NEWARK POST

VOLUME V

NEWARK POST, NEWARK, DEL., SEPTEMBER 2, 1914

NUMBER 32

TOURISTS RETURN

Mr. and Mrs. Evans Of Newark Arrived Yesterday

Mr. and Mrs. Charles B. Evans, who left in July for a trip abroad and who were in Stockholm, Sweden, when the war broke out, where they were compelled to remain for ten days, arrived home last night. While they saw many signs of the great war that is now going on, especially in England from where they sailed for this country, Mr. and Mrs. Evans did not have any of the thrilling experiences that fell to the lot of thousands of American tourists.

The trip of Mr. and Mrs. Evans was cut short because of the war and in fact they had been in Sweden but a short time when war broke out. In discussing their trip last night Mr. Evans stated that when they landed at Hamburg, Germany, there was much excitement, it being just at the time that Austria had made demands on Serbia. They did not think, however, that there would be a war and after a day or so in Hamburg left for Copenhagen.

Before going to Copenhagen, however, they sent their trunks to Berlin, taking only their suitcases with them to Sweden, as they expected to return to the capital of Germany in a short time. That was the last they ever saw of their trunks as they went from Copenhagen to Stockholm and it was while in that city that war was started.

Mr. Evans said they did not suffer many discomforts in Stockholm although they were compelled to remain there for 10 days. For three days the banks were closed but after that it was not hard to get money on letters of credit or express checks. The greatest worry in Sweden was in finding a way to get out of the country and to England. After the ten days they went to Christiana where there were 60 American tourists who chartered a boat for New Castle, England. This was a trip of 52 hours and was without mishap.

Mr. Evans explained that the principal reason many of the tourists met with hardships was because of them rushing to get the first boats and of course all could not be accommodated. They were five days in England, landing at New Castle in the chartered boat on August 17 and sailed from Liverpool on the steamship Franconia, of the Cunard Line, August 22. The mobilization of troops could be seen everywhere in England and there was much excitement there among the English people.

The trip from Liverpool was also without mishap. The Franconia, however, was in total darkness every night. They landed at Boston on Sunday and after a stop in New York, arrived in Newark last night. Many friends of Mr. and Mrs. Evans called on them last night to congratulate them on their arrival without any serious trouble.

Biddle Reunion

Thomas Biddle having come to the seventieth mile stone in his life, had a gathering of all of his children and grandchildren at the home of his son John Biddle, Porters station, on Thursday, August 27, where a large dinner was prepared. He received many handsome and useful presents. While the guests were gathered around they made him feel very grateful. When it came near time for them to depart to their several homes dainty refreshments were served. Among those present were Mr. and Mrs. William Walker and children, Raymond Gilbert, Eddie Albert, Herbert, Clarence of Porters; Mr. and Mrs. Edgar Stanart and children, Edgar and Frances of Newport; Mr. and Mrs. J. H. Roach of Newark; Mr. and Mrs. Howard Bolton and children, Elkton; Mr. and Mrs. John Biddle and children and Mrs. Ella Biddle.

Newark Schools Open

The public school opened on Monday of this week and the plan of work was soon outlined. The new books needed were all ordered during the summer, thus preventing much delay heretofore experienced. The report of number of students has not been given out yet but it is thought the number will equal last year.

Miss McKee, the new teacher, elected in the overflow department to succeed Miss Stotz, resigned, is ill with typhoid fever at her home in Kent county. Miss Kirk is substituting in this position. She is a graduate of West Chester Normal and a friend of Miss McKee, who presented her name to the Board.

Peach Crop At The Farm

There is some peach crop down at the State Farm. Those who have viewed the orchard speak of it as a blue ribbon.

Not only is the appearance exceptional, the goods are being shown. Last week the pickings averaged 200 baskets a day. This week, Monday, 700 baskets, Tuesday, 400 baskets, with prospect of 400 today. It is estimated now that the crop will reach 5000 baskets.

The bulk of the crop is made up of Belle of Georgia, Elbertas, and few Champions.

Aside from this is the variety orchard where almost every known variety is being tried out. This includes the experiment on tangerines.

The appearance and quality of the fruit is exceptional.

Director Hayward and Professor McCue are justly proud of this crop which is attracting so much favorable attention.

Engagement Announced

Mr. and Mrs. Leonard Lovett have announced the engagement of their daughter, Mae F. Lovett, to Mr. Thomas C. Cooper of Wilmington. Mr. Cooper is well-known here. He is with the Delaware Trust Company of Wilmington.

Scholarships At Delaware

The scholarship of \$100 offered by the Harvard, Yale and Princeton Clubs of Delaware, to a Delaware boy at Delaware College, has been awarded to Robert Sunwalt of Lewes, Delaware. He is a graduate of the Lewes High School, class of 1914, and was valedictorian of his class. He will take the Civil Engineering course. He is very highly recommended by Professor Messersmith and Professor Ennis and by many prominent citizens of Lewes.

Notice of this scholarship was given in the Post some weeks ago. At a meeting of the University clubs mentioned it was decided to raise an endowment fund, the income from which was to be an annual scholarship for a Delaware boy at Delaware College. Dr. Syphard, professor of English, a Harvard man, was active in this innovation and was appointed as a member of the committee to carry out the idea.

Rumor has it that this is only the beginning of a series of scholarships to be offered at Delaware.

P. O. Fixtures Arrive

The new Post Office fixtures arrived this week and will be erected at once. The accommodations will be vastly superior than heretofore. Post Master Brown hopes to be installed in his new quarters within the next ten days.

Bessie Patchen

Winning Again

Bessie Patchen, the local idol among lovers of horse flesh featured at a matinee in Wilmington on Monday, winning two out of three. The time of the last heat is recorded 2.13 1-4.

Bessie will be at the Fair and her admirers expect her to repeat her last year's record.

REPUBLICAN CONVENTION IN SESSION

MILLER NAMED FOR CONGRESS—CHARLES LUFF, OF DOVER, FOR STATE AUDITOR—WILLIAM J. SWAYNE, OF BRIDGEVILLE, FOR STATE TREASURER

For the purpose of selecting the nominees for Representative in Congress, State Treasurer, Auditor of Accounts and a new State Committee, the Republicans of Delaware are meeting in State Convention at Dover this afternoon. At 3.30 o'clock the indications were that the following ticket would be named:

REPRESENTATIVE IN CONGRESS—Thomas W. Miller, son of Governor Charles R. Miller, and now Secretary of State.

STATE TREASURER—William T. Swayne of Bridgeville.

AUDITOR OF ACCOUNTS—Charles Luff of Dover.

The nomination of Secretary of State Miller, for Congress seemed assured early this afternoon as he had been endorsed by both the New Castle and Kent County Caucuses which would give him sufficient votes on the floor of the convention to assure his nomination.

The Sussex county delegation in caucus endorsed John G. Townsend of Selbyville for Congress and this action was taken notwithstanding the

THOMAS W. MILEER
Republican Candidate for Representative in Congress

announcement made by Mr. Townsend some days ago that he would not be a candidate and speaks well for the popularity of the Selbyville leader. Mr. Townsend appeared before the caucus and told the delegation that it was entirely up to them as to whether or not his name should be presented before the convention this afternoon. It was anticipated that the Sussex delegation would insist in the presentation of his name before the convention.

The leaders were late agreeing on the platform to be presented to the convention and the full text of it had not been released at an early hour this afternoon. Former Governor Simeon S. Penne made it certain that Kent and Sussex would insist on the remaining two nominations. The Kent caucus failed to agree on a candidate for Auditor of Accounts and it was reported that the caucus had decided to present the names of Theodore W. Townsend of Milford, Charles Luff of Dover, and George M. Fisher of Wyoming on the floor for this office.

(continued on page 8)

Fell From Load Of Hay

Thomas Alexander, aged about 65 years, employed on the farm of Gustavus Smith near Strickersville, was seriously injured yesterday afternoon when he fell from a load of hay in front of Chambers blacksmith shop. The street had been dug up at that point for a sewer connection and in going over it the wagon was jolted to such an extent as to cause Mr. Alexander, who was driving, to fall off. He struck his head in falling, making a wound that required 14 stitches to sew up. Dr. Charles H. Blake sewed up the wound and had the injured man sent to his home.

Kandy Kitchen Sold

The many friends of Manuel Paneretos will be glad to hear that he has returned to Newark and will take charge of the Newark Kandy Kitchen. The transfer of the business was made Monday of this week. It will be remembered that Mr. Paneretos started the Kitchen three years ago and after a few months was called back to Greece on account of the war in the Balkans.

He tells an interesting story of the war. While he does not regret his return to defend his country he says he is glad to get back to America. After the horrors and suffering of that long campaign, he makes a strong peace advocate.

Mr. Paneretos is busy fixing up the Kitchen and hopes in a few days to be ready to make his famous home-made candy for the trade.

Before returning to this country he was married and will reside in Newark.

