JAPAN SURRENDERS

SUMMER SCHOOL TO CLOSE ON AUGUST 17

University Fall Term On September 19

The Summer School of the University of Delaware will close on Friday, August 17 after a session lasting from July 5. The total enrollment this year was 166. Professor W. A. Wilkinson directed the Summer School as he has done for many years and Miss Rena Allen, of the School of Education, served as Dean of Women. The faculty was composed of various regular University staff members with the addition to the History section of Professor Harold B. Hancock, of Otterbein College, and Dr. Walther Kirchner, formerly of the University of California, who now joins the University of Delaware faculty permanently.

The close of the Summer School marks the conclusion of Professor Wilkinson's services with the University. He is succeeded by Dr. W. Earl Armstrong, Dean of the School of Education, who arrived in Newark on August 1 to assume his new duties. Professor Wilkinson, who was a member of the faculty for 26 years, is planning to continue to live at his home on Sunset Road, Newark.

The end of the Summer School also brings one other change in the faculty. Dr. C. Brewster Coulter leaves for a position with the College of Puget Sound in the State of Washington. He came to Newark from Princeton University where he was recently awarded his doctor's degree.

The regular fall term of the University will commence on September 19 when the two-semester college schedule will be resumed. With the opening of the fall term the University marks the beginning of its operation as a co-educational institution.

CHEMICALS DONATED TO UNIVERSITY

Triumph Gift Aids Supply Of Reagents

The University of Delaware has received a gift of a large amount of chemicals and reagents from Triumph Industries, of Elkton, Maryland, Dr. A. S. Eastman, head of the Department of Chemistry announced today.

Dr. Eastman's department was called upon by the Triumph Company several times to help solve problems that arose in its research work and it is in recognition of this help that James H. McKel, in charge of the Triumph laboratory, and Robert Andrews, in charge of surplus property for the Company, decided to turn over to the University all these chemicals, as the work of the Triumph plant decreased.

Dr. Eastman said that it is difficult to place a value on this material but that it would amount to several thousand dollars. The gift substantially increases the University's supply of reagents and adds many new substances to its stock.

Legion To Hold Conclave At Rehoboth On Sept. 8

The Department of Delaware, American Legion, will hold a wartime, small scale convention on Sept. 8 at the Hotel Henlopen, Rehoboth Beach, at which time Vive-Commander William P. Shadown of the national American Legion will speak.

Mrs. D. Lucius Conant, Concord, N. H., national Eastern v-pres. of the Legion Auxiliary, will speak to members of the Delaware Auxiliary on the same day at Rehoboth.

George W. Ayars is president of the Delaware department of the Legion which includes 2,700 members. The auxiliary of the Legion in this state has some 800 members, of which Mrs. J. Harvey Dickey is president.

FAMILY OF O. J. WALTERS HAPPY AT WAR NEWS

Residents Of Near Thompson Bridge Have 6 In Service

One of the happiest homes in this vicinity when the news of a possible early peace came over the radio was that of Mr. and Mrs. Oliver J. Walters of Thompson's Bridge, who have six servicemen sons.

"I was so happy I didn't know what to do," Mrs. Walters exclaimed when she heard the news, and Mr. Walters, who first heard the announcement over the radio, was just as happy and excited.

While the Walters have six boys who have been in active duty, only one is now serving in the Pacific area. He is Private Joseph E. Walter, stationed in the Dutch East Indies.

Each of the others has seen action in the European area, but only two are still there and one has received a medical discharge from the Army.

Sergt. Isaac F. Walther is anxiously awaiting transportation home from the German theatre to see for the first time his 17-month-old daughter. He saw action in the invasion of Normandy and in Germany and has received the Purple Heart and an oak leaf cluster.

Sergt. Howard Walter is home working with his father after being released from the service. He underwent an operation while in England.

Pfc. Harry McCann, who also received the Purple Heart for wounds received in the Mediterranean area, is now stationed at Fort Dix; Pfc. Alfred Walter, who saw action in the Mediterranean area, is now working at the Woodrow Wilson General Hospital at Staunton, Va., and the last of the six, Corp. Leander Walter is still in Europe working in the medical evacuation hospital of the 94th Division.

Newark Students On WDEL At 6:15 Monday, August 27

A group of students from the Newark Special School District will be featured in a special fifteen-minute broadcast over Station WDEL on Monday, August 27, at 6:15 P. M.

Under the sponsorship of the Junior Red Cross, of which Mrs. Milton L. Draper is chairman, the program will be a "Musical". Those taking part will be Estelle Fouracre, Cissie Murray, Don Rittenhouse and Bobbie McAlpine. Stanley Gibbs is the teacher sponsor.

DR. PARKER SPEAKS AT LION CLUB ON TUESDAY

Atomic Energy Discussed By Physics Head At University

A timely discourse on "Atomic Energy" was heard by members of the Newark Lion Club at their dinner meeting Tuesday, at the Country Club, with Fred C. Evans in charge of the program in the absence of E. A. Curtis, scheduled program chairman.

President T. D. Smith conducted the dinner session before turning the program over to Mr. Evans who introduced Dr. Vinson Parker, acting head of the physics department at the University of Delaware, who gave an illuminating and interesting discussion on the background history and potential uses of atomic energy.

Dr. Parker is thoroughly conversant with his subject having received his B. A. in chemistry at Evansville, Ind., College and his Ph. D. in Physical Chemistry at the University of Indiana where his thesis was on "Atomic and Molecular Structures".

Born in the town of Kuala Lumpur, Federal Malay States, the son of a Methodist minister, Dr. Parker traveled extensively in Europe and Asia during his youth. He came to Delaware in 1941 as an instructor in Physics at the U. of D., and Research Chemist at the Biochemical Laboratory, becoming acting head of the Physics Department at the University in December, 1944.

John R. Fader provided a radio Tuesday evening so Lion members could listen to President Truman's historic declaration of the Japanese surrender and other announcements while eating their dinner.

INFANTRY BADGE FOR BOB COXE

Completes Training At Camp Blanding

Private Robert L. Coxe has been awarded the Expert Infantryman Badge after completing a rigorous course of training in the Infantry Replacement Training Center at Camp Blanding, Florida.

Award of this badge, which calls for additional compensation above base pay, means that Private Coxe is an expert in the use of several infantry weapons and has done a more satisfactory job of learning other military skills required of doughboys.

Private Coxe is the son of Lt. Colonel and Mrs. Louis H. Coxe who formerly lived here residing at Tip Top Farm and later on West Main Street. Colonel Coxe is now serving in the armed forces. Another son, Louis, is also serving in the Army, now stationed in Germany.

Private Coxe entered the service in February, 1945. He is a graduate of Newark High School and attended the University of Delaware before his induction.

Company "G" Returns From Bethany Beach

Co. G, of the 2nd Battalion, Delaware State Guard returned to the Newark Armory Sunday afternoon after spending a nine day encampment at Bethany Beach.

A very good schedule of instruction was maintained, and the Guard returned greatly improved in Infantry Drill, Manual of Arms, Bayonet Drill, Riot Control, Extended Order, Interior Guard Duty and the other things necessary to make a good military outfit.

Co. G. was honored at retreat Wednesday evening by being presented with a blue Infantry streamer for their Guidon in recognition of their assistance to the Air Forces at the time of the airplane crash at Polly Drummond Hill.

BREDEMEIER IN GERMANY NOW WEARS FIVE STARS

Local Man Saw Action In Major Campaigns

WITH THE 63RD DIVISION OF THE SEVENTH ARMY, Germany — Technical Sergeant Nolan G. Bredemeier, of Newark, is holder of the Bronze Star Medal for meritorious service in direct support of combat operations, the Purple Heart Medal, for wounds received in action in France, and five battle stars for participation in five major campaigns.

Bredemeier, whose parents, Mr. and Mrs. Adam Bredemeier, reside at 25 South Chapel Street in Newark, entered military service July 21, 1942 and went overseas February 7, 1943. In Oran, Africa he became Sergeant on the staff of the sixth Corps Artillery.

Everyone knows the story of Anzio Beachhead — and Bredemeier will have some classic battle stories to tell when he returns home. When the breakthrough at Anzio became a fact, Technical Sergeant Bredemeier was among the first of our victorious troops to enter the city of Rome, and soon afterward came a two month rest, which in actuality proved to be the planning period for the Southern France landing, the third major amphibious operation.

On the Riviera Coast between Toulon and Marseilles, Bredemeier waded ashore D-Day (August 15, 1944) and for this action he wears the Bronze Arrowhead. Then followed in rapid succession the cities of Southern France as the Seventh Army approached the Rhine River. After participating in the long bitter fighting in Alsace, France, Bredemeier's outfit crossed the Rhine and with the exception of a few pockets of resistance pushed to the Austrian Border and arrived in Innsbruck, Austria. This city proved to be the place where the veterans of VI Corps Artillery celebrated V-E Day.

Bredemeier is now a member of the 63rd (Blood and Fire) Division Artillery.

Previous to his entrance in to the Army, Bredemeier attended Newark High School and later worked for the Hercules Powder Co. in Wilmington.

