NEWARK POST, NEWARK, DEL., OCTOBER 6, 1915

NUMBER 36

THIEVES AT WORK

Davis Home Near Glasgow Ransacked

The home of Jehu Davis near Glasgow was entered by a thief about two o'clock this morning, and three suits of clothes and a wallet containing eight dollars in currency taken. Early in the morning the family was aroused by the barking of dogs. An investigation revealed the fact that the house had been ransacked. The parlor window was raised high, apparently having afforded the thief a means of exit.

The wallet, which was in one of the suits of clothes belonging to Mr. Davis, was found at noon today in a chicken yard at the rear of the home of Mr. W. H. Evans. All the money had been taken, but a monthly railroad ticket between Cooch and Wilmington, with a number of valuable papers, was recovered. Mr. Davis has no clue as to the thief's identity.

Interest In Literary Societies

More interest is being taken and more activity shown in the two literary societies at Delaware College, this year, than for many years and the membership has increased in each. The officers for the college year 1915-16, are as follows:

Athenaeum—President, H. W. Bramhall; vice-president, Harold W. Horsey; secretary, W. H. Savin; treasurer, W. H. Mitchell; lecturer, J. W. Jones.

Delta Phi—President, Warren C. Newton; vice-president, S. D. Loomis; corresponding secretary, James E. Brayshaw; recording secretary, George C. Brower; treasurer, J. F. Davis; chaplain, J. H. Jones; sergeant-at-arms, L. B. Stayton.

WEDDING

Miller-Dunham Wedding

Mr. Clement W. Miller, son of Governor Charles R. Miller, and Miss Katherine H. Dunham, daughter of Mr. and Mrs. Russell H. Dunham of Wilmington, were married in Westminster Presbyterian Church in that city on Saturday afternoon by the pastor, Rev. Charles L. Candee. Mrs. A. B. Sanborn, wife of Lieutenant Sanborn, U. S. N., was matron of honor, and the bride's sisters, the Misses Marion G. Frances W., and Bessie M. Dunham, and the groom's sister, Miss Margaretta Miller, were the maids of honor. Miss Janet Jackson, Miss Mildred Hoopes, Miss Alice Betts, and Miss Anne Hatton of Milwaukee, were the bridesmaids. Congressman Thomas W. Miller was best man.

Grand Lodge Visits Newark

Grand officers of the Independent Order of Odd Fellows, of Delaware, visited the local order last Thursday evening. Officers for the ensuing year were installed on the occasion of the visit.

Plans For Home Economics Work

Miss Elizabeth Jefferson, connected with the Women's College as an extension worker in home economics has been conducting two home making schools in Sussex County. One of them is located at Ocean View and one at Millville. There are 18 registered at Ocean View and 9 at Millville. The schools which will be run for five weeks are attracting much attention and great interest is being taken in them by the actual home makers of the community who are attending the schools. In addition to the work of Miss Jefferson in the school, arrangements have been made for a number of lectures in the schools in the afternoon on subjects of interest to home makers. These lectures will be given by County Agent Pelton of Sussex county, Professor Mary E. Rich of the Women's College, and A. N. Pollard, the poultry expert of Delaware College.

After these schools are closed Miss Jefferson will undertake some public school work and also work in New Castle and Kent counties in connection with the Girls Clubs.

NEW ROTARY FARM TRACTOR EXHIBITED

Demonstration On Farm Of H. P. Scott

In the presence of a number of farmers and other interested, a demonstration was given on Saturday afternoon of an Allis-Chalmers rotary tiller on the farm of Henry P. Scott, near Delaware City. Mr. Scott has purchased this machine and will use it on his farm this fall. It is the first tiller of its kind that has been operated east of the Mississippi river, although it has been used for experimental work in the northwest. The work of the tractor was successful.

Among those who witnessed the demonstration were: former Judge David T. Marvel, James P. Winchester of Wilmington, Dr. Belleville, James Clark, Amos Collins of Delaware City, Prof. Harry Hayward, A. E. Grantham and W. A. Lintner of the Delaware College Experimental Station, and Robert Weimer, Earl Dickey, and Howard A. Broadwater, agricultural students of Delaware College. Previous to the demonstration some of the visitors were entertained at luncheon by Mr. Scott and his son Harry.

The tractor demonstration took place on the field north of the Delaware City road and east of the railroad tracks. It consisted of preparing the seed bed on soybean stubble covered on cornstalk ground and sod. In preparing sod ground, it is necessary to go over it twice, once to break up the sod and once to prepare the seed bed. The seed bed can be prepared from a depth of one inch to one foot and consequently the tiller is adaptable to all kinds of crops.

Those who saw the demonstration were surprised and much pleased with its work as it shows great possibilities. The machine was operated by C. H. Margell, a gas engine expert who will instruct Mr. Scott's farm hands in operating it.

The tractor has one steering wheel in front and two driving wheels in the rear, 5 feet 2 inches in diameter by 11 inches in width. The drivers have a cast steel rim with horizontal triangular projections on both sides of the flat rim. The projections come into action more and more the softer the soil. The weight of the machine with the tiller is about 4500 pounds. The wheels of the tractor are 6 feet 10 inches from center to center. The whole machine with the tiller is 14 feet over all. The tractor is equipped with a 4-cylinder vertical motor, giving 30 horse power. It is water-cooled, and the large radiator is mounted in front of it. The motor is placed lengthwise of the tractor and forward of the driving wheels.

The tractor does the work of a plow, harrow and roller, as the ground is ready for seed after it has been gone over by the machine.

Inventors and designers have attempted for a long time to construct a machine by means of which a seed bed might be properly prepared in one operation. Only recently have these attempts been successful in Europe, and the Allis-Chalmers Manufacturing Co. of Milwaukee, Wisconsin, undertook to introduce and manufacture the machines in the United States.

Nutrition Controls Peach Disease

After seven years' experience in growing peach trees Professor Charles A. McCue of the Delaware College Experimental Farm is of the opinion that nutrition plays an important part in controlling the disease known as "the yellows."

In work at the college farm he has applied nitrate of soda as high as 1,000 pounds an acre with most gratifying results both in growth of trees and amount of fruit produced. During seven years in an orchard of 1000 trees he has removed less than half a dozen on account of "the yellows."

Professor McCue does not feel these results can be considered conclusive, but indications point that way.

Special Devotions

In Catholic Church Special devotions will be held in the Catholic Church on Friday evening, October 8th, in honor of the Feast of the Holy Rosary.

Company E Moves To New Armory

The new State Armory, headquarters for Company E, has been completed. The Company has moved in and members are busy fixing up their new quarters preparatory to their winter's work. Several details of furnishing have yet to be worked out before the building will be open for public inspection.

The State Military Board will probably make the final inspection sometime during the month, after which it will be officially accepted and turned over to the State Militia authorities.

Problem Of Feeble Minded To Be Studied

As part of the plan of the Delaware Co-operative Educational Association in working out in conjunction with the government authorities numerous educational problems in the State, a staff of experts from Washington will come here shortly to study the social relations of the feeble-minded. Miss Lundgren of the Children's Bureau, of the Department of Commerce and Labor, was here this week in conference with Professor Harry Hayward, president of the association, on this subject. Miss Lundgren stated that the government agents would enter the field about the middle of this month. A survey of the feeble-minded was made several years ago.

The government experts will devote much of their work to individual cases to determine causes, effect upon schools, cost of sending the feeble-minded to institutions in other states, etc.

Mrs. Tyson To Present Play

The Agricultural Club of Delaware College is preparing to present a play shortly after Thanksgiving. This play will be given under the direction of Mrs. Herman R. Tyson, who directed the highly successful play, "The Jonah," last spring.

The name and date of this next play will be announced shortly.

Important Committee Meeting

The Committee on Instruction will meet in Dover on Friday, October 8, at 1 o'clock. The committee consists of Henry Ridgely, chairman; L. W. Mustard, S. H. Messick, S. H. Mitchell, and C. B. Evans.

NATION NEEDS TRAINED MEN

SENATOR HOUSTON URGES STUDENTS TO CULTIVATE DELIBERATE JUDGMENT

Students and townspeople crowded the College Oratory last Thursday afternoon, in honor of the visit of the Hon. David F. Houston, Secretary of Agriculture, U. S. Senator Willard F. Saulsbury and Governor Charles R. Miller. Governor Miller presided over the meeting, and Senator Saulsbury introduced the secretary, the speaker of the afternoon.

Secretary Houston, who was formerly president of Washington University of St. Louis, addressed his remarks to the student body of the college, bringing them authoritative information as to the type of man of which the country is in need.

Secretary Houston in opening remarks congratulated Delaware upon her new president, saying, "I can assure you there is no finer in the country." The speaker knew Dr. Mitchell when connected with the South Carolina College.

"It is only fair," he said, "that the good men of the country should be handed around and passed on. Dr. Mitchell's presence here is one of the good things that South Carolina and Virginia have contributed to Delaware's advancement."

"Although this is my first visit to Delaware," the speaker declared, "for I have had the idea that Delaware is a place that one passes through, having crossed the State perhaps several hundred times) I feel very much at home in Delaware. As I look into the faces of this student body, I see little that is different from those I have

Newark Without Rural Delivery Service

Rural Free Delivery—there ain't no such thing! Patrons of 57 miles of Rural Routes will receive no mail today and no provision made yet. Robert Crow, who was temporarily appointed to take the route until a Civil Service examination was held notified Post Master Brown of his resignation on Monday of this week. Mr. Crow made his last trip yesterday. The local postal authorities have twice notified the Department at Washington. No reply. Telegraphed early this morning. Still no reply. Complaints are being made everywhere. The Burleson at Washington can't be reached.

At present, the facts are, that the original three rural routes are without service of any kind. Further than that no assurance of service is given at Washington. So far impudent silence is the policy in vogue. Whether this community will adopt the national policy of "watchful waiting" is yet to be seen.

Another thing that came out this week is the fact that in the new routing, several patrons have been left off. These can secure their mail by placing their boxes at the nearest point ranging, so the carrier tells us, of 1-4 to 3-4 of a mile from residence.

The most striking instance is below the P. B. & W. R. R., the College Farm, R. A. Whittingham, and the Pencader Stock Farm. These are left off the routing entirely. And without notice of any kind.

