

**FIRST FARMER BOYS' DAY A MARKED SUCCESS—TO BE MADE AN ANNUAL AFFAIR**

The first Farmers' Boy Day held at the State Farm last Saturday was a pronounced success.

By eleven o'clock between five and six hundred people from all parts of the State gathered on the grounds and the occasion had become a most interesting and profitable one.

NUMBER 36

**A NEW YEAR AT DELAWARE**

**The Official Report From The Old Institution**

With an enlarged faculty, an unusually large and well prepared Freshman class, and increased funds from the State and the National Government, Delaware College has entered upon what should be the most successful year in her history. The new department of History and Political Science, made possible by a liberal appropriation by the last Legislature, is already in good working order under the direction of Dr. Vaughn from the University of Missouri. The efficiency of the Agricultural department has been added to by the appointment of three new assistants in the laboratories, and new lecturers in the department of Agricultural Extension. The entering class is the largest class of well prepared students that has ever entered the College, and especially noteworthy is the large number of agricultural students. The increase in the funds of the College and farm over those of last year totals about \$11,000. Altogether, the outlook is most encouraging.

The total enrollment of the Freshman class is now 68, the new students being registered as follows in the various courses: Classical, 7; Latin Scientific 2; General Science, 5; Agricultural (4 yr.) 15; Agricultural (2 yr.) 7; Civil Engineering, 11; Mechanical Engineering, 5; Electrical Engineering, 9; Engineering, not specified, 6; Special, 1. The most noteworthy increase comes in the agricultural courses for which 22 Freshmen are enrolled. This large registration is owing to the marked improvement in the efficiency of the agricultural department and the growing interest in scientific farming which has been aroused in the people of our State. It is gratifying to note also the growing popularity of the Classical course, a course which offers a valuable training to the boy who expects to enter any of the so-called learned professions, teaching, ministry, law, medicine. The engineering courses as usual attract the largest number of boys, 31 having already enrolled themselves in the various departments. Most of the new students come from Delaware, New Castle Co. sending 35, Kent 8, and Sussex 12. From Wilmington we received 19 Freshmen, from Newark 5, from Lewes 5. Other towns send from 1 to 3 new men. Half of these entering students are graduates of high schools, all of the others, with the exception of a few men admitted to the agricultural courses, have had three years, or more of high school training and are fairly well equipped for their work. Unless pressing reasons compel otherwise, parents should by all means send their boys through the entire course of the high schools. Boys who do not have the full high school course are in many cases seriously handicapped in their college work. (Twenty-three Freshmen entered with no conditions. The remaining 45 are conditioned mainly in English composition, Modern Language, or Solid Geometry. The large number of men who are poorly prepared in composition shows the urgent necessity for better instruction in English in the grammar and high school. It is hoped that every principal in the State will require thorough training in English, involving much "writing of composition," during every year of the school course. Ten men are conditioned in French or German; nine in Solid Geometry. These men in every case came from schools which did not give instruction in these branches. The small number, however, indicates that most of the high schools are now teaching at least one modern language and solid geometry. The undemocratic character of the College is strongly emphasized in the preferences for church attendance as indicated on the cards of application of the entering students. 26 boys attend the Methodist Epis-

copal Church, 18 the Presbyterian, 9 the Episcopal, to the Roman Catholic, 2 the Friends Meetings, 1 the Baptist. Several changes and new appointments have been made in the Faculty. The State of Delaware Chair of History has been filled by the appointment of Ernest VanCourt Vaughn, Ph. D. Professor Vaughn was graduated from the University of Missouri in 1900; received the A. M. degree from the same university in 1904; held the Harrison Fellowship in History at the University of Pennsylvania in 1908-1910, taking the degree of Ph. D. from that institution during the year 1910. Professor Vaughn has held the position of instructor of History in the Columbia, Mo., High School, 1901-1903; Superintendent of the Schools, Milan, Mo., 1904-1906; Instructor in History, University of Missouri, 1906-1911. Among his publications is a work on "The Origin and Early History of the English Universities to the close of the Thirteenth Century," published by the University of Missouri studies and favorably reviewed in the English Historical Review.

Lieutenant F. B. Eastman, 10th Regiment, U. S. Infantry, has been assigned to the College as Commandant of Cadets to take the place of Captain Edgar Stayer whose term expired July 1. Mr. Eastman entered the service at the time of the Spanish-American War; was assigned to duty in the Philippines from 1899-1903; in 1901 was promoted to a Second Lieutenant in the 10th U. S. Infantry; in 1906 was promoted to a First Lieutenant in the same regiment and assigned to duty in Alaska where he stayed until 1908; from 1908 to 1911 he has been at Fort Thomas, Cincinnati, and Fort Benjamin Harrison, Indianapolis.

Mr. George E. Dutton, A. M., has been appointed as Instructor in English in the place of Mr. T. H. Wade, who goes to the University of Wisconsin. Mr. Dutton was graduated from Delaware College in 1904, was Instructor in English at North Carolina Military Academy from 1904 to 1905; studied in the graduate school of Johns Hopkins for three years; was Instructor of English at the University of Missouri from 1908-1910; received the degree of A. M. from Harvard in 1911; and studied in the Harvard Summer School, session 1911.

The faculty now consists of 23 professors and instructors: Geo. A. Hartner, Ph. D., President and Professor of Mathematics and Physics (St. John's College); Frederick H. Robinson, C. E., Professor of Civil Engineering (Polytechnic College of the State of Pennsylvania 1875, practicing engineer); Elisha Conover, M. A., Professor of Latin and Greek (Dickinson College, Johns Hopkins); Edw. Laurence Smith, M. A., Professor of Modern Languages (Delaware, Columbia University, University of Paris, Instructor Brooklyn Polytechnic Institute); M. Van Gieson Smith, M. E., Professor of Mechanical and Electrical Engineering (Stevens Institute, Instructor in Mechanical Engineering University of Pennsylvania, Professor Mechanical Engineering, Thomas S. Clark School of Technology); Clinton G. Houghton, B. A., Professor of Zoology and Biology (Cornell University); W. Owen Sypher, Ph. D., Professor of English (Delaware College, University of Pennsylvania, Harvard, Instructor in English, University of Wisconsin); Harry Hayward, M. S. A., Dean of the Agricultural Department, and Professor of Animal Husbandry Director of the Experiment Station (Cornell University, Director Agricultural Department Mount Hermon School); Clarence A. Short, M. S., Professor of Mathematics and Engineering (Delaware College, University of the South); Charles F. Daw-

(Continued on page 4)

Professor Hayward announced that the Farmers' Boy Day will hereafter be an annual event, coming probably the latter part of August. He called attention to the action of the agricultural committee of the Board of Trustees. They have offered prizes for the three best essays on "The State Farm and its Work", "The Influence of an Agricultural Education upon the Efficiency of the Farmer", "What is the Greater Need of the Delaware Farmer?"

The first prize will be a registered Berkshire pig, the second prize one bushel of soy beans of the Wilson variety, and

**OXFORD FALL FAIR**

Oxford Fair races were witnessed by large crowds on last Thursday and Friday. Four of the events were won in straight heats and Blackwig, the winner of the last race, the 2.15 mixed, took the second third and fourth heats and ran second in the first. Summaries—

While the horses were scoring for the second heat of the three minute trot, on Thursday, Rex B., owned by Herman Jackson, of Port Deposit, who was second in the first heat, and was the favorite, bolted, when one of his reins snapped. Casey, his driver, sat quiet. As the horse finished the first half mile on his wild run people rushed upon the track and caused him to swerve. Casey and the sulky were thrown into the air, the driver keeping his hold on the single rein. This caused the horse to turn a somersault, breaking his neck. Casey escaped unhurt. The Judges were Starter, Joseph Davidson, Wilmington; R. T. Hogg, R. L. Patterson and Elwood Webster.

**WEDDINGS**

**FERGUSON—DAYETT.**

Miss Alice M. Ferguson and Mr. Guney H. Dayett were married on Saturday, September 23, at the home of the bride's parents Mr. and Mrs. George Ferguson.

**McKELVEY—ZEITZ.**

James A. McKelvey, proprietor of the Deer Park Hotel, and Miss Elizabeth Zeitz, of Bryn Mawr, were married at 10 o'clock this morning. The ceremony was performed in the Catholic Church at Bryn Mawr. The couple left after the wedding for a trip to Buffalo and points in Canada. The exact date of their return to Newark has not been announced.

The ladies of the Presbyterian Church of Newark have decided to give a poultry supper in the near future. The date has not yet been named.

**AGRICULTURAL NOTES**

Prof. McCue is spending the first four days of this week judging the Horticultural Department of the Interstate Agricultural Exposition, at Trenton, N. J. This is one of the largest and most favorably known fairs in this section of the country, and it is probable that Prof. McCue will be occupied the entire time in passing upon the large exhibit of fruit and vegetables.

Mr. Telfer, the foreman of the farm, is spending two days at the Trenton Fair.

Prof. Hayward has received an invitation to conduct the Inter-Collegiate Dairy Judging Contest of the N. E. Federation of Agricultural Students, to be held at Brockton, Mass., next week. Owing to previous engagements, he is unable to accept.

