NEWARK POST.

VOLUME II | NEWARK, DELAWARE, WEDNESDAY, JUNE 14, 1911 | NUMBER 21

COMMENCEMENT IMPORTANT CONSIDERATION

The commencement at Delaware this year will be fraught with more than usual interest. The largest class in the history of the college will be graduated on next Wednesday. The institution has so linked itself with the interests of the State during the past few years that it is at last being recognized as one of the State institutions.

The Board of Trustees at its meeting next Tuesday will be one of great importance and the interest in its actions is perhaps more widespread than at any previous meeting of the board. The president of the board will be elected to fill vacancy caused by death of Chief Justice Lore, who filled that position for so long. The Vice-President—vacancy caused by the death of Manlove Hayes, will also be filled.

Aside from the regular routine business, the Board will take up the two new departments created by the last session of the Legislature—that of the Department of History, Political Science and Economics, to be known as "State of Delaware chair of History," and also the department of Agricultural Extension" in connection with the Experiment Station and Farm. In both of these departments lay great possibilities and the organization and outline of work is being watched with great interest. In the Agricultural Extension, the Legislature made sufficient appropriation to try the experiment for two years. If successful there is no doubt but that it will become a permanent institution of the State. By these two innovations in Delaware's system of Education, the farmers of the State have shown a willingness to assist the institution along lines of progress, but as one member of the Senate said in voting for the bill, "hereafter, I am from Missouri."

The college will receive from the State during the next two years, $34,000, and to organize so as to spend this money wisely and to the satisfaction of the citizens of the State will require careful thought.

DEATH'S DOINGS

GEORGE McDOUGALL.

George McDougall died at his home in Marshallton, last Saturday, June 10th, in his 58th year.

Mr. McDougall was born in England, but came to America when he was eleven months old. As a young man he was employed in the Dean Woolen Mill, after that was burned, going to Kiamensi, in the neighborhood of which place he has since lived.

He was a member of the K. of P. Lodge, Marshallton, Vulcan Lodge, A. O. U. W., of Marshallton, and Oriental Lodge of Odd Fellows, No. 12, of Newark.

A wife and one daughter survive.

Funeral services were held on Tuesday. Interment in Newark M. E. Cemetery.

ESTELLA D. MARSHALL.

Estella D. Marshall, wife of Harry A. Marshall, died at her home in Christiana, last Saturday. The deceased was in her 44th year.

Funeral services were held at the residence of her mother, Susanna Currinder, on Tuesday. Interment in Presbyterian Cemetery, Christiana, Del.

MARY E. RAUB.

Mary E., wife of Albert H. Raub, died at Sunny Rest Sanitorium, White Haven, Pa., on Friday, June 9th, of tuberculosis.

Funeral services were held on Tuesday at her late residence in Philadelphia. Interment in Westminister Cemetery.

Oratorical Contest

The oratorical contest, under the auspices of the Scientific Department of the W. C. T. U. will be held in the oratory, Thursday evening, June 15. The following are the contestants and their subjects:

Howard T. Ennis—Alcohol and the Public Health.

Horace E. Spruance—The Effect of Local Option in Delaware

Elmer E. Blades—Personal Liberty, Public Obligation.

Emery W. Loomis—Results of Temperance Legislation.

Alfred P. Scott—What Shall be Done with the Saloon.

The judges will be Professor Warren Yerger, of duPont School, Prof. R. F. Friedel, of Newark Public School, and Mr. Edward W. Cooch.

The musical part of the program is under the direction of Mr. Ralph Jacobs.

Dynamite On The Farm

Experts of the duPont Powder Company will give another exhibition of the use of dynamite for farming and ditching purposes in connection with Farmers' Day at the College Farm, Newrak. The dynamiting demonstration is not a part of the College Day program, but has been arranged for that afternoon because it will be convenient to the hundreds of farmers gathered from all parts of the State. The demonstration of the use of dynamite for farming purposes will be made on the farm of George G. Kerr, who is a trustee of Delaware College, the farm being on the Elkton road, three-quarters of a mile from Newark. The tests will be made between 1 and 5 o'clock, so that all can visit the College Farm and also see the use of dynamite during the afternoon.

HORTICULTURALISTS OFFER PRIZES

The Executive Committee of the Peninsula Horticultural Society met at the home of the President, Mr. Frank E. Matthews, Pocomoke, Md., and decided to offer about $300 in cash prizes for fruits, vegetables and canned goods, to be awarded at the annual meeting in Pocomoke, January 9, 10, 11, 1912, and to secure liberal prizes for collective exhibits, such as boxes and barrels of apples, collections of fruits, nuts, vegetables and other products. The following are the principal prizes:

Apples, special prizes on boxes, barrels and collections to be announced. Single plates, first prize, $2, second prize, $1, third prize 50 cents on each of the following varieties:—Arkansas Black, Ben Davis, Mismark, Carolina Red June, Duchesse, Early Ripe, English Redstreak, Fallawater, Gano, Gilpin (Cartnouse), Gracenstein, Grimes, Grandstone, Holland, Pippin, Jefferies, Jonathan, Lawver, Limbertwig, Lankford, Maryland Maiden Blush, Missouri Pippin, Nero, Noyes, Paragon, Rome, Smith Cider, Smokehouse, Stark, Stayman Winesap, Summer King, Winesap, Yellow Newtown, Yellow Transparent, York.

Pears, special prizes on collective exhibits to be announced. Single plates, first prize, $2, second prize, $1, third prize, 50 cents on each of the following varieties: Bartlett, Duchesse, Garber, Howell, Kieffer, Lawrence, LeConte, Seckel, Sheldon.

Quinces, special pirize to be announced. Single plates, first prize $2, second pprize, $1, third prize 50 cents on each variety exhibited.

Canned fruits, special prize for collective exhibits to be announced. Single cans, first prize, $2, second prize, $1, third prize, 50 cents on each of the following: Apples, pears, peaches, plums, cherries, blackberries, raspberries, gooseberries, starwberries.

Canned vegetables, special prize for collective exhibits to be announced. Single cans, first prize, $2, second prize, $1, third prize, 50 cents, on tomatoes, corn, pumpkins, pickles, catsup, Chili sauce, chow-chow.

Preserves, on single jars, first prize, $2, second prize, $1, third prize 50 cents on each of the following kinds: Apples, peach, pear, plum, quince, citron, strawberries.

Jellies, on single glass, first prize, $2, second prize, 50 cents, on each of the following kinds: Apple, crabapple, peach, pear, plum, cherry, quince, blackberry, raspberry, current, strawberry, grape.

Nuts, special prizes on general collection to be announced later. Single varieties, first prize, $2, second prize, $1, third prize, 50 cents on the following: Chestnuts, pecans, Persian or English walnuts, black walnuts, shellbarks, peanuts.

Vegetables, special prize for collection to be announced later. On cabbage, each variety exhibited, first prize, $2, second prize, $1, third prize, 50 cents. Irish potatoes, first prize, $2, second prize, $1, third prize, 50 cents, on each of the following varieties: Beauty of Hebron, Crown Jewel, Green Mountain, Irish Cobbler, American Giant, Gold Coin, Sweet potatoes, Big Stew Jersey, Goldskin, Red Jersey, Early Caroline, Carrots, Danvers, Celery, Golden Dwarf, Golden Heart, Giant Pascal, White Plume, Kale, Lettuce, Onions, Yellow Danvers, Prizetaker, Silverskin. Parsnips, Parsley, Pumpkins, Salsify, Spinach, Tomatoes, Turnips.

The Peninsula Produce Exchange, of Pocomoke, Md., The Eastern Shore Exchange, Onley, Va.; other produce exchanges, the railroad company, have all indicated a willingness to help make the exhibit a large and interesting one. The program will give particular attention to vegetable culture in all its branches. Professor T. C. Johnson, of the Norfolk Experiment Station, and Professor R. Watts, of State College, Pa., both specialists in vegetable growing, have agreed to be present and deliver lectures.

Eugene H. Shallcross, Middletown, Del., was elected a member of the Executive Committee in place of his father, who died last winter.

D. A. R. Entertained

According to custom, the Delaware Daughters of the American Revolution held their annual meeting today—Flag Day.

The ladies were the guests of Mrs. Peterson-Speakman, at Belmont Hall, near Smyrna.

The new State Regent, Miss Anna Cunningham, presided for the first time.

Smyrna was selected as the meeting place, so that the Daughters might be present at the unveiling of the bronze tablet to the memory of the sentinel who was killed on the watch tower of Belmont Hall by a British bullet during the Revolution.

This tablet was purchased by the State D. A. R. about two years ago, during the regency of Mrs. Speakman, but was never put up or dedicated.

Successful Fair

The weather man smiled on Oxford Fair this year, the crowd on the last day surpassing all former records for spring meetings, more than 5300 persons being present.

Fine racing was the rule. Great interest centered in the trial against time of Margaret M., owned by Morgan Mitchell, Aberdeen, Md., driven by Herman Tyson. First quarter, :37, second quarter, 1.14, third quarter, 1.52, fourth quarter, 2.29 1-2.

FLAG DAY--JUNE 14

She's up there—Old Glory—where lightnings are sped;
She dazzles the nations with ripples of red;
And she'll wave for us living or droop for us dead—
The flag of our country forever.

She's up there—Old Glory—how bright the stars stream!
And the stripes like red signals of liberty gleam!
And we care for her living, or dream the last dream
'Neath the flag of our country forever!

She's up there—Old Glory—no tyrant dealt scars;
No blur on her brightness—no stain on her stars!
The brave blood of heroes hath crimsoned her bars—
She's the flag of our country forever!

F. L. Stanton

NEWS NOTES HERE AND THERE

State Counselor Hodgson will visit the local order of American Mechanics on Monday evening, June 19.

The condition of the public lawns reflect to a certain extent the spirit of the community. How about the surroundings of the pumping station

At a meeting of the town council of Dover, held last Monday, the act of the town solicitor in purchasing the Comegy's property known as the base ball park, on North street for a public playground, was confirmed.

The Board of Trustees of the Academy held their annual meeting on Tuesday. After transacting business they adjourned to meet Saturday afternoon at 2 o'clock to inspect the buildings and grounds.

The Senior Club of Newark Grammar School are planning a picnic to be held at Brandywine Springs on June 20th.

A pleasant surprise was given to Edgar Jaquette at his home near Newark, Saturday evening. A number of friends were present and spent the evening in playing games and music. Refreshments were served.

