Madden Plays For The Harvest Hop

Mercer To Give Religious Talks Throughout October

Lectures Begin
Tuesday

Dr. Samuel A. B. Mercer, internationally known scholar, will present a series of eight lectures on the relation between past and present religion.

The lectures will be given throughout October. The first lecture, to be given October 13th, is an outline of the great historic religions, except Judaism, Christianity, and Islam. These three latter religions will be discussed in another lecture. The second lecture will compare the soul and the nature of religion, and the third will concern mankind's early observations of religion. The second and third lectures will be given on October 14th and 16th in Brown Laboratory at 8 p.m.

Dr. Mercer has studied in the Universities of Wisconsin, Harvard, Munich, and Sorbonne. He is a renowned linguist, archeologist, Egyptologist, and author. He was

editor of three periodicals and has written more than 15 books.

Among his titles are: Laureat, French Academy; Abyssinian Order of the Trinity, Ethiopia; Fellow, Royal Geographical Society, and many others.

Tickets to the complete series which are open to the public may be obtained for ten dollars by writing or calling the Division of University Extension.

Make Mine Country Style

Hoedown, college style, will be on the agenda on Friday, October 16, when the Carpenter Field House goes agricultural with the annual Alpha Zeta Square Dance. The event, sponsored by the agriculture fraternity for the entire student body, will swing into action immediately following the pep fest on that evening.

Occupying the spotlight for the evening is a well-known hillbilly orchestra, complete with a caller for all of the numbers. Thus, a knowledge of the art of the rustic reel is not a prerequisite. In fact, the enjoyment is enhanced by the lack of that knowledge.

In harmony with the atmosphere of a square dance will be the (Continued on Page 5)

GEORGE MADDEN

Miss Burckel Talks At Home Ec Club

The first business meeting of the Home Economics Club was held last Wednesday evening, October seventh, in the Commons Room in Sussex Hall. Following a short business meeting, Miss Pauline S. Burckel of the Du Pont Company gave an interesting talk on the use and care of the new synthetic fibers.

The next meeting of the Home Ec. Club will be held on Wednesday, November fourth, and all home economics students are invited to come and join the club.

Dormitory Plans Program

By JOHN TULEY

The recently decorated basement of Brown Hall was put to fine use Saturday evening when a group of students attended the open house. The program included dancing,

Frosh Cop Ticket Box, Elude Sophs

Several freshman girls recently confiscated the box used by the sophomore class to deposit freshman violation slips. The frosh, all residents of one dormitory, performed the deed in broad daylight (Continued on Page 10)

cards, ping-pong, and refreshments.

Mr. William Brown, a faculty member in the Art Department, and former resident advisor in Brown Hall, designed the room and aided in the decorating and the furnishing of it. It was completed over the past summer.

Mr. and Mrs. Jacot, present resident advisors in Brown Hall, have been working in conjunction with the S.G.A. and the executive committee in Brown Hall in order to develop these into desirable programs.

Definite plans for future programs of the same nature are being worked out, and if as much interest is shown in the second as in the first, the program could take a permanent spot on the week's calendar. Plans for a coffee hour after one of the home football games have been made, and definite dates will be announced soon.

These programs are not to conflict with fraternity functions, but they are held for men and women who have no contacts with fraternities and also for those fraternity men wishing to attend. Everyone will be welcome. These events are to be held for the benefit of members of all dormitories.

Senior Class Meeting

A meeting of the senior class will be held on Monday, Oct. 12 at 4:00 p. m. in Brown Hall Auditorium. Topics to be discussed at this session will be the pep fest, senior tea, and graduation announcements. All members of the class of 1954 are requested to be present.

Delaware Social Season Opens Tomorrow Night

The 1953 Harvest Hop, the first major event in the University of Delaware social season, will materialize tomorrow night, October 10, in Carpenter Field House. George Madden and his orchestra will occupy the bandstand.

The dance, under the supervision of Wayne Kirklin, Student Government social chairman, is listed as informal.

The field house doors will be open from eight until twelve p. m.

In harmony with the seasonal symptoms of harvest time, autumn leaves, etc. are the adornments for this fall frolic. The overall theme is one of fall. This is accomplished by inter-weaving of crepe paper streamers of forest green and other appropriate shades signifying the arrival of the fall of the year. Directing the embellishment of the Field House is Peggy Tighe. Assisting her is the decoration committee consisting of Julie Jefferson, Jenny Baird, Barbara Nast, and Bobby Holmes.

George Madden, one of the best known orchestras in this area, has appeared at numerous local functions. Among these are the Inaugural Balls, the Armed Forces Ball in Wilmington, the Symphony Ball, numerous dances, and college and high school proms in lower Delaware and the Eastern Shore of Maryland. Combos from Madden's orchestra have been featured (Continued on Page 5)

Dr. Perkins To Hold Tea For Seniors

On Tuesday, October 13, President and Mrs. Perkins will hold a tea for the Senior Class at their home, Belmont Hall, from 3:00 to 5:00 in the afternoon.

Everyone is urged to attend. Commuters in particular are asked to come, since this represents one of their few chances to meet with the majority of the members of their class.

Pouring at the tea and assisting Mrs. Perkins will be Mrs. E. Wakefield Smith, Mrs. David Nelson, Mrs. J. Fenton Daugherty, and Mrs. Henri Miller.

Senior class officers also assisting will be Theodore Zutz, president; Janet Leary, vice president; Shirley Thomas, secretary; William Annonio, treasurer; and Paul (Continued on Page 5)

Fleras Addresses Economic Meeting

Dr. Alberto Fleras, Secretary-General of the Pan American Union, will deliver the opening address to the fourth annual "Delaware Conference on World Economic Development" at the university on October 23.

"International Cooperation for World Progress" is the theme of this year's two-day conference. The second day of the conference will be devoted to round-table discussions. Outstanding North American and Latin American scholars will discuss the contributions of (Continued on Page 5)

Committee Plans Homecoming

A committee of representatives from the Alumni Association, Student Government, Review, and the cheerleaders will meet this week to formulate plans for the approaching Homecoming event.

This annual event will be held this year on October 31st, when the Delaware gridiron stars face rival Muhlenberg.

The forthcoming celebration will possibly be patterned after the plans prepared for last year, when preparation for an elaborate float parade and football queen coronation was scheduled.

A dance sponsored by the Beta Sigma (U. of Del.) chapter of Omicron Delta Kappa, will culminate the day's activities.

New Paintings

Collection Of Oils Is Current Exhibit

The current exhibition in the Art Gallery here at the university consists of a group of oil paintings selected from the 23rd Corcoran Biennial Exhibition.

Every two years Washington's Corcoran Gallery stages one of the nation's most important exhibitions comprising a huge cross section of American paintings. This exhibition is selected partly by invitation and partly by open competition. It represents 42 states, the District of Columbia, and the Territory of Hawaii.

The 23rd Biennial was originally presented at the Corcoran Gallery from March 15th through May 3rd, 1953. From a total of 226 paintings the jury of selection made a choice of those works for national circulation under the auspices of The American Federation of Arts.

In this 23rd Biennial collection many outstanding artists of this country are represented. The subjects and techniques of these paintings are diversified. It is well worth

everyone's time to visit the exhibit; one is seldom given a chance to appreciate a good collection of American artists, on whose work rests the future of American art and culture.

The exhibition will be open to the student body and the outside public during library hours. The dates of the showing are Oct. 2nd to Oct. 19th.

Before The Game

Sophomores Hold Pep Fest

The torch-carrying pep fest for the West Chester game tomorrow will be sponsored by the class of '56 tonight and will start at Warner Hall on South Campus at 6:45 p. m.

Led by the university band, Theta Chi, Phi Kappa Tau, and Warner Hall will start their parade north. The girls in Topsy, Turvy, Boletus, Sussex, New Castle, and Cannon will join the crowd at 6:50 p. m. The freshman barracks, the Johnston House, the Delts, and KA will enter the parade at the library about 7 o'clock.

The boys dorms: Harter, Brown, Sharp, Mosher, and the Knoll will join in the festivities between Brown and Harter Halls at about 7:10 p. m. The parade will be greeted by Alpha Tau Omega, Alpha Epsilon Pi, Pi Kappa Alpha, Sigma Nu, and Sigma Phi Epsilon on the steps of Old College.

The Sophomore Class expresses

the hope that this rally preceding the third game of the season will be as avidly supported as the previous two have been.

An informal dance will follow the rally in Carpenter Field House. This will be the first dance in the field house this year. The price of admission to the dance is 10 cents.

Dr. Walter Kirchner Returns From Studies In Denmark

By LEONARD DRINKO

Dr. Walter Kirchner of the History Department has recently returned from a year spent at the University of Copenhagen in Denmark as a Fulbright research professor.