The College farm has just shipped a Merino ram lamb to Ohio. This lamb was recently purchased with the understanding that he was to be delivered after he was shown at the W. Va. State Fair. At this Fair he took first prize in his class, and the judge was so pleased with him that he offered more than twice the price for which he had been sold to the College.

Prof. Hayward has accepted an invitation to address the Guernsey Breeders meeting in Philadelphia, on October 7th, and to judge at the Columbia Fair, Bloomsburg, Pa., on the 4th of October.

**Dr. R. C. Reed—Chair Of Veterinary Science**

The committee on Discipline and Instruction of the Board of Trustees of Delaware College met on Monday morning, and unanimously agreed to recommend to the Board of Trustees the election of Dr. R. C. Reed to the Chair of Veterinary Science and Bacteriology. Dr. Reed is a graduate of the Course in Philosophy of Cornell University, class of 1896, and of the course of Veterinary Science from the New York State College of Veterinary Medicine, class of 1901. For seven years he was instructor in Bacteriology and Pathology in the New York College of Veterinary Medicine. For the past nine years he has been a practicing veterinarian in Elmira, N. Y. For six years he was State Bacteriologist, for seven years State Dairy Inspector, and is at present a member of the New York State Board of Veterinary Examiners. Dr. Reed has had exceptional training in his line of work, and comes to us very highly recommended by such men as Dr. D. A. Moore, Director of the N. Y. State College of Veterinary Medicine. Dr. Reed is married, and has a family of three children.

**M. E. Church News**

A beautiful new carpet is being laid in the M. E. Church of this town. The contractor, John Wanamaker.

Rev. G. T. Alderson will entertain his Sunday School teachers and officers at the parsonage on Thursday evening, September 28. The pastor will preach in the M. E. Church next Sunday morning on the subject "Angels and What They Do." The public is cordially invited.

A church social under the auspices of the Christian Endeavor Society, will be held in the lecture room of the M. E. Church, Friday evening, September 29. A cordial invitation is extended to all members of the church and congregation.

**Annual Meeting**

The annual meeting of the officers of the Red Men's Fraternal Home of Delaware was held at the Home last Saturday afternoon, with chairman Harry M. Viekers presiding.

The report showed the Home to be in a flourishing and prosperous condition without a cent of debt. The inmates speak only in praise of their surroundings. There are a number of men who await admission.

**NEWS NOTES HERE AND THERE**

Miss Mabel Steel Jones, who for several years has been engaged in missionary work in China, is expected to return to her Newark home today.

T. H. Chambers returns to his government work in the Panama Canal zone next week. Mrs. Chambers and her baby daughter will remain with Mr. and Mrs. W. H. Barton for some time.

Misses Elizabeth Wright and Edith Spencer leave for Miss Baldwin's school at Bryn Mawr, early next week.

Miss Elizabeth Briscoe, a former resident of Newark, took part in the exercises at the turning of the sod for the administration building for Hope Farm, on last Saturday.

Newark High School basketball team is now practicing for the coming season. Among the new players are Irving Steele, Frank Mackey, Sherwood Snyder, Harlan Walker, Albert Rhodes, Albert Walton, Francis O'Rourke, William Biddle, Leon Powell, Ralph Riley and Frank Mote.

The regular autumn communion services of the White Clay Creek Church will be observed next Sabbath morning at 10.30. A cordial invitation is extended to all.

Elwood James, the negro who entered the home of Thomas Casb about a month ago, has been fined \$50, sentenced to be whipped with 25 lashes and serve two years in the workhouse.

Mrs. Mary B. Donnell is attending the State W. C. T. U. convention in Milton, which convened today.

Mrs. German, of Havre de Grace, was seriously injured by falling down four steps, at the dwelling attached to the light-house, one day last week.

A committee appointed by the historical society of Delaware to consider the erection of a new building and the raising of the necessary funds, will meet in Wilmington this evening.

The men of Company E have been ordered to report at the armory on Wednesday evening, September 27th, to receive instructions from Lieut. Hunt, U. S. A.

Mrs. J. Pearce Cann entertained a number of friends at Bridge last Saturday afternoon.

Professor C. A. McCue is attending the Trenton Fair, and judging the fruit exhibited at that place.

The first meeting of the season of the Ushers' Union of the M. E. Church was held in the lecture room last Friday evening. A social meeting will be held some time in October.

The pupils of the eighth grade Newark public school were moved from the High School to the cheerful new rooms in the new building on Monday. The "overflow" department is also being tested as a means to relieve the crowding which seems so inevitable in the intermediate grades.

The Ladies' Afternoon Bridge Club will resume its meetings for the winter on Friday afternoon at the home of Mrs. R. A. Whittingham.

The Presbytery of New Castle will hold its 83rd stated meeting in Red Clay Creek Presbyterian Church on October 3 and 4. The popular meetings held at 7.30 will be addressed by Rev. J. A. Herold on Tuesday evening, and Rev. W. T. Beale and Rev. I. P. Lane on Wednesday.

Extensive improvements are being made to the roadway of E. Main street.

**DELAWARE COLLEGE TIES IN HER FIRST GAME**

Delaware College football team was unfortunate in the opening game of the season this year. In the game with the Williamson Trade last Saturday, Captain Taylor sustained a sprained ankle. At first it was thought that the injury was only slight and that this star player would be able to be in Saturday's game. Later, however it has developed that the sprain is quite severe and Delaware will probably be without its back and captain for two or three weeks.

The injury to Taylor is especially unfortunate just at the beginning of the season and just before the hard game with Swarthmore at Swarthmore next Saturday. Coach McAvoy had naturally built up his team work and plays right around the aggressive captain and his injury means that much of this work has been undone and will have to be gone over again. In Saturday's game Dean will be played at fullback and Ennis will be moved to halfback with Handy. If in condition Millington will likely take Ennis place on the line.

Because of Taylor being out of the game Coach McAvoy has been working the players especially hard in practice this week to get them in condition for the game on Saturday, and much time has been spent in developing defensive work. While all of the players regret the loss of their captain yet they are determined to give Swarthmore a hard struggle on Saturday.

In the game with Williamson on Saturday neither team scored. The visitors had the advantage of better training and were therefore in much better physical condition which is the only thing that saved them from a defeat. Delaware advanced the ball probably three yards to Williamson's one, but was unfortunate in either losing the ball when close to the goal or getting it there just before the end of the quarter. The game ended with the ball on Williamson's five yard line and had there

been one more minute to play, Delaware would no doubt have scored. Delaware's goal was never in danger of being scored on.

While all the players made a fair showing for the first game, the work of Captain Taylor and Dean was a feature. The game was rather rough for the first contest of the season and there was plenty of slugging. Coach McAvoy is well pleased with the eleven and thinks it will prove to be one of the strongest that Delaware has ever had. The student body was out in force and with Jolls as cheer leader gave the players plenty of encouragement. The line up follows:

- Delaware. Williamson, Schiltler, L. E., Seaber, Hamil, L. T., Ellis, Loomis, L. G., Marcus, Attix, C., P., Gilbert, Ennis, R. G., Romig, Todd, R. T., R. Gilbert, Cann, R. E., Piller, Huston, R. H. B., Sands, Handy, Q. B., Ferich, Dean, L. H. B., Ellsworth, Taylor, F. B., Brewer.

Referee, Lambertson, of University of Pennsylvania. Umpire, Davidson, University of Pennsylvania. Field Judge, Prof. Short, Delaware. Head Linesman, Wingett, Delaware.

**Newark's Representation On Federation Committee**

The President and Vice-Presidents of the New Century Club of Newark met on Tuesday afternoon and appointed the following to serve as representatives of this club on the mentioned Federation committees: Arts and Crafts, Mrs. L. H. Coe. Education, Mrs. E. L. Richards. Household Economics, Mrs. E. F. Armstrong. Library and Literature, Miss Maxwell. Reciprocity, Mrs. W. H. Evans. Social Service, Mrs. C. L. Penny. Conservation, Mrs. W. H. Hilton. Public Health, Alice Kerr.

March last. The business session was held in the afternoon and the popular meeting in the evening.

The following officers were elected for the coming year:—President, Rev. J. H. Geoghagan; vice-president, John W. Davis; secretary and treasurer, W. A. Singler; executive committee—Rev. W. J. Rowan, Mrs. Ed. Steel, Miss Florence Appleby, Dr. M. T. Cook, Mrs. Abram Scott, Harry E. Tomlin, Rev. H. B. Phelps and Mrs. John W. Dayett.

A motion was made that teachers should pay special attention to two things: the supplying of substitutes in case of necessary absence and the presentation of the monthly temperance lesson with special effort to a signing of the pledge, etc.

Rev. Forrest E. Dager, pastor of St. Paul's Reformed Episcopal Church, Philadelphia, was the speaker of the evening.

His subject was "The Teachers' Possibilities," which he discussed in a forceful and convincing manner.

Mr. Dager said he had been led to the choice of such a subject through the conversation of two men whom he had met recently. One was a politician who lived in a certain precinct in Philadelphia. During the Roosevelt presidential campaign the man showed a great deal of zeal for his chosen candidate. He believed that the election of that man was for the good of the people and he determined to win every voter in that district to his way. He started on a campaign of personal work. Election day found that only two from that precinct had not voted for Roosevelt—one of these was a man who had returned from Europe only two days before the election, and the other was too deaf to hear the arguments.

