

# DELAWARE COLLEGE REVIEW

VOLUME 36

NEWARK, DELAWARE, MAY 5, 1920

NUMBER 26

## Delaware Makes Fine Showing at Penn Relay Carnival

First Team Finishes Third in Middle States Class. Harmer Lowers Quarter-Mile Record

THE RELAY TEAM

Delaware's track team showed it will be a power in the Intercollegiate at Rutgers by its brilliant showing Saturday at Penn Relay Carnival. The first team entered in the Middle States championship finished third in record breaking time. Rutgers won in the fast time of 3 minutes 26-4/5 seconds, Lafayette nosing out Delaware by a foot. The race was one of the most exciting of the day! Tebo, Pitman, Smith, and Harmer all ran in fine shape, Harmer ran 50-2/5 seconds in the final quarter picking up five yards on Crawford the Lafayette crack. In this race Delaware competed against Rutgers, Lafayette, Dickinson, Swarthmore, Lehigh, Haverford, New York University, Washington and Jefferson, Muhlenberg and Lebanon Valley. Delaware's time for the mile was 3.29-2/5. As two of the first team's men are freshmen and the remaining two sophomore's our

chances next year for a championship team are very encouraging.

The second Blue and Gold team composed of McMullen, Wilson, Kite, and Lilly ran in the class College relay and finished fourth. Stevens placed first, City College of New York, second; and Pennsylvania, third. All four teams placing ran very close races. Only a few yards separated first and fourth man. The time was 3 mi. 34-3/5 secs.

Humphries, of the freshmen class placed sixth in Javelin throw with a heave of 144 ft. 7 1/2 inches. Captain Loose made a very creditable showing in the discus throw, and Tom McDonnell's pole vaulting was very good. It was the best showing Delaware has made in years at the Penn Relay and great credit should be given Coach LeCato for his fine work in conditioning the men.

## Tennis Team Drops Opening Matches

The Tennis Team lost the first two matches on its schedule Friday and Saturday of last week. The first match was lost to Swarthmore, at Swarthmore, 6-0. Stevens Tech won from Delaware on the courts while she was losing on the diamond. The score was: Stevens 3, Delaware 1.

The Delaware men have been greatly hampered by the repairs to the courts and the inclement weather, and there is every reason to believe that they will do better in the succeeding matches.

The Swarthmore men have been out on the courts for more than a month, and were fit as a fiddle for the match. Jim Horty starred for Delaware at this match. He forced Dudley, Swarthmore's "best bet," to the limit to win his matches. The complete scores follow: Singles: Dudley vs. Horty, won by Dudley, 6-4, 7-5; Brown vs. Olcott, won by Brown, 6-4, 6-1; Landes vs. J. Challenger, won by Landes, 6-2, 6-1; Baker vs. B. Challenger, won by Baker, 6-2, 6-4. Doubles: Dudley and Brown vs. Horty and J. Challenger, won by Swarthmore 7-5, 6-2; Landes and Baker vs. Olcott and B. Challenger, won by Swarthmore 6-2, 6-2. Final score: Swarthmore 6, Delaware 0.

The doubles were not played at the Stevens match owing to the fact that it was deemed impracticable to use the East court. Olcott registered Delaware's only

point winning from Loud; 10-8, 6-4. The other scores follow: Chastening vs. Horty, won by Stevens 6-2, 4-6, 6-3; Anthony vs. S. Lynch, won by Stevens 6-3, 6-0; Glenn vs. B. Challenger, won by Stevens, 6-1, 6-4.

The next match is with P. M. C., at Chester, May 8th.

## Student Council To Hold Dance

On Saturday night, May 8th, the last Student Council dance of the year will be given. The dance will be held in the Armory to enable the Council to accommodate the large crowd that is expected. As May 8th is the day set for the Annual Interscholastic Track and Field Meet which has come to be a big event on the college campus, a goodly number of outsiders will probably be in attendance. If the affair comes off in fine style, it may help a great deal in influencing some of these fellows from surrounding high and prep schools to think seriously of coming to Delaware.

