VOLUME XXIII

NEWARK, DELAWARE, THURSDAY, JANUARY 26, 1933

NUMBER 52

## FEBRUARY 3 & 4 NEWARK'S OFFICIAL DOLLAR DAYS

### UNHEARD OF BARGAINS FOR NEWARK'S TWO DOLLAR DAYS

FRIDAY AND SATURDAY NEXT WEEK DESIGNATED  
AS THRIFT DAYS

Next Friday and Saturday, February 3 and 4, have been designated as Dollar Days for Newark merchants. These days have been sanctioned by the Chamber of Commerce and will be deemed official Dollar Days. It is expected that practically every merchant in town will offer greater values on these two days than have ever been offered in the history of Newark and vicinity.

All goods offered will be absolutely standard stocks and it is anticipated that hundreds of thrifty buyers will take the opportunity of buying at home. It is our firm belief that shoppers will obtain more for their money than ever before and the merchants cooperating for these two days sales certainly deserve your patronage. Never before has it been as necessary to spend your money at home as it is at the present time. Shop at home first. Help those who are called upon frequently to help others.

### STORM RAGES OVER STATE FLOODING TOWNS AND HIGHWAYS

Bowers Beach Inundated By Tide, Downpour; Water Foot Deep In Other Hamlets

Driven by a northeast gale that achieved a speed of 40 miles an hour, a heavy rain storm swept over Delaware yesterday, turned streets of the towns into miniature rivers, whipped the waves in the Delaware River and Bay into dangerous heights, inundated some roads in the lower part of the State, and flooded Bowers Beach and Slaughter Beach.

Although the wind was very high no property damage was reported, although a few vessels put into the harbor at Lewes for safety.

**Bowers Beach Under Water**

The most spectacular feature of the storm was at Bowers Beach where the entire town was inundated to a depth of more than a foot, and residents were forced either to use boats or wade in the water to get to their destinations. The tide was exceptionally high and broke the beach for the entire length of the bay shore. At 10 o'clock last night the tide began to ebb.

At Slaughter Beach, the water reached to beneath the boardwalk and several telephone poles were undermined and communication to the place was cut off.

At Rehoboth, the tide washed over the beach but no damage was reported, although the wind and waves were very high.

Delaware City reported a tide of 10 feet, and water washed up over the lower end of Clinton street to a depth of two feet and extended as far as the Robinson House. Canal Park was under water, and Canal street was under a foot of water. It was feared for a time the canal bank which was washed away last November and which was filled with 10,000 bags of sand would again suffer but the bank held and was believed safe after the tide ebbed. There was no property loss discovered.

**Ferry Service Stops**

Boats of the Wilson Line Ferry between Wilmington and Penn's Grove and between the Marine Terminal and Penn's Grove were tied up when the water became so rough that operation was deemed unsafe.

A tree blown across the State highway at Roger's Corner during the height of the storm, held up traffic for some time.

### Felix Pryor Exonerated at Coroner's Inquest

At an inquest held in Baltimore County, Felix Pryor, of Elkton, who was driving the car from which Joseph Smith fell to his death, was exonerated from any charge of criminal negligence. The fatal accident occurred early Sunday morning, January 15.

### LAISON OFFICER TO VISIT VETERANS

Sent to The Newark Post.

Thomas E. Loughrey, liaison officer of Veterans of Foreign Wars, will be in Newark on Tuesday evening, January 24, 1933.

All veterans who wish to have any papers filled out pertaining to veterans' affairs will communicate with him at Veterans' Post rooms any time after 9 a. m. on said date. This includes all veterans.

### CHESAPEAKE CITY MAN FINED FOR CARRYING GUN

John Secord, of Chesapeake City, who was charged by members of his family with threatening them with a gun, and who was apprehended by Sheriff Buckworth on the public highway with a revolver on him, was given a hearing Monday afternoon before Magistrate Daniel H. Garrett, and was fined \$50 and costs. The family did not press the charges at the hearing, but the Sheriff did. The fine was paid by the traverser's father, David Secord.

### Several Fires Fought By Aetna Boys

The Aetna fire boys have been kept busy for the past several days fighting fires in and near Newark.

### Newark Man Granted Patent

Lester W. Tarr has been granted a patent on a cellulose process.

Mr. Tarr has been connected with the Continental-Diamond Fibre Co. for several years.

### DR. HELFENSTEIN ADDRESSES MASONS

Dr. Roy C. Helfenstein, Pastor of Peoples M. E. Church, Dover, gave an illustrated lecture on Monday night, on his recent visit to the Holy Land. It was enjoyed by quite a few members of Hiram Lodge, No. 25, A. F. A. M., and their guests.

### YOUTHFUL PICKETPOCKETS STEAL MONEY FROM GOOD SAMARITAN

Last Wednesday Mrs. Joseph Swift, of Childs, driving to Elkton, gave a lift to Marion Brown, 16, and Gertrude Brown, 13, children of Harlan Brown, who were on their way to school. Later Mrs. Swift missed \$77 from her handbag, and reported the matter to the authorities. Sheriff Buckworth and Chief of Police Potts questioned the girls, who finally admitted the theft, and \$75 of the money was recovered from the elder girl, a student at the High School. The matter is being considered by State's Attorney E. D. E. Rollins and Miss Nellie Jean Beardsell, of the Welfare Association.

### Grocery Company Celebrates Forty-Second Anniversary

Remarkable Progress Made During the Past Year

This week is a gala one for the American Stores Company which is celebrating the successful completion of forty-two years in the grocery business.

Throughout the entire system of over 2950 stores many extra attractive values are being offered to millions of homekeepers with an invitation to come to the festival and take home their share of the Birthday Party.

Figures given out by the popularly known ASCO concern reveal that 1932 has been a year of expansion in the business. About two hundred new stores were opened during the year at conveniently located points. The company now serves food buyers in Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, New York and the District of Columbia.

In addition to the new stores opened, many were remodeled, quarters enlarged, attractive up-to-date fixtures installed and new departments added where needed. Swift distribution of supplies to the stores has been further facilitated by the opening of two large modern warehouses and the purchase of additional trucks and cars.

Since the first store of the company was opened forty-two years ago, many changes have been wrought in the grocery business. New methods of canning, packing and transportation have resulted in an increase of quality, freshness, and flavor in numerous products.

The former corner grocery has been supplanted by complete Food Centers.

The present practice of selling Fresh and Smoked Meats, Fish, Fresh Fruits and Vegetables was first inaugurated by the larger companies, among which the American Stores is one of the leaders. This introduction of Meats and Produce in grocery stores resulted in saving much shopping time for the food buyer.

The organization has maintained its far-flung contacts with growers, packers, canners, millers, and manufacturers, so that the ASCO Producer-to-Consumer Plan of merchandising could be fully effective. This plan necessitates knowledge of where to secure the best quality products and also results in many savings which are passed on to the customers in the stores.

Over fifteen thousand employees are on the company's payroll. Wages paid to these employees are beneficial to the local communities by helping to stimulate business for other merchants and industries through the usual channels of family expenditures.

One of the officials of the company has stated, "In spite of the drop in food prices which averaged from fourteen to seventeen per cent, we have had a very satisfactory year. The business, in terms of tonnage, shows a favorable acceptance of our services and products by the consuming public."

"The outlook for the coming year is very bright. Our policy of featuring outstanding high quality at the lowest possible prices, courteous service, and Fair Dealing has resulted in the continued patronage of our many satisfied customers and should attract many new friends to our stores during the next twelve months."

### To Hold Annual Meeting Tonight of Guernsey Breeders' Association

The annual meeting of the New Castle County Guernsey Breeders' Association will be held this, Thursday, evening, January 26th, at 7:30 o'clock, in the assembly room of Wolf Hall, University of Delaware.

Mr. Emil Olsen, Milk Marketing Representative for the American Guernsey Cattle Club in the Pennsylvania territory, will be the principal speaker. His subject will be the

"Profitable Marketing of Quality Guernsey Milk."

A very short business session will be held, and there will be remarks by prominent Guernsey breeders of the county and from our neighboring State of Pennsylvania.

This meeting will be of interest to all Guernsey enthusiasts, and the association invites interested farmers to attend.

### CAPT. JAMES JOHNSON MILLIONAIRE FOR A DAY?

Calling himself Capt. James Johnson, a stranger, blew into town on Monday and started to buy automobiles. He tried to purchase a car from a local dealer, giving him a check in full payment for same. The dealer not knowing the Captain, started an investigation and found out the check, made out on a Norfolk, Virginia, bank, was no good. So the Captain didn't get his car.

He rented a room in Newark, where Chief Cunningham and Officer Roy

Hill arrested him for issuing a bad check. He was not given a hearing in Newark, but was taken to the Workhouse by two State officers. It is understood he is wanted in Wilmington on the charge of issuing worthless checks. It is also said he is wanted on the same or similar charges in five of six other localities. It was stated he also gave a check for \$75 to a taxi driver for transportation from Port Deposit to Newark.

### REYNOLDS ASKS FOR MORE TIME TO PROB LIQUOR DISAPPEARANCE

Eleven Officers Still Suspended and Receiving No Pay

Although the investigation of the disappearance of the 140 cases of liquor from Penny Hill State Police Station, at Penny Hill, has been under way since December 22, a few more days in which to complete the investigation were asked for by C. C. Reynolds, superintendent of the State Police, at the meeting of the State Highway Commission, in Dover, yesterday.

This morning the eleven State Police of the Penny Hill force, who were under suspicion and who, by order of the commission yesterday, will remain suspended until the investigation is concluded, expressed disappointment at the result of the hearing. Having been suspended over a month ago, and receiving no pay in the meantime, the members of the force said that the continuance of the order is working real hardships on them.

Frank V. du Pont, chairman of the commission, said that the commission received a lot of data to work on but that no definite action will be taken until conclusive evidence of the guilt or innocence of each man at the station is secured.

Mr. Reynolds continued his silence this morning, merely saying that the investigation was being continued. Members of the suspended force who

have been individually and collectively working on the case in an effort to secure their vindication and reinstatement, also reported that they have facts but that they are unable yet to make any definite statements.

Certain members of the suspended force have offered to assume the responsibility, individually, of the whole affair, it is said, if the other men would be permitted to return to work, but no consideration of any such offers has been given.

In the meantime the disappearance of the liquor continues to be one of the chief topics of discussion in the section north of Wilmington.

Mr. du Pont said this morning that the data received by the commission, at the meeting yesterday, which will be closely guarded, was such as to assure the commission that there will be a solution of the disappearance of the liquor. Whether there will be a special meeting of the commission or not before the next regular meeting, in February, depends entirely on the speed with which additional information necessary to clear up the matter is secured.

Ed. Note—It is hoped Supt. Reynolds will make every effort to get the facts concerning the disappearance of the liquor, and if any officer is guilty, he will be punished.

### PLANS BEING COMPLETED FOR N. C. C. 4-H CLUB BANQUET

To Be Held in Banquet Hall of Newark Methodist Episcopal Church, February 10

Plans are being completed for a New Castle County 4-H Club Banquet to be held Friday evening, February 10th, at 6:30 o'clock, in the Newark Methodist Episcopal Church banquet hall.