If every teacher should resolve that she would carry on such a zealous campaign, never faltering until every child within her home district is in a Sunday school, what an army there would be!

The other one to whom he referred was a horticulturist. Mr. Dager's visit to the orchards made him recognize the great amount of work which they required—the continual care. The visitor asked the horticulturist if he never wearied of the work or failed in the patience required. The man replied, "No." I visited Burbank in California, a few years ago. He took my hand and said: "Let us work, and work, and work, until there is not a tree in the land bearing imperfect fruit."

If men will display such devotion to developing perfection in trees, are we not to have at least an equal amount of boys and girls?

The speaker urged the duty of preparation on the part of the teacher. He told of an instance of a certain woman who taught a class of young men.

On Monday evening she sat down and read the lesson carefully and thoughtfully, then took a pencil and jotted down the important points to be presented. She searched her brain for an illustration which she should use to drive the lesson home. An idea struck her, it was original, something different—the suggestion appealed to her pride. On Tuesday as she again devoted some time to the lesson something seemed to say, use instead, the story of the prodigal son. Her pride rebelled—"every one knows the old story of the prodigal son." Each night during the week the thought returned and urged itself upon her mind; use the story of the prodigal son. She surrendered to the urgent suggestion.

The following Sunday afternoon a big fellow came into the classroom in search of a friend. The teacher had just reached the story of the prodigal son. He listened only a few minutes then sauntered out.

The idea had stirred his memory. He, too, had an old home. It wasn't so many miles away—he hadn't been back for years. He looked at his watch—he could just catch a train. Why not run down to the old home town for a few hours anyway?

By early evening he was sauntering past the familiar old place. He was seized with a desire to see his old room once more. In

## Improved Comic Supplement

To the many who regard the colored supplement of the Sunday newspapers as a means of flooding the country with the wrong kind of nonsense story, comes the welcome returns from a recent New York conference.

The conference was held at the Ethical School to decide what could be done to educate children by means of the colored Sunday sheet which finds its way into homes where it forms often the only reading matter for the entire family. Among the members of the conference were prominent educators, several noted cartoonists and representatives of leading New York newspapers.

Old editions of comic papers were discussed, having in mind their possible unhealthy effect on the child mind, and hundreds of possible "funny sheets" were passed on. The comic supplement which met with the approval of the conference as to motive, make-up and educational possibilities for little children is being run now in a big New York paper as a result of this conference, and is a pattern to be followed in the other Sunday comic sections in the future.

In this comic supplement is a small boy named Dicky makes the acquaintance of a strange little man named Mr. Tweedeedle, who lives in the trunk of an apple tree and appears suddenly, whenever Dicky needs him, from a tiny, round door near the tree roots. Mr. Tweedeedle is a quaint little creature in pointed shoes, red and yellow doublet and yellow cap that is cut in points like a flower's petals. Dicky is a very real boy who sometimes tortures animals and insects, cries if he is hurt, and is thoughtless, generally, of the comfort of others. But whenever Dicky steps on a spider, cries because he tumbles down, tries to destroy the patient work of a garden mole or resorts to the hundred and one acts of thoughtless cruelty that all children are prone to take delight in, Mr. Tweedeedle appears and gives small Dicky a summary lesson. Dicky is transformed by Mr. Tweedeedle into a little creature as small as the spider, and is shown how busy and clever an artisan the spider is as she spins her cobweb face. He is shown a grasshopper who is having a broken leg set and does not cry as Dicky did at a very slight bump. He is entertained at supper underground by a mole, but their joyful repast is suddenly disturbed by a shower of dirt and pebbles which falls on their heads, and Dicky learns how much trouble it causes Mr. Mole to have some huge foot set upon his hill roof.

Each Sunday's series of picture stories about Dicky and Mr. Tweedeedle are being as anxiously looked forward to as are the depraving adventures of Panhandle Pete. They have, in addition to amusing and instructing its child readers, increased materially the circulation of the newspaper.

There are many good stories of humor which the mother may read or tell to her children, finding in the relaxation of the story entertainment for herself as well as amusement and instruction for the little folks.

"Once Upon A Time In Delaware" has been adopted by the State Board of Education for use in Delaware schools.

The Delaware Society of the Colonial Dames of America is responsible for this charming little book, which has been prepared especially as a supplementary reader for children between the ages of 8 and 12.

The teachers of the State have long realized that the amount of material of this sort which could be put in the hands of the children was lamentably small, and such a production is particularly welcomed.

The entire work is to be credited to the women of Delaware. The idea originated in one of their societies, the twelve stories were written by Miss Katharine Pyle,

The book has been ordered for use in the Wilmington and rural New Castle county schools.

### The Night Wind

Have you ever heard the wind go "Yoooooo?" 'Tis a pitiful sound to hear! It seems to chill you through and through

With a strange and speechless fear. 'Tis the voice of the night that broods outside When folk should be asleep, And many and many's the time I've cried

To the darkness brooding far and wide Over the land and the deep: "Whom do you want, O lonely night, That you wait the long hours through?"

And the night would say in its ghostly way: "Yoooooo! Yoooooo! Yoooooo!"

My mother told me long ago (When I was a little tad) That when the night was wailing so, Somebody had been bad;

And then, when I was snug in bed, Whither I had been sent, With the blankets pulled up round my head, I'd think of what my mother'd said, And wonder what boy she meant; And "who's been bad today?" I'd ask

Of the wind that hoarsely blew, And the voice would say in its meaningful way: "Yoooooo! Yoooooo! Yoooooo!"

That this was true I must allow— You'll not believe it, though, Yes, though I'm quite a model now, I was not always so, And if you doubt what things I say,

Suppose you make the test; Suppose, when you've been bad, some day And up to bed are sent away From mother and the rest— Suppose you ask, "Who has been bad?"

And then you'll hear what's true: For the wind will moan in its ruefullest tone: "Yoooooo! Yoooooo! Yoooooo!"

## Auto & Bicycles

TIRES REPAIRED  
Bicycles Repaired, Sold and Hired  
**J. A. SULLIVAN**  
302 South Chapel Street

**W. L. DOUGLAS**  
\$3.00, \$3.50, \$4.00 & \$5.00  
SHOES

Best in the World  
UNION MADE  
Boys' Shoes \$2.00 and \$2.50  
Fast Color Eyelets Used

W. L. Douglas shoes are the lowest price, quality considered, in the world. Their excellent style, easy fitting and long wearing qualities excel those of other makes. If you have been paying high prices for your shoes, the next time you need a pair give W. L. Douglas shoes a trial. You can save money on your footwear and get shoes that are just as good in every way as those that have been costing you higher prices.

If you could visit our large factories at Brockton, Mass., and see for yourself how carefully W. L. Douglas shoes are made, you would then understand why they hold their shape, fit better and wear longer than other makes.

### FIRST FARMER BOYS' DAY A MARKED SUCCESS—TO BE MADE AN ANNUAL AFFAIR

The first Farmers' Boy Day held at the State Farm last Saturday was a pronounced success.

By eleven o'clock between five and six hundred people from all parts of the State gathered on the grounds and the program had been so planned that there was something of immediate interest for all.

The visitors inspected the new barn, Professor Hayward acting as guide and explaining the features which were new, as well as commenting on the good or weak points of the animals in the stalls. The horses were also exhibited and greatly admired by the crowd.

Parties under the direction of Professor Grantham inspected the plots of grain where experiments in this line are being carried on; others led by Professor McCue, visited the orchards.

The concrete pits where experiments with peach trees are now under way were especially interesting. The tree is planted in the centre of the pit which has in it a layer of crushed rock and several feet of sand, which was taken from Delaware Bay. The trees are fed with different proportions of nitrogen, potash and phosphoric acid, for the purpose of determining just which of these foods goes to the production of fruit, of wood, of leaves, etc.

Experiments are being carried on in the young apple orchards with cover crops. The necessity for something to be grown on the orchard soil was plainly demonstrated by the heavy washings of the recent rains, on a plot where nothing had been planted.

The large peach orchard is in such perfect condition as to delight the eye. Row after row of strong young trees, with glossy green leaf and smooth healthy bark emphasize the value of care in a young orchard of this kind. Experiments are being made here with different plant foods. At one point in the orchard one may stand where there are trees on one side, which have been given plant food and on the other those that have been allowed to gather their own. The difference in size and general form speaks for itself—the difference between a man who dines regularly on good nourishing food and the one who occasionally picks up what he can get.

After luncheon had been served the interest centered in the speakers of the day, whose absolute faith in the agricultural methods lately observed was evidenced in the earnestness of their words.

Professor Tuck, the head of the Agricultural Extension Department of Cornell University, was the principal speaker. Others who made short addresses were Professor Wesley Webb, Superintendent A. R. Spaid, State Senator L. A. Drexler and Representative E. C. Johnson.

Superintendent Spaid called attention to the fact that it required the ancient Romans 46 days of work to raise a bushel of wheat; in his father's day it required 3 hours of work and an expenditure of 17 cents. At the present day the necessary work can be done in 9 minutes and the cost will not exceed three and a fraction cents.