Ebenezer M. E. Church, Fairview, will hold children's day services on next Sunday morning. An interesting program is being prepared.

A serious accident occurred on the farm of Theodore Gale of near Fairview Tuesday. Mr. Gale was using a roller when his horses became frightened and the bridle coming off one of them, they ran away throwing Mr. Gale off the roller and fracturing his left ankle bone. Mr. Gale fainted away, but on recovering managed to make his way to the house. Miss Letitia Gale, his sister, ran out and in trying to stop the horses was knocked down and seriously injured in the side by one of the horses striking her. Dr. Walter Steele, of Newark, was summoned, and is attending both patients. The horses were not hurt.

A mad dog in Glasgow, on Saturday, caused a great deal of excitement, in the usually quiet town. The animal bit several other dogs, but fortunately all persons managed to keep out of the way. The canine was killed and all dogs supposed to have been bitten have been penned up.

The ladies of the Newark Cathelic Church will hold their annual festival on the lawn adjoining the church, June 29th, 30th and July 1st.

Superintendent Spaid visited the Newark schools on Monday.

The ladies of the Glasgow M. E. Church will hold a strawberry festival in the basement on Thursday, June 15th.

A fine new electric sign adds to the appearance of the Washington House.

Miss Estella Sweetman, of Churchill, Md., has been re-appointed as teacher of the Welsh Tract School.

Rev. and Mrs. W. J. Rowan will have Saturday to attend the 20th reunion of the class of '91, Lafayette College, of which Dr. Rowan is a member. Sixty-two representatives of the class are expected to be on hand.

The second of the matinee races to be held at the Kemblesville track will be held on Thursday, June 22nd.

The contract to resurface the Depot road has been awarded Hamilton Stewart. The work was started this week.

Miss Margaret Handy well known to Newark, graduated from Goucher College, Baltimore, last week.

Miss Frances Medill substituted in the second grade on Tuesday.

Commencement exercises will be held at the West Chester State Normal school on Wednesday, June 21st. Miss Mabelle Pennock and Miss Margaret Derrickson, two of Newark's new teachers are among the graduates.

Miss Katherine Heiser is enrolled as a student at the Dover Summer School which opens in July.

Arlington National Cemetery was dedicated last Sunday to the memory of the defenders of the Southern cause. Among the floral offerings was a wreath from the President of a reunited country. The 264 graves were covered with a wealth of bloom.

The wedding of Miss Margaret R. Lank, formerly of Newark, and Mr. William Harris, who is in the employ of the duPont Company, will take place at the home of Mrs. Smithers, in Smyrna, on Saturday, June 17th.

The Ladies Aid Society of the M. E. Church will hold a strawberry festival and apron bazaar on the lawn of Professor C. A. Short's residence next Friday and Saturday evenings.

The first watermelons of the season appeared on Tuesday.

The berry crop in this vicinity was injured by the storm last night.

Only a few more days now before commencement. The storm did good in cleaning out the gutters. It is hoped that the town will have another cleaning up and the waste paper baskets be put in place before Sunday.

Vic Willis pitched for Fifth Ward of Chester last Saturday, when that team defeated duPont by the score of 4 to 2.

The public schools of the town will close on Friday for the summer vacation.

Mr. and Mrs. J. Elwood Zebley have issued invitations for the marriage of their daughter, Harriet Louise, to Mr. Zeruch T. Kimble, on Wednesday, June 28th, at their home near Appleton, Md.

Miss Anne Frances Bayard, daughter ofMrs. James A. Bayard and granddaughter of the former U. S. Ambassador to England, Thomas F. Bayard, will be married to Mr. Norman Underwood, of Washington, June 26th.

Mr. E. B. Frazer, secretary of the sewer commission, has collected $55 of the $107 due. Contributions will still be received from all who feel disposed to help in this work.

The fountain in front of the college has been all painted, ready for commencement time.

The farmers of Delaware and Maryland have succeeded in making arrangements with the officials of the Pennsylvania Railroad Company for a special train to go through the Pennsylvania on an educational trip in the fall. The train. The train will start on its tour November 13, and during the time it is out it will make thirteen stops.

The largest crowds on record are visiting the popular Brandywine Springs Park this season.

Miss Elsie Wright will give a dance to her friends on Thursday evening, in the Newark Opera House.

The freshmen of the N. H. S. defeated the Junior and Sophomore classes in a series of quoits last week by the score of 3 to 1.

Strawberry festival in Salem M. E Church tonight

Children's Day Services

A beautiful June day in all its loveliness added to the pleasure of the Children's Day exercises held last Sunday morning in the Presbyterian Church.

Beautifully arranged daisies, ferns, and the dainty asparagus nodded gracefully everywhere and breathed the beauty of field and stream. The air was fragrant with "woodsy" odors, while over it all swelled the glad chorus of children's voices raised in song.

The singing by the entire school was especially enjoyed, the violin obligato and special choir adding pleasingly to all.

Struck By Lightning

Mrs. William Reed, living on the Huber Farm, was stunned by lightning during the storm that visited this section about five o'clock on Tuesday. While working among her chickens a bolt of lightning struck a tree near which she was standing. Mrs. Reed lay unconscious from the shock for about ten minutes. Aside from nervousness she feels no effect of the experience today.

It's an ill wind that blows no good. Elk River is happy and the broadest smile is that of the secret stockholders.

FARMERS' DAY AT THE STATE FARM

The program prepared for Farmers' Day, Monday, June 19th, promises so much of interest and profit that no one engaged in any phase of agricultural work can fail to miss the good to be derived from such a gathering.

Director Hayward expects to have 2000 present from all parts of Delaware, Eastern Shore of Maryland and Pennsylvania, if the weather does not interfere as was the case last year. Our farmer governor will be present and preside. General T. Coleman duPont has been asked to be present and make an address on his boulevard plans. It is hoped that he will avail himself of this opportunity of coming in touch with the grangers of the State. Invitations have been issued to our senators and congressman, the state officials, members of the Board of Trustees, and the members of the Legislature, several of whom have already expressed their intention of being present.

There are evidences of improvement everywhere since the gathering at the Farm last year. The coming business of farming demands a wholly new type of building in order to make the property effective. Professor Bailey says farmers of today must be taught to realize he is beginning a new agriculture instead of continuing an old one, and a practical demonstration of this theory is presented here. The new barn has been completed and a dairy herd added. Each animal will be placarded with its name, pedigree and record. This represents one of the finest herds in the State.

The farmer will have a chance to increase his fund of information along many lines. The experimental and horticultural work will be explained as in the previous years, by catalogues giving a record of everything being grown on the farm, where it can be found, etc.

At this time Professor Hayward will be prepared to announce some of his plans relative to the agricultural extension work which is about to be begun in Delaware. Under this bill recently passed by the General Assembly, the result of the work of the experiment farm will go direct to the home of the farmer, assisting him in solving his difficulties. The bill calls for an appropriation of $4500 on July 1 of this year and an appropriation of the same amount July 1st of next year.

Professor F. A. Waugh, of the Massachusetts Agricultural College, who is to make the principal address on farmers' day, is well known as an author and speaker. Professors McCue and Grantland of the Experiment Station staff, will also make shor addresses. Lunch will be served on the lawn at the farm by the college cadets.

The Farm And Experiment Station

The Agricultural Committee of the Board of Trustees will meet next Monday, June 19th.

Mr. A. C. Whittier formerly assistant chemist of the Ohio Experiment Station, will be recommended to the Board of Trustees as a successor to Dr. H. P. Bassett, resigned.

The College Farm recently sold a very fine Guernsey calf to Lawrence Levy, of Elkton.

It is hoped that the assistants for the Extension Department will be elected at the coming annual meeting of the Board of Trustees.

A new atenographer will probably be engaged at the beginning of the next college fiscal year, to assist in the clerical work of the Experiment Station and Extension Department.

DESTRUCTIVE STORMS OF LAST FEW DAYS

Among the visitors to our town within the last ten days was a boy from the Pacific coast who expressed the hope that he might see some of the electric storms which he had heard so much about. Nature, according to all the rules of Delaware hospitality, seems to have set about gratifying the wish of her guest with such a display of electric storms as the community has seldom seen. Between one o'clock Monday morning and noon Tuesday six separate storms broke in a fury over this vicinity. Vivid lightning, heavy thunder, high winds and floods of rain struck terror repeatedly to the hearts of the timid.

The storm left its marks on all parts of the town by way of washed streets, broken limbs and hanging telephone wires. On North Chapel street a whole tree crashed to the ground. Several in the neighborhood of the B. & O. were almost entirely destroyed.

The storm was less violent in the direction of Kemblesville, its greatest destructiveness seeming to be in the neighborhood of Milford X-Roads. Several houses were noticeably shaken, one, that of Mr. G. J. Campbell, to the extent of rinking a bell which was on the mantel. On the farm of John Nivin, seven apple, two cherry, a walnut and a shade tree were broken and torn.

Three cows belonging to Mr. George Duling, who lives north of town, were killed by the sides of the barn falling in, as a consequence of the high wind.

The cupola on the barn of the farm owned by Daniel Thompson was blown off and a number of fruit trees destroyed. The roof of the barn tenanted by James Crossan, was also blown off. A number of trees were blown down in the vicinity of McLaughlin Mills, and Couches Bridge. About forty of the telephone lines of the Newark exchange were burned out, many of which are still out of order.

Sudden Death

John H. Herbener passed away quite suddenly on Saturday evening at the home of his son-in-law, Frank C. Rowles, near Elkridge, Md.

The deceased was apparently in the best of health until within less than a half hour of his death.

He was discovered about 7 o'clock Saturday evening seemingly asleep in his chair, but was found to have passed away so peacefully that his spectacles and hat were not even displaced.

The deceased was well and favorably known here, having followed his trade of tailoring in Newark and vicinity more than twenty years.

The body was interred in Trinity Cemetery, Dorsey, Md., on Tuesday, the 13th inst.

Mr. Herbener leaves a wife and five children, all married, two of them, George and Edward, being well known residents of this locality.

New Bridge At Roseville

Bids will be received by the county engineer this week for the erection of a new reinforced concrete arch bridge across White Clay Creek at Roseville Mill. A temporary bridge will be placed across the stream for vehicular travel.

The improvements when complete will have provided a new bridge over the main stream, a small bridge over the race, construction of retaining walls and the filling in and resurfacing the entire roadway with 8-inch macadam.