This banquet is sponsored by the New Castle County Members of the Link of the 4-H Club Chain of Delaware, an organization of older 4-H Club boys and girls who are working with the County Club Agent, G. M. Worrlow, as a Junior Advisory Council. These boys and girls urge every loyal 4-H Club member, parent and local leader to make an effort to be on hand and do their part in making this first County 4-H banquet a success.

The following committees have been appointed by John Montgomery, Vice-President of the New Castle County

Order of the Link: Banquet committee, Chairman, Norman Collins, Middletown; Arthur Crossan, Hockessin; Florence George, Marshallton; Oliver Koellig, Jr., Newark. Program Committee Chairman, John Montgomery, Wilmington; Ted Pierson, Hockessin; Norma Swift, Marshallton; Edna Ballard, Rockland. Decoration Committee, Chairman, Louise Hubert, Marshallton; Albert Buckworth, Summit Bridge; Elsie Sowden, Marshallton. Miscellaneous Committee, Chairman, Clifton Buckworth, Middletown; Hazel Welch, Wilmington; Weldon Burge, Middletown, and Marie Carpenter, Port Penn.

Club members interested in securing tickets for this banquet may obtain them from the leader of their local club or from any member of the preceding committees.

### Artist Students of Curtis Institute Give Second Concert of the Season

The second Curtis Concert of the season was held in Mitchell Hall, University of Delaware, on Thursday evening, January 19, under the auspices of the Newark Music Society.

An interesting and varied program was presented by the artist students from the Curtis Institute of Music. The program opened with a group of German songs sung by Daniel Healy. Mr. Healy has a lyric tenor voice which he used very expressively in his interpretation of the lovely "Wie Melodien zieht es mir" and "Sonntag", both by Brahms, and the Prayer from Wagner's "Rienzi."

A trio composed of Ardelia Hookins, Marian Head and Virginia Majewski gave a splendid performance of the Beethoven Serenade for Flute, Violin and Viola. The composition was artistically performed with fine feeling for the ensemble, and was greatly enjoyed by the audience.

Solos played by members of the trio and accompanied by Miss Sarah

Lewis added an interesting variety to the program. The full, sonorous tones of the low register of the viola were displayed in the Elegie by Fauré, the second number of the viola group played by Miss Majewski. This was followed by the rapid "Ariette" by Martinu, with its syncopated rhythms, which was delightfully performed.

The flute solo, "Cantabile et Presto," by Enesco, played by Miss Hookins, was very pleasing, as were the three violin numbers played by Miss Head—the Praeludium in E Major, by Bach-Kreisler; Canto Amoroso, by Lammartini-Elman; and the Hungarian Poem No. 6, by Jenő Hubay. A second group of three songs by Mr. Healy made a very lovely conclusion to the program.

A radio broadcast of the concert was sent out over Station WDEL. The next of the concerts presented by the Newark Music Society will be given by members of the faculty of the Wilmington Music School, on February 19.

### RURAL LETTER CARRIERS HOLD BANQUET AT HARRINGTON

Raymond T. Buckingham of Newark President of State Association

A banquet and entertainment was held by the State Rural Letter Carriers' Association and the Ladies' Auxiliary at Swain Hotel, Harrington, last Saturday evening.

Mrs. Clarence Thorp, of Harrington was chairman of the committee that made arrangements for the affair. The entertainment was in charge of Raymond T. Buckingham, who is president of the association, Mrs. Buckingham is president of the Auxiliary.

After a turkey dinner with all the fixings, Miss Evelyn Humphrey, of Dagsboro, entertained with songs, dances and musical numbers, accom-

panied by Mrs. Lee Lewis at the piano. Other features of the program were: vocal solo, by R. T. Buckingham; duet, by Mr. and Mrs. Lee Lewis; piano solo, Mrs. Madeline Thorp, Harrington; piano solo, Miss Emma McKee, Dover; piano solo, Miss Jefferson, Smyrna; pantomime, Harry C. Johnson, Smyrna; comedy act, Miss Anna Prettyman, Mrs. John Purnell and Mrs. Anthony S. Summers, Middletown.

The meetings were addressed by W. C. Stevens, of Queen Anne, Md.; Frederick Russell, of Chestertown, Md.; and Postmaster Harrington, of Harrington.

### "HAVEG," NEW PRODUCT, TO BE MADE AT MARSHALLTON

Continental-Diamond Fibre Company to Manufacture New Acid Resisting Material

Alterations have been completed by the Continental-Diamond Fibre Company to their plant at Marshallton for the accommodation of the activities of the Haveg Corporation. The latter concern is a new company organized to manufacture a material known as "Haveg" in America. Offices of the concern will be in this town.

"Haveg" is an acid resistance material which has been made in Germany successfully for the past eight or ten years. It is used in many industries. One of its principal applications, is in production of dyeing vats and other machines for the textile industry; although its possible applications are unlimited in the field of corrosion resistant apparatus.

The location of this new industry in this vicinity is hoped to supply work for a moderate number of employees, and it is thought possible that it may develop into a considerable manufacturing business.

The changes made in the Marshallton plant necessitated the erection of

a building 200 feet by 50 feet, with clear floor space of 40 feet under the girders.

Special equipment needed for the production of "Haveg" is largely installed, and it is anticipated that production may be started in the very near future.

### Benton W. Raleigh Meets With Serious Accident

Benton W. Raleigh, of near Newark, met with a very serious accident on Tuesday while using a ladder in his barn, when he fell, breaking both wrists, his right shoulder, the shoulder socket, cutting a deep gash in his chin and lip, knocking out one tooth.

He was taken to the Homeopathic Hospital by his neighbors and treated by Dr. Wallace M. Johnson. His condition is serious.

## SCHOOL NEWS

### The Life and Works of Edgar Allan Poe

On Friday, January 20, 1933, the life and works of Edgar Allan Poe were given in assembly by Miss Singles' home room. Anne Cochran gave a short summary of Poe's life as follows:

"Edgar Allan Poe was born in poverty and, forty years later, died in poverty. His whole literary career, of scarcely fifteen years, was a pitiful struggle for mere existence.

"Edgar's father married an English actress. Although they had dramatic talent, they had to struggle for existence. Edgar became an orphan at the age of two. It seemed that the future poet was to be cast upon the world lonely and friendless. But fate decreed that a few glimmers of sunshine were to brighten his life, for he was adopted by John Allan, a wealthy merchant of Richmond, Virginia.

"In his new home he was petted and spoiled.

"At the age of seventeen Poe entered the University of Virginia. He left after one session.

"Early in 1827 Poe induced Calvin Thomas, a poor printer, to publish a small volume of his verses under the title 'Tamerlane and Other Poems.' In 1829 he made another literary attempt. Neither of them attracted much attention.

"Soon after his foster mother's death he secured admission to the Military Academy at West Point, where he refused to obey rules and so was dismissed.

"On September 22, 1835, Poe married his cousin, Virginia Clemm.

"As the years go by Poe's fame increases. His works have been translated into many foreign languages. Poe's name is known over all the world."

Georgia McMillan next told of Edgar Allan Poe as a short story writer. Her talk was as follows:

"One of the men who, by common consent, both at home and abroad, is ranked highest among American writers, is Edgar Allan Poe.

"Poe's first genuine victory was won in 1833, when he was the successful competitor for a prize of \$100 offered by a Baltimore periodical for the best prose story. 'Am. SS Found in a Battle,' which is a thrilling story of a shipwreck, was the winning short story.

"Poe had submitted six short stories in a volume. Among them were two other notable tales—'The Assignment,' a tragic tale of Venice, and 'A Descent into the Maelstrom,' an exciting sea adventure.

"In 1843 a hundred dollar prize was awarded the 'Gold Bug,' probably his best known short story.

"Poe is famous for his poems and literary criticisms, but his fame will finally rest upon his short stories. In this difficult field, Poe has never been surpassed, not only in America, but also in the world's literature."

Eleanor Brown gave a talk on the monument which marks the resting place of Edgar Allan Poe. It was as follows:

"Caught from some unhappy master whom, unmerciful disaster,  
Followed fast and followed faster  
Till his songs one burden bore  
Till the dirges of his hope that  
Melancholy burden bore,  
Of never—never more."

"This stanza, from 'The Raven,' was recommended by James Russell Lowell as an inscription upon the Baltimore monument which marks the resting place of Edgar Allan Poe, the most interesting and original figure in American letters. And, to signify that peculiar musical quality of Poe's genius which enthralls every reader, Mr. Lowell suggested this additional verse from 'The Haunted Palace':

"And all with pearl and ruby glowing,  
Was the fair palace door.  
Through which came flowing, flowing,  
And sparkling evermore,  
A troop of echoes whose sweet,  
Duty,  
Was but to sing."

In voice of surpassing beauty  
The wit and wisdom of their  
king."

Bertha Eastburn, Grade 9.

### Scientific Program in Assembly

We assembled in the auditorium singing of the "Glory" followed by the playing of the "Star Spangled Banner," and saluting the flag. The Bible was read by Miss Hess.

The program was presented by members of Miss Fulkerson's tenth grade Biology class, under the direction of Miss Hess and Miss Fulkerson.

The first speaker of the program was Martha Moore, who told us about one of the world's most famous scientists, Charles Darwin. Darwin was born on the same day as Abraham Lincoln, February 12, 1809. Even as a schoolboy, Darwin showed those naturalist tendencies which later developed into the qualities that made him famous. Darwin was an ardent bird student and a successful sportsman.

Charles Darwin entered the University of Edinburgh at the age of sixteen to study medicine, but gave up this plan before finishing his course, and, instead, entered Cambridge at the age of eighteen with the intention of preparing himself to become a minister. During his college days, Darwin's inclination to be a naturalist continued to develop.

Darwin wrote many books, giving the results of his careful studies. The most famous of all was "On the Origin of Species," a book on evolution, published in 1859.

His death in 1882, at the age of seventy-three, was greatly mourned, and England paid a fitting tribute to his memory by burying him in Westminster Abbey, where many other illustrious Englishmen have been buried.

The second speaker was John Applegate, who told us about another world famous biologist, Louis Pasteur. One afternoon, June 2, 1881, a group composed of French officials, eminent scientists, delegates from medical societies, Parisian journalists, and a scattering of farmers waited expectantly in a farmyard of a little village in France. A few members of the party were inspecting a row of dead sheep which occupied one side of the enclosure. The others watched the road. Presently one of these called out, "Here he comes!"

and the entire group broke into a wild cheer as a small bearded man appeared in the gateway. He bowed; then counted them—28. "Where are the others?" he quickly asked. Someone pointed to a nearby pen filled with living sheep. The bearded man counted again—28. Then he turned to the assemblage with a simple gesture and said, "You see, gentlemen."

Pasteur announced that sheep and cattle could be protected from the deadly disease of anthrax—the germ of which was discovered by Koch five years before by first injecting into their blood some of the weakness germs of the disease itself.

Pasteur as a lad was educated at the Ecole Normale in Paris. The graduating diploma of the boy who was to become the greatest chemist of his time was marked "mediocre in chemistry."

The third speaker was Marie Slack, who told us about one of the world's most famous scientists, Luther Burbank. Burbank was born in Lancaster, Mass., in 1849. He was unable to finish school any further than the town academy, and so worked in a factory in Worcester, but found his true occupation when he became a market gardener and raiser of seeds.

