

NEWARK POST

VOLUME IV

NEWARK, DELAWARE, WEDNESDAY, MARCH 26, 1913

NUMBER 9

The Annual Moving Season

Many Families Find New Homes

The annual moving season has brought about an unusual number of changes in the whereabouts of our friends. For the last week the streets have been lined with wagons laden with moving households.

Among some of the changes are the following:

Frank Smith from East Main street to property vacated by Harry Poole on Delaware Avenue; John Anderson from Delaware Avenue to recently purchased farm north of Kemblesville; Joseph Williams from near McLaughlin's Mills to Wilmington; Daniel Cline from Cleveland Avenue to Iron Hill; Dan Dougherty from Elliott Farm near Milford Cross Roads to Midtown; William Shelton from Prospect Ave. to Delaware Ave.; Scott Jameson from Deandale to Prospect Ave.; Professor Morgan from Prospect Ave. to Misses Wilson property, West Main street; John Davis from West Main street to Prospect Ave.; J. J. Taubenhaus from the Misses Wilson property to Mrs. S. M. Donnell property, West Main street; Frank Godwin from the Bower Farm to John Richards property, east of Newark; Evan Davis from the Maxwell property on Main street to his lately purchased property, East Main street; Mr. Rittenhouse from Dr. Watson property, Depot road, to Sharon Hill, Pa.; Mr. Pope from Mrs. E. J. Jones property, Main St. to home vacated by John Anderson on Delaware Avenue; the Omega Alpha Fraternity from the Chapman property, Main street to the E. Chouteau property, until the completion of their new home on Depot Road; Lewis Thomas from Prospect Ave. to Chapman property, Main street; W. W. Braden from the S. B. Chouteau property to the house vacated by Cecil Ferguson, Chouteau street; John Perkins near Fairhurst to the old property recently purchased by William Wollaston; Harry Frazer from Academy street to Jos. Hossinger farm, Creek Road; Mr. Griffin from Rees property to Mrs. Daniel Thompson farm, New London road; Mr. Reed from Mrs. Thompson property to that of Mrs. C. Jones, Main street; Mr. Barlow from Cleveland Ave. to Deandale; O. L. Coskery from Delaware Ave. to Wilmington.

WEDDING

NEVE-COOCH.

Miss Helen A. Cooch, formerly connected with the Springfield mission in the Blue Ridge Mountains of Virginia, was married in the chapel of St. Mark's church, Philadelphia, Tuesday, at 11 o'clock to the Rev. Frederick W. Neve of Ivy Depot, Pa., by the Rev. H. B. Phelps of this town in the presence only of a few near relatives of the bride and bridegroom. The bride, who was dressed in a simple traveling dress, was given away by her uncle, the Rev. Charles M. Crutts, Chancellor of Delaware, and after an informal wedding breakfast Mr. and Mrs. Neve left for New York and sailed Monday on the White Star Line steamer Magdalen, for England. Mrs. Neve is called on business in connection with his father's estate. After a few weeks among relatives there, Archdeacon and Mrs. Neve will return to Ivy Depot to live and work among the "poor whites" of the Virginia mountains where Mr. Neve has charge of about thirty mission stations under the auspices of the Diocese of Virginia.

A Family Of Chickens

One of the chief attractions on the street this week is the lively and healthy-looking chickens displayed in window of W. H. Cook. The chickens were hatched on Monday and have found a cozy home in the store window, which is heated with a small electric heater. The order occupies part of the space and the healthy-looking chickens are being sold at a very low price. In view of the delighted young and interested passers-by, Mr. Cook's first experience with poultry has been a promising one. Ninety-eight chickens having been sold from one hundred sixty

FIREMEN'S BALL

Acting boys are receiving congratulations upon the success of the dance given in the Opera House last Monday evening, which was pronounced by those attending, one of the season's most pleasant social affairs. The program opened with a grand march led by Mrs. L. B. Jacobs and Mr. Lee Lewis. About sixty couples enjoyed the dancing. Music was furnished by Bird's Orchestra of Wilmington. Refreshments of sandwiches, coffee, ice cream and cake, were served in the banquet hall.

Mr. Suddard Urged For Road Engineer

The name of J. W. Suddard has been spoken of as Road Supervisor for Pender Hundred and several of his friends are working for his appointment. Mr. Suddard is urged not only as a good citizen of the section but because of his peculiar fitness for such a position. It is understood that before coming to this section that he had considerable experience in road building, being for a long time Superintendent under a Road Engineer. Mr. Suddard's friends will likely appear before the Levy Court and urge his appointment.

Children's Home Society

Rev. Kay Lord, the superintendent of the New Jersey and Delaware Children's Home Society, will speak in the Presbyterian church next Sunday morning.

New Century Club

The subject for last Monday's study at the New Century Club room was Shakespeare's tragedies.

Dr. W. O. Syphard gave a very interesting lecture before the club on the subject, stating that of the tragedies, Othello was the best example of the art.

When the business session was discussed, it was moved by the chairman of the education committee that a congratulatory note be sent to Mrs. Warner of Wilmington, whose untiring efforts were a great influence in securing the Affiliated College.

Owing to stress of circumstances, the club is obliged to recall the invitations to the luncheon that was to have been given next Monday. The chairman of the Building Fund Committee requests the contributions for candy making be left at the home of Miss Alice Kerr no later than Wednesday.

"Immigration And The New American Race"

Dr. J. P. Lichtenberger, Professor of Sociology, Wharton School, University of Pennsylvania, will give the concluding lecture in the history series, in the Oratory on Thursday afternoon, April tenth. The speaker's subject will be "Immigration and the New American Race."

SOCIAL DOINGS

The invitations issued by Mrs. Hayward and Mrs. W. H. Evans for a tea on Saturday, March 29th at the College Farm, have been recalled owing to the illness of the former's daughter, Mary Frances Hayward.

The friends of Miss Anna Springer will be glad to learn that she is steadily improving, since her return home last week.

The cantata sung by the choir of the Presbyterian church, Easter Sunday, at the evening services, was delightfully rendered and thoroughly enjoyed by a congregation that completely filled the edifice. It was certainly more than "worth while" and it is a pity that the choir in Newark, of which there are several, do not emulate the good work of this one and give us such treats oftener.

Messrs. Bradley, West and Holton and the Messrs. Herbener, Steele and Worral also Mr. and Mrs. Ad. Thomas, attended the dance in Mechanics' Hall, Elkton, on Easter Monday night.

Mrs. R. C. Lewis of Elkton, Md., has announced the engagement of her daughter, Ella, to Lieut. Julian Smith, U. S. A. The wedding will be an event of the summer

MR. ALDERSON RECEIVES CALL

Board Releases Minister With Regret

Rev. G. T. Alderson, pastor of the Newark M. E. Church, has received a call from the Harrison street Church, Wilmington. The official board of the Newark church had invited Mr. Alderson to remain and it is has been with the greatest regret that they have released him from this obligation in order that he may be at liberty to enter the broader field. The appointment is now in charge of Bishop Berry, who is presiding at the Conference in session at Crisfield. The members of the Board will meet this evening to consider the list of those ministers available and forward their preference to Conference.

Campbell Store Sold

The well-known business house, known as H. M. Campbell Estate has been bought by Rich Cuff and John F. Richards. The new owners took control of the business on last Friday and will conduct it on the general policy heretofore practiced.

This business was started several years ago by the late H. M. Campbell, who by his energy and devotion to the farming interests of the community built up the present institution. From a small country store, it came to be a General Supply House, especially catering to the farming trade. "Campbell's Store" is a household word throughout the rural section.

With the new management, it is fully expected that the business will continue in popularity and increase in size.

