City To Ask State, Industry To Aid Air Pollution Control

Council Rejects Proposed Ordinance For Air Pollution Of Armory, Reverting To University After Five Years

are to be asked to help in drafting an air pollution control ordinance for the City of Newark as the result of council rejection of a proposed ordinance for such control in a second

"It's four pages long, Mr. Mayor," Secretary Charles

Dentist Honored

city for a five-year period after which the Armory was to be given to the University of Delaware.

"It will cost \$25,000 to put the building in shape," the mayor said. A member of the audience observed that "The City of Newark should change its name to State College," and the mayor replied, "I den't went to go into that."

Swimming Peol

Edward B. Cooper, chairman of the mayor's swimming pool committee, urged that the voters be given an opposite of the given and the voters be given an opposite of the given and the given and operating and maintenance costs to be provided by bond issue, and operating and maintenance costs to be provided by users of the facilities. Reviewing the report of the swimming pool committee, Cooper said that the park and pool planning engineers employed—the Allen organization—had recommended the former cannery property as a pool and park site, and he said that the tax rate increase for freeholders with construction of the pool was estimated at five cents per \$100 property assessment.

Coverdale commented that a referendum for the pool might have an adverse affect on the results of a pending referendum for a bond issue to cover necessities.

As the first step in presenting the matter to the public, Solicitor John Sinclair was requested to prepare a resolution for council action at the Oct. 13 meeting, specifying the date of a public hearing and subsequent referendum for decision on the muicipal pool.

THURSDAY

Methodist Church Plans Dedication For School Staff

The beginning of Christian Education Week will be marked at the Newark Methodist Church with a service of education for members of the church school staff at 9:36 and 11 a.m. worship services this Sunday and the first of a series of four parent-teacher suppers at 6 p.m. for the various departments of the church school.

The covered-dish supper this Sunday at 6 p.m., will be for parents and teachers of children in the 11 o'clock session of the junior department.

providing more space for three groups.

The room formerly used for the assembly of the junior department has been converted into a preschool room; the social hall now is being used by the junior department; and the senior high department; and the senior high department; and the senior high department.—now meeting at 11 am—will hold sessions in the church parlor. Herbert W. Smith, a member of the commission on education, and Tim Smith, have made 20 partitions which enable the five classes of the junior department to meet in the social hall.

Dr. John J. Bunting, Jr., minister, will speak Sunday on "The Strategy of One Hour."

Dr. William Fletcher is chairman of the commission on education; Frank Rush is superintendent of church school: and Doris Hoover is director of Christian education.

"Press On" was the title of the

day morning. Following service, Mrand Mrs. Coon and their daughter. Ellen, met the congregation informally at a coffee hour in the Hall Memorial Building.

The report of the nominating committee was received at the neeting of the United Presbyterian Women of Christiana on Thursday. With annual election of officers cheduled for the October meeting, he following names were proposed resident, Mrs. Fibral With annual election of officers scheduled for the October meeting, the following names were proposed: president, Mrs. Ethel Holsten; secretary, Mrs. Ella Cleaver; vice-president and program chairman, Ruth Phelps; fellowship chairman, Ruth Phelps; fellowship chairman, Rachel Morrison; world service chairman, Mrs. Doris Marcone; literature secretary, Mrs. Sylvia Jones; spiritual life secretary, Mrs. Janet McClain; nominating com mittee member, Mrs. Mae Sims. Holdover officers include Mrs. Thelma Cole, treasurer, and Mrs. Lela Cleaver, local service chairman.

Some 275 firemen met in the Christiana firehouse last Thursday evening, when the local fire company entertained volunteer chiefs and assistant chiefs from throughout the state. Official delegates to the annual convention in Newark were Frank Moore and C. Benjamin Cleaver, with Francis Thomas and Homer Vincent as alternates.

Janet Moore and Sandra O'Neill, sixth grade students at Christiana, observed their 11th birthdays on Sept. 16.

Mrs. Howard Greene was guest of

LUNCLED FREDING

BLUEPRINT FOR SURVIVAL

ng in "This Week," Senator George Smathers of chairman of the Senate's Surface Transportation ittee and author of the Transportation Act of 1958 "Blueprint to Save Our Railroads." is such a blueprint needed? The answer is that

ses on railroad passenger service are running nurderous level of \$700 million a year and, unless halted, this service may grind to a stop by 1965. ays Senator Smathers, faced with this collapse the ment would have to take over the railroads, and "this a hard blow at our free-enterprise system, and the government operation of a bankrupt transportation ould only lead to higher taxes."

t, he goes on, a breakdown can be prevented by we and regulatory changes. A major cause of the ficits, he finds, lies in the fact that the railroads now maintain 12,000 miles of duplicate routes. He gives example after specific example of this. His plan, consists of encouraging regional consolidations into four great regional networks, at a saving of a ollars a year.

ator Smathers gives an "emphatic NO" to those who is would reduce competition among railroads. As out, the railroads must engage with vigorous comwith the trucks, the planes, the buses-and, above amily car. Moreover, the consolidated systems would ICC regulation.

conclusion: "Consolidation, in a word, will keep nger trains from becoming museum pieces. Remem-. If the government takes over operation of the railou and I will be paying to run the trains, whether

'Poetry For Pleasure"

As a result of response to the ini-ial offering last year by Dr. Edward I. Rosenberry, a second term to be ed by Steven H. Rubin, has been dded for the coming year.

added for the coming year.

