CAMPAIGN FOR FUNDS EXTENDED

About \$600 Still Needed To Insure Expenses

Newark's playground and swimming pool drive for funds went well over the half-way mark before the close of the ten-day campaign, it was shown at a financial meeting of the committee held last week at which time more than \$650 was reported as collected and pledged at that time.

It has been necessary, according to Louis T. Staats, general chairman of the project, to prolong the campaign until the goal of \$1,200 has been reached. It is thought that another week of active solicitation will accomplish this goal.

A meeting of the committee will be held again tonight in the high school to report funds received since last week.

Contributions are still coming in from organizations and individuals throughout the community but the co-operation and support of every individual, firm and organization is needed to raise the necessary funds to assure financial success of the project this summer.

Those who have not yet done so are urged to send, mail or bring contributions to Miss Edwina Long, secretary-treasurer, at the Women's College or mail them to Postoffice Box 391. If it is impossible to bring or mail your contribution in, phone 4941 and a representative will be glad to call for it.

Mayor's "Poppy Days" Proclamation

Friday, May 24, and Saturday, May 25, were designated
as "Poppy Days" in a proclamation issued by Mayor Frank
Collins this week. The proclamation urges all citizens to
observe the days by wearing memorial poppies in honor of
the World War dead. It states:

"Many of the young men of Newark were called into the
grand service in 1917. Some were called up to sacrifice their
lives in this service, dying with thousands of other brave
young Americans upon the battlefields of France. There,
over their graves, a little flower sprang up and bloomed,
nature's tribute to the heroic dead.

"It was the poppy and their comrades ask Americans
to wear a poppy in their memory on Friday, May 24, and
Saturday, May 25.

"The American Legion Auxiliary and Veterans of
Foreign Wars and the Veterans of Foreign Wars Auxiliary
will distribute these memorial poppies in our town.

"Therefore, I, Mayor of the Town of Newark, do hereby
proclaim Friday, May 24, and Saturday, May 25, to be 'Poppy
Days' in the Town of Newark and I urge all citizens to ob-
serve the days by wearing the memorial poppy in order that
the inspiring memory of those who made the highest patri-
otic sacrifice during the War may be recalled to every
mind."

TIMELY ADVICE

The great American urge to go places and see things in an
automobile is with us again. Spring may have been a bit back-
ward, but the calendar says it is here and if history repeats itself
the well-known summer gasoline trail is going to be just as dan-
gerous as ever and the annual rise in highway killings and in-
juries is due to start its regular upswing pretty soon.

But, according to the Delaware Safety Council, there is a way
to cancel this theory that—what has happened in recent years
is about to happen again. The secret lies with the individual
motorist—in his ability to analyze highway hazards, to diagnose
his own case and to discipline himself to drive carefully at all
times. The following are some of the hazards which will be en-
countered by the motorist, and how to avoid them:

SPEED—Adjust your speed to conditions and always obey
the prescribed regulations; **IMPROPER SIGNALLING**—Know
what you are going to do, and then let the other fellow following
you know what you plan to do. **CUTTING IN AND OUT OF
LINE**—In heavy traffic, stay in line. Before cutting out of line,
be sure the distance from the on-coming car will allow plenty of
time to pass without having to make a wild dash. **LEAVING THE
CURB**—Look to see what is coming from behind before pulling
away from the curb; **THE ROAD HOG**—Give him plenty of room.
INTOXICATION—Liquor and gasoline do not mix. If you drink,
don't drive. If you drive, don't drink. **FAULTY MECHANISM**—
Check your brakes, lights and steering gear at least twice a year.
MENTAL HAZARDS—Inattention is a common cause of highway
accidents. Take your driving seriously, you are running a poten-
tial instrument of death.

Dear sir:

After attending the Music Festival
in our school last Thursday night, I
would like to express my appreciation
for the splendid performance. Hats
off to the music teachers in our school.
They certainly deserve congratulations
for the splendid work they have ac-
complished in developing the musical
talent in our children.

It is with deep appreciation that I
write this and I am sure it expresses
the opinions of many more parents of
our children.

THE GAS STATION MAN WAS SORE AT ME!

• Ordinarily, I get along
fine with my neighbors.
So I was surprised the
other day when I stopped
at a filling-station and got
a sour look from the owner.

