VOLUME XXII

NEWARK, DELAWARE, THURSDAY, JULY 9, 1931

NUMBER 24

Betty Schaen, 6 1-2 Years Old, Suffocates In Imhoff Tank of Newark Disposal Plant

SHAW AND BLACK, TOWN EMPLOYEES HAD TO BREAK LOCK TO GET INTO ENCLOSURE

Child in Imhoff Tank One Hour and Five Minutes

DAUGHTER OF MR. AND MRS. GEORGE SCHAEN

Body Recovered by Merle Sigmund, Town Engineer

One of the most tragic accidents ever to occur in Newark happened this morning at 9:45, when little Betty Louise Schaen, 6 1-2 year-old daughter of Mr. and Mrs. George Schaen, was suffocated when she fell into the Imhoff tank of the Newark Disposal Plant, which is situated on the outskirts of the town along the B. & O. R. R.

She accompanied her father and two brothers, Geo. Schaen, Jr., 7 years, and Wm., aged 5, to pick dew berries in the neighborhood of the disposal plant and Betty and one of her brothers climbed over the gate. In a short time the father, hearing her and her brother's screams, ran to her assistance, but too late. Mr. Schaen lowered himself into the tank, which is 30 feet deep, to his neck, but was unable to locate the child, and it is supposed that she sank immediately to the bottom, for this part of the plant is where the solid mass of the sewage is dumped.

Mr. Harvey Black and Jacob Shaw, who were working at the sub-station on Main street, hearing the cries for help, rushed to the scene. When they arrived it was necessary for them to break the lock on the gate before they could enter. They, too, found it impossible to locate the child.

Officer Cunningham was notified immediately and he in turn notified Deputy Coroner Robert T. Jones, who immediately rushed to the scene of the accident. The body was recovered by Merle Sigmund, town engineer, with the assistance of several others, at 10:50.

Mayor Collins, with Officer Mann and practically every member of Town Council, sped to the scene on hearing of the accident and all of

Coroner's Inquest Brings In Verdict of Death By Suffocation

The inquest of Betty Louise Schaen was held at the Funeral Parlor of Robert Jones, Deputy Coroner, at 12:45 p. m., and rendered the following verdict: Death by suffocation in the Imhoff tank of the Newark Disposal Plant while trespassing on the property of the town of Newark. The members of the jury were: Foreman Frank O. Bowen, Harry H. Thomas, Abraham Ritchie, all of Elmhurst; William F. Jones, Sec., Wilmington; Eugene C. Stiltz, Lee E. Nichols, Harold M. Grant, of Newark.

The whole disposal plant is enclosed there were visibly affected by the tragic affair. by a six or seven foot strong mesh galvanized wire fence, the bottom being buried into the ground, with three (Continued on Page 5.)

DR. JOHNSON RETURNS FROM VACATION

Dr. Wallace M. Johnson has returned from his vacation in the West and resumed his practice on Tuesday.

FIRE COMPANY PLACES ORDER FOR GRAPPLING HOOKS

The directors of the Aetna Hose, Hook and Ladder Company, at their monthly meeting last Friday evening, ordered the secretary to place an order for grappling hooks for the use of the community.

RECOMMENDS SITE NEAR NEWARK FOR WELFARE HOME

The following letter has been sent to Dr. C. L. Candee, president of the Delaware State Welfare Commission by a prominent Newark man. This is an excellent suggestion and the Newark Chamber of Commerce should interest themselves in the movement, as it is not only an ideal location but should help to bring visitors to Newark.

Acting on the information given in the attached clipping, I beg to suggest a site for the "State Welfare Home," viz on the Kings Highway leading from Cooch's Bridge to Elton, one mile west of Cooch's Bridge on Iron Hill; the highest point of land in Delaware—from this point you have a wonderful panorama, on the other to the valley extending to the north of Newark. On a clear day the Delaware River can be plainly seen. In driving from Glasgow to Newark you can see the wonderful situation and in the opposite direction having Newark you can see the same grandeur in scenery.

The early settlers erected the Baptist Church in 1746, in the valley near Newark where services are still held—on the other side stands the Presbyterian Church at Glasgow. The whole surrounding country is rich in historic interest. There is an improved road under construction at the present time—when completed it will make the point mentioned accessible from every part of this State.

I hope your commission will give this recommendation consideration. I am sure any number of acres desired could be purchased at a reasonable price.

The clipping referred to appeared in the Newark Post last week.

SIMON SHEPHERD, AGED NEGRO DEAD

Simon Shepherd, an aged Negro who for a number of years had been janitor of St. Thomas' Episcopal Church, died on Saturday following a stroke of paralysis. Simon who was known to most everyone in Newark and was well thought of had been in poor health for several months. He was stricken while walking along West Main street on Friday afternoon and died after being removed to a Wilmington hospital.

DR. EWING TO PREACH IN WASHINGTON

Dr. Harvey W. Ewing, of Newark, will be the pulpit supply for four Sundays in August at Hamline Church, Washington. Hamline is one of the largest churches in the capital. Dr. Ewing has supplied the pulpit there several Summers.

EBENEZER TO CELEBRATE 107th ANNIVERSARY

The Ebenezer M. E. Church will celebrate its one hundred and seventh anniversary Sunday morning. Special services will be held in the church.

AROUND WORLD FLIERS PASS THROUGH NEWARK

Wiley Post and Harold Gatty, whose record-breaking world flight brought them international acclaim, passed through Newark Monday morning at 11:04.

The fliers, traveling with their wives and backer, F. C. Hall from New York to Washington, failed to make an appearance during the train's stop here. Mr. Hall reported that the two airmen were resting up in preparation for the Washington reception and dinner to be given by President Hoover in their honor.

AETNA FIRE CO. NOT TO HOLD CARNIVAL

It was decided at the monthly meeting of the directors and members of the Aetna Co., held last Friday evening, July 3, not to hold the annual carnival this year due to the conditions existing at this time.

It is not the question of the Aetna Co. having too much money, as it takes several thousand dollars a year to run a company of this size, and they don't expect to make any house to house canvas, but the company deserves your support and voluntary contributions will be very much appreciated.

AUTO INSPECTION TO START NEXT MONDAY, JULY 13

Fifty Stations to be Announced; Cars Must be Safe or Registration Denied

Governor Buck Wednesday formally announced the third annual Delaware official car inspection campaign to be held from July 13 to September 1, under the joint auspices of the Secretary of State's office, State Highway Department and the Delaware Safety Council. Walter Dent Smith, manager of the Delaware Safety Council, who has directed the two previous campaigns, has been named director of this year's safety effort.

The campaign is for the purpose of carrying out the provisions of Section 24 of the motor vehicle law which provides: "The (motor vehicle) department shall rescind and cancel the registration of any vehicle which the department shall determine is unsafe or unfit to be operated or is not equipped as required by the law."

"For the purpose of this section, any vehicle which on or before the 31st day of August of each year has not been examined and determined safe and fit for operation by the vehicle commissioners' agents acting under his rules and regulations shall be conclusively determined to be un-

safe and unfit for operation; and the department shall not grant an application for the reregistration of such vehicle until it shall have been examined and determined safe and fit for operation."

While stressing that the campaign was being conducted in accordance with the provisions of the motor vehicle law, Governor Buck said he desired to call attention particularly to the safety factors involved.

"At a recent national conference on street and highway safety held in Washington it was reported that vehicular defects are a contributing factor in at least 15 per cent of fatal motor vehicle accidents," the Governor said. "One careful investigation of the mechanical condition of vehicles involved in a series of fatal accidents and all of a number of State-wide official inspection campaigns showed a much larger percentage of vehicles in defective condition. Delaware has an enviable safety record, and we are sure that the majority of Delaware motorists will co-operate with our car inspection campaign in the interest of their own and the public's safety."

FORMER CECIL CO. COMMISSIONER IN AUTO ACCIDENT

Former County Commissioner Reuben Reynolds and Streeter Mackey, both of near Fair Hill, this county, are suffering severe injuries, as the result of an automobile accident. While they were driving out of their lane onto the public highway, which leads from Rising Sun to Elton and Newark, Del., their machine was run into by a car driven by Scott Wilson, of Rising Sun, and both machines badly wrecked. All the occupants were more or less injured.

Mr. Reynolds suffered injuries to his hand and shoulders; Mr. Mackey's back was badly injured, and Mr. Wilson suffered lacerations and bruises; Wilson was enroute to his home at Rising Sun, when the collision occurred.

IN NEW HOME

Mr. and Mrs. M. M. Daugherty, who recently purchased the Durant property, 208 Orchard road, moved into their new home yesterday.

MR. AND MRS. GEO. DANBY TAKE MOTOR TRIP TO LIONS' CONVENTION AT TORONTO

Mr. and Mrs. George Danby, of East Park Place, will leave tomorrow morning for a motor trip to Canada. They will visit Port Hope and Rosemeath, Ontario, and then go on to Toronto, where Mr. Danby will attend the sessions of the International Convention of the Lions, as representative of the Newark Lions Club, of which he is president. The convention will last four days, beginning next Tuesday, July 14. On the return trip Mr. and Mrs. Danby will stop at Buffalo, where they will visit Mrs. Danby's sister.

FINE TWO WHO CROWD AUTO SEATS

Magistrate Jones Tuesday night fined Clarence W. Cook, of Edge Moor, \$5 and costs for allowing four persons to ride in the front seat of his car. A similar fine was imposed on Franklin B. Emerson, charged with a similar offense.

Stanley F. Stanisewski, 507 Maryland avenue, was fined \$10 and costs for failing to stop at an officer's request.

HAROLD D. WILSON'S FAMILY NOW RESIDENTS OF WILMINGTON

Mrs. Harold D. Wilson, wife of the Deputy prohibition administrator for Delaware, and David B. Wilson, their son, moved to Wilmington Tuesday. Weston P. Wilson, another son, has been living in Wilmington, with his father for several weeks.

RESIGNS AS EDITOR

Charles Edward Bounds, for the past year Editor of the Newark Post, has accepted a position with the Trans-Continental-Western Airways, and tendered his resignation to the Post Publishing Company last week, and left this Monday to take up his new duties. His friends in Newark wish him success.

UNDERTAKERS TO HAVE OUTING IN NEWARK

The undertakers of the State and their invited guests will have a field day and outing in Newark on July 16th, the sports being held on Frazer Field. In the evening dinner will be served in the Newark New Century Club.

Mr. Robert T. Jones is honorary chairman. Other members of the committee are Jas. Hearne, chairman; Wm. F. Lynn, Jr., secretary; Wm. Smith and Carl Krenan.

FIRST AID FOR AETNA FIREMEN

About twenty members of the Aetna Hose, Hook and Ladder Co. were given instructions in first aid on Monday night by Dr. Marshall, through the efforts of the Delaware Safety Council.

Another lesson will be given tonight and it is expected a large number of the members will be present.

PRESBYTERIAN SUNDAY SCHOOL PICNIC

The annual Sunday School picnic of the First Presbyterian Church will be held at Welch Tract on Thursday, July 16th. All members are asked to meet at the church at 10:30 a. m., D. S. T.

LIONS CLUB CELEBRATES THIRD ANNIVERSARY OF CHARTER

Install Officers Tuesday Night; Dr. Wallace Johnson, Retiring President is Presented with Gold Pin

NOTICE TO PARENTS

Attention of the parents is called to the proposed physical examination of Kindergarten pupils and First Graders, to be held in the High School Building, Tuesday, July 21st, from 9:50 to 10:30 a. m., Daylight Saving Time. Diphtheria prevention treatment may be started at this time if parents so desire.