Pleasant Outing On Elk River

"Camping de luxe" would best describe the week-end outing of a number of young people at R. B. Frazer's cabin on the Elk River, several miles below Elkton. The party left on Friday, some motoring the entire distance from Newark, others as far as Elkton, completing the trip from there to camp by motor boat. All manner of sports and amusements were indulged in—bathing, rowing, motor boat trips to Chesapeake City and Elkton, marshmallow roast, watermelon supper, dancing, etc. All thoroughly enjoyed the outing, and none more so than "Teddy," the pup mascot.

Those in the party were: Misses Lydia and Winnie Fader, Katherine Steel, Alberta and Katherine Heiser, Violet and Eleanor Fader, Marie Chambers and Helen Fader of Baltimore, Md.; Mr. and Mrs. A. F. Fader; Messrs. H. E. Bounds, Morris Mitchell, Wilbert Ramsey, J. R. Shultz, Raymond Fader; William and Joseph Shaefer, Chesapeake City, Md.; and Edward Vogt, Philadelphia.

Sunday visitors to camp were Mr. and Mrs. Walter Carlisle, Miss geesaman, Mr. and Mrs. John Walker, Mr. and Mrs. A. C. Heiser, Mr. and Mrs. George Lovett, Mr. and Mrs. Geo. W. Griffin, W. R. Powell and Reese Griffin; Mrs. Jos. Shaefer and children, Katherine and John, and Margaret Shaefer of Chesapeake City, Md.

Local Man On Socialist Ticket

William H. Conner of near Newark was named as candidate for Congress by the Socialists on Monday evening at Wilmington headquarters.

Mr. Conner is well known in this vicinity. He is a graduate of Delaware College, Wilmington Attorney-at-Law and ran for Representative from Pender Hundred on the Democratic ticket two years ago when he was defeated by Harry McCormick, Republican.

Mr. Conner has been in New York the past year taking up work in the Socialist propaganda.

The Socialists this year have come out with a full ticket. Candidates for the other offices are all from Wilmington.

REPUBLICAN CANDIDATES

Many Lively Contests In Prospect

Republican candidates were compelled to file their names with the Republican city and county committees by midnight last night in order to be voted for at the primaries, Saturday, September 12, and while the complete list is not given, the number of those that had filed at a late hour insures many contests. This is the list:

Sheriff—Harry J. Stidham, Theodore W. Francis, James H. Callaway.

Coroner—James F. McIvor, Alexander E. Guthrie, Jacob E. Smith, John T. Spring, Sr., Alfred D. Vandever, Francis H. Lattomus.

Recorder of Deeds—A. V. Leslie-George, Irvin L. Ball.

Register of Wills—Lester R. Brown, William Lyons, Jr.

Clerk of Orphans' Court and Register in Chancery—Joseph C. Jolls, Frank P. Ewing.

Some of the other candidates are: Levy Court—Second district, James Keenan, William T. Purks; Fourth district, Benjamin A. Groves, W. J. Hilyard; Sixth district, Thomas S. Fouracre.

Senators—First district, James B. Hickman, Andrew Cross; Third district, Thomas J. Stirling; Fifth district, John P. Armstrong, Harvey Hoffecker, and John G. King.

Representatives—First district, Walter Rash; Second district, Chas. H. Grantland; Third district, Henry C. Downward; Fourth district—; Fifth district, William N. Lank; Sixth district, George W. Webster; Seventh district, Henry C. White, John Gains, Harvey Williams; Eighth district, C. Canby Hopkins, B. L. Dickey; Ninth district, Arthur S. Houchin, Charles P. Dickey, John F. Richards; Tenth district, Harry P. Ahern, Harry Hance; Eleventh district, William H. Evans; Twelfth district, Joseph N. Reeves, Fred D. Bender; Thirteenth district, Clarence Poole.

The candidates had filed in the Fourteenth and Fifteenth districts.

Civil War Veteran Dies

Col. Philip H. Ellis, U. S. A., retired, a brother of the late Dr. Charles M. Ellis of Elkton, died at Atlantic City on Thursday morning, after a protracted illness, aged 72 years. He served as a volunteer cavalry officer in the Civil War and at its close was appointed a second lieutenant in the regular infantry, rising to the rank of colonel. He was wounded at Santiago in the Spanish American War and retired some years later. His funeral was held on Friday with interment in Elkton Cemetery.

Death Of Mrs. Springer

Mrs. Catherine Springer, aged about 45 years, wife of Franklin Springer, a farmer living on the Joseph Rankin farm, near Milford Cross Roads, died Saturday morning, the result of having fallen into a small stream of water near her home.

Mr. Springer missed his wife early Thursday morning and a search was started, but it was not until about noon that she was found, face down, in a small stream 200 yards from the house. Although there was not more than an inch of water in the stream, Mrs. Springer was unconscious, the water having gotten into her lungs.

Mrs. Springer was last seen by her husband at 10 o'clock Wednesday night and at that time she did not complain of being ill. When her husband arose, next morning she was missing. It is supposed that after getting up, early Thursday morning, she wandered away from the house and when alongside of the stream fainted, falling into the water face down.

The funeral was held at the house yesterday afternoon at 1 o'clock; interment at Head of Christiana cemetery.

SCHEDULE FOR SATURDAY

Newark at Oxford.
Rising Sun at West End.
Elkton at Elk Mills.

POST SEASON SERIES

For amateur championship of Delaware between Newark and Baneroff.

First game, September 12.

With the games scheduled for next Saturday the 1914 Tri-County League season will close with Newark the pennant winners. The local club ends the season playing Oxford on the latter's grounds. It was the first season in the history of the league that it did not take the last two or three games to decide the winner and at least two years the season ended with two or three teams tied for first place. This season, however, Newark got away to a fairly good start and after the first month was never again headed. The locals clearly have a team that outclasses everything else in the organization and it was practically assured by the first of August that Newark would get the bunting. A team that can go through this league and lose but three games is going some and that is the record the locals have made to date.

ELKTON WAS EASY

Newark played the last game of the season with Elkton here on Saturday and made it four straight from the Cecil county boys. The game Saturday was easy for the locals they winning out by the score of 9 to 2. Scott started out pitching fairly good ball but his support in the early innings was very ragged and after the second inning the game was a joke because of the visitors' loose fielding.

Jake Hogan pitched another of his fine games, allowing the visitors but four scattered hits and fanning 14. Elkton did not play near as fast a game as West End put up here the two previous Saturdays. The score follows:

NEWARK	R.	H.	O.	A.	E.
C. Beatty, 3b	2	2	1	3	0
Marsey, c	1	0	14	1	0
Jackson, ss	2	2	2	2	0

Whiteman out stepping in front of plate.

A. Beatty out bunted third strike.

SCORE BY INNINGS

Newark . . . 1 5 1 0 1 1 0 0 x-9

Elkton . . . 1 0 0 0 0 1 0 0 0-2

Two base hits, Hogan, Jackson, Ferguson, and C. Beatty; three-base hit, Jackson; sacrifice hits, H. Scott, Marsey and Morris; hit by pitched ball, C. Beatty, Jones, Marsey, 2, C. Beatty; passed ball, Marsey, 2; struck out, by Hogan, 14; by Scott, 1; base on balls, off Hogan 1; off Scott, 3; left on bases, Newark, 3; Elkton, 3; umpire, Gibson.

ELK MILLS DEFEATS WEST END

Elk Mills won their first game for several weeks on Saturday when they defeated West End by the score of 9 to 4. Smickel failed to pitch in his usual form and was also given poor support while Bonnett let the West End boys down with four safeties. The score by innings follows:

Elk Mills 00402003x-9 12 3
West End 000300001-4 4 6
Batteries, Elk Mills, Bonnett and Moore; West End, Smickel and Nichols.

BOOSTS AND KNOCKS

One more game and then the great series between Newark and Baneroff starts with the first game in Wilmington.

"Billy" Jackson looked good jumping around short and the little fellow was also strong with the stick getting a double and triple.

Vannort robbed Hogan out of what would have been his fourth hit by a clever stop in the eighth inning.

With "Bill" Crouch and "Jake" Hogan, two crack southpaws on the firing line it does not look like the Newark-Baneroff series will be a slugging match.

The Penn-Mar League season ended last Saturday but no games were played on account of rain. Appleton won the pennant.

Slonicker, third sacker for Elkton, who is usually very good, had an off day on Saturday and booted three in as many innings after which he retired from the game.

The locals will no doubt take a large crowd of fans to Wilmington with them Saturday of next week to see the opening game of the series for the amateur championship of the State.

Hogan has won 15 games and lost but two and has probably fanned more than any two pitchers in the league this season.

CHAMPIONSHIP SERIES ARRANGED

The great series of five games between Newark winners of the Tri-County League pennant and Baneroff, the team that won the All-Wilmington League pennant, that was talked of for some time has been definitely arranged. Manager Elmer J. Ellison of the local club and John Lynch, manager of the Wilmington team, met at the office of the Wilmington Evening Journal last Friday night and with the assistance of Arthur C. Davies, sporting editor, soon agreed on everything that is to govern the series. The series will be for the amateur championship of Delaware.

