NEWARK, DELAWARE, THURSDAY, APRIL 30, 1931

NUMBER 14

ANNUAL INTERSCHOLASTICS TRACK, FIELD MEET TO BE HELD ON FRAZER FIELD THIS SATURDAY

450 Athletes to Compete in Different Events; Division of Schools into Three Groups Will Allow Fair Competition

"DOC" DOHERTY IN GENERAL CHARGE

More than 450 athletes will compete in the eighteenth annual interscholastic track and field meet of the University of Delaware at Frazer Field Saturday afternoon. This will include 36 high and preparatory schools from four States.

Graduate Manager "Doc" Doherty, who is in charge of the arrangements, said the entries indicate it will be the largest interscholastic affair ever held in Delaware. The meet, as has been the custom for the past several years, will be divided into three classes, A, B and C.

This year entries in Class C, have been restricted to teams of the Delaware Interscholastic Association and other schools have entered teams. They are, Dover, Claymont, Delmar, Middletown, Newark, Caesar Rodney, Greenwood, Laurel and Alexis I. Post.

In classes A and B, schools from Maryland, Delaware, New Jersey and Pennsylvania will be represented. Manager Doherty is especially pleased with the fine entry list in Classes A and B, which is much larger than in any previous local interscholastic meet for these classes. It demonstrates that the U. of D. interscholastic is becoming recognized among schools of the district as one of the best that is held each spring.

The schools that have sent entry lists for Class A are Tome School, Chestnut Hill Academy, Pa., LaSalle High School, Pa., Pierce School, Pa., Northeastern High School, Phila., Alhambra, Pa., Prep, West Phila. Catholic High, Severn School, Md., Franklin and Marshall Academy, Pa., Germantown Academy, Pa., and Baltimore Poly.

In Class B, these schools have entered: Salem, N. J., High, Moorestown, N. J., High, Penn's Grove, N. J., High, Wildwood, N. J., High, Pittman, N. J., High, Wesley Collegiate, Del., Forest Park, Md., High, Wilmington, Del., High, Upper Darby, Pa., High, Ferris School, Del., Ocean City, N. J., High, Swedesboro, N. J., High, Ridley Park, Pa., High, Haddon Heights, N. J., High, Vineland, N. J., High, and Temple, Pa., High.

Great credit is due Graduate Manager Doherty for his work in the preliminary meet and now all that is needed to make it the most successful since the annual affair was first started in the year that Frazer Field was completed is favorable weather.

"Doc" Doherty has worked early and late for several years to bring this meet up to a standard that will be a great credit to the University of Delaware and in the list that he has received for the meet on Saturday he has more than accomplished his purpose.

It was largely at the request of the U. of D. officials that Class C, has been restricted to the schools in Delaware of that association. While the U. of D. officials, according to report, have not entirely come up to expectations as to the number of schools that would be entered from Delaware should the class be restricted to Class C, Delaware teams, there are nine schools from Delaware entered and this guarantees keen competition in this class. In previous years a number of teams from Mary-

DELAWARE SONS TO VISIT HERE ON SAT. MAY 16

Philadelphia Group to be Entertained by University for Day

TO SEE BALL GAME

The annual pilgrimage of the Philadelphia Sons of Delaware to their home state, and to the University of Delaware, will be made this year on Saturday, May 16, it has been announced, and it is expected that more than three hundred former residents of this state will be in the party that will make the trip to Newark.

The trip to Newark of the Philadelphia Sons of Delaware has become a looked-forward-to event each year. Last year a pleasant day was arranged for the entertainment of the guests by the administration of the University of Delaware, and this year even a more elaborate program will be arranged.

According to present plans, the organization will assemble in Philadelphia Saturday morning and will go in a body to the boat docks on the Delaware River. There the group will board a Wilson Line steamer and will make the trip to Wilmington by boat, inspecting the harbor and Marine Terminal at Wilmington before they proceed to Newark. From Wilmington, the party will either board buses or a train for Newark, and will arrive here about 2 o'clock in the afternoon.

An inspection tour of the University will be made soon after the arrival of the group in Newark. Following the tour, the organization will be guests at the baseball game between the Delaware team and Pratt Institute. Following the baseball game, a banquet will be served in Old College at 5:30 o'clock, allowing the party sufficient time to return to Philadelphia before a late hour.

SAFETY GROUP HOLD CLOSING SESSION HERE

Safety Council Engineering Section Hear Report of Work at University

ATTEND RECITAL

The engineering section of the Delaware Safety Council held its last meeting before the summer holidays here Monday night. More than 35 members of the engineers attended the informal dinner given in Old College Hall at 6:30 o'clock. Later they enjoyed the organ recital given by Firmin Swinnen in Mitchell Hall.

This group was joined by thirty more when the formal meeting opened in Evans' Hall.

Walter Dent Smith, president of the Delaware Safety Council, presided, and in a brief talk stressed that this is the only section of its kind in the country. He said that the chief accomplishment of the section has been the revision of the rules of the Industrial Inter-Plant Contest. This revision places the contest on a more even basis. He then asked Dean R. L. Spencer to explain the interesting features of Evans' Hall before the inspection tour.

Dean Spencer said the interior of the building is not yet completely finished and that he would be very glad to receive constructive criticism and suggestions on any changes that the engineers might deem advisable. The safety record of the students, he said, was excellent, there having been only one accident in the history of the building, which has been in use for more than two years. He attributes this to the excellent supervision of the engineering faculty. The college is growing and there is an urgent need for more safety appliances, he said.

LETTER FROM MARSHALL MANNS RECEIVED, GIVING ACCURATE ACCOUNT OF HONDURIAN REVOLT

Newark Couple Safe in Tela; By Courtesy of Dr. and Mrs. T. F. Manns, Letter is Printed Herein

AMERICANS ARE PROTECTED

Dr. and Mrs. T. F. Manns, after nearly two weeks of anxious waiting, yesterday received direct word of the safety of their son and daughter-in-law, Mr. and Mrs. Marshall Manns, who are in Tela, Honduras, the scene of the latest Latin-American revolution. A letter from Marshall Manns arrived yesterday, explaining why it had been impossible for him to cable his parents of their safety, and telling of the revolution.

By the kind permission of Dr. and Mrs. Manns, the letter, giving first-hand information of the situation in Honduras, is reprinted here in The Newark Post. As many residents of Newark know both Mr. and Mrs. Manns, it will be of great interest to them to learn of the conditions there, and to know of what the Americans in Honduras have lived through during the past few weeks.

The letter follows: "April 22. "Well, I guess you are all excited about this Revolution business. It has been pretty nice here. To date we have had but two skirmishes in which a total of but five people were killed, four of which were rebels.

"The place is full of rumors and we have gotten now so that we don't believe any of them. We are safe because the opposing Generals assured the Consul that all American life and property would be respected. Also the Company keeps one of the Comynay boats at the dock all the time. This morning the gunboat came in for the first time. Haven't seen any newspapers so don't know what to make of that. I haven't attempted to radio you because it is useless as the office is crowded with Company radios.

"About the papers: You want to discount considerably what they say. Whatever happens American lives are safe here because we live in a zone and no fighting or trespassing is allowed.