The condition has upset the local office. Post Master Brown is doing everything in his power to adjust matters. No one is blaming local officials for the mixup.

As a matter of post office business, this latest trick of Burleson passes all limits of endurance.

W. H. M. S. Meeting

The Newark Auxiliary of the W. H. M. S. of the M. E. Church will meet at the home of Mrs. Robert Gallaher, Friday afternoon, Oct. 8th, at 2.30 o'clock. Annual election of officers.

Mary T. Williams, Secy.

W. C. T. U. Supper

The women of the Newark W. C. T. U. will hold their annual supper in the banquet hall of the Newark Opera House this Thursday evening, October 7th, from 5.30 to 8.30. The ladies guarantee lots of good things. Price of supper, 30 cents.

OVER THREE HUNDRED STUDENTS AT WORK

Encouraging Features Of The Present Session

The figures as to the attendance the present session in the dual colleges of Delaware have just been given out and are of interest to all the friends of these institutions. They are as follows:

Delaware College 225
Women's College 85
Summer School 168

Total 478

From this it will be seen that there are 310 students at work on the campus today. They represent several states, such as New York, Pennsylvania, Maryland, Massachusetts, New Jersey, Virginia, Tennessee, and Ohio.

The distribution of the students in the different departments is significant. Of the 225 men in Delaware College, 97 are engineers, 70 are taking agriculture, and 59 are in the arts and science course. There are about 100 Freshmen in Delaware College and about 40 Freshmen in the Women's College. It is noticeable that there is a gratifying increase in the number of students in electricity and chemistry, as well as in agriculture. Agriculture has the largest number of students of any single course in college, 70.

The rapid and efficient organization of Delaware College the present year is due to the fine work of the new office of Dean Edward Laurence Smith, and to the management of the new office of the registrar, Miss Eleanor E. Todd. Signal credit is due likewise to the entrance committee, consisting of Professor C. A. Short, chairman, Dean Harry Hayward, and Dr. W. O. Sypherd.

Particularly gratifying has been the hearty response of the students to the new regulations as to the payment of all college fees immediately upon entrance, in accordance with the plans of the Board of Trustees. The readiness with which the students fell into this businesslike arrangement, is indicative of the spirit of loyalty and co-operation which has marked throughout the life of the student-body in Delaware College.

Motor Rural Carrier Examination

The United States Civil Service Commission has announced an examination for the County of New Castle, Delaware, to be held at Wilmington and Newark, on November 13, 1915, to fill the position of motor rural carrier at Marshallton, Middletown, Newark, New Castle, Townsend, and Wilmington, and vacancies that may later occur on motor rural routes from post offices in the above-mentioned county. The salary on motor routes range from \$1500 to \$1800 per annum. The examination will be open only to male citizens who are actually domiciled in the territory supplied with mail by a post office in the county and who meet the other requirements set forth in Forms 2121 and 1977. Form 2121 may be seen posted at any post office in the county for which the examination is held, and Form 1977 and application blanks may be obtained from the offices at which the vacancy exists and where the examination is to be held, or from the United States Civil Service Commission at Washington, D. C. The appointee to this position will be required to operate a modern motor vehicle with a carrying capacity of not less than 800 pounds and a cubic capacity of not less than 80 feet. Applicants must file with their applications a statement of the equipment they will be able to provide in the event of appointment. Applications should be forwarded to the Commission at Washington, D. C., at the earliest practicable date.

Musical Postponed

The musical which was to have been given this coming Saturday evening at the home of Mrs. Charles Blake, for the benefit of the Building Fund of the New Century Club, has been indefinitely postponed. The date will be announced in a later issue.

COUNCIL MEETING

Little General Business Considered

Little business was transacted at the regular meeting of Council last Monday evening. The ordinance prohibiting the placing of gasoline tanks or the filling of automobiles on Main street was passed. Permission was granted S. E. Kilmon, to move the frame building recently occupied by J. Rankin Armstrong's store, to a site on New London avenue. This concession was made because of the fact that the purchase of the building was made before the town ordinance prohibiting the moving of buildings was passed. Mr. Kilmon is under bond for five hundred dollars, to guarantee the moving of the building without damage to main street, or any inconvenience to traffic. The request of David Grime for an extension of town water to his property in the northern part of town was granted. Owing to the fact that it will be necessary to obtain permission from the Pennsylvania railroad to run the water main under the Pomeroy railroad, this improvement will probably be delayed for several weeks.

Harvard Scholarship Not Utilized

Owing to the failure of the competitors for the scholarship offered by the Harvard Club of Delaware, to pass the entrance examinations of Harvard University, no effort will now be made to fill the berth and the scholarship will not be utilized this year.

Of the three competitors for the scholarship, Robert Wier, Jr., has entered Yale University; Rudolph Stuart is a student at Dartmouth; and Gordon McMullan has matriculated at Delaware.

Request To Observe Poet's Birthday

Secretary of the Interior Lane has written to the superintendents of schools of the several states suggesting that one of James Whitcomb Riley's poems be read in each school on October 7, the anniversary of Mr. Riley's birth. The Secretary calls attention to the fact that Mr. Riley and Mr. W. D. Howells are the last two survivors of a generation of literary men who were distinctively American and who did much in poetry and prose to reveal the characteristics of American life.

Popular Agent Resigns

Charles Dougherty, for 7 years ticket agent at the Pennsylvania Station, has resigned his position and accepted a position with a wholesale produce firm at Chester. Mr. Dougherty will act as the traveling representative covering New Castle county. Patrons of the Old Depot regret the decision of Mr. Dougherty. His courtesy and desire to serve, made him what we most require in a railroad official.

Cletus J. Boyd, son of Track Foreman Harry Boyd, will fill the vacancy created by Mr. Dougherty's resignation.

Horticultural Students To Make Inspection

A tour of inspection through the finest orchards of Kent county will be made on October 12 by Professor C. A. McCue and his students in Horticulture at Delaware College. Among the orchards to which they will give most time and attention are those of Messrs. Baneroff, Derby, and Soper. Professor Wesley Webb of the State Board of Agriculture, will accompany the men on this trip.

Obituary

Sarah E. Davis, aged fifty-five years, wife of Anthony C. Davis, sexton of the Welsh Tract burying ground, died at her home near Newark last Wednesday, September 29th, after a lingering illness. Funeral services were held in the Welsh Tract Church on Saturday Interment in the adjoining cemetery.

COMMUNITY CIVICS AND ITS IDEALS

DR. DUNN ADDRESSES STUDENTS AND TEACHERS

Students of the Women's College, teachers in the Newark Schools, and members of the local Board of Health, met last Thursday afternoon at the Women's College to hear Dr. Arthur W. Dunn outline the work in community civics which will be undertaken in Delaware this coming year. Dr. Dunn is an expert from the Department of Education, Washington, who comes to Delaware to work with the Delaware Co-operative Educational Association. Dr. Dunn's mission is to show first to the teachers, and through them to the pupils in our schools, the big broad ideals of citizenship.

"Whatever else you are, or are planning to be," Dr. Dunn declared in the course of his talk last Thursday, "you are first of all citizens. You are bound to receive from the community in which you live, and you are bound to contribute for good or ill, to the same community. The good citizen may be defined as the one who has acquired the habit of conducting himself to meet community relations." The speaker likened the citizen deriving life from the community, to the hand deriving life from the body, and declared the citizen should be to the community as the hand to the body of which it is a member.

The speaker emphasized the importance of the teaching of community civics by reference to the wonderful development of democracy, as shown in the civic organizations, the health organizations, made up of sober-minded men and women in all parts of our land, referring also to Women's suffrage, the initiative, the short ballot, the popular selection of senators—and like issues—all of which mean a larger participation of the people in questions of government.

"The problem of democracy is after all," Dr. Dunn declared, "a problem of education. No matter what governmental devices are employed, they will not work unless the people are trained to handle them. Thus we are turning our attention more and more to subjects of social study—subjects whose subject matter is concerned with man's relation to the human family. Social efficiency has come to be the content of all social aims. We must not forget, however, that we cannot introduce social study by placing on the curriculum subjects of social content; we can only gain this end by adapting the curriculum to the actual social needs of the school. History, to be socialized, must meet the present needs of the children.

By Community Civics we mean then, the training for citizenship, not merely the giving of information as to the various forms of government. The teacher is called upon to help the child to know his own community, what it does for him, how it does it; what he owes to the community, how he

may fulfill his obligation. The teaching of community civics is the cultivation of habits. Its significance lies not in geographical implications. It is rather in the idea of community relations, of community responsibilities, of co-operation through government as the chief means of co-operation.

In closing his talk Dr. Dunn emphasized the importance of establishing definite standards toward which to work in the teaching of community civics. "First in importance," he said, "is the necessity of arousing interest in one's civic relations. Bad citizenship is more often due to lack of interest than lack of knowledge. Second, Good citizenship can only proceed from right motives. Therefore, civics teaching is good in proportion as it provides the pupil with adequate motives for studying civics, and for seeking to participate in the life of the community. Third, The proper conception of government is that of a means of co-operation for the common well-being. No man can be effective in life unless his 'team-work' is good. Therefore civics teaching is good in proportion as it stimulates co-operation among pupils, and on the part of the pupil with others, for the common interest of the community. Fourth, Two other qualifications for good citizenship that might be mentioned, are good judgment and initiative. Given an interest in civic affairs, a right motive, and a willingness to work with others, a man's citizenship will not count for a great deal unless he is able to sift out the essentials from the non-essentials of a situation, and to decide wisely as to the best method of dealing with it; and unless he has the power to initiate action. Civic education ought, therefore, to include the cultivation of civic judgment and civic initiative; and civics teaching is good in proportion as it cultivates the judgment with reference to a civic situation and the methods of dealing with it; and in proportion as it cultivates initiative in the face of such situation."

The Anti-Saloon League will make Sunday, Oct. 17 a field day in Wilmington with temperance services in churches of various denominations.