SUFFERING WITH INFECTED EYE

Miss Bonnie Walker, of South College avenue, is suffering from an infected eye caused by a cinder. The cinder was removed, but infection set in. Miss Walker, who teaches school near Rehoboth, and who has been attending Summer School at the University is unable to resume her studies. While the infection is painful, there is no serious results expected.

OFFICER KEELEY ON SICK LIST

Chief James Keeley of the local police force is on the sick list and Mr. Walker Shellender has been appointed temporary officer until Chief Keeley is able to resume his duties. Officer Cunningham is now acting chief.

JUDGMENTS AWARDED AGAINST ROGER E. ATTICK

E. J. Hollingsworth Company and James Hollingsworth, Sue Former Employee

Magistrate Thompson, on Tuesday night, awarded judgment in two suits entered by E. J. Hollingsworth Company and James Hollingsworth, personally, against Roger E. Attick, a former employee.

The E. J. Hollingsworth Co. entered suit for \$85.00 to cover the misuse of the company's car and time by Mr. Attick while in the employ of the company.

The suit entered by Mr. Hollingsworth was to recover a personal loan of \$90.00 to Mr. Attick. Up to May 7th Mr. Attick was employed as salesman for the E. J. Hollingsworth Company, and it was brought out at the trial that, while acting as salesman for this company, he used the company's car and time to sell products for other concerns.

CONDIFICO TO PLAY OFF TIE AT MIDDLETOWN

The boys and rooters of the Condifco baseball team will travel to Middletown this Saturday and play off the first half tie with St. Georges, at 2:30 p. m., standard time. All other games of the league are postponed until this game is played. Judging from the excellent playing of the Condifco boys during this first half, they should beat St. Georges at Middletown. The game will be played on the High School grounds.

"COUNT-ON-ME" CLASS ELECTS OFFICERS

The "Count-On-Me" Sunday School Class of the Methodist Church held their monthly meeting July 1. The following officers for the next six months were elected. They are as follows: President, Emma Beck; vice-president, Maybell Aiken; secretary, Beatrice Kline; treasurer, Edna Kinsinger; program chairman, Florence Mercer.

AMOS G. SCOTT OF WILMINGTON DIES AT HOME OF SON-IN-LAW

Amos G. Scott, aged 80 years, of Wilmington, died at the home of his son-in-law, Arthur J. Willis, at Providence, Maryland, on July 4, 1931. The funeral was held Tuesday morning at 10 o'clock, with interment at Cherry Hill Cemetery.

NO ACCIDENTS IN NEWARK ON THE 4th

No accidents were reported in Newark on the 4th, which speaks well for the police and shows what can be accomplished by the citizens cooperating with the law enforcement.

The Lions Club of Newark celebrated its third birthday Tuesday night at the weekly dinner meeting at the Washington House. The newly-elected officers presided with George Danby, president. Dr. Wallace Johnson, retiring president, was presented with a pin by the club in recognition of his service the past year. Dr. Johnson presented Mr. Danby with a pin which is to be worn during his term of office and handed down to the succeeding presidents to be worn during the term of office. The newly-elected officers taking up their duties this week were: President, George Danby; first vice-president, D. A. McClintock; second vice-president, George Haney; third vice-president, H. S. Gallaher; secretary-treasurer, J. R. Fader; lion tamer, I. S. Brinker; tail twister, J. R. Downes; directors, J. P. Cann, R. T. Jones, P. K. Musselman and D. Stoll.

Committees to serve for 1931-32 were appointed as follows: International - Americanization, Brewer, Baker, Sigmund; boys' and girls' work, Baker, Downes, Cobb, Lovett; extension, Rhodes, McClintock, Hall, McVey; Lions education, Johnson, Dutton, Burnett, J. R. Fader; major activities, Shuster, Smith, Hall, Downes.

Civic education schools, Evans, Richards, Johnson, Gallaher, Brinker; city administration, Waples, Musselman, Gallaher, Stoll; welfare, Wollaston, Jones, Sheaffer, Dennison; local activities, Crooks, Sheaffer, Richards, Waples, McClintock, and Dougherty.

Club attendance, Sigmund, Holton, Dennison, Haney; constitution and by-laws, Singles, Cann, Dutton; entertainment, Hollingsworth, Brewer, J. R. Fader, F. Fader; finance, Dougherty, Rhodes, Singles, Wollaston; membership, Musselman, Hollingsworth, F. Fader, Evans, Cann; music, Cobb, Brinker, Schuster, Johnson, Jones; program, McVey, Burnett, Crooks, Brinker, Cobb; publicity, Singles, Smith, Stoll; safety, Lovett, Haney, Holton; golf, Rhodes, Crooks, Dutton, Cobb, Musselman.

At the board of directors' meeting which preceded the meeting, it was decided to make Ed. Bounds a visiting member.

DELAWARE TOMATOES AND PEACHES IN MARKET

Home-grown peaches and tomatoes are appearing in the lower Delaware markets and can be had at reasonable prices.

Peaches selling for 75 cents a basket compared with \$1.25 last season. Maryland apples selling at 30 cents half bushel basket.

While the acreage in tomatoes this year is far below that of the past four or five years, yet there is prospects of a good crop.

Only a few of the canneries have made contracts with the growers this season, because of the fact that most of them are carrying over some of the pack of last year.

PRESS OF KILLS AND NEWARK POST RECEIVE INVITATION TO EXHIBIT PRINTING IN RUSSIA

The Press of Kells and The Newark Post this week received an invitation from the Committee of Pressa, The All Nations Press Exhibition, from Tiflis, Republic Georgia, Russia, to exhibit samples of printing.

The invitation is as follows: "Dear Sir—The All Nations Press Exhibit has the honour to invite You to take part in our work and to send for the Exhibition some copies of all your papers, magazines, yearbooks, almanachs, calendars etc as well old, as new ones. Also all supplements to those, posters, reclaims, prospects etc."

"The Exhibition aims to show the historical development of your Press and you shall much oblige us, by sending us its old copies of past years."

"Waiting for your favour, we beg to remain, THE ALL NATIONS PRESS EXHIBITION." Tiflis, Republic Georgia, P. O. Box 25, U. S. S. R.

The Preaching of the Apostles will be the topic considered at the Baraca Class Presbyterian Sunday School NEWARK Sunday, July 12 9:45 A. M.

SAYS PUBLIC FEARS SCIENTIFIC TRUTHS

Chicago Physician Declares Many Have Not Emerged From
Age of Ignorance

SUGGESTS EDUCATION AS BEST REMEDY

This article is one of a series of eight lectures delivered by outstanding doctors and physicians of the United States before the convention of the American Medical Association in Philadelphia. Every one is interesting and worth reading. They are published by The Post with the hope that considerable knowledge and health will be gained by reading them.

Although scientists are no longer burned at the stake, according to Dr. Andrew C. Ivy, of Chicago, most people have not yet emerged from the age of "ignorance, misunderstanding and fear of science and truth."

Dr. Ivy, who is Professor of Physiology at Northwestern University, spoke before the Section on Pathology and Physiology, of which he is chairman, at the American Medical Association convention, in Philadelphia.

"What the doctor does and how and why he does it when he enters a home to care for a sick person," he said, "is much more mysterious to the average human being than the activities of the electrician or the telephone man."

"This is because, although this is called the age of science, the majority of the population has not emerged into the scientific age at all, and, although scientists are no longer burned at the stake, the same spirit of ignorance, misunderstanding and fear of science and truth is among us today."

"In fact, the general public knows less about life and its processes than it knows about any other natural phenomena. Many persons, even otherwise intelligent ones, still think that scientific medicine is a kind of faith. To them medical science, with its facts and truths does not exist. We find among supporters of 'anti-science' crusades, conscientious men and women, intelligent and educated in their own professions."

"The remedy for all this is, or should be, education. Since the highly developed educational system does not engender critical judgment in those exposed to it, something must be wrong with this system of education."

"We should introduce these studies into the primary and secondary schools on a par with the three R's. Such a program would engender a wholesome respect and regard for the human body and its processes. Lessons in hygiene would be more keenly appreciated."

"People with the proper knowledge of the human body would know that an expert knowledge of the body in health and disease cannot be acquired in a few weeks or months, and would

therefore not patronize cults. We physicians should use our influence to introduce such courses into the public schools."

"I realize, however, just what difficulties and objections would confront such a program. The chief obstacle is that we now have among us a small minority that religiously fights and fears the truth."

Dr. Isadore Pilot, of Chicago, discussed a bacteriological study he had made of a severe form of sore throat which resembles epidemic sore throat, but which occurs in isolated cases.

"Septic sore throat in epidemic form," he said, "is caused by a germ called 'streptococcus epidemicus,' spread by contaminated milk. This is an especially virulent and aggressive member of the large family of streptococci, others of which are responsible for erysipelas, scarlet fever and rheumatic fever, among other things."

"With the aid of a special technique which I and my associates have developed, I have studied many cases of ordinary sore throat and found the 'streptococcus epidemicus' in almost 10 per cent of the cases of sporadic sore throat. In fact, epidemics, which are always traced to infected cows, might be further traced to a milkster who was either suffering from actual sore throat or who was a carrier of the germ."

"The problems of carriers is one of the most important phases of this work from the point of view of prevention of epidemic sore throat carried by dairy workers. In this study several carriers were found. They carried the infection in their throats for weeks or months, with occasional attacks of sore throat and slight fever. When their tonsils were removed the germs disappeared from their throats and their symptoms vanished."

"Although it has not been proved, it is not impossible that sporadic acutely infected persons or carriers may contaminate food, particularly dairy products, and lead to small epidemics of septic sore throat. For the present I recommend that such persons should be prevented from handling foods in the same manner as diphtheria and typhoid carriers."

form requires a little different treatment from fresh fish. It should be drained, flaked and boned and added to the salad as any other cold ingredient. The gelatin should have an acid base as in the fresh fish salad.

The low cost of these delicious jellied dishes is one of their most attractive features; they range from only 30 cents to 61 cents for five generous servings. The only additional expense necessary to make up the meal for the dinner menu suggested today is lettuce or finely shredded cabbage, a tart salad dressing, bread and butter and iced cocoa. The bureau suggests that the ice be removed from the cocoa for young children, who, as a special treat, are drinking cocoa, which is usually denied them.

Since potatoes are not especially palatable in jellied form they were excluded. The lamb dish has cooked rice in it, however, which not only adds to the food value, but is most attractive suspended in the gelatin. Cooked spaghetti was used successfully in two of the combinations, one made with vegetables and the other with canned consommé. Any canned meat broth can be used as a foundation for a jellied dish, a fact that is well to remember for unexpected occasions when fresh meat is not available.

Almost any vegetable can be introduced into these jellied combinations providing it is not watery like squash. With spinach, be careful not to overcook it; it should be comparatively firm and not mushy. Allow spinach to cool and then chop it. Used this way spinach makes a colorful as well as nutritious addition to the salad. Raw cabbage gives crispness and moderates the extreme smoothness with which many persons find objectionable in jellied dishes.

It is best to prepare these jellied dishes the day before—or early in the morning, if they are to be served at the evening meal. A plain gelatin will set much faster than any of these, which are chock-full of meat, vegetables or fish. If they are put away to set in a dish with straight sides, the salad will slip out of the molds easily. Be sure to turn them out on a dish that has been rinsed in cold water and not dried. In case the salad does not come out exactly in the center of the plate, it is easy to slide it into place on the wet surface of the dish.