"We have been on guard since Sunday afternoon. This is more to prevent petty thieving and to spread quickly and accurately any orders that might be necessary. I was on guard Sunday night at the wharf. They brought a Honduranian gunman down and told us that if we had any trouble just to step back and let this hombre settle it. You see there would be very little, if any, trouble if he shot one of them, but if a foreigner did, it might lead to trouble.

"I was on guard last night from ten till two. There was a battle about 7

COMPLETE REPAIRS ON ACADEMY BUILDING; OPEN FOR INSPECTION OF THE PUBLIC THIS SATURDAY

Entire Structure Repaired and Restored to Original Type; Colonial Architecture Copied in Millwork Replacing Damaged Wood

TOWN LIBRARY REMODELED AND REOPENED

The old Academy Building, completely remodeled and restored after the damage caused by the fire early in January, will be open for public inspection this Saturday. The finishing touches of work necessary to repair the historic structure were completed this week, and the building is now in much better condition than it was before the fire occurred.

Following the fire on January 21, the trustees of the building decided to not only repair the damage caused by the flames and water, but to restore the building and make such permanent repairs that were deemed necessary to preserve the old structure for many years to come. An entire new metal roof has been placed on the complete building, and in many places where the mortar between the bricks had fallen out, new mortar has been placed, and the cracks in the walls filled.

The Newark Town Library, on the first floor, has been completely made over, with new plaster on the walls and ceiling, and with new papering and painting. The book cases and shelves have been repainted and decorated, and the floor has been repaired and painted. The hallway for all three floors has been replastered, repainted and repapered, and new staircases and floors have been built.

An interesting feature is that the original woodwork, including the doors, windows and staircases, have been exactly duplicated, so as to preserve the true Colonial architecture of the building.

The meeting rooms of the Veterans of Foreign Wars, on the second floor of the building, have been repapered and repainted, and two other rooms on that floor have also been remodeled. Six rooms on the third floor have been done over, and the meeting rooms of the Daughters of the American Revolution, on the first floor, have been redecorated and repaired. The cupola has been rebuilt and repainted, and the old Academy bell has been replaced in the top of the cupola.

All exterior woodwork and trimming on the entire building has been repaired and repainted, and new steps have been placed at the front en-

THE DOVER ROAD IS FOOTLIGHTS PLAY FOR MAY 15

University Dramatic Club to Give Comedy on Marriage by A. A. Milne

STUDENT DIRECTING

"The Dover Road," a three-act comedy by A. A. Milne, has been selected by the Footlights Club, as the dramatic vehicle to be presented Friday evening, May 15th, in Mitchell Hall.

John McVaugh is general director and coach of the production. The precedent of having a student coach the play was inaugurated last year when Stanley Salsburg coached the Footlights play, "The Circle."

"The Dover Road" is a fast-moving, modern comedy dealing with the subject of marriage. Wit and repartee are plentiful in the dialogue, and, in general, the play is quite adaptable for staging. "The Dover Road" has attained considerable success in London and New York.

The cast of the play has been selected by Marshall McCully and Hazel Gibney, who is acting as assistant coach. The complete cast follows: Dominic, the Major Domo, Roland Erskine; Latimer, Alfred Joseph; Leonard, Marshall McCully; Anne, Mary de Han; Nicholas, T. Henry Dickerson; Eustasea, Charlotte Hanby. Each member of this cast, with the exception of Erskine and Charlotte Hanby, have appeared previously in dramatic performances here. Mary de Han was in the cast of the winning play in the Women's College recent play contest. McCully acted in "Outward Bound," Dickerson in "The

(Continued on Page 4.)

RADNOR MILLS CLOSE

The Radnor Mills, the Elkton plant of the Jessup and Moore Paper Company, for many years the leading industry of that community, closed down permanently Saturday. The closing of this mill throws several hundred men and women in Elkton out of employment, and unless some new industry locates there soon, these families will be forced to move from Elkton to other sections of the country, so as to find work.

GEORGE WASHINGTON'S TRAVELS

By James W. Brooks

Copyright 1930 by James W. Brooks
All Rights Reserved

Historically Correct Sketches
By CALVIN FADEE

IN the old court house at the right, long since vanished and the site of which is now occupied by a department store, George Washington was appointed surveyor of Culpeper County, Virginia, after having passed a rigid examination by the president and masters of William and Mary College, shown at the left. This was his first formal appointment, and papers yellowed with age record how proudly he took his first oath of office at the age of seventeen.

MEDICAL CARE OF WASHINGTON'S SOLDIERS

Interesting Interview With Major General M. W. Ireland, Surgeon General, United States Army

How does the medical care received by George Washington's army look to a man in the position of Major General M. W. Ireland, Surgeon General of the United States Army? It might be supposed that the ranking officer would look back with a kind of sympathetic tolerance on the methods available to Washington's surgeons.

Quite the contrary is true. The sympathy is there, but it is a sympathy of entire respect. If you ask Gen. Ireland, you will find him full of admiration for the manner in which the surgeons under Washington met the problems with the means permitted by their times.

"It is well to remember," says General Ireland, as quoted by the Division of Information and Publication of the George Washington Bicentennial Commission, "that Washington's surgeons were, for their day, highly trained men. They stood in the forefront of their profession. Most of them had received the finishing touches to their education at the best schools of Europe. So far as the science of medicine was then developed, they were masters, and bore themselves with credit before the difficulties they faced."

"In those days, we must remember, the handling of food was primitive and without our resources in refrigeration. In addition to that, what food supply the Revolutionary forces had was always meager. Often Washington's soldiers were served with food

badly spoiled, which they were forced to eat because it was that or nothing. No one can read without a wrench of the heart of the quality of provender served to the patriots at Valley Forge—when the garrison had anything at all to eat!

"Under such conditions," said Gen. Ireland, "digestive disorders were inevitable. Washington had frequently to complain of what was then called the 'blood flux.' It was a term used then to cover what today we divide into a dozen varieties of dysentery, together with ptomaine poisoning and appendicitis. To Washington's surgeons they were all phases of a single disorder."

"At that," the General continued, "I doubt if Washington lost a higher percentage of effectives through illness than were lost to the Allies during the recent war. If Washington had difficulties in his day, we have had even greater ones in ours. He also enjoyed certain advantages. It must be remembered that Washington

recruited his army from a race of farmers and woodsmen, husky outdoor men, used to exposure, food shortages, and every variety of hardship. The millions we drafted for the recent war were taken from the crowded and badly-ventilated conditions of office and factory. Against the epidemics of digestive troubles that raked Washington's forces, our soldiers were swept by influenza and meningitis. And I doubt if the future historian will find us coping with these problems much better than Washington's surgeons handled their trials.

"Where the modern army surgeon is in luck," said Gen. Ireland, "is in the field of surgery itself. During the Revolution anesthesia was of course unknown. Operations were then almost as painful to the surgeon as they were to his patient. Many a wound that would be an easy problem to the modern surgeon was then regarded as hopeless. Yet the surgical feats successfully attempted by Washington's medical corps were really re-

markable. They accomplished much in avoiding septic poisoning. The germ theory was still many years in the future yet instinct warned Washington's surgeons of the dangers of toxic poisons. Their only defense against them was the searing iron, but it did its work in its crude way. And Napoleon's surgeons in their day also used, for the purpose of controlling hemorrhage, the hot oil employed by Washington's surgical staff.