The first game will be played at the Front and Union street grounds next Saturday week, September 12. The second game will be played in Newark the following Saturday, September 19; the third game in Wilmington, Saturday, September 26 and the fourth in Newark, Saturday, October 3. Should it be necessary to play a fifth game the playing field will be decided by the toss of a coin.

There was not a hitch in the arrangements the representatives of both clubs being anxious to get the details settled without any difficulty. The gate receipts of each game will be divided 60 and 40 per cent, 60 per cent of course going to the winner. John Weir of New Castle, who officiated in the Tri-County League this season and Joseph Allen, an All-Wilmington League umpire were selected as the umpires for the big series.

It was also agreed that only those players who were under contract with each club on August 15 should take part in the series. The clubs filed names of the following players: Newark—Charles Beattie, William Marsey, William Jackson, Albert Beattie, Scott Gregg, Del Willis, Richard Morris, Harvey Ferguson, Henry Hogan, Walter Ritz, Irving Whiteman, William Eliason, Rufus Roberts, Layton Gray and Lewis Seanton.

Baneroff—William Crouch, Geo. Vernon, William Bright, Joseph Proud, George Smith, Michael Bonner, Alfred Edler, Harvey Kan, Robert Wallace, Luther Cloud, Geo. Morley, Michael Flood, Rodney Austin, Charles Waters, and George Brown.

This series will bring together as opponents two pitchers who are rated as the best southpaws in the State. Big "Bill" Crouch of the Baneroff team, had a trial on the Washington American League team several years ago. He has been pitching gilded ball for teams in Wilmington and vicinity for some years and seems to be better than ever this season. Hogan, the local twirler, is equally as well known and many who have seen the two portersiders work think that Hogan has an edge on Crouch. Hogan has been the mainstay in the box for Newark this year and Connie Mack has had scouts looking him over,

his work here having attracted the attention of the professional league managers. The games of the series to be played here will, no doubt, attract the largest crowds in the history of baseball in Newark.

ARTICLE 18 Add to BASEBALL BATTING AND FIELDING AVERAGES

Most of the Newark players have maintained their fine batting averages as six members of the team are still hitting better than .300. Captain Morris leads with .411. The batting averages follow:

	G.	AB.	R.	H.	Av.
Morris	19	73	15	30	.411
Jackson	16	63	14	24	.381
Gregg	18	70	14	25	.357
C. Beatty	19	69	19	23	.333
Roberts	5	15	1	5	.333
Marsey	19	65	12	20	.308
Ferguson	13	46	4	14	.304
Willis	12	46	5	13	.283
Hogan	18	62	3	17	.274
A. Beatty	19	66	13	17	.258

FIELDING AVERAGES

	O.	A.	E.	Av.
Ferguson	9	1	0	1000
Willis	8	2	0	1000

Hogan	6	35	7	.854
Morris	14	5	5	.792

PENN-MAR SEASON ENDS

The Penn-Mar League season ended on Saturday with Appleton the pennant winner. Newark Field Club made a fine spurt during July and the first of August but had too much of a handicap to overcome. There was a game scheduled between Appleton and Providence on Saturday but it was stopped in the third inning with the score 3 to 0 in favor of Appleton.

A team of local players known as the Newark All-Stars went to North East on Saturday and played a double header, winning the first 6 to 2, and losing the second 10 to 4. The score follows:

Map Of War Zone

With its characteristic desire to secure for its subscribers the latest and most authentic news concerning the European war, The North American will on next Sunday, August 30, present to its readers a double-page map of Europe, showing in detail the location of every important city mentioned in the various war dispatches, giving location and size of armies, various fortifications, strategic points and their relation to the various armies. Many people have forgotten most of the geography, and few have any idea of the exact location of the various cities and towns mentioned every day in the papers. This map is intended to fill up this gap, and will be kept and treasured by the many thousand readers of The North American, to be studied and referred to during the war.

The demand for next Sunday's North American is sure to be enormous, and in order to make sure of getting a copy, it would be well to notify your agent or dealer to serve you a copy, today.

Don't miss this opportunity of securing the latest and most improved map of Europe without additional cost.

The supply is limited, and it will be necessary to order at once in order to secure a copy. —Adv.

Farmers around Middletown, it is stated, sold upwards of 100,000 bushels of wheat during July at 80 and 85 cents for which they could now get \$1.08 and more. One farmer who had 5,800 bushels lost \$1500 by selling his crop too early.

OPTOMETRY—The science of prescribing and fitting glasses to correct defective vision without the use of drugs.

OPTOMETRIST—One skilled in optometry, an expert in measuring eye defects. A physical Eye Specialist.

Concerning Your Eyes

Good eyesight is essential to health and comfort. Eye strain uncorrected leads to nervous disorders and is a factor in causing many reflex disturbances.

Tired, aching eyes, frequent pain over the eyes or heads aches are some of the indications of eye strain. At other times the eyes give no indication themselves of strain, but endeavor to keep up the demand upon them, by using the reserve accommodative power until they give out.

GLASSES RELIEVE EYE STRAIN

Success in relieving eye strain depends entirely upon the skill of the practitioner who prescribes the glasses. Our Optometrists are experienced and capable.

Glasgow

August 28, 3.30 to 4.30 P. M., September 25, 1 to 4 P. M., October 22, 1 to 4 P. M., November 19, 1 to 4 P. M., December 17, 9 to 12 M.

Summit Bridge

August 29, 9 to 10 a. m., September 28, 9 to 12 M., October 23, 9 to 12 M., November 20, 9 to 12 M., December 18, 9 to 12 M.

Kirkwood

November 20, 2 to 4 P. M., December 18, 2 to 4 P. M.

At Home, Summit Bridge

Every Monday after September 1, 1914.

HERE AND THERE

Arrangements are making for the bicentennial celebration of the organization of the Londongrove, Chester county Friends' Meeting.

Caroline Sullivan of Landenburg won the \$100 in gold raffled by Rev. Alfred Welsh, pastor of St. Patrick's Church, Kennett Square.

Charged with stealing a team from Daniel O'Brien, of West Grove, Roger Smith, colored, is lodged in jail at West Chester.

After a slight quarrel with her husband, a florist of Avondale, Mrs. Gaston Renard ended her life by drinking nicotine, one day last week.

The Elkton Cannery, M. F. Magraw, manager, began operations on Friday.

The Elkton Gun Club will hold its third annual registered tournament on October 8. There will be 10 events at 15 targets and a match at 50 targets for Cecil championship, open to residents of the county only.

The police are still on the lookout for E. W. Amos of Easton, Md. the Adams Express agent there, charged with stealing \$8,000 from the company. His wife and sister, Mrs. Mattie Sudler of Swarthmore, Pa., arrested as accessories, were given hearings at Easton by Justice A. L. Thorp, on Friday. Mrs. Amos was released on her own recognizance and Mrs. Sudler was remanded to jail.

Ground has been broken for the new public school building at Rising Sun, Cecil county.

A heavy oil tank used on the roads while passing over the State bridge at Conowingo splintered 52 planks and one heavy stringer and caused an abutment to sink several inches.

A. F. Wilgus of Georgetown has purchased the Delaware House at Rehoboth Beach and will shortly assume its management.

Survivors of the First Delaware Battery, of Civil War fame, held their reunion at Shellpot Park, Wilmington, on Friday.

John Runk and Miss Marion Munson of New Castle won the gold chains offered as prizes at the spot dance at Ocean Beach Park.

Rev. John L. Johnson, pastor of New Castle M. E. Church, has been granted a month's leave of absence.

Lightning, one night last week, killed a horse in the stable of Mahlon Betts near Stockley, while two mules in an adjoining stall escaped injury.

W. Elwood Wright for twelve years past in the office of the Clerk of the Peace for Sussex county, will seek the Republican nomination for that office.

Miss Mary Brown slipped on the rail road track at New Castle, one day last week, wrenching her right ankle severely.

Fifty chickens owned by Morphet Zebley of Nanticoke, died after eating potato bugs that had been poisoned with Paris green.

Friends of John G. Townsend, a leading canner of Sussex county, who runs plants at Selbyville, Georgetown and Rehoboth Beach, are urging his nomination as Republican candidate for Congress.

A posse one day last week, hurried to Delaware City hoping to catch George Dutton, colored, wanted for the murder of another negro near Bridgeville in June, 1913, who was reported lurking in the neighborhood of the former town but the suspect proved not to be Dutton.

John W. Cochran, aged 77 years, while despondent on Thursday afternoon took a dose of Paris green, at his home on Garasche Lane, Wilmington, and died from its effects on Friday.

Sunday was observed as "Big Quarterly" by colored residents of Wilmington and visitors from near by and distant sections. The crowds were orderly but far less numerous than the throngs of former years.

Prices of stock cattle at Lancaster fell off 40 and 50 cents per 100 lbs. last week, owing to shipment there of 246 earloads ahead of time fixed for delivery, because of drought and poor grazing in the Middle West.

