E.A. Graydon, Esq., Vicepresident  
The Mexican Light & Power Co., Ltd.,  
Toronto 1, Ont.

Dear Mr. Graydon :

I was delighted to hear your voice over the telephone and to know that you are back. I hope that you will take things easy for a while.

You have, I understand, read some of the letters I have recently written to Mr. Consolo and Dr. Rembert in the International Bank in Washington and to Mr. Stewart on financing and labor problems etc. in the Company.

I have a friend, Foster Stearns, who is the son of the Stearns who was personal adviser of President Coolidge and acted in the same capacity as Colonel House did to President Wilson and for some years to President Roosevelt. My friend is now retired and lives in New Hampshire, but he is still very much interested in politics, not for personal position but out of a sense of duty as a citizen. We have been in touch from time to time for years. I send you herewith a copy of an article he sent me, by Edson B. Smith and published in the BOSTON HERALD recently, and which is really very pertinent these days. I feel sure you will be interested. I will also send a copy of the article to Mr. Heineman.

With all good wishes,

Cordially and faithfully yours,

George S. Messersmith.

Encl.  
CC. to Mr. D.N. Heineman