"All in all," General Ireland concluded, "Washington's doctors performed a splendid job. Of course they had tough and excellent material to work with, but with backward medical science what it then was, they did exceedingly well in keeping the Revolutionary Army in a condition that would match well with the armies of today."

Reverse Order of Colors

The French do not refer to the colors of their flag as "red, white and blue." They reverse our expression and say "blue, white and red."

CHRISTIAN ENDEAVOR NEWS

At the Newark Christian Endeavor meeting, Homer Malcom will be in charge. The meeting is at 6:45 p. m., Daylight Saving Time, and will discuss the topic, "The Two Generations—Understanding Each Other." Needed executive committee and business meetings were held last Sunday.

A real opportunity is opened to young people of the Newark and Wilmington sections. At the C. E. Union meeting, on Monday evening, May 4, they are arranging to have as speaker, Miss E. K. von Ruecau. Miss von Ruecau is Assistant Head of the Department of Young People's Work of the Presbyterian Church, and is well known to many Newark young people as the woman who gave that inspiring Sunday address at the Delaware Christian Endeavor Convention in Milford last fall. The Monday evening meeting will be held in the Olivet Presbyterian Church, 4th and Broome streets, Wilmington.

APRIL 30, 1931

Apple Blossom Time In Delaware

From now until about the 6th of May is the time when most of the apple trees in Delaware will be in blossom. Those who visit the apple growing section this Sunday will find many trees in full bloom. Early Ripe and Nero are the two earliest blooming varieties and these will be in full bloom on Sunday. Stayman is perhaps the most important variety and with present weather conditions, it is expected that this variety will also be in full bloom. Later blooming varieties such as Williams and Rome Beauties should be in full bloom Sunday, and any one who desires to view the beautiful blossoming apple orchards may visit the apple producing sections any time during the next few days and not be disappointed. Most varieties of apple trees this year are heavily set with blossoms and there is no more beautiful sight than acres and acres of well kept apple trees at the time when they are in full dress.

The principal commercial apple producing sections of this State are in Kent and Sussex counties. An ideal trip around this State would be to journey from Dover south to Milford, turn left at Milford, on the Rehoboth road and follow this route to the road intersection which leads to Oak Orchard and Millsboro. Turn north at Millsboro and come to Georgetown, turn left to Georgetown and come to Bridgeville, and thence up the du Pont Highway from Bridgeville to Dover. This trip covers about 100 miles and goes through the entire apple producing section of the State. A shorter trip covering about 85 miles would be to go from Dover to Bridgeville, Bridgeville to Georgetown, turn north at Georgetown, and return to Dover via Milford. This journey is also over concrete roads and while not so long as the first route it will enable you to see thousands of acres of commercial apple orchards in full bloom. Of course, not all of the apple orchards are located on the concrete roads and should you become tired of the smooth roads, the country roads at the present time are in good condition and journeying over these roads you will be able to enjoy many beautiful views.

Delaware growers of apples are proud of their orchards as can be seen from the neatly trimmed, well fed trees, and the clean cultivation and general appearance of the orchards. These growers extend an invitation to their city cousins to visit and enjoy the beautiful sight at this time.

SAFETY GROUP HOLD CLOSING SESSION HERE

(Continued from Page 1.)

The safety engineers were then taken on a tour of the building with members of the senior class in engineering acting as guides. The electrical laboratory, the mechanical laboratory, the materials laboratory, the pattern shop, the welding shop and the machine shop were visited and inspected.

After the inspection tour the group reassembled in the lecture room and each professor gave a short talk explaining the safety features of the machines in his department. Following each talk was a period of discussion.

The closing remarks of the session were made by Joseph E. Plumstead, vice-president of the Delaware Safety Council, who described the establishment of the safety engineers' section as the most important step taken by the council during the three years that he has been associated with it.

A rising vote of thanks was given Dean Spencer and the members of the engineering faculty of the University for their splendid cooperation.

ORGAN RECITAL PROGRAM

The program for the twenty-fifth organ recital by Firmin Swinnen in Mitchell Hall, Monday evening, at 7 o'clock, Daylight Saving Time, will be as follows:

- 1. Rosamunda Overture—F. Schubert
2. Gavotte—G. Martini
3. En Mer—A. Holmes
4. Menuet—A. Boccherini
5. Adagio Cantabile—R. Strauss
6. Caprice Viennois—F. Kreisler
7. Aria in D Major—J. S. Bach
8. Berceuse and Finale—I. Strawinski

REV. W. L. ARMENTROUT AT HEAD OF CHRISTIANA SUNDAY

The Rev. W. L. Armentrout will conduct services this Sunday morning at the Head of Christiana Church, as a candidate for the pulpit vacated by the Rev. John Moore recently. The services will begin at 11 o'clock, Daylight Saving Time.

LADIES OF ST. JOHN'S R. C. CHURCH PLAN CARD PARTY

A card party will be given by the ladies of St. John's R. C. Church next Wednesday evening in the St. John's Rectory. Five hundred, euchre and bridge will be played. The party starts at 8 o'clock, Daylight Saving Time. A door prize will be given.

THE DOVER ROAD IS FOOTLIGHTS PLAY FOR MAY 15

(Continued from Page 1.)

Circle," Joseph in a recent interfraternity play. McCully has been a member of the cast in several plays this season.

Committee in charge of various phases of the production have already begun to function. Paul Smith is general business manager. Francis Newham is stage manager.

Others who have been selected to work on committees up to date are: Arthur Tuckerman, assistant stage manager; Samuel M. Silver, publicity manager; Katherine Kesselring, Thos. Dowling, Katherine Poinsett, Elizabeth Harris, Virginia Pawling, Frances Richards, M. Horrocks, business committee; Gilbert Chase, electrician; James Willey, assistant electrician; Dorothy Deiser, properties manager; Catherine Broad, make-up.

NEWARK COUNTRY CLUB TO GIVE CARD PARTY MONDAY

The annual card party of the Newark Country Club will be given in the New Century Club building Monday night, at 8 o'clock, Daylight Saving Time. Five hundred and bridge, both auction and contract, will be played.

Plans are being perfected for a record attendance at this card party. Thirty-six prizes will be awarded to holders of high scores. It is expected that more than 150 people will enjoy the affair. Refreshments will be served at the finish of the card playing.

The Newark Country Club card party is an annual affair, and is looked forward to each year as a high spot on the social calendar of the season. Mrs. H. S. Bonham is chairman of the ticket committee, and Mrs. E. B. Wright is chairman of the prizes committee. Mrs. R. Price and Mrs. J. P. Cann are the chairmen of the tables and refreshments committees. Tickets for the party can be purchased from members of the club, or can be obtained at the door next Monday evening.

BATTERY E TO OBSERVE 110th ANNIVERSARY WITH PROGRAM

Invitations have been issued by the members of Battery "E", 198th C. A. Newark's unit in the Delaware National Guard, to a public drill and illustrated lecture in the Armory next Tuesday night at 8:00 p. m. This date is the tenth anniversary of the Federal Recognition of the unit after the World War. Col. S. J. Smith, former Army Chaplain, will deliver an illustrated lecture on his services with the Army in foreign lands. The public is cordially invited.