JUNE WEDDINGS

WHITEMAN—GRABER.

The marriage of Miss Arvilla Whiteman, of Philadelphia, and Mr. Henry Graber, M. D., of Royersford, Pa., was solemnized in Emmanuel Presbyterian Church, Philadelphia, Saturday evening last at 7.30 o'clock.

The ceremony was performed by Rev. Mr. Anther, of Bird-in-Hand, Pa., a friends of the groom, assisted by Rev. Mr. Bowman, the pastor of the church.

Dr. Graber was attended by Dr. Buckwalter, of Royersford, as best man. Miss Mildred Lamborn and Master Ralph Robinson, niece and nephew of the bride, as ribbon bearers, made the way for the bridal party. Immediately following came the ushers Drs. Guilfoyle, DeWitt, Brum, and Young, friends of the groom.

The bride's only attendant was her sister, Deaconess Louise Whiteman, of New York City. Mr. Calvin Whiteman, a brother of the bride, accompanied her to the altar and gave her in marriage. The bride's gown was of crepe de chine, corded and trimmed with real lace. Her long veil was caught with lilies of the valley.

Immediately after the ceremony a reception was held at the home of the bride, 4017 Green street.

The house decorations were palms, ferns, roses and peonies. The bride was the recipient of many choice and beautiful gifts.

Miss Whiteman is the daughter of the late Henry Whiteman. She was born and spent her childhood days in this vicinity. A few years ago she entered the training school for nurses connected with the Presbyterian Hospital in Philadelphia. Miss Whiteman graduated in the class of 1909. Since that time she has engaged in private nursing.

Dr. Graber is the son of Dr. and Mrs. Graber of Royersford. He is a graduate of Ursinus Academy and of the Johns Hopkins University. For two years he was a resident physician of the Presbyterian Hospital in Philadelphia, and for one year served as chief resident of that institution.

After a short wedding trip Dr. and Mrs. Graber will reside in Royersford, where he will practice his profession.

BATES—PENNINGTON.

Miss Rachel Sara Bates and Mr. Samuel Kirk Pennington, both of Chester, were married at the Presbyterian Manse last Sunday afternoon by Rev. W. J. Rowan.

The young couple, accompanied by Mr. Harry S. McCoy, Jr., also of that city, came to Newark in an automobile. Dr. Rowan is a life-long friend of the groom's father, Mr. Samuel B. Pennington, former Chief of Police and ex-councilman of Chester.

BRIGGS—COLMERY.

Miss Mary Langley Briggs, of Philadelphia, and Mr. Charles Wallace Colmery, of this town, were married by the Rev. H. B. Phelps last Thursday evening, in the Mediator Episcopal Church, Philadelphia.

The bride wore an imported gown of French embroidery and veil held in place by orange blossoms. She carried a shower bouquet of bride roses and lilies of the valley. Miss Clausen, the maid of honor, wore pink carrying lilies and la France roses. The bridesmaids, Miss Collison, of Philadelphia, and Mitchell, of Johnstown, Pa., Miss Smith, of Factoryville, Pa., were gowned in white and carried pink flowers.

Miss Elizabeth Rae Neely, of Philadelphia, and Miss Sara Steele, Newark, were flower girls.

The groom was attended by C. L. Medill as best man, Messrs. W. R. Powell, Edgar McMullen and Elmer Ellison as ushers.

A reception at the home of the bride's parents followed the ceremony.

On their return from a trip Mr. and Mrs. Colmery will reside on Delaware avenue of this town.

THE EVOLUTION OF THE FLAG

Address By Superintendent Spaid

SUPERINTENDENT A. R. Spaid gave an interesting talk in the M. E. Church last Sunday evening, when he reviewed the story of the American flag. He displayed small flags representing each change from the first borne to the new world by the Cabots in 1497—the red field on which is placed the Cross of St. George—to the present flag of thirteen stripes and forty-six stars.

When the cross of St. Andrews was added to the English flag—to symbolize the addition of Scotland to that Kingdom—we see our three colors, the red, the white, the blue, have already appeared.

In Cromwell's time slight changes were made in the English flag, which gave the colonists a chance to do the same. Owing to the stress of the times in the Mother country, little notice was taken of the action on the other side of the waters and New England freely used the green pine tree on a white field as the symbol of the land. This was used as the naval flag during the early part of the Revolutionary War.

About the same time the Southern colonies adopted the rattlesnake flag. This was after the suggestion of Benjamin Franklin. It seemed particularly appropraite from the facts that the rattlesnake is peculiar to this country; it is gentlemanly, in that it never strikes without first giving warning; the rattles on the tail protect themselves by staying together, a separation making the injury of one very probable which would mean the falling off of all.

When Washington took command of the American forces at Cambridge the flags used by the forces were many and varied. To meet this emergency white strips were sewed on the field of the English flag, the new banner being known in America as the grand Union flag, in England as the Rebellious stripes. Mr. Spaid said that it was a beautiful thought to him that even the resourceful Benjamin Franklin, whom Washington called into consultation, could not get far away from the old associations in the suggestion of a new flag. There are others, however, who advocate the theory that this flag was adopted in response to a suggestion gained from the boats lying at anchor in the harbor. Among these it is very probable there was one floating the flag of the English West India Company—the same as the one adopted.

This flag soon proved unsatisfactory. The British on the high seas in several instances tore white stripes and sewed them to their flag, to the great misfortune of the Americans. Again it was taken for a flag of truce. The matter of a national ensign finally became a serious one and Congress named a committee to consider the matter and make provision for the same—Washington, Robert Morris and Captain Ross. They consulted with Mistress Betsey Ross, with whose fine needlework Washington was already acquainted. The colors were to be the same as had blended in their flag since 1707, the blue union to be adorned by white stars. The stars were arranged in a circle, so that no state should be represented as either first or last. Instead of the six pointed star, through the persuasion of Mistress Ross, the five pointed star was used. That lady insisted on this point, meeting the objection as to the difficulty of cutting a five pointed star with an exhibition of how to do so with one clip of the scissors. Mr. Spaid demonstrated to the audience just how this is done.

The flag as made by Betsy Ross was adopted by Congress on June 14th, 1777. A discussion of it does not seem to have been taken up by the newspapers before August of that year.

Here Mr. Spaid paused to consider the first appearance of the flag in battle. He told of New York's claim that it was first christened at Fort Stanlix on August 3rd, 1777, and he was willing to admit that they did use an improvised flag of that pattern, made from an old skirt, a soldier's coat and some scraps of white cloth. This in no way interferes with Delaware's claim of being the scene of the initiation of a real Betsey Ross flag. The claim is strengthened by the following facts: When the British sailed southward Washington hastened to place himself between their forces and Philadelphia. As the Continental Army passed through Philadelphia the records record that bands were playing and flags flying.

The entire army bivouaced near Kiamensi. From this Washington sent a small force southward who encountered the British at Couches Bridge. Not more than 12 or 13 men were killed and the affair is considered by historians too slight to be even recorded as a skirmish. But as it was the first engagement since the distribution of the new flag ("Congress promulgated the flag on September 3rd, 1777") we have every reason to suppose it was first used right here.

There are several flags supposed to have been made by Betsy Ross still in existence, one of which is owned by an old soldier of Wilmington.

It was soon discovered that the adding of both a star and a stripe for each new State would spoil the beauty of the flag. In 1818 Congress fixed the number of stripes thirteen, each State to be represented by a star, which is placed on the Union of the flag the Fourth of July following the admission of the State into the American Union.

Such is "Old Glory" as it now stands. This term was first applied to the Stars and Stripes by Colonel William Driver, a loyal Union man, who lived during the Civil War in Nashville, Tennessee. He was known to have 110 yards of bunting in his possession, but the Confederate searchers were unable to discover it in his home. When the Union troops entered the city he ripped open the quilt on his bed, took from between its folds the bunting and giving it to the old soldiers said, "Place Old Glory on top of the Court House steeple and I'll die happy."

The speaker illustrated the meaning of the flag to us very forcibly by representing a Newark boy engaged in business in China. Suppose him settled in that far away land, the proprietor of a little store representing a capital of $500. Suppose there should be a Boxer uprising, and the little store looted, the boy going to the minister and asking to have his losses made good; the Chinese government refusing to handle the matter, the message to our Secretary of State, the consultation with the Secretary of War, the sending of one battleship of ten battleships, until the grievance of that plain, American citizen is righted. This gives us a slight idea of the protection with which the flag surrounds us.

C. E. CONVENTION

The Christian Endeavor Convention, marking the thirtieth anniversary of this movement to be held in Atlantic City, July 6—12, promises to rival in spirit and enthusiasm any of the former great gatherings of this kind.

The "million dollar pier" will be the scene of the convention sessions. The pier has two permanent halls and a canvas-covered pavilion besides, and all of these will be used for simultaneous meetings with duplicate programs. The meetings will be arranged to leave the hours from 10.30 to 2 o'clock each day free for recreation. Each morning an early "quiet hour" will be observed with devotional addresses. An hour and a half of midforenoon will be devoted to institute work, and the afternoon and evening hours—3 to 8 p. m.—will be taken up with the rich array of inspirational addresses which give great distinction to the announced program.

Outstanding among these promised speakers with great inspirational messages are ex-Vice President Fairbanks and Hon. William Jennings Bryan (who have made the leading addresses in the last two national rallies of the Endeavorers), Judge Ben B. Lindsey, Dr. J. Wilbur Chapman, Dr. Charles M. Sheldon, Dr. Russell H. Conwell and Dr. Booker T. Washington. Several important visitors are expected from abroad, including Rev. F. J. Horsefield of England, Rev. R. S. Gray, of New Zealand, and Rev. G. Fukuda, of Japan. And more important than all else undoubtedly to the minds of loyal Endeavorers, there will be repeated speeches from "Father Endeavor" Clark and General Secretary Shaw. The themes will include personal religion, evangelism, missions, temperance, civic righteousness, interdenominational fellowship and international brotherhood.

President Taft and Speaker Champ Clark have promised to attend the convention and make addresses if their public duties will permit them to leave Washington.

The convention will be in session an entire week—seven days of "joyous, uplifting, inspiring fellowship", as the program says. Only temperance hotels will be patronized by the delegates and the rates of board will range from $7 to $20 for the period of their stay. Railroad rates will be a fare and a half. Inquiries for details will be answered from the offices of the United Society of Christian Endeavor, Tremont Temple, Boston.

