LET'S GET STATISTICS FIRST

A small gesture of justice has been made to the non-fraternity members of the student body. Three classes, composed largely of fraternity members, agreed by overwhelming majorities to increase the non-fraternity membership on the Student Council. The fraternity men who voted in favor of the bill are to be commended for ignoring the prejudiced outcries of the few of their element who had the perversity to oppose the passage of the proposal.

The only argument of any reasonable value brought out by the opponents of the bill is this: that the non-fraternity men are mostly commuters who have no noticeable interest in the campus activities with which the Student Council deals, and that, therefore, the non-fraternity element does not deserve greater membership on the Student Council.

We are preparing a statistical analysis of the situation. We are working to find out just how many non-fraternity men are active in campus affairs in proportion to fraternity men. We do not believe, however, that the results of our research will disprove the argument that non-fraternity men show little interest in activities. It is a generally recognized fact that most of the participants in extra-curricular affairs controlled by the Student Council are members of fraternities, men who live right on the campus and who can therefore conveniently take part in extra-curricular activities. But let's get statistics before drawing conclusions.

THE OPPOSITION SPEAKS

Our recent editorial urging that the man who succeeds Doctor Wharton as head of the Department of Physical Education be also qualified to conduct the Student Health Bureau aroused considerable attention. Although we still believe that we were right in our first commentary, we will attempt fairly to compare our original plan with one that has been suggested by other interested parties. To begin, we shall briefly outline first the REVIEW plan and second, the substitute plan. They are:

(1) That Doctor Wharton's place be filled by a man qualified both to head the Department of Physical Education and to conduct the Student Health Bureau.

(2) That Doctor Wharton be succeeded by two men, one qualified to head the Department of Physical Education, the other to take over the duties of the Student Health Bureau; and that the man to conduct the Health Bureau be a town physician engaged to serve at necessary times.

The opponents of the first plan have pointed out to us that there is not sufficient funds available to hire a man qualified to take over both jobs, but we believe that no one will question the proposition that student health is an item which should not be crossed out by a budgeteering red pencil.

The second plan provides for the hiring of a town physician who would come to the campus only when his presence was thought necessary at the moment. We believe that such a system would be far less reliable and inefficient than a system providing for a medically trained man actually residing on the campus and available at all times, both for emergency cases and for general routine medical care for cases not yet serious. The second plan provides mainly for curative treatment, but the original REVIEW plan provides for preventative care and curative care alike. The second plan provides mainly for emergency and serious cases, but the original REVIEW plan provides for preventative treatment that should greatly decrease the number of serious cases.

Perhaps the original REVIEW plan has defects that we are unable to discover, but since it is actually patterned on the existing system, we feel it is well justified. Perhaps the substitute plan has merits we fail to see, merits that are not based upon practical economics and budgeting. We invite comment on the question.

The Collegiate Review

The University of Chicago has one of the world's most complete newspaper files. The Chicago files of the London Chronicle extend back to 1758.

Fencing is becoming increasingly popular as a sport for college women, says Rene Peroy, Harvard coach.

Among suitable objects for justifiable homicide, say Northwestern University coeds, is the man who hums while dancing.

Nothing to it, say WPA authors of a guidebook to America. Pocahontas didn't love Capt. John Smith, she saved his neck merely because she liked Englishmen.

A flood more disastrous than that of 1927 threatens the South this year, according to Prof. Vernon C. Finch, University of Wisconsin expert in climatology.

With the cooperation of 100 of the largest firms in New York, CCNY has set up a new employment service for graduates.

SLIM SAYS:

By Grover T. Surratt

Pardon My Blush

In a recent movie comedy, which showed both in Wilmington and Chester, Bert Lahr says: "I want to belong to the Royal Order of Elephants—the Sigma Phi Epsilon!"

Switched Coats

I have someone's black overcoat which got at the Sig Ep Formal—thinking that it was mine. Anyone with my coat may have this one.

The Interfraternity Situation

In his weekly column in the Newark "Post," Bill Fletcher presented as unbiased an article on the situation as will probably be written. Nevertheless, I should like to add my contentions, convictions, etc.

I The Plays

I think that undoubtedly the major portion of the blame for such a dispirited exhibition of fraternity competition is due to the laxness of the fulfillment of the duties and obligations appertaining to the presidency of the Footlights Club. I do not wish to appear personal, yet I think that a hustling Footlights President could have drummed up enough interest in the Plays for all six fraternities to be represented. Then, too, I understand from reliable sources that such elements as lack of man power, other current events, and other questionable excuses were responsible for some fraternities not entering. I have also noticed shameful appearance on the faces of participants in interfraternity plays—particularly before the night of the play and at rehearsals. Evidently they are self-conscious of their taking an active part in a play—the last, at least, is a lot of tommy-rot!

II Swimming

In this instance I am without words of explanation. The Inter-Fraternity Council decides—the dates, rules, eligibility, etc. of the fraternity competitions. It is alleged that some of the representatives forgot to mention these dates to their fraternities. Another, a swimming coach got the opening date mixed. Etc., etc.—all rather flimsy excuses. Then, too, perhaps uppermost in some quarters was the questioned eligibility of a Sig Ep swimmer Frank Holt. He no doubt is far better than usual interfraternity competition. However, he is by the existing rules of the Inter-Fraternity Council, eligible. Also, I should like to recall Jack Kelly—an equally valuable asset to any tank team—yet no objection. It looks funny to me—in fact it smells to high heaven, i. e., the sudden dispiritiveness of the fraternities with respect to interfraternity competition. Will it suffice to say that on Saturday, May 2, the Interfraternity Relay Race will be run?

Boners—The Chemistry Building Is Full of Them

The University of Chicago has established a new chair of comparative law. Prof. Max Rheinstein, Nazi exile, was given the post.