Dr. Rosenberry again will conduct
the first term, dealing with traditional poetry, while Mr. Rubin will
be concerned with contemporary
poetry during the second term.
The entire course is intended for
persons who are not widely familiar
with poetry and wish to learn more
about it, but all interested students
are welcome.

Scandinavians Win Baton Twirling Classes Five Scholovskips Five Scholarships

Five Scholarships
For Study At U.D.

Five Scandinavian university
students have entered the University
of Delaware for a year's study as
special students under Brittingham
International Scholarship grants.
They are Anton Jansen, Netherlands: Hans C. Jondal, Sweden;
Carl-Olaf Homen, Finland; Jorunn
Edwardsen, Norway, and Gunnar
Engilbertsson, Iceland.
The students were selected by
Thomas E. Brittingham, Jr., Willmington industrialist, and for the

angilbertsson, Iceland. The students were selected by homas E. Brittingham, Jr., Wilmigton industrialist, and for the last several years an officer of the Indiversity of Delaware Research coundation, who has devoted an inreasing amount of his time and the property of the last several years and the property of the last several propert

versities.

He is providing scholarships for these students on the same basis as his International Scholarships at the University of Wisconsin, an institution in which the Brittingham family has been interested for years.

Of the five scholarship holders, three plan studies of business administration, and all are attending college or are college graduates in their native countries.

heir native countries.

The Scandinavian scholars were elected on the basis of leadership, personality and strength of character. They have been urged to take part in all aspects of American university life, and take home with hear their impressions.

hem their impressions.

In recent years the number of students from foreign countries in ittendance at the university has been growing steadily. During 1988-198, there were 26 undergraduates 15 toreign citizenship, and an additional 58 of foreign birth enrolled. In the school of graduate studies, here were 27 students of foreign birth; and 48 of foreign birth.

creditors on trail of scalp?

pay all bills pronto... with a Farmers TIMEPLAN LOAN

Standing guard each night, wondering from which way they'll come? Well, now you can unload your worries and relax, because Farmers has the perfect plan of defense against creditors. It's called PAY ALL BILLS WITH A FARMERS TIMEPLAN LOAN. Here's how it works. Add up what you owe, then see Farmers for money enough to pay the total. You repay Farmers at low bank rates, with many moons to pay. You'll keep your good credit rating and conserve wampum, too, because payments can be extended for months. See Farmers today, or better still, call Mr. Potts at ENdicott 8-8546 for information.

BUT THE FALCON'S ECONOMY

IS MEASURED IN MANY MORE WATS THAN GAS AND OIL SAVINGS

Take the price. Though we can economical servi

THE NEW-SIZE FORD

Phone Newark EN 8-6510

267 E. Main Street

LET'S TALK ABOUT STYLING FIRST!

HOW BIG WILL THE ALL-NEW FORD FALCON BE? HOW MANY PEOPLE WILL IT CARRY? HOW ABOUT POWER?

To start with, in the all-new, New-Size Ford—the Ford Falcon—you saze, but never "do without!" You get modern, fine-car styling . . . six-pecyle-big room and comfort . . a car that's born and bred for the American road! And you get it from Dearborn, Michigan, automotive capital of the world.

You're going to be amazed by the Falcon's beauty. It has a low, sleek, European flair in new, beautifully proportioned style. It has ase, "wide open" visibility all around. Interior styling is fresh and new, with smart looking, durable upholstery. In a nutshell, the Falcon is Ford's way of proving that a true economy car doesn't need to look, ride or feel like one.

LET'S TALK ABOUT THE ALL-NEW FALCON'S SIX-PASSENGER SIZE!

Available in both 2- and 4-door models both models will have full-width seats oour modes will have full-width seats accommodating six. There's room for all their luggage, too, with 265% more luggage space than the two most popular foreign cars. Pretty amazing, isn't it? The main reason is the way the Falcon is built.

COME IN AND WE'LL TELL YOU ALL WE KNOW!

What's the story

on the new Ford Falcon?

The Falcon uses the latest type of single-unit construction (like the fabulous Ford Thunderbird). This adds extra inches everywhere inside—and it makes the car one solid, silent, integrated structure.

Along with its all-new size... there are lots of other things, like extra-big brakes and light-finger steering, that make the Falcon a delight to drive. And the Falcon is so maneuverable, it makes driving in city traffic a cinch!

IFT'S TALK AROUT

The all-new engine is up front, where exhaustive crash tests, skid tests and handling tests prove it should be, for safety and stability. It has six cylinders ... is of the world's most modern design ... yet it's built on full-p. oven principles. It will deliver up to 30 miles per gallon on regular gas, only needs oil changes on regular gas, only needs oil change every 4,000 miles. The engine is also teater cooled, which permits use of a water-type heater that's safer and never robs you of gas mileage! Unlike many cars of its size, the Falcon's available with automatic drive, too.

AND NOW WE'VE SIMPLY GOT TO TELL YOU ABOUT THE FALCON'S FABULOUS EXPERIENCE RUN!

It tops off a rugged 3-year, 3,000,000-mile test program. A fleet of Falcons is now traveling over every numbered U. S. highway in the country. It's from the drivers' logs on this run that we got the "30-miles-to-a-gallon" mileage figure. Some of the Falcons are driving around-the-clock—and new records are rolling in every day.