\$12,000 BLAZE AT CHESAPEAKE CITY MONDAY

Seven Fire Companies Fight Fire that Destroys Three Houses

TOWN THREATENED

Three families in Chesapeake City, Md., were compelled to flee from their homes early Monday morning when a fire broke out which destroyed three dwellings. A number of those who made their escape were scantily clad. Seven fire companies responded to a call for aid and confined the fire to the three buildings which were destroyed. The loss is about \$12,000.

The fire broke out in the rear of the home of Mr. and Mrs. John Nowland, and had gained considerable headway before members of the family were aroused. They hastily grabbed up what clothing they could lay hands on and escaped by the front way, arousing the other neighbors and sounding the fire alarm.

By chance the brisk wind was blowing from the northeast which prevented the flames from travelling in the direction of the more congested business section. However, the Chesapeake City firemen at once saw that it was no blaze they could hope to cope with alone with limited hose facilities and short water supply. They sounded a general alarm to nearby companies from Elkton, North East, Newark, Delaware City, Middletown, Odessa and Townsend.

The fire quickly spread from the Nowland home to that of Mrs. Elizabeth Dean, and before she could get very much of her furniture and wearing apparel out, it also was a mass of flames. From the Dean home the flames leaped to the home of Mrs. James Wooleyhan, which was as easy prey as the others, despite the arrival of the many fire companies.

The town's water supply was not adequate for fighting the blaze, so it was necessary to take the water from the Chesapeake and Delaware canal and Back Creek, which involved considerable loss in time in getting water on the fire by linking up hose to reach the streams.

The family of Mrs. Dean and Mrs. Wooleyhan managed to get out some of their furniture, but everything the Nowlands had except the clothes they managed to grab up hastily for their own protection against the chilling winds was destroyed. The fire was not checked until about 5 o'clock, and upon several occasions it was feared that it would get away from the firemen.

UNIVERSITY MEN AND GIRLS TO HOLD DEBATE TONIGHT

The first official contest between the two major divisions of the University of Delaware will be staged tonight, at 8:00 p. m., in Mitchell Hall, when the Delaware College debate team will clash with a Women's College team in a formal debate. The proposition to be discussed is "Resolved: That the Parliamentary System of Government is More Preferable to the Needs of a Democratic and Progressive Government than the Presidential System." The male team will uphold the negative side of the argument.

The debate is the fruition of efforts stretching over several years on the part of several individuals in Delaware College to engage the ladies in a forensic clash.

Those who will represent the Men's College in the contest are James Rosebrow, Percival Ableman, and Benjamin P. Brodinsky. Samuel M. Silver, who has had experience in intercollegiate debates, is acting in the capacity of coach for the men.

The feminine arguers are Edith Brown, Elizabeth Harrar, and Alice Hellig. The ladies are being coached by Mr. Arthur Dunlap.

NEWARK JUNIOR MUSIC CLUB HOLDS MEETING

The Newark Junior Music Club held its regular monthly meeting in Mrs. Florence Hastings studio, Opera House building, Saturday evening. The president being absent, Helen Cronhardt presided. Anne Tarr and Betty Tarr served on the hospitality committee. At the next meeting the election of officers will be held. After the business meeting, the club counselor gave a talk on the origin of Wind Instruments. This was followed by a program of piano and vocal music. Miss Grace Kuschan, a concert pianist of Wilmington, played several delightful numbers for the club.

The local club, being a member of the Delaware Federation of Music Clubs, will be represented on their program at the concert to be given Sunday afternoon, May 10, at the Wilmington High School.

ST. THOMAS AUXILIARY TO ENTERTAIN MISSIONS GROUPS

The Woman's Home Missionary Society of the First Presbyterian Church will be the guests of the St. Thomas Auxiliary, Thursday evening, May 7, at 8 o'clock, advanced time. This meeting will be in conjunction with the Farewell Reception to the Rev. R. W. Mathews.

LEGION POSTS OF COUNTY HOLD JOINT MEETING

(Continued from Page 1.)

preparedness. He said that he wanted friendly relations with the world, but "We must not forget the sacrifices of our forefathers which resulted from unpreparedness. The experience of the past must be the guide posts for the future in the matter of foreign relations," he said.

The meeting was opened by Commander Conrad Lewis, of the Lt. J. Allison O'Daniel Post of Newark, who greeted briefly the guests present.

Mayor Frank Collins welcomed the visitors to Newark. State Commander S. B. I. Duncan spoke briefly. He announced and invited those interested to attend, the "Army Day" to be held in the afternoon of July 4 at Fort du Pont.

Dr. Walter Hullahen, President of the University, spoke briefly on the Foreign Study Group of the University which is instrumental in fostering a feeling of international good will and understanding.

Former Congressman William H. Heald of Wilmington, a member of the Board of Trustees of the University, spoke on the importance of foreign relations in the modern economic and diplomatic world.

Mrs. William C. Speakman, of Wilmington, Auxiliary Fidae chairman, told what the women of the auxiliary are doing and the interest they are taking in Legion affairs.

County Posts participating were The Robert L. Taylor Post, No. 13, of Delaware city, Dr. Walter W. Ellis, Commander; New Castle Post, No. 4, Alexander Gallagher, Commander; and the J. Allison O'Daniel Post, No. 10, of Newark.

Following the meeting the members of the Auxiliary entertained at a supper.

U. OF D. GOLF TEAM SHOWS SKILL IN FACULTY MATCHES

The University of Delaware varsity golf team is showing good form in the Faculty-Student match and the match among the members of the team. The latter match is being sponsored by Dr. W. Owen Sypherd, the faculty adviser and coach of the varsity team. The winner of this match will receive two golf balls and the winner of the defeated four one golf ball donated by Dr. Sypherd. This will give the team needed experience in match play.

The score of the Faculty-Student match up to date is, Faculty, 6, Students, 7. The result of the match among the members of the team up to date follows: Lewis defeated Ward, 5 and 3; Captain Pic defeated Benton, 5 and 3; Williams defeated Leahy, 4 and 3; and Tipka defeated Crooks 2 up. The winners of the match Lewis vs. Pic and Williams vs. Tipka will play off for honors while Ward vs. Benton and Leahy vs. Crooks, will play off for winner of the defeated four.

BURGLARS TAKE FUR COAT FROM HOME OF MRS. DUFFY

Thieves broke into the home of Mr. and Mrs. G. W. Duffy at 338 Academy street some time Tuesday night or early Wednesday morning and stole a fur coat valued at \$250. Entrance was gained by forcing a window in the front of the house, and the robbers were evidently undisturbed while in the house, as they ransacked it thoroughly before they left.

STANTON P. T. A.

The Kitchen Cabinet Orchestra program given for the Parent-Teacher Association in the Odd Fellows' Hall, Stanton, netted \$40.25. This fund will be used for the school rooms.

The P. T. A. of Stanton School has presented to the school the World Books. The set consists of twelve books and one teacher's directory.

INTERSCHOLASTIC TRACK AND FIELD MEET

To Be Held On Frazer Field This Saturday

(Continued from Page 1.)

while Charlie Rogers, coach of track at Delaware, will be director of track events, and Edward Barco, director of field events.