By Harry T. Stutman

Caldwell Grows Up

A long time ago I mentioned Erskine Caldwell. I said that he would be a pretty good writer if only he would give his readers the credit of knowing the facts of life. It is just barely possible that someone else said it, before me, but the point is that I said it and meant it.

Well, Mr. Erskine Caldwell has now grown up. I have here a volume of his short stories, *Kneel to the Rising Sun*, and you can easily see that Mr. Caldwell is no longer preoccupied with sex and its aberrations. One way of determining this change is to read the book. This is a revolutionary statement, I am forced to admit, but then, aren't these revolutionary times?

Kneel to the Rising Sun is a book for a college-man. Some of these stories first appeared in *The American Mercury*, *The Avonil*, *Directorion*, *Esquire*, *Literary America*, *The New Masses*, *Red Book Magazine*, *Scribner's Magazine*, *Story*, *The Sunday Review*, and *Vanity Fair*. And some of them have not appeared in any magazine as yet, and very probably won't, at least not as long as the Watch and Ward Society functions. These, of course, are the stories which the college-man will read first. And herein lies the book's advantage. A college-man is a busy person, what with rehearsals and meetings and dates and sleep. Therefore, he can read all the dirty stories first and leave the others until his dotage.

Be very careful, though, about this book. Mr. Caldwell is a Communist, but he is smart enough not to say so in his stories. No. All he does is write little truths about poverty and disease and man's inhumanity to man, and he makes you think. This is dangerous. College men know little about poverty—real stark, naked, hungry poverty, and as for thinking. . . .

No. Just read the dirty stories, gentlemen. Don't bother your little heads over the others. Papa'll send a check in the morning.

I'll meet you in the D. P. at night.

Voltaire

By Idris Smookler, W. C. '39

A commentary on H. N. Brailsford's Voltaire, N. Y., Holt, 1935.

In his time Voltaire played many roles and played them all well. He was dramatist, poet, historian, reformer and a human being. His writings and his life are filled with the things he stood for, "God and Liberty." That phrase means toleration in religion, destruction of superstition death of tyranny and at least personal liberty.

Voltaire believed that the salvation of France lay in the middle class. They were he thought the best class of society. The middle class was industrious, seldom wasteful, moral, and tolerant as long as business was good. In England they had made that country the richest and greatest power in Europe. In France, on the other hand, the aristocracy held political power, and they had used it to bankrupt the country, ruin her commerce and industry, and oppress her people. When Voltaire saw the contrast, is it any wonder that he should exalt the middle class and regard it as the Saviour of France?

He wrote down his thoughts. His writings were gay and witty and often seemingly inconsequential. But they made one think. Voltaire expressed ideas that were in the back of quite a few people's

(Continued on Page 5)

Blue Hen Fencers Tie Stevens Institute In Final Meet

Team Handicapped By Absence Of Captain Murray In Meet At Stevens

Vapaa, Owings And Baldwin Each Win Their Respective Events Thus Tying Score, 6-6

The University of Delaware fencing team completed its official 1936 schedule with a 6 to 6 tie against Stevens Institute of Technology at Hoboken, New Jersey, on March 27.

Delaware chances of winning were hampered when Captain Murray was not able to compete. Though sick when he left Newark, Murray had hoped to be able to fence, but on arriving at Hoboken was ordered to return home immediately by a doctor.

In his absence, Baldwin and Owings fenced the foils together with Kozinski. Kozinski, however, was the only one to win. This weapon proved to be the strongest which the opponents fenced, and they won 3 out of 4 bouts.

Gibson, of Stevens, starred in the epees. He won from both Baldwin and Vapaa, who in turn defeated Arnoldi. The team scoring was tied at 2 to 2 for this weapon.

Delaware ran away with the sabre events, and came up from behind to bring the final score to a tie.

The detailed summaries follow:

Table with columns for Delaware and Stevens, listing fencers and their results in FOIL, EPEE, and SABRE events.

Following is a tabulated summary of the individual scoring results of the major team members during the season:

Table showing individual fencer statistics: Name, Bouts fenced, Meets won, % wins.

Others who fenced as substitutes from time to time were John Connor, George Davis, Robert Hopkins and Julius Reiver.

A little over 75 candidates, mostly Freshmen, reported for practice at one time or another during the season. Most of these, however, were lost because of an insufficient supply of equipment to take care of them.

In reviewing the prospects for next year, the outlook appears very bright. Only one man, Captain Alick Murray, will be lost by graduation. Next year should find the Delaware team well supplied with really good fencers.

Certain members of the team are planning to enter competition in Philadelphia under the auspices of the Amateur Fencers League of

America. It is hoped that such competition will make up for the lack of an active coach and that it will at the same time keep the team in touch with new developments in the fencing world.

Diamond Squad Returns from South

With The Blue And Gold

By Dave Sloan

One or two bad breaks aren't enough, it seems, for Coach Clark and his track prospects for the coming season, which will be inaugurated by a home meet with Johns Hopkins, Saturday, April 18th.

D. L. Sloan

Fenton Carey will not run with the Blue Hen trackmen this season. Being wise and taking an M. D.'s advice, Fenton has withdrawn from the ranks and will act as an assistant to Coach Clark.

In the Delaware State Badminton Tournament held recently in the "Y" at Wilmington, two industrious candidates sprang from the Blue and Gold campus, to the spotlight. "Ed" Bardo and "Boney" Jackson, two of our crack players of the game, reached the near-winning stage of the contest and then lost by hard luck plus a few errors from a technical standpoint.

All indications point toward a weak track squad as far as dual meets are concerned. The loss of Lambert and Minner of last year's squad and the bad breaks already prevalent in the molding of this year's team, make any other out-

come highly improbable. A strong foundation for a squad may be found in the field events, in which "Bull" Carey and "Swede" Drozdov will star. Then, too, we have Pennock who should improve in the javelin. Perkins will be unbeaten in 440 dual meet competition.