"What are you trying
to do?" he said. "Put me
out of business?"

He pointed to my car
then and grinned. "It's
these new Fords," he told
me. "They get the darned-
est gas mileage! And it
seems as if they never burn
any oil! Doggone it all—
every Ford V-8 you sell
takes money out of my
pocket."

"That's not the way to
look at it, Joe," I told him.
"When folks get behind
the wheel of one of these
new Fords they want to
go places. It's so full of
ginger and so easy to han-
dle that they get more fun
out of driving. I'll bet they
put enough extra mileage
on the car to keep you
busy, even if they do save
on gas and oil."

He scratched his head.
"Sounds as if you've got
something there," he said.
"I'll be around to see you."
P.S. He bought a Ford
V-8!

NEWPORT 9-8 after spotting the opposition no less than seven runs in the opening frame.

Tommy Wright issued a total of four bases on balls, which combined with an error and two singles to produce the enemy's big scoring spurge. Undaunted by the handicap, the locals marked up three in the second, one in the fourth, three more in the fifth and another brace in the sixth while holding Newport to one run in the third to eke out the win.

BECAUSE WE THINK WE HAVE a debt to pay—one that dates back more than six years when tennis was our favorite sport, we pause to pay tribute to a man and a gentleman who once gave us favorable press notices in the old Delaware Ledger.

Then posing as an expert on the court game, our friend more than once digressed from merely "covering the story" and often inserted personal opinions on local players, many of which were not pleasing to the ear.

We quote: "It's obvious that the standard of net play in this section is far below that of near-by cities and it is lamentable, indeed, that Newark has not produced a single player who wouldn't stumble before reaching the quarter finals of a sanctioned tournament. I think I could take a racket and take over most of the players around here myself."

Lawrence B. Brown (B for Bringham) was seen on the University of Delaware courts Tuesday night and in all fairness, we'll have to say that he pounded the pellet with all the vigor of a freshman at his first pep fest.

Combining a smooth and efficient backhand drive with a powerful, low sweeping forehand cannonball and displaying an uncanny knack of working his opponent out of position, "Bringham" would storm into the net time after time to put away a "kill" shot with all the fury of a wounded panther.

Playing no small part in breaking down an opponent for the point is a cyclonic service which, if returned, usually comes back in the form of an anemic lob shot, a perfect set-up for an overhead smash to the baseline.

Unlike many speed-ball artists, "Bringham" employs brilliant strategy in marking up his tennis victories. Opponents are drawn out of position time after time only to be completely fooled by a cross-court shot that splatters chalk to the four winds in seeking the safety of the farthest corner of the playing area.

HE'S A DANGEROUS PLAYER because he flirts with the base and sidelines, shunning the center court as if to handicap himself and make the game harder. An observer was heard to remark: "That man could play his game on just the line."

Another gripped because he is forced to mark off the court after every Bringham performance.

We admire a man who, six years later, can back up a charge.

See you at Forest Hills. Bringham.

A VICTORY FOR THE SIGMA PHI Epsilon entry in the intra-fraternity relay is predicted by Jack Harkins, despite the loss of several outstanding speedsters to the Mason-Dixon Conference.

Bill Gerow ran a couple of 2:02 half-miles at the Middle Atlantic last week and placed only fifth in the finals—reports say you could have covered the first five men with a yardstick and it took officials fifteen minutes to decide who was third and who was fifth.

how about turning out for the Newark ball team's battle with Worth Steel next Thursday evening?—the boys are real pennant contenders and deserving of a little more support.

the Sig Ep golfers (Baynard Roe, Jack Harkins, and Eddie Anderson) report that they see their running-mate, DiSabatino only to say "hello" just before a round—"Sabbie" books the slices his way up the fairway and finally meets his buddies at the green—then come "tee time" and he's gone again.

SUPERIORITY ON CINDERS GIVES BLUE HENS VICTORY

Ed Bardo's Charges Mark Up Win Over Drexel In Final Duel Meet; Douglass And Vernon Pace Blue And Gold To Conquest

Coach Ed Bardo's University of Delaware track team wound up its 1940 duel meet season in triumph yesterday afternoon on Frazer Field when Drexel Tech fell before the superior Blue and Gold forces. The score: 69 5-6—56 1-6.