Richard Cuff has been with the concern for seven years and in fact has been instrumental in pushing the business to its present standing. On the death of Mr. Campbell, he assumed the active management and by his every act has won the approval and support of the trade.

Mr. Richards, the partner, is a farmer and has hosts of well-known friends who are sure to be active in the new management.

With these two progressive men, success can be assured and the public will be well served.

IMPRESSIVE EASTER SERVICE

Cantata Appreciated By Large Audience

The sacred cantata "Gethsemane to Calvary," given in the Presbyterian Church last Sunday evening, was appreciated by a large congregation and formed an impressive service with which to close the Easter Day. Ferns and flowering plants, beautifully arranged, were features of the occasion.

The cantata began with an organ prelude, a slow and solemn movement which prepared the listeners for the sad story to be disclosed. Part first, "Gethsemane," opened with a chorus, subdued and impressive, followed by solos by Dr. Rowan, Mrs. J. P. Cann, Misses Raub and Strahorn, Mr. Harvey Steel, and closed with the chorus "Crucify Him." Part second opened with an organ solo, "March to Calvary," followed by one of the most effective choruses, sung without accompaniment. Solos by Mrs. Christopher, Mrs. Cann, Dr. Rowan, Dr. Hayward led to the final joyful numbers of the close, when the crucified Savior triumphs over Death and the Grave. The cantata was beautifully interpreted and the many expressions of appreciation should assure those taking part that their time and effort was not given in vain.

The Many Methods Of Loading

The Ushers' Union of this town has merged into the Methodist Brotherhood, the organization in the new form expecting to broaden its sphere of influence. The meeting held last Friday evening was an interesting one. The subject for discussion was "Loading as a Fine Art," and few idlers, whether the soap-box loafer, the wife of the well-to-do middle class, the college professor who hurls his job and sits back in leisurely elegance for the rest of his days—escaped comment. Among the speakers were Professors Vaughn, Manns, Grantham, Messrs. Dawson and Pelton.

A general discussion followed the meeting in which all present took an active part.

STATE FARM

THE RESULT OF EXPERIMENTS.

Professors Thompson and Whittier have a bulletin in press, entitled "Fruit Juices" which gives the result of long study of the subject. The results, owing to the use of some new apparatus that the authors have devised, are materially different from those obtained by other chemists on the same subject and add considerable information to what is already known in regard to the kind of sugar found in fruit juices.

EXAMINING POTATOES.

Professor Manns was called to Middletown this week to give an expert opinion on a car-load of seed potatoes recently shipped into the State. The consignees fear the potatoes are affected with one of the many diseases to which seed potatoes are subject.

HONORS FOR MR. TAUBENHAUS.

Mr. Taubenhaus, assistant plant pathologist at the Experiment Station has been elected Fellow in the Association for the Advancement of Science. Fellows are chosen on the merit of their published works.

HORSELESS PLOW.

The College Farm has received a 15-20 two speed gasoline-kerosene farm 1 H. C. tractor. This machine will be used for plowing and fitting the ground for crops; for threshing and silo filling as well as instructional purposes.

NEW HOT BEDS.

The Horticultural Department has put up extensive hot beds at the Farm, to be used for class room instruction, and also for raising plants to be used in department work during the coming season.

VISITORS AT FARM.

Mr. John Okie of Phila., Mr. A. B. Cox, Yale '92, and wealthy horsemen of Paoli were visitors at the Farm last week. Mr. Cox came to consult Prof. Grantham in regard to a system of rotation to be used on his horse-breeding farm.

PRACTICAL WORK FOR STUDENTS.

Mr. A. J. Mearns, '15, is spending the Easter vacation in the employ of the Delaware Apple Co. at Bridgeville.

F. D. Gibney, '15, is employed in the Dairy at the College Farm. Mr. A. F. Walker, '13, is at Greenville, Del., pruning the apple orchard of Mr. Henry B. Thompson, one of the Delaware College Trustees.

John Edgar, '15, is assisting with the work of spraying, pruning and preparing for the horticultural season at the College Farm.

SALE OF LIVE STOCK.

The College Farm has sold to Mr. J. W. Scott of Diamond Hill farm, near Newark, a pair of Angus cattle. One, a bull calf, ten and one-half months old, tipped the scales at over 250 pounds and is an extra fine specimen of the breed.

The Farm shipped yesterday a pair of large, registered brood sows, to W. W. Stewart, Library, Pa., and has recently sold to Senator David of Townsend, a very promising bull calf. The Percheron stallion, David O'D., raised on the College Farm, has been shipped to O. N. Wilson, a large breeder and importer in western Pennsylvania.

The Farm shipped last week an unusually attractive pair of Jersey calves to Mr. I. J. Morgan, Bridgeville. The dam of one of these calves is now under test for registry of merit and has made over 4000 pounds of milk and 250 pounds of butter in 4 months. She bids fair to increase this to 5000 pounds of milk and 300 pounds of butter in 5 months.

AN UNUSUAL RECORD ESTABLISHED.

Dr. Reed has completed, with two exceptions, a tuberculosis test of all cattle old enough to be tested, on the College Farm.

Over forty animals were injected with tuberculin and none reacted. When we realize that according to the statements of practical veterinarians in the State, from one-fourth to one-third of our cows are tubercular, the value of such a result in a herd the size of the one at the College Farm may be better understood.

Summer School At Delaware

Plans Discussed at Meeting To-day

The Committee on Instruction and Discipline of Delaware College held a meeting this morning to discuss the Summer School as provided for at the session of the General Assembly upon the recommendation of the State Board of Education and Board of Trustees of the College. A committee from the State Board was called to advise and offer suggestions leading to the execution of the work. Another meeting will probably be held in a short time when definite plans will be made and given to the public.

It is thought probable that the School will open the latter part of June and continue for five or six weeks.

A State officer in Dover in commenting on the School said he expected to see at least 200 teachers taking the work this summer.

Directly contrary to the impression given out in some quarters, the School will be under the supervision of the Board of Trustees of the College.

The plan and scope of the work is now being mapped out by the Committee of Instruction and Discipline with the State Board of Education acting by request in an advisory capacity.

Tidings From Suffrage State

Miss Grace M. Shepherd, Idaho's efficient and original-minded superintendent of public instruction, has lately been re-elected. Dr. A. E. Winslip, editor of the Idaho Journal of Education, writes of Idaho: "Progress is written all over the educational activities of the State and politics have been delightfully checked as a mischievous factor. Miss Shepherd, State Superintendent, has been an active element in the progress."

OBITUARY

WILLIAM R. WILSON.

William R. Wilson, Sr., aged 67 years, died at his home in Wilmington on Thursday, March 20th. Funeral services were held from the residence, 1722 W. 4th street, on Friday, Interment, Head of Cemetery.

Mon. Christiana C.

JOHN L. FRANK.

John L. Frank, aged 23 years, who had been ill with pneumonia for the last week, died at his home Chapel street, on Tuesday, March 25. Funeral services from the residence of his uncle, Pearson, Prospect Ave., on Thursday, at 2 o'clock. Interment in M. E. Cemetery.

MAGGIE H. REES.

Maggie H. Rees, aged 64 years, widow of William R. Rees, died at the home of her niece, Mrs. James Crow, on Main street, on Friday, March 21st, after a brief illness resulting from paralysis. Funeral services were held on Tuesday afternoon in the Welsh Tract Baptist Meeting House. Elder Benjamin Coulter of Philadelphia, assisted by Elder Eubanks, conducted the services. Interment in the adjoining Cemetery.

MARY L. SMITH.

Mary L. Smith, aged sixty years, wife of Hosen R. Smith, died last Saturday, March 22, in the New York City Hospital, where she had undergone an operation a few hours previous to her death. The body was brought to her home on Sunday.