Four Blue and Gold merman, "Bill" Croes, "Marty" Howard, "Bull" Carey, and "Sonny" Kenworthy, competed in the Middle Atlantic Y. M. C. A. Championships held in the Catholic University pool at Washington, D. C., during the holidays.

Five straight losses for "Doc" Doherty's ballplayers doesn't leave one with a good outlook for future competition. It must be admitted, however, that the boys met keen ballplaying and their losses were due chiefly to bad breaks and many of those early season errors.

If continued poor maintenance of the tennis courts is shown, the fair damsels from W. C. D. will have easy access to a posy picking site this May Day.

Sigma Phi Epsilon Wins Fraternity Drama Contest

Three Groups Enter Competition; Sigma Tau Phi Places Second With Original Play

Sigma Phi Epsilon won the first leg on the new Interfraternity Play Trophy when its play "The Master of Solitaire," was selected as best of the three plays presented Thursday, March 26.

Carl Bleiberg's original play, "The Single Verse," was a close second, while the Sigma Nu Fraternity's play was featured by the excellent work of T. W. Keithley.

The judges of the contest were Mr. William Winder Laird, Jr., Mrs. Sidney Conn, and Carroll Cox, all experienced actors. The faculty added their touch when they presented for the second time a dialect play starring Mr. Kase and Mr. Wilson of the English department and Mrs. Spencer.

Table showing statistics for the George Washington Fraternity Drama Contest.

With Other Colleges

By E. J. Wilson

Some pledges think they have it bad during Hell Week, but at Lehigh one freshman was commanded to make a survey of the members of the faculty and find whether they slept in pajamas or night-shirts.

But—From the Fordham Ram

When you Started this You thought it Was a poem By this time You probably see That you Were mistaken Isn't it funny How people will continue To read something Even when they know They're being Fooled!

The New Yorker informs us that on the back of the salary checks received by members of the faculty at the University of Illinois are the following directions: "If endorsement is made by mark (X) it must be witnessed by two persons who can write, giving their residence." Higher learning!

Here's a new slant on this leap year nonsense that is running around loose. At Hiram College, the woman students were granted "male freedom" for five days and co-ed regulations governed the enough, but who makes us mad?

Jinx Works Again On Coach Clark's Squad

Track Team Loses Services Of Fenton Carey, Veteran Half-Miler From Ocean City

While no specific training is being given the trackmen, all candidates have been practicing in earnest for the approaching season. Coach Clark, who is slightly up in the air about the jinxed team, expects to practice starts and have time trials shortly.

Three freshmen have answered the call for more candidates, but more are obviously needed. The new prospects are J. Stewart, Good, and Anderson.

The list below gives one a fair idea of the probable entries for each event:

Sprints—Mayer (Senior), Good (Freshman), Zinman (Freshman), Tyler (Sophomore), Jackson, Sophomore.

Javelin—J. Carey (Senior), Pennock (Junior), Drozdov (Sophomore).

Shot—Drozdov (Sophomore), J. Carey (Senior).

Discus—J. Carey (Senior), Drozdov (Sophomore).

Other aspirants for weight events include Aranoff and Frankofsky.

440—Perkins (Junior), Jackson (Sophomore), Mayer (Senior).

880 and Mile—King (Junior), Anderson (Freshman), Warren (Sophomore).

2 Mile—Warren (Sophomore), Eastburn (Junior).

Hurdles—Jack Stewart (Freshman), Arnold (Sophomore), MacDonald (Sophomore).

Pole Vault—Applegate (Freshman).

Broad Jump—Zinman (Freshman), Merscher (Sophomore).

High Jump—Pennock (Junior), Merscher (Sophomore).

men students. During this period the men had to "be in their own rooms at 8.30 p. m.; sign the record book whenever leaving dormitories; get permission from the dean when leaving town; and secure the matron's permission to go riding."

Maybe you haven't heard this one. Someone said that his compulsory military training is a lot of R. O. T. . . . see?

When a Man's a Man

If a fellow doesn't try to kiss a girl and could, he's a sissy. And if a fellow doesn't try to kiss a girl and couldn't, he's wasting his time and hers. If a fellow tries to kiss a girl and doesn't get away with it, he's a brute. And if a fellow tries to kiss a girl and gets away with it, he's a M.A.N. (What brutes these college men are!)

Prof: "Take this sentence; 'Let the cow be taken out of the lot. What Mood?'"

A Sig Ep: "The cow." And that reminds us of the old one about the cow who drank ink and mood indigo.

Governor Martin L. Davey of Ohio has been rather rough on the state allotments of funds to Ohio State University. As a result, an old epigram is being passed about on the campus in this new form: "Don't put off until tomorrow what you can do to Davey."

An eastern women's college is bragging that men become angry on an average of six times a week, while the women lose their temper only three times a week. True or not, but who makes us mad?

By Audrey Davis

The last vacation of the term over, the willing and the unwilling came back Sunday night or Monday morning for the last stretch before exams. Our rooms had been cleaned for us, so that made the return a little easier.

Sunday night it wasn't so bad; we had to discuss our glorious time or show new clothes, but—Monday morning! Though the prospects of a number of good times help a lot.

On Monday, April 6, Chapel was held at 12.30 p. m.

Baseball practice for all classes was held at the Gymnasium at 4.10 p. m. on Monday, Tuesday, Wednesday and Thursday.

Wednesday, April 8, there was a French Club meeting in Room 10, Science Hall, at 12.30 p. m.

Thursday, April 9, the Music Club will meet at 4.10 p. m., in the Music Building.

Friday morning at 6.45 a. m., Easter services will be held.