One day a man gave him an order for 20,000 almond trees to be ready on a special date. Burbank crossed the almond trees with the prune trees. In nine months, less than half the time given, Burbank sent word to the man that his trees were ready. Once he grew an apple, one-half of which was sweet and the other half sour. He produced a daisy that was pink in color and seven inches in diameter. By crossing the tomato and potato he produced a plant he called the pomatote. It is very white and excellent for eating. Burbank died in the year 1926. He was an honorary member

## The Home and That Boy of Yours

By F. L. CHELEY

### BOYS ARE NOT NATURALLY BAD

NOTWITHSTANDING the fact that for centuries we were taught that each of us was "begot in sin" and that "moral guilt is the inborn heritage of the race"—in our enlightened day we recognize that each of us is born a bundle of instinctive urges and hungers, any or all of which may be allowed to develop negatively along the line of least resistance; or on the other hand, any or all of which may just as well be developed along positive lines, producing admirable and desirable conduct. This is essentially the difference between good and bad.

The old notion that boys are born bad and need forever to be curbed, even to the point of breaking their spirit, is a remnant of the dark ages. All boys need direction and training in self-propelled character. It is easier to be bad than good, just as it is easier to run down hill than climb uphill.

Far too many vigorous young lads are allowed to run down hill pretty badly before a purposeful uphill climb is commenced. We all believe in freedom. We get best results from unconformable life directed. Directed freedom is the sort of discipline we should aspire to for any boy. We nowadays train fine, thoroughbred colts instead of breaking them. It is only bronches which have run wild on the range, which have to be broken by old-fashioned methods.

Old forms of discipline simply succeeded in planting deep within

the soul of the boy, fear. He was afraid to be bad. One of the great weaknesses of our social order is the fact that we still try to legislate goodness by fear of jail or worse—yet we know very well the only goodness that is permanent is that resulting from education. Boys can be educated (disciplined) to good conduct to which they lend a co-operative hand. When we discipline merely for fear, we create resentment and crystallize opposition and must maintain "standing armies" of authority and ego, to maintain our discipline.

I was called in to help "tone" a bad boy recently—"utterly incorrigible," declared his arbitrary, determined, surly father, "had to the core." The boy looked like a caged animal. He mistook any motion as a new attack. In the living room, hung on a hook by the door, was a heavy quilt. It was the source of all the difficulty. A misunderstood, cornered young animal was fighting back. I took the quilt with me. From that day, matters mended—a slow, tedious task full of reversions, but we finally won by banishing fear.

"If you do that again I'll whip you within an inch of your life," a college professor was recently heard to say to his twelve-year-old son.

Modern education teaches us something better than that, but it takes time and patience and enlightenment to get results; but when gotten, they are much more than intimidation.

(© 1932, Western Newspaper Union.)

of the Royal Botanical Society of Sweden.

The assembly was dismissed from the auditorium by the orchestra playing "Glee Club."

Alice Cox.

### Program Centered Around

#### Classical Myths

The assembly program for Monday, January 23, was given by Miss Kirk's ninth grade home room Latin class, under the direction of Miss Kirk and Miss Hess. The following interesting speeches were given: "The God of the Greeks," Clifford Owen; "Mars," Dorothy Mitchell; "Janus," Alice Mackey; "Mercury," Eleanor Del Colto; "Interesting Allusions," Lewis Eastburn. These speeches were very interesting to the school audience and, as we believe they would be of interest to you, we publish them as follows:

#### The Gods of the Greeks

In Greece there is a mountain named Olympus, the snowy peaks of which tower high into the sky. On the summit of this mountain the gods made their homes. Despite the fact that they were never seen by man they were believed to live in great palaces above the clouds.

In appearance they were much like the human beings only much larger and stronger. To illustrate their greatness of size it would be well to tell of Mars. He once fell to earth after being overthrown in battle and covered almost two acres of land.

They were believed to have lived much the same as those on earth at that time. They required food and drink which they called ambrosia and nectar. They were born, grew up, married and experienced all the joys and sorrows which enter the lives of everyone.

Jupiter was the king of the gods. He was the supreme ruler and even though the gods of lower rank talked freely with him they always respected him.

In feeling they were above the human weaknesses as those of anger and cruelty. Despite this power they were believed to possess both good and bad qualities. In general they upheld the virtues which the Greeks admired.

Each god was depended for some certain thing. Apollo took care of the sick and was repaid by offerings after the ill one recovered. When a smith had completed a fine statue as though he owed his success to Vulcan.

These gods became companies of men and were with them in time of need or case of wrong doing. In other words the Greeks brought their gods into their daily life and added dignity to the common place things.

Clifford Owen.

#### Mars

Mars was the god of war. The Greeks looked upon him as young, impetuous and ever thirsting for blood. He was feared by everyone including his own father, Jupiter. There was one Venus who was not afraid of him and accepted him as her lover, although she was married.

The Romans were a warlike people and it was not strange that Mars became their patron god. They built temples for him and honored him with celebrations. In Rome there is a place called "The Field of Mars," here they reviewed their armies and the spoils of war was dedicated.

The month of March was so named because Mars, the patron god of the Romans, was a war-god and spring campaigns usually began about that time.

The Roman's year once began with this month and in the following lines Longfellow explains in quite another way why it stands for "war."

I Martius am, one first and now the third!

To lead the war was my appointed place;

A mortal dispossessed me by a word,  
And set there James with the double-face.

Hence I make war on all the human races;  
I shake the cities with my hurricanes;

I flood the rivers and their banks efface,  
And drown the farms and hamlets with rains.

—Longfellow.

Dorothy Mitchell.

#### Janus

Janus was one of the early Italian gods. He is thought of as connected with the door or gate, and he is sometimes pictured holding a key. In statues he is represented with two faces: one in front and one behind, to typify the powers of seeing forward and backward at the same time.

The Romans built a temple to Janus in the Roman Forum in the shape of a double arch with doors. When these doors were closed, the state was at peace; but when they were open, everyone knew that war was being waged in some part of the Roman world.

January, the month which our year begins and which may be thought of as the "gateway" to the years, takes its name from the god, Janus. Longfellow writes of this god:

"Janus am I, oldest of potentates;  
Forward I look, and backward,  
and below."

I count as god of avenues and gates,  
The years that through my portals come and go."

Alice Mackey.

#### Mercury

Mercury, son of Jupiter, was eager and enthusiastic, the prince of story-tellers; an eloquent orator and a wonderful athlete. The Greeks also worshipped him as the god of shepherds, the protector of heralds and travelers, and as guide of souls in their journeys to the Lower World. But it is as messenger to the gods that he is chiefly remembered today.

Mercury was extremely fond of playing jokes and very skillful in avoiding unpleasant results from them.

The practically-minded Romans honored Mercury as the god of trade and commerce. They associated with him the qualities of strength, keenness of wit, power of persuasion, ability to entertain, and a liking for adventure.

Mercury is generally represented as a handsome young man wearing winged sandals and often a winged cap and carrying the caduceus—a staff.

Mercury suggests the idea of flying through the air, and in the early days of aviation, papers and magazines contained many references to him. The connection with this messenger of the gods became still closer when airplanes began to carry mail. Here is a poem from the Chicago Tribune, written on the occasion of the first attempt in America to carry letters on the air:

#### The Aerial Mail

By Minna Irving

Hail! hail! to the aerial mail  
As it speeds through the vast blue dome,

Where the winds are wild and the clouds up-piled  
Roll away planes like foam.

A fly for the dove with her missive of love,  
And the train on the track below,

And the liner churning the sea to yeast,

Don't give that little cold  
a chance to get you down—

Down It First with

Newark, Delaware

They are all of them now too slow.

The messenger fast of the gods of the past

Has taken the wings from his feet  
And tied them, behold! to a wonderful car,

Shining, and splendid, and fleet.

Twenty-four cents for an airplane stamp

Shatters the time-table's fetters,  
And Mercury capped and goggled and strapped.

Is waiting to carry our letters.

### Interesting Allusions

Lewis Eastburn

Why the olive branch is a symbol of peace: Minerva's great gift to the Greeks was the olive tree, which made the people become prosperous. As the story goes, the olive tree was produced in the following manner: Neptune, the god of waters, contested the right of Minerva to Attica a portion of Greece. By a compromise the country was to belong to who could give the inhabitants the most useful gift. Neptune struck a rock with his trident and a spring gushed forth, but Minerva caused an olive tree to sprout.

The Gods decided that the gift of the Goddess would benefit the country more than Neptune's, and the land fell to Minerva. Since Minerva presided over the arts of peace, the olive branch has become the symbol of peace.

The real meaning of "tantalize": Tantalus was the son of Jupiter. He lived on very good terms with the gods, feasted with them and knew some of their plans. Once he betrayed some of their secrets and was sent to Tantalus. There he was punished by having food and water placed before his eyes but always just out of his reach. From the story of Tantalus we get the word "tantalize," which means "to tease or torment, by exciting hopes or fears which will not be realized."

### Through the Keyhole

The nail polish business is picking up. This is especially true of the more vivid shades. Why? Certain seniors are trying to draw attention to their class rings.

Kay Spencer's secret passion No. 4 (you know she keeps them tabulated!), is quite fond of solving jigsaw puzzles. Don't ask me why?

Ruth Marritz is simply crazy about that song, "I'm Playing with Fire, I'm Going to Get Burned"—especially since she did just that while leaning against a hot radiator and warbling the said ditty.

Burt Cole is playing in earnest, on his trombone, his newest favorite "Roseland, My Roseland."

Teacher—Just as condensed milk contains the essence of the milk, so do Bacon's essays contain the essence of his thoughts.

Stud—Oh, just milk and bacon.

Attention all ye playboys who tram the Lincoln Highway each night to see a certain fair lass: A new sidewalk is being built for your convenience. The daily stampede is wearing out the highway. So 'elp me!

A certain new Romeo, recently imported from Elkton and Wilmington High Schools, is casting his orbs at our petite toe-dancer.

'Tis best to forget:

The senior rings.

The frigid atmosphere in the French room.

The senior English test given on Friday the 13th.

The neighboring chair on which we could write—if allowed.

The senior play—until after exams.

Exams—until the night before.

The depression!

We speak with pride of:

The new gymnasium and auditorium.

The school orchestra which, due to the constant effort of Mr. Brinser, is one of Delaware's finest.

The Senior Mathematics Club which is carrying on some splendid mathematical researches.

The greatest basketball team Newark High has ever had.

Our victory over Wilmington in both football and basketball.

The school campus which is the most beautiful in the State.

The school cafeteria which, at last, is learning that "variety is the spice of life."

### Why Exams?

Just why must we have exams? The purpose is, of course, to determine the extent to which a student has gained knowledge in a given subject and whether or not he is capable of doing advanced work. Otherwise, however, examinations are as useful as for this primary purpose. They make necessary a comprehensive review which gives the pupil a broader and more inclusive view of the subject than would otherwise be gained. The exams in themselves help to teach the student to think in a direct orderly fashion. They give him a view of his abilities and knowledge. To me exams mean to be a good thing even though they are very troublesome.

Charles E. Gifford, Grade 11.