CASHILL ELECTED

D. Irving Cashill, 146 West Main Street, was elected Assistant Secretary of the Board at a recent meeting of the Board of Benefits and Pensions of the E. I. duPont de Nemours & Company.

WORLD PEACE RESTORED AT 7 P. M. TUESDAY AS JAPAN ACCEPTS TERMS

Tumultuous Celebrations Staged By Frenzied Thousands When Long Awaited Announcement Of Japanese Surrender Is Made By The President

Tuesday, August 14, 1945 will undoubtedly go down in history as one of the most epochal days in past centuries and will likely continue to be celebrated as V-J Day throughout freedom loving nations despite the fact that Wednesday was officially proclaimed a State and National holiday by Governor Walter W. Bacon and President Harry Truman.

Bedlam broke loose throughout the entire United States, England, Russia and China at one minute after seven o'clock Tuesday evening when the tensely awaited announcement of Japanese unconditional surrender was simultaneously announced in these respective countries by the people's chosen leaders.

President Truman made the dramatic announcement from the White House promptly on the stroke of seven o'clock P. M., after the nation had waited with keyed-up excitement for the news for more than 48 hours. Tumultuous celebrations began immediately throughout the country, lasting until the wee small hours of morning when celebrators went to bed to sleep off the effects over the proclaimed national holiday.

Literally thousands of joyful residents lined the streets of every town on the Eastern Seaboard to shout their joy at the final arrival of world peace. Motorists blew horns incessantly as traffic jammed every thoroughfare and no one even cared. Soldiers, sailors, WAC's, WAVE's, Coast Guards, Marines forgot professional competition as they embraced each other in their frenzied joy.

In Newark, the celebration was acclaimed with a great din and continuous procession of automobiles, blowing their horns and adorned with streamers, through the town streets until nearly midnight. Then the revelry was continued unabated at isolated points and in private homes. One highlight of the celebration here was a parade staged by the Mexican Railroad workers who marched en masse through the town carrying the flags of the United States and their native Mexico side by side.

Army trucks, station-wagons, jalopies and passenger cars carrying as high as thirty persons strewn on fenders, hoods, bumpers, running boards and every available space added to the howling, happy throng that made merry with unrestrained but with no hint of vandalism here.

Every store on Main Street closed immediately President Truman's announcement became known and remained closed all day yesterday with each store displaying the little card saying, "Closed For V-J Day", distributed by the Chamber of Commerce in preparation for just such an occasion.

Churches of town conducted fitting V-J Day ceremonies at seven o'clock last night and a quiet, sombre group of soldiers, scouts, the Aetna Hose, Hook & Ladder Company, accompanied by a number of automobiles staged a parade through town in a heavy downpour of rain at 2:30 p. m. yesterday. Citizens lined the streets to witness the parade were drenched as they stood in the driving rain or huddled in doorways for what meagre protection they could get.

Announcement of the immediate lifting restrictions on rationing of such items as gasoline, oil stoves, fuel oil, canned goods and numerous other commodities were broadcast yesterday.

The Rotarians will hold their Ladies Night on Monday, August 27, at the Country Club. An excellent program is being arranged for this occasion.

No Rotary meeting will be held next Monday. Instead the club will go to Middletown on Wednesday, August 22, for a joint meeting with that club. Newark Rotarians will meet at the home of Dr. T. A. Manns and leave from there.

The Rotarians will hold their Ladies Night on Monday, August 27, at the Country Club. An excellent program is being arranged for this occasion.

ACE AND CREST THEATERS PRESENT TOP SCREEN PLAYS TO PATRONAGE

The motion picture has come into a place of unprecedented importance as a medium of entertainment and education reaching a new zenith in the career of the industry with the present war.

It is the neighborhood theatre that has made possible this success and public acceptance. Ace Theatre, 307 Maryland Avenue, Wilmington, and Crest Theatre, Maryland Avenue and Boxwood Road, Woodcrest, have contributed greatly to the entertainment of

thousands of residents of both areas.

The Ace is a completely air-conditioned theatre which was opened 40 years ago but has found its greatest recognition and approval under present management. Modern throughout with the best facilities for presenting Hollywood's top photoplays and short subjects, the Ace is open daily from 11 a. m. until closing.

Crest Theatre was built four years ago. Its air-conditioning is a revelation to patrons and is one of many elements

Hirzel Funeral Homes Give Modern Service To Wilmington, Elmhurst.

One of the most progressive and advanced enterprises of its kind, Hirzel Funeral Homes Inc., 305 West 4th Street, Wilmington, and 201 South Maryland Avenue, Elmhurst, brings to both areas the type of conscientious professional endeavor that is appreciated by families who have lost a loved one.

The personnel and officials of the business employ modern ideals of catering to the requirements of their clients and, when called into a bereaved home, immediately assume charge of plans and arrangements to alleviate the strain in

the household.

Established in Wilmington in 1912, the Hirzel organization has developed national connections which enable it to render professional services anywhere and to the fullest satisfaction of the most astute clients.

The present location was taken in Wilmington eight years ago, while the Elmhurst Hirzel home has been maintained for 18 years.

H. Herbert Hirzel is president of the firm, with Mayor Thomas Herlihy, vice-president; Mrs. Nellie W. Hirzel, treasurer and Alton F. Hillis, secretary.

Army Corporal Founded Jewelry Shop His Wife Now Directs In Wilmington

plan in force at Doubet's meeting their requirements, with cash sale also made if the customer so desires.

The repair department has come in for an additional share of attention at the Doubet location, for it has enabled watch and jewelry owners to keep their timepieces and treasured luxuries in good condition.

Cpl. Doubet has been identified with the jewelry business for 15 years. That happy day, when he returns home, will find him taking up his duties where he left off to serve Uncle Sam.

Serving with the U. S. Army in

Austria, Corporal Carl A. Doubet, knows the jewelry business in Wilmington. In 1930 and Orange Street, W. Allee, took charge when he followed the colors two years ago.

Diamonds, jewelry, silverware, gold, leather goods and just about everything the well-stocked jewelry store could offer was valued by its shop during the pre-war years. The selection is still ample despite (some) shortages.

Customers find the deferred payment

CLINTON HOTEL MARKS NEW STRIDE OF PROGRESS UNDER R. R. BURDAN

A progressive move in the long career of Clinton Hotel came July 20 when Ronald Richard Burdan was appointed manager. He brings experience and initiative to the Philadelphia hostelry on 10th Street below Spruce — and he brings something else, too, in the form of a hearty welcome to service men.

Philadelphians have long enjoyed the luxurious rooms of the Clinton, while its cocktail lounge and Coffee Shop have enhanced the standing of the business.

Mr. Burdan will continue the cocktail lounge and develop it still further while the Coffee Shop will re-open to continue the policy of good food and superb service instituted in the past.

Both the lounge and coffee shop are directly under hotel ownership and management.

Mixed drinks and liquors are served in the cocktail lounge amid an atmosphere conducive to old friends meeting and enjoying themselves. Lunch and

dinner are available on the daily menu of the Coffee Shop.

The 200-room hostelry has many accommodations. Its rooms are far larger than ordinary hotels contain and provide a maximum of comfort. A courteous and efficient wartime staff helps the hotel's shortage.

And Mr. Burdan's able management is certain to advance the business to a new high in public acceptance.

dinner are available on the daily menu of the Coffee Shop.

The 200-room hostelry has many accommodations. Its rooms are far larger than ordinary hotels contain and provide a maximum of comfort. A courteous and efficient wartime staff helps the hotel's shortage.

And Mr. Burdan's able management is certain to advance the business to a new high in public acceptance.

WHATEVER FOLKS EXPECT IN SCOPE OF WORK THEY FIND IT AT CLARK'S

When a service station brings the best in products and facilities to its patrons and assures them courtesy along with these important elements it is almost certain to win the acclaim it deserves.

Clark's Diamond Service Station has found the way to please more folks is to keep giving them the best in peace or war and this is the basis of future progress as well as present endeavor of the station at South Market and C Streets (Highway No. 13) Wilmington.

John M. Clark took charge of the Gulf station two years ago and put into practice some of the ideas he had been using for the last 13 years elsewhere. He has seen the service station grow from a one-pump enterprise to a national institution and wants to always be a part of the progressive strides of the business.

Minor repairing, Gulf lubrication service and tire recapping are offered, while Gulf gasoline and motor oils,

Fisk tires and Fisk, Edison and Firestone batteries are sold.

Cars are washed and polished to keep them looking their best.

Open daily from 8 a. m. to 6:30 p. m. Clark's Diamond Service Station keeps its lights on and awake to the demands of customers until 10 o'clock every Saturday and Sunday night.

Mr. Clark has made courtesy and efficiency vital aids to building for permanency.

HOME MADE ROLLS TOP DELICIOUS FOOD LIST AT FAMED COFFEE SHOP

Inviting and possessing a pleasant atmosphere, The Coffee Shop, 9th and Orange Streets, Wilmington, has made the most of every opportunity to provide well for the public during the war years. Its record under the ownership of Nick Kostas has been made during the last three years. The business was established in 1938.

