Thursday Nov. 6/58

Dear Dennis -

I have wanted to write you all week, but the days have gone by so rapidly. I have had a good deal to do this week. This regime which I still have to follow of eating 5 times a day and lying down immediately after eating for at least 30 minutes simply destroys the day, and it is hard to get things done. The regime has helped and I'm to keep it up for at least another month. I am not losing any more, and have gained a few ounces, and feel a little stronger as the weeks pass. I look all right in the face, but as long as I can't gain a little weight, I shall not get my strength back.

We haven't seen Christine Marguerite but have
talked with her on the 'phone. She seems to
be getting on well. Operation is very long as
proper has been away a lot, and the Company
has many problems. We're giving more time to
try to help ~~there~~ ^{more than} I have for some time.
We're very much afraid that the government
is more and more thinking of eventually
taking over of the Company. We are feeling
the effects of lack of money for maintenance
and I am glad we have this plant of our
own at ^{the} Cuernavaca house. The house in
Cuernavaca is a great comfort but it
is expensive. We're having the whole interior
painted again, and a good part of the

inside. The heavy rains made repairs to the roof necessary.

The rains are still continuing. The still have practically no sunshine, and it gets rainier heavier all night so this is the beginning of November. The doctors & nurses may have something to do with this extraordinary weather - although I have always felt they had nothing to do with it.

After 44 visits to the dentist the complicated image unit that Maria had some seems to be rather factually secured!

I would like for various reasons to make a trip north as I am concerned about some possibility

y change in our leading practice but I
have decided to mind my own business.
I don't feel like traveling yet.

The elections were no surprise to me.
I felt sure Nelson Rockefeller would defeat
Havens, but I did not think he would have
such a big majority. Got great we
will not have him for President - I
know him well, and like him, but among
other things he has always been a poor judge
of people to work with, or for him.

I think proper may take some
more time off as I understood they
want him to give some time to being

Chairman of a Committee to study Indian
aid programs, which ~~she~~ can't very well
refuse to do, and it would mean his
being in Washington one week and then
next here, for a period of several months.

Miriam & I often wish you were all
with us here. I hope Emma has her
strength back and that Hettie is well.
Please tell Jimmy I hope to write him
soon. Miriam gives us love & good
wishes to you all -

With love
Jimmy