The dance will begin at 8 o'clock and end at 11:30, as is customary with all Student Council dances. There will be plenty of good, "peppy" music, furnished by George Madden and Jimmy White, whose reputations as musicians need no questioning. Tickets may be bought from the following men: "Dick" Barnard, Alexander, Thomas, or Holland, and the price of admission is \$1.75.

## Possible Solution of Labor Problem

Experiment in Industrial Democracy Explained by H. R. Fitzgerald

H. R. Fitzgerald, President of the Riverside and Dan River Cotton Mills at Danville, Virginia, delivered a lecture on his system of factory management to the combined economics classes of Delaware College and the Women's College of Delaware assembled in the Hilarium of Warner Hall last Wednesday afternoon. Many other students of both colleges were present.

Mr. Fitzgerald is a graduate of Washington and Lee University and has been a student of economic problems all his life. However, he was not actuated by charitable motives when he installed his unusual system of employee representation. His business was encountering serious financial reverses when he conceived the idea of giving his employees a larger share in the management of the company. He found that by doing this he increased their efficiency and quality of workmanship, and as a result greater profits accrued to the company. These additional profits, he divided "fifty-fifty" with his employees.

Briefly, the system which Mr. Fitzgerald uses at his factories and which he calls an "Experiment in Industrial Democracy" is as follows: The foundation of the whole system rests upon a Policy agreed to jointly by the employers and employees. This Policy has for its cornerstones Justice, Cooperation, Economy, and Energy. Service is the capstone. The plan of government is similar to that of the United States. There is a Legislature composed of workmen elected on the basis of one representative for every forty workers. The Senate consists of all of the foremen of the mills, and is thus not an elective body. A cabinet composed of the executive officers of the company holds the power of veto. A two-thirds vote of the Senate and House of Representatives, however, overrules any veto of the Cabinet, even in the matter of wages. Mr. Fitzgerald reports that his employees have never in any manner whatsoever taken advantage of the system, and have shown a willingness to cooperate which can only be fully shown by comparing the increased earnings since the institution of the system with those before its institution. As was noted before, the excess profits are divided equally between the employees and the employers. This excess is determined by the cost department for each month, and is distributed to the workers in the form of a cash bonus.

This system of management tends to decrease the "floaters" and inefficient workers and in general to increase the efficiency of the whole organization. At the open Forum conducted immediately after the lecture, it was contended that this system although not of universal application is a real step forward in the solution of the great Labor and Capital problem.

## Blue and Gold Ball Tossers Win Hard Fought Games

Defeat North Carolina State 2-0 and Stephens Tech. 3-1; Team Shows Continued Improvement

Last week Delaware tucked two more first-class scalps under her belt, evening up the score for the season with four victories and four reverses to her credit. North Carolina State and Stevens Tech were the victims and each one died hard.

Fresh from a string of triumphs, one of which was over the crack Maryland State squad, the Tar Heel lads appeared on Frazer Field full of confidence for a victory over the Blue Hen's Chicks. The Chicks however seemed to have hit their winning stride after their southern trip and very stubbornly refused to be beaten. They jumped into an early lead of two runs and held their opponents to a lone tally until the "Great Umpire," Jupiter Pluvius, declared the game called at the beginning of the seventh frame. Joe Rothrock was on the mound for Delaware and he pitched steady ball throughout the whole game, despite a tendency now and then to become a trifle wild. He was working well when the game was called. The whole squad deserves credit for its work in beating such a first-class team.

## Stevens Game

Saturday may well be termed a "red-letter" or "epoch-making" day in the history of Delaware College. On that day several hundred "Sons of Delaware" saw the Chicks put the skids under the fast team from Stevens Tech, to the chant of 3 to 1, the first setback for the Hoboken lads this year.

