FARMERS ORGANIZE

County Agent Outlines the Work

Enthusiasm was certainly the dominant feature of the first meeting of northern Pencader farmers, who met at Welsh Tract school house on Monday evening at the call of County Agent Cooch. Although the weather was very threatening, a good crowd met Mr. Cooch at his first meeting and judging from comments heard by those present, there is every evidence of a hustling organization in that section. The turn out of the farmers in Mr. Cooch's own home district was very gratifying in that it displayed the confidence in which he is held by his neighbors.

Mr. Cooch gave a talk on the object of the work he has undertaken with special emphasis on the co-operation of the farmers. He expects to assist in the organization of farmers' clubs throughout the county. Where the Granges are strong and active, he will carry on the work through them.

These clubs will take up at first the purchase of fertilizers, seed, lime, etc., and buy in lots at best prices. Later on other questions affecting the farmers, such as selling crops, shipments, etc., will be taken up.

The organization of the club followed with the following officers elected:

Home From The War Zone

Dr. and Mrs. A. Lee Porter and Mr. and Mrs. Ernest Kruger, the latter being Dr. and Mrs. Porter's daughter, arrived at their home here this week after a four months' tour of Europe. Although the party did not sail from Liverpool, England, until August 1, which was after war had been declared, they fortunately did not suffer the many inconveniences that fell to the lot of most American tourists who were caught in the war zone and at the same time witnessed much of the excitement caused by the war.

The Porter party were among the first Delawareans who were caught in Europe after the war broke out to arrive home. Practically their only trouble was in securing reservations on another boat after it was learned that the Imperator of the German Line, on which they were booked, would not sail from Southampton, August 1, as scheduled. Dr. Porter and Mr. Kruger after visiting the offices of a number of other lines fortunately secured reservations on the Laurentie of the White Star Line. They sailed from Liverpool on the Laurentie August 1, the same day that they were booked to sail on the Imperator from Southampton and arrived at Montreal, Canada, August 8.

When seen at her home here this morning by a reporter Mrs. Porter was profuse in her praises of the White Star Line and especially of the captain and officers of the Laurentie, for the treatment they accorded the passengers on the trip across the ocean. She said everything possible was done for their comfort. For 18 hours they run through a thick fog and notwithstanding the fact that it was reported a German cruiser was in the vicinity and that it was possible they would be captured, the captain had the fog horn sounded continuously while the fog lasted and unlike some of the liners the boat was not put in darkness at night but the lights were on as usual. Outside of making unusually fast time the trip over, Mrs. Porter stated the trip was really an uneventful one.

There was great excitement in England when the party left that country. Tourists were having much trouble in securing money and more trouble in getting passage back home, as many of the boats that they were originally booked on it was announced would not sail and it was generally next to impossible to secure reservations on others. The White Star Line and other English Lines were evidently giving a preference to tourists who held reservations on the

Main Street Ship Shape Once More

After a solid year of traveling the long way round in order to avoid the dangers of a torn-up road way, the people of Newark and vicinity are able to appreciate the fine new driveway on Main street. The work was completed last week but we are unable yet to gain an idea of what the road will eventually be, after travel and time have finished the job. It is said a few months will greatly improve it. After the tar works to the surface the road will be smooth and dustless.

PRETTY WEDDING AT IRON HILL

Dr. J. Earle Gilfillan And Miss Jennie Slack Wed

As we go to press friends and relatives are gathering at the home of Mrs. Annie Slack of Iron Hill to witness the marriage of her daughter, Jennie D., to Dr. J. Earle Gilfillan of Sudlersville, Maryland.

This promises to be one of the prettiest and most attractive weddings that has taken place in this community for some time. The contracting parties are both well-known to the people of Newark and vicinity.

Miss Jennie Slack was a general favorite in the Newark High School where she received her education, and her genial nature and happy disposition will fit her for the position as helpmate to Dr. Gilfillan.

Dr. Gilfillan was educated in our High School and Delaware College and later at the University of Pennsylvania, whence he graduated with high marks from the veterinary department. After graduation he settled in Sudlersville, Md., where he has built up a large practice.

At seven o'clock the ribbon boys Wilkins Davis of Newark, and Wallace J. Ross of Sudlersville, will draw the ribbons making a passage way to the altar, where Dr. Joel O. Gilfillan, the father of the groom will be waiting under an archway of beautiful greens in the East parlor, where the wedding march will be played by Mrs. Gertrude Molitor, accompanied by Mr. Carl Nurnberg on the violin. The ushers, Mr. Samuel Slack and Mr. Joseph Slack, brothers of the bride, will enter heading the wedding procession; next will come the Misses Helen G. and Hettie P. Slack, sisters of the bride, as bridesmaids, each prettily dressed in green silk and carrying bouquets of pink asters.

The best man, Mr. Harry H. Cleaves, accompanied by the groom will then enter and take their places under the arch. The ushers, best man and groom will be in full dress.

Next to enter will be the maid of honor, Miss Sara Slack, a sister of the bride, who will be beautifully dressed in pink crepe de chine, following her will come the flower girl, J. Florence Slack, the niece of the bride, strewing flowers in the path of the bride. The bride will be given away by her brother, John L. Slack, on whose arm the bride will enter following the flower girl.

The bride will be handsomely attired in white satin trimmed in embroidered net and silk roses, and veil. She will carry a shower bouquet of roses, lilies of the valley, and ferns. They will be married with a beautiful ring ceremony.

After the congratulations the wedding dinner will be served to all present.

Guests are expected from Parkersburg, Cochransville, Coatesville, West Chester, Philadelphia, Hazleton and Chester, Pennsylvania, and Wilmington, Newark, Laurel and Seaford, Delaware; Elkton, Sudlersville, Principio and Baltimore, Maryland.

The bride and groom after an extended honeymoon trip will settle at Sudlersville, Maryland.

Their many friends in this community extend to them their best wishes.

State Commissioner of Education Wagner announced last Wednesday that examinations for teachers for New Castle, Kent and Sussex counties would be held on Friday, August 14, at Wilmington, Dover, Georgetown and Seaford.

