

NEWARK POST.

VOLUME II

NEWARK, DELAWARE, WEDNESDAY, AUGUST 30, 1911

NUMBER 32

R. G. BUCKINGHAM HAS NARROW ESCAPE

R. G. Buckingham and J. Rankin Armstrong have returned from the G. A. R. convention held at Rochester last week. They heard addresses by the President of the United States, the Governor of New York, Mayor of the city, General Grant and the National leaders of the G. A. R.

On his return trip Mr. Buckingham was traveling on the train that was wrecked so disastrously on the Lehigh Valley Division last week. Fortunately he took a chair car which was the third from the rear. At the time the accident occurred he was in

the smoker end of the car. At first he thought they were rounding one of the sharp curves for which the road is famous; but he soon discovered they were jarring over rails. He followed the example of others in the car and dropped to the floor. Upon rushing out they saw a great gap in the train made by three missing cars, two of which were in the river and one was lying on the bank.

Mr. Buckingham was so fortunate as to sustain no injuries except a bruised arm, caused by the frantic hold of a frightened fellow passenger.

A GOOD MOVE

The latest ambition of the Minnehaha Tribe of Red Men—a good band—promises to be realized. The organization has been effected and the following officers elected:

President, Harvey Perkins; president, Ernest T. Mullin; secretary, Frank Jester; treasurer, Russell Morris; business manager, Frank C. Widdoes; leader, Rowland Cameron; board of directors, Thomas A. Mullin, Frank M. Smith, George W. Griffin. Meetings are held on Thursday evenings on the second floor of G. W. Griffin's carpenter shop. David Constantine, of Wilmington, has been employed as instructor.

The members and their assignments follow:

E. B. Bass, Esmer Wilson. B. B. Bass, Ernest T. Mullin. Trombones, Frank G. Widdoes, Frank C. Jester, Harvey Perkins, Russell Morris.

Alto, Clarence Jester, David Stewart, George Cullen, Charles Porter.

Baritone, Edward Singles. Cornets, Rowland Cameron, Archie Dempsey, Ira Shellender, Hugh Morris, Ernest Jamison.

Clarinets, Rufus Roberts, James Law, Edwin Reeside, Jas. Howell.

Piccolo, Daniel Krapf. Bass Drum, Ernest Kimble. Snare Drum, Millard Morris. Cymbals, William Mars.

Expensive Storms

According to County Engineer James Wilson, the heavy storms of the past few days have cost New Castle county about \$8,000; that is, that much money will be required to pay for repairs to roads, bridges, &c.

This estimate includes only the five upper hundreds, Brandywine, Christiana, White Clay Creek, Mill Creek and Pencader, the remainder of the county having not been heard from as to the full extent of the damage.

The work of making repairs has been started, where it was possible to start, but it may be necessary to do some additional work that has not yet been arranged for, in order to make the repairs permanent.

Roaming Cattle

Much trouble has been experienced on the Pomeroy Road all summer by cattle wandering on the tracks. There are a number of sharp turns in the road, and farmers have been notified of the danger in allowing the cattle to roam at will, but the warning has had little effect.

On the return trip from Pomeroy Monday afternoon, in turning a sharp curve, near Landenberg, Pa., Engineer Pool ran right into a herd of about 30 cows grazing on and near the track. There was no opportunity to avoid running into them and the cows were scattered in all directions. Five of them were killed.

Oldest Member Of Elkton Bar Dies

Reuben Haines, the oldest member of the Cecil county bar, and a director of the National Bank of Elkton and the Rising Sun Bank also, died of heart trouble, following a fall, at his home, on the Glasgow road, near Elkton, on Tuesday, aged 71 years. His wife and two daughters, the Misses Mary C. and Estella Haines, survive him.

Launch Trip To Betterton

Misses Katherine Steel and Patton Cochran, of Middletown, Messrs. Charles Medill, Norman Willis, Ralph Dawson, Delaware Lovett and LaMartine Gillilan, together with a number of Elkton friends enjoyed a launch trip to Betterton last Saturday.

While trying to banish bees from the eaves of his barn, by means of smoke, William Boyer, of White Oak, Lancaster county, one day last week, failed to control the blaze which destroyed the structure along with several tons of hay, a lot of straw, sixty odd bushels of wheat, a heifer and a pig, causing a total loss of \$1,500.

STATE FARM NEWS

Miss Lottie W. Baker, Secretary of the Experiment Station, was called to Houston on Saturday by the illness of her aunt.

The car load of live stock that the College Farm has been exhibiting at the fairs on the Eastern Shore of Maryland, returned Sunday morning, and after a day's rest were reloaded with some additions, and sent to the Wilmington Fair, where they will be on exhibition this week. The exhibit at Wilmington includes 3 Percheron horses, a Hackney-Arabian filly, 7 Guernseys, 1 Jersey and 2 Aberdeen-Angus Cattle, 1 pure bred Yorkshire, and 6 registered Berkshire hogs, and 13 sheep of the Shropshire, Rambouillet and American Merino breeds.

Mr. Oakey, of the Real Estate Department of the Girard Trust Co., was an interested visitor at the College farm last week, as was Mr. Marion, a farmer from Claymont.

Prof. and Mrs. Grantham are entertaining Prof. Grantham's parents, from Stockwell Indiana.

Mr. E. C. Powell, editor of The Farm and Home, of Springfield, Mass., was the guest of Prof. and Mrs. Hayward, at luncheon on Friday last week.

Prof. McCue addressed a field meeting of the Peninsula Horticultural Society at the famous Harrison Nurseries at Berlin, last Wednesday.

Among the many visitors at the College Farm, last week, was a farmer from Nebraska, who expressed himself as very well pleased with what he saw.

MAKE IT A SUCCESS

The following circular letter has been sent by the State Board of Agriculture to every teacher in the State:

Assuming that you will teach in Delaware again this year, the State Board of Agriculture asks your active co-operation in making boys' day, Saturday, September 23, 1911, at the Delaware Experiment Station, at Newark, a great success by arousing an interest in the day among your pupils and the people in your school district. It will be an interesting day, not only for boys, but for men, women and girls and school teachers should be especially interested.

Upon their arrival at Newark, the boys will be divided into companies and placed in charge of the various professors and members of the station staff. In the forenoon, Prof. Hayward, director of the station, will show the live stock equipment of the farm and conduct a class in judging dairy cattle, horses and mules.

Under the guidance of Prof. McCue, a study will be made of the commercial orchards; the results obtained from different methods of tillage, fertilizers and pruning; a study of the different varieties of potatoes and tomatoes. There are 495 varieties of fruit on the college farm.

Prof. Grantham will explain the work that he is doing on 450 plants in the agronomy field, devoted to testing varieties of corn, soy beans, alfalfa and clovers; and to a study of the effect of fertilizers and different rotations. In these and other ways the whole forenoon will be full of valuable and interesting exercises.

A lunch will be served about 1 o'clock, and then there will be addresses by some of the most prominent men in the country who will discuss the advancement of agriculture, its possibilities, its influence upon the boys and the need of trained farmers.

It is hoped that a large delegation will be present from every school in the State. This should be a great day for Delaware agriculture; and Delaware College and the State Board of Agriculture and the teachers of the State working together to that end should give agriculture an impetus that will result in better homes, a better rural life, better schools, better churches, a more prosperous, more progressive and more contented and happy people.

LIGHTNING KILLS SUPERINTENDENT SARGEANT

George Sargeant, aged 36 years, superintendent of the Roseville plant of the Chester Co. Electric Co., was killed while on duty at the power house late Saturday night. Just how he met death is uncertain, but it is thought that lightning struck the wires on the outside and came into the building.