Since the weather is getting so much better, Outing Club is beginning to come to life. No one, not even the hardiest of our number can be expected to hike one, five or ten miles when ice, snow or slush cover the ground. So many hikes are being planned. Jean Sigler, vice-president of the Athletic Association, is president of Outing Club.

America Faces Shortage of Technically Trained Men

Montclair, N. J. (ACP)—American business and industry faces "a terrible shortage of technically trained men, according to the recent statement of Dr. Harvey N. Davis, president of Stevens Institute of Technology. Among general non-technical industries in particular, he said, the demand for engineering school graduates far exceeds the supply.

"The employment situation definitely broke for Stevens alumni early last Spring," Dr. Davis said. "Ninety-six per cent of the graduates of the six depression classes, 1930 to 1935, are employed, close to what one would expect in normal times. For last June's seniors, the figures are 91 per cent employed and more jobs have been

Chairman Watson Announces Band And Admission Fee; To Be Held In Newark Armory

Tommy Tucker and his orchestra was chosen by the Student Council to render the music for the annual Spring Frolic to be held at the Newark Armory on Friday, April 24. The admission price will be two dollars a couple with dancing from nine to two.

Ralph Watson, chairman of the dance, and his committee consisting of Hugh Stewart, Jack Geist, and William Black are aiming to make this the greatest Spring Frolic ever presented.

turned down than there are men left."

General business concerns of a non-technical nature, Dr. Davis said, are showing an increased preference for graduates of technical schools.

"In the boom years most of our graduates were absorbed by the utilities," he explained. "Now, however, all the men we can supply are being taken by general industry, and I don't know what we'll do when the utilities come back."

Abolition of states and division of the country into regions, their boundaries dictated by economy and cultures and traditions, was suggested by Dr. J. W. Manning, of the University of Kentucky.

Ad in the Syracuse (N. Y.) Post-Standard: LADY'S PURSE—Containing Psi U, Phi Psi and Beta Theta Pi fraternity pins. Valuable to owner for sentimental reasons.

Tickets Now On Sale

Already reservations for more than 250 seats have been made for the production of "Peer Gynt" to be given by the E 52 Players on April 30 and May 1. The management announces that reservations may be made at the box office in Mitchell Hall week-day afternoons from 4.15 to 5.30, and that applications for tickets will be accepted in the order of receipt.

Snooping to Conquer

By David Kozlowski

Well, here we are back again at the old grind with all of the gloomy, dreary Spring daze upon us. Five or six of our brethren have just returned from the sunny skies of Florida. Stoll, the popular hero of Delaware, who considers himself (as he puts it in his own words) a perfect ideal, reports that he had just a bally time down there. He claims that he got the instep of his feet sunburned. (Probably standing on his head again.) It's too bad that he just missed the tornado while coming up.

By the way, Emerson had better keep tabs on Crocker the elder, who taught at a high school in Dover, where the former's lady friend attends school.

You wouldn't believe it, but it's true (because Petunia my petite little red ant told me so), that "Zip" Dunlap, the man who stirs up numerous W. C. D. hearts, has been going steady for two months with a lass who he calls his "problem child," 'cause she doesn't cooperate.

Believe it or not Harter Hallites, but McMahon is getting social. He actually has started going to two dances per day. What will Lattin pay Morris?

During the Spring vacation Dr. Hullihen spoke at a scout meeting on Thursday evening and stated that he would rather own a scout-master's key than a Phi Kappa Phi (or somethin') Key.

After Mr. Holbrook had spoken about the German courses at Heidelberg offered to American students it was found that the whole class wanted to go because after taking a course one receives a diploma without taking any exams. Nice country, Germany, eh?

Back again to the good old Ec 202 class. Last Monday it seemed that the boys were kinda' restless. They even began rolling dem bones to sooth themselves. John Scott, our trusty puritanical comrade, surprised and literally bawled the whole class over when he too flashed a pair of bones.

Merscher wrote some of his love and possibly fraternity letters in class and passed them around for

Sigma Phi Epsilon Formal Features Savitt's Orchestra

Popular Radio Band Makes Affair Tremendous Success; Novel Program Introduced

The Delaware Alpha Chapter of Sigma Phi Epsilon's twenty-eighth annual formal dance, held in Old College on Friday evening, March 27, proved to be one of the best fraternity dances on the local campus this year.

With music being furnished by Jan Savitt, featuring Carlotta Dale as vocalist, the program was divided in unique order. Instead of numbering the dances in keeping with the usual custom at such affairs, they were arranged thusly: D, E, L, A, W, A, R, E, in the opening group; and A, L, P, H, A, S, P, E, in the final list. Encores for each of the four classes were played to the various numbers.

The orchestra was on a raised platform which added to the effect of the music. Little or no decorations graced the room—the fraternity flag being draped behind the orchestra and a lighted fraternity badge being suspended from the balcony supplying the simple but tasteful additions.

Patrons and patronesses were: Major and Mrs. S. W. Anderson,

the friends to correct the grammatical errors.

Here's some of my dear dear little itty bitsy beedy meedy Petunia's stuff. Here goes.

"Dr. Crux will lead the Greenbank Glee Club in the chorus of 'Signs of Spring' that is 'Oh it's always fair weather when good felons get together.'"

Petunia put the subject of the last debate in a neat little nutshell when she said:

"Many an M. D. Has his office M. T."

Congratulations and orchids belong to C. Craig Cannon and Bill Black, the social committee, and not to be forgotten, C. Emerson Johnson, the booking agent who was responsible for Savitt's appearance.

The music was superb. Savitt showed a willingness to mix up his numbers in accordance with the desires of his audience. His renditions were slow at times, fast at other times and done in medium time over the greater portion of the program.

Compacts bearing the fraternity's seal as a crest on the lid were given to the girls as favors. The color scheme of the favors varied in white and gold, and black and gold.

While there were surprisingly few alumni members of the frat on hand for the affair, grads were represented by Joe Green, Joe Crowe, Don Morton and Al Robertson.