Funeral services were held from the late residence this afternoon at 2 o'clock. Interment in Head of Christiana Cemetery. A husband and one son, Prof. Edward Laurence Smith, survive.

The deceased spent her entire life in this locality, where is widely known and has many friends.

The body of the two year old daughter of Lewis and Martha Hardman McBride was brought to Newark this morning, from the home of her parents, Steubenville, Ohio. Funeral services from the residence of her grandfather, Mr. S. B. Herdman, tomorrow afternoon, March 27, at 3.30. Interment in M. E. Cemetery.

Naturalistic Styles of Gardening

By PROFESSOR C. A. McCUE

DELAWARE COLLEGE EXPERIMENT STATION

The aim in the naturalistic style of landscape gardening is to interpret nature and to place nature's most beautiful pictures in our parks and door yards.

In this style the picture of scenery make the worth of the garden park. The artist in natural gardening works not only with trees, flowers, and grass but with colors and with light and shade, with the sky line, the foreground and background, and with beauty of line and form. This material gives him an ample field for display of imagination, originality and executive skill in creating the endless combinations of which the art admits. A genuine work of naturalistic landscape gardening possesses something more than perfection of lines, colors and details. Its essential character is an inner meaning to which it must give expression.

In poetry rhyme and rhythm do not make immortal verse. In painting color and form do not make the masterpiece. In landscape art there must be a subtle inner meaning that expresses tranquility, gaiety, dignity, somberness or sublimity.

Simplicity, fitness and utility are cardinal virtues in this style of gardening. Downing says, in his Rural Essays, "In the natural garden one sees and feels everywhere the spirit of nature, only softened and refined by art. In the formal and in the Italian garden one sees and feels only the effect of art slightly assisted by Nature."

The natural style of gardening is in a manner Anglo-Saxon, as it is most practiced by the English, American and Germans. However, it is growing in favor in France. It is liked by the English not alone because the landscape gardeners of their country prefer it to other styles; but because English speaking people have a greater real attachment to nature than to art. They prefer noble trees, groups of shrubs, flowers and green lawns, to carpet beds, statues, clipped trees and other features of the formal styles.

There are two styles of naturalistic gardens. These two styles are

perfectly distinct in themselves yet are capable of being combined with each other. These two styles are the beautiful and the picturesque.

The beautiful style of landscape is characterized by simple flowing lines in all its elements. A beautiful landscape is produced by shaping the ground easy undulations; by planting trees with smooth stems and full rounded heads of luxuriant foliage; and by having all alike walks and roads possessed of easy flowing curves. Water is an important element in the beautiful landscape and should reflect the scenery about its shores. The shores of the water ways or bodies of water should swell in and out with curved lines. The banks should be rolling and covered with green grass and shrubs. The upkeep of this style of gardening must be well done, the grass should be kept closely mown and velvety. Walks and drives should be clearly outlined and kept firm and clean.

In this style no tree or shrub should be over conspicuous in form or color.

THE PICTURESQUE STYLE

A picturesque landscape is characterized by broken, irregular and striking lines and forms. It has abrupt rocky or hilly surfaces. The trees may be old, gnarled and rugged, they may have rough stems, irregular tops and broken branches, and conifers may predominate. The groups of trees and trees and shrubs take various forms. Thickets of underbrush may be allowed, rocks covered with climbing vines, banks of ferns, vines clinging to trees are all good elements. Water should be running rapidly between rock and irregular banks. Cascades, gorges and canyons are valuable features. Walks and roads may be abrupt in their windings, untrue to line and varying suddenly as to grade. Variety and irregularity stand out prominently in the picturesque.

The elements of all landscape combinations are color, unity, variety, harmony, expression, appropriateness, utility and finish. These will be taken up in future articles.

Is Your Plumbing Up-to-Date?

Does your plumbing equipment represent your good taste and your prudence as thoroughly as your other household furnishings?

Why not? The sanitary equipment of your house is a matter of the greatest importance. The health of your family demands that your plumbing fixtures should be clean and sanitary. The cost of modern equipment is quickly repaid in the increased comfort afforded, and in the freedom from repairs and trouble.

We install 'Standard' guaranteed fixtures, unequalled for beauty of design and for day-in and day-out wearing quality.

Let us quote you prices on new equipment.

SEWER BILL

(continued from page 2)

as the said Council may deem necessary to carry out the purposes of this Act, provided that the aggregate of such promissory notes does not exceed the sum of Fifty Thousand Dollars (\$50,000.00). The promissory notes so issued shall bear upon their face the title Newark Sewer Notes and shall bear such interest, not exceeding six per centum, per annum, as the said Council shall, by resolution, determine, such interest to be payable at such time or times as the said Council shall determine, as aforesaid, said promissory notes shall be signed by the President of the Council of "the Council of Newark," and by the Treasurer of "the Council of Newark," and shall have affixed thereto the corporate seal of "the Council of Newark." All promissory notes thus issued shall be due and payable at any Bank or Trust Company in the Town of Newark, at such time or times as the said Council of "the Council of Newark" shall, by resolution, determine. The said Council of "the Council of Newark" shall have, and it is hereby given full power and authority to issue and to sell, negotiate, or discount said promissory notes, with the full power and authority to renew, re-issue, readjust and continue said promissory notes, or any of them, for such time and upon such terms as it may, by resolution, determine. It being intended hereby to give and grant to the said Council of "the Council of Newark" full power and authority to do any and all things necessary or required to make and constitute said promissory notes, in the form, for the amounts and for the time the same are issued, re-issued, negotiated, discounted, renewed or continued by the said Council of "the Council of Newark" under the provisions of this Act, in every respect, good and valid obligations of "the Council of Newark" subject only to the lien of such bonds as may have been heretofore issued by the said "the Council of Newark" as hereinafter provided.

Section 23. The proceeds from the sale of such promissory notes shall be deposited by the Treasurer of "the Council of Newark" in such banking institution as the Council of "the Council of Newark" may prescribe, and shall be known as the "Sewer Fund," and shall be kept separate and distinct from all other monies or accounts kept by said Treasurer. Such monies shall be used and applied exclusively by the Sewer Commission to meet the cost of installing, from time to time, the sewers and disposal works authorized by this Act, and the notes issued under the authority of this Act are hereby declared to be a lien upon the taxable property situated within the corporate limits of the Town of Newark, subject only to the lien of any other issue of bonds heretofore issued and made by "the Council of Newark."

Section 24. All funds received by the Treasurer of "the Council of Newark" in payment for sewer assessments levied under the authority of this Act, shall be by him used in paying off and redeeming the notes issued under the provisions of this Act, and for paying the interest thereon, and should sufficient funds not be in his hands at any period to redeem said notes when they become due, or to pay the interest accrued thereon, the Council of "the Council of Newark" shall, and it is hereby directed to levy upon and collect by special taxation from all taxable property and persons within the Town of Newark, such sums as may be necessary, in addition to the sums in the hands of the Treasurer, and received from the payment of assessments, as aforesaid, to redeem and pay said notes, and to pay the interest thereon. Said special taxes to be levied and collected as other taxes are now by law levied and collected for town purposes, and all sums thus received are hereby inviolably dedicated to the payment of said notes, and the interest thereon.

Section 25. Should the majority of the persons owning property abutting upon any street or streets, highway or highways, lane or lanes, alley or alleys, in the Town of Newark, aforesaid, in which it is proposed to build any sewer or sewers and the disposal works connected therewith, in accordance with the plans, specifications and estimates presented, from time to time, to the Council of "the Council of Newark" by the Sewer Commission, and exhibited, as aforesaid, be opposed to the construction of said sewer or sewers and disposal works as evidenced by their votes cast at an election held under the provisions of

Make all checks to THE NEWARK POST.
Telephone, Delaware and Atlantic 93.