Because of the heavy storm the plant had been shut down. Sargeant, with several other men who work there, was sitting on a little porch at the power house for some time. The storm, about 11:30 o'clock got up and went inside. He was cautioned by the others to be careful, and it was only a few seconds later when they heard something fall. They went

inside and found Sargeant partly on his knees near the switchboard and with his hand on a lightning arrester. He remarked that he was all right and just then fell over to the floor. When his friends picked him up he was dead. E. Clifford Wilson was notified and removed the body to the late home of the deceased near McClellandville. He was unmarried but is survived by two sisters and three brothers.

The deceased has lived in the vicinity of Newark all his life and was in the town early Saturday evening. He had been employed at the Roseville plant only three or four months, having been sent there from one of the company's other plants.

NEWS NOTES HERE AND THERE

The State Camp of the P. O. S. A. met in annual session at Laurel on Tuesday. Richard G. Buckingham, W. Frank Taylor and Lewis W. Colmery represented Union Camp No. 25.

Members of the Levy Court will inspect the Depot Road on Friday. The re-surfacing being done by the Stewart & Donahue Co. will be complete by that time.

The annual W. C. T. U. supper will be held in the banquet hall of the Opera House the evening of September 14th.

A party of Newark men attended the annual Volkefest of the Delaware Saengerbund at Brandywine Springs Park, last Monday evening.

The Misses Wilson, Oakland, entertained a number of their friends last Wednesday at a bridge luncheon. Guests were present from Washington, Philadelphia, New York, Baltimore, Chester, Wilmington and Newark.

The State Board of Education has decided that white schools in the districts known as rural districts are not compelled to open this year before September 18. They can open at any time during the fall. The schools for black children must be opened on or before the first Monday in October, and all the schools in the large towns must open on or before September 11.

Rev. C. E. Wright, of Hockessin M. E. Church preached last Sunday in the Newark M. E. Church, owing to the absence of the pastor, Rev. G. T. Alderson, who is taking a two weeks vacation.

Dr. C. H. Blake has purchased a new Stanley steamer.

Dr. W. J. Rowan and family have returned from their summer vacation. Commencing with Sunday, September 3, services will be held in the Presbyterian Church at the usual hours. (See Directory.)

The executive offices of governor's suite in the Delaware State House, where he will hereafter transact the business of the State and give audiences to delegations, are being renovated and refloored with hardwood so that they will be the most commodious and attractive offices at the capitol.

BASE BALL NEWS

The Newark All Stars went to Landenberg, last Saturday and beat them 16 to 3. Messick was on the mound for the Stars. He allowed only four hits and sent twelve men to the bench by the three swing route. Rigler for Landenberg was batted all over the lot. Batteries—All Stars—Messick and Crowe; Landenberg—J. Rigler and W. Rigler.

An account of the Newark F. C. vs. Iron Hill is given in the Iron Hill News.

Death Of W. H. Smith

William H. Smith, of 5117 Race street, Philadelphia, died at his home in that city last Saturday. Mr. Smith, who was 80 years of age, had been in failing health for some time, but was only confined

Hon. W. O. Collier, secretary of Easton Fair, has pronounced the exhibit from the College Farm the finest ever exhibited on the grounds.

Miss Josephine Fulton has been appointed assistant matron at the New Castle county workhouse. She will enter upon her new duties about the middle of September.

The Company E boys at Camp Perry have been greatly handicapped with severe colds which forced them into the hospital tent for a number of days.

Services will be held at Head of Christiana and Christiana Churches hereafter in the morning and afternoon. Next Sunday there will be services at Head of Christiana in the morning and in the afternoon at 2:30 at Christiana. They will be alternate—morning and afternoon, hereafter.

The stork visited the home of Thomas A. Potts last Saturday and left a fine baby boy.

The New Castle County Fair was pronounced yesterday the best prepared and the best managed of any like affair held under the auspices of the Association. The one thing necessary is the smile of the weather man. The New Castle County Fair Association is the outgrowth of a plan formulated by some members of the Pomona Grange. About thirteen years ago the farmers of New Castle county at a fall meeting decided to display their products at their picnics. About eight years ago the exhibit had grown in size until it was realized that a fair was needed. Two years later the leaders of the grange organized and had incorporated the present New Castle County Fair Association.

Next Monday being a legal holiday, both of the banks will close and all legal papers will be payable on Tuesday the day following, because Labor Day falls on Monday following the Saturday half holiday.

Another deserter from the ranks of the Bachelor Girls! They do say it's the second since the club disbanded for the summer.

Dr. Cook spent Friday in the vicinity of Viola and Dover, assisting the farmers in their fight with the sweet potato diseases.

to his bed for one week.

Funeral services were held in the Newark M. E. Church last Thursday morning, (Rev. F. C. MacSorley, of Wilmington, officiating. Interment in Flint Hill Cemetery, near Fair Hill, Md.

The life of the deceased was practically spent in this locality. He lived for many years on the old Smith farm, north of McClellandville. He taught in the rural schools and throughout his life was deeply interested in education.

Of later years he moved to Newark, where he served as Justice of the Peace and again as Postmaster. Mr. Smith was well versed in the local history of this region. Many friends in this locality mourn his death.

A wife and five children, Willard Smith, of Salt Lake City, Utah, Dr. L. D. Smith, of Huntington, Pa., William Smith, Philadelphia, Pa., Mrs. Frank Heyburn and Miss Amanda Smith, Philadelphia, survive.

PERSONAL AND SOCIAL ITEMS

Miss Marie G. Lafferty is visiting friends at the New Sheldon, Wildwood, N. J.

Mrs. Wm. A. Mundy, Mrs. Martin Ford, Miss Elizabeth Lynch, and Miss Jane Lafferty were entertained at luncheon today by Mrs. Patrick Freeman, of Wilmington. In the afternoon they attended the races at the Fair.

Mr. William Vanneman is visiting at Surf City, N. J.

Prof. R. F. Friedel and family have returned from their farm at Viola.

Miss Jennie Lowber and Mrs. I. S. Vallandigham, of Middletown, have returned to their home in that place.

Mr. George Griffith, of Baltimore, has been visiting his sister, Mrs. Agnes Henry.

Miss Jane M. Lafferty has returned to her home, Maplehurst, after visiting Mrs. John J. Gartland at her cottage in Atlantic City, N. J.

Miss Mary Vanneman is spending a fortnight at Pottstown, Pa.

Mr. and Mrs. Joseph Kelly and daughter, of Philadelphia, are the guests of Mr. and Mrs. James A. Lafferty, Locust Grove Farm.

Mr. and Mrs. Elsworth B. Moore are on their vacation visiting relatives in Pennsylvania.

Miss Frances Hurd has returned from a stay at Atlantic City, N. J.

Miss Elizabeth Briscoe, of Wilmington, was the week end guest of Mrs. Agnes Henry.

Mrs. J. P. Wright is registered at the Henlopen, Rehoboth, Del.

Mrs. William Curtis, of Wilmington, visited Newark relatives the latter part of the week.

Mr. and Mrs. Simons, of Lodi, Wisconsin, returned on Monday after a business trip to Newark.

Misses Frances and Katherine Clark and Miss Mary Curtis, of Wilmington, are the guests of Mr. and Mrs. Fred Clark, Washington.

Rev. and Mrs. J. W. Lowden, Maida and Marshall Lowden, Mrs. John S. Higgins and son, Clarence and Mrs. James Brown were entertained last Wednesday by Mr. and Mrs. Joseph Brown.

Lillian Voshell, of Wilmington, spent the week end with Mrs. Marianna E. Potts.

Mr. and Mrs. Harvey Hoeffcker spent Friday at Willow Grove.

Miss Elsie F. Wingate has returned home after visiting relatives at Brandywine Summit Camp.

Mrs. R. G. Rutherford and Miss Trixy Rutherford, of Washington, D. C., are visiting Mrs. R. A. Whittingham at Linden Hall.

Mrs. Agnes Miller and Rodney Miller were Philadelphia visitors last Monday.

Albert H. Raub is visiting Mrs. A. N. Raub. Prof. Raub has just returned from abroad.