Harvest Home Tomorrow

Big Preparations At Ebenezer

The annual Harvest Home under the auspices of the Ebenezer church will be held in Whiteman's Grove tomorrow, August thirteenth. The big woods meeting as planned affords entertainment for everyone as in former years the subject of temperance occupies a prominent place on the program. Among the speakers are Miss Rietta M. Emerson, a W. C. T. U. worker, who will make the morning address; L. M. Hare, of Baltimore, superintendent of the Anti-Saloon League; Rev. George A. Cooke of Wilmington; J. Bibb Mills, a prominent lawyer of Baltimore. Music will be furnished by Kemblesville Band and the chorus singing will be led by George L. Denny. There will be many attractive booths, a playground for children and ice-cream and cake in abundance. Dinner and supper served by women of the church.

Directory At This Office

That the Wilmington Chamber of Commerce is exerting every effort to build up trade relations between the people of this community and their city has been demonstrated in a new way. The office of this newspaper has received and now has on file a copy of the Wilmington City Directory and Business Gazetteer for 1914 which was sent with the compliments of the Chamber of Commerce. This valuable business reference will be the permanent property of this office, and can be consulted by the public at any time.

The officers of the Chamber of Commerce report that they have received manifold assurances that the people in this section would trade with Wilmington more, that is, would be in position both to sell more to Wilmington and buy more there, if they were better acquainted with the Wilmington business houses. While trade excursions and other functions have assisted in the movement of having the business men meet each other, still no complete method has been yet devised that gives assurance that the people in different towns know all the Wilmington dealers in particular lines with whom they might establish both buying and selling relations. It is to bridge this gap that the Wilmington Chamber of Commerce has sent out a large number of their city directories to nearby towns. This directory is now in this office and can be consulted by any one who desires information about business men in Wilmington. The distribution of these handy business reference books is calculated to promote the work the Chamber of Commerce is engaged in because it will enable the local business men to find out immediately what Wilmington firms handle the articles they wish to sell or purchase.

COLLEGE NOTES

The trustees appointed M. O. Pence as county agent for Kent county and W. C. Pelton for Sussex county. These gentlemen come not only well recommended but have served on the Station Staff here in the past where their work met the approval of the authorities. Both of them have had experience in extension work which well fits them for this new field.

Levi Cooch of Newark was elected as agent for New Castle county at the meeting of the Board last June. As reported in another column, Mr. Cooch is getting his work in hand by the organization of Farmers' Clubs.

The trustees are considering the appointment of an instructor in home economics. This will be left probably in the hands of Dean Robinson of the Women's College who will handle this phase of the work through the Home Economics Department of the College.

While the government intends this work to be done among the colored people as well as white the funds will be administered by one head, Delaware College, as designated by Governor Miller.

Pencader Republicans

W. H. Evans Chosen As Candidate

At one of the most enthusiastic political meetings for years W. H. Evans was made the unanimous choice of the Republicans of Pencader as candidate for Representative on Saturday night at Glasgow.

There was a large attendance and the general interest was unusual this early in the campaign.

Mr. Evans was the unanimous choice of those present. His term as representative several years ago and his continued interest in things political make him an exceptionally strong candidate. He is acquainted throughout the hundred and is interested in the farmer and his work.

Daniel Thornton was chosen as candidate for Assessor. For Inspector for the first district Chas. F. Walton was chosen, for the second district, John Walter Davis.

The following were chosen as delegates to the State Convention. Hon. H. C. Ellison, John W. Pewell and Warren O. Armstrong with Hon. Z. T. Harris, J. W. Suddard and E. C. Johnson as alternatives.

Twilight Service On Campus

Dr. S. C. Mitchell was the speaker at the twilight service held on the college campus last Sunday evening. Dr. Mitchell emphasized the duty of every individual to the community in which he has made his home and referred to the fact that the college ground upon which they stood belonged to no individual, no denomination, but is the common property of all. The meeting was largely attended. Rev. Adrian Van Overen will be the speaker on next Sunday evening. The services begin promptly at six thirty.

Big Parade In Wilmington

J. Winfield Scott, President of the Central Labor Union, will be Chief Marshal of the combined parade of business and working men in Wilmington on Labor Day, which will end at Horse Show Park where the paraders will attend the State Fair. The Union has also endorsed the proposed Old Home Week celebration in October.

Scouts Camp On Elk River

Members of Troop No. 1, of Newark, Boy Scouts of America, left Newark this morning on a 12-mile hike to their summer camp at Old Landing, Elk River, where they will camp for a week.

The boys have been looking forward to the trip with a great deal of pleasurable anticipation and expect to have a delightful outing. The outing on the North East river near Charlestown, last summer was so successful the boys decided then that a camping trip should be made each summer.

Parents and friends who visited the Scout camp last year were highly pleased with the work and behavior of the boys. The Scouts will be glad to have their friends visit them at their camp.

Hoch Ball Players

Local friends of Elmer and Walter Hoch, have received word from them to the effect that they are both playing on the Niagara Falls baseball team. After college closed they went to the Virginia League but left that league to join the Niagara Falls club. In a recent game against the Baltimore Federal League, the Niagara team won 2 to 0 and the work of Elmer Hoch was largely responsible for the victory.

Another brother who is catching for the Dover team has secured a scholarship at the University of Pennsylvania and will probably play on the U. of P. team. A fourth Hoch brother is pitching for the St. Louis American League club.

Card Of Thanks

We wish to thank our numerous friends who assisted us in our sad loss of our dear son Curtis, and for the number of letters of sympathy from so many.

Mr. and Mrs. C. T. Denny.

Local Writer In Sunday Ledger

In the Educational Section of the Public Ledger, published last Sunday there appears an article by Dr. W. O. Sypherd of Delaware College, on the Vital Need of Adequate English Courses in our Secondary Schools.

Dr. Wagner's Work Commended

Dr. Charles A. Wagner, Delaware's State Commissioner of Education, met with the three county superintendents, Professors Carroll Cross and Hardesty in Dover last Friday, when plans were formulated for carrying on the work of Teachers' Training, as begun at the Summer School for Teachers at Delaware just closed. Each superintendent is to meet the teachers at various centers in the county and make specific plans for carrying out his purpose.

