#### Review Attempts To Arouse Interest In Politics At Delaware

Three Students Give Their Opinions Of The Leading Candidates; Straw Vote Held In Conjunction With College Humor

Due to the nation-wide interest in college circles in the Presidential election this year, and co-operating with the College Humor's national college straw vote, The Review is taking a straw vote of the University of Delaware to find out how the students stand on the political ques-A sample ballot will be found on this page, which The Review reon this page, which The Review requests that you fill out and return before Wednesday. Below are views held by some of the students on the three most prominent candidates: Hoover, Smith and Thomas.

#### WHY I FAVOR AL SMITH By Howard Stein, '30

I favor Governor Smith because he is a Democrat and a liberal in the truest sense of the word. He believes in the intelligence and the honesty of the masses of people, so much so, that they are always his court of last resort, not only when an election is on and he is a candidate for office, but every time a great issue arises he naturally goes to the people them-selves for guidance and support. He never appeals to their passions or unworthy ambition. He is one of the few great leaders of masses in all history who does not stoop to the tactics of a demagogue. No political leader in the world today has such capacity for mass leadership as he.

I favor Governor Smith because I think it would be helpful to put the liberal party in power. Perhaps it was just as well, with the restlessness succeeding the war and during the learn up poried that we had a conclean up period, that we had a conservative administration. A conservative party must naturally be a party of inaction in new fields. Now, I think it is time to try again the initiative of liberalism. The conservative cannot help being the party of the people who have. It cannot help, for the same reason, being somewhat insulated from the people

who have less.

Our position in the world will be aided by the election of a liberal party now. Since the war international progress has been largely made by liberal parties. No advance could have been made had the Nationalists been in power in Germany. Little would have been made Herriot broken Poincare's determined and conservative resistance. There is less suspicion and more sympathetic co-operation inherently between the liberal parties of the world than between the conservative ones. Confidence, not suspicion, is the attitude of liberals.

#### THE SOCIAL COMMITTEE

At the meeting of the Social Committee, held in the Library on Wednes day night, the Committee decided that no date would be given the Review for its annual dance. The representatives of the Review presented the following statements for the consideration of the Committee:

"The Review gives a dance each year for two reasons: the first as a reward to the members of the staff; the second, for financial reasons. The members of the staff have nothing to show for work performed since the Review does not give charms or other rewards to staff members. They have no banquet or other social function. The dance held last year was a financial failure since we had a deficit of \$21.65, but Mr. Wilkinson, who has charge of the finances of the Review, did not consider this deficit as a serious one and is in favor of our holding another dance this year. This scriminantly. He hasn't lampooned dance will be conducted along different lines and we are sure that there will be no deficit.

"The Review dance is an All-College dance, and by omitting it from the in the running. Will Rogers refuses Social Schedule, the Social Committee will be showing favoritism to organiza- to lay bricks or to kiss babies. He tions whose social functions are exclusive."

In answer to the first paragraph a member of the Committee suggested he hasn't a place to sleep-I mean that all members of the Review staff be paid a bonus at the end of the year. When the editor assured him that the idea would never meet with the approval of the Publications Committee, he offered a further suggestion that there is an element of seriousness. the members of that Committee be paid the same amount that the staff members received!! The question is not one of pecuniary reward. A dance, at which they would receive social recognition as well as a certain amount of pleasure, is the only reward that they desire for their efforts in trying campaigns, and cocktails. Nothing is to make this a better Review.

The Committee believes that the number of dances held each year at excitement of a political campaign. Delaware should be restricted. The Review does not agree with this idea. The best method of keeping students on the campus over the week-ends is by holding dances. The chief cause for the lack of school spirit at Delaware is the large number of commuters who regard the college as a place where so much work has to be done. When this work is finished they immediately The fellows who spend every week-end in Wilmington are almost as bad as the commuters. Yet who can blame them? Can any one find a deader place than Newark on a week-end where no dance is being held? The main point is that if the majority do not attend a dance in Newark they attend one in Wilmington. We defy the Social Committee or anyone else to show us a fellow who studies on Saturday night. Therefore, is it not better to have the students attend a dance in Newark with faculty members as patrons than to have them go elsewhere for their amusement? Moreover it is an acknowledged fact that there is more disorderliness among the few fellows who do spend a danceless week-end in Newark than ever takes place among the many who are present when a dance is held. A dance every week-end would keep the students on campus, would provide entertainment and would keep them out of mischief. A curtailment of dances would force even more students off campus and would do even more to destroy school spirit than has ever been done before. Furthermore, we are positive that all this would take place without an improve ment in the scholastic standing of a single student.