George Pemberton visited Atlantic City last week.

Dr. Joseph W. Moore and wife from Waynesboro, Pa., are guests of their sister, Mrs. George L. Butterworth, Newark.

Misses Bessie and Edythe Whittingham have returned from a visit along the Susquehanna at Allston Ridge Md.

Midshipman Horace Watts Pillsbury is the guest of Miss Dorothy Porter. He is enroute for New England, having just landed at Annapolis from the summer cruise.

Miss Bessie Marson, of Chester, Pa., spent last week with the Misses Wilson.

Mrs. Katherine Freudenberger left yesterday for Bethlehem, Pa.

Misses Ruth and Marian Davis are visiting friends in Wilmington.

Mr. Ellis Cullen has returned after a visit with his brother, at Lewisville, Pa.

Miss Patton Cochran, of Middletown, was the guest of Mrs. J. B. Miller last week.

Rev. Rankin Huston a graduate from Delaware College, class 1884, was the guest of Mr. and Mrs. J. Rankin Armstrong on Monday.

Mrs. John Walker has returned to her home in Newark after a short vacation in Europe. She was accompanied upon her return by her mother, who is expected to stay for a lengthy visit.

Mrs. H. M. Campbell and daughter, Marion, have returned from an extended stay at Rehoboth. Miss Ethel Campbell is visiting Milford friends.

Misses Sue Simpson and Cora Beggs, Mrs. Ada Vandever and Mr. and Mrs. J. H. Voshell, of Wilmington, were the guests of Harvey Hoeffcker and family last week.

IMPROVING CAMPUS

Miss Elizabeth B. Clark, the landscape architect of Philadelphia, who is spending the summer at her home here, has been engaged by Delaware College to lay out a plan for the improvement of the College grounds, through the proper planting of shrubbery, plants and trees at such points as to enhance the natural beauty of the campus, and to serve as screen to hide unsightly views. Miss Clark has devised an attractive scheme and this week was engaged in superintending the preliminary planting near Mechanical Hall, the library and at other points. By next spring, it is hoped, excellent results will have been obtained, and every prospect being pleasing to the eye. The laying of the concrete walks—some of them with graceful curves—is about completed and adds markedly to the general appearance of the grounds.

Notice

To the members Newark Conclave No. 6, Heptasoph S. W. M. On evening of Wednesday, September 6th, there will be business of much importance transacted that concerns each and every member of the order. We would like full turnout on that day.

Excellent Pickle Recipes

CHOPPED PICKLE.

One peck green tomatoes, 1-2 peck ripe ones, 1 dozen onions, 1-2 dozen green peppers, 1-2 doz. ripe peppers, 1 peck cucumbers. Cut fine, sprinkle with one pint of salt and let stand over night. Squeeze well the next morning, put in a kettle and add 2 pounds sugar, 1 teacup grated horse radish, 1-2 pound white mustard seed, 1 box ground mustard, 1-3 teacup ground black pepper, 1 ounce celery seed, 1-2 ounce ground cinnamon, 1 ounce turmeric. Cover well with vinegar and boil till tender.

GREEN TOMATO PICKLE.

One peck of green tomatoes, washed and sliced very thin. Sprinkle with salt and allow to drain 24 hours. At the end of that time press out all the water and put in a preserving kettle in layers, with a mixture as follows: 6 or 7 onions cut in slices, 1-4 lb. mustard seed, tablespoonful cloves, nearly 2 tablespoonful of black pepper, 2 tablespoonful allspice, 2 ounces celery seed, and 1 tablespoonful ginger. Cover with vinegar and boil very slowly until the tomatoes look clear.

CHOW CHOW.

Four quarts chopped green tomatoes, 1 quart lima beans, 1 qt. corn, 1 pint chopped onions, 1 pint chopped peppers, 3 or 4 quarts small cucumbers, 2 tablespoonful mustard seed, 1 tablespoonful celery seed, 2 lbs. sugar, a little curry powder. Cover with vinegar, add 1 tablespoonful ground mustard. Boil until tender and seal while hot.

SWEET CUCUMBER PICKLE

One hundred small cucumbers, 1 quart cider vinegar; add one-half ounce each of cinnamon, allspice and cloves, 1 pound brown sugar, 2 small red peppers. Let the pickles stand over night in salt and water; then put on in cold vinegar and let come to a boil; boil two or three minutes; then fill your jars and seal hot.

COLD CATSUP.

Half peck ripe tomatoes, peeled and sliced, 1-2 teacup grated horse radish, 1 tablespoonful black pepper, 1-2 cup mustard seed, (half white and half black), 2 red peppers cut fine, 2 tablespoonfuls cinnamon, 1 tablespoonful cloves, 1 tablespoonful mace, 1 large bunch celery cut fine, 3 pints good vinegar. This does not require any cooking. Put away in sealed jars.

GREEN TOMATO SAUCE.

Thinly slice two gallons of green tomatoes (not peeled), and twelve good sized onions. Add 1 quart of vinegar, 1 pound of sugar, 2 tablespoonfuls pepper, 2 tablespoonful ground mustard, 1 tablespoonful all-spice, 1 table-spoonful cloves, 2 tablespoonful salt. Mix all together thoroughly and stew slowly until the tomatoes and onions are tender. Stir frequently. Put in wide mouthed bottles or pint jars.

PICCALILLI.

Chop very fine one peck of green tomatoes, six green peppers and four onions. Stir all together with a cup of salt, and let the mixture stand over night. In the morning pour off the water and cover with vinegar, adding 1 cup horse radish, 1 cup sugar, 1 table-spoonful of cloves, 1 table-spoonful cinnamon, 1 table-spoonful all-spice. Cook slowly until tender, tasting at the last and adding more salt if needed. Do up in wide mouthed bottles.

CHILI SAUCE.

Pare with a knife, 12 large ripe tomatoes, chop fine. Peel 2 good sized onions, chop fine; 4 medium sized green peppers, also chopped fine. Cut each vegetable separately. Stir together and add as follows: Two tablespoonful salt, 2 tablespoonful sugar, 1 table-spoonful cinnamon, 3 teacups vinegar. Boil an hour and a half, stirring well. Bottle the same as catsup.

Farmers Pleased With Crops

Notwithstanding the fact that Delaware has suffered from the effects of the dry and extremely hot weather, some crops have pulled through and are being grown with much success to the responsive soil between the Delaware and Chesapeake Bays. An exchange says wheat was certainly better than last year, and many farmers have gone over thirty and some thirty-five bushel averages to the acre. The corn crop has been helped by recent rains in the lower

counties, but the crop will be under the average. The cantaloupe is king on the Delaware-Maryland Peninsula this year. This is known as cantaloupe year. Potatoes are being delivered, and are now almost over, at a ratio of \$8.674 barrels, this year, to 157.34 barrels last year.

Grapes will show up well, particularly from the grape farms, and pay up for some of the losses in provender and forage crops on the farms.—Middletown Transcript.

THE OPENING OF SCHOOL

As September days approach, the interest of multitudes turns to affairs in the realm of Schoolville. In our own locality the prospect for the coming year seems to be a bright one. Several additional rooms have been provided in the new school building to relieve any possibility of overcrowding. The eighth grade has been taken from the High School building, to the mentioned new quarters, more room being thus assured to the High School. Two rooms have been fitted up in the High School building to be used by the commercial teacher. Typewriters, commercial school furnishings, etc., make the equipment complete. The Board intends that the course shall give to the pupils the same thorough instruction that is received in the large and special business colleges. It is proposed to make the requirements the same as those demanded by the regular schools. Courses will be offered in typewriting, book-keeping, commercial banking, short-hand, etc.

All pupils from outside districts desiring to enter should present themselves this coming Friday, September 1st. An opportunity for passing off conditions will also be given on the same day.

A complete list of all promotions to be made from the first to the eleventh grades is given below:

PROMOTED FROM FIRST GRADE TO SECOND.

