My dear Friend:

I have received your letter of April 9th with regard to Miss Mercedes Mallol who apparently desires to secure a visa to proceed to the United States. I have taken up this matter with the Consulate General here. I find that it has no information whatever with regard to her having made an application for a visa and it has no correspondence whatever with respect to her case. I would appreciate your having someone writing me fully with regard to the case of Miss Mallol, as otherwise I shall not be able to take it up in any effective manner with the Consulate General here. The letter should give full details.

With all good wishes,

Very sincerely yours,

George S. Messersmith.
