Residence Hall of The Women's College

The Women's College of Delaware offers to girls who are graduates of four-year high schools, excellent instruction at low cost, in broad cultural subjects and in Education, Home Economics and Agriculture.

*Dr. Winifred J. Robinson, Dean
Newark, Delaware*

Delaware College

Delaware College is now a new college built upon old tradition. With new buildings, an extended and improved campus, an enlarged faculty, and additional courses, it stands on the threshold of greater usefulness to the people of the State.

Three *new buildings* will be finished and ready for use at the opening of the next collegiate year. They are a scientific building, Wolf Hall, to cost \$280,000; a student building to serve as a commons or dining hall, and to contain rooms for all student organizations, such as the Review editorial board, the college band, the glee club, and the Y. M. C. A.; and a dormitory for Freshmen. The new campus, to be known as "The Green," will also be completed during the coming spring and summer.

The Faculty has already been increased and strengthened this year by several professors and instructors. In addition to these, men to teach business administration and physics will be secured before next fall.

New departments have been organized or provided for in the Training of Teachers and in Business Administration. The purpose of the first department is to prepare men to become teachers and principals of high schools. The second department will give an insight into modern business methods and equip men to take responsible positions in the business world.

Never before has Delaware College been so well prepared to do efficiently the work expected of it; never before has it to such a high degree merited the confidence and respect of the people of our commonwealth.

Surplus, \$700,000.

A Trust Company never dies—having this advantage over an individual Executor. Should your Executor be stricken after your death, it might result in the appointment of an entire stranger as Administrator—possibly one who would not have been acceptable to you. This uncertainty is avoided by naming this Company in your Will as Executor thereof

Kells Where Master Craftsmen
study and work at the
Art of Printing
Welsh Lane - Newark, Delaware