Robert Cook, Harold Cook, Herbert Henning, Bayard Lindell, George Tweed, Courtland Houghton, Gerid Dixon, William Warpole, Leonard Reynolds, Leonard Fossett, Arthur Mayer, Herbert Maxwell, William Sullivan, John Tweed, William Riley, Ralph Duling, Charles Mercer, Archibald Rowan, Robert Hayes, Molly Getty, Violet Rowan, Margery Rose, Olive Porter, Rosie Plinick, Ethel Lovett, Edith Lane, Kathryn Johnson, Margaret Hens, Minnie Fulton, Laura Fulton, Ethel Fulton, Gertrude Brown, Emma Lovett, Mary Potts, Leah Poole, Naomi Riley, Sarah Steele, Estelle Riley, Delena Leak, Alice Currinder, Therest Cate, Mary Keeley, Mildred Major, Ethel Anderson, Annie Anderson, Iya Wollaston.

PROMOTED FROM SECOND GRADE TO THIRD.

William Cunningham, Henry Seaman, Frank Garatua, Frank Smith, Marshall White, John Mager, Joseph Brown, John Doyle, Alfred Ewing, Ralph Williams, Edward Hahn, Joseph Lafferty, Earl Lindell, Willis Kennedy, Albert Lewis, Royal Sanborn, Norman Tweed, Charles Emeigh, Welford Barney, Frank McBride, Paul Moore, Charles Potts, Beulah Law, Lillie Buckingham, Hazel Kennedy, Zelma Dixon, Mary Leak, Mabel Smith, Pauline Wassmer, Winslow Clark, Letitia Wilson, Edna Walraven, Anna Frazer, Edith Chambers, Anna Davis, Mary Chalmers, Bessie Shew, Verla Hamilton, Jennie Williams, Nellie Place.

PROMOTED FROM THIRD GRADE TO FOURTH.

George Anderson, Arimah Armstrong, Charles Blest, Richard Cooch, John Clancy, Earl Cunningham, Ernest Emeigh, Warren Kennedy, James Longfellow, Walter Lovett, Leo Moore, Paul Mercer, John Sullivan, William Singles, James Smith, Paul Steel, Lawrence Tweed, Walker Shellenster, Joseph Seaman, John Hoffecker, Charles Walraven, Katharine Barnard, Elsie Ewing, Sara Lovett, Alice Leak, Anna League, Ida McConaughy, Marion Pelham, June Smith, Mary Snyder, Anna Lawson, Beatrice Vansant, Margaret O'Rourke, Virginia George, Ruberta Bland, Pearl Buckingham, May Dempsey, Irina Claringbold, Lucy Null.

PROMOTED FROM FOURTH TO FIFTH GRADE.

Edward Cate, Harvey Johnson, Lee Kilmon, Ervine Laner, Wilton Miller, John Williams, Alvin Major, Johnson Rowan, William Mann, William Marrs, Harvey Cook, Tom Armstrong, Ermont Gray, Raymond Barney, Edward Richards, Earl Ramsey, Earl Robinson, John Keeley, Harlan Tweed, William Bland, Roy Segars, Marjanna Wollaston, Myrtle Miller, Edith Edmanson, Elizabeth McNeal, Lillian Jackson, Marian Lovett, Sarah Brown, Manuelita Armstrong, Gladys McAllister, Amelia Plinick, Marion Gallaher, Lillie Williams, Mabel Wassamer.

PROMOTED FROM FIFTH TO SIXTH GRADE.

Alfred Crowe, David Singles, David Chalmers, Joseph Moore, William Crossan, Ira Steele, Elwood Dean, Norris Smith, Oscar Ewing, David Clancy, Herman Wollaston, Harry Sanborn, Clyde Poole, Ralph Robinson, Orlando Smith, Jacob Billett, George Chambers, Carl Riley, Paul Rhodes, Karl Jones, Elmer Emerson, Helen Currinder, Lillie Getty, Blanche Edmanson, Ethel Sheppard, Gertrude Hill, Adelaide Lewis, Gertrude Willis, Helen Leak, Mary Clancy, Edna Cunningham, Sadie Gray, Alphonza Alderson, Margaret Doyle, Gertrude Day.

PROMOTED FROM SIXTH TO SEVENTH GRADE.

Eugene Kennedy, Francis Lindell, Walter Holton, Gilbert Chambers, Leroy Campbell, Conrad Lewis, Ralph Gregg, Allyn Coach, Newell Reed, William Merrick, Joseph Rhodes, Ernest Cornog, Ramoth Anderson, John Fossett, John Richards, Raymond Fader, Anna Sanborn, Florence Colbert, Dorothy Lloyd, Irene Richards, Katharine Wilson, Florence Moore, Ida Getty, Alice Singles, Hannah Fulton, Francis Clark, Geneva Burnite, Margaret Porter, Helen O'Rourke, Rita Singles, Verla Gesaman, Maud Kilmon, Myrtle Campbell, Irma Cornog.

PROMOTED FROM SEVENTH TO EIGHTH GRADE.

Kathryn Clark, Edythe Whittingham, Helen Sheppard, Alyce Sheppard, Marion Law, Marguerite Crowe, Marion Brown, Myrtle Wakeland, Helen Slack, Helen Wollaston, Ethel Jackson, Sarah Potts, Mary Stewart, Nora Riley, Anna Richards, Harriet Boys, Marion Smith, Blanche Towson, Rachel Moore.

CONDITIONED.

Ruby Robinson, Emily Currinder, Katie Montgomery, Nora Riley, Elsie Crow, Flora Richards, George Wilson, Frank Tweed.

ON TRIAL.

Carrie George, Frank Mackey.

FROM EIGHTH TO NINTH GRADE.

Elsie Grier, Edna Chambers, Elizabeth Stroud, Cecilia O'Rourke, Helen McNeal, Margaret Steele, Eleanor Fader, Leila Herbener, Grace Merrick, Naomi Street, Laura Steele, Elsie Tweed, Irma Jaquette, Edith Lewis, Bona Brown, Paul Lovett, Herman Little, Henry Mote, Frank Mote, Harry Green, Knowles Bowen, Ralph Dawson and Rodney Miller.

FROM NINTH TO TENTH GRADES.

Margaret Cook, Edna Chambers, Dora Law, Alice Moore, Anna Gallaher, Edith Spencer, Elsie Slack, Hettie Slack, Julia McMullen, Olive Heiser and Edna Chalmers; Arthur Homewood, George Allcorn, Julian Clark, Simpson Hoffecker.

FROM TENTH TO ELEVENTH GRADES.

Mildred McNeal, Eleanor Pilling, Carrie Jameson, Helen Steele, Ona Singles, Mildred Ferguson, Ethel Pierce, Emily Worrall, France Alderson, Hubbard Alderson, Oliver Suddard, Presley Gehegan, Wilbert Ramsey.

Pleasant Quarters At County Fair

The Free Library of Wilmington has inaugurated a novel scheme for making itself serve the public need, in the establishment of a reading tent on the Fair grounds. A separate tent about 40x25 feet, allows plenty of room for the exhibit which has been arranged and for the visitors.

The principal object of the library in having this exhibit is to provide a reading room for those who become tired, and to make plain some of the resources of the library.

A small collection of the best books in the library will be shelved in the tent and there will be on file several popular and technical magazines as well as the daily papers of Wilmington, Philadelphia and New York. Attendants from the library will be on duty all day to explain the various phases of the library's activities. They will make it plain that the resources of the library are absolutely free to

everyone and those who wish to become borrowers can register at the tent instead of at the library. Many, in the past, have thought that those who become borrowers must either have property or refer to others who will guarantee the library against loss. The attendants will show that this is not true. Anyone can become a borrower simply by asking for the privilege.

Various printed lists of books on special subjects, such as machinery, aeroplanes, motor boats, painting, paper hanging, roads, poultry and farming will be distributed free to those who are interested. It will be the effort of the library to make the tent home

like and attractive, and it is hoped that many will visit it.