### Newark's Victory Over New Castle

The Newark High School basketball team succeeded in keeping their slate clean thus far this season by defeating Johnny Roman's New Castle outfit here last Friday night, January 20, in an overtime struggle 18-17. At the end of the regulation period of play the teams were deadlocked 15-15 and Newark emerged victorious when Holloway made good on a foul-shot after Jackson, of Newark, and Salters, of New Castle, had again stalemated the score at 17-17.

The game between the two traditional rivals attracted a large crowd, which witnessed the best played game of the local season. The clash was featured by close guarding, both teams putting up brilliant defensive battles.

The New Castle team was on the short end of the score during the first quarter, which ended 4-1 in favor of Newark. Dean and Wharton connected for field goals, while Bowen's foul toss represented the loser's score in the opening chapter. In the second period Jim Salters put the New Castle team in the lead with a pair of pretty field tosses, and the half closed with New Castle in front 7-6. Play was even during the third quarter, but near the end of the game Daly and Roberts put the winners in front with a field and foul toss, respectively. New Castle knotted the score when Proud counted on a penalty shot, and then rainbowed the ball from mid-court for a beautiful field toss that sent the game into an extra period, which was eventually decided on Holloway's foul goal.

## AIR RECORDS CRASH

### Annals of 1932 Marred by Fatalities in Spectacular Flight Attempts

As in former years the lure of a big prize for a record flight has drawn many a bold adventurer to an untimely, unknown end. Perhaps the most spectacular failure was that of Stanislaus Hager, who attempted to fly from New York to his native Warsaw, but who, eight days later, was picked up 500 miles off Portugal by an oil tanker as he floated half starved on the wreck of his water-logged land plane.

The plane American Nurse carried three adventurers to an unknown fate. Dr. Leon M. Plesni, William Ubrich and a nurse, Miss Edna Newcome, disappeared between the western and eastern shores of the North Atlantic while flying toward Europe.

Many an air record bit the dust during the year, among the first being the land plane speed record which had withstood all attacks for more than four years. Lowell Bayles, test pilot, was credited with 281 miles per hour.

Altitude was another record which did not survive the year's restless activity. Prof. Picard reached a new height above the surface of the earth in a balloon while exploring in the stratosphere.

#### United States Loses Record

The airplane altitude record formerly held by Lieutenant Apollo Soucek, of the United States Navy, at 43,181 feet, was broken by Captain Cyril Insua, of England, when he urged a little five-year-old plane to 43,976 feet, more than eight miles, above the chalk cliffs of Dover.

Colonel Turner beat Captain Frank Hawks' record for the east-west transcontinental speed dash. His time was 12 hours 3 minutes for the 2424 miles.

James Wedell added to his feats at the National Air Races by lowering the time of Jimmie Doolittle from Ottawa to Mexico City by more than half an hour when he traveled between the two most-distant capitals on the North American continent in 11 hours 53 minutes.

Amelia Earhart raised her already high average by establishing a new woman's transcontinental nonstop and straightaway endurance record with her flight from Los Angeles to New York City in a little more than nineteen hours.

Amy Johnson, wife of the noted flier, Captain James Mollison, beat her husband's record for the fastest time from England to Cape Town.

The woman's endurance record fell

during the year as Mrs. Frances Harrell Marsalis and Mrs. Louise McPhetridge Thaden remained aloft for more than eight days, refueling in flight.

#### Commercial Flying Gains

During the first six months of the year American planes flew 24,668,414 miles, carried 248,954 passengers, delivered 4,342,507 pounds of mail and 712,638 pounds of freight.

Figures of the aeronautics branch, Department of Commerce, show a gain of more than 30 per cent for 1932 over 1931.

This tremendous mileage was accomplished by 580 planes, flown by 558 pilots, and the gasoline consumed was more than 11,000,000 gallons.

The International Aeronautic Award was given to Dr. Hugo Eckener for his remarkable work with the Graf Zeppelin.

The Ligue Internationale des Aviateurs made its annual award to Clyde Pangborn in recognition of his flight across the Pacific, non-stop. It is given each year by the League to the aviator who makes the most significant flight. The Guggenheim Gold Medal, awarded each year for outstanding achievement in the field of aircraft invention, went to Juan de la Cierva for his work in developing the autogiro.—Captain Ira C. Eaker, Noted Flier and Aeronautic Expert, United States Army Air Corps.

### MILFORD CROSS ROADS SCHOOL NOTES

The third week of the Adult Music Class shows an increase in attendance during the winter term: at the first meeting there were 33 persons present; at the second, 35; and at the meeting on last Tuesday evening 43. Let's have 50 in attendance next Tuesday evening, January 31, at 7:30 p. m.

Only five weeks are left to prepare for the County Music Festival.

Mr. Leonard Nelson has been chosen as a representative from the Milford Cross Roads group to meet with Miss Burnett, along with the representatives from the various centers, to decide the date and to make plans for the approaching pageant.

#### Hot Lunch

Hot lunch continues to be prepared and served daily at the school. Eulalia Brown, Annie Kwiatkowski and Betty Hollingsworth are on the cooking committee this week. The girls work cheerfully and well to prepare the food that is helping to improve the weight graph of each child.

Paul Nelson and Stanley Kwiatkowski are demonstrating this week just how quietly dishes can be washed. The boys have done their work so well that visitors have been able to understand, without difficulty, teaching that was going on at the same time as the boys have done their work so well dish washing—a real accomplishment, boys!

#### Visitors

Mrs. Florence Duffield, of Forwood School; Miss Nellie Appleby, of Hare's Corner School; and Miss Ethel Campbell, of Augustine School, observed at Milford Cross Roads all day Tuesday. Mothers and friends who visited during the week were: Mrs. Clifford Ayars, Mrs. Joseph Lloyd, Mrs. H. G. Stanley, and Mrs. Annie Cameron.

#### Diphtheria Treatment

Dr. Downes and Mrs. Hitchens gave the toxin-antitoxin treatment at the school on Tuesday.

All mothers will bring their children to the school on Tuesday, February 21, for the second and last treatment.

#### McClellandsville

P. T. A. MEETS

The monthly meeting of the McClellandsville Parent-Teacher Association was held in the school January 19, at 8 p. m. The various committees gave their reports and the old business was disposed of. The requirements for state recognition of the association and the appeal from the Delaware Anti-Tuberculosis Society were brought before the people by the

President, Mr. Leslie Crowe. It was decided to use part of the proceeds from the play to pay a dentist to fill the teeth of some of the children as a part of the health program already started.

After the business meeting an entertainment was given by the children of the school. Mr. Herbener, of Newark, recited a poem. Music was provided by the Parson family or Corn-Huskers from Oxford, Pennsylvania, and Mr. Claude Galyen, of McClellandsville. Refreshments were served and the meeting adjourned until February 16.

### CARROLL, GRANT WIN HONORS IN "HOT SATURDAY"

"Hot Saturday," the new film which shows at the State Theatre February 1 and 2, features Nancy Carroll, Cary Grant and Randolph Scott in a human, dramatic story of a girl who walked home. It is the kind of thing that happens anywhere, and has been produced and acted with such effective simplicity that it seems strangely, intimately real.

The film tells the story of Ruth Brock, the most popular girl in town, who suddenly finds her whole world crashing down about her ears merely because she has been seen to leave the car of a man the town has dubbed notorious. In the role of Ruth, Nancy Carroll gives one of the finest performances of her career, and Grant again proves his excellence as the notorious Romer Sheffield.

Randolph Scott, the lanky young man who scored in Zane Grey's "Heritage of the Desert," also does a fine job as an old sweetheart of Ruth, who takes the gossip seriously.

### Drivers' License Laws

Twenty-eight of the states and the District of Columbia require that all motor operators be licensed to drive. However, only 14 of these governmental divisions require an examination before the issuance of the permit. In the other states it is a mere formality accompanied by payment of a fee, with age the only qualification. This age limit runs from a minimum of 12 years in South Carolina, to 18 years.

The National Conference on Street and Highway Safety has put forth a uniform drivers' license law for the guidance of states. Eleven have adopted it, some with modifications. It aims to keep congenitally or temperamentally unfit off highways.

State and municipal traffic officials, judges, automobile clubs and civic associations unite in testifying to the efficacy of a uniform drivers' license law in reducing accidents and improving traffic conditions. Because of that approval, extra effort is to be made this winter to have legislatures of many states pass the law.

"A drivers' license law, such as proposed by the National Conference, is a fundamental necessity for a state which wants to fight against automobile accidents in our streets and highways," says John J. Hall, Director of Street and Highway Safety of the National Bureau of Casualty and Surety Underwriters.

"The states which have adequate laws in this respect have had 29 per cent fewer automobile fatalities than they would have had if they had experienced the same percentage of increase which occurred in other states reporting to United States Census Bureau. That means something over 25,000 lives saved, a movement worth while.

"A drivers' license law efficiently administered sends about 33 1-3 per cent of all applicants back for further training; ultimately it excludes about two per cent of the total number of all seeking permits to drive. These are the epileptics, the defectives, and others, who plainly are unfit to be on the road."

### What World Trade Means

King Cotton, as John H. Caulfield points out, is playing Horatius at the bridge for our foreign trade—armed with the two-edged sword of price and quality. Last season, while the world used 165,000 bales less of all cotton than in the previous period, it used 1,411,000 more bales of American. In the early months of this season American cotton again bettered its export record. In the early months of this season American cotton again bettered its export record, by more than 50 per cent.

This means jobs for American workmen, increased circulation of money and a more stable cotton industry. It takes us back fifty and more years ago, when American cotton was the undisputed king in the world market. It is, perhaps, the beginning of a new era for the cotton producer.

It is worth pointing out that cotton is one of the American industries that has taken greatest advantage of the farmers' newest agency of progress—the cooperative. The cotton cooperative has shown the producer how to raise a better product and sell to the best advantage. It has fought, and is fighting, the battles that no single producer can ever fight successfully. Cotton prices are down, along with everything else—but they would be farther down if it were not for the cooperative, and the market would doubtless be demoralized. The fruit growers of the west, the cotton farmers of the south, the dairymen of the east—they are showing what loyally supported cooperatives can do in bringing order out of chaos.

## ILLINOIS HIGHWAYS

### DENIED TO TRUCKS

Commerce Commission Calls Them Menace to Railroads' Investment; Affects 225 Motor Vehicles

A decision of far-reaching importance in the matter of conflict between types of common carriers was handed down yesterday afternoon by the Illinois Commerce Commission when it barred two trucking companies from the use of the State highways. The concerns, the Keshin Motor Express Company and the Interstate Trucking Company, operating 225 trucks between them, were refused certificates of necessity and convenience.

The Attorney General was instructed by the commission to obtain court orders at once to restrain the two companies from continuing their operations.

The commission held that these companies menaced the investment of millions of dollars which the railroads have tied up in trackage, rolling stock and other property, and that while the

railroads bore a considerable portion of the tax burden, the trucking companies paid only for State and city licenses, and the tax on motor fuel.

If the decision is upheld by the court it may open the way to barring all trucks engaged as common carriers in freight competition with the railroads from the use of the State's highways.

The original suit against the two companies was brought by the Illinois Central Railroad, although other roads and municipalities later joined in the suit.