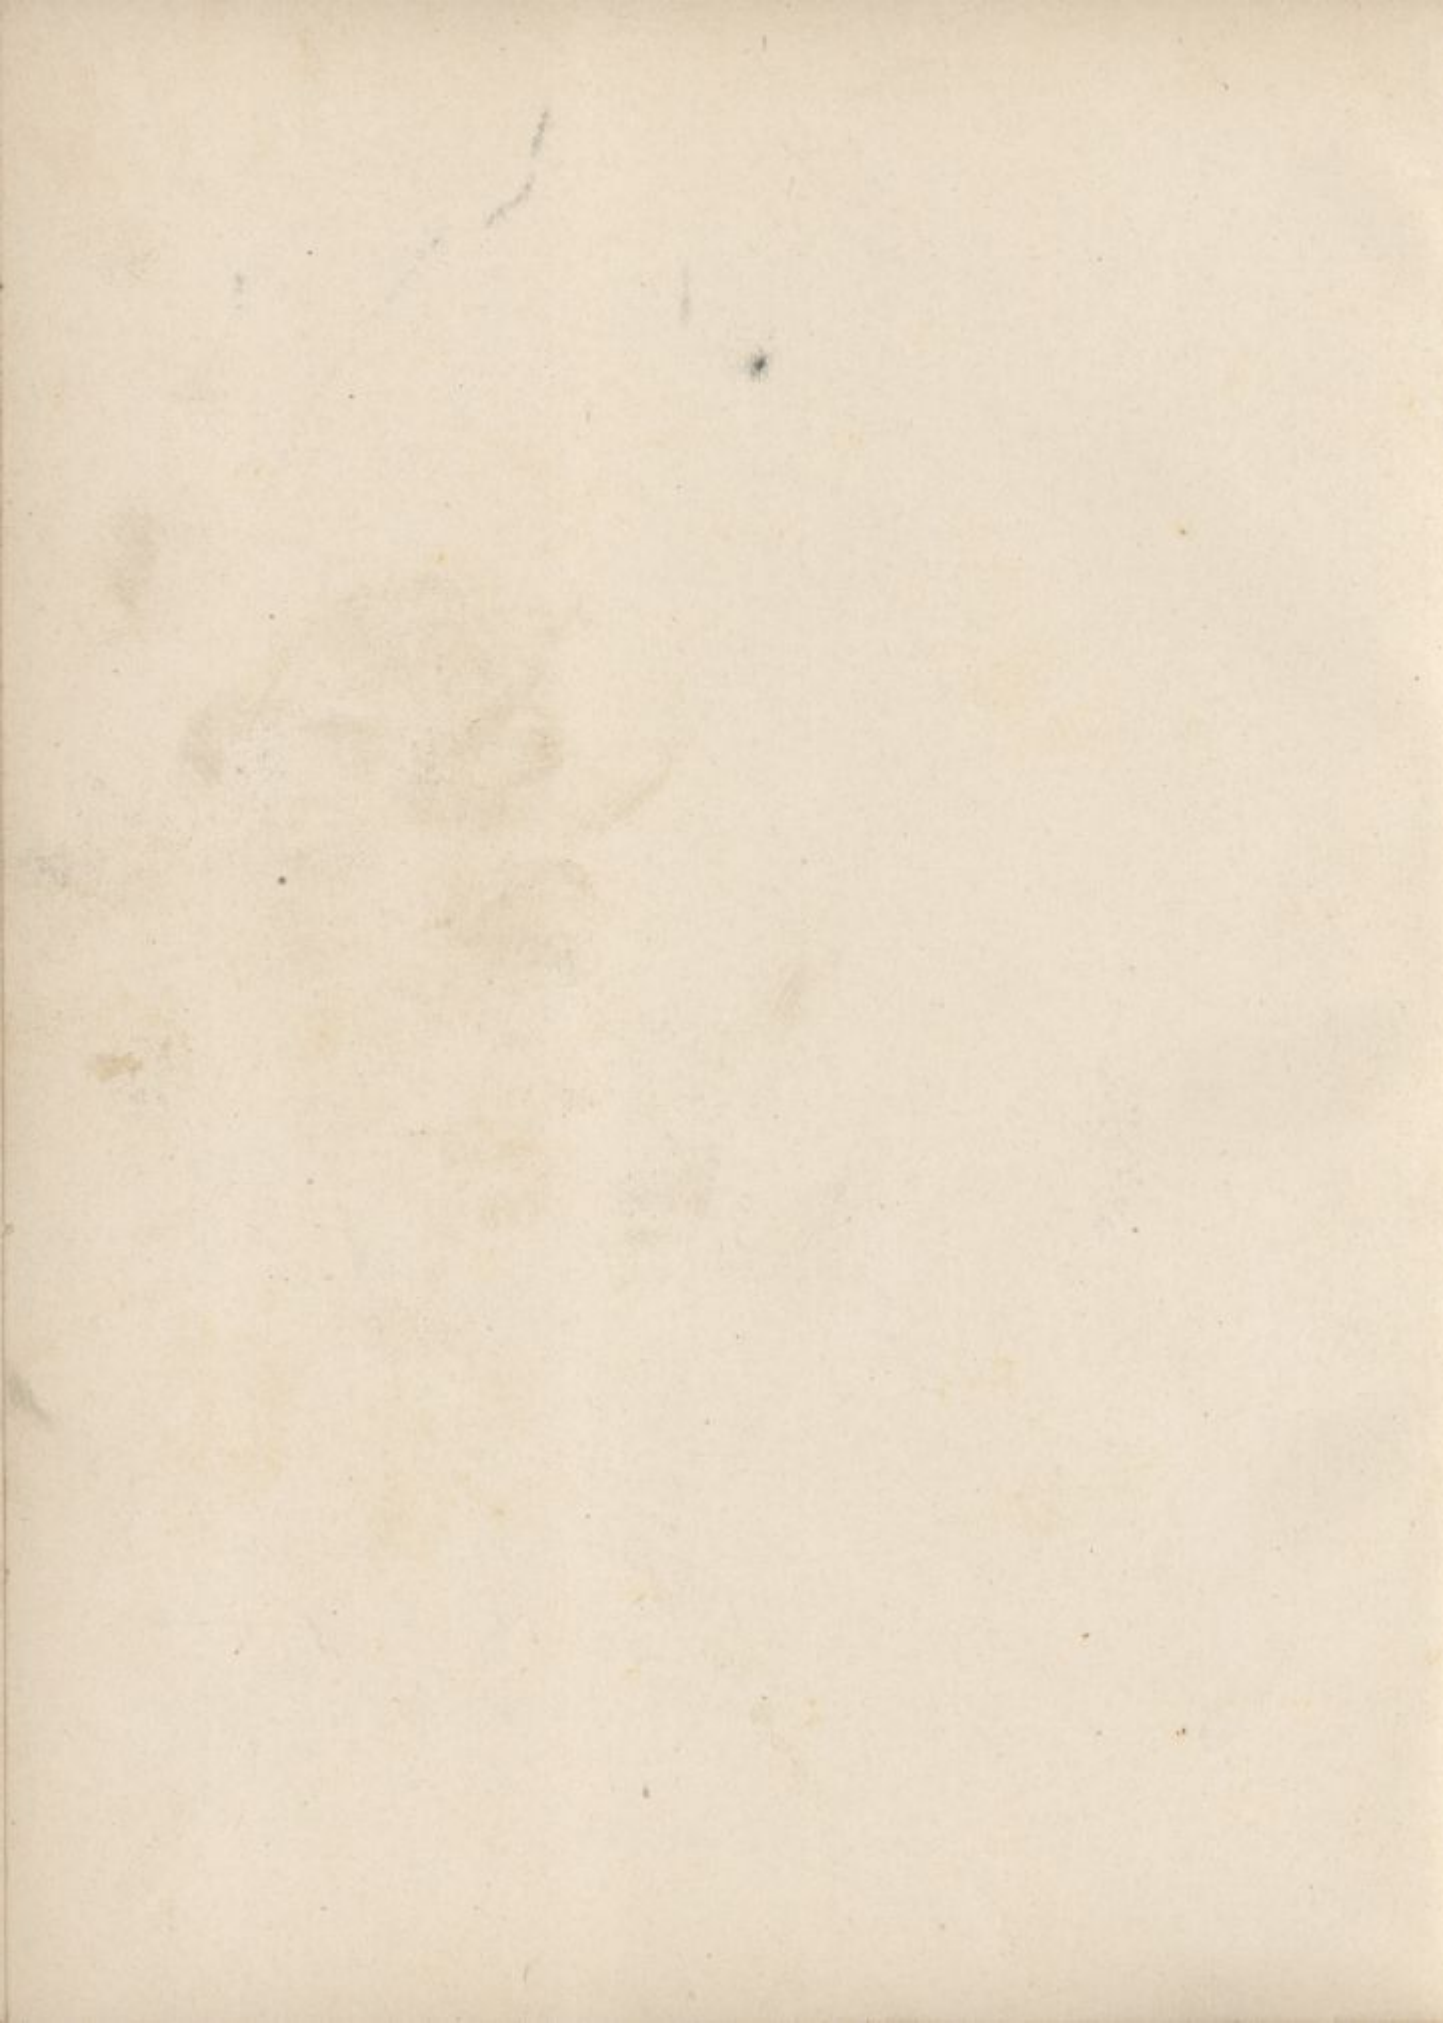

Kells was a Monastery in Ireland where in the Seventh Century Good Monk Columba, gave to the world the finest example of color work in the "Book of *Kells*" which after all these years, is well preserved at the University of Dublin ❀ ❀ ❀

