Names and Locations of Streets of Wilmington.

The city of Wilmington was originally laid out with reference to the two rivers (the Brandywine and Christiana) that flowed along the northern and southern borders, and marked its boundaries in those directions. Since then the channels of its population have widened and overflowed, and the limits of the city have been greatly extended in every direction. The Highlands, Henry Clay, East Lake and other suburbs have been added, and the DuPont's Banks and Rockland are but an outpost of our city, and should be reckoned as a part of it in every estimation of our population and resources.

We expect Wilmington to go increasing in size, as well as in years, growing and expanding until her present garments shall be entirely too straight for her, or shall appear too shabby and mean for her increased wealth and enlarged and greatly beautified proportions.

The streets east of Market, and parallel with it, taken as they numbered, are:

King, 100.	Poplar, 400.	Spruce, 700.	Buttonwood, 1000.
French, 200.	Lombard, 500.	Church, 800.	Heald, 1100.
Walnut, 300.	Pine, 600.	Locust, 900.	Claymont, 1200.

The remainder of the streets on the east are not named, but would range, if numbered, as high as 3000 or 3100.

West of Market street, and parallel with it north of Tenth street, are numbered:

Orange, 100	Tatnall, 200.	West, 400.	Washington, 500.
		Jefferson, 600.	

West of Market street and parallel with it south of Tenth street are numbered:

Shipley, 100.	Monroe, 800.	Rodney, 1500.	Bayard, 2200.
Orange, 200.	Adams, 900.	Clayton, 1600.	Woodlawn, 2300.
Tatnall, 300.	Jackson, 1000.	DuPont, 1700.	Rodman, 2400.
West, 400.	Van Buren, 1100.	Scott, 1800.	Hawley, 2500.
Washington, 500.	Harrison, 1200.	Lincoln, 1900.	Webb, 2600.
Jefferson, 600.	Franklin, 1300.	Union, 2000.	Greenhill, 2700.
Madison, 700.	Broome, 1400.	Grant, 2100.	Ford, 2800.
	Gray, 2900.	Cleveland, 3000.	

Beginning at the Christiana bridge, at the foot of Market street, the streets that are at right angles to Market street are Water, Front, and the numerals to Thirty-sixth street, the northern boundary of the city; for example: Water, 1; Front, 100; Second, 200; Third, 300, etc.

On the south side of Market street bridge the streets running east and west, parallel with Front street, are Lobdell, A, B, C, D, E and F, and follow in order, beginning with Lobdell street. The numbered streets that intersect Market street at right angles extend entirely across the city.

In addition to these we have Delaware avenue, extending from Tatnall street west to Rockford Park, and in the northwestern part of the city, and parallel with Delaware avenue, we have Gilpin, Shallicross and Lovering avenues and Wawaset street. They extend from Adams street west to the park.

In the southwestern part of the city, below Front and parallel with it, we have Chestnut, Elm, Linden, Maple, Sycamore, Beech, Oak, Cedar, Banning and Tunnell streets. All of these extend from Maryland avenue west to Union street.

The above are the principal streets of the city. There are others of more or less extent and importance, all of which are given and briefly described in the "Alphabetical List."

The numbers of all streets running north and south, or east and west, increase by hundreds, at their intersection with all principal streets, whether the number of houses make a full hundred or not.

The short streets have hundreds corresponding with the main streets with which they are parallel, and begin to number from the intersecting street, having the lowest number or hundred.

The streets at right angles with Market street number each way from it, whether they intersect it or not; and those intersecting it are designated "east" and "west" to denote the direction of a number or place from Market street.

The numbers of Market street, and all streets parallel with it above Front, increase towards the north; below Front they increase toward the south. The number of all streets east of Market street and at right angles with it increase toward the east.

The numbers of all streets west of Market and at right angles with it increase toward the west.

The numbers of all streets running east and west are even on the south side and odd on the north side.

The numbers of all streets running north and south are even on the east side, odd on the west side.

ALPHABETICAL LIST OF STREETS.

To facilitate the description of the prominent named streets they are designated as so many squares east and west of the dividing line, Market street, thus: Jackson street 10 squares w means 10 squares west of Market; French 2 squares e means 2 squares east of Market, etc.

The numbered streets run east and west and are numbered consecutively from Front to Thirty-sixth street, at the northern limit of the city. They bear the prefix "east" or "west." All other streets are named as follows:

A street, south side from Market E to Christiana av.
 Adams, 9 squares W, from Maryland av to the Brandywine.

WILMINGTON, DELAWARE

Delaware's BEST Newspaper

The Only Newspaper in the City
which Sells its Advertising Space on
a Basis of Guaranteed Circulation

SOME OF ITS STRONG POINTS

Carries more classified advertising than all the other newspapers in Wilmington combined.

Carries more local advertising than any other newspaper in the city, morning or evening.

Circulation is greater than that of any other two daily papers in the city combined, and almost equal the combined circulation of the other three daily newspapers.

Has the exclusive service of the Associated Press in Delaware.

It is a clean family newspaper without objectionable advertisements or improper reading matter. It is delivered by carriers into two-thirds of the homes of the city, which is practically all the desirable ones to an advertiser.

It offers a cheaper and more thorough service to advertisers than can be obtained in any other way.

Friends' School

Fourth and West Streets, Wilmington, Del.

The Oldest and Largest Preparatory School in the State

A CORPS of sixteen experienced teachers, excellent equipment, thorough instruction. Courses of Study preparing for College, Scientific School or Business. Graduates entered on certificate in all colleges that admit pupils on a school record. Our students have entered Harvard, Yale, Princeton, University of Pennsylvania, Haverford, Swarthmore, Bryn Mawr, Smith, Vassar, Wellesley, &c.

High School, Grammar School, Primary and Kindergarten departments, under the charge of skilled specialists. Pupils enrolled at any time. In order to provide transportation for the pupils of the lower grades, who live at a distance from the school, a carriage has been built and placed in charge of a trustworthy person. For this service a nominal charge is made.

The recommendations of our patrons are our best advertisement. Visitors welcomed.
