VETERANS TO GIVE AID FOR DEFENSE

Registration Of Home Forces To Be Made Here On Saturday

The present survey of civilian defense functions in modern warfare being made in England by an American Legion mission is directly connected with the voluntary national defense registration of the nation's 1,078,118 Legionnaires and thousands of unaffiliated World War veterans, it was pointed out today by Commander William Floyd Jackson, head of the J. Allison O'Daniel Post No. 10, Registration is scheduled for Saturday.

Commander Jackson said that the Legion mission is studying civilian defense programs, particularly the development of aircraft warning and air raid precautionary services. It will also investigate the emergency services being rendered by members of the British Legion.

"The American Legion," according to Mr. Jackson, "has already been called upon to contribute volunteers in a number of major army maneuvers for aircraft warning services. Only last month, more than 2,000 Legionnaires served in such capacity in the New York City area."

"Activities in the field of aircraft warning will be carried on by the American Legion in close cooperation and coordination with the officials of the national defense establishments. An air raid precautionary service, however, will be primarily an American Legion activity but worked out with the cooperation of all citizens within the community who are not eligible for military service."

"Of course, the Legion will help and is now helping the government in many other ways in preparing the nation for total defense," he pointed out. "That is one reason for our voluntary registration of our Legionnaires and veterans."

We want to have a complete index of the qualifications of all our members so that we can place this information in readily available manner at the disposal of the federal, state, and local governments."

BEAUX ARTS BALL TO BE HELD MAY 3

Circus Theme Chosen For This Year's Affair

The Beaux Arts Ball committee, headed by Richard E. Ryan, has announced that this year's affair will be held at the Newark Country Club, Saturday evening, May 3. The Grand March is scheduled to begin at 9 p. m., sharp.

Since May is the customary month for the circus to come to town, the University Drama Group's 1941 edition of the Beaux Arts Ball will feature, appropriately enough, the circus as its theme. Such a theme, it is felt, should furnish ample inspiration for novelty and originality in costumes, decorations, and entertainment. Furthermore, it was the unanimous vote of the committee that, in view of the depressing tone of world events, all serious subjects are being shelved in favor of a truly gala theme for the increasingly popular ball.

Already plans are well under way, and this year's dance promises to be the gayest one yet. In addition to the chairman, the following committee chairmen have been appointed: Music, Mrs. Paul K. Musselman; entertainment, G. Taggart Evans and Almer A. Reiff; refreshments, Mrs. Edward M. Schoenborn; tickets, Mrs. J. Pearce Cann; prizes, Mrs. C. Robert Kase; costumes, Mrs. L. Parker Thomas; publicity, Mrs. Joseph A. Shields, and decorations, Miss Betty Childs.

HOME IS DESTROYED BY FLAMES TUESDAY

Damage Listed At \$3,000; Local Firemen Kept Busy By Calls

Members of the Aetna Hose, Hook and Ladder Company were called to three fires this week as flames destroyed one home, and badly damaged another. The third call was for a harmless field fire which was checked without damage.

The home of Harry Lee, of near Appleton, Md., was practically gutted on Tuesday afternoon when fire, started by either sparks from the chimney or a defective flu, was fanned by a high wind. Members of the local and Elkton, Md. companies answered the alarm and pumped water from a small stream nearby, but were unable to check the flames although most of the furniture and personal possessions were saved.

Newark fire-fighters were guided to the scene of the fire by a U. S. Army aeroplane which circled the burning home three times before proceeding on its way. Damage was estimated at approximately \$3,000.

A farm house on the Chambers Rock Farm, near Thompson's Bridge, owned by Robert Folwell, was damaged by fire early Wednesday morning when flames broke out in the kitchen.

Although an alarm was turned in, residents succeeded in extinguishing the fire before the local company's engines arrived. Damage was estimated at about \$200.

The field fire, started behind the Danita Hosiery Mill, South Chapel Street, was started by burning rubbish and was checked before any damage resulted.

SUPPORT GIVEN CONTEST

National Head Praises Response

In response to Delaware's entry in the national contest entitled, "Making Home a Hobby," Dr. Josephine L. Pierce, national chairman for the Department of the American Home of the General Federation of Women's Clubs, has written that "It certainly looks as if Delaware is going to go 100 per cent in the 'Hobby Day' contest. There will be a cash award to the winning state and while the money prize will be of interest, of course, the honor will be even greater."

The contest's first place award will be made on the afternoon of May 20 at the Golden Jubilee Convention to be held in Atlantic City.