TO CAN STRAWBERRIES.

Use 1-2 pound of sugar to 1 pound of fruit. 1 cup of water to 1 pound of sugar. Dissolve sugar in water, boil to a syrup. Add the fruit, boil 15 to 20 minutes.

Sewing In The Public Schools

Editor NEWARK POST:

Having recently spent an afternoon with the sewing class of a Wilmington grammar school and being impressed with the utility, beauty and far-reaching effects of the work, I have decided to bring it to the notice of this community through the columns of your paper.

We entered a large well-lighted, well-ventilated room, with tables on two sides. At these were seated some 35 girls, ranging in age from twelve to fifteen years, busily and quietly sewing. In a preceding period I had observed these children in a mental arithmetic recitation. I could not help contrasting the apathetic expression upon some faces during that period and the happy interest manifested in the sewing room.

Some children cannot take the cultured studies beyond a certain stage of development. What then shall be done with them? Shall they remain a drag upon the class and a mortification to themselves, or shall they be given work by which the hand may be trained and a useful, happy future assured?

At the teacher's request, I went among the children and inspected their work. In no case did I find carelessness. In answer to my question whether they liked this work better than the regular lessons, some replied that they liked both, six liked sewing better, two did not like it "much."

Each was finishing a dress for a small child. They provide the material and when a garment is finished it belongs to the maker. If there is no little one at home, the dress is given to a neighbor or to a charitable institution.

The capable supervisor of sewing for Wilmington schools, Miss Joanna McLaughlin, very kindly explained the course, and showed samples of work from the darning, patching and apron making of the primary grades to the substantial neat underwear and shirt-waists cut and made by the grammar grade pupils.

Upon my return to the principal's office I asked her what effect the work in sewing had upon the three hundred and fifty girls yearly under her charge. She asked me if I had observed the uniform neatness of the seven hundred children I had seen enter the building that morning. I told her, emphatically, that I had. She then informed me that before sewing was introduced it was the usual thing to see torn or ripped dresses and stockings undarned. This school is situated in a good section of the city and I was assured that in other sections the contrast between present and past conditions was much more noticeable.

One county school, duPont, has introduced sewing at a total yearly cost of $250 to the district. The principal is enthusiastic as to results. Would it not be well for other county schools to consider this matter? OBSERVER.

Grape Growing In Delaware

J. D. Hopkins, of Livingston county, N. Y., addressed the Dover Board of Trade last week in the interest of the establishment of a grape juice bottling plant, in Dover. In his argument presenting the good that such an industry would bring to Delaware, Mr. Hopkins brought out the following points:

That Delaware can grow the right kind of grapes as well as any other State.

The proposed capital of $50,000 paid in at once would carry a 200-ton pack.

Good grapes reach four and a half tons to the acre in Delaware as an average yield.

The grape grower and even the strawberry grower saves the cost of packing, freight and shaky markets by selling his product at the factory and many contract outright.

"There is an unlimited field for grape juice. It is growing in esteem for medicinal purposes, and as a food and not all the people are using grape juice yet by any means."

The entire matter of the fruit juice factory was turned over to the committee of the Board of Trade and the company will probably be incorporated in a few days.

Apples May Be Scarce

The Delaware apple crop, in some sections, is not as promising as is desirable, the causes given being the drouth, the heavy and late winter and the failure to pollenize when spring finally came.

That there is an indication of a heavy falling off is not admitted by the apple growers, but the indications point that way, nevertheless. F. M. Sopar, Delaware's heaviest grower is conquering the untoward conditions by sheer force and pluck, although his early apples, it is said, do not look like last year's. He goes through his orchards twelve and fourteen times in the cultivation of his apples, and to do so it is necessary to keep twenty-eight horses and mules on the go. An automobile, kept in instant readiness, always helps some. John Heyd, the Felton horticulturist, is one of the few Delaware fruit growers who is raising a good crop of peaches in Kent county.

Honors For Delaware

At the recent examinations held at the Naval Academy at Annapolis, W. H. P. Blandy, formerly of this town, carried off the honors in the third class, standing first on the list of 160 members.

When Blandy received his appointment in 1909 he was a Newark boy and a student at Old Delaware. His early education was received in the Newark public school.

It is understood that this is the first instance since the foundation of the Naval Academy that a Delaware man has been at the head of his class.

In this connection it is a matter of some interest that in 1859 Senator duPont was No. 1 in the fourth class at the Military Academy at West Point, there being at that time five classes of cadets, and this was the first time that a Delaware man had led his class at that institution.

Mr. Blandy has been assigned to the U. S. S. Massachusetts where he will complete his course of six years' instruction at sea.

W. L. DOUGLAS $3.00, $3.50, $4.00 & $5.00 SHOES

Best in the World

UNION MADE

Boys' Shoes $2.00 and $2.50

Fast Color Eyelets Used

W. L. Douglas shoes are the lowest price, quality considered, in the world. Their excellent style, easy fitting and long wearing qualities excel those of other makes. If you have been paying high prices for your shoes, the next time you need a pair give W. L. Douglas shoes a trial. You can save money on your footwear and get shoes that are just as good in every way as those that have been costing you higher prices.

If you could visit our large factories at Brockton, Mass., and see for yourself how carefully W. L. Douglas shoes are made, you would then understand why they hold their shape, fit better and wear longer than other makes.

CAUTION—W. L. Douglas name and price is stamped on the bottom to protect the wearer against high prices and inferior shoes. **Take No Substitute.** If W. L. Douglas shoes are not for sale in your vicinity, write for Mail Order Catalog. W. L. Douglas, Brockton, Mass.

THE LUSCIOUS FRUITS OF JUNE

The Strawberry

STRAWBERRY PIE.

Bake the crust. After cool fill with berries, sprinkle with sugar, and spread over these cream whipped very stiff. On top of all put whites of two eggs and a little sugar, beaten stiff. Place in a very hot oven so that the meringue will brown quickly—before the cream has time to melt. The success of this depends on the heat of the oven.

STRAWBERRY SHORT-CAKE.

To one quart of flour add two heaping teaspoons of baking powder, one tablespoonful of white sugar, and a little salt. Mix thoroughly while dry. Chop up two tablespoonfuls of butter in the flour thus prepared. To one large cup of sweet milk add one egg. Put the whole together as quickly and with as little handling as possible. Roll into two sheets, each 1-2 an inch thick. Bake in a greased pan laying one sheet on top of another. When done and while hot separate them and put between the two crusts a thick layer of strawberries well sprinkled with sugar. Serve with sugar and cream.

PRESERVED STRAWBERRIES

To a box of berries, add one pound of sugar. Set on the back of stove until sugar is dissolved. Draw front and boil 8 minutes, then pour into a pan and do the next quart the same way (each quart is done separately.) Pour all into some bowl and let them stand over night. In the morning put them in jars and seal. Cherries are delicious when handled in the same way.

STRAWBERRY ICE CREAM.

1 quart of cream, 1 pound of sugar, 1 1-2 quarts of strawberries.

Put half the sugar and cream on to boil in a farina boiler, and when sugar is dissolved, stand aside to cool; add the remaining half of the sugar to the berries, stand aside one hour, then strain through a fine muslin. Add the remaining half of the cream to the sweetened cream and freeze; when frozen stir in the fruit juice, beat thoroughly for five minutes, remove the dasher and pack until ready to use.

STRAWBERRY SHERBET.

1 quart of red strawberries, 1 pound of sugar, 1 quart of water, juice of two lemons. Boil the sugar and water together for five minutes. Add the lemon juice to the strawberries and mash them. When the syrup is cold pour it over the berries and strain. When frozen add meringue and beat thoroughly.

FROZEN STRAWBERRIES.

1 quart of strawberries, juice of two lemons, 1 pound of sugar, 1 quart of water. Add the sugar and lemon juice to the berries, stand aside one hour, mash the berries, add the water, stir until the sugar is thoroughly dissolved and freeze slowly.

The Cherry

TO SUN-PRESERVE CHERRIES.

To each pound of fruit put one pound of sugar. Place on the stove until dissolved thoroughly. Put on large deep meat dishes and cover with glass. Leave in the sun two days then jar. Seal with paraffine. Strawberries may be done in the same way.

CANNED CHERRIES.
(A Delicious dessert.)

Choose large, perfect cherries—ox-hearts preferred. Fill the jar full of fruit, packing tight as possible. Pour a cup of sugar over each jar, shaking through the cherries. Fill the jar with cold water. Put lids on loosely. Stand in canner or on board in wash boiler containg water up to shoulders of jars. Place cover on the boiler and let boil for two hours, which will cause the cold water in the jars to boil.

Tighten the lids and the fruit is ready to be placed on the preserve shelf.

CANNING FOR WINTER USE.

Seed cherries and add 1 cup of sugar to 1 pound of fruit. Place on stove and allow to boil until the cherries are well heated through. Have jars hot and seal at once.

CHERRY SHERBET.

1 quart of sour cherries, 1 pound of sugar, 1 quart of water.

Boil the sugar and water together for 15 minutes. Stone the cherries, add them to the syrup, and stand aside until perfectly cold. Press through a very fine sieve. When frozen, add meringue and beat thoroughly.

FROZEN CHERRIES.

2 quarts pie or morello cherries, 2 pounds sugar, 1 quart of water.

Stone the cherries, mix them with sugar and stan daside one hour. Add the water, stir until the sugar is thoroughly dissolved, turn into the freezer and turn rapidly until frozen.

PICKLED CHERRIES.

Wash and seed the cherries. Cover with vinegar and let stand twenty-four hours. Then pour off the vinegar and add sugar, making an equal quantity with the fruit. Let stand, stirring occasionally, until the sugar is thoroughly dissolved. This usually takes two or three days, when they are ready to be sealed in jars.

BRANDIED CHERRIES.

4 pounds seeded fruit, 4 pounds sugar, 1 pint best white brandy. Add enough water to the sugar to dissolve it. When this comes to a boil add fruit and boil for five minutes. Remove cherries carefully, and let syrup boil for 15 minutes longer. Add the brandy and immediately take from the fire. Pour fruit back into the syrup. Seal in the cans while hot.

Picnic Of The Welsh Tract School

On Saturday afternoon, June 10th, a large and jolly crowd of people, young and old, assembled on the green at Welsh Tract. The occasion was the annual picnic of school, District No. 54, given by the teacher and pupils to the parents and friends.