With the various ingredients, all sorts of interesting patterns can be made in the mold, but this takes time which you may not wish to spend on any one meal. If you do decide to take time for decorative effects, the gelatin must be partly set before you lay out the pattern, and then only one layer can be added at a time, allowing each to set a trifle before beginning on the next.

Each of these jellied combinations was considered from the standpoint of making an attractive dish as well as for its nutritive value. Children old enough to have solid food may eat any one of the salads, the bureau says. Recipes for all of these jellied dishes may be had free of charge by sending your request to the Bureau of Home Economics, Washington, D. C.

The cost of filling a week's market basket for a family of five, on the basis of the low-cost food guide developed by the bureau, average \$7.60. This estimate was determined from a study of food costs in 12 cities, buying at the average, rather than at the more expensive type stores. New Orleans was low with a figure of \$7.24, and New York City was a dollar more. Much of the difference in price was due to the variation in selling practices; some articles can be bought in bulk in certain cities while in others only packaged foods are handled—which fact usually adds to the expense per pound. Following are the cities listed according to the rate of expense for filling the market basket: New Orleans, \$7.24; Dallas, \$7.26; Chicago, \$7.31; St. Louis, \$7.40; Washington, D. C., \$7.43; Detroit, \$7.47; Philadelphia, \$7.58; Pittsburgh, \$7.61; Kansas City, \$7.68; Charlotte, \$7.86; Boston, \$8.03; New York City, \$8.24.

Buying
A family of five, including father, mother, and three children should buy every week: Bread, 12 to 16 pounds; flour, 1 to 2 pounds; cereal, 4 to 6 pounds; whole fresh milk, 23 to 28 quarts, or canned unsweetened milk, 23 to 28 (tall cans); potatoes, 15 to 20 pounds; dried beans, peas, peanut butter, 1 to 2 pounds; tomatoes, fresh or canned, or citrus fruit, 6 pounds; other vegetables (including some of green or yellow color), and inexpensive fruits, 15 to 18 pounds; fats, such as bacon, butter, lard, margarine, salt pork, etc., 2½ pounds; sugar and molasses, 3 pounds; lean meat, fish, cheese, eggs (8 eggs approximate 1 pound), 5 to 7 pounds; eggs (for children), 8 eggs; coffee, 1 pound; tea, ¼ pound.

MENU
Breakfast
Cooked cereal with apricots
Coffee (adults) Milk (children)
Dinner
Lamb and Vegetables in Aspic
Lettuce Salad Dressing
Iced Cocoa
Supper
Black Bean Soup—Lemon
Toasted Whole Wheat Bread
Berry Pie
Tea (adults) Milk (children)

Lamb and Vegetables in Aspic
2 pounds breast of lamb, 3 pints water, 2½ teaspoons salt, 3 tablespoons gelatin, ½ cup cold water, 1 cup cooked flaky rice, 1 cup cooked chopped spinach, 1 cup cooked diced carrots, 1 cup lean chopped lamb, 2 tablespoons lemon juice, 1 teaspoon onion pulp.
Wipe the meat well, put in a saucepan, add the 3 pints of cold water, partly cover and simmer until the meat is tender. Remove the meat, add sufficient hot water to the broth to make 1 quart. Add the salt. Allow this to cool, and remove the fat. Soften the gelatin in the ½ cup of cold water for 5 minutes. Reheat the

ing each to set a trifle before beginning on the next.

Lamb and Vegetables in Aspic
2 pounds breast of lamb, 3 pints water, 2½ teaspoons salt, 3 tablespoons gelatin, ½ cup cold water, 1 cup cooked flaky rice, 1 cup cooked chopped spinach, 1 cup cooked diced carrots, 1 cup lean chopped lamb, 2 tablespoons lemon juice, 1 teaspoon onion pulp.
Wipe the meat well, put in a saucepan, add the 3 pints of cold water, partly cover and simmer until the meat is tender. Remove the meat, add sufficient hot water to the broth to make 1 quart. Add the salt. Allow this to cool, and remove the fat. Soften the gelatin in the ½ cup of cold water for 5 minutes. Reheat the

ing each to set a trifle before beginning on the next.

Each of these jellied combinations was considered from the standpoint of making an attractive dish as well as for its nutritive value. Children old enough to have solid food may eat any one of the salads, the bureau says. Recipes for all of these jellied dishes may be had free of charge by sending your request to the Bureau of Home Economics, Washington, D. C.

The cost of filling a week's market basket for a family of five, on the basis of the low-cost food guide developed by the bureau, average \$7.60. This estimate was determined from a study of food costs in 12 cities, buying at the average, rather than at the more expensive type stores. New Orleans was low with a figure of \$7.24, and New York City was a dollar more. Much of the difference in price was due to the variation in selling practices; some articles can be bought in bulk in certain cities while in others only packaged foods are handled—which fact usually adds to the expense per pound. Following are the cities listed according to the rate of expense for filling the market basket: New Orleans, \$7.24; Dallas, \$7.26; Chicago, \$7.31; St. Louis, \$7.40; Washington, D. C., \$7.43; Detroit, \$7.47; Philadelphia, \$7.58; Pittsburgh, \$7.61; Kansas City, \$7.68; Charlotte, \$7.86; Boston, \$8.03; New York City, \$8.24.

TALES... of the TRIBES

By EDITHA L. WATSON

The Calusa

In the year 1513, Ponce de Leon, questing along the coast of Florida, found what seemed to be a delightful place to land, and accordingly gave orders to turn toward the shore.

Natives were lurking in the distance, and at the show of landing, they rapidly assembled a fleet of 80 well-manned canoes, and came menacingly out toward the Spanish ship, plainly showing their determination that the white men should not set foot on their shore.

This was the beginning of a fight which lasted all day. The explorers were stubbornly set upon landing on this part of the coast, and doubtless did not consider that an almost naked people, regardless of their number, could prevent their doing so. The savages, on the other hand, were resolved to turn the Spaniards away, and so the strange battle, a worthy subject for a painter, raged on until night was near.

At last, finding themselves no match for the ferocious native warriors, de Leon's men were forced to turn the ship about, and to hunt farther along the coast for a more hospitable landing place.

This formidable tribe was the Calusa. Their territory extended along the southwest coast of the peninsula from Tampa bay to Cape Sable and Cape Florida, and inland to Lake Okechobee, and included all the keys. The Calusa were bold seamen, apparently as thoroughly at home on water as on land, and they were virulent enemies of the Spanish, whom they resisted long after the other Florida tribes had submitted.

It is possible that de Leon was more fortunate than he knew, in being repulsed from the Calusa shore. They were not only "a very fierce tribe"; their reputation might cause the boldest to shudder. These savage people, it was known, sacrificed captives, which meant a lingering and agonizing death; mutilated enemies, and even were reputed to be cannibals. Had the Spanish explorer and his men fallen into their hands, the result would doubtless have been a wholesale slaughter with the most horrible details—had anyone escaped to tell them.

That these savage creatures could learn, however, and that they were not unwilling to take advantages where they were presented, is shown by the fact that about 1600, we find them carrying on a regular trade with Havana, delivering their wares (fish, skins, and amber) by canoe, and sending their boys to the mission school. They were known even before the repulse of de Leon as a wealthy tribe, for they plundered any Spanish ships so unfortunate as to be wrecked upon the keys. At this time they occupied nearly 50 villages, one of which had been colonized by Cuban Indians some time before. Tampa is named from one of the Calusa towns.

Still, this was not one of the tribes destined to survive and acquire even a superficial civilization. The little they learned does not seem to have made any permanent change in their ways of living. They were too thoroughly savage to ever lose their ferocious traits.

Exploring wrecks must have given them a taste for accumulating riches, far above that for acquiring learning, for 200 years afterward we hear of them as a pirate people, who took advantage of every ship stranded within their reach, killing the luckless crews and taking everything they considered worth carrying away. Strange to say, they changed their attitude toward the Spanish, whom they had previously treated so maliciously, in later years. While it does not appear that they felt inclined to have mercy on others, they spared the Spanish, and finally even allowed themselves to become somewhat influenced by them.

Another hundred or more years elapsed before the tribe began to decline. The Creeks and other English allies began to invade the mainland and settled on the keys. One of the last of their acts to be recorded in history was the killing of the crew of a French vessel, which had been wrecked among the keys.

When Florida became an English possession, in 1575, many of the Calusa were taken to Havana, but others of the tribe remained where they were until the close of the second Seminole war.

(© 1921, Western Newspaper Union.)

When Little Turtle signed the treaty between the Miami and the whites, he said "I am the last to sign it, and I will be the last to break it."

The Iroquois believe that thick husks on corn indicate an especially cold winter. Thin husks foretell a mild winter.

The word cannibal is derived from Carib, a tribe which lived in northern South America and practiced cannibalism.

The men of the Kayawee tribe of North Carolina wore whiskers—a very unusual custom for Indians to follow.

The southeastern Indians divided the year into five seasons. It began at the vernal equinox for many tribes.

The Hopi raised cotton and made cloth from it long before the white men entered America.

ULTRA-VIOLET LIGHT ALKALI AID IN WARDING OFF COLDS

**Cornell Tests Disclose Their Use Reduces Susceptibility;
Proper Ventilation, Heating, Diet and Sleep
Also Help Cut Frequency**

A 53 per cent reduction in frequency of colds among a group of 14 Cornell women students is the latest record of using scientific knowledge to reduce the common cold, according to Howard W. Blakeslee.

Seventy-five Cornell men taking the same treatment showed a reduction of 42 per cent. This is the second successful year in offering cold protection to cold susceptibles at Cornell, and the culmination of several years' work previously when the preventive measures were established by experiments upon special groups.

The cold protection is ultra-violet light, alkali, diet, ventilation and sleep. The largest share in the improvement is credited to the ultra-violet light by Dr. D. F. Smiley and Dr. G. Maughan, who directed the cold prevention work. Following are the instructions which reduced colds:

"1—Come to the solarium and take your ultra-violet bath regularly once each week. (These baths lasted 10 to 15 minutes each.)

"2—Keep on hand a package of alkali, and if at any time you feel your throat beginning to get sore or your nose beginning to run, take one teaspoonful in a glass of water, re-

peating the dose twice daily as long as the cold threatens or hangs about. To aid in this alkalinizing process, drink about a quart of milk and eat two or three oranges every day as long as the cold threatens.

"3—Avoid the use of candy and sweets during the winter months, and particularly if you feel a cold threatening. Include plenty of milk, oranges, leafy vegetables, eggs and salads in your diet throughout the winter.

"4—Watch the heating and ventilation of your study room. With plenty of heat in your radiator, you should be able to have your window open at least a few inches almost all the time and this will suffice to prevent the excessive dryness of the air which is so irritating to the mucous membrane of your nose and throat.

"5—Get at least 8 hours sleep a night.

Dr. Smiley, in summarizing the results, points out that experiments at Johns Hopkins University with ultra-violet light showed no protection against cold; but that Dr. Leonard Hill, British scientist, reports good effects from ultra-violet, with a 30 per cent reduction in colds.

WARNS AGAINST SUN BATH

Pennsylvania Health Secretary Urges Vacation Moderation

Vacations may be used to better advantage than in the "injurious wading of the sun," Dr. Theodore B. Appel, secretary of health, said Monday.

While admitting that red or tanned skin advertises the fact that a person has been spending some time outdoors, Dr. Appel questioned the extent of general interest in fact thus made public and declared it was outweighed by the advantages of devoting vacations to such more important matters as rest, relaxation, body-building and re-establishing vigor and vitality.