Home cooking is stressed with home-made rolls, muffins, biscuits and bread featured. These delightful products of

the restaurant's own ovens have brought customers from afar.

Lunch and dinner are served daily at The Coffee Shop and only the best available foods are utilized to assure maximum satisfaction for the astute patronage. The meat and clean kitchens are in keeping with the Kostas policy to embody every element that provides maximum satisfaction for discriminating patrons.

Facilities are available at The Coffee

Shop for private parties, wedding groups and banquets. Here is an opportunity for the large crowd to enjoy itself to the utmost or the handful of friends to meet and dine in an atmosphere of cordiality.

Mr. Kostas is ever the genial host for he gets more satisfaction out of seeing folks enjoy his delicious food and friendly environment than most men do out of making their fortune.

MILLER MOTOR EXPRESS IN WARTIME VICTORY PROGRAM IS BOON TO JOB

The motor freight lines of America had a large task thrust on them when the Japs decided we would be easy to defeat. Through the co-operation

which exists between men and management in such firms as Miller Motor Express it is not surprising that the slant-eyed foe got a different impression of our prowess and unity, for the hauling of goods is just as important as manufacturing them.

With main offices in Charlotte, N. C.,

and a pick-up service in Delaware, the firm maintains a northern branch at 438 North 11th Street, Philadelphia with its terminus in New York City.

Southern anchor of the line is in Atlanta, Ga.

Licensed as common carriers, the Miller firm hauls just about everything, but concentrates on providing an adequate service in wartime transportation, meeting the needs of Uncle Sam

and the industries serving this nation during the current period.

Miller Motor Express has 13 years of capable endeavor to its credit, is doing the most important job of its career right now, and looks ahead to the days when it will be able to serve the customers in a peacetime capacity.

Its workers and executives have kept up with current demands to a marked degree, elevating the company to a new tier.

JOHN SCHNEIDER FRIEND IN NEED WHEN BAIL OR SURETY IS REQUIRED

For a quarter of a century John Schneider's phone has been ringing all hours of the day and night. "Can you help me?" is the usual query — and the Schneider reputation for going out of his way to serve someone has been in force during this long period of time.

Providing bail and surety bonds is the work of Mr. Schneider, who maintains his headquarters in Philadelphia at 1324 Chestnut Street. But the

Quaker City area is not the only region in which Mr. Schneider makes his services available. In fact, all of the United States is his territory for he is able to render assistance, in most cases, anywhere in the country.

Persons who never thought they would see the day when a bail bond would have to be posted often call on Mr. Schneider. The uninitiated in such things find him not only ready and willing to help them out of their

difficulties but gives them advice and makes suggestions that represent the ripe fruit of his 30 years' experience in the work.

Mr. Schneider has a keen judgment of human nature and knows that folks call on him often when they are in a state of near-frenzy. He helps them overcome their fears and gives them the wherewithal to go their way with a new outlook.

POST-WAR PLANS IN THE MAKING AT ADVANCED TOOL AND DESIGN CO.

Born in a war period, Advanced Tool and Design Company has plans to reach maturity in peace years that will eclipse its work during the current era.

The firm with headquarters at 710 Lewis Tower Building, 15th and Locust Streets, Philadelphia, was launched on its career January 1, 1944 and moved to its present address three months ago.

The word "any" plays an important part in the development of the firm owned by Walter D. Gibbs and his wife,

Mrs. Helen C. Gibbs.

Tools of any type for any industry at any time are provided by Mr. Gibbs who went to work for Uncle Sam, indirectly, when he established his own business to help industry doing a wartime job speed up the day of final victory.

Mr. Gibbs has been in tool designing and related work since 1928 and puts to use the knowledge and experience gained during this long period.

His willingness to co-operate fully with a client and see every task through to completion have been instrumental in the progress made by the concern since its founding.

Advanced Tool and Design Company looks ahead to the years after the war when the task of providing adequately for the peacetime industrial firms all over the area will be met as efficiently and thoroughly as it has been in the war period.

Lucille's Restaurant Far-Fame For Real Old-Fashioned Cooking

Home-cooking is an institution. The phrase has often been misapplied, but at Lucille's Restaurant it is an actuality. In name and in fact good, old-fashioned cooking prevails here and everything is prepared right on the premises at 3000 Market Street, Wilmington.

Southern fried chicken and delicious steaks have helped enhance the reputation of the restaurant which was established seven years ago on the ideal of always giving its best.

Breakfast, lunch and dinner are served every day except Sunday. Sand-

wiches, the large meaty and delicious kind, are featured. It has always been the aim and effort of Mrs. Lucille Harter to provide amply for her patrons at every meal and through fulfilling this original plan in the present war period she has won the acclaim of a vast patronage.

Before coming to Wilmington from South Carolina Mrs. Harter had eight years experience in serving the public and has applied the best principles of endeavor since making Wilmington her headquarters.

Food Variety And Goodfellowship Prevail Always At Walton's Cafe

During the last six years some important strides forward have been made at Walton's Cafe, 210 North Union Street, Wilmington, for a progressive management took charge of the business and has operated during this period to bring the best to the community.

It was at this time Repeal went into force that the cafe was established. Depression was very much in evidence then, but the place pleased the public and survived the economic straits which engulfed so many similar businesses.

When Philip Walton took charge of

the business he instituted some new methods of service and did such a commendable job that the business soon reached the heights of acceptance that it deserved.

Home cooking is featured, with sandwiches and a variety of platters available.

The bar has a stock of wines and liquors that is in the hard to get class now. Beer, the drink of moderation, is one of the favorites of the patrons.

Courtesy and goodfellowship have helped establish the reputation of Walton's Cafe.

William C. Crothers Electrical Work Has Unusual Service Plans In Force

"We will go anywhere" was a fairly common declaration of firms and individuals engaged in serving the public in the years before the war, but it is an expression rarely heard today.

William C. Crothers has made it an integral part of his business in the present era of difficulties in getting things done — and the public is appreciative.

The electrical wiring and contracting enterprise established by Mr. Crothers at Hares Corner and Christiana Road, New Castle, six months ago has behind it the 21 years of practical experience which he gained by constantly apply-

ing the best principles of endeavor and learning the methods that assured satisfaction.

Residential electrical contracting, general wiring and repairing are featured in his endeavor which also includes repairing appliances of all kinds to keep them in good condition.

Call and delivery is made throughout New Castle County and there is never a mileage charge. Truly, "We will go anywhere" is a creed on which the future of the Crothers enterprise will be built.

James J. McCaffrey Has Won A Legion Of Friends With His Jewelry Service

America loves jewelry. The war took much of the raw materials that would have made jewelry during the last four years, while the experts who helped produce it were called into the grim task of making their skilled hands work for Uncle Sam.

But the jewelry trade has kept up with the requirements of its customers remarkably well, with James J. McCaffrey giving his best to assure maximum satisfaction for patrons of his Philadelphia shop.

The McCaffrey suite, 902-04-06 Victory Building, 1001 Chestnut Streets, is

known not only to residents of the Philadelphia metropolitan area but to Wilmingtonians as well.

Open daily from 9 to 5, but closed during the Summer months on Saturdays, the shop provides a full selection of jewelry, including pins, rings and special pieces, while diamonds and other precious and semi-precious stones are available.

Watches and novelty ideas in jewelry are provided, with a complete watch and jewelry repair service helping out appreciably in the current war era.

Swanson Texaco Service Station Wins Friends With Its Exacting Attention

The service stations had a task of large and difficult proportions before them when war came suddenly and the manner in which they have established an efficient and exacting program to benefit car owners during this trying period is a heartening chapter in the estimable career of this line of endeavor.

Leonard C. Swanson, 3101 Lancaster Avenue, Wilmington, has made the most of every opportunity to serve his patrons well, with the result that his Texaco station is valued by hundreds of car owners who recognize in it one

of the mainstays of the conservation program.

An eight-year-old business, the station came under the ownership of Mr. Swanson last December. Into it he put new ideas and means of providing for the motoring public and established himself a capable and exacting business man as well as an authority on keeping cars in condition.

Minor repairing, tire recapping, Mar-lak lubrication service and similar work is available. Firestone and Goodrich tires and Exide batteries are in

College Girl's Tailors Uniforms Worn By Wilmington Women Doing Day's Job

This is an era of uniforms. Folks have become uniform conscious and notice the neatness of civilian uniforms more than ever before.

College Girl's Tailors is continuing a program begun 25 years ago to provide uniforms of distinctive features for women and girls.

Among the women wearing them in the Wilmington metropolitan area are elevator operators in Delaware Trust Building, Equitable Trust Building and du Pont Building. School uniforms have helped advance the recognition of the Philadelphia firm which main-

tains shop and offices at 138 South 29th Street, Philadelphia. Sunny Hills School students wear the products of The Quaker City Company's ingenuity.

Established in Philadelphia a quarter of a century ago, College Girl's Tailors has stood the test of time, making uniforms of the finest quality materials and assuring a perfect fit in every instance. The long career of the enterprise has placed it among the dominant members of the industry.