Of especial gratification to Delawareans is the appreciation received by Dr. Wagner from U. S. Commissioner of Education, Philander P. Claxton, concerning a book recently issued by the Delaware Commissioner, on the attendance throughout the State during the last school year. The following is a quotation from Dr. Claxton's letter:

"I think you are going about a very important matter in a very effective way. I am especially interested to know that citizens and clubs are studying this subject. If we ever get the people to understand what this means, conditions will be improved. Every school officer in the United States ought to read this study of yours. I am wondering if your State Board of Education will print 4,000 copies to be sent to the county and township superintendents and to some of the city superintendents in the United States."

Picnic Plans Completed

The annual picnic of the St. Thomas P. E. Sunday School will be held in the grove at Welsh Tract on Wednesday, August 26. Automobiles will leave the Parish House at 10 a. m.

Fire At Georgetown

Fire on Wednesday night destroyed the livery stable of Charles Marsh, the livery stable and garage of Harry Conaway and the law offices of R. B. White, located in the business section of Georgetown. For a time a widespread blaze was feared but the firemen with help from Lewes controlled the flames. Marsh lost \$5,000 with no insurance; Conaway \$5,000 with partial insurance, and the White property valued at \$1,000 was also partially insured. The alarm was given by a train crew who had seen the blaze from Redden, four miles distant.

Junior Carnival Notice

The Junior Carnival of Newark for the benefit of U. A. M. E. church, will close Thursday, August 13, with a Sunday School picnic. Our success has been grand. This carnival is for the benefit of our Fall Rally which we hope to raise \$500 for.

Rev. Wm. H. Forward, pastor.
E. C. Gray, Secy.

County Agents Elected

At the meeting of the trustees of Delaware College at Newark, who met in the Hotel duPont Monday morning, provisions of the Smith-Lever bill passed at the last session of Congress in regard to the extension of agricultural work in the various state colleges of the country were considered. A report was submitted by the agricultural committee on the proposed work at the college, which was received and approved.

The Smith-Lever bill provides an appropriation of \$10,000 annually for the extension of agriculture and home economics.

Supper Date Announced

The Ladies Aid Society of Newark M. E. church will hold their annual poultry supper in the banquet room of the Opera House on Thursday, November fifth.

Local Politics

A meeting of the Democrats of White Clay Creek Hundred will be held at Center Hall tonight when delegates to the State Convention will be selected and other matters pertaining to the coming campaign attended to.

It is reported that W. Truxton Boyce of Stanton, will be the Democratic candidate for the Legislature from White Clay Creek Hundred. Mr. Boyce is in business at Stanton.

The Republican meeting scheduled for last night was postponed until Friday night because of the storm. Delegates will be named for the State Convention. Ex-Senator Frank Ewing, candidate for Clerk of the Orphans Court, and Isaac R. Brown, candidate for Representative of Wills, were visitors at the meeting.

FIGHT FOR SECOND PLACE

Nothing short of an earthquake or something equally as disastrous can now stop the Newark Club from winning the Tri-County League pennant. The team journeyed to Elkton on Saturday and notwithstanding the fact that the star infield was broken up by the absence of "Billy" Jackson, who is making fame for himself in Milford and other sections of lower Delaware, annexed another victory by the score of 6 to 5. Newark would have the pennant cinched at this very minute but for President Kay stepping in and throwing the victory over Elk Mills out. This action, however, only delays the matter for another week. All that is now necessary is for Newark to win one more and Elk Mills lose one game for the locals to have the pennant. There remains only four more games with the exception of the one thrown and there is very little possibility of that ever being played.

Chief interest now centers in the second position. It looks as though this will be a three-cornered fight between Elk Mills, Elkton and Oxford. While the former club now holds second place it is not going as good and does not look near as strong as either Elkton or Oxford. The latter club is dangerous and has proved in past years to be a rattling good finisher. It would not be surprising to see Oxford overcome the lead of the two clubs and grab the second place. The fact that a series of five games is to be played between the pennant winner and the club finishing second, which will mean considerable to the players of the two teams is what is making the second place fight of special interest. From the local standpoint it would be much better for either Elkton or Oxford to get second place as large crowds could be drawn in the final five games.

For six innings of the Elkton game it was anybody's game but Newark got after Scott in the seventh inning and when the bombardment was checked it was found that the Cecil County twirler had been touched up for five hits in eluding three doubles which with an error brought in five runs and the bacon. Elkton came back strong in the eighth when Newark's defense weakened but the scoring was just checked in time. Hogan fanned ten of the Elkton batsmen and gave but six hits. Newark kept plugging away at Scott's offerings but he managed to squirm out of trouble until the fatal eighth.

The local club was weakened by the absence of "Billy" Jackson, the star shortstop of the league, but Gray filled in very nicely and deserves much credit for the help that he has been to the locals in the last two games. Scott Gregg, who had been worried for days because of serious illness in his family became so ill himself during the game that he had to give up. Walter Ritz, the smallest player and youngest in the league took his place and not only did well at first but also got a hit his one time at bat. The score follows:

OXFORD DEFEATS WEST END

The Oxford team is now showing some of the fighting spirit that won the club the pennant last season and is now a likely contender for second place. The team defeated the West End Club Saturday by the score of 6 to 1. Smith pitched a fine game for Oxford and his support was perfect. Ward, the former Penn-Mar League twirler also did well in the box for West End but his support was ragged. The score by innings follows:
Oxford ... 2 2 2 0 0 0 0 x-6 8 0
West End ... 0 0 0 0 0 1 0-1 5 5
Batteries: Oxford, Smith and Thomas; West End, Ward and Scott.