"Lefty" Carl worked for Delaware, and his work, though not sensational, was steady and effective. He did not allow a base on balls and was exceedingly stingy with his hits, especially when one would have counted for a run for the visitors. Joe Rothrock relieved him in the ninth and continued the good work.

The game as a whole was judged and conceded to be one of the best ever seen on Frazer Field. Snappy work by both clubs was in evidence and the spectators were more than pleased with the results. All four runs were the results of good clean baseball.

## Engineering Society Becomes Nationalized

At the next meeting of the A. A. E. on May 6 two motion pictures will be shown. Both pictures are released through the Sullivan Machinery Company and are reported to be very good. One of them shows the stages in construction of mining machinery by the Sullivan Company, from their foundry floor, through their various departments to the actual operation of the machinery in the mines and mills of the country. The second picture is entitled

"The Story of Coal" and is released through the U. S. Bureau of Mines. In this reel, diamond core drilling, coal undermining by machinery, loading, hoisting and preparing and shipping coal are shown in great detail. It is hoped that all interested men will take advantage of the chance to see these pictures, for short of visiting the Sullivan shops and the mines themselves, a student can secure in no better way a clear cut idea of the manufacturing processes and of the field use of the various mining machines. These films were secured through the aid of Professor R. W. Thoroughgood.

#### The Aim of the Review

With this issue, the newly elected board assumes its duties in publishing the Review. During the past year, the Review under the old staff has come more and more to be recognized as the real official organ of the student body. The Review should represent the consensus of opinion of the whole student body; it should serve as a newspaper of college activities to the Alumni and to other colleges; it should be a medium through which constructive criticism of the administration of the college should appear; it should be the outlet for any overflow of student zeal in journalism; but, in a larger sense, all of these qualities may be embraced in one broad ideal, that of rendering the greatest amount of service to our college. Without this ideal, no college paper can hope to exist. It is the aim of the new board to do all in its power in order to make the Review represent more definitely than ever before the sentiment of the student body, and, at the end of the year, to turn it over to the succeeding board with the feeling that the Review has done its share toward making a bigger and better Delaware in every way.

#### The Interscholastics

When Doctor O'Brien, of Central High School of Philadelphia, fires the shot for the opening race on Saturday the best interscholastic meet of the season will be on. Joe Frazer Field will be a continuous three ring circus with track and field events being staged all afternoon. This meet has gradually increased in popularity till it is one of the best attended and fastest meets of the year. With such teams as Tome Institute, Baltimore City College, Perkiomen, Mercersburg and Baltimore Poly. competing in the first class no apology need be offered for the calibre of the races. This meet will afford a fine opportunity for Delaware interesting high school and preparatory students in matriculating at our college. It will also give the entries a chance to look us over and we should make a special effort to have everything as congenial and pleasant as possible for our guests. It is the duty of every man in college to be on hand Saturday to assist in any possible way. The success of this meet will be a huge advertisement for the college, and be the means for increase in quantity and quality in enrollment of the Freshman class next year.

Dantz, T. R. (telling of the baseball trip)—"They had a course laid out on the river—"  
Royner, J.—"A golf course?"

#### Letter to the Editor

Student Council, Delaware College,  
Newark, Delaware,  
May 3, 1920.

Mr. T. Wilmer Holland, Editor,  
Delaware College Review,  
Newark, Delaware.

Dear Sir:

At the last meeting of the Student Council, a vote of thanks was extended to Mr. Charlesworth Carswell for the splendid work he did for Delaware College in the capacity of Editor-in-chief of the Delaware College Review.

Through his efforts the college paper appeared at regular time and a wide circulation was attained. The whole paper always held those things of interest to the Student Body. The Student Council was greatly aided in the various attempts to further student interests through the splendid articles in the Review. We, as representatives of the Student Body, feel that Mr. Carswell has done his work and done it very well. We ask you, as the editor-elect to publish this letter in your editorial columns.