We want and invite communication, but they must be signed by the writer's name—not for publication, but for our information and protection.

Entered as second-class matter at Newark, Del., under Act of March 3, 1879.
The subscription price of this paper is \$1.00 per year in advance.

MARCH 26, 1913

SEWER BILL

In order that Newark may have opportunity to know the provisions of the "Sewer Bill," we are releasing our space and printing the Act, in full, as passed by the General Assembly.

No more important question could be presented to the citizens of Newark than this piece of legislation. Everyone should read it carefully and give it merited and serious consideration.

We hope to make arrangements for the publication of a Brief of the Bill next week, which will give a concise explanation of the several sections without the legal technical language which is more or less confusing to many readers.

That Newark needs a sewer, is recognized by all worthy of citizenship and consideration. It is hoped that every resident in this town will do his best toward the execution of this personal and civic duty.

A meeting of the Sewer Commission has been called for tomorrow night and the plan of action outlined. Mr. Hatton, Sewer Engineer of Wilmington, will be present to advise with the Commission. The bill is given in another Column in full as passed by the General Assembly.

Easter At Otts Chapel

Ott's chapel has kept open all winter for the first time in its history and Mr. W. B. Walton, the superintendent, reports that the last year has been the most prosperous it has ever had had, in finances, attendance and results. Repairs are now going on, including painting inside and out and new roof covering and the three oil paintings received during the year will add much to the attractiveness of the place. Easter Sunday Mr. W. H. Conner delivered the principal address, giving an interesting talk. Mr. Walton, Mr. John Frazer and Mr. O. R. Washburn also spoke. The service included speaking by many of the children and a musical program of much excellence.

Returned From The West

Mr. R. E. Cissel of Montana has accepted a position as clerk in the H. M. Campbell store. Mr. Cissel, formerly of Sandy Spring, Md., has spent the past four years in Montana on a ranch. He returned East about three weeks ago with a large store of experiences of the "wild and woolly West."

Will Visit Niagara Falls

Cards have been received from Charles L. Colmery who, accompanied by Mrs. Colmery, went as Newark delegate to the convention of Woodmen of the World held in Parkersburg, W. Va., last week. From there they went to Columbus, Ohio, leaving that city on Monday for Niagara Falls. They expect to return home the latter part of the week.

Changed Management

At Opera House

R. Stiller of Philadelphia has assumed the management of Newark Opera House and will continue the moving pictures and Vaudeville entertainments. Mr. Stiller, in asking for the patronage extended to Mr. James Henry, promises to give the people of Newark clean and wholesome entertainment. The program will be the same as heretofore, moving pictures every evening with Vaudeville on Wednesday and Saturday.

Mr. Stiller will reside in Newark and devote his whole time to the work.

OUR FRIENDS THE BIRDS

The Boy Scouts under the Scout Master, Prof. T. E. Mauns, made their first appearance as an organization last Thursday evening, when the company attended the illustrated lecture, "Our Bird Neighbors," given in the Oratory by Dr. W. J. Rowan.

The interesting talk was based on close personal observation covering a period of ten years. The birds of the locality of which the speaker stated there are one hundred fifty different kinds were discussed under five heads: insectivorous, seed-eating, fish-eating, flesh-eating and game.

Beautiful colored slides, showing the gay plumage, the nests and the eggs of the different birds added interest to the talk.

Dr. Rowan cleared the reputation of several of the much maligned birds (such as the cat-bird) and urged the present early Springtime as the best time for the cultivation of an acquaintance with our interesting feathered friends.

The first slide shown was of the distinctly American bird—the robin, in which the speaker stated, subsists on a diet averaging sixty-eight worms daily. Another favorite was that of the wood-thrush whose notes are considered by most bird lovers the clearest and best. The speaker, however, favored the orchard oriole and song sparrow rather than the thrush. Grateful mention was made of the part played in the destruction of caterpillars by the yellow-billed cuckoo; the prevention of the spreading of the troublesome thistle by goldfinches and the saving of the cotton plants by the martins of the South.

The speaker had found a number of the more unusual birds in the fine old trees on the grounds adjoining the Welsh Tract Meeting House, and along the banks of the near-by stream.

In Educational Circles

Superintendent Joyner of North Carolina in a strong plea for better educational facilities, urges, among other things, that women be made eligible to school-boards in order that the schools may have the benefit of their peculiar fitness. He declares "By nature and temperament and because of their strategic position in the home and in the training of childhood, women are vitally concerned and deeply interested in the work of the schools."

The accomplishments of Ella Flagg Young, in her position as superintendent of the Schools of Chicago, shows that woman's sphere of usefulness along educational lines is practically unlimited. Whether the problems be those of the single grade school-room or the complex ones of a great educational system; whether she serve within the limits of the schoolroom itself, or as an influence in the formulating of the policy of the school, the workers have profited by the association and acknowledged the ability back of the effort.

AROUND HOCKESSIN

Mr. and Mrs. Alfred Walker entertained a number of their friends last Saturday evening at their home near Hockessin. The rooms were tastefully decorated with greens and potted plants, suggestive of the St. Patrick season. Among especially attractive features of the decorations was a miniature "Blarney Castle," a large harp in front of the fireplace, and a reproduction of the much sought and ever popular "Blarney stone." Many of the guests came dressed in styles representative of the "ould sod," one lady wearing a shawl brought from Ireland years ago. "Five Hundred" was the game of the evening, the guests filling nine tables. The first gentleman's prize, a picture, Irish scene, was won by Mr. Norman Nivin; the first lady's prize, an Irish crocheted collar, by Miss Sarah Eastburn. The consolation prize, a snake, went to Mrs. John Walker.

Harmony Grange was well-attended last Monday evening. Following the regular business an interesting literary program was rendered as follows: music, by Harvey Bracken; Current Events, Frank Klair; Discussion: Does the housewife in these days of many inventions get any more pleasure from her work than in the days of yore? Next week the program will be in charge of Miss Edith Klair, the Ceres of the Grange.

The Hockessin branch of the Delaware Hospital auxiliary held a bake in the school-house last Saturday afternoon. Thirty-seven dollars was cleared by the sale.

North Star School, under the direction of the teacher, Miss Edna Staats, is planning a program for Arbor Day, on Friday, March 28th.

An Easter holiday including Friday and Monday, was given the pupils and teachers of Hockessin School.

PEOPLES' COLUMN

Dr. Rowan's Lecture Appreciated

To the Editor of the Newark Post:

Permit me as a lover of birds to express my pleasure at the long step in the right direction which was taken on Wednesday evening last when Dr. Rowan gave his lecture on "Our Bird Neighbors." The lecturer had evidently given much time and thought to the personal observations which formed the basis of his lecture. It is this personal contact with bird life which vitalizes the subject and awakens an interest in the aesthetic and economic value of birds.

The conservation of our natural resources has become a national problem but not until the American citizen appreciates the enormous economic value of bird life will the slaughter of our feathered neighbors cease. How many of our citizens realize that the killing of our birds means—

A great increase in the hordes of destructive insects;

A corresponding decrease in agricultural products on which these insects feed;

And an increased cost of living to all consumers of these products.

It would enhance our appreciation of our feathered friends if we considered the value of the few species of insect-feeding birds which destroy the codling moth and European apple pest. The loss from these insect pests alone amounts to \$8,250,000 annually for spraying and \$12,000,000 annually in shrinkage in value of the apple crop.