The automobile of John P. Cochran of Galena, Md., ran into a wagon loaded with telephone poles at Ginn's Crossing, near Townsend, on Thursday evening and was badly damaged.

Frank Mason, colored, arrived at the Workhouse last Tuesday to serve 40 days for street fighting. He was taken to the farm with other prisoners under guard but managed to dodge into a cornfield and make his escape.

Francis Brackin has purchased the 15-acre John Fisher farm near Hockessin, for \$5,000.

Automobile owners of Delaware City will bear the expense of having the road from the canal bridge to the Drain Ditch bridge scraped.

While walking on the joists of the unfloored attic at her home in Milton, one day last week, Mrs. Fred Pepper slipped and fell through the ceiling of a lower room. She was scratched and bruised but escaped serious injury.

Rain early last week broke the drought around Seaford and other sections of Sussex county, saving the crops which were greatly endangered.

Tomato canning has started around Laurel and elsewhere in Sussex county. The crop is reported short but barring early frosts the total pack, it is thought, will be quite large.

The Juniata Paving Company is about to begin the work of improving South Broad street, Middletown, from the town limits to the Pool property. The roadway will be covered for a width of 16 feet with waterbound limestone macadam, laid over trap rock. The cost is given as 88 cents per square yard for macadam and 50 cents per cubic yard for excavation.

Stewart & Donohoe have started excavating on the new section of road from Boyd's Corner to St. Georges.

With nearly half the stock of hides used in this country coming from abroad the outlook is gloomy for tanners and leather workers.

Thinking pills prescribed for her mother for heart trouble were candy, the four-year-old daughter of Herbert Steele of Stockley, found the box, one day last week, and ate four of the pills while her mother was for a short while out of her room. She died in a short time.

Harry Rowe aged 55 years, a well-known resident of the Marshallton section, employed by the Delaware Hard Fibre Company, was found lying senseless along the B. & O. R. R. between Marshallton and Kiamensi, on Thursday and died while still unconscious at his home on Friday morning. He told his wife on Wednesday morning, when he left for his work, that his head hurt him. He was not seen again till found lying along the railroad tracks. A post-mortem examination failed to show the cause of death. His funeral was held on Sunday with interment in Red Clay Creek Cemetery.

James Greenwood, a camper, found the body of an Italian floating in the Chesapeake & Delaware Canal at Lorewood Grove on Friday. It was found that three of the dead man's ribs and one of his legs were broken, and the head showed signs of blows. On the body was found an Ericsson Line ticket good until August 26 and a check for baggage, and a check inscribed "Salem County, N. J., Sealer of Weights and Measures." Nothing was found to indicate the man's identity. Coroner Spring is investigating the case.

Extra jurors have been drawn at Georgetown for the trial, at the coming term of the Sussex Court of Oyer and Terminer, of John Roberts and Coulter Harmon, colored, of the Indian River section, for the murder of Alfred Ricketts in a quarrel over "crap" at Rehoboth Beach on July 4.

Three morning fires on Thursday in the Lieberman Building at Fifth and Market streets, 211 King street, and Second and Cherry streets, Wilmington, imperiled several families, members of which escaped in their night clothing. Considerable damage was done by fire, water and smoke.

A CARD.

To the Public:

When it was suggested that I take the management of the North of Bay Counties Exhibit Cars from California, I answered I WOULD ON CERTAIN CONDITIONS; namely, that they furnish the FINEST EXHIBIT CARS ever sent out by any other section before, with its own electric light plant, so we could exhibit evenings as well as in the daytime, and gather their WONDERFUL PRODUCTS from their orchards, vineyards and ranches, put up by experts, so it would be a "WONDER" itself, and secure a Marine Museum and Curiosity from ALL OVER THE WORLD, so the OLD and YOUNG, RICH and POOR, EDUCATED and ILLITERATE could visit and spend hours profitably.

They have done so, and I extend an invitation to all, knowing that we have the most original, new and UP-TO-DATE EXHIBIT ever brought to your city, and a perfect system of convincing the public of the fact that our five counties contain more inducements for the Homeseeker and the Tourist looking for a perfect climate and beautiful scenery. COME AND SEE FOR YOURSELF what we are doing.

We make a small charge of 25 cents for admission, to help defray expenses and enable us to give valuable souvenirs suggestive of California—Something all will keep to remember us by.

Yours very respectfully,
M. LEAK,
Manager North of Bay Counties Exhibit Cars.
WE DO NOT SELL LAND, but we want to interest you in our section of the Golden State.

Will show at Newark
September 21 and 22
Admission, Adults 25 Cents
Children 15 Cents

THE RIGHT TRACK

See our \$20 and \$25 suits in special cuts, models and patterns for young men—sizes 34 to 38 chest.

Come See Them
Try hem On

Get them now and have all season to wear them.

Mullin's Big Home Store
Wilmington

RUBEROID—Spelled with one "B" or it is not the genuine.

RU-BER-OID—Note the Hyphens—The same original article with it's name hyphenated to protect the buyer.

"IMITATION IS THE SINCEREST FORM OF FLATTERY"

There is no connection whatever between RU-BER-OID and things called "Rubberoid"

It is impossible for us to emphasize this point half as strongly as we should like, because the ready roofing business has become a game of "Follow Master," with more than three hundred following every move made by RU-BER-OID, closely mimicking everything but the quality.

The quality of of RU-BER-OID is still supreme without a solitary successful imitator.

RU-BER-OID manufacturers thought first, acted first and are the first and only successful manufacturers of a real high class ready roofing.

Why do so many of the imitators refer to their roofing as "Rubberoid?" Solely and simply to mislead the buyer, to make him think that he is getting the standard article RU-BER-OID.

Many have bought the so-called "Rubberoid" Roofings thinking they were buying RU-BER-OID, only to awaken in a year or two to their sorrow that they have been fooled, misled and trapped.

NOTE---A full line of Roof Paint all ready for you to paint up the old roofs this fall. Prices and Quality? Right, of course.

THOMAS A. POTTS

MORE INTEREST IN SCHOOLS

It is no idle ambition to wish that the Public Schools of Newark should stand highest in the State—with the possible exception of Wilmington. That they are not so recognized is a fact that should be frankly admitted and the improvement started at once. This is said in no spirit of carping criticism but is presented in the hope that a keener interest be manifested. No School Board nor corps of teachers can bring the school to its highest grade of efficiency without the interest and support of public opinion. That our schools do not have that proper support is clearly demonstrated in school affairs here during the past few years.

Now at the beginning of this school term, it is hoped that the citizens will take a keener interest in our school system.

Criticisms expressed privately do harm rather than good. The points at issue should be brought to the attention of the Board to be taken up with the teaching staff. Nor should suggestions thus made be resented by those conducting the school. While they may at times be utterly impracticable, they should be given and received in a spirit of genuine co-operative interest.

The schools should be in the closest possible touch with the College and work in harmony with her Faculty.

There are many improvements that can be made. While it is true that the burden on taxpayers has been severe during the past few years, much can be done without increase of expense. More interest and loyalty can be expressed and every citizen can by such expression add zest to the work of the teachers. Let us give them better support during this coming year.

And let us determine to raise the standard here to rank as the best in the State.

TREE SLAUGHTER

There is no better way to judge the spirit of progress in a town than to look at the care and attention given to its trees. While the permission given corporations to slaughter our trees is disgusting, it is at the same time amusing in that it shows up our crude provincialism.

No own worthy of the name of progress would for a minute permit the merciless hacking that we have witnessed this last week. Towns on to their job either have the wires placed under ground or compel the companies to use insulated wires so as not to interfere with the growth of the tree.

It's progress all right to have the wires but it's back-woods philosophy that permits a cold-blooded hacking by some city rube who fails to appreciate a tree.

There are towns near Newark that our experience this week would not have permitted for a minute. The company that butchered Main street smile when we grant such privileges. Their wires in many places are cables and they dare not trim a twig.

Where is our President of the Board of Trade with his knowledge of forestry? Tell us where to get off.

POWER FOR PEACE

While we speak of the horrors of War, are we really profiting by this awful lesson? It is said that for twenty years in Germany and France this outbreak has been a subject of the school room training. Many of those young men fighting have been under a rigid course of training throughout the whole school life. Imbued with this thought, a part of their very nature, makes the War as only the natural outcome for which their life has been trained.

There is an idea here that can be made tell as strongly for peace. Our teachers in Public Schools, can so inspire the idea of Peace in the minds of the children that would perhaps bring out the Reign of Reason in a few years. By a study of History and its Wars and the efficiency of Hague Tribunals, the teachers of our schools and colleges could in a few years make war impossible.

We should like to see our schools and colleges step aside from the book and discuss War. These can do more to make sure International Peace than all other forces combined.