SECURITY TRUST AND SAFE DEPOSIT COMPANY
Sixth and Market Sts., Wilmington, Del.
Capital, \$600,000. Surplus, \$700,000.
Our Trust Certificates of Deposit are an Excellent Investment—as good as Paid-up Life Insurance Policies. 2.95 to 18.00

Blouses of crepe de chine, Georgette crepe, soire silk, silk lace and hand embroidered crepes; all the new colors. New collar and cuff designs.

NATION NEEDS TRAINED MEN

(continued from page 1)

things, young men, I congratulate you for being here. I decided several years ago that it makes little difference what college a boy goes to, but it makes a vast difference what he goes to college: there is not so much importance in what a boy studies as how he studies it.

"The field of agriculture today presents as many great problems and as many demands for talent, as any other great field of endeavor. Yet there are few men prepared to give these problems trained attention. Abraham Lincoln did few things of more permanent good than when he attached his signature to the Act for the Land Grant Colleges, and established the federal Department of Agriculture. Although the actual work began in 1870, little progress was made until the eighties and nineties. At present the work of the Department of Agriculture requires the attention of 16,000 trained men. It spends, including the work in the land grant colleges \$60,000,000 per annum.

"The Department is confronted by the great problems of distribution—as great as the problem of production itself. The great consuming public is robbed by the methods of distribution. I don't believe any party, individual or set of individuals, is to blame for this condition. These great economic problems have simply not received the attention they demand. The great difficulty is to find men who know anything about these complex problems.

"Such a statement sounds strange when we consider the thousands of colleges, with their scores of economists. But these economists cannot give us the type of men we seek by leading them through a study of the economic system of the Greeks and Romans, or introducing them to a knowledge of the methods employed in the countries of the world. The government demands that students of history and economics get busy and train men to help us to discover how to handle the problems of the market and rural finance. Such a field of usefulness is unlimited. Not only is there great opportunity in the investigational field, but in the other great realm of endeavor—the work of getting to all farmers what the best of us know, and what the best of us practice. If we could let all know what the best do, we could work an industrial revolution in America.

The thing is to teach the average farmer to do as well as the

best farmer does. In order to accomplish this purpose the government has sent farm demonstrators into every county in the Union; it has sent specialists in marketing, specialists in certain crops, poultry men, live-stock men. We are looking every day for men that can do such work. We are having difficulty in finding them. I a nation of a hundred million, with twenty million men, we can't find them. We want men who think of something besides themselves—who are willing to put more into the world than they take out of it; men who delight in work that they can do efficiently. We demand men of tact, of discretion, of judgment. There are two most important things that a college cannot teach—good manners and good judgment, even though the whole tends to inculcate good manners and good judgment. These traits can be developed only by the individual.

"Certain it is that no habit or state of mind can be more valuable to this nation than the habit of good judgment. Sometimes I am pessimistic about democratic government, because of the waves of hysteria that sweep over us. We must have men and women to develop our problems by wholesome methods,—a difficult task because of the inability of the public to get the accurate news concerning our most difficult problems. The

special performers—the geniuses, the world calls them—are not the heroes that a nation loves. They are rather the men and women whose actions are inspired by sound judgment and common sense. In the measure that we develop these traits may we be sure of the indefinite performance of the American Union."

Child Has Close Call

While picking coal under a car near the Beach street crossing of the Reading Railway in Wilmington on Sunday Mary Szabla, aged 14 years, made a narrow escape from death. A shifter was coupled to the car without the girl's knowledge and when the car moved

suddenly she crawled over the rail, the wheels catching and cutting off part of her dress. She was charged with trespassing and put in charge of Probation Officer Farra.

Will Fight Indictment

The Grand Jury in the General Sessions Court in Wilmington last Monday returned an indictment against Levy Court Commissioner Samuel L. Burris, charging that he contracted for repairing the Washington street bridge without asking for competitive bids for the work. At the request of his counsel the Court on Saturday agreed to hear argument tomorrow on a demurrer to the indictment.

Safety First

Use PAXSON'S SANITARY SWEEPING COMPOUND while sweeping.

It catches the GERMS as well as the DUST. If your jobber or dealer does not have PAXSON'S COMPOUND, then write us and we will see that you are supplied.

MANUFACTURED BY

Paxson Manufacturing Co.

219 Sansom St., Philadelphia, Pa.

Packed in barrels, 1/2 bbls. and tubs for use in stores, factories, theatres, hotels, churches, schools, etc., and in 5, 10 and 25c packages, for household use.

It cleans floors and brightens carpets, leaving the room in a pure sanitary condition from the use of the disinfectant and deodorizer that it contains.

Ask your grocer for a package on the free trial proposition. INSIST on having PAXSON'S SANITARY SWEEPING COMPOUND. ACCEPT NO SUBSTITUTES. OUR NAME is on all BARRELS and PACKAGES.

HERE AND THERE

Wilmington police made 651 arrests in September, the largest number in any month in the history of the department. Powder makers from Carney's Point largely helped to swell the total.

Surveys for a large munitions plant, supposedly for the Remington Arms Company, have been made at New Castle.

Boy Scouts and Camp Fire Girls cleared \$20 from a Charlie Chaplin entertainment at New Castle.

Harry G. Hance of Bear Station, James G. Shaw of New Castle, and George L. Batten of Delaware City, will seek Republican nomination for Levy Court Commissioners in New Castle hundred.

Coremakers in the New Castle Steel plants want 10 hours pay for 9 hours work.

Wilmington Chamber of Commerce resumed its weekly noonday luncheons on Tuesday at the Hotel du Pont.

The Baltimore and Carolina Steamship Company has given the contract to the Harlan & Hollingsworth Company of Wilmington for a large steamship to replace the George Weems diverted as a cotton carrier to ports in Europe.

Residents of Elsmere and neighborhood have secured a five-cent fare, with transfer privileges, between that point and Wilmington, from the Wilmington & Philadelphia Traction Company.

Harry Glandon, Delaware Railroad Crossing watchman at New Castle, was retired on pension on Friday after 39 years continuous service without a mishap.

A reservoir to hold 200,000 gallons of water for fire protection is under construction at Hockessin.

The Townsend Board of Education has awarded the contract for a new brick school to cost \$7234 to Culp Bros. of Chestertown, Md.

Delaware City residents are arranging for a carnival for the last week in October with a clay pigeon shooting match on the program.

The Young Men's Business Association of Dover cleared about \$300, to be applied to a fund for a hospital, from their recent homecoming week's attractions.

A veneering company in Philadelphia secured last week two carloads of walnut logs obtained in the Georgetown section.

Rev. Father Harney of the Paulists' Order, opened mission services in St. Paul's Church, Delaware City on Sunday.

The automobile of William Martin of Summit Bridge was wrecked when it ran against a telegraph pole between Odessa and St. Georges, one day last week but he luckily escaped serious injury.

Falling under a wagon, the wheels of which passed over his head, at New Castle last Tuesday, Leroy Gibson of Philadelphia died in half an hour.

Arrested in Chesapeake City for failing to blow his auto horn at a street crossing, Philip L. Garrett of Wilmington, Deputy Judge of the City Court and counsel for the Delaware Automobile Association was fined \$2 and costs.

Parties who stole an automobile tagged 107211 in Philadelphia were located in Milton, Sussex county, last Tuesday but escaped with the car before officers could move for their arrest.

George Garden, colored, is held for Court at Dover on the charge of stealing the team of Woodrow Wilson hitched on a street in Harrington.

Francis P. McCallin of New Castle has been appointed rural carrier on rural delivery mail routes combined for auto service, displacing R. S. A. Vallette and W. C. Vining and cutting the cost of the service from \$2200 to \$1800.

Industry Lodge I. O. O. F. of Bear Station, cleared \$130 from its recent carnival.

Officers of the Grand Lodge I. O. O. F. of Delaware installed a lodge of Rebecca at Dover on Sept. 25. The Central Railroad of New Jersey has given the contract for 30 all-steel cars to the Harlan & Hollingsworth shops in Wilmington.

The young peoples' dancing class of St. Georges gave the first of a series of dances to be held during the fall and winter on Friday night, September 24, in Odd Fellows' Hall. Those held last year were greatly enjoyed by residents of the town and neighborhood.

Guarantors of Delaware City's Lyceum Festival set for November 4, 5 and 6 have chosen the following officers: Dr. Walter W. Ellis, president; Harry C. Price, secretary; Henry Cleaver, treasurer. Committees were appointed on advertising, sale of tickets, hospitality, reception and decorations headed by Henry Cofer, C. Earl Baum, Miss Florence Hall, Harry C. Clark, and Mrs. H. C. Clark respectively.

The one hundred fifty-first anniversary of Thomas Chapel, located ten miles west of Dover and said to be older than Barratt's Chapel, near Frederica, was observed on Sunday, with Rev. J. M. Eckerd and Milton McCann of Smyrna as the principal speakers.

The Hambleton farm of 60 acres near Rising Sun, Cecil county, has been sold to W. C. Reynolds of that town for \$4600.

H. B. Smith of Newark, it is stated, sold the Alden farm of 521 1-2 acres, near Appleton, for \$4500.

An automobile bearing a New York license tag ran into that of Charles Blackston of Havre de Grace at the stone bridge near Principio, on the Elkton-Perryville road last Tuesday evening. Mrs. Blackston was severely injured and her husband was cut and bruised about the face and head. The car was completely wrecked.

A poultry and oyster supper for the benefit of the Stewards of Flint Hill M. E. Church will be held tomorrow (Thursday) evening in George W. Jones' shop, Strickersville. Ice cream and cake will be on sale.

The Elk Mills Athletic Association will hold a four nights' indoor carnival October 27-30, in the first floor section of the large stone mill in the village, the use of which has been granted by Mr. W. R. Baldwin, president of the Elk Mills Company.

Hog cholera is prevalent around North East, in Cecil county, and a number of farmers report losses from the disease.

The funeral of Lewis Buchanan was held at St. John's Church, Lewisville, with interment in the adjoining cemetery. He was a son of the late John Buchanan of Lewisville and residents for some time past at Roxborough, Pa., where he was thrown from a wagon on September 25 and fatally injured.

His wife, who was Miss Mary McCleary, survives him with four children.