E. D. Di Giammarino, president, and Miss Mary R. Purnell, secretary and treasurer, direct the business.

PRODUCTS OF STANDARD BITULITHIC USED IN AIRPORT RUNWAYS, ROADS; PEACE YEARS TO STEP UP DEMAND

The output of a Newcastle firm has found acceptance and approval in war that outdoes its impressive peace record, but in the days to come after the present conflict is over the demand on it will be even greater.

Standard Bitulithic Company was an old and well-established business when war came. Its office in New York City and seven plants throughout other states kept production up to demand and fulfilled the expectations of users

of the asphalt concrete output to the fullest.

The product is used for airport runways, sidewalks and roads. Other uses will probably increase the demand for the output of the company in the years

after the war.

Its durability and adaptability have assured it a place of even greater recognition in the happy era of peace.

An expert in bitulithic production, Richard N. Raulston is superintendent of the plant on duPont Highway next to Howard Johnson's Restaurant, near Hare's Corner.

His experience in construction work spans the last 20 years. Mr. Raulston was appointed to his present office in January, 1943.

Main offices of the firm are at 50 Church Street, New York City, while plants are maintained at Mt. Vernon and Baldwin, N. Y., Stamford, Conn., Newark and Pleasantville, N. J., and Farnhurst, Del.

Experience and experimentation have gone into the products of the company with the result that they have kept pace of the changing need for suitable paving materials and will reach a new high in acceptance after the war.

Daylight Saving Time May Be Ended Soon

War-time is expected to be an easy casualty of peace.

The clocks may go back one hour soon after Congress reconvenes and has time to pass a resolution.

The stepped-up schedule has not been popular with the legislators. Clarence Cannon (D-Mo.) of the House appropriations committee said recently that he intended to end it at once if war conditions permitted.

SILK WINS TOURNAMENT

Beats Holton Two Straight

Tom Silk downed Roddy Holton 2-0 to emerge undefeated in the table tennis tournament conducted at the New Century Club during the closing week of activities sponsored by the Teen Age Club of the summer recreational group.

Silk and Holton were favorites to meet in the finals as only ten entrants participated in the contest. They were: Herbert Stone, Albert Miller, Robert Gray, Mike Gillespie, Roland Beeson, Richard Davis, Doc Dougherty, Jack Fossett, Holton and Silk.

Only the following seven reached the quarter finals: Albert Miller, Robert Gray, Roland Beeson, Doc Dougherty with Silk and Holton drawing byes. Holton defeated Dougherty and Beeson to gain the semi-finals with Silk winning over Gray.

Meeting in the finals, Silk beat Holton two straight, playing the best two out of three.

LESSON — SERMON

The Subject of the Lesson-Sermon on Sunday, Aug. 19, in the First Church of Christ, Scientist, 1201 Van Buren Street, Wilmington is "Soul". Morning Service 11 a. m., Sunday School, 11 a. m., and Wednesday evening service 8 p. m.

CERTIFICATE OF REDUCTION OF CAPITAL

QUALITY FOOD STORES, INC.
WILMINGTON, DELAWARE

We, the undersigned President and Secretary, respectively, of Quality Food Stores, Inc., a corporation organized and existing under the laws of the State of Delaware and having its principal office in said State at Wilmington, Delaware, do hereby certify:

1. That holders of record of the total number of shares of said corporation having voting powers at the time outstanding, did on the 3rd day of August, 1945, give their written consent that said corporation may reduce its capital (a) By purchasing at private sale for retirement, 1700 shares of the Common Stock of said corporation at the par value of \$100.00 per share and (b) by retiring 124 additional shares of said Common Stock heretofore purchased and now owned by said corporation and held by it as Treasury Stock, making a total of 1824 shares to be so retired.

2. That said written consent provides that the par value of said shares, to-wit, \$182,400.00, shall be charged against and paid out of the capital of said corporation and we do hereby certify that said sum does not exceed that part of the capital of said corporation represented by such shares.

3. We do likewise further certify that the assets of said corporation remaining after such reduction are sufficient to pay all debts, the payment of which shall not have been otherwise provided for.

Witness our hands and the seal of said corporation this 4th day of August, 1945.

John S. Frame, President

P. P. Hufnagle, Secretary

QUALITY FOOD STORES, INC.

CERTIFICATE OF REDUCTION OF CAPITAL

INTERNATIONAL RESISTANCE COMPANY, a corporation organized and existing under the General Corporation Law of the State of Delaware, DOES HEREBY CERTIFY as follows:

(1) That on the 23rd day of July, A. D. 1945, there was filed with said corporation the written consent of the holders of record of the total number of shares of the corporation outstanding and having voting powers authorizing a reduction of the capital of the corporation by the amount of Seventy-Four Thousand Seven Hundred Ninety Dollars (\$74,790.) in the following manner:

By retiring 400 shares of Class A stock and 333 1/3 shares of Class B stock owned by the corporation; and providing that an amount not exceeding that part of the capital of the corporation represented by the shares so retired may be charged against the capital of the corporation in respect of such shares.

(2) That the assets of the corporation remaining after such reduction are sufficient to pay any debts, the payment of which has not been otherwise provided for.

IN WITNESS WHEREOF, said INTERNATIONAL RESISTANCE COMPANY has caused its corporate seal to be affixed and this certificate to be signed by Ernest Searing its President and Ernest W. Braun, its Secretary, this 23rd day of July, A. D. 1945.

ARMY PLANS REDUCTION WHEN JAPS SURRENDER

Predict Cut In G. I. Point System After V-J Day

Army officials have perfected a V-J Day plan of demobilization, details of which are a closely guarded secret, it has been disclosed, but supposedly informed sources figure on a reduction to 3,000,000 men within a year after Japanese capitulation.

Informed sources speculated that in event of peace demobilization will be stepped up, but that no wide-scale discharges will take place until the Japanese homeland and islands formerly Japanese-held have been occupied.

In other words, the Army will take no chances on the failure of any belated Japanese army of probably 2,000,000 will have to be disbanded in the Japanese home islands alone.

In the meantime, it is probable the Army will make every effort to release promptly approximately 550,000 men eligible under the point system. Already it has mustered out 250,000 who built up 85 points through combat, long service and dependency.

The Army also expected to make a substantial cut in the critical point score so that possibly 2,000,000 men in all will receive point system discharges. This would leave a force of about 6,000,000. If all goes well in the initial phases of occupying Japanese territory, informed sources believe that half or more of that number could be discharged within a year.

The remainder would form the occupation forces in Germany and Japanese areas, man outpost garrisons in Alaska and elsewhere, keep the supply chain moving and provide a reserve in this country. At present, the occupation force in Germany is fixed at 400,000 and military experts estimate that it will take at least twice that number to occupy Japan.

The eventual size of the peacetime Army is still to be fixed by Congress. Many factors, such as shipping and the physical limitations of discharge centers, will affect the rate of demobilization but some sources estimate that the Army is now capable of handling about 500,000 discharges monthly. Since V-E Day, the Army has discharged approximately 400,000, including high point men, or monthly average of about 135,000.

World Series Prospects Appear Brighter Now

Prospects of playing the 1945 World Series are brighter now that V-J day is imminent, a spokesman for the Office of Defense Transportation said Saturday.

He said that also applies to the lifting of travel restrictions on other sports.

The speed with which the restrictions are lifted depends upon military travel requirements and how soon Japan surrenders, he said, adding that ODT Director, J. Monroe Johnson probably will have a statement on the entire situation soon after the war ends.

Separation Of Meat, Butter Rationing Urge

Separation of the rationing system for meat and meat products from the rationing of butter, fats and oils has been proposed to the OPA by the Delaware OPA labor advisory committee. Such a step, the committee said, would make more red points for meat available to workers.

Lacey C. Wilson, chairman of the committee, wrote Charles W. Hardesty, district OPA director, that high point values on butter and vegetable fats "further reduces the already reduced amount of meat obtainable under the red point exchange." Bitter complaints have been received by the committee from the membership it represents, he said.

1,155,000 Refrigerators Authorized By WPB

War Production Board today authorized production of 1,155,000 mechanical refrigerators by next April, but wanted civilians not to expect any for themselves in the near future.

WPB said the refrigerator stockpile has dwindled down to 20,000 from which it must supply hospitals, laboratories, blood banks and military needs. When new production is enough to fill demand, WPB said, restrictions on civilian purchases can be relaxed.

WPB has also authorized the industry to produce 2,500,000 radios during the last three months this year.

PENSIONED

Charles E. Grubb, Business Administrator of the University of Delaware, received approval today from the State Treasurer of a pension for J. Harry Clark, a general farm worker at the University Experimental Farm. Mr. Clark is a native of Maryland, but he has made his home at 21 Choate Street, Newark, for many years. He is seventy-four years of age and has been employed by the University since 1927. Mr. Clark is the first person on the University payroll to receive a pension under the new Delaware Pension Act.