The question that concerns him is "what is being done with the time thus gained? If the extra time is only spent in idleness, the world was better before modern invention had made the change.

Professor Spaid urged co-operation on the part of the parent and the boy. He considers the most serious problem that confronts us to be the consideration of the boy between the ages of 14 and 16. As soon as the compulsory school law lets him off at the age of fourteen, he is in many cases, lost to the school. There should be a law requiring him to be either in school or at work during these important years of his life.

Professor Tuck greeted his audience with the words: "I seldom wander far, but to-day I have come to learn."

He believes the agricultural extension work to mark the stage in the development of agricultural education which is most successful. The scientist carries his knowledge to the fields, and working right with the farmer, by their combined efforts, wins success. One cannot accomplish the desired result without the other. The college professor is not a practical farmer and his usefulness lies in supplementing the knowledge and co-operation with the man who is.

Prof. Tuck traced the history of our present day educational institutions. In the first place we transplanted the ideas then in vogue in the old world, where the aim was merely to create a cultured and professional class. As the rapid development of the Middle West created the necessity for the need of professional engineers, the universities of the East outlined such a course and made it a part of their curriculum—until that branch has become an important and accepted part of the institution.

The movement of people toward the city from the farm has given rise to a new demand. The methods that led the world when the producers far outnumbered the consumers will not serve today. The call comes to the educational centers to meet the new demand—and the agricultural departments are begun. It is not strange that an old farmer backed by years of practical experience does not immediately adopt the new idea with enthusiasm. The experimental stages of the work have been filled with serious mistakes to which he may look with distrust.

But the new movement will survive the experimental stage. The Extension work already shows a marked advance in the path toward the desired end.

The speaker urged every one working on a farm to consider himself a student in the school of life. Let him look around the community which he calls home, and select the six most successful farmers in that community for his faculty. Go to them as a college boy goes to his professors, observe their ways of working and adopt the ideas as far as his capital and circumstances will permit. Make use of the State Farm, the bulletins issued,—not attempting to use the ideas in their entirety, but only so far as is practicable in the particular case at hand.

Prof. Tuck believes that the rural schools have not, in many instances awakened to the present demand, which may make the farmer's decision in favor of work for his boy at the height of the busy season, a correct one. The rural school of the future, if it is to continue its usefulness, must be widely different from the school of the past.

Senator Drexler added words of encouragement as a pleasant close to the speaking of the day. He said he had come all the way from Bethany Beach, like the old Scotch Irishman, "to boost, and boost, and boost." He had gained one or two ideas which he intended to put into immediate practice in his community. He spoke of the advantage New Castle county enjoys in being able to have the benefit of such a farm so close to their homes. Senator Drexler regards this as the most powerful educational institution in the State, and hopes to have many more opportunities of helping along the work which he considers so vital to the welfare of Delaware.

Professor Hayward announced that the Farmers' Boy Day will hereafter be an annual event, coming probably the latter part of August. He called attention to the action of the agricultural committee of the Board of Trustees. They have offered prizes for the three best essays on "The State Farm and its Work", "The Influence of an Agricultural Education upon the Efficiency of the Farmer," "What is the Greater Need of the Delaware Farmer."

The first prize will be a registered Berkshire pig, the second prize one bushel of soy beans of the Wilson variety, and the third prize, one bushel of Johnson county seed corn. All essays must be in the hands of Professor Hayward by October 15, 1911.

At the close of the exercises large farm wagons carried the guests to the college athletic grounds where they witnessed the Delaware-Williamson football game.

NEWARK POST.  
Make all checks to THE NEWARK  
POST.  
Telephone, Delaware and Atlantic 93.

We want and invite communications,  
but they must be signed by the writer's  
name—not for publication, but for our  
information and protection.

Entered as second-class matter at Newark, Del., under Act of March 3, 1879.

The subscription price of this paper is \$1.00 per year, in advance.

SEPTEMBER 27, 1911

THE editorial space is released  
this week in order to give to the  
public the official report of Dela-  
ware College. All Delaware is in-  
terested in the welfare of her State  
institution.

A NEW YEAR FOR  
DELAWARE COLLEGE

(Continued from Page 1.)

son, M. D., D. V. S., Professor of  
Veterinary Science (Baltimore  
Medical College, Assistant in  
Bacteriology and Pathology in the  
U. S. Department of Agriculture,  
Professor of Veterinary Science  
and Physiology in the University  
of Florida); Charles A. McCue, B.  
S., Professor of Horticulture  
(Michigan Agricultural College);  
Melville T. Cook, Ph. D., Profes-  
sor of Botany, A. E. Ottomano,  
B. A., and B. S. A., Professor of  
Agronomy (University of Indiana,  
Instructor in Agriculture, Mis-  
souri Agricultural College and  
University of Missouri); Rev. Wil-  
liam J. Rowan, Ph. D., Profes-  
sor of Rhetoric and Oratory (Lafay-  
ette College); Charles L. Penny,  
M. A., Professor of Chemistry,  
Mineralogy and Geology, (Buck-  
nell University, University of  
Heidelberg); Thomas L. Sturges,  
Jr., M. E., Professor of Electrical  
Engineering (Stevens Institute);  
Francis B. Eastman, First Lieuten-  
ant, 10th Infantry, U. S. A.,  
Professor of Military Science and  
Tactics and Commandant of Cad-  
ets; Ernest V. Vaughn, Ph. D.,  
Professor of History and Econo-  
mics, State of Delaware Chair of  
History; Harold E. Tiffany, M.  
S., Assistant Professor of Chem-  
istry (Bucknell University, Har-  
vard); Joseph M. McVey, B. A.,  
Instructor in Mathematics and  
Engineering (Delaware); Z. H.  
Strager, B. S., Instructor in Me-  
chanical and Electrical Engineering,  
(Rutgers College); George E.  
Dutton, M. A., Instructor in Eng-  
lish (Delaware, Johns Hopkins,  
Harvard, Instructor in English,  
University of Missouri); R. D.  
String, Instructor in Shop-Work;  
W. J. McAvoy, C. E., Physical Direc-  
tor (Lafayette College).

For the carrying on her work  
in the various departments of in-  
struction, Delaware College has  
three main sources of income—  
(1) incidental fees from students,  
(2) appropriations from the U. S.  
Government (3) appropriations  
from the State of Delaware. Tui-  
tion is free to all students from  
the State. Certain fees are charg-  
ed, however, for the use of rooms,  
laboratory material, etc. In 1910-  
1911 these fees amounted approxi-  
mately to \$6000. As the running  
expenses of the College, in addi-  
tion to the salaries of instructors  
and professors, amounted in the  
same year to about \$10,000, the  
College virtually lives on every  
student, besides free tuition \$60  
in the way of maintenance and  
equipment. From the second  
source of supply, appropriations  
from the U. S. Government, Dela-  
ware College received in 1910-  
1911 \$40,080. With the excep-  
tion of the original fund of \$4,980  
this money must all be expended  
for instruction in Agriculture, the  
Mechanic Arts, Military Tactics,  
the English Language and the  
various branches of mathematical  
physical, natural and economic  
sciences with special reference to  
their application in the industries  
of life, and to the facilities for such  
instruction. From the State of  
Delaware, the College received in  
1910-1911, \$5000. The total in-  
come for the year was then \$51,  
080. To the College from the  
State appropriated \$10,000. The  
Experiment Station received from  
the U. S. Government \$30,000.  
From 1870, when the College was  
reopened, till the close of the acad-  
emic year 1910-1911, it has re-  
ceived from the State of Delaware  
for buildings, farm, and running  
expenses appropriations amount-  
ing to \$120,000. At the last ses-  
sion of the Legislature, further  
appropriations were made as fol-

lows: To the College for repairs  
and general expenses, \$10,000; for  
buildings on the farm, \$10,000;  
for the State of Delaware, Chair  
of History, \$2500 annually; for  
the establishment of an Agricul-  
tural Extension Course, \$4500 an-  
nually for the next two years.

During the past summer sev-  
eral much needed improvements  
have been made to the buildings  
and grounds. A one-story addi-  
tion has been made to Mechanical  
Hall. It will be used entirely as a  
mechanical laboratory. The inter-  
ior of the Dormitory has been  
beautified, the walls and ceiling of  
the first floor being covered with  
metal. The interior of Recitation  
Hall has been entirely repainted.  
The walks and drives on the cam-  
puses have been macadamized. An  
effort has been made to improve  
the appearance of the campus by  
planting flowering bushes and  
shrubs in front of Mechanical Hall  
and at the rear of the Library.

In the various departments of  
College work, special activity is  
apparent. The addition of the  
new department of history and po-  
litical science will make much  
more effective especially the work  
of the Classical, Latin Scientific,  
and General Science Courses. Full  
courses will be offered in Ancient,  
Mediaeval, and Modern History,  
United States History and Gov-  
ernment, Delaware History, and  
Economics. In the military de-  
partment Lieutenant Eastman will  
have a battalion of about 100  
men and an enlarged band. New  
apparatus and other equipment  
will materially strengthen all the  
departments of engineering. The  
classical course has received a new  
impetus from the larger number  
of students enrolled.