The "Making Home a Hobby" contest is actually a series of community projects sponsored by all of the Delaware Federated Club women through their 35 local American Home chairmen. The general public is invited to the county meetings, scheduled for the New Century Club houses at Georgetown on March 25, at Wilmington on March 26, and at Dover on March 27.

A hobby show will be one of the most

interesting features of each meeting, reports Mrs. Helen McKinley, state chairman for American Homes, who is directing the activities of the contest in cooperation with the three county chairmen—Mrs. Arthur H. Wilkins, New Castle County; Mrs. Laurence L. Fitchett, Kent County, and Mrs. H. B.

Adams, Sussex County. Any county resident, whether a club member or not, may exhibit a hobby. Each meeting's hobby show may be viewed during the lunch hour and at the close of the program.

Programs will differ somewhat for each county meeting although the same

general plan must be followed in order to be eligible for competition in a national contest.

"Much enthusiasm," states Mrs. McKinley, "has been aroused among the club members over this project and this state-wide enthusiasm practically insures its success."

COSSACKS CHORUS IS PRAISED FOR WORK

Program Is Last In Series Of Concerts Given Here

By Anjay Tonell

An enthusiastic response on the part of a large audience characterized the concert given by the Don Cossacks Chorus at Mitchell Hall last Thursday. The choral music, predominately Russian in quality, gave one an insight into a realm of choral literature which is frequently heard. Then too, the music with its distinctive color, needed such a group as the Don Cossacks to convey the embodied emotional qualities. The sacred numbers, for instance, could not be done well excepting by such a group which, in background, temperament, etc., understands and feels the intensity of the type of religious expressions identified with the Russian Church.

The humorous numbers were done with a buoyancy of spirit and vigor. The audience found itself sharing in the fun so definitely emanating from the group.

Mr. Jaroff directed with the authority which comes with a thorough understanding of the men and materials with which he works.

This was the final concert of the series provided by the Newark Community Concert Association for the present year. The unanimous opinion of all subscribers to the series is that it was a worthwhile project. It has brought to the community a type of artistic performance which could not be available excepting for such an organization as this. Those responsible for its coming into being in Newark deserve the thanks of the community, of the university faculty, and student body.

A membership drive will be launched in the fall for a concert series to be offered in 1941-42. With the nucleus of the present association membership to begin with, it is the hope of the committee that at least 300 new members can be added to the association. With this possible increase, a series of four concerts instead of three could be offered.

James O'Donovan of St. Louis willed to his aunt a pipe which she had many times scolded him for using.

CHRISTIANA RED CROSS ACTIVE

Group Also Forms At Bear Station

At the end of about ten weeks of active service, the Christiana Chapter of the American Red Cross announces an impressive total of 602 separate garments completed. According to Miss Elizabeth Webber, chairman of the group, the production work since the formation of the chapter has been as follows: 22 girls' sweaters, 2 men's sweaters, 2 beanies, 32 helmets, 5 suits of pajamas, 362 diapers, 65 dresses, 119

baby gowns, 36 blankets, 9 baby socks, and 8 girls' skirts. This sewing and knitting was all accomplished between Nov. 22, 1940, and Feb. 1, 1941. Eleven service kits have also been furnished.

Much interest has been aroused in Red Cross war work by the establishment of a new knitting and sewing group at Bear Station, a town which is included in the Christiana Red Cross District. Mrs. Clarence Highfield has been named chairman of the Bear Pro-

duction Unit of the Christiana Branch. The movement in Bear started with the interest of members of the Home Demonstration Club of that vicinity in assisting in the program of British war relief. However, all interested persons are requested to volunteer their services. Meetings will be held on Tuesday afternoons at the home of Mrs. Highfield, where the Bear Station Red

Cross Headquarters will be located. Mrs. Leroy Hawthorne, knitting chairman of the Christiana group, met with the Bear club at the home of Mrs. William Appleby on Monday of last week. On Tuesday she attended the meeting of the Glasgow group at the home of Mrs. Leslie Ford. As another indication of the town's interest in Red Cross work, Franklin T.

Holt, director of First Aid and Life Saving in the Delaware Chapter of the American Red Cross, addressed the February meeting of the Christiana Improvement Association in the Christiana-Salem consolidated school auditorium last week. Mr. Holt spoke on "First Aid and Life Saving," as well as other phases of Red Cross activity in the state.

Newark, Delaware, Thursday, February 20, 1941

CONGRATULATIONS, JOHN . . .