STATE OF DELAWARE OFFICE OF SECRETARY OF STATE CERTIFICATE OF DISSOLUTION

To All Whom These Presents May Come, Greeting: Whereas, it appears to my satisfaction by duly authenticated record of the proceedings of the voluntary dissolution thereof, by the consent of all the stockholders deposited in my office, the CONCAN ORDINANCE COMPANY, INC., a corporation of this State whose principal office is situated at No. 100 West 10th Street, in the city of Wilmington, County of New Castle, State of Delaware.

The Corporation Trust Company being agent therein, and in charge thereof, upon whom process may be served, has complied with the requirements of the Corporation Laws of the State of Delaware, as contained in 2033, Section 1, to 2346, Section 214, Chapter 65, of the Revised Code of 1935, as amended, preliminary to the issuing of this

CERTIFICATE OF DISSOLUTION. Now, therefore, I, William J. Storey, Secretary of State of the State of Delaware, do hereby certify that the said corporation did on the fourteenth day of August A. D. 1945 file in the office a duly executed and attested consent, in writing, to the dissolution of said Corporation, executed by all the stockholders thereof, which said consent and the records of the proceedings aforesaid, are now on file in my office as provided by law.

In Testimony Whereof, I have hereunto set my hand and official seal, at Dover this fourteenth day of August in the year of our Lord one thousand nine hundred and forty-five.

U. S. COMBAT LOSSES UP

Forces Lose 7,489 In Week

Combat casualties reported by the armed forces reached 1,068,216 last Friday, an increase of 7,489 in a week.

The Navy accounted for most of the increase, reporting casualties of 146,077 as compared to 139,810 last week. The Army total, as announced by the War Department, is 922,139 against 920,917 for the preceding week.

The breakdown on Army casualties and corresponding figures for last week:

Killed, 198,992 and 197,676; wounded, 570,870 and 570,766; missing, 33,975 and 34,734; prisoners, 118,302 and 117,741.

The decline in the number missing apparently reflected shifts to other categories. The War Department said that 354,526 of the wounded have returned to duty and 95,990 of the prisoners have been officially listed as exchanged or returned to military control.

Similar figures for the Navy: Killed, 32,432 and 31,588; wounded, 78,935 and 72,855; missing, 10,985 and 11,611; prisoners, 3,725 and 3,756.

"I know what I'll do when I buy that new car!"

"I'll check into the plan for financing it at a local bank which one suggested by my insurance agent. I like to deal with friendly hometown businessmen, especially when it doesn't cost me any more money to do so and guarantees my getting personal service. Yes, Sir, my agent's plan sounds good. I'll talk to him about it again right away."

WEDDINGS

WEDDING—HUDSON
The wedding of Miss Marguerite Ann Hudson, daughter of Mr. and Mrs. Richard Engberg of 280 East Street, and Mr. William Reed, son of Mr. and Mrs. Jehu F. Reed of Georgetown, took place in the Episcopal Church Saturday afternoon, August 11, at 4 o'clock.

The ceremony was performed in the presence of the Rev. George H. Orser.

Mr. and Mrs. Frank A. Jamison, Miss Marjorie Jamison, Mr. and Mrs. Harold Walls and Miss Barbara Jean Walls are spending this week at Rehoboth Beach.

Mrs. Neal Smyth, Jr. is spending three weeks with her husband, Private Smyth, Jr., at Lowry Field, Denver, Colorado.

Mr. and Mrs. Samuel L. Johnston, Mrs. Roger Watkins, Miss Mary Johnston and Mr. George Johnston were dinner guests on Sunday of Mr. and Mrs. H. Clifford Lynum of Milltown Road.

Mrs. John E. Frederick of 175 West Main Street returned Wednesday from a vacation spent with her parents in Allentown, Pa.

Miss Betty Sargeant of 160 West Main Street is spending a week's vacation in Towanda, Pa.

Tommy Phillips of West Delaware Avenue, son of Mr. and Mrs. Raymond Phillips celebrated his sixteenth birthday Wednesday at the home of his grandmother, Mrs. George Ragan of near Newark.

Miss Evelyn Kimble of West Main Street spent Tuesday in Washington, D. C. where she visited with her sister-in-law, Mrs. Serich Kimble.

Congratulations are being extended to Mr. and Mrs. Jerome Weinberg of 88 Kells Avenue on the birth of a son, born August 8, in the Delaware Hospital, Wilmington.

Mr. J. Leonard Lewis of 341 East Main Street is a patient in the hospital where he has undergone an appendectomy. His condition is considered to be good.

Mr. and Mrs. George Phillips and daughter, Carol Ann, of Claymont are spending their vacation with Mr. Phillips' grandmother, Mrs. George Ragan of near Newark.

William H. Brown of 274 East Street has had a recent letter from his son, Major Harvey N. Brown stationed in Cairo, Egypt with the 1st Cavalry Division. Major Brown has been in Egypt for four and reports having seen many of interest during his station.

MEMBERS OF GOLDEN EAGLE HOLD PICNIC
Knights of Golden Eagle held annual outing at White Crystal on Saturday, August 11, where they enjoyed their picnic lunch, swimming and games.

Lois Cole of Newark drew the winning ticket and Mrs. Nora Schaefer of 1010 South Street held the winning ticket, No. 210, and won one of a large handmade quilt. The winners of various games were: Greenplate, Grace Frazer, Laws, James Greenplate, Mary Greenplate, Alice Florence Thomas, Norman Laws, Laws, B. Campbell, James T. Laws, Anna Brown, Ada Laws, Cole, R. A. Marine, Eleanor and Edna Greenplate.

NAMEE FAMILY UNION SUNDAY
Mrs. Jacob Maclary, Lincoln St. near Stanton will be hosts on Sunday to the annual Namee family reunion. The group are descendants of the late Charles and Rachel Maclary of Red Lion.

Jacob Maclary of near Stanton, George W. MacNamee of Pa. are the only surviving members of the original family. They will meet about 3 o'clock on Sunday at the Maclary home where refreshments will be served. Members of the family are expected from Delaware, Maryland, Pennsylvania, and New Jersey.

REGULAR MEETING OF THE BIBLE CLASS
The regular meeting of the Ladies' Bible Class of the Newark Methodist Church will be held Sunday morning at 10 o'clock. A cordial invitation is extended to all to attend.

God uses the great crises of life for the opportunity of revealing His love and sanctifying that life's journey. This is the subject of the lesson for Sunday.

Mr. and Mrs. Charles Chambers of Delaware Avenue are receiving congratulations on the birth of a son, born August 12, in the Memorial Hospital, Wilmington.

Delmarva Poultry Sales Held Illegal

Some Delmarva shippers are attempting to obtain over-ceiling prices for poultry in Philadelphia, it was disclosed by the investigations of government agents, W. B. S. Woodward of the U. S. Department of Agriculture said recently in Philadelphia.

Woodward head of the department dairy and poultry division in that city, said the demands have resulted in a decrease in the supply of live poultry in Philadelphia. Prices asked of some processors, he added, range from seven-tenths of a cent a pound to two and seven-tenths over the ceiling.

At the same time it was disclosed that there are 4,962,350 pounds of dressed poultry in cold storage in Philadelphia, most of it held by the government.

D. Irving Cusbell of West Main Street was elected Assistant Secretary of the Board of Benefits and Pensions of E. I. duPont de Nemours and Company at a recent meeting held by them.

Mrs. George McCafferty of Philadelphia was a week-end guest of Mr. and Mrs. Randolph Lindell, East Cleveland Avenue.

Miss Nadene Casperson of Miami, Florida has been a guest for several weeks of Miss Anna Frazer, 196 West Main Street.

Dr. and Mrs. Christopher Donoho of 227 Orchard Road are receiving congratulations on the birth of a daughter, born August 5, in the Delaware Hospital.

Mrs. J. Harvey Dickey was a dinner guest on Sunday of her aunt, Mrs. Randolph Lindell, Cleveland Avenue.

Mrs. C. C. Brokaw of Rising Sun, Maryland who has been visiting her son at Langley Field was a visitor on Wednesday of her sister-in-law, Mrs. Harold Tiffany, Amstel Avenue.

Mr. and Mrs. Thomas D. Mylrea who have been vacationing in Canada have returned to their home, 53 East Park Place.

Mr. Dudley Dill of near Pittsburgh returned home on Tuesday evening after having visited his sisters in Newark. His brother-in-law and sister, Mr. and Mrs. Elmer Lindell and son, Alfred, of Academy Street returned with him.

RELEASE OF POW'S LIKELY AT EARLY DATE

400,000 May Be Returned To Germany

Undersecretary of War Patterson said this week that the Army intends to return 400,000 German and Italian prisoners of war to Europe at the "earliest practical moment."

The Army's plan to return the prisoners was disclosed in letters which Patterson sent to Secretary of Agriculture Anderson and WMC Chairman McNutt. Patterson asked the two officials to urge all industrial and agricultural employers of prison labor to take immediate action to replace them with "free labor."

Patterson told Anderson and McNutt that state and federal employment agencies and veterans organizations could be of great help in directing discharged industrial workers and soldiers into agricultural and peacetime industrial jobs.

In a statement making public the letters, Patterson said three factors governed the return of prisoners of

war. These are the ability of the European theatre to handle them; availability of transportation; and the need for prisoner labor in this country.