Invited guests included each fraternity president, one other guest from each fraternity, and Joe Scannell, Hymie Swartz, Sonny Kenworthy, Vic Willis, Olaf Drozdov, and others.

Mechanical Engineers List Address On Ballistics

Wallace Coxe, Ballistics Engineer of the du Pont Co., will address the local American Society of Mechanical Engineers, student branch, on Tuesday, April 14th. His talk will have as subject "Ballistics" and will be given in Room 308, Evans Hall, at 7.30 p. m.

Mr. Coxe is a graduate of the Engineering School of Princeton University, and has been in the employ of the engineering department of the du Pont Co. for many years. He will be brought to Delaware through the efforts of Prof. Blumberg, Faculty Adviser of the Society.

The lecture will be illustrated with film, and will be open to anyone interested.

Concrete Expert Speaks Before Civil Engineers

R. B. Young, Testing Engineer, Hydro-Electric-Power Commission of Ontario, Canada, will speak before a meeting of the Local American Society of Civil Engineers, on "The Essentials of Good Concrete Making." The talk will be given on Monday, April 13 at 7.30 p. m. in Room 308, Evans Hall, and will be illustrated.

Previous to the meeting, at 7.00 p. m., in the materials' laboratory, a 14' x 6 1/2" slab of reinforced concrete will be tested on the new hydraulic machine.

The officers of the society were elected on March 27 and are H. Kent Preston, Jr., president; Drexel S. Donalson, vice-president; and Robert Cooke, secretary-treasurer.

Civil Engineers To Hear Authority on Concrete

The University of Delaware Student Chapter of the American Society of Civil Engineers will have as its guest speaker on Monday, April 13, 1936, Mr. R. B. Young, testing engineer, of the Hydro-Electric Power Commission of Ontario, Canada.

Mr. Young is an international figure in the world of engineering and will speak on the subject "The Essentials of Good Concrete Making." His lecture will be illustrated by slides and film; it will start at 7.30 p. m. Previous to the meeting and beginning at 6.45 a 14 ft. by 6 1/2 in. reinforced concrete slab will be tested in the new hydraulic apparatus. Every one is invited.

Winslow Dancers Scheduled For Next University Hour

(Continued from Page 1) society career for one in dancing. She studied for eight years at the Braggiotti School; then for a number of years she continued her dance work under Ruth St. Denis and Ted Shawn in New York. She became a soloist with Ted Shawn's group and toured with them during the season of 1931.

Five years ago she organized her own school in Boston, one of the foremost in New England and one of the most progressive in the country.

She has since studied the dance in Europe. She has visited Spain, and studied therewith Otera. More recently she has made a study of the modern dance in Germany.

Miss Winslow's programs are featured by careful attention to detail, effective lighting, and colorful costumes. The costumes are designed by Miss Winslow herself, and are particularly adapted to her own style of dancing.

Letter to the Editor

April 7, 1936.

To the Editor:

An article concerning Lt. Colonel Ashbridge and his activities as head of the Placement Bureau appeared in the last issue of THE REVIEW. Colonel Ashbridge has impressed all of us who really know him with his honest and active interest in the University and the welfare of the students of the University. The graduating Seniors, who have derived the direct benefits of Colonel Ashbridge's work, sincerely appreciate his successful efforts to place them.

Jack P. Hartmann,
President, Student Council.

Association Established by Four Engineering Groups

(Continued from Page 1)

This organization is trying to place the General Electric "House of Magic" on the program.

Officers of the Governing Council are Joseph Stuart, III, president; J. C. Geist, secretary; H. K. Preston, treasurer, and John Bishop, publicity chairman. The membership consists of three representatives each from the Wolf Chemical Club, the Delaware Electrical Engineers Club, the A. S. M. E., and the A. S. C. E.

Dr. Eastman and Professors Koerber, Blumberg, and Mylrea form the faculty advisory committee.

Jos. Stuart, Engineer, Gets Degree with Distinction

Joseph Stuart, III, one of the outstanding engineering students at Delaware, will be the only mechanical engineer to graduate with the new degree with distinction. He has chosen as his special field Aeronautics and has done considerable work on this during the holidays at Bellanca Field.

The work has been done under the guidance of Prof. Blumberg and is in line for Joe's matriculation in the Aeronautics Department of M. I. T., this fall.

Prof. Blumberg to Speak Before Wilmington Clubs

Professor Leo Blumberg, of the Engineering Faculty, has accepted an invitation to address the Service Clubs of Wilmington on Tuesday, April 14th, at 6 p. m., in Miss McConnell's. He will use as a subject: "The Nature of a Career."

This organization is composed of business and professional men of Wilmington and numbers among its members some of the University of Delaware Board of Trustees.

Probably the oldest co-ed in the country is taking archaeology at Brown U. She is 81. Wonder if she goes to Junior proms?

A Cincinnati U. Prof. says, "The United States has turned out to be the land of the spree and home of the Knave."

Review's Reviews

(Continued from Page 2)

heads. They began to realize that King and Church were neither invincible nor sacred. They compared, as Voltaire did, France with England and began asking why there was such a difference between the two. The answer was an inefficient government, a degenerate nobility and a weak king.

The middle class, seeing that in England their class had economic and political control, wondered if they couldn't do something to

bring about such a condition in power of the middle class in France. They did. That was the French Revolution. Voltaire's writings helped bring about the rise to the proletariat in Russia.

Each Puff
Less Acid

**Each Puff Less Acid
A LIGHT SMOKE
OF RICH, RIPE-BODIED TOBACCO**

Over a period of years, certain basic advances have been made in the selection and treatment of cigarette tobaccos for Lucky Strike Cigarettes.