Elsewhere in this issue is considerable publicity devoted to the opening of the new Cunningham Servicenter, at 209 East Main Street, tomorrow. We join with the rest of the community in extending hearty congratulations and best wishes to John C. Cunningham, Jr., upon the erection of this modern service center.

The building in itself is handsome and reflects credit upon those involved in its construction. That section of town will undoubtedly receive benefits from motorists who will surely be attracted to the servicenter.

John Cunningham has made a successful business career for himself in his three short years in business in Newark. He has endeared himself in the hearts of motorists whose vehicles act contrary on cold winter mornings, by his ever present promptness, congeniality and willingness to be of service.

We are prompted to comment upon the feeling of fellowship displayed in this issue by other dispensers of gasolines and oils. We refer to the advertisement headed "Congratulations, John . . . Best Wishes For Your Continued Success", which is signed by every competitor in town. This bespeaks a wonderful spirit of unselfishness and friendliness. It is indisputable evidence of the high esteem attributed to John Cunningham by his fellowmen. We are happy that such a spirit exists in at least one line of endeavor and wish to extend our appreciation to these firms for their rare display of good sportsmanship.

We can but echo their sentiments and say, "Congratulations, John . . . Best Wishes For Your Continued Success".

DEADLINE NEAR

Headache time is here again — and in larger quantities this year than ever before as more people will be required to file Income Tax Returns this year due to recent changes made which affect single wage earners with incomes of only \$800 or more.

Every return for the calendar year 1940 must be in by midnight of March 15. In order to handle the enormous volume of work alone entailed of receiving these returns, the Bureau of Internal Revenue has greatly increased its staff in its several district offices. The experience of former years shows that the Bureau is always swamped with late returns. If taxpayers will file their returns early, they will find that this will be mutually beneficial to them and to the Government.

A large number of these returns contain errors which, if not corrected by the audit, would result to the disadvantage of the taxpayer. Many persons pay in more than the amount of the tax due; others fail to take advantage of the personal exemption, the credit allowed for dependents, or deductions from gross income to which they are entitled.

In making out your income tax return, read carefully and study the instructions that accompany the forms on which the tax is computed. If you need more information, it may be obtained at the office of the collector of internal revenue, deputy collector, or an internal revenue agent in charge. When you visit an internal revenue office to get assistance in making out your return, take a copy of your 1939 return with you.

There are two arresting facts in the 1940 income tax law. First, the basis for determining liability for a return has been changed from net income to gross income. Second, the exemptions have been lowered from \$1,000 to \$800 for a single person, and \$2,500 to \$2,000 for a married person or head of a family.

Every citizen or resident of the United States must file an income tax return, if single, or not living with husband or wife, and his or her gross income is \$800; or if married, and his or her gross income is \$2,000; or if their aggregate gross income equals or exceeds \$2,000. It matters not what the net income of such persons may be, or if the return, by reason of allowable deductions, the personal exemption, or credit for dependents is nontaxable, the gross income of all such persons must be reported to the government.

PROMPT ACTION

We feel that the prompt action on the part of Dr. John R. Downes, local health officer, and Bill Wideman, game warden, and town officials in clamping on a dog quarantine immediately the first indications of rabies appeared, was highly commendable.

Two dogs definitely known to have the disease were destroyed and routine searches conducted for other stray, ownerless dogs throughout the vicinity. All such strays found were taken into custody in the concerted effort to halt the spread of this dangerous infection.

Dog owners have been repeatedly warned to keep their pets muzzled, unless they have been immunized.

Such precautions are about all that can be taken other than have all dogs immunized. We sincerely hope that dog owners will give their unstinted support to the program outlined above and not allow their pets outside unmuzzled.

Passavant Memorial hospital in Chicago reports that the sluggish circulation characteristics of certain diseases may be pepped up by using a cradle bed, which rocks the patient in an end-to-end motion, describing an arc of one to two feet.

The governor of Arizona actually rules over only about 14 per cent of the state's area, the rest being composed of Indian reservations, national parks, national forests, military reservations and other lands owned and controlled by the Federal government.

ED BARDO'S TANKMEN, DUNKED in only one meet thus far, will meet one of their sternest tests this season when they play host to Rider College (Trenton, N. J.) on Saturday night.