Scarlet Clover

Every farmer in Delaware who has land that will grow scarlet clover, and all have that kind of land, has an opportunity to get the benefit of higher prices which will follow the great war now raging in Europe. The scarlet clover seed of Germany has dominated the market price of that kind of seed in the United States for many years past, but for the next two or three years that source of competition will be cut off, and the farmers of Delaware especially must meet their opportunity by sowing largely of scarlet clover, even if the price for the seed shall be outrageously high. When the crop of 1915 is ready to mature, the greater part should be saved for seed purposes, and Delaware will be in position to supply the markets of the United States at profitable prices to the grower, and at the same time benefit the land. Now is the time to sow scarlet clover seed, and the farmer who has any enterprise or is awake to the future of his business, will sow every acre possible in this crop for a money crop in 1915. Remember this is a fact which can not be controverted by any argument.

—Milford Chronicle.

Utilize Almshouse Farms

Why not utilize our County almshouse farms for demonstration farms? We have one in each county all comparatively centrally located. It would be a good thing for the counties and also for these farms. In this way they could be made more productive and self-supporting, and, inadvertently, be removed from the domain of politics.—Sussex Republican.

SQUIBS

Fairs, circuses, exhibition cars, College opening, Women's College, foot ball, New Century Club, Chautauqua, Community Meetings, new Armory, Free Library Boom.—There's some life in Newark.

Speaking of our new street, do you note the speeding? Autos are going to be piled up at the corner of Main street and College avenue some day that will make you think the German army had just passed.

A cement walk from town to the old Depot? Yes, that's right.

Judging from scenes witnessed on Main street this week, the Wilmington Traction Company has been appointed as the Tree Commission.

Local fishermen are refused publication of these wonderful catches unless the fish are brought to this office for inspection. We have done a little fishing ourselves and recognize the temptation.

It looks as if the Germans are going to march into Paris. Well, it's glad we are, that the United States is not trying to prevent them.

This war, terrible as it is, has put Bryan to work. They do say, he can do detailed clerical work if he has to.

One thing is certain, it must be a terrible mix-up, if he can't say how to run it or stop it. It's a 16 to 1 shot he has an opinion but Wilson won't let him express it.

The absence of Huera's picture in the Metropolitan dailies is a blessing.

Since most of us have to make a living, it is better not to talk War between 8 a. m. and 6 p. m. (Ex.)

Shop Talk

We are often asked by some interested friend, "How can we help with the Post? We want to back you up in what you are trying to do." Well, we will tell you. The Country Print Shop was for years in bad repute. They printed posters, and struck off printin' in such

a style that they never got any good work. They couldn't do it probably if they did get a job. To convince a buying public is a hard proposition. It takes time and one has got to produce the goods.

When we started this plant, we went after some good work and met with the reply, "Oh, we would like to give you some of our work but you can't do it. Our work is particular. We go to the City Shop. Any little work we have, we will try you out sometime."

An instance of this: One of our best customers refused for a long time to give us a trial. His work must be the best. Philadelphia, New York,—houses of national reputation did the work.

A trial did the trick, however. The Post imprint is now on every piece of printing that is used by this concern. Good work, attention to details, have now their praise to the extent that they have sent us other trade.

Now the point is this: Boost our work among your out-of-town friends. This is no country plant except in light, plenty of air and location. The machinery here is up-to-date. Take our new Miehle color, 4-roller, two revolution press—it's the Packard of the Press Room the world over. Ours is the very latest model and we have the man to run it.

We feel proud of our out-of-town work. Saturday a shipment went to Chicago. We want more of it and a word from you giving us a chance helps.

A three-color catalogue, a 100-page book, a bank brochure, a lodge book, are now on the hook representing three out-of-town jobs.

How about your rail stationery? If you want neatness and quality, see us.

Social stationery—your embossing done right here at home.

Be a sport and send the Post to some old Newarker.

COLLEGE NOTES

The Residence Hall of the Delaware College for Women is practically finished and the living rooms will be furnished this week. Dean Robinson, Miss Long, Miss Baker and Miss Churchman expect to occupy their rooms at the Hall some time this week.

Miss Robinson announces that class work will start promptly on the 17th as announced, and examinations will be held on the 15th and 16th as announced. Thirty-three students have already paid their registration fees and more have signified their intention to take work at the College.

The equipment for the laboratories of the Women's College has already been purchased and will be installed sometime this month.

On Friday, Miss Robinson, the Dean of the Delaware College for Women will address the Teachers' Institute at Elkton.

Hand Cut Off

By Fodder Cutter

James McTague, aged about 40 years, while assisting in the cutting of fodder on the farm of William S. Kennedy, near Strickersville early this morning, had his right hand cut off at the wrist by getting it caught in the fodder cutter.

In some manner while working around the machine the unfortunate man got his hand in the machine and before it could be stopped his hand was dragged in and the knife went through both flesh and bone at the wrist. Dr. West of Kembleville dressed the wound, after which the injured man was sent to the Delaware Hospital, Wilmington.

Attempt Made

To Wreck Train

The Lancaster, Oxford & Southern Railroad, purchased recently by a number of residents along its route resumed operations after two months' suspension on Friday, and an attempt was made to wreck the first train started. The car run by a gasoline motor which has been carrying mail during the suspension had preceded the regular train. Passing woods near Tweedale, the car struck a large stone, buried in the road bed and covered with dirt so as to escape notice. The car was thrown from the track down the embankment, and James McMichael, John Huss and Samuel Edwards hurled 15 feet into a small stream. All were badly bruised and McMichael's collar bone was broken. The would-be wreckers, it is thought, were residents disgruntled by the road's resumption of operation.

Gov. Miller Home

From Vacation

Governor Miller returned last week from Bar Harbor, Me., where he spent the remainder of his interrupted vacation, and on Thurs-

day appointed General James H. Wilson, Hon. W. H. Heald, Mayor Howell and Frank J. Williams of Wilmington, and Judge H. C. Conrad of Georgetown to represent Delaware at the Baltimore Star Spangled Banner Centennial, September 6-13.

Potash Supply

Affected By War

Fertilizer manufacturers, it is stated, have notified agents that owing to the failure of the German supply of potash its per centage in fertilizer mixture for wheat must be reduced in order to meet the needs of the spring crops.

PERSONALS

Mrs. Samuel Thompson and Miss Katie Thompson of Washington, D. C., spent the past week as guests of Mrs. Thomas L. Brown near Newark.

Miss Edna Sapp of Paulsboro, N. J., was a week-end visitor of Miss Mae Lovett.

Mrs. James Mackey of Trenton, N. J., and Miss Lillian Mackey of Fair Hill, Md., were week-end visitors of Mrs. Thomas L. Brown.

J. Penrose Wilson and family have returned from a motor trip to Atlantic City where they stopped at the Chalfont.

Miss Elizabeth Smithson has returned from a week's stay at Asbury Park.

Miss Ethel Campbell is registered at the Addison, Asbury Park.

Miss May Kerr is stopping at the Berwind, Asbury Park.

Miss Marion Campbell has returned from Rehoboth Beach.

Professor and Mrs. Penny leave today for a few weeks at Atlantic City.

Professor Sraeger returned from his vacation yesterday. He will remain in Newark.

Alfred P. Scott, Delaware College, class '14, left on Monday morning for Lewistown, Ill., where he has accepted a position as principal of a school.

Miss Olive Heiser has returned home after a visit with friends in Salem, N. J.

Coach McAvoy returned from his vacation yesterday, ready for his fall campaign. The Coach has been sojourning in the hills of Pennsylvania with a trip along the New York lakes, Thousand Islands and Canada.

Edw. L. Richards and family and Miss Agnes Medill motored to Bowers Beach last week.

Dr. and Mrs. Franklin Welch are the guests of Mr. and Mrs. W. H. Steele on Delaware avenue.

Miss Mary Hoffecker has accepted a position as teacher in the Richardson Park school at Richardson Park. Her work will begin next Wednesday.

S. B. Herdman and daughter, Miss Mabel, have returned from a visit with Conesville relatives.

Miss Adelaide Vandergrift was a week-end guest of Mrs. L. B. Jacobs.

CHURCH NOTES

ST. THOMAS' CHURCH
8 a. m., every Sunday—Holy Communion; Third Sunday, Corporate Communion, Daughters of the King, and Brotherhood of St. Andrew.

10 a. m.—Parish Sunday School.
11 a. m.—Morning Prayer and Sermon.

First Sunday—Litany and Holy Communion.

7:30 p. m.—Evening Prayer and Sermon.

Friday:
7:30 p. m.—Evening Prayer and Address.

Holy Baptism, every Sunday, on previous notice to the Rector.
All Pews Free. Cordial Welcome To All.

The Rev. Walter G. Haupt,
Rector.

FIRST PRESBYTERIAN

The regular services will be resumed at the First Presbyterian Church of Newark on Sunday next.

CHRISTIANA

The church services of the Presbyterian church of Christiana Village will resume next Sunday morning, beginning with the regular preaching service at 11 o'clock.

W. C. T. U. SUPPER

The ladies of the Newark W. C. T. U. will hold their annual supper on September 17th in the Banquet Hall of the Opera House.