Professors Wade, Daugherty and Goodwin, Lieutenant Jolls, Dr. Eastman and other members of the faculty of the University of Delaware, who are interested in the sport and who have been of assistance to Delaware teams will be among the other officials.

The Inter-Fraternity relay will as usual be the feature event outside of those of the interscholastic program.

Graduate Manager Doherty has announced the following rules to govern the meet which is of great importance to every school having an entry:

An entry fee of 25 cents per man will be charged for each event entered. Only three entries allowed in each event, except Relay races, six entries, \$1.

In the event that trial heats are held, only those contestants shall be allowed to run in the final heat that have qualified in the trial heats.

A round baton of solid wood, ten inches long by one and a quarter inches in diameter, shall be carried by each contestant in the Relay races. Batons will be furnished by the management.

The events will be contested in the order in which they appear on the program. Only one call will be made

for contestants to appear at their marks.

Managers of teams on arriving at Newark should report immediately to the Gymnasium, where they will receive their contestants' numbers. Contestants must wear their numbers. Numbers must be securely fastened and no contestant will be allowed to compete unless his number is plainly visible.

Professors, coaches, substitutes and managers will not be allowed on the field. Contestants, whether they are dressed in contestants' uniform or not, will not be allowed on the field except when actually competing. A section of the terrace at the rear of the gymnasium will be reserved for contestants and attendants.

The dressing room, shower bath, and swimming pool in the gymnasium will be open to contestants.

Entries or changes of entries received later than April 25, 6 p. m., will positively not be recognized.

At the close of each event contestants finishing first, second, or third will be given cards entitling them to prizes.

W. C. D. ALUMNAE TO GIVE DINNER PARTY MAY 18

The Wilmington Chapter of the W. C. D. Alumnae has invited all members and those eligible to be members of the Newark Chapter of the Alumnae to a dinner party at the Brinton Lake Country Club, on Monday evening, May 18, at 6:30, Daylight Time. If you plan to attend, notify Mrs. F. Allyn Cooch, Jr., not later than May 4th.

The meeting of the Newark Chapter has been postponed until May 25, and will be at the home of Mrs. Francis Lidell.

NEWARK SCHOOL NOTES

Written by Students of the Newark School

A New Project Under Foot

Our Journalism Committee has written letters to nearly all the High Schools throughout the state requesting that they cooperate with us in a project we have undertaken. The aim of this project is to enable us to put out a paper that will interest our readers more, and that will be on a par with the standards of other schools of our state. We already know that our paper is smaller than several other High School papers of the state. Consequently, we know that we must be letting important news items of our school go by without any mention in our paper. This fault must be corrected.

Two ways of remedying this are found in a more rigid canvassing program, and an exchange of ideas with other schools. (This is our new project.) We hope this undertaking won't be a one-sided bargain in our favor. An interchange of High School papers should promote a friendly scholastic feeling between schools, and make each student feel that all schools of the state are his near neighbors.

Besides knowing the accomplishments of the Journalism staffs of other schools we will be constantly in touch with the work and activities of these schools. The aim of the editor and staff of any paper is to interest the reader more, and through this channel to improve the paper. A suggestion for the improvement of our paper was printed in an issue of about two weeks ago. We found the aim that it suggested for a news item worth striving for. Any news of general interest that happens in connection with our school should be reported to our Journalism staff. Assistance of this sort will be appreciated since we are trying to see just how efficient our paper can become before the end of this school year.

Assembly—April 23

We did not realize how much musical talent we had in "Old Newark" until today in assembly. First of all, Alice Sheldon played "Meditations." Then a trio, Alice Sullivan, Sarah White, and Nannie Cox, sang "Spin, Maiden, Spin." Alice Sullivan, Nannie Cox, Percy Roberts, and John Cooper, a quartette, sang "All Through the Night." These people are to be entered in the State Music Contest at Dover, on Saturday, April 25th. We are sure Newark will come out on top if they do half as well at Dover as they did in Assembly.

B. Kirk, '32.

April 28

Say Everybody You just can't miss the Senior Play It's needless to mention that it will be presented on Thursday evening, April 30, at the State Theatre, and that the name of it is "Nothing But the Truth." The Seniors gave a small part of it in assembly this morning and all the spectators agree that it is going to be great. The characters are all suited to their parts so well that I'm sure it will be a success. We can be certain that everyone is going to enjoy it.

B. Kirk, '32

Music Contest Held at Dover Described by Contestant

On Saturday, April twenty-fifth, a music contest was held at Dover, Delaware.

Newark High School entered a piano soloists, Miss Alice Sheldon; a vocal soloist, Miss Sara White; a girls' trio, Misses Sara White, Nannie Cox, and Alice Sullivan; and a mixed quartette by Misses Nannie Cox, Alice Sullivan, Mr. John Cooper, and Mr. Percy Roberts.

On arriving in Dover, we went to the Dover School to register. From there, we proceeded to Murphy Hall, where the contest was held.

Due to the change in place at such a late date, many contestants did not arrive on time.

After much flourishing and tuning of instruments, the contest began with a cornet solo. Six minutes were allowed for each piece, vocal and instrumental, except the piano solos, and there were allowed ten minutes. Miss White sang very nicely and Miss Sheldon played with grace and talent. I cannot comment upon the trio and quartette, having participated in them myself.

We had a very pleasant time even if it did rain. A session was held in the afternoon for any one who wished to hear the judges' comments on the contest of the morning.

Alice Sullivan, '32.

The Senate Meets

The last meeting was called to order by Grover Suratt. The first bill brought up for discussion was that a period for making up work after school for those who couldn't appear at the library noon time. After comments from the floor the bill was passed by a vote of 5 to 1. The next bill was that of having the prices of base ball games reduced to ten and twenty-five cents for students and outsiders, respectively. This bill was passed unanimously. A bill following providing for the sale of stickers. This bill was passed after comment had been made. The last bill that came up stated that a letter be given to every member winning a place in the track. This bill was also passed. These bills

were submitted to Mr. Brinsler for approval. Randolph Eastburn, '32.

A Spring Sunrise

'Twas early dawn,
A hazy mist marked the creek's path
around the meadow,
And pressed against the hill that rose
crest on crest to meet the morning.
The sun came unannounced, no rays
preceding,
Just a large orange disk against the
morning sky.
A thin row of bare-limbed trees
marked the horizon—
Beyond this, nothing; our world had
ending there,
And, out of this beyond, our sun came.
Its ascent was rapid
As marked against the stark-standing
trees.
Then it rose above them, and seemed
to step out into the sky.
All things took shape and color,
The sky was blue—pure azure,
And the hill sloped off into a free-
flowing stream.
Day had broken!

Vernona Chalmers.

Tea Served by Home Economics Class

The Home Economics Class of sophomore girls entertained, in the Home Economics room, members of the faculty, and parents of girls in Grades 8, 9, and 10 at tea, Tuesday from 2:30 until 4:30.

One hundred and thirty invitations were issued. Many mothers and members of the faculty participated to make the tea a success. The girls worked very hard in preparation for the tea as it is one of our assigned duties which are completed in the sophomore year.