New Game Laws

There appears to be some confusion on the part of a number of persons as a result of the changes made in the Delaware game laws by the last session of the General Assembly. In view of the fact that the squirrel season now opens on September 15, instead of November 15, as heretofore, some persons are of the opinion that the season for rail and reed bird shooting opens on the same date. Such an idea is erroneous, for the season for rail and reed bird shooting opens as usual on September 1.

Absent Ones

Absence makes the heart grow fonder, but the memory of the absent one becomes vague and dim. You long to picture in your mind just how "HE" or "SHE" would look, but there's a mysterious something which makes this mental picture impossible.

But if you had a photograph before you, then you could recall the forgotten face, yes, even the kind acts, the gentle words.

Wouldn't that "ONE" so far away appreciate your photograph too.

THE NEWARK POST

NEWARK, DELAWARE

PUBLISHED EVERY WEDNESDAY BY
EVERETT C. JOHNSON

Address all communications to THE NEWARK POST. Make all checks to THE NEWARK POST. Telephone, Delaware and Atlantic 93.

We want and invite communications, but they must be signed by the writer's name—not for publication, but for our information and protection.

Entered as second-class matter at Newark, Del., under Act of March 3, 1879. The subscription price of this paper is \$1.00 per year, in advance.

AUGUST 30, 1911

WE have been unable to give in this issue the article on the sewer agitation in Newark, as mentioned last week. The delay is owing to our inability to secure the necessary interviews, on account of the absence of several men. We hope to have the story complete for our readers in next week's issue.

THE question, "Does Newark Appreciate her Kindergarten?" has been asked. The attention of parents is called to the article in another column discussing the subject.

HOW about Newark's contribution to the New Castle County Fair? Watch how many blue ribbons come to our quiet little town!

INTERESTING LETTER TO THOSE AT HOME

Prout's Neck, Me., Aug. 25, '11
Editor Newark Post:

In company with Mr. Charles E. Warburton, of Elkton, Md., we sailed from Baltimore on the steamer Howard, of the Merchants' and Miners' Transportation Co., at 6 p. m., August 18, for a sea trip to Boston. We had a delightful sail down the bay, and when we cleared the capes, and got out into old Ocean we found the waters as smooth as the bay we had just left. At 8 o'clock the next morning we landed at Newport News. We had a day for sight-seeing here, as the boat took on freight at this point, and at Norfolk also. We took the trolley to Old Point Comfort and stopped at the Hotel Chamberlain, and visited Fortress Monroe just in time to witness a military funeral procession marching through the streets on their way to the boat, with a dead soldier wrapped in the stars and stripes—the procession being led by a splendid band of music discoursing the military airs suitable for the solemn occasion. We took the ferryboat from Old Point Comfort to Ocean View, and a trolley from this point to Norfolk, where we boarded our steamer again for Boston. We passed over the waters at Hampton Roads where the fierce battle between the Monitor and the Merrimac was fought. We also visited the training ship Franklin at Portsmouth. We landed in Boston at 10 o'clock a. m., on Monday. The ocean was smooth all the way and none of the passengers sick. We passed some large sea going vessels which saluted—saw a whale once in a while, and this was all that was to be seen except the vast expanse of old ocean. We passed Atlantic City and the towns along the coast 24 miles out at sea—the lights at night not being visible at this distance. We had on board a lawyer of one of the prominent firms of Wilmington whom it was my good pleasure to know. At Boston we spent the day and night at the Parker House, and left the next day at 1 o'clock, and reached Scarborough Station on the Boston and Maine railroad, at about 5 p. m. Here we took the auto and a ride of twenty minutes took us to our hotel at Prout's Neck to spend a week at this point on the ocean. Prout's Neck and Scarborough Beach are named after old residents that lived here once. The first Governor of Maine was born here—Governor King. Prout's Neck is on a neck of land nearly surrounded by water which makes it cool and pleasant, and a quiet and delightful place to rest and recuperate. There are some very expensive cottages here and some fine hotels. On Thursday we visited Portland and took a side trip from there over the Songo river line to the Switzerland of America up in Maine. We left the station at Portland at 1.05 p. m., arriving at Sebago Lake at 1.45 p. m. We took the boat here. Sebago Lake,

meaning in Indian a "stretch of water" is 14 miles long by 11 wide. On our way up the lake we pass Indian Island, and Fry's Island, with its thousand acres of dense forest. Steaming up the lake we pass the rock 70 feet high where Capt. Frye made his famous leap from the summit and swam across the lake to the Island more than a quarter of a mile when hotly pursued by the Indians. On the sides of the rock are scenes which were painted by the Indians, which time has nearly obliterated; but have been restored by repainting. Some of the most interesting of these scenes are Captain Frye making his leap for life to the water seventy feet below, an Indian wigwam with the chief of the tribe sitting at the doorway, an Indian war dance, a deer bounding over rocks, etc. While passing this rock an Indian in costume appears on the cliff and gives the Indian warwhoop and fires a salute. We pass Indian Pulpit and Hawthorne Cave, the latter place being a favorite boyhood haunt of Nathaniel Hawthorne, where it is said that he wrote his scarlet letter. Passing out of the Sebago Lake we enter the Songo river, which threads her tortuous way up what is termed the "crookedest of all rivers." This is but two and a half miles as the bird flies to the head of the river, but we have to sail six miles and make twenty-seven turns wending our way up this crooked stream, and often within leaping distance of the banks. The stream is not any wider than our White Clay creek. The waters were glassy and smooth, and the forest that lined the bay was reflected in most vivid colors, and delicate foliage in the dark mirror of the waters, with marvelous accuracy Longfellow has beautifully described it in these words:

Nowhere such a devious stream
Save in fancy or in dream,
Winding slow through brush and
brake,
Links together lake by lake.

After five miles sailing we reach the lock at the confluence of Songo and Crooked Rivers. The water in the lock is raised seven feet in order to lift the steamer up over the rapids from the Songo river into the Bay of Naples which we now enter. At this point the Indians made one of the most formidable assaults on the English ever known in the early annals of Maine. The Indians were led by Worrampus who after desperate fighting fell mortally wounded. He was buried at the foot of an old tree, but a life sized statue now marks the spot with the chief's daughter Mimmehaha holding in her hand the cup from which she gave the dying chief his last sip of water. This peaceful stream which we were sailing over was at one time filled with Indians in their canoes in their savage state.

Passing out of the Bay of Naples, we enter Long Lake, and after a sail of nine miles we arrive at Brighton Junction and a train back to Portland. On this trip we have a grand sight of the White Mountains in the distance with their towering peaks. The waters are filled with black bass, white perch or pickerel, so varied is the fishing. It truly can be said that it is a sportsman's paradise. We will spend a few more days at this attractive spot and then start for home.

T. F. Armstrong.

People's Column

Editor Newark Post,
Dear Sir:—The article of Mr. H. I. Watson and your editorial of August 23, I hope will have the effect of awakening Town Council of Newark to enforce the laws, especially those regarding sanitary conditions. I am a believer in cleanliness and furthermore an enactment of all laws and the rigid carrying out of the same, but the morbid way it is done in Newark is a joke; for fear of tread-

ing on Tom, Dick or Harry's corns, who are friends of the men holding office. Now, if a public officer either with or without monetary consideration, cannot be fearless, let him resign in favor of some one else who will act for the public good and not play favorites as is done, for fear of hurting somebody's feelings. Until such men can be induced to take office, you will suffer under the present conditions. The condition of Delaware avenue as described I have called certain Town officials attention to this summer. What have they done? Nothing.

Also other nuisances, especially pig pens and slaughtering—direct violations. I think a part of the fault or a great deal of it lies with the Council. They should be compelled to find a way to put concrete gutters in front of every house and then compel the owners to connect the same with concrete drains from the houses. Fine any owner or tenant who is a resident of the premises who will not keep drains and gutters clean. I insist

upon all my tenants doing so. I have been asking for a piece of curbing in front of my property for several years, but all I get is increased taxes and a poverty complaint. We have no money this year. Will it be always thus?