ELK MILLS SLIPPING

The Elk Mills Club is slipping fast and it looks as though the team will be lucky to finish in the first division. Rising Sun gave Sweitzer an awful lacing on Saturday and to make matters worse his team mates made 11 errors back of him. Rising Sun won 12 to 9. Rising Sun took an early lead and held it until the finish. The score by innings:
Elk Mills 11 3 0 0 3 0 1 0-9 13 11
Rising Sun 10 6 0 2 0 3 0 0-12 15 5
Batteries: Elk Mills, Sweitzer and Spence; Rising Sun, Heitmiller and Snyder.

BOOSTS AND KNOCKS

Somebody evidently kicked the props from under Elk Mills. Wonder if it was Hogan.

The West Club looks to have a twirler in Ward, the former Iron Hill player of the Penn-Mar League.

The tailenders gave Sweitzer about the worst lacing that he has received this season.

It was a bitter dose for Elkton to have to bite the dust on their own lot.

Young Ritz is proving a valuable substitute for the club. It may be possible that Newark will capture two pennants. The Field Club is now only one game back of the leaders.

"Billy" Jackson is showing some of the teams in the lower part of the State how the position of shortstop should be played and is hitting the ball hard in most of his games.

Oxford from now will be a contender for second place. They are really but one game back of Elk Mills and Elkton, and is coming strong.

Gillfillan is proving a tower of strength to the Newark Field Club. He broke up the first game last Saturday with a home run drive to left field and what made the elout especially interesting was the fact that his bride of only a few weeks witnessed it.

Del Lovett has pitched great ball the last few games, allowing his opponents but few hits.

Every member of the team but Hogan got a safe hit off Scott. The West End team that succeeded Aberdeen will be here next Saturday.

CAPTAIN MORRIS MAINTAINING LEAD

Captain Morris is determined to lead his players in batting until the end of the season and is now 25 points ahead of the second man.

The batting averages follow:

FIELD CLUB IN SECOND PLACE

By getting the long end of both games in a double header against North East here on Saturday the Newark Field Club jumped into second place and has an excellent fighting chance to land the Penn-Mar League pennant. This club has been playing much faster ball than any team in the league for the past five weeks, winning that many games in a row and is now but one game back of Appleton, the leaders. As these two teams have a postponed game which has been set for September 5 after the regular league season closes it is possible that it will require this postponed game to decide the winner.

POOR ATTENDANCE AT GAMES

The Field Club captured the first game easily by the score of 12 to 2 and made a good finish in the second game, winning 6 to 4. The only thing that marred these contests was the poor attendance. The club is putting up a fine article of ball and deserves the patronage of the local fans, especially when it is considered that all its home games are on days when the Tri-County League team is playing away from home.

Del Lovett, the little southpaw who has pitched such fine ball his last few games, was the hero of the first contest. Lovett was at his best and held the visitors to seven hits and two runs. Gillfillan, however, really broke up the game in the third inning when he made a terrific drive to left for the circuit, putting the home team two runs in the lead. This took most of the "pep" out of the North East team and Newark walked away with the game after that.

The second game was more even. Houchin was on the mound for the home club and when the visitors got to his delivery for three runs in the second inning it looked like the game was sewed up as it was to go but six innings by agreement. The locals kept after Logan who was on the mound for North East and in the fourth inning got two runs, two hits and an error. The real fun came in the fifth when Logan was pounded hard for four runs and the game. The scores follow:

NEWARK A. C. WINS FINE GAME

The Newark A. C. putting up its usual fast article of ball defeated the strong West End Club of Wilmington on Saturday by the score of 3 to 2. Neither team scored until the fifth inning, the pitching of both Ewing and Clark being air tight up until that time. West End was first to score in the fifth but Newark A. C. took the lead by bringing home two runs in their part of the fifth. West End scored again in the sixth and Newark won out in the seventh. The local club played the best game in the field. OUR FIRE EQUIPMENT

It is not amiss to speak again of the work of the Aetna Firemen of Newark. Congratulations is a very mild compliment. By their work, Newark has an fire equipment, unsurpassed in the State. It is no little boast to say that Newark has a \$9000 fire engine. The Carnival in recent years have paid for this engine.

Although the citizens of the town have responded generously it is needless to say that Newark would never have had this means of protection, had it not been for the enthusiastic and determined efforts of the volunteer firemen. They have had lots of sport, it is true, but they have had plenty of work. In spite of petty opposition at times, they have put it over and won out. These men have rendered a public service of true merit. Hats off to Aetna!

COLLEGE EXTENSION WORK

That Delaware College is going to play a more prominent part in the life of the State is more assured every day. Last year was one of marked advance in the line of educational activity. Prominent among the movements started was the Extension work of the College. President Harter appointed a Committee of the Faculty to investigate the possibilities of such work. Contrary to the views of even some members of the faculty, the idea met with immediate response throughout the State. Dr. Vaughn with his committee made a visit to the high schools of the State, asking for information and presenting the idea of Extension Lectures from the College professors. Although enthusiastic himself, the demand for lectures was beyond his expectations. The Committee issued a bulletin, giving the subjects of lectures that could be given on call. A slogan adopted, "If you can't come to Delaware College, the College will come to you," has been received with an enthusiasm that will tax the faculty to meet the demand.

Along this same line, now comes the announcement that the English Department will give courses in Literature and Composition.

This gives everybody an opportunity for study. These courses will be given college credits, with the faculty approval as in case of regularly entered students.

Judging from present indications there will have to be some fund provided to carry on this work to its fullest possibilities.

The work of the Committee has been the topic of trustee meeting talk and has had their enthusiastic approval. It is understood that President Mitchell endorses the idea and sees a future for this work. Dr. Vaughn and his committee are to be congratulated on their work and we pleased to note the co-operation given them by the Faculty at large.