Led by Gene Vernon and Carly Douglass, the Hens monopolized the running events, copping seven of the eight first places and scoring clean sweeps in the 100 and 220-yard sprints.

Vernon and Douglass contributed double wins to the Hens' victory, the former emerging in front in the mile and two-mile events and the latter leading the field in both hurdle races.

Humiliated on the track, the Dragons flashed their teeth in the field and copped five of the six events in this department. Bill Burrows led the assault with victories in the shotput and javelin, but the Hens had piled up too great a margin on the cinders.

Jay Weidman turned in the only track win of the afternoon for the invaders when he nosed Bill Gerow out in a 52.6 quarter, but the Delaware ace came back in the half-mile to defeat his Drexel rival going away in 2:06.2.

The meet was closely contested throughout and failed to reach a turning until, with four events remaining on the card, the Hens swept the 220-yard dash to move into a 54 1-3—44 2-3 lead. Vernon then added his two-mile victory and Gerow added the 880-yard first to clinch the decision.

Bob Stewart

One of Newark's outstanding younger linksman, Stewart, representing the Staunton Military Academy, won the tenth annual state interscholastic golf tournament on the Westhampton course of the Country Club of Virginia, last week.

In turning in a 36-hole card of 147, Bob shot a 76 on the morning 18—cut five strokes off his score in the afternoon for a 71, two over par, to nose out his teammate, Edwin Overton, and Edwin Rappold, of Newport News High, each of whom finished with a 148.

The triumph was registered over a field of 75 schoolboy golfers competing in Class A, B and C divisions.

JACKETS COP FIFTH

Coach Ralph (Irish) O'Connell's Newark High School diamond charges marked up their fifth win in eight starts at the expense of P. S. duPont, Monday afternoon, when they clubbed out 11 safeties for an 8-7 victory.

The Dynamiters opened with a four-run spurge in the opening frame, but the locals came back with two in the first and three in the second to take a lead that was never lost. duPont's seventh-inning rally fell one run short of deadlocking the count in the final frame.

Henry Brooks connected for a circuit clout for the Jackets while Norman Brooks contributed a single and a double. Henry Skomorucha led the Dynamiters' attack with a double and a single.

VERSATILE HONEY CLOUD TO RUN HERE

Slated To Resume
Battle With Masked
General

Honey Cloud, victor in the \$20,000 Delaware Handicap, and one of the most successful thoroughbreds in training, is slated to appear here on May 23. On Tuesday, the locals will meet St. Ann's at Rockford Tower.

Honey Cloud, who got there first, set the Delaware mile and a quarter track record of 2:03 2-5. This is excellent time for Delaware, noted for its soft deep cushion, especially safe for horses. The racing strip itself was laid down and allowed to settle a year before the buildings were put up. Honey Cloud also is the joint holder of the Delaware mile and an eighth record, War Magic and he both having run the distance in 1:52 flat. At the coming Delaware meeting Masked General and Honey Cloud again are expected to clash. Perhaps Masked General will be best remembered as the

horse who had War Admiral beaten as Pimlico until he ran out at the head of the stretch in what was War Admiral's last start as a three year old.

Did we hear
somebody say
BIG?

There's so much confusing talk about size in motor cars this year, that we want to list the following five facts about the 1940 Ford here in the paper where everybody can see and refer to them:

1. Ford springbase, front spring center to rear spring center, is 123 inches. This is substantially greater than in any other car at the price.

2. Ford rear-seat knee-room, even measured with front seat adjusted all the way back, is greater than in any other car at the price.

3. Ford Sedans, from windshield to rear window, inside the body where length means most, measure 100 1/4 inches. This is greater than in cars far higher-priced than the Ford.

4. Ford hydraulic brakes, with their 12-inch drums, are the biggest hydraulics ever used on a low-price car.

5. Not only is the car itself big, but it has a big-car engine. Although an 85 h.p. Ford gave more miles per gallon than any standard-equipped "6" in this year's official Gilmore-Yosemite Economy Run... its engine is an "eight." This is something found in no other car at the price, although 8 or more cylinders are a characteristic of all of America's biggest and finest cars today.