The Social Committee believes that, since the number of dances should be restricted, the organizations which have not held dances before last year should not be allowed to have them this year. In this way the Committee Y. M. C. A. It has been the desire very cleverly attempts to excuse itself for having refused dates for All- of many students to express their College dances without in any way restricting fraternity dances. They did, feelings or to view their opinions on O'ed last Thursday night. Hoover's however, mention the fact that some time in the dim, distant past the Com- many subjects. These desires result supporter, Dick Rinard, assisted in mittee had reduced the number of fraternity informals from two to one each in a meeting which will be held in administering the coup d' grace. year. While the editor does not doubt this statement, he has been unable the Lounge Room on Tuesday, Octoto find a single student who can remember this change. Therefore he con- ber 16th, at 7 o'clock. As it will be siders that ruling to have been passed so long ago that it has no bearing thrown open for discussion, it is whatever on the present question. The fact that there is no dance open to hoped that those attending will bring non-fraternity men from October 6, 1928, to January 5, 1929, was received with them many interesting and apwith apparent indifference by the Committee.

The Committee stated that the taxpayers of the state demand a limitation of dances held at Delaware. The Review wonders if the taxpayers of TED DANTZ, '22 TO the state would approve of the undemocratic methods the Committee is using in attempting to carry out this demand. The chief reason the taxpayers give for limiting the number of dances is the effect that dances have on the scholastic standing of the students. The Review maintains, however, that if a student cannot put enough time on his work during the week to pass his courses the extra time over the week-end would be of little help to him.

The Review rests its case. It believes the Social Committee to be wrong both in restricting dances and in its undemocratic method of carrying out Newark, at 6:30 o'clock, Saturday this restriction. We have little hope of the Committee's changing its decision for the Social Committee, like many such committees, is desperately afraid of losing some of its prestige. We do, however, present our case to the faculty and student body at large and leave it to them to judge whether or not the Review has received a square deal.

#### OUR NEW SPORT POLICY

After the pepfest last Friday night, the editor interviewed Coach Rothrock in order to find just what he disapproved of in our sports' write-up. He claimed that it showed partiality to certain members of the team and have a host of friends among the was more enthusiastic than it should have been. When asked how to remedy this, he suggested that the assistant managers write the sports articles in the Review. The editor agreed that this was a very good idea, so starting During the basketball season Dick Rinard will serve as basketball editor, During the basketball season Dick Renard will serve as basketball editor, while Wilkins Cooch will take care of the baseball news. By this arrangement the Review can be certain that all the sports news will be authentic and the Coach can be certain that no player will be given undeserved publicity.

It is the earnest desire of the present Review staff to support the teams through the paper. We want to do our share in arousing spirit and in keeping the student body in back of the teams at all times.

#### Drexel Downs Dela. In First Game

(Continued from Page 1.)

Ace was thrown for a loss and Dela-ware was again forced to punt, Ace getting off a long one. Here Drexel started the offense which resulted in their final score. Line bucks, end The try for point was missed. During this offensive the Redmond brothers had little difficulty in negotiating

Drexel kicked off and Delaware gained 15 yards on a criss-cross, Taylor to Hopkins. Drexel's line held and Taylor punted 50 yards to Drexel's 25 yard line. Drexel gained through the line and the quarter end-ed with a punt to our 35 yard line. The fourth quarter was played en-

tirely in Delaware territory on about equal terms. After several exchanges of punts the ball was zigzagged for the rest of the game. Drexel did not threaten as Coach Halas had sent in his substitutes, but Delaware could not get an offensive started. In the last minute of play Taylor threw a of the longest Delaware gains of the day. The game ended with the ball twenty-two members who displayed in Delaware's possession on the 40 their talent on the soccer field, and long pass to Captain Glasser for one

The lack of experience and co-ordination was the evident trouble with Coach Rothrock's men, condi-tions which wil probably not exist for the remainder of the season. Dela-ware played the usual hard fighting game but Drexel's experience was not to be offset by determination. Taylor's punting was a feature, as he averaged well over 40 yards. Delaware completed three out of eight the ball to the line, which was, incipasses, while Drexel completed three dentally, coached by "Gummy" Colout of six. Penalties totaled 55 yards line, the quick, unrivaled linesman of for Delaware against 25 yards for the team. How they lined up:

#### WIDESPREAD INTEREST IN MANY SPORTS

The new interest taken in all forms of athletics by the students of Delaware is an encouraging sign. Graduate Manager Doherty, a short while ago, brought this fact to the attention of the Review.

About seventy men are out for foot ball alone. This number is nearly double that of previous years. It will be remembered by older men that the coaches in past years had a job on their hands when they wished to collect enough men to make a scrub team for scrimmage with the varsity.

Soccer, one of the newer sports has taken a tremendous jump in appeal to students. Twenty-eight men report for practice every afternoon. It is rumored that this sport may assume major proportions in the future A larger and better schedule has been completed, and we are looking forward to a real season.

Fencing, the baby of athletics at

Delaware, has a squad of twenty men. This sport also has a fine schedule, and plenty of good matches are prom ised. It will be remembered that the last year's fencing team made an en

viable record. Twelve men have shown their wil-

lingness to start a golf team. Hence a total of 120 men are out for some form of sport. This numruns and one completed pass out of three attempts accounted for four first downs and the third touchdown.