The Agricultural Department  
has an unusually large attendance.  
About three-fourths of these stud-  
ents are pursuing the four year  
course in Agriculture leading to a  
degree, the remainder taking the  
two year course. The equipment  
of this department has been mat-  
terially added to during the past  
year. The Veterinary Depart-  
ment is about to have new and  
suitably equipped laboratories on  
the second floor of the West wing.

At the farm there has been a  
number of improvements, includ-  
ing the completion of the repairs  
and repainting of all the old farm  
buildings, the erection of a new  
cottage for the farm foreman, and  
a large storage house for the man-  
ure from the horse and cattle  
barns. The Trustees have also  
purchased some Aberdeen Angus  
cattle to be used primarily for in-  
structional purposes. The plans  
have been drawn, and it is expect-  
ed the contract will be let in a  
few days for a new dairy house, to  
be located just west of the present  
dairy cattle barn.

Two new instructors have been  
added to this department. Mr.  
M. O. Pence, assistant in Agron-  
omy, is a graduate of the class  
1911, Purdue University. He  
comes highly recommended, and  
his equipment both temperamentally  
and in scientific training pecu-  
liarly adapts him for his work  
in Delaware. Mr. W. C. Pelton,  
assistant in Horticulture, is a re-  
cent graduate of Pennsylvania  
State College, and has been re-  
commended very highly by Prof.  
Watts, the head of the Horticultu-  
ral department in that institu-  
tion. Both of these men are em-  
ployed in part under the provi-  
sions of the Agricultural Exten-  
sion fund, which was made avail-  
able by the recent Legislature.

At a meeting of the Committee  
on Discipline and Instruction held  
on September 25th, Dr. Raymond  
C. Reed, of Elmira, N. Y., was  
unanimously recommended for  
election by the Board of Trustees  
to succeed Dr. Dawson, who re-  
signed recently. Dr. Reed is a  
graduate in Philosophy from Cor-  
nell University, class of 1866, and  
in Veterinary Medicine from the  
N. Y. State College of Veterin-  
ary Science, class of 1901. Dur-  
ing a part of his course and for  
five years after graduation, Dr.

Reed was instructor in Bacteriol-  
ogy and Pathology in his Alma  
Mater. For the past nine years  
he has been practicing in Elmira.  
Part of this time he has been State  
Bacteriologist, Inspector of Dair-  
ies, and is at present time a mem-  
ber of the Board of Veterinary  
Examiners. Dr. Reed is consider-  
ing the position, and it is hoped  
that he can be induced to accept.

As the College enters upon the  
work of another year, the need of  
more room for classes, laborator-  
ies, and the general comfort of the  
students is strongly felt. The de-  
partments of Engineering and Ag-  
riculture are especially hampered  
by insufficient space. A large  
Science Building would relieve  
greatly the congested condition  
of our present buildings; it would  
give us modern laboratories, larger  
lecture rooms, possibly a much  
needed lounging room for stud-  
ents. Two more such entering  
classes as we have had this auto-  
umn would completely swamp us.  
It is to be hoped that the next  
Legislature will make some provi-  
sion for this need.

The various student organiza-  
tions are flourishing. The editors  
of the Review are determined to  
uphold the high standard set by  
last year's board. H. T. Emms is  
Editor-in-Chief and J. G. Lewis,  
Business Manager. The Engi-  
neering Society, the Agricultural  
Club, and the two Literary Soci-  
eties are all organized and prepar-  
ed to do good work. The Students'  
Boarding Club under the manage-  
ment of Miss Smithson as matron  
and Mr. E. W. Loomis as Com-  
missary, is full to its capacity. The  
outlook in athletics is particularly  
bright. All of the men on last  
year's football team except two  
are back. The team is the heaviest

ESTATE OF JOSEPH H.  
FRAZER, Deceased.

Notice is hereby given that  
Letters of Administration upon  
the Estate of Joseph H. Frazer,  
late of White Clay Creek Hundred,  
deceased, were duly granted unto  
Eben B. Frazer and Security  
Trust and Safe Deposit Company  
on the eighth day of September,  
A. D. 1911, and all persons indebted  
to the said deceased are request-  
ed to make payment to the  
Administrators without delay, and  
all persons having demands against  
the deceased are required to ex-  
hibit and present the same duly  
probated to the said Administrators  
on or before the eighth day  
of September, A. D. 1912, or abide  
by the law in this behalf.

Address Charles B. Evans, Esq.,  
Attorney-at-Law, or Security  
Trust and Safe Deposit Co., Wil-  
mington, Delaware.  
EBEN B. FRAZER,  
SECURITY TRUST & SAFE  
DEPOSIT CO.,  
Administrators.

since the days of "Bear" Edmon-  
ston away back in '92 and '93.  
Coach McAvoy and Captain Tay-  
lor will do all in their power to  
lead the team to victory.

The first meeting of the Y. M.  
C. A. was held during the opening  
week of the term and plans for the  
annual reception were discussed.  
The handbooks are out and de-  
serve the attention of every stud-  
ent. The regular Sunday after-  
noon meetings will begin next  
Sunday and continue throughout  
the year. The Committee ap-  
pointed to arrange for Bible  
Classes has not yet announced the  
course of study for the year, but  
the work will commence as soon  
as the classes are organized.

Real Estate Sales

S. K. Chambers, Real Estate  
Agent, has sold his Machine Shop  
on Railroad avenue, West Grove,  
to the Kennett Gas Co., who are  
making extensive improvements.

The small farm of Mrs. Chester  
Friend, twenty-one acres in New  
Garden Township, to Samuel M.  
Aiken, of Wilmington, Del., who  
will move there April 1, 1912.

House and lot belonging to the  
John C. Yeaman Estate, on Chat-  
ham street, Avondale, to Frank B.  
King, who now occupies the same.

Farm of Mrs. Houston, Chester,  
Pa., of 180 acres in Franklin and  
New London Townships, known  
as the Harmony Hill Farm, to  
Nathan T. and Lee B. Janney, who  
now occupy the same.

Body Arrives in October

A cablegram was received this  
week by Mr. Eben Frazer, stating  
that the body of his son, Joseph  
H., is due to reach New York on  
October 12.

Funeral arrangements will be  
made at a later date. Interment  
in West Nottingham Cemetery.

**WANT COLUMN**

The Want Ad Column in this paper  
is an innovation to country news-  
papers. The usual rate is higher than  
most people wish to pay for a small  
notice. Any little thing you have to  
sell, it will pay you to run a notice  
in this column. Lost, Found, Want  
Ads, all come under this heading.  
Be sure to always look at the Want  
Column. It has paid others. It will  
pay you.

**Rates Only 1 Cent a Word**  
Just the place for a small notice. Have  
you anything for sale? Put it in this  
column and it will bring a buyer.

**LOST**  
LOST—Signet Ring with mono-  
gram W. J. S., between Center  
Depot and Prof. Tiffany's house.  
Reward if returned to W. J. Stiltz,  
Stiltz Livery.

PERSONAL

Mrs. Matilda Harrison, of Philadelphia, visited relatives in Pencader over Sunday.

Mrs. George Jarnon, of Berlin, Md., was the 100th guest of Charles Jarnon and family.

Mr. and Mrs. Harry Evans and two children, of Newtown, Pa., have been spending a few days with the latter's parents, Mr. and Mrs. R. L. A. Springer on Cleveland avenue.

Miss Mildred Warren, Lukens, Fla., is visiting relatives in Newark.

Mrs. Warren Lamborn and Miss Helen Lamborn spent the week end with Mr. and Mrs. Lester Lamborn, Rosedale.

Mrs. Charles Thorne, of Wilmington, visited Mrs. R. L. Springer last week.

Mr. Emis, of Wilmington, spent the week end with Mr. and Mrs. Leonard Rhodes.

Miss Brown and Mr. Miller, of Wilmington, spent Sunday with the latter's sister, Mrs. Ogle Currier.

J. Stanley Frazer, of New York, spent the week with his parents, Mr. and Mrs. Eben Frazer.

Mr. Richard Rhodes spent Saturday and Sunday with the former's parents, at Odessa.

Miss Cain, a pupil of Miss Saywood's school, Overbrook, visited her former schoolmate, Miss Essie Willis, last week.

Miss Margaret Dayett, of Glen Mills, has spent the last two weeks with Philadelphia friends.

Mrs. Anna Springer, of Philadelphia, was the guest of Mrs. Albert Wollaston, last week.

Mrs. Evan Lewis was the recent guest of Mrs. Joseph Pyle, Polly Drummond's Hill.

Miss Emma Lilley and Mr. Leonard Lilley spent the week end with Philadelphia friends.

Mrs. Lewis Thomas, of Landsdowne, Pa., is visiting her parents, Mr. and Mrs. Hugh Wright.

Miss Margaret Davis, of Wilmington, was the recent guest of the Misses Springer.

Mrs. L. B. Jacobs and children and Mrs. Rebecca Gilpin have returned from summer's vacation at Rehoboth.

Misses Lydia and Winnie Fader, Leta Waters and Nellie Wilson were the guests of Mrs. William Harris, Wilmington, on Monday.

Announcement From Acting Postmaster

This office having been designated as a postal savings depository to open October 1, 1911, I wish to explain through these columns in a brief way just what it means and how the patrons of this office may take advantage of it.