Accustomed to chalking up conquests, the Blue and Gold mentor can, however, absorb a licking with a smile if he has to, and on paper, the Roughriders threaten to charge over the Hens in the Taylor Pool session. Victorious over Cornell, Villanova, Pittsburgh, West Chester State Teachers, and Duke, the Trenton, N. J. outfit figures, on paper, to take the local team's measure—but not before a struggle. Defeats have been absorbed only at the hands of the powerful Princeton and Yale splashes.

Since 1932-33 the locals have tangled with Rider on seven occasions, emerging with the verdict four times. Delaware gained the nod the first year, 34-25; triumphed the following year by the same score; handed the New Jersey team a 49-26 setback in 1934-35, and then turned in the final victory, 37-34, in 1935-36. Since then, the Roughriders have chalked up victories by counts of 38-31, 46-29, and 39-35.

ALTHOUGH THE HENS DROPPED a five-point decision to Lehigh last week, they should have been awarded the victory when the Engineers' fleet anchor man jumped the gun in the final relay by at least three feet. Coach Bardo figured to pick up enough points in the backstroke and breaststroke to clinch the verdict and when this failed, practically conceded the meet due to the speed of Lehigh's fourth relay man.

An official suddenly developed spots in front of his eyes when the Engineers' star took off and practically awarded Delaware the decision by jumping the gun so far ahead of time, it couldn't be missed.

Lehigh had dropped a meet to Fordham the week before for the same reason—seems like it might become a habit.

BLUE HEN CAGERS, TANKMEN IN STRETCH

Winter Sports Program Slated To Come To Close March 8

Polishing up his charges for their final stand, Coach Joe Shields has been pacing his University of Delaware cagers through lengthy workouts in order to bring them through the season on the right side of the ledger.

Slated to depart on their annual New York trip Friday, the Hens will meet Pratt Institute that same night and will invade the Brooklyn Poly court on Saturday.

Haverford and West Chester State Teachers' College, scheduled to make appearances here on Tuesday and Wednesday, respectively, will wind up the home tilts. Pennsylvania Military College will put the lid on the local season when the Cadets play host to the Blue and Gold at Chester, Pa., on March 1.

Four dual meets and the Eastern Collegiate Swimming Association Championships are still cared for Coach Ed Bardo's highly-successful swimming team. Slated to meet a tough Rider College outfit here on Saturday, and Carnegie Tech on Feb. 28, the Blue and Gold tankmen will close their season in foreign pools. Johns Hopkins will entertain the Hens on March 3, while Manhattan College will play host on March 5. The E. C. S. A. championships are slated to be held on March 8 at Rutgers University, New Brunswick, N. J.

Carly Douglass, lanky local product, once again moved to the top in the race for basketball scoring honors when he turned in a 15-point performance against Drexel Tech Saturday night to boost his grand total of 86 points. Capt. Bill Gerow, who accounted for only three against the Dragons, slipped to second with his total of 77 points while George Barlow remained in third position with 67.

Other point contributors are: Conrad Sadowski, 60; Freddy Mitchell, 59; Guy Wharton, 12; Cas Blaska, 7; Luke Selby, 6; Benny Crescenzi, 5; and Howard Jarvis, 5.

AUTO ACCIDENTS FATAL TO 9,100,000 IN 1940

Motorists Urged To Exercise Caution To Curb Mounting List Of Traffic Casualties Caused By Haste

HOW SERIOUS are accidents? Well, the Delaware Safety Council reports that the 1940 accidental death toll of 96,500 makes accidents the fifth most important cause of death in the United States.

They are exceeded only by heart disease, cancer, cerebral hemorrhage and nephritis.

The Council also reports that 9,100,000 persons were injured in accidents last year.

This means that one out of every fifteen persons in the United States suffered a disabling injury in 1940.

That is convincing evidence that accidents lie in wait for everyone. It does not pay to take chances!

WHAT IF A DIVISION of the American Army were destroyed in battle? The country would be shocked by such a military loss.

And yet figures of the Council show that in 1940 alone accidental deaths among men of draft age — 21 to 35 — totaled approximately 14,000 — equal to the destruction of a full army division!

The loss of the nation's manpower through accidents is doubly tragic because it has no purpose . . . no benefit. It is waste — the waste of carelessness! "Haste makes waste" may be an old and moth-eaten proverb, but it applies to an up-to-the-minute problem — driving an automobile.

Too many traffic accidents are caused by motorists who try to save a second — and lose a lifetime!

Take it easy on the road, and you'll save a lot of wear and tear on your automobile, your nerves, and your family and friends who value your life even if you don't.

Congratulations And Best Wishes For Continued Success