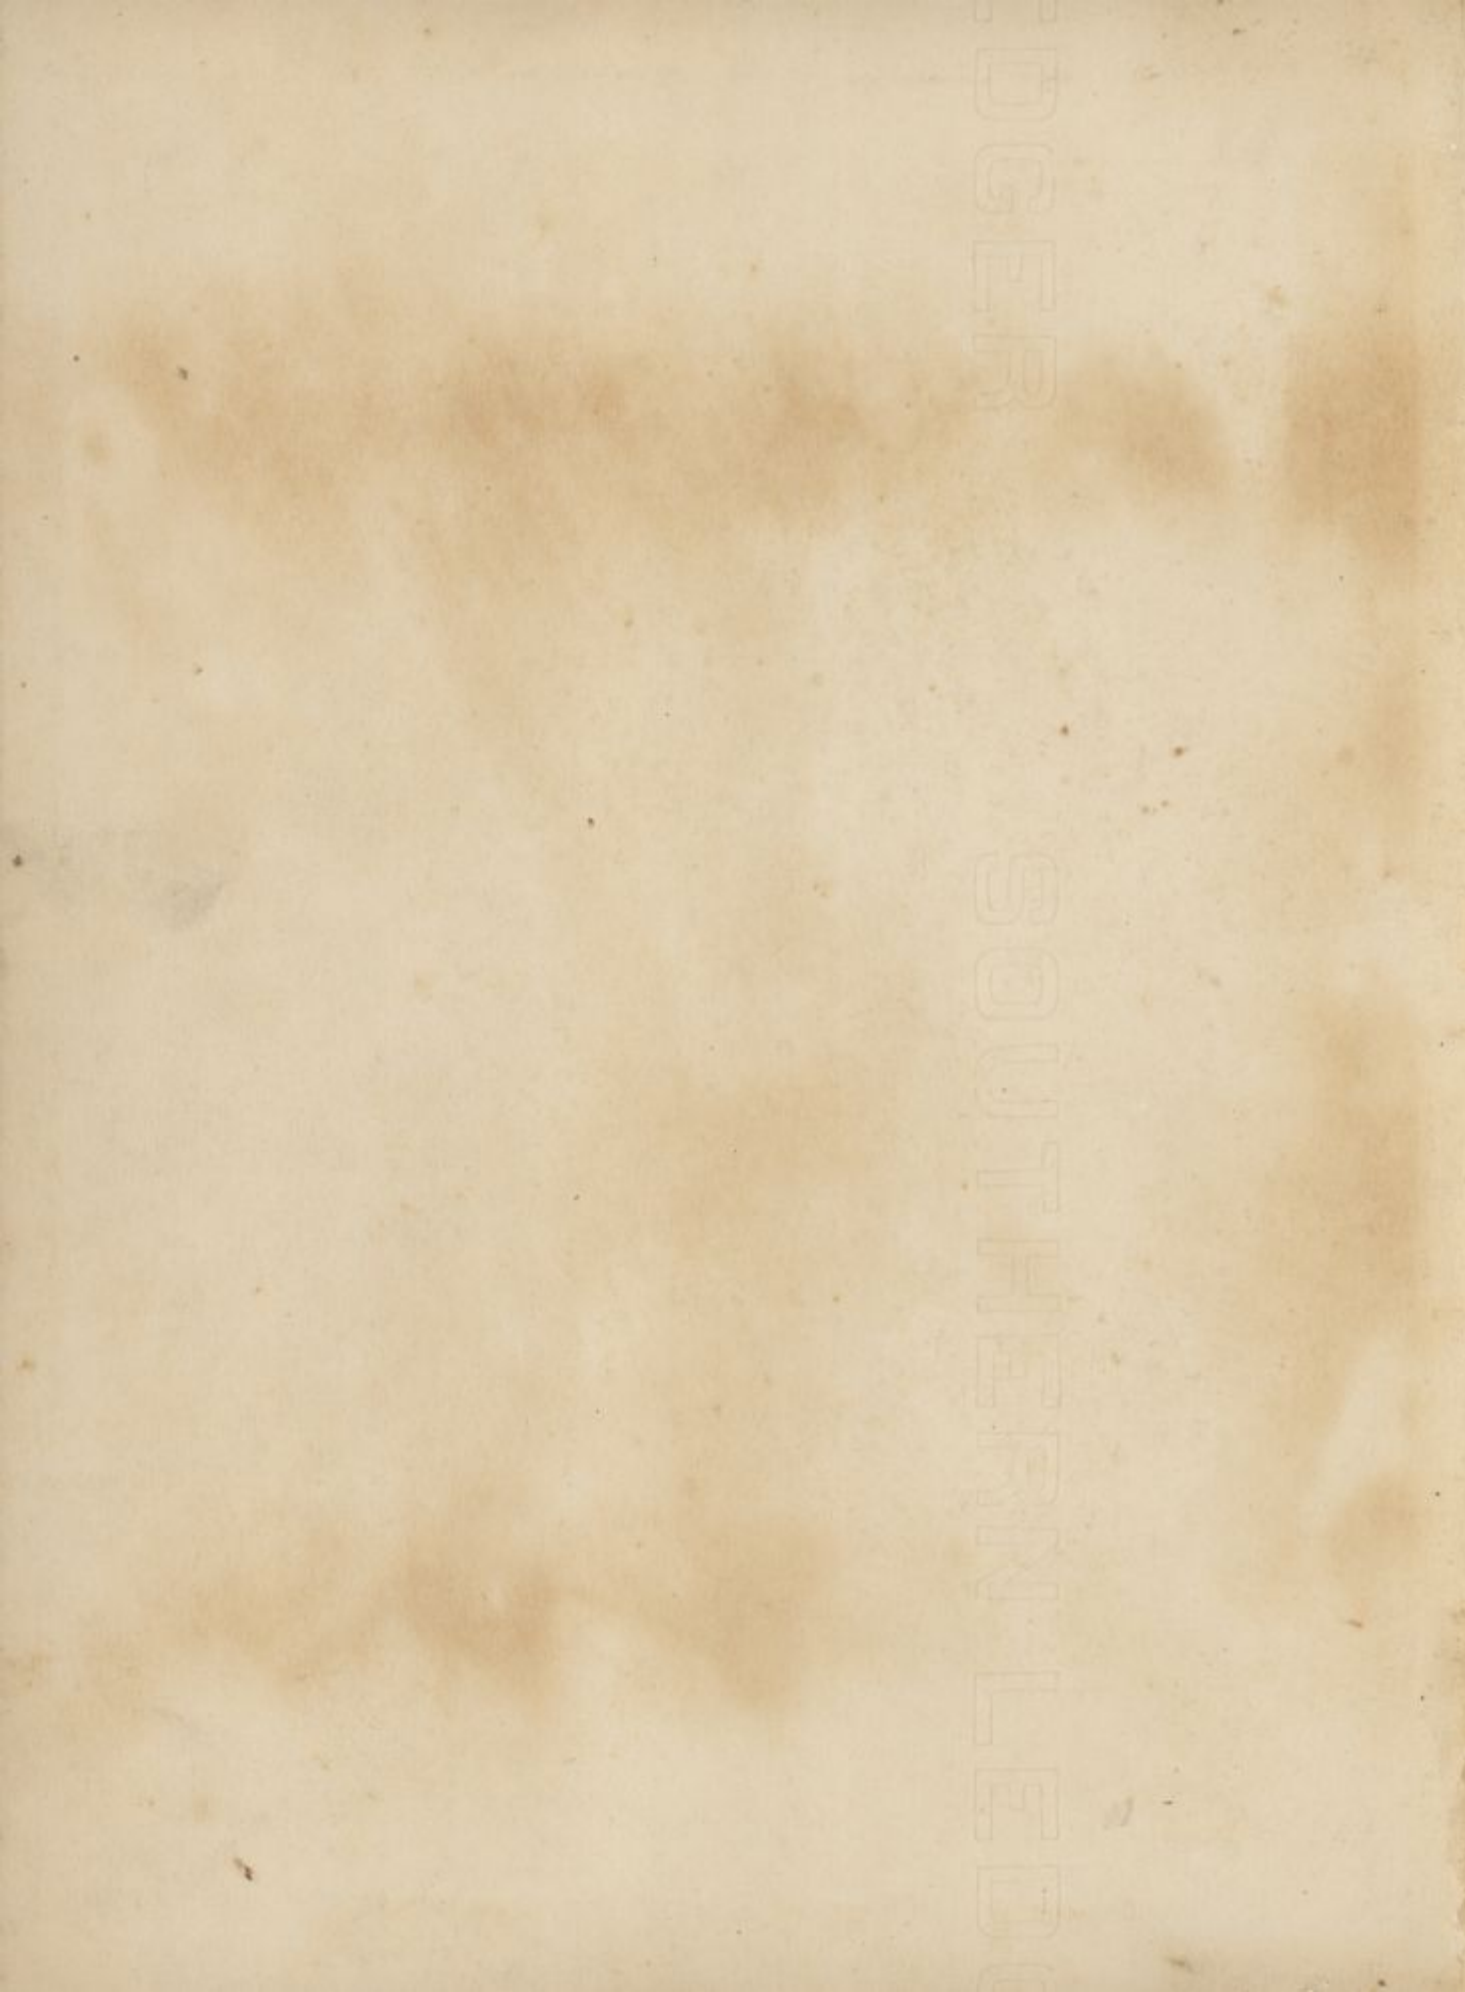

¶ Here at *Kells*, out in the open with light and sunshine, is a shop, where Printing is done ❀ ❀ ❀

¶ Serious, but full of fun and good cheer, we believe that our Ideal, represented by Head, Heart and Hand in our Imprint, is the incentive that is making for our Success. By using a little thought with the type and mixing a little brains with the ink, we are turning out work that is winning the approval of those who know and appreciate good printing ❀ ❀ ❀