A postal savings depository is really a savings bank with the faith of the United States pledged as security. Accounts can be opened by any person of the age of 10 years or over in his or her own name, free from any interference. Withdrawals, with accrued interest, can be made in whole or part at any time, provided the transactions are made in multiples of a dollar. Accounts must be opened in person, but subsequent deposits can be made by mail. Interest payable annual-

Suits to Order

\$25 to \$40. Special prices at \$25 and \$30. Comfort for Men with all the style they want for Young Men. Fit, Make-up and Trimmings guaranteed.

Biggest Because Mullin's Clothing Best Hats Shoes WILMINGTON

ly at the ratio of 2 per cent per annum will be allowed on all deposits; but is not compounded, however, accrued interest may be withdrawn and included in a new deposit. No one can deposit more than \$100 in any one month or have a balance to his credit of more than \$500.

In order to encourage saving among children, we have a card about the size of a postal card, which will be sold for 10 cents. These cards have spaces for nine postal saving stamps. When a child of 10 or more years has a dime to invest, he can buy one of these cards. His second dime will buy a postal savings stamp to be attached to the card. His third dime another stamp and so on until he has 9 stamps affixed to his card. Now he surrenders his card and opens a postal savings account for \$1.00.

Remember, when you open an account at a postal savings depository the United States Government is your security and you are not dependent upon the business ability of the postmaster or any group of private individuals for the safe return of your money.

Additional information will be gladly given at the postoffice. Very respectfully, Cantwell Clark, Acting Postmaster.

People's Column

Pencader Wants Her Share

Mr. Editor: I want to call your attention to some things in Pencader.

1st. I advocate in a certain measure, that "to the victor belongs the spoils." This, of course if the victor is a good man qualified for the office. Pencader has for several years been held in the Republican column—though considered a Democratic safety. We have no men of sky rocket brilliancy, but good as men go. But in the matter of appointments, you wouldn't know that Pencader was on the map. The appointments that have broken the camels back! White Clay had two officers in the Court House. Another was needed—an appointment that was given for Pencader. Who got it? A Pencader man? No—a White Clay Creek man received the appointment that had been allotted to Pencader.

2d. The Elkton Road—Money spent in Pencader, a Republican Hundred, secured by a Republican Legislature; surely the inspector will come from Pencader. No—a White Clay Creek Hundred man is the only one capable of inspecting a Pencader road. And White Clay Creek, a Republican Hundred—sad, but true, it is not. Isn't it possible to find a man in our own Hundred who is capable of doing anything?

Now, again, the Baltimore and Philadelphia turnpike going over Iron Hill gets nothing. It's the only road leading to Cooch's Bridge that is NOT improved. No one will dispute the fact that it is not needed. I know Democrats on Iron Hill who voted for a Republican Levy Court on the promise of having this, the old King's Highway improved. Pencader.

A Narrow Escape

What might have been a serious accident was but narrowly averted on Sunday afternoon, when an automobile belonging to Mr. George S. Capelle, of 1304 Delaware ave., Wilmington, came into collision with the railing of the bridge over the mill race this side of Cooch's Bridge. The road makes a very sharp turn at this point and slow speed is advisable at all times; a foot more out of their course would inevitably have

overturned the party consisting of Mr. Capelle, three ladies and the chauffeur, into the mill pond. The car, a big six cylinder Stevens-Duryea, was engaged in the profitless undertaking of chasing a Stanley steamer up the road from Glasgow and took the turn at too high a speed for so sharp a bend. Practically a clean sweep was made of the lamps, fender and running board on the right hand side. Quite a number of passing automobiles soon gathered and their united efforts pulled the car back to safety.

KEMBLESVILLE ITEMS

Mrs. Lidle Kelley is visiting her

brother in Newport.

Mr. Charles Richards is suffering with a very sore boil on his arm.

Mrs. Parker Duckett and Miss Elsie Mannon were Philadelphia visitors last week.

FOUR WOMEN KILLED IN AUTO

MACHINE HIT BY FAST TRAIN AT GRADE CROSSING.

Chauffeur, Badly Injured, May Not Recover—Victims All Prominent in Saratoga—Three Women Guests of Fourth, Who Recently Bought the Machine.

GRANVILLE, N. Y., July 19.—The bodies of four prominent Saratoga women lie in an undertaker's morgue in this city, the result of an automobile accident at Raceville, a few miles east of this city, this afternoon at 6 o'clock.

The dead are Mrs. Eliza Grant, widow of Dr. Grant of Saratoga; Mrs. Charles Field Wells, Jr., wife of the son of a prominent druggist of Saratoga; Mrs. George W. Yates and Mrs. Robinson of Boston, Mass., a guest of Mrs. Wells.

The chauffeur, Charles A. Ostrander, was alive to-night, but with small chance for recovery.

The party was hit at a grade crossing by an extra express train that left Rutland at 4:25 o'clock this afternoon.

The chauffeur says that the engine of his machine was stalled while he was shifting from high to low speed, the crossing being at the top of a steep hill.

The automobile belonged to Mrs. Grant and the others were her guests for the day. A trip had been made taking in various lakes and...

## STORIES For LITTLE FOLK

BETWEEN THE DARK AND THE DAYLIGHT  
WHEN THE NIGHT IS BEGINNING TO LOWER,  
COMES A PAUSE IN THE DAY'S OCCUPATION  
THAT IS KNOWN AS THE CHILDREN'S HOUR

### "THE WONDER CHILD."

A long time ago when William Penn was living in his beautiful home along the Delaware, a little child was born in far away Germany. His father, like Jacob of old, was very fond of this youngest son, and wanted to help him become a great man. He himself, was called a surgeon, but in reality he was only a servant of the upper class, who pulled teeth, bled persons who were not feeling well, etc.

The first words this little child, who was named George Frederick Handel, ever pronounced, were in a song—for he sang before he talked. The toys he liked were the ones that made a noise, such as drums, horns and flutes.

At first the father laughed at this childish fondness for music, but soon he grew alarmed. He thought "if my son should grow up a musician his position in the world will not be much better than mine. I must see that he studies law."

He ordered everything on which music could be played to be taken from the house, and forbade the little boy to play at the homes where music could be heard. He was not allowed to go to school or anywhere that music was known to be.

The boy continued to whistle and beat tattoos on the table, which led his father to threaten cutting the fingers off.

One day little George, with the aid of his nurse, found an old clavichord which the two of them hid in the garret. They wrapped the strings with cloth so as to muffle the sounds. Whenever the child had any time to himself he was to be found in the old garret teaching himself to play.

After a time sounds were heard in the darkness of the night. No one could tell what they were or whence they came. People called the Handel home a haunted house. Have you ever seen the picture of the discovery of the sounds? It shows the father holding a lantern high, which fills the old attic with light. Seated at the old spinet is the little barefoot child who has stolen from his bed to delight in the production of the sweet music. He looks up in surprise, as his father, followed by the entire household, disturbs his happy thoughts.

Shortly after he was discovered at his favorite pastime in the old attic, the father was called upon to make a journey to visit his son, who was a servant in the Duke's castle. George Frederick had heard of the wonderful music one could hear at that palace and so longed to go. He followed his father from room to room as he prepared to make the journey, hoping he would be told he might go. When the coach door had slammed and shut his father inside, the boy decided he must go. He ran as fast as his strong little limbs would carry him in the direction the coach had gone. He did not think of the heat or dust as long as he could keep the carriage in sight and when the first stop was made appeared before his father and asked to go along. They were so far from home and the boy looked so tired and worn out that he was lifted to the broad comfortable seat and allowed to ride the rest of the way.

The old surgeon was a very busy man while at the castle. His little son had to look after himself, so we can easily guess where he was to be found. He lost no time in making friends with the members of the Duke's choir, who allowed him to go to the chapel with them. Sometimes they lifted him on the organ bench and told him he might play.

One day the owner of the castle came to the chapel. As he entered the door he stopped and said: "Hark! who is making such sweet music?" Going a few steps farther he saw before the organ a child of only seven years. He called the boy to him and soon had heard the story of how he loved to play and that it was a thing he was forbidden to do at home.

The Duke filled George Frederick's pockets with shining gold pieces and went in search of the father.

He persuaded him to allow the

son to have the best of teachers.

As he grew older the boy began to write music for all the world to enjoy and play.

Many of these compositions are so beautiful that they have stood the test of all the years and are still among the world's best music.

The most wonderful of all these is a Bible story set to music called "The Messiah." In one place the music is arranged for many voices to sing. This part is called the "Hallelujah Chorus."

It is so wonderful that when it was first sung the King of England, who was in the audience, rose and stood with bowed head. All the people followed the example of the King, and to stand during the singing of the beautiful lines has become the custom for all times.

When the great musician was 67 years of age he became blind. He did not allow the misfortune to make him sad, but would cheerfully tell others what to write down as the music flooded his soul.

His body now lies in Westminster Abbey—a resting place that England has provided for those she considers truly great.

### Road Of Many Bridges

"The road of many bridges." This title would be an appropriate one for the Newark and Pomeroy Railroad as the employees of this short line boast that there are more bridges per mile on it than any other railroad in the country and probably in the world. The road runs from Newark, Del., to Pomeroy, Pa., a distance of 26 miles and there are a total of 66 bridges or nearly three to the mile.