Robert Mackey, Sheriff of Cecil county for the term of 1885-87, died at his home at Blake last Tuesday aged 78 years. He was well-known and highly esteemed. His son, Harvey H. Mackey, sheriff for the term of 1895-97, survives, as also two other sons, Jarrett and D. Clinton, and a daughter, Miss Susan Mackey. His funeral was held on Friday with interment in Rosebank Cemetery, Calvert.

Farmers and dairymen of the Elkton and nearby sections have formed a Mutual Benefit Association with E. W. Dawson, president, Warren J. Haines, vice-president, W. H. Sprinkle, secretary, and W. P. McFadden, treasurer.

Fine Street For Middletown

Middletown Council has awarded the contract for the repair of West Main street, from the railroad station to the public square, to the Juniata Paving Company of Philadelphia. The street bed will be covered to a depth of four inches with crushed stone coated with asphalt. Concrete gutters will be laid and stone crossings will be removed. The work will cost \$3000 to be met by the road tax levied by the town.

Stole Money In Store

Harry Potter, colored, is lodged in Dover jail charged with stealing \$5 from Mrs. Isaac Vickers of Smyrna. A customer paid Mrs. Vickers \$5 in her store which she laid upon a chair while showing some other goods and while her attention was engaged Mrs. Vickers charges Potter took the money.

Surprise For Crap Shooters

Going to 237 Tatnall street, Wilmington, on Sunday to arrest Ida Jones, charged with stealing \$25 from Aaron Shapiro, of 400 Maryland avenue, Officer Burchenal surprised about a dozen colored crap players who were busy at a game and drawing his revolver held them till the patrol wagon arrived. Ida was found at the house and was arrested and George Bell, one of the players was charged with assaulting Shapiro who accompanied the officer.

'Bounced The Wrong Way

Judge Churchman in the City Court in Wilmington on Saturday fined William Gibbons, bartender in J. W. McMahon's saloon in South Wilmington, \$200 for assault and battery on Joseph Cephas, colored, whom he violently ejected from the saloon. Cephas fell and broke two bones in his right ankle. Gibbons forced Cephas out backward and Judge Churchman held that was not the proper way to bounce disorderly customers.

Why Worry.... Over Your Family Wash? Let Snow White Laundry Do It

Rough Dry Department

OCTOBER 6, 1915

NEWARK MEMORIAL

Ladies and Gentlemen of Newark: We are authorized to make the following announcement by a resident who wishes his name withheld:

"Following your suggestion of last week, I will be one to give \$100 toward a \$2500 Loan Fund for the use of students at Delaware College. I would suggest that the fund be placed in the hands of the President of the College to be used according to his judgment."

A BROADER VIEW OF CITIZENSHIP

Last week's issue of the Post contained under the caption "Educational Returns Fail to Satisfy," an article from the September number of The Review of Reviews, criticising our present school system for failure to give us "the social and public values that we should be reaping from such an investment." "There is a gospel of social and public duty, accompanied by certain practical applications," the article declares, "that might be used to bring out the earnestness and personal worth of thousands of these young men." The writer goes on to suggest practical ways of developing citizenship. We reprinted the article because of a deep sympathy with the view of the writer.

It seems to us a happy coincidence that in the news columns of our following issue there should appear an account of the visit of a government expert who has come to Delaware with the sole purpose of developing broader and more practical ideals of citizenship; one who plans to work primarily through our schools and colleges. Delaware is to be congratulated upon the presence of Dr. Dunn. The value of his work should be recognized everywhere. May his plans move forward to a splendid success!

Interesting News-paper Supplement

"The State Register," one of the leading newspapers of lower Delaware, comes to us this week with a "Progress and Prosperity Section," which is a credit to the entire community. The eight page supplement contains sixty-two cuts, showing the various enterprises which interest the community. An interesting article by Judge Henry C. Conrad gives a "Historic Review of Sussex County."

Democratic Blunders

The "R. F. D. News," the weekly official organ of the National Rural Letter Carriers' Association published in Washington, D. C., gives in its issue of September 25th a symposium from several states of the angry kicks being delivered against the hamstringing of Rural Free Delivery by the present incompetent Democratic Postmaster-General.

Here is a sample of many:

In a three column display on the front page, the entire matter printed in heavy-faced type, the Berrien Springs Eva, of Berrien Springs, prints the following in its issue of September 16th, under the caption "Government Raises Hob with R. F. D.":

"The United States Government certainly raised 'hob' with the rural free delivery in this county. Not only is this county badly affected by such treatment but, in fact nearly the entire United States has been affected by this 'penny-wise, pound foolish' hallucination of the Postmaster General."

"Many of the rural carriers and in fact, some of the very best, are now out of a job. Many of these men lost their job the past few months and many more to follow."

"The loss of the carriers has made poor delivery for the patrons of the routes wherever a change has taken place. Many have been transferred to a route out of a nearby town, while others have to walk nearly a distance of a mile to obtain their mail. The largest part of the mail at the present time is parcel post. It is well-

high impossible to place the articles in a mail box and yet the Government is doing everything possible to induce the farmer to make use of the parcel post system."

This ruinous practice of crippling the postal service is caused by two things:

1st. a blundering fiscal policy which is already in the hole \$100,000,000 despite the fact that it has had two new sources of revenue, an income tax, and a war tax—in time of peace! But worse yet, harder times are to come when next spring the sugar revenues are cut off!

2d. A too ardent devotion to the "pork barrel" patriotism that in every possible way arranges for hosts of "worthy Democrats" to get a whack at Uncle Sam's money bags.

PEOPLES' COLUMN

Mrs. Porter Gives Interesting Bits Of Local History

The following letter has been received at this office from Mrs. Helen C. Porter of Baltimore, whose husband, the Rev. George Porter, was at one time pastor of the First Presbyterian Church, Newark. The letter contains an interesting bit of local history.

Dear Sir:—I read with interest the article in the last number of your paper in reference to the efforts of the Presbyterian church of Newark to raise the salary of the pastor so as to enable him to devote his time exclusively to the wants and requirements of the congregation. There is one statement, however, I must take exception to, and that is putting the rental of the parsonage as an asset to the salary. As the congregation pays no taxes on the manse I cannot understand why this matter should be under consideration at all. In this matter I speak as one who has had experience on the same line. When Mr. Porter took charge of the Newark church it was in the hands of two sheriffs. The church had been built at a cost of between twenty and thirty thousand dollars, nearer thirty, when building materials were at their highest price, shortly after the Civil War. Mr. Graham, the slater who had roofed the building had sued the church for the amount of his bill—eleven hundred dollars. The former pastor, Mr. Hamill, finding it impossible to collect the balance of his salary, three hundred dollars, had also put his claims in the sheriff's hands for collection. There was not a window nor a particle of plastering on the building. As soon as the kind friends of the church had put in the windows as a donation, the plastering was put on the walls. As the scaffolding was up at a great expense, Mr. William Wilson, father of Wilbur and Annie Wilson, loaned \$400 to the church for frescoing. This loan was made without security or interest. The ladies of the church saw that Mr. Wilson was paid, and greatly appreciated his liberality.

When Mr. Porter, in failing health, gave up the church after nearly eleven years' service, the church was finished, carpeted, and all bills paid. The parsonage besides, had been bought and paid for, with the exception of \$250. The cost of the parsonage was \$3500. All the money was collected except one thousand dollars which was loaned to the church by Curtis Brothers. Mr. Porter paid the interest on this loan in order to give the church an opportunity to pay off the principal.

After the parsonage was completed the Trustees reduced the salary from \$1000 to \$800, as they said Mr. Porter had no house rent to pay. At that time the most he had ever paid for house rent was one hundred and fifty dollars.

I forgot to state that nine ladies of the congregation each made herself responsible to raise one hundred dollars apiece for the pews. As far as I can remember the names of these ladies, first Mrs. Hamill, Mrs. Robertson, Miss Maggie Wilson, Mrs. Samuel Wilson (aunts of Wilbur and Annie Wilson), Mrs. Dr. Clark, Mrs. T. Donnell. I cannot recall the names of the other ladies. Miss Hannah Chamberlain was also one

of the number and myself. Those who collected or gave over the amount, let it go to the credit of those who had labored quite as hard without the same result. I give you these items in order that you may see how much quiet injustice goes on in the world. *** Respectfully yours, Helen C. Porter.

SQUIBS

It is an old saying that a bull in a China Shop creates a mixup. We believe, however, nothing compared to that of a Texas Steer in the Post Office Department.

R. F. D.—Rural Free Delivery. Revised version—Rank, Foolish Democratic.

Well, Willard has come, went and gone. Local Democrats dismissed all differences while the Chief was in town. Most of the candidates for Postmaster were there. Contrary to order of the local vigilance committee, one or two of the candidates went to the races. This act of gross neglect to do proper homage will no doubt ruin their chances.

Old Ben Franklin created our post office system. Wouldn't you like to read his description of the "Burley" methods now in vogue in the department?

We have not forgotten the noisy trumpeting which ushered in this "reform," this "economical" administration. But what are the facts? Why, the most costly, and extravagant mismanagement of government affairs this country ever saw!

Democracy was won't to scoff at the "billionaire" Republican administration and forthwith in the teeth of its boastful promises of "economy" goes the billion Republican some \$200,000,000 better! —Ex.

Fail On Safe, Steal Shoes

Burglars last Monday night battered but failed to open the Safe

in the Hanover Shoe Store at 602 Market street, Wilmington, which contained \$2000. Failing to secure any money the thieves carried off two dozen pairs of shoes. They scaled a high brick wall from the yard of the National Bank of Delaware and dropped into the yard at the rear of the store and secured entrance by forcing open a window.

FRUIT GROWERS, NOTICE

A Wonderful Feed

NO MIXING NO BOTHER

It positively produces more milk than any other ration either home mixed or purchased, and does it without giving your cows even a moment's trouble. Ready to use, and all the milk without any mixing or boiling.

Larrod-feed

Absolutely free from salt, grease and fillers, and like no feed you can mix. It is a complete ration of pure concentrated milk, dried to a fine powder, and contains all the vitamins and minerals necessary for the production of milk.

It is the most economical and most efficient feed for milk cows, and is the only feed that will produce more milk than any other ration.

Try it today! You will be sure to get a full return for every dollar you invest.

EDW. L. RICHARDS, Newark, Del.