Rest Room At State Fair

The Young Women's Christian Association will have the management of the rest tent at the Delaware State Fair this year. The Y. W. C. A. aims always to help girls and women everywhere and wants to be of service not only to the women of the City but also those living in the county and state. Every convenience possible has been provided. A board floor and rug will add to the comfort of the patrons. Now those who want to "tidy up" after a dusty journey there are a completely equipped wash stand and dressing table, those who want to rest will find a cot, a lounge and easy willow chairs; a first aid case with a supply of simple remedies will afford relief to any one taken suddenly ill. A reading table with newspapers and magazines and a well stocked writing desk are added attractions. Every day members of the Young Women's Christian Association will be present to minister to the needs of women and children free of charge. All this is

possible because of the generosity of Fair authorities and many kind citizens of Wilmington. Welcome to the Y. W. C. A. tent!

STRICKERSVILLE

Mr. George Jones, Philadelphia, is spending a week with his parents. Miss Grace Ward spent a few days last week with Miss Martha Smith.

Mr. Geo. Bland and family spent Wednesday at Brandywine Springs.

Mrs. Emily Smith is recovering from an attack of grippe.

Mr. John McKeown is sojourning in Philadelphia.

Schools in London, Britain, Township, opened on Tuesday.

Miss Ella Singles left Saturday to assume her new duties at the State Sanatorium, Mont Alto, Pa.

Miss Rachel Watson, Germantown, is visiting the Misses Jones.

Mr. and Mrs. John Armstrong, Ridley Park, have returned home from an extended visit with Mr. and Mrs. L. C. Garrett.

Mr. and Mrs. E. P. Crossan entertained recently the Hallowell family of Philadelphia.

MILL CREEK ITEMS

Saturday being the sixteenth birthday of Miss Clara M. Collins, several of her friends met at her home near Mill Creek meeting to honor the event.

After the evening had been spent in games, the guests were served refreshments. The table was daintily decorated, pink and white being the dominant colors.

Miss Collins was the recipient of many beautiful presents. Among those present were Misses Florence Ford, Bertha Eastburn, Mary Cox, Mary Kelly, Lena Pierson, Edna

Warren, Florence Irwin, Ethel Gordon, Elizabeth Armstrong, Rachel Mitchell, Estella Anderson, Ada Mitchell, Edna Riffert, Ella Irwin, Mrs. M. J. Collins, Mr. and Mrs. C. G. Collins, Mr. and Mrs. Riffert, Mr. and Mrs. Harry Irwin, Mr. and Mrs. Howard Croft, Mr. and Mrs. Albert Eastburn, Mr. and Mrs. William Hagerty, Messrs. John B. Eastburn, Earle Gordon, Paul Warren, Moreland Warren, Albert Mitchell, Samuel Snitcher, Huck Kelly, Jr., John Hagerty, Herbert Riffert, J. Warren Riffert.

Miss Emma Welsh spent a few days with her aunt, Mrs. Eastburn.

Mrs. M. J. Collins has been spending a few days with friends near South Wood.

Miss Lena Pierson spent Wednesday with Clara M. Collins.

Mrs. Jesse Patterson spent Saturday evening with friends near North Star.

Misses Mary Cox, Bertha Eastburn and Lena Pierson, spent Sunday afternoon with Clara Collins.

Mr. A. H. I. Eastburn, the blacksmith, is suffering with a stiff knee from being hurt some time ago by a mule.

Mr. Al. Truitt is the guest of Mr. J. T. Dempsey.

Frank Pennock has some very fine peaches.

To Improve Roads

The Middletown-Summit Bridge and Odessa-Boyd's Corner sections of improved roads are to be coated with ugit, a tar product, and covered with lime stone screenings. A section of road near Chesapeake City similarly treated is said to equal asphalt in hardness and smoothness.

SOME DESIRABLE DELAWARE FARMS FOR SALE

The Great and Increasing Demand For Farm Products
Makes These Offers Interesting

150 acres, one-half mile from Cooch; 45 acres of meadow, 40 acres of timber and pasture; fine variety fruit-trees. Eleven room frame house with bath. Barn, 35x60, for 24 head of stock. The following buildings are new: Glass-front, frame chicken-house, 14x70; five hog-pens, wagon-house, three large corn-cribs, implement house, engine house; the buildings and timber alone are worth the price.

166 acres in Newcastle Co., near Cooch; one of the finest in the State. Two miles from Newark and eleven from Wilmington, on stone road. Thirty acres of timber and plenty of fruit. Twelve room house and barn 45x50 for 45 head of stock, with ample outbuildings.

140 acres near Porter in Newcastle Co., near to creamery, school and church. Soil in high state of cultivation, well supplied with fruit trees. Five room frame house with good well of water. Barn 22x50 for 35 animals. House for chickens, wagons, hay and corn.

The J. T. Johnson property, containing about 114 acres mostly in White Clay Creek Hundred. Two sets of farmhouses and barn to stable 25 head of stock, one mile from Thompson Station on the Pomeroy and Newark Railroad and three miles from Newark. It is well watered and would make a fine dairy farm.

160-acre farm, one mile south of Kemblesville. 12-room modern frame house, also tenant house. Brick barn, 50x60, slate roof, strawshed attached and other outbuildings. 20 acres young timber, 20 acres fine meadow. Plenty of all kinds of fruit, land level and the making of a fine farm.

Correspondence solicited.

NEW WOMEN'S COLLEGE PLANS

Interesting Article From Every Evening

With 33 students enrolled, 24 of them to be residents at the college, and the prospect of registering more between now and September 15, the day of opening, the Women's College of Delaware is going rejoicing on its way. When the college was being advocated, a few years ago, it was pointed out that the beginning would be small and that the affiliated college at Brown University had started with five or six students. The large enrollment for Delaware's affiliated is an unanswerable argument as to its need in the State. Undoubtedly it will bring prestige and impetus to Delaware College as an institution, and make the college, as a whole, a greater educational force in this State and the remainder of the Peninsula. It makes larger departments possible for the men's college and as all the men professors are keenly interested in the new women's college, there is splendid unity of purpose among the faculty. The new president, Dr. Samuel Chiles Mitchell, is a big factor in the welfare of the Women's College; he has been greatly interested in it ever since his appointment, and he, as well as Dean Winifred J. Robinson, will be a guiding influence.

It is expected the two buildings erected for the women's college will be sufficiently completed for Dean Robinson, the matron, Miss Sara Churehman, and the secretary, Miss Edwina Long, to take up residence in Residence Hall by September 15. They will then be at hand to superintend the completion of the buildings. The other members of the staff are expected September 14—Miss Mary E. Rich of Oshkosh, Mich., head of education; Miss Myrtle V. Caudell of Buffalo, N. Y., home economics; Miss Alfreda Mosserop of Rochester, N. Y., director of athletics; Miss Gertrude Brady of Lowell, Mass., assistant in English and French. Science Hall is to be ready for use by September 12. As is the case with all new institutions, many details and particulars will have to be completed after college opens, but speaking generally, the college will begin work on schedule time.

On September 15 examinations will be held for students not entering on certificate, and on September 16 there will be examinations in English, which every student must take.

The college commission has done exceedingly well to purchase 19 acres of ground and to erect the two handsome buildings which now give Newark distinction from Pennsylvania railroad trains. Economy has been considered in all directions and the funds used to the best possible advantage. The grounds about the buildings cannot be made attractive until next season, because the committee on landscape gardening, of which Professor McCue is chairman, has arranged with Professor Hayward to use the Experimental Farm teams for this purpose when they are not needed on the farm. This means that the grading will be done after the fall farm work is completed, and the grass and shrubbery planted for next summer.

Friends of the Affiliated College have been most generous in their gifts; several women are furnishing rooms, clubs are furnishing rooms, and various individual gifts are of value, not only intrinsically, but in association. The browsing-room, for which Miss Mary H. Askew-Mather and Miss Althea P. Smythe are providing not only the furniture and the pictures, but the books, will undoubtedly prove one of the most charming and restful spots in the college. The furniture will be in mahogany, and several of the pieces are of historic and literary value. The center table is an exact copy of a table in Independence Hall; the desk a copy of an old one in Miss Mather's family; there is a replica of the Longfellow chair, and the andirons and fender are of the Martha Washington period.

The reception room is being furnished by Mrs. A. D. Warner, the member of the Affiliated College Commission who presents the Delaware State Federation of Women's Clubs, and it will be both attractive and comfortable, with arm chairs of stained reed, a handsome rug and pictures, the latter including prints of the historical paintings by Violet Oakley in the Pennsylvania State capitol.

Old mahogany furniture is being purchased for the hall, and it is a very intense hope on the part of the commission that some friend will give a grandfather's clock for a dignified ticking away of college hours. The Tuesday Night Club of Bridgeville has given a mahogany table

for the hall; the New Century Club of Harrington two settees; Mrs. John W. Sheldrake, a chair, all of these being Colonial pieces. The New Century Club of Milton gave a copy of "The Harvest Moon" to hang in the hall. A mantel clock, glass with brass mountings, is the gift of Avon Club of Felton, and Mrs. William Betts gave a pair of brass candlesticks. A piano is another gift that is needed, or the college would be glad to have one loaned for a time.

