VULCANIZED FIBRE CO.,

SOLE MANUFACTURERS OF

HARD AND FLEXIBLE VULCANIZED FIBRE,

Tenth and Walnut Sts., Wilmington, Del.

The remarkable substance manufactured in all its various forms by this company is made in two varieties, known as Hard and Flexible Vulcanized Fibre, and in an endless diversity of forms and shapes. Hard Vulcanized Fibre occupies an intermediate place between hard wood and the softer metals in hardness, density, and lustre. It has a specific gravity of about 1.3; it is one of the best known non-conductors of heat and electricity. This quality renders it exceedingly valuable for electrical purposes, for which it is being largely used, especially for Electric Light machines. Its admirable anti-friction qualities render it valuable for bearings, slides, gibs, etc. It is also slightly elastic under all conditions, which gives it great value for many purposes where hard rubber has heretofore been used, such as packing, nut-locks, track-bolts, washers, shoe tips, etc.

Flexible Vulcanized Fibre closely resembles the best quality of sole leather in appearance, and is largely used as a substitute for it in mechanical applications. It can be made of any reasonable and of uniform thickness, which gives it a very decided advantage over leather in economy, by lessening the waste caused by uneven thickness, a serious cause of loss wherever leather is used. Flexible Vulcanized Fibre is used for many of the purposes for which leather has heretofore been exclusively applied; being unaffected by heat or oil, it is peculiarly adapted for carriage washers, car box washers, compression cock washers, packing, gaskets, and the thousands of uses in connection with the mechanic arts. Both Hard and Flexible Vulcanized Fibre are insoluble in all known solvents.

Vulcanized Fibre has also been most successfully used in the making of roving cans, cop boxes, shuttles, spools, etc., for cotton and woolen mills. Trunks, valises, etc., have also been made from it. Its applications are continually increasing, and are destined to become as general as those of any of the great staples of the world.

BRANCH OFFICE
Continental Insurance Company
 OF NEW YORK.
J. D. CANNING, Manager.

Statement, January 1st, 1883.

Capital paid in in cash,	\$1,000,000 00
Reserve for re-insurance of outstanding risks, . . .	1,524,123 54
Reserve, ample for all other claims,	368,545 27
Net surplus,	1,557,865 69

Total Cash Assets, \$4,450,534 50

This Company conducts its business under the restrictions of the New York Safety Fund Law. The two Safety Funds now (January 15) amount to \$1,200,000.

There are four notable and important items in the Company's statement; they are:

A Cash Capital of One Million Dollars.

A Net Surplus of over One and a half Million Dollars.

A Reserve for Re-insurance of over One and a half Million Dollars.

Net Cash Assets of over Four Million Dollars.

These elements of strength and safety should commend the Company to all having property to insure.

THE PAST RECORD OF THE COMPANY

is a guaranty of its conduct in the future. It paid over one million seven hundred and fifty thousand dollars in the great Chicago fire, and over half a million in the Boston fire, when over one hundred Companies failed, and is *stronger now than then.*

IT CONDUCTS ITS BUSINESS UNDER THE SAFETY FUND LAW OF THE STATE OF NEW YORK,

which will prevent the failure of the Company by any fire, however large. Only seven Companies have so far been found willing to submit to the restrictions of this law, and of these the Continental was the first and largest. It has already OVER ONE MILLION OF DOLLARS IN THE TWO SAFETY FUNDS. This law restricts the dividends of the Company to its stockholders to seven per cent. per annum on its capital and safety funds in order that all of the profits of the business and a large portion of its income from the interest on its investments may be accumulated for the greater security of those insured. A Company doing business under this law cannot go into the hands of a Receiver in Bankruptcy, a very important safeguard. These facts commend this Company strongly to Trustees, Guardians, Mortgagees, Executors and Administrators of Estates, Savings Banks, Life Insurance Companies, and to all having property to insure and who desire a Company which cannot fail.

Surveys made, diagrams and forms furnished, and insurance to any amount placed and taken charge of without additional cost.

Becky Brand is our own Brand. Free from all deleterious substances. Seventh and Orange.

Chapman has Finzer's Old Honesty. A watch in every box. Seventh and Orange.

Pansy Cigars are put up in our factory in Pennsylvania, and sold at Seventh and Orange.

The well-known and popular Tobacconist, now located Seventh and Orange, formerly Fourth and Shipley.

Chapman is considered by the masses to be the tobacco man of the State.

No two prices at the Wilmington Wholesale and Retail Tobacco House, Seventh and Orange.

The young and old, rich and poor, all smoke Chapman's Cigars. Seventh and Orange.

Our tobacco wagon delivers goods to your door daily. Chapman, Seventh and Orange.

Polite and efficient clerks are always in attendance at the great Tobacco Mart.