WORKING AND SAVING

Working for a living? Making regular wages? Then every time you receive your wages take out of it some sure, certain, fixed sum and BEFORE you spend a single dollar of your wages bring that sum of money here and put it in your Account. It isn't the amount that counts—it's the doing it regularly, systematically—keeping at it all the time.

Save from your wages BEFORE you begin to spend your wages. That is the one, sure, great Secret of Success. Savings First!

—Labor and Thrift are the Cornerstones upon which the Structures of Success and Wealth are erected.

PERSONALS

Warren A. Singles, treasurer of the Newark Trust and Safe Deposit Company, has returned after an extended trip through the West. Mr. Singles is enthusiastic over the wonders of the Yellowstone, which he pronounces the most delightful feature of his trip.

Mrs. C. B. Evans is recovering from the effects of a fall at her home, one day last week. A bone in the left wrist which was broken in the fall, is reported mending nicely.

Miss Eleanor Pilling has accepted a position at the Newark Trust & Safe Deposit Company.

Miss Margaret Davis of Wilmington is the guest of her aunts, the Misses Springer.

Miss Evelyn Barr of Wilmington was the guest last week of Miss Mary Motherall.

Mrs. M. E. Kirk of Philadelphia is visiting her sister, Mrs. Rebecca Wilson.

Mrs. Ruth Fisher of West Chester, Pa., visited old friends in Newark this week. Mrs. Fisher has been entertained during her stay by Mrs. Ruth Rhodes, Mrs. Arthur Houchin, and Mrs. David Grime.

Miss Freda Ritz, who is engaged in settlement work in New York City, has returned after a vacation spent in Newark.

Mr. H. W. McNeal is spending the week with his mother, in Boston, Mass.

Rev. and Mrs. H. B. Phelps and daughter Jane of Thomaston, Conn., are the guests of Mrs. S. M. Curtis and family.

Mr. and Mrs. Fred Noepel and Miss Ella Noepel, of Newark, N. J., are the guests of G. Fader and family.

Mrs. Sarah Bilderback is receiving congratulations today upon the celebration of her ninety-first birthday. Mrs. Bilderback, who makes her home with her granddaughter, Mrs. E. C. Wilson, is perfectly well, and thoroughly enjoying life.

Mrs. C. L. Brokaw and niece, Miss Mary L. Brokaw of Childs, Md., have been the guests of the former's daughter, Mrs. Harold Tiffany.

Mrs. Forest Baker of Rising Sun, Md., spent the last week-end with Mrs. Laura W. Willis.

Miss Anna Willis was a recent visitor with Philadelphia friends.

SOCIAL NOTES

Mr. and Mrs. J. P. Wright gave a bridge party last evening, in honor of their house guest, Miss Florence Rogers, of Birmingham, Alabama. The guests included the Misses Cornelia and Eleanor Pilling, Edith Spencer, Elizabeth Wright, Elsie Wright, Eleanor Harter, Miss Brady, Miss Moss-crop, Miss Long, Miss Janvier, Middletown, Mrs. Ernest Wright, Mrs. McAvoy, Mrs. W. H. Steel, Mrs. Tyson; Messrs. Norris Wright, Ernest Wright, Professor Merrill Smith, Dr. Sypher, Mr. George Chambers, Lewis, Mr. McAvoy, Dr. Steel, Messrs. Sumwalt, Pepper, Wilson, Salevan, Groff, and Newton, of Delaware College.

Mrs. S. M. Curtis and Miss Hurd entertained at a tea on Tuesday afternoon, in honor of their guest, Mrs. Hamilton B. Phelps, Thomaston, Conn. The guests included Mrs. Ruth Fisher, of West Chester, Pa.; Mrs. C. L. Penny, Mrs. C. B. Evans, Mrs. J. H. Hossinger, Miss Anne Hossinger, Mrs. Edward Vinsinger, Mrs. J. P. Wright, Miss Rogers, Miss Harter, Miss Grime, Mrs. C. A. Short.

A dinner in honor of Mr. Alec Parks of Wilmington, was given last Wednesday evening at the home of Miss Frances Warren, Newark. The guests were Mr. and Mrs. Walter Field and daughter of Philadelphia, Mr. H. C. Jones of Washington, D. C., Lieutenant Fields, Miss Isabelle Scott of Philadelphia, Miss Helen Warner and brother of Atlantic City, Mr. and Mrs. W. M. Coverdale, Mr. and Mrs. S. F. Heiser, and Mrs. Emma Duling, Newark. Music and cards afforded entertainment for the guests during the evening.

New School Caps

Girl students of the Newark High School appeared Monday in new black tamoshanters with yellow trimmings—a school cap which has recently been adopted.

Dancing Class To Be Started

A dancing class will be started in the new Armory, Delaware avenue and Academy street, in the near future. Instruction will be given by Miss Katharine Maull, of Lewes, Delaware. Invitations will be issued later.

Golden Wedding Anniversary Celebrated

Members of the Welsh Tract Congregation met at the meeting house on Monday, in honor of the fiftieth wedding anniversary of their pastor, Rev. Benjamin Eubanks, of Newark. The happy event brought together friends from far and near, and the occasion was a memorable one. A feature of the luncheon provided by the ladies of the church was a large wedding cake, presided over by the bride of fifty years ago, Rev. Dr. F. B. Coulter of Philadelphia, made an address in which he paid high tribute to Mr. and Mrs. Eubanks. In the afternoon Elder related many of his experiences Eubanks, upon unanimous request, during the Civil War.

Mr. Eubanks was born September 8, 1843, in Union county, South Carolina. At the age of 17 years he enlisted in Co. K, Sixtieth Georgia Regiment, and served under General John B. Gordon, Georgia Brigade. He was wounded on numerous occasions, but never seriously. On May 12, 1864, he was taken prisoner at Spottsylvania Court House and taken to Fort Delaware, where he was confined 10 months and 20 days. After being released on March 10, 1865, he was taken by boat to Richmond, Va., and being without means of paying for further transportation started with a comrade, to walk to his home in Paulding county, Georgia, a distance of about 600 miles. When he arrived at his home he found his parents gone and some one else occupying the house. After leaving the house he did not know where to go, when a rather familiar coincidence happened. On walking down the road he met two girls and stopped to ask them regarding his parents. One of the girls afterwards became his wife.

On October 4, 1865, he married Mary M. Rogers of Paulding county, Georgia. Fourteen children were born to them: Miss Eugenia M. Eubanks, Benjamin T. Eubanks and Susan M. Eubanks of Newark; Mrs. William Pyle of Greensboro, Kansas; James R. and Sylvester H. Eubanks of Louisville, Ky.; William B. Eubanks of Washington, D. C.; Mrs. Nathaniel Lee and Oliver P. Eubanks of Wilmington. There are 11 grandchildren.

He entered the ministry in June 1865, being given charge of a church in New Salem, Georgia, where he served three years. He had been elder of numerous churches previous to his coming to Welsh Tract in April, 1901, where he has remained ever since. He at one time was pastor of the church in Wilmington. He resides at Newark.

It was late in the afternoon when the guests departed for their homes, after making known to Mr. and Mrs. Eubanks their esteem and wishing them many more years of happy wedded life.

Among those present were: Miss Harriet Fisher, Miss Sue Clendenin, Mrs. Mary Hargan, Mrs. Lucy Shriner, Mr. and Mrs. Cassie Roland, Miss Lillie Jenkins, Mrs. S. E. Green, W. J. Tawressey, Mrs. R. P. Haken, Mr. and Mrs. Arthur W. Rounds, Mr. and Mrs. John Yerkes, Mrs. Foraker, J. G. Tawressey, Mr. and Mrs. C. S. Bond, Calvin Cubbage, Mrs. Slack, Miss Hettie Slack, Mr. and Mrs. David Heyd, Mr. and Mrs. John Miller, Mrs. Susan Tawressey, Mrs. Wilson, Mrs. A. E. Rittenhouse, Miss Sallie Campbell, Miss Maggie Campbell, Miss Emma Campbell, Miss Laura

Gregg, Mrs. Kelley, Mr. and Mrs. Sterrett, Mrs. Saunders, Mr. and Mrs. Nathaniel Lee, Mr. and Mrs. O. Perry Eubanks, Mr. and Mrs. Benjamin Eubanks, Mrs. William Holton, Miss Audrey Miller, Miss Katie French, Mr. and Mrs. John Wilson, Mr. and Mrs. Thomas Green, Mrs. Arthur C. Rittenhouse, Mrs. William F. Hushebeck, Miss Annie Wilson, Miss Sarah Wilson, Mrs. Jacob Thomas, Mrs. Lowe, Mrs. Lowe, Mrs. Whittaker, Mrs. Ensor, Miss Jennie Grafton, Mrs. J. W. Southard, Peter M. Sherwood, E. Clifford Wilson and Anthony Davis.

Features Of The New Castle Teachers' Institute

A spelling contest for the pupils of the public schools of New Castle county will be a feature of the annual Teachers' Institute for New Castle county, which will be held in parlors A and B of the Hotel duPont, November 10 to 12, inclusive, according to the plans of Professor E. L. Cross, superintendent of New Castle county public schools.

Several other innovations will be introduced at the institute this year, according to Dr. Cross. The will consist of departmental work in which the principals and teachers of the high schools and the teachers of the primary grades and the rural schools the other group. This method will enable each group to discuss the subjects of interest to its members.

Among the speakers and instructors for the institute as already assured are: James F. Price, mayor of Wilmington; Professor Focht, Ph. D., and Dr. Arthur Dunn, from the National Bureau of Education, of Washington, D. C.; Dr. Coughlin, superintendent of schools of Wilkes-Barre, Pa.; Dr. Charles A. Wagner, state commissioner of education; Dr. Clifford J. Scott, superintendent of the city schools; Dr. S. C. Mitchell, president of Delaware College; Dr. Winifred J. Robinson, dean of the Women's College; Mr. Moon and Miss College, Miss Shrimp and Mr. Moon of Philadelphia, and others.

OLD STORE IN NEW QUARTERS

Attractive Shop Of J. R. Chapman

J. R. Chapman moved last week from the T. R. Armstrong store property, West Main street, to the remodeled property recently purchased by Mr. Chapman from the John E. Lewis Est. on Main street. Mr. Chapman for the last nine years, has carried a line of dry goods and groceries which has established his place in the local mercantile world. The trimming and lace department especially, presided over by Mrs. Chapman, has been the delight of those who appreciate these dainty accessories.