Dr. Kirchner made a study of Russo-Western relations during the Renaissance period and pre-Renaissance times. Most of his research was done in the Royal Library and the archives of Copenhagen. However, invited to give a number of lectures in Sweden and Norway, he also travelled to Oslo, Bergen, Goeteborg, Lund, and Stockholm, where he had at the same time an occasion to continue his own research. He was particularly impressed with the advances made by outstanding scholars of Northern Europe in the field of economic history. At the Economic Historical Institute of Stockholm, as well as in other Scandinavian centers, he presented some of his own findings with regard to Russia. At these centers much valuable work is done in gathering source material for economic history (not unlike the work done a hundred years ago with regard to political history), new approaches are tried, and significant economic forces in history are being evaluated on the basis of the newly available source material.

Notes East-West Interest

In the summer, he received a university fellowship and travelled to Kiel and Hamburg, lecturing at the universities there as well as at the East European Institute in Marburg. He visited the Hanseatic towns and spent also a month at the archives of Venice, Florence, Genoa, and Milan in Italy.

Dr. Kirchner said that he noted a great interest in East-West relations of the past with a view to

understanding the present and future. Paralleling this, Dr. Kirchner noted there was much work being done in many aspects of Slavic history and philosophy.

In Scandinavia, as well as in Germany, France, Italy, and Switzerland, Dr. Kirchner found a universal interest in all things American, but especially in American economics.

King Writes Summer Paper

In the absence of the Review during the summer session of the university, Mr. J. R. King of the Music Department authored a weekly "Summer Session Bulletin." The bulletin undertook to keep the students informed of the coming week's events, and contained occasional cartoons by Mr. Richard B. Groo, the Alumni secretary.

One person given top billing in the weekly bulletin was Miss Mary Hutchinson, who made her second appearance on the Newark campus this summer. Miss Hutchinson, who has appeared in Earl Carroll's "Vanities" and "Lady Be Good," presented a program of dramatic monologues featuring singing and dancing, as well as acting.

Through the bulletin, summer session students were also made aware of such events as local movies, plays, and recreation facilities.

The students wish to thank Mr. King for his service as reporter, copyreader, and editor of the "Summer Session Bulletin."

College Poetry Contest Opens

The National Poetry Association announces the tenth annual competition of College Students' Poetry. Entries for this contest must be submitted before November 5.

The poetical contest is open to any student attending either a junior or a senior college. No form or theme limitations have been specified by the Board of Judges; however, shorter works are preferred because of space limitations. All work will be judged on merit alone.

Individual poems should be typed or printed on separate sheets on which the name, home address, and the college attended have been written. The completed manuscripts should be sent to Offices of the Association, National Poetry Association, 3210 Selby Avenue, Los Angeles 34, California.

No fees or charges for either acceptance or submission of verse are required.

In the 1952 contest, nearly every college in the country was represented in the twenty thousand poetical entries.

Reserve Seat Plan For Artist Series

A reserved seating plan will be in effect for the subscription Artist Series concerts which are to be held in Mitchell Hall. Subscriptions to the series or to individual concerts are open to the public.

Tickets will be on sale in the University Bookstore and at the door on the night of each concert.

Reservations should be made immediately as these will be honored in the order of their receipt. If desired, a deposit will hold tickets until the day of the first concert. Requests for tickets should be addressed to: Artists Series, University of Delaware, Newark, Delaware.

Checks and money orders are to be made payable to the University of Delaware; a self-addressed stamped envelope should be enclosed for reply.

Yale Scientists Make Study Of Alcoholism In The U. S.

A group of Yale's physical and social scientists, working in a converted mansion at the edge of the University's campus, is making a pioneer study of alcoholism in the United States.

This research program is headed by Seldon D. Bacon, director of Yale's Center of Alcohol Studies. Its findings so far have challenged many of the pet theories about alcoholism and have thrown new light on American drinking habits.

The first of a series of reports from the Alcohol Center is the widely-discussed "Drinking In College," published October 4th by the Yale University Press. This report, based on a study of 16,000 men and women students in 27 colleges and universities through-

out the United States, is the first study ever made of the drinking habits of college students.

Among the conclusions reached in the book is the fact that the drinking patterns of most students are formed before they enter college.

The survey of college drinking is one of many being made at the Yale Alcohol Center.

"Drinking In College," based on a six-year study, is the first major report of the Alcohol Center. Apart from what the book tells about college drinking in America, the study is important because it establishes the foundation for a long-range study of a whole group of people containing a small pro-

(Continued on Page 10)

Application Dates Close For Study In Foreign Lands

October 31, 1953, is the closing date of the competitions for United States Government educational exchange grants for graduate study abroad, it was announced today by Kenneth Holland, President of the Institute of International Education. One month remains in which to apply for awards under the Fulbright and Buenos Aires Convention Programs for the 1954-55 academic year. An exception is the program for Australia and New Zealand, for which October 15 is the closing date.

Scholarship application blanks are available at the Institute or in the offices of Fulbright advisers on college and university campuses. A brochure describing the overseas study awards may be obtained from the Institute.

The programs under the Fulbright Act and the Buenos Aires Convention (for the Promotion of Inter-American Cultural Relations) are part of the international educational exchange activities of the Department of State.

Study Nations Listed

Countries where U. S. graduate students may study under the Fulbright Program are Australia, Austria, Belgium and Luxembourg, Burma, Denmark, Egypt, Finland, France, Germany, Greece, India, Iraq, Italy, Japan, the Netherlands, New Zealand, Norway, Pakistan, the Philippines, Thailand, the Union of South Africa, and the United Kingdom. Special provision is made in the program for Germany for twenty-five grants to American graduate students who will serve as English language assistants in secondary schools. The countries participating in the Buenos Aires Convention Program are Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Guatemala, Haiti, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, and Venezuela.

Eligibility requirements for these foreign study fellowships are: United States citizenship; a college

Netherlander Gets Aid From Delaware Men

By BILL DU BELL

The Interfraternity Council has again adopted Willem Boers, a 13-year-old Dutch boy, through the Foster Parents Plan for War Children, Inc. "Wim" was first adopted by IFC in the fall of 1949.

Contributions to Willem, whose father was killed in a German bombardment in 1945, help pay for medical care, schooling, food and clothing. Monthly correspondence between the council and the youth keeps the IFC informed on "Wim's" progress and the condition of his family.

Willem was born to a hard-working, thrifty Dutch couple just three months before the outbreak of the war in 1939, and suffered as a baby with his parents and brothers and sisters through the war's privation and havoc. In March, 1945, his father, Leendert Boers, was killed in an air raid.

Since the liberation, Mrs. Boers has struggled to keep her family of six children together. The task proved to be impossible without assistance, so the council has been aiding her for the past few years.

A seemingly grateful boy, Willem sends his thanks to the Delaware Greeks in every letter. In a letter sent last year he said that some of the money he received has been used for books, since he recently entered a trade school where he is learning to be a machine fitter.

The Interfraternity Council has been congratulated by the Foster Parents Group for its aid to Willem. When the boy was first adopted, the Delaware IFC was one of 23 Greek councils which had taken war children under their wings.

Meet Dick Groo, The Univ. Alumni Director

By JOAN FAHEY

Dick Groo, popular director of alumni relations and executive secretary of the Alumni Association of the University of Delaware, has been with the university for five years. In '48, he graduated from Delaware with a B. A. after which he went to Montgomery-Ward in Baltimore for a year. He then returned to Delaware in his present capacity.

Dick's responsibilities include budgetary matters, overseeing office personnel, co-ordinating alumni reunions and their activities, visiting the regional alumni clubs and chapters as a speaker, and keeping in touch with the alumni through correspondence as well as personal contact. He also represents the university at meetings of professional alumni workers and in general attempts to stimulate the growth of the Alumni Association in every possible way.

Married to the former Jane Payner of Wilmington, Dick is the father of two charming daughters, Anne and Debbie. He is now working for his master's degree by going to summer school and working nights in the winter.

Active On Campus

Even with his many duties, Dick finds time to be one of the most active persons on campus. He is a First Lieutenant in the National Guards, belongs to the Men's Faculty Club, co-edits the quarterly magazine, *The University News* with Henri Miller, and chaperones for Pi KA. He also has an ability for drawing cartoons which have appeared in the summer school bulletin.

Dick is well known on campus among the undergraduates, but if you are not acquainted with him and happen to meet a tall, good looking fellow with an easy grin going into Purnell Hall, you can bet your bottom dollar it's our Dick off to work.

Engineering Dept. Appoints Two Men

Dr. Joseph S. DiRende and Mr. Meredith Munns have been added to the faculty of the School of Engineering at the University, announced David L. Arm, dean of engineering.

Dr. DiRende was a project engineer at the Aero-Division of Curtiss-Wright before assuming his teaching duties at the university, where he holds the rank of Associate Professor of Mechanical Engineering. Dr. DiRende has had considerable industrial experience and is registered as a professional engineer in Connecticut. He taught previously at Yale and the New Haven Y.M.C.A. Junior College. He received his bachelor's degree at the Newark College of Engineering. His advanced work was done at Yale University from which institution he received both his master's degree and his doctorate.

Mr. Munns joins the staff of the University as an instructor in electrical engineering. He is a native of West Chester and is a graduate of Pennsylvania State College.

He served in the Army Signal Corp from 1941 through 1946 and holds the rank of captain.