It was expected that the railroads at once would file complaints against throughout the State, and that all such companies not holding certificates of necessity and convenience would be barred from use of the highway.

## Parent-Teacher Association News

At the January meeting of Taylor's Bridge P-T. A., three subscriptions to Signposts magazine were procured and the membership fee of \$5 to Service Citizens Association was paid, making the president, Edward Latta, a member for a year. It was decided that the association will make a drive to have all the school and pre-school children inoculated with the diphtheria toxoid.

Townsend P-T. A. met on January 12, with Mrs. Jennie Hicks, president, presiding. A play will be given to raise funds to have some of the tonsil defects corrected.

Milford Cross Roads P-T. A. met in the school on Wednesday evening, January 18. A health moving picture was shown and a playlet, "The Teeth That Jack Built," was given by the pupils. The association voted to pay for dental work for children whose parents are unable to pay for it. The

president, Mrs. Leonard Nelson, talked about treatment for the prevention of diphtheria which will be given at the school. Winter sessions of the Adult Music Class have begun and are well attended.

At the meeting of Alfred I. du Pont P-T. A., Dr. Jeffers, chairman of the State Dental Society, gave the first of a series of talks on health, his subject being, "Care and Correction of Teeth." Dr. Sargent was also present and showed motion pictures on teeth. The Health Committee reported that 80 per cent of the pupils have received diphtheria inoculation and it is hoped that the remainder will take the treatment.

Port Penn P-T. A. No. 112 C held the first meeting of the year and re-elected Mrs. Pauline Williams LeCompte as president. Rev. J. H. Russum gave a talk emphasizing cooperation of parents and teachers.

## Elkton Firemen Do Good Work

### At Early Morning Blaze

Elkton Firemen were called about 4:30 Tuesday morning to the Elkton Heights development, where the home of Mr. and Mrs. Samuel Niglio was entirely destroyed by fire of unknown origin, together with all the household goods.

The property, formerly the home of the late Raymond Cameron, on North street, was bought by the Pennsylvania Railroad Company to make way for the change of line. The company sold the house to E. Kirk Brown, Esq., who had it moved back in the Heights, and recently sold it to Mr. Niglio, who

is in the barbering business in Wilmington. There had been no one in the house for several days, Mrs. Niglio being ill at the home of her parents, Mr. and Mrs. Joseph Swift, near Childs. There was only small insurance.

The adjacent unoccupied house, owned by E. Kirk Brown, Esq., was badly burned on one side. It was stated in Elkton this morning that very likely the whole development would have suffered considerable loss if the local firemen hadn't done such good work.

## 97,000 Persons Killed in America

### As Result of Home Accidents

According to the Delaware Safety Council the public has not recognized as they should the seriousness of the home accident situation in the United States nor in Delaware. In 1931 there were 97,000 persons killed in America as a result of accidents. Of this number 29,000 were killed in the home. Home accident fatalities are exceeded only by accidental deaths for motor vehicle operation.

Nearly one-third of all accidental deaths occur at home. The hazards confronting us in our daily home life are more serious than supposed. Nearly half of all home injuries result from falls, a majority of which occur on steps and ladders. Strong, safe stairladders and properly illuminated stairways kept free of toys, brooms, soap and other household articles will largely remove this type of home accident. Many accidents due to falls in the home are preventable by fastening the rugs securely to the floor, especially floors with polished surfaces. Many injuries caused by tripping or stumbling are eliminated by replacing playthings, books and unneeded articles after use. Standing on chairs, boxes and other objects to reach heights is a home accident cause frequently resulting in serious injuries. The use of a good step-ladder for such purposes as hanging pictures, arranging curtains and cleaning shelves assures greater safety. Burns and scalds constitute about

one-fourth of the injuries received in the home. Almost 50 per cent involve children under 15 years of age. Matches in the hands of young children present a hazard often neglected. The use of metal match boxes placed out of the children's reach largely removes this hazard.

In many homes gasoline and similar fluids frequently are used for cleaning purposes. This practice, particularly indoors, is considered unusually hazardous as heat or friction may cause a fire or explosion.

## PENCADER DEMOCRATS

### HOLD MEETING

The weekly meeting of the Pencader Democratic Club was held Monday, January 23rd, in the club room at Glasgow. There was an interesting discussion of the bills which had been presented during the past week. Representative Price explained thoroughly the act providing for the testing of accredited herds of cattle for tuberculosis. He expressed the opinion that it would be the first bill to be passed by the House.

It was decided that the club would meet every Wednesday evening while the Legislature is in session. A number of new members were added to the list and it is hoped that every Democrat in the hundred will join the club.

For The Post**

## Newark New Century Club News

The Delaware State Federation of Women's Clubs has been honored by the selection of Mrs. Wm. H. Beacom, president of D. S. F. W. C., as chairman of the President's Council of the General Federation of Women's Clubs. This office is elective and came unsought as a pleasant surprise. The Newark New Century Club takes pleasure in congratulating Mrs. Beacom.

The Executive Board of Delaware State Federation of Women's Clubs met at Dover last Friday. Mrs. R. O. Bauman, Mrs. J. Irvin Dayett and Mrs. F. A. Wheelless attended. The State convention will be held on Thursday and Friday, May 18 and 19, in Wilmington. The Washington Heights Club will be hostesses to the convention this year, the sessions to be held in the du Pont-Biltmore. Mrs. Herbert F. Weldin will be the hostsess chairman. There will be no election of officers.

Mrs. G. R. Sinclair, chairman of Motion Pictures, has announced that Mrs. J. Robinson and Mrs. R. L. Cooch have consented to serve on her committee. Mrs. H. S. Gabriel has been appointed chairman of dramatics to replace Mrs. C. Robert Kase, resigned. Mrs. Emerson Johnson, chairman of art, has announced that Mrs. A. J. Strikol, Mrs. C. M. Myers, and Mrs. J. F. Daugherty will serve on her committee.

The Club Chorus will meet again at the home of Mrs. A. D. Cobb next Monday.

The following groups have had their pictures taken for the Scrap Book: The Executive Board, Clives and Conservation committee, Prison Reform committee, Membership committee, Program committee, Library committee. The Hospitality committee will have their picture taken on February sixth.

## Over One Hundred Attend

### Interesting Sportsmen's Dinner

Inaugurating an active membership campaign at their meeting held at the Hotel Richardson, Dover, last Thursday, the Delaware Game and Fish Protective Association brought together more than one hundred interested sportsmen and sportswomen, landowners and officials of the State Game and Fish Commission, in what proved to be one of the most enthusiastic and largest attended gatherings of this nature ever held in the State.

The meeting was featured by splendid addresses by Mr. Seth Gordon, President of the American Game Association, of Washington, D. C., and Mr. E. Lee LeCompte, Chief Warden of the State of Maryland. Both emphasized the need of co-operation among those interested in wildlife and out-of-doors sports. They agreed that Delaware has more in natural resources toward promoting development of game than many sections of the nation and urged that activities to protect and preserve all game, furred, feathered and fanned, be carried on with the spirit which the new Association has developed.

The meeting was carried out through two sessions. President Edwin C. Totten, called the afternoon session at 3 o'clock in the hotel parlors. About thirty representative men and women from all sections of the State were present. Interesting discussion of all phases of gunning and angling were presented with a larger number giving their views. This developed facts and information upon

which the Association will act toward securing improvement over present conditions.

Following the first session dinner was served at the hotel and the evening session was conducted immediately afterward, in the dining room. In addition to the two principal speakers former Governor Robinson, now a member of the Delaware State Game Commission, was called on and extended his compliments to the Association, assuring the members of co-operation.

Dr. William E. Harris, chairman of the Legislative Committee reported informally on the plans which the Association have in mind toward securing legislation to strengthen the State Commission and make possible enlargement of the work in the game department throughout the State. The principle idea in this connection, as reported by Dr. Harris, was advisability of increasing the present Commission from one to six members.

An outstanding feature of the meeting was the display of personal interest in each branch of sport and a desire to work together for the general improvement of conditions. The executive committee of the Association will meet within a brief period and plan a means of keeping the membership in touch with activities through regularly issued bulletins or by promoting community meetings in each of the three counties.

## SPRING FLOWERS

### BLOOM IN SUSSEX

The temperature in Sussex County for the past three days has stood between 60 and 70.

The mild weather has started grass to grow along the country roadsides. Dandelions have been seen in fields and pastures; yellow jasmine bushes are in full bloom in some flower gardens here; fish have been running in some of the tidewater streams; maples are shooting forth their buds and early varieties of fruit are said to be showing signs of life. There is fear that if these conditions prevail many more days cold weather may cause damage.

## Short Term of Congress

### Doomed When 20th Amendment Is Ratified

After ten years of trying, and a hundred of waiting, the United States modernized its political machine Monday by eliminating defeated officials—the "lame ducks"—from Government.

A twentieth amendment was written into the Constitution declaring that after this year both the President and the newly elected Congress shall take office the January following November's election, and that the old time short session which for so long has clogged the political machinery with its ineffectiveness, shall be held no more. The present one is the last.

Thirty-six states of the Union ratified the amendment in less than one-tenth the time it took to convince Congress that the country demanded abolition of this lumbering antiquity, the vote of the Missouri Legislature on Monday being the necessary thirty-sixth state. Georgia and Utah ratified later the same day.

## HAIRPINS

Now that hairpins have gone out of fashion, how does a woman adjust her watch?—Fountain Inn (S. C.) Tribune.

Zulu natives in South Africa are so proud of new and second-hand army uniforms from the United States that they can be seen wearing heavy overcoats on hot afternoons.

The gray squirrel is given credit for planting most of the nut bearing trees of North America.

Tears have been found an exceedingly powerful destroyer of bacteria. Icebergs always are composed of fresh water ice.

Aircraft designers are experimenting with feathers in the actual construction of planes. They are using them to insulate cabins against noise.

## Motorists Could Save Lives If They Followed Simple Driving Rules

Many lives would be saved and hundreds of thousands of injuries would be prevented if motorists would abide by a few simple driving rules, according to W. Floyd Jackson, President of the Jackson Company, State distributors of Hyvis Products, and a member of the Commercial Vehicle Committee of the Delaware Safety Council, in a recent broadcast over WDEL.

Mr. Jackson declared in Delaware it is estimated that ninety per cent of all accidents last year were caused by only eight violations of our Delaware Motor Vehicle Code. They were:

1. Driving at a speed too fast for existing conditions.
2. Passing another car when going in the same direction when the view ahead is obstructed.
3. Failing to keep to the right-hand side of the road.
4. Failing to slow down at intersections.
5. Failing to slow down on approaching pedestrians.
6. Failing to observe the ten foot law with respect to standing street cars.
7. Violation of traffic control devices.

8. Dangerous and improper parking. A similar set of violations would probably account for ninety per cent of all accidents that occur in the entire country. If the motoring public would resolve right now not to commit a single one of these violations during the present year most automobile accidents would be eliminated in 1933. Won't you at least do your part?

Mr. Jackson declared that the one armed driver eventually steers his way into the hospital or the morgue. In winter weather many a driver who doesn't take into account the road conditions skids right through the gates into eternity. He deplored the frugal driver who practices economy by failing to make needed repairs on his car. He declared that as a result of this near-sighted economy policy he may never have an opportunity to use the money he saves.