Statistics compiled by experts in the Department of Agriculture estimate the total loss due to the ravages of insect pests as \$420,100,000 annually. Surely the protection of bird life would be an economical means of saving our crops.

The presence of the Boy Scouts as a body in the audience indicates that the work has been begun at the right end of the line. As there is so much of interest and value in bird life it is to be hoped that the Boy Scouts will organize into societies for the study and protection of the birds in the vicinity of Newark.

A Visitor.

ADVERTISEMENT FOR FEDERAL BUILDING SITES

TREASURY DEPARTMENT
Office of the Secretary
Washington, D. C.

March 19, 1913.

Proposals are hereby solicited, to be opened in the Office of the Supervising Architect, Treasury Department, Washington, D. C., at 10 o'clock A. M. on April 1, 1913, for the sale or donation to the United States of a corner lot, centrally and conveniently located and suitable for a Federal building site at Newark, Delaware. The site must be approximately 16,600 square feet in area, and if the lot offered is rectangular, its minimum dimension must be not less than 115 feet.

Upon application the Postmaster will supply prospective bidders with a circular giving particulars as to requirements and instructions for preparation of bids and data to accompany same.

W. G. McAdoo, Secretary.

ARBOR AND BIRD DAY PROCLAMATION

After the mild winter which nature has bestowed on Mother Earth we can well appreciate the importance of the various trees and shrubs to forest forth their buds and blossoms. The time of Spring which has been in the air for some weeks will soon cause these buds and blossoms to awaken from their winter's nap and with their awakening will come the song of the birds moving North as harbingers of Spring.

In order that the people of this State may fully appreciate the benefits to be derived from these forefathers of Spring, and the attention which should be given to their care and protection, I, Charles M. Stille, Governor of the State of Delaware, do hereby designate

Friday, March 28, A. D. 1913

AS

ARBOR AND BIRD DAY

and do request that this day be observed by all public schools, Private Schools, Colleges and other Institutions, by the planting of trees, the adornment of the schools and public grounds and suitable exercises, having for their object the advancement of the study of arbor culture and the promotion of the spirit of protection to birds and trees.

IN TESTIMONY WHEREOF, I, Charles M. Stille, Governor of the State of Delaware, have hereunto set my hand and caused the Great Seal of the State to be hereunto affixed, at Dover, this fourteenth day of March, in the year of our Lord one thousand nine hundred and thirteen, and in the year of the Independence of the United States of America, the one hundred and thirty-seventh.

By the Governor:

CHARLES M. STILLE.

THOMAS W. MILLER, Secretary of State.

LARGE PUBLIC SALE

Horses and Cattle

AT MY LIVERY STABLE IN ELKTON, MD., ON

Saturday, March 29, '13
BEGINNING AT 10:30 RAIN OR SHINE.

I am going to sell a splendid lot of horses and cows.

50 Head of Horses

TEN HEAD of these are first-class road and general purpose horses; including a nicely mated pair of bays weighing about 1100. In this lot you can find some speed also.

FIFTEEN HEAD of the lot are heavy draft and business horses. Don't miss looking them over.

Balance are various kinds of horses—in which lot you can find something to meet your need; also a bunch of colts from 1 to 3 years old.

SEVERAL PAIRS OF MULES.

35 Head of Cattle

And I have some of the finest in this lot that have ever been offered to dairy men in this section. I mention FIFTEEN HEAD OF THOROUGHBRED YORK STATE HOLSTEINS, in fine condition, big, handsome cows and heavy milking strain, some fresh, others close springers. You see them and you will be glad to pay the money to get them.

EIGHT HEAD PARTICULARLY NICE YOUNG GUERNSEYS, sleek, strong, in fine condition; from 2 to 6 years old. Don't miss seeing this bunch. Also lot of grade cows, heifers, and bulls.

SEVERAL BROOD SOWS AND SHOATS.

CARRIAGES

Lot of new Top Buggies, Runabouts, Harness, Robes, Blankets, Whips, etc. This stuff is all new and will show for itself on day of sale.

ONE AUTOMOBILE

5 passenger, 30 horsepower E. M. F. car, in good condition; been run part of two seasons and has had excellent care. (Send me your check and I will sell it on straight commission at this sale. Make your entries promptly.)

This is going to be a big sale of good stuff—stuff that I want to please the public, and that I want the public to see. Come and look it over.

TERMS—Cash; but other terms may be arranged if desired.

THOMAS H. HARLAN.

Elkton, Del.
Manly Drennon, Clerk.

Estate of Edward Wilson, deceased. Notice is hereby given that Letters of Administration cum Testamento annexo upon the Estate of Edward Wilson, late of White Clay Creek Hundred, deceased, were duly granted unto Edward Clifford Wilson and Waldo C. Wilson on the 18th day of March, A. D. 1913 and all persons indebted to the said deceased are requested to make payment to the Administrators C. T. A. on or before the 18th day of March, A. D. 1914, or abide by the law in this behalf.

PERSONALS

Lieut. Charles Herman and family left on Friday for Baltimore, Md., where they were the guests of Lieut. Herman's mother, during the Easter holidays.

Miss Lena Evans left on Friday to spend Easter with relatives in Philadelphia.

Dr. and Mrs. Dare of Cresson, Pa., formerly residents of Evansville, were the guests of Mr. and W. H. Evans last week.

The three children of Mr. and Mrs. Coverdale and the youngest child of Mr. and Mrs. Lee Rose, were christened after the Easter services in St. Thomas' church by the pastor, Rev. H. Phelps, on Sunday.

Mr. and Mrs. George Kelly are receiving congratulations upon the birth of a son.

Mrs. Burnette of Dover is the guest of Mrs. Pilling Wright.

Miss Mary Harter is the guest of her cousin, Miss Eleanor Harter.

Miss Alice Evans, who is attending school at Northfield, Mass., is home for the Easter vacation.

Mr. and Mrs. Jos. Thomas, young son and Mrs. Thomas' mother, Mrs. Rebecca Crossan, visited the latter's sister, Mrs. Wilson T. Jones of Franklinville, N. J., on Sunday.

Miss Dorothy Mason of Germantown, Philadelphia, is the guest of Mr. and Mrs. Bradley of Chouteau street.

Miss Virginia Warren of Milford Cross Roads was the guest of Miss Elsie Davis on Friday and Saturday of last week.

Miss Lucy and Mr. Harry Null of Lake, Md., have been visiting their brother and sister, Mr. Horace Null and Mrs. Alfred Stiltz, Jr.

Miss Stella Trowbridge of Port Deposit attended the Firemen's Ball on Monday evening. While in Newark she was the guest of Mrs. William Gamble.

Hon. George Marshall, President pro tem of the Senate, was a visitor in Newark today.

Miss Marian Campbell is visiting friends in Denton, Md.

Mr. and Mrs. C. B. Evans spent Easter with friends in Brooklyn, N. Y.

Mrs. William Schofield of Pocomoke City, Md., is visiting at the home of J. Wilkins Cooch.

Mrs. E. S. Avis and Mrs. E. H. Cooper visited Newark friends on Saturday.

Miss Adelaide Vandergrift of Philadelphia spent the week-end with Mrs. L. B. Jacobs.

Mr. A. H. Raub and Ralph Gilliam of Philadelphia were recent guests of Miss Jennie Raub.

Misses Helena M. Mercer and Eleanor D. Mercer of Philadelphia were the guests of Prof. and Mrs. Charles L. Penny over Easter.

Miss Helen Steele of the West Chester Normal spent the Easter holidays at her home in Newark.

Misses Helen Fader has resumed her studies in the Teachers' Training School, Baltimore Md., after the Easter holiday spent in Newark.

Mr. and Mrs. Earl Newnam of Norristown, Pa., were recent guests of the latter's parents, Mr. and Mrs. L. K. Bowen.