LAB THEATRE

Tryouts will be held on Tuesday, Oct. 13th, from 4 to 6 p. m. for the coming Lab Theatre production. Tony Mitchell and Bill Harkins will direct the two plays. The selections presented will be one act from Thornton Wilder's "Our Town," which is one of the most popular plays of this century; and one from "What A Life" by Clifford Goldsmith, a comedy which originated the radio show "Henry Aldrich." The performances will be Nov. 3 and 5.

The prime purpose of these Lab Theatres is to give new talent a chance. The two plays need a sizable cast and most parts offer students plenty of material with which to work.

Nursery Opens For 25th Year

The "Slow-Children" sign down by the Women's dormitories is not, as some think, a derogatory statement concerning the IQ's of Delaware's women students—but concerns the children enrolled in the University of Delaware Nursery School, which opened its 25th year last week.

The school, which completed its enrollment today, is a part of the Home Economics Department. Child development which is studied here, has long been a feature of the home economics departments of land-grant colleges all over the country.

Valuable experience and understanding of children of the preschool level are gained by students to observe and participate in the activities of young children.

There is now a morning group with children ranging from one and one-half to three and one-half year-olds and an afternoon group for children between three and one-half to four and one-half year olds.

A large playroom with individual

(Continued on Page 10)

Squire Announces Appointments

Dr. Ralph Trambarulo and J. Robert O'Donnell have joined the staff of the Physics Department of the University of Delaware. Their appointments were announced by Dr. Francis H. Squire, Dean of the School of Arts and Science. Dr. Trambarulo, who holds the rank of assistant professor, replaces Dr. Martin Hirshfeld; Mr. O'Donnell holds the rank of instructor.

A native of New Haven, Connecticut, Dr. Trambarulo received his B.S. in 1944 and his Ph.D. in 1949 from Yale University. From 1949 to 1952 he was a research associate at Duke University and was a staff member of the Pennsylvania State College last year. During World War II he served with the U. S. Navy and is now a member of the Naval Reserve.

At Delaware Dr. Trambarulo's research interests will be directed toward chemical physics and microwave spectroscopy. He is a co-author with Dr. William V. Smith, Physics Department Chairman at Delaware, and Dr. Walter Gordy of Duke University, of the 1953 Wiley publication, *Microwave Spectroscopy*.

Mr. O'Donnell, a native of Pennsylvania, served with the Army Signal Corps from October 1942 to February 1946. He obtained his B.S. in physics from the Pennsylvania State College in 1950 and has just completed his M.S. also in physics, here at the University of Delaware.

PLACEMENT NEWS

Each week there will appear in this space the list of companies scheduled to interview seniors and/or graduate students in the Placement Bureau one week hence, with an indication of the classifications of interest to the company. This information will be posted on the respective bulletin boards, at least five days prior to its publication in the REVIEW, as follows:

For:

Mechanical, Electrical, and Civil Engineers	Evans Hall
Chemical Engineers	Brown Lab. opposite Dr. Mosher's office.
Chemists	Brown Lab. near Dr. Pigford's office.
Arts & Science (all majors)	Opposite Postoffice.
Home Economics	Opposite Postoffice
Education	Opposite Postoffice
Agriculture	Agricultural Hall near Dean Schuster's office.

It is the student's responsibility to watch his bulletin board and the REVIEW so as not to miss these opportunities — he will not automatically receive an individual notice. Students must come to the Placement Bureau prior to the deadline stated to sign up for a specific time and read literature supplied by the company for their information. It should be pointed out that if the number of students signing up is insufficient to warrant a company's sending a representative, the company may cancel its visit.

*** INTERVIEW CALENDAR ***

Date	Company	Classifications	Deadline
Thurs., Oct. 22	Shell Development Co. Shell Oil Co. Shell Chemical Corp. Place: #165—Seminar Rm. Brown Laboratory	Ph.D. Chem. & Ch.E. Laboratory	
Fri., Oct. 23	Du Pont Company	Mid-term B.S. & M.S. Engrs. & Tech. (Chem., Math., Physics)	Oct. 14
Fri., Oct. 23	Shell Development Co. Shell Oil Co. Shell Chemical Corp.	Ph.D. Chemical Engrs.	Oct. 14
Mon., Oct. 26	Shell Development Co. Shell Oil Co. Shell Chemical Corp.	Ph.D. Chemists	Oct. 14

IMPORTANT: No student may be on a company interview until he has registered with the Placement Bureau and had a conference with the Director. Do not delay making an appointment — either come in or telephone Extension 390. All mid-term graduates, all engineers and graduate students who will complete their work in 1954 are urged to contact the Bureau immediately as companies interested in these groups are scheduled for visits in the very near future.

Kase Discusses Theatre Problems

Dr. C. Robert Kase, chairman of the Department of Dramatic Arts and Speech and director of the University Dramatic Center, was one of three members of a panel discussing the problems of Community Theatre at the 35th National Recreation Congress held at the Bellevue-Stratford Hotel in Philadelphia on Sept. 28 to Oct. 2.

Dr. Kase told the delegates that the Community Theatre had, during the first half of this century, firmly established itself as an American institution and proved its power of survival. During the last half of the century it will pass through an era of maturity during which its goal will be greater contributions to the cultural and civic development of the community.

Census Of Foreign Students Published

There were 33,671 foreign students from 128 different independent areas, and trust territories studying in the United States last year. It is the largest total of foreign students ever in the U. S. at one time. This fact is reported in *Education for One World*, the census of foreign students published today by the Institute of International Education.

Education for One World is the story of a fascinating venture in education and international affairs, writes Kenneth Holland, Institute President, in his foreword to the pamphlet. "The story is about people who are not in the headlines—the 33,671 young men and women . . . who learned both from us and about us in the classrooms of American colleges during the past academic year."

The census tells where the students come from, what they study, their ages, the percentage of foreign women studying here, the length of their stay, and the position of the student in the community.

Board Opens Essay Contest

The Highway Research Board of the National Research Council has announced an essay contest. This is open to both undergraduate and graduate students enrolled in a regular curriculum leading to an academic degree, who are legal residents of the state.

The rules state that "participants are to submit an original essay upon any phase of highway transportation in the general area of finance and taxation, economics, or administration, so long as the treatment of the subject is directed to bettering our present situation."

Preliminary application forms are available at the office of the Dean of Students, 118 Hulihan Hall. Entries should be mailed to the Highway Research Board, 2101 Constitution Avenue, Washington 25, D. C. The Board will then send the applicant an official entry blank, specific instructions, and supplementary information and suggestions. No entry will be accepted without the official entry blank.

All essays submitted will become the property of the Highway Research Board and none can be returned. All entries must be postmarked no later than March 31, 1954.

First, second and third prizes of \$500, \$300, and \$200, respectively, will be awarded.

This contest is made possible by the General Motors Corporation, which sponsored a similar contest last spring. The original contest provided for the awarding of certain prizes in each of the 48 states and the District of Columbia. The final decisions of the judges did not award all of the prizes available in each of the states. The General Motors Corporation decided that the states were entitled to these awards and has, therefore, requested that the Highway Research Board conduct another essay contest.

Pop Roberts

A Tribute

There are certain objects that are long remembered by graduates of the University of Delaware. Extraordinary social affairs, various activities, and certain persons are long remembered by alumni. One fellow who will most certainly fit into this category is known to all as "Pop" Roberts.

For years Pop has operated his miniature delicatessen between the State Theatre and Harter Hall. He heralded the entrance and graduation of many classes and many individuals. Pop knew us all, but he made no differentiation. The common phrase, "Want it in a bag, honey?" served as a parting remark to freshmen and seniors alike. The sight of Pop drawing his long-bladed knife through a stream of water after cutting a package of ice cream in half is as familiar to many as the arches adjoining the library, and Pop's new hearing aid caught more students' eyes than did the university's distillation tower.

Pop's place underwent quite a change last year when he sold out, but Pop stayed.

Last Saturday night Pop was hit by a car—in front of the place of business that he has occupied for so long. His bad leg suffered breaks in three places. For most of us at least, the sight of Pop behind the counter will only be a memory. However, it is only fitting that the college paper serving the students who were Pop's customers and friends should pay a tribute to this fine old gent.

W. G. D.

Sophomore Rule

Is It True?

This year's freshman class has been quite fortunate, or possibly unfortunate, according to your individual interpretation of the current situation.

There now exists a condition where freshmen, except for a few over-conscientious ones, proceed through the initial portion of their college career with flagrant disregard for any mythical superiority which traditionally accompanies the sophomore ranks.

Most of the blame can be laid in the laps of the class of '56. True enough, they were cautioned by the administration against physical hazing. The sophomores, however, were not encouraged by the administration to treat the frosh in an apathetic manner. They were not told to use the hazing clause as an excuse for postponing punishment and liberating first offenders.

Frosh expect to be exposed to the excess energies of the upperclassmen. A tight system of rule presents an incentive for an intra-class battle of wits. When the sophs drop the ball entirely, though, they make themselves vulnerable to criticism and disgust.

W. G. D.

WAA HOCKEY

Tournament begins Oct. 12. 3 practices are required for participation. Practice is every day at 4 between September 28 and October 8.