The tea was served in the clothing room. The table was attractively arranged, and the color scheme of green and yellow was carried out by the use of yellow narcissus, green candles, and tea-cakes decorated with green and yellow icings.

Members of the Home Economics class who assisted in the tea were: Dorothy West, Ruth Peel, Doris Strahorn, Margaret Grier, Dorothy Dawson, Ruth Marritz, Betty Heiser, Florence Johnson, Louise Ward, and Elizabeth Hall.

Margaret Grier, '33.

The Sophomore Party

Although news of the Sophomore Party may be "stale" news, all are interested in the proceeds made from this "big success." After the expenses were deducted, our class had a profit of about twenty dollars.

These results have been very satisfactory to members of the sophomore class, as we are saving for the Prom to be held by sophomores next year.

The finance committee, decoration, entertainment, and refreshment committees should be praised for their excellent work, which resulted in one of the most successful parties of the year.

Margaret Grier, '33.

A Heavy Sea

The Ordinary Seaman knocked on the Chief Officer's door, but receiving no reply, opened the door and walked into the room. The Chief was giving his interpretation of "Il Trovatore" on his musical saw, while he slept. It

took two or three shakings before the Chief rolled over and peered at the Ordinary Seaman out of one eye. "One bell, sir." "Twenty minutes of four, sir." "Whassat?" "Blowing a gale and getting colder, sir. You'll need your slicker, sir; she's shipping heavy seas most of the time." "Awri. Shutadoorasyuhgout." As the Chief got to his feet, while yet half asleep, a fierce lurch of the ship threw him against the bulkhead—very effectually waking him up. He communed with his Maker in simple seaman-like manner as he dressed with great speed, continuing his talk all the while. He climbed up the lee ladder at eight bells, but not hearing the Second Mate's usual cheery, "Good morning," bellowed, "Wherein-oll are you, Mr. Johnson?" "Out here on the bridge, sir. Can't see a thing through the wheel-house windows, they're so full of ice. It's that dark, I can't see my hand in front of my face. Watch yourself! Duck!"

As he spoke, a volley of spray drenched the pair—to the accompaniment of the Chief's swearing. Mr. Johnson grinned; he would soon be in his own bunk. "She's half-speed now, heading the sea," he said. "The Old Man pulled her up about four bells. She was pounding, but she's better now. An occasional heavy sea does damage. One of 'em washed away the Old Man's boat and smashed it against the bulkhead. Harry had to throw it over the side—no good." "How's the course," asked the chief?

"Course is 231, but you had better keep heading her into the sea until it moderates. Boy, it sure is cold! Joe says the temperature is 23. I'll have to thaw my hands now and write up the log. G'n'ight!" Left to his own devices, the Chief immediately took in the situation as best he could. Cold enough to freeze an Eskimo; seas high enough to scare a Norwegian; and water, well, there was enough water coming over the fore'sle to drown a whale. Ouch, there goes one of the booms for No. 2 hatch.

"Joe, I'll take the wheel. You go down and tell the Bos'n to lash the starboard boom of No. 2 batch, and lively's the word." "What a wind!" muttered the chief officer. Those landlubbers that rave about the feel of salt spray on

their faces ought to feel it in front of a seventy-mile gale. If anyone asks me I'll tell 'em to go fan themselves with a salt herring—it is much safer. Whee-ee, here we go to the top floor in the elevator! What, are we going down so soon—without letting me off? Well, well! "Hey, you! Say, watinell are you doing out in this weather, and so early in the morning? What would your stepmother say if she knew you were out?"

If the passenger's eyes could kill, the Chief would have died on the spot. Instead, "I have no stepmother, and anyway how can a fellow sleep?" "You're right. Lord help the poor homeless Armenians on a night like this," remarked the Chief as the passenger climbed slowly and carefully down the ladder to the saloon. In a few moments, Joe returned to take the wheel again.

"Give her still another point to starboard, Joe. Sing out if she's not steering." "Yes, sir," replied Joe, as he braced himself more firmly, the better to wrestle with the wheel. The Chief was outside on the bridge peering squinty-eyed into the black mass ahead of him, and cursing every time a wave inundated him. The fo'c'sle could be dimly seen now, as the darkness began to give way to dawn and a shade of light appeared in the east. Almost frozen, the Chief stepped inside to warm himself a bit. Hardly had he stepped inside and closed the door when Joe called, "She's falling off, sir."

Are You Suffering On PILES?

IF PILES DRIVE YOU MAD!

About one person out of five suffers from some disease or other of the large intestine. Many of them suffer acute pain for years and are in misery because of piles and are satisfied to secure occasional relief by using some remedy or other. But these remedies do not help. For those who suffer from piles, time is too costly to waste experimenting with untimely methods. A tried and proven method of curing piles, fistula, itching piles, fissure, abscesses, abdominal wounds and constipation is the use of

JESUS IN THE HOME OF ZACCHAEUS

Lesson Text—Luke 19:1-10.
Golden Text—For the Son of Man came to seek and to save that which was lost.
Primary Topic—Jesus Makes a Friend.
Intermediate and Senior Topic—Jesus Makes Zacchaeus a New Life.
Junior, High School and Adult Topic—Repentance and Restoration.

Jesus Passing Through Jericho

Jericho is noted as a stronghold of the Canaanites which was miraculously destroyed into the hands of Israel in response to their faith. Joshua 6. The city was destroyed with the walls and towers from destruction with the sword. (11:31). Two notorious sinners, Rahab and Zacchaeus, were saved at Jericho.

Newark School Notes

(Continued from Page 6.)

Silently the Chief rang for "fall speed ahead," and tensely waited for the ship to respond. Watching and waiting, he saw a mile of seething sea-mountains rushing down from windward, accompanied by the dismal howling of the wind. The change in angle which these mountainous seas made with the mast, made unnecessary Joe's—"She is still falling off, sir."

Then it happened! The ship seemed to be engulfed by the sea. Wire coils, hatches, and ventilators disappeared. The booms were all swaying to and fro aimlessly, or scraping the deck in time to the sway of the ship. The ship stopped as though stunned from the terrible blow.

The Chief was at the wheel in one leap. Pushing Joe to one side, he grasped the wheel and spun her hard over. No time for orders now—they might be misunderstood and disaster would be the result. Over with the helm, and a prayer through set teeth that the ship would respond. He shouted to Joe, "Call all hands!"

"All hands" indeed! The call even necessary. They were all scrambling out of the covers where they were thrown to the deck by the lurch and sway of the ship. In a short time all were ready, and as Joe opened the sea door, he was met by the crew. "All hands" were called and the group went for'ard across the after-well-deck. Approaching the fore part of amidships they saw that the Captain was in charge and was unconcerned as any man looking over still waters.

The Chief led the Bos'n and his men for'ard to the for'ard-well-deck where a slip meant certain death. The sea was venting its fury over the scuppers. The men looked like drowned rats when the water cleared away, but every man had been through a like experience before and knew just what was required of them. Spare hatches were quickly placed where the other ones had been. Tar-

paulins tugged and pulled in the blasts of wind from over the side, as though they were anxious to be free. Many times the task of tucking in the tarpaulin would be almost finished when the sea would come over the side and wash it away, as the wind whistled shrilly in glee over the havoc that was being wrought. Strong determination and a long time were necessary before the hatches were all battened down and the ventilators were covered.