Professor A. V. Vaughn of the Historical Department, Delaware College, has accepted the invitation of Archdeacon Hall and will lecture in St. John's Church, Wilmington, next Friday evening, March 28th, the subject, "Evolution of the State of Delaware."

PLEASANT HILL

Mr. Harley A. Mousley and family were Sunday guests of Mr. and Mrs. Harvey Davis of Ebenezer.

Miss Helen Whiteman, a student of Beechwood Seminary, Jenkintown, Pa., is spending her spring vacation with her parents, Mr. and Mrs. F. V. Whiteman.

Mr. and Mrs. F. H. Buckingham and son Clifford and Miss Grace Bailey were Sunday visitors at the home of Mr. and Mrs. Harry Crossan of Hookessin.

Mr. D. Taylor Eastburn of Mt. Cuba, spent the week-end with Earnest Lamborn.

Mr. and Mrs. J. Thomas Moore entertained on Sunday Mr. and Mrs. David Eastburn and son Rodney of Red Mills.

Mr. Benjamin Whiteman and family of Washington, D. C. have been visiting relatives in this vicinity.

Mr. H. A. Mousley and family were visitors at the home of Rev. and Mrs. J. H. Mitchell of Newport on Monday. Mr. and Mrs. Mitchell left on Tuesday for Salt Lake City, Utah, where he will become pastor of Cliff church.

Mr. and Mrs. Robert Elliott and son, D. James, spent Sunday with her mother, Mrs. Elizabeth Jaquette of Milford Cross Roads.

Mr. and Mrs. George R. Dempsey and son George recently visited Mr. Harvey Davis and family of Ebenezer.

Messrs. Harold and Herman Little of Fairview and Mr. Irvin Whiteman of Chestnut Hill were Sunday visitors at the home of John Buckingham.

Rev. and Mrs. J. H. Geoghegan spent Monday with Mr. and Mrs. F. H. Buckingham. Mr. Geoghegan is now attending Wilmington M. E. Conference, at Crisfield, Md. He does not expect to return to Ebenezer.

KEMBLESVILLE

Wedding bells rang out in this vicinity on last Thursday when George N. McLeary and Pearl R. Crossan were united in marriage by Rev. A. C. F. Ottey.

Several from around town attended court in West Chester last week.

George W. Sloan and family will move on Thursday from Mercer's Mill to Fulton House, Lancaster Co.

Morris West died at the home of his brother, Dr. F. B. West, on Monday morning.

The weekly Prayer Meeting will meet with Mrs. Margaret Greenfield on Thursday evening.

Col. Roosevelt to Tell Life Story in North American

The North American will publish in weekly installments, beginning Sunday, March 30, a series of autobiographical articles by Theodore Roosevelt of intense human interest.

These articles will be not only of national importance, in their interpretation of a personality which during many years has attracted more widespread attention in newspapers and periodicals than any other of the present day.

The world knows Mr. Roosevelt chiefly as a statesman. Only a few know him as a private citizen, and many of the personal experiences that have helped to mold his remarkable career are known only to his close friends and coworkers.

These articles will be fully illustrated with portraits, facsimiles of various documents, pictures of buildings and localities and other appropriate matter.

In order not to be disappointed it is advisable that you place your order early in the week.

SEWER BILL

(continued from page 3)

this Act, the said Sewer Commission is hereby authorized and directed to cause to be prepared other plans, specifications and estimates for sewers and disposal works, which said new plans may or may not include the same streets, highways, lanes and alleys, or any of them, as any former plans, specifications and estimates, said new plans, specifications and estimates shall be presented by the said Sewer Commission to the said Council of "the Council of Newark," as required in the first instance and said Council shall take the same action in relation thereto as directed and required by the provisions of this Act, and the question of building said sewer or sewers and disposal works according to the new plans, specifications and estimates shall be submitted by the said Council of "the Council of Newark," as required in the first instance by the provisions of this Act, to the vote of the persons owning property abutting on the street or streets, highway or highways, lane or lanes, alley or alleys in which it is proposed by said new plans, specifications and estimates to build said sewer or sewers, and in all other respects qualified to vote at such election under the provisions of this Act, and this procedure may be continued from time to time until the First day of January, A. D. one thousand nine hundred and seventeen, as in this Act provided. At each succeeding election which the said Council of "the Council of Newark" is required to call and hold, under the provisions of this Act, said Council and the officers holding said election shall do and perform all of the things required of it or them, and shall have all of the powers and authority given to it or them by this Act, or by the Act entitled "An Act to re-incorporate the Town of Newark," being chapter 175, Volume 18, Laws of Delaware, and all Acts amendatory thereof and supplementary thereto.

Section 26. Wherever and whenever the system of sewers built under the authority of this Act is extended to any point within the limits of the Town of Newark, the property abutting upon that portion of the streets, highways, lanes or alleys in which such extensions are built, shall pay to the Treasurer of "the Council of Newark" the same rates per front foot of property abutting upon said extensions, as the Sewer Commission and the Council of "the Council of Newark" in joint session, decide to assess against the front foot of property abutting upon the streets, highways, lanes or alleys in which the system of sewers is first built, as described in Section 12 of this Act, that is, each front foot of property situated within the Town of Newark and having access to a sewer built under the provisions of this Act, shall be assessed alike, and the assessments therefor shall be made and collected, in all respects, as already provided for herein.

Section 27. The Council of "the Council of Newark" is hereby authorized and empowered to build sewers, through the agency of the Sewer Commission, if the same be in existence, and under its own direction if said Commission has ceased to exist, as provided for in this Act, in the roads or highways, lanes or alleys leading into, or within a distance of two miles from the limits of the Town of Newark, and to maintain the same, when a petition, signed by the owners of three-fourths of the property abutting on that portion of said public road, highway, lane or alley is presented to said Council, setting forth that the signers of said petition desire such sewer or sewers to be built, and agree to pay to said Council all the costs thereof, within such period as said Council may prescribe. Should said Council or Commission build such sewer or sewers as authorized in this section, and the signers to said petition fail to pay the sums fixed by the Council of "the Council of Newark" within the period prescribed, said Council is hereby authorized and empowered to proceed to collect such sums in the manner now prescribed by law for the collection of delinquent taxes for town purposes, within the Town of Newark, as herein and therein provided. After such sewer or sewers are built outside the limits of the Town of Newark, the Council thereof shall forever maintain the same, upon such terms as may be prescribed by said Council, and complied with by the owners of the properties abutting thereon, for which payments have been made for the construction thereof.

Section 28. The Sewer Commission shall prepare and present to the Council of "the Council of Newark" for its approval, rules and regulations governing the use of the system of sewers and disposal works authorized under this Act, and the making connections therewith, and after such rules and regulations are approved by said Council, they shall become a law in as full force as any other law or ordinance passed by said Council, and shall be subject to such amendment from time to time as said Council shall prescribe.

Section 29. The Sewer Commission created under the authority of this Act shall have charge of the construction and operation of all sewers and disposal works built during its existence, as fixed in this Act, and upon the termination of the life of such Commission the Council of "the Council of Newark" shall assume and have all the powers and duties herein granted to and imposed upon said Commission.

Section 30. Upon the written notice from the Board of Health of the Town of Newark of the existence of a nuisance detrimental to the public health of the inhabitants of said Town, and stating that such nuisance exists with the system of sewers built under this Act, the Council of "the Council of Newark" shall, and it is hereby directed to serve a written notice upon the owner of the property upon which such nuisance is alleged to exist, to connect such property with the system of sewers within thirty (30) days after the date of such notice. Should such property not be so connected within the period fixed in such notice, the owner thereof, upon conviction before the Aldermen of the Town of Newark, of his failure to obey the instructions of said Council as contained in such notice, be subject to a fine of not less than five (5) nor more than ten (10) dollars for each and every day beyond the expiration of the period named in such notice for connecting with the system of sewers which said connection remains unmade, and such nuisance is allowed to remain, said fine to be collected as other fines for offences against the laws and ordinances of the Town of Newark are now, by law, collected.