Originally all these bridges were wooden structures, but after the Pennsylvania Railroad got control of the line they have gradually been replaced by iron

bridges. At the present time a three span arch bridge is being built near Doe Run and this will leave but two bridges along the entire road of any size that are not iron. They will also be replaced by the modern iron bridges in a short time.

While the large number of bridges alone is sufficient to make this road a notable one, yet it can also boast of running through as historic a section of country as there is in the United States.

Every mile of it is rich in history, and the scenery at points surpasses many places that tourists go hundreds of miles to see.

The Newark and Pomeroy Railroad was built by an independent company in 1873. The purpose was to reach tidewater from the main line of the Pennsylvania, especially for the hauling of coal.

The road was continued through Newark and on to Delaware City, on the Delaware river and at the Delaware end of the Chesapeake and Delaware Canal. For a number of years it was run as was the original intention of hauling coal to tide water. Some years ago the Pennsylvania Railroad got control of the road and in latter years it has only been operated between Pomeroy and Newark, and for just general traffic business.

The road is also noted for its turns and bends. It and White Clay Creek turn and bend so much that in the course of a few miles the railroad crosses that stream alone 13 times and this accounts for the many bridges. After it gets further away from Newark it also strikes the beautiful and historic Brandywine and crosses that stream no less than seven times.

The road passes through such historic places as Landenburg, Avondale, Chatham, Doe Run, Buck Run, and other places of historic interest. It passes within about one mile of Toughkenamon where is located the famous Hammer and Trowel Inn, said to be the second oldest hotel in the United States, dating back to 1783.

**NEWS**

Here and There

The Delaware Anti-Tuberculosis Society rejoices over the turning of the first shovelful of dirt for the foundation of the new Administration Building at Hope Farm, for which they have been working for so long. Hope Farm nurses and patients and members of the Board of Directors will witness the ceremony.

Charley K., entered by Herman R. Tyson, at Prospect Park, Baltimore, last Thursday, won the \$400 2.20 trot, taking the second, third and fourth heats in 2:18 1-4, 2:27 3-4 and 2:19 1-4.

Thomas W. Patchell, the champion corn cutter of White Clay Creek Hundred has offered to meet Price Wilson, of Middletown, who claims to be the champion of New Castle county. Patchell wants to meet Wilson in a contest on 50 to 100 shocks on any amount.

The fall institute of the Women's Christian Temperance Union will convene in Forest Presbyterian Church, Middletown, on October 5th. Prof. A. R. Spaid will give an account of the recent experiences in the Maine prohibition contest and the national superintendent of scientific instruction in temperance, Mrs. Edith Smith Davis, will give an address in the evening.

An oyster supper for the benefit of Head of Christiana Church will be held at the home of Mr. and Mrs. E. B. Milburn, Barksdale, Thursday afternoon and evening, October 5th. Selected evening throughout the evening. If rainy the event will be postponed until the next clear night.

Hon. O. W. Newton, member of the State Board of Agriculture, believes that the recent rains have saved Delaware's next year's strawberry crop. The long drought had seriously affected the vines, but there was enough life in them when the rain came, to cause them to be revived, and they are now in good condition.

The first executive board meeting of the State Federation of Women's Clubs for this season will be held at the home of Mrs. A. D. Warner at Kentmere next Friday, September 29th. It is believed that Federation affairs will center largely in Wilmington this year, since the new President, Mrs. John C. Robinson, is a resident of that city. It is expected that special stress will be put upon libraries this year. The clubs have been interested in the traveling libraries for several years, in fact, started them, and it is desired to increase the interest to an even greater extent.

At the request of the State Board of Agriculture Professor Mel T. Cook, Plant Pathologist of the Delaware College Experiment Station made an investigation last Thursday in the vicinity of Delaware City, and St. Georges, relative to the chestnut tree disease. The investigation extended from Delaware City south to St. Georges and he found four points affected, one pronounced and three slight ones. Two trees were found dead as a result of the disease. While there are not a great many trees in this locality, there are sufficient for the use of farmers in fencing etc. It is the opinion of Prof. Cook that not a tree will be left in five years, unless something is done to check the spread of the blight.

A box social will be held on Walker Fell's lawn, tomorrow, September 28th, for the benefit of the M. E. Church.

**Beautifying The P. R. R. Right Of Way**

By beautifying its road bed and station grounds, the Pennsylvania railroad is effecting material economies and at the same time securing what the experts' latest dictum declares to be an ideal road bed.

Grassy banks, sloping smoothly down to the tracks strike the passenger's eye on the lines of the Pennsylvania. Nine out of 10 people think these sodded slopes are put there solely to please the eye and make the Pennsylvania a good road to look at, as well as to ride upon. This is a mistake—the grass is more useful than ornamental and eventually it will mean

the saving of thousands of dollars now spent on "maintenance of way." "Water," said a prominent railroad official in a recent lecture, "is the greatest enemy of the road bed." Water flowing down unsodded slopes causes erosion, washing dirt and stones into the ditches beside the track and choking the drainage.

It was in the summer of 1905 that the Pennsylvania adopted the present improvement, in order to reduce the cost of maintenance as well as to make travel on the Pennsylvania railroad safer, more comfortable and altogether more agreeable. A committee of engineers prepared plans for what is now termed "standard road bed," which requires a ditch of 10 1-2 feet wide on each side of a four-track road, and the bottom of the ditch must be 3 1-2 feet below the level of the top of the ties. That means that there must be a decided slope from the lowest part of the roadbed from the ditch.

In addition to the sodding of embankments, the Pennsylvania is planting shrubbery and ornamental trees in open places along its right of way. Thousands of plants are grown every year at the company's nurseries at Morrisville for beautifying station grounds. The work is gradually being extended as plants become available. Work on the main line will be prosecuted until all of the station grounds have been improved. After that it will be extended to branch roads.

**Absent Ones**

Absence makes the heart grow fonder, but the memory of the absent one becomes vague and dim. You long to picture in your mind just how "HE" or "SHE" would look, but there's a mysterious something which makes this mental picture impossible.

But if you had a photograph before you, then you could recall the forgotten face, yes, even the kind acts, the gentle words.

Wouldn't that "ONE" so far away appreciate your photograph too.

Why not call today at the NEW STUDIO over Ed. Herbener's Post Card & Music Shop, and look over the latest styles.

Fell, of Wilmington, were recent visitors at the home of their son, Wilmer Fell and wife. Mr. and Mrs. W. P. Stinson entertained on Sunday Mr. and Mrs. A. McDowell, of Roselle, Mr. and Mrs. C. T. Eastburn and daughter Iva, of Red Mills. Mr. and Mrs. Mansel Tweed, of Manayung, visited Alban Buckingham and family on Sunday. Miss Sara Whiteman is visiting William Little and family. Mrs. Sarah Whiteman and son J. Harry, Whiteman, of Wilmington, visited E. V. Whiteman and family recently. Mrs. George Dempsey and son spent last week with her parents, Mr. and Mrs. Eli Davis. Mrs. Harry Wirt, of Hockessin

has been spending a few days with Mr. and Mrs. R. G. Buckingham. Mr. Warren Lamborn spent Sunday with his brother, Lester Lamborn, at Rosedale, Pa. Miss Mabel Davis has been spending some time as the guest of her sister, Mrs. Fred Strahorn of Kennett Square, Pa. Edward Curtis and Messrs. Toy of Yorklyn, spent Sunday with Ray Moore. Mr. and Mrs. O. K. Strahorn of Newark, spent Sunday with Mr. and Mrs. J. W. Worrall. Miss Violet Jacobs, of Wilmington, is spending some time with her parents, Mr. and Mrs. Henry Jacobs. Calvin Eastburn and family and Miss Emma Welsh spent Sunday evening with Mr. and Mrs. Robert Taylor of Pike Creek.

OBITUARY

Former State Senator Samuel Alrichs, one of the most influential men of his community, died at his home in Glasgow on Tuesday. The deceased was in the 74th year of his age. He has served for many years as postmaster of Glasgow, under the appointments of Presidents Hayes, Arthur and Harrison. His health had been poor for some time. Early in the summer he went to Asheville, N. C., to recuperate, but was compelled to return home, where he gradually grew weaker. He was engaged in business with William B. Sharp, in Wilmington in early life. His first Presidential vote was cast for Lincoln in 1860, since which time he has been an active Republican. A wife and one daughter survive. Funeral services will be held on Friday morning at 11 o'clock. Interment in Bethel Cemetery.

LAURA B. HARKNESS. Laura B. Harkness, aged 52 years, died at her home near Milford Cross Roads, September 20, 1911. Funeral services were held on Sunday, September 24, at 11 a. m. Interment in Ebenezer cemetery.

MISS MYRA HURD. Miss Myra Hurd, of Winchester, Mass., died last Thursday at the home of her sister, Mrs. Minot Curtis. Miss Hurd came to Newark to visit her sisters several months ago. The first night of her visit, she fell, breaking her hip. Being in her eighty-fourth year she never recovered from the shock of the fall. Services were held at the home of Mrs. Curtis, after which the body was taken to Newton Lower Falls, Mass. Miss Hurd's childhood home, for interment.