The smallest suburban towns are getting sewers installed. They appreciate that it means increased values to property besides bringing new people. They settle there permanently, for it means healthy surroundings. The tendency is to reside in a town like Newark, but the sewer must be there. Throw all the light you can as the cause why we did not get a sewer bill passed, and let the blame fall where it should, even if it is painful. The many want the sewer and eventually will get it. Garbage should be collected and burnt and not allowed to be carted away and fed to pigs as is done at present. Cans and bottles should be collected regularly and not allowed to accumulate in back yards making breeding spots for flies. Owner.

NOTICE

To Taxpayers Of
Pencader Hundred

The taxable residents of Pencader Hundred, and all persons liable to pay tax in said Hundred, are hereby notified that the Taxes for the year 1911 are now due, and the undersigned tax collector for said Hundred will be at

STANLEY

THE

Car of Efficiency

The Stanley Steamer is an automobile well known in the more northern and western States and most highly respected by all motor drivers for its power and speed. In these features it acknowledges no equal in any car, at any price, or at any rated power; and the worse the roads or the steeper the hills, the more conspicuous is the excellence of its performance. Practically noiseless in operation, the entire absence of all fly wheels, clutches, speed change gearing and levers, transmission shafts, dynamos, batteries and all the complicated and delicate machinery of the gasoline automobile, makes it the most delightful car to drive, the simplest to keep in order and the least expensive to maintain. It is moderate in price because its parts are few.

It is easy on tires from its light weight and smooth gliding motion.

It is barred from all races and hill-climbing contests on account of its speed and power.

Its control in dangerous or critical situations is absolute, not relative.

A convincing demonstration of these facts may be arranged for by addressing

MARSHALLTON BRIEFS

The recent heavy rains have done quite a little damage to crops, etc., in this vicinity.

Mrs. R. H. Williams, Miss Adelle Williams, and Miss Annie Fanning are spending a few days in New York City.

Miss Mildred Currinder, of Philadelphia, is visiting her aunt, Mrs. John McElwee, at Greenbank.

Dr. E. L. Hoffecker, District Superintendent of the Wilmington District, preached in the M. E. Church on Sunday evening.

Mr. George Webb and son, of Conshohocken, Pa., have been spending a few days with Mr. and Mrs. Walter Fanning.

Miss Jaquette has been the guest of Mrs. Anna Mote.

Mr. Walter Wolstenholme has sold the stock of his grocery store to Mr. Harvey Barratt, who has taken possession and is ready for business.

Mr. and Mrs. William Wivel, of Wilmington, were week end guests of their daughter, Mrs. T. V. Simpson.

WILLOW GLEN NEWS

Mr. and Mrs. George D. Craig and son Edgar, of Philadelphia, also Miss Bessie Trachenberg, have enjoyed a week's visit at Willow Glen with the former's sister, Mrs. J. Sherman Dayett.

J. Sherman Dayett had a narrow escape in the storm Monday evening. While on his way home from Strickersville the storm broke. On one of the hills the harness broke on his horse. It became unmanageable in the darkness, and when he reached the bridge at the foot of the hill, the wagon went off the bridge throwing Mr. Dayett out. He retained his hold on his horse. The harness was all broken up, so he led the horse home, minus a wagon. He is thankful he and his horse, Cedar Chip, were unhurt.

Miss Kathryn Stillwell, of Philadelphia, spent a few days with her old schoolmate, Mrs. J. Sherman Dayett.

Miss Ruth Hobson, of Elkton, Md., spent a few days at Willow Glen.

Milford Cross Roads

Miss Carrie Jamison spent last week with her friend, Mrs. Grover Whiteman.

Mr. Orville Little visited Wilmington friends last week.

Miss Kathryn Jaquette visited her uncle, Mr. David Jaquette at the Larches last week.

Mr. Charles Greer is sick at the home of his father, near the X-Roads.

Mr. Oscar has purchased the far formerly owned by Francis Quigley.

Mrs. Frank Petlet visited relatives around the Cross Roads on Monday.

Miss Emma Whiteman is visiting her sister, Mrs. Lavinia Worrall.

Mrs. Elizabeth Jaquette and daughters, Mabel and Alice, spent Sunday with J. D. Jaquette and family.

Mr. Frank Buckingham and family, spent Sunday with F. E. Hitchens.

IRON HILL ITEMS

Mr. Samuel Rogers, of Philadelphia, spent Sunday with friends at this place.

Miss Hettie Slack spent last week with Yorklyn friends.

Mr. Samuel McCullough, of Wilmington, was an Iron Hill visitor, Sunday.

Several of the Iron Hill people spent a very enjoyable day at the basket picnic held by the I. O. G. T. Lodge, near Stanton, on Thursday last.

Mr. Samuel Slack is seriously ill, having been confined to his bed for several days. He is threatened with the typhoid fever.

Mr. LeRoy Collins, of Wilmington, was an Iron Hill visitor Sunday.

A crowd of Iron Hillers will go on a launch party to Betterton, to compete the same with concrete August 31.

The Newark F. C. visited Iron Hill on Saturday and was defeated in a fast and exciting football game. Collins had the visitors completely at his mercy after the second inning. In the second inning the visitors got five runs. After this inning the local boys played gut-edged ball and not another Newark man was able to score. In the last eight innings Collins struck out 17 of the 26 men who faced him. Iron Hill plays at Newark this Saturday, and all those wishing to see a good game should come out, as it would be a

hard job to get two amateur teams evenly matched. The battery for Iron Hill will be Jackson, Ward and Holton. Score by innings: Iron Hill 0 0 0 1 0 0 4 0 0 1-6 N. F. C. 0 5 0 0 0 0 0 0 0 0-5 Summary: 3 base hit, Davis; 2 base hit, J. Slack 2; Manning; struck out, by Collins, 17; by Jackson, 3; by Roberts, 5; base on balls, by Collins, 2; by Jackson, 4; by Roberts, 1; left on bases, Iron Hill, 4; Newark, 6; double play, Jackson, unassisted.

Strickersville

Miss Nell Garrett is spending some time with her sister, Mrs. Gregg, at Hockessin.

Mrs. Worth is visiting her sister at Strickersville.

Elizabeth Pennell, of Wilmington, is being entertained by Irene Singles.

H. I. Garrett is sojourning in Philadelphia.

Quite a number attended the measuring social at J. C. Vansant's on Saturday evening. Although there was a heavy electric storm, about \$10 was added to the cemetery fund of Flint Hill.

Mrs. Frank Singles attends Mrs. Wm. Burling's funeral in Oxford, last Wednesday.

Pleasant Hill News

Mrs. Elizabeth Moore, head nurse of the female department at the county hospital, spent last week at the home of her cousin, Thomas Moore and family.

Mrs. W. P. Stinson, Mrs. C. T. Eastburn and daughter, Iva, were the guests of Miss Bertha Hoopes, of Overbrook, Pa., last week.

Mr. and Mrs. Mansel Tweed and sons Clayton and Lester, of Manayunk, are visiting their uncle, Alban Buckingham and family.

Mr. R. G. Buckingham has returned home after attending the G. A. R. encampment at Rochester, N. Y. He was on the N. Y. and Phila. Express which was wrecked at Manchester, last Friday, but was very fortunate in not sustaining any injuries.

A. T. Buckingham and family spent Sunday with Mr. and Mrs. W. W. Vansant at McClellandsville.

Mr. and Mrs. J. W. Worrall have returned home after visiting their son, Isaac Worrall, of Elmira, N. Y., for two weeks.

Mr. and Mrs. Thomas Moore spent Sunday with friends at Farnhurst.