Military transportation to Europe, Patterson said, will be available until early in 1946 and General Eisenhower, U. S. commander in Europe, has indicated that he can take care of prisoners as rapidly as they can be shipped to him.

The controlling factor, therefore, Patterson said, is the need for prisoner labor in the United States.

Since the cessation of hostilities in Europe, 5,000 sick and wounded German and Italian prisoners of war have been returned to their own countries. The War Department said that an additional 5,000 sick and wounded will be shipped soon.

In addition, more than 2,500 prisoners of war with coal mining experience will be sent back to Germany this month to work in the German mines. During August, September and October, 1,500 members of the Italian service units also will be repatriated.

Veterans Are Advised To Obtain Pamphlet

Returning service men and women who wish an accurate description of the benefits to which they are entitled from the government were advised to secure "Veteran Benefits", Veterans Administration Pamphlet No. 44, from the Superintendent of Documents, Washington, 25, D. C.

Michael M. Skubic, veteran administration representative for Delaware, Room 404 Pennsylvania Railroad Building, said it is unnecessary for each veteran claimant to secure a copy of the pamphlet but that it will be useful to veterans' service centers and to others who wish authentic information on many phases of veterans' welfare.

"Wide distribution of this pamphlet will serve to limit the present commercial sale of pamphlets, many of which include inaccurate or incomplete data on this subject," Mr. Skubic said.

Marriage Is Getting More Popular In U. S.

Marriage is getting more popular. The census bureau said today that in June, 1945, a total of 55,287 marriage licenses were issued in cities with 100,000 population or more. This compared with 52,154 in June 1944.

After the peak year of 1942, there was a steady drop in the marriage rate but this decline was almost halted during the first half of 1945.

Marriage licenses issued in the larger cities totaled 256,917 in the first six months of this year, compared with 201,336 in the corresponding period of last year.

J. C. Capt, director of the census bureau, said that "despite improved prospects in the marriage field a repetition of the bumper crops of 1942 and 1943 is scarcely to be expected."

Neighbors Pharmacy

PHONES 2900 AND 2213

NEWARK, DELAWARE

If you get tired of reading this weekly drivel, remember that we get just as bored with trying to be humorous as you do at reading it.

Seems that a heck of a lot of fuss is being made about the \$172,781.37 surplus of the Town Council, now on deposit in local banks and invested in War Bonds.

Last week representatives of several civic organizations appeared before the Council with a proposal that said Board divvy up with some of these hard-earned iron men for construction of a still mythical swimming pool, recreation building, youth center or whatever you choose to call it.

Now, no one would like to see such a thing materialize in Newark more than we would... and we believe that the Council, individually, would be happy if such a thing should come to pass, too. But — there's a fly in the ointment. In fact a whole horde of flies. The Town Council can't just up and say, "O. K., we'll give you \$50,000 or \$100,000 for whatever the amount may be, go ahead and build a fine, modern swimming pool and recreation building."

In the first place, that money doesn't belong to one single man on the Town Council. It's just as much ours and yours as it is theirs. If they spend it in a way that displeases us, or you, we can holler our fool heads off and maybe make it embarrassing. Council members are the duly elected representatives of residents of the respective town districts. Their actions are answerable to the MAJORITY of voters in Newark.

If the majority of taxpayers in town really want a swimming pool and recreation building... why not go about it in an intelligent and constructive way — not just ask for a Christmas gift out of a clear blue sky?

We might suggest that the organizations who sent delegations to the Council meeting last week circulate a petition among taxpayers of the town to see how many of them actually are interested in such a project. If enough signers are secured, then present this petition to the Council with a request that a referendum be held, at the next Town election.

You will find the Town Council, both individually and collectively, on their toes and willing to cooperate with the wishes of the majority of Newark taxpayers. If such a referendum were held and the voters indicated that they DO want a swimming pool and recreation building, it could then become a town project.

Organizations, firms and individuals could subscribe funds to the cause and a building program initiated. Annual financial campaigns could be held to raise funds for maintenance, personnel, etc., the same as they do in Wilmington and other towns all over the county for Y. M. C. A.'s and other similar organizations.

However, construction of a swimming pool and recreation building is a big job. It should be given every thought and deep consideration. Much as we need it and badly as we want it — it's nothing to go off the deep end about. It can and should be done... but carefully, intelligently and permanently. Such a thing would cost a lot of dough. The Town cannot afford to underwrite the entire project — help would be needed from every resident... not just once but recurrently each year or thereabouts.

Don't overlook the fact that make-shift playground and swimming pool facilities have been sponsored here for the past several years. Much money has been squandered to provide a place for the children to swim and play — BUT, the children have never taken full advantage of them. Attendance figures show dismal results. What reason do we have to believe that the kiddies would patronize such a project if it were available to them... at several thousands of smackers? NONE, absolutely none. Still we blab about needing a swimming pool and recreation building.

Let's make a survey among the children of the town. Let's take the figures of similar projects here during the past several years and see just how many kids attended each project daily during the summer months. We believe you will find that the Men's College swimming pool was crowded nearly to capacity — some days. But that the playground attendance dwindled gradually as summer went on until there weren't a handful there after the first few weeks.

Don't get us wrong. We're heartily in favor of this movement and will endorse and support it both financially and through the columns of this paper... and, that's a promise.

BUT, we want to see some figures, statistics and plans. We want to know the feeling of every man, woman and child in the community regarding it. And particularly, we want to know how the taxpayers — the old, steady residents of town feel about it, for they're the ones who have made Newark and they're the ones who'll be left holding the bag when a lot of war-workers, temporary residents and renters move on to some other community... IF we blithely build a youth center and go in hock for it without FIRST knowing what we are doing.

Boy, did we spout off in that innit? Seaman Wally Johnson home on leave looking fit and fine. Says he's being transferred to the SeaBees and apparently happy about it.

Hope there's some truth to the report that Major (Doc) Wallace M. Johnson may be returned to Fort Benning, Ga., as chief medical officer under Major General John W. O'Daniel, commandant there.

CONTINENTAL-DIAMOND AND AIR BASE WAC'S TO MEET FOR SOFT BALL PLAY-OFF

WAC'S Fail To Show Up For First Game Of Championship In Series Set For Last Monday; To Play Best Two-Out-Of-Three Game Series

Play-off games for the championship of the Interstate Girls' Softball League were scheduled to get under way last Monday in a two-out-of-three series but was postponed when the New Castle Air-base WAC's, winners of one round, failed to make their appearance here for the initial championship tussle with Continental-Diamond Fibre lasses, winners of the other round. In the event of postponement, Monday's game was to have been played on the following Wednesday (yesterday) but was called off when late rains made the playing field unfit for use.

STATEWIDE K. P. PICNIC AUGUST 18

D. O. K. K. Plan Gala Day At Shrine Club

A Statewide Picnic of the Knights of Pythias of Delaware will be held next Saturday afternoon and evening at the Delaware Shrine Club located south of Wilmington on the DuPont Highway it was announced today by Earl Carney, Warden of Newark, the Royal Viceroy of Habib Temple No. 205, D. O. K. K. which is sponsoring the affair.

There will be Pythians in attendance from practically every town in the state as well as from New Jersey and Pennsylvania. Many well known members of the order in Delaware will attend the affair and it is hoped that Governor Bacon will be able to take a little time out from his official duties to mingle awhile with his Pythian brothers. This is the first affair of this nature being held by the organization and it is hoped to make it an annual event.

The festivities of picnic games will begin at three o'clock in the afternoon under the Chairmanship of Isadore Levy, of Wilmington, and Henry Hirtzel, also of Wilmington, has promised that his menu committee will begin serving dinner promptly at six. Quite a large number of service men and women have been invited as guests of the Pythians. Dancing in the evening to the music of a popular orchestra has been announced by the committee.

Revive Wheat Crop Insurance Program

The Delaware Crop Insurance Sales Campaign began August 9 in Kent County, and Sussex and New Castle Counties were preparing to begin actual selling by Saturday, August 11.

The revival of the Wheat Crop Insurance Program has aroused widespread interest throughout the State. Participation by a large number of farmers is indicated, and will be the only means of assuring the continued expansion of the Crop Insurance Program to cover most of the commercial crops grown in Delaware.

The Insurance Program provides 75 percent coverage to all wheat producers, averaging 5 acres or more, against practically all hazards of weather, insects, disease, fire, etc. The premium rates are fixed at less than three-fourths bushels per acre for any county in Delaware and it is planned by Congress to eventually provide a greater measure of security for farmers through a mutual self-supported insurance program.

All Pythians are urged to attend the Statewide Picnic at the Delaware Shrine Club south of Wilmington on Du Pont Highway next Saturday afternoon and evening.

Games begin at three in the afternoon — dinner at six — dancing at eight. Be seen' you.

EARL CARNEY WOLVEN
Royal Viceroy

Be Seen' You

Half Of Tillable Land Here Used For Crops

The Department of Agriculture reported recently that while 80 per cent of Delaware's farm land is suitable for continuous crop cultivation, only about half is actually being used for crops.