The Health Secretary advised "extra restraint and small daily dosage" in making use of the excellent therapeutic qualities of sunshine. He said:

"It seems a bit strange that people who spend fifty weeks out of fifty-two in the shelter of home or office will persist in imagining that with safety they can suddenly expose their tender skin to the summer rays for a whole morning or afternoon and escape the penalty of such conduct. Yet literally thousands do this very thing at the seashore or mountain resort."

6,815 NEW NASH CARS SHIPPED DURING JUNE

Kenosha, Wis., July 1 (Special)—The Nash Motors Company shipped a total of 6,815 new cars during the month of June and entered July with 1939 unfilled June orders to be added to the shipping schedules of the coming month.

All indications point to a July demand for the four new series of sound proofed and strikingly advanced Nash cars which will be fully as great or greater than that in June, according to Company officials.

DELAWARE WEEKLY INDUSTRIAL REVIEW

Dover—Bids opened by State Highway Commission for three new roads and for resurfacing 28 miles of other roads, to cost about \$224,966.

Newark—Northeastern Construction Co. of Baltimore building addition to gymnasium at Women's College.

Wilmington—Contract let for construction of No. 25 School building at Third street and Bayard avenue, to cost about \$550,000.

Dover—Contract awarded to Phillip Lang, Audobon, N. J., by Dover School Commission and State Board of Education for construction of six-room addition to Dover Public Schools, on bid of \$43,422.

Wilmington—Contract for plumbing work in connection with new barracks and recreation buildings at Ferris Industrial School, awarded to Paul E. Middleton on bid of \$14,000.

Frederica—Contract awarded for construction of Frederica School, to E. L. Jones and Co., of Dover, for \$16,299.

Wilmington—Payroll of plants of city increased 3.5 per cent since April.

Dover—Bids will be asked soon for construction of Lord Baltimore School building.

Wilmington—Marbleart Company leased buildings from C. and W. Pyle Leather Co., at Fourth and Van Buren streets, and will start manufacturing marble in city.

Dover—Two stop lights installed on

Governor's avenue, between Lookerman and Reed streets, and between Reed and Division streets.

Wilmington—Plans considered for moving old National Bank of Delaware building to another location and establishing medical library in structure.

OILING OF DIRT ROADS HIGHLY BENEFICIAL

According to the Bureau of Public Roads, the experience of the Missouri State Highway Department in the treatment of earth with oil since 1923 should be of value to other states and communities interested in low cost improvement of secondary or feeder roads to main highways.

The experiments reveal that the character of oil used must vary with local conditions. Soils which are naturally firm and dry, such as clay, require only water-proofing with a relatively light oil. Noncohesive soils, such as sand, need application of heavier oils to bind their particles together.

Missouri has found that oil treatment is especially effective in solving the problem of wash and erosion in roads built of noncohesive soils. In certain areas the highway department was facing the necessity of purchasing additional rights of way in order to obtain earth for replacement of shoulders removed by erosion. Then

oil treatment was tried and the erosion immediately stopped with a consequent reduction in maintenance costs. Furthermore, ordinary vehicular traffic is beneficial to the oil surfaces, through a kneading process. It is recommended, however, that the use of tractors on such roads be restricted.

Almost any state or county can follow Missouri's lead. Oil treatment makes it possible to give rural areas adequate, weatherproof roads at the lowest possible cost.

Young rabbits will soon be running across roads at night time. A motorist can't see when a head light shines in his eyes, neither can a rabbit. So don't run the rabbit down but give him a chance to live until next Fall, at least.

RATS DIE

so do mice, once they eat RAT-SNAP. And they leave no odor behind. Don't take our word for it—try a package. Cats and dogs won't touch it. Rats pass up all food to get RAT-SNAP. Three sizes.

35c size—1 cake—enough for Pantry, Kitchen or Cellar.

65c size—2 cakes—for Chicken House, coops, or small buildings.

\$1.25 size—5 cakes—enough for all farm and out-buildings, storage buildings, or factory buildings.

John Paul Jones' Birth Anniversary Recalled

In the little parish of Kirkbean in Scotland one of America's greatest heroes was born July 6, 1747. His family name was Paul and he was christened John. Later in life he was to add Jones to his name and become famous as a commander in the Continental navy whose brilliant achievements on the sea rivalled those of George Washington on the land.

The 154th anniversary of John Paul Jones' birthday is marked as a date of significance to all Americans by the Division of Information and Publication of the United States George Washington Bicentennial Commission. Every citizen of the United States has reason to be grateful for the services of the first great American sea fighter.

Young John Paul went to sea when he was but 12 years old, and at the age of 21 he was captain of a trader. In 1773 he came to America and settled on his brother's plantation in Virginia which he had inherited upon the death of the latter. It was here that he first used the name Jones.

When the break between England and her colonies widened into actual warfare, Jones applied to Congress for a naval commission which was granted in December, 1775. That month, as a lieutenant in the new Continental navy, he is said to have hoisted with his own hands the first naval flag of an American squadron. This was the well known yellow silk banner with the rattlesnake and the warning "Don't tread on me!"

The young officer soon was given an independent commission in command of the little ship "Providence." With a crew of but seventy men and a dozen four-pound guns, Jones became a terror to British shipping, destroying a million dollars' worth of enemy property. Later, in the "Alfred," he continued his work, capturing valuable munitions intended for Burgoyne.

He was commissioned captain October 10, 1776, and June 14, 1776, was ordered to the "Ranger." On this ship, July 4, he raised the first stars and stripes that ever flew from an American warship. In the "Ranger" he carried to France the news of Burgoyne's surrender and received the first salute ever given the United States flag by a foreign fleet.

From France Jones sailed to the north coast of England where he landed at Whitehaven, spiked the English guns, burned some shipping and thoroughly alarmed the country. This was the only invasion of British territory by an American force during the Revolutionary War.

The most famous battle in which he was engaged was that which took place September 23, 1779, with the British man of war "Serapis" off Flamborough Head. At that time Jones was in command of an ancient ship which he had refitted in France and named "Bon Homme Richard" in

honor of Benjamin Franklin. Despite the great odds against him the intrepid American unhesitatingly engaged the far superior enemy in a battle which has gone down in history as one of the greatest sea fights of all time.

The rotten sides of the American ship were almost completely shot away when the English commander called on Jones to surrender. In reply he received the terse statement, "I have not begun to fight." Utterly dismayed at such courage, the Englishman struck his colors. Jones transferred his crew to the "Serapis" and the "Bon Homme Richard," completely shattered, sank to her glorious grave.

After the Revolution John Paul Jones entered the service of Catherine of Russia where he again revealed his remarkable courage and ability as a sea fighter. Being the victim of intrigues by jealous Russian officers, Jones left that country and went to France where he died July 18, 1792. In 1905 his body was located and identified by the American ambassador to France. It was brought to this country and interred with full honors at the United States Naval Academy at Annapolis.

Historically Correct Sketches
By CALVIN FADER

I am Lord Fairfax," said the gentleman in the center, "and this is my friend Colonel Washington. May we have the honor to know your name?"
"I am Benjamin Franklin."
The Postmaster General of the Colonies had just dismounted from an uneasy horse remarking that he preferred "two certain legs to four uncertain ones." This simple introduction marked the meeting of two men about whom the world was to hear much in the future. The place: Fort Cumberland, Maryland on U. S. Route 1.

ONE of the many historical pick-ups along the road is this boulder, located on U. S. 40 near Braddock Heights, westbound from Frederick, Maryland. Here Lieut. Col. Washington rested his troops on the way to Fort Duquesne in 1775. Silent guns today mark the way of American history in the making. This is an old Braddock gun at Winchester, Virginia.

Mrs. Walter Powell and son, Grover, are on a motor trip through the Blue Ridge Mountains.

Wednesday, July 29, has been chosen as the date for the bridge and dance party for the Y. W. C. A. District of Delaware, at the summer home of Mrs. Frank Grier, Rehoboth Beach, Delaware.

Mrs. R. J. Masten and children, Jack and Peggy, of Wilmington, spent the week-end with Mrs. Masten's sister, Mrs. M. F. McAllister, E. Main street.

Mrs. Penny entertained Mrs. Rowland and Mrs. Mathews at luncheon on Wednesday at the Tea Tavern.

Mr. and Mrs. M. F. McAllister, Mrs. Margaret Grogan and Mrs. R. J. Masten attended the funeral, at Unionville, Pa., of Mrs. W. H. Spencer, of New York, Saturday. Mrs. Spencer was a sister-in-law of Mrs. McAllister.

Mrs. Joseph W. Bond and son, Joseph, returned to Philadelphia, after spending three weeks with her parents, Mr. and Mrs. H. J. Gaerthe.

A delightful Tea Tavern dinner was given for Miss Frances Griggs, of Wilmington, at the Tea Tavern, Tuesday. Miss Griggs is the secretary of the Mother's Pension Commission of Wilmington, Del.

Mrs. Horace McKay entertained a number of friends at dinner at the Tea Tavern last Wednesday.

Mr. H. J. Gaerthe spent last Sunday visiting in Philadelphia.

Mr. and Mrs. Joseph W. Cristadoro and son Walter, and Mr. and Mrs. Charles V. McFarland visited Washington, D. C., on Wednesday.

Mr. Calvin Marcotte, of East Orange, N. J., spent the week-end with Mr. and Mrs. Lee Rose and family.

Mr. and Mrs. F. Massicotte, of Jamaica, N. Y., and Mr. and Mrs. James Ross and Mr. Everett Hill, of St. Albans, N. Y., were visitors with Mr. and Mrs. Jos. W. Cristadoro over the Fourth of July holidays.

Twenty-three members of the du Pont and Newark Country Clubs had luncheon at the Tea Tavern last Saturday and Wednesday.

Jack Geist is spending a month at Camp Caesar Rodney, on the North East River.

SIAMESE TWINS PARTED AT REQUEST OF MOTHER

Children Bright As Ever After Operation, Doctor Says

Two baby girls who were linked together at birth were separated Wednesday by a surgical operation declared to be without parallel in local records.

Indications were the operation was a success, but another will be needed, it was said by Dr. Wyle Golley, who, with Mrs. E. P. Smith and D. E. Passagno, performed the operation at Mercy Hospital, Baltimore, Md.

"They were just as bright as ever Wednesday afternoon," Dr. Golley said, but he would not predict that they would live. The case of the so-called Siamese twins was similar, but they were joined at the back and these at the abdomen.

The mother of the twins, 36 years old, insisted that the operation be performed, it was said at the hospital. The babies weighed about four and a half pounds each.

W. F. SEAL NAMED NEW INSPECTOR

Representative Affiliated With State Motor Vehicle Department

Acting Secretary of State William D. Denney last Thursday announced appointment of Representative William F. Seal as motor vehicle inspector for New Castle County at the Wilmington office of the State Motor Vehicle Department, 1404 Market street.

Representative Seal succeeds Elmer E. Bailey, whose services in the office were terminated Tuesday.

Mr. Seal, a resident of Marshallton, has been a member of the House of Representatives during the past two sessions of the Legislature. He was sent from the Eighth Representative District of New Castle County.