Students Register For Women's College

Miss Robinson, dean of the Women's College, who has just returned from the University of Wisconsin, reports that plans are practically complete for the beginning of work at the new college in September. All indications point to a successful year's work. Miss Robinson is receiving letters of inquiry daily from all parts of the State, and a number of women have signified their intention of coming, in addition to those already registered. A complete list of those who have registered up to the present time is as follows: Misses Beatrice Crossmore, Wyoming; Elizabeth Dawson, Elkton, Md.; Selma Bachrach, Wilmington; Catharine T. Schunder, Delaware City; Isabel Stott, Dover; Edna Coale, Delaware City; Elizabeth Eggert, Harrington; Viola E. Smith, Odessa; Marian E. Campbell, Newark; Alice Jeffries, Wilmington; Virginia Harrington, Harrington; Myrtle Morgan, Chincoteague, Va.; Myrtle Steele and Margaret Cook, Newark; Margaret D. Postles and Ethel C. Frazer, Elkton, Md.; Mildred Ferguson, Newark; Rebecca Churchman, Newport; Rebecca Springer, Newport; Margaret Van Dyke, Wilmington. These are in addition to Misses Louise

VanDyke of Wilmington, and Laura Schorb of Dover, who won scholarships worth \$100 at the competitive examinations held at Delaware College in June.

Home From The War Zone

(continued from page 1)
German Line boats, apparently with the object of getting some of the trade of those lines for the future.

Mrs. Porter stated that the reports of the confusion and excitement among tourists in England and other countries affected by the war could hardly be exaggerated. The offices of the steamship companies were crowded at all times by tourists trying to get passage back home. The docks were also crowded with tourists and baggage was scattered in all directions. The Porter party had to leave a number of their trunks behind as they had been sent to Southampton, where they originally intended to sail for Preparations for the war such as the loading of stores on trains by soldiers were witnessed at many points from London to Liverpool.

Mr. and Mrs. Kruger came near being caught in Germany after war was declared and it was only because of Mrs. Kruger who was ill in Hamburg, insisting that she was going to join her parents in England that they are not in that country now. A physician who was attending her in Hamburg, advised Mrs. Kruger to remain there at least a week. She objected to this and if it was possible for her to make the trip she and her husband were going to join her parents in England. This they did and while there was no war talk at that time it was only a few days later that war was declared by Germany.

The Porter party sailed from New York on April 16 last. They toured Germany, France, Belgium, Holland and England.

DELAWAREAN SUCCEEDS JUDGE GRAY

Hon. Victor B. Woolley Named By President

News of the nomination by President Wilson of Judge Victor B. Woolley of the Supreme Court of Delaware, for federal judge on the third circuit of the United States Court of Appeals, to succeed Judge George Gray, has been received with enthusiasm throughout the State. The selection of Judge Woolley is not only gratifying to members of the Delaware bar, but to Delawareans generally. He has a great many friends throughout the State, and as a member of the State judiciary has made an excellent record. His selection is a victory for United States Senator Willard Saulsbury, who has been urging the appointment of Judge Woolley ever since the retirement of Judge Gray. At one time it looked as if Judge Cole, of New Jersey would be named, as that state made a strong bid for the office, but at no time did Senator Saulsbury appear to lose any of his confidence that Judge Woolley would be named.

Judge Woolley had the unanimous indorsement of the Delaware bar, and the fact that he is a Democrat did not figure in the indorsement. His appointment will create a vacancy in the state bench which Governor Miller will have to fill by appointment. He will be required to select a Democrat, and among those mentioned as a possible successor to Judge Woolley on the State bench are John R. Nicholson, J. Harvey Whitman, Charles B. Evans, J. Frank Ball, William T. Lyman and others.

Judge Woolley was born in Wilmington March 29, 1867, the son of Mr. and Mrs. Augustus S. Woolley. His mother died during his early childhood, and his father left Delaware to engage in the orange and lumber business in Florida, with the result that he was reared by relatives in Baltimore, where he received his elementary education in the public schools of that city. At the age of 14 he entered Delaware College, being at that time the youngest student in the institution. He graduated in 1885. After keeping books for his father for three years, pursuing his law studies at the same time, he entered the law office of the late Chief Justice Charles B. Lope. Following a course at Harvard Law School he was admitted to the bar of New Castle county in 1890. He was appointed a judge of the supreme court of the state in 1909.

Before being appointed to the bench Judge Woolley took an active part in Democratic politics. He first went upon the stump in the constitutional campaign of 1888. He is a resident of Wilmington and lives at 1309 Rodney street. The office of the Third Circuit of the United States circuit court of appeals is in the Federal Building at Wilmington, the circuit comprising the states of Delaware and Maryland and the eastern district of Pennsylvania. Judge Gray was the first of that court, and because of that fact and because of the larger population of New Jersey, residents of that state who were interested in backing Judge Cole for the nomination thought he would win. Judge Woolley is an active member of the Delaware College Alumni Association of which he is now president.

Suffrage Sentiment In Delaware

Mrs. Florence Bayard Hilles of New Castle and Miss Elsie Hill, of Norfolk, Conn., Congressional Union organizer, who recently toured the State in the interest of woman's suffrage, give glowing accounts of their reception throughout Delaware.

They were gone only two days, but held meetings in Newark, Smyrna, Blackbird, Dover, Kitts, Hammock, Camden, and Wyoming. They literally strewed miles of suffrage literature along their way—on doorsteps, country store counters, and in mail boxes. They were received with great interest and respect. The largest meeting was held in Dover on the Post Office Steps. The men listened intently, with doffed hats, and contributed generously to the collection. At Kitts Hammock the suffragists held a meeting on the beach. At many towns the local suffragists came to welcome them and help with the meetings. Miss Hill's remark upon returning to Wilmington, was: "The people of Delaware have a splendid attitude toward suffrage. We held meetings in Wilmington almost every evening, and great interest is shown both by the size of the audiences and by the general collection taken. For the first time in the history of woman suffrage in Delaware an organization

of city fathers invited the president of the Delaware association and the Delaware chairman of the Congressional Union to confer with them in meeting. The organization is the Committee of Old Home Week, and the meeting was to discuss a program for Old Home Week in October. But formerly suffragists have had to invite themselves to such meetings."

Boulevard Along Delaware Ocean Front

A boulevard one hundred feet in width extending from Rehoboth to Indian River Inlet, along the ocean front, a distance of five miles, will be laid out by the Public Lands Commission in the near future. An announcement to this effect was made last week following meetings of the commissioners on Tuesday and Wednesday. The boulevard will be straight and will greatly increase the attractiveness of the ocean frontage in this State.

