↖ Mr. George S. Messersmith,
The Mexican Light & Power Company,
Mexico

rep. l. 22/6

Dear Mr. Messersmith :

Mr. Heineman, who is away from the office today, asked me to send you the enclosed copy of a letter which he wrote to General Marshall. This letter was written after a short trip to Germany in the latter part of April. Mr. Heineman also sent a copy of this letter to Mr. McCloy, and the enclosed is a copy of his reply.

With the rate problems, the Circular, the Indenture, etc. you must be under terrific pressure these days. All best wishes and don't let any of these things get the better of your good health.

With kind regards to you and Mrs. Messersmith and to Jimmy.

Very sincerely yours,

W.S.

P.S. Mr. Herod, President of International General Electric was here yesterday and he read Mr. Heineman's letter to General Marshall. He felt very strongly that it should be circulated to about a dozen key industrialists in the United States and he said he would send Mr. Heineman a list of suggestions of persons to whom to send it. Mr. Heineman is not yet certain that he will do so.

Encl. 2