They include preliminary analyses of the tobacco selected; use of center leaves; the higher heat treatment of tobacco ("Toasting"); consideration

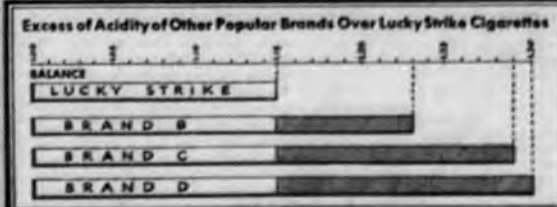

of acid-alkaline balance, with consequent definite improvement in flavor; and controlled uniformity in the finished product.

All these combine to produce a superior cigarette—a modern cigarette, a cigarette made of rich, ripe-bodied tobaccos—A Light Smoke.

Copyright 1936.
The American Tobacco Company

Luckies are less acid

Recent chemical tests show* that other popular brands have an excess of acidity over Lucky Strike of from 53% to 100%.

*RESULTS VERIFIED BY INDEPENDENT CHEMICAL LABORATORIES AND RESEARCH GROUPS

Plan Elaborate Scenery For Spring E 52 Play

(Continued from Page 1)

artists. Gordon Chesser, who has done such fine work on many shows at the University recently, has designs for this production which certainly surpass anything ever before made for a University production. He is also stage manager in charge of the execution of these designs. Much of the scenery has already been completed as members of the stage crew spent a considerable part of their Spring vacation in the workshop at Mitchell Hall.

In order to facilitate the change of scene, as special gridiron has been built for this production. Practically all of the changes are planned to be made in a few minutes, and during all of them the audience will be entertained by selections from the "Peer Gynt Suite" on the organ by Firmin Swinnen.

The painting of scenery is being done also by veterans, under the direction of Miss Betty Armstrong. She is being assisted by Miss Betty Jean Hammond and Miss Dee Smyth.

Reservations for the two performances may be made at Mitchell Hall weekday afternoons (except Saturdays) from 4.15 to 5.30.

Music Outstanding

The production of "Peer Gynt" by the 52 Players on April 30 and May 1 promises to be a feast for

both the ear and the eye.

The musical program has been arranged about Edward Grieg's two famous "Peer Gynt Suites." Between scenes during the entire performance, music from these Suites will be played on the organ by Firmin Swinnen, who is making a special adaptation for this production by the Players. Grieg wrote this Suite especially for "Peer Gynt" at the request of Ibsen himself, and it has always been a feature of the play, adding unity and atmosphere to this most imaginative drama.

The Grieg Suites will also be used for the dances and singing. The dance in the Hall of the Mountain King will be done by Miss Doris Smith of Newark, who has had considerable experience locally in chorus and solo dancing. Anitra's dance will be done by Miss Zoe Griffith of Philadelphia, who has studied dancing for a number of years in one of that city's foremost schools of the dance. Miss Griffith will also be remembered for her splendid interpretation of Jude in "Hell Bent For Heaven" last December.

Solveig's "Sunshine Song" and her "Cradle Song" will be given by Miss Catherine Rittenhouse, soloist with the Women's College Glee Club. Miss Rittenhouse is now studying voice under Mrs. Glenn Gildersleeve, who is directing her in these two songs. Miss Mary Francis Thompson, understudy for the part of Solveig, is also studying the songs under Mrs. Gildersleeve. Miss Thompson comes

Want To Marry Money? You'll Change Your Mind!

New York (ACP)—You may think you'd like to marry money, but the chances are that when you come to a decision you won't much care.

At least this attitude is indicated in a six-year survey of the problem just completed by Dr. Ray Erwin Baber, Professor of Sociology in New York University.

Dr. Baber, who conducts a course at the university's Washington Square College entitled "Marriage and Family Life," interviewed 642 college students and 220 parents on the matter of choosing a marriage partner.

The students, 321 young men and 321 young women, declared that economic status was a matter

of small concern when it came to selecting a mate, since 93 per cent of the men said they would marry a girl of lower economic rank than their own and 82 per cent of the women were of the same opinion.

Not so many of the 220 parents (105 fathers and 115 mothers) took the same view of the question. Sixty-six per cent of the fathers declared they would be willing to allow their daughters to marry a person of lower economic rank and 69 per cent of the mothers agreed.

On the question "would you marry a person of lower moral standards than your own?" 20 per cent of the men answered yes, and one-fifth of the women replied affirmatively.

Fifty-eight per cent of the men and 42 per cent of the women would marry outside their own faith, while on the question of intelligence, the men voted 76 per cent in favor of a less intelligent mate, 18 per cent of the women.

Additions to Delaware Curriculum Advocated By Education Director

Dr. J. E. Wallin, director of special education, and of the mental hygiene division of the department of Public Instruction, in his annual report on the operations of the division, recommended the establishment of special courses at the University of Delaware for instruction in the teaching of mentally retarded children.

His report also recommended that a course for teachers of manual training also be added to the University curriculum.

A freshman at U. of Colorado was found guilty of stealing a chemise from a clothes line behind a sorority house. He was given a suspended sentence when he pleaded that it was his first slip.—Brown and White.

*I wouldn't give
that for a cigarette
that doesn't Satisfy
...that doesn't give me
what I want in a smoke*

I want my cigarette mild, of course—I hardly think anybody enjoys a strong cigarette. But deliver me from the flat, insipid kind.