Miss Estelle Sweetman has been teacher of this school for the past year.

Everyone feasted upon ice cream and cake, and the little ones received an extra treat of bananas and candy. Games were played, songs sung and recitations. Although the picnic was a success, and all present seemed to have spent a delightful afternoon.

Work For Our Town

The Neodesha (Kan.) Register says every town has its advantages and should make the most of them. Every town is fitted for some one enterprise more than another, and soon as it discovers what that is it should take hold of the matter and push it for all there is in it. One man cannot make a town. The newspaper cannot do it. But one man on a newspaper with the help of the wide-awake men of the place, all pulling together, can make a wide difference in the place. Every man who succeeds in a town is a help to it. The more money he makes, if he spends it ,the better for the community. The larger business he builds up, the more he advertises, the more attention is called to the town. A man cannot build up an honorable business in a town without helping the country. The rivalry that sometimes exists between towns in the same county is short-sighted policy.

On the same subject the Sterling (Kansas) Bulletin says: "No town will become a business center so long as its business men rely on a few merchants to make the effort to bring trade to town. Too often the men in a few lines of trade are about the only ones that reach out for custom. Other merchants wait until these men have induced the people to come to town and content themselves with trade that naturally drifts to their place. A public-spirited man should ask himself if he is doing his part in attracting people to town to trade."

The Hennessee (Okla.) Clipper, in an article headed "How to Keep a Town From Improving," says: "In the first place, buy everything you need in some other place. If you have a flouring mill, send off for all your flour. It sounds better to have it come from a distance, even if the quality be inferior. If you have a brickyard, send off for your brick; it makes a man feel important to ship a few carloads of brick, no matter if he should have to pay more for them than he would at home factories." He suggests sending away for printing, and all groceries that can be bought in bulk, etc. All of which will prevent the home merchants from squandering money in building up their own town.—Delmar News.

Delaware's Graduate At Annapolis

F. F. Reynolds, of Wilmington, represented Delaware in the graduating class of 1911 at the United States Naval Academy. Being the only man from this State he will probably have no difficulty in getting assigned to the Battleship Delaware.

Reynolds was born in Clayton, in October, 1890, and is one of the youngest members of his class. He attended High School in Smyrna and Wilmington before entering the naval academy.

After spending two years at sea, Reynolds will come up for examination for promotion to the grade of ensign. Upon passing, he will be commissioned by the President, with the confirmation of the Senate, as a full fledged naval officer.

Class In Civics To Visit Washington

Through the generosity of Mr. and Mrs. Alfred I. duPont, the thirty members of the Civics class of the Wilmington High School will go to Washington for two days, June 13 and 14. Hearing of the desire of the class to conclude their year of civics work by a trip to the National Capitol, Mr. and Mrs. duPont became interested and expressed a desire to defray all of the expenses incidental to the tour. They have given instruction that everything possible be done for the interest and pleasure of the class.

Straw Ride

The Junior League of the M. E. Church held the last meeting for this season last Friday evening. The occasion was celebrated by a straw-ride which the little ones enjoyed thoroughly. With the jingle of bells the gaily decked team made the rounds of the town, carrying the happy singing youngsters.

They returned to the parsonage where ice cream and cake were served.

JUNE 14, 1911

TO THE RURAL PRESS

IN ORDER to make a start in our Association of the Editors of the Rural Newspapers of the State we took it upon ourselves to write a note to the different papers asking if Farmers' Day at the College Farm, would not be a suitable place to meet.

Replies have been received from—

DELAWARE LEDGER,
MIDDLETOWN TRANSCRIPT,
MIDDLETOWN NEW ERA,
SMYRNA TIMES,
SUSSEX REPUBLICAN,
MILFORD CHRONICLE,
BRIDGEVILLE TIMES,
DELMAR NEWS.

The idea of such an association has been agitated from time to time for several years—even, as the Delmar News says, before "The Post" was born. The recent revival however, must be accredited to the Delaware Ledger and Middletown Transcript, both old in the service and alert to the benefits that could be derived from such an organization. All our replies favor the plan and place of meeting.

It is hoped that the other papers will join in this movement and come up to Newark on Monday—talk it over and see if the rural press is worth while and how to make it more so.

THE RECALL

THE question of recall now prominent before the people is one of the most vital importance. No theory of popular government would so upset our political constitutions as this popularistic craze known as the recall.

By request our column this week is given to an editorial which recently appeared in the Public Ledger.

It is worthy of the most serious consideration of all.

THE CRAZE FOR "DEMOCRACY"

THE initiative and referendum, primaries of every conceivable form and complexity, the recall, including the recall for Judges, are having a tremendous vogue in these days. They are all expressions of a common idea now extremely popular—the desire not only that the people should rule but that they should rule directly and without the intervention of those forms of government which the experience of the world and the lessons of history have shown conclusively to be necessary safeguards of a sane government that shall protect life, liberty and property from the caprice of the mob, the tyranny of temporary majorities and the mistakes of the thoughtless and ignorant led by the demagogues.

The eager supporters of all these devices imagine that they are striving for an unassailable ideal when they say that they wish to have the authority of government come "fresh, immediately and direct from the people," and thus they show their ignorance of the history of government. Pure democracies—where the they? Lost in the dust heaps of history. Rule by the people directly and without delay? Who not insane, would like to have his life and liberty and fate submitted to the test of an uproarious vote and the immediate decision of any majority?

The people who are exerting the greatest influence in America today in creating popular opinion as to government are those who know nothing about it. It is as if the men picked out by chance should be intrusted with the task of conducting a chemical laboratory or of erecting a bridge across the river. It is a pity that these Constitution makers or would be destroyers cannot be forced to read the article by Albert Fink in the North American Review on the "Recall of Judges." Mr. Fink shows pretty clearly that the phrase in the Federal Constitution which guarantees to "every State in this Union a republican form of government" means a representative government; that the recall and such devices are contrary to the spirit and letter of a republican form of government; that a fundamental principle of a republican form of government is the independence of the judiciary; that the recall would destroy the independence of the Judges and, finally, that even if the Constitution were not in existence the degradation of the judiciary by the use of the recall would be a senseless folly and a menace to the rights and safety of all men.

Mr. Fink examines the discussions preceding the adoption of the Constitution and shows by a wonderful array of authorities that the very object of framing the Constitution under which this Republic has waxed great and prosperous was to save the people from the pitfalls that have been the ruin of nearly all democracies. The Constitution of the United States has been a success because it has saved the people from their errors and follies, from ignorance and lack of experience. John Randolph observed:

"That the general object was to provide a cure for the evils under which the United States labored (before the adoption of the Constitution); that in tracing these evils to their origin every man had found it in the turbulence and follies of democracy; that some check, therefore, was to be sought for against this tendency of our governments."

It is not necessary to go to ancient times for examples of the democratic failure; the United States itself, before the present Constitution, with its elaborate checks and balances, affords the utmost example of blundering incapacity. This government has prevailed and succeeded because it has avoided the perils which must inevitably come from too much democracy. "A republic," said Madison, "by which I mean a government in which the scheme of representation takes place," offered the cure for the evils inseparable from capricious rule. As for the direct rule of a democracy, he declared:

"A common passion or interest will in almost every case be felt by a majority of the whole; a communication and concert will result from the form of government itself, and there is nothing to check the inducements to sacrifice the weaker party or an unpopular individual."

A government immediately responsive to the wish of the people and, then, equally responsive to the next wish, is as unstable as water and presents the same evils which were long inseparable from the Latin American Republics. They had constitutions, but were as impatient of their restraints as our own new school of innovators and experimenters. If stability is essential in general it is fundamentally imperative for a judiciary, and that stability can come only through the courage and independence of the Judges. Alexander Hamilton said:

"This independence of the Judges is equally requisite to guard the Constitution and the rights of individuals from the effects of those ill humors which the arts of designing men or the influence of particular conjunctures sometimes disseminate among the people themselves and which, though they speedily give place to better information and more deliberate reflection, have a tendency to occasion dangerous innovations in the government and serious oppressions of the minor party in the community."

The people of Arizona, who have incorporated a provision for the recall of the Judges in their new Constitution, want the decisions on all questions to be in accord with their immediate wishes and before they have the better information and the time for deliberate reflection. The contention that the people rule and that the Judges are servants of the people and therefore to be dismissed at will, Mr. Fink disposes of most convincingly:

"When it is said that the people are supreme, that they employ the Judges and stand toward them in the relation of a master to a servant, what is meant is the majority of the people. Herein lies the error. The Judges are not the servants and agents of the majority. The Judges are servants of both the majority and the minority and must of necessity be independent of each.

"It is one of the peculiar functions of a Judge in a State governed by laws and not by men to protect the minority or the individual, as the case may be. Though chosen by the majority or by some person or persons to whom the power of selection has been delegated, they cease, upon induction into office, to become the mere servants at will of those by whom they were selected; nay, they never were their servants. The right of selection in no sense carries with it such right of domination as was attempted by Charles I. Upon selection the Judges become the servants of the whole people, not of the majority or class by whom they may have been chosen. They represent the minority, the weakest class in society, the humblest individual, just as much as the dominant political party, the laboring or moneyed classes, or the most potent members of the community. During their term of office they are justly answerable to no one.

"A powerful minority may well trust the selection of the Judges to a majority, but the domination of this majority after selection is quite another matter. This is tyranny, and as Montesquieu says, 'the end of all things.' Such a practice, when taken advantage of by majorities, as it inevitably must be, can be maintained only by arms, and this power does not always lie in majorities."

The constitution, the laws, the republican form of government, the independent judiciary are all devices erected and maintained for the very purpose of escaping the horrors of a pure democracy, from the injustices, the tyrannies, the follies, whims, caprices and ignorance incident to and inseparable from a direct judgment on a multitude of difficult questions by people who have given no attention to them or mayhap are swept hither and thither by factional or partisan passion. The Judge was made independent because it is expected of him, for the honor of his country, and for the protection of the individual, that he shall be in a position to render an unpopular decision and defy the world. No honorable and gifted man should take a judgeship if he knows that as a result of a mass-meeting led by demagogues he may be haled from the bench. And the leaders and seekers for popular favor who are now trying to tear down the fabric of this Government by appealing to ignorance are either shallow amateurs in government or desperate demagogues, and, in either event, public enemies.—Public Ledger.

THE PROVERBIAL RAINY DAY

Interesting Letter-- Delaware City

Delaware City, June 14, 1911.