"Shout, boys, curse and swear," the Chief tells his men. "The Recording Angel can't hear you in this infernal blast. Besides, it'll help you all to work better."

A man was sent for'ard to start the storm oil running as the booms are being lashed. Sometimes the boom swept the men off their feet as though they were ten pins; sometimes they rode back and forth as a wave washed over the side and then disappeared. By ten o'clock, everything was in as good condition as possible.

"All right men, breakfast, everybody—if the cook has been able to get anything ready," the Chief tells the men.

Suddenly very weary, he slowly climbs the companion ladder to the bridge and reports: "All secure, sir. I've sent the men to breakfast, but I'll go aft to the steering engine room and have a look at the steering gear while the steward is hurrying breakfast along."

Percival R. Roberts, Jr., '32.

Mermaid

Harmony Grange, No. 12, planned for several future activities at the weekly meeting on Monday evening in the Grange Hall.

Next Monday at 7:45 o'clock, standing time, a three-act play, "The Girl in the Fur Coat," given by the Epworth League of Marshallton M. E. Church, under the direction of Mrs. Oliver Collins, will be presented in the hall for the benefit of the Grange. The play will take the place of the regular weekly business meeting.

PROF. A. G. PHILIPS

HOW TO TREAT COCCIDIOSIS

By Prof. A. G. Philips

Coccidiosis is one of the most common and most dangerous chick diseases, and is most serious in flocks of

chicks between the ages of 4 and 8 weeks. It is found in chick flocks from 3 weeks of age to maturity and the disastrous effects are noticeable in many laying flocks. Usually, only a few of the older birds are affected, when it causes lameness and paralysis.

In chicks, the organisms develop in the walls of the ceca. The walls become thickened and usually are enlarged, containing enough blood to give them a reddish appearance. Frequently, a mass of grayish or yellowish cheesy material is present.

While many treatments for coccidiosis have been suggested, the milk treatment has stood the test of time and is still the favorite of practical poultrymen. Either the liquid, condensed, or dried milk may be used.

If the liquid skimmed milk or buttermilk treatment is followed, keep the milk before the chicks all the time in sanitary containers. Semi-solid buttermilk, after being diluted with water, may be used in the same way as the regular liquid milk. Usually the milk treatment is not necessary for a period longer than 10 to 14 days.

In feeding dried buttermilk or dried skim milk with a commercial mash, mix 30 pounds with 100 pounds of mash. Feed this mixture for 10 to 14 days after the presence of the disease is discovered in the flock, keeping the mixture constantly before the chicks in hoppers.

Do not feed scratch grains, but water and green feed should be fed. Discontinue adding the buttermilk as soon as the disease disappears.

When outbreaks of coccidiosis occur, strict sanitation must be practiced. Confine the chicks to the house when soil sanitation cannot be practiced. Clean the litter each morning. If this is not possible, the litter should be changed at least twice each week. To avoid danger of carrying the parasites into the house through the shoes, rubbers or overshoes should be provided and kept for that purpose.

The lecturer, Mrs. Edward Springer, announced the national grange highway safety essay contest opening this week and closing June 1. Only the members between 14 and 18 years of age, are eligible to enter the contest.

The literary program consisted of singing "Tis Springtime," by the grange; a recitation, "What a Laugh is" by Mrs. Leonard Nelson, a budget box by Mrs. L. Johnston, a talk on "The Education of Today," by Albert O. Humphreys, and an auto contest led by Miss Emilie Mitchell. The New Castle County pomona master, Eugene H. Woodward, told members of the annual county field day to be held on August 6.

The Hookkessin Branch of the Needlework Guild of America will be represented today at the annual meeting of the National Guild in the Bellevue-Stratford Hotel, Philadelphia, by Miss Emilie Mitchell, the local president, Mrs. Norman Mancill, Mrs. Henry B. McVaugh, Mrs. John Rubenrume, the delegates.

Miss Ruth A. Ball is spending this week as the guest of her cousin, Miss Betty Propert, at her home in Germantown, Pa.

P. T. A. NEWS

Miss Lillian T. Merrick presented the Howard Pyle material at the April meeting of the Middletown Parent-Teacher Association, stressing the point that parents and teachers must learn to observe genius and do nothing to inhibit its development. A collection of Mr. Pyle's books and pictures was on display. School work in Art and Manual Training was explained by Mrs. Helen Wright and Harry Labour, instructors.

First Grade boys and girls sang and danced under the direction of Miss Laura B. Kennerly and Mrs. Clara U. Reynolds. Three boys played a couple of cornet selections.

The proceeds of "O, Doctor!" which the association is sponsoring, will be used to purchase additional stage equipment.

Miss M. Phyllis Mason talked about her European trip at a recent meeting of Oak Grove (Elsmere) Parent-Teacher Association. Earl Keller read the Howard Pyle paper discussed in this column last week. Art work on exhibition was explained by Miss Madge Rickards. The School Choir sang several selections. This association of 142 members has a good balance in the treasury, but is continuing its money raising activities.

Mrs. Edna Dukes led the discussion of the Howard Pyle material at the April meeting of Taylor's Bridge Parent-Teacher Association. The school children and the Edgewood Trio entertained. Ice cream was served to more than 100 people. Taylor's Bridge with 90 members has an unusually strong association for a one-teacher school.

Hillside Parent-Teacher Association elected the following officers, April 23, at a meeting conducted by Vice-President Ralph R. Kee: President, Miss Carolyn M. Burbage; vice-president, Miss Edna B. Lamborn; secretary, Miss Esther Hendrickson; treasurer, Miss Elva Davis.

Miss Esther Hendrickson presented the Howard Pyle paper mentioned above. The association voted to hold a benefit bingo party, May 12.

At the April meeting of Ebenezer-C. Parent-Teacher Association, Miss Portia E. Loper read some poetry written by her Sixth Grade pupils.

FORD RELIABILITY

THE FORD TUDOR SEDAN

Long, hard use shows the value of good materials and simplicity of design

EVERYWHERE you go you hear reports of the good performance and reliability of the Ford.

One owner writes—"The Ford Tudor Sedan I am driving has covered 59,300 miles through all kinds of weather. It is still giving perfect satisfaction."

Another owner describes a trip of 3217 miles in 95 hours over bad roads and through heavy rain and sleet in the mountains. "Throughout the entire trip," he writes, "the Ford performed excellently and no mechanical trouble of any kind was experienced. The shatter-proof glass undoubtedly saved us from serious injury when a prairie chicken struck the windshield while we were traveling at 65 miles an hour."

See the nearest dealer and have him give you a demonstration ride in the Ford. Then, from your own personal experience, you will know that it brings you everything you want or need in a motor car at an unusually low price.

LOW FORD PRICES

\$430 to \$630

(F. o. b. Detroit, plus freight and delivery. Bumpers and spare tire extra at low cost. You can buy a Ford for a small down payment, on economical monthly terms, through the Authorized Ford Finance Plans of the Universal Credit Company.)

