copy a Dr. St. 29 Nov.

Dear Dannie:

I have your letter of November 19 with which you sent me a copy of a note of introduction, dated November 18, which you have given to Professor W. C. Moore of the Office of Population Research of Princeton University who is at present conducting a study in Mexico and who has indicated that he would like to meet me. I note that you do not know Professor Moore but that you have given this note of introduction to him at the request of Dr. Hans Staudinger of the Institute of World Affairs in New York, whom you have known for many years.

I note from your letter that Dr. Staudinger has given Jimmy's address to Professor Moore. I asked Jimmy if he had had any word from Professor Moore and he tells me that he has not yet heard anything from him. I have asked Jimmy to tell Professor Moore, if he gets in touch with him, that I would be very happy to see him.

I am very glad that you wrote me about Professor Moore and you can assure Dr. Staudinger that when Professor Moore gets in touch with me I will be very glad to see him and to be helpful to him in any way that I can. I do not know Professor Moore's address here or I would be glad to get in touch with him directly.

Believe me with very good wishes,

Cordially and sincerely yours,

George S. Messersmith  
Chairman of the Board.