MISS GLADYS CAWLEY BRYSON BRIDE OF WILLIAM REALEY

Miss Gladys Cawley Bryson, daughter of Mr. and Mrs. Walter Bryson, and William Benjamin Realey, son of Mr. and Mrs. William H. Realey, of Elkton, were quietly married at the home of the bride's parents Friday evening, by the Rev. R. L. Morgan, pastor of Elkton Methodist Episcopal Church. Both the bride and groom are graduates of the Cecil County High School. After a reception, the bridal couple left on a short wedding trip, and upon their return will reside on Landing avenue, where the groom recently had a new home erected.

CARD PARTY

We are hoping you will join us in a game of cards on Wednesday evening, July 29, at the summer home of Mrs. Frank Grier, Rehoboth Beach. What could be nicer than a game of bridge or five-hundred with your friends under such delightful surroundings and at the same time you will be helping the Y. W. C. A. District of Delaware, raise their budget to carry on this worthy work.

Miss Helen V. Shalleross, chairman, will receive requests for tables or single acceptances in Middletown until July 21, after which she will receive requests if addressed to her at Rehoboth Beach, Del.

Very attractive prizes have been contributed. May we expect you. An early response will be of great assistance.—(Communicated.)

BIRTHDAY PARTY

A birthday party for Master Arthur Smith, of Glasgow, Del., in celebration of his eleventh birthday was given Saturday, July 4th.

The evening was spent by games and a display of fireworks. Refreshments were served.

Those present were: Isabel Davis, Ethel Gordon, Louis Laws, Raymond Laws, Noble Gooden, Donald Gooden, Robert Davis, Charles Davis, Harry Dayett. The party was given July 2.

DELAWARE PEOPLE PAY \$34,041,865 INCOME TAX

Amount Received By Federal Government Drops \$6,000,000 In Year
Total income tax payments from Delawareans for the fiscal year, 1931, amounted to \$34,041,865 as compared with \$40,145,321 for the fiscal year 1930, it was announced yesterday by the Treasury Department.

Corporation tax payments from the State totaled \$23,134, individual taxes, \$9,743,127 total income tax, \$32,877,127 and miscellaneous taxes, \$1,164,738.

Treasury statistics showed that Colorado and Virginia alone increased internal revenue payments in the 1931 fiscal year as compared with the preceding 12 months. Total collections slumped from \$3,040,145,733 to \$2,428,180,220 in the same period.

During the year, the internal revenue bureau collected \$1,026,443,530 in corporation income taxes, \$833,758,110 in individual income taxes and \$567,978,579 in miscellaneous taxes.

THREE MOTORISTS FINED

Three motorists, Joseph Stafford, New York; Benjamin Kohn, Philadelphia, and Charles A. Campbell, of Tampa, Fla., drew fines of \$10 and costs in Police Justice Manly Drennes court, Elkton, charged with reckless driving.

NEW YORK BOXING BODY SAYS SCHMELING MUST FIGHT SHARKEY

James A. Farley, chairman of the New York State Boxing Commission, Monday declared Max Schmeling, world heavyweight champion, "never will meet another boxer in New York as long as he refuses to meet Jack Sharkey again."

Schmeling, awarded the title after he was fouled by Sharkey and who successfully defended his crown Friday night at Cleveland with a technical knockout over W. L. Stribling, is under contract with the Madison Square Garden Corporation for a title fight September 17.

"We think Sharkey is the best fighter in the world," Farley, here in attendance at the annual convention of Elks, declared. Continuing, Farley said the boxing commission, although it gave Schmeling the title, does not consider him the champion.

RECOVERS POCKETBOOK AFTER BEING IN NOXEN-TOWN LAKE A YEAR

More than a year ago, while fishing from a boat in Noxontown Lake, near Middletown, Professor W. C. Witham, of the University of Delaware, lost a pocketbook which, among other things, contained his wife's gold wedding ring.

Several days ago a young son of Burton J. Mannering, of Townsend, found an old pocketbook on the lake shore and on picking it up a gold ring dropped out. It happened that Professor Witham's auto driver's license was also in the pocketbook and although it had been in the water for a year his name could still be made out on the license. Notified of the find he drove to Townsend and got the ring.

Early last summer Professor Witham, with "Joe" Rothrock, former coach at the University of Delaware, went on a fishing trip to Noxontown. They fished from a boat and Professor Witham was in the stern of the boat most of the time. He had his pocketbook in his hip pocket and missed it when he got ready to go home. He was sure that it had dropped out into the lake but of course did not know just where. The pocketbook contained \$7 in notes, his driver's license, some personal cards and the ring.

He was surprised last week to receive a letter from Mr. Mannering stating that his son had found a pocketbook along the shore containing a driver's license on which Professor Witham's name could be made out. He said there were other things in the pocketbook and that they would be returned if Professor Witham could satisfactorily identify them.

The compartment containing the money had come apart probably by fish or crabs tugging on it and the money no doubt had gotten loose from the pocketbook before it was washed ashore some time recently. The ring was not tarnished or damaged.

DELAWARE EXCLUDED IN GASOLINE PRICE CUT

Civic Association Asks Governor to Seek Reason

The Board of Directors of the Wilmington Civic Association Tuesday decided to write to Governor C. D. Buck for information as to why the Standard Oil Company of New Jersey Tuesday reduced the price of gasoline one cent per gallon in all parts of its marketing territory, except in Delaware.

The notices sent out by the company read to include all its marketing territory "except the State of Delaware."

The directors explained that they were writing not to criticize Governor Buck in any way, but merely to try to find out why the reduction was not effective here. They will request the Governor to use whatever efforts he can to obtain the cut in price for this State, unless there are reasons which necessitate the Standard Oil Company keeping its price in this State higher than in others.

MONOPLANE BADLY WRECKED NEAR ELKTON, TUESDAY

A monoplane from Wilmington, Del., was wrecked, but two passengers, as yet unidentified, were unhurt and left the scene before their names could be learned late Tuesday afternoon, when it struck the roof of a barn on the Catholic School farm.

The details of the accident are meagre. The plane, according to residents of that section struck the tip of the roof of the barn, tearing out a small section of the shingles, and then took a plunge to the ground.

It is understood that the plane was owned by Allison Buck, of Wilmington, and that he was injured.

Quarantined: Measles, 25; whooping cough, 1. Released, 11.

THOMAS A. GREGOR APPOINTED

Thomas A. Gregor, of Elkton, who secured the highest rating in a competitive examination for Cecil County sanitary officer, was awarded the appointment and left for Indianola, Mississippi, for a six-week training under the direction of the International Health Board of the Rockefeller Foundation. This office pays \$2400 a year.

The new office will come under the direction of the State Board of Health.

FRAME DWELLING DESTROYED

The frame dwelling occupied by Frank Schuman on the road between Red Pump and Rising Sun, Md., was destroyed by fire Saturday afternoon. When the Rising Sun fire company arrived the flames had spread so rapidly that the house was doomed, there being no water available with which to fight the fire. Most of the household goods were saved by the family.

Betty Schaen, 6 1/2 Years Old, Suffocates

(Continued from Page 1.)

teeting the top, the gate being the only part where it would be possible to climb over, and it is presumed that or four strands of barbed wire protected the children climbed over the gate, for Betty called to her father that they were on the other side of the gate and the gate was locked.

Dr. Johnson arrived on the scene within a few minutes and waited until the body was recovered, when he pronounced the child dead from suffocation. He stated a human being could survive only a few minutes in this tank due to the gaseous nature of the contents. The body was taken in charge by Mr. Jones and was released to the parents after the inquest at 12.45 today.

Funeral services will be held Saturday afternoon at the parents' home, 111 E. Cleveland avenue, interment being made in Newark Cemetery. Dr. Gunby will have charge of the services.

JULY FOURTH DEATHS IN UNITED STATES NEARLY 500

Six Fatalities from Fireworks but Half of 1930—160 Die in Motor Accidents

HEAT CLAIMS TWENTY-FOUR LIVES

The largest number of Fourth of July deaths occurred in the United States as the Nation celebrated the 155th anniversary of its birth.

Close to 500 persons lost their lives from various causes in the two-day celebration. Fatalities from fireworks were but six, or only one-half of what they were in 1930.

Automobile accidents and drownings were by far more numerous this year. One hundred and sixty persons, lured to the highways, perished in motor car mishaps, compared to eighty-one last year, while drowning fatalities totaled 181. Almost three times as many persons lost their lives in the water as compared with 1930 when the total was fifty-seven. Twenty-four died from the heat, while fourteen were killed in airplanes.

The total of deaths from all causes as shown in reports from the entire

country gathered by the Associated Press was 493. This was 304 more than died in the 1930 celebration.

The mid-Atlantic section of the country had the greatest loss of life, with a total of 143. The mid-west was second with a total of 106, and the Pacific Coast States third with ninety-one. The South was fourth, with fifty-seven. The New England States fifth with thirty-four. The Rocky Mountain States were last with but nine.

Although few died from fireworks, many were injured. The Mid-Atlantic States alone reported approximately 1,900 injured. Of these New York City, where the sale of fireworks is forbidden, had at least 1,600.

Vermont, native State of former President Calvin Coolidge, who celebrated his birthday anniversary July 4, had no deaths at all.

Frank Virden, Delaware Student, Wins Honor In France

Dr. Walter Hüllihen, president of the University of Delaware, received word Monday from Prof. George E. Brinton, director of the University of Delaware Foreign Study Group in France, that Frank A. Virden, of Middletown, Del., a Delaware student, stood third in the final examinations recently taken by a group of 150 students.

Virden attended the University of Delaware two years and is just ending his junior year with the foreign study group in France. He will return this month and re-enter Delaware for his senior year in September. He was a member of a group of about 65 students who went to France last July under the University of Delaware plan.

The group of 150 students who took the final examinations after a year of study in institutions of France in addition to the Delaware group include students from England, Italy and other countries.

Professor Brinton in his message says that of the first six students having the highest standing in the examinations five are members of the University of Delaware group. Nathan

Adelman of the City College of New York, but a member of the Delaware group, stood first. A student in France with the Smith College group was second and Virden was third. The next three were students of the Delaware group. They entered the group from Bowdoin, Wellesley and Sweet Briar Colleges respectively. The Delaware group will return home the middle of this month.

The new group under the University plan will sail for France about the same time that the students now in France sail for home and this group will be the largest that has ever been sent abroad since the plan was started some years ago. It may number from 90 to 100.

Why I Am a Candidate for President

I INVITE MY FELLOW CITIZENS TO

MOUNT ARARAT FARMS

PORT DEPOSIT, MARYLAND

Saturday, July 11, 1931, at 2.30 P. M.

I shall then State why I have Announced Myself as a Candidate for the Presidency of the United States.
I shall discuss the Grave World Crisis and its remedy through the application of the Principles of Righteousness to Economic, Social and International Problems.

JEROME E. BRUMFIELD, Chairman

SPEAKERS

MR. LYELL RADER, New York; JONATHAN BOURNE, Jr., Ex-Senator from Oregon; JOSEPH IRWIN FRANCE, Ex-Senator from Maryland

COME AND BRING YOUR FRIENDS—ALL ARE WELCOME

Aetna Company

Not to Hold Carnival

OWING TO PRESENT CONDITIONS THE OFFICERS AND MEMBERS OF AETNA HOSE, HOOK AND LADDER COMPANY AT THEIR MONTHLY MEETING, JULY 3, DECIDED NOT TO HOLD A CARNIVAL THIS YEAR. THIS DECISION, HOWEVER, DOES NOT MEAN THAT THEY HAVE A SURPLUS OF MONEY TO RUN THE ORGANIZATION.