The infirmary is being furnished by Mrs. William P. Baneroff of the advisory committee appointed last spring by Hon. Preston Lee, president of the Board of Trustees. The superintendent of Delaware Hospital selected all the appointments.

Several dormitory rooms are to be furnished by clubs and individuals. Mrs. E. Tatnall Warner furnishes a room in honor of her Alma Mater, to be known as Vassar room. The women's clubs of Newark, Middletown, and Georgetown and the W. C. T. U. of each county furnish rooms, and the Delaware State Equal Suffrage Association announces that it will furnish a room.

A flag for the college has been presented by the Jr. O. U. A. M. of Newark. The formal opening of the Affiliated College and inauguration of President Mitchell will be a memorable event at Delaware. It probably will take place about October 10, with the inauguration ceremonies in the morning, a buffet luncheon at noon, and an academic procession to the Women's College buildings with the opening ceremonies taking place in the afternoon.

Circus Close By

Without doubt the most intelligent and versatile pachyderms ever seen in America are the score of elephants with the Wheeler Bros. Shows, which will exhibit here Friday, September 4. Their field of usefulness is not confined to pageantry and performances, though they are especially prominent in these dual roles. No elephant bearing in state Indian princes or potentates was ever more gorgeously robed and bedecked than these circus elephants in the Wheeler Bros. street parade. Cloths of gold-finger velvet embroidered with silver thread and covered with brilliant ornaments, reach to the ground on either side, leaving only the heads of the ponderous beasts exposed. On their backs are immense howdahs, designed after the most ornamental of those used by East Indian dignitaries in the great durbar. The style of architecture is extremely oriental; there is extravagant use of gold leaf and jewels and the furnishings are of the costliest silks and satins. In the howdahs the elephant trainers are seated garbed in regal splendor, representing oriental potentates.

At the performance in the arena displays the elephants are divided in companies filling the three rings, giving a forceful illustration of man's mastery over the biggest brutes of the animal kingdom. These modern mastodons interpret intricate drills, the latest terpsichorean triumphs, including the famous Tango dance, form mountainous pyramids and elephantine tableaux, play provoking pranks and in many other ways show astonishing agility and surprising sagacity.

It is a noteworthy fact, however, that as working elephants this Wheeler Bros. group of pachyderms excel. Trained and broken as beasts of burden on the public works of Ceylon, they have not been permitted to forget their earlier teachings. Driven by their trainers, they carry in their trunks the heaviest tent poles without apparent effort. The primitive method of pushing wagons with their heads is sometimes resorted to by them, or with ropes in their mouths they easily pull the largest trucks and dens, moving them with ease, though they may be hub deep in the mud. At feeding time the elephants are sometimes led to the hay pile outside the tent. Each animal with his trunk picks up a hundred pound bale and carries it into the menagerie tent. With a stamp of the foot they break the binding wire and proceed to munch the meal they have thus prepared. As extra pay for their efforts they are given handfuls of peanuts and choice dainties that would delight the average child. They relish these with a gusto highly epicurean and show their gratitude by loud trumpeting. Such interesting sights as these are to be seen daily on the show grounds of the Wheeler Bros. Shows.

Among this famous herd may be seen "Tango," earth's largest living animal.

—Adv.

FARM NOTES

At the request of the Secretary of Agriculture, Hon. D. F. Houston, Dr. Harry Hayward, Dean of the College of Agriculture, appointed Dr. T. F. Manns to represent the Delaware College Experiment Station in a series of potato conferences, the object being "the promotion of the breeding of new productive and disease resistant varieties, the production of improved strains of standard varieties for seed purposes, the elimination of diseases that are carried by seed potatoes, and the introduction of an official system of seed inspection and certification with adequate standards and safeguards." The aim of the U. S. Department of Agriculture was the bringing together of potato specialists from the U. S. Department and from the various states.

By special invitation, Dr. Otto Appel of Berlin, Germany, probably the greatest authority on the diseases of the potato, was a guest of the Department of Agriculture on this occasion. Dr. Guessow, Plant Pathologist of the Dominion of Canada, was also a member of the party in its trip through New Jersey, Rhode Island and Maine. Prominent among the American members of the party were the following: Dr. W. A. Orton, representing the Dept. of Agriculture; Prof. Wm. Stuart, in charge of potato investigations for the Department of Agriculture; Prof. T. C. Corbett, acting assistant secretary of Agriculture; Prof. T. C. Johnson of the Virginia Trucking Station, representing Virginia and the strong truckers' Exchange at Norfolk; Dr. Mel. T. Cook of New Jersey; Prof. W. J. Morse of Maine; Dr. I. E. Melhus in charge of the Federal Potato Inspection work in Maine. Mr. Leland, State Inspector and Certifier of Seed Potatoes for Maine, Dr. Reddick of New York; Dr. Bessey of Michigan. There were a score or more of other scientific workers and potato breeders who took part of the trip, or who participated in a number of the conferences. Many potato growers and general farmers took much interest in the work.

Much interest centered in Maine because of the Federal quarantine on powdery scab. The U. S. Department of Agriculture and the State authorities of Maine have taken hold of the potato situation in that State in an energetic manner, and are making a united effort to limit the disease, and improve the seed potatoes. These things are being accomplished along lines suggested by the U. S. Department of Agriculture, following practices which have been

in vogue for some time in Germany. Dr. Appel told how Germany is developing the potato industry to an enormous extent has become able to produce within its confines the starches required to maintain its population when harrassed and hemmed in by its enemies. Germany produces more than 1,500,000,000 bushels of potatoes. Only 12 per cent of this amount, however, is consumed directly as food by the population. The average production for the United States is less than 90 bushels per acre. Our total production is around 300,000,000 bushels. We consume less than 3 bushels per capita per annum while Germany consumes nearly 8 bushels per capita.

Dr. Appel also carefully explained the German system of field inspection and the certification of seed; and he pointed out the great advantages of the system. The inspectors visit the field at blossoming time, when a careful estimate of the amount of disease and impurity were too great to be eradicated by "roguing" (pulling out) no certificate for "see use" would be issued for that particular field.

Let the message do the traveling

The talk trains of the Bell System are all "express" with no stop except the "terminal" at your destination.

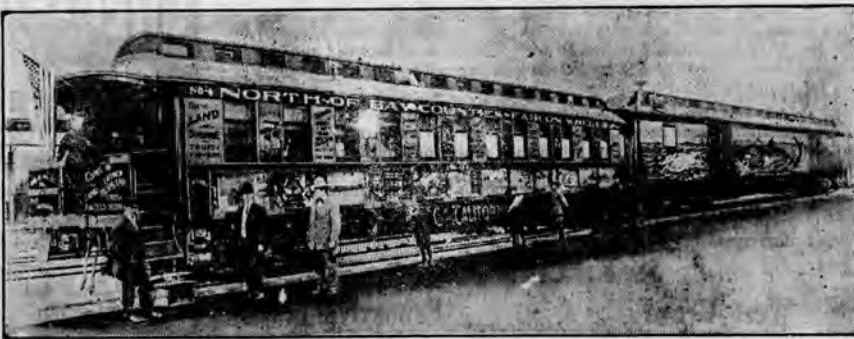

The copper tracks for "the Bell express" run straight from your telephone to more than 7,500,000 "stations" on the desks, on the walls, in the homes of America's people.

Let the operator tell you how little these talks cost.

 whole region. Two cows and a
 heifer were sold in May for \$2000
 and sent to the new owner in South-
 ern California; a yearling heifer
 and an eight-year-old cow were
 sold to Michigan for \$800, and the
 farm has refused \$500 for a bull
 calf that is to head the herd. The
 present herd bull is worth from
 \$2000 to \$2500.

All of these cattle are Guernseys.
 A Holstein cow of the herd has the
 best official milk and butter record
 on the peninsula, having produced
 last year 20,167 pounds of milk,
 from which were made 910 pounds
 of butter.

It is worthy of mention right
 here that the cattle of the Delaware
 Peninsula below the New Castle
 grass land were until recently a lit-
 tle too much of the scrub order to
 promise much profit. When Dr.
 Hayward succeeds in giving good
 cattle to the lower Peninsula, he
 will be entitled to very high praise.

The farm orchards will yield this
 year about 4000 baskets of peaches.
 The apples are not yet in consider-
 able bearing, but there was a large
 yield of cherries and plums. The
 farm has more than 500 varieties of
 fruit. Varieties of wheat several
 years under experiment at the farm
 and distributed to farmers are re-
 ported as yielding from five to ten
 bushels per acre over old varieties.
 As the result of successful experi-
 ments at the farm many farmers
 are increasing their area of alfalfa.

Newark Train Schedules

BALTIMORE & OHIO

Note: Scheduled in effect November
 30th, 1913.