The report said that of approximately 476,000 acres now in continuous cropland, about 32,000 are not suited to the purpose and should be converted, half to occasional or limited cultivation and half to grazing or woodland uses.

To make up for this loss the service suggested 65,000 acres of present grazing land, 138,000 acres of woodland, and 77,000 acres of other farm land be converted to crop production.

All but about 370,000 acres of the state's total estimated land area of 1,265,000 acres are now in farmland, according to the report. Of the non-farm lands, about 147,000 are considered suitable for crops.

VICTORY TO EASE CIVILIAN CONTROL

Relaxation Of Rationing Foreseen In Near Future

Many home front items now rationed or controlled will be released as soon as the end of the Jap war comes officially.

But informed sources say there will be little if any improvement in the food situation — meats and other supplies will continue for months — possibly a year or more.

Following is the unofficial "dope sheet" on rationing.

Gasoline: Restrictions will be lifted within 48 hours, probably 24 hours, after hostilities cease.

Tires: Within a few months, all restrictions will be lifted.

Shoes: Unrationed very soon, at least by end of the year.

Clothing: Dresses, girdles, cotton and rayon garments will be more plentiful. More woollens in four months.

Radios: By Christmas, there will be 2,500,000 for civilians.

Alarm clocks: Plentiful soon.

Washing machines, sewing machines, vacuum cleaners, electric irons, ranges: These will be produced on a fairly large scale by the end of the year.

Automobiles: Essential motorists will get the 250,000 being made this year. After that, anyone can get them.

Travel: Trains will continue crowded, with men being discharged from the services. Travel may ease now west of the Mississippi.

Meat: Will continue low supply until 1947.

Sugar: Rationed at least one more year.

Canned fruits and vegetables: Some may be released in next few months.

Wage controls: Will not be lifted for at least six months.

Blood donations: Red Cross is continuing to accept them, pending word from Washington.

War bonds: Delaware War Finance Committee is awaiting word from Washington. Possibly there will be an Eighth War Loan drive — a Victory drive.

Rent control: Will probably continue until national economy is stabilized. O. P. A. officials point out that rents rocketed highest after peace was declared in World War I.

STATE LEGION CHAMPIONS IN REGIONAL TOURNAMENT AT HARTFORD, CONN.

Newark Junior Legion Baseball Team Wins State Championship; Undeclared In Five Games With One Scoreless Tie On Records

Newark's Junior Legion Baseball team won undisputed to the Delaware State Championship last week when Larry Roberts Post No. 21 forfeited the last regularly scheduled game to have been played on Frazer Field here Wednesday night. The local nine had previously beaten the Bellefonte team games and played them to a 0-0 tie in a third.

2 Injured In Car Crash; Driver Fined

William Dickerson, 55, Newark, suffered head injuries, and Mrs. Catherine Palgren, 24, also of Newark, sustained a fractured collarbone and minor bruises and cuts recently when a car driven by Joseph West of near Newark, in which they were passengers, went off the road on a curve on the Newark Milford Crossroads Road and hit a culvert.

Damage to the car was estimated at \$150. West was fined \$10 and costs by Magistrate J. H. Rumer, Newark, on a charge of reckless driving.

CIGARETTE SITUATION IMPROVED

State Dealers See 'Stoopies' On Way Out

Cigarette supplies in Delaware have increased an estimated 15 per cent in the last few months and further increases are expected, jobbers and other large buyers said last night.

They said that monthly quotas of the manufacturers have gradually gone up. Many stores are openly displaying their cigarettes instead of keeping them out of sight. Others, which used to sell a daily allotment to a quickly-formed cigarette line, are able to keep cigarettes on display for a large part of the day. Lines are becoming scarcer.

Some dealers said that although they have no definite word from the manufacturers they expect cigarettes to become plentiful in a few months.

Looking ahead to the disappearance of the scarcity, an OPA official pointed out last night that when stores resume selling more than one pack to a customer they must charge the two-pack price in effect in March, 1942.

At that time some stores sold two packs for 27 cents, while some others had a price of 29 cents.

A jobber said last night that "supply and demand conditions" are responsible in the distribution of cigarettes. Some dealers are beginning to turn down some brands in making up their orders, whereas they took all they could get of anything only a few months ago.

Players making the trip to Hartford to decide the National Title at Hartford. Fifteen team members and William S. Hamilton left Newark on Tuesday. They are accompanied by Dr. John E. O'Connell, Athletic Officer for the Delaware State Junior Legion League, who has been in charge of the team for several years.

This marks the third straight year that Newark teams have won the State Championship. Last year they won the title in the Regional tournament here, at the hands of Trenton.

Players making the trip to Hartford are: Harry Strusowski, Dan Gregg, Jim Faulkner, Bill George Benson, Harvey Green, Reed, Jim Fox, Bill Foster, Whalen, Edwin Lewis and John Nowinski.

Higher Fruit Inspection Charges Set

The U. S. Department of Agriculture announced that because of salary increases under the Federal Employees Pay Act of 1943, increases in charges for inspection of fresh fruits and vegetables and other products will be effective August 1, 1945.

For customary size carload lots of fresh fruits and vegetables, the rate for inspection will be increased from the old \$2.50 to \$3.00 per carload. For one-half carload lots, the rate will be increased from \$1.25 to \$1.50 per inspection.

Inspection of the so-called "produce inspection act," charges for fruit and vegetable inspection by the Federal Government are sufficient to meet the cost of the inspection. The rate increase per inspection is necessary to comply with the requirement.

One of the marketing orders issued by the USDA to regulate the distribution of fresh fruits and vegetables and other products, inspection or certification charges.

Increased production, the removal of 25 horsepower tractors from distribution, the removal order does not affect other types of tractors.

Tractors under 25 horsepower are being used extensively by farmers in the field of the country in place of tractors which still are being used.

Estimates for other distribution of the country's food supplies are: to the armed forces, included in the military; 4 to 5 percent purchased by USDA for shipment under lend-lease and for relief; and 1 to 2 percent for exports and shipments.

Civilians consumed 80 percent of the total supplies, with 13 percent to the armed forces and 7 percent exported. Thus, prospective per capita in 1945 will be about 5 percent above the 1944 record.

Reported that there will be no relief from current short-civilian food supplies for the months. High demand will increase supplies of meats, fats and oils, poultry, eggs, canned fruit, and vegetables. Also likely to be short in supply are rice, dry beans, and processed foods.

Large amounts of sugar, and milk. However, fluid milk, skim milk, condensed milk, fruit juices, fresh vegetables and fruits in citrus fruits, fresh fish, and other products will be fairly plentiful. It will help keep the general level above pre-war figures.

Food problem in 1945 is to distribute over-all output one-third more than in 1933-39 to meet an overseas, military, and export demand.

In total picture, food supplies this year are 3 to 4 percent below those of 1933-39, but 33 percent over the average of 1935-39. Food from livestock is about 5 percent less than last year, but 34 percent over prewar supply. Currently, there is little hope for improvement in the first half of 1945.

United States Civil Service Commission has announced that Accounting Assistants are needed in various agencies of Federal Government in Washington, D. C. Salaries are \$2,100 and \$2,320 plus overtime pay. Applicants must have one and one-half to two years of appropriate experience may be substituted. No written test is required and there are no age restrictions.

Persons now using their highest skills should not apply. Federal appointments are made in accordance with War Manpower Commission and employment stabilization act.

Applications will be accepted until the needs of the service have been met. Further information and application forms may be obtained from the Commission's Local Secretary, Woodrow Singles, located at Newark Post Office, or from most first-and-second-class post offices, Civil Service Regional Office, or the United States Civil Service Commission, Washington 25, D. C.

CANNING URGED FOR WAR RELIEF

Food Needed For Hungry Europeans

American victory gardeners and farm families are urged to can more food and give this surplus to Europe's hungry millions.

In a statement endorsing the Community Canning Program for War Relief, Dr. Studebaker declared:

"Now that Europe's guns have cooled, food must continue the fight for freedom if starving millions are to survive and justify the price paid in freedom's name."

Gardens in many areas are producing more than is being utilized locally, and a good crop wasted or unused means lives lost or forever darkened. All surplus produce of American farms, gardens, orchards and fields should be canned and shared to build strength and hope in the bodies and hearts of war-ravaged people. Europe's children and men and women need the helping hand of America. Victory on the battle field did not work the miracle of restoring normal feed production and distribution. For freedom's sake, gardeners and farm families must share all they can with the suffering people overseas.

The Community Canning Program for War Relief was organized by the United Nations Relief and Rehabilitation Administration in cooperation with the U. S. Office of Education, the Camp Fire Girls, and Girl Scouts. Many national organizations including the Future Farmers of America and New Farmers women's clubs, and home economics clubs are supporting the program. The campaign is under way at school-community canning centers, custom canneries and home economics kitchens where there are facilities for canning in tin under adequate supervision.