Don't forget the Harvest Hop this Saturday night, October 10, 8-12 p. m. Tickets are on sale in the basement of the library and at the door at \$2.00 per couple.

Letters To Editor Cheerleaders' Cup

The Missing Link

To the Editor:

I was never so ashamed of the student body than I was at the pep fest last Friday. I imagine those bums, who wouldn't give Coach Jimmy Sullivan a chance to speak, think they should be commended for their irritating interruptions. I consider it a personal insult since Jimmy happens to be a friend of mine, and if I ever find out who the bums were I'll give them a tongue lashing they'll never forget.

Charlie Sullivan

LETTER FROM JAPAN

Dear Friends:

Nearly four months after leaving the United States and after thirty-eight days on board five different ships, we have finally reached our destination in Kyoto, Japan.

We sailed out of New York on June 3, bound for Italy. We had ten days in Italy between boats, and among other things we climbed to the top of Mt. Vesuvius and also visited the new excavations at Pompeii. From Naples we proceeded to Colombo, Ceylon, with stop-overs at Port Said and Port Aden, and from Colombo we crossed over to South India where we spent July and August in the company of Sri Krishna Menon, one of the greatest contemporary philosopher-sages of India. From him I was able to learn a great deal about the oral tradition of Indian philosophy.

On September 10, we set sail once again, this time from Madras, bound for Singapore and Hong Kong. We were the only passengers on a cargo boat of Panamanian Registry with Swedish officers and Chinese crew. Our two week trip on board this ship was extremely interesting, and as we were given the run of the boat, we learned things about navigation, oceanography, world commerce, etc., which we would never have learned on board the conventional passenger liner. Our cargo boat was to have taken us to Japan, but it was diverted from Hong Kong to Korea. We therefore had to change ships in Hong Kong and took a large American passenger ship for the last lap of our journey. One day out of Hong Kong we hit a typhoon, the typhoon named Tess which took 300 lives in Japan.

For nearly three days the waves and the wind battered us. The ship heaved and so did the passengers. When the ship trembled under the blows of monster waves, I guess most of the passengers trembled even more.

The morning of our arrival the storm abated, and we disembarked at Kobe somewhat the worse for wear, and showing the effects of our three-day fast. From Kobe we were taken to nearby Kyoto, where we shall be living, and about which I shall tell you in my next letter.

Cordially yours,
Bernard Phillips
410 Hirohashidono-Cho
Karasuma-Nishiiru
Ichijo-dori, Kamigyo-ku
Kyoto, Japan.

To the Editor:

Last Tuesday evening the Sophomore Court met to pass judgment on the "Rats" who had been caught violating the Freshman Rules as found on pages fifty-four and fifty-five of the **Freshman Handbook**. The penalties handed out by the court would have been fun for all those directly concerned as well as for the spectators at last Saturday's game. However, the administration, and Dean Hocutt in particular, had the unreserved affrontery to invade this private domain of the student body and forbid hazing penalties. For fear of reprisal, the "court" decided it would be safer to change the penalties. Instead of this "hazing," Dean Hocutt "requested" that the freshmen be sentenced to labor on the "student picnic (Continued on Page 5)

The football season is well underway, and it has proved to be a very successful undertaking. The supplements to the gridiron activity, band, pep fests, and house decorations, have kept an equal pace with the stadium scoreboard . . . but will they continue to do so?

The use of a cup to the winning dorm or fraternity house for crack decorations and performances at pep fests has proved to be a creditable means of boosting the esprit de corps. An impressive silver cup on the mantle is, as is commonly agreed, well worth working for.

The 1952 presentation was made at the first football contest with Bucknell. However, the cup for the winner of the men's division of the contest has not been delivered yet! Should a new cup be awarded each year, this would be excusable. However, the marked absence of the article for a period of nearly one year brings some doubts to mind.

This is not meant to suggest that the sole motive for supporting the football team is vested in the race for the cup. Rather, this is to say that, in addition to the overall school spirit viewpoint, the cup is something to be cherished . . . and possessed.

W. G. D.

A Clean Campus

Looking Things Over

Four years ago there was a drive initiated by students to create an awareness in the minds of all about the general physical state of the campus. The idea caught and the results were gratifying.

With a new "generation" of college students, a similar campaign might well be in order. The old one has apparently lost its effect.

Little things periodically appear—singled hedges, wire fences around the grass, metal waste baskets at the wrong end of flag poles, toilet paper adorning the campus—which would seem to indicate that something is slightly amiss.

Disregard for the campus fringes not on maliciousness but rather on negligence. Too frequently when any matter is not frequently discussed, it is overlooked. This can quite possibly be the case here.

How about you, S. G. A.? Why not a drive to re-awaken your fellow students' pride in the campus. Not a chain-of-command affair where the representatives are instructed to take the good word back to their respective groups, but a real, in-the-flesh campaign. It could be worthwhile.

W. G. D.

★ Dis Chords---Dat's All ★

Greetings, music fans and fanatics. Around rolls another week and more high C's which persistently sound like H to the untrained ear.

Imported Blue Hens from the Big Town will undoubtedly mourn the passing of noted New York night spot, Leon and Eddie's. Owner Eddie Davis recently filed a bankruptcy claim after twenty-five years of operation. Rumors indicate a possibility of

a re-opening in the busier late-fall season.

Al "Jazzbo" Collins once more caught the public's eye (and ear) with a new crop of wax-coated fairy tales. His first, "Little Red Riding Hood," appeared under a Brunswick caption. Next he turned up under a Capitol lid with "Jack and the Beanstalk," subtitled "A Grimm Fairy Tale for Hip Kids" . . . "The story of Jack who was so square he was octagonal."

A new twist on Americans with that "Oriental" look is the new Japanese rage with the "American" imitation. Kay Starr, Patti Page, Rosemary Clooney, and Teresa Brewer are the patterns for numerous teen-age Japanese vocalists. Standouts in this field are 17-year-old Chiemi Eri (an ardent follower of Kay Starr) and Izumi Yukimuri (Teresa Brewer's understudy).

Recently, a poem by Richard Armour passed over the desk which we felt was worth passing on to you.

It Takes All Kinds

One singer croons,
One singer warbles,
One sounds as if
He's lost his marbles.

One singer whispers,
One has his doubts
Of being heard
And so he shouts.

One singer yodels
Like a Swiss,
One singer bellows
Hit or miss.

One singer wails,
One thinks he's Bing,
One in a hundred
Singers sing!

Clippings

Girls at college are of two strata:

Those with dates and those with data.

"Collier's"

They will never mind if your English is bad so long as your Scotch is good.

A resident of Prague refused to join the outcry against a new statue of Malenkov placed in the city square. "Why not?" he said, "It will give us shade in the summer, shelter in the winter, and opportunity for the birds to speak for all of us!"

"Indianapolis News"

An old Mountaineer upon seeing his first motorcycle grabbed his squirrel gun and fired at it. "Get it?" asked maw. "Naw," said paw, "Hit it but didn't kill it. Ah can still hear it a'growlin, but I shore made it turn that poor man loose."

"Popular Science"

Definitions

Babble—A feminine noise somewhat resembling the sound of a brook but with less meaning. "Reader's Digest"

'Neath The Arches'

By SPEN HEDGER And
DAVE MENSER

Last Friday night was another of the most comfortable nights that one can spend on the campus of a university. The books on the whole were thrown aside, and as carefree as the wind, the guys and dolls of the student body went wild. . . . the pep fest was a success. Seemingly there were many who had taken the time to read this article of last week's edition and took to heart the message that we shared with you all. The torches on the whole were of a more permanent nature, and all were handled with more care. This should become one of the points by which the cheerleaders might judge the honest effort of the individual dorms and fraternities in pursuit of the cheerleaders cup. We have to say thanks to the members of the Kappa Alpha Fraternity, who took the lead in this department last week.

Once the yelling and the cheering of the well-wishing students subsided, the football team retired to take the rest that would bring them to victory, and several of the fraternities opened their doors to informal house parties for the girls

(Continued on Page 6)

Letters To Editor

(Continued from Page 4)

area." What I would like to know is whether or not the freshmen are really classified as students or as a source of common labor for the administration? As if this weren't bad enough in itself, there are neither adequate tools nor any kind of blueprint, much less the proper organization, for completing the job.

Of course, the majority of the students here at the university will probably shrug all this off as merely another of the many invasions of student prerogatives (such as fraternity initiations) which have been so prevalent on campus since the beginning of the regime of President Perkins and Dean Hocutt.

If the "Picnic Area" is so important to our recreation, why doesn't the Administration build it with the properly appropriated funds? It could very easily be paid for on the savings during a single semester if the administration would do its own job, for a change, and rid this school of the unnecessary red tape and confusion which is so confounding to the students, bothersome to the faculty and staff, and expensive to the university.

Name Withheld

To the Editor:

The article on the "Old Newark Academy" which appeared in the Review of October 2, 1953, is misleading. Many do not realize that this building is not the original building situated on this plot. The present academy building began as two separate brick buildings which were constructed in 1840. It was not until 1872 that these were joined, thus making a large single unit.