In addition to this improvement, Morgan T. Gum, county engineer of Sussex county, as surveyor and engineer for the commission has completed a survey of all public lands from Cape Henlopen to Fenwick's Island, on the Delaware-Maryland boundary. The territory belonging to the State totals 5200 acres. The commission will dispose of some of the land just south of Rehoboth at public sale this fall.

The commission comprises Governor Miller, ex-officio; ex-Congressman Hiram R. Burton, of Lewes; ex-Senator R. R. Kenney, of Dover; State Senators Harry J. Anderson, Fairmont, and Edward G. Walls, Smyrna, and Morgan T. Gum, Frankford, surveyor and engineer.

When the members met at the Hotel Henlopen, Rehoboth, last Tuesday, all were present except the Governor. The next day the commissioners went by motor boat from Rehoboth to Fenwick Island and viewed the lands. Then it was agreed to lay out the boulevard. This will be done by Engineer Gum. The Public Lands Commission, a permanent body, was created at the last session of the Legislature. The members were named in the bill and following the enactment, Mr. Gum was engaged as engineer.

President Wilson's Loss

The sympathy of the entire nation has gone out to President Wilson in the hour of his bereavement, in the death of his wife at the White House last Thursday. Mrs. Wilson, since coming into prominence as the first lady of the land has endeared herself to everyone, and the nation has united with the stricken family in grieving for the dead.

Mrs. Wilson was Miss Ellen Louise Axson, daughter of a Presbyterian clergyman, and was born at Savannah, Ga. She was a student at the New York Art League when she met Mr. Wilson, who was then taking a post graduate course at Johns Hopkins University. The President and Mrs. Wilson were married June 21, 1885.

A landscape gardener of recognized ability, and a painter of equally well recognized ability, Mrs. Wilson devoted much of her time to artistic subjects. She took direct personal charge of the gardens at "Prospect" during Mr. Wilson's career as president of Princeton University, and also of the White House gardens. Having passed much of her time outdoors, she had the appearance of what is called "an out-doors woman." Her skin was smooth and girlish.

Mrs. Wilson's indoor life had been devoted to books and artistic pursuits. Her paintings have been placed on exhibition in New York, Philadelphia and Washington and they have taken prizes in competitions. As "the first lady of the land" she was ever ready with advice and material help, including responses to demands on her time, wherever a good cause might be served.

Her domestic life is described as having been attractive and typical of that of a woman of her cultured class. She had a knowledge of the domestic arts, and was a good cook. It is related of her that she liked to prepare dishes, or have them prepared under her personal supervision for the President.

Choose Your Reading Carefully

In every home, where keeping abreast of the world's progress day by day is regarded as an educational duty as well as a pleasure, the Sunday newspaper ought to be a welcome visitor. In discriminating homes, particularly where there are young people whose tastes and opinions are largely molded by what they read, as much care and judgement should be exercised in the selection of a Sunday newspaper as in the choice of books. We commend "The Philadelphia Sunday Record" to our readers as a paper that is as clean as it is conscientious in the presentation of the news; as varied in its appeal to every member of the family as it is vigorous and as indispensable as it is interesting.

The characteristics that have popularized the daily issues of "The Record" are the backbone of the Sunday issue. Its news pages cling to "Record" standards of accuracy, conciseness and readability. The features that give the daily its place of pre-eminence in the household are enlarged and amplified on Sunday; the columns devoted to woman's interests, fashions, science and domestic arts grow into pages, and new departments, covering the best of current humor (in black and white and color) and fiction, are added. The illustrated Sunday Magazine alone, with its weekly grist of high-class stories and articles by leading writers, is worth more than the price of the paper.

"The Sunday Record" is a bigger and better daily "Record," built up on the safest and soundest lines of Sunday journalism, with the idea that the intelligent reader, having more leisure for literary entertainment on Sunday than any other day, looks to its quality as well as its quantity. When we say that daily "Record" quality is maintained in "The Sunday Record," that is the highest praise we can give it.—Adv.

Good Roads And Rural Schools

The rural population is more willing to support better schools today than at any previous time. It is being realized that all educational activities or agencies must be more or less correlated, and more than all else, that they must be made accessible to the children. In many counties where bad roads prevail, most of the schools are of the antiquated one-room variety. They are usually located along bad roads, which, during the winter, when the schools are usually in session, become so nearly impassable as to make it difficult for the children to reach them. This condition causes irregular attendance and restricts the educational opportunities of the child. Not only this, but it often impedes the economic consolidation of these smaller schools into larger, stronger graded schools, with high-school courses directed by a competent principal and corps of teachers, according to the Office of Public Roads.

On the other hand, in counties which have improved their roads the schools are easily reached, the average attendance greater, the efficiency largely increased, and economic consolidation made possible. Regular attendance at school means consistent and regular growth of both school and pupil, and consolidation of schools means a maximum of efficiency at a minimum of cost. It is also noteworthy that there is a marked tendency for

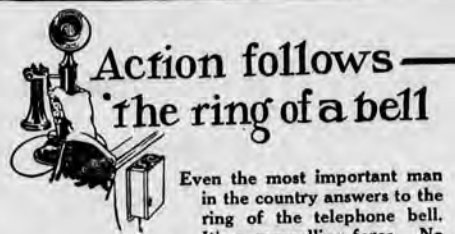

the consolidated school to become the social and intellectual center of the community. Most modern rural schoolhouses are so constructed as to serve the community as gathering places for various kinds of public meetings and where vans are used to convey the children to school during the day they are frequently pressed into service to haul the farmers and their wives to institute work, lectures, or entertainments at the schoolhouse. The consolidated school becomes a sort of community center to which all educational and social activities converge, and in order that it may properly perform that function all of the highways leading to it should be so improved as to render it readily accessible throughout the year.

It Can Be Done

That's goin' to fail, it will not work
It can't be done—oh, fie
On the pessimist lifting his weary
At all that the world would try
Never a great event begun
But the same old cry was heard—
On with the beautiful dream, my
son,
Nor list to the croaking bird.