Eastbound—week days: a. m.,
 7.17, 9.17, 10.25; p. m., 1.08,
 4.23, 5.47, 6.53, 8.18, 10.17; Sun-
 days: a. m., 6.53, 9.17, 10.25;
 p. m., 1.08, 3.11, 4.04, 7.20, 8.17,
 10.17.

Westbound—week days: a. m.,
 12.34, 5.20, 7.02, 8.42, 8.45; p. m.
 1.29, 2.33, 3.39, 6.13, 9.26;
 Sundays: a. m., 12.34, 5.20, 9.22;
 p. m., 1.29, 2.33, 6.22, 9.26.
 *Express trains.

PENNSYLVANIA

Northbound—week days: a. m.,
 1.54, 5.59, 7.41, 8.33, 9.28, 11.13;
 p. m., 12.21, 2.38, 3.04, 4.36, 5.46,
 8.49. Sundays: a. m., 1.54, 8.33,
 9.28, 11.38; p. m., 2.38, 4.36,
 5.46, 8.49.

Southbound—week days: a. m.,
 12.29, 8.05, 10.04, 10.31, 11.26;
 p. m., 12.02, 3.04, 4.54, 5.34, 6.35,
 7.04. Sundays: a. m., 12.29,

BOOST ARTICLE FOR FARM

From Philadelphia Record

Delaware is going to grow rich
 by the "new agriculture," and the
 State will owe this source of wealth
 very largely to the Delaware College
 Agricultural Experiment Station.

Time was when the agricultural
 courses at Delaware College attract-
 ed only two or three students or, at
 most, eight or ten, and the greater
 part of them for only a few weeks
 in each year. Now Dr. Harry Hay-
 ward, dean and director of the Agri-
 cultural Experiment Station, says
 that nearly half last year's
 freshman class elected one or the
 other of two agricultural courses
 and he looks confidently forward to
 the time when fully half the stu-
 dent body will elect these courses.
 There is room, he declares, for a
 graduate in agriculture on each
 farm in Delaware, and he adds that
 graduate in agriculture are equal
 the financial possibilities of the
 to those of men in almost any other
 profession. As to the possibilities
 of useful service, the graduate in
 agriculture, thinks Dr. Hayward,
 has a field unequalled by any other.

It has taken Delaware College
 and its Agricultural Experiment
 Station almost half a century to
 rouse the State to the importance of
 scientific agriculture, to attract stu-
 dents to the agricultural courses
 and to conciliate the enthusiastic
 goodwill of the rural population.
 All these things have at length been
 done, however, and Delaware Col-
 lege and its Experiment Station do
 not intend to let the good work
 languish.

The story of Delaware College
 has been told; that of the Agri-
 cultural Station is worth telling. The
 two institutions are in a sense one,
 but the Experiment Station, while
 its experts aid in actual work of
 teaching the students, has a special
 and peculiar relation to the agri-
 culture of the State. Its work is
 much more than experimental,
 much wider than that of the labora-
 tory or even that of the model
 farm administered by the station
 and used as a piece of apparatus in
 the instruction of youth.

The Agricultural Experiment
 Station goes right out to the farm-
 ers in all parts of the State. All
 over the State, from the hills of
 White Clay Creek Hundred, just
 under the northern are which di-
 vides Delaware from Pennsylvania,
 to Selbyville in level, sandy Sus-
 sex on the edge of Maryland, are
 groups of farmers and gardeners

who co-operate with the Experi-
 ment Station in the experimental
 study of agronomy, horticulture,
 plant pathology, and soil bacteriol-
 ogy. The agents of the Experi-
 ment Station are constantly going
 to and fro in Delaware to speak at
 public meetings of farmers, to ex-
 amine interesting local experiments,
 to advise as to the problems of in-
 dividual farmers. If a farmer or a
 gardener wishes advice as to plant
 diseases, the adaptability of soil to
 a particular crop, the value of a
 new fruit, the probable cause of an
 animal's death, he writes or comes
 to the Agricultural Experiment
 Station for advice.

Nobody in Delaware now laughs
 at book farming; all the farmers
 are getting to be book farmers, and
 some of the young graduates in agri-
 culture are proving how excellent
 a thing is scientific knowledge.

Dr. Hayward and his staff of ex-
 perts, a stenographer and a secre-
 tary number 14. The income of the
 station for the year 1913-14 was
 just short of \$41,300, of which
 \$4500 was given by the State for
 Agricultural Extension work, and
 nearly \$6800 came from the sale
 of crops grown on the experimental
 farm.

The present Congress passed a
 bill providing an annual appropri-
 ation of \$10,000 to each State in aid
 of agricultural extension, with an
 increase each year provided the
 State itself appropriates an amount
 for the same work equal to such in-
 crease. If Delaware meets the pro-
 visions of this act the station will
 have by 1922, \$28,600 yearly for
 agricultural extension work.

One of the most interesting parts
 of the work done by the Experiment
 Station is that carried on at the
 model farm, which the State bought
 and equipped some years ago at a
 cost of \$30,000. The farm is own-
 ed by the State. Those who are ac-
 quainted from of old with Newark
 remember when the model farm
 was the home of the Russell family.
 It lies just below the Newark sta-
 tion of the Pennsylvania road, and
 may be seen on the left by persons
 journeying from Philadelphia to
 Baltimore and Washington.

Its main building is rather tall
 and substantial brick structure of
 the kind that impressionable folk
 would call a mansion. Barns, out-
 houses, silos and the like of modern
 structures have been added by the
 State and orchards have been set
 out. The farm is an object lesson
 in highly skilled agriculture, and
 although it is not conducted pri-
 marily for gain the director believes
 that when all the returns are in for
 the year from July 1, 1913, to July

Republican Convention In Session

(continued from page 1)

The situation looked favorable for Colonel Townsend early this afternoon. While the Sussex caucus did not endorse a candidate for State Treasurer it was reported that William J. Swayne of Bridgeville would be the selection of a majority of the delegates of that county.

Just before going to press it was learned that John G. Townsend had withdrawn from the Congressional fight and Mr. Miller was nominated for the office in the convention by acclamation. The State Auditor and State Treasurer fights were still uncertain although late reports would indicate that Charles Luff of Dover would be the selection for Auditor.

Should Secretary of State Thomas W. Miller who was nominated for Congress, be elected he will no doubt be one of the youngest men ever elected to the office as he is now but 27 years of age. He is a graduate of Yale University, class of 1908. He has served nearly two years as Secretary of State and previous to that was private secretary to former Congressman William H. Heald for two years.

DOVER, 4:15 P. M.—William T. Swayne of Bridgeville nominated for State Treasurer and Charles Luff of Dover for Auditor of Accounts.

P. O. S. Of A. Elects Officers

The State Camp P. O. S. of A., of Delaware, in session at Middletown last week elected the following officers: State President, Elmer C. Bailey; vice-president, Joseph H. Barbour, Woodside; master of forms, Lewis W. Colmery, Union; conductor, E. Y. Williams, Kenton; inspector, John Griffith, Camden; guard, J. Frank Smith, Hartly; trustees, John C. Dill, W. B. Weldon and Cyrus Mousley. The various camps in the State were reported flourishing with a total membership of 2218. The Townsend Camp was awarded the State trophy for the largest gain in membership. Seaford was chosen for the next session of the State Camp.

Fatal Quarrel At Elk Mills

Elk Mills, where a festival was held on Saturday night for the benefit of the local base ball team, was the scene of a fatal difficulty between Evans and Joseph Boulden two youths, nephew and uncle, between whom ill-feeling had existed, it is said, for some time past. The Bouldens had been drinking and Joseph had quarreled with a man named Goff. Evans interfered and struck his uncle on the head with a beer or ginger ale bottle, which was shattered on his temple, causing his death on Sunday afternoon. States Attorney Constable and Coroner Dean of Elkton promptly took hold of the case, and a warrant was issued for the arrest of the slayer who is a son of David Boulden of the Leeds section.

Game Bird Season Opens

The rail and reed bird shooting season in Maryland opened yesterday. Reed birds are said to be plentiful on the Delaware marshes, and President Wilson, it is expected, will approve the exemption of Delaware from the National Wild Fowl laws.

Institute At Elkton

Cecil county Teachers' Institute is in session this week in Elkton High School. President Mitchell of Delaware College and State Superintendent Wagner of Dover, are booked for addresses and Prof. Clarence A. Short of Newark is one of the instructors.

THAT CHRISTMAS GIFT

I know it is not in keeping with the weather to think of Christmas. But a little time and attention given now to your Cards or Gift Calendars will repay you more than you realize.

At the holiday season, you rush off and buy some stock card or calendar. Time demands something and that is the best you can do.

While now, a little thought and talk with the Printer will result in something Original--Individual. Express Yourself to your friends at Christmas tide.

We are going to do some real original Christmas printing this summer. Shall we do calendars for you? Perhaps there is some scene, some quotation from your reading that you would like to share with your good friends. Let us talk it over with you.

At THE POST, of course,--a Shop where Printing is considered an Art and not a Job.