To the Editor of "The Post":

Dear Sir:—Since the first appearance of your spicy journal in circulation in this community your correspondent has been anxious to show his appreciation of your interesting addition to Delaware's local newspaper family, by offering a contribution for your column devoted to amateur writers, that your editorial discrimination might consider worthy a place outside your office waste basket. The first step in this direction would of course involve the selection of a subject to write upon and this sometimes is quite a perplexing matter, the proper settlement of which might have considerable bearing on the success or failure of one's effort in such an undertaking.

Quite a number of years ago when Prof. C. C. Tyndall was superintendent of public schools for Kent county your correspondent attended a colored teachers' State Institute at Smyrna, Del. One part of the exercises for the day was the reading of an essay by one of the teachers. The colored gentleman who read this essay before opening his manuscript addressed his fellow teachers to the effect that when he understood he was down for the reading of an essay before the institute he immediately commenced to wonder what should be his subject. "First", he said, "I thought of choosing history and then I thought what could I say before historians. Then I thought of arithmetic, but what could I say before mathematicians; then of Geography, but what could I say before Geographers; and finally I thought of my school". He then with "My School" as a subject, read quite an interesting paper, in relation thereto. So my subject for this occasion, shall be "My Town"—Delaware City, situated thirteen miles from Newark, and connected therewith by the Newark and Delaware City branch of the P., B. & W. R. R.

Delaware City is not so large nor such a thrifty, enterprising and growing town as Newark, although it enjoys natural advantages which are denied not only Newark but to all inland towns. Delaware City is an old town having been founded many years ago. Indeed the State can boast of few settlements that antedate Delaware City from an historical point of view. A few years ago at commencement exercises of our public schools a young lady graduate read a paper entitled Delaware City—Historical Points of Interest—that proved to be such a revelation to County Superintendent Spaid, who was present and heard the points as brought out that he asked for a copy to me filed by him for future reference.

The material advantages of Delaware City for a manufacturing location are indeed what would supposedly attract seekers for a suitable place to establish plants, but such has never proved to be the case. The vastly important matter of a deep water frontage is here in abundance, besides the Delaware and Chesapeake Canal, steam and trolley connections, making in all just what other towns outstripping Delaware City most essentially lack and which they would like most to procure. But notwithstanding the fact that Delaware City has no manufacturing plant, her many other attractions are of a character sufficient to give her good standing among her neighboring progressive towns scattered throughout out State. Her wide streets and lofty shade trees, her many attractive, elegant, easy and substantial houses, no over crowded tenements, but many small and fair sized houses surrounded by sanitary conditions in every particular that excludes any question of proper homes for all classes, steady employment at good wages for the laboring class, prosperity among all classes, no slums, no monopolistic and multibillionaires or other "undesirable citizens", is something we deem not only worthy of our pride but worth telling to the outside world. The farming country adjoining Delaware City includes some of the finest farms in the State. Especially those owned by Ex-U. S. Senator Anthony Higgins, and Ex-U. S. Consul to Dundee, Scotland, John C. Higgins, and Ex-U. S. Deputy Marshall James H. Clark, and the late State Auditor Theo. F. Clark, and one known as Greenlea, an ideal homestead presided over by the two charming and ideal ladies Miss Emma and Miss Julia M. Clark. Then again, the Catholic Home, a valuable property, with stately buildings, where a work of unselfish devotion is carried on in behalf of homeless orphan boys. Just beyond this is one of the show places of Delaware owned and occupied by Mr. H. V. Scott. Besides this magnificent home place Mr. Scott has adjoining an extensive grain farm in a high state of cultivation and productiveness, a chicken farm, and dairy farm that accommodates in the neighborhood of one hundred cows, with improved buildings in proportion equipped with all the latest utensils for modernized sanitary dairying.

Ex-Governor Lea and Mr. James P. Winchester also have delightful summer homes in this neighborhood, adding very materially to its attractiveness, especially at this season of the year.

Description of Delaware City would be wholly incomplete without at least some mention of Fort duPont, and the army post. Although at present the force is very much reduced the many attractions that this military institution affords are well worth seeing, and will, we think, fully repay a trip here for that purpose. One improving and morally elevating association with soldier life here, is that known as Donnell Rooms. Through the influence of Mrs. Mary Donnell, of Newark, as head of the Delaware W. C. T. U., these rooms were established as a soldier's rest and place for recreative entertainment and amusement for soldiers so inclined, free from temptations of a demoralizing or intemperate character.

The regular army drill at Fort duPont when the post has its full equipment, together with the army band, are features in connection with military display that are indeed rare privileges to view. In spite of the fact that the post is within easy access of Wilmington and the surrounding country, few avail themselves of this opportunity, somewhat to the disappointment of those who conduct these affairs and know how they are appreciated in other parts of the country.

For a long time the principle industry of Delaware City has been its fisheries, and the enormous hauls of herring made at the locks of the Delaware & Chesapeake Canal have been a matter of noted curiosity that attracted people here to see the novelty of as high as eighty thousand herring landed in one haul, solely by man power. The sturgeon and shad fisheries also have added much to the material welfare here, although the sturgeon have so fallen off as to become almost extinct. The toothsome Delaware shad, however, is still to be had, if not in quantity as formerly, in quality equally so, and in size superior. An eight lb. shad was once a rarity, but now nine, ten, eleven and some twelve pounds are not so rare. These shad are weighed in their own scales, and this is no fish story.

Slippers

For the June Bride and the Sweet Girl Graduate.

Dainty creations in all the correct colors now in stock at from $3 up.

We are also equipped to make special designs to match costumes at short notice.

Special in Kiddies' Sox

By fortunate purchase we are enabled to offer pure lisle Sox for Kiddies, stripes and plaids, usual 25c values at 15c the pair, 2 pairs for 25c.

NOTICE

At a meeting of the City Council of Newark, held on Tuesday evening, May 9th, 1911,

It was on motion

Resolved, That Ordinance No. 40 in relation to the Construction of Sidewalks in the Town of Newark, be and the same is hereby repealed.

The Town Board of Health desires to say that no one will be allowed to keep a Dog Catcher in the City limits, and that no dog shall be allowed to run at large within the limits of the Town without a collar, and that any person having running at large on the streets or lanes of the town any dog not wearing a collar, will be required by the Constable to kill such dog in twenty-four hours from the time of impounding, or the said kill and burn the same.

Thereafter no taxes will be received at the office of the Collector of Taxes, except on and after Friday, May 19, 1911.

Prompt attention to mail orders.

JOSEPH H. HOSTETTER, President.

S. P. Herrmann, Secretary.

Attest: May 9, 1911.

WANT COLUMN

The Want Ad Column in this paper is an innovation to country newspapers. The cash value is higher than most people will pay for a small notice. Any time you have to sell, it will pay you to put it in a notice in this column. Just 1 cent, Want Ads, all come under this heading.

Be sure to always look at the Want Column. It has paid others. It will pay you.

Rates Only 1 Cent a Word

Just the place for a small notice. Have you anything for sale? Put it in this column and it will bring a buyer.

WANTED.

COOK WANTED—A white woman. Apply, Walter Powell, Restaurant.

PERSONAL

Paul F. Pie and family, of East Orange, N. J., have been visiting Newark friends this week.

Mr. and Mrs. Charles Harris, of Philadelphia, spent Sunday with Professor and Mrs. C. A. Short.

Mr. and Mrs. William Gamble spent the week end with Mr. and Mrs. William Stewart, Newport.

Mr. and Mrs. George Lovett, of Atlantic Highland, N. J., are the guests of Rodman Lovett and family.

Edmund McPike and family are visiting his father, Edmund McPike.

Howard Griffin, of Norfolk, Va., is visiting his parents, Mr. and Mrs. George W. Griffin.

Miss Jennie Moore spent Sunday with her parents, Mr. and Mrs. William Moore in Elkton.

Mr. William Crowe, Chapel street, was a Marcus Hook visitor Monday.

Mrs. Leslie Moore and son, Kennard, spent Thursday and Friday with her sister, Mrs. B. C. Messick, McClellandsville.

Robert Montgomery was an Oxford visitor last week.

Mrs. William Smith and Miss Mabel Herdman visited Elkton friends last week.

Mrs. Howard Leake and daughter, Helen, spent Saturday in Wilmington.

Mrs. Washburn, S. Chapel, is visiting friends and relatives near Henderson, Md.

Mr. Victor Willis and quite a number of friends enjoyed a trip down the Elk River Sunday.

Mr. Allen Reed and Miss Jennie Gregson spent Sunday afternoon with Mrs. George Sheets, near Buck, Del.

Miss Aetna Hall spent Sunday with her mother, Mrs. Robert F. Hall, Woodlaw Farm, Flint Hill.

Mr. Leslie Moore and son, Griffith, spent Thursday and Friday in Oxford. Mr. Moore reports the fair crowd as being large this spring.

Miss Essie McKeon has closed her school at Morton, and is now spending her vacation with her mother on Choate street.

Mrs. E. W. Dawson, of Elkton, spent Wednesday with the Misses Waters.

Miss Frances Medill visited Wilmington friends last week.

Miss Anna Black, of Philadelphia, is spendinking a week with Mrs. Agnes Miller.

Miss Sarah McNeal, of Lawrence, Mass., is visiting her brother, H. W. McNeal.

Mrs. William Jester and son, Mr. William Higgins and family spent Sunday with Mr. and Mrs. Atwood Johnston, near Milford Cross Roads.

Miss Rena Stewart, of Newport, visited Miss Bertha Gamble.

Rev. and Mrs. Hamilton B. Phelps were the guests of Mr. and Mrs. J. H. Steele, of Chesapeake City, Md.

Mr. and Mrs. Lawrence Otheson, of Stanton, spent Sunday with Mr. and Mrs. James Brown.

Rev. Joseph Malone, of Camden, was a Newark visitor on Monday.

Miss Malena Tyson has been the guest of Mrs. James Brown.

Dr. and Mrs. Lee Porter and Mr. and Mrs. Fred Clark leave Saturday for Niagara Falls and a trip through the Yellowstone Park.

Mrs. Delaware Clark is the guest of Mrs. Will Curtis, Atlantic City.

Mrs. Lewis Thomas is the guest of her parents, Mr. and Mrs. H. B. Wright.

Miss Florence Butler and her aunt, Miss Phoebus, have returned from a sojourn at Atlantic City.