KEMBLESVILLE ITEMS

Mrs. Lizzie Kelley, who has been quite sick, is slowly improving. Mrs. William Cann is visiting friends in Philadelphia, Paoli and vicinity.

Mr. Parker Duckett, who has been sick for a long time, passed away on Tuesday morning.

Miss Mattie Wickersham has been quite sick for several days, but is better at this writing.

There seems to be very little change in the condition of Mrs. Grace Rose, who has been suffering with typhoid fever for the past three or four weeks.

There will be a series of moving pictures shown in Willard's Hall every Saturday evening. The pictures are said to be very good.

A Home And No Rent

If you would like to own your own home, or save your money, buy a lot on North avenue on installment plan of \$5.00 per month. No interest and no taxes till paid for. Why pay rent all your life when you can own your own home? Call and talk the matter over with T. F. Armstrong.

Soothing Breezes "Made to Order" A General Electric Fan is equivalent to a cooling breeze in any part of the house where there is an ordinary lighting socket. Just attach the plug, turn the switch, and you can have a breeze in any degree from a soothing zephyr to a strong and steady draft that will dry the "wash" indoors on rainy days. A General Electric Fan gives all this comfort and utility for the insignificant cost of less than a cent an hour. The Oscillating Type turns from side to side, and will uniformly ventilate the largest room. A commonsense regard for your comfort and efficiency demands the use of a General Electric Fan—a product of the highest type of manufacturing skill. We have a complete line of General Electric Fans displayed in our show room, or we will gladly have a representative call on you L. B. JACOBS, Newark, Del.

NEWS Here and There

Many are rejoicing in the fact that dog days ended yesterday.

The Firemen's Carnival recently held at West Grove for a period of two weeks brought over \$1,000 to the company.

The open season for the shooting of rail birds, reed birds, blackbirds and squirrel in Cecil county, Md., opens on September 1st and continues until December 24.

Arrangements for the "Commemoration of the Christiana Riot and Treason Trials of 1851" are progressing.

The Triennial reunion of the pupils of the Thomas Davis Academy at New London, Pa., was held in the grove opposite the New London Presbyterian Church recently.

A Dollar Social will be held at the Head of Christiana Church on Thursday evening, September 7th.

Oystermen are making extensive arrangements for the opening of the oyster season now not quite two weeks distant.

The Delaware branch of the International Sunshine Society will resume its work early in September.

October has finally been set for the Glidden National automobile run, and the route has been changed to extend from New York to Jacksonville, Florida, by way of Atlanta.

Rev. A. E. Craig preached his farewell sermon as Pastor of Grace M. E. Church last Sunday.

The annual reunion of Old St. Anne's Church, near Middletown, will be held on Sunday, September 10.

The annual service is usually held in June, but was deferred this year on account of the bad weather.

The annual reunion at Old Union M. E. Church, near Townsend will be held on September 10, also.

W. C. T. U. State Convention The 32d annual convention of the Delaware Woman's Christian Temperance Union will be held in Goshen Methodist Episcopal Church, Milton, September 27th, 28th and 29th.

Severe Storms The last week has been marked by an unusual number of severe storms, each of which has left a trail of damage behind.

The roads were so washed by the heavy rains that in some places they were impassable. In every direction there are deep holes making night travel most dangerous.

Much repairing and strengthening was necessary before it was again thrown open to the public yesterday morning.

Four horses and a mule belonging to Henry Hess, of Fair Hill, were killed during the same storm.

Official Inspection of Brands of Fertilizers Offered For Sale in Delaware in the Spring of 1911.

By Charles L. Penny, State Chemist.

The following tables show for each Brand the guaranteed and the actual analysis expressed as percentages, also the money valuation of the ingredients, both separate and combined.

Table with columns: No., Names of Manufacturers and Brands, Where Sampled, Guar. Analysis, Perc'tages Found (Ammonia, Avail. Phos. Ac., Insol. Phos. Ac., Potash), Estim'd Value Per Ton (Ammonia, Total Phos. Ac., Potash, Total Value).

Vertical text on the right edge of the page, possibly a page number or index reference.

Table with columns: No., Names of Manufacturers and Brands, Where Sampled, Guar. Analysis, Perc'ages Found (Ammonia, Avail. Phos. Ac., Insol. Phos. Ac., Potash), Estimated Value Per Ton (Ammonia, TVI Phos. Ac., Potash, Total Value).

Does Newark Appreciate Her Kindergarten

The question has arisen, "Do the parents of Newark appreciate, as they should the advantages of kindergarten instruction for children between the ages of three and six?"

The word kindergarten means "child-garden", and originated with the first school of this kind, which was established in 1840 by Frederick Froebel, the great German educator and lover of children.

The underlying principles of the kindergarten are to use every impulse, desire, hope, interest or purpose of the child in advancing his skill along all lines of self-activity, through play to so train the child that he will become familiar with the ordinary occupations of life; to teach children to love one another and to be kind.

The first "gift" for the little kindergarten is six colored balls; the second is a wooden ball, a cylinder, and a cube; this is occasionally replaced by half inch beads stained in six colors; the third consists of eight wooden one-inch cubes; the fourth consists of eight wooden brick-shaped blocks; the fifth is twenty-seven one inch cubes; the sixth is twenty-seven brick shaped blocks; the seventh consists of wooden tablets, one inch in diameter. These consist of circles, half circles, squares, half squares, etc.

The eighth gift consists of sticks or splints from one to five inches long; the ninth is wire-rings, half rings, quarter rings of various lengths, the length is of natural objects containing points such as pebbles, lintel seeds and the like; the eleventh consists of construction materials, such as pellets of wax, cork cubes.

In addition to these gifts material is supplied for occupations. The solid material consists of clay suitable for molding sand, cardboard and wax. The surface material includes papers for folding into squares, oblongs, triangles, and other forms, colored crayons and water colors.

The linear material includes slats for basketry work; material for weaving and material for stringing and perforating.

The kindergarten is not a school for instruction, but one where all barriers between teacher and pupil are removed and where the greatest freedom prevails, though THE ACTIVITIES OF THE CHILDREN ARE SO DIRECTED BY THE TEACHER AS TO SECURE THE DESIRED END.

Kindergartens are now common throughout all civilized countries of the world.

The work was first introduced systematically in the United States in 1870, and schools are now formed in all large cities and many small ones, so that there are over 300,000 children receiving kindergarten instruction.

The fathers and mothers of Newark should feel glad that our progressive school board has provided for the kindergarten training of their children as a part of the public school work. All experienced teachers agree that children who have received this training are brighter and more receptive than those who have not had the advantage of such training.

A mother who was recently being urged to send her little boy to kindergarten complained of the trouble of dressing him to go some place to play—saying he could do that at home. After an explanation of the true idea of kindergarten she decided to take the trouble, at the opening of school next week. I hope this meager explanation may induce other thoughtful parents of Newark to avail themselves of this means for present happiness and future success of what should be their most precious possession—children.

The safest investment is in real estate. Buy a lot 50x150 feet for \$250.00, \$100.00 down and \$50.00 per month. No interest and no taxes. Lay the foundation for a home, or, if you want to build a home call and see me. Beautiful lots on high ground on North Avenue, \$500 per foot. T. F. ARMSTRONG, Newark Trust & Safe Deposit Co., Newark, Del.

ADVANTAGES OF THE STEAM-CAR

As will be seen in our advertising columns, the agency for the Stanley Steamer has been taken by Mr. Richard R. Whittingham for the Delaware-Chesapeake peninsula. When Mr. Whittingham was asked why he selected the steam car when the market was flooded with gasoline cars, competing for representation, he replied:

"I decided the question entirely on the basis of efficiency. Efficiency is the prime requisite today of every animate or inanimate servant, and when among motor cars you find it combined with the lowest known cost of maintenance, the longest life, simplicity and smoothness of operation, little is left to be desired. The Stanley Steamers embody all these features."

"Why, then, do you see so few Stanley cars and so many gasoline cars?"