TEACHERS, DIRECTORS JOBS OPEN TO VETS

Civil Service Makes Change In Salaries And Requirements

In revision of Announcement 382 for Recreational Aide, Physical Director, Teacher (Academic Subjects) and Commercial Aide, the United States Civil Service Commission has announced changes in salaries and requirements for Recreational Aide and Physical Director positions in Veterans Administration hospitals.

Positions as Recreational Aide are now filled at \$2,320 and \$2,650 a year (CAF-5 and CAF-6), plus overtime pay. Two years of experience are required for \$2,320 positions and 3 years for \$2,650 positions. Appropriate education may be substituted for all or part of the required experience.

Physical Directors are now paid \$2,980 a year (P-2), plus overtime pay. Two years of experience are now required in addition to 16 semester hours in physical courses; or a year of experience in addition to a 4-year course in physical education.

Salaries for Teacher (Academic Subjects) and Commercial Aide remain at the SP-6 level, \$2,320 a year plus overtime pay. Minor changes in the requirements for Teacher (Academic Subjects) provide that teaching experience offered must be above the elementary school level, and that applicants showing 12 semester hours in education will be accepted as having major study in education.

Persons now using their highest skills in war work should not apply. Federal appointments are made in accordance with War Manpower Commission policies and employment stabilization

programs. Applications will be accepted until the needs of the service have been met. Further information and application

forms may be obtained from the Commission's Local Secretary, Woodrow Singles, located at Newark Post Office, or from most first and second-class

post offices, Civil Service Regional Office, or the United States Civil Service Commission, Washington 25, D. C.

CHILDREN SHOULD BE PREPARED FOR SCHOOL

State Board Urges Parents Attention To All Defects

Well children learn faster than do sickly ones and are less apt to be seriously affected by the contagious diseases of childhood — from colds to whooping cough — says the State Board of Health in urging parents to have all possible physical and dental defects of their children corrected now, before school opens.

School records for last year show over 42,000 children attended the public schools of Delaware. While the State Board of Health is concerned with the health of all children, it is especially interested at this time in the children entering first grade this year, of which it is expected there will be about 5,000.

Dr. C. P. Knight, acting director of the Division of Maternal and Child Health for the Board, urges parents of these children to have them examined by the family doctor and dentist and to have any needed defects corrected before the school doors open in September, in order that they may start their school careers with as few handicaps as possible.

When the pre-school health examinations were held last spring it was found that many of the defects in the 5 and 6-year-old children were nutritional ones.

Dental cavities are the second highest in the list of defects found among the 5 and 6-year-olds. It is very important that these cavities be filled in order that the child may be able to keep his baby teeth until the 2nd, ones are ready to come through. Baby teeth lost early because of cavities may mean that the jaws will change in shape so that the permanent teeth do not come in as evenly as they should. It is a matter of better personal appearance for the child as he or she grows up, and of better chewing surfaces, if the teeth are regularly spaced. The baby's teeth hold the spaces open for the second teeth.

Other defects often found among children entering the first grade are poor eyesight, faulty posture (which may be due to poor nutrition), poor hearing, skin diseases and heart conditions.

Assistance for the child NOW, before the school bells ring, may mean a much healthier and more successful school year for youngsters since a child who is without energy, or who cannot see the blackboard or hear the teacher clearly, will have a difficult time keeping up with his schoolmates, Dr. Knight emphasizes.

Last year New Castle County had 1,593 First Graders enrolled.

SWEETMAN RETURNED

Local Soldier At Charleston

The Army troopship "Elbridge Gerry" was scheduled to dock at the Charleston, S. C. Port of Embarkation yesterday from Antwerp, Belgium, with 759 American veterans aboard.

Private John D. Sweetman is the lone Newark man supposed to be included on the list of passengers. Two other Delaware men, Pfc. James F. Fitzsimmons, Wilmington, and Pfc. Raymond J. Long, Dagsboro, were also supposed to be aboard.

Upon arrival the men will be given a special dinner, new clothing and have their records checked. Special telephone and telegraph facilities will be available for calls home. Within thirty hours they will leave for one of the 22 reception centers, from which they will be granted 30-day furloughs.

BARRETT IS CITED

Mrs. John C. Barrett, Choate Street, has just received a certificate of merit awarded to her husband, Pfc. John C. Barrett, in recognition of conspicuously meritorious and outstanding performance of military duty.

Private Barrett is now in Erling, Germany. He is serving in the Third Army. The citation reads: "Private first class Barrett performed his duties as ammunition bearer from February 23 to March 3, 1945, in a highly exemplary manner. Disregarding his personal safety he repeatedly made his way over shell swept terrain to secure and deliver vital ammunition without which successful operations against the enemy could not have accomplished."

"His tenacity and devotion to duty reflect the highest credit upon himself and the military service."

Private Barrett also wears the Purple Heart for wounds received in March, 1945. Prior to entering the service, Private Barrett was employed at the University of Delaware.

White Clay Creek Church Resumes Services Sunday

White Clay Creek Presbyterian Church will resume its regular service of worship on Sunday, August 19th at 11 a. m. after being closed for two weeks for renovation. Hendrick A. Van Dyke, stated supply, will lead the worship hour and will use as his text for the morning sermon "Our Marching Orders". The Choir will provide music.

Sunday school will again meet at 10 a. m. in the newly decorated Sunday School rooms. The lesson this week will be "Recognizing God's Presence."

A warm welcome awaits you at these services.

HORSE SHOW IS PLANNED

Proceeds For Visiting Nurse

A Horse Show, to be known as the Country Meet, will be held Saturday, September 8th, on the Homewood Farm of S. E. Dameron at 10 a. m. for the benefit of the Visiting Nurses Association of Newark.

There will be classes for Jumpers, Hunters, ponies and Saddle Horses as well as a comic Bareback class and a Musical chair ride. A special feature will be a class for Farm Teams. Refreshments will be served by the Women's Bible Class of the First Presbyterian Church of Newark.

Newark has not had a Horse Show in several years and a great deal of interest is being shown in the revival of this pastime. Many trophies and donations have already been received and several local horsemen have promised to show their horses.

Prize lists and other information regarding the show may be obtained from Mrs. Roland F. Koehler, 263 so. Chapel St., or Pliny F. Steward, Chestnut Hill Rd.

Prices For New Cars To Be Set In 2 Weeks

The OPA last week promised a decision in about two weeks as to whether prices for new passenger cars will be higher than those of 1942.

Price Administrator Chester Bowles meanwhile denied reports the agency already has decided against any price increase for most manufacturers.

However, Bowles authorized a spokesman to say there is no possibility of an increase as high as 25 per cent. This statement, it was explained, was aimed at reports that an increase of that size might be allowed.

4-H AWARD IS WON BY PRETTYMAN

Bear Youth Selected For Scholarship

Harold Prettyman, 20, of Bear has been awarded a scholarship to the 1945 season of training at the American Youth Foundation Leadership Training Camp, located at Camp Miniwanka, Shelby, Michigan.

Scholarships are awarded each year to the most outstanding four-square 4-H boy and girl in each of 40 states, by the Danforth Foundation, cooperating with Purina Mills. Each scholarship

will care for the entire tuition cost of two weeks of training, August 13 to 26. The Camp is a non-denominational Christian Leadership Training organization, composed of a group of specialists in youth training, whose purpose is to assist young people to discover and develop their best selves, so as to better equip them to guide others. It is built on the principle of four-fold balance, physical, mental, social and religious development. The award given to 4-H boys and girls is based on their standing in athletic activities, scholastic standing, leadership in 4-H club work and character.

The exceptional 4-H boy and girl in each state are selected by the State Club Leader, from applications submitted by County Agents. Harold, who is a local club leader, was chosen by the State Leader to attend the Camp, because of his outstanding record in 4-H club work in Delaware. Since becoming a member seven years ago, Harold has conducted dairy, hybrid corn, garden, poultry, and health projects. At present, he is managing a 167 acre farm.

Notice to Bidders

Notice is hereby given that sealed bids will be received by the Town Council of the Town of Newark, Delaware, for the construction of concrete curbs, gutters, street surfacing and drainage on North Chapel Street, in the Town of Newark, New Castle County, Delaware; and opened and read in public at the Council office on August 17th at 8:00 P. M. Eastern War Time.

Instructions to bidders, specifications and forms of bids, plans, contracts, and bond for the proposed work, prepared by General Engineers, Inc., will be found on file in the Office of General Engineers, Inc. at 2129 Market Street, Wilmington, Delaware, and at the Council office after 4:00 P. M. August 7th and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and copy of the drawings by the Engineer on proper notice and payment of cost of preparations.

Bids must be made on standard proposal forms in the manner designated therein and required by the Specifications and must be enclosed in sealed envelopes bearing the name and address of bidder and name of project on the outside, addressed to the Town Council, Town of Newark, Delaware.

Each proposal must be accompanied by a bid bond or a certified check for not less than ten (10%) percent of the amount bid, and delivered at the place and on the hour above named.

The Town reserves the right to reject any or all proposals and to waive informalities in bids received.

By order of the Town Council

C. C. Hubert
Mayor

With deep humility, we join the multitudes who lift up their hearts, and give profound thanks for the precious peace which has come again to all mankind.