With best wishes for a successful Review under your editorship, and thanking you for your favor.  
Yours very truly,

F. BAYARD CARTER,

President Student Council  
for  
The Student Council.

#### Railroad Officials

##### Express Gratitude

The following letter from Mr. Sam'l Rea, President of the Pennsylvania Railroad, was read in chapel on Tuesday, April 27:

Dear Dr. Mitchell:

Now that the critical transportation situation, caused by many of our employees leaving their positions, has in a large measure passed, I want to express, on behalf of the officers of the Pennsylvania System, thanks and appreciation for the assistance rendered us in the emergency by the stu-

dents of your institution.

We are grateful for your co-operation in making it possible for your under-graduates to temporarily leave their studies, and to the boys, who, from a sense of public duty, so whole-heartedly threw themselves into the breach and enabled us to cope with the conditions that threatened to disrupt the public service.

It would be hard to over-estimate the value of the services performed by these young men, and the vigor and aptitude with which they applied themselves to their new duties was a marvel to their supervisory officers.

Out of all the developments of the past ten days or more it is certainly heartening to those of us who are endeavoring to make transportation a success, to realize how firmly behind us in our efforts is the great mass of the thinking public, the institutions of learning and outside industry.

Very truly yours,  
SAML REA,  
President.

In speaking of this letter, Dr. Mitchell pointed out that the very act of the college men volunteering to go into the shops and work so that the country as a whole should not suffer, was indicative of the spirit of the times, which is that the will of the majority of the people shall rule. It should be made clear that the colleges, in offering their assistance, did, in no way, attempt to side with capital against labor in the dispute, but instead, acted for the best welfare of the nation by helping to keep open the lines of transportation upon which our nation has come to depend so much. In closing, Dr. Mitchell also expressed his gratitude to the men for their response to the call and commended them upon their good showing.

#### "Ag" Club Plans

##### Demonstration

A large number of High School students, who are taking Vocational Agriculture, are expected to attend the track meet on May 8th. Members of the Agricultural Social Committee will try to arrange for some laboratory demonstrations following the track meet. The purpose is to show to them the facilities and equipment in some of our departments and incident-

**SONS OF DELAWARE VISIT COLLEGE**

**Annual Banquet Held in Old College**

The Philadelphia Sons of Delaware held their annual outing at Delaware College last Saturday. About two hundred and fifty members and their guests were present. After the men arrived at Newark they proceeded to the steps of Old College where Dr. Mitchell delivered an address of welcome. Governor Townsend was formally introduced to the men at this time. The gathering then departed for the Red Men's Home, and saw the May Day exercises given by the students of the Women's College. The performance pleased the guests very much, and credit should be given to the participants and to those who assisted in making the affair the success it was.

At the conclusion of the exercises some of the visitors went to see the ball game, while others took an automobile ride. Several of the members also visited the Women's College, and spoke very highly of the general appearances of the college.

**Pageant At W. C. D. Is Great Success**

The May Day pageant, held in the Red Men's Grove by the students of W. C. D. on Saturday afternoon, was carried off in "ye truly olden style," and from the standpoint of a mere spectator, it was hard to distinguish between the Queen and her Duchesses and the less favored "Ladies in Waiting." All the principal characters were elected to their roles by the student body and the results showed clearly the wisdom of their choice. Miss Alice Roop took the part of May Queen, as the most popular senior.

The procession formed on the campus of the Women's College at 3 P. M. and marched to the Red Men's Grove, where the queen was duly crowned and a performance given before her by each class. The gay costumes gave a touch of color and a very pleasing effect to this May Day Frolic, which was in all respects a grand occasion.

**Bucknell.** The students of Bucknell held a large pageant recently to mark the beginning of a financial campaign for the benefit of the Inter-World Church Movement.