MOST PEOPLE WOULD BE SURPRISED IF THEY WOULD STOP AND THINK WHAT IT COSTS TO RUN AN UP-TO-DATE FIRE COMPANY LIKE THE AETNA. FOR INSTANCE: ONE SECTION, OR 50 FT., OF GOOD FIRE HOSE COSTS \$70.00, OR \$1.40 PER FOOT; TIRES FOR THE ENGINE AND AMBULANCE, SUPPLIES, REPAIRS, COAL, ETC., TOTAL SEVERAL THOUSAND DOLLARS.

THERE WILL BE NO HOUSE TO HOUSE CANVASS FOR FUNDS, BUT CONTRIBUTIONS FROM FRIENDS OF AETNA HOSE, HOOK AND LADDER COMPANY WILL BE GREATLY APPRECIATED.

CONTRIBUTED BY A FRIEND OF THE AETNA HOSE, HOOK AND LADDER COMPANY.

Uniform International Sunday School Lesson

Lesson for July 12

THE PREACHING OF THE APOSTLES

LESSON TEXT—Acts 4:1-14:31.

THEME—The preaching of the apostles.

PRIMARY TOPIC—Peter Preaching in the Temple.

INTERMEDIATE AND SENIOR TOPIC—The Preaching of the Apostles.

ADULT TOPIC—The Preaching of the Apostles.

Peter Preaching Before the Multitude (Acts 4:1-14:31).

The audience secured (v. 11). In the hearing of the apostles, the people took hold of Peter and John, and gave attention to these men as they spoke.

He proclaimed miracle-working power (v. 12). Though the miracle-working power of the apostles was not the power of the apostles, it was the power of God.

He proclaimed Jesus as the Messiah (v. 13). Peter declared that it was Jesus who had raised the dead, and that he was the Messiah.

He proclaimed the resurrection (v. 14). Peter declared that Jesus had risen from the dead, and that he was the Messiah.

He proclaimed the kingdom of God (v. 15). Peter declared that the kingdom of God was at hand, and that the people should repent and be baptized.

He proclaimed the forgiveness of sins (v. 16). Peter declared that the forgiveness of sins was available to all who repented and were baptized.

He proclaimed the promise of the Holy Spirit (v. 17). Peter declared that the Holy Spirit was promised to all who repented and were baptized.

He proclaimed the need of repentance (v. 18). Peter declared that the people needed to repent of their sins and be baptized.

He proclaimed the need of baptism (v. 19). Peter declared that the people needed to be baptized in water.

He proclaimed the need of faith (v. 20). Peter declared that the people needed to have faith in Jesus Christ.

He proclaimed the need of love (v. 21). Peter declared that the people needed to love one another.

He proclaimed the need of obedience (v. 22). Peter declared that the people needed to obey the commands of God.

He proclaimed the need of perseverance (v. 23). Peter declared that the people needed to persevere in their faith.

He proclaimed the need of hope (v. 24). Peter declared that the people needed to have hope in Jesus Christ.

He proclaimed the need of charity (v. 25). Peter declared that the people needed to love one another as themselves.

He proclaimed the need of purity (v. 26). Peter declared that the people needed to be pure in heart and life.

He proclaimed the need of peace (v. 27). Peter declared that the people needed to have peace with one another.

He proclaimed the need of joy (v. 28). Peter declared that the people needed to have joy in the Lord.

He proclaimed the need of gentleness (v. 29). Peter declared that the people needed to be gentle and meek.

He proclaimed the need of self-control (v. 30). Peter declared that the people needed to have self-control over their passions.

He proclaimed the need of patience (v. 31). Peter declared that the people needed to be patient and long-suffering.

He proclaimed the need of kindness (v. 32). Peter declared that the people needed to be kind and courteous.

He proclaimed the need of humility (v. 33). Peter declared that the people needed to be humble and lowly.

He proclaimed the need of meekness (v. 34). Peter declared that the people needed to be meek and gentle.

He proclaimed the need of temperance (v. 35). Peter declared that the people needed to be temperate and self-controlled.

He proclaimed the need of chastity (v. 36). Peter declared that the people needed to be chaste and pure.

He proclaimed the need of continence (v. 37). Peter declared that the people needed to be continent and self-controlled.

He proclaimed the need of sobriety (v. 38). Peter declared that the people needed to be sober and self-controlled.

He proclaimed the need of vigilance (v. 39). Peter declared that the people needed to be vigilant and watchful.

He proclaimed the need of circumspection (v. 40). Peter declared that the people needed to be circumspect and careful.

He proclaimed the need of discretion (v. 41). Peter declared that the people needed to be discreet and wise.

He proclaimed the need of wisdom (v. 42). Peter declared that the people needed to be wise and prudent.

He proclaimed the need of understanding (v. 43). Peter declared that the people needed to have understanding of the things of God.

He proclaimed the need of knowledge (v. 44). Peter declared that the people needed to have knowledge of the truth.

He proclaimed the need of insight (v. 45). Peter declared that the people needed to have insight into the heart of God.

He proclaimed the need of wisdom (v. 46). Peter declared that the people needed to be wise and prudent.

He proclaimed the need of understanding (v. 47). Peter declared that the people needed to have understanding of the things of God.

He proclaimed the need of knowledge (v. 48). Peter declared that the people needed to have knowledge of the truth.

He proclaimed the need of insight (v. 49). Peter declared that the people needed to have insight into the heart of God.

He proclaimed the need of wisdom (v. 50). Peter declared that the people needed to be wise and prudent.

He proclaimed the need of understanding (v. 51). Peter declared that the people needed to have understanding of the things of God.

He proclaimed the need of knowledge (v. 52). Peter declared that the people needed to have knowledge of the truth.

He proclaimed the need of insight (v. 53). Peter declared that the people needed to have insight into the heart of God.

He proclaimed the need of wisdom (v. 54). Peter declared that the people needed to be wise and prudent.

He proclaimed the need of understanding (v. 55). Peter declared that the people needed to have understanding of the things of God.

He proclaimed the need of knowledge (v. 56). Peter declared that the people needed to have knowledge of the truth.

He proclaimed the need of insight (v. 57). Peter declared that the people needed to have insight into the heart of God.

He proclaimed the need of wisdom (v. 58). Peter declared that the people needed to be wise and prudent.

He proclaimed the need of understanding (v. 59). Peter declared that the people needed to have understanding of the things of God.

He proclaimed the need of knowledge (v. 60). Peter declared that the people needed to have knowledge of the truth.

He proclaimed the need of insight (v. 61). Peter declared that the people needed to have insight into the heart of God.

He proclaimed the need of wisdom (v. 62). Peter declared that the people needed to be wise and prudent.

He proclaimed the need of understanding (v. 63). Peter declared that the people needed to have understanding of the things of God.

He proclaimed the need of knowledge (v. 64). Peter declared that the people needed to have knowledge of the truth.

He proclaimed the need of insight (v. 65). Peter declared that the people needed to have insight into the heart of God.

He proclaimed the need of wisdom (v. 66). Peter declared that the people needed to be wise and prudent.

He proclaimed the need of understanding (v. 67). Peter declared that the people needed to have understanding of the things of God.

He proclaimed the need of knowledge (v. 68). Peter declared that the people needed to have knowledge of the truth.

He proclaimed the need of insight (v. 69). Peter declared that the people needed to have insight into the heart of God.

He proclaimed the need of wisdom (v. 70). Peter declared that the people needed to be wise and prudent.

He proclaimed the need of understanding (v. 71). Peter declared that the people needed to have understanding of the things of God.

He proclaimed the need of knowledge (v. 72). Peter declared that the people needed to have knowledge of the truth.

He proclaimed the need of insight (v. 73). Peter declared that the people needed to have insight into the heart of God.

He proclaimed the need of wisdom (v. 74). Peter declared that the people needed to be wise and prudent.

He proclaimed the need of understanding (v. 75). Peter declared that the people needed to have understanding of the things of God.

He proclaimed the need of knowledge (v. 76). Peter declared that the people needed to have knowledge of the truth.

He proclaimed the need of insight (v. 77). Peter declared that the people needed to have insight into the heart of God.

He proclaimed the need of wisdom (v. 78). Peter declared that the people needed to be wise and prudent.

He proclaimed the need of understanding (v. 79). Peter declared that the people needed to have understanding of the things of God.

He proclaimed the need of knowledge (v. 80). Peter declared that the people needed to have knowledge of the truth.

SUPPLEMENTS FOR SWINE FEEDING

By Dr. John M. Evvard

All of the farm grown basal feeds of carbohydrate nature such as corn, wheat, barley and others, are deficient in proteins, certain vitamins, and specific minerals. In order to nutritionally round out the farm grown grains for economical feeding, it is absolutely essential that all of these missing or deficient elements be carried in a supplemental feed.

The farm grains are not only low in protein, but the quality of the protein carried is "off"; this means that not only more proteins must be added, but these proteins must be of such high quality as to blend with the proteins in farm grains. In other words, the inferior proteins of the farm feeds are thus made superior through the feeding of the kind of supplement that we are talking about.

Certain farm grains are deficient in certain vitamins. It is necessary to add feed ingredients to correct this deficiency. For instance, in wheat or barley, we have a certain vitamin deficiency. By adding green and leafy alfalfa meal, we supply vitamins that otherwise would not be contained in the ration.

And now, even though we have the proteins and vitamins properly provided for, we still must put emphasis upon the mineralization of the supplement. We supply sodium and chlorine in the form of kiln-dried salt. We provide calcium by introducing calcium carbonate. Sometimes we provide calcium also in the form of bone meal or other form of phosphate, particularly when the organic ingredients of the supplement are still deficient. If the

ingredients of the supplement already carry sufficient phosphorus in the form of fish meal, meat meal tankage, etc., then it is not necessary to add additional ingredients carrying phosphorus or reduce them to a minimum. Calcium and phosphorus are of major importance in building body tissue and bone. Therefore, they are instrumental in control of growth and health.

Since blood, muscle and other animal tissues carry considerable iron and since farm grains are low in this essential ingredient, an economical and efficient form of iron carrier must be included, otherwise we would have an incomplete supplement.

In order to make sure that the thyroid gland in the forward part of the neck functions properly, we must supply iodine for that gland. This thyroid gland makes a substance called thyroxine. This secretion is sent to various parts of the body and aids in metabolism or assimilation of certain food elements. Without iodine, this thyroid gland cannot produce thyroxine and for this reason, in many sections of the country where iodine is deficient in feed stuffs, pasture, and water, the condition known as goiter develops. This disease is called big neck in calves, goiter in horses and hairlessness in pigs. Naturally, the presence of iodine in proper form is a safeguard and insurance in producing better livestock. Even in some localities wherein hairlessness is not noticed in young pigs, or big neck in calves, there is, nevertheless, a physiological shortage of iodine; the use of potassium iodide in the supplementary feed adds to the quality of the feed and insures that the animals on the feed shall never be lacking in the element under discussion.

Mexican Bean Beetle Giving New Castle County Growers and Gardeners Trouble

The control of the Mexican bean beetle is now foremost in the minds of truck growers and gardeners in New Castle County, according to a statement made recently by County Agricultural Agent Ed Willim, Jr., of Newark. "Unless controlled by spraying or dusting, this insect pest will almost completely destroy a bean crop within a few days," states Mr. Willim.

"The presence in Delaware of this insect," continues the agent, "was discovered in the early summer of 1928 and by the end of that season it was well scattered over the entire state. Heavy losses are most likely to occur during seasons having a normal rainfall and average temperatures, while dry and hot weather (as in 1930) tends to check the activities of this insect and reduce the amount of injury."