Mr. and Mrs. Kimble, of Connecticut, spent Tuesday with Mr. C. R. Thomas and family.

Miss Sarah Davis, of Pleasant Hill, has returned to her home after a week's visit with Mrs. Orlando Strahorn.

COLLEGE NOTES

The Blue Hen is really here, my lad,
Do you know the reason for it?
They needed all the space they had,
And could no longer store it.

Prof. M. Van G. Smith was taken to the Homepathic Hospital in Wilmington, last Wednesday, suffering with a severe attack of malaria.

Last Wednesday Delaware put one over on Rock Hill College to the tune of 5 to 4. Although both teams were somewhat crippled by the absence of a few seniors owing to the final examinations, it was a hard fought contest, and the best team deserved to win, as it did. Raughley pitched a great game for the cadets, and won it in the ninth by driving in the winning run, when the score was tied and two down. Because Bishop Dunn was away, Harvey occupied his old position at second, and demonstrated that he was much more at home there than at short, where he has been playing this season. Time of game, 2.05. Umpire, Mr. Lovett.

The annual Faculty-Senior farce was played on Friday, and the fourth year men had no trouble in winning in five innings, 11 to 1. Prof. Tiffany started the game in the box for the Faculty, but couldn't hear Coach McAvoy's signals, and was replaced in the second inning by a gentleman with a brilliant red birsute adornment, who was later discovered to be Prof. McVey. Patterson, Monk Hodgson, and Babe Heisler did the battery work for the class of 1911. The feature of the game was the one handed grab of a line drive by Licker Davis, at short. Time of game, 1.40. Umpires, Raughley, '13 and Hoch, '14.

On Saturday the Peaches went down to defeat at the hands of Albright College, 3 to 1. Raughley was on the hill at the beginning, but was knocked out of the box and Jolis finished the game. Delaware's inability to hit at critical points was the main reason that they lost the contest. Time of game, 2.05. Umpires, Mr. Crow and Dr. Rowan.

COLLEGE X.

Harriet Beecher Stowe

Today is the one hundredth anniversary of the birth of Harriet Beecher Stowe, and by pausing to review the life of this quiet, unassuming little woman we will catch a glimpse of a worthy ideal for American womanhood. We find our admiration burning more brightly as we read the story of her struggle with ill-health and poverty than over her as a literary success.

Reared in a home of culture and refinement, where the "seen and not heard" idea for children was unknown, she easily joined in the "round table" discussion of the topics of the day. Right or wrong, in that home, was ever the decisive issue regardless of profit or expediency.

While still a small child, an aunt returning from a West Indian home repeated her impression of slavery as seen there, and the idea sank into the child's receptive mind. As a young woman she spent a number of years of her life on the banks of the Ohio, where she came in contact with slavery at close hand. While there she taught a number of children of slaves in a private school and when one of these brightest little ones was about to be sold she herself collected his ransom and returned him to his mother.

Upon the return to New England she was horrified by the stories told her by friends of the way honest hard-working negroes were seized in the city of Boston and carried back to the Southland. This gave her the idea that the good, kind folk did not know the true story, and that it was her duty to tell it.

What a lesson her telling it preaches to those whose excuse for their sins of omission is lack of time!

While making a home in the country for her family of children among whom was a very young baby, teaching her own and the children of her neighbors, aside from more ordinary cares, she found time in between to write this most famous of abolition tracts, which awakened the conscience of North and South alike, and caused Abraham Lincoln to address her as "The little woman who made the war".

TOMATO DISEASES AND THEIR TREATMENT

Plants, like human beings, are subject to diseases. These diseases may be due either to bacteria or fungi, or they may be due to physiological troubles. As there are now many people in or around Newark interested in the tomato crop, we will therefore endeavor here to describe the most important tomato diseases which are common to Delaware, and also give the most approved remedies or methods of prevention. We shall take up these diseases in the order mentioned above.

I—BACTERIAL DISEASES.

Wilt—As the name indicates, the affected plants first show a wilting of the foliage. Later the stem and branches discolor and die.

This disease is caused by a bacterium (Bacillus solana earum, E. F. Smith) which gains entrance into the stem where it penetrates the fibro vascular bundles, thus interfering with the sap flow. This disease is also common to egg plants, potatoes and tobacco. When once plants are affected with this disease, the best thing to do is to pull them out and burn them. It has been proven that this disease is transmitted from plant to plant by leaf eating insects, and especially by the Colorado beetle, better known as potato beetle. Consequently a wise preventive measure would be to keep in check any leaf eating or leaf sucking insects. This is easily done by spraying with Bordeaux, to which was added Paris green.

2—FUNGUS DISEASES.

In discussing these diseases it will not be necessary to prescribe a special remedy for each of them because the remedy for one disease unless otherwise specified, applies to all of them.

Anthracnose—This is a fungus disease which is known to attack the fruit only. The trouble is characterized by discolored sunken spots on the tomato fruit. In moist damp weather, these spots enlarge and they involve the decay of the entire fruit. This disease is due to the fungus colletotrichum phomoides (Tacc.) Chester, a fungus which causes heavy losses of tomatoes in Delaware.

Another disease of the tomato fruit is the one popularly known as black rot. The trouble is due to a fungus known as (macrosporium solani E. M.)

This fungus can only penetrate into the fruit through a wound such as insect bite or cracks formed through other factors. The disease is manifested as a black dot on the fruit. These dots soon enlarge into large black spots followed by a depression. In moist weather the whole fruit is involved and thus decayed. This disease is also common to the potato plants on which it causes a disease known as Early Blight.

Leaf Mold—This is a disease which attacks the leaf but very rarely the fruit. Affected leaves first show small brown spots which gradually increase in size until the most of the area is involved. On the under surface of these brown spots is found, the olivaceous growth of the fungus (Cladosparium fulvum cke.) The general effect of this fungus is often to cause plants to defoliate entirely.

Another serious tomato disease is the leaf spot caused by the fungus septoria lycopersici Spig. This disease is characterized by numerous small angular spots, pale in the centers, bordered with a brown band. The affected leaves usually show the tendency of curling dorsally. When the disease is very severe petioles, twings and even the tomato fruits are known to be affected with these little spots. However, this condition is usually rare.

The sleeping disease of the tomato is another serious disease. It is caused by the fungus Fusarium Oxysporium Schl., which is also the cause of the dry rot of the potatoes. As the name of this disease indicates the fungus invades the fibro vascular bundles of the bundles obstructing the sap flow and causing a wilting justifying the name of sleeping disease. With the exception of the latter, all the above enumerated diseases can be controlled by spraying at the intervals of last two weeks (or less often according to the weather) with Bordeaux Mixture formula 4—4—50. To this should also be added Paris green or arsenate of lead to check the spread of injurious insects which help in disseminating the fungus diseases.

3—PHYSIOLOGICAL DISEASES.

This third group includes a class of obscure disease, obscure in the sense that we know nothing as yet of their cause. An example of this is the mosaic disease of a disease supposed to be due to poor cultivation, to bad weather, to enzyme troubles, all combined. In such cases as well as in any of the cases above mentioned the tomato grower must not expect to find a sure relief in the spraying remedies. When once a plant is affected with a fungus disease, no amount of spraying will cure it.

SPRAYING.

However, while spraying will not cure, it will protect the healthy plants from getting contaminated, and it will also kill the spares from the surface of the affected plant. Hence we cannot emphasize too strongly the importance of spraying. It was well said: "An ounce of prevention is worth two of cure."

J. J. TAUBENBAUS.

Summer School At Dover

The 11th session of the Delaware Summer School will be held at the Wilmington Conference Academy, in Dover, beginning June 21st and closing August 1st. The officers and faculty will be: Elmer L. Crues, principal; E. L. Hardesty, superintendent of Sussex county, written arithmetic, English, grammar, and physiology; Prof. George S. Messersmith, of Lewes, psychology and civics; James E. Carroll, superintendent of Kent county, mental arithmetic, geography and spelling; A. R. Spaid, superintendent of New Castle county, botany and nature study; Miss Jean L. Garrabrant, paper folding, paper cutting, drawing and modeling.

Miss Eleanor B. Forman, an instructor in the State Normal School, Farmville, Va., will have charge of methods in the first, second and third grades. Miss Eleanor L. Brill will again have charge of the model school, in which she will teach children in the presence of teachers who wish to observe this work by the most modern methods.

Grange Advocates Endowment Fund

The movement started by the Grange of New Castle county to raise an endowment for Delaware College is a worthy one and should meet with every encouragement; and more, it should be a hint to the wealthy men of the State do do something for the one college within its borders. This institution has been struggling along for three quarters of a century, and never would have met with any worthy success had it not been for the aid given it by the Federal Government. The State has done little for it but from time to time it has provided meagrely for buildings; and recently rather generously bought a State farm for the use of the College and Experiment Station. The argument, however, which won from the Legislature the necessary appropriation for this purpose, was based upon the fact that such a farm would bring hundreds of thousands of dollars to the farmers of the State. This is a sound argument and a worthy one, so far as this purpose is concerned; but there is a broader view—the State should provide liberally for the higher education of its people. Everybody now agrees that the State should provide for all its children the rudiments of education; but without higher education for some of the people the rudimentary education must dwindle and fail, and the greater the number who are highly educated the broader and more general will be the culture of the people and the better the education provided by the public school system. The State should awake to the needs of higher education, and our wealthy men should also arouse to the appreciation of the obligations imposed by the possession of great wealth. No man liveth unto himself, and no man dieth unto himself; and wealthy men are no exception to this rule or law. If our wealthy men would turn their thoughts for a little to our Delaware College they might give it an endowment that will make it the pride of the State and one of the best and most useful educational institutions in this whole country. Delaware has provided a home and shelter for these men, and it may have fostered and helped their plant for money getting. Let them remember their benign mother.

—State Sentinel.

Dad's Day Celebration

From the far West come the glad tidings that another day is going to be set aside in commemoration of the deeds of that venerable, long-suffering and patient person called "Dad." The day set aside for the "old man" will be Sunday, June 18. The flower, a red rose if the "old man" is living and a white one if dead, is to be worn, and we are willing to take off our hats and allow the gentle sunshine to kiss our bald pate in honor of the lady (who started something for "Dad."