**Alexander Elected Basketball Captain**

**H. B. ALEXANDER**

H. B. Alexander of the class of '21 has been chosen to lead the Blue and Gold quintet through the season of 1920-21. For three years, "Alec" has been a tower of strength to the team both on defense and offense, and his clever

dribbling and brilliant floorwork have rudely shattered many a team's visions of victory. In behalf of the student body, the Review wishes to take this means of congratulating "Alec", and to wish him the great success which he deserves.

James D. Clancy ex, '20, has been offered a berth by Hughey Jennings' as a pitcher on the Detroit Tigers for the coming season. Since leaving Delaware, Jim has been active in athletics at Swarthmore, and is a three-letter man there.

VACUUM RESEARCH ROOM G-E LABORATORY

Using the X-Ray in the Home

**Greater X-ray Service—through Research**

FOR years after the discovery of X-rays it was evident that only intensive research could unfold their real possibilities.

Meanwhile, scientists of the General Electric Company developed the process of making wrought tungsten. This proved ideal as the target in X-ray tubes and its use for this purpose soon became universal.

Then further research resulted in the development of an X-ray tube of a radically new type — the Coolidge Tube — with both electrodes of wrought tungsten and containing the highest attainable vacuum.

But the complication of high-vacuum pumps made the new tube in large

quantities impossible. The answer to this problem was the Langmuir Condensation Pump, utilizing mercury vapor in its operation and almost automatic.

To meet the need for simple X-ray apparatus during the war, the G-E Laboratory developed the Self-Rectifying Coolidge Tube, which made possible portable outfits at the front. The latest X-ray outfit of this type is so small it can be taken conveniently to the home or to the bedside in the hospital.

Thus the Research Laboratory of the General Electric Company continues to serve, that progress in things electrical may continue for the good of humanity.

### Inter-Scholastics Largest in History

21 Schools; 226 Athletes to Participate in Annual Meet

Twenty-one high schools and prep schools representing a wide area will compete in what promises to be the biggest interscholastic meet ever held on Frazer Field since the inauguration of that feature six years ago. The meet will start promptly at 1:30 P. M. on Saturday, when both the trial heats and finals will be run.

Coach Shipley and Professor Hancock have been working overtime arranging, and sorting and classifying. They have announced the following officials:

Honorary referees: Mayor Eben B. Frazer, Dean E. Smith, H. Rodney Sharp and Sec'y of State Everett C. Johnson.

Referee and Starter: Dr. S. Raby of Gettysburg; Custodian of Entries, Prof. J. M. LeCato, Chief, and Paul Kite assistant; Clerk of Course, Latrobe Cogswell, assistant, W. F. Harmer, John Williams, and W. C. Lilly; Judge of track events, Maj. Lewis Sanborn, Prof. G. E. Hancock and F. T. Thompson; Judge of Field events, Dr. M. R. K. Lamkey, Norris N. Wright, J. Pearce Cann, Harlan P. Sanborn.

Scorers: Prof. G. E. Dutton, T. M. Keith, J. O. Harty, John Singley, Dr. F. M. K. Foster, Prof. J. Thome and W. F. Jacobs; Timers, James McCallister, Capt. Dickinson, Prof. Heim, Herman R. Tyson, Daniel Thompson, H. Warner McNeil; Measurers, Prof. John S. Coyle, Chief, Harry Loose, R. T. Arbuckle and Reed Graves; Inspectors, Dr. Owen Sypherd, Prof. Baker, Dr. Miller, Armstrong, and Rowan.

Announcers: Bayard Carter, Dick Cole, Arley B. Magee. Custodian of Batons W. W. Lattomus. Custodian of prizes H. B. Shipley, Gray Carter, L. Roemer and H. B. Alexander.

Reporters: W. E. Hayes, Paul Wintrup, R. Betty, Jr.

Photographer: W. Broughall.

Entertainment Committee: Dr. Walt H. Steel, A. G. Wilkinson.