The tired driver who goes to sleep at the wheel may wake up in another world. The hitch-hiker is quite likely to catch a ride in an ambulance. Alert attention, whether riding or walking, is one certain preventive against a step which may lead to jail, the hospital, or to eternity.

## American Legion Team Wins

### First Place In Bowling League

Special to The Newark Post.

By taking two games out of three from the Newark Fire Co. last night, on the Continental alleys, the American Legion team won the top position in the first half.

H. Jackson was high man for the Fire Company with a pin fall of 513 for three games, while C. Hopkins led the Legion team with a pin fall of 494 for three games.

The first half race was quite close and until the final match last night the Fire Company was out in front. Should the office team win their remaining three games a tie for second place honor would result with the Fire Company.

The scores:

AMERICAN LEGION				
C. Hopkins	165	162	167	494
J. Q. Smith	133	166	143	442
O. Little	154	117	...	271

## OBITUARY

### MRS. MAGGIE E. KENNING

Funeral services for Mrs. Maggie E. Kenning, 60 years old, who died at her home Tuesday, will take place from her late residence at 10 o'clock tomorrow morning. Burial will be in Federalburg, Md.

Mrs. Kenning was a member of the Newark M. E. Church and was active in church affairs. She is survived by her husband, David C. Kenning, who is connected with the Experimental Farm of the University of Delaware, and one daughter, Lydia Kenning.

# Buy HEAT not bulk for economy

Make This Simple Test—In firing your heater put Old Company's Lehigh on one side and any other solid fuel on the other. After several hours look in the firepot and see with your own eyes that Old Company's Lehigh lasts longer.

## IT'S NOT THE SIZE... IT'S LIGHT THAT COUNTS

It's what the fuel produces—that determines heating comfort and convenience. It's "how long it lasts" in your furnace—not "how much space it takes up" in your cellar—that determines heating economy.

We know there is far more heating value per ton, in Old Company's Lehigh Anthracite, than you'll find in fuels that bulk much larger. We know, too, that Old Company's Lehigh lasts much longer, requires only a minimum of attention and furnishes clean, healthful, even heat!

But we want you to prove these things to yourself — and for yourself. Order a ton of Old Company's Lehigh Coal and make the simple test described above.

## PERSONALS

Mr. and Mrs. Ernest Milliken, of New York, attended the home demonstration at Harrisburg, Pa., last week.

Mr. and Mrs. McKelvey are giving a home demonstration at the Playhouse at the Home Demonstration and at the Playhouse today.

Miss Ann Chalmers, of the 1928 Class of the Newark School and a graduate of Temple University, has been substituting in the Newark School in the absence of members of the regular Staff, who were ill.

Mrs. Ralph Barrow, who has been ill at her home, here, is reported as improving.

Mr. and Mrs. J. Nelson Abbott visited Mr. and Mrs. Harry A. Burris, of Philadelphia, over the week-end.

Mr. and Mrs. Harry H. Cleaves and Mr. and Mrs. Du Val and Gordon, were dinner guests of Mr. and Mrs. Charles and family, of Philadelphia, on Saturday.

Mrs. Margaret White, a senior in Women's College, taught the classes in the absence of Mr. and Mrs. Hain, who is confined to his home at Reading, Pennsylvania. Mr. Hain is suffering from an attack of neuritis in his right arm.

Mr. Hain's illness does not seem serious yet it is very painful.

Mr. Charles R. Walsh, of New York, spent the past week-end with Mr. and Mrs. J. T. Werner, of S. Col.

Mr. and Mrs. Clarence Dickey, of Bath, of Wilmington, spent the week-end with Mr. and Mrs. J. Harvey.

Robert Alcorn entertained the members of the Crusaders' Club at his home, near Newark, Friday evening.

Guests included Willard Jordan, Ralph Carroll, Carroll Hamill, Ralph Raymond Lindell, Norval Robinson, Randolph Eastburn, Charles Gifford, and Lewis Krapf, Jr.

Mr. Herbert Henning spent the week-end at the home of her parents, Mr. and Mrs. Taylor Young, at Middletown, Pa.

Mr. Margaret Burke, who has been ill at the home of her parents, Dr. and Mrs. Merritt Burke, for the past few weeks, returned to Philadelphia last week.

Walter Hampden's performance of "The Sign of the Cross" was witnessed by J. P. and party; Mrs. W. A. Wil-

son and Miss Margaret Wilkinson; Miss Jane and Miss Anne Smith; and Miss May and Miss Edna Chambers.

Mr. and Mrs. C. Bradford Mitchell and Mr. Albert De Bonis attended the performance of "Hamlet" and "Caesar" last evening.

Mr. Francis H. Squire had as her guest last evening Miss Thelma Bradley, Miss Lillian Steele and Miss Beatrice Shafer, of Ridley Park.

Mr. Rees Jarmon and her daughter Miss Mildred Jarmon, are recovering from an illness.

Mr. W. A. Wilkinson was host to the regular monthly meeting of the club on Wednesday evening.

Mr. S. W. J. Welch, of Chapel Hill, North Carolina, is here on a two-day visit with her father, Mr. Welch, Robinson, and her sisters, Mrs. J. Welch, of Wilmington, Miss Pauline Robinson and Mrs. Anna Robinson, of Newark. Mr. and Mrs. Welch and her son are living in Chapel Hill, winter, where Mr. Welch is attending the University of North Carolina and working for his Ph. D.

Mr. Welch will be remembered as an Elma Robinson.

Dr. George H. Ryden will visit Rev. P. Matthews in Snow Hill, Maryland, over this week-end.

Mr. and Mrs. Charles V. McFarland, of Millville, Del., are visiting friends in Newark.

Miss Edith McDougall is entertaining on Sunday at a luncheon in honor of Miss Harriet Bailey, who leaves for Columbia soon.

Mr. A. T. Buckingham, of near Newark, gave a dinner Monday evening in honor of her husband who celebrated his fifty-eighth birthday anniversary that day. Covers were laid

for eleven. The guests included Frank Buckingham, of Red Mill, the Rev. and Mrs. Oliver Collins and son, Clovis, of Marshallton, Mr. and Mrs. Raymond Buckingham, of Newark, the Rev. and Mrs. T. O. Wills and Ralph Buckingham, of Pleasant Hill.

Mr. and Mrs. O. F. Forry and Elmer Forry and Mr. and Mrs. Elmer Forry, of York, Pa., spent the week-end with Warren A. Singles and Miss Ona Singles.

Miss Ann Chalmers, of the 1928 Class of the Newark School and a graduate of Temple University, has been substituting in the Newark School in the absence of members of the regular Staff, who were ill.

Mrs. Ralph Barrow, who has been ill at her home, here, is reported as improving.

## Harold Stradley, Alleged Firebug, Held For Cecil Co. Court

Harold Stradley, 20 years old, of Cecilton, who is said to have confessed some weeks ago that he destroyed five dwellings costing about \$15,000, by fire during the past three months, to satisfy his craving for excitement, was arraigned Tuesday night before Police Judge Manly Drennen, and pleaded not guilty.

Stradley took his hearing as a joke and did not appear to be interested in the testimony presented against him. He was held under \$10,000 bail for the action of the March term of court. In default of bail he was sent to jail.

Some weeks ago he was examined by Dr. George Preston, of Baltimore, and pronounced sane. States Attorney Ellis Rollins, said he will have the 257-pound prisoner, son of Mr. and Mrs. Wayne Stradley, of Cecilton, examined by several other specialists.

## M. E. CHURCH CRUCIBLE CAMPAIGN ENDS SUNDAY

The Crucible Campaign being conducted by the Ladies' Aid Society of the M. E. Church will end on Sunday, January 29. All those having envelopes should have them in by Sunday.

The campaign is going over very well, and the people have been very responsive. It is hoped that a goodly sum may be realized.

## CARD PARTY

Special to The Newark Post.

A Card Party is to be held by the Veterans of Foreign Wars at the home of John Morrison, at 53 Cleveland avenue, on Friday night, January 27, 1933. Prizes are to be awarded for high scores; also refreshments for everybody.

## CARD AND BINGO PARTY

Orphan Rebekah Lodge, No. 12, will hold a card and bingo party in Odd Fellows Hall, Tuesday evening, January 21st. Games will start at 8.30.

## PRESENT PLAY

The Red Lion Dramatic Club will present a 3-act play entitled "When Dreams Come True." This play, produced under the auspices of Leola Council, will be held at Red Men's Hall, Union, Delaware, February 2, at 8 o'clock.

## ROAST BEEF SUPPER

The Ladies Aid of the Newark M. E. Church will serve supper in the dining hall, on Thursday, February 2, from 5.30 to 8 p. m. Menu: Roast beef, mashed potatoes, peas, cole slaw, hot rolls, and apple pie. Proceeds for the benefit of the Building Fund.

## PLAY AT WESLEY A SUCCESS

The three-act play entitled "When Dreams Come True," given by the Red Lion Dramatic Club, at Wesley Church on Friday last was a great success.

## TO HOLD BAKE

The Newark Chapter, No. 10, of the Eastern Star will hold a bake at Sheaffer's paint shop on Saturday, January 28th. There will be many kinds of goodies for sale.

## CARD PARTY

A card party will be held at the home of Mrs. Walter Hullahen, Friday, February 3, by the Women's Guild of St. Thomas P. E. Church.

## Lodge Notes

JR. O. U. A. M.

Three hundred and ninety-three men and women together with seventy-eight boys and girls thronged the New Century Club Building last Monday evening. Here the American Flag Council, No. 28, Jr. O. U. A. M. observed its thirty-sixth anniversary. Needless to say it was the "Greatest Night" in Newark for a while back. From the moment the toastmaster, Honorable T. Raymond McMullen spoke in glowing terms the audience was thrilled. Brother Dempsey and his committee after diligent search and earnest consideration were able to have the following program announced and rendered:

Selection, Orchestra; Sing, "America," audience; Invocation, Reverend Richard Greene; Address, Welcome, Henry F. Mote, P. S. C.; Address, Congratulations, J. Mark Sweeten, State Councilor; Address, Juniorism, William S. Howe of Baltimore, Md., National Vice Councilor; Address, Principles, James L. Wilmet of Philadelphia, National Secretary; Selection, Orchestra; Old time string music, Taylor Brothers; Solo, Robert Strahorn; Brass Quartette, Buckingham, Chalmers, Stradley and Wolleyhan; Solo, Wesley W. Dempsey; Old Songs with Guitar, Harry Gardner; Solo, Miss Rae McMullen; Square Dance, Jr. O. U. A. M. Boys.

All those who took part in the program were given a great ovation to which they gladly responded.

At a late hour the guests were invited to the banquet hall where Brother Amos Norton and his committee satisfied the appetites of the inner man.

The American Flag Council is second to none in the Delaware Council for sociability and hospitality which they are continually proving. Guests were present from all parts of Delaware, Maryland and Pennsylvania.

It is the desire of the Council that any white male from 16 years to 50 years free to come to our Chamber door in the Odd Fellows Building any Monday night, and we will gladly enlighten them more on Juniorism.

Now Brothers be sure to come out next Monday night as we will have a special feature night.