RACHAEL HUGGINS. Rachael Huggins, wife of Levi Huggins, former resident of Glasgow, died at the home of her son-in-law, Merrit P. Hastings, in Wilmington, on September 23. Funeral services were held in Pender Presbyterian Church, this Wednesday afternoon. Interment in the cemetery adjoining.

AROUND HOCKESSIN. Mrs. Sarah Myers, of Washington, is the guest of Hockessin friends.

APPLE TREES FOR ORCHARD PLANTING, fall of 1911 or spring of 1912. 1-year-old trees, all fumigated and FREE FROM DISEASE; as fine as can be grown anywhere. Best varieties for profit, including:

FOR EARLY — YELLOW TRANSPARENT, WILLIAMS' RED, EARLY RIPE, RED ASTRACHAN, FOURTH OF JULY and others. We are SURE we have our varieties straight and pure, and this should mean something to a planter. We also have Peach Trees, Pears, Cherries, Plums, Grapes, English Walnuts, Shade Trees, Privet plants for hedges around yards and lawns. All prices reasonable. Come see our nurseries, or let us send you catalogue. Address, D. S. COLLINS, Manager, The Delaware Nurseries MILFORD, DEL.

Choice Houses, Farms and Lots

AFTER traveling through the West, Middle and Northwest, have concluded that farms now being sold in the Eastern part of Pennsylvania, counting improvements, are cheaper than in any other section of the country. With good corn, grass, running streams and mild winters all make this one of the most desirable dairy districts in the United States.

West Grove, Pa., is on the Central Division of the P. B. & W. R. R. Co., 40 miles from Philadelphia, and within a radius of 150 miles of ten or twelve millions of people. Here I have a number of these old Chester County Homesteads for sale, among them the following:—

WEST GROVE BOROUGH. 6 room frame house and lot on Hillside avenue. Lot planted in small fruit.

7 room house with slate roof on Murray ave., lot 166 1-2 ft. on Murray Ave., and 170 ft. deep to Woodland.

8 room good frame house, slate roof, ample yard and fruit. Corner Maple street and Harmony Road.

8-room stone house on W. Evergreen street (the main street). Slate roof. Desirable for small family.

Lot on Prospect Ave., fine location for building.

A desirable double brick house on Murray Ave., on desirable terms, 11 rooms in both, slate roof, supplied with borough water. House or houses easily rented.

Double frame 16 room house. Barn 20x20 on Summit ave., with two lots adjoining, makes a good investment.

Entirely new artistic cut stone house on Jackson ave., overlooking the valley. Fitted with electric light, hot air plant and hot water, one of the handsomest in town, must be examined to be appreciated.

Farm and homestead of the late Samuel C. Kent, who used to be one of the largest importers of Guernsey cattle; containing 80 acres, with fine buildings, including electric light, bath and steam heat.

The Jefferis homestead, four acres; very fine brick house, commanding beautiful view of the Troughenamont Valley.

The Joseph J. Hoopes homestead, 203 acres, within a mile of West Grove, 16 room brick house and brick barn.

93 acres. Another desirable farm in this vicinity. Equal distance to West Grove and Keltion, 1-2 miles. 17 room stone mansion. Barn 50x55 feet for 32 head. Splendid outbuildings of all kinds. This must be seen to be appreciated and will not be in the market long. Sold on account of failing health.

LOTS. Choice building lots on East and West Evergreen street, Prospect avenue; Jackson avenue and Harmony Road.

On Harmony Road, new 7 room cement house, slate roof, celled attic, electric light, hot air heating, hot and cold water, both, large lot.

Myrtle avenue, opposite public school, 7 room frame house, with or without adjoining lot.

WAREHOUSE PLANT. Warehouse Plant—One of the largest and most complete warehouse plants on the Baltimore Central R. R., situated in West Grove. In operation since railroad was built. Is now doing a large and increasing business. Includes three story stone and frame warehouse, 112 ft. long, lumber shed, two stories, 112 ft., large coal sheds, office, shop, stable, hay house, lime house, scales, elevators, grain separators all in complete order. Reason for selling, to retire from business.

AVONDALE BOROUGH. Two and a half story brick house on Penna. ave., 8 rooms. Lot 50x200. Two story shop, good stable and carriage house. Good garden and fruit. Desirable home on trolley line.

9 room and bath brick and frame house, slate roof, on Penna. ave. One of the most delightful and desirable residences in Avondale.

LONDONGROVE TOWNSHIP. 10 acres in Londongrove township, near Chatham and West Grove; well set in fruit and fruit trees. 8 room stone house beside bath room and attic. Barn 30x30, chicken, hog and wagon house, also ice house and silo. An exceedingly attractive farm and home.

193 acres near London Grove, 3 1-2 miles to Avondale, brick and stone house, 12 rooms, bath, etc., etc., large barn, nearly new, 70x82 feet, stabling for 40 head, chicken, hog and tool houses, 3 tenement houses, good streams and springs, water forced to buildings by hydraulic ram. The land is in a high state of fertility, 35 acres meadow and 15 acres timber. Price low and terms easy.

120 acres half mile from Avondale. 10 acres meadow, 12 timber land, fruit of all kinds, fine 12 room cement stone and frame house, hot and cold water and bath room barn for 28 head. Good outbuildings. Most desirable.

40 acres in Londongrove township, 1 1-2 miles south of West Grove, 4 acres fine meadow, good apple orchard, 10-room frame house, barn 40x40 feet for 15 head of stock. One of the very desirable farms near railroad and trolley.

20 acres near Chatham, 8 room frame house and all necessary outbuildings. Apple, peach and cherry trees. Barn 24x40 for seven head of stock.

House and lot in Chatham on main street, lot 95x135 ft., 7 room, two story, bay window house. Stable 18x20. An attractive place.

Grove in New London township, 12 acres of it in timber and 8 acres meadow. Variety of fruit trees. 9 room and attic stone and frame house; barn 40x50 for 22 cows and 6 horses; hog house, 2 chicken houses, 2 wagon houses, two corn cribs, beside workshop and wood shed. Pump at both house and barn.

WEST MARLBOROUGH. 143 1-2 acres in West Marlboro, 1 1-2 miles to Cloumell. 20 acres good pasture, 20 or more acres timber. Apples and other fruits, 10 room stone and brick house. Barn for 28 head of stock, both watered by ram. Very good 6-room tenant house, good wagon house attached to barn, good cement floor hog house and other needed buildings. A desirable farm.

LONDONDERRY. 47 acres and more in Londonderry, 2 miles to Green Lawn, 4 mile north West Grove, 5 acres meadow, 4 acres timber, 8 room brick house, barn and silo. Pump at house and barn, necessary buildings for all purposes.

FRANKLIN TOWNSHIP. Farm of 105 acres in Franklin Township, 1 mile southwest of Kemblesville; nine room frame house, 2 acres of timber and 12 acres of meadow; well watered; pump at house and barn; barn about 40x60, double-decker, stable twenty head stock. A nice home in good order.

A 90 acre farm in Franklin township, 5 miles southwest of West Grove and one mile north of Kemblesville, on the main road leading from New London to Newark, which will probably be a trolley road or a stone road before long. Eight acres of timber, variety of fruit trees; 12 room stone house with attic, barn 50x60 for 25 head of stock; all buildings in good repair. A desirable home.

85 acres in Franklin Township, 4 miles from Keltion, 5 acres meadow, all kinds of fruit and necessary outbuildings. 16 room brick and stone house, adapted to two families. Windmill. Barn 40x50 for 16 head of stock.

STRICKERSVILLE, PA. Fine 8 room up-to-date brick house and stable on direct road from New London to Newark, Del. About one acre ground set in fruit trees and small fruit. With the establishment of the new road this corner becomes a center of business for miles. Fine location for a doctor.

EAST NOTTINGHAM. 6 1-2 acres in East Nottingham, 1 1-2 miles to Lincoln, 7 to West Grove, 2 1-2 to Oxford. 5 room frame and log house, good well and stream, barn and shop 18x42, necessary outbuildings.

5 acres near Landenberg, an old mill and barn fitted up for mushroom. Never failing water, dam in good shape, railroad siding, 9 room frame house. Fruit small and large.

COUNTRY STORES FOR SALE. Store and 14 acres in Kemblesville, a thriving village in Southern Chester county; 12 room brick house, tin roof; brick store, separate, suitable for good business. Barn for 10 head stock. Sold on account of impaired health.

To the one who will decide quickly the following general store business and stand is for sale at a bargain for the present. Brick store and dwelling house combined with over four acres of land. Situated at Strickersville, Chester Co., Pa., one mile from Thompson station on P. R. R., 2 cross roads on main line to Newark, Del. Stone room 24x24 house 7 rooms, attic and cellar, barn 40x50. Also a second brick dwelling, 5 rooms and a frame house, 6 rooms and stable, with a creamery building and 3 1/2 acre warehouse, 48x55. Everything in perfect repair. Good business location. Postoffice in store for years, 2 mails a day. Electric lights. An old, well established general merchandise business, side wagon and implements of it. An unusual opportunity for the right man for we are ready to do business now.

DELAWARE. 195 acre farm in Mill Creek Hundred, 3 miles from Newark from Thompson. Frame house and barn, suitable outbuilding, fine location. Sold to close estate.