DELAWARE

At the new store Mr. Chapman carries dry goods only, having entirely dispensed with the grocery end of the business. The attractive store room has a floor space 75 by 35 feet. Along the entire front of the store are two large display windows. The room is well-lighted by means of twelve windows placed above the shelving which also afford a splendid means of ventilating the building. Features of the new store are the up-to-date haberdashery and shoe departments, aside from the fine line of general merchandise. Mr. Chapman's family occupies the residence connected with the store building.

Delaware Graduates In Advanced Work

Four students of the graduating class of 1915, or about 10 per cent of the graduating class, secured fellowships and scholarships at various educational institutions. H. J. Little, a graduate of the Arts and Science course, has a position in the Mellon Institute at Pittsburgh, where he is able to carry on his studies in research work in industrial chemistry. H. T. Bennett was appointed to a teaching fellowship in chemistry in the University of Nebraska, Lincoln, Nebraska. He is studying problems in agricultural chemistry, and will take his master's degree this year. Mr. Bennett is a graduate of the Arts and Science course.

W. I. Brockson and Paul Emerson, of the Agricultural Department, each secured research fellowships at the Iowa Agricultural College, at Ames, Iowa. Mr. Brockson is taking special work in the department of farm crops, and Mr. Emerson is studying problems relating to the bacteriology of soils.

The first cow testing association to be organized in Delaware is now started on its first year's work. Mr. Hugh Fergus, who has been working in Delaware among the dairy farmers, reports that he has several men enlisted for the formation of a second cow testing association in the vicinity of Middletown. The one which is already organized in the extreme northern part of the State has for its official tester, Mr. L. G. Gibney, who was graduated from the agricultural department of Delaware College in June 1915. The associations are bound to mean the keeping of more efficient cows, which will net them greater returns,—by the dairy interests of Delaware.

VIOLIN LESSONS

College student will give lessons to several pupils.

AN INVITATION

Our assortment of fall merchandise is so varied and extensive that an attempt to fully describe, price or classify here would be impossible. A personal visit of inspection, direct contact with goods and prices, will only enable you to fully understand and appreciate what we are offering this season. The following will be well worth your attention:

A Suit of special worth at \$15.00.
Up-to-date Top Coats at \$12.00 and up.
Satin lined Persiana Coats at \$15.00 and \$18.00.
Fur trimmed Suits at \$22.00 to \$50.00.
Dresses for all occasions at \$15.00 to \$50.00.
Skirts, latest models, at \$5.00 and up.
Waists at \$2.50 to \$10.00.

Silks Laces and Trimmings
Cotton Goods Ribbons
Bedding
Pleasing assortment of Fur Coats, Muffs and Neck Pieces at very moderate values.

We solicit charge accounts from those of established credit, and deliver purchases free within a reasonable distance.

REPAIRING

While I personally devote my time to Optometry (the scientific examination of the eyes), I have a thoroughly equipped, up-to-date Shop in my establishment for the grinding of lenses and repairing of glasses. The foreman of the shop has been in my employ over ten years. This coupled with other competent workmen, insures the workmanship to be of the very highest possible order; add to this the best stock money can purchase, makes the output second to none.

Glasses for a new lens or other repairs, brought to me on any Monday during office hours, will be mailed to you before noon the next day.

Have your eyes examined

FOOTBALL SEASON OPENS WITH VICTORY

Delaware Men Win Out In Close Game

Delaware College football team made a good start for the 1915 season on Saturday when they defeated the strong P. M. C. team by the score of 7 to 6. The game was played in Chester. Each team made one touchdown but P. M. C. failed to kick the goal. Both the student body and the alumnus of the Blue and Gold was well represented at the game.

The result of the game was another demonstration of the able coaching of Coach McAvoy. It was the general opinion that Delaware would have a hard game and many thought the chances were that the locals would meet defeat. This was based largely on the fact that "Bill" Hollenbach, the former Penn star, is coaching P. M. C. this season and he has had much longer to get his team into shape than McAvoy.

The result, however, entirely changes the opinion of all who saw the game. Delaware started off with a dash from the first kick off and outplayed their opponents at almost every stage. The score does not begin to tell just how bad the blue and gold defeated P. M. C. On at least two occasions Delaware by consistent line plunging worked the ball to their opponents five yard line only to lose it on fumbles on the plays that would no doubt have meant other touchdowns but for the fumbles. More work will no doubt remedy this defect. Delaware throughout the game showed indications of having been much better coached than P. M. C.

Every Delaware player did his work well but the individual work of several of the team stood out especially bright. Captain Handy by his great line plunging furnished one of the features of the game. Try as they might P. M. C. could not stop the big full back and time after time he smashed their line for gains of from 5 to 12 yards. It was Captain Handy who took the ball over for a touchdown in the second quarter.

Fidance also put up a star game. His open field running with the ball and his tackling were other features. Lowe, the new back-field man, also showed up well and will no doubt improve with more practice. Taylor put up a consistent game. He was slightly injured near the end of the game and Chester Smith finished the game.

Marston and Myers, both new men at the end positions, played with a snap and vim that earned them many admirers. Although small men for the positions they more than came up to expectations. A slight injury to Marston put him out of the game in the second half and Smart finished at end. Groff also relieved Myers near the end of the game.

Crothers, the hard working center, is another Delaware man who played a crack game. His defensive work was of great assistance to the Blue and Gold. In Weldin it looks as though Delaware has found an extra good tackle as both he and Ernest Wilson did good work. The guards, T. Wilson and Newton, also did their share in bringing the victory to Delaware. For P. M. C. Campbell did the best work although Segal and Townsend also played a hard game.

Both teams scored their touchdowns in the second period. Delaware's score was the result of line plunging with Handy doing the bulk of the work. A few minutes later P. M. C. also scored as the result of a forward pass caught by Horlacher who made a touchdown after a long run.

P. M. C. made what gains they got on end runs and forward passes. They were much more successful in the latter play than Delaware. P. M. C.'s big backs were unable to find any holes in Delaware's line and with few exceptions were compelled to kick before making a first down.

Next Saturday Delaware plays Haverford at Haverford and the prospects look good for another victory.

The line-up of Saturday's game follows:

Delaware	P. M. C.
Meyers	I. e.
Weldin	l. t.
Newton	l. g.
Crothers	c.
T. Wilson	r. g.
E. Wilson	r. t.
Marston	r. e.
Fidance	q. b.
Lowe	l. h. b.
Taylor	r. h. b.
Handy	f. b.
Substitutes, P. M. C., Leak for Purdy, Kennedy for Wilson, Moore for Brodsky, Sweeney for Leak, and Leak for Cramp; Delaware, Smart for Marston, Smith for Taylor, Groff for Meyers;	

touchdowns, Handy and Horlacher goals, Taylor; missed goal, Campbell; referee, Joudet, of U. of P.; umpire, Crooks of U. of P.; time of periods, ten minutes.

Child Labor Commission Meets Thursday

The regular quarterly meeting of the Child Labor Commission will be held in the office of Charles Warner, in the Odd Fellows' Building on Thursday at 12 o'clock. Charles Warner, chairman of the Labor Commission of Delaware has issued a call for the regular quarterly meeting of the commission, to be held at his office in the Odd Fellows Building, Tenth and King streets, at noon next Thursday. Besides the commission and the inspectors, there will be present the advisory board, consisting of Miss Anna W. Bird, Miss Margaret H. Shearman and George B. Miller.

The commission desires it understood that all meetings are open to the public. Anyone interested in the cause, or who has business with the commission will be welcomed.

Medical Men Needed By Government

Young medical men between the ages of 23 and 32 will be given an opportunity on November 1st, 1915 according to a circular just issued by Surgeon General Rupert Blue, to demonstrate their fitness for admission to the grade of Assistant Surgeon in the U. S. Public Health Service. There are several vacancies in the government's mobile sanitary corps, which is now in the 118th year of its existence, but in order to be recommended to the President for a commission, a physical and professional examination must first be passed. As the tenure of office is permanent and the Public Health officers are liable to duty in all parts of the world, they are required to certify that they believe themselves free from any ailment which would disqualify them for service in any climate. Boards will be convened at Washington, Boston, New York, Chicago, St. Louis, Louisville, New Orleans, and San Francisco, but permission to take the examination must first be obtained from the Surgeon General. The examination is searching and includes, in addition to the various branches of medicine, surgery and hygiene, the subjects of the preliminary education, history, literature and the natural sciences. Commissions will be issued as Assistant Surgeon and after four years of service, the young officers are entitled to examination for promotion to the grade of Passed Assistant Surgeon, and after twelve years of service to another examination for promotion to the grade of Surgeon. The annual salaries are: Assistant Surgeon, \$2000; Passed Assistant Surgeon, \$2400; Surgeon, \$3000; Senior Surgeon, \$3500; Assistant Surgeon General, \$4000. When the Government does not provide quarters, commutation at the rate of \$30, \$40, and \$50 a month according to grade is allowed. All grades receive longevity pay, that is, 10 per cent in addition to the regular salary for every five years until the maximum of 40 per cent is reached. When officers travel on official duties they are reimbursed their actual traveling expenses.

Will Join Suffrage Parade

Mrs. Florence Bayard Hilles is arranging for participation by a delegation from the Delaware Equal Suffrage Association and the Delaware Suffrage Clubs in the parade of suffragists in Philadelphia on Friday evening, October 22. Those wishing to join the parade are requested to send their names to the Congressional Union headquarters, 305 Delaware avenue, Wilmington, or call Bell telephone 5580. Tickets will be sold for \$1.07, a reduced rate. Torches will be supplied at headquarters at 15 cents apiece. The train will leave French street station at 5.20 p. m.; the parade starting from Broad and Mifflin streets, Philadelphia at 7 p. m. and marching to the Academy of Music where Mrs. Carrie Chapman Catt, Dr. Katherine Davis, Norman Haggood and George Creel will deliver addresses. Among those who have already agreed to join the parade are Mrs. Hilles, Mrs. Francis I. duPont, Mrs. Victor du Pont, Sr., Mrs. A. L. Arniel, Miss Beatrice Lofland, Miss Edith Garrett, Mrs. Annie J. McGee, Miss Elsie Robelen, Mrs. Margaret Lofland, Mrs. Eva Dewey, Mrs. James Ginn, Mrs. Fletcher, and Miss Mary Fletcher.