Noteworthy among the visitors at Newark Academy was Edgar Allen Poe, who spent a week here lecturing on poetry, shortly before his death in 1849. Writes the Rev. Ephraim Whitaker, an instructor in the Academy at the time: "All the teachers and all the classes in the Academy were in the large schoolroom daily and heard him for an hour. He was always prompt when the Academy bell in the steeple rang the hour for his lecture. All heard him with attention and pleasure, even the youngest of his pupils, boys of fourteen or fifteen years. . . . During that week, he bore no mark of dissipation in hearing, in countenance, or in speech. He appeared as a somewhat shy and reserved but thoroughly courteous gentleman."

Ref. Delaware, a Guide to the First State page 230

Respectfully,
Charles K. Skinner

Student Government Report

Treasurer's Report

Allotments were tentatively approved of \$75 for the Music Club, and \$50 for the International Relations Club. Budgets of the Philosophy Club and the Agriculture Club were postponed until more work had been done on them.

Social

Work on the Harvest Hop is being planned by all the committees. Three records of Bill Davies will be placed in the juke box of the Student Union. The policy that the S.G.A. will not cover bills for refreshments for dance bands was decided upon.

Student Union

The request has been of the Maintenance Department that some of the chairs in the Student Union be replaced. The lost and found Department has been moved to the Student Union and a postage stamp machine and newspaper service are being considered. A hand rail has been requested for the stairway.

Freshmen Week

The Sophomore Court has placed the penalty of helping construct the picnic area on Freshmen violators.

Senior Class

The Senior class pep fest and bon fire will be on October 16.

Junior Class

A profit of \$61 was made on the dance sponsored by the Juniors. Work has been started on their musical.

Men's Executive Council

The men's dormitories are being organized.

Women's Executive Council

The W.E.C. has decided to have Homecoming Weekend be their big weekend for the fall.

New Business

A committee was set up for planning Homecoming Weekend. The members are Cynthia Fiery, Nancy Peck, Jackie Hackett, Glenn Dill, Ted Zutz, Bob Horne, Mickie Blaine, and a representative from I.F.C.

The disadvantages of having a meal ticket and athletic ticket combined in the Identification card were discussed. This will be reconsidered next spring. The traffic and parking problems at football games was also discussed. No definite solution was reached.

Mickie Blaine

Recording Secretary, S.G.A.

College Hoedown

(Continued from Page 1)

orange and black decorations, pumpkins, and hayloft array. Coupled with this will be an in-quenchable well of apple cider and appropriate pastries, all gratis.

The low admission price plus the informal, plaid shirt-and-jeans attire should provide an evening of hilarious and energy-consuming entertainment.

Economic Meeting

(Continued from Page 1)

their disciplines to the understanding and solution of development problems at these sessions.

These conferences have been arranged as a service to the general public as well as to the students and faculty of Delaware since 1949. The public will be welcomed to both the opening session and the round-table discussions.

Social Season

(Continued from Page 1)

at house parties of both Kappa Alpha and Sigma Phi Epsilon.

Madden is an alumnus of the University of Delaware, class of

1921. He and his wife, the former Barbara King, class of 1930, are now residing in New Castle, Delaware. While an undergraduate, Madden was active in Kappa Alpha fraternity, president of the class in both his freshman and senior years, active in dramatics and baseball, and a member of the student council, band, and the orchestra.

Appearing with Madden's orchestra as vocalist is Billy Tigani.

Dr. Perkins

(Continued from Page 1)

Hodgson, Jr., representative to the S. G. A.

On Tuesday, October 6, President and Mrs. Perkins held a tea for the Junior Class. Pouring were Mrs. William C. Spencer, Mrs. Russell Remage, Mrs. Russell G. Stauffer and Mrs. Chester Hitz.

JUNIOR MUSICAL TRYOUTS

Tryouts for the Junior Musical will be held next Monday and Tuesday afternoons at 4 o'clock. The theme will be centered around old-time vaudeville.

Students are urged to prepare their own acts and must bring music, records, or accompanists.

It's easy as pie!
No entry blanks!
No box tops!

You can cash in
again and again!
C'mon, let's go!

TWICE AS MANY AWARDS THIS YEAR

MAKE \$25!

WRITE A LUCKY STRIKE JINGLE

based on the fact that LUCKIES TASTE BETTER!*

From well-known towns to parts unknown,
Most any place you go —
It's Lucky Strike for better taste
With people in the know!

Easiest \$25 you ever made. Sit right down and write a 4-line jingle based on the fact that Luckies taste better. That's all there is to it. More awards than ever before!

Read the jingles on this page. Write original ones just like them—or better! Write as many as you want. There's no limit to the number of awards you can receive. If we pick one of your jingles, we'll pay you \$25 for the right to use it, together with your name, in Lucky Strike advertising.

Remember: Read all the rules and tips carefully. To be on the safe side, clip them out and keep them handy. Act now. Get started today.

My meals, folks say, are flavorful—
They're seasoned perfectly.
For better taste, it's Luckies, though,
That win the cheers—not me!

RULES

1. Write your Lucky Strike jingle on a plain piece of paper or post card and send it to Happy-Go-Lucky, P. O. Box 67, New York 46, N.Y. Be sure that your name, address, college and class are included—and that they are legible.
2. Base your jingle on any qualities of Luckies. "Luckies taste better," is only one. (See "Tips.")
3. Every student of any college, university or post-graduate school may submit jingles.
4. You may submit as many jingles as you like. Remember, you are eligible to receive more than one \$25 award.

*TIPS

To earn an award you are *not* limited to "Luckies taste better." Use any other sales points on Lucky Strike, such as the following:

L.S./M.F.T.
Lucky Strike Means Fine Tobacco
Luckies taste cleaner, fresher, smoother
So round, so firm, so fully packed
So free and easy on the draw
Be Happy—Go Lucky
Buy Luckies by the carton
Luckies give you deep-down smoking enjoyment

COPR., THE AMERICAN TOBACCO COMPANY

Fraternally Speaking: The Greeks...

Delta Tau Delta

With most all the brothers grinding away at the books during the past few weeks, one brother has found a new way of entertainment. The answering of ads by **Bob Wilson** has caused the **William K. Brown Company's** mail-room to work overtime. It seems as though a trip to Bermuda will follow shortly, just after the president of the said company has been able to shake a persistent Zippo Salesman.

Chuck Heckert, on his arrival back from the woods about Betterton, exclaimed, "MY, MY, MY. Long live the Red Cross!" Need we ask if he had a good time? Under the capable leadership of **Al Tanyer** the beer barrel boys were out again this week trying to look like a football team. If nothing else, we can be sure they have the spirits . . . 90 proof. And not to withstand anything important we ask the pressing question of all . . . what is the translation of **ETTA FETTA GOOOMM**?

Theta Chi

Congratulations to the Blue Hens football squad. All the brothers played a fine game.

It looks like pinning bells for **Bill Gurney** and **Shirley Clouser**. Way to go, Budha! Big question of the week is whether **Monk Fannon** is the favorite brother-in-law or not?

Gary "Ever dangerous" Buckwalter spent a load of money on some slick chick from New York at Sunnybrook. Does she like moose hunting, Buck??

Brother **Bill Butler** was down for the Lehigh game. He is still as muscular as ever!

Congrats to the new pledges "**Reds**" **Regan** and **John Romanowski**.

AE Pi

News Flash! The A.E.Pi. football team won their opening interfraternity football game over P.K.A. Score was 6-2. This is an auspicious start that promises nothing. Hero of the game—**John Straussberger**.

Difference of opinion arose Saturday night from the problem "where to celebrate our second Blue Hen victory." **Bobby Goodman** led several brothers to A.C. The rest stopped off at **Leo's Farm**. There they saw many animal; **Carl** and **Ralph** were there. Three old faces popped up from the wood work, **Marty Cooper**, **Joe Glick** and **Larry Cooperman**.

With the downfall of the Dodgers, word was received from Cleveland that **Mark Rappaport** has decided to drink to Yankee victory. He can't fight the drought waiting for Brooklyn.

Question of the week: Why can't **Lois Malamut**, **Ruth Kaplan**, **Lynn Brandschain**, **Carol Bertram**, **Pinky Seres**, **Sue Hoytash**, **Rinsey Levy**, **Sandy Gottlieb** and **Lee Lang** have their names in print?

Sigma Nu

Saturday night the Delta Kappa Fraternity House was rocked by the music of **Clyde Bessick's** combo. This was Clyde's first appearance after an absence of many months; the party was highlighted with a large variety of dance steps which varied from the bunny hop to a rollicking Charleston. Brothers **John Harper**, **Sandy Whitney**, **Rex Barber**, and **Ed White** were especially appreciative of Clyde's music.

A few of the brothers journeyed to the University of Pennsylvania last weekend and visited the Beta Rho Chapter of Sigma Nu. **Don Lewis**, **Bob Green**, **Buck Reeder**, **John Kennedy**, **Charlie Paski**, and **Tom Bratton** were all seen at the Beta Rho Fraternity House.