"The preferred food plants of this pest in Delaware are bush and pole varieties of snap or string beans, although the lima bean is also readily and severely attacked. Soybeans are sometimes eaten by this insect."

The presence of the Mexican bean beetle is easily detected by the characteristic skeletonizing of the leaves as a result of feeding by both the adults and young. The larvae cause more damage than the adults and are voracious feeders. In cases of heavy infestation, pods, stems, and blossoms are frequently attacked. There are apparently three generations produced in this section and the adults of the last one hibernate or pass the winter in the woods under rubbish, dead leaves, and old pine needles or under suitable places along fence rows.

Description of Various Stages

The Mexican bean beetle passes through four distinct stages in its development. It is important that the grower become familiar with these. Egg—Elliptical in shape, about one-sixteenth of an inch long, light yellow in color. Laid in groups of 40 to 60 on the undersides of the leaves. The average number per female during a season is about 300. Larva—Greenish when young, becoming dark yellow when fully mature. The full-grown larva is almost a third of an inch in length, the body covered with rows of prominent stiff spines. Pupa—Light yellow in color, about a quarter of an inch long. They are attached by the rear end to the undersides of the leaves and in this stage the insect is inactive. Adult—The freshly changed beetle is a distinct yellow in color, marked with eight small black spots on each wing cover. This color soon darkens to a light brown. They are very stout, convex, and are about a quarter of an inch long. The adults are strong fliers and spread the infestation from field to field.

They are often confused with the very closely related squash ladybird beetle, but can be easily separated by its smaller size and arrangement of the dark spots or markings. These spots are less numerous and distinctly larger in the squash lady beetle and the insect is more hemispherical. The latter insect attacks the squash and other cucurbits while the Mexi-

can bean beetle confines its feeding to plants of the bean family.

Control Measures

Effective control depends upon thorough and timely treatments applied to the under surface of the foliage. Applications of arsenicals should start with the appearance of the first adults in the field and should be repeated at intervals necessary to keep the foliage properly covered. On string beans spraying and dusting should stop after the pods start to form. Spraying is usually more effective than dusting and is preferred where local conditions make it practical. On account of the extreme susceptibility of the bean plant to burning, considerable care must be exercised in the selection of proper materials. Arsenate of lead is not recommended for use on bean foliage because of the serious burning which often results from its use on this crop. Magnesium arsenate has proven to be the most effective of the arsenicals and when used the addition of lime is unnecessary.

Liquid Spray

For large areas—Magnesium arsenate, 1 pound; water, 50 gallons.
For small areas—Magnesium arsenate, 1 ounce; water, 3 gallons.
Apply at the rate of 90 to 100 gallons per acre.

Or

For large areas—Calcium arsenate, 3/4 to 1 pound; hydrated lime, 2 pounds; water, 50 gallons.
For small areas—Calcium arsenate, 3/4 to 1 ounce; hydrated lime, 2 ounces; water, 3 gallons.

Use only calcium arsenate recommended specifically for beans as bad burning may result with some brands. Magnesium arsenate mixed with hydrated lime in the proportion of 1 to 3 by weight can be used as a dust, but is rather heavy and is not so satisfactory as the others recommended.

After the crop is picked, plow down fields, using drag chain to insure proper covering of vines. Turn under six to eight inches deep where possible in order to destroy any stages of the beetles left on plants. This aids in preventing a heavy carry-over for the next season. In small gardens, as soon as the beans stop producing, the vines should be pulled up and immediately burned. Any control measures practiced early in the season to keep the infestation down will aid materially in preventing serious injury to late-planted and slow-growing varieties of beans.

While arsenical poisons are dangerous to man, snap beans which have been sprayed or dusted after the pods have formed can be safely used after being thoroughly washed two or three times before cooking. The addition of a little vinegar to the rinsing water will aid in quickly removing any spray residue that may be present. Pyrethrum soap sprays are very effective against certain stages of the beetle but this material is very expensive. There are several brands on the market and the home gardener may prefer to use this material on account of its complete non-toxicity to humans.

The Market Basket

(Continued from Page 2.)

broth, pour over the gelatin and stir until the gelatin has dissolved. When the gelatin mixture has partly set add the vegetables, meat, lemon juice and onion pulp. Stir until well mixed and pour the mixture into a wet mold and put in a cold place until set. Turn out on crisp lettuce leaves and serve with salad dressing.

Jellied Vegetable Salad

3 tablespoons gelatin, 1/2 cup cold water, 1 quart can tomatoes, 2 teaspoons salt, 1 1/2 cups cooked peas, 2 cups shredded raw cabbage, 1 cup cooked spaghetti (broken into small pieces).

Soften the gelatin in the 1/2 cup of cold water for 5 minutes. Add the salt to the tomatoes and heat to the boiling point and then press through a fine sieve to remove the seeds. Pour the hot tomato pulp and juice over the gelatin and stir until the gelatin has dissolved. When the gelatin mixture is partly set add the vegetables. Stir until well mixed. Pour the mixture into a wet mold and put in a cold place until set. Turn out on crisp lettuce leaves and serve with salad dressing.

Jellied Fish Salad

1 pound halibut, 1 quart water, 3 teaspoons salt, pepper, 3 tablespoons gelatin, 1/2 cup cold water, 1 1/2 cups diced skinned tomatoes, 2 cups shredded raw cabbage, 6 tablespoons lemon juice.

Simmer the fish in the quart of water with a bay leaf for about 10 minutes, or until tender. Drain and to the liquid add enough hot water to make 1 quart. Add the salt and pepper. Remove the skin and bones from the halibut and cut into even pieces. Soften the gelatin in the 1/2 cup of cold water for five minutes and pour over the hot fish stock and stir until the gelatin has dissolved. When the gelatin mixture has partly set add the fish, vegetables, and lemon juice. Stir until well mixed. Pour the mixture into a wet mold and put in a cold place until set. Turn out on crisp lettuce leaves and serve with salad dressing.

EXPERT EXPLAINS MEASURES NECESSARY FOR SUCCESS IN ROSE GROWING

Some one has said that any soil which will grow weeds will grow roses. This is true, providing that the soil is first properly adapted to its new task.

In other words, if the soil is not right for roses proceed to make it right. This is not difficult today when peat moss and humus are available everywhere.

F. F. Rockell, who has made extensive experiments with peat moss, suggests this plan for preparing a rose bed: "Remove five or six inches of soil, fork in the fertilizer and peat moss in the layer below this. Then fill in the top with pulverized soil to which about 25 per cent in bulk of peat moss has been added."

In selecting a place to put your roses, remember that the rose is a sun-loving shrub. Do not plant it where the shade is dense, but it will do very well in locations where the sun shines only half of the day.

If the roses are intended chiefly for cutting rather than for landscape effect, it is best to give them a spot by themselves. If there is a vegetable garden, the cutting roses can be placed at one edge.

Climbers can be planted almost anywhere except on the north side of a building. When planted on the west side they should be kept as near as possible to the south corner in order that the sun may reach them early in the afternoon. Sometimes roses will not do well if planted too close to the foundation on the south side of a house.

In planting roses the two principal points are to dig the hole large enough to receive the roots without cramping and to use plenty of water after planting, so as to settle the earth about the roots.

Most nurserymen trim the bushes before shipment. If the rose is not already pruned, cut it back to within six inches of the root. Extra long roots may also be pruned off.

While roses are easy to grow, they have their enemies as do most living things. The two principal insect pests are the aphid or green plant louse and the rose chafer, a large brown beetle.

Fortunately, both of these enemies can be controlled with a single safe, nonpoisonous spray, pyrethrum soap mixed with water. There are a number of brands upon the market, all good. For the bush rose, a small hand spray does very well. For the climbers one needs a knapsack sprayer.

In fertilizing, remember that the rose is a shrub. You would not feed a shrub rich forcing fertilizer. Neither do your roses need such intensive feeding. A little bone meal worked into the soil will slowly dissolve into plant food, releasing all that is needed.

PERHAPS MORE SCHOOLS?

Pennsylvania's teacher surplus was further augmented last month by graduation of 2,749 men and women from the fourteen state teachers' colleges. Of the graduates, 2,017 were qualified to teach in primary and secondary schools and 732 in the high schools.

Administrator's Sale of Real Estate

By virtue of an order of the Orphans' Court of the State of Delaware, in and for New Castle County, made the first day of July, A. D. 1931, will be exposed to sale at Public Auction or Vendue, on

Saturday, July 25, 1931
AT 9 O'CLOCK A. M.
(Standard Time)

at the County Court House, in the City of Wilmington, New Castle County and State of Delaware, the following described Real Estate of Caroline Cooms, deceased, to-wit:

All that certain lot, piece or parcel of land, with the buildings thereon erected, situate in Pencader Hundred, New Castle County and State of Delaware, more particularly bounded and described as follows, to-wit:

BEGINNING at a stone being the Northeast corner of Zebulon James' lot; thence North five degrees West twenty-four perches to a stone; thence South eighty-five degrees West twenty-four perches to a stone in William Kincaid's line; thence binding on the same South five degrees East eighty perches to a stone; North eighty-five degrees East two perches to a stone and South five degrees East sixteen perches to a stone, corner of Zebulon James' lot aforesaid; thence binding on the same North eighty-five degrees thirty minutes East twenty perches to the place of Beginning. Containing three acres and sixteen perches more or less.

FOR FURTHER INFORMATION CONSULT THE UNDERSIGNED.

TERMS OF SALE

The highest and best bidder or bidders to be the purchaser or purchasers, will be required to pay the Administrator ten per centum of the purchase price as soon as the property is struck off, or the sale will be void and the property immediately exposed to a second sale.

The ten per centum being paid as aforesaid, the purchaser or purchasers will be required to pay the Administrator the balance of the said purchase price on or before Tuesday, July 28th, A. D. 1931, or the sale will be void and the ten per centum so paid be forfeited.

The Administrator will make return of said sale to an adjourned Orphans' Court, to be held at Wilmington, on Wednesday, July 29th, A. D. 1931, when, if the sale be approved a deed or deeds will be made and delivered to the purchaser or purchasers.

Attendance will be given by ISAAC R. BROWN, Jr., Administrator of Caroline Cooms, deceased, or by J. PEARCE CANN, His Attorney.

Attest:—Granville P. Alexander, Clerk O. C.
Wilmington, Delaware,
July 2nd, 1931. 7,9,11.

Private party in your vicinity leaving town, wish to give up their beautiful Baby Grand Piano, nearly half paid for. Just like new—11 months old. Rather than bring this piano back to her warehouse, we will recede to reliable party and allow all monies paid. Just continue easy monthly payments on small balance. For price, make and condition, apply—

TAXPAYERS' RESEARCH LEAGUE COMMENDS GOVERNOR BUCK

Over \$7,000,000 of State Bonds Redeemed, Saving to State of \$19,870,000 in Interest Over a Period of Forty Years

Under the initiative of Governor Buck the State Sinking Fund Commission has already redeemed more than seventy-five per cent of all highway bonds issued by the State, it is pointed out in an attractive fifteen-page brochure prepared for distribution by the Taxpayers' Research League of Delaware.

The brochure which has been mailed to an extensive list of prominent citizens contains a review of past activities and a statement of the future program of the league.

Under the heading "Reduction of the State's Bonded Indebtedness," the brochure states that about four years ago the league called attention to the substantial surplus in the State's sinking fund and to the significant possibilities of using it to reduce the State's debt.