It can't be done and it will not work,
And that will fail—begone!
It's the will to trust and the faith to try
That shall keep us rolling on;
That shall keep the might forces
fresh
And the revelations new,
And lead to the time when in the
flesh
The dreams of the soul come true.
—Bentztown Bard.

If you don't do your share of work in the world the chances are that someone else will have to do it for you. But you won't draw his overtime or secure his promotions, or those that might have been yours had you tried.
There is a good deal of justice in the world, regardless of what the croakers and malcontents may tell you, and the shirker, in dodging his work, misses his pay which goes to a better man, who will probably prosper and be called a thief because he attended to business and was industrious and polite.
His compensation lies in the knowledge of work well done, as well as the material reward, and somewhat, perhaps, in the fact that the opinion of his detractors may not be so important after all.

Action follows—
The ring of a bell

Even the most important man in the country answers to the ring of the telephone bell. It's a compelling force. No one knows what that little tinkling bell may mean to him—what the message which it announces will bring forth.

The electric energy for the curious, questioning, calling telephone bell is supplied by a little mechanism in nearly all Bell Telephone central offices, called a ring machine.

There are ten or more styles of telephone calling bells ranging from a little tea bell to a ten-inch fire gong and including sleigh bells, cow bells, wooden ringers, etc. This is an indication of the Bell System's efforts to provide satisfactory service from every standpoint, and it is one of many things that makes Bell service the most efficient telephone service in the world.

When you telephone, smile!

GRANGERS PICNIC AT THE SPRINGS

Boost The New Women's
 College

Field Day at Brandywine
 Springs, the annual picnic of the
 eleven granges of New Castle coun-
 ty, attracted many of our farmer
 friends to the popular park last
 Saturday. Fully 3,000 persons
 were present. An interesting pro-
 gram was presented.

Following a short address in
 which he expressed pleasure at
 seeing so many grangers and their
 families present and interested in
 the organization's work, Frank C.
 Bancroft, State Master, introduced
 Mr. Wilson of Peoria, Ill., National
 master of the Patrons of
 Husbandry, whom he said has been
 a tireless worker in the interest of
 the nation's farmers.

Taking as his subject "Grange
 Work and Education," Mr. Wil-
 son delivered an able address. He
 declared that the remarkable pro-
 gress made in farming during the
 past few years has been due in
 large measure to the efforts of the
 national grange.

"When some historian writes the
 history of agriculture at a future
 date he will be in honor bound to
 tell of our fight for better things
 and of the results we have obtained,"
 Mr. Wilson said. "The
 grange stands for a square deal.
 It wants every citizen to have an
 equal opportunity. It believes that
 all-powerful corporations and
 humble workers should obey the
 law and is against all forms of
 special privilege."

"Progress, advancement, enlight-
 enment are the results of educa-
 tion. Every farmer's boy and
 girl should receive the best educa-
 tion it is possible for them to secure
 to the end that they may be good
 citizens. Education should be
 practical. The boys should be
 taught how to farm and the girls
 how to be home builders. I remem-
 ber the story of the teacher who
 called up three little girls in her
 class and asked them what they
 meant to be when they reached wo-
 manhood. One said she hoped to
 be a dressmaker, the second wanted
 to be a milliner, and Mary said
 she was not going to be anything,
 as she proposed to get married.
 That is what we want farmers'
 daughters to do, to get married
 and be home makers."

"The State of Delaware has just
 taken a long step forward by es-
 tablishing a college for women. Let
 us urge the daughters of every
 granger to go there and study do-

mestic science. It will be worth
 your while. It may be well for
 young women to know the dead
 languages, but the knowledge of
 how to prepare a tempting whole-
 some meal is worth more. It may
 be well for the farmers' boys to
 understand cube root, but I would
 rather have them possess informa-
 tion about corn and clover root.

Delaware is small, but her re-
 sources are unlimited, and it is
 you grangers who have been most
 active in creating the wealth with-
 in her borders."

Following Mr. Wilson's address
 the audience sang "America," af-
 ter which Mr. Bancroft introduced
 Mr. Marvel, who spoke in part
 as follows:

"Every American citizen in this
 nation today should be proud that
 he lives under the American flag.
 I believe every one in this audience
 will so feel when he stops and
 thinks of affairs in Europe. We are
 in the beginning of the most disas-
 trous war in history—the conflict of
 the ages which will shake the founda-
 tions of civilization. The hands
 of the clock of progress have been
 set back a hundred years. Men are
 marching to death, cities will be
 destroyed, empires laid waste at
 the nod of crowned heads. Mark
 my words—at the nod of crowned
 heads millions of men will leave
 their homes and fight one another.
 Such a condition is frightful. Con-
 trast the state of affairs in Europe
 with the situation here. All Euro-
 pe is an armed camp; peace and
 plenty are our possessions. We
 should be happy that our Presi-
 dent was cool, and yet firm, when
 trouble threatened with Mexico.
 We should rejoice that a man of
 peace is our leader."

State Master Bancroft aroused
 much enthusiasm when he an-
 nounced that Delaware is to enter-
 tain the National Grange at the
 1914 convention next November.
 More than 5,000 grangers will
 come to Wilmington from all parts
 of the United States. The farmers
 will spend ten days here and will
 visit all parts of Delaware. The
 preliminary plans will be worked
 out at an early day by a committee
 representing the national body and
 State granges.

The picnic not only attracted
 Delaware grangers but those from
 Chester, Pa., Pennsboro and Cam-
 den, N. J., as well. John Garwood
 headed the last named delegation.
 Music was furnished by orchestras
 from Hockessin and Harmony
 granges. At noon a picnic dinner
 was served.

The executive committee for the
 day consisted of Hervey Walker,
 Horace Dilworth, William McCoy,
 William P. Peach, Charles Meg-
 ginson, Steven Armstrong, E. A.
 Evans, J. A. Weldin and Eugene
 Shallcross.

Members of the Committee on
 Arrangements were: Hervey Walk-
 er, William McCoy, Horace Dil-
 worth, William P. Peach and R. G.
 Buckingham.