Sigma Nu made a fine showing in winning its initial intramural football game; we wish it continued success through the remainder of the season.

Sig Ep

The brothers wish to express their thanks to all the girls who attended the Open House Friday evening. We hope they enjoyed being here as much as we enjoyed having them. We all want them to make a return engagement soon. Sgt. "Thursday" **Higges** proved that crime does not pay, as "Prosecutor" **Boyce** brought "Sydney" **White** and "Everbroad" **Gearhart** to stand judgment in front of "Judge" **Doppenstadt**.

The "Red Door" opened Saturday to the rhythm of **Brother Skinner's** combo. Present were recently pinned **Don Williamson** and **Estelle Ryan** and many others too numerous to mention.

Congratulations to "Abraham **Mulroony**", **Trivits**, **Bob "Lover"** **Graham**, and the rest of Delaware's great team for Saturday's performance. Teach the teachers a lesson Saturday!

Many thanks to **Dean** and **Mrs. Hocutt**, **Dr.** and **Mrs. Turner**, our new faculty advisor, **Dr.** and **Mrs. Dollio**, **Dr.** and **Mrs. Lewis**, and **Mr.** and **Mrs. Grubb**, for chaperoning our weekend festivities.

Alpha Tau Omega

Congratulations to our new brother, **Owen Boyer**, who was initiated into active membership last Wednesday night.

Last Friday night's open house for freshmen and transfer women enjoyed unprecedented success. Despite the fact that we were without lights for quite a while, a great time was had by all.

Last Saturday night the house turned back the years to the days of the wild west. Never has such an array of bad guys been seen under one roof before. Quite a few alumni returned for the party. Among them were **Luke Broadway**, **George Long**, **Dick Chappell** and **Russ Myers**.

Al MacWright and "**Reds**" **Pollitt** managed to survive a good game with Sigma Nu which resulted in a defeat, 14-6, of our team. Our touchdown was scored by "**Reds**" on a pass from **Bill Phillips**.

Pi Kappa Alpha

The Pikes would like to welcome into the fold **Vince Landi**, who pledged last week. Congratulations are also extended to new brothers, **Jack Sporie** and **Howie Graham**, who were initiated last night.

A real gone party was enjoyed by all last Saturday night up at **Pikes' Peak** as the Pi Kap social season was opened with a large bang.

On Sunday night the freshman girls were entertained by a hot dog roast, a bit of square dancing, and a round-the-fire-sing. We hope they enjoyed the party. That boy **Bob Saunders** plays a crazy fiddle.

Brother (Crazy Legs) **Serp**, who helped liven up a couple of parties last week-end, also helped liven up the football game in the Stadium on Saturday. He must use radar for his pass receiving because he sure can't see without his horn-rims.

Newman Club Dance

An informal dance sponsored by the Newman Club will be held on Saturday, November 17, in Carpenter Field House. The Delmelodians orchestra will provide music for the dance from 8:00 to 12:00 p.m. Tickets are \$.75 per person and may be obtained from any Newman Club member.

Kappa Alpha

Generally, one thinks of October as being on the chilly side, but so far, we have had very mild weather—warm enough to be near the seashore once more.

Last week-end proved to be one full of gay entertainment. Saturday saw many of the brothers, both drag, and stag, at the football game. "Admiral **Dave**" **Nelson** once again showed us some football playing we always enjoy watching. Saturday evening, **Paul "Hotchie"** **Hodgson** got together a small band of merry men and made off for the country north of here. Among the group were **Sylvia Field** and **Bill "Sailor"** **Collings**, **Mary Larkin** and **John "Bee-buzz"** **Farley**, **Pat Flood** and **Charlie "Mad Russian"** **Ingram**, and "**Dee**" **Dobson** and **Ted "Parrot-catcher"** **Hughes**.

University Begins TV Lecture Series

Monday evening at 10:30 on WDEL-TV, the University of Delaware launched its first history-making program of a series consisting of twenty-eight weekly, half-hour programs.

Dr. John A. Munroe, chairman of the Department of History, spoke on "The History of Delaware." Next Monday evening, the second lecture in this series will be conducted by **Dr. Paul Dolan**, whose subject will be "Your Delaware Governments."

Other lecturers in this particular series include: **Professor Earl P. Hanson**, chairman of the Department of Geography and Geology, who will discuss "None Stands Alone — The Interdependency Among Nations;" and **Dr. G. Gorham Lane** of the Psychology Department will conclude this series with "What Psychology Means to You!"

University officials under the general supervision of **George C. Godbey**, associate director of University Extension, have planned this series of programs recognizing the educational possibilities of television.

ID Cards Replace All Other Tickets

The new University of Delaware identification cards are to be used for meal tickets, athletic tickets, withdrawing books from the library, and for miscellaneous uses as a theatre activities card.

The ID cards are new this year, having been put into use by **Dean John E. Hocutt**. They are issued in various colors—the white cards are used by non-boarders, the blue cards by those not eating weekend meals on campus, and the yellow cards by those students eating all meals on campus.

In order to be admitted to football games, a student must have previously secured his ticket for a reserved seat at the Athletic Office. At the Stadium, he must present both his ticket and his ID card.

For home contests other than football games the ID card, when presented at the gate, will admit the owner of the card.

When withdrawing books from the library, students will be required to show their ID cards.

Phi Kappa Tau

Congratulations are in order for **Don Ran** who is pinned to **Mary Hodgson**. Also belated congratulations on their pinnings to **Dave Ewing** and **Barbara Mitchell**, along with **Marty Burns** and **Ann Blanchard**.

After a cocktail party at **Jim and Joan Bradford's** and dinner at the **Pompeii**, Phi Tau journeyed back to "346" to the "circus," where a picture booth and a side show highlighted the evening's entertainment. Among those present were **Shaw** and **Peggy Chadwick**, along with **Wayne Kirklyn** and **Barbara Cubberly**. Congratulations to **Barbara** for her splendid twirling exhibition at the game.

Coach "**Earl**" **Beatty** is whipping his team into shape for intramural football. **John McLaughlin** is playing varsity soccer, and **Hop Cook** and **Jim Glick** are running in cross country.

We wish to welcome new pledges **Jim Dougherty**, **Harry Kline**, and **John Kenzierski** to our fraternity.

Community Center Requests Services From Fraternities

Miss Babette Urice, Program Coordinator of the Kingswood Community Center in Wilmington, has asked the fraternities of the University to undertake projects there as a community service or as a "help week" activity.

At Kingswood Community Center, an inter-racial organization located in one of the most difficult slum areas of Wilmington, there are experienced professional people to direct activities, but there is much work for which the Center relies on volunteers.

One of the anticipated projects which the fraternities could help complete is the rejuvenation of one very large gloomy room known as "Cooperative House." The building itself is in good condition, but the room needs painting and inspirational displays such as Indians or baseball players.

The fraternities could also assist in keeping the house open from three o'clock until nine o'clock, five days a week. At this time it would be used as a library, with comic books and popular magazines, popular mechanics, etc., and also quiet craft work.

There is also a playground within the radius of a block where intramural sports are being developed. Help from a fraternity group could also be used here in encouraging the children into working as a team.

The jobs are not easy ones. The children in the Kingswood area are tough. But they are receptive, and they need and want leadership. Any group who works there would be doing a true community service.

Men's Dormitories Elect New Officers

Dormitory officers were elected last week at **Mosher Hall** and the **Knoll**, at their first house meetings. The new officers of Mosher are: **Robert Frost**, president; **Donald Mitchell**, vice-president; and **Douglas Roberts**, secretary-treasurer.

The officers elected at the Knoll are: **James Maloney**, president; **Joseph Saia**, vice-president; **John Lambrecht**, secretary - treasurer, and **John Sloan**, athletic director.

Smith Speaks At Canterbury Club

The first meeting of the Canterbury Association took place on Tuesday evening at the rectory of St. Thomas' Church. The speaker was the Reverend **Jack H. Smith**, rector of St. Barnabas' Church in Marshallton and a graduate of the University of Delaware. His topic was the importance of prayer and its place in everyday life.

Wednesday morning members of the Association participated in their first corporate Communion and breakfast.

The next meeting will take place on Tuesday, October 20, at 7:30 p.m. at the rectory with president **Dick Saunders** presiding.

Neath The Arches

(Continued from Page 5)

of lower campus. The Sig-Eps claimed that their house had never before been so full of girls, and all the brothers wanted to have open house five and a half days a week with school on the weekends. We can only say nice thought boys, but . . . The members of the ATO house also found themselves entertaining some of the world's best. Oh this realm of fun-loving students.

Saturday brought the sun, the heat, and another victory to the Delaware Blue Hens. The stands were filled with more noise-making students than ever, and they all had reason for their cheers with our crushing victory over the brown and silver of Lehigh. Lehigh had lost a close game over the Columbia Lions the previous week, and while we were so busy counting up the touchdowns down at our own stadium, Columbia was herself handing it out to the Princeton Tigers. In the end of this game the Tigers were able to win by only one point, so on the face of the scores, we can lift our heads in a cocky manner and tell all that we are better than Princeton. Also it was Columbia that stopped the Army run in '48. On paper the Delaware Blue Hens look good, on the field they look good, and tomorrow when we all can see them in action again, they will look good.