"For approximately a year and a half," it continues, "no attention was paid to these suggestions. Even when public officials first began to consider the possibilities in this direction, there

was very strong opposition on the ground that this use of the sinking fund surplus was financially unsound.

"Gradually, however, this opposition was converted, and Governor Buck, upon his inauguration, adopted as one of the principal policies of his administration the reduction of the State's debt.

"So far, upon the initiative of the governor, the sinking fund commissioners have redeemed \$7,085,000 of state bonds, or slightly more than 75 per cent of all highway bonds issued by the State, and thoughtful citizens are practically unanimous in applauding this action. This achievement of the governor and sinking fund commissioners is unparalleled in any other state in the Union. The savings to the highway fund in interest and sinking fund charges, through the retirement of bonds already cancelled, will average in actual cash nearly \$500,000 annually for approximately 40 years, or an aggregate saving in that time of \$19,870,000.

Ex-Senator Joseph I. France To State Reasons For Becoming Candidate For President

At an outdoor meeting to be held on the lawn of his residence at his farm, on Saturday, July 11, Ex-Senator France will give an outline of the issues now pending and his reasons for becoming a candidate for the Presidency. A large number of people is expected. There will be present important groups from Baltimore, Washington, Wilmington, Philadelphia and New York and from all parts of Maryland. There will be two bands, Steinwald's from Baltimore and the Elkton Band, also songs by the Twilight Club of Negro spiritual singers.

The chairman will be Mr. Jerome E. Brumfield, and the speakers will be Mr. Lyell Rader of New York, Jonathan Bourne, Jr., Ex-Senator

from Oregon, and Dr. France, Ex-Senator from Maryland.

There will be amplifiers to carry the voices of the speakers to all parts of the grounds. Seats are being provided for about two-thousand people.

Light refreshments will be sold by the Cecil County Welfare Association. The farm of Senator France is located on the high cliffs above the Susquehanna River and embraces over five hundred acres of beautiful fields, stream and woodland.

It is a large dairy farm with one of the most important herds of Registered Guernsey cattle in America of about 170 in all. The barns, milk house and buildings make up a model farm and here Senator France lives during the whole year.

MISS IRENE SINGLES HOLDS ANNUAL RECITAL

On Tuesday night Miss Irene Singles held her annual recital at the home of Mr. William Cloud, Kemblesville, Pa. A very interesting program was given.

Duet, Christine and Junior Sheehan; Circus Parade, Kenneth Crossan; Summer Music, Eleanor Aiken; Dream Waltz, Leanne McVaugh; Daddy's Big Bass Fiddle, Evelyn Astle; Song, Louise and Angela Clementi; Golden Dandelions, Christine Sheehan; In June, duet, Florence Swain; Black Hawk Waltz, Margaret Mason; Recitation, Rose Mary Sheehan; Frolics of a Fairy Night, Winter Farewell, duet, Florence Swain; The North Wind Doh Blow, Evelyn Astle; Song, Betty Newlin; Curious Story, Mary Clementi; Valse Blue, Pearl Vought; On the Race Course, duet, Harold Lynch; First Valse, Catherine Morris; Chopsticks Waltz, Kathleen Little; Songs, Dorothy Little; Torchlight Dance, Dorothy Handloff; Robins Return, Ruth Hoopes; Flower Song, Elaine Newlin; Dixie Doodle, Ruth Hoopes.

MILL CREEK FARMER DIES

James H. Faulkner died at his home along Limestone road early Saturday morning from a complication of diseases. He had been ill for five weeks. During that time, he underwent treatments in the Homeopathic Hospital, Wilmington.

Mr. Faulkner was 67 years old. He was born at Whitesburg, Md., coming to Delaware in early manhood. The deceased was a farmer and had owned and conducted a farm in this community for several years.

He is survived by his wife, two daughters, Mrs. Bertha Schipine and Mrs. Emma Guyet, of Watertown, New York; four sons, Willard C. Clarence, Walter and Howard, and seventeen grandchildren.

The funeral took place from his home Tuesday afternoon at three o'clock. Interment in the Silverbrook Cemetery.

MILK REPORT

George L. Baker, Milk Inspector, has made the following report on the condition of milk served consumers in Newark during the month of June:

| Dealer | Butter Fat | Count |
|------------------|------------|--------|
| Clover Dairy A. | 4.10 | 17,000 |
| Clover Dairy B. | 4.10 | 50,000 |
| E. F. Richards | 4.20 | 48,000 |

| Harry Brown | 4.25 | 5,000 |
| Edward Murray | 4.50 | 9,000 |

CLEAN-UP DAY

Wednesday, July 22

NEWARK BOYS' TEAM MAKES DEBUT

Lomax's Three Bagger Features Contest With Holly Oak Scouts

The Newark Legion Boys Team was deprived of victory in their initial game on Frazer Field Tuesday when Holly Oak came through with a run in the ninth to tie the score at four all. The home team failed to score in their half of the ninth and the game was then called on account of darkness.

In spite of the slippery condition of the diamond the fielding was fast and clean. Both teams were weak with the bat, failing to come through when hits meant runs.

Herdman, on the mound for the local boys, went the distance, chalking up eight strikeouts and holding Holly Oak to three hits, while the opponents used three moundmen.

Special attention will be given to batting in preparation for the game with the Elkton Junior Team at Elkton this evening.

Wednesday, July 15, the Newark team plans a return game with Holly Oak, and on July 16 will meet the fast New Castle Junior Team in the first regular series game.

The score:

| HOLLY OAK | | AB. | R. | H. |

AUXILIARY ENTERTAINED:

DELEGATES ELECTED

On Monday evening, Mrs. George Jones, of Strickersville, entertained the members of the Auxiliary of J. Allison O'Daniel Unit No. 10. The meeting was held on the lawn, with a very large number in attendance. Delegates to the State Convention were elected, which will be held in Wilmington, July 25 and 26. The delegates named were Mrs. A. E. Tomhave, Mrs. Harry Gabriel; alternates, Mrs. Paul Lovett and Mrs. Lee Lewis. After the regular business session, a most enjoyable evening was spent.

Next month the Auxiliary will be the guests of Mrs. Garrett.

TREE KEEPS ALIVE

HUBBARD MEMORY

An apple tree in East Aurora, N. Y., is keeping alive the memory of Elbert Hubbard, philosopher and lover of man, lost in the Lusitania disaster.

Charles J. Rosen, official of the Roycroft shops, and Elbert Hubbard, 3rd, dedicated the tree at simple ceremonies here recently.

"Elbert Hubbard symbolized life," Rosen said, "and that is why we chose a tree instead of a building to dedicate to his memory."

localities can do. Only through co-operation can a stable market and a fair price be assured. The Dairy-men's League, and similar enterprises, have pointed the way that leads toward sound agricultural development.

Lodge Notes

K. OF P.

Oseola Lodge, No. 5, Knights of Pythias, at a regular meeting on Monday evening, held installation of officers, the work being done by Grand Chancellor L. R. Kirby and Staff.

On Saturday, July 11, the Lodge, accompanied by the Pythian Sisters and members of their families and friends will go to Delaware Beach to attend the outing arranged by the Knights of Khorassan (Dokeys). The sports events are scheduled to start at 3 o'clock, daylight saving time. Cars are requested to be at the hall at 1.30.

IVY CROW TEMPLE

All members of Ivy Crow Temple No. 4, L. G. E., are requested to be present Saturday evening, July 11, for installation of officers.

The Tuesday afternoon card party was held at the home of Mrs. Nettie Conner with a good attendance. Prizes were awarded and delicious refreshments served, and all present enjoyed the afternoon by recreation, playing five hundred.

The next card party will be held at the home of Mrs. Viola Ewing, Choate street, next Tuesday at two p. m., Mrs. Elsie Pierce acting as hostess.

SIX CECIL COUNTY BOYS CHARGED WITH THEFT

Six boys ranging from 17 to 20 years of age were locked in Elkton jail Sunday awaiting a hearing on the charge of larceny. They are George E. Purnell, William H. Purnell, William J. Anderson, George Davis, all of Elkton, and William T. Linton and Albert J. Linton, of Woodlawn, and were arrested by Detectives Ward and Baldwin of the Pennsylvania police force, charged with stealing about 800 gallons of gasoline from the Pennsylvania Railroad, at Charlestown.

An additional charge of chicken stealing has been lodged against the Linton brothers and Davis, the stolen poultry being in their possession when arrested by the officers.

Appleton

Mrs. A. Engle Conrow and children, William R. L., Engle and Suzanne, spent the week with Mrs. Conrow's parents, Mr. and Mrs. J. E. Zebley.

Miss Martha Price, of Wilmington, and Mr. E. Skank, of Philadelphia, were Saturday evening callers with Mr. and Mrs. Harvey Scott.

Mr. and Mrs. John Taggart, of Claymont, Del., spent Sunday with Mr. and Mrs. J. E. Zebley.

Mr. and Mrs. Frank Herbert Zebley, of Wilmington, are spending some time at the home of Mr. Zebley's brother, Mr. Joseph Zebley.

Mr. and Mrs. Walter Sydnor and children, Walter, Jr., and Marian Lucille, of Media, Pa., spent Sunday with Miss Ida and Evelyn Kimble.

The Willing Workers of the Head of Christiana Church will meet at the home of Mr. Harvey Scott, Thursday evening, July 9.

KILLS RATS

and mice—that's RAT-SNAP, the old reliable rodent destroyer. Comes in cakes—no mixing with other food. Your money back if it fails.

35c size—1 cake—enough for Pantry, Kitchen or Cellar.

65c size—2 cakes—enough for Chicken House, coops, or small buildings.

\$1.25 size—5 cakes—enough for all farm and out-buildings, storage buildings, or factory buildings.

WILMINGTON BIRTH CONTROL CLINIC TO OPEN JULY 16

Others to be Established in Same Part of State

The Birth Control League of Delaware Monday announced the opening of a clinic to give scientific information on the use of contraceptives at 1019 Pine street, starting Thursday, July 16. The purpose of the clinic is to give advice on the use of contraceptives to mothers, who are unable to provide healthful homes, adequate food and proper care for future children.

The clinic will be open to women every Thursday morning between the hours of 9 and 12 o'clock only. Dr. Verna Stevens, of Wilmington, will be in charge. Patients will be seen only by appointment.

Backed by prominent men and women of the city, this clinic will be the forerunner of several to be established down state, should this one prove successful. One of the stated aims of the League is "to establish contraceptive clinics in the principal population centers of Delaware under the supervision of competent doctors."

"Only mothers physically and economically unable to rear children will be treated at the clinic," emphasized Mrs. George A. Elliott, secretary of the league. "Each patient must bring to the doctor in charge of the clinic a letter from either the doctor or the social agency referring the case certifying that the bearer can not afford to bear children because of illness or the lack of financial means for the child's proper support."

Mrs. Elliott, who is in charge of the clinic, said that the dissemination of birth control information has become more imperative because of the current depression.

"Children should not be born into a family where the breadwinner is out of work," said Mrs. Elliott, "and where the environment and atmosphere of dejection exists where there is hardly enough to support."

NEWARK, DELAWARE

Practical Feed for Practical Feeders

Products of Dietrich and Gambrill, Inc.

Make your farm pay added dividends by using D. & G. feeds and mash. These feeds are scientifically mixed and blended—they bring results. Try the growing and laying mash and chick starter in your poultry feeding, and notice the beneficial effects gained.

D. & G. Feeds and Mash—

best for Dairy, Horse, Poultry

and Hog feeding

| SPECIAL | |