Saves Drowning Boy

H. B. Fisher, Jr., employed at the Carney's Point powder works, on

Sunday leaped fully clothed from the ferryboat Long Beach, into the Christina and rescued Edward Mitch, aged 9 years, of 856 Bennett street, who had fallen into the river between the Third street bridge and Fourth street wharf. Several men stood inactive watching the boy's struggles while Fisher swam to his aid and brought him to the wharf where both were helped from the water.

Loses His Auto License

Justice Cox of Middletown, last Monday fined Robert L. Lane of Seaford, a traveling salesman for a Baltimore hardware firm \$50 and costs for operating a motor vehicle while under the influence of liquor. It was alleged that Lane's automobile collided with the team of Roy Grier, of Townsend and smashed his carriage. Lane's sentence carries with it revocation of his license for one year.

Bold Daylight Burglars

Henry W. Vandever reported to the Wilmington police authorities on Wednesday that during the absence of his wife his home at 2101 Van Buren street, had been entered and robbed. Every room in the house had been ransacked and watches, bracelets, rings, and other articles of jewelry valued in all at \$400 had been stolen. All the food in the pantry had been devoured. Beyond the fact that residents had seen two men in the rear yard of the premises, no clue was obtained for the police to act upon.

Preparing For Wheat Crop

The following article on the seeding of wheat, has been released for publication, by M. O. Pence, County Agent of Kent. The time is fast approaching when wheat will be seeded, and it would seem timely to take up some factors that will increase the next crop and help to insure more bushels at less cost. The matter of seed is always important. The County Agent recently warned about some of the wheats, for which great and unreasonable claims are made. So far as the latest experiments and experience goes, none of these so-called new wheats are any better, and few as good, as the old reliable varieties. Furthermore, most of the so-called new wheats are only standard varieties sold under a new name, and at a much increased price. Last year some of our Kent county farmers bought wheat at \$2 and upward, which could be seeded at the rate of one peck to three pecks per acre, and which would stool and occupy the land as well as other varieties seeded at the usual rate. All the growers who have been interviewed report that none of these new wheats are superior to their home varieties. We recently wrote that the Marvelous, Wonderful, Miracle, and Stoner are all one and the same wheat. I base this statement on the investigation of several of our experimental stations, who have been trying out the new varieties.

Among the smooth wheats the Leaps Prolific stands out prominently as one of the best. Mr. E. A. Evans, of Cheswold, reports a yield of thirty-one bushels per acre of this variety for the season 1915. He also reports that this variety outyielded the Miracle (or Stoner) during the present season. The Miracle is one of the good bearded varieties, along with Rudy Gypsy, Red Wonder, Lancaster, and Fuleaster. The County Agent will be glad to advise with any one and help them secure a better variety than is now being grown.

Owing to the rainy season and adverse conditions attending threshing this season, much wheat was binned with too much moisture. Many will be disappointed with a poor stand, due to heated wheat and injured germination. If you cannot test your wheat for germination, ask your County Agent to do so.

Hundreds of dollars were lost this year by our growers because of so-called "bust," properly known as "bunt," or stinking smut. It has been clearly demonstrated that with good materials and careful treatment, this disease, which is carried on the seed, may be prevented. Whether your seed has any "bust" this year or no, it is just as important to treat the seed. Your seed, which may have been threshed free from the trouble, may become infected from the threshing machine, the grain drill or the grain bin where stored. One pound, or one pint, of formalin to fifty gallons of water sprinkled over the seed properly will prevent this trouble, at a cost of less than a cent a bushel for the materials.

After treatment, cover the seed with grain bags or binder tarpaulins, and allow the fumes to kill all the fungus spores of the disease. This will take at least two

hours and may be allowed to stay on all night. Only enough material should be used as is necessary to cover each seed with a film of moisture. After treatment spread out the seed to dry, and be careful not to put it where it will become infected. Complete details will be given by the County Agent.

We should all take the precaution this year given by the department of Agriculture and seed wheat only after the fly-free date, which for this State does not come until October 10. Previous seeding will not only endanger your wheat, but it is a means of propagating the insects for the neighborhood. Extra care should be taken and not allow the volunteer wheat, that has started on fallow ground, to live over with that seeded this fall. If it is not deeply disked under it will carry the fly over on the whole crop next spring.

Because the high price of potash in all mixed fertilizers and the fact that manufacturers are likely to

run below their guarantee for this element, it would seem profitable to use potash in mixed fertilizers this fall on wheat. By good cultivation and a well prepared, sweetened soil, the wheat crop may be

very profitably grown without potash. Roch (acid phosphate) is no higher than formerly. If ammonia is wanted it may be secured in tankage, which could be mixed at home with the rock.

Interesting Art Exhibit in Wilmington

A large and appreciative number of guests viewed the exhibition held by Clifford W. Ashley, in the Rose Room of the Hotel du Pont on Saturday evening. Many of the pictures were sold during the evening. Mr. Ashley is the first of Howard Pyle's pupils to exhibit in the latter's native city, and because of this fact the occasion was of special interest in both social and art circles.

Mr. Ashley being a marine painter, his works picture either the open sea, or the shore. Naturally his whaling pictures will attract, as he has devoted so much of his time and talent to this industry of his native town, New Bedford. A very notable example of his inclination to scenes pertaining to whaling is "The Sail Loft," an oil showing a great spread of canvas being made up for an old square rigger. The loft is located in New Bedford, and is one of the biggest in the country and sewing on the canvas are an aged man who has worked 60 years at the trade, and beside him his son, who has worked with his father for 40 years.

Quite into the realm of phantasy is "The Sun Spot," an oil in which Mr. Ashley has let loose all his love and his control of color. A rift in the clouds lets out a glorious shaft of light upon one of the Columbus caravels, with all sails set on what was then an unknown sea. "The Adventurer" is another name for it quite as applicable, because only venturesome spirits set forth in days of old, on what to us are cockle shells for ocean travel.

Both oils and water colors in Mr. Ashley's collection are exceedingly interesting, and should attract many persons while they are on exhibit this week. Being placed in such close proximity, it is easy to appreciate the sparkle and the activity of water color as a medium, and oil as a more serious, studied medium.

It is one of the great compensations that the good men do lives after them, and by the same token it is to rejoice that art is long even though life is short. The reflection is brought about by the exhibition of the mural painting for the State House at Dover, painted by Stanley M. Arthurs, also on exhibition at the Hotel du Pont, and the exhibition of Mr. Ashley's paintings. Back of the mural painting and Mr. Ashley's pictures of the sea, its shores and its craft is Howard Pyle, painter and illustrator, whose fame will never cease to shed lustre on his native city, which now is an art center, despite the leave taking of many of the Pyle pupils, since Mr. Pyle's death.

Both Arthurs and Ashley studied with other teachers but Pyle was the great master, and to him they owe the highest allegiance.

With the exception of a loan exhibit quite a good many years ago, Wilmington never had an art exhibition, until Mr. Pyle's pictures were exhibited after his death when funds were being raised for the purchase of part of them for the city. Then the Wilmington Society of the Fine Arts was organized to hold those pictures for the city, and now its third exhibition is to be held November 1-6, and it is widening its scope as much as the New Century Club spacing permits, and has invited ten outside artists to exhibit.

New Castle Co. S. S. Workers Plan Convention
The twenty-eighth annual convention of the New Castle County Interdenominational S. S. Association will be held on Thursday, October 21, in McCabe Memorial Church, Twenty-second and Boulevard, Wilmington. The program committee is arranging a thoroughly practical program for the benefit of the Sunday School workers of New Castle county.

Harry Link of Delaware Avenue Baptist Sunday School is president of the association; William B. Smith, Jr., of St. Paul's M. E. Sunday School is chairman of the executive committee, and E. Ross Farra is general secretary.

The association is also arranging for the second annual older boys' conference, which will be held in Wilmington, Friday and Saturday, November 19 and 20. The conference will open with a banquet on Friday night with the general conference on Saturday.

Charles W. Bush is chairman of the committee of arrangements and the associates on the executive committee of the conference are Walter Watson, boys' secretary, Y. M. C. A.; William E. Eves, superintendent of the Friends' First Day School at Fourth and West streets; Rev. John L. Johnson, New Castle; Ralph Minker, Richard Ennes and E. Ross Farra.

At the banquet held last year 82 older boys and 17 workers with boys were present, but it is hoped that this number will be doubled this year.

Beaten, Saved Wages
Andrew Gallagher, aged 65 years, who had been paid his wages a few hours before, while on his way to his home in McHugh's Court, Wilmington, last Tuesday night, was attacked and beaten by two footpads who attempted to rob him. He resisted and saved his money as policemen hearing his cries ran to his aid, his assailants fleeing on their approach. Gallagher was taken to the Homeopathic hospital where his eyes were found closed and his head badly bruised.

Wagner Family Relief Fund
The fund collected for the family of Lewis F. Wagner, who was killed by lightning at the summer encampment of the Delaware Or-

OVERCOATS

ganized Militia near New Castle, totals \$1030.75. A Wilmington bank will have charge of the fund and make weekly payments from it to the family of the deceased.

The Delaware Farmer
The "Delaware Farmer" published by the agricultural students of the college, is to be made of still more value to the agricultural interests of the State by the addition of a department of Home Economics under the direction of the Department of Home Economics of the Women's College. The "Farmer" has a wide circulation among the farmers on the Delaware Peninsula. Each month it contains valuable articles on all matters pertaining to farm practice, which are based on the experimentation and experience of the Delaware College Experiment Station.

PARENTS AND TEACHERS MEET

Fall Meetings Open With Interesting prospect

The Parent-Teachers' Association held an interesting meeting last Thursday afternoon in the grammar schools. This was the first meeting of the fall and was well attended both by parents and teachers. Mrs. C. O. Houghton presided and a number of matters for the mutual benefit of teachers and pupils were discussed.