A Stranger's View

To the Editor: Sir.—I am a stran-
 ger in your town and have been im-
 pressed with its rural beauty. Last
 Sunday evening I attended the ser-
 vices on the College steps. You
 have a grand opportunity in these
 services and a greater effort should
 be made to attract the attention,
 not only of the residents here but

the traveler who might be resting
 here over Sunday. A great im-
 provement can be made in the
 singing. There seems to be no regu-
 larity or system. Each piece was
 sung off pitch and I noticed, tho
 you have many sweet voices (and I
 judge that many have come down
 from the Welsh, the grandest, most
 natural voices among the human
 race), but it is impossible to pitch
 a tune for chorus or congregational
 singing without a fork. Good sing-
 ing attracts while voices singing
 not in unison repels the passerby.
 You have the talent, and I would
 suggest that something be done to
 bring the young people of the town
 together at these services. The one
 who is to lead in the singing should
 stand facing the congregation,
 pitch each piece, and train the peo-
 ple to sing to his beat, then you will
 get harmony and sweetness. A
 good plan would be to have a corn-
 et lead, facing the singers. These
 services can be made a power for
 good in the community.

I shall end, and hope to attend
 next Sunday.

An Observer.

It Couldn't Be Done

The following verses struck us
 as especially appropriate to our
 shop. The girls and boys of the
 Newark Post are putting things
 over every day that "couldn't be
 done." Just last week one of these
 things came up. As usual,

"He started to sing as he tackled
 the thing
 That couldn't be done—and he did
 it."

IT COULDN'T BE DONE
 Somebody said that it couldn't be
 done,
 But he with a chuckle replied
 That "maybe it couldn't," but he
 wouldn't be one

Who wouldn't say so till he'd
 tried.
 So he buckled right in, with a trace
 of a grin

On his face. If he worried he hid
 it.

He started to sing as he tackled the
 thing
 That couldn't be done—and he
 did it.

Somebody scoffed: "Oh, you'll
 never do that—"

At least, no one ever has done it"
 But he took off his coat, and he took
 off his hat,
 And the first thing we knew he'd
 begun it.

With a lift of his chin and a bit of
 a grin,

Without any doubting or quiddit
 He started to sing as he tackled the
 thing

That couldn't be done—and he
 did it.

Concerning Your Eyes

Good eyesight is essential to health and comfort. Eye
 strain uncorrected leads to nervous disorders and is a factor
 in causing many reflex disturbances.

"Tired, aching eyes, frequent pain over the eyes or heads
 aches are some of the indications of eye strain. At other
 times the eyes give no indication themselves of strain, but
 endeavor to keep up the demand upon them, by using the
 reserve accommodative power until they give out."

GLASSES RELIEVE EYE STRAIN

Success in relieving eye strain depends entirely upon
 the skill of the practitioner who prescribes the glasses. Our
 Optometrists are experienced and capable.

Pencader Farmers Organize

(continued from page 1)
J. R. Robinson, president; W. H. Bland, vice-president; J. W. Sudard, secretary and treasurer. An executive committee of three was elected—John Holloway, Chas. H. Jarmon and Thomas Green.

In view of the fall phosphate question it was decided to hold another meeting on next Tuesday night. Farmers in immediate vicinity are invited to attend. While the name is the Northern Pencader farmers, it does not bar those from White Clay who would do the hauling to and from the same shipping point.

The organization is one of simple business co-operation—the application of better business methods to the farm.

The Constitution adopted at the meeting follows:

Northern Pencader Farmers' Co-operative Club

NAME: The name of this organization shall be the Northern Pencader Farmers' Co-operative Club.

OBJECTS: The objects of this organization are to develop the agricultural resources and to foster the best commercial, social and material interests of Northern Pencader Hundred farmers.

MEMBERSHIP AND DUES: All persons are eligible to membership by paying the membership fee of \$1.00 per year.

OFFICERS: The officers of the club shall consist of a President, Vice-President, and Secretary and Treasurer, all of whom shall be elected from the membership of the organization at the annual election, and shall serve for a period of one year. The officers shall serve without compensation, and until their successors shall have been elected. Five members shall constitute a quorum.

EXECUTIVE COMMITTEE: There shall be an executive committee of three members elected by the club who shall act in conjunction with the President and Secretary and Treasurer.

DUTIES: The President shall perform such duties as usually pertain to the office of President. He shall preside at all meetings of the members of this club. He shall have the power to fill such vacancies as may occur in the executive committee. He may call meetings of the club or of any committee, whenever he deems advisable or upon the application of three members of the club when the demand is made in writing setting forth the object of the meeting.

VICE-PRESIDENT shall perform the duties of the President in case of his absence or disability.

SECRETARY AND TREASURER shall perform such duties as usually pertain to the office of Secretary and Treasurer. He shall attend to all correspondence for the club, postage and stationery being paid for out of the club dues. All correspondence he receives in answer to letters pertaining to club matters shall be kept on file subject to inspection by any member upon request. He shall have general charge of the funds and shall render monthly reports of receipts and disbursements. His accounts are to be audited semi-annually by an auditing committee, appointed by the President.

The members of the Executive Committee shall make it their special business and buying farm produce, fertilizers, feed, lime, coal and machinery, reporting the results of their efforts at every monthly meeting of the club.

MEETINGS: This Club shall hold regular meetings on the first Tuesday evening of each month at 8 o'clock, in Welsh Tract School House. Special meetings may be called by the President as before stated, provided every member is notified by phone or card by the Secretary, three days before the meeting. The Executive Committee shall meet monthly, one week prior to the regular monthly meeting of the club. The Annual Election shall take place at the regular August meeting.

ORDER OF BUSINESS: The order of all business at the meetings of this club shall be as follows:

1. Roll Call.
 2. Reading minutes of previous meeting.
 3. Reports of executive or other committees.
 4. Secretary and Treasurer's report.
 5. Report or suggestions for improving the method of work.
 6. New Business.
 7. Adjournment.
- (Annual Meetings only)
9. Annual Report of Officers.
 10. Annual Election of Officers.
 11. Adjournment.