The girl of the week is our own **Barbara Cubberly** who did the wonderful exhibition of baton twirling at the game last week. The question of the week . . . what is the meaning of the Delts Etta Fetta Goom?

The place of the week is the field house, tomorrow night, when all the chicks and roosters make with the amble feet at the annual Harvest Hop. See you all there.

Military Dept. Appoints Captain

Assignment of Captain Francis J. McCarthy, a native of Worcester, Massachusetts, as Assistant Professor of Military Science and Tactics, was announced today by Colonel E. W. Hiddleston, Professor of Military Science and Tactics at the university.

Captain McCarthy attended Rutland, Massachusetts High School and was graduated from Providence College, Rhode Island in 1937 with a BA degree in Education.

A graduate of the Anti-aircraft Artillery Officers' Candidate School in 1943, Captain McCarthy was transferred to the Infantry and has completed the special basic and associate Advanced Courses at Fort Benning, Georgia. He served in Hawaii, the European theatre during World War II, and in the Caribbean area. During 1951 to 1953 he served in Korea with the 19th Infantry Regiment of the 24th Infantry Division. He returned to the United States in September 1953.

Captain McCarthy wears the Bronze Star Medal, American Theatre Ribbon, American Defense Service Medal, European African Middle Eastern Campaign Medal, Asiatic Pacific Campaign Medal, World War II Victory Medal, United Nations Service Medal, Korean Service Medal, and the Combat Infantryman Badge.

Volkov Receives Del. Fellowship

A two-year post-doctoral fellowship has been awarded to Dr. Anatole Volkov of the Physics Department.

The fellowship is given through the generosity of a friend of the university. It is unusual in providing an opportunity for the recipient both to pursue a research problem of his own choosing and to participate one-quarter time in teaching in the department.

Dr. Volkov received his B.S. at the University of North Carolina, his M.S. at the University of Wisconsin, and completed requirements for his Ph.D. this summer at the University of Wisconsin.

His research interests center around electromagnetic effects in complex nuclei with special emphasis on the "shell" structure of the atomic nucleus.

National Teacher Exams Announced

The National Teacher Examinations, prepared and administered annually by Educational Testing Service, will be given at 200 testing centers throughout the United States on Saturday, February 13, 1954.

At the one-day testing session a candidate may take the common examinations, which include tests in professional information, general culture, English expression, and non-verbal reasoning; and one or two of nine optional examinations designed to demonstrate mastery of subject matter to be taught. The college which a candidate is attending, or the school system in which he is seeking employment, will advise him whether he should take the National Teacher Examinations and which of the optional examinations to select.

Application forms and a Bulletin of Information describing registration procedure and containing sample test questions may be obtained from college officials, or directly from the National Teacher Examinations, Educational Testing Service, P. O. Box 592, Princeton, New Jersey. Completed applications, accompanied by proper examination fees, will be accepted by ETS office before January 15, 1954.

4-H CLUB PLANS PROGRAM

Members of the University 4-H Club held their first meeting of the year on Monday night. Discussion was held on projects and programs for the coming year.

Diamond State 4-H'er, a newspaper for 4-H members all over the state, is to be their main project. The club began this newspaper last year and sent two issues to every Delaware 4-H family. Milmo Fox, Ann Short, and Glenn Dill were named as a committee to consult Mr. George Van Horn, extension editor, about possibilities of the paper. This committee will also make some definite arrangements for beginning work on the paper.

Mr. Sam Guinn, club advisor, met with the group and stated that he believed there are more former 4-H members on campus this year than ever before. The object of the club is to get these people together to enjoy fellowship and promote 4-H activities throughout the state.

A membership drive will be in progress soon. To become a member you must have once belonged to a 4-H club. Lists will be posted in every dormitory for people who are interested to sign. Bernadine Patterson is chairman of this membership drive.

The program committee, headed by Doris Dukes, received suggestions for programs during the year. Some of the suggestions were a square dance, a talk by Vaughn Fox on his trip to India last year, and slides taken at State 4-H Camp last summer. Doris and her committee will set up a definite program for the year and present it at the next meeting.

PLAYHOUSE TICKETS

Through an arrangement with the management of the Playhouse Theater in Wilmington, the Department of Dramatic Arts and Speech has available for students tickets for most productions at the Playhouse. The student rate is \$1.20 for all performances. Generally, tickets are available for the Thursday evening and Saturday matinee performances. Seats can be reserved in either orchestra or mezzanine, although it is advisable to secure tickets early, since they are available for different shows on a quota basis.

It took a lot of engineering to make a better "grasshopper"

Engineers at Western Electric's St. Paul Shops are well pleased with their new-style "grasshopper" fuse—a small fuse used in Bell telephone central office equipment. The former model—in production for years—had been gradually refined 'til it seemed almost beyond further improvement. It was simple, inexpensive, efficient, came off the line fast. But...

It's an old Western Electric engineering custom to keep trying to make Bell telephone equipment still better, at still lower cost. The "grasshopper" was studied by a young engineer out of the University of Minnesota, Class of '40, who joined the Company in 1946. His studies indicated the most effective way to improve efficiency and cut costs further was to change the design.

Pursuing this lead the engineer and his group saw their opportunity to make an important contribution. They investigated the latest tooling techniques, new metals, finishing materials and methods, all of which are constantly under study by engineers at Western Electric plants. A simplified design, which permitted the use of the most modern tooling methods, resulted in a better fuse at lower cost that is saving thousands of dollars a year for Bell telephone companies.

There's an endless stream of such challenging assignments at Western Electric. Engineers of varied skills—mechanical, electrical, civil, chemical, metallurgical—find real satisfaction in working together on the important job of providing equipment for the best telephone service on earth.

How the grasshopper fuse works

Small fuses like this are used by the millions to protect certain telephone central office circuits against current overloads. Odd in appearance, the fuse is called the "grasshopper" because of its spring which is released when the fuse blows, displaying an indicator "flag" in open view and tripping an alarm so the trouble can be spotted and corrected at once.

NEW DESIGN

ONE-PIECE FORMED SPRING WITH INDICATING FLAG—MADE BY STANDARD PUNCH PRESS METHODS.

FIBRE STRIP SPRAYED WITH COLORED LACQUER FOR CODE IDENTIFICATION.

INDICATOR SPRING HELD BY AND STAKED TO FLAT TERMINAL—SOLDERING ELIMINATED.

PRE-FORMED RADIAL BEND IS NOT VULNERABLE TO DEFORMATION BY IMPROPER HANDLING—NO ADJUSTMENT FOR TENSION NECESSARY.

The Armchair Umpire

By CHARLES WILLIS

Tomorrow the sports calendar swings into full gear. "Whitey" Burnham's booters entertain perennially tough West Chester on Frazer Field at 11:00 a. m. Jimmy Sullivan's frosh gridders take on Bainbridge Prep also at 11:00 a. m. but on a different portion of Frazer Field.

The cross country season opens at 2:00 p. m., when Ken Steer's harriers play host to a powerful aggregation of "Panthers" from the University of Pittsburgh on the University of Delaware Experimental Farm. Rounding out the sports picture is the gridiron contest between our Blue Hens and Killinger's West Chester Teachers at the Delaware Stadium.

Last week's impressive triumph over the Engineers of Lehigh stretched the current Blue Hen win streak to five. Long runs, blocked kicks, intercepted passes, and expert passing were some of the many factors in the Hen victory. Soph "Zeke" Zaiser, who sprinted 74 yards in the fourth quarter, was the game's leading ground gainer with 107 yards in 14 carries.

Frank Gyetvan and Tom Redfield blocked two important punts which set up two Delaware scores. Don Miller, in addition to connecting on 5 of 9 pass attempts, also snared an enemy aerial, and reserve center Lenny Williams staved off a late Lehigh threat with a pass interception. The entire Blue and Gold line, led by Cooper, Trivits, Mergo, Borresen, Serpico, and Graham, played a fast and aggressive brand of ball. Carzo and Zaiser, who each registered two tallies, Wagner, Miller, Fannon, Flynn, and Candeloro were impressive in their backfield play.

Short Stuff:

Roger Fouracre, co-captain of the Cross Country squad, is out of the Pitt meet tomorrow with a game leg. Gov Kelly of WILM caused quite a stir among the fans when he described Borresen as having a "Bear hug" on Gloede of

Lehigh. Lenny Williams, reserve center, had a smile a mile after he snared an Engineer pass.

Frosh Meet Bainbridge

The 1953 edition of the Blue Hen frosh gridders is slated to open a tough six-game schedule against an annually tough Bainbridge Naval Prep eleven on Saturday, October 10. Game time for the clash, which will be played on Frazer Field, is 11 a. m.

Coach James Sullivan has announced a tentative starting lineup, and although several slots are still uncertain, the probable starting lineup should read as follows: Left end, Dave Coulombe; left tackle, Walt Collings; left guard, Tommie Thomas; center, Jerry Weiss; right guard, Albie Sparks; right tackle, Ed Sakusky; right end, Ed Malinowski; quarterback, Bart Wenrick; left halfback, Pat Friello; right halfback, Carmen Cella; and fullback, Bill Michaels.

