The infant mortality rates is calculated as deaths per 1,000 live births.

* Persons of Hispanic origin may be of any race.

Note: Rates for Hispanics prior to the 1996–2000 period are based on fewer than 20 deaths during the period and does not meet the standard of reliability or precision as defined by the National Center for Health Statistics.

** Rates for Wilmington Whites after the 1991–1995 period are based on fewer than 20 deaths during the period and does not meet the standard of reliability or precision as defined by the National Center for Health Statistics.

All Causes	496	100%	258	100%	221	100%	17	100%
Birth Defects	63	13%	44	17%	16	7%	3	17%
Certain Conditions Originating in the Perinatal Period	284	57%	135	52%	142	65%	7	41%
Disorders relating to short gestation and unspecified low birth weight (Included in figures above)	112	23%	54	21%	56	25%	2	12%
Symptom, Signs, and Ill-defined Conditions (Includes Sudden Infant Death Syndrome)	60	12%	29	12%	27	12%	4	24%
Infectious and Parasitic Diseases	12	3%	7	3%	5	2%	0	—
Unintentional Injuries	12	3%	5	2%	5	2%	2	12%
Diseases of the Respiratory System	4	1%	0	—	4	2%	0	—
All Other Causes	59	12%	37	14%	21	10%	1	6%

Infant deaths are deaths that occur between live birth and one year of age.
 Percentages are based upon the total number of infant deaths in each race group. Percentages may not add up to 100% due to rounding.
 Live Birth Cohort – All persons born during a given period of time.
 Source: Delaware Health Statistics Center

Wyoming**	7.2	22*	6.7	8*	8.8	50
United States	6.8		5.7		13.6	

* Indicates a tied rank.

**Rate and rank for the Black population should be interpreted with caution since the rate is based on less than 50 infant deaths.

Note: Infant mortality rates represent the number of deaths under one year of age per 1,000 live births. It should be noted that rankings do not have particular value for identifying population risk groups or in suggesting appropriate strategies or policy initiatives.

Infant mortality rates in this table may not match rates in the Infant Mortality Section of this report due to different data sources.

Table 28:

Lead Poisoning

Percentage of Children Under Age 6 with Blood Lead Levels at or Exceeding 10 mcg/dL, Delaware

	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011
Number Tested	8,824	8,701	9,480	10,740	13,793	13,942	14,302	14,203	13,401	13,773	14,179	13,944	13,540	13,583	10,319
Number Identified	714	560	466	366	208	260	296	178	140	164	64	48	81	129	42
% Identified	8.1%	6.4%	4.9%	3.4%	1.5%	1.9%	2.1%	1.3%	1.0%	1.2%	0.5%	0.0%	0.6%	0.9%	0.4%

Note: Prior to 2011, the Centers for Disease Control and Prevention set the threshold for diagnosing lead poisoning in children under 6 years old to 10 micrograms of lead per deciliter of blood. For the first time in twenty years the CDC has lowered the threshold to 5 micrograms of lead per deciliter of blood. Nationally, this is expected to add 200,000 children to those believed to have unsafe lead levels in their blood.

Table 29:

Child Immunizations

Percentage of Children Age 19–35 Months Who Are Fully Immunized
 U.S. and Delaware

	1995	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011
U.S.	76.0	78.0	78.0	80.6	79.9	77.6	78.6	76.5	80.7	83.5	83.1	83.2	77.4	76.1	69.9	74.9	77.6
Delaware	75.0	81.0	81.0	80.6	80.0	76.2	81.0	84.8	82.9	86.4	86.7	88.0	80.3	72.0	65.3	72.9	72.1

Note: The CDC designation of “fully immunized” has changed from (4:3:1) — four doses of diphtheria, tetanus and Pertussis vaccine (DTaP); three doses of polio vaccine; one or more dose of measles, mumps and rubella vaccine (MMR) — to (4:3:1:3:3:1) — four doses of diphtheria, tetanus and Pertussis vaccine (DTaP); three doses of polio vaccine; one or more doses of measles, mumps and rubella vaccine (MMR); three doses of Haemophilus influenzae type b vaccine (Hib); three doses of hepatitis B vaccine; and one or more doses of Varicella or chickenpox vaccine. The change from 2006 to 2007 is due to the dosing change rather than from fewer vaccinations.

Head Start – federally funded program operated by local public and private non-profit and for-profit agencies to provide comprehensive child development services to children who are at or below the poverty level. Special focus is on helping preschoolers from 3 to school entry develop early reading and math skills.

The number of programs decreased from 4 in 2007 to 2 in 2011.

The Head Start program is permitted to serve up to 10% of their children who are above the poverty threshold to meet mandates to provide services to children with disabilities.

* English Language Learner – an individual who was not born in the U.S. or whose native language is a language other than English; or is a Native American or Alaskan Native and comes from an environment where a language other than English has had a significant impact on such individual's level of English language proficiency; or an individual who has sufficient difficulty speaking, reading, writing, or understanding the English language and whose difficulties may deny such individual the opportunity to learn successfully in classrooms where the language of instruction is English.

** Number Served is the count of students enrolled on April 1. The total number of children served per year is higher.

* Persons of Hispanic origin may be of any race. All includes Native American and Asian

Beginning in the 2010-11 school year Delaware began using a new assessment called Delaware Comprehensive Assessment System (DCAS) that replaced the previous paper-and-pencil exam, the Delaware Student Testing Program (DSTP). DCAS is a computer adaptive test (CAT) that allows for greater flexibility in testing and provides teachers immediate feedback so they can focus the instruction in the child's classes to meet his or her needs. In September 2010, the State Board of Education adopted a new scoring system that "raises the bar" for what is considered proficient on the exam. Therefore, the percent proficient on DCAS is not directly comparable to percent proficient on DSTP.

* Persons of Hispanic origin may be of any race.

Note: Percentages may not add to 100% due to rounding. Percentages are calculated based upon the total number of births in each race group for all ages. Percentages for the race group "Other" may be misleading due to the small number of births in this category.

* The welfare reform numbers refer to the number of children in families who received Temporary Aid to Needy Families (TANF) that year or received TANF child care for one year after leaving the TANF program.

** The income eligible numbers reflect the working poor families below 200% of poverty. 90% of children with authorization to receive subsidized child care attend in a given month.

Juvenile Arrest Rate per 1,000 population	23.3	26.4	26.0	26.8	26.4	27.1	26.3	27.2	26.2	24.6	20.2	18.5

* In 2005, Sexual Contact statutes (fondling and unlawful sexual contact) were added to forcible sex crimes. Prior to that rape type offenses were the only forcible sex crimes.

** Prior to 2010, Weapons Law Violations were listed as Violent Crimes. Rates have been recalculated for past years based on this category change.

This accounts for changes from previous editions of the KIDS COUNT in Delaware Fact Book.

*** Arrest information is only provided for Group A NIBRS crimes which are shown above.

* Data for the Delaware total and data for Delaware by gender and by race were taken from different data sources.

The apparent discrepancy is due to differences in methodology.