Section 31. Should the majority of the persons owning property abutting upon any street or streets, highway or highways, lane or lanes, alley or alleys in the Town of Newark, aforesaid, in which it is proposed to build any sewer or sewers, and the disposal works connected therewith, be opposed to the building of said sewer or sewers and disposal works, as evidenced by their votes cast at an election held under the provisions of this Act, the Council of "the Council of Newark" is hereby authorized and directed to pay all sums of money paid or contracted to be paid by the Sewer Commission in the preparation of the plans, specifications and estimates for such proposed sewer or sewers and disposal plant, out of any monies belonging to "the Council of Newark," or borrowed upon notes as herein provided.

Section 32. Nothing in this Act shall be taken or construed to prevent any member of the Sewer Commission hereby appointed or hereafter elected, from occupying the office of President of the Council of "the Council of Newark," or a member of said Council, or from being a candidate, at any election held in said Town, for and elected to the office of President of said Council, or a member thereof.

Section 33. All Acts, or parts of same, inconsistent herewith be, and the same are hereby repealed.

Section 34. This Act shall take effect from the date of its passage.

Protect The Little Birds

Farmers and fruit growers of the country are losing over \$1,000,000,000 a year by reason of the ravages of insects. Cotton growers are losing \$50,000,000 a year by reason of the ravages of the boll weevil. And all because the quail and prairie chicken, the natural enemies of that bug, are practically extinct.

Wheat and fruit growing regions are suffering because of the killing off of sap suckers, robins, bluejays, bluebirds, orioles, tanagers, martins, swallows, swifts, nighthawks, egrets, herons, bobolinks, gulls, kingfishers, and other birds which men love to kill under the lust for slaughter.

A quail killed in a potato field had in its crop the remains of 101 potato bugs. Another killed in Texas had in its crop the remains of 127 boll weevils. Another killed in a Kansas wheatfield had the remains of 1,200 chinch bugs.—Ex.

Give us to awake with smiles, give us to labour smiling. As the sun lightens the world, so let our loving kindness make bright this home of our habitation.

—R. L. Stevenson.

The small boy's comment: "Yes, I like her. She just goes over bumps as if her heart had rubber tires."

Want Ads for Farmers

Only a comparatively few readers of newspapers realize the benefit of the Want Ad Department. It is a cheap form of advertising odds and ends. For the farmer it is always a paying proposition. Suppose you have a cow, few pigs that you would be willing to sell. Put it in the Want Column and rest assured you will get the customers. Then again, a farmer often sees where he could handle a heifer or calf during the winter. With a little extra forage, he has on hand, he can by feeding it make a dollar or so without any extra work. But he has not the time to hunt them up. Run in an Ad something like this:

WANTED—Calves. Would buy 3 or 4 calves, if price is right.

You will get an answer. There isn't a farmer in this community but what could have an Ad in our Want Department at a profit to him.

Protect All Young Trees

We know that a rabbit is a very clean and dainty animal, and will not touch anything that smells strong or that is greasy, and for that reason blood and grease have been used for years as a means for the young fruit trees that have been set out. As, however, not all folks can get or care to use such material, especially as the smell of blood at its best is short in duration, we suggest that common dark colored axle grease be used, says Rural Life.

If one puts on a pair of cheap cotton gloves, such as the masons and carpenters use in winter, smearing them liberally in the palms of the hands with the axle grease, it is quickly applied to the young trees, when they are caught near the ground and, closely encircling them, rubbed upward. This puts a thin coat all over the trunk of the tree, that rain will wash off nor will the sun take away its color.

Cloves Main Source of Income

Three-fourths of the world's supply of cloves comes from the island of Zanzibar, a British protectorate, on the east coast of Africa. The government receives as a tax one half out of each five. As many as 100,000 bales have been produced in Zanzibar. The industry, which has long been the salvation of the little island, and its scant population, really had its beginning in 1860, when an Arab planted 1000 shrubs. Said Burghash, sultan of the island, saw the commercial possibilities of the plant and caused cloves to be set out by his people. A cyclone in 1872 devastated the island and uprooted the trees, and within a short time the sultan had been replaced. Since then the industry has grown steadily.—Ex.

Functions Of Tile Drains

Drainage is the limiting factor on many farms where the hand of man has not assisted nature in the removal of free soil water, says Farm Press. Nature has furnished us with a surface drainage system in our rivers, creeks and rivulets. In some places she has provided subterranean drainage in sand and gravel subsoil. It allowed to take its time, the water would follow small passage ways to some natural outlet, but the agriculturist cannot wait. Where the soil is underlaid by heavy clay, hardpan, sand or limestone, it is necessary for man to assist nature. He resorts to digging a drain from two and one-half to three feet deep, above the impervious stratum and places therein a tile drain. This rapidly carries away the free water from the soil or above the stratum of hardpan or rock.

The function of the drain is not so much to remove water as it passes down to the level of the water table. A good crop is dependent on a large root system. Since the water table of the plant will not develop a large root system, the shallow laying of a tile means a small crop. Deep

London in the latter part of the sixteenth century, having been brought in by the North German merchants, who managed the trade on the Baltic and in Russia.

"Dollar" appeared first in an English dictionary in 1746. It is a borrowed word, being the German "thaler." The coins issued by the mint in Joachimsthal were called "Joachimsthalers." When other mints were established, the "Joachimsthalers" was dropped, and the coins were called simply "thalers."

The dollar was adopted by Congress as the unit of our currency on Aug. 5, 1785. It was to contain 375.64 grains of pure silver; but when the mint was established in 1792, the requirement was reduced to 371.25 grains of pure silver. The coinage of dollars began in 1794.

Mistress Margaret Brent

of Maryland in 1647 was the first woman to demand "representation in the government." She was the heir of Lord Calvert, and as representation in legislature was based on property she demanded "peace and voice" in that body.

EVERY WOMAN

is cordially invited to come here and see the spring styles for her brother, father, husband and son. Her taste is of more value and her sense of style more discriminating.

How an Out-of-town Telephone Connection Is Made.

To make an out-of-town telephone call, tell the operator the name of the Exchange and the number you wish to speak to. She will immediately record this on a special ticket.

The operator using this ticket calls the distant point over trunking wires and secures the number you desire. The connection is then ready and the conversation begins.

Thus a vibrant wireway has been built up for your voice—two lines of copper wire constitute this circuit; for example, from Philadelphia to New York 180 miles of wire are placed at your exclusive service.

This simplified explanation gives an idea of the satisfactory "there-and-back" quality which enters into every out-of-town telephone message.

Next time you want to go out of town ask the operator for the rates and take a telephone trip.

BELL SYSTEM

The ROYAL STANDARD TYPEWRITER

—IS—
GUARANTEED!

THE NEW MODEL NO. 5 ROYAL comes to you with the unconditional guarantee that it will do highest grade work for a longer time at less upkeep expense than machines usually listed at 33-1-3 per cent. higher in price. THIS GUARANTEE IS ACTUALLY ATTACHED TO EVERY NEW MODEL ROYAL JUST AS YOU SEE IT IN THE ILLUSTRATION.

Back of this guarantee are the resources and experience of one of the largest and most important typewriter manufacturing concerns in the world. Do you think we would dare make such a guarantee if we did not know that the ROYAL has the simplicity and durability to outclass any other machine?