A. Neal Smythe, Chr. Pub. Com.

## PYTHIAN SISTERS

The members whose birthdays are in January will celebrate with a Birthday Party on Friday evening, January 27th. Members are requested to come out and enjoy this party. Those who are celebrating are Mrs. Marguerite Ramsey, Mrs. Helen Mitchell, Mrs. Ethel Morris, and Mrs. Marguerite Bailing.

## HEAD OF CHRISTIANA AND PENCADER CHURCHES

Services Sunday at Head of Christiana Presbyterian Church, the Rev. Henry G. Welton, minister, will be: Sunday School at 10 o'clock; morning service at 11 when the pastor will preach on, "Songs in the Night."

Christian Endeavor at 7. Topic, "What Good Is Our Church Doing?" Leader, Samuel Simpers.

## Pencader

Services Sunday at Pencader Presbyterian Church, the Rev. Henry G. Welton, pastor, will be: Sunday School at 1:30; worship service at 2:30.

## "SECOND HAND WIFE" HAS BEST LEGS IN FILMS

The most beautiful legs in Hollywood are displayed in one scene of "Second Hand Wife," the new Fox picture directed by Hamilton MacFadden. More than 500 pairs were inspected by MacFadden and his assistants before the final selections were made.

In the film lower extremities are observed under 30 or more desks in an office scene during the early part of the picture. The camera sweeps across the half-circle of symmetrical limbs, here and there marred by a comic pair. A careful observer will note, however, that there are no comic legs in the front row.

Sally Eilers and Ralph Bellamy portray the leading roles in the picture which depicts the story of a wealthy business man who, neglected by his wife, falls in love with his secretary. How the man and the girl work out their problem forms the basis of what is said to be one of the most dramatic and entertaining stories yet to reach the screen.

"Second Hand Wife" is an adaptation of Kathleen Norris' latest novel and MacFadden not only directed the picture but prepared the story for the screen.

Supporting Miss Eilers and Bellamy is a cast that includes Helen Vinson, Victor Jory, Dorothy Christy, Carol Kay, Esther Howard, Effie Ellsler, Clay Clement and Nella Walker.

"Second Hand Wife" will be at the State Theatre, January 30 and 31.

## SCHOOL NEWS

(Continued from Page 2.)

### Newark High Defeats Wilmington Trade School

Newark High School won its third straight game of the season here Tuesday night by defeating Wilmington Trade School 24-19.

The teams battled on even terms throughout the first half, the score being 13 to 12 in favor of Newark. The battling continued during the last half until Newark finally forged ahead leaving the final score 24-19.

Wharton starred for the home five with 8 points, while Sherry lead the Trade School with 7 points.

In the preliminary class games, the Junior boys defeated the Seniors 18-2, and the Senior girls defeated the Juniors 18-12.

### Ninth Grade Girls Defeat Eighth Grade Girls In Basketball

The ninth grade girls defeated the eighth grade girls on January 20, with a score 12-2. Ethel Hauber refereed and Rose Lenhoff timed. Louise Elder played a great game for the ninth grade, and June Fowler did likewise for the eighth. The line up was as follows:

Eighth—June Fowler, right forward; Evelyn Taylor, left forward; Alice Weldin, right guard; Jean Barnes, left guard; Madelin Lighty, center; Mary Louise Brown, side center.

Ninth—Louise Elder, right forward; Gene Edwards, left forward; Freda Smith, right guard; Pauline Du Hadaway, left guard; Marylee Shuster, center; Pauline Ring, side center.

Mary E. Wilson, Grade 8.

### Seventh Grade Defeats Eighth Grade In Basketball

A basketball game was played between the 7th and 8th grades on Wednesday, January 18, 1933. The referee was William Dean. The time-keeper was Mr. Gillespie, the athletic director.

The star players were Robert Ewing, Norman Aiken, Kinsey Reynolds, Francis Tierney. All of the seventh grade.

The star players for the eighth grade were as follows: Paul Skillman, Roland Anderson, Samuel Cole, Curtis Smith.

It was a very good game. Our coach let all the players have a chance. The game started at 3.15 and ended at 4.00. The seventh grade tied the eighth grade up to the last quarter. Then they defeated them 10 to 8. The players of the seventh grade are striving hard to defeat the ninth grade, so that they can play the cham-

pionship with the winner of grades 10, 11, 12.

The lineups for both teams are as follows:

Seventh Grade—Robert Ewing, center; Newton Sheaffer, right guard; Wilson Beck, left guard; Norman Aiken, right forward; Francis Tierney, left forward.

Substitutes—Jas. Anderson, Ralph Gregg, Oscar Anderson Todd, Clarence Todd, Kinsey Reynolds.

Eighth Grade—Paul Skillman, center; Samuel Cole, right guard; Woods Gravenor, left guard; Roland Anderson, right forward; Curtis Smith, left forward.

Substitutes—Curtis Morrison, Jack Dordan, John Dauser, Raymond Burnett.

Captain—Samuel Cole.

Oscar Anderson, G7.

### Social Science of the Ninth Grade

This term the ninth grade has been studying Problems of American Culture.

The first problem was American culture and changing group life. We learned that America as a nation of communities had many neighborhoods of different types. The life of the people is rapidly changing due to the Industrial Revolution.

The next topic was The American and his work, in which we found that man's work plays a great part in his life. It regulates his home, food and clothing.

We found in the chapter The Study of Law of the United States, the ways in which our great country is governed. Our present system of law originated from the practice of people.

Our final problem was the Assimilation of Different Nationalities and Races. We found there were two problems of assimilation. The first is, teaching the immigrant the fine things of our culture; the second is, learning from them the customs they brought from their native lands.

These are the great problems of our American culture. Under these are smaller topics, though individually these may seem very large.

Dorothy E. Crossgrove.

### Did You Know That:

If you say "it's me" instead of "it's I" it is all right with the National Council of English Teachers?

Manchuria contains more than 88 million acres of forest and much more coal and iron? But oh, what soldiers! One gives a promise and also keeps it?

We return thanks although we do not borrow them?

Kingfish Huey Long, who recently conducted a filibuster in the Senate against the Glass Banking Bill, is usually accompanied by a stocky body-guard who can, in the words of the Kingfish himself, "shoot out a bird's eye at a hundred yards?"

The old saw—"If you can't boost, don't knock!"—ought to have been changed long ago to "If you can't boost, knock!" The boosters get the glory but the knockers get results.

You can obtain a divorce after living in Nevada six weeks, but you must live there six months to get a fishing permit?

Guy Lombardo's Orchestra with Burns and Allen, is the favorite radio program of the Senior class? The Chase and Sanborn Hour, with Eddie Cantor, is their second choice.

Many famous authors were born in January? Jack London, Moliere, Tennyson, Franklin, Webster, Poe, Bacon, Byron, Carroll, and last, but not least, Horatio Alger, Jr., are some of them.

When Gandhi went to Oxford he was one of the best dressed men on

campus? "Grandhi the Dandy" was his nickname.

The first public presentation of "Politian," Edgar Allan Poe's only drama, by the University of Virginia Players, took place on January 19th in celebration of the 124th anniversary of the poet's birth? It is fitting that "Politian" had its world premiere at the only university that Poe ever graced—or as Poe's foster-father, John Allan, would have said, "disgraced"—by his presence.

Cats need more than nine lives in some Australian cities? The depression has led to a new industry; unemployed men can net a neat income from selling cat pelts, so night hunting of the animals is a popular sport.

A two-headed snake is reposing in the museum of the University of South Carolina? The snake is 39 inches long and has a perfectly formed head at each end of its body.

Will Rogers started his career in vaudeville with a horse, a rope, and a repertoire of four jokes?

Ruth Marritz.

### Educational Program for Junior and Senior High

Educational programs for the Junior and Senior high school students has been planned by the National Broadcasting Company. Below is a paragraph for the remainder of January:

Music—U. S. Army Band, January 24 and 31, 11.30-12.00 a. m., WEAF; U. S. Navy Band, January 23 and 30, 10.30-11.00 a. m., WEAF; NBC Symphony Concert, January 25, 9.00-10.00 p. m., WEAF; U. S. Marine Band, Slumber Hour, January 26, 11.30-12.30 p. m., WJZ; Roxy Mammoth Symphony Concert, January 29, 10.45-11.00 a. m., WJZ.

Agriculture—National Farm and Home Hour, everyday at noon, WJZ. History—When Time Stands Still, January 30, 3.00-3.15 p. m., WEAF. English—Radio as an Aid to Language, January 24, 2.45-3.00 p. m., WEAF.

Magic Speech (Dialects), January 27, 2.00-2.30 p. m., WEAF. Lamplight Legends, January 28, 9.00-9.30 p. m., WEAF.

Ann Hamilton, 8B.

### Examinations

Examinations will soon be here and all must study well, I fear. To keep their subjects' standing. General Science, Social Science, English, Mathematics.

Each must have its share of study. To keep their heads from being muddled On the pathway to success.

Time that summons us to school. Draws us nearer to the pool Of examinations.

Now the ruffle of our papers, Oh! what pesky trouble makers Are these examinations.

Kathryn Strikol.

### ELEMENTARY SCHOOL NOTES

Elementary Assembly January 18

Miss Medill's grade had charge of the assembly January 18.

Robert Bausman presided and the theme was, "Sketches from the Life of Benjamin Franklin." After the usual opening exercises, Virginia Stickley told about Franklin's arrival in Philadelphia and of his future wife's laughing at his crude appearance when he passed her home.

Gustine Cosetti told of Franklin as an inventor and how he and his son proved that lightning and electricity are the same by experimenting with a kite during a thunder-storm. Mary Roberts gave a well-executed piano solo, "The Rustic Dame."

William Hancock told the story of Poor Richard's Almanac which did so much to train the American people in habits of thrift. William had facsimiles of the Almanac.

When Benjamin Franklin as a small boy, was working in his father's soap-

fat shop an uncle said to him, "Benjamin seest thou a man diligent in business he shall stand before kings."

Paul Robinson gave a short history of Franklin's achievements, showing that his diligence did enable him not only to stand before kings and queens but to sit with them.

Program closed by singing, "Our Delaware."

### Wings For Ocean Travel

How would you like to fly across the ocean in an airplane? Some of us may be flying in an air-

plane before long. Two big airplanes are being made. They will carry fifty passengers. Colonel Charles Lindbergh is helping to plan the two new flying boats.

It will take just two days to cross the Atlantic Ocean. What do you think the Pilgrim Fathers would say if they could hear that?

Each airplane will have four motors. The pilots of the new flying boats will do all they can to make the trip safe. They may take two routes. In summer they will travel by the way of Greenland and Iceland on their way

to Europe for fuel. Later landing fields will be made in the ocean. Perhaps in a few years travel to Europe will be as safe by air as by water.

John Tierney, Grade 4.

Tony Sarg, the Children's Friend, Tony Sarg makes marionettes and gives shows for the children. After the play many of the children go back of the stage to shake hands with him. On Thanksgiving Day he gave a parade for the children in New York City. In the parade were animals filled with gas. After the parade he

## School News

(Continued from Page 6.)

men let them go. Some went up to the tops of the buildings.

Louise Davis, Grade 3.