"Big business' is the answer to that question. The first gasoline cars were mostly imported, and of very high cost; they were seized upon as a new toy by the very wealthy and ultra-fashionable. They, as always, had their hosts of imitators and the popular favor this created was urged and stimulated by shrewd manufacturers, who saw the tremendous profits lying dormant in then new field. The response was almost overwhelming and the rush of unlimited capital into the new industry made possible a concentration of study and experiment that has resulted in the exquisitely beautiful and complicated piece of machinery that is the modern high class gasoline automobile.

"For the Stanley Brothers the possibilities of the opportunity held no temptation. Knowing well the superiority of the steam engine as a prime mover for a vehicle where flexibility of operation is essential, they went steadily along and without exploitation or advertisement have every year turned out of their finely equipped factory at Newton, Mass., hundreds of cars only, while the gasoline car maker has produced their hundreds of thousands."

"But there are other makes of steam cars who seem to have turned to gasoline car manufacture."

"That is true, but unfortunately they adopted freak methods of steam generation requiring delicate and complicated apparatus for automatic control which was not always reliable under stress of use or abuse. Then again, their stockholders demanded a share of the golden tide flowing to the coffers of the gas car makers, and they can hardly be blamed for succumb-

ing to the lure of 'Big Business'."

"Does the Stanley car differ from them in its manner of steam generation?"

"Radically; the Stanley car is simply a small locomotive using gas for fuel instead of coal. Like the locomotive the engine acts directly upon the rear wheels without the intervention of any fly-wheels, clutches, change-speed gears, shafts, chains, universal joints, or electrical equipment. In fact, the analogy is complete and it must be acknowledged that the locomotive is a fairly efficient and reliable means of getting about. Of course, it goes without saying that it is impossible to stall a Stanley engine and every speed from that of the tortoise to much faster than you will care to ride her between two fingers of the driver. Take a ride some day, and you'll see."

"But do not the people object to take the time necessary for raising steam?"

"Probably they would if they had to, but the Stanley is always ready to go on the instant if the pilot is allowed to remain lighted, and as this requires but three or four cents worth of gasoline a day most drivers do so unless the car is to be used only at long intervals. In any case the few minutes required to raise steam are negligible when you consider that no time will be lost on your trip in cranking a possible balky motor, and they sometimes can be very, very balky. It is this always ready nature that makes the Stanley car a favorite with many physicians and they comprise an unusually large percentage of Stanley owners. A ride in one of them is a revelation to a gas car owner and most of them are entirely ignorant of their capabilities."

NEW MAP OF FLORIDA

Remarkable Offer By The National Tribune, The Great Washington Weekly

The National Tribune of Washington, D. C., the great weekly published in the National Capital and the organ of the old soldiers and the G. A. R., has just had prepared a new map of Florida, the State which is now the center of interest among all who are tired of the sudden changes from torrid heat in Summer to Arctic cold in Winter, and who want a home where the climate is healthful and opportunities are offered to earn a livelihood or acquire wealth under the most favorable conditions. The population of Florida increased nearly 50 per cent. in the last census decade, and will double in the next.

This map The National Tribune has had compiled from the latest surveys of the Government engi-

neers and from the most recent data of the Postoffice Department and lithographed in three colors on a fine quality of plate paper, 28 by 30 inches.

This map will be sent free to any one who will write to The National Tribune and enclose 7 cents in stamps for postage.

Whether you own property in any part of Florida, or are merely interested in the rapid development that is going on in the Peninsula State, this map will be of both interest and value to you, and all you have to do to get it, is to send 7 cents in stamps, merely to defray the cost of mailing, and the map will be sent to you at once, securely rolled in a stiff tube.

Address
THE NATIONAL TRIBUNE,
Washington, D. C.

A Fertilizer Famine

A fertilizer famine may be far removed in time, but the rapid depletion of some of the active agents of the soil that are too slowly restored by unaided nature to make good the crop drains constitutes one of the gravest problems in agriculture presented in this country. The element that is difficult to replace is potassium, and the United States, as the

Scientific American points out, is under the necessity of importing many millions of dollars of this invaluable substance from Germany. Hence it was that during the present year a serious controversy was raised between Germany and the United States over potash contracts of the German suppliers with the American users. Germany is loath to make concessions as the native resources of potash are becoming rapidly exhausted, and unless there shall be discovered some method for the substitution of artificially produced potassium for the native article from Germany, that country will be forced to put the bars down upon the exports to the United States, and one of the gravest of problems will be created for the biggest of agricultural nations. At the present time the imported potassium carries as heavy a price as the users here can afford to pay, and the supply is limited to specific contracts.

The Tariff Board calls for the creation of a commission to work out to an economical and practicable footing the process that is used to an extent in connection with the production of some grades of cement to secure potassium chloride. Yet it is recognized that the cost entailed makes the process of little value at present for

the production of potash. The profits over cost, as figured by the Scientific American, need to be enlarged in order to make the extraction of potash profitable. Yet there may be some other method hit upon that will give better results. At any rate, a fertilizer famine will be warded off by the inventive ingenuity of Americans or by the discovery of natural resources of the much-sought-for soil necessity.

The Potato-Stalk Borer

Prof. H. A. Surface, Economic Zoologist, Penna. Department of Agriculture, has given his usual active attention to then new potato pest, a worm found in the stalks of the potato vines. Several infested stalks from Southern Chester and Lancaster counties have been sent to Prof. Surface. The worm, which apparently can be found in almost any potato patch is white in color, a quarter of an inch long, with bronze head. Prof. Surface says farmers have justification for their anxiety, as he counts this worm the most serious pest of the potato. If farmers do not use "plain common sense agricultural co-operation," the time is at hand when they cannot raise

wheat or potatoes. In Bulletin No. 18, issued by Prof. Surface, says:

"The potato stalks you see contain insects known as potato stalk borers. This pest can be killed after it enters the stalk. The only thing to do is to pull and burn the diseased vines as soon as the insects are discovered. Do not let the vines lie around to rot but burn them as soon as they have become infested. This position of the vines may demand co-operation by other persons in the neighborhood, if their potato stalks have been attacked, but may be the only way to prevent a serious outbreak of the pest, and great loss in the next year. It is comparatively new pest, and show that such things are coming before us more and more, and need our careful attention."

Life Insurance

I represent one of the best Life Insurance Companies, The National Life Insurance of Montpelier Vt. When thinking of Insurance have talk with me before placing your insurance elsewhere.

When Your Finger-Tip Taps the Key—What Happens?

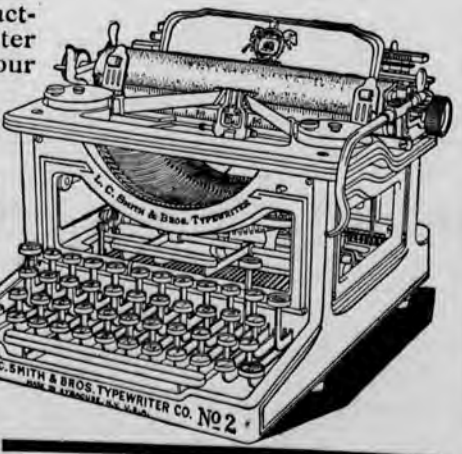

Your most delicately sensitive nerves direct the most delicately responsive mechanism of the

L. C. Smith & Bros. Typewriter
(BALL-BEARING, LONG-WEARING)

Key-lever, typebar, carriage (and shift, if you write capitals)—really all essential operating parts of the typewriter—leap into action and perform their functions with the perfect ease, smoothness and absolute precision of ball bearings, made and adjusted with scientific exactness. The nerves of this typewriter are sensitive to the nerves of your finger tips, and just as instantly responsive as the finger tips are to the brain.

This immediate, smooth, sympathetic action, duplicated in no other writing machine, is easiest for the operator and most advantageous to the machine. Both wear longer.
