- Large capacity well (more than 300 gpm)
- Well with log
- Abandoned well
- Test well
- Well with chemical analysis
- Irrigation pond
- Sand or gravel exposure

Number by each well or pond indicates its sequence in the lettered quadrangle. Each lettered quadrangle is subdivided into 25 parts as numbered below. Wells are numbered consecutively as scheduled in each division.

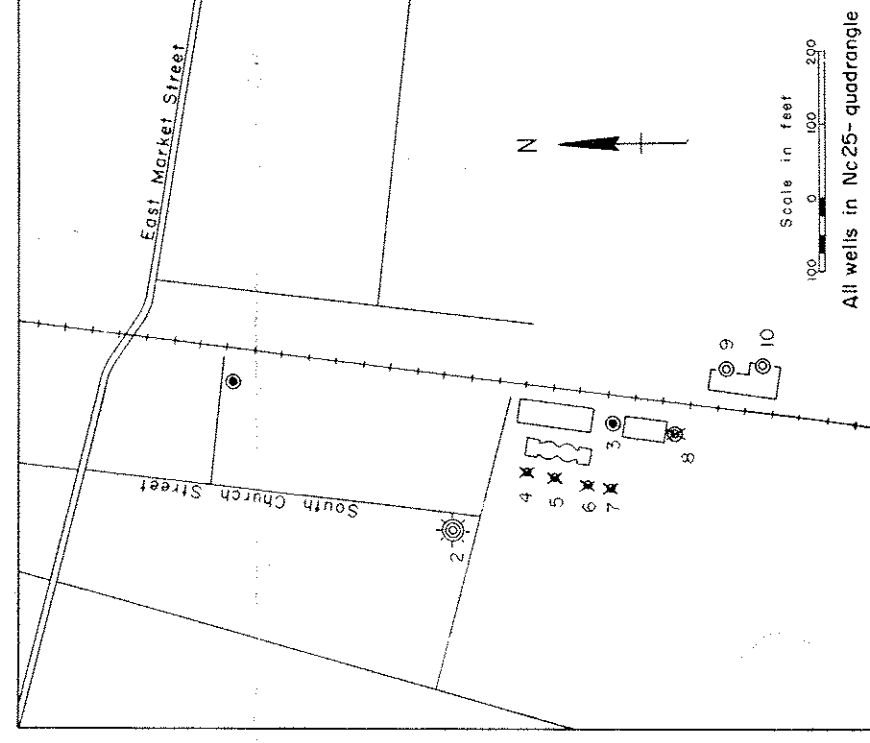

11	12	13	14	15
21	22	23	24	25
31	32	33	34	35
41	42	43	44	45
51	52	53	54	55

Capital letter by each gravel or sand pit indicates the pit sequence alphabetically in the lettered quadrangle.