NEW MODEL

THE NEW NO. 5 ROYAL (latest model of any typewriter on the market) has two-color ribbon, tabulator, back-spacer and all the worth-while features of the highest priced machines—yet sells for only \$75.

LUMBER

THE lumber market is very firm and shipments slow. The large stock of frame lumber, siding, flooring, shingles, windows, doors &c., that we have been piling in all thru the winter, was bought most advantageously, in car lots, below present prices. Those who contemplate building are invited to look over our stock. We can promise low prices and prompt delivery.

Contrary to usual conditions at this time of the year, feed prices are lower. We are offering interesting prices on bran, flour middlings and other dairy feeds.

Anyone not used to CERESOTA FLOUR can take a 1-2 bbl. sack at \$2.88 try it and if not in every way satisfactory bring back what is left and get all your money back. This price is low.

Absent Ones

Absence makes the heart grow fonder but the memory of the absent one becomes vague and dim. You long to picture in your mind just how "HE" or "SHE" would look, but there's a mysterious something which makes the mental picture impossible.

But if you had a photograph before you, then you could recall the forgotten face, yes, even the kind acts, the gentle words.

Wouldn't that "ONE" so far away appreciate your photograph too?

Here and There

160 probationers were admitted to full membership in New Castle M. E. Church on Sunday evenings.

Elkton M. E. Sunday School raised during the Conference year \$217 for Home and \$28.37 for Foreign Missions, a total of \$245.58.

Rt. Rev. Bishop F. J. Kinsman on Saturday evening at Bishopstead ordained Rev. John Emory Parks to the priesthood as rector of St. James P. E. Church at Stanton and priest in charge of St. James', Newport, and St. Barnabas', Marshallton. Members of the three congregations attended the ceremony at which Rev. Charles H. Holmead of St. John's, Rev. W. C. Patterson, of Trinity Church, Wilmington, assisted the bishop, who also dedicated a new chalice and paten recently presented to St. James' Church, Stanton.

Spurred by the recent destructive fire residents of Rehoboth cast 2529 votes for the proposal that the town build water works, submitted at a special election held on Saturday. One property owner cast 11 negative votes, and there is general curiosity as to his identity.

Mr. Robert H. Baker of the Pivot Bridge section, and Miss Maggie Boudin McIntire of Glasgow, were married on March 15th by Rev. S. M. Perry of Elkton. They will reside on the farm in Elk Neck, recently purchased by W. A. Mitchell of Elkton, from George A. Howard.

The residence of David Bair on his farm near Lombard, Cecil county, was destroyed on Wednesday by fire caused by a faulty fuse. There was insurance of \$1750 on the dwelling and contents.

Thomas Reason, colored, while chopping trees near Glasgow on Saturday, was knocked down by one of them, which he failed to avoid as it fell, and his skull was fractured.

William T. Rothwell of the Newark section, has purchased the Alfrey place of 32 acres, near Fair Hill, for \$2500.

Albert Janney has purchased from Josephine and J. Harvey Sentman, their interest in a 74 acre

farm near Fair Hill, for \$2250.

William D. Bennett, a wellknown Elktonian, long engaged in the meat, provision and grocery business with his step-father, Victor R. Bennett, died of heart trouble at his mother's home on West Main street, aged 52 years. He was unmarried.

Cecil county's share of the quarterly distribution of the State School Fund made last week, is \$5,437.98 from the school tax, \$720.49, from the free book fund and \$1626 from the fund for support of approved high schools.

The First Infantry Orchestra of Wilmington, was in attendance at Easter dances given by young men of Elkton in Mechanics' Hall on Monday evening and by young men of Middletown in the Opera House yesterday evening.

George Hewitt, said to hail from Delaware, was arrested while boarding a train for Baltimore at Elkton station, on Thursday night, on the charge of forging the name of George Whiteoak of Chesapeake City, on a check which he had cashed. He is also wanted, it is said, on a like charge in Harford county.

Fire of unknown origin destroyed the dwelling occupied by John Jones, on the farm of James T. Shallcross in the Macdonough section, near Middletown, along with the household goods. There was insurance of \$1200 on the house but the policy for \$2000 on its contents had recently expired.

Milford is about to call a halt to ordinance upon the use of "cut-outs" and other noise nuisances on motor cars within its limits.

Joseph H. K. Baines and John Elkington, one day last week shot the first snipe of the season at New Castle, along with seven wild ducks.

The New Castle Trust Company bid par for the \$10,000 worth of bonds, the first ever offered by that city. The bonds bear 5 per cent interest and are to be paid within eleven years. Two of \$500 each are to be cancelled every year.

Jefferson B. Fourd and J. Frank Briggs headed a delegation of Middletown Democrats who visited Wilmington last week to urge upon Senator Willard Saulsbury the ap-

pointment of William F. Shallcross as postmaster for that town. The office is in charge of the executor of the late John A. Jolls.

Senator Saulsbury has secured the appointment as an assistant sergeant-at-arms of the Senate at Washington of Joseph E. O'Toole of Wilmington, who cast his first vote last November and organized the Wilson First voters' Club in that city. He was a former newspaper and later became a stenographer for the P. B. & W. R. R.

The judges of the Cecil Circuit Court have refused to allow the claim of James M. Munroe and John S. Strahorn for \$10,000 counsel fees for securing a distribution of the large estate of the late Geo. P. Whitaker of Principe. The Court held that only the heirs of Mrs. Caroline Updegraff, a granddaughter of Mr. Whitaker, who sued for the distribution but died before it was decreed, were liable for the fees of her counsel, who sought to secure them from the whole estate distributed.

Mrs. Lottie Settle has sold her general store and other property at Providence, near Fair Hill, to William Swisher of Colorado.

The Spring meeting of the Presbytery of New Castle will be held in the Elkton church, April 15-16. The fire company at Fort duPont on Friday afternoon, with water from the canal checked a blaze on the marsh at Delaware City, which was threatening the home of James E. Griffenberg and Hendrickson's Hall.

Rummaging in the garret at their home at Nutter's near Seaford, one day last week, two children of Edwin Lowe, a boy and a girl, aged 5 and 3 years, found an old pistol which unfortunately was loaded. The boy snapped the weapon, sending a bullet into his sister's head, which caused her death within a few hours.

The high price of their hides, 75 cents each for good ones, caused wholesale killing of muskrats on the Delaware marshes, and it is feared that the animals will soon become extinct.

Among bills passed by the Legislature at Dover on Friday was one

offered by Mr. Bradford, providing that saloons shall open at 6 a. m. instead of 5 a. m. as hitherto, and close at midnight instead of 11 p. m.

Fishermen along the lower Delaware Bay Shore made catches of shad early last week equal to those at the height of the former seasons. Milford was overstocked, fine roes bringing but 35 cents and bucks much less.

Joseph C. Parker, long engaged in the harness business in Middletown and later in the making of fibre in New Castle, died at Delaware Hospital on Saturday, after an operation for cancer of the stomach, aged 60 years. His wife, two sons and two married daughters survive him.

The United Gas Improvement Company of Philadelphia, is reported as about to extend its operations to most of the larger towns on the Peninsula. The company, it is said, has several right of way men at work in Sussex County, seeking routes for pipe lines. The average price of gas at Delaware points where plants are in service is \$1.50 per thousand feet, which would justify the big concern's entering the field with prospects of profit.

Mr. George W. McNeary of Kembleville, and Miss Pearl R. Crossan of Landenberg, were married on Thursday at the home of the bride by Rev. Mr. Otis of Kembleville. After a reception, the couple took a wedding trip to Atlantic City. They will be at home at Kembleville after April 1.