Why should his name be absent on the bill of fare; why should he be kicked clear off the front steps when his name should be cut in gothic letters above the very threshold? We say "Bully for Dad," for it's he who rises at the break of day, lights the fire and throws down the hay, starts the coffee and eggs to boil—rolls up his sleeves for a day of toil. Mother is sleeping all the while, dreaming of gowns and the change of style. He wades through dew when the grass is wet while "Mother, dear Mother" is sleeping yet. He works like a trooper for is per, raising the coin for Molly's new fur. He meets the butcher and baker's bills, pays for grocer and millinery frills. For a "chicken dinner" he draws his check—and at said dinner he draws the neck. "Home without mother" may be sad, but what would you do without dear old "dad." So here's to the old man—the cheapest piece of bric-a-brac in the household, who plays an after born with a mute on all the time, but who in reality is ace high in life's deck of cards and never, no never, resigns when its his turn to follow suit. Bless your old heart "Dad" you are going to have a day that's all your own—a whole day.—Marine Telegram.

Newport Events

The Ladies' Aid Society was held at the parsonage last Wednesday evening. A carnival and Japanese tea was discussed. Entertainment: Solo, Mrs. Chester Davis; recitation, Miss Callie Little; solo, Mr. George Wiest; orchestra, solo, Miss Irene Pyle.

Mr. and Mrs. Harvey Gregg and daughters, Helen and Bryan, of Newport, Mr. and Mrs. Gregg Lynam and son, Vernon, of Christiana, Mr. Gilbert Lynam and son, Miller, of Wilmington, were Sunday visitors of Mr. Harry Lynam and family, of Newport.

A new carpet has been purchased for the M. E. Church. On account of building in the church, Children's Day will not be held until July.

Miss Sadie Dempsey and Mr. Frank Wirt were married at the Newport M. E. Parsonage last Thursday by the Rev. J. Harry Mitchell. After the wedding a reception was held at the bride's home near Marshallton. They will reside near Hockessin.

It was decided last Sunday in the Sunday school in the morning instead of the afternoon on account of being so hot.

The Newport public school will hold their commencement exercises next Tuesday evening. The graduates are Miss Eva Mahan and Mr. Harvey Gregg.

Mrs. Sarah Flinn has returned home after spending last week with her sister, Mrs. Ellen B. Woodward, of Newark.

Charles Sinnall, who has been suffering from blood poison, is recovering.

Mr. Charles O. Lynam, of Dunsmore, New York, is visiting his father, Mr. Thomas Lynam, of Newport.

Mr. Flaherty, who recently purchased the late William R. Flinn's farm, is stocking it with machinery.

IRON HILL ITEMS

Miss Helen Slack spent some time last week with friends of Newark.

Mr. George Delbert, of Elkton, spent Sunday with friends of this place.

The net proceeds of the festival held last Thursday evening in the Otts Chapel was $11. Proceeds for Sunday school.

Mr. and Mrs. Frank Moody celebrated their twenty-fifth wedding anniversary last Saturday evening.

Miss Hettie Slack was the guest of Miss Julia McMullen, of Glasgow, on Thursday evening.

Mr. James Short, of Chester, Pa., spent Sunday with Iron Hill friends.

Mr. Raymond Hagerty, of Wilmington, Del., was an Iron Hill visitor on Sunday.

Mr. David Logston, of Wilmington, spent Sunday with his mother of this place.

Iron Hill visited the Elkton Ball Park on Saturday and defeated the fast Collegian team of that town in one of the fastest games ever seen there. The game was played in exactly 56 minutes. It was a pitcher's battle from beginning to end, with Clay, of Iron Hill, getting the best of it. He struck out ten men and received almost perfect support. Ogle, of the Collegians, allowed two hits in the first inning, with an error behind him and Iron Hill scored one, the only run of the game. There was only one Collegian that reached first base. After the first inning Ogle tightened up, when a hit meant a run. A feature of the game was the throwing of Dunbar, of Collegians, he catching 1 men trying to steak to second base in the second inning. Score:

Iron Hill	1	0	0	0	0	0	0	0	0	—1
Collegians	0	0	0	0	0	0	0	0	0	—0

Strickersville

Mr. and Mrs. John Armstrong, of Ridley Park, are the guests of James P. Smith and family.

Homer C. Pierson and friend, Mr. Thompson, of Philadelphia, were entertained by his parents over Sunday.

The single men defeated the married men Saturday in base ball with a score of 5 to 2.

Mrs. Elsie Lowterman and daughter, of Wilmington, are enjoying a visit with Mr. and Mrs. Charles Davis.

Miss Lora Perry, of Wilmington, was a recent visitor of Miss Martha Smith.

W. H. VanHekle, Philadelphia, spent Sunday with Mr. and Mrs. George Bland.

Miss Reba Vansant has returned from a pleasant visit with Miss Mahala Singles.

Mrs. H. I. Garrett and son, Clinton, wer the guests of Mr. and Mrs. L. C. Garrett, over Sunday.

The base ball club will hold a strawberry and ice cream festival next Saturday evening, June 17, at the home of Harry Draper. All are invited.

Charlie Hughes spent Sunday with his parents here.

Mr. and Mrs. G. M. Vansant entertained Newark relatives Sunday.

Children's Day services will be observed next Sunday at Flint Hill M. E. Church.

Miss Reba Vansant, Newark, spent over Sunday with Miss Mahala Singles.

Miss Etta Reeves, Wilmington, circulated among friends here on Sunday.

Miss Martha Cree, Newark, spent a few days with Mrs. Nelson Pierson.

Miss Sara Pierce, Wilmington, and Miss Bertha Pyle, Newark, spent over Sunday with Mr. and Mrs. G. M. Vansant.

Miss Anna Hall, Newark, and Roy Hall, of Philadelphia, spent Sunday at Robert Hall's.

Messrs. Lewis Taylor and Samuel Pratt, Yorklyn, spent Sunday at Arthur Taylor's.

Wm. S. Montgomery spent Sunday with J. Clark Vansant.

Mrs. H. I. Garrett, of Philadelphia, spent Sunday with friends here.

Mr. VanHekle, Philadelphia, spent over Sunday with his sister, Mrs. Geo. Bland.

Prof. Clinton Garrett, Philadelphia, spent Sunday at L. C. Garrett's.

The festival held on the lawn of L. C. Garrett Saturday evening was a success and a large crowd attended.

Strickersville team defeated the Yorklyns here on Saturday in good game, 4 to 2. Draper twirled for the locals, and Scott and Peterson for the Yorklyns. Draper struck out 11, Scott 1, Peterson 2.

MARSHALLTON BRIEFS

Children's Day services were held in the M. E. Church on Sunday evening and despite the extremely warm weather, the church was well filled. An excellent program was rendered by the children under the direction of Mr. W. H. Wingate, superintendent of the Sunday School. A short address was also made by the pastor, Rev. C. W. Spry.

Mr. George MacDougall died at his home on Saturday morning, after a long illness. He was a member of the M. E. Church, and one of its stewards. He was also a member of the Knights of Pythias, of the Odd Fellows and of the Ancient Order of United Workmen. Funeral services will be held on Tuesday afternoon, from his late home, with interment at Newark.

Mrs. Sara Spence is spending some time with her sister-in-law, Mrs. Louis Hess.

Miss Addie Williams spent Sunday in Baltimore, as the guest of Miss Emerson.

Miss Elsie Sittler was the guest of Philadelphia friends for the week-end.

Mrs. George Mullin is entertaining Mrs. Ernest Hogg and Miss Edith Sharpe, of Wilmington.

Mr. Barrington, of Boston, was a recent visitor at the home of Mr. T. V. Simpson.

Miss Alice Flinn entertained a week-end party at her home.

Mr. and Mrs. Irvin Klair of near Milltown entertained a picnic party on Saturday. This is an annual affair and is looked forward to with much pleasure by the participants. The following guests were met at Marshallton and conveyed to the home of the Klairs by straw-ride: The Misses Margaret Woodward, Pansy Oakins, Nellie Dugan, Olive Bane, Annie Fanning, Charlotte Tay, Jean Bogan, Addie Williams and Harriet MacDonald. Miss Anna Sayres was already a guest of Mrs. Klair. A delightful time was spent by the party, and in the evening their number was augmented by other guests, who all spent a most enjoyable time.

P. M. SHERWOOD

Milford Cross Roads

Miss Etta Reeves and Miss Ethel Baldwin, of Wilmington, spent the week end with their cousin, Miss Lydia Mote.

Miss Bessie Dunahoe, of Philadelphia, spent the week end with friends at Beechwood.

Surprise party was given Mr. Edgar Jaquette last Saturday evening in honor of his birthday at his home. Those present were as follows: Mr. and Mrs. David Sheppard, Mrs. Elizabeth Jaquette, Mrs. Margaret Smith, Mr. and Mrs. Geo. Dulling, Mr. and Mrs. W. B. Johnson, Mrs. F. B. Mote, Mrs. Harry Truitt, Mrs. Anna Sander, Mr. and Mrs. Jacob Weist, Misses Bessie Dunahoe, Ethel Baldwin, Edith Mackary, Helen Jaquette, Agnes Humphrey, Mabel Jaquette, Mattie Guthrie, Irma Jaquette, Lydia Mote, Alice Sanders, Mary Walker, Amy Jaquette, Alma Johnston, Annie Sheppard, Ethel Sheppard, May Mote, Kathrine Jaquette, Alice Jaquette, Annie Sanderson, Edna Warren, Ethel Sanderson, Laura Walker, Ethel Pierce, Mary Barney, Etta Reeves, Edith Jaquette, Helen Price, Carrie Jamison, Edith Duling, Kathrine Moseley. Messrs. Edgar Jaquette, Theodore Warren, Warren Springer, Charlie Smith, Orville Little, John Heasilow, Leonard Pierce, Robert Elliott, Grover Whiteman, Edwin Guthrie, Harry Helms, William Mackary, Leroy Hall, Linton Truitt, Frank Smith, Harvey Sheppard, Alonzo Howell, Harlan Walker, Frank Mote, L. H. Sanders, Fred Sanders, Earle Mote, James Truitt.

Many games were played on the lawn, after which the guests were invited into the house, where refreshments were served.

Mr. Clarence Eastburn, wife and child visited his brother, Sunday, at the Cross Roads.

Children's Day services will be held by Milford Cross Roads Sunday School, on Sunday afternoon, June 18. All are invited.

—Children's Day exercises in Bethesda M. E. Church, Middletown, on Sunday, were well attended. The collections reached $50. Special music, violins, cornet and organ, was rendered.