The indications are that as a result of the activity of this association a reference library will be established for the grammar and primary schools which is something that is much needed. The matter was brought up at this meeting and Miss Frances Medill and Mrs. Frank Cooch were named a committee to look into the matter and report back to the association. Some plan will probably be suggested for raising funds with which to start the library.

Principal Friedel suggested that something be done to interest the pupils in spelling. Last year prizes were offered and it had a good effect in increasing interest in spelling. After some discussion it was decided to offer cash prizes in spelling and Mrs. Kennedy, Mrs. Rowan, and Mrs. Barnard, were named a committee to work out the details of the plan.

For some months the ground in the rear of the primary school has been in bad condition and this matter was brought up and discussed. There are low places on the ground where water lays after a rain and glass and bottles have also been dumped there that makes it dangerous for children who play on the grounds. Miss Esther Ferguson and Mrs. Ritz, was appointed a committee on grounds to try and have some improvements made. Some of the members thought that it would be possible in time to make a model playground for the children on this ground there being plenty of space.

Mrs. Houghton stated that a number of teachers had suggested to her that they would be glad to have the parents of pupils visit the school as they thought the co-operation of parents would help their work. It was decided to appoint a visiting committee of four to visit the schools each month but other members will be equally welcome should they desire to visit the schools at any time. The visiting committee named by the chair for October consists of Mrs. William H. Cook, Mrs. William J. Barnard, Mrs. Arthur S. Houchin and Mrs. William E. Hayes.

Following the business meeting there was a social hour when refreshments were served.

Passenger Auto Service

W. F. Gatchell of Wilmington has started a passenger auto service between Wilmington and Elkton, by way of Newark and Elk Mills. Cars leave Wilmington Eighth and Market, and Newark at Deer Park Hotel. The complete schedule appears in another column.

Chicken Thieves Lashed

Six prisoners in the New Castle County Workhouse, who were convicted on various charges and sentenced in Court of General Sessions during the past week were whipped at the whipping post in the workhouse yard Saturday. All the men are serving sentences for larceny.

Andrew Hill and Spencer James both negroes, who are serving six year terms on charges of larceny of chickens, each received 20 lashes. Charles Boyle, also a negro, serving two years on the charge of larceny of chickens, received 20 lashes.

Others who were whipped were: William McCauley, who received 10 lashes; Courtney Speakman, who received 10 lashes, and Frank Bentley who received 10 lashes.

STRICKERSVILLE ITEMS

Alvie Peterson entertained several of his friends Wednesday evening at a birthday party.

Miss Aba Kurtz spent the week-end with Kembleville friends.

Mr. Leon Garrett and family motored to Lancaster Fair Thursday.

Miss Margaretta Hershey was a guest of Ella Singles the past week. Mr. Will Smith of Marion, North Carolina, is spending some time with relatives here.

Mr. Norman Pyle is visiting his aunt, Mrs. B. F. Singles.

Mr. and Mrs. Passmore entertained Mr. Cooper and family of Lincoln University, Sunday.

Miss Ella Singles has returned from a visit at Collingswood, New Jersey, and Philadelphia.

On Thursday evening, October 7, Flint Hill Aid Society will hold a poultry supper in Mr. Jones'

shop at Strickersville, and on the 23rd the Wesley Aid society will hold a supper in the basement of the church at McClellandville.

PLEASANT HILL

Mrs. Sallie B. Cooke, Mr. and Mrs. A. M. Jackson and Mr. and Mrs. Harry Dashiell, all of Salisbury, Md., motored to the home of their cousins, Ablan Buckingham and family, on Sunday.

Mr. and Mrs. Samuel Johnston and daughter Madeline of Milltown were Sunday visitors at the home of J. T. Dempsey and family.

Mrs. A. J. Whiteman and daughter, Mrs. Samuel Rierison, spent Thursday with William Trayner and family at New Garden, Pa.

Misses Ethel Pryor and Bertha Eastburn were the recent guests of Miss Clar Collins.

Mrs. Jos. Worrall and daughter Edna, Mr. and Mrs. Frank Comly, and Mr. and Mrs. Edward Worall and son Wilson, motored to the home of Frank Buckingham on Sunday.

Rev. H. O. Klug was entertained on Sunday at the home of Mr. and Mrs. Herman Cooke.

Miss Margaret Eastburn who has been spending some time with her parents, Mr. and Mrs. O. W. Eastburn expects to return to California in a few days where she will spend the winter.

Delaware Men In And About Pittsburgh

Dr. W. O. Sypherd in a recent talk to the students of Delaware College at chapel, spoke of the comparatively large number of Delaware graduates whom he met at Pittsburgh, during the course of a few weeks which he spent there last summer. Dr. Sypherd said:

Any Delaware College man who lands in Pittsburgh now will find plenty of real "Delaware" good fellowship. There are at least fifteen "Delaware" men, representing the classes from 1895 to 1915, located in or about the smoky city.

Every Friday, as many of these men who are down town meet at luncheon; occasionally they have a more formal reunion. Out there are Andrew Kerr, 1895, with the Central Tube Company; Joseph W. Brown, 1899, Mechanical Engineer, with offices in the Columbia Bank Building; "Tommy" McKeown, 1900, with the Fort Pitt Company, Carnegie; "Bill" Hirst, 1900, Assistant Engineer of Construction, City of Pittsburgh; W. L. Fader, 1902, with the General Electric Company; Howard Ferguson, 1904 Superintendent of Power, West Penn Traction Company; "Jack" Kelley, 1908, with the West Penn Traction Company; C. E. Taylor, 1911, in Wheeling, with the West Penn Traction Company; "Bob" Harvey, 1912, in the Sales Department of the Westinghouse Electric and Manufacturing Company; "Bob" Cranston, 1914, with the West Penn Traction Company; Raymond McNeal, 1914 and "Bill" Manning, 1915, with the Westinghouse Machine Company; E. W. Loomis, 1914, recently sent to New York by the Westinghouse Company; "Sammy" Shallcross and Marshall Jones, 1915, with the Westinghouse Electric.

Work For Local Institutes Outlined

At a recent meeting of the three county school superintendents of Delaware, it was decided to recommend a revision of the High School text book list to the State Board of Education, and steps have been taken to learn the opinion of the teachers of the several high schools of the State as to the books now in use.

The county superintendents have arranged the schedule of Saturday meetings for publication in the Institute Hand Book. This year the study and discussion will be, "Teaching of English, both in Town and Rural Schools." At these Saturday meetings of the county superintendents and the teachers, the county agents and the field worker of Delaware College in Domestic Science will conduct special courses.

Jackson S. S. Notes

On October 16, at 1 p. m. the "True Blue" Sunday School class will hold its annual reunion and election at the home of the teacher, Miss Kimble, Appleton.

On October 17, a Mother and Fathers' Day Service will be held at Jackson Hall, near Appleton, at 2.30 p. m. In the evening Rev. A. Van Overen will begin a series of Evangelistic meetings. All are cordially invited to attend these services.

Growing Business Demands New Equipment

In order to care for rapidly increasing business around Newark, the Snow White Laundry came

out this week with a new truck of the Vim model. W. W. P. White, president of the company, is highly pleased at the growing business in Newark. In speaking of the Newark trade, he says he is making arrangements to give even better service in the future.

College Farm News

A record crop of peaches was secured from the Delaware College Experimental orchards this season. Professor McCue has estimated that over 8500 baskets were sold. A son of "Duke of Sussex 6th", the 16000 Berkshire boar, bred and developed by Delaware College, is now kept for use in the College herd of Berkshires. This boar, known as "Silver Spring Duke," is estimated to be worth at least \$2000. The boar will return to the College herd on November 1. A hackney breeder of Glen Allen, Va., who sometime ago purchased a hackney weanling colt from the college has just refused \$600 for it.

The Oklahoma Farmer

The average Oklahoma farmer gets up at the alarm of a Connecticut clock; buttons his Chicago suspenders to Detroit overalls; washes his face with Cincinnati soap in a Pennsylvania pan; sits down to a Grand Rapids table; eats Chicago meat and Minnesota flour, cooked with Texas cottolene on a Sears-Roebuck stove; puts a New York bridge on a Missouri mule, fed with Colorado alfalfa; plows a farm covered with a Vermont mortgage with an Illinois plow. When bedtime comes he reads a chapter from a Bible printed in Boston, says a prayer written in Jerusalem, crawls under a blanket made in New Jersey, only to be kept awake by an Oklahoma dog—the only home-product on his place—and then he wonders why he cannot make money raising corn.

The Price Of College Bred

"Huston talks of college 'bred' being a four years' loaf. Why it's simply cake here at Delaware."

The above comment by a Sophomore started a discussion. A visiting Alumnus who keeps in pretty close touch with college activities made this observation: "Boys, Delaware has improved—improved wonderfully. Library, laboratory, teaching staff, gymnasium—all so improved that it appears wonderful to me. Compared to my day it is a university—but. Now I don't want to be old-fashioned and laud those days when I was here but to my reckoning this body of over two hundred students with all these facilities, with their brilliantly lighted frats, don't give as many hours to study as did the little bunch of less than seventy-five when I was here. I'll tell you Nate Motherall's coal-oil and George James' heat were used to the limit. Poverty Row, Devil's Den, Paradise Alley, were crude compared to Fraternity luxury but they were the scenes of harder work than fraternities dream of. Understand, I am not opposed to fraternities, if they make good. They give polish but how about college spirit and most of all how about work? Athletics, social life improved and I am heartily glad. But college is a place for work or at least that is an old Grad's view. Remember Dr. Wolf flunking a whole class. That was the result of too much college 'bred' in those days."

Jitney Riders Killed

The New York-Chicago Express on the B. & O. R. R. at 9.58 o'clock on Sunday night while running at top speed struck a jitney bus at the road crossing at Leslie station which got in the way of the train. Three men riding in the bus were killed. One of the men was found a driver's card and license permit issued to Elmer Gassoway, 2408 Orleans street, Baltimore. The body was brought to Camden station on the express which was stopped and backed to the crossing. The two other victims were no coats but one wore a vest. Their bodies were left at Leslie for the inquest held by Coroner Dean of Elkton, on Monday.