THREE PLANES PLAN AIR RACE AROUND THE WORLD THIS YEAR; ONE PLANE WILL BE A BELLANCA

Ambitious Plans for This Spring and Summer Include Possibility of Another Lindbergh Feat; Round-the-World in Eight Days is Goal

Four modern Magellans, aviators all, are to attempt this spring and summer to stretch new wings around the world.

Theirs are the most ambitious prospects of the 1931 flying season.

Wiley Post, Oklahoma City pilot, will try to slash the zero from the 80-day record of Jules Verne's mythical globe-trotter Phineas Fogg. The others have no set goal but to lower the Graf Zeppelin's world-girdling mark of 20 days and four hours.

Post, using the Lockheed monoplane with which he won the nonstop Pacific derby of the 1930 national air races, will be accompanied by Harold Gatty, 28, Australian trained navigator, who was with Harold Bromley in an attempted Tokyo-Tacoma flight last year.

Their rivals will be John Henry Mears, out to recapture the record he has twice held, with Vance Breese as pilot; Clyde E. Pangborn, Seattle, with Hugh Herndon, Jr., son of a New York investment banker; and Bernt Balchen, Norse-American flier of trans-Atlantic and South Pole fame.

Mears set a record of 35 days, 21 hours, 36 minutes in 1913 and 15 years later, with the late Captain C. B. D. Collyer, encompassed the globe by plane and steamer in 23 days, 15 hours, 21 minutes, 3 seconds.

Last August, with Henry J. Brown as pilot, he left New York on an all-air venture which ended in the crash of their loaded plane as it was taking off for the Atlantic flight from Harbor Grace, Newfoundland.

His newest craft, third to bear the name City of New York, will be another streamlined Lockheed. Breese, who will be at the controls, is a test pilot for the Detroit Aircraft Corporation.

Pangborn, a veteran air circus pilot, and Herndon, a wealthy aviation enthusiast, will fly a single-motored Bellanca J-6. They have been schooled in aerial navigation by Captain Lewis A. Yancey, who flew the Atlantic in 1929 with Roger Q. Williams.

Balchen's plans are the least known. He announced in January that he would attempt a round-the-world flight in a Fokker plane, probably in April, but has revealed nothing further.

The other three pairs of fliers plan to follow similar routes, going eastward across the Atlantic, spanning the Eastern Hemisphere by way of Berlin and Moscow and Siberia, and striking the United States at Seattle for the return to their places of departure.

Included among other projects aeronautical are completion of the American trip of Germany's monster flying boat, DO-X; probable visit of

the Graf Zeppelin to Egypt and the Holy Land and an indefinite exploration of the Arctic; monthly airmail flights from Africa to Brazil for French Aeropostale, by Jean Mermoz; and an attempted non-stop flight from Bucharest to Cape Town, Africa, by the Rumanian prince Jean Ghica.

An aerial tour of South America by Colonel and Mrs. Charles A. Lindbergh may materialize after their high-speed monoplane has been tested with a new wing and retractable landing gear.

COW TESTING GROUP ATTENDS ANNUAL MEETING

Over thirty-five members and friends of the New Castle County Cow Testing Association attended the second annual meeting and tour of the organization held April 23. Three herds were visited on the tour which started at 10:30 a. m., with the meeting and lunch in Harmony Grange Hall, on the Limestone Road, completing the day's events.

Officers elected at the meeting for the year April 1 to March 31, 1932, were: Paul Mitchell, Hockessin, president; J. R. Danks, Winterthur, secretary-treasurer; and the three directors, Harold Little, Newark; Levis Phipps, Centerville; and Wilson Price, Bear.

Speakers at the annual meeting were: C. A. McCue, Director of Extension; A. D. Cobb, Assistant Director of Extension; Professor T. A. Baker, all of Newark; J. E. Dorman, of the United States Department of Agriculture, Washington, D. C.; and Wilson Price, Bear, Delaware.

Inspecting about 10:30 a. m. of Mr.

Price's Jersey herd near Glasgow, which led the association this year with an average of 425 pounds of butterfat per cow, was followed by a stop near Milford Cross Roads to visit the farm and Holstein herd of T. Harold Little. Mr. Little's herd is made up of closely related individuals with one or two cows the foundation stock. At North Star the Jersey herd of J. Howard Mitchell & Sons was inspected, after which the tourists moved to Harmony Grange Hall where the ladies of this grange served lunch.

The annual business meeting with election of officers, and speeches were held in the hall following the lunch.

BAKE SALE SATURDAY

The senior section of the Ladies' Auxiliary of the Veterans of Foreign Wars will hold a bake this Saturday, on the veranda of the Old Opera House, next to Hopkins store, starting at 10 o'clock, Daylight Saving Time. All kinds of pastry, pies and cake will be for sale.

YOUR "LIVE-AT-HOME" GARDEN SHOULD HAVE LEAFY GREENS

Saturday-a-week was the first day of spring and folks throughout the state are thinking of and planning for their gardens, says Miss Pearl MacDonald, of the Extension Service, University of Delaware.

During this year of limited food supply due to the drought and lack of money to buy shipped-in foods, many families would have fared better if they had had even a few home canned or stored vegetables from a home garden.

And so, the Extension Service in the various states, continues Miss MacDonald, is urging families to make this a "live-at-home" year. Every family that can possibly arrange for a plot of ground can "live-at-home" by having a home vegetable garden to provide food while jobs and money are scarce.

The garden will be a source of inexpensive food supply. The members of the family—adults and children—can help with the gardening. It is estimated by the U. S. Department of Agriculture that seed and fertilizer for a garden to supply vegetables to

a family of from five to eight persons will cost in the neighborhood of from 8 to 10 dollars. Such a garden would yield some surplus for canning and storing for winter use.

To use more vegetables in the daily diet is in accord with the recommendations of our best authorities in Nutrition and Health.

Vegetables owe their importance, from a nutrition standpoint to three food needs which they supply in the daily diet; namely, vitamins, minerals and "roughage." "Roughage" refers to the woody matter or fiber in fruits and vegetables which supplies bulk or ballast in the food mass and helps to prevent constipation.

Minerals are needed for growth of bones, teeth, muscles and other tissues.

They aid in the digestion and use of foods and in the elimination of wastes and in maintaining general well-being. Greens are the best iron tonic and, with the exception of milk, furnish more lime than any other class of foods.

Vitamins are substances found in very small amounts in natural food materials. They are needed for growth and to maintain general good health. Various diseases such as scurvy, pellagra, rickets (in young children), susceptibility to infections, result from a lack of vitamins in the diet.

If any person would like help as to what to plant, when to plant, succession of plantings, fertilizing, insect control, write to the Extension Serv-

ice of the University or to the County Agricultural Agent or Home Demonstration Agent and they will be glad to give you such information.

COPELAND

ALL MACHINERY IS LOCKED UP

One of the many worthwhile features about the new Copeland models is the fact that the mechanism compartment of all household models is provided with lock and key. . . The housewife enjoys the comfortable assurance that children, servants or other unauthorized persons cannot tamper with the refrigerator mechanism, to its detriment or their own injury. Yet the unit is readily accessible if access is ever required. . . The Lock Mechanism Compartment is evidence of the care employed in designing the new Copelands, and you will find the same painstaking effort apparent all through the Copeland line. We invite you to call at your nearest convenience, and see for yourself.