### The Life of Helen Keller

When Helen Keller was a baby she was very sick. It made her blind and deaf. When she was eight years old her father found a tutor who could teach her. She learned to spell in the tutor's hand. Then she thought she would go to college. She took the tutor with her. Everything the teacher said the tutor would tell her. When she was a lady she taught a school for the blind.

Jean Lewis, Grade 3.

### Third Grade Pupils Present

#### Program On Citizenship

The following program was given by Miss Meixell's section of the third grade at the regular assembly hour on Monday, January 23rd. The class chairman, Jane Brown, introduced the speakers and explained how the articles in the newspapers, "My Weekly Reader," had interested the class. They told the articles to the class during the regular Language period. The class gave helpful criticisms.

Song by school, "Little Polar Bear Cub"; Recitation, "The Snowman's Resolution," Jean Collins; Song, "The New Year," the third grade; Current Events, the third grade; "Wings for Ocean Travel," John Tierney; "Snake Killed by Spider," James Smyth; "New Cave Found in Texas," Norris Cornell; "Tony Sarg Amuses Children," Louise Davis; "Life of Helen Keller," Jean Lewis; "Courtesy and Citizenship in the Third Grade," Jane Brown. The program was concluded by the school singing "Our Delaware."

### Our Citizenship Chart

In our room we have a good citizenship honor roll. The people who are courteous get a square beside their names on the good citizenship honor roll, every day. A courteous child is well-behaved. He talks to his parents in a kind way and has nice manners at the table. There are twelve places where we must be courteous:

1. On entering the school building.
2. In the cloakroom.
3. In the classroom.
4. On the playground.
5. At entertainments.
6. In the library.
7. In the cafeteria.
8. On the street.
9. In our own homes.
10. In the home of another child.
11. At church.
12. In patriotic situations.

Jane Brown, Grade 3.

### Tony Sarg and His Marionettes

Tony Sarg was poor. He had to feed chickens in the morning. He got tired of this. So he tied a string to a pan of grain and looped it over to his bed. Then every morning he would dump the pan of grain by pulling the string. His father was proud of him. He grew up to be popular. A man who owned a barber shop asked him to make the shop more attractive. He got play animals for the children to sit on, peek holes to peek in, and a stand to collect money. The children came very often.

He now goes around the world giving marionette plays. One of his most popular ones is "Alice in Wonderland." The marionettes are jointed dolls worked by strings.

Adrienne Suddard, Grade 5.

### Toboggan Riding

I've never taken a toboggan ride. Down the slippery slippery, slide. Many thrills, Many many spills, When you get on the toboggan slide.

Lynn Preston, Grade 4.

### Elementary Assembly January 16

Miss McLees' section of the third grade had charge of the assembly program for Monday, January 16. Robert Doordan was chairman. "Our Delaware," song by all; Thrift Week, George Schaefer; Benjamin Franklin—a History Reading, Camilla Speicher; "Franklin Selling Ballads on the Streets of Boston," a story of the picture, Earl Henderson; "The Glow-worm," Orchestra; "If We Save," by seven people: Penny, Vivian Zimmers, Nickel, Mary Taylor, Dime, Jackson Lewis, Quarter, Marjorie Jamison, Half-Dollar, Robert Buckingham, Dollar, Herbert Slack, Bank Clerk, Du Val Cleaves; "Thrift," a playlet, Waste and Thrift, Charles Myers, Pennies, Norma Bramble and nine others, Dime, Katherine Egnor, Dollar, Clyde Baylis, Bank, Barbara Anne Ritz; "Work and Save," a poem, Karl Greer; "A Penny, A Nickel, A Dime," song, Class.

### Pupils of Elementary

#### School Hear Concert

The sixth concert in Series A, N. B. C. Music Appreciation Hour, was presented January 13, at 11 o'clock in the school auditorium.

The program was as follows: Thunderstorm from "Overture to William Tell," Rossini; Turkish March, Mozart; Excerpt from Overture "1812," Tchaikovsky; Czardas from "The Fortune Teller," Herbert; Farandole from "L'Arlésienne," Suite No. 2, Bizet.

Nolan Bredemeier, Grade 6.

### NEW LONDON AVENUE

#### SCHOOL NEWS

During the past week Dr. J. R. Downes visited the school (on Janu-

ary 18th) and inoculated thirty-two children with the toxin treatment for prevention of diphtheria. Previously the treatment had been received by 114 children of this school center.

Mrs. Fanny Hamilton of Wilmington has been designated by Miss Marguerite Burnett, Director of the State Department of Adult Education, as instructor of the classes in sewing. The participants are engaged in plain sewing, renovating and pattern drafting.

The organization and preparation of the examinations for the mid-year are in progress following the policy of the administration of the Newark School by Supt. Ira S. Brinser. In accordance with this policy, based on the daily plan books and the course of study, a comprehensive review of the term's work in all subjects has been carried on since January 18th.

### Grade 4-5 Girls Give Party

Grade 4 and 5 girls gave a party on Friday afternoon, January 20, at 3 p. m., for the boys of the same grade. The party was made possible by a contest held the week before as a means of encouragement of parents to attend the meetings of the Parent-Teacher Association. They served potato salad, crackers, cocoa, canned peaches, cake.

This also proved to be a good way to teach children how to entertain, and also how to be entertained. The boys were very appreciative guests. The members of the faculty and a few friends were present. Our next

## Would Not Lash For Jail Break

### Attempts to Escape to Be Expected of Long Term Convicts

While we are devoid of maudlin sympathy with men whose crimes have landed them behind bars, it seems to us that whenever a jailbreak occurs most persons who are on the right side of the bars give vent to opinions that are little justified by facts.

For instance, is it not natural for men confined in cells to dream and hope for escape? And can this dream and hope be held against them as further evidence of a criminal attitude?

We do not believe so, especially as there are very few convicted men, however guilty they may be, who do not suffer the delusion that circumstances beyond their control landed them in jail. What are the grim walls, the barred corridors and cells, but a notice that the inmates are not trusted—that they will take any desperate chance to escape? And why, admitting such facts, should we all show such consternation when they do attempt to escape?

If the recent attempt at a jailbreak were made under the honor system, after the inmates of the workhouse had pledged themselves on their honor not to try an escape, it would have been reprehensible and the prisoners who attempted it should be punished severely. As it is we believe that the sole outcome of the recent attempt should be to see that the bars are stronger, and in every possible manner workhouse guards should attempt to ferret out the underground passage of saws and implements to the inmates.

We cannot see any great perversity in the fact that a human being locked in a cage attempts to escape. We don't believe that he should be lashed for the attempt. The will to live and the desire for freedom is as much a part of the convicted man as his respiratory organs, and if we are to lash him for trying to escape from the bars with which we have encompassed him, we might as well lash the water buffalo in the zoo every time he batters his head against the iron door that separates him from the kiddies. —From the Labor Herald.

## COUNTERFEIT MONEY PRINTED AT \$5,000 AN HOUR

Since Depression Flood of Counterfeit Bills Has Been Greatest in U. S. History; Bank Tellers Fooled

In a room with heavy shades darkening the windows six men, nucleus of the most powerful counterfeiting ring ever known in the United States, worked through the night printing "money" at the rate of \$5,000 an hour.

Outside in the shadows of the street in Queens two Secret Service men watched the door, knowing full well that for each hour that passed \$5,000 more in perfect counterfeit \$10 bills was being made there.

More than \$1,000,000 in counterfeit bills issued by those six men had been passed in New York city alone. Bankers of Boston, Philadelphia, Chicago, Los Angeles and great banking houses of Europe begged for action against the ring which distributed seemingly inexhaustible quantities of the most dangerous counterfeits in the history of the Nation.

So perfect were they that even gimlet-eyed bank tellers could detect them only by memorizing the serial number, B-27723486A. Yet for 30 days and nights Government agents stood outside the plant where these six men were printing counterfeit millions, and no raid was made during that time.

When after a month of waiting the raids were made it was not in the Queens printing plant, but in a private home in Brooklyn that Secret Service operatives found what they sought. For unless they seized the finely etched plaques from which the bills were printed the arrest of the entire ring would have been futile. Without them no one could tell when a new flood of counterfeits might come from those same plates.

With the world-wide depression and the consequent scarcity of cash there came thousands of deliberate swindlers eager to remedy the situation without benefit of law. Since 1929 more counterfeits have been passed than in any other period of our history. The exact amount, of course, is undetermined; but it is certain that counterfeiters have robbed the citizens of this Nation of more than \$75,000,000 in the last decade.

Thousands of cases, ranging from bills forged by experts and distributed by highly organized gangs in \$50,000 lots, to coin slugs made in dark metropolitan tenements, are tackled each year by the Secret Service, the police

contest will be February 8. Whoever wins the most parties each pupil will receive an individual prize in May from their home-room sponsor and teacher, Miss E. M. Stevenson.

### Domestic Science Classes

The Domestic Science classes, consisting of the upper grades, have had a very interesting and profitable semester. One of the projects carried out was "The Care of the Kitchen," including the way to wash dishes, care of the ice box, etc. One of their new projects will be "How to Plan Well-balanced Meals."

### Thrift Program

A thrift program celebrating Thrift Week was presented by the Primary Department of the New London Avenue Building, Mrs. L. R. Patton and Miss Clara C. Davis, teachers.

Bible Reading, Mrs. Patton; Song, "Tomorrow," School; "Why We Celebrate Thrift Week," James Lewis; Song, "Recessional," School; "Saving and Spending," poem, William Lewis; Song, "The Dew Drop," Primary Department; "Saved Happiness," poem, Clinton Jackson; Song, "Little Things," Primary School; "Don't Pay Too Much for a Whistle," Isabelle Jackson; Song, "Sweet and Low," School; Review of "Cinderella" with Illustrations, Pearl Asbury; Song, "The Rain Song," Primary Department; Sketch, "Where Do You Live?" Primary Department; Song, "Down the Lane," Primary Department; Remarks, Mr. J. M. Richards; March.

## Administrator's Sale

HOWARD CONGO,

Administrator.

J. Leslie Ford, Auctioneer.

1.26.1t.

engraving on his personal card and the work on the counterfeit notes, wrote out a 32-page confession involving one, a printer. The latter also confessed, but he had merely taught a member of the gang how to handle the counterfeit press. Each time the printer was driven to the plant he was blindfolded, so he, too, proved valueless as an aid to the Government.

But one slip betrayed the ring; they had not covered up their tracks when they bought ink supplies. Agents located the plant through this clue, and by watching the plant they spotted a member of the gang who took the plates home at night. When it was ascertained beyond the shadow of a doubt where the plates were, raids were made simultaneously on five offices of the ring throughout the United States.—Washington Star.

No better example of the organization of counterfeiters is on record than that of the international ring responsible for the B-27723486A \$10 Federal Reserve Bank of New York note which was broken by Federal agents in Brooklyn and Queens last fall after six months' work. In that ring the engraver of the plates for the bills was kept totally in the dark concerning the location of the plant and the identity of the men who purchased his engraved counterfeit plates for \$1,500. He was even booked for execution after the first bills were printed, but was spared because he was needed to engrave additional serial numbers for the plates.

The engraver, who was captured after the Secret Service agents discovered the resemblance between the