Marshals: Sergt. D. H. Morgan, Sergt. Frazer.

Alternates Dr. John R. Moore, Prof. Kirkbride, Dr. Homer Hoyt, G. W. Rhodes.

The various teams have been arranged in three classes as follows:

- Class I**  
Baltimore Polytechnic Institute  
Jacob Tome Institute  
Perkiomen Seminary  
Mt. St. Joseph's College  
Mercersburg Academy

- Class II**  
Baltimore Friends  
Wilmington High School  
Wes. Coll. Institute  
Frankford H. S.  
Vineland H. S.

- Class III**  
Centerville H. S.  
Chesapeake City H. S.  
Avondale Vocational  
duPont H. S.  
Newark H. S.  
Caesar Rodney H. S.  
Seaford H. S.  
Harrington H. S.  
Marple Newton Vocational H. S.  
Middletown H. S.  
Dover H. S.  
Georgetown H. S.  
Milford H. S.

Every effort has been made to provide for the comfort and entertainment of the contestants and their friends. There will be a Student Council Dance in the evening. The visiting athletes are cordially invited to attend.

### Mr. Pierre S. duPont To Speak In Wolf Hall

A rare opportunity to hear a speaker of great personality and intellectual power will present itself to the student body and to the townspeople of Newark on Friday evening, May 7, when Mr. Pierre S. duPont will speak in Wolf Hall before the annual Conference of the representatives of the various high schools of the state. As Vice-President of the State Board of Education, Mr. duPont will, no doubt, at this time outline his views on the future of the schools of Delaware, to the promotion of which he is giving his time, energy, and influence.

Besides being a great factor in the advancement of a better public school system in Delaware, Mr. duPont has been largely instrumental in giving to Delaware College the many improvements which have taken place in the past few years. For this reason, if for no other, the student body should be present to hear the plan which he has to fit the young people of Delaware to derive the greatest benefit from these improvements. The fact that the public schools are being improved and modernized by leaps and bounds is one of the most conclusive proofs of the future of Delaware College, and it is a subject in which every student should be vitally interested.

Mr. duPont's address will be the

opening gun of the High School Conference which has now become an annual affair. On Saturday morning, speeches will follow by Supt. C. W. W. Schantz, of Smyrna, Dr. K. R. Greenfield, R. W. Heim, and A. R. Spaid, State Commissioner of Education.

### Sophomores Win Inter-Class Meet

The 1922 class repeated in winning the inter-class meet. They will be the first class to have numerals engraved on the new silver cup offered for track competition among the four classes. Fred Harmer again won fresh laurels in being high scorer with 11 points and ran on the winning relay. A novelty relay race was staged, and it brought forth all kinds of runners and suits. It was about six o'clock when Coach LeCato started the three men off on the first lap. To see "Abe" Barnard pedal his elongated lower extremities around the cinders was well worth a cold supper, not to mention the super-human effort of "Snipe" Twos to push his massive (?) locks through the roaring wind. The combination of Lilly and Harmer was too much for the other teams and the Sophomores won in a walk. The Juniors and Seniors showed alarming strength in the closing events of the meet. The final point score of the meet was as follows: Sophomores, 54; Freshmen, 39; Juniors, 22; Seniors, 20.

### "Kitty" McGinley Makes Short Visit

Miss Catherine McGinley, who last year acted as assistant to Miss Stuart in the Commons, was the guest of Mr. and Mrs. A. G. Wilkinson over the past week end. During her stay at Delaware, "Kitty" completely won the hearts of the whole student body by her ever willingness to do a good turn for the boys, and it was with genuine pleasure that she was welcomed back on her brief stay.

Since leaving Newark, "Kitty" has been attending Temple University where she is taking a course in dietetics, and it is the sincere hope of all who knew her, that she will eventually see fit to return to Delaware and take up her work here.

Penn State. Three hundred and eighty-one high and preparatory schools are represented in the Freshman class at Penn State.