I find a great deal of pleasure in Chesterfields. They're mild and yet they seem to have more taste and aroma. I enjoy them

*They Satisfy... just about
all you could ask for*

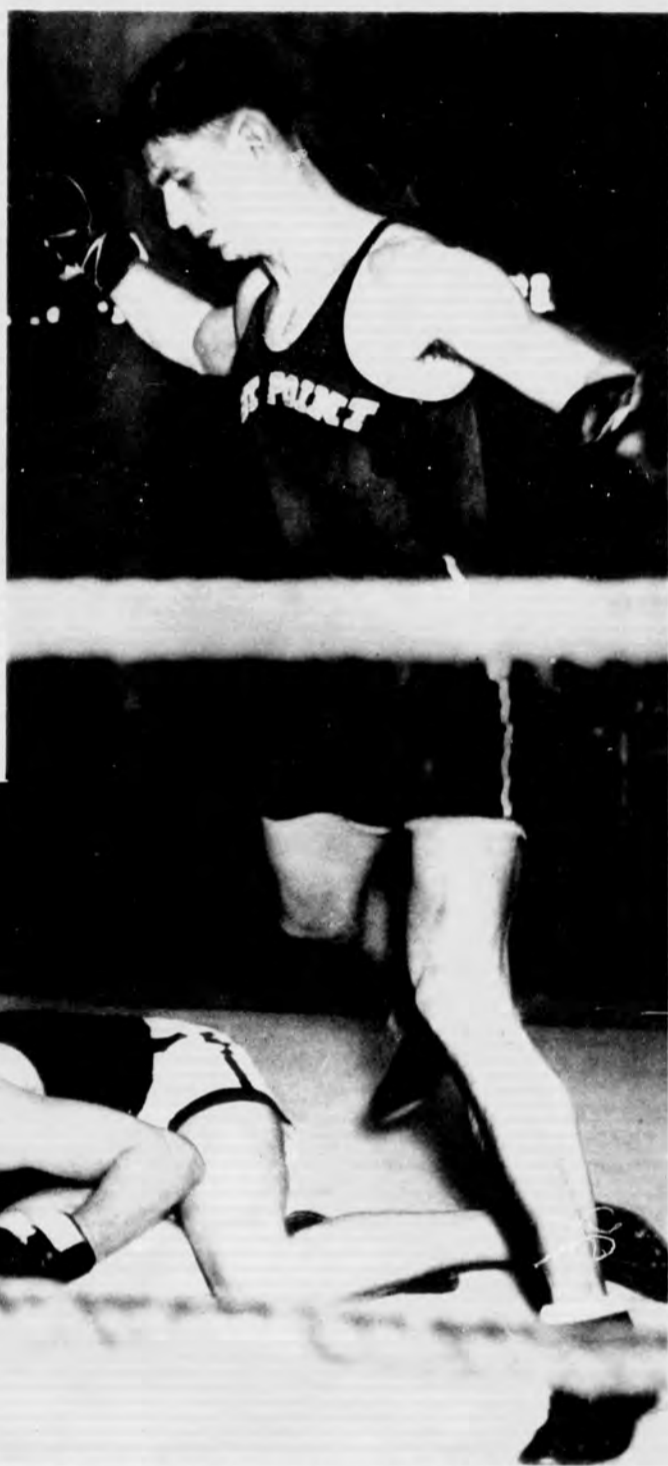

The Review

The Undergraduate Weekly of the University of Delaware

NEWARK, DELAWARE, APRIL 1933

FIGHT to remove civilian prejudice against finger-printing was extended to colleges and universities with the recording of the finger-tip impressions of all Barnard College undergraduates by New York police officials.

ARRIVE SIR KNIGHT! - As part of the ceremonies in gaining membership in the University of Kentucky's Scabbard and Blade military society, Kentucky's Gov. A. B. (Happy) Chandler kneels to military ball queen Mary Maddox to receive the all-important sward tap.

HARVARD'S Tim Shea was kayoed by Jim Luper, 165-pound U. S. Military Academy boxer, a second before the cameraman snapped this picture. The photo reveals how Luper almost tripped over his fallen opponent after he delivered the last telling blow. Harvard won the team title, though, by a 5-10-3 score.

PENNSYLVANIA'S oarsmen heed the barking demands of Coxswain Stanley Arnold and pull vigorously down the Schuylkill river in their first out-door workout of the season.

WHIRLWIND FINISH - Eddie O'Brien, Syracuse University, almost equalled his own world record for the 600-meter run in the Intercollegiate A. A. A. meet by covering the distance in 1.21.7, only 7/10 of a second slower than the world's record he set two weeks earlier. This picture of the finish shows O'Brien breaking the tape, with Ed Borck of Manhattan second and Richard Gill of Boston third.

THE *Spotlighter*

Two Medals

TO POSSESS either the William Gibbs or the William H. Nichols medal implies reward among chemists, most of whom taste little public adulation, though both medals go to men who have made their fellows' lots easier and postpones their fellows' deaths. A high national mark of scientific achievement, the

1935 William Gibbs medal was last month granted Dr. Roger Adams, head of the department of chemistry, University of Illinois, and president of the American Chemical Association.

The 47-year-old recipient was Boston born, Harvard educated (three degrees). After study in Berlin, he taught at Harvard and Radcliffe. Lep-

rosy, anasthetics, atoms, all the minutiae of organic composition have been within the province of his frequently published research. The Greeks, ATO, Phi Beta Kappa, Sigma Xi, Phi Lambda Upsilon, Alpha Chi Sigma, and Gamma Alpha, have had words for him; he is one of their members. In 1927 he received the William H. Nichols medal.

"Of Incalculable Value"

THE William H. Nichols medal winner for 1936 in the New York section of the American Chemical Society was William Mansfield Clark, DeLamar professor of physiological chemistry at Johns Hopkins since 1927. Born in Tivoli, N. Y., Dr. Clark received an undergraduate degree at Williams, a Ph. D. at Johns Hopkins. Seventeen years of his scholarship were spent in the service of the United States government, divisions of agriculture and public health. The Nichols medal cites this Williams Phi Beta Kappa and Alpha Zeta

Alpha as one whose researches have been "of incalculable value to human welfare."

FRANCES TURNER was one of Penn State's eight candidates for the honor position of ruler of the annual May fete.