Although the Blue Hens commanded last year's opener against the Bainbridge eleven, 19-0, no predictions are being made by Coach Sullivan about this year's contest, since little is known about the naval squad. The frosh have been engaging in heavy daily scrimmages and should be in tip-top condition for Saturday's clash. Barring injuries, the frosh will have a definite advantage in depth, with at least three capable performers for each position.

DELAWARE

THE OUTSTANDING PLAY OF THE WEEK

Although the 74-yard touchdown run by halfback Jimmy Zaiser electrified the home crowd, it was not the outstanding play of last Saturday's game with Lehigh. According to Coach Dave Nelson, the best play of the afternoon was the 59-yard pass play which set up Delaware's second touchdown in the closing minutes of the second quarter.

The play started with end Frank Serpico being split six yards from his normal position. After the ball was snapped, Serpico went out and cut sharply toward the middle of Lehigh's secondary where he hauled in quarterback Don Miller's aerial. Aided by a block by fullback Rocco Carzo and shaking off several tacklers himself, Serpico was finally forced out of bounds on the Engineers' ten-yard line. Jimmy Zaiser then carried the pigskin over for the touchdown.

This touchdown had a great psychological effect on the Blue Hens because it gave them a half-time lead and inspired them to continue their fine play in the second half. Another fact about the play was that this was the first time it had ever been used in an actual game. It had been added to Delaware's repertoire of plays only the day before the encounter.

Coach Nelson also expressed his appreciation for the fine support which the students have given the team at the stadium and also at the pepfests. With the students displaying such fine spirit, it is no wonder that our team has been playing such tremendous football.

Those who take to water like a duck, have a chance to swim from 4 to 5 p. m. on Mondays through Thursdays inclusive, or from 7:30 to 9 p. m. on Tuesdays and Thursdays. Those with some skill in swimming, however, are urged to try out for the Aquatic Club next Monday, October 12th, 7:30 to 9:30 p. m. in the Women's Gym.

Blue Hen

Of The

Week

A "slip stick" could not have even helped the Lehigh "Engineers" last Saturday afternoon before 5,000 cheering spectators as the "Admiral Davis" eleven chalked up their fourth consecutive victory at their new stadium, and increased their winning streak to

SERPICO

Frank is not exactly the biggest man on the team. Standing only 5'10" and weighing in at 162 lbs., "Serp"

came to Delaware from Blair Academy where he lettered in three major sports.

Last week's game certainly proved to be "Serp" Day. His defensive play was outstanding. If he was not in there making the tackles, he would be knocking down the interference. His offensive play equaled, if not surpassed, his defensive work. Last year Frank caught 15 passes in eight games. This year he has grabbed in 10 out of 14 attempts in the first two games. In the Lehigh game Frank brought in 4 for 4, one which was good for a 59 yard sprint. Although it was short of the goal, it set up an easy six points for the hard-hitting Blue and Gold backs.

It is because of his great offensive and smashing defensive playing that the Review staff nominates Frank Serpico as "the Blue Hen of the Week."

Soccer Team Faces West Chester In Season Opener

At 11:00 a. m. tomorrow, the varsity soccer team will begin its 1953 season. They couldn't have chosen a finer opponent for opening day. West Chester carries an excellent record; they have an experienced and well-coordinated team. Undoubtedly, they are one of the best teams in the East. It will take a combination of ability, speed, and spirit to overcome this outstanding rival. The aggressiveness of the Delaware squad can easily be the deciding factor.

Anticipating tomorrow's game, Coach "Whitey" Burnham scheduled a scrimmage game with King's College. This game was played last Friday. Led by Jair De Santos (a former student of the U. of D.), the boys from Middletown showed themselves to be worthy opponents for the booters of Delaware; however, they were unable to crack Delaware's stalwart defense. This defense was climaxed by the stellar play of goalie Tom Brown. Although he was a rookie only last year, Tom showed real finesse in holding King's College to a shut-out. Delaware's tie-breaking goal was scored by Willard Thompson, the right halfback, on a kick-in from near midfield. As the ball approached the goal, the goalie stepped out from the goal to catch the ball; however, he allowed it to get through him for a score. The remainder of the game was filled with fast-breaking offensive drives which became stalled by fine defensive play. Final score: 1 to 0.

U. Of D. Cindermen Vs. Pitt Tomorrow

Coach Steer's gallivanting cindermen will be host to the University of Pittsburgh's Cross Country team tomorrow at 2:00 p. m. The Pitt men defeated the Hen squad by a small margin last season after a very heated contest; however, according to Coach Steers, the Blue Hens should prove very capable in the coming event tomorrow.

The Blue Hens harriers posted a 4-1 log in '52. The loss, as mentioned above, was to the squad from Pitt. The "Panthers" promise to be a formidable adversary, and Coach Steers is working hard on the members of the squad.

The home meets will not be held on the Experimental Farm as advertised in the Blue Hen sports folder; instead, the meets will be held on the White Clay Creek road on the north side of Newark.

AQUATIC CLUB

Monday 5th, demonstration and free swim at 8 p. m. in woman's gym.

Wednesday, 7th, and Monday, 12th; Tryouts 7:30-9:30 p. m.

RECREATIONAL SWIMMING

4-5 on Monday, Tuesday, Wednesday, Thursday, 7:30-9:00 Tuesday and Thursday.

INTRAMURAL HIGHLIGHTS

Last Tuesday, saw the opening games of the 1953 intramural touch-football league. The contests were hard fought and most of the outcomes were in doubt down to the closing minutes.

Down on the Women's Soccer Field, Kappa Alpha pounded out a slim 7 to 6 decision over Theta Chi. Sig Ep was held to a 12-12 tie by the surprisingly strong 69'ers, while A.E.Pi scored a 6-2 verdict over the "Pikes."

Up on Frazer Field, Sigma Nu began its fight for the Championship by beating A.T.O., 15-0. The "Delts" came up with a display of power and speed in smashing the Knoll, by a 33 to 0 score. The final game of the day resulted in a Shamrock win over the Phi Kappa Tau.

Activity continues today with Sig Ep meeting Sigma Nu in the game of the day down on the Women's Soccer Field at 4:15. Other tilts include Theta Chi—69'ers, Shamrocks—Pi KA, Knoll—A.E. Pi, Delta Tau Delta—Kappa Alpha, and A. T. O.—Phi Kappa Tau.

Coming intramural events include the cross-country run and November 4, on the varsity cross-country event will be held on November 4, on the varsity cross-country course.

portion certain to become alcoholics.

"We at the Alcohol Center have long felt a need to study such a group," said Mr. Bacon. "We decided on college students because they're relatively less inhibited about answering questionnaires than adults, and also because they were available in groups on the campus."

"Also," he said, "we knew college students were old enough so we were sure a large number would have started drinking, but not so long ago that they would have forgotten when and under what circumstances."

"Until recently," Mr. Bacon explained, "all data on drinking habits were concerned with abnormal drinking and its relationship to divorce, crime and the like. We felt it essential to gain a picture of the normal drinking customs of the American people."

"We studied the drinking habits of ethnic groups. But we also wanted to study a particular age group which we'd be able to follow for the next 25 or 30 years. As a result, we'll be able to trace the influences of marriage, of the change in economic status, of having children, and of changing attitudes on the drinking habits of these college students."

Colleges in all parts of the country including state-supported and privately-endowed schools, are represented in the survey.

Application Day

(Continued from Page 2)

degree or its equivalent at the time the award is to be taken up; knowledge of the language of the country sufficient to carry on the proposed study; and good health.

Final selection of Fulbright grantees is made by the Board of Foreign Scholarships appointed by the President of the United States. The Institute of International Education, central private agency in the U. S. administering programs for the exchange of students, teachers, and specialists, is the agency designated by the Board of Foreign Scholarships and the Department of State to screen applications. Under the Buenos Aires Convention, the Institute makes the preliminary recommendation of candidates, with the cooperating countries making the final selection of candidates for study within their borders.

The Fulbright Act authorizes the use of certain foreign currencies and credits acquired through the sale of war surplus property abroad for educational exchanges. The awards cover transportation, expenses of a language refresher or orientation course abroad, tuition, books, and maintenance for one academic year. Awards under the Buenos Aires Convention include transportation provided by the United States Government, and tuition and maintenance allowances provided by the host governments.

Nursery Opens

(Continued from Page 2)

lockers for children, a toilet room, a kitchen and an observation room for parents and children are all located on the ground floor of Robinson Hall. Outside there is a

well-equipped playground where the children let off steam.

Directors of the nursery school are Miss Mary Ellen Durrett and Miss June Patterson, are members of the School of Home Economics faculty. Miss Durrett, formerly of the university of Tennessee at Knoxville, joined the staff of the university this fall. Miss Patterson was a faculty member at Hood College, Frederick, Maryland, before coming to Delaware two years ago.

She has spent several summers at Vassar College, Poughkeepsie, New York, teaching at the Vassar Summer Institute.