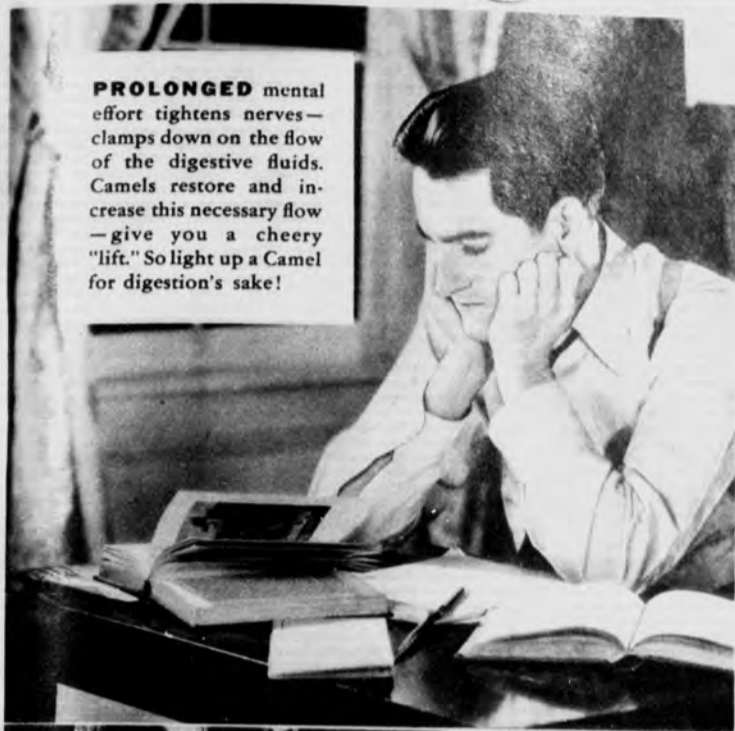

TICKLING THE RIBS of a pre-historic Nebraska rhinoceros became a musical event when Henry Reider of the University of Nebraska museum staff created the "bonaphone" from scrap pieces from skeletons. The instrument has a mellow tone and a range of two octaves.

ART OF DISHWASHING was taught by the University of Wichita Phi Kappa Psi sorority pledges as part of their initiation program.

...for Digestion's sake... smoke Camels

PROLONGED mental effort tightens nerves—clamps down on the flow of the digestive fluids. Camels restore and increase this necessary flow—give you a cheery "lift." So light up a Camel for digestion's sake!

Smoking Camels a Pleasant Way to Promote Digestion

The nervousness induced by our modern life often affects digestion. The mental effort—the physical rush—the worry and tension—all *slow down* the flow of the digestive fluids. Smoking Camels acts to *restore* and *increase* the natural and necessary flow of the digestive fluids.

Modern scientific research, based on Pavlov's great work on digestion, defi-

nitely confirms the fact that Camels encourage good digestion in this pleasant way. As you enjoy Camel's superb mildness—a mildness that is never flat or tiresome—you feel cheered and comforted. And experience a delightful "lift." Camels set you right! Enjoy them as much as you like. Camels do not tire your taste or frazzle your nerves.

Copyright, 1936, R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

ARONIAL DINING at the famous Winter Place Tavern in Boston. Theodore Roosevelt, Enrico Caruso, Henry Cabot Lodge all knew and praised its famous fare. Here Camels reign supreme. Nick Sruhl,

maitre d'hôtel for over 41 years in this citadel of culinary art, says: "Camels have the gift of making food more enjoyable. Camels are the most popular cigarette at the Winter Place Tavern."

SCIENTIFIC EVIDENCE shows that smoking a Camel, both with and without the accompaniment of food, restores and increases the natural secretion of the digestive fluids. The importance of this extra secretion in facilitating good digestion is a matter of common knowledge.

READY TO "BAIL OUT." Miss Uva Kimmey, daring parachute jumper, welcomes Camel's aid to digestion. "I smoke Camels for digestion's sake," says Miss Kimmey. "They encourage digestion in a pleasant way."

MEET THE PRINCE OF PIPE TOBACCO - PRINCE ALBERT!

Introduce yourself to Prince Albert... Prove to yourself that... no other tobacco like P. A... notice how... makes for... smoke. Enjoy... that doesn't bite the tongue. See how easily Prince Albert takes in your pipe. How mellow and fragrant and comforting it is! Below is our man to man offer.

50 pipefuls of fragrant tobacco in every 2-ounce tin of Prince Albert

GENTLEMEN - PRINCE ALBERT MUST PLEASE YOU

Smoke 20 fragrant pipefuls of Prince Albert. If you don't find it the mellowest, tastiest pipe tobacco you ever smoked, return the pocket tin with the rest of the tobacco in it to us at any time within a month from this date, and we will refund full purchase price, plus postage.

PRINCE ALBERT THE NATIONAL JOY SMOKE

FROM a telephone operator to an opera star was the experience of Lu Eva Burdette, Drake University student who earns part of her tuition operating the university switchboard. She took the soprano lead in the college's production of the opera *Martha*, which was broadcast over an NBC network.

AND STILL GROWING! - Eighteen years old, six feet 5 inches tall. That's Robert Wadlow, Shurtzville, Ill., freshman, who is taking up law because he believes that his size will be an unsurmountable obstacle in the field. Typical breakfast menu (he eats 2,000 calories more than the average man's 2,000): two glasses of orange juice, heavy helpings of cereal, fruit, coffee and toast. Cause of height: over functioning of the pituitary (growth-controlling) gland.

SYNCHRODYNAMOMETER is the name of a recently invented device for measuring the power rowers apply on their oars and which also indicates the teamwork of the crew in the boat. This mirror reflex photo shows an oarsman at practice while watching his oar power recorded on the dial.

CRICHTON UNIVERSITY'S R. O. T. C. - These five ladies are the members of the organization which will hold their big undegs party at the university.
